NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

(A) Basis of Presentation

The accompanying condensed consolidated financial statements are presented in United States dollars under accounting principles generally accepted in the United States of America.

(B) Principles of Consolidation

The condensed consolidated financial statements include the accounts of Defense Industries International, Inc. and its wholly owned subsidiaries, Export Erez, USA, Inc., Export Erez, Ltd., Mayotex, Ltd. Dragonwear Trading Ltd. its 76% owned subsidiary Achidatex Nazareth Elite for all periods presented and Owen Mills since February 28, 2005(the acquisition date) (collectively, the Company). The minority interest represents the minority shareholders proportionate share of Achidatex.

All intercompany accounts and transactions have been eliminated in consolidation.

(C) Use of Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclose the nature of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(D) Per Share Data

Basic net income (loss) per common share is computed based on the weighted average common shares outstanding during the year. Diluted net income per common share is computed based on the weighted average common shares and common stock equivalents outstanding during the year. Common stock equivalents to purchase 627,000 shares of common stock were not included in diluted loss per share because their effect is anti dilutive.

(E) Interim Consolidated Financial Statements

The condensed consolidated financial statements as of and for the three months ended March 31, 2006 and 2005 are unaudited. In the opinion of management, such condensed consolidated financial statements include all adjustments (consisting only of normal recurring accruals) necessary for the fair presentation of the consolidated financial position and the consolidated results of operations. The consolidated results of operations for the three months ended March 31, 2006 and 2005 are not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet information as of December 31, 2005 was derived from the audited consolidated financial statements included in the Company s Annual Report Form 10-KSB. The interim condensed consolidated financial statements should be read in conjunction with that report.

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

(F) Recent Accounting Pronouncements

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS, No. 123 (revised 2004), Share-Based Payment , (SFAS 123R), a revision to SFAS No. 123, Accounting for Stock Based Compensation. SFAS No.123R superseded APB No.25 and amended SFAS No.95, Statement of Cash Flows . Effective January 1,2006, SFAS No. 123R requires that the Company measure the cost of employee services received in exchange for equity awards based on the grant date fair value of the awards, with the cost to be recognized as compensation expense in the Company s financial statements over the vesting period of the awards. Accordingly, the Company will recognize compensation cost for equity-based compensation for all new or modified grants issued after December 31, 2005. In addition, commencing January 1, 2006, the Company is required to recognize the unvested portion of the grant date fair value of awards issued prior to adoption of SFAS No. 123r based on the fair values previously calculated for disclosure SFAS No.123R based on the fair values previously calculated for disclosure purposes over the remaining vesting period of the outstanding stock options and warrants.

The Company adopted SFAS No. 123R effective January 1, 2006, and is using the modified prospective method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS No. 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS No. 123R that the remain unvested on the effective date.

The Company has not granted stock options to purchase shares of its common stock for employee services currently or in the year ended December 31, 2005. Accordingly, the Company s Condensed Consolidated Financial Statements do not include any stock based compensation expense for the three months ended March 31, 2006 and is not required to disclose proforma stock based compensation expense for the three months ended March 31, 2005, nor does the Company have any unvested deferred compensation that must be amortized over any vesting periods.

(G) Goodwill and Other Intangible Assets

In accordance with Statement of Financial Accounting Standards (SFAS No. 141), the Company allocates the purchase price of its acquisitions to the tangible assets, liabilities and intangible assets acquired based on their estimated fair values. The excess purchase price over those fair values is recorded as goodwill. The fair value assigned to intangible assets acquired is either based on valuations prepared by independent third party appraisal firms using estimates and assumptions provided by management or negotiated at arms-length between the Company and the seller of the acquired assets. In accordance with SFAS No. 142, goodwill and purchased intangibles with indefinite lives are not amortized, but will be reviewed periodically for impairment. Purchased intangibles with finite lives will be amortized on a straight-line basis over their respective useful lives.

NOTE 2 BUSINESS COMBINATION

Effective February 28, 2005, the Company acquired all of the outstanding shares of Rizzo Inc. (doing business as Owen Mills Company), a Los Angeles-based manufacturing and service company specializing in military and industrial sewing of marine and ballistic fabric products. Under the terms of the agreement, the Company purchased all of Rizzo Inc. s, outstanding stock in consideration for a \$200,000 note payable and shares of the Company s common stock having a value of \$200,000, based on the average closing price per share of the Company s common stock for the ten trading days preceding the issuance of such shares. The Company shall pay the \$400,000 of consideration as follows: (i) \$3,333.33 each month commencing on March 31, 2005 and thereafter on the last business day of each successive month until Buyer has paid Shareholder a total of \$200,000; the present value of the payments is \$172,401 (ii) \$40,000 in the form shares of common stock of the Company payable within fifteen (15) business days from the date of the Agreement; and (iii) \$40,000 in the form of Company stock paid to the Seller on each of the last business days of February 2006 (see Note 8), February 2007, February 2008, and of February 2009.. The Company acquired assets totaling \$576,190 and assumed liabilities of \$284,689.

