2010 Semi-Annual Report
March 31, 2010

Ellsworth Fund Ltd. operates as a closed-end, diversified management investment company and invests primarily in convertible securities, with the objectives of providing income and the potential for capital appreciation; which objectives the Fund considers to be relatively equal, over the long-term, due to the nature of the securities in which it invests.

Highlights

To Our Shareholders

May 12, 2010

Ellsworth Fund Ltd. invests primarily in convertible securities, an asset class that has been able to provide total returns that are competitive with changes in equity indices over a full market cycle while providing higher cash income and lower volatility. We strongly believe that convertible securities are a very appropriate alternative to equity investing when investors need both cash flow and a growth component in their portfolio. As the capital markets rebuilt themselves from the lows of the winter of 2009, convertible securities performed well and, although their apparent gross undervaluation of a year ago has now been accounted for, we believe they are still priced attractively relative to the equity market.

Since the market decline in 2008, the issuance of new convertible securities has not been as substantial as we expected. Although 2009 saw a reasonable number of new issues (over 100), the aggregate dollar amount of these offerings was the lowest in over a decade. This year has seen issuance running at a higher rate through the first four months of the year (twenty-nine issues, with a collective \$9.7 billion in market value), but at a much lower rate than in the second half of 2009. We expect issuance to rise as the year progresses, but it is currently running at a disappointing rate. Despite this disappointment, the overall convertible market capitalization has continued to expand from its lows in 2008. We believe the issuance of new convertible securities is an essential part of the economic recovery process and we find it surprising that many potential issuers have deferred coming to market for now.

The overall make-up of Ellsworth's portfolio is balanced. At March 31, 2010 the Fund had a weighted average current yield of 3.84%, a median premium to conversion value of 26.6%, an average premium to conversion value of 49.2%, an average delta of 0.64 (a measure of equity sensitivity), and an average rating of BB. This compares to the Bank America Merrill Lynch All Convertibles Index (BAML Index) which has an average current yield of 3.58%, a 60.9% average premium to conversion value, a 0.58 average delta, and an average rating of BB. Ellsworth's portfolio has a higher yield, a lower premium, higher equity sensitivity, and a similar rating to the BAML Index. Although past performance is no guarantee of future returns, we believe the Fund's portfolio is well positioned to provide an attractive mix of returns from yield and capital gains.

Performance for the Fund's second quarter was enhanced by its exposure to travel and leisure, as well as to the banking and chemicals industries. Performance was held back, however, by its exposure to aerospace and defense, as well as to the utilities industry. As indicated in the performance chart on the opposite page of this Semi-Annual Report, the Fund's market return outperformed the BAML Index over the five- and ten-year periods ended March 31, 2010, was in line with the BAML Index for the three-month period, but underperformed for twelve months. Return on the Fund's net asset value (NAV) outperformed the BAML Index for ten years, performed in line for five years (when adjusted for expenses and the fiscal 2004 rights offering), but underperformed for the three-month and one-year periods, also ended March 31, 2010. For the ten-year performance, the volatility of the Fund's NAV and market return, as measured by standard deviation, were lower than that of the BAML Index. The Fund has sought to provide total returns to shareholders that compare favorably to those provided by the equity markets, but with less volatility.

Posted on the Fund's website is a recently updated white paper on convertible securities written by Dinsmore Capital Management Co., which we believe you will find informative and educational.

- (1) Security not registered under the Securities Act of 1933, as amended (the Securities Act) (e.g., the security was purchased in a Rule 144A or a Regulation D transaction). The security may be resold only pursuant to an exemption from registration under the Securities Act, typically to qualified institutional buyers. The Fund generally has no rights to demand registration of such securities. The aggregate market value of these unregistered securities at March 31, 2010 was \$13,012,563, which represented 12.5% of the Fund's net assets.
- (2) Contingent payment debt instrument which accrues contingent interest. See Note 1(e).
- (3) Security is in default.
- (4) Investment is valued at fair value as determined in good faith in accordance with procedures adopted by the Board of Trustees. It is possible that the estimated value may differ significantly from the amount that might ultimately be realized in the near term, and the difference could be material. The fair value of these securities amounted to \$750,000 at March 31, 2010, which represented 0.7% of the Fund's net assets.

