

HALLMARK FINANCIAL SERVICES INC
Form 10-Q
November 07, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

Quarterly report pursuant to Section 13 or 15(d) of the
Securities Exchange Act of 1934

For the quarterly period ended September 30, 2016

Commission file number 001-11252

Hallmark Financial Services, Inc.

(Exact name of registrant as specified in its charter)

Nevada	87-0447375
(State or other jurisdiction of Incorporation or organization)	(I.R.S. Employer Identification No.)

777 Main Street, Suite 1000, Fort Worth, Texas	76102
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: (817) 348-1600

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: Common Stock, par value \$.18 per share – 18,611,982 shares outstanding as of November 7, 2016.

Hallmark Financial Services, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (Unaudited)

1. General

Hallmark Financial Services, Inc. (“Hallmark” and, together with subsidiaries, “we,” “us” or “our”) is an insurance holding company engaged in the sale of property/casualty insurance products to businesses and individuals. Our business involves marketing, distributing, underwriting and servicing our insurance products, as well as providing other insurance related services.

We pursue our business activities primarily through subsidiaries whose operations are organized into product-specific operating units that are supported by our insurance company subsidiaries. Our MGA Commercial Products operating unit offers commercial insurance products and services in the excess and surplus lines market. Our Specialty Commercial operating unit offers general aviation and satellite launch insurance products and services, low and middle market commercial umbrella and primary/excess liability insurance, medical professional liability insurance products and services, and primary/excess commercial property coverages for both catastrophe and non-catastrophe exposures. Our Standard Commercial P&C operating unit offers industry-specific commercial insurance products and services in the standard market. Our Workers Compensation operating unit specializes in small and middle market workers compensation business. Effective July 1, 2015, this operating unit no longer markets or retains any risk on new or renewal policies. Our Specialty Personal Lines operating unit offers non-standard personal automobile and renters insurance products and services. Our insurance company subsidiaries supporting these operating units are American Hallmark Insurance Company of Texas (“AHIC”), Hallmark Insurance Company (“HIC”), Hallmark Specialty Insurance Company (“HSIC”), Hallmark County Mutual Insurance Company, Hallmark National Insurance Company and Texas Builders Insurance Company.

These operating units are segregated into three reportable industry segments for financial accounting purposes. The Specialty Commercial Segment includes our MGA Commercial Products operating unit and our Specialty Commercial operating unit. The Standard Commercial Segment includes our Standard Commercial P&C operating unit and our Workers Compensation operating unit. The Personal Segment consists solely of our Specialty Personal Lines operating unit.

2. Basis of Presentation

Our unaudited consolidated financial statements included herein have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and include our accounts and the accounts of our subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial reporting. These unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2015 included in our Annual Report on Form 10-K filed with the SEC.

The interim financial data as of September 30, 2016 and 2015 is unaudited. However, in the opinion of management, the interim data includes all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results for the interim periods. The results of operations for the period ended September 30, 2016 are not necessarily indicative of the operating results to be expected for the full year.

Business Combinations

We account for business combinations using the acquisition method of accounting pursuant to Accounting Standards Codification (“ASC”) 805, “Business Combinations.” The base cash purchase price plus the estimated fair value of any non-cash or contingent consideration given for an acquired business is allocated to the assets acquired (including identified intangible assets) and liabilities assumed based on the estimated fair values of such assets and liabilities. The excess of the fair value of the total consideration given for an acquired business over the aggregate net fair values assigned to the assets acquired and liabilities assumed is recorded as goodwill. Contingent consideration is recognized as a liability at fair value as of the acquisition date with subsequent fair value adjustments recorded in the consolidated statements of operations. The valuation of contingent consideration requires assumptions regarding anticipated cash flows, probabilities of cash flows, discount rates and other factors. Significant judgment is employed in determining the propriety of these assumptions as of the acquisition date and for each subsequent period. Accordingly, future business and economic conditions, as well as changes in any of the assumptions, can materially impact the amount of contingent consideration expense we record in any given period. Indirect and general expenses related to business combinations are expensed as incurred.

Income Taxes

We file a consolidated federal income tax return. Deferred federal income taxes reflect the future tax consequences of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year end. Deferred taxes are recognized using the liability method, whereby tax rates are applied to cumulative temporary differences based on when and how they are expected to affect the tax return. Deferred tax assets and liabilities are adjusted for tax rate changes in effect for the year in which these temporary differences are expected to be recovered or settled.

Use of Estimates in the Preparation of the Financial Statements

Our preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect our reported amounts of assets and liabilities and our disclosure of contingent assets and liabilities at the date of our consolidated financial statements, as well as our reported amounts of revenues and expenses during the reporting period. Refer to “Critical Accounting Estimates and Judgments” under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015 for information on accounting policies that we consider critical in preparing our consolidated financial statements. Actual results could differ materially from those estimates.

Fair Value of Financial Instruments

Fair value estimates are made at a point in time based on relevant market data as well as the best information available about the financial instruments. Fair value estimates for financial instruments for which no or limited observable market data is available are based on judgments regarding current economic conditions, credit and interest rate risk. These estimates involve significant uncertainties and judgments and cannot be determined with precision. As a result, such calculated fair value estimates may not be realizable in a current sale or immediate settlement of the instrument. In addition, changes in the underlying assumptions used in the fair value measurement technique, including discount rate and estimates of future cash flows, could significantly affect these fair value estimates.

Cash and Cash Equivalents: The carrying amounts reported in the balance sheet for these instruments approximate their fair values.

Restricted Cash: The carrying amount for restricted cash reported in the balance sheet approximates the fair value.

Revolving Credit Facility Payable: A revolving credit facility with Frost Bank had a carried value of \$30.0 million and a fair value of \$30.2 million as of September 30, 2016. The fair value is based on discounted cash flows using a discount rate derived from LIBOR spot rates plus a market spread resulting in discount rates ranging between 3.3% to 3.7% for each future payment date. This revolving credit facility would be included in Level 3 of the fair value hierarchy if it was reported at fair value.

Subordinated Debt Securities: Our trust preferred securities have a carried value of \$55.7 million and a fair value of \$39.7 million as of September 30, 2016. The fair value of our trust preferred securities is based on discounted cash flows using a current yield to maturity of 8.0%, which is based on similar issues to discount future cash flows. Our trust preferred securities would be included in Level 3 of the fair value hierarchy if they were reported at fair value.

For reinsurance balances, premiums receivable, federal income tax payable, other assets and other liabilities, the carrying amounts approximate fair value because of the short maturity of such financial instruments.

Variable Interest Entities

On June 21, 2005, we formed Hallmark Statutory Trust I (“Trust I”), an unconsolidated trust subsidiary, for the sole purpose of issuing \$30.0 million in trust preferred securities. Trust I used the proceeds from the sale of these securities and our initial capital contribution to purchase \$30.9 million of subordinated debt securities from Hallmark. The debt securities are the sole assets of Trust I, and the payments under the debt securities are the sole revenues of Trust I.

On August 23, 2007, we formed Hallmark Statutory Trust II (“Trust II”), an unconsolidated trust subsidiary, for the sole purpose of issuing \$25.0 million in trust preferred securities. Trust II used the proceeds from the sale of these securities and our initial capital contribution to purchase \$25.8 million of subordinated debt securities from Hallmark. The debt securities are the sole assets of Trust II, and the payments under the debt securities are the sole revenues of Trust II.

We evaluate on an ongoing basis our investments in Trust I and Trust II (collectively the “Trusts”) and have determined that we do not have a variable interest in the Trusts. Therefore, the Trusts are not included in our consolidated financial statements.

We are also involved in the normal course of business with variable interest entities (“VIE’s”) primarily as a passive investor in mortgage-backed securities and certain collateralized corporate bank loans issued by third party VIE’s. The maximum exposure to loss with respect to these investments is the investment carrying values included in the consolidated balance sheets.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued guidance which revises the criteria for revenue recognition. Insurance contracts are excluded from the scope of the new guidance. Under the guidance, the transaction price is attributed to underlying performance obligations in the contract and revenue is recognized as the entity satisfies the performance obligations and transfers control of a good or service to the customer. Incremental costs of obtaining a contract may be capitalized to the extent the entity expects to recover those costs. The guidance is effective for reporting periods beginning after December 15, 2017 and is to be applied retrospectively. We are in the process of evaluating the impact of adoption, which is not expected to be material to our results of operations or financial position.

In February 2015, the FASB issued ASU 2015-02, "Amendments to the Consolidation Analysis" (Topic 810). ASU 2015-02 changes the analysis that a reporting entity must perform to determine whether entities should be consolidated if they are deemed variable interest entities. It is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2015. We have adopted this standard as of the effective date, and the adoption did not impact our financial statements.

In May 2015, the FASB issued guidance which requires additional disclosures about short-duration contracts for products in effect for typically a year or less. The disclosures will focus on the liability for unpaid claims and claim adjustment expenses. This guidance is effective for annual periods beginning after December 15, 2015 and interim periods within annual periods beginning after December 15, 2016. We are in the process of evaluating the impact of the adoption, which is not expected to be material to our results of operations or financial position.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which amends the guidance in Accounting Standards Codification Topic 835-30 "Interest-Imputation of Interest." ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. For public business entities, the guidance was effective for annual and interim periods beginning after December 15, 2015. We adopted this guidance effective January 1, 2016 and adjusted our prior period balances to reflect the adoption of this guidance.

3. Acquisitions, Dispositions and Business Combinations

During the third quarter of 2015 we paid \$1.2 million to the sellers of the subsidiaries comprising our Workers Compensation operating unit pursuant to the terms of the acquisition agreement. The sellers disputed the calculation of the amount paid and, pursuant to the terms of the acquisition agreement, an independent actuary was engaged to resolve this matter. In accordance with the report of the independent actuary, we accrued during the second quarter of 2016 and paid during the third quarter of 2016 an additional \$1.8 million to the sellers.

On June 30, 2015, Redpoint Comp Holdings LLC ("Purchaser") acquired exclusive renewal rights to our current in-force Texas workers compensation policies, together with certain physical assets associated with the administration of such in-force policies. In consideration for such renewal rights and physical assets, Purchaser assumed certain office lease obligations and offered employment to certain of our employees associated with the Workers Compensation operating unit. Purchaser also agreed to administer the run-off of all of our current workers compensation policies and claims for a period of three years. In connection with the transaction, we made a one-time payment to the Purchaser of \$83,000. We also agreed not to compete in the workers compensation line of insurance in the State of Texas (with certain exceptions) until after the assumed office lease obligations expire on October 31, 2017. We recorded a gain of \$0.2 million during the second quarter of 2015 in connection with the transaction.

