- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 1.01 Entry into Material Definitive Agreement

Item 3.02 Unregistered Sale of Equity Securities

Item 8.01 Other Events

On April 7, 2011 American Lithium Minerals Inc. (we , us , our) entered into an investment agreement and amended and restated security agreement (together the Investment Agreements) with one non-US investor pursuant to which we received initial funding of \$350,000 with an additional \$150,000 having been agreed to follow upon the satisfaction of certain conditions including the following:

- our receipt of new equity financing or new convertible debt financing from a third party(ies) in the aggregate amount of at least US \$100,000; and
- our completion and filing of a NI 43-101 compliant technical report with the TSX Venture Exchange by July 31, 2011.

Pursuant to the Investment Agreements we issued to the investor a secured convertible grid promissory note (the 2011 Note), which is convertible into approximately 1,851,851 shares of our common stock, and 1,851,851 warrants with each warrant exercisable until April 6, 2012 to purchase one share of our common stock at a price of \$0.27 per share. The 2011 Note bears interest at the rate of four per cent (4%) per annum, payable every six months from the date of closing. The interest rate will increase to twelve per cent (12%) per annum if we fail to make scheduled interest payments. The principal amount of the investment is payable on August 31, 2015.

Also pursuant to the Investment Agreements we amended the terms of a secured convertible grid promissory note (the 2010 Note) and warrant certificate issued in respect of a \$750,000 investment in our Company made by the same investor in 2010. The details of this investment were first disclosed in our Current Report on Form 8-K filed on September 2, 2010. The amendment to the 2010 Note decreases the per share conversion price applicable to the \$750,000 investment from \$0.54 to \$0.27 per share, so that we will be required to issue approximately 2,777,778 rather than 1,388,888 common shares upon conversion of the 2010 Note. The amendment to the warrant certificate decreases the exercise price of the 1,388,889 share purchase warrants issued in consideration of the \$750,000 investment from \$0.54 per share to \$0.27 per common share. The warrants expire on September 2, 2011. The principal amount of the 2010 Note continues to bear interest at 4% and remains payable on August 31, 2015. The interest rate on the 2010 Note will also increase to twelve per cent (12%) per annum if we fail to make the scheduled biannual interest payments.

2

As security for the performance of our obligations under the 2010 Note and the 2011 Note, we also granted the investor a first priority security interest and lien in substantially all of our personal property and certain of our mineral property interests. The details of the security rights of the investor are described in the security agreement attached to this current report as Exhibit 10.3.

The issuances of the promissory notes and warrants described above were conducted pursuant to Regulation S promulgated pursuant to the Securities Act of 1933, as amended (the Securities Act), to one non-US person as defined in Regulation S and otherwise complied with all of the requirements of Regulation S, the Securities Act, and any other applicable U.S. or foreign securities laws.

Also on April 7, 2011, we cancelled an aggregate of 4,200,000 shares of our common stock previously issued pursuant to consulting agreements with our Chief Executive Officer and Chairman, Hugh Aird, Judith Baker, and Steven Cook. These consulting agreements were fully described in, and filed as exhibits to, our Current Report on Form 8-K filed on April 1, 2011.

Item 7.01 Regulation FD Disclosure

On April 7, 2011, we issued a news release announcing the above described \$500,000 investment.

Item 9.01 Financial Statements and Exhibits.

- 10.1 Convertible Grid Promissory Note dated April 6, 2011
