Item 8.01 Other Events.

As previously disclosed, Consolidated Water Co. Ltd. (the “Company”) and Belize Water Services Ltd. (“BWSL”) entered into a Share Sale and Purchase Agreement dated December 31, 2018 (the “Agreement”) relating to the sale of Consolidated Water (Belize) Limited (“CW-Belize”) to BWSL (the “Transaction”). CW-Belize is the exclusive provider of water in Ambergris Caye, Belize to BWSL, which distributes the water through its own pipeline system to residential, commercial and tourist properties.

On February 14, 2019, the Company closed the Transaction and completed the sale of CW-Belize to BWSL. After adjustments, the final purchase price under the Agreement was approximately \$7.0 million. Pursuant to the Agreement, BWSL has paid the Company \$6.735 million of the purchase price, with approximately \$275,000 being withheld to cover any indemnification obligations of the Company under the Agreement. The amount withheld is payable by BWSL to the Company by June 30, 2019 to the extent not applied to cover any liabilities of the Company under the Agreement.

Prior to the completion of the Transaction, CW-Belize forgave approximately \$1.8 million of intercompany debt owed to CW-Belize by the Company and/or its subsidiaries (other than CW-Belize). As additional incentive for the Transaction, BWSL facilitated both the conversion from Belize dollars to United States dollars and the repatriation to the Company’s bank accounts in the Cayman Islands of approximately \$2.75 million in cash during the three months ended September 30, 2018 and an additional approximately \$8.785 million in cash from September 30, 2018 to the date of this report, including the \$6.735 million of the purchase price already paid.

The Company currently intends to use the proceeds from the sale and the other cash repatriated from Belize to fund organic growth projects in the Company’s existing markets, as well as new projects and potential acquisitions in new and developing markets.

This report includes statements that may constitute “forward-looking” statements, usually containing the words “believe”, “estimate”, “project”, “intend”, “expect”, “should”, “will” or similar expressions. Factors that would cause or contribute to such differences include, but are not limited to, continued acceptance of the Company’s products and services in the marketplace, changes in its relationships with the governments of the jurisdictions in which it operates, the outcome of its negotiations with the Cayman government regarding a new retail license agreement, its ability to successfully secure contracts for new water projects, including the project under development in Baja California, Mexico, its ability to develop and operate such projects profitably, its ability to renew existing bulk water supply contracts, its ability to collect its delinquent accounts receivable in the Bahamas, and its ability to manage growth and other risks detailed in the Company’s periodic report filings with the Securities and Exchange Commission. Except as otherwise

required by law, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