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Organization - Ellsworth Fund Ltd. (the Fund), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

(b) Indemnification - Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

(c) Security Valuation - Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted unadjusted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 - Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

Notes to Financial Statements (continued)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

The following is a summary of the inputs used to value the net assets of Ellsworth Fund Ltd. as of March 31, 2010:

	Level 1	Level 2	Level 3
Investments in Securities:			
Common Stocks:			
Chemicals	\$ 1,080,065	\$	\$
Media and Entertainment	2,094,600		
Pharmaceuticals	1,567,965		
Telecommunications	2,026,240		

The following is a reconciliation of assets for which level 3 inputs were used in determining value:

	Convertible Bonds and Notes	Corporate Bonds and Notes	Convertible Preferred Stocks	Total
Beginning balance	\$	\$ 750,000	\$	\$ 750,000
Change in unrealized appreciation (depreciation)				
Net transfers in/out of level 3				
Ending balance	\$	\$ 750,000	\$	\$ 750,000

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Federal Income Taxes - The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more-likely-than-not to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2007-2009), or expected to be taken in the Fund's 2010 tax returns. The major tax authority for the Fund is the Internal Revenue Service. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as contingent payment debt instruments, Federal tax regulations require the Fund to record non-cash, contingent interest income in addition to interest income actually received. Contingent interest income amounted to approximately 3 cents per share for the six months ended March 31, 2010. In addition, Federal tax regulations require the Fund to reclassify realized gains on contingent payment debt instruments to interest income. At March 31, 2010 there were unrealized losses of approximately 13 cents per share on contingent payment debt instruments.

(f) Distributions to Shareholders - Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended September 30, 2009 and 2008 were as follows:

	2009	2008
Ordinary income	\$ 4,209,494	\$ 7,214,059
Net realized gain on investments		7,565,939
	\$ 4,209,494	\$ 14,779,998

At March 31, 2010, the components of distributable earnings and federal tax cost were as follows:

Unrealized appreciation	\$ 10,638,953
Unrealized depreciation	(8,227,313)
Net unrealized appreciation	2,411,640
Cost for federal income tax purposes	\$ 99,185,371

Notes to Financial Statements *(continued)*

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(h) Market Risk - It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$9,150,365 at March 31, 2010, representing 8.8% of net assets.

NOTE 2 - MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. (Dinsmore Capital). Pursuant to the investment advisory agreement, Dinsmore Capital provides the Fund with investment advice, office space and facilities. Under the terms of the investment advisory agreement, the Fund pays Dinsmore Capital on the last day of each month an advisory fee for such month computed at an annual rate of 0.75% of the first \$100,000,000 and 0.50% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

NOTE 3 - PORTFOLIO ACTIVITY

At March 31, 2010, there were 13,360,463 shares of beneficial interest outstanding, with a par value of \$0.01 per share. During the six months ended March 31, 2010, 82,746 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$511,372.

Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$31,277,612 and \$27,718,743, respectively, for the six months ended March 31, 2010.

NOTE 4 - SUBSEQUENT EVENTS

The Fund has evaluated subsequent events through May 24, 2010, the date the financial statements have been issued, and has determined that no events have occurred that require disclosure.

Board Approval of Advisory Contract

The independent trustees of Ellsworth renewed the advisory contract with Dinsmore Capital Management Co. in November 2009. The following are the material factors and conclusions that formed the basis for that approval.

The nature and extent of the advisory services provided by Dinsmore Capital - The Board (the Board) of the Fund and the independent trustees reviewed the services to be provided by Dinsmore Capital under the Advisory Agreement. The Board noted that under the Advisory Agreement, Dinsmore Capital would supervise all aspects of the Fund's operations including the investment and reinvestment of cash, securities or other properties comprising the Fund's assets. In this regard, the Board noted that under the Advisory Agreement, Dinsmore Capital is responsible to, among other things, (a) supervise all aspects of the operations of the Fund; (b) obtain and evaluate pertinent information about significant developments and economic, statistical and financial data, domestic, foreign or otherwise, whether affecting the economy generally or any industry or the Fund or any issuer of securities held or to be purchased by the Fund; (c) determine which issuers and securities shall be represented in the Fund's investment portfolio and regularly report thereon to the Board; (d) place orders for the purchase and sale of securities for the Fund; and (e) take, on behalf of the Fund, such other action as may be necessary or appropriate in connection with the above.

Based on such review, both the Board and the independent trustees concluded that the range of services to be provided by Dinsmore Capital under the Advisory Agreement was appropriate and that Dinsmore Capital currently is providing services in accordance with the terms of the Advisory Agreement.

The quality of services provided by Dinsmore Capital - In reviewing the qualifications of Dinsmore Capital to provide investment advisory services, both the Board and the independent trustees reviewed the credentials and experience of Dinsmore Capital's investment personnel who will provide investment advisory services to the Fund, and considered Dinsmore Capital's (i) portfolio and product review process, particularly its adherence to the Fund's investment mandate, (ii) compliance function and its culture of compliance, (iii) use of technology, including the use, from time to time, of direct satellite links to issuer interviews and conferences, (iv) investment research operations (which involves meetings with issuers and analysts, investment seminars and visits to issuers, and the review of: (a) financial newspapers, industry literature, publications and periodicals, (b) research materials prepared by others, (c) issuer annual reports and prospectuses, and (d) issuer press releases) and trading operations (which involves computerized execution of orders), and (v) focus on providing high quality services while keeping the Fund's fees and expenses as low as possible. The Board and the independent trustees also took into consideration the presentations made by Dinsmore Capital at prior Board meetings pertaining to its management of the Fund.

