25 February 2011

To the shareholders of the Company

Dear Sir or Madam,

MAJOR TRANSACTION
PURCHASE OF FIFTY AIRBUS A320 SERIES AIRCRAFT

1. Introduction

As disclosed in the Announcement, the Company entered into the Agreement with Airbus SAS regarding the purchase of fifty Airbus A320 series aircraft.

LETTER FROM THE BOARD

The Agreement constitutes a major transaction of the Company under Chapter 14 of the Listing Rules.

2. The Parties

The Company is principally engaged in the business of civil aviation.

Airbus SAS, to the knowledge of the Directors, is principally engaged in the business of manufacturing and selling aircraft.

To the best of the Directors' knowledge, information and belief having made all reasonable enquiry, Airbus SAS and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

3. The Agreement

On 30 December 2010, the Company entered into the Agreement with Airbus SAS regarding the purchase of fifty Airbus A320 series aircraft.

Based on the information provided by Airbus SAS, the total asset value of the Aircraft, as determined by reference to the relevant catalogue price supplied by Airbus SAS, amounts in aggregate to approximately USD3.224 billion (equivalent to approximately RMB21.407 billion).

Consideration

The aircraft basic price of the Aircraft in aggregate is approximately USD3.224 billion (equivalent to approximately RMB21.407 billion) based on the relevant price catalog in 2005. Such aircraft basic price comprises the airframe price (which is subject to price adjustment by applying a formula), optional features prices and engine price.

The Agreement was negotiated and entered into in accordance with customary business and industry practice, under which Airbus SAS has granted to the Company significant price concessions with regard to the Aircraft. Such price concessions were determined after arm's length negotiations between the Company and Airbus SAS and as a result, the Consideration is significantly lower than the aircraft basic price of the Aircraft mentioned above.

Based on the Consideration, the relevant "percentage ratio" calculated under Rule 14.07 of the Listing Rules at the material time is above 25% but less than 100%. Accordingly, the Transaction constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange. In respect of the Transaction, the Company understands its disclosure obligations normally required under Chapter 14 of the Listing Rules, and has therefore on a number of occasions raised the issue with Airbus SAS in order to seek its consent to the Company's disclosing certain otherwise required information (including the relevant consideration involved) in the Announcement and this Circular. Nonetheless, Airbus SAS, for business reasons and from a commercial perspective, did not accede to the Company's request in this respect, and insisted on the preservation of the confidentiality carried with such information to the extent possible. The Company has made an application to the Stock Exchange and obtained a waiver from strict compliance with the relevant provisions (including Listing Rules 14.58(4) and 14.66(4)) under the Listing Rules in respect of the disclosure of the Consideration.

LETTER FROM THE BOARD

The price concessions granted to the Company under the Agreement will mainly affect the depreciation of aircraft in the operation cost of the Company. The Company confirms that the extent of the price concessions granted to the Company under the Agreement is more favourable than the price concessions granted to the Company under the 2009 Agreement. The Company believes that the price concessions obtained by the Company under the Agreement has no material impact on the Company's operating costs taken as a whole.

The Company has also taken into account the current economic environment, the industry performance and the Company's financial position, and considers that the extent of the price concessions granted to the Company under the Agreement are fair and reasonable and in the interests of its shareholders.

Payment terms and source of funding

The Consideration is payable by cash in United States dollars in instalments, and is, as currently contemplated, being funded through the Company's working capital, bank loans from commercial banks and other sources of financing available to the Company.

Delivery

The Aircraft are expected to be delivered to the Company in stages from 2012 to 2015.

Reasons for and benefits expected to accrue to the Company

The Aircraft will primarily be used to satisfy the increasing demand of the domestic passenger air transportation as well as the international and regional medium-and-short-haul routes passenger air transportation in the coming years, and to increase the Company's competitiveness in the passenger air transportation market. The purchase of the Aircraft will further enhance the route coverage of the Company and increase the economical benefit of the Company.

Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the addition of the Aircraft will increase (i) the ATKs of the Company by 14.39% (based on the ATKs of the Company as at 31 December 2009); and (ii) the combined ATKs of the Company and Shanghai Airlines Co. Ltd, a wholly owned subsidiary of the Company, by 11.24% (based on the aggregation of their respective ATKs as at 31 December 2009).

The Transaction has been approved by the Directors, and is subject to approval by the relevant regulatory authority(ies) in the PRC in compliance with the relevant regulatory requirements.

LETTER FROM THE BOARD

The Directors believe that the terms of the Agreement (including the price concessions under the Agreement) are fair and reasonable and in the interests of the Company's shareholders as a whole.

Financial impact of the Transaction

As mentioned above, part of the Consideration is, as currently contemplated, being funded through bank loans from commercial banks. The Transaction may therefore result in an increase in the Company's debt-to-equity ratio, but as the Consideration is payable by instalments, it is not expected to have substantial impact on the Company's cash-flow position or its business operations.

The Transaction is not expected to result in any material impact on the earnings, assets and liabilities of the Group.

4. Implications under the Listing Rules

The Transaction constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to the approval of the shareholders of the Company.

CEA Holding, which directly or indirectly holds 4,831,375,000 A shares and 1,927,375,000 H shares of the Company, representing approximately 59.94% of the issued share capital of the Company, does not have any interest or benefit under the Transaction. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Transaction.

The Transaction has accordingly been approved in writing by CEA Holding pursuant to Rule 14.44 of the Listing Rules, and no general meeting of the Company is required to be convened.

5. Additional information

Your attention is also drawn to the additional information set out in the appendices to this Circular.

APPENDIX I

FINANCIAL INFORMATION

SUFFICIENCY OF WORKING CAPITAL

Taking into account the expected completion of the Transaction and the financial resources available to the Group, including the internally generated funds and the available banking facilities, the Directors are of the opinion that the Group has sufficient working capital for its present requirements, that is for at least the next 12 months from the date of this Circular, in the absence of any unforeseeable circumstances.

TRADING AND FINANCIAL PROSPECTS

Trading prospects

As an aviation enterprise which performs public service functions, the operation of the Group is linked closely to political and economic situations, both internationally and locally. As such, the operation of the Group and of the whole sector is, to a great extent, subject to possible risks associated with geopolitics, imbalances in global trading and investment, substantial fluctuation of international oil prices and outbreaks of unexpected events.

The Company is of the view that the global economy is expected to sustain its trend of recovery in 2011, and China's economy is expected to maintain its rapid and stable development. The continual growth of household income in the PRC will drive upgrades of consumption level and in particular, more people are expected to choose air transportation for their business trips and leisure tours. Therefore, China's air passenger and cargo traffic volume is expected to maintain its stable growth in 2011 and beyond. Additionally, the integration of the Yangtze River Delta, the hastening of the development of Western China, the strategic positioning of Shanghai as an international finance center and an international shipping center, together with local governments' support for and development of the aviation industry are also expected to create favorable conditions for the development of the Company. The Company will take this precious development opportunity of the aviation industry and endeavour to attain the strategic goal of becoming an airline company with international competitiveness.

Financial outlook

In 2011, the Company will adjust the structure of its fleet to lower operating costs. It will adjust the deployment of resources to enhance the utilization rate. It will also enhance marginal contribution by adjusting the structure of its route network, and lower finance cost by adjusting the structure of its assets and liabilities. The Directors believe that the continual exploration of the potential synergy brought by the Company's integration with Shanghai Airlines and the fostering of cost optimization strategy will aid in further lowering unit costs. Upon joining the SkyTeam Alliance, the industry competitiveness and financial performance of the Company is expected to improve.

MATERIAL ADVERSE CHANGE

The Directors confirm that there has been no material adverse change in the financial or trading position of the Group since 31 December 2009, being the date to which the latest published audited accounts of the Company have been made up.

APPENDIX II

GENERAL INFORMATION