The following table reflects the unaudited pro forma combined results of operations for the three months ended March 31, 2005, assuming the acquisition had occurred at the beginning of 2004.

	<u>For the three Months ended March 31, 2005</u>
Revenue	\$ 3,844,061
Net income	\$ 80,681
Net income per share - basic and diluted	\$ 0.00

(UNAUDITED)

NOTE 3 INVENTORIES

Inventories consisted of the following:

	<u>March 31, 2006</u>	<u>December 31, 2005</u>
Raw materials	\$ 1,591,170	\$ 1,815,021
Work in progress	455,867	592,751
Finished goods	559,388	514,226
	<u>\$ 2,606,425</u>	<u>\$ 2,921,998</u>

NOTE 4 SHORT-TERM DEBT

Short-term debt at March 31, 2006 and 2005 consisted of the following:

	<u>Interest Rates</u>	<u>March 31, 2006</u>	<u>December 31, 2005</u>
Revolving credit facility	7% - 12%	\$ 860,915	\$ 501,793
Short-term bank loans	6% - 7.5%	446,322	459,945
		<u>\$ 1,307,237</u>	<u>\$ 961,738</u>

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB

The revolving credit facility is due on demand. The short-term bank loans at March 31, 2006 include one loan due in nine monthly installments of \$1,785 per installment and a three loans aggregating of \$430,246 which are due on demand.

The revolving credit facility is used to fund the day to day activities of the company and was used to cover expenses incurred as a result of the evacuation of the Company's operations from the Erez Industrial Zone in the Gaza Strip. The Company anticipates that the expenses related to the evacuation from the Erez Industrial Zone will be reimbursed by the Israeli Government.(See Note 7(C))

NOTE 5 **SHAREHOLDERS EQUITY**

Securities Purchase Agreement:

On June 15, 2005, the Company executed a Securities Purchase Agreement (the Agreement) with a group of investors for a \$1.1 million private placement of its common stock. Pursuant to the Agreement, the Company agreed to issue 1,833,334 shares of its common stock to the investors at a price of \$0.60 per share. The Company also agreed to issue the investors 365,000 warrants to purchase its common stock at an exercise price of \$0.94 share, exercisable until June 30, 2007, and 182,500 warrants at an exercise price of \$2.40 per share, exercisable until June 30, 2010. The Agreement also provided for the issuance by the Company to the investors of up to an additional 1,368,191 shares of its common stock if, one year after the closing, there has been a decrease in the Company's share price of \$0.60 per share.

9

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

In addition, the Company agreed to issue 82,133 shares of its common stock, as well as 60,000 warrants at an exercise price of \$0.94 (exercisable until June 30, 2007) and 20,000 warrants at an exercise price of \$2.40 per share (exercisable until June 30, 2010) as a finder's fee for services provided in connection with the transaction.

The Company accounted for the warrants issued based on guidance from SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities and Emerging Issues Task Force (EITF) No. 00-19, Accounting for Derivative Financial Instruments Indexed to and Potentially Settled in a Company's Own stock. Accordingly, the warrants are treated as derivatives and classified as a liability. The warrants are recorded at fair value, based on the Black-Scholes pricing model, and revalued each reporting period with the change in fair value recorded as other income (expenses). For the three months ended March 31, 2006 the fair value adjustment resulted in a gain of \$29,218.

The Company allocated the proceeds from the private placement of \$1.1 millions between the common stock and the warrants based upon the fair value of the warrants at the transaction date using the Black-Scholes pricing model. This resulted in a liability being recorded at the transaction date for the warrants of \$166,777.

NOTE 6 **SEGMENT INFORMATION AND CONCENTRATIONS**

The Company has two strategic business units: the civilian market and the military market. The military market is further broken down between local and export sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because several assets are used in more than one segment and any allocation would be impractical.

NOTE 7 COMMITMENTS AND CONTINGENCIES(A) Contingencies

The Company has an employment agreement with the President of the Company, pursuant to which the President is entitled to additional compensation of 1.5% of the growth in the Company's total sales since 2002. The President, at his option, may receive shares of common stock in lieu of cash. For the year ended December 31, 2004, the President was entitled to bonus compensation in the amount of \$21,102, or 42,204 shares of the Company's common stock in lieu of such compensation (having a fair value of \$48,957), which was accrued and included in other current liabilities and subsequently paid in 2005). For the three months ended March 31, 2006, there was no bonus due to the President of the Company.

DEFENSE INDUSTRIES INTERNATIONAL, INC.

AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

(B) Other Matters

Mayotex Ltd., received a notification of audit from the Israeli Internal Revenue Service for the years ended December 31, 2002, 2003, and 2004. The audit is in the initial stage and the Company is unable to determine, what effect, if any, the audit will have on the consolidated financial statements.

(C) Israeli Gaza Strip Operations:

During 2004, the Israeli Government decided to evacuate the Erez Industrial Zone in the Gaza Strip where part of the Company's operations were located. The Company had owned facilities, leased other facilities and maintained equipment and inventory within this area. In 2005, the Company moved its light cut and sew operation from the Erez Industrial Zone to Sderot as well as some of its webbing equipment to Nazareth. In August 2005, the Company evacuated its remaining operations and abandoned the buildings owned and leased in the Erez Industrial Zone. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions, as well as the Evacuation Law that was adopted by the Israeli Parliament, to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone, however, the amount of the compensation has not been finalized.

The Company incurred \$217,477 in costs related to the evacuation of its facilities located in the Erez Industrial Zone in the Gaza Strip, which includes \$89,612 in moving expenses and \$127,865, of net book value for the building that was abandoned. The Company believes that it will be reimbursed in full for all costs related to the evacuation as well as the fair market value of the abandoned facilities in the Erez Industrial Zone. As a result, the Company has reclassified the net book value of the abandoned assets as well as the evacuation costs to a receivable from the State of Israel in the amount of \$217,447 which is included in Other Current Assets in the Consolidated Balance Sheet at March 31, 2006 and December 31, 2005.

Since the Company believes that it will be reimbursed for the fair market value of the abandoned building, there is a potential gain contingency that will be recorded when and if realized.

NOTE 8 **SUBSEQUENT EVENTS**

On April 3, 2006, the Company issued 123,077 common shares having a fair value of \$40,000 to the former shareholder of Owen Mills according to the business combination agreement signed on February 28, 2005.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This information should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2005 contained in our 2005 Annual Report on Form 10-KSB. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements

Critical Accounting Policies

We have identified the following policies as critical to the understanding of our condensed consolidated financial statements. The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of sales and expenses during the reporting periods. Our condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Revenues and Revenue Recognition. Revenues from sales of products are recognized upon shipment to customers. We provide a warranty on goods ranging from three to four years. Our policy is to consider the establishment of a reserve for warranty expenses. Based upon our historical experience, we have not established a reserve at March 31, 2006 and March 31, 2005. If we change any of our assumptions with regard to our recognition of revenues, or if there is a change with respect to warrant expenses our financial position and results of operations may change materially.

Foreign Currency Translation and Transactions. The functional currency of Export Erez, Ltd., Mayotex Ltd., and Achidatex Nazareth Elite is the New Israeli Shekel, or NIS. The functional currency of Dragonwear Trading Ltd. is the Cyprus Pound, or CYP. The financial statements of Dragonwear are translated into NIS. The financial statements for all of these entities are then translated into U.S. dollars from NIS at period-end exchange rates as to assets and liabilities and average exchange rates as to revenues and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. Foreign currency transaction gains or losses from transactions denominated in currencies other than NIS are recognized in net income in the period the gain or loss occurs. Any change in exchange rates may have a material impact on our financial position and results of operations.

13

Accounts Receivable. Accounts receivable consist primarily of receivables from customers and institutions. We record a provision for doubtful accounts, when appropriate, to allow for any amounts which may be unrecoverable based upon an analysis of our prior collection experience, customer creditworthiness and current economic trends.

Inventories. Inventories are valued at the lower of cost or market value using the first-in first-out method. The cost includes expenses of freight-in transportation. The specific identification method is used for finished goods since all orders are custom orders for customers. Inventories write-offs and write-down provisions are provided to cover risks arising from slow-moving items or technological obsolescence. Any change in our assumptions with respect to the need to write-off or write-down the value of our inventories may have material affect on our financial position or results of operations.

Property Plant and Equipment Fixed assets are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of three to twenty-five years. These long-lived assets are generally evaluated on an individual basis in making a determination as to whether such assets are impaired. Periodically, we review our long-lived assets for impairment based on estimated future non-discounted cash flows attributed to the assets. In the event such cash flows are not expected to be sufficient to recover the recorded value of the assets, the assets are written down to their estimated fair values. The use of different assumptions with respect to the expected cash flows from our assets and other economic variables, primarily the discount rate, may lead to different conclusions regarding the recoverability of our assets carrying values and to the potential need to record an impairment loss for our long lived assets.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

Material Trends

Local Military Market. The Israeli Military defense budget has been subject to reductions since the second half of 2003. As a result, the demand for our products declined in the second half of 2003 and stabilized at a lower level in 2004 and 2005. In 2005 and in the first three months of 2006 sales to the Israeli Ministry of Defense were \$2,099,918 and \$427,393, accounting for 18.3% and 23.3% of our sales.