On September 15, 2015, we executed Amendment No. 1 to the sale agreement with the Purchaser. Pursuant to the Amendment, the Purchaser agreed to pay us \$115,000 and administer the run-off of all of our workers compensation policies and claims in perpetuity or through final conclusion (rather than for three years as contemplated by the original agreement) in consideration of us assigning to Purchaser the commission on all unearned premiums on such policies as of July 1, 2015. We recorded an additional gain of \$0.4 million during the third quarter of 2015 as a result of this Amendment No.1.

4. Fair Value

ASC 820 defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. ASC 820, among other things, requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. In addition, ASC 820 precludes the use of block discounts when measuring the fair value of instruments traded in an active market, which were previously applied to large holdings of publicly traded equity securities.

We determine the fair value of our financial instruments based on the fair value hierarchy established in ASC 820. In accordance with ASC 820, we utilize the following fair value hierarchy:

Level 1: quoted prices in active markets for identical assets;

Level 2: inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, inputs of identical assets for less active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument; and

Level 3: inputs to the valuation methodology that are unobservable for the asset or liability.

This hierarchy requires the use of observable market data when available.

Under ASC 820, we determine fair value based on the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. It is our policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy described above. Fair value measurements for assets and liabilities where there exists limited or no observable market data are calculated based upon our pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other factors as appropriate. These estimated fair values may not be realized upon actual sale or immediate settlement of the asset or liability.

Where quoted prices are available on active exchanges for identical instruments, investment securities are classified within Level 1 of the valuation hierarchy. Level 1 investment securities include common and preferred stock.

Level 2 investment securities include corporate bonds, collateralized corporate bank loans, municipal bonds, and U.S. Treasury securities for which quoted prices are not available on active exchanges for identical instruments. We use

third party pricing services to determine fair values for each Level 2 investment security in all asset classes. Since quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other things. We have reviewed the processes used by the pricing services and have determined that they result in fair values consistent with the requirements of ASC 820 for Level 2 investment securities. We have not adjusted any prices received from the third party pricing services.

In cases where there is limited activity or less transparency around inputs to the valuation, investment securities are classified within Level 3 of the valuation hierarchy. Level 3 investments are valued based on the best available data in order to approximate fair value. This data may be internally developed and consider risk premiums that a market participant would require. Investment securities classified within Level 3 include other less liquid investment securities.

There were no transfers between Level 1 and Level 2 securities during the periods presented.

The following table presents for each of the fair value hierarchy levels, our assets that are measured at fair value on a recurring basis at September 30, 2016 and December 31, 2015 (in thousands):

	As of September 30, 2016			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
U.S. Treasury securities and obligations of U.S. Government	\$-	\$ 72,072	\$ -	\$72,072
Corporate bonds	-	207,701	-	207,701
Collateralized corporate bank loans	-	86,435	-	86,435
Municipal bonds	-	161,258	8,222	169,480
Mortgage-backed	-	65,103	-	65,103
Total debt securities	-	592,569	8,222	600,791
Total equity securities	48,571	-	265	48,836
Total debt and equity securities	\$48,571	\$ 592,569	\$ 8,487	\$649,627

	As of December 31, 2015			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
U.S. Treasury securities and obligations of U.S. Government	\$-	\$ 76,269	\$ -	\$76,269
Corporate bonds	-	121,709	-	121,709
Collateralized corporate bank loans	-	81,596	-	81,596
Municipal bonds	-	178,281	14,087	192,368
Mortgage-backed	-	59,383	-	59,383
Total debt securities	-	517,238	14,087	531,325

Total equity securities	47,504	-	-	47,504
Total debt and equity securities	\$47,504	\$ 517,238	\$ 14,087	\$578,829

Due to significant unobservable inputs into the valuation model for certain municipal bonds in illiquid markets, as of September 30, 2016 and December 31, 2015, and one equity security as of September 30, 2016, we classified these investments as Level 3 in the fair value hierarchy. We used an income approach in order to derive an estimated fair value of the municipal bonds classified as Level 3, which included inputs such as expected holding period, benchmark swap rate, benchmark discount rate and a discount rate premium for illiquidity. Changes in the unobservable inputs in the fair value measurement of these municipal bonds or equity security could result in a significant change in the fair value measurement.

The following table summarizes the changes in fair value for all financial assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the nine months ended September 30, 2016 and 2015 (in thousands):

Beginning balance as of January 1, 2016	\$ 14,087
Sales	-
Settlements	(6,025)
Purchases	-
Issuances	-
Total realized/unrealized gains included in net income	-
Net gains included in other comprehensive income	160
Transfers into Level 3	265
Transfers out of Level 3	-
Ending balance as of September 30, 2016	\$ 8,487
Beginning balance as of January 1, 2015	\$ 14,598
Sales	-
Settlements	(370)

Total realized/unrealized gains included in net income	-
Net losses included in other comprehensive income	(380)
Transfers into Level 3	-
Transfers out of Level 3	-
Ending balance as of September 30, 2015	\$ 13,848

5. Investments

The amortized cost and estimated fair value of investments in debt and equity securities by category is as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<u>As of September 30, 2016</u>				
U.S. Treasury securities and obligations of U.S. Government	\$ 71,891	\$ 181	\$ -	\$72,072
Corporate bonds	205,482	2,412	(193)	207,701
Collateralized corporate bank loans	86,115	447	(127)	86,435
Municipal bonds	169,553	2,006	(2,079)	169,480
Mortgage-backed	64,849	312	(58)	65,103
Total debt securities	597,890	5,358	(2,457)	600,791
Total equity securities	30,309	19,474	(947)	48,836
Total debt and equity securities	\$ 628,199	\$ 24,832	\$ (3,404)	\$649,627
<u>As of December 31, 2015</u>				
U.S. Treasury securities and obligations of U.S. Government	\$ 76,323	\$ 7	\$ (61)	\$76,269
Corporate bonds	122,894	637	(1,822)	121,709
Collateralized corporate bank loans	83,434	44	(1,882)	81,596
Municipal bonds	196,446	1,888	(5,966)	192,368
Mortgage-backed	59,532	155	(304)	59,383
Total debt securities	538,629	2,731	(10,035)	531,325
Total equity securities	24,951	23,391	(838)	47,504
Total debt and equity securities	\$ 563,580	\$ 26,122	\$ (10,873)	\$578,829

Major categories of net realized gains (losses) on investments are summarized as follows (in thousands):

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
U.S. Treasury securities and obligations of U.S. Government	\$-	\$-	\$-	\$-
Corporate bonds	(81)	-	(1)	-
Collateralized corporate bank loans	(98)	8	(116)	158
Municipal bonds	(97)	(12)	(165)	(54)
Mortgage-backed	(1)	-	(1)	240
Equity securities	1,382	32	1,872	5,537
Gain on investments	1,105	28	1,589	5,881
Other-than-temporary impairments	-	(363)	(2,888)	(2,193)
Net realized gains (losses)	\$1,105	\$(335)	\$(1,299)	\$3,688

We realized gross gains on investments of \$1.4 million and \$76 thousand during the three months ended September 30, 2016 and 2015, respectively, and \$2.1 million and \$6.0 million for the nine months ended September 30, 2016 and 2015, respectively. We realized gross losses on investments of \$0.3 million and \$48 thousand for the three months ended September 30, 2016 and 2015, respectively, and \$0.5 million and \$0.1 million for the nine months ended September 30, 2016 and 2015, respectively. We recorded proceeds from the sale of investment securities of \$5.4 million and \$0.8 million during the three months ended September 30, 2016 and 2015, respectively, and \$21.3 million and \$17.7 million for the nine months ended September 30, 2016 and 2015, respectively. Realized investment gains and losses are recognized in operations on the specific identification method.

The following schedules summarize the gross unrealized losses showing the length of time that investments have been continuously in an unrealized loss position as of September 30, 2016 and December 31, 2015 (in thousands):

	As of September 30, 2016					
	12 months or less		Longer than 12 months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Treasury securities and obligations of U.S. Government	\$-	\$ -	\$-	\$ -	\$-	\$ -
Corporate bonds	42,945	(164)	2,694	(29)	45,639	(193)
Collateralized corporate bank loans	10,252	(69)	11,381	(58)	21,633	(127)
Municipal bonds	16,102	(282)	16,897	(1,797)	32,999	(2,079)
Mortgage-backed	17,794	(42)	10,821	(16)	28,615	(58)
Total debt securities	87,093	(557)	41,793	(1,900)	128,886	(2,457)
Total equity securities	6,569	(364)	1,761	(583)	8,330	(947)

Total equity securities	6,584	(838)	-	-	6,584	(838)
Total debt and equity securities	\$291,131	\$ (5,269)	\$28,890	\$ (5,604)	\$320,021	\$ (10,873)

At September 30, 2016, the gross unrealized losses more than twelve months old were attributable to 33 debt security positions and one equity position. At December 31, 2015, the gross unrealized losses more than twelve months old were attributable to 39 debt security positions. We consider these losses as a temporary decline in value as they are predominately on bonds that we do not intend to sell and do not believe we will be required to sell prior to recovery of our amortized cost basis. We see no other indications that the decline in values of these securities is

other-than-temporary. We recognized \$2.9 million of other-than-temporary impairments for the nine months ended September 30, 2016 related to six municipal bond securities and two bank loans in the energy sector.

We complete a detailed analysis each quarter to assess whether any decline in the fair value of any investment below cost is deemed other-than-temporary. All securities with an unrealized loss are reviewed. We recognize an impairment loss when an investment's value declines below cost, adjusted for accretion, amortization and previous other-than-temporary impairments, and it is determined that the decline is other-than-temporary.

Debt Investments: We assess whether we intend to sell, or it is more likely than not that we will be required to sell, a fixed maturity investment before recovery of its amortized cost basis less any current period credit losses. For fixed maturity investments that are considered other-than-temporarily impaired and that we do not intend to sell and will not be required to sell, we separate the amount of the impairment into the amount that is credit related (credit loss component) and the amount due to all other factors. The credit loss component is recognized in earnings and is the difference between the investment's amortized cost basis and the present value of its expected future cash flows. The remaining difference between the investment's fair value and the present value of future expected cash flows is recognized in other comprehensive income.

Equity Investments: Some of the factors considered in evaluating whether a decline in fair value for an equity investment is other-than-temporary include: (1) our ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; (2) the recoverability of cost; (3) the length of time and extent to which the fair value has been less than cost; and (4) the financial condition and near-term and long-term prospects for the issuer, including the relevant industry conditions and trends, and implications of rating agency actions and offering prices. When it is determined that an equity investment is other-than-temporarily impaired, the security is written down to fair value, and the amount of the impairment is included in earnings as a realized investment loss. The fair value then becomes the new cost basis of the investment, and any subsequent recoveries in fair value are recognized at disposition. We recognize a realized loss when impairment is deemed to be other-than-temporary even if a decision to sell an equity investment has not been made. When we decide to sell a temporarily impaired available-for-sale equity investment and we do not expect the fair value of the equity investment to fully recover prior to the expected time of sale, the investment is deemed to be other-than-temporarily impaired in the period in which the decision to sell is made.

