(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: **(703) 464-4735**

Edgar Filing: COMMAND SECURITY CORP - Form 10-K

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	NYSE MKT

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.) Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's voting and non-voting common equity held by non-affiliates of the registrant was \$8,840,345 as of September 28, 2012. The closing price of the registrant's common stock on September 30, 2012, as reported on the NYSE MKT, was \$1.23 per share.

In determining the market value of the voting or non-voting common equity held by non-affiliates of the registrant, securities of the registrant beneficially owned by the directors and officers of the registrant have been excluded. This determination of affiliate status is not necessarily a conclusive determination for any other purpose.

There were 9,093,598 outstanding shares of the registrant's common stock as of June 10, 2013.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information required by Items 5, 10, 11, 12, 13 and 14 of Form 10-K is incorporated by reference into Parts II and III hereof from the registrant's definitive proxy statement relating to the registrant's 2013 Annual Meeting of Shareholders, which is expected to be filed with the Securities and Exchange Commission (the "SEC") within 120 days of the close of the registrant's fiscal year ended March 31, 2013.

PART I

ITEM 1. BUSINESS.

General

Command Security Corporation (the “Company,” or “we”) was incorporated in New York in 1980 and principally provides uniformed security officers and aviation security services to commercial, financial, industrial, aviation and governmental customers throughout the United States. We provide our security services to our customers through Command Security, our security division, and our aviation security services through our Aviation Safeguards division.

Command Security provides security services to governmental, quasi-governmental and financial institutions, healthcare facilities, colleges and universities, residential communities, commercial real estate, industrial, distribution, logistics and retail customers. Our security services include providing armed and unarmed uniformed security personnel for access control, loss prevention, mobile patrols, traffic control, security console/system operators and fire safety directors, as well as providing personnel for reception, concierge and front desk/doorman operations. The security services division generated approximately \$91.7 million, or 61.1% of our total revenues for the fiscal year ended March 31, 2013.

Aviation Safeguards provides aviation security and passenger assistance services to more than 100 domestic and international airlines, airports, airport authorities and the general aviation community at approximately twenty international airports and five regional airports. Our aviation security division provides a variety of uniformed services for domestic and international air carriers, including security for airlines, aircraft, passengers and cargo, baggage screening, wheelchair escort services featuring the Company’s proprietary SmartTracker™ SmartWheel™ technology, special escort services and skycap services. The aviation services division generated approximately \$58.4 million, or 38.9% of our total revenues for the fiscal year ended March 31, 2013.

Operations

As a licensed security company, our security services division deploys security officers to protect people and property; prevent the theft of property; and deter, observe, detect and report security threats for our customers. We conduct our security services principally by providing security officers and other personnel who are, depending on the particular customer requirements, uniformed or plain-clothed, armed or unarmed. Based on the customer requirements and/or our internal threat assessment, our security officers patrol in marked vehicles with radio communications; stand duty

on the customer premises at stationary posts such as points of access, reception areas or surveillance monitors; and/or conduct foot patrols around the customer perimeter and other high-value areas. Our security officers maintain contact with their headquarters or supervisors via car radio, hand-held radios or cell phones. In addition to the more traditional tasks associated with access control and loss prevention, our security officers respond to and report emergency situations such as fires, natural disasters, work accidents and medical crises to the appropriate authorities. We provide security officer services to many of our customers on a 24-hours a day, 365 days per year basis. Our security officers are deployed to provide facility security, access control, personnel security checks, traffic and parking control and to protect against fire, theft, sabotage and safety hazards. We also provide specialized vehicle patrol and inspection services as well as technical products such as access control, video monitoring and other devices through distribution arrangements. Our aviation services division provides a variety of uniformed personnel for security including aircraft and cargo security, access control, wheelchair and passenger escorts, skycaps and baggage handlers for domestic and international air carriers. Since September 11, 2001, the Department of Homeland Security and the Transportation Security Administration have implemented numerous security measures that affect airline operations, including expanded cargo and baggage screening, and may implement additional measures in the future. Additional measures taken to enhance either passenger or cargo security procedures in the future may increase the airline industry's demand for third party services provided by us.

To better integrate and manage our business, our operations are divided into two geographical regions, each of which is managed by a regional vice president/general manager responsible for developing and executing our regional business plan based on the demand, needs and competition in our regional markets. They are assisted by district managers who are responsible for local implementation of policies and procedures. While each regional business plan is based on our overall corporate strategy, the primary mission of our regional vice presidents is to staff, train and deploy their teams to provide the necessary physical security and customer service solutions in a responsive fashion consistent with customer service expectations. They also are expected to manage the growth and profitability of their region's operations. We have approximately 30 offices and operate throughout the United States, including in Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Illinois, Indiana, Maine, Maryland, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oregon, Pennsylvania, Rhode Island, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin and Wyoming. We frequently establish offices close to our customers and delegate responsibility to our local managers to ensure customer satisfaction. Our managers maintain ongoing relationships and contact with our customers to ensure they may promptly and effectively anticipate and respond to the needs of customers and security officers. Our managers play an important role in maintaining service quality and assisting with sales and marketing efforts. Our sales and marketing efforts focus on customers located primarily in urban centers and other concentrated business districts in major metropolitan areas and select suburban areas with a high density of businesses.

We generally render our security services pursuant to a standard form security services agreement that specifies the personnel and/or equipment to be provided by us at one or more designated locations and the applicable payment rates, which typically are hourly rates per person. Our rates vary depending on whether our services are provided during normal business hours, overtime or during holidays, as well as the length of time for which we are being engaged. Our security services incorporates certain management functions, including threat assessments, personnel scheduling, compensation, outfitting, equipment, training and supervision. These security services agreements also provide our customers with flexibility by permitting reductions or expansions of the security force on relatively short notice by our customers. We are responsible for preventing the interruption of security services as a consequence of illness, vacations or resignations of our security officers.

To ensure that adequate security requirements have been established prior to commencing service to a customer, we conduct a comprehensive threat assessment of the customer's site and prepare recommended changes to existing customer security programs or services. While we prepare site assessments and issue recommendations, the security plan and coverage requirements are ultimately determined by our customers.

We are increasingly dependent on information technology networks and systems to process, transmit and store electronic information. In particular, we depend on our information technology infrastructure for electronic communications among our locations across the country and between our personnel and our customers and suppliers. Based on the level of contracted services, we use sophisticated electronic security and access control equipment, including computerized systems, video surveillance equipment and electronic accountability technology to monitor and log security officer patrols and generate user-friendly reports for customer and internal use.

We use technology to support efficiency, accuracy, and dependability in our administrative functions including finance and accounting. In addition, labor and operations management services such as scheduling, reporting, payroll, billing and training management are integrated through a third party vendor software platform.

Employee Recruitment and Training

We believe that the high quality of our security officers is essential to our ability to offer effective and reliable services to our customers. We encourage the retention of our security officers and seek to control our operating costs through effective management of the hiring process, including extensive candidate screening, training and development. We require all applicants for security officer positions to undergo a detailed pre-employment interview and a background investigation covering such areas as past employment, education, military service, medical history and, subject to applicable state laws, criminal and other background searches. Employees are selected based on a number of criteria including physical fitness, maturity, experience, personality, perceived stability and reliability, among others. We frequently conduct medical examinations and substance abuse testing on potential candidates, subject to applicable laws and regulations. Our security officers and other personnel supplied to our customers are employees of our company, even though they may be stationed regularly at our customer's facilities.

We are committed to ensuring that our staff not only meet all state and federal requirements for training, but also our own rigorous standards in specialized areas including: terrorism response, CPR, first-aid, fire safety, crowd and riot control, media interaction, public relations, crisis management and emergency situations. Additionally, we provide our employees with site-specific training to meet the needs of individual industries, facilities and customers.

We are an equal opportunity employer and make all employment-related decisions without regard to race, creed, color, national origin, sex, age, disability, marital status or sexual orientation.

Significant Customers

For the fiscal year ended March 31, 2013, we generated revenues of approximately \$36,598,000 from services we provided to Federal Express (“FedEx”), which represented approximately 24% of our total revenues during such period. See “Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Financing.”

See “Notes to Financial Statements—Note 10 Concentrations of Credit Risk,” and “Notes to Financial Statements—Note 11 Significant Customers.”

Competition

The contract security officer segment of the security services business is highly competitive, labor intensive and substantially affected by the cost of labor and by the availability of qualified personnel. Our ability to provide the required number of competent, trained personnel in a timely manner is critical to retaining our business, containing payroll costs and avoiding undue insurance exposure. To meet these goals, we strive to successfully manage our human resource needs through manpower planning, quality control and risk management, while focusing on financial management and effective sales and marketing strategies.

Although most of our contracts may be terminated by us or by our customers at our or their discretion, we minimize customer attrition by adhering to basic performance standards in meeting essential customer requirements. While all security service companies experience customer attrition, we have historically been successful in renewing contracts with existing customers.

We believe that a customer's selection of a company to provide security services is based primarily on price, quality of services provided, scope of services performed, name recognition, recruiting, training, the extent and quality of security officer supervision and the ability to handle multiple worksites on a nationwide basis. It has become more common for our customers to select security service providers through competitive bid processes intended to procure quality services at lower prices. Some of our competitors may be willing to provide services at lower prices, accept a lower profit margin or expend more capital in order to obtain or retain business. As we have expanded our operations, we have had to compete more frequently against larger national companies, such as Securitas North America, G4S Secure Solutions (USA), AlliedBarton Security and Guardsmark, LLC, all which have substantially greater financial and other resources, personnel and facilities than us. These competitors also offer a range of security and investigative services that are at least as extensive as, and directly competitive with, the services that we offer. In addition, we compete with many regional and local organizations that offer substantially all of the services that we offer to our customers and that may have better knowledge of the local conditions in their regions and increased local visibility, which may provide such companies with a competitive edge. Our management believes that we have been able to successfully compete on the basis of the quality of our services, our professional relationships and our reputation. Particularly with respect to certain of our markets, management believes we enjoy a favorable competitive position because of our emphasis on responsive customer service, supervision and training. However, we cannot assure you that we will be able to continue to effectively compete with other companies, particularly those having greater financial and other resources, personnel and facilities. See "Risk Factors—Competition."

Government Regulation

We are subject to a large number of city, county and state firearm and occupational licensing laws and regulations that apply to security officers and private investigators. In addition, many states have laws requiring training and registration of security officers, regulating the use of badges and uniforms, prescribing the use of identification cards or badges, and imposing minimum bond, surety or insurance standards. As required, we are licensed to provide private security services in each of the states in which we do business. We may incur penalties and fines as the result of licensing irregularities or the misconduct of one of our security officers from time to time in the ordinary course of our business. However, our management believes we are in material compliance with all applicable laws and regulations. See "Risk Factors—Regulation."

Employees

Our business is labor intensive and is consequently affected by the availability of qualified personnel and the cost of labor. Although the security services industry is characterized by high turnover, we have not experienced any material difficulty in hiring qualified security officers. In some cases, when labor has been in short supply, we have been required to pay higher wages and/or incur overtime charges. We have approximately 5,500 total employees, including 4,000 full-time employees, the majority of whom are hourly service workers, and approximately 265 of whom serve as managers, administrative employees and executives in 30 offices nationwide.

Approximately 80% of our employees do not belong to a labor union. The balance of our employees are members of labor unions including, in particular, a number of employees based in our New York City security services office and at our airport offices at John F. Kennedy International and LaGuardia airports. Our unionized employees work under collective bargaining agreements with the following unions: Allied International Union, Allied Services Division of the Transportation Communications International Union and Special & Superior Officers Benevolent Association. In the past, our employees at Los Angeles International Airport worked under a collective bargaining agreement with a local uncertified union. On December 30, 2011, we terminated that collective bargaining agreement in accordance with the majority vote of the subject employees. The union has attempted to overturn the termination before the National Mediation Board and to date such efforts have been unsuccessful. Many of our competitors' employees in New York City are also unionized. Our relations with our employees are satisfactory, and we have not experienced any work stoppages as a result of labor disputes.

