On November 29, 2010, Origin Agritech Limited entered into an agreement with Rodman & Renshaw, LLC, as selling agent, for the sale of ordinary shares from time to time under a Continuous Offering Program Agreement. The agreement covers up to 2,000,000 shares that may be sold at a price to the then market price on the date of sale, pursuant to a notice from the company to the selling agent. The selling agent will be paid 1.8% of the gross proceeds from each sale. The agreement provides for an initial sale period ending on June 11, 2010.

The ordinary shares to be sold under the Continuous Offering Program Agreement will be registered under the company's current shelf registration statement on Form F-3. The company will be filing a prospectus supplement to that registration statement after certain blue sky and NASDAQ filings have been made and completed. The company will not be selling any such securities until all regulatory filings have been made and completed.

The company also has entered into two financial services agreements with Chardan Capital Markets, LLC and Global Hunter Securities, LLC under which it will pay to each of them a fee equal to 0.60% of the gross proceeds raised from the sale of ordinary shares under the Continuous Offering Program Agreement.

No assurance can be given that the company will be able to sell any securities under the Continuous Offering Program Agreement. Sales will depend on the market conditions and the minimum price set by the company for the number of shares it wishes to sell. If any funds are raised, the net proceeds will be used for working capital.
