**Lisbon, Portugal, October 17, 2003** - Portugal Telecom, SGPS, S.A. ( PT ) (Euronext Lisbon: PTCO.IN; NYSE: PT) announces that PT Comunicações, S.A. ( PT Comunicações ) was notified of the decision of the Supreme Court related to the appeal against the decision of the Appeals Court that considered illegal the activation fees introduced by Portugal Telecom, S.A. in the prices for fixed telephone services in February 1998, approved by the competent authorities (at the time ICP - Instituto das Comunicações de Portugal and DGCP - Direcção Geral de Concorrência e Preços) and ratified by the Portuguese Government, and condemned PT Comunicações (that legally followed Portugal Telecom, S.A. in this legal action) to refund the subscribers the amounts charged in 1999 as activation fees. The Supreme Court denied PT Comunicações' intention and maintained the Appeals Court decision.

As mentioned in the Note 33 of the Notes to the Consolidated Financial Statements of PT's 2002 Consolidated Annual Report, PT had already recognized that this Court decision could be unfavourable.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