Intellectual Property

We own the service marks "Command Security Corporation," "CSC" and the "CSC Plus" design for security officer, detective, private investigation services and security consulting services. We also own the service marks "STAIRS" and "Smart Guard."

We own the trademarks "Smartwheel" and "Smart Tracker" for the computer programs we use in dispatching and tracking small vehicles, such as carts and wheelchairs at transportation terminals.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Annual Report on Form 10-K, you should carefully consider the following factors that could materially and adversely affect our business, financial condition and future operating results. The risks described below are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and operating results.

Loss of Customers

Our success depends in part upon retaining our large security and aviation services customers, including FedEx. See “Business—Significant Customers.” In general, security services companies such as ours face the risk of losing customers as a result of the expiration or termination of a contract, or as a result of a merger or acquisition or business failure involving our large customers, or the selection by such customers of another provider of security services. We generate a significant portion of our revenues from large security services and airline customers, some of which are experiencing substantial financial difficulties. We cannot assure you that we will be able to retain all or a substantial portion of our long-term or significant customers or develop relationships with new significant customers in the future.

Our standard customer contract may be terminated by either us or our customer on 30 days written notice at any time. In addition, we serve certain customers under month-to-month extensions of these written contracts. If we are not able to maintain our existing security service contracts or obtain additional security service contracts, our business, financial condition and results of operations will be adversely affected.

Significant Customer

We rely on FedEx for a significant portion of our revenues. During Fiscal year 2013, FedEx represented approximately 24% of our total revenues. As previously announced, our contract with FedEx was scheduled to expire on May 31, 2013. Also as previously disclosed, this customer commenced and invited us to participate in a competitive bidding process for the continued performance of these as well as additional services. In order to complete that process, the company has agreed to a three-month extension to the existing contract, extending the period of performance to August 31, 2013. We cannot assure you that we will be able to retain all or a substantial portion of our services with this customer beyond the contract extension date. The loss of this customer or any material reduction in service would materially and adversely affect our business, financial condition and results of operations.

Airline Industry Concerns

Several of our airline customers filed for protection from their creditors under applicable bankruptcy and similar laws in recent years. Airline operations are impacted by general economic and industry conditions. The airline industry may undergo further bankruptcy restructuring, industry consolidation, or the creation or modification of alliances or joint ventures, any of which could have a material adverse impact on our liquidity, results of operations and financial condition.

Acquisitions

Part of our growth strategy involves seeking to acquire other successful security services companies. Our acquisition strategy entails numerous risks. The pursuit of acquisition candidates is expensive and may not be successful. Our ability to complete future acquisitions will depend on our ability to identify suitable acquisition candidates, negotiate acceptable terms for their acquisition and, if necessary, finance those acquisitions, in each case, before any attractive candidates are purchased by other parties, some of whom have substantially greater financial and other resources than we have. Whether or not any particular acquisition is successfully completed, each of these activities is expensive and time consuming and would likely require our management to spend considerable time and effort to complete, which would detract from our management's ability to run our current business. Although we may spend considerable funds and efforts to pursue acquisitions, we may not be able to complete them.

Acquisitions could result in the occurrence of one or more of the following events:

- dilutive issuances of equity securities;
- incurrence of additional debt and contingent liabilities;
- increased amortization expenses related to intangible assets;
- difficulties in the assimilation of the operations, technologies, services and products of the acquired companies; and
- diversion of management's attention from our other business activities.

We cannot assure you that we will be able to complete acquisitions that we believe are necessary to complement our growth strategy on acceptable terms, or at all. Further, if we do not successfully integrate the operations of any companies that we have acquired or subsequently acquire, we may not achieve the potential benefits of such acquisitions.

Additional Financing

We believe that our existing funds, cash generated from operations, and existing sources of and access to financing are adequate to satisfy our working capital, capital expenditures and debt service requirements for the foreseeable future. However, we cannot assure you that this will be the case, and we may be required to obtain additional financing to maintain and expand our existing operations through the sale of our securities, an increase in borrowings under our credit facilities or otherwise. The failure by us to obtain such financing, if needed, would have a material adverse effect upon our business, financial condition and results of operations.

Credit and Security Agreement

Our Credit and Security Agreement contains covenants that impose operating and financial restrictions on us, which may prevent us from capitalizing on business opportunities and taking certain corporate actions. These restrictions may limit our ability to:

- guarantee additional indebtedness;
- pay dividends and make distributions;
- make certain investments;
- repurchase stock;
- incur liens;
- transfer or sell assets;
- enter into sale and leaseback transactions;
- merge or consolidate; and
- engage in a materially different line of business.

The limits set forth in these covenants may adversely affect our ability to finance future operations or capital needs.

Competition

Our assumptions regarding future operating results depend largely upon our ability to retain substantially all of our current customers and obtain new customers. Retention is affected by several factors including, but not limited to, regulatory limitations, the quality of the services that we provide, the quality and pricing of comparable services offered by competitors and continuity of our management and non-management personnel. The contract security officer industry is intensely competitive. There are several major national competitors with substantially greater financial and other resources than we have and that, therefore, have the ability to provide more attractive service, cost and compensation incentives to customers and employees than we are able to provide. We also compete with smaller local and regional companies whose familiarity with local markets gives them a competitive advantage. There can be no assurance that we will continue to retain customer accounts at historic levels in an increasingly competitive market. In addition, there can be no assurance that we will be able to acquire new customer accounts and retain existing customer accounts on terms as favorable as those previously available, and if we are unable to do so our profitability will be adversely affected.

Cost Management

Our largest expenses are for payroll and related taxes and employee benefits. Most of our service contracts provide for fixed hourly billing rates, and some of our service contracts provide for payments of either fixed fees or fees that increase by only small amounts during the terms of such service contracts. Competitive pressures in the security and aviation services industries may prevent us from increasing our hourly billing rates on contract anniversary or renewal dates. Our profitability will be adversely affected if, due to inflation, collective bargaining or other causes, including increases in statutory payroll taxes, we are compelled to increase the wages, salaries and related benefits of our employees in amounts that exceed the amount that we can pass on to our customers through increased billing rates charged under our service contracts.

The Patient Protection and Affordable Care Act (PPACA) is legislation that could have an impact on our overall cost structure and our ability to control costs. Although final rules and regulations have not yet been promulgated, the Company is evaluating potential options to meet the requirements of the new law. The Company intends to offer its employees a health benefit platform that is PPACA compliant. We cannot characterize the full impact of this requirement at this time, although it is expected to increase the Company's costs over current benefits. Our ability to realize financial expectations will be largely dependent upon management's ability to maintain or increase gross margins, which in turn will be determined in large part by management's ability to control our expenses. However, to a significant extent, certain costs are not within the control of management, and margins may be adversely affected by a number of items, including litigation expenses, fees incurred in connection with extraordinary business transactions, inflation, labor unrest, increased payroll and related costs. Our business, financial condition and results of operations will be adversely affected if the costs associated with these items are greater than we anticipate.

Indemnification Obligations

In many cases, our security and aviation services contracts require us to indemnify our customers or may otherwise subject us to additional liability for events occurring on customer premises. While we maintain insurance programs that we believe provide appropriate coverage for certain liability risks, including personal injury, death and property damage, the laws of many states limit or prohibit insurance coverage for punitive damages arising from willful or grossly negligent conduct. Therefore, insurance may not be adequate to cover all potential claims or damages. If a plaintiff brings a successful claim against us for punitive damages in excess of our insurance coverage, we could incur substantial liabilities that would have a material adverse effect on our business, financial condition and results of operations.

Staffing

Our business involves the labor-intensive delivery of security and aviation services. We derive our revenues primarily from services rendered by our hourly employees. Our future performance depends in large part upon our ability to attract, train, motivate and retain our skilled operational and administrative staff. The loss of the services of, or the failure to recruit, the required complement of operational and administrative staff would have a material adverse effect on our business, financial condition and results of operations, including our ability to secure and complete security service contracts. Additionally, if we do not successfully manage our existing operational and administrative staff, we may not be able to achieve the anticipated gross margins, service quality, overtime levels and other performance measures that are important to our business, financial condition and results of operations.

Professional Reputation

We depend to a large extent on our relationships with our customers and our reputation for quality contract security services. Our customers' expectations and perception of the quality of our services are in large part determined by the satisfaction they derive from contact with our managers. A well-publicized security incident or breach at one or more of our customers' locations could result in a negative perception of our services, damage to our reputation and the loss of existing or potential customers, which could have a material adverse effect on our business, financial condition and results of operations.

Changes in Accounting Standards and Taxation Requirements

New accounting standards or pronouncements that become applicable to us and our financial statements from time to time, and changes in the interpretation of existing standards and pronouncements, could have a significant effect on our reported results for the affected periods. We are also subject to income and various other taxes in the numerous jurisdictions where we generate revenues. Increases in income or other tax rates or bases could reduce our after-tax

results from affected jurisdictions in which we operate.

Collective Bargaining Agreements and Organized Labor Action

A number of our employees at our operating locations are covered by collective bargaining agreements. If we are unable to renew such agreements on satisfactory terms, our labor costs could increase, which would negatively affect our business, financial condition and results of operations.

The security industry has been the subject of campaigns to increase the number of unionized employees. In addition, strikes or work stoppages at our locations could impair our ability to provide required services to our customers, which would reduce our revenues and expose us to customer claims. Although we believe that our relations with our employees are satisfactory, we cannot assure you that organized labor action at one or more of our operating locations will not occur, or that any such activities, or any other labor difficulties at our operating locations, would not adversely affect our business, financial condition and results of operations.

Collection of Accounts Receivable

We extend credit to our customers primarily through the use of weekly or monthly billings generally due within 30 to 45 days of the invoice date. The aviation industry in general poses a high degree of customer credit risk. Any default in the payment of accounts receivable by one or more of our significant customers due to bankruptcy or otherwise could have a material adverse impact on our liquidity, results of operations and financial condition. See “Notes to Financial Statements—Note 10 Concentrations of Credit Risk.”

Loss of Key Management Personnel

Our success depends to a significant extent upon the continuing efforts and abilities of our key executive officers and senior management personnel. We have programs in place that have been designed to motivate, reward and retain such employees, including cash bonus and equity incentive plans. The loss or unavailability of any such key executives or senior management personnel, due to retirement, resignation or otherwise could have a material adverse effect on our business, financial condition and results of operations if we are unable to attract and retain highly qualified replacement personnel on a timely basis, or at all.

Concentration of Stock Ownership

Although none of our directors and officers has any agreement relating to the manner in which they will vote their shares of our common stock, such parties together beneficially own shares representing approximately 34% of the outstanding common stock. The concentration of ownership among these shareholders could give them the power to influence the outcome of substantially all matters subject to a vote of our shareholders, including mergers, consolidations and the sale of all or substantially all of our assets. Such decisions may conflict with the interests of our other shareholders.

Stock Price Volatility

The stock markets have experienced price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. The market price of our common stock may also fluctuate as a result of variations in our operating results. Due to the nature of our business, the market price of our common stock may fall in response to a number of factors, some of which are beyond our control, including: announcements of competitive

developments by others; changes in estimates of our financial performance or changes in recommendations by securities analysts; any loss by us of a major customer; additions or departures of key management or other personnel; future sales of our common or preferred stock; acquisitions or strategic alliances by us or our competitors; our historical and anticipated operating results; quarterly fluctuations in our financial and operating results; volume fluctuations; changes in market valuations of other companies that operate in our business markets or industry sector; and general market and economic conditions. Accordingly, market fluctuations, as well as general economic, political and market conditions such as recessions and interest rate changes, may negatively impact the market price of our common stock.