The amortized cost and estimated fair value of debt securities at September 30, 2016 by contractual maturity are as follows. Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties.

	Amortized Fair	
	Cost	Value
	(in thousands)	
Due in one year or less	\$81,699	\$81,687
Due after one year through five years	297,438	298,846
Due after five years through ten years	97,531	98,574
Due after ten years	56,373	56,581
Mortgage-backed	64,849	65,103
	\$597,890	\$600,791

6. Pledged Investments

We have pledged certain of our securities for the benefit of various state insurance departments and reinsurers. These securities are included with our available-for-sale debt securities because we have the ability to trade these securities. We retain the interest earned on these securities. These securities had a carrying value of \$21.2 million and \$17.6 million at September 30, 2016 and December 31, 2015, respectively.

7. Reserves for Unpaid Losses and Loss Adjustment Expenses

We recorded \$2.0 million of unfavorable prior years' net loss development during the three months ended September 30, 2016. We recorded \$0.8 million of favorable prior years' net loss development during the nine months ended September 30, 2016. For the year to date, the \$0.8 million of net favorable development was attributable to \$8.6 million net favorable development on claims incurred in the 2015 accident year, \$0.2 million net favorable development on claims incurred in the 2012 accident year, \$1.0 million net favorable development on claims incurred in the 2011 accident year and \$0.8 million net favorable development on claims incurred in the 2010 accident year, partially offset by \$2.8 million net unfavorable development on claims incurred during the 2014 accident year, \$5.7 million net unfavorable development on claims incurred during the 2013 accident year and \$1.3 million net unfavorable development on claims incurred in the 2009 and prior accident years. During the nine months ended September 30, 2016, our Standard Commercial P&C operating unit accounted for \$3.3 million of the net favorable development, our Workers Compensation operating unit accounted for \$3.0 million of the net favorable development, and our Specialty Commercial operating unit accounted for \$0.4 million of the net favorable development. These favorable developments were partially offset by net unfavorable development of \$3.6 million in our Specialty Personal Lines operating unit and \$2.3 million of net unfavorable development in our MGA Commercial Products operating unit.

The net favorable development for our Standard Commercial P&C operating unit of \$3.3 million was driven primarily by net favorable claims development in our general liability line of business in the 2015 and prior accident years, partially offset by net unfavorable claims development in our occupational accident line of business in the 2015, 2014 and 2013 accident years. The net favorable development of \$3.0 million for our Workers Compensation operating unit was attributable to the 2015 and prior accident years. The net favorable development of \$0.4 million in our Specialty Commercial operating unit consisted of \$0.2 million of net favorable development in our general aviation line of business, \$0.1 million of net favorable development in our commercial excess liability line of business and \$0.1 million of net favorable development in our medical professional liability line of business. The net unfavorable development for our Specialty Personal Lines operating unit of \$3.6 million was mostly attributable to the 2015, 2014 and 2013 accident years. The net unfavorable development of \$2.3 million in our MGA Commercial Products operating unit was primarily driven by net unfavorable development in our commercial auto liability and general liability lines of business in the 2014, 2013, 2012, 2009 and prior accident years, partially offset by net favorable development in the 2015, 2011 and 2010 accident years.

We recorded \$3.1 million of favorable prior years' net loss development during the three months ended September 30, 2015. We recorded \$4.6 million of favorable prior years' net loss development during the nine months ended September 30, 2015. For the year to date, the \$4.6 million of net favorable development was attributable to \$4.0 million net favorable development on claims incurred in the 2014 accident year and \$2.1 million net favorable development on claims incurred during the 2011 and prior accident years, partially offset by \$0.5 million net unfavorable development on claims incurred in the 2013 accident year and \$1.0 million net unfavorable development on claims incurred in the 2012 accident year. During the nine months ended September 30, 2015, our Standard Commercial P&C operating unit accounted for \$4.0 million of the net favorable development, our Workers Compensation operating unit accounted for \$0.8 million of the net favorable development, our MGA Commercial Products operating unit accounted for \$0.5 million of the net favorable development and our Specialty Commercial operating unit accounted for \$1.3 million of the net favorable development. These favorable developments were

partially offset by net unfavorable development of \$2.0 million in our Specialty Personal Lines operating unit.

The net favorable development for our Standard Commercial P&C operating unit of \$4.0 million was driven primarily by our general liability and commercial property lines of business in the 2014 and prior accident years. The net favorable development of \$0.8 million for our Workers Compensation operating unit was primarily attributable to the 2014 through 2011 accident years. The net favorable development of \$0.5 million in our MGA Commercial Products operating unit was primarily driven by net favorable development in our commercial auto liability and general liability lines of business. The net favorable development of \$1.3 million in our Specialty Commercial operating unit consisted of \$0.3 million of net favorable development in our commercial excess liability line of business, \$0.3 million in our professional medical liability products and \$0.7 million of net favorable development in our general aviation line of business. The net unfavorable development of \$2.0 million in our Specialty Personal Lines operating unit was primarily attributable to the 2014 and prior accident years.

8. Share-Based Payment Arrangements

Our 2005 Long Term Incentive Plan (“2005 LTIP”) is a stock compensation plan for key employees and non-employee directors that was initially approved by the shareholders on May 26, 2005 and expired by its terms on May 27, 2015. As of September 30, 2016, there were outstanding incentive stock options to purchase 447,574 shares of our common stock, non-qualified stock options to purchase 289,157 shares of our common stock and restricted stock units representing the right to receive up to 156,404 shares of our common stock. The exercise price of all such outstanding stock options is equal to the fair market value of our common stock on the date of grant.

Our 2015 Long Term Incentive Plan (“2015 LTIP”) was approved by shareholders on May 29, 2015. There are 2,000,000 shares authorized for issuance under the 2015 LTIP. As of September 30, 2016, restricted stock units representing the right to receive up to 319,572 shares of our common stock were outstanding under the 2015 LTIP. There were no stock option awards granted under the 2015 LTIP as of September 30, 2016.

Stock Options:

Incentive stock options granted under the 2005 LTIP prior to 2009 vest 10%, 20%, 30% and 40% on the first, second, third and fourth anniversary dates of the grant, respectively, and terminate five to ten years from the date of grant. Incentive stock options granted in 2009 vest in equal annual increments on each of the first seven anniversary dates and terminate ten years from the date of grant. One grant of 25,000 incentive stock options in 2010 vests in equal annual increments on each of the first three anniversary dates and terminates ten years from the date of grant. Non-qualified stock options granted under the 2005 LTIP generally vest 100% six months after the date of grant and terminate ten years from the date of grant. One grant of 200,000 non-qualified stock options in 2009 vests in equal annual increments on each of the first seven anniversary dates and terminates ten years from the date of grant.

A summary of the status of our stock options as of September 30, 2016 and changes during the nine months then ended is presented below:

	Number of Shares	Weighted Average Exercise Price	Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (\$000)
Outstanding at January 1, 2016	869,113	\$ 9.51		
Granted	-			

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

Exercised	(70,000)	6.66		
Forfeited or expired	(62,382)	\$ 11.58		
Outstanding at September 30, 2016	736,731	\$ 9.60	1.8	\$ 1,226
Exercisable at September 30, 2016	736,731	\$ 9.60	1.8	\$ 1,226

The following table details the intrinsic value of options exercised, total cost of share-based payments charged against income before income tax benefit and the amount of related income tax benefit recognized in income for the periods indicated (in thousands):

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Intrinsic value of options exercised	\$250	\$ 5	\$250	\$387
Cost of share-based payments (non-cash)	\$-	\$ 38	\$38	\$118
Income tax benefit of share-based payments recognized in income	\$-	\$ 8	\$8	\$23

As of September 30, 2016, there was no unrecognized compensation cost related to non-vested stock options granted under our plans which is expected to be recognized in the future.

The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes option pricing model. Expected volatilities are based on the historical volatility of Hallmark's and similar companies' common stock for a period equal to the expected term. The risk-free interest rates for periods within the contractual term of the options are based on rates for U.S. Treasury Notes with maturity dates corresponding to the options' expected lives on the dates of grant. Expected term is determined based on the simplified method as we do not have sufficient historical exercise data to provide a basis for estimating the expected term. There were no stock options granted during the first nine months of 2016 or 2015.

Restricted Stock Units:

The 2005 LTIP was amended by the stockholders on May 30, 2013 to authorize the grant of restricted stock units, in addition to the other types of awards available thereunder. Restricted stock units awarded under the 2005 LTIP represent the right to receive shares of common stock upon the satisfaction of vesting requirements, performance criteria and other terms and conditions. On July 27, 2012 and April 10, 2013, an aggregate of 129,463 and 122,823 restricted stock units, respectively, were conditionally granted to certain of our employees subject to shareholder approval of the amendments to the 2005 LTIP at the May 30, 2013 shareholder meeting. One conditional grant of 9,280 restricted stock units was forfeited prior to approval at the shareholder meeting. Subsequently on September 8, 2014, an aggregate of 175,983 restricted stock units were granted to certain employees. On May 29, 2015, an aggregate of 103,351 restricted stock units were granted to certain employees under the 2015 LTIP. Subsequently on

July 22, 2016, an aggregate of 122,770 restricted stock units were granted to certain employees under the 2015 LTIP.

The performance criteria for all restricted stock units require that we achieve certain compound average annual growth rates in book value per share over the vesting period in order to receive shares of common stock in amounts ranging from 50% to 150% of the number of restricted stock units granted. In addition, certain restricted stock units contain an additional performance criteria related to the attainment of an average combined ratio percentage over the vesting period. Grantees of restricted stock units do not have any rights of a stockholder, and do not participate in any distributions to our common stockholders, until the award fully vests upon satisfaction of the vesting schedule, performance criteria and other conditions set forth in their award agreement. Therefore, unvested restricted stock units are not considered participating securities under ASC 260, "Earnings Per Share," and are not included in the calculation of basic or diluted earnings per share.

On April 1, 2015, 8,616 shares of common stock were issued with respect to 8,616 restricted stock units which were granted on July 27, 2012 and vested on March 31, 2015. On April 1, 2016, 7,144 shares of common stock were issued with respect to 7,144 restricted stock units which were granted on April 10, 2013 and vested on March 31, 2016. If and to the extent specified performance criteria have been achieved, the restricted stock units granted on September 8, 2014 (except for one grant) will vest on March 31, 2017, one grant of restricted stock units granted on September 8, 2014 will vest on March 31, 2018, the restricted stock units granted on May 29, 2015 will vest on March 31, 2018 and the restricted stock units granted on July 22, 2016 will vest on March 31, 2019.