Based on the review of these and other factors, both the Board and the independent trustees determined and concluded that the quality of services provided by Dinsmore Capital has been exemplary, that Dinsmore Capital currently is providing services to the Fund in accordance with the terms of the Advisory Agreement, and that the independent trustees were confident that such services would continue in a similar fashion in 2010.

The performance of the Fund relative to comparable funds - Both the Board and the independent trustees reviewed the performance of the Fund (at net asset value) during the past one, three, five and ten years ended September 30, 2009 against the performance of other closed-end and open-end funds investing in convertible securities and believed by management to be in the Fund's peer group. Both

Board Approval of Advisory Contract *(continued)*

the Board and the independent trustees noted that the Fund's performance for the five and ten year periods was below the average performance of the funds in the peer group, but was above the average performance of such funds for the one and three year periods. In evaluating the Fund's performance against funds in its peer group, the Board and the independent trustees took into account the fact that many of the Fund's competitors engage in leverage, which has increased their returns, but has done so with increased risk of loss. Because of this increased risk of loss, the Fund does not engage in leverage. The Board and the independent trustees also noted that the portfolio manager's investment approach is to make equity investments utilizing convertible securities to provide a total return similar to that of equity securities, but with lower volatility and higher income. The Board and the independent trustees recognized that only three of the funds in the Fund's peer group followed a similar investment approach. Accordingly, the Board and the independent trustees concluded that performance of the Fund was satisfactory.

The performance of the Fund relative to indices - Both the Board and the independent trustees reviewed the performance of the Fund (at net asset value) during the past one, three, five and ten years ended September 30, 2009 against the performance of the Bank of America Merrill Lynch All Convertibles Index (VXA0) and the Bank of America Merrill Lynch Investment Grade Convertibles Index (VXA1). Both the Board and the independent trustees noted that, although the Fund's performance was below that of the VXA0 for all periods under review, when adjusted for fees (because the VXA0 incurs no fees), the Fund's performance results were roughly comparable to those of the VXA0 for the five-year period. However, the Fund's performance was above that of the VXA1 for the five-year period and, when adjusted for expenses, roughly comparable to the performance of the VXA1 for the three and ten year periods.

Based on this review and taking into account all of the other factors that the Board and the independent trustees considered in determining whether to continue the Advisory Agreement, the Board and the independent trustees concluded that no changes should be made to the Fund's investment objective or policies, or the portfolio management team and that performance was satisfactory.

Meetings with the Fund's portfolio manager and investment personnel - Both the Board and the independent trustees noted that they meet regularly with the Fund's portfolio manager and investment personnel, and believe that such individuals are competent and able to carry out their responsibilities under the Advisory Agreement.

Overall performance of Dinsmore Capital - After considering the overall performance of Dinsmore Capital in providing investment advisory and administrative services to the Fund, both the Board and the independent trustees concluded that such performance was satisfactory.

Fees relative to those of clients of Dinsmore Capital with comparable investment strategies - Both the Board and the independent trustees noted that the Fund and Bancroft Fund Ltd. (together, the Funds) are the only clients of Dinsmore Capital, and that the advisory fee rates for the Funds are the same.

Both the Board and the independent trustees concluded that, because the fee rates are the same for the Funds, the current advisory fee rate of the Fund was fair as compared to the rate for Bancroft Fund Ltd.

Board Approval of Advisory Contract *(continued)*

Fees relative to those of comparable funds with other advisors - After reviewing the advisory fee rate for the Fund against the advisory fee rates for funds advised by other advisors in the Fund's peer group both the Board and the independent trustees determined that the Fund's advisory fee rate was at approximately the median of the funds in its peer group, and concluded that the current advisory fee rate of the Fund was fair and reasonable.

Expense limitations and fee waivers - Both the Board and the independent trustees noted that, although there are no contractual expense limitations or fee waivers in effect for the Fund, Dinsmore Capital is very diligent in its efforts to keep expenses of the Fund as low as possible. The Board noted that expense ratios for the Funds had increased this year principally as a result of lower assets under management. This reduction, in turn, resulted from the severe market downturn. The independent trustees also noted that the cost of compliance with regulatory initiatives was increasing. Both the Board and the independent trustees concluded that the current level of expenses for the Fund were fair and reasonable.

Breakpoints and economies of scale - Both the Board and the independent trustees reviewed the structure of the Fund's advisory fee under the Advisory Agreement, and noted that the fee includes one breakpoint when the Fund's assets reach \$100 million. Both the Board and the independent trustees noted that breakpoints had become effective for the Fund as a result of the Fund's rights offering that occurred during the 2004 fiscal year, which resulted in lower management fee expenses as a percentage of assets. Both the Board and the independent trustees concluded that the Fund's fee levels under the Advisory Agreement therefore reflect economies of scale and that it was not necessary to implement any further changes to the structure of the advisory fee for the Fund.