Our common stock trades on the NYSE MKT and has low trading volumes compared to other companies traded on the NYSE MKT. Securities with low trading volumes are subject to greater volatility in price. We cannot predict how our common stock will trade in the future or the effect that trading volumes will have on our common stock price.

Information Systems/Technology

We are increasingly dependent on information technology networks and systems, including the Internet, to process, transmit and store electronic information. In particular, we depend on our information technology infrastructure for electronic communications among our locations across the country and between our personnel and our customers and suppliers. Security breaches of this infrastructure can create disruptions, shutdowns or unauthorized disclosure of confidential information. If we are unable to prevent such breaches, our operations could be disrupted or we may suffer financial damage or loss because of lost or misappropriated information.

Changes in technologies that provide alternatives to security officer services or that decrease the number of security officers required to effectively perform their services may decrease our customers' demand for our security officer services. In addition, if such technologies become available generally for use in the industry, these technologies may be proprietary in nature and not be available for use by us in servicing our customers. Even if these technologies are available for use by us, we may not be able to successfully integrate such technologies into our business or we may be less successful in doing so than our competitors or new entrants in the industry. A decrease in the demand for our security officer services or our inability to effectively utilize such technologies may adversely affect our business, financial condition and results of operations.

Regulation

We are subject to a large number of city, county and state occupational licensing laws and regulations that apply to security officers. Any liability we may have from our failure to comply with these regulations may materially and adversely affect our business by restricting our operations and subjecting us to potential penalties. If the current regulation and federalization of pre-board screening and documentation verification services provided by us to airline customers is expanded into other areas such as general security and baggage handling at aviation facilities, our business, financial condition and results of operations could be materially adversely affected.

In addition, we are subject to, among other laws and regulations, comprehensive U.S. occupational health and safety laws and regulations. Such laws and regulations may become more stringent and result in necessary modifications to our current practices and facilities. Any or all of these laws and regulations could force us to incur additional costs that could adversely affect our business, financial condition and results of operations.

Our operations at certain domestic airport locations are subject to audits by the relevant state or local government authorities, in connection with their evaluation of whether certain of our sales and services at such airports are subject to a regulatory fee. In the event of a dispute with any such regulatory authority, we could be subject to claims for fees, including penalties and interest, which could adversely affect our business, financial condition and results of operations.

In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 were signed into law in the U.S. This legislation expands health care coverage to many uninsured individuals and expands coverage to those already insured. The changes required by this legislation could cause us to incur additional healthcare and other costs. The costs of these provisions are expected to be funded by a variety of taxes and fees. Some of the taxes and fees, as well as certain health care changes required by these acts, are expected to result, directly or indirectly, in increased health care costs for us. It remains difficult to predict the cost impact of health care reform and at this time, we cannot quantify the extent of any long-term impact from the legislation or any potential changes to the legislation. There is no assurance that we will be able to absorb and/or pass through the costs of complying with such legislation in a manner that will not adversely impact our results of operations.

Our current and future operations may be subject to additional regulation as a result of, among other factors, new statutes and regulations and changes in the manner in which existing statutes and regulations are interpreted.

Economic Downturn

During economic declines, some decisions to implement security programs and install systems may be deferred or cancelled. In other cases, customers may increase their purchases of security systems because they fear more inventory shrinkage and theft will occur due to increasing economic need. We are not able to accurately predict to what extent an economic slowdown will decrease the demand for our services. If demand for our services decreases, our business, financial condition and results of operations will be adversely affected.

Catastrophic Events

We are exposed to potential claims resulting from the occurrence of catastrophic events, such as acts of terrorism, or based upon allegations that we failed to perform our services in accordance with contractual or industry standards. Our insurance coverage limits are currently \$1.0 million per occurrence for non-aviation related business (with additional umbrella and excess liability policies of \$5.0 million and \$10.0 million, respectively.) and \$30.0 million per occurrence for aviation related business. We retain the risk for the first \$25,000 of general liability non-aviation related operations, \$50,000 for on airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. The Terrorism Risk Insurance Act of 2002 established a program within the United States Department of the Treasury, under which the federal government and the insurance industry, share the risk of loss from future “acts of terrorism,” as defined in such Act. We currently maintain additional insurance coverage for losses arising from “acts of terrorism” under our non-aviation related business policy. In addition, terrorist attacks could have a material adverse impact on us by increasing our insurance premium costs, making adequate insurance coverage unavailable or by requiring us to incur additional personnel costs as a result of compliance with expanded security rules and regulations.

Strategic Initiatives

Any strategic initiatives that we may undertake may not achieve the benefits anticipated and could result in additional unanticipated costs, which could have a material adverse effect on our business, financial condition, cash flows, or results of operations. We regularly evaluate our existing operations, service capacity and business efficiencies and, as a result of such evaluations, we may undertake strategic initiatives within our businesses, including the recently completed consolidation of corporate offices and streamlining of our management structure. These strategic initiatives may not result in improvements in future financial performance. If we are unable to realize the benefits of any strategic initiatives or appropriately structure our businesses to meet market conditions, the strategic initiatives could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

On January 15, 2013, the Company relocated its executive offices to Herndon, VA as part of a previously announced strategic initiative. The total cost associated with the consolidation of facilities, severance, recruitment and training of new personnel was approximately \$1.9 million.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

As of March 31, 2013, we did not own any real property. We occupy executive offices at 512 Herndon Parkway, Herndon, VA 20170, consisting of approximately 11,000 square feet. We also lease office space at the following locations under long-term operating or short-term month-to-month leases:

Location

668 N. 44th Street
#300
Phoenix, AZ

409 Camino Del Rio South
Suite 100

We believe our existing properties are in good condition and are suitable for the conduct of our business.

ITEM 3. LEGAL PROCEEDINGS.

We are party to a variety of legal proceedings arising out of the conduct of our business. While the results of these proceedings cannot be predicted with certainty, management believes that, except as described below, the final outcome of these proceedings will not have a material effect on our business.

In July 2012, the Service Employee International Union (SEIU) filed a suit in U.S. District Court – Northern District Court against the Company seeking the restoration of the collective bargaining agreement between SEIU and the Company following a majority vote of Aviation Safeguards employees in December 2011 to withdraw recognition of the union. A related lawsuit was filed on July 6, 2012 by the California Service Employees Health and Welfare Trust Fund in U.S. District Court Northern District Court seeking to maintain the payment of monthly health insurance contributions which were stopped by the Company following the termination of the collective bargaining agreement. The Company is conducting a vigorous defense of both cases.

The nature of our business is such that there is a significant volume of routine claims and lawsuits against us, the vast majority of which have never led to the award of substantial damages. We maintain general liability and workers' compensation insurance coverage that we believe is appropriate to the relevant level of risk and potential liability. Some of the claims brought against us could result in significant payments; however, the exposure to us for general liability claims is limited to the deductibles under our insurance policies, as well as any amount in excess of the maximum coverage provided by such policies. Any punitive damage award would not be covered by our general liability insurance policy. Also, the premiums we pay under our insurance policies may be adversely affected by an unfavorable claims history.

ITEM 4. MINE SAFETY DISCLOSURES.

None.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Common Stock Trading Information

Shares of our common stock trade on the NYSE MKT, an exchange regulated market, under the ticker symbol "MOC."

The following table sets forth, for the calendar periods indicated, the high and low sales price for our common stock as reflected on the NYSE MKT for each full quarterly period within the two most recent fiscal years.

Last Sales Price Period (1)	Common stock market price	
	Low	High
2013		
First Quarter	\$.99	\$ 1.40
Second Quarter	1.02	1.25
Third Quarter	1.21	1.90
Fourth Quarter	1.48	2.59
2012		
First Quarter	\$ 1.46	\$ 1.82
Second Quarter	1.37	1.80
Third Quarter	1.36	1.82
Fourth Quarter	1.34	1.70

(1) Reflects fiscal years ended March 31, 2013 and 2012 as indicated.

The above quotations do not include retail mark-ups, markdowns or commissions and represent prices between dealers and may not represent actual transactions. The past performance of our common stock is not necessarily indicative of the price at which it may trade in the future.

As of June 10, 2013 there were approximately 1,100 holders of our common stock.

For certain information regarding our equity compensation plans, see “Item 12—Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.”

Dividends

To date, we have neither declared nor paid any cash dividends on shares of our common stock. Payment of dividends on our common stock, if any, will be within the discretion of our Board of Directors and will depend, among other factors, on the approval of our principal lender, our earnings and capital requirements and our operating and financial condition. At present, our anticipated capital requirements and growth plans are such that we intend to follow a policy of retaining earnings, if any, to finance our business operations and any growth in our business.

Common Stock Repurchases

On December 8, 2011, the Company’s Board of Directors authorized a stock repurchase program that initially allowed us to repurchase up to \$2,000,000 of our common stock on the open market. In November 2012, the Company’s Board of Directors authorized an increase of up to \$4,000,000 of our common stock to be repurchased. The par value of the shares repurchased is charged to common stock with the excess of the purchase price over par being charged against additional paid-in capital. The program does not have a prescribed expiration date. See “Notes to Financial Statements—Note 18 Issuer Purchases of Equity Securities.” During the fiscal years ended March 31, 2013 and 2012, we repurchased shares of our common stock having a value of \$1,083,520 and \$1,975,353, respectively pursuant to active share repurchase programs. The number and average price of shares purchased to date under these programs is as set forth in the table below:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Amount Purchased as part of Publicly Announced Program	Maximum Amount that may yet be Purchased under the Program
December 8 - 16, 2011	136,600	\$ 1.52	\$ 208,363	\$ 1,791,637
February 13 - 21, 2012	1,075,000	\$ 1.64	\$ 1,975,353	\$ 24,647
December 1 - 31, 2012	677,200	\$ 1.60	\$ 3,058,873	\$ 941,127
	1,888,800	\$ 1.62		

ITEM 6. SELECTED FINANCIAL DATA

Not applicable.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our consolidated financial statements and related notes thereto contained in this Annual Report. In this discussion, the words "Company", "we", "our" and "us" refer to Command Security Corporation.

FORWARD- LOOKING STATEMENTS

This section, Management's Discussion and Analysis of Financial Condition and Results of Operations, other sections of this Annual Report on Form 10-K and other reports and verbal statements made by our representatives from time to time may contain forward-looking statements that are based on our assumptions, expectations and projections about us and the security industry. These include statements regarding our expectations about revenues, our liquidity, or expenses and our continued growth, among others. You can identify these statements by forward-looking words such as “may,” “expect,” “anticipate,” “contemplate,” “believe,” “estimate,” “intends,” and “continue” or similar words. You should statements that contain these words carefully because they:

- discuss future expectations;
- contain projections of future results of operations or financial condition; and
- state other “forward-looking” information.

Such forward-looking statements by their nature involve a degree of risk and uncertainty. We caution you to not to place undue reliance on these forward-looking statements, which speak only as of the date of this Annual Report. We further caution you that a variety of factors, including but not limited to the factors described under Item 1A, "Risk Factors" and the following, could cause business conditions and our results to differ materially from what is contained in forward-looking statements:

- changes in general economic conditions in the United States and abroad;
- changes in the financial condition of our customers;
- legislation or regulatory environments, requirements or changes adversely affecting our business or the businesses in which our customers are engaged;
- cancellations and non-renewals of existing contracts;
- changes in our estimates of costs;
- war and/or terrorist attacks on facilities where services are or may be provided;
- outcomes of pending and future litigation;
- increasing competition by other companies;
- changes in interest rates;
- compliance with our loan covenants;
- changing interpretations of GAAP;
- the general volatility of the market price of our securities;
- the availability of qualified personnel;
- recoverability of claims against our customers and others by us and claims by third parties against us; and
- changes in estimates used in our critical accounting policies.

Other factors and assumptions not identified above were also involved in the formation of these forward-looking statements and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by us.