In the second half of 2005, the Israeli Government evacuated the Gaza strip. The evacuation process resulted in our incurring substantial expenses and resulted in a reduction in the funds that were initially budgeted for the procurement of new products. Additionally, as a result of the Israeli Government's decisions and the evacuation, the Israeli Defense Forces, or IDF, have indicated that they will slightly reduce their manpower and that equipment will be stored for long periods in environments that will promote battlefield readiness and the capability of quick deployment. In light of these trends, we believe that our local military business will grow as a result of an increase in the demand for our dry storage systems products. However, the budget for 2006 has not been approved as of yet, and only limited purchases have been made by the IDF since January 1, 2006. Accordingly, such increase will probably not be reflected until the second half of 2006.

Export Military Market. Our customers in this market are military and law enforcement organizations, mostly in South America, North America and Europe. Their budgets fluctuate and as a result we cannot identify definite trends in these markets. In 2005 and in the first three months of 2006, we had sales of \$882,440 and \$67,673 in South America, sales of \$1,251,611 and \$93,497 in North America, and sales of \$3,532,161 and \$265,816 in Europe, respectively.

Since 2003, we have increased our export marketing efforts and sales as a consequence of the worldwide environment resulting from the events of September 11, 2001, the subsequent war on terrorism and the continuing conflict in Iraq. We are continuing our efforts to strengthen our position in our existing export markets in the U.S., South America, Asia and Europe, and to extend our presence to new export markets in South America and Europe. We believe that those markets are growing and that any future success in such markets is mainly dependant on our ability to be competitive in our pricing and the quality of our products.

On November 17, 2003, in response to concerns from the law enforcement community, the U.S. Department of Justice announced an initiative to address the reliability of body armor used by law enforcement personnel and to examine the future of bullet-resistant technology and testing. These concerns followed the failure of a relatively new Zylon®-based body armor vest worn by a Pennsylvania police officer. As part of this initiative, the American NIJ, examined Zylon®-based bullet-resistant vests (both new and used) and reviewed the existing process by which bullet-resistant vests are certified. Zylon® (or PBO fiber poly-p-phenylene benzobisoxazole) is a high-strength organic fiber produced by Toyobo Co., Ltd. On August 24, 2005, the American NIJ released a status report of its examination to the Department of Justice in which the American NIJ announced, among other things, that although the test results do not conclusively prove that all Zylon®-containing body armor models have performance problems, they show that used Zylon®-containing body armor may not provide the intended level of ballistic resistance. The test results also imply that a visual inspection of body armor and its ballistic panels does not indicate whether a particular piece of Zylon®-containing body armor has maintained its ballistic performance. On such date, the American NIJ also issued a Body Armor Standard Advisory Notice advising that it has identified Zylon® as a material that appears to create a risk of death or serious injury as a result of degraded ballistic performance when used in body armor. The American NIJ also introduced the American NIJ 2005 Interim Requirements for Bullet-Resistant Body Armor, or the American NIJ Interim Requirements, modifying and supplementing NIJ Standard 0101.04 (Ballistic Resistance of Personal Body Armor), or the American NIJ Standard 0101.04.

Under the NIJ Interim Requirements, any body armor model that was found by NIJ to be compliant with NIJ Standard 0101.04 prior to the effective date of NIJ Interim Requirements must, in order to comply with NIJ Interim Requirements, obtain from NIJ a notice of compliance by, among other things, submitting to NIJ either: (i) evidence that demonstrates to the satisfaction of NIJ that the body armor model will maintain ballistic performance over its declared warranty period; or (ii) a written certification (the sufficiency of which shall be determined by NIJ) that the model contains no material listed in an NIJ Body Armor Standard Advisory Notice in effect at the time of submission.

As a result of these developments, legal proceedings have been filed against certain U.S. based manufacturers. In addition, certain major U.S. based manufacturers have initiated exchange and upgrade programs for bullet-resistant vests resulting in increased expenses. These developments have caused a general decline in sales of bullet-resistant vests.

Our products do not contain Zylon®. In accordance with the American NIJ Interim Requirements, we intend to apply to the American NIJ to obtain a notice of compliance with the NIJ Requirements with respect to our products that were previously found by the American NIJ to be compliant with the American NIJ Standard 0101.04, as soon as final regulations will be published by them.

As a result of the above, there is a general decline in sales of bullet-resistant vests in our markets, which have affected our sales of bullet-resistant vests and our results of operations since the last two quarters of 2005 and in the first quarter of 2006. We expect that our export military business will continue to suffer in 2006, but that the trend will reverse thereafter.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB

Local Civilian Market. Our product range to the civilian market is diversified. In 2004 and 2005, our local market business grew as a result of the improvement of the economic situation in Israel. We expect a modest increase in this market in 2006 and in the future.

