Net Income was R\$ 698 million for 4Q02, a 66.1% increase as compared to net income for 3Q02.

- Financial Activity results were R\$ 331 million, 24.0% higher than results for 3Q02.

Adjusting the additional provision for market risk fluctuation recorded/reversed for the periods, the annualized financial margin would be 12.9% in 4Q02 and 8.9% in 3Q02.

Income from financial intermediation totaled R\$ 3,341 million, a 3.2% decrease as compared to 3Q02.

Consolidated Assets amounted to R\$ 142,773 million, a 1.9% increase as compared to 3Q02.

The Basel capital adequacy ratio was 17.9% on a consolidated financial basis, and 15.8% on a total consolidated basis, compared to 15.6% and 13.7%, respectively, in 3Q02.

The permanent assets to stockholders' equity ratio was 48.3% on a

## Edgar Filing: BANK BRADESCO - Form 6-K

consolidated financial basis and 37.2% on a total consolidated basis, compared to 52.9% and 42.4%, respectively, in 3Q02.

The expanded combined insurance ratio was 94.6%, as compared to the ratio of 93.9% in 3Q02.

### 2. Analysis of Consolidated Results

#### 2.1 Income from Lending and Trading activities

Income from Credit and Leasing Operations totaled R\$ 1,595 million, a decrease of 78.7% as compared to 3Q02, mainly derived from negative exchange variation of 9.28% in 4Q02 against positive exchange variation of 36.93% in 3Q02, thus impacting income from US dollar-denominated transactions. Income from real-denominated transactions remained practically flat as compared to the prior quarter.

Results of Securities and Derivative Financial Instruments amounted to R\$ 993 million, a 82.0% decrease compared to 3Q02, mainly derived from foreign exchange losses partially offset by the increase in average interest rates in 4Q02.

Results of Foreign Exchange Transactions amounted to R\$ 170 million, a decrease of 93.7% as compared to 3Q02, mainly as a result of foreign exchange losses in 4Q02. This account balance should be analyzed net of foreign funding expenses used to finance import/export operations, the results of which subsequent to these adjustments would be R\$ 74 million in 4Q02 and R\$ 152 million in 3Q02.

#### 2.2 Expenses for Lending and Trading Activities

Market Funding Expenses totaled R\$ (5) million, a 100.1% decrease as compared to the balance for 3Q02, which was R\$6.050 million mainly derived from the decrease in expenses on securities transactions abroad as a result of the appreciation of local currency offset by the increase in average interest rates in 4Q02.

Expenses for Borrowings and Onlendings totaled R\$ (834) million, a 115.4% decrease as compared to the balance for 3Q02, which was R\$ 5.409 million mainly derived from foreign exchange losses on foreign borrowings and onlendings offset by the increase in average interest rates in 4Q02.

Provision for Loan Losses totaled R\$ 579 million, 35.4% lower than in 3Q02. Discounting the effect of the additional provisions of R\$ 135 million and R\$ 81 million, recorded in 3Q02 and 4Q02, respectively, the decrease of R\$ 263 million in these expenses was due to a slight economic improvement in 4Q02 as compared to 3Q02

#### 2.3 Other Operating Income and Expenses

Income on Commissions and Fees totaled R\$ 991 million for 4Q02, a 6.0% growth rate compared to 3Q02. The increase in 4Q02 was due to: (i) Current Accounts - R\$ 18 million, mainly charges for account maintenance; (ii) credit cards - R\$ 17 million; and (iii) other income - R\$19 million, mainly technical assistance in non-financial subsidiaries. Income from Insurance Premiums, Private Pension Plans and Savings Bonds totaled R\$ 3,244 million in 4Q02, an increase of 21.1% compared to 3Q02, mainly derived from the improved performance of insurance and private pension plan product sales in the quarter, especially "VGBL" and savings bonds.

Variations in Technical Reserves for Insurance, Pension Plans and Savings Bonds totaled R\$ 2,463 million for 4Q02, a 76.8% increase as compared to 3Q02, mainly

## Edgar Filing: BANK BRADESCO - Form 6-K

due to (i) growth in income on insurance and private pension plan products, such as "VGBL"; and (ii) appropriation of interest and price-level restatement of reserves relating to private pension plans and savings bonds.

Insurance claims totaled R\$ 937 million, a 1.8% growth rate compared to 3Q02, mainly as a result of increased insurance sales, even though the ratio of claims to premium remained flat as compared to the prior quarter.

Personnel Expenses for the quarter decreased by 8.6% to R\$ 1,047 million, as compared to 3Q02. Except for the effect of the third quarter: (i) R\$ 58 million related to the salary increases as a result of the collective labor agreement; and (ii) R\$ 75 million to the single allowance, we note that there was an increase of R\$ 35 million, mainly due to the 7.0% salary increase in September 2002.