All forward-looking statements included herein attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We have based the forward-looking statements included in this Annual Report on information available to us on the date of this annual report and, except to the extent required by applicable laws and regulations, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this annual report or to reflect the occurrence of unanticipated events. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we make directly to you or through reports that we in the future may file with the Securities and Exchange Commission, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. Our actual results could differ materially from those expressed or implied by the forward-looking statements as a result of various factors including, but not limited to, those presented under “Risk Factors” included in Item 1A and elsewhere in this Annual Report.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES.

Critical accounting policies are defined as those most important to the portrayal of a company’s financial condition and results and that require the most difficult, subjective or complex judgments. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. The estimates that we make include allowances for doubtful accounts, depreciation and amortization, income tax assets and insurance reserves. Estimates are based on historical experience, where applicable or other assumptions that management believes are reasonable under the circumstances. We have identified the policies described below as our critical accounting policies. Due to the inherent uncertainty involved in making estimates, actual results may differ from those estimates under different assumptions or conditions. See “Notes to Financial Statements—Note 1 Business Description and Summary of Accounting Policies.”

Revenue Recognition

We record revenues as services are provided to our customers. Revenues relate primarily to the provision of aviation and security services, which are typically billed at hourly rates. These rates may vary depending on base, overtime and holiday time worked. Revenue for administrative services provided to other security companies are calculated as a percentage of the administrative service customer's revenue and are recognized when billings for the related security services are generated. Revenue is reported net of applicable taxes.

Accounts Receivable

We periodically evaluate the requirement for providing for billing adjustments and/or credit losses on our accounts receivable. We provide for billing adjustments where management determines that there is a likelihood of a significant adjustment for disputed billings. Criteria used by management to evaluate the adequacy of the allowance for doubtful accounts include, among others, the creditworthiness of the customer, current trends, prior payment performance, the age of the receivables and our overall historical loss experience. Individual accounts are charged off against the allowance as management deems them to be uncollectible.

Intangible Assets

Intangible assets are stated at cost and consist primarily of customer lists and borrowing costs that are being amortized on a straight-line basis over three to ten years, and goodwill, which is reviewed annually for impairment. The life assigned to customer lists acquired is based on management's estimate of our expected customer attrition rate. The attrition rate is estimated based on historical contract longevity and management's operating experience. We test for impairment annually or when events and circumstances warrant such a review, if earlier. Any potential impairment is evaluated based on anticipated undiscounted future cash flows and actual customer attrition in accordance with FASB ASC 360, *Property, Plant and Equipment*.

Insurance Reserves

General liability estimated accrued liabilities are calculated on an undiscounted basis based on actual claim data and estimates of incurred but not reported claims developed utilizing historical claim trends. Projected settlements and incurred but not reported claims are estimated based on pending claims, historical trends and related data.

Workers' compensation annual costs are comprised of premiums as well as incurred losses as determined at the end of the coverage period, subject to minimum and maximum amounts. Workers' compensation insurance claims and reserves include accruals of estimated settlements for known claims, as well as accruals of estimates for claims incurred but not yet reported as provided by a third party. In estimating these accruals, we consider historical loss experience and make judgments about the expected levels of costs per claim. We believe our estimates of future liability are reasonable based upon our methodology; however, changes in health care costs, accident frequency and severity and other factors could materially affect the estimate for these liabilities. The Company continually monitors changes in claim type and incident and evaluates the workers' compensation insurance accrual, making necessary adjustments based on the evaluation of these qualitative data points.

Income Taxes

Income taxes are based on income (loss) for financial reporting purposes and reflect a current tax liability (asset) for the estimated taxes payable (recoverable) in the current year tax return and changes in deferred taxes. Deferred tax assets or liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities, and are measured using enacted tax laws and rates. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the asset will not be realized. In the event that interest and/or penalties are assessed in connection with our tax filings, interest will be recorded as interest expense and penalties as selling, general and administrative expense.

Stock Based Compensation

FASB ASC 718, *Stock Compensation*, requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values at grant date and the recognition of the related expense over the period in which the share-based compensation vests. We use the modified-prospective transition method. Under the modified-prospective transition method, we recognize compensation expense in our financial statements issued subsequent to the date of adoption for all share-based payments granted, modified or settled. Non-cash charges of \$191,250 and \$160,730 for stock based compensation have been recorded for the fiscal years ended March 31, 2013 and 2012, respectively.

OVERVIEW

We principally provide uniformed security officers and aviation services to commercial, residential, financial, industrial, aviation and governmental customers through approximately 30 offices throughout the United States. In conjunction with providing these services, we assume responsibility for a variety of functions, including recruiting, hiring, training and supervising all operating personnel as well as paying such personnel and providing them with uniforms, fringe benefits and workers' compensation insurance.

Our customer-focused mission is to provide the best personalized supervision and management attention necessary to deliver timely and efficient security solutions so that our customers can operate in safe environments without disruption or loss. Technology underpins our efficiency, accuracy and dependability. We use a sophisticated software system that integrates scheduling, payroll and billing functions, giving customers the benefit of customized programs using the personnel best suited to the job.

Renewing and extending existing contracts and obtaining new contracts are crucial to our ability to generate revenues, earnings and cash flow. In addition, our growth strategy involves the acquisition and integration of complementary businesses in order to increase our scale within certain geographical areas, increase our market share in the markets in which we operate, gain market share in the markets in which we do not currently operate and improve our profitability. We intend to pursue suitable acquisition opportunities for contract security officer businesses. We frequently evaluate acquisition opportunities and, at any given time, may be in various stages of due diligence or preliminary discussions with respect to a number of potential acquisitions. However, we cannot assure you that we will identify any suitable acquisition candidates or, if identified, that we will be able to complete the acquisition of such candidates on favorable terms or at all.

The global security industry has grown largely due to an increasing fear of crime and terrorism. In the United States, the demand for security-related products and central station monitoring services also has grown steadily. We believe that there is continued heightened attention to and demand for security due to worldwide events, and the ensuing threat, or perceived threat, of criminal and terrorist activities. For these reasons, we expect that security will continue to be a key area of focus both domestically in the United States and abroad.

Demand for security officer services is dependent upon a number of factors, including, among other things, demographic trends, general economic variables such as growth in the gross domestic product, unemployment rates, consumer spending levels, perceived and actual crime rates, government legislation, terrorism sensitivity, war/external conflicts and technology.

RESULTS OF OPERATIONS

Earnings

Our net income for the fiscal years ended March 31, 2013 and 2012 was \$496,320 and \$140,760, respectively. Our net income was favorably impacted primarily by (i) the expansion of services provided under a contract with a major transportation company; (ii) expansion of aviation services with an existing customer at a domestic airport location; (iii) expansion of services to other new and existing security and aviation customers as noted below; (iv) a new contract to provide security services to an airport facility located in the upstate New York; lower amortization costs; and (v) lower interest expense. The increase in net income was partially offset by: (i) the previously reported loss of a security services contract for a semiconductor equipment manufacturer; (ii) reductions in service hours and rates coincident with the renewal of a contract with a major international carrier; (iii) the absence in the current period of two large airport construction contracts; (iv) reduction in service hours at a major hospital; (v) the loss of a service contract with a large international carrier in the fourth quarter of the prior fiscal year; (vi) an increase in general and administrative expenses primarily as a result of the previously announced and recently completed relocation and consolidation of the company's corporate headquarters to Herndon, VA; and (vii) an increase in income tax expense.

Revenues

Our revenues increased by \$8,660,798, or 6.1%, to \$150,218,967 for the fiscal year ended March 31, 2013, from \$141,558,169 in the prior year. The increase in revenues for the fiscal year ended March 31, 2013 was mainly due to: (i) expansion of services provided under a contract with a major transportation company of approximately \$2,200,000; (ii) expansion of aviation services with an existing customer at a domestic airport location of approximately \$4,900,000; (iii) expansion of services to new and existing security and aviation customers as noted above that resulted in aggregate revenues of approximately \$3,770,000 and (iv) a new contract to provide security services to an airport facility located in upstate New York of approximately \$700,000. The increase in revenues was partially offset by: (i) the previously reported loss of a security services contract for a semiconductor equipment manufacturer's facility of approximately \$382,000; (ii) reductions in service hours and rates of approximately \$422,000 associated with the renewal of a contract with a major international carrier; (iii) the absence in the current period of two large airport construction contracts of approximately \$1,139,000; (iv) reduction in service hours at a major hospital of approximately \$357,000 and (v) the loss of a service contract with a large international carrier in the fourth quarter of the prior fiscal year of approximately \$567,000.

Gross Profit

Our gross profit for the fiscal year ended March 31, 2013 increased \$2,457,027 to \$19,555,408 (13.0% of revenues) from \$17,098,381 (12.1% of revenues) for fiscal 2012. This positive result was primarily driven by: (i) expansion of services provided under a contract with a major transportation company; (ii) the expansion of aviation services with an existing customer at a domestic airport location; (iii) the expansion of services to new and existing security and aviation customers as noted above; (iv) a new contract to provide security services to an airport facility located in upstate New York and (v) the absence in the current year of professional and related fees principally associated with settlement of employment related claims in the comparable prior year. The increase in gross profit was partially offset by: (i) the previously reported loss of a security services contract for a semiconductor equipment manufacturers facility; (ii) reductions in service hours and rates associated with the renewal of a contract with a major international carrier; (iii) the absence in the current period of two large airport construction contracts, (iv) reduction in service hours at a major hospital and (v) the loss of a service contract with a large international carrier in the fourth quarter of the prior fiscal year.

We have an insurance policy covering workers' compensation claims in states in which we perform services. Estimated accrued liabilities are based on our historical loss experience and the ratio of claims paid to our historical payout profiles. Charges for estimated workers' compensation related losses incurred and included in cost of sales were \$2,903,270 and \$2,800,455 for the fiscal years ended March 31, 2013 and 2012, respectively.

The nature of our business also subjects us to claims or litigation alleging that we are liable for damages as a result of the conduct of our employees or others. We insure against such claims and suits through general liability policies with

third-party insurance companies. Our insurance coverage limits are currently \$1.0 million per occurrence for non-aviation related business (with additional umbrella and excess liability policies of \$5.0 million and \$10.0 million, respectively) and \$30.0 million per occurrence for aviation related business. We retain the risk for the first \$25,000 of general liability non-aviation related operations, \$50,000 on airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. Estimated accrued liabilities are based on specific reserves in connection with existing claims as determined by third party risk management consultants and actuarial factors and the timing of reported claims. These are all factored into estimated losses incurred but not yet reported to us.

General and Administrative Expenses

Our general and administrative expenses for the fiscal year ended March 31, 2013 increased by \$1,605,920 to \$17,496,639 (11.7% of revenues) from \$15,890,719 (11.2% of revenues) in fiscal 2012. The increase in general and administrative expenses resulted primarily from salaries and wages, mainly employee severance, duplicate personnel costs, duplicate facility costs and other expenses incurred in connection with our previously disclosed plan to consolidate and relocate our corporate headquarters to Herndon, VA. This relocation was completed in January 2013 and the total cost including the aforementioned items was approximately \$1.9 million. These increases were partly offset by lower amortization costs related to prior year acquisitions, lower legal costs and from reductions in other facility related costs.

Provision for Doubtful Accounts

The provision for doubtful accounts, net of recoveries, for the fiscal year ended March 31, 2013 increased by \$162,045 to \$389,616 from \$227,571 in fiscal 2012. The increase is due to the timing and amounts of uncollectible accounts charged and/or credited to expense between the current and prior year period and a reduction in bad debt recoveries. Bad debt recoveries for the years ending March 31, 2013 and March 31, 2012 were \$15,938 and \$74,846, respectively.

