**FOR IMMEDIATE RELEASE IN EUROPE & NORTH AMERICA**

**M11 Exploration Well Reaches TD**

27th October 2003 Oslo, Norway CanArgo Energy Corporation (OSE: CNR, OTCBB: GUSH) today announced that the Manavi Exploration Well, M11, has reached a total depth (TD) of 4,500 metres.

The primary Cretaceous limestone target was encountered at 4,348 metres. Drilling data and wireline logs indicate the presence of oil and gas in the Cretaceous limestone sequence and the well is currently being prepared for a testing programme to ascertain whether or not such hydrocarbons can be commercially produced.

In addition, the wireline logs and drilling data indicate the presence of further hydrocarbons in the higher Middle Eocene sequence, which is the productive sequence in CanArgo's nearby Ninotsminda Field.

CanArgo is an independent oil and gas exploration and production company with its oil and gas operations currently located in the Republic of Georgia, Ukraine and the Caspian Sea. Further information on the Company is available at [www.canargo.com](http://www.canargo.com) and at <http://www.sec.gov>.

The matters discussed in this press release include forward looking statements, which are subject to various risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated in such forward looking statements. Such risks, uncertainties and other factors include the uncertainties inherent in oil and gas development and production activities, the effect of actions by third parties including government officials, fluctuations in world oil prices and other risks detailed in the Company's reports on Forms 10-K and 10-Q filed with the Securities and Exchange Commission. The forward looking statements are intended to help shareholders and others assess the Company's business prospects and should be considered together with all information available. They are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The company cannot give assurance that the results will be attained.