Gross Profit Margins. Our pricing policy, although slightly different from one product to the other, is based on our existing overall gross margin. We do not expect a material change in our gross profit margins in the foreseeable future.

Backlog. We had approximately \$2.3 million of unfilled customer orders at March 31, 2006, out of which approximately \$400,000 was attributable to orders from military customers in South America, approximately \$250,000 was attributable to orders from Europe, Asia and Africa, approximately \$150,000 was attributable to the local civilian market, approximately \$500,000 was attributable to the U.S. civilian market and approximately \$1 million was attributable to the Israeli military of defense.

Operations in the Erez Industrial Zone

During 2004, the Israeli Government decided to evacuate the Erez Industrial Zone in the Gaza Strip where part of our operations were located. We evacuated our remaining operations from the Erez Industrial Zone in August 2005. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions as well as the Israeli Evacuation Compensation Law (2005), that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone.

16

During the second half of 2004, we prepared for the eventual evacuation by merging existing production facilities. We moved one of our light cut and sew operations to Sderot and some of our webbing equipment to Nazareth.

At March 31, 2006 we recorded a receivable in the amount of \$217,447, which represents costs incurred related to the evacuation of the Erez Industrial Zone, which according to the Evacuation Law we will recover from the State of Israel. Of these costs, \$127,865 represents the net book value of the facilities abandoned and \$89,612 represents all other moving costs. In February 2006, three of our subsidiaries, Export Erez Ltd., Mayotex Ltd. and Achidatex Nazareth Elite (1997) Ltd. filed a claim for compensation pursuant to the Evacuation Compensation Law. We cannot provide any assurance that the claim, which substantially exceeded the amount of our receivable, will be approved in full, or to what extent, or when the compensation will be paid.

Three Months Ended March 31, 2006 Compared with Three Months Ended March 31, 2005

Results of Operations

Net Revenues and Gross Profit Margin. Net revenues for the three months ended March 31, 2006 decreased to \$1,833,371 from \$3,684,480 in the same period in 2005, a decrease of 50.2%. The decrease is primarily attributable to the decrease in export sales, resulting from the general decline in sales of bullet-resistant vests and from reduction in sales to the IDF, due to the delay in the approval of the IDF budget for 2006. The decrease in sales of bullet-resistant vests is due to the failure of the relatively new Zylon®-based body armor vest, and the new requirements of the American NIJ for certifying new bullet-resistant vests. In the three months ended March 31, 2006, Achidatex, Export Erez, and Owen Mills accounted for \$682,469 or 37.2%, \$896,546 or 48.9%, and \$254,356 or 13.9% of our revenues, respectively. In the three months ended March 31, 2005 Achidatex, Export Erez, and Owen Mills accounted for \$1,977,844 or 53.7%, \$1,624,523 or 44.1%, and \$82,113 or 2.2% of our revenues, respectively. The revenues attributable to Owen Mills relate to the period beginning from February 28, 2005.

The following table sets forth the breakdown of sales by segment for the three months ended March 31, 2006 and 2005.

	Three months ended March 31,	
	2006	2005
Sales to the local civilian market	\$ 795,430	\$ 459,020
Sales to the local military market	540,773	581,467
Export military sales	497,168	2,643,993
	\$ 1,833,371	\$ 3,684,480

Gross profit for the three months ended March 31, 2006 was \$308,898 compared to \$655,097 for the same period in 2005. This decrease in gross profit is principally attributable to the decrease in our sales in the first quarter of 2006. In the three months ended March 31, 2006 Achidatex, Export Erez and Owen Mills accounted for 15.1%, 12.9%, and 18.5%, of our gross profit, respectively. In the three months ended March 31, 2005 Achidatex, Export Erez and Owen Mills accounted for 14.2%, 13%, and 18%, of our gross profit, respectively. The revenues attributable to Owen Mills relate to the period beginning from February 28, 2005.

17

Selling Expenses. Selling expenses for the three months ended March 31, 2006 decreased to \$135,689 from \$144,081 for the same the same period in 2005. The decrease in our selling expenses was attributable to the decrease in export sales which resulted in lower selling commissions. Achidatex's selling expenses for the three months ended March 31, 2006 were \$88,147 compared to \$89,572 for the three months ended March 31, 2005. Export Erez's selling expenses for the three months ended March 31, 2006 were \$45,500 compared to \$54,509 for the three months ended March 31, 2005. Owen Mills selling expenses for the three months ended March 31, 2006 were \$2,042 compared to \$1,100 for the period between February 28, 2005 and March 31, 2005.

General and Administrative Expenses. General and administrative expenses for three months ended March 31, 2006 decreased slightly to \$394,250 from \$397,096 for the same period in 2005, mainly as a result of our policy to strictly monitor these expenses.