We periodically evaluate the requirement for providing for billing adjustments and/or credit losses on our accounts receivable. We provide for billing adjustments where our management determines that there is a likelihood of a significant adjustment for disputed billings. Criteria used by management to evaluate the adequacy of the allowance for doubtful accounts include, among others, the creditworthiness of the customer, current trends, prior payment performance, the age of the receivables and our overall historical loss experience. Individual accounts are charged off against the allowance as management deems them as uncollectible. We do not know if bad debts will increase in future periods nor does our management believe that the increase during the fiscal year ended March 31, 2013 compared with the same period of the prior year is necessarily indicative of a trend.

Interest Income

Interest income was comparable for the fiscal years ended March 31, 2013 and 2012, and principally represents interest earned on cash balances.

Interest Expense

Interest expense for the fiscal year ended March 31, 2013 decreased by \$122,032 to \$139,381 from \$261,413 in fiscal 2012. The decrease in interest expense was due to lower average outstanding borrowings under our credit agreement with Wells Fargo and reduced borrowing rates, as described below.

Equipment Dispositions

Equipment dispositions are a result of the sale of vehicles, office equipment and security equipment at prices above or below book value.

The \$7,211 and \$4,915 gain on equipment dispositions for the fiscal years ended March 31, 2013 and 2012, respectively, were primarily due to the disposition of Company vehicles at amounts in excess of their respective book values.

Loss/Gain on Sale of Investments

The \$167,958 loss on sale of investments for the fiscal year ended March 31, 2012 primarily represents carrying value in excess of proceeds for the sale of stock received under our claim related to the bankruptcy filings of Delta and Northwest Airlines in September 2005.

Provision for Income Taxes

The Company's effective income rate decreased by 6.9% to 67.8% for the fiscal year ended March 31, 2013 from 74.7% reported for fiscal 2012. Pretax income increased by \$981,560 to \$1,537,320 in the fiscal year ended March 31, 2013 from \$555,760 in fiscal 2012.

The provision for income taxes increased by \$626,000 to \$1,041,000 for the fiscal year ended March 31, 2013 from \$415,000 in fiscal 2012 primarily as a result of the aforementioned increase in pretax income, the recording of an allowance for the capital loss carry-forward and a deferred tax charge for removing deferred tax assets related to expired stock options which, at the applicable statutory rate, added \$405,000, \$55,000 and \$15,000 respectively, to the company's provision for income taxes. The remaining increase is related to non-deductible expenses and other adjustments.

LIQUIDITY AND CAPITAL RESOURCES

During fiscal 2012, we began paying employees and administrative service customers on a bi-weekly basis, except for one operating location at which employees are paid weekly, while customers pay for services generally within 60 days after billing by us. We maintain a commercial revolving loan arrangement, currently with Wells Fargo Bank, National Association ("Wells Fargo"). We fund our payroll and operations primarily through borrowings under our \$20.0 million credit facility with Wells Fargo (as amended, the "Credit Agreement"), described below under "—Wells Fargo Revolving Credit Facility."

We principally use short-term borrowings under our Credit Agreement to fund our accounts receivable. Our short-term borrowings have supported the accounts receivable associated with our organic growth. We intend to continue to use short-term borrowings to support our working capital requirements.

We believe that our existing funds, cash generated from operations, and existing sources of and access to financing are adequate to satisfy our working capital, capital expenditures and debt service requirements for the foreseeable future. However, we cannot assure you that this will be the case, and we may be required to obtain alternative or additional financing to maintain and expand our existing operations through the sale of our securities, an increase in the amount of available borrowings under our Credit Agreement, obtaining additional financing from other financial institutions or otherwise. The failure by us to obtain such financing, if needed, would have a material adverse effect upon our business, financial condition and results of operations.

Wells Fargo Revolving Credit Facility

On February 12, 2009, we entered into a \$20.0 million Credit Agreement with Wells Fargo. This Credit Agreement, which was amended in November 2012 as described below, matures in October 2016, and contains customary affirmative and negative covenants, including, among other things, covenants requiring us to maintain certain

financial ratios and is collateralized by customer accounts receivable and certain other assets of the Company as defined in the Credit Agreement.

The Credit Agreement provides for a letter of credit sub-line in an aggregate amount of up to \$3.0 million. The Credit Agreement also provides for interest to be calculated on the outstanding principal balance of the revolving loans at the Prime Rate (as defined in the Credit Agreement) plus 1.50%.

On November 6, 2012, we entered into a third amendment (the “Third Amendment”) to the Credit Agreement. The Third Amendment (i) allows for the Company to repurchase up to an additional \$2,000,000 of its common stock, subject to certain conditions; (ii) provides for the consent of Wells Fargo to the consolidation and relocation of the Company’s headquarters and (iii) amends a financial covenant of the Credit Agreement for certain expenses associated with the consolidation and relocation of the Company’s headquarters.

As of March 31, 2013, the interest rate was 2.0% for LIBOR loans and 2.125% for revolving loans. Closing costs for the Credit Agreement totaled \$314,706 and were amortized over the original three year term of the Credit Agreement which ended in February 2012. At March 31, 2013, we had \$6,500,000 in LIBOR loans, \$1,480,555 of revolving loans and \$202,807 under our letters of credit sub-line outstanding under the Credit Agreement, representing approximately 50% of the maximum borrowing capacity under the Credit Agreement based on our “eligible accounts receivable” (as defined under the Credit Agreement) as of such date.

We rely on our revolving loan from Wells Fargo which contains a fixed charge covenant and various other financial and non-financial covenants. If we breach a covenant, Wells Fargo has the right to immediately request the repayment in full of all borrowings under the Credit Agreement, unless Wells Fargo waives the breach. For the fiscal year ended March 31, 2013, we were in compliance with all covenants under the Credit Agreement. See “Notes to Financial Statements—Note 7 Borrowings.”

Other Borrowings

During the fiscal year ended March 31, 2013, we increased our LIBOR borrowings by \$1,500,000, increased our borrowings under the revolving loan by \$1,480,555 and decreased our insurance financing borrowing by \$1,329,174.

We may obtain short-term financing to meet our annual property and casualty insurance needs. For the fiscal years ended March 31, 2013 and 2012, \$998,770 and \$3,644,447, respectively, was borrowed for this purpose at annual interest rates of 2.3% during both years. At March 31, 2013 and 2012, we had \$501,777 and \$1,830,951, respectively, of short-term insurance borrowings outstanding. Such borrowings are collateralized by unearned premiums and dividends which may become payable under our insurance policies. We have no additional lines of credit other than as described above.

Cash Flows

The following table summarizes our cash flow activity for the fiscal years ended March 31, 2013 and 2012:

	2013	2012
Net cash provided (used) by operating activities	\$(2,210,177)	\$5,761,667
Net cash provided (used) by investing activities	134,482	(11,629)
Net cash provided (used) by financing activities	908,390	(8,037,690)

Investments and Capital Expenditures

We have no material commitments for investments and capital expenditures at this time.

Financing

The Company uses borrowings under its Credit Agreement to meet its working capital needs and may obtain short-term financing to meet its insurance needs. See “Wells Fargo Credit Facility” and “—Other Borrowings” above.

Working Capital

Our working capital increased by \$677,804, or 6.2%, to \$11,633,898 as of March 31, 2013, from \$10,956,094 as of March 31, 2012.

There were checks issued in advance of deposits (defined as checks drawn in advance of future deposits) of \$2,098,165 as of March 31, 2013, compared with \$884,095 at March 31, 2012. Cash balances and book overdrafts can fluctuate materially from day to day depending on such factors as collections, timing of billing and payroll dates, and are covered via advances from the revolving loan as checks are presented for payment.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that are currently material or reasonably likely to be material to our financial position or results of operations.

OUTLOOK

Strategic Initiatives

Our Board of Directors and management have initiated a number of strategic actions to improve the Company's performance. Craig P. Coy joined the Company as Chief Executive Officer on January 3, 2012. During the past year, we implemented strategic initiatives designed to further increase efficiencies across the organization and lower the overall cost structure. Key elements of the Company's on-going initiatives include:

- The consolidation of our corporate offices to a single office and streamlining of our management structure to integrate all of our functions into a common platform and deploy resources more efficiently was completed on February 15, 2013.

- Renewed focus on operational performance, including managing overtime, to improve our operating margins and service delivery capabilities.

- The upgrade and renewal of the Company's enterprise operating platform to improve business processes, enhance on-line management capabilities and provide improved management visibility into key performance metrics.

- Strategic new hires in the finance, operations, and human resources departments to continue to bring needed talent into the Company.

- An on-going process to expand our sales and marketing team with the hiring of additional sales executives and talent to maximize our marketing opportunities.

- On-going reviews of our market position and product and service offerings to ensure that "best in breed" capabilities are brought to market.

These strategic initiatives may result in future costs related to severance and other employee-related matters, litigation risks and expenses, and other costs. At this time we are unable to determine the scope of these potential costs.

Financial Results

Our future revenues will largely depend on our ability to gain additional business from new and existing customers in our security and aviation services divisions at acceptable margins while minimizing terminations of contracts with existing customers. In addition, our growth strategy involves the acquisition and integration of complementary businesses in order to increase our scale within certain geographical areas, increase market share in the markets in which we operate, enter new markets and improve our profitability. We intend to pursue acquisition opportunities for contract security officer businesses. Our ability to complete future acquisitions will depend on our ability to identify suitable acquisition candidates, negotiate acceptable terms for their acquisition and, if necessary, finance those acquisitions. Our security services division continues to experience organic growth over recent quarters and over the past few years, as demand for our security services has steadily increased. Our current focus is on increasing our revenues, as our sales and marketing team and branch managers' work to develop new business and retain profitable contracts. However, several of our airline and security services customers have reduced capacity within their systems,

which typically results in reductions of service hours provided by us to such customers. Also, competition from other security services companies impacts our ability to gain or maintain sales, gross margins and/or employees. Since September 11, 2001, the Department of Homeland Security and the Transportation Security Administration have implemented numerous security measures that affect airline operations, including expanded cargo and baggage screening, and may implement additional measures in the future. Additional measures taken to enhance either passenger or cargo security procedures in the future may increase the airline industry's demand for third party services provided by us. Additionally, our aviation services division is continually subject to such government regulation, which has adversely affected us in the past with the federalization of the pre-board screening services and the document verification process at several of our domestic airport locations.

Our gross profit margin increased during the fiscal year ended March 31, 2013 to 13.0% of revenues, compared with 12.1% for fiscal 2012. We expect our gross profit margins to average between 12.0% and 14.0% of revenue for fiscal year 2014 based on current business conditions. We expect gross profit to remain under pressure due primarily to continued price competition, including competition from companies that have substantially greater financial and other resources than we have. However, we expect these effects will be moderated by continued operational efficiencies resulting from better management and leveraging of our cost structures, improved workers' compensation experience ratings, workflow process efficiencies associated with our integrated financial software system and higher contributions from our continuing new business development.

As noted earlier, on February 12, 2009, we entered into a \$20.0 million Credit Agreement with Wells Fargo, which was amended on November 6, 2012, as described above. As of the close of business on June 14, 2013, our cash availability was approximately \$7,861,000, which we believe is sufficient to meet our needs for the foreseeable future barring any increase in reserves imposed by Wells Fargo. We believe that existing funds, cash generated from operations, and existing sources of and access to financing are adequate to satisfy our working capital, planned capital expenditures and debt service requirements for the foreseeable future, barring any increase in reserves imposed by Wells Fargo. However, we cannot assure you that this will be the case, and we may be required to obtain alternative or additional financing to maintain and expand our existing operations through the sale of our securities, an increase in the amount of available borrowings under our Credit Agreement, obtaining additional financing from other financial institutions or otherwise. The financial markets generally, and the credit markets in particular, continue to be volatile, both in the United States and in other markets worldwide. The current market situation has resulted generally in substantial reductions in available loans to a broad spectrum of businesses, increased scrutiny by lenders of the credit-worthiness of borrowers, more restrictive covenants imposed by lenders upon borrowers under credit and similar agreements and, in some cases, increased interest rates under commercial and other loans. If we require alternative or additional financing at this or any other time, we cannot assure you that such financing will be available upon commercially acceptable terms or at all. If we fail to obtain additional financing when and if required by us, our business, financial condition and results of operations would be materially adversely affected.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The information required by this item is incorporated herein by reference to the financial statements and schedule listed in Item 15 (a)(1) and (a)(2) of Part IV of this Form 10-K Annual Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, regarding the effectiveness of the design and operation of our “disclosure controls and procedures” (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this report. Based upon this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures as of March 31, 2013 have been designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms.

A controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) *Management's Report on Internal Control Over Financial Reporting.*

(a) Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act.

Under the supervision and with the participation of our management, we conducted an evaluation of the effectiveness of our internal control over financial reporting as of March 31, 2013 based on the framework in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation our management concluded that our internal control over financial reporting was effective as of March 31, 2013 and for the period then ended.

This Annual Report does not include an attestation report of our registered independent public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report.

There has been no change in our internal control over financial reporting identified in an evaluation thereof that (b) occurred during the fourth quarter of fiscal 2013 that materially affected or is reasonably likely to materially affect our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

The information required by this Item 10 will be set forth in our Proxy Statement for our 2013 Annual Meeting of Stockholders which is expected to be filed with the SEC within 120 days of the close of the our fiscal year ended March 31, 2013 (the “2013 Proxy Statement”) under the captions “Proposal One: Election of Directors,” “Information Concerning Executive Officers,” and “Board Meetings and Committees,” and is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by this Item 11 will be set forth in the 2013 Proxy Statement under the captions “Executive Compensation” and “Compensation Discussion and Analysis,” and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The information required by this Item 12 will be set forth in the 2013 Proxy Statement under the captions “Security Ownership of Certain Beneficial Owners and Management” and “Executive Compensation-Equity Compensation Plan Information,” and is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The information required by this Item 13 will be set forth in the 2013 Proxy Statement under the captions “Certain Relationships and Related Transactions” and “Board Meetings and Committees,” and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information required by this Item 14 will be set forth in the 2013 Proxy Statement under the caption “Proposal Two: Ratification of Appointment of Independent Registered Public Accountants,” and is incorporated herein by reference.

Report of Independent Registered

Public Accounting Firm

To the Board of Directors

and Stockholders of

Command Security Corporation

We have audited the accompanying balance sheets of Command Security Corporation as of March 31, 2013 and 2012, and the related statements of income and comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the two-year period ended March 31, 2013. Our audits also included the financial statement schedule II – Valuation and Qualifying Accounts. Command Security Corporation's management is responsible for these financial statements and the schedule. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Command Security Corporation as of March 31, 2013 and 2012, and the results of its operations and its cash flows for each of the years in the two-year period ended March 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Statements of Cash Flows, Continued

Years Ended March 31, 2013 and 2012

1. SUPPLEMENTAL DISCLOSURES OF CASH FLOWS INFORMATION

Cash paid during the years for:

	2013	2012
Interest	\$ 137,324	\$ 270,623
Income taxes	822,284	955,510

2. SUPPLEMENTAL DISCLOSURES OF NON-CASH INVESTING AND FINANCING ACTIVITIES

The Company may obtain short-term premium financing to assist with meeting its annual property and casualty insurance needs. For the fiscal years ended March 31, 2013 and 2012, \$998,770 and \$3,644,447, respectively, was financed for this purpose. These insurance premium financings have been excluded from the statements of cash flows presented.

For the fiscal year ended March 31, 2012, the Company received \$73,902 in marketable securities related principally to the bankruptcy filing of a security services customer. These amounts have been excluded from the operating activities on the statements of cash flows presented.

For the year ended March 31, 2012, the Company sold marketable securities for which the proceeds of \$261,299 were not received until subsequent to year end. This amount has been excluded from the operating and investing activities on the statements of cash flows presented.

See accompanying *Notes to Financial Statements*

Command Security Corporation

Notes to Financial Statements

March 31, 2013 and 2012

1. Business Description and Summary of Accounting Policies

The following is a description of the principal business activities and significant accounting policies employed by Command Security Corporation. In this discussion, the words "Company", "we", "our" and "us" refer to Command Security Corporation.

Principal Business Activities

We are a uniformed security officer service company operating in Arizona, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Hawaii, Idaho, Illinois, Indiana, Maine, Maryland, Massachusetts, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oregon, Pennsylvania, Rhode Island, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin and Wyoming.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. The estimates that we make include allowances for doubtful accounts, depreciation and amortization, income tax assets and insurance reserves. Estimates are based on historical experience, where applicable or other assumptions that our management believes are reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, our actual results may differ from those estimates under different assumptions or conditions.

Revenue Recognition

We record revenue as services are provided to our customers. Revenue relates primarily to the provision of aviation and security services, which are typically billed at hourly rates. These rates may vary depending on base, overtime and holiday time worked. Revenue for administrative services provided to police departments are calculated as a percentage of the administrative service customer's revenue and are recognized when billings for the related security services are generated. Revenue is reported net of applicable taxes.

Advertising Costs

We expense advertising and promotional costs as incurred. Amounts incurred for general business advertising and promotion were \$40,470 and \$68,160 for the fiscal years ended March 31, 2013 and 2012, respectively.

Cash and Cash Equivalents

We define cash and cash equivalents as operating cash (non-restricted) and highly liquid investments with maturities of ninety (90) days or less at the date of purchase. The carrying amounts of our cash equivalents approximate their fair values.

Accounts Receivables

We periodically evaluate the requirement for providing for billing adjustments and/or reflect the extent to which we will be able to collect our accounts receivable. We provide for billing adjustments where management determines that there is a likelihood of a significant adjustment for disputed billings. Criteria used by management to evaluate the adequacy of the allowance for doubtful accounts include, among others, the creditworthiness of the customer, current trends, prior payment performance, the age of the receivables and our overall historical loss experience. Individual accounts are charged off against the allowance as management deems them to be uncollectible.

Investments

We account for our investments in marketable securities in accordance with FASB ASC 320, *Debt and Equity Securities*. At March 31, 2013, we had no short-term investments. Other investments in marketable equity are classified as available-for-sale and reported in the consolidated balance sheets at fair value, with changes in fair value reported in accumulated other comprehensive income (loss) until realized. Realized gains and losses on sales of all these securities are reported in earnings, computed using the average cost method.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

Furniture and Equipment

Furniture and equipment are stated at cost. Depreciation is generally recorded using the straight-line method over estimated useful lives of the equipment ranging from three to seven years.

Intangible Assets

Intangible assets are stated at cost and consist primarily of customer lists and borrowing costs that are being amortized on a straight-line basis over a period of three to ten years, and goodwill, which is reviewed annually for impairment. The life assigned to customer lists acquired is based on management's estimate of our expected customer attrition rate. The attrition rate is estimated based on historical contract longevity and management's operating experience. We test for impairment annually or when events and circumstances warrant such a review, if earlier. Any potential impairment is evaluated based on anticipated undiscounted future cash flows and actual customer attrition in accordance with FASB ASC 360, *Property, Plant and Equipment*.

Insurance Reserves

General liability estimated accrued liabilities are calculated on an undiscounted basis based on actual claim data and estimates of incurred but not reported claims developed utilizing historical claim trends. Projected settlements and incurred but not reported claims are estimated based on pending claims, historical trends and related data.

Workers' compensation annual costs are comprised of premiums as well as incurred losses as determined at the end of the coverage period, subject to minimum and maximum amounts. Workers' compensation insurance claims and reserves include accruals of estimated settlements for known claims, as well as accruals of estimates for claims incurred but not yet reported as provided by a third party. In estimating these accruals, we consider historical loss experience and make judgments about the expected levels of costs per claim. We believe our estimates of future liability are reasonable based upon our methodology; however, changes in health care costs, accident frequency and severity and other factors could materially affect the estimate for these liabilities. The Company continually monitors changes in claim type and incident and evaluates the workers' compensation insurance accrual, making necessary adjustments based on the evaluation of these qualitative data points.

The Company is self-insured up to certain stop loss amounts for worker's compensation claims. The Company has purchased stop loss coverage that insures individual claims that exceed \$500,000. Additionally, the Company has purchased stop loss coverage that insures claims in the aggregate that exceed \$4,670,250 and \$4,065,750 for the policy years ended September 30, 2013 and 2012 respectively. The Company's workers' compensation insurance premiums (including loss handling expenses, loss fund deposits, surcharges & assessments and broker's fees) were \$3,024,312 and \$2,762,803 for the policy years ended September 30, 2013 and 2012, respectively.

Income Taxes

Income taxes are based on income (loss) for financial reporting purposes and reflect a current tax liability (asset) for the estimated taxes payable (recoverable) in the current year tax return and changes in deferred taxes. Deferred tax assets or liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax laws and rates. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the asset will not be realized.

We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. In the event that interest and/or penalties are assessed in connection with our tax filings, interest will be recorded as interest expense and penalties as selling, general and administrative expense. We did not have any unrecognized tax benefits as of March 31, 2013 and 2012.

Income Per Share

Under the requirements of FASB ASC 260, *Earnings Per Share*, the dilutive effect of potential common shares, if any, is excluded from the calculation for basic earnings per share. Diluted earnings per share are presented for the fiscal years ended March 31, 2013 and 2012 because of the effect the assumed issuance of common shares would have if the outstanding stock options were exercised.

Stock-Based Compensation

FASB ASC 718, *Stock Compensation*, requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values at grant date and the recognition of the related expense over the period in which the share-based compensation vests. We use the modified-prospective transition method. Under the modified-prospective transition method, we recognize compensation expense in our

financial statements issued subsequent to the date of adoption for all share-based payments granted, modified or settled. Non-cash charges of \$191,250 and \$160,730 for stock based compensation have been recorded for the years ended March 31, 2013 and 2012, respectively.

Fair Value of Financial Instruments

The carrying value of cash, accounts receivable, prepaid expenses, checks issued in advance of deposits, accounts payable and accrued expenses are reasonable estimates of the fair values because of their short-term maturity. The fair value of the Company's long-term debt is based on the borrowing rates currently available to the Company for loans and leases with similar terms and average maturities.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. FASB ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1, defined as observable inputs such as quoted prices in active markets for identical assets;
- Level 2, defined as observable inputs other than Level 1 prices such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3, defined as unobservable inputs in which little or no market data exists; therefore requiring an entity to develop its own assumptions.

Recent Accounting Pronouncements

In December 2011, the FASB issued updated authoritative guidance related to new disclosure requirements on offsetting financial assets and liabilities. The new rules require companies to disclose both gross and net information about instruments and transactions eligible for offset in the balance sheet as well as instruments and transactions subject to a netting arrangement. The updated authoritative guidance is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. We are currently evaluating the potential impact, if any, of the adoption of this updated authoritative guidance on our financial statement disclosures.

2. Furniture and Equipment

Furniture and equipment at March 31, 2013 and 2012 consist of the following:

	2013	2012
Transportation equipment	\$230,601	\$298,785
Security equipment	1,227,970	1,102,230
Office furniture and equipment	2,646,180	2,249,894

Edgar Filing: COMMAND SECURITY CORP - Form 10-K

	4,104,751	3,650,909
Accumulated depreciation	(3,435,218)	(3,265,245)
Total	\$669,533	\$385,664

Depreciation expense for the fiscal years ended March 31, 2013 and 2012, was \$246,488 and \$242,708, respectively, and includes amortization of assets purchased under capital lease arrangements in the amounts of \$35,547 and \$48,959 for each of the respective years then ended (see Note 14).