Compensation cost is measured as an amount equal to the fair value of the restricted stock units on the date of grant and is expensed over the vesting period if achievement of the performance criteria is deemed probable, with the amount of the expense recognized based on our best estimate of the ultimate achievement level. The grant date fair value of the restricted stock units granted in 2012 and 2013 is \$9.20 per unit. The grant date fair value of the restricted stock units granted in 2014 is \$9.66 per unit. The grant date fair value of the restricted stock units granted in 2015 is \$11.10 per unit. The grant date fair value of the restricted stock units granted in 2016 is \$11.41 per unit. We incurred compensation (benefit) expense of (\$249) thousand and (\$59) thousand related to restricted stock units during the three and nine months ended September 30, 2016. We incurred compensation (benefit) expense of (\$49) thousand and \$408 thousand related to restricted stock units during the three and nine months ended September 30, 2015. We recorded income tax (expense) benefit of (\$88) thousand and (\$21) thousand related to restricted stock units during the three and nine months ended September 30, 2016. We recorded income tax (expense) benefit of (\$17) thousand and \$143 thousand related to restricted stock units during the three and nine months ended September 30, 2015.

A summary of the status of our restricted stock units as of September 30, 2016 and changes during the nine months then ended is presented below:

	Number of Restricted Stock Units
Non-vested at January 1, 2016	296,571
Granted	122,770
Vested	(7,144)
Forfeited	(94,880)
Non-vested at September 30, 2016	317,317

As of September 30, 2016, there was \$1.4 million of total unrecognized compensation cost related to unvested restricted stock units granted under our 2005 LTIP and 2015 LTIP, of which \$0.2 million is expected to be recognized during the remainder of 2016, \$0.6 million is expected to be recognized in 2017, \$0.5 million is expected to be recognized in 2018 and \$0.1 million is expected to be recognized in 2019.

9. Segment Information

The following is business segment information for the three and nine months ended September 30, 2016 and 2015 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2016	2015	September 30, 2016	2015
Revenues:				
Specialty Commercial Segment	\$65,855	\$63,395	\$189,478	\$188,070
Standard Commercial Segment	18,253	18,477	54,464	58,941
Personal Segment	12,759	12,716	36,996	33,096
Corporate	751	(904)	(2,240)	2,224
Consolidated	\$97,618	\$93,684	\$278,698	\$282,331
Pre-tax income (loss):				
Specialty Commercial Segment	\$8,245	\$11,291	\$25,843	\$28,739
Standard Commercial Segment	3,195	2,893	7,623	7,247
Personal Segment	(1,750)	(224)	(3,847)	(596)
Corporate	(2,514)	(4,125)	(14,967)	(8,591)
Consolidated	\$7,176	\$9,835	\$14,652	\$26,799

The following is additional business segment information as of the dates indicated (in thousands):

	September 30, 2016	December 31, 2015
Assets		
Specialty Commercial Segment	\$719,214	\$660,263
Standard Commercial Segment	161,943	156,722
Personal Segment	238,836	239,632
Corporate	19,090	18,930
	\$1,139,083	\$1,075,547

10. Reinsurance

We reinsure a portion of the risk we underwrite in order to control the exposure to losses and to protect capital resources. We cede to reinsurers a portion of these risks and pay premiums based upon the risk and exposure of the policies subject to such reinsurance. Ceded reinsurance involves credit risk and is generally subject to aggregate loss limits. Although the reinsurer is liable to us to the extent of the reinsurance ceded, we are ultimately liable as the direct insurer on all risks reinsured. Reinsurance recoverables are reported after allowances for uncollectible amounts. We monitor the financial condition of reinsurers on an ongoing basis and review our reinsurance arrangements periodically. Reinsurers are selected based on their financial condition, business practices and the price of their product offerings. In order to mitigate credit risk to reinsurance companies, most of our reinsurance recoverable balance as of September 30, 2016 was with reinsurers that had an A.M. Best rating of “A-” or better.

The following table shows earned premiums ceded and reinsurance loss recoveries by period (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Ceded earned premiums	\$44,733	\$38,435	\$124,832	\$105,367
Reinsurance recoveries	\$29,954	\$23,507	\$78,323	\$66,796

11. Revolving Credit Facility

Our Second Restated Credit Agreement with Frost Bank (“Frost”) dated June 30, 2015, reinstated the credit facility with Frost which expired by its terms on April 30, 2015. The Second Restated Credit Agreement also amended certain provisions of the credit facility and restated the agreement with Frost in its entirety. The Second Restated Credit Agreement provides a \$15.0 million revolving credit facility (“Facility A’), with a \$5.0 million letter of credit sub-facility. The outstanding balance of the Facility A bears interest at a rate equal to the prime rate or LIBOR plus 2.5%, at our election. We pay an annual fee of 0.25% of the average daily unused balance of Facility A and letter of credit fees at the rate of 1.00% per annum. As of September 30, 2016, we had no outstanding borrowings under Facility A.

On December 17, 2015, we entered into a First Amendment to Second Restated Credit Agreement and a Revolving Facility B Agreement (the “Facility B Agreement”) with Frost to provide a new \$30.0 million revolving credit facility (“Facility B”), in addition to Facility A. On November 1, 2016, we amended the Facility B Agreement with Frost to extend by one year the termination date for draws under Facility B and the maturity date for amounts outstanding thereunder. We paid Frost a commitment fee of \$75,000 when Facility B was established and an additional \$30,000 fee when Facility B was extended.

We may use Facility B loan proceeds solely for the purpose of making capital contributions to AHIC and HIC. As amended, we may borrow, repay and reborrow under Facility B until December 17, 2018, at which time all amounts outstanding under Facility B are converted to a term loan. Through December 17, 2018, we pay Frost a quarterly fee of 0.25% per annum of the average daily unused balance of Facility B. Facility B bears interest at a rate equal to the prime rate or LIBOR plus 3.00%, at our election. Until December 17, 2018, interest only on amounts from time to time outstanding under Facility B are payable quarterly. Any amounts outstanding on Facility B as of December 17, 2018 are converted to a term loan payable in quarterly installments over five years based on a seven year amortization of principal plus accrued interest. All remaining principal and accrued interest on Facility B become due and payable on December 17, 2023. As of September 30, 2016, we had \$30.0 million outstanding under Facility B.

The obligations under both Facility A and Facility B are secured by a security interest in the capital stock of AHIC and HIC. Both Facility A and Facility B contain covenants that, among other things, require us to maintain certain financial and operating ratios and restrict certain distributions, transactions and organizational changes. As of September 30, 2016, we were in compliance with all of these covenants.

12. Subordinated Debt Securities

On June 21, 2005, we entered into a trust preferred securities transaction pursuant to which we issued \$30.9 million aggregate principal amount of subordinated debt securities due in 2035. To effect the transaction, we formed Trust I as a Delaware statutory trust. Trust I issued \$30.0 million of preferred securities to investors and \$0.9 million of common securities to us. Trust I used the proceeds from these issuances to purchase the subordinated debt securities. The initial interest rate on our Trust I subordinated debt securities was 7.725% until June 15, 2015, after which interest adjusts quarterly to the three-month LIBOR rate plus 3.25 percentage points. Trust I pays dividends on its preferred securities at the same rate. Under the terms of our Trust I subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of September 30, 2016, the principal balance of our Trust I subordinated debt was \$30.9 million and the interest rate was 4.10% per annum.

On August 23, 2007, we entered into a trust preferred securities transaction pursuant to which we issued \$25.8 million aggregate principal amount of subordinated debt securities due in 2037. To effect the transaction, we formed Trust II as a Delaware statutory trust. Trust II issued \$25.0 million of preferred securities to investors and \$0.8 million of common securities to us. Trust II used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust II subordinated debt securities bear an initial interest rate of 8.28% until September 15, 2017, at which time interest will adjust quarterly to the three-month LIBOR rate plus 2.90 percentage points. Trust II pays dividends on its preferred securities at the same rate. Under the terms of our Trust II subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of September 30, 2016, the principal balance of our Trust II subordinated debt was \$25.8 million.

13. Deferred Policy Acquisition Costs

The following table shows total deferred and amortized policy acquisition cost activity by period (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Deferred	\$(15,233)	\$(10,977)	\$(35,949)	\$(18,698)
Amortized	15,156	11,177	35,614	18,334
Net	\$(77)	\$200	\$(335)	\$(364)

14. Earnings per Share

The following table sets forth basic and diluted weighted average shares outstanding for the periods indicated (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Weighted average shares - basic	18,617	19,203	18,835	19,233
Effect of dilutive securities	186	179	174	182
Weighted average shares - assuming dilution	18,803	19,382	19,009	19,415

For the three and nine months ended September 30, 2016, 385,000 shares of common stock potentially issuable upon the exercise of employee stock options were excluded from the weighted average number of shares outstanding on a diluted basis because the effect of such options would be anti-dilutive. For the three and nine months ended September 30, 2015, 504,999 shares of common stock potentially issuable upon the exercise of employee stock options were excluded from the weighted average number of shares outstanding on a diluted basis because the effect of such options would be anti-dilutive.

15. Net Periodic Pension Cost

The following table details the net periodic pension cost incurred by period (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Interest cost	\$128	\$129	\$384	\$388
Amortization of net loss	28	26	85	78
Expected return on plan assets	(162)	(175)	(485)	(526)
Net periodic pension cost	\$(6)	\$(20)	\$(16)	\$(60)
Contributed amount	\$409	\$-	\$409	\$-

Refer to Note 14 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2015 for more discussion of our retirement plans.

16. Income Taxes

Our effective income tax rate for the first nine months ended September 30, 2016 and 2015 was 30.5% and 31.3%, respectively. The rates varied from the statutory tax rate primarily due to the amount of tax exempt income in relation to total pre-tax income.

17. Commitments and Contingencies

We are engaged in various legal proceedings in the ordinary course of business, none of which, either individually or in the aggregate, are believed likely to have a material adverse effect on our consolidated financial position or results of operations, in the opinion of management. The various legal proceedings to which we are a party are routine in nature and incidental to our business.