Financial Expenses. We had financial expenses, net of \$7,383 for the three months ended March 31, 2006 as compared to \$44,169 for the same period in 2005. This decrease is mainly attributable to the increase in the exchange rate between the U.S. dollar and the NIS.

Gain on Fair Value Adjustment to Embedded Derivatives. Pursuant to a securities purchase agreement we executed with a group of investors on June 15, 2005, we issued to such investors warrants to purchase 627,500 shares of our common stock. Our accounting for the warrants was based on guidance from SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities and EITF No. 00-19, Accounting for Derivative Financial Instruments Indexed to and Potentially Settled in a Company's Own Stock. Accordingly, the warrants were treated as derivatives and classified as a liability. The warrants were recorded at fair value, based on the Black-Scholes pricing model, and will be revalued each reporting period with the change in fair value recorded as other income (expenses). For the three months ended March 31, 2006, the fair value adjustment resulted in a gain of \$29,218.

Other Income, Net. We had other income, net for the three months ended March 31, 2006 of \$30,288 as compared to other income of \$80,226 for the same period in 2005. The other income in 2006 is attributable to realized and unrealized gains from our sale of securities.

Income Tax Expense. Our income tax expense for the three months ended March 31, 2006 was \$15,222 as compared to a tax expense of \$49,014 for the comparable period in 2005. As an Israeli tax payer, we are unable to include the loss of Owen Mills in our consolidated income tax filings in Israel. Achidatex's income tax expense for the three months ended March 31, 2006 was \$921 compared to \$34,651 for the three months ended March 31, 2005. Export Erez's income tax expense for the three months ended March 31, 2006 was \$13,501 compared to income tax expense of \$23,069 for the three months ended March 31, 2005. Defense Industries did not have any tax expenses for the three months ended March 31, 2006 compared to a tax income of \$8,705 for the three months ended March 31, 2005. Owen Mills income tax expense for the three months ended March 31, 2006 was \$800 for the three months ended March 31, 2006.

18

Minority Interest. Minority interest in the profits and losses of one of our consolidated subsidiaries represents the minority shareholders share of the profits or losses in such majority owned subsidiary. For the three months ended March 31, 2006, we recognized and recorded minority share in our loss of \$28,130 compared with the minority share in our profit of \$17,725 for the three months ended March 31, 2005.

Net Income (Loss). In the three months ended March 31, 2006 we had a net loss of \$156,010 as compared to net income of \$83,238 for the three months ended March 31, 2006. Achidatex's net loss for the three months ended March 31, 2006 was \$89,077 compared to net income of \$56,129 for the three months ended March 31, 2005. Export Erez's net loss for the three months ended March 31, 2006 was \$14,221 compared to net income of \$87,936 for the three months ended March 31, 2005. Owen Mills' net loss for the three months ended March 31, 2006 was \$40,495 compared to \$9,325 for the period between February 28, 2005 and March 31, 2005.

Other Comprehensive Income (Loss). We had other comprehensive loss, for the three months ended March 31, 2006 of \$59,810 as compared to other comprehensive loss of \$24,605 for the three months ended March 31, 2005. This loss is principally attributable to the increase

of the U.S. dollar exchange rate against the NIS.

Liquidity and Capital Resources

As of March 31, 2006, we had \$1,537,925 in cash and cash equivalents, \$738,944 in trading securities and working capital of \$4,139,507 as compared to \$1,581,967 in cash and cash equivalents, \$739,339 in trading securities and \$4,618,405 in working capital at December 31, 2005. The decrease in working capital is mainly due to the decrease in our inventory to reflect our lower sales levels.

Net cash used in operating activities was \$18,467 for the three months ended March 31, 2006 as compared to \$452,172 provided from operating activities for the same period in 2005. This was primarily attributable to a net loss of \$156,010 in this period, a decrease in other liabilities of \$189,917, and a decrease in accounts payable of \$62,627, which was offset by a \$315,573 decrease in inventory and depreciation costs of \$100,886.

Net cash used in investing activities was \$53,737 for the three months ended March 31, 2006 as compared to \$141,418 in the three months ended March 31, 2005. During the three months ended March 31, 2006, \$71,762 (net of sales of fixed assets) was used to purchase fixed assets, while \$18,025 (net of purchases of trading securities) was provided from sales of our trading securities.

Net cash provided from financing activities was \$126,663 for the three months ended March 31, 2006 as compared to \$628,928 in the three months ended March 31, 2005. During the three months ended March 31, 2006, we increased our short-term debt by \$345,502 and we repaid \$218,836 of long term debt.

19

Most of our large purchase orders are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have historically achieved net profits on an annual basis, but our quarterly profits are not consistent on a quarter to quarter basis. Nevertheless, we have striven to balance our accounts payable and account receivable.

We believe that our spending for research and development in 2006 will be consistent with our spending in 2005 of \$70,000 per year.