Profitability of Dinsmore Capital - Both the Board and the independent trustees reviewed information concerning the profitability and financial condition of Dinsmore Capital. In particular, the Board reviewed Dinsmore Capital's financial statements, including its statement of income and retained earnings, statement of cash flows, and audited balance sheet. The Board also reviewed Dinsmore Capital's costs in providing services to the Funds. The Board noted that Dinsmore Capital's sole source of revenue was fees from the Funds for providing advisory and administrative services to the Funds. The Board and the independent trustees noted that Dinsmore Capital's operations were at approximately break even during its most recent fiscal year, despite the severe market downturn. Some independent trustees expressed concern about whether Dinsmore Capital could be able to maintain its high level of services to the Funds unless it was able to increase assets under management in future years. As a result, the independent trustees urged Dinsmore Capital to redouble efforts to increase its assets under management.

Based on the review of the profitability of Dinsmore Capital and its financial condition, both the Board and the independent trustees concluded that the compensation to be paid by the Fund to Dinsmore Capital under the Advisory Agreement was not excessive.

Benefits of soft dollars to Dinsmore Capital - Both the Board and the independent trustees discussed the fact that there are no third-party soft dollar arrangements in effect with respect to the Fund. Both the Board and the independent trustees recognized that Dinsmore Capital does receive proprietary research from brokers with whom it executes portfolio transactions on behalf of the Fund. This research is used by Dinsmore Capital in making investment decisions for the Fund. Both the Board and the independent trustees also considered representations made by Dinsmore Capital that portfolio transactions received best execution. Because such research ultimately benefits the Fund, the Board and the independent trustees concluded that it was appropriate to receive proprietary research.

Board Approval of Advisory Contract *(continued)*

Dinsmore Capital's financial soundness in light of the Fund's needs - Both the Board and the independent trustees considered whether Dinsmore Capital is financially sound and has the resources necessary to perform its obligations under the Advisory Agreement, and concluded that it does.

Historical relationship between the Fund and Dinsmore Capital - In determining whether to continue the Advisory Agreement for the Fund, both the Board and the independent trustees also considered the prior relationship among Dinsmore Capital and the Fund, as well as the independent trustees' knowledge of Dinsmore Capital's operations, and concluded that it was beneficial to maintain the current relationship, in part, because of such knowledge. Both the Board and the independent trustees also reviewed the general nature of the non-investment advisory services currently performed by Dinsmore Capital, such as administrative services, and the fees received by Dinsmore Capital for performing such services. In addition to reviewing such services, both the Board and the independent trustees also considered the organizational structure employed by Dinsmore Capital to provide those services. Based on the review of these and other factors, both the Board and the independent trustees concluded that Dinsmore Capital was qualified to provide non-investment advisory services to the Fund, including administrative services, and that Dinsmore Capital currently is providing satisfactory non-investment advisory services to the Fund.

Other factors and current trends - Both the Board and the independent trustees considered the culture of compliance and high ethical standards at Dinsmore Capital, and the efforts historically and currently undertaken by Dinsmore Capital to engage in best practices. Both the Board and the independent trustees noted Dinsmore Capital's historical adherence to compliance procedures, as well as the Fund's investment objectives, policies and restrictions. Both the Board and the independent trustees concluded that this commitment to adhere to the highest ethical standards was an important factor in their determination that they should approve the continuance of the Advisory Agreement for the Fund.

After considering all of the above factors and based on informed business judgment, the Board determined that the Advisory Agreement is in the best interests of the Fund and its shareholders and that the compensation to Dinsmore Capital under the Advisory Agreement is fair and reasonable. As a result, the Board continued the Advisory Agreement.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this semi-annual report.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

During the period covered by this report, there were no purchases made by or on behalf of the Registrant or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934 (the Exchange Act) (17 CFR 240.10b-18(a)(3)), of shares or other units of any class of the Registrant's equity securities that is registered by the Registrant pursuant to Section 12 of the Exchange Act (15 U.S.C. 781).

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Registrant's board of trustees since those procedures were last disclosed in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or Item 10 of this Form N-CSR.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of May 28, 2010 an evaluation was performed under the supervision and with the participation of the officers of the Registrant, including the Principal Executive Officer (PEO) and Principal Financial Officer (PFO), to assess the effectiveness of the Registrant's disclosure controls and procedures, as that term is defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940 (the Act), as amended. Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or

240.15d-15(b)), the Registrant's officers, including the PEO and PFO, concluded that, as of May 28, 2010, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission; and (2) that material information relating to the Registrant is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.