In November 2015, one of the subsidiaries in our MGA Commercial operating unit, Hallmark Specialty Underwriters, Inc. ("HSU"), was informed by the Texas Comptroller of Public Accounts that a surplus lines tax audit covering the period January 1, 2010 through December 31, 2013 was complete. HSU frequently acts as a managing general underwriter ("MGU") authorized to underwrite policies on behalf of Republic Vanguard Insurance Company and HSIC, both Texas eligible surplus lines insurance carriers. In its role as the MGU, HSU underwrites policies on behalf of these carriers while other agencies located in Texas (generally referred to as "producing agents") deliver the policies to the insureds and collect all premiums due from the insureds. During the period under audit, the producing agents also collected the surplus lines premium taxes due on the policies from the insureds, held them in trust, and timely remitted those taxes to the Comptroller. We believe this system for collecting and paying the required surplus lines premium taxes complies in all respects with the Texas Insurance Code and other regulations, which clearly require that the same party who delivers the policies and collects the premiums will also collect premium taxes, hold premium taxes in trust, and pay premium taxes to the Comptroller. It also complies with long standing industry practice. In addition, effective January 1, 2012 the Texas legislature enacted House Bill 3410 (HB3410) which allows an MGU to contractually pass the collection, payment and administration of surplus lines taxes down to another Texas licensed surplus line agent.

The Comptroller has asserted that HSU is liable for the surplus lines premium taxes related to policy transactions and premiums collected from surplus lines insureds during January 1, 2010 through December 31, 2011, the period prior to the passage of HB3410, and that HSU therefore owes \$2.5 million in premium taxes, as well as \$0.7 million in penalties and interest for the audit period.

We disagree with the Comptroller and intend to vigorously fight their assertion that HSU is liable for the surplus lines premium taxes. We are currently in negotiations with the Comptroller to settle the matter. However, we are presently unable to reasonably estimate the possible loss or legal costs that are likely to arise out of the surplus lines tax audit or

any future proceedings relating to this matter. Therefore we have not accrued any amount as of September 30, 2016 related to this matter.

18. Changes in Accumulated Other Comprehensive Income Balances

The changes in accumulated other comprehensive income balances as of September 30, 2016 and 2015 were as follows (in thousands):

	Minimum Pension Liability	Unrealized Gains (Loss)	Accumulated Other Comprehensive Income
Balance at December 31, 2014	\$ (2,600)	\$ 20,401	\$ 17,801
Other comprehensive income :			
Change in net actuarial gain	78	-	78
Tax effect on change in net actuarial gain	(27)	-	(27)
Net unrealized holding losses arising during the period	-	(7,858)	(7,858)
Tax effect on unrealized losses arising during the period	-	2,750	2,750
Reclassification adjustment for gains included in net realized gains	-	(5,881)	(5,881)
Tax effect on reclassification adjustment for gains included in income tax expense	-	2,058	2,058
Other comprehensive income (loss), net of tax	51	(8,931)	(8,880)
Balance at September 30, 2015	\$ (2,549)	\$ 11,470	\$ 8,921
Balance at December 31, 2015	\$ (2,572)	\$ 9,990	\$ 7,418
Other comprehensive income :			
Change in net actuarial gain	85	-	85
Tax effect on change in net actuarial gain	(30)	-	(30)
Net unrealized holding gains arising during the period	-	7,767	7,767
Tax effect on unrealized gains arising during the period	-	(2,718)	(2,718)
Reclassification adjustment for gains included in net realized gains	-	(1,589)	(1,589)
Tax effect on reclassification adjustment for gains included in income tax expense	-	556	556
Other comprehensive income, net of tax	55	4,016	4,071
Balance at September 30, 2016	\$ (2,517)	\$ 14,006	\$ 11,489

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read together with our consolidated financial statements and the notes thereto. This discussion contains forward-looking statements. Please see "Risks Associated with Forward-Looking Statements in this Form 10-Q" for a discussion of some of the uncertainties, risks and assumptions associated with these statements.

Introduction

Hallmark Financial Services, Inc. ("Hallmark" and, together with subsidiaries, "we," "us" or "our") is an insurance holding company that, through its subsidiaries, engages in the sale of property/casualty insurance products to businesses and individuals. Our business involves marketing, distributing, underwriting and servicing our insurance products, as well as providing other insurance related services. Our business is geographically concentrated in the south central and northwest regions of the United States, except for our Specialty Commercial business which is written on a national basis. We pursue our business activities through subsidiaries whose operations are organized into product-specific operating units, which are supported by our insurance company subsidiaries.

Our non-carrier insurance activities are segregated by operating units into the following reportable segments:

Specialty Commercial Segment. Our Specialty Commercial Segment includes the excess and surplus lines commercial property/casualty insurance products and services handled by our MGA Commercial Products operating unit and the general aviation, satellite launch, commercial umbrella and primary/excess liability, medical professional liability and primary/excess commercial property insurance products and services handled by our Specialty Commercial operating unit, as well as certain specialty risk programs which are managed at the parent level.

Standard Commercial Segment. Our Standard Commercial Segment includes the standard lines commercial property/casualty and occupational accident insurance products and services handled by our Standard Commercial P&C operating unit and the workers compensation insurance products handled by our Workers Compensation operating unit. During 2015, we discontinued our workers' compensation line of business by transferring all renewal rights and ceding substantially all unearned premiums to a third party. As a result, effective July 1, 2015, the Workers Compensation operating unit no longer retains any risk on new or renewal policies.

Personal Segment. Our Personal Segment includes the non-standard personal automobile and renters insurance products and services handled by our Specialty Personal Lines operating unit.

The retained premium produced by these reportable segments is supported by our American Hallmark Insurance Company of Texas (“AHIC”), Hallmark Specialty Insurance Company (“HSIC”), Hallmark Insurance Company (“HIC”), Hallmark National Insurance Company (“HNIC”) and Texas Builders Insurance Company (“TBIC”) insurance subsidiaries. In addition, control and management of Hallmark County Mutual (“HCM”) is maintained through our wholly owned subsidiary, CYR Insurance Management Company (“CYR”). CYR has as its primary asset a management agreement with HCM which provides for CYR to have management and control of HCM. HCM is used to front certain lines of business in our Specialty Commercial and Personal Segments in Texas. HCM does not retain any business.

AHIC, HIC, HSIC and HNIC have entered into a pooling arrangement pursuant to which AHIC retains 34% of the total net premiums written by any of them, HIC retains 32% of our total net premiums written by any of them, HSIC retains 24% of our total net premiums written by any of them and HNIC retains 10% of our total net premiums written by any of them. Neither HCM nor TBIC is a party to the intercompany pooling arrangement.

Results of Operations

Management overview. During the three and nine months ended September 30, 2016, our total revenues were \$97.6 million and \$278.7 million, representing an increase of 4% and a decrease of 1%, respectively, from the \$93.7 million and \$282.3 million in total revenues for the same periods of 2015. During the three and nine months ended September 30, 2016, our income before tax was \$7.2 million and \$14.7 million, representing a decrease of \$2.6 million and \$12.1 million from the \$9.8 million and \$26.8 million reported during the same periods the prior year.

The increase in revenue for the three months ended September 30, 2016 was primarily attributable to realized gains recognized on our investment portfolio during the current quarter as compared to realized losses recognized during the same period the prior year. Also contributing to the increase in revenue were higher net premiums earned, higher net investment income and higher commission and fee revenue partially offset by lower finance charge revenue and lower other income. The higher net premiums earned were driven by higher net premiums written in our Specialty Commercial Segment and Personal Segment.

The decrease in income before tax for the three months ended September 30, 2016 was due primarily to increased loss and loss adjustment expenses (“LAE”) of \$6.3 million and higher interest expense of \$0.4 million partially offset by the increase in revenue discussed above and lower other operating expenses of \$0.1 million. The increase in loss and LAE was primarily the result of unfavorable net prior year loss reserve development in our Specialty Commercial Segment and Personal Segment, as well as higher current accident year loss trends in our Personal Segment and Standard Commercial Segment that was partially offset by higher favorable net prior year loss reserve development in our Standard Commercial Segment. The increase in interest expense was due to interest on our Facility B revolving credit facility entered into during the fourth quarter of 2015. (See, “Financial Condition and Liquidity-Credit Facilities.”)

The decrease in revenue during the nine months ended September 30, 2016 was primarily attributable to realized losses recognized on our investment portfolio during the current period as compared to realized gains recognized during the same period the prior year. Also contributing to the lower revenue was lower net premiums earned, finance charges and other income, partially offset by higher net investment income and higher commission and fee revenue. The decrease in net premiums earned was primarily attributable to the adverse impact on the Standard Commercial Segment of ceding substantially all unearned workers’ compensation premiums effective July 1, 2015, partially offset by the favorable impact of increased retention under a quota share reinsurance agreement in our Personal Segment effective October 1, 2014.

The decrease in income before tax for the nine months ended September 30, 2016 was due primarily to increased loss and LAE of \$4.4 million, increased other operating expense of \$3.7 million, decreased revenue discussed above and increased interest expense of \$0.4 million. The increase in loss and LAE was primarily the result of an increase in retained losses in our Personal Segment under the renewed quota share reinsurance agreement discussed above and higher current accident year loss trends. We incurred an aggregate of \$10.4 million of net catastrophe losses during the

nine months ended September 30, 2016 as compared to \$5.3 million for the same period the prior year. We incurred net favorable loss reserve development of \$0.8 million for the nine months ended September 30, 2016 as compared to \$4.6 million of favorable loss reserve development for the same period in the prior year. Other operating expenses increased during the nine months ended September 30, 2016 primarily as the result of increased salary and related expenses in our Specialty Commercial Segment and a \$1.8 million payment to settle the earn-out related to the previous acquisition of TBIC accrued during the second quarter of 2016, partially offset by lower production related expenses predominately in our Specialty Commercial Segment. The increase in interest expense was due to interest on Facility B.

We reported net income of \$5.0 million and \$10.2 million for the three and nine months ended September 30, 2016 as compared to net income of \$6.7 million and \$18.4 million for the same periods of 2015. On a diluted basis per share, we reported net income of \$0.27 per share for the three months ended September 30, 2016, as compared to net income of \$0.35 per share for the same period in 2015. On a diluted basis per share, we reported net income of \$0.54 per share for the nine months ended September 30, 2016, as compared to net income of \$0.95 per share for the same period in 2015.