We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS, No. 123 (revised 2004), Share-Based Payment , (SFAS 123R), a revision to SFAS No. 123, Accounting for Stock Based Compensation. SFAS No.123R superseded APB No.25 and amended SFAS No.95, Statement of Cash Flows . Effective January 1,2006, SFAS No. 123R requires that the Company measure the cost of employee services received in exchange for equity awards based on the grant date fair value of the awards, with the cost to be recognized as compensation expense in the Company s financial statements over the vesting period of the awards. Accordingly, the Company will recognize compensation cost for equity-based compensation for all new or modified grants issued after December 31, 2005. In addition, commencing January 1, 2006, the Company is required to recognize the unvested portion of the grant date fair value of awards issued prior to adoption of SFAS No. 123r based on the fair values previously calculated for disclosure SFAS No.123R based on the fair values previously calculated for disclosure purposes over the remaining vesting period of the outstanding stock options and warrants.

The Company adopted SFAS No. 123R effective January 1, 2006, and is using the modified prospective method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS No. 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS No. 123R that the remain unvested on the effective date.

The Company has not granted stock options to purchase shares of its common stock for employee services currently or in the year ended December 31, 2005. Accordingly, the Company s Condensed Consolidated Financial Statements do not include any stock based compensation expense for the three months ended March 31, 2006 and is not required to disclose proforma stock based compensation expense for the three months ended March 31, 2005, nor does the Company have any unvested deferred compensation that must be amortized over any vesting periods.

Foreign Currency Exchange Risk

We develop products in Israel and sell them in North and South America, Asia and several European countries. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our foreign currency exposure with respect to our sales is mitigated, and we expect it will continue to be mitigated, through salaries, materials and support operations, in which part of these costs are denominated in NIS.

During 2005, the NIS devalued approximately 6.85% against the dollar. In the first quarter of 2006 the NIS devaluated in value in relation to the dollar by approximately 1.35 % against the U.S. dollar. Among the factors contributing to the devaluation were the increase in the interest rate for dollars investments compared to interest rate for NIS investments.] The inflation rate in Israel was approximately 0.58% for the three months ended March 31, 2006 compared to an annual inflation rate of 2.38% in 2005.

Since most of our sales are quoted in dollars, and a portion of our expenses are incurred in NIS, our results may be adversely affected by a change in the rate of inflation in Israel or if such change in the rate of inflation is not offset, or is offset on a lagging basis, by a corresponding devaluation of the NIS against the dollar and other foreign currencies. We will also be adversely affected if the dollar depreciates against the Euro, the currency used for many of our purchases of raw material

20

We did not enter into any foreign exchange contracts in 2005 or the first three months of 2006.

Contractual Obligations

The following table summarizes our contractual obligations and commercial commitments as of March 31, 2006.

Contractual Obligations	Payments due by Period				
	Total	less than 1 year	2 - 3 years	4 - 5 years	more than 5 years
Long-term debt obligations	\$ 1,301,092	\$ 677,438	\$ 568,327	\$ 55,327	\$ --
Capital (finance) lease obligations	--	--	--	--	--
Operating lease obligations	868,446	278,500	574,226	15,720	--
Purchase obligations	--	--	--	--	--
Other long-term liabilities reflected on the Company's balance sheet under U.S. GAAP	--	--	--	--	--
Total	\$ 2,169,538	\$ 955,938	\$ 1,142,553	\$ 71,047	--

Cautionary Statement Regarding Forward-Looking Information and Risk Factors

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as anticipate, expect, intend, plan, believe, seek, outlook and estimate as well as similar words and phrases signify forward-looking statements. Our forward-looking statements are not guarantees of future results and conditions and important factors, risks and uncertainties may cause our actual results to differ materially from those expressed in our forward-looking statements. These uncertainties and other factors include, but are not limited to, the following:

Our significant international operations subject us to financial and regulatory risks.

Currency exchange rate fluctuations in the world markets in which we conduct business could have a material adverse effect on our business, results of operations and financial condition.

Sales of our products are subject to governmental procurement procedures and practices; termination, reduction or modification of contracts with our customers, and especially with the government of Israel, or a substantial decrease in our customers' budgets may adversely affect on us.

The loss of one or more of our key customers would result in a loss of a significant amount of our revenues.

Our markets are highly competitive. Inability to compete effectively will adversely affect us.

Limited sources for some of our raw materials may significantly curtail our manufacturing operations.

Our resources may be insufficient to manage the demands imposed by any future growth.

Item 3. Controls and Procedures

Our management evaluated, with the participation of our chief executive officer and chief financial officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on the evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were not effective.

