Item 7. Financial Statements and Exhibits.

(c) Exhibits.

99.1 Press Release dated August 17, 2004.

Item 12. Disclosure of Results of Operations and Financial Condition

The information in this Item is furnished to, but not filed with, the Securities and Exchange Commission (the "Commission") solely under Item 12 of Form 8-K, "Results of Operations and Financial Condition."

On August 17, 2004, G&K Services, Inc. issued a press release announcing its financial results for the fiscal quarter ended July 3, 2004. A copy of the press release is furnished as Exhibit 99.1 to this report and is incorporated herein by reference. The press release contains certain non-GAAP financial measures, including the organic industrial rental growth rate and free cash flow. The organic industrial rental growth rate is calculated using industrial rental revenue adjusted for foreign currency exchange rate differences, revenue from

newly acquired locations and the extra week recorded in the current quarter compared to prior-period results. Management believes that by eliminating the impact of the U.S.-Canadian exchange rate, the effects of the Company's recent business acquisitions and the impact of the extra week recorded in the current quarter, the organic industrial rental growth rate better reflects the growth of our existing industrial business and is therefore useful in analyzing the financial condition of the Company and the results of its operations. Free cash flow is cash provided by operating activities less capital expenditures. Management believes that this is an important financial measure because it indicates the Company's ability to expand, acquire additional business, pursue debt reduction and pay dividends.
