Bakken Resources, Inc. (the Company) is delaying its filing of Form 10-Q for its fiscal third quarter ended September 30, 2014.

The Company plans to restate its financial statements for the fiscal year ended December 31, 2013. This decision followed consultation with Malone Bailey, LLP, the Company's independent registered public accounting firm.

In general, revenue relating to certain oil and gas production activities and other related items, including accrued liabilities, were incorrect. In the case of revenues, such amounts were overstated, and in the case of liabilities, such amounts were understated, for fiscal year 2013 by approximately \$300,000 in the aggregate. Earlier years may be impacted as well, but in such small amounts so as to not require additional restatement of financial statements. The Company intends to file its restated financial statements for the fiscal year 2013 as soon as practicable.

Separately, revenues for 2014 have been understated to date by approximately \$500,000. The Company intends to make adjustments to such understatements of revenue to its financial statements for the quarter ended September 30, 2014 and to the financial statements for the fiscal year ended 2014.

The Company continues to evaluate whether the restatements will affect revenue over the life of existing agreements and operations. Based on information available to date, the Company believes that restatement will not have a materially negative impact on the presentation of its publicly filed financial statements, when viewed in its entirety.

Because the Company is in the process of restating its financial statements in the manner described above, it has not been able to complete financial statements for the current quarter. Under the circumstances, compilation, dissemination and review of the information to be presented in the Company's Form 10-Q for the relevant period has imposed time constraints that have rendered timely filing of the Form 10-Q impracticable without unreasonable effort or expense to the registrant.