During the evaluation it was determined that our accounting resources were not adequate to ensure sufficient time for our accounting staff to (i) perform a review of the consolidation and supporting financial statement disclosure schedules independent of the preparer, (ii) adequately prepare for our quarterly reviews and (iii) research all applicable accounting pronouncements as they relate to our financial statements and underlying disclosures. Inadequate levels of accounting personnel have also impaired our ability to timely file our periodic reports without extension.

Due to this weakness, in preparing our financial statements for the quarter ended March 31, 2006, we performed additional analysis and other post closing procedures to ensure that such financial statements were stated fairly in all material respects in accordance with U.S. generally accepted accounting principles.

Changes in Internal Controls over Financial Reporting

There were no changes in internal controls over financial reporting identified in connection with the evaluation of our internal controls that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

Given the identification of the factors described above, we have recently hired and will consider the need to hire additional experienced personnel to our staff so that we may provide the requisite resources to timely and accurately prepare our financial statements and to perform a review of the consolidation and supporting financial statement disclosure schedules. We are also providing additional training to our financial personnel in the use of our accounting system.

PART II OTHER INFORMATION

DEFENSE INDUSTRIES INTERNATIONAL, INC. AND SUBSIDIARIES

Item 1. Legal Proceedings

We are not a party to any pending or to the best of our knowledge, any threatening legal proceedings. None of our directors, officers or affiliates, or owner of record of more than five percent (5%) of our shares, or any affiliate of any such director, officer or security holder is a party adverse to us or has a material interest adverse to us in reference to a pending litigation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 15, 2005 we executed a securities purchase agreement, with Gov Financial Holdings, Avshalom Hershovich, Multi Concept Ltd. and Ruth Creative Business Ltd., all of which are accredited investors, for a \$1.1 million private placement of our common stock, along with 627,500 warrants to purchase our common stock. Pursuant to this agreement we issued 1,833,334 shares of our common stock at \$0.60 per share. The investors also received 365,000 warrants at an exercise price of \$0.94 per share exercisable until June 30, 2007 and 182,500 warrants at an exercise price of \$2.40 per share exercisable until June 30, 2010. The agreement also provided for the issuance by us of up to additional 1,368,191 shares of our common stock to the investors, a year after the closing, in the event of decrease in the share price. In addition, we agreed to issue 82,133 shares of our common stock, as well as 60,000 warrants at an exercise price of \$0.94 per share exercisable until June 30, 2007 and 20,000 warrants at an exercise price of \$2.40 per share exercisable until June 30, 2010, as finders' fees. The transaction was exempt from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 of Regulation D. As part of the transaction, we filed a registration statement on Form SB-2 with the United States Securities and Exchange Commission for the purpose of registering for resale the common stock issued in the private placement and the shares underlying the warrants. Such Registration Statement was declared effective on December 9, 2005. As of December 31, 2005, we accounted for the warrants issued in the transaction based on the guidance of Statement of Financial Accounting Standards, or SFAS, No. 133, Accounting for Derivative Instruments and Hedging Activities and Emerging Issues Task Force, or EITF, No. 00-19., Accounting for Derivative Financial Instruments Indexed to and Potentially Settled in a Company's Own Stock. Accordingly, the warrants are treated as derivatives and classified as a liability. The warrants are recorded at a fair value, based on the Black and Scholes pricing model, and are revaluated each reporting period with the change in fair value recorded as other income(expenses). For the year ended December 31, 2005 the fair value adjustment resulted in a gain of \$138,488.

We allocated the proceeds of \$1.1 million from the private placement between the share of common stock and the warrants that were issued based upon the fair value of the warrants at the transaction date using the Black and Scholes pricing model, and accordingly we recorded a liability in the amount of \$171,597 at the date the warrants were registered.

23

On February 28, 2005, we acquired all of the outstanding shares of Owen Mills, a company specializing in military and industrial sewing of marine and ballistic fabric products. Pursuant to the terms of the securities purchase agreement, we purchased all of the outstanding stock of Owen Mills in consideration for \$200,000 and shares of our common stock having a value of \$200,000, based on the average closing price per share of our common stock for the ten trading days preceding the issuance of such shares. Under the agreement the aggregate consideration of \$400,000 will be paid by us as follows: (i) \$3,333.33 each month commencing on March 31, 2005 and thereafter on the last business day of each successive month until the we have paid \$200,000 to the former shareholder of Owen Mills; (ii) \$40,000 in the form of shares of our common stock payable shortly after the closing of the transaction; and (iii) \$160,000 in the form of shares of our common stock to be issued in four installments beginning on the last business day in February 2006 and on the anniversary of such date for the following three years. In accordance with the agreement, we issued on April 27, 2005, and on April 3, 2006, 36,463 shares and 123,077 shares of our common stock respectively, each issuance having market value of \$40,000.

Item 3. Default Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Shareholders

None.

Item 6. Exhibits

(a) Exhibits

- 31.1** Certification by Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2** Certification by Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