F-9

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

3. Intangible Assets

Intangible assets at March 31, 2013 and 2012 consist of the following:

	2013	2012
Customer list	\$4,274,914	\$4,673,860
Borrowing costs	—	314,706
Goodwill	895,258	895,258
Non-compete covenant	—	100,000
	5,170,172	5,983,824
Accumulated amortization	(2,606,856)	(2,592,003)
Total	\$2,563,316	\$3,391,821

Included in intangible assets for the fiscal years ended March 31, 2013 and 2012 is goodwill of \$895,258 that is not subject to amortization. Amortization expense for the fiscal years ended March 31, 2013 and 2012 was \$429,558 and \$581,565, respectively. Amortization expense for the years ending March 31, 2014, 2015, 2016, 2017, and 2018 for the intangible assets noted above will be \$398,838, \$398,838, \$398,838, \$336,384 and \$106,680 respectively.

4. Restricted Cash

Restricted cash represents deposits for the benefit of the Company's insurance carrier as collateral for workers' compensation claims.

5. Other Assets

Other assets at March 31, 2013 and 2012 consist of the following:

	2013	2012
Workers' compensation insurance	\$1,973,129	\$2,397,723
Other receivables	8,912	328,527
Security deposits	203,075	196,982
Deferred tax asset	3,279,558	2,729,032
	5,464,674	5,652,264
Current portion	(2,851,398)	(2,662,904)
Total non-current portion	\$2,613,276	\$2,989,360

The other asset workers' compensation insurance represents the net amount of the payments made to cover the workers' compensation insurance premium against the actual premium due as well as the difference in the amount deposited to the loss fund less the estimated workers' compensation claims and reserves related to the historical loss claims as well as the estimates related to the incurred but not reported claims. There is no offsetting claim liability reported as the Company has determined that there is a sufficient amount deposited into the loss funds to cover the estimated claims reserve as well as the estimate related to the incurred but not reported claims.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

6. Accrued Expenses and Other Liabilities

Accrued expenses and other liabilities at March 31, 2013 and 2012 consist of the following:

	2013	2012
Payroll and related expenses	\$6,875,575	\$5,343,982
Taxes and fees payable	825,933	486,726
Accrued interest payable	9,396	7,339
Other	1,391,104	685,023
Total	\$9,102,008	\$6,523,070

7. Borrowings

Short-term borrowings at March 31, 2013 and 2012 consist of the following:

	2013	2012
Line of credit	\$7,980,554	\$5,000,000
Insurance financing	501,777	1,830,951
Total	\$8,482,331	\$6,830,951

On February 12, 2009, we entered into a \$20.0 million, credit facility (the “Credit Agreement”) with Wells Fargo Bank, National Association (“Wells Fargo”). This credit facility, which was amended in November 2012 (see below), matures in October 2016, contains customary affirmative and negative covenants, including, among other things, covenants requiring us to maintain certain financial ratios and is collateralized by customer accounts receivable and certain other assets of the Company as defined in the Credit Agreement.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

The Credit Agreement provides for a letter of credit sub-line in an aggregate amount of up to \$3.0 million. The Credit Agreement also provided for interest to be calculated on the outstanding principal balance of the revolving loans at the prime rate (as defined in the Credit Agreement) plus 1.50%. For LIBOR loans, interest was calculated on the outstanding principal balance of the LIBOR loans at the LIBOR rate (as defined in the Credit Agreement) plus 1.75%.

On November 6, 2012, we entered into a third amendment (the “Third Amendment”) to our Credit Agreement. The Third Amendment (i) allows for the Company to repurchase up to an additional \$2,000,000 of its common stock, subject to certain conditions (ii) provides for the consent of Wells Fargo to the consolidation and relocation of the Company’s headquarters and (iii) amends a financial covenant of the Credit Agreement for certain expenses associated with the consolidation and relocation of the Company’s headquarters.

As of March 31, 2013 and 2012, we had borrowed \$6,500,000 and \$5,000,000, respectively, in LIBOR loans and had approximately \$1,480,555 of revolving loans outstanding at March 31, 2013. We had \$172,540 and \$202,807 of letters of credit outstanding under the letter of credit subline under the Credit Agreement. Total borrowings and letters of credit outstanding at March 31, 2013 and 2012, represented approximately 50% and 41% of the maximum borrowing capacity under the Credit Agreement based on our “eligible accounts receivable” (as defined under the Credit Agreement) as of such dates, respectively.

As of March 31, 2013 and 2012, the interest rate was 2.00% for LIBOR loans. At March 31, 2013, the interest rate on revolving loans was 2.125%. Closing costs for the Credit Agreement totaled \$314,706 and were amortized over the original three year term of the Credit Agreement which ended in February 2012.

We rely on our revolving loan from Wells Fargo, which contains a fixed charge covenant and various other financial and non-financial covenants. If we breach a covenant, Wells Fargo has the right to immediately request the repayment in full of all borrowings under the Credit Agreement, unless Wells Fargo waives the breach. For the fiscal year ended March 31, 2013, we were in compliance with all covenants under the Credit Agreement.

We may obtain short-term financing to meet our annual property and casualty insurance needs. For the fiscal years ended March 31, 2013 and 2012, \$998,770 and \$3,644,447, respectively, was borrowed for this purpose at annual interest rates of 2.3% for both years. At March 31, 2013 and 2012, we had \$501,777 and \$1,830,951, respectively, of short-term insurance borrowings outstanding. Such borrowings are collateralized by unearned premiums and dividends which may become payable under our insurance policies.

8. Income per Share

The following is a reconciliation of the numerators and the denominators of the basic and diluted per-share computations for net income for the fiscal years ended March 31, 2013 and 2012

	Income (Numerator)	Shares (Denominator)	Per-Share Amount
Year ended March 31, 2013			
Basic EPS	\$ 496,320	9,459,591	\$.05
Effect of dilutive shares:			
Options issued August 2004, May 2005, September 2006, January 2008, March 2011, June 2011, September 2011, January 2012, April 2012, August 2012, November 2012 and January 2013		149,804	
Diluted EPS	\$ 496,320	9,609,395	\$.05
Year ended March 31, 2012			
Basic EPS	\$ 140,760	10,703,881	\$.01
Effect of dilutive shares:			
Options issued August 2004, May 2005, September 2005, September 2006, April 2007, September 2007, January 2008, June 2008, September 2008, December 2008, April 2010, May 2010, July 2010, October 2010, March 2011, September 2011 and January 2012		94,860	
Diluted EPS	\$ 140,760	10,798,741	\$.01

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

9. Retirement Plans

In November 1999, we adopted a qualified retirement plan providing for elective employee deferrals and discretionary employer contributions to non-highly compensated participants. The plan was amended to allow for employer matching of elective deferrals, for certain employees working under a specific customer contracts, as defined. Our expense under this plan for the fiscal years ended March 31, 2013 and 2012 was \$165,702 and \$128,454, respectively.

10. Concentrations of Credit Risk

Geographic concentrations of credit risk with respect to trade receivables are primarily in California with 32% and 37% of total receivables as of March 31, 2013 and 2012, respectively, and in the New York Metropolitan area with 40% and 34% of total receivables as of March 31, 2013 and 2012, respectively. The remaining trade receivables consist of a large number of customers dispersed across many different geographic regions. During the fiscal years ended March 31, 2013 and 2012 we generated 39% and 40%, respectively, of our revenue from aviation and related services. Accounts receivables due from the commercial airline industry comprised 48% and 50% of net receivables as of March 31, 2013 and 2012. Our remaining customers are not concentrated in any specific industry except for a major express transportation company which as of and for the years ending March 31, 2013 and 2012, accounts for approximately 17% and 14% of our accounts receivable and 24% and 24% of revenues, respectively. We maintain our cash accounts in bank deposit accounts, which at times may exceed federally insured limits. We have not experienced any losses in such accounts. Company management believes the risk of loss associated with these accounts to be remote.

11. Significant Customers

We operate as a provider of security officer services to a wide range of industries which we have categorized into three groups; security officer services, aviation services and support services. The latter includes revenues from back office support to police departments.

Net revenues for the groups noted above were as follows for the two years ended March 31:

	2013	2012
Security Officer Services	\$91,720,960	\$84,944,275
Aviation Services	58,396,765	56,413,527
Other	101,242	200,367
Total	\$150,218,967	\$141,558,169

For the fiscal years ended March 31, 2013 and 2012, one security services customer accounted for approximately \$36,598,000 and \$34,412,000, respectively, of our total revenue.

12. Insurance Reserves

We have an insurance policy covering workers' compensation claims in states where we perform services. Estimated accrued liabilities are based on our historical loss experience and the ratio of claims paid to our historical payout profiles. Charges for estimated workers' compensation related losses incurred and included in cost of sales were \$2,903,270 and \$2,800,455, for the fiscal years ended March 31, 2013 and 2012, respectively.

The nature of our business also subjects us to claims or litigation alleging that we are liable for damages as a result of the conduct of our employees or others. We insure against such claims and suits through general liability policies with third-party insurance companies.

Our insurance coverage limits are currently \$1.0 million per occurrence for non-aviation related business (with additional umbrella and excess liability policies of \$5.0 million and \$10.0 million, respectively) and \$30.0 million per occurrence for aviation related business. We retain the risk for the first \$25,000 of general liability non-aviation related operations, \$50,000 on airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. Estimated accrued liabilities are based on specific reserves in connection with existing claims as determined by third party risk management consultants and actuarial factors and the timing of reported claims. These are all factored into estimated losses incurred but not yet reported to us.

Cumulative amounts estimated to be payable by us with respect to pending and potential claims for all years in which we are liable under our general liability retention and workers' compensation policies have been accrued as liabilities. Such accrued liabilities are necessarily based on estimates; accordingly, our ultimate liability may exceed or be less than the amounts accrued. The methods of making such estimates and establishing the resultant accrued liability are reviewed continually and any adjustments resulting therefrom are reflected in our current results of operations.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

13. Contingencies

The nature of our business is such that there is a significant volume of routine claims and lawsuits that are made against us, the vast majority of which never lead to the award of substantial damages. We maintain general liability and workers' compensation insurance coverage that we believe is appropriate to the relevant level of risk and potential liability that we face relating to these matters. Some of the claims brought against us could result in significant payments; however, the exposure to us under general liability non-aviation related operations is limited to the first \$25,000 per occurrence, \$50,000 on airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. Any punitive damage award would not be covered by the general liability insurance policy. The only other potential impact would be on future premiums, which may be adversely affected by an unfavorable claims history.

In addition to such cases, we have been named as a defendant in several uninsured employment related claims that are pending before various courts, the Equal Employment Opportunities Commission or various state and local agencies. We have instituted policies to minimize

these occurrences and monitor those that do occur. At this time, we are unable to determine the impact on the financial position and results of operations that these claims may have, should the investigations conclude that they are valid.

We have employment agreements with certain of our officers and key employees with terms which range from one to three years. The agreements generally provide for annual salaries and for salary continuation for a specified number of months under certain circumstances, including a change in control of the Company. Approximately 24% of our workforce is subject to collective bargaining agreements and all three of the currently active agreements are due to expire before March 31, 2014.

14. Commitments

Lease

We are obligated under various operating lease agreements for office space, equipment and auto rentals. Rent expense under operating lease agreements approximated \$2,192,808 and \$2,171,583, for the fiscal years ended March 31, 2013 and 2012, respectively.

We lease certain equipment and vehicles under agreements that are classified as capital leases. Most equipment leases have purchase options at the end of the original lease term. Cost and related accumulated depreciation of leased capital assets included in furniture and equipment at March 31, 2013 are \$875,082 and \$857,082 and at March 31, 2012 are \$875,082 and \$821,761, respectively.