Third Quarter 2016 as Compared to Third Quarter 2015

The following is additional business segment information for the three months ended September 30, 2016 and 2015 (in thousands):

	Three Months Ended September 30									
	Specialty Commercial Segment		Standard Commercial Segment		Personal Segment		Corporate		Consolidated	
	2016	2015	2016	2015	2016	2015	2016	2015	2016	2015
Gross premiums written	\$104,087	\$91,446	\$18,579	\$19,225	\$24,399	\$21,470	\$-	\$-	\$147,065	\$132,141
Ceded premiums written	(38,064)	(28,205)	(1,925)	(4,145)	(11,391)	(9,867)	-	-	(51,380)	(42,217)
Net premiums written	66,023	63,241	16,654	15,080	13,008	11,603	-	-	95,685	89,924
Change in unearned premiums	(3,661)	(2,909)	258	2,087	(1,487)	(696)	-	-	(4,890)	(1,518)
Net premiums earned	62,362	60,332	16,912	17,167	11,521	10,907	-	-	90,795	88,406
Total revenues	65,855	63,395	18,253	18,477	12,759	12,716	751	(904)	97,618	93,684
Losses and loss adjustment expenses	41,478	36,186	9,622	10,088	11,237	9,731	-	-	62,337	56,005
Pre-tax income (loss)	8,245	11,291	3,195	2,893	(1,750)	(224)	(2,514)	(4,125)	7,176	9,835
	66.5%	60.0%	56.9%	58.8%	97.5%	89.2%			68.7%	63.3%

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

Net loss ratio (1)								
Net expense ratio (1)	25.3%	26.1%	32.3%	32.2%	21.9%	16.1%	27.9%	27.7%
Net combined ratio (1)	91.8%	86.1%	89.2%	91.0%	119.4%	105.3%	96.6%	91.0%
Favorable (Unfavorable) Prior Year Development	(3,532)	2,048	2,696	1,821	(1,138)	(783)	(1,974)	3,086

(1) The net loss ratio is calculated as incurred losses and LAE divided by net premiums earned, each determined in accordance with GAAP. The net expense ratio is calculated as total underwriting expenses offset by agency fee income divided by net premiums earned, each determined in accordance with GAAP. Net combined ratio is calculated as the sum of the net loss ratio and the net expense ratio.

Specialty Commercial Segment

Gross premiums written for the Specialty Commercial Segment were \$104.1 million for the three months ended September 30, 2016, which was \$12.6 million, or 14%, more than the \$91.4 million reported for the same period of 2015. Net premiums written were \$66.0 million for the three months ended September 30, 2016 as compared to \$63.2 million for the same period of 2015. The increases in gross and net premiums written were primarily the result of increased premium production in our Specialty Commercial operating unit.

The \$65.9 million of total revenue for the three months ended September 30, 2016 was \$2.5 million more than the \$63.4 million reported by the Specialty Commercial Segment for the same period in 2015. This increase in revenue was primarily due to higher net premiums earned of \$2.0 million due mostly to increased production in our Specialty Commercial operating unit, higher net investment income of \$0.4 million and higher other income of \$0.1 million for the three months ended September 30, 2016 as compared to the same period of 2015.

Pre-tax income for the Specialty Commercial Segment of \$8.2 million for the third quarter of 2016 was \$3.0 million lower than the \$11.3 million reported for the same period in 2015. The decrease in pre-tax income was primarily the result of higher loss and LAE expenses of \$5.3 million and higher operating expenses of \$0.2 million, partially offset by the increased revenue discussed above.

Our MGA Commercial Products operating unit reported a \$4.8 million increase in loss and LAE due largely to \$3.5 million unfavorable prior year net loss reserve development recognized during the three months ended September 30, 2016 as compared to \$1.6 million favorable prior year net loss reserve development during the same period of 2015. Our Specialty Commercial operating unit reported a \$0.5 million increase in loss and LAE which consisted of (a) a \$0.4 million increase in loss and LAE attributable to our medical professional liability insurance products, (b) a \$0.3 million increase in loss and LAE in our commercial umbrella and primary/excess liability line of business, (c) a \$0.2 million increase in loss and LAE attributable to our primary/excess property insurance products due to increase premium production, partially offset by (d) a \$0.4 million decrease in loss and LAE in our general aviation line of business due primarily to lower current accident year loss trends. The \$0.2 million increase in operating expense was the combined result of increased salary and related expenses of \$1.1 million, increased occupancy and other expenses of \$0.3 million, partially offset by lower production related expenses of \$1.2 million due primarily to increased ceding commissions in our Specialty Commercial operating unit.

The Specialty Commercial Segment reported a net loss ratio of 66.5% for the three months ended September 30, 2016 as compared to 60.0% for the same period during 2015. The gross loss ratio before reinsurance was 64.3% for the three months ended September 30, 2016 as compared to 59.8% for the same period in 2015. The higher gross and net loss ratios were primarily the result of \$3.5 million of unfavorable prior year net loss reserve development for the three months ended September 30, 2016 as compared to favorable prior year net loss reserve development of \$2.0

million for the same period of 2015. The Specialty Commercial Segment reported a net expense ratio of 25.3% for the third quarter of 2016 as compared to 26.1% for the same period of 2015. The decrease in the expense ratio was due predominately to the impact of higher net premiums earned.

Standard Commercial Segment

Gross premiums written for the Standard Commercial Segment were \$18.6 million for the three months ended September 30, 2016, which was \$0.6 million, or 3%, less than the \$19.2 million reported for the same period in 2015. The decrease in gross premium was primarily due to lower premium production in our Workers Compensation operating unit due to the transfer of renewal rights during the second quarter of 2015. Net premiums written were \$16.7 million for the three months ended September 30, 2016 as compared to \$15.1 million reported for the same period in 2015. The increase in net premiums written was primarily attributable to reduced net premiums written in the Workers' Compensation operating unit during the third quarter of 2015 as a result of ceding substantially all unearned premiums as of July 1, 2015 and the sale of our renewal rights to this business, as well as increased premium production in our Standard Commercial P&C Operating unit in the third quarter of 2016.

Total revenue for the Standard Commercial Segment of \$18.3 million for the three months ended September 30, 2016, was \$0.2 million, or 1%, less than the \$18.5 million reported for the same period in 2015. This decrease in total revenue was mostly due to the Workers Compensation operating unit experiencing both a \$0.4 million gain in the third quarter of 2015 and a \$0.3 million decrease in net premiums earned in the third quarter of 2016, in both cases as a result of the ceding of substantially all unearned premiums as of July 1, 2015, partially offset by higher commission and fees of \$0.5 million.

Our Standard Commercial Segment reported pre-tax income of \$3.2 million for the three months ended September 30, 2016 which was \$0.3 million, or 10%, more than the \$2.9 million reported for the same period of 2015. The increase in pre-tax income was the result of lower loss and LAE of \$0.5 million, partially offset by the decreased revenue discussed above.

The Standard Commercial Segment reported a net loss ratio of 56.9% for the three months ended September 30, 2016 as compared to 58.8% for the same period of 2015. The gross loss ratio before reinsurance for the three months ended September 30, 2016 was 54.6% as compared to the 55.3% reported for the same period of 2015. The lower gross and net loss ratios resulted primarily from higher favorable net loss reserve development, partially offset by higher current accident year loss trends. During the three months ended September 30, 2016 and 2015, the Standard Commercial Segment reported favorable net loss reserve development of \$2.7 million and \$1.8 million, respectively. The gross and net loss ratios for the three months ended September 30, 2016 include \$1.6 million of catastrophe related losses. The gross and net loss ratios for the three months ended September 30, 2015 include \$1.4 million of catastrophe related losses. The Standard Commercial Segment reported a net expense ratio of 32.3% for the third quarter of 2016 as compared to 32.2% for the same period of 2015.

Personal Segment

Gross premiums written for the Personal Segment were \$24.4 million for the three months ended September 30, 2016 as compared to \$21.5 million for the same period in the prior year. Net premiums written for our Personal Segment were \$13.0 million in the third quarter of 2016, which was an increase of \$1.4 million, or 12%, from the \$11.6 million reported for the third quarter of 2015.

Total revenue for the Personal Segment was \$12.8 million for the third quarter of 2016 as compared to \$12.7 million for the same period in 2015. Increased revenue was primarily the result of higher net premiums earned of \$0.6 million due mostly to increased premiums written, partially offset by lower finance charges of \$0.5 million.

Pre-tax loss for the Personal Segment was \$1.8 million for the three months ended September 30, 2016 as compared to pre-tax loss of \$0.2 million for the same period of 2015. The increase in the pre-tax loss was primarily the result of increased losses and LAE of \$1.5 million and increased operating expenses of \$0.1 million for the three months ended September 30, 2016 as compared to the same period during 2015, partially offset by the increased revenue discussed above.

The Personal Segment reported a net loss ratio of 97.5% for the three months ended September 30, 2016 as compared to 89.2% for the same period of 2015. The gross loss ratio before reinsurance was 95.2% for the three months ended September 30, 2016 as compared to 81.6% for the same period in 2015. The higher gross and net loss ratios were primarily the result of higher current accident year loss trends as well as higher unfavorable prior year loss reserve development. The Personal Segment reported \$1.1 million of unfavorable prior year net loss reserve development for the three months ended September 30, 2016 as compared to \$0.8 million of net unfavorable development for the same period in the prior year. Operating expenses increased \$0.1 million due to the combined result of a \$0.1 million increase in salary and related expenses and a \$0.1 million increase in other operating expenses, partially offset by a \$0.1 million decrease in production related expenses. The Personal Segment reported a net expense ratio of 21.9% for the third quarter of 2016 as compared to 16.1% for the same period of 2015. The increase in the expense ratio was due predominately to the lower finance charges referenced above.

Corporate

Total revenue for Corporate increased by \$1.7 million for the three months ended September 30, 2016 as compared to the same period the prior year. This increase in total revenue was due predominately to net realized gains recognized on our investment portfolio of \$1.1 million for the three months ended September 30, 2016 as compared to net realized losses of \$0.3 million for the same period of 2015 and higher net investment income of \$0.2 million.

Corporate pre-tax loss was \$2.5 million for the three months ended September 30, 2016 as compared to pre-tax loss of \$4.1 million for the same period of 2015. The decrease in pre-tax loss was primarily due to the increased revenue discussed above and lower operating expenses of \$0.3 million, partially offset by higher interest expense of \$0.4 million. The lower operating expenses of \$0.3 million were a combined result of lower salary and related expenses of \$0.5 million due primarily to a reduction in incentive compensation accruals during the third quarter of 2016 and lower travel and entertainment expenses of \$0.1 million, partially offset by higher other expenses of \$0.2 million and higher professional service fees of \$0.1 million. The higher interest expense of \$0.4 million was due primarily to the additional interest expense from borrowings under Facility B.

Nine Months Ended September 30, 2016 as Compared to Nine Months Ended September 30, 2015

The following is additional business segment information for the nine months ended September 30, 2016 and 2015 (in thousands):

	Nine Months Ended September 30

Prior Year
Development

(1) The net loss ratio is calculated as incurred losses and LAE divided by net premiums earned, each determined in accordance with GAAP. The net expense ratio is calculated as total underwriting expenses offset by agency fee income divided by net premiums earned, each determined in accordance with GAAP. Net combined ratio is calculated as the sum of the net loss ratio and the net expense ratio.

