Roni Al-Dor, President and CEO, commented Today we reported our seventh consecutive quarter of operating profit, which proves our strategy direction and improving performance. In the last six months we achieved a significant improvement in the aggregate of \$1 million in operational profit and \$2.8 million in cash flow from operations. The net loss is a result of financial expenses relating to the Company s debentures due to the evaluation of the New Israeli Shekel exchange rate against the U.S. Dollar. Neutralizing this exchange rate decrease, Sapiens would be reporting net income today. However, despite the drop in the U.S Dollar/New Israeli Shekel exchange rate, we reported an operational profit of \$579,000, an improvement compared with the first quarter of 2008 and the second quarter of 2007. In addition, we improved our pipe line, competing in a few major tenders and face several promising opportunities which we expect will become signed agreements in 2008.

Mr. Al-Dor added, We thank our customers, our investors and our employees for the good news we reported today.

Comment Regarding Non-GAAP

Sapiens management believes that the presentation of non-GAAP measures can enhance the understanding of the company s ongoing economic performance, and provides useful information to investors regarding financial and business trends relating to the company s financial condition and results of operations. Sapiens therefore uses internally the non-GAAP information to evaluate and manage the Company s operations.

This non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Sapiens believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Sapiens results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Sapiens results of operations in conjunction with the corresponding GAAP measures.

Please refer to the Reconciliation of GAAP to Non-GAAP Results at the end of this release.
