Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

As previously described in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, the Company recorded adjustments as a result of comments from the staff of the Securities and Exchange Commission ("SEC") to reclassify marketable securities received as compensation for investment banking

Edgar Filing: VFINANCE INC - Form 8-K

services from "trading securities" to "available-for-sale" securities, effective January 1, 2002 as part of a restatement. As a result of this reclassification, non-cash unrealized gains and losses related to the securities classified as available-for-sale were reclassified from the determination of net income (loss) to accumulated other comprehensive income (loss), a component of stockholders' equity.

On November 12, 2007, after reconsidering the adjustments to the financial statements described in the previous paragraph, management determined that the reclassification originally suggested by the staff of the SEC should not have been made and, as a result, the Company revised the previously restated financial statements as of and for the years ended December 31, 2006, 2005, 2004 and 2003. The Chief Financial Officer of the Company discussed the restatement with the Company's independent auditors. As a consequence of reverting to the financial statement presentation used by the Company prior to the restatement, securities received as compensation for investment banking services have been classified as "marketable securities" or "not readily marketable securities," as appropriate, with realized and unrealized gains and losses related to these securities included in the determination of net income (loss) in the consolidated statements of operations.

As a result of the foregoing, we intend to file our December 31, 2007 Annual Report on Form 10-K with restated financial statements and revised disclosures for the fiscal periods covered by that report.