Specialty Commercial Segment

Gross premiums written for the Specialty Commercial Segment were \$295.2 million for the nine months ended September 30, 2016, which was \$32.1 million, or 12%, more than the \$263.1 million reported for the same period in 2015. The increase in gross premiums written was due to increased premium production in both our MGA Commercial Products and our Specialty Commercial operating units. Net premiums written were \$190.9 million for the nine months ended September 30, 2016 as compared to \$184.3 million reported for the same period in 2015. The higher net premiums written were due primarily to the increased production in both our MGA Commercial and Specialty Commercial operating units.

The \$189.5 million of total revenue for the Specialty Commercial Segment for the nine months ended September 30, 2016 was \$1.4 million higher than the \$188.1 million reported for the same period in 2015. This increase in revenue was primarily due to higher net investment income of \$1.3 million and higher commission and fees of \$0.3 million, partially offset by lower net premiums earned of \$0.2 million due predominately to lower net premiums written during the fourth quarter of 2015.

Pre-tax income for the Specialty Commercial Segment of \$25.8 million for the nine months ended September 30, 2016 was \$2.9 million lower than the \$28.7 million reported for the same period in 2015. The decrease in pre-tax income was primarily the result of higher loss and LAE expenses of \$2.2 million and higher operating expenses of \$2.1 million, partially offset by the increased revenue discussed above.

Our MGA Commercial Products operating unit reported a \$2.0 million increase in loss and LAE due primarily to \$2.3 million of unfavorable prior year net loss reserve development recognized for the nine months ended September 30, 2016 as compared to \$0.5 million favorable prior year net loss reserve development recognized for the same period of 2015. Our Specialty Commercial operating unit reported a \$0.2 million increase in loss and LAE which consisted of (a) a \$0.9 million increase in loss and LAE attributable to our medical professional liability insurance products, (b) a \$0.6 million increase in loss and LAE in our commercial umbrella and primary/excess liability line of business, (c) a \$0.3 million increase in loss and LAE attributable to our primary/excess property insurance products due to increase premium production, partially offset by (d) a \$0.2 million decrease in loss and LAE in our general aviation line of business due primarily to lower current accident year loss trends and (e) a \$1.4 million decrease in loss and LAE attributable to our satellite launch insurance line of business due primarily to favorable current accident year loss trends. The increase of \$2.1 million in operating expense was the combined result of increased salary and related expenses of \$4.0 million, higher travel related expenses of \$0.1 million and higher occupancy and other expenses of \$0.6 million, partially offset by lower production related expenses of \$2.6 million due primarily to increased ceding commissions in our Specialty Commercial operating unit.

The Specialty Commercial Segment reported a net loss ratio of 64.3% for the nine months ended September 30, 2016 as compared to 63.0% for the same period during 2015. The gross loss ratio before reinsurance was 61.7% for the nine months ended September 30, 2016 as compared to 63.0% for the same period in 2015. The Specialty Commercial Segment reported \$1.9 million unfavorable prior year net loss reserve development recognized for the nine months ended September 30, 2016 as compared to \$1.9 million favorable prior year net loss reserve development for the same period of 2015.

Standard Commercial Segment

Gross premiums written for the Standard Commercial Segment were \$59.7 million for the nine months ended September 30, 2016, which was \$4.0 million, or 6%, less than the \$63.7 million reported for the same period in 2015. Net premiums written were \$53.2 million for the nine months ended September 30, 2016 as compared to \$55.5 million reported for the same period in 2015. The decrease in premium volume was primarily due to lower premium production in our Workers Compensation operating unit due to the renewal rights agreement entered into during the second quarter of 2015 and subsequently amended during the third quarter of 2015 to cede substantially all of the unearned premium effective July 1, 2015.

Total revenue for the Standard Commercial Segment of \$54.5 million for the nine months ended September 30, 2016 was \$4.4 million less than the \$58.9 million reported during the same period in 2015. This 8% decrease in total revenue was mostly due to the Workers Compensation operating unit experiencing both a \$0.6 million gain during the nine months ended September 30, 2015 in connection with the transfer of renewal rights and a \$4.9 million decrease in net premiums earned during 2016 primarily as a result of the ceding of substantially all unearned premiums as of July 1, 2015 and the sale of our renewal rights to this business, partially offset by a decreased adverse profit share commission revenue adjustment of \$1.1 million.

Our Standard Commercial Segment reported pre-tax income was \$7.6 million for the nine months ended September 30, 2016 as compared to pre-tax income of \$7.2 million during the same period of 2015. Lower loss and LAE expenses of \$3.9 million and lower operating expenses of \$0.9 million, were offset by the decreased revenue discussed above.

The Standard Commercial Segment reported a net loss ratio of 59.1% for the nine months ended September 30, 2016 as compared to 60.8% for the same period in 2015. The gross loss ratio before reinsurance for the nine months ended September 30, 2016 was 56.0% as compared to the 59.4% reported for the same period of 2015. The lower gross and net loss ratios resulted primarily from lower current accident year non-catastrophe loss trends and increased favorable net loss reserve development partially offset by higher current accident year catastrophe losses. The gross and net loss ratios for the nine months ended September 30, 2016 include \$8.3 million of catastrophe related losses. The gross and net loss ratios for the nine months ended September 30, 2015 include \$4.2 million of catastrophe related losses. During the nine months ended September 30, 2016 and 2015, the Standard Commercial Segment reported favorable prior year net loss reserve development of \$6.4 million and \$4.7 million, respectively. The Standard Commercial Segment reported a net expense ratio of 33.5% for the nine months ended September 30, 2016 as compared to 32.6% for the same period of 2015. The increase in the expense ratio is primarily due to increased production related expense in our Standard Commercial P&C operating unit.

Personal Segment

Gross premiums written for the Personal Segment were \$64.6 million for the nine months ended September 30, 2016, which was \$0.7 million, or 1%, more than the \$63.9 million reported for the same period in 2015. Net premiums written for our Personal Segment were \$34.4 million for the nine months ended September 30, 2016, which was a decrease of \$0.4 million, from the \$34.8 million reported for the same period of 2015.

Total revenue for the Personal Segment increased 12% to \$37.0 million for the nine months ended September 30, 2016 from \$33.1 million for the same period during 2015. The \$3.9 million increase in revenue was primarily due to higher net premiums earned of \$4.3 million due mostly to increased retention under a quota share reinsurance agreement effective October 1, 2014 and higher net investment income of \$0.1 million, partially offset by lower finance charges of \$0.5 million.

Pre-tax loss for the Personal Segment was \$3.8 million for the nine months ended September 30, 2016 as compared to pre-tax loss of \$0.6 million for the same period of 2015. The pre-tax loss was the result of increased losses and LAE of \$6.0 million and increased operating expenses of \$1.1 million for the nine months ended September 30, 2016 as compared to the same period during 2015, partially offset by the increased revenue discussed above.

The Personal Segment reported a net loss ratio of 94.6% for the nine months ended September 30, 2016 as compared to 87.7% for the same period of 2015. The gross loss ratio before reinsurance was 91.6% for the nine months ended September 30, 2016 as compared to 79.4% for the same period in 2015. The higher gross and net loss ratios were primarily the result of unfavorable prior year net loss reserve development of \$3.6 million for the nine months ended September 30, 2016 as compared to unfavorable development of \$2.0 million for the same period in the prior year, as well as higher current accident year loss trends. The increase in operating expenses of \$1.1 million was the combined result of \$0.4 million increase in other operating expenses driven by our investment in technology, a \$0.2 million

increase in production related expenses, a \$0.3 million increase in salary and related expenses and a \$0.2 million increase in professional service fees and occupancy expenses. The Personal Segment reported a net expense ratio of 21.6% for the nine months ended September 30, 2016 as compared to 19.4% for the same period of 2015.

Corporate

Total revenue for Corporate decreased by \$4.5 million for the nine months ended September 30, 2016 as compared to the same period the prior year. This decrease in total revenue was due to net realized losses recognized on our investment portfolio of \$1.3 million for the nine months ended September 30, 2016 as compared to the net realized gains of \$3.7 million for the same period of 2015, partially offset by higher net investment income of \$0.5 million.

Corporate pre-tax loss was \$15.0 million for the nine months ended September 30, 2016 as compared to pre-tax loss of \$8.6 million for the same period of 2015. The increase in pre-tax loss was primarily due to the decreased revenue discussed above, higher operating expenses of \$1.5 million and increased interest expense of \$0.4 million. The increase in operating expenses of \$1.5 million was due primarily to an additional \$1.8 million earn-out paid in conjunction with the previous acquisition of TBIC and higher other operating expenses of \$0.2 million, partially offset by lower salary and related expenses of \$0.4 million due primarily to a reduction in incentive compensation accruals during the third quarter of 2016 and lower travel and related expenses of \$0.1 million. The increase in interest expense of \$0.4 million was due primarily to the interest expense under Facility B, partially offset by a reduction in interest expense due to the transition from a fixed interest rate to a lower floating interest rate as of June 15, 2015 on our Trust I subordinated debt securities.

Financial Condition and Liquidity

Sources and Uses of Funds

Our sources of funds are from insurance-related operations, financing activities and investing activities. Major sources of funds from operations include premiums collected (net of policy cancellations and premiums ceded), commissions, and processing and service fees. As a holding company, Hallmark is dependent on dividend payments and management fees from its subsidiaries to meet operating expenses and debt obligations. As of September 30, 2016, Hallmark had \$8.9 million in unrestricted cash and cash equivalents at the holding company. Unrestricted cash and cash equivalents of our non-insurance subsidiaries were \$5.5 million as of September 30, 2016. As of that date, our insurance subsidiaries held \$55.5 million of unrestricted cash and cash equivalents as well as \$600.8 million in debt securities with an average modified duration of 2.5 years. Accordingly, we do not anticipate selling long-term debt instruments to meet any liquidity needs.

AHIC and TBIC, domiciled in Texas, are limited in the payment of dividends to their stockholders in any 12-month period, without the prior written consent of the Texas Department of Insurance, to the greater of statutory net income for the prior calendar year or 10% of statutory policyholders' surplus as of the prior year end. Dividends may only be paid from unassigned surplus funds. HIC and HNIC, both domiciled in Arizona, are limited in the payment of

dividends to the lesser of 10% of prior year policyholders' surplus or prior year's net investment income, without prior written approval from the Arizona Department of Insurance. HSIC, domiciled in Oklahoma, is limited in the payment of dividends to the greater of 10% of prior year policyholders' surplus or prior year's statutory net income, not including realized capital gains, without prior written approval from the Oklahoma Insurance Department. During 2016, the aggregate ordinary dividend capacity of these subsidiaries is \$27.6 million, of which \$18.5 million is available to Hallmark. As a county mutual, dividends from HCM are payable to policyholders. During the first nine months of 2016 and 2015, our insurance company subsidiaries paid \$7.5 million and \$6.0 million in dividends to Hallmark, respectively.