There are no future minimum payments under long-term non-cancelable capital lease agreements. The future minimum payments under long-term non-cancelable operating lease agreements are as follows:

	Operating Leases
Year ending: March 31, 2014	\$1,620,036
March 31, 2015	1,201,569
March 31, 2016	593,021
March 31, 2017	430,455
March 31, 2018	451,284
Thereafter	2,596,495
Total	\$6,892,860

15. Stock Option Plans and Warrants

In November 2000, the Company's Board of Directors and stockholders approved the adoption of a qualified stock option plan. Under the stock option plan, substantially all employees are eligible to receive options to purchase up to an aggregate of 500,000 shares at an exercise price that cannot be less than the fair market value of the shares on the date the options are granted. In May 2010, options to purchase 205,000 shares of the Company's common stock were issued. No options may be granted under this plan after 2010. During the fiscal year ended March 31, 2013, the Company received proceeds of \$118,125 in connection with the exercise of stock options to purchase 87,500 shares of the Company's common stock at an exercise price of \$1.35 per share. No options were exercised during the year ended March 31, 2012. The outstanding options are exercisable at any time before May 23, 2015 and May 26, 2020 at \$1.49 and \$2.40 per share, respectively.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

In September 2005, the Company's Board of Directors and stockholders approved the adoption of a qualified stock incentive plan. Under the stock incentive plan, substantially all employees of and consultants to, the Company, are eligible to receive options to purchase up to an aggregate of 1,000,000 shares of the Company's common stock at an exercise price that cannot be less than the fair market value of the shares on the date the options are granted. In September and April 2007, options to purchase 80,000 and 65,000 shares of the Company's common stock were issued. During the fiscal year ending March 31, 2013, the Company received proceeds of \$20,658 in connection with the exercise of stock options to purchase 16,800 shares of the Company's common stock at an exercise price of \$1.21 and \$1.23 per share. The vested outstanding options are exercisable at any time before December 30, 2018 at \$3.08 per share, September 28, 2018 at \$3.37 per share, September 17, 2018 at \$3.36 per share, September 19, 2017 at \$3.19 per share, April 11, 2017 at \$3.00 per share, September 19, 2016 at \$2.67 per share, September 21, 2015 at \$2.05 per share, August 7, 2015 at \$1.23 per share and April 8, 2015 at \$1.21 per share, respectively.

In September 2009, the Company's Board of Directors and stockholders approved the adoption of a qualified stock incentive plan. Under the stock incentive plan, substantially all employees of and consultants to, the Company, are eligible to receive options to purchase up to an aggregate of 1,500,000 shares of the Company's common stock at an exercise price that cannot be less than the fair market value of the shares on the date the options are granted. In April, May, July and October 2010, options to purchase 116,283, 120,000, 31,624 and 74,616 shares of the Company's common stock were issued, respectively. In March, June and September 2011, options to purchase 169,683, 109,553 and 120,000 shares of the Company's common stock were issued. In January, April, August and November 2012, options to purchase 928,817 shares of the Company's common stock were issued. The vested outstanding options are exercisable at any time before January 16, 2023 at \$1.91 per share, November 26, 2022 at \$1.52 per share, April 4, 2022 at \$1.28 per share, January 2, 2022 at \$1.45, \$2.30 and \$3.00 per share, September 12, 2021 at \$1.42 per share, June 8, 2021 at \$1.50 per share, October 20, 2020 at \$2.01 per share, May 26, 2020 at \$2.40 per share, December 30, 2018 at \$3.08 per share, August 7, 2015 at \$1.23 per share, June 21, 2014 at \$1.60 per share, March 22, 2014 at \$1.85 per share, October 18, 2013 at \$2.05 per share, July 8, 2013 at \$2.11 per share and April 14, 2013 at \$2.59 per share, respectively.

On August 30, 2004, the Company issued stock options to its former President and Chief Financial Officer to purchase 500,000 shares of the Company's common stock of which 491,618 remain outstanding at an exercise price of \$1.35 per share. The options became fully vested during August 2007. The remaining outstanding options are exercisable at any time before September 28, 2013.

Certain of the option and warrant agreements contain anti-dilution adjustment clauses.

Edgar Filing: COMMAND SECURITY CORP - Form 10-K

A summary of activity related to all Company stock option activity for the years ended March 31, 2013 and 2012, is as follows:

	Options Exercise Price	Number of Shares
Outstanding at March 31, 2011	\$ 1.35 - 3.37	2,090,406
Issued	1.42 - 3.00	829,553
Forfeited	2.40 - 3.36	(159,871)
Outstanding at March 31, 2012	\$ 1.35 - \$3.37	2,760,088
Issued	1.21 - 1.91	835,828
Exercised	1.21 - 1.35	(104,300)
Forfeited	2.05 - 3.36	(95,000)
Outstanding at March 31, 2013	\$ 1.21 - \$3.37	3,396,616

At March 31, 2013 there were 3,396,616 options outstanding exercisable at prices ranging from \$1.21 to \$3.37 and 3,857,618 shares reserved for issuance under all stock arrangements. At March 31, 2013, there was \$239,911 of total unrecognized compensation expense from stock-based compensation granted under the plans, which is related to non-vested options. The compensation expense is expected to be recognized over a weighted average vesting period of 2.51 years.

Significant option groups outstanding and exercisable at March 31, 2013, and the related weighted average exercise price and life information are as follows:

Range of Exercise Price	Options Outstanding	Options Exercisable	Weighted Average Exercise Price	Weighted Average Remaining Life (years)
\$1.21 - \$3.37	3,396,616	2,643,483	\$ 2.06	5.4

The total intrinsic value of options outstanding as of March 31, 2013 amounted to \$726,623.

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

The weighted average estimated values of stock options granted during fiscal 2013 and 2012 were \$0.26 - \$0.52 and \$.29 - \$.36, respectively. The weighted average assumptions used in the Black-Scholes option-pricing model were as follows:

	2013	2012
Risk-free interest rate	0.68 - .82%	0.91 - 1.12%
Years until exercise	3.00 - 5.00	3.00 - 5.00
Volatility	27.3 - 29.0%	26.0 - 30.6%
Dividend yield	0.00%	0.00%
Termination rate	n/a	n/a

FASB ASC 718, *Stock Compensation*, requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values at grant date and the recognition of the related expense over the period in which the share-based compensation vest. The Company uses the modified-prospective transition method. Under the modified-prospective method, the Company recognizes compensation expense in the financial statements for all share-based payments granted, modified or settled.

The Company recorded total stock based compensation costs of \$191,250 and \$160,730 for the fiscal years ended March 31, 2013 and 2012, respectively.

16. Income Taxes

Net provision for income taxes for the fiscal years ended March 31 consists of the following:

	2013	2012
Current:		
Federal	\$1,312,000	\$663,000
State and local	280,000	142,000
	1,592,000	805,000
Deferred:		

Edgar Filing: COMMAND SECURITY CORP - Form 10-K

Federal	(454,000)	(320,000)
State and local	(97,000)	(70,000)
	(551,000)	(390,000)

Net provision for income taxes \$1,041,000 \$415,000

The differences (expressed as a percentage of pretax income) between the statutory federal income tax rate and the effective income tax rate as reflected in the accompanying statements of income are as follows:

	2013	2012
Statutory federal income tax rate	34.0%	34.0%
State and local income taxes	7.3%	7.3%
Permanent differences	9.9%	46.1%
Allowance for capital loss carry-forward	3.6%	-
Other	13.0%	(12.7%)
Effective tax rate	67.8%	74.7%

The permanent differences in our reconciliation of the effective tax rate for the years ended March 31, 2013 and 2012 are as follows:

	2013		2012	
Amortization of customer lists	\$219,471	5.9%	\$219,471	16.3%
Other nondeductible expenses	147,147	3.0%	165,400	12.3%
Deferred tax charge – expired stock options	36,483	1.0%	236,816	17.6%
Total	\$403,101	9.9%	\$621,687	46.1%

The permanent difference for amortization of customer lists arose through the acquisition of a business structured as a stock purchase. The Company amortizes the value of these customer lists for financial statement purposes, but is not allowed to deduct amortization of the customer lists for tax purposes. Other nondeductible expenses include meals, entertainment and penalties.

The deferred tax charge reverses deferred tax assets established when the stock options were expensed. The Company records an expense for financial statement purposes for the fair value of the options over the vesting period of the options, net of deferred taxes. For tax purposes, the Company is unable to deduct the expense related to the stock options unless, and until, the stock options are exercised. The tax deductibility is calculated as the difference between the option exercise price and the fair value of the stock on the date of exercise. When the tax deductible amount is less than the amount originally expensed for financial statement purposes, the difference must be expensed through a charge to deferred tax expense.

F-16

Command Security Corporation

Notes to Financial Statements, Continued March 31, 2013 and 2012

The significant components of deferred tax assets and liabilities as of March 31, 2013 and 2012 are as follows:

	2013	2012
Current deferred tax assets:		
Accounts receivable	\$318,536	\$240,344
Accrued expenses	550,821	180,513
Net current deferred tax assets	869,357	420,857
Non-current deferred tax assets (liabilities):		
Equipment	\$(249,770)	\$(142,243)
Intangible assets	310,342	264,129
Self-insurance	249,297	237,799
Workers compensation reserve	1,595,074	1,408,677
Capital loss carryforward	54,672	69,299
Employee stock compensation	505,258	470,514
Net non-current deferred tax assets	2,464,873	2,308,175
Allowance for deferred tax asset related to capital loss carry-forward	(54,672)	—
Total deferred tax assets	\$3,279,558	\$2,729,032

As of March 31, 2013, we have fully reserved for a capital loss carryforward in the amount of \$132,500 which the company no longer expects will reverse before the carryforward is due to expire unused in fiscal 2017.

Fiscal years 2010 through 2013 remain subject to examination by federal and state taxing authorities with certain states having open tax years beginning in fiscal 2009.

17. Related Party Transactions

Each of our non-employee directors receives from us an annual cash fee of \$18,000, paid quarterly in arrears. In addition, effective as of December 2008, our Chairman of the Board, Chairman of the Audit Committee and Chairman

of the Compensation Committee receive an additional cash payment of \$5,000 per annum. Non-employee directors are also paid \$1,000 per meeting attended of the board and certain of its committees. Effective October 1, 2011, the annual cash fee was increased to \$28,000, the fee for meetings attended was eliminated and annual stock option awards were increased to 25,000 options per fiscal year with an additional 10,000 options for chairpersons of the Audit and Compensation Committees of the Board.

Rent expense related to an affiliate principally owned by certain directors of the Company totaled \$60,000 for fiscal year ended March 31, 2012. The rent expense was derived from a month to month lease which terminated in April 2012. In addition, we paid brokerage commissions and fees related to our stock repurchase plan to an affiliate principally owned by certain directors of the Company totaling \$13,544 and \$24,282 for the fiscal year ended March 31, 2013 and March 31, 2012, respectively.

18. Issuer Purchases of Equity Securities

Under active stock repurchase programs, we may repurchase up to \$4,000,000 of our common stock on the open market. The par value of the shares repurchased is charged to common stock with the excess of the purchase price over par being charged against additional paid-in capital. Shares repurchased during December 2011 have been retired. Shares repurchased during February 2012 and December 2012 are being held in treasury. The program does not have a prescribed expiration date.

During the fiscal years ended March 31, 2013 and 2012, we repurchased shares of our common stock having a value of \$1,083,520 and \$1,975,353, respectively pursuant to active share repurchase programs. The number and average price of shares purchased to date under these programs is as set forth in the table below:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Amount Purchased as part of Publicly Announced Program	Maximum Amount that may yet be Purchased under the Program
December 8 - 16, 2011	136,600	\$ 1.52	\$ 208,363	\$ 1,791,637
February 13 - 21, 2012	1,075,000	\$ 1.64	\$ 1,975,353	\$ 24,647
December 1 - 31, 2012	677,200	\$ 1.60	\$ 3,058,873	\$ 941,127
	1,888,800	\$ 1.62