Comparison of September 30, 2016 to December 31, 2015

On a consolidated basis, our cash (excluding restricted cash) and investments at September 30, 2016 were \$719.5 million compared to \$693.3 million at December 31, 2015. The primary reasons for this increase in unrestricted cash and investments were cash flow from operations, the collection of an unsettled investment disposal and an increase in investment fair values.

Comparison of Nine Months Ended September 30, 2016 and September 30, 2015

Net cash provided by our consolidated operating activities was \$25.5 million for the first nine months of 2016 as compared to \$43.1 million for the first nine months of 2015. The decrease in operating cash flow was primarily due to increased paid losses including timing of reinsurance claim settlements, partially offset by increased net collected premium, lower taxes paid, lower net paid operating expenses and higher collected net investment income.

Net cash used in investing activities during the first nine months of 2016 was \$62.9 million as compared to \$78.5 million during the first nine months of 2015. The decrease in cash used by investing activities during the first nine months of 2016 was comprised of a decrease in purchases of debt and equity securities of \$0.6 million, a decrease in transfers to restricted cash of \$4.0 million and an increase of \$12.1 million in maturities, sales and redemptions of investment securities, partially offset by an increase in purchases of property and equipment of \$1.1 million.

Cash used in financing activities during the first nine months of 2016 was \$7.1 million as a result of \$5.8 million related to the repurchase of our common stock and \$1.8 million payment of the settlement of contingent consideration to the sellers of TBIC, partially offset by \$0.5 million related to proceeds from the exercise of employee stock options. Cash used in financing activities during the first nine months of 2015 was \$2.5 million as a result of \$1.9 million related to the repurchase of our common stock and \$1.2 million related to the contingent purchase price payment to the sellers of TBIC, partially offset by \$0.6 million related to proceeds from the exercise of employee stock options.

Credit Facilities

Our Second Restated Credit Agreement with Frost Bank (“Frost”) dated June 30, 2015, reinstated the credit facility with Frost which expired by its terms on April 30, 2015. The Second Restated Credit Agreement also amended certain provisions of the credit facility and restated the agreement with Frost in its entirety. The Second Restated Credit Agreement provides a \$15.0 million revolving credit facility (“Facility A”), with a \$5.0 million letter of credit sub-facility. The outstanding balance of the Facility A bears interest at a rate equal to the prime rate or LIBOR plus

2.5%, at our election. We pay an annual fee of 0.25% of the average daily unused balance of Facility A and letter of credit fees at the rate of 1.00% per annum. As of September 30, 2016, we had no outstanding borrowings under Facility A.

On December 17, 2015, we entered into a First Amendment to Second Restated Credit Agreement and a Revolving Facility B Agreement (the "Facility B Agreement") with Frost to provide a new \$30.0 million revolving credit facility ("Facility B"), in addition to Facility A. On November 1, 2016, we amended the Facility B Agreement with Frost to extend by one year the termination date for draws under Facility B and the maturity date for amounts outstanding thereunder. We paid Frost a commitment fee of \$75,000 when Facility B was established and an additional \$30,000 fee when Facility B was extended.

We may use Facility B loan proceeds solely for the purpose of making capital contributions to AHIC and HIC. As amended, we may borrow, repay and reborrow under Facility B until December 17, 2018, at which time all amounts outstanding under Facility B are converted to a term loan. Through December 17, 2018, we pay Frost a quarterly fee of 0.25% per annum of the average daily unused balance of Facility B. Facility B bears interest at a rate equal to the prime rate or LIBOR plus 3.00%, at our election. Until December 17, 2018, interest only on amounts from time to time outstanding under Facility B are payable quarterly. Any amounts outstanding on Facility B as of December 17, 2018 are converted to a term loan payable in quarterly installments over five years based on a seven year amortization of principal plus accrued interest. All remaining principal and accrued interest on Facility B become due and payable on December 17, 2023. As of September 30, 2016, we had \$30.0 million outstanding under Facility B.

The obligations under both Facility A and Facility B are secured by a security interest in the capital stock of AHIC and HIC. Both Facility A and Facility B contain covenants that, among other things, require us to maintain certain financial and operating ratios and restrict certain distributions, transactions and organizational changes. As of September 30, 2016, we were in compliance with all of these covenants.

Subordinated Debt Securities

On June 21, 2005, we entered into a trust preferred securities transaction pursuant to which we issued \$30.9 million aggregate principal amount of subordinated debt securities due in 2035. To effect the transaction, we formed a Delaware statutory trust, Hallmark Statutory Trust I (“Trust I”). Trust I issued \$30.0 million of preferred securities to investors and \$0.9 million of common securities to us. Trust I used the proceeds from these issuances to purchase the subordinated debt securities. The initial interest rate on our Trust I subordinated debt securities was 7.725% until June 15, 2015, after which interest adjusts quarterly to the three-month LIBOR rate plus 3.25 percentage points. Trust I pays dividends on its preferred securities at the same rate. Under the terms of our Trust I subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of September 30, 2016, the principal balance of our Trust I subordinated debt was \$30.9 million and the interest rate was 4.10% per annum.

On August 23, 2007, we entered into a trust preferred securities transaction pursuant to which we issued \$25.8 million aggregate principal amount of subordinated debt securities due in 2037. To effect the transaction, we formed a Delaware statutory trust, Hallmark Statutory Trust II (“Trust II”). Trust II issued \$25.0 million of preferred securities to investors and \$0.8 million of common securities to us. Trust II used the proceeds from these issuances to purchase the subordinated debt securities. Our Trust II subordinated debt securities bear an initial interest rate of 8.28% until September 15, 2017, at which time interest will adjust quarterly to the three-month LIBOR rate plus 2.90 percentage points. Trust II pays dividends on its preferred securities at the same rate. Under the terms of our Trust II subordinated debt securities, we pay interest only each quarter and the principal of the note at maturity. The subordinated debt securities are uncollateralized and do not require maintenance of minimum financial covenants. As of September 30, 2016, the principal balance of our Trust II subordinated debt was \$25.8 million.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to the market risks discussed in Item 7A to Part II of our Form 10-K for the fiscal year ended December 31, 2015.

Item 4. Controls and Procedures.

The principal executive officer and principal financial officer of Hallmark have evaluated our disclosure controls and procedures and have concluded that, as of the end of the period covered by this report, such disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is timely recorded, processed, summarized and reported. The principal executive officer and principal financial officer also concluded that such disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under such Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. During the most recent fiscal quarter, there have been no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Risks Associated with Forward-Looking Statements Included in this Form 10-Q

This Form 10-Q contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created thereby. These statements include the plans and objectives of management for future operations, including plans and objectives relating to future growth of our business activities and availability of funds. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, regulatory framework, weather-related events and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Although we believe that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Form 10-Q will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved.

PART II

OTHER INFORMATION

Item 1.

Legal Proceedings.

During the third quarter of 2015 we paid \$1.2 million to the sellers of the subsidiaries comprising our Workers Compensation operating unit pursuant to the terms of the acquisition agreement. The sellers disputed the calculation of the amount paid and, pursuant to the terms of the acquisition agreement, an independent actuary was engaged to

resolve this matter. In accordance with the report of the independent actuary, we accrued during the second quarter of 2016 and paid during the third quarter of 2016 an additional \$1.8 million to the sellers.

In November 2015, one of the subsidiaries in our MGA Commercial operating unit, Hallmark Specialty Underwriters, Inc. (“HSU”), was informed by the Texas Comptroller of Public Accounts that a surplus lines tax audit covering the period January 1, 2010 through December 31, 2013 was complete. HSU frequently acts as a managing general underwriter (“MGU”) authorized to underwrite policies on behalf of Republic Vanguard Insurance Company and HSIC, both Texas eligible surplus lines insurance carriers. In its role as the MGU, HSU underwrites policies on behalf of these carriers while other agencies located in Texas (generally referred to as “producing agents”) deliver the policies to the insureds and collect all premiums due from the insureds. During the period under audit, the producing agents also collected the surplus lines premium taxes due on the policies from the insureds, held them in trust, and timely remitted those taxes to the Comptroller. We believe this system for collecting and paying the required surplus lines premium taxes complies in all respects with the Texas Insurance Code and other regulations, which clearly require that the same party who delivers the policies and collects the premiums will also collect premium taxes, hold premium taxes in trust, and pay premium taxes to the Comptroller. It also complies with long standing industry practice. In addition, effective January 1, 2012 the Texas legislature enacted House Bill 3410 (HB3410) which allows an MGU to contractually pass the collection, payment and administration of surplus lines taxes down to another Texas licensed surplus line agent.

The Comptroller has asserted that HSU is liable for the surplus lines premium taxes related to policy transactions and premiums collected from surplus lines insureds during January 1, 2010 through December 31, 2011, the period prior to the passage of HB3410, and that HSU therefore owes \$2.5 million in premium taxes, as well as \$0.7 million in penalties and interest for the audit period.

We disagree with the Comptroller and intend to vigorously fight their assertion that HSU is liable for the surplus lines premium taxes. We are currently in negotiations with the Comptroller to settle the matter. However, we are presently unable to reasonably estimate the possible loss or legal costs that are likely to arise out of the surplus lines tax audit or any future proceedings relating to this matter. Therefore we have not accrued any amount as of September 30, 2016 related to this matter.

We are engaged in various legal proceedings that are routine in nature and incidental to our business. None of these proceedings, either individually or in the aggregate, are believed, in our opinion, to have a material adverse effect on our consolidated financial position or our results of operations.

Item 1A.

Risk Factors.

There have been no material changes to the risk factors discussed in Item 1A to Part I of our Form 10-K for the fiscal year ended December 31, 2015.

Item 2.

Unregistered Sales of Equity Securities and Use of Proceeds.

Our stock buyback program initially announced on April 18, 2008, authorized the repurchase of up to 1,000,000 shares of our common stock in the open market or in privately negotiated transactions (the “Stock Repurchase Plan”). On January 24, 2011, we announced an increased authorization to repurchase up to an additional 3,000,000 shares. The Stock Repurchase Plan does not have an expiration date.

The following table furnishes information for purchases made pursuant to the Stock Repurchase Plan during the quarter ended September 30, 2016:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Cumulative Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that May Yet Be Purchased Under the Plan
--------	----------------------------------	------------------------------	--	---

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10-Q

July 1st-July 31st	70,296	\$ 11.29	2,533,847	1,466,153
August 1st- August 31st	6,958	\$ 10.47	2,540,805	1,459,195
September 1st- September 30th	17,920	\$ 10.08	2,558,725	1,441,275
