Management Comments:

Mr. Yitzhak Nissan, Chairman of the Board and Chief Executive Officer, commented: "During the first quarter of 2015, we continued to experience weakness in demand for printed circuit boards and as a result, a decline in sales to the defense sector. We have been able to soften the impact of the \$2.6 million decline in sales by reducing expenses. As a result of our cost reduction efforts and the increase in the US dollar exchange rate against the NIS, our operating loss was even reduced by \$13,000 from the first quarter of 2014. We continue with our efforts to improve our operational efficiencies.

"We have been focused on increasing sales to the US market where we believe customers perceive our products as having both high reliability and top quality. Incoming orders from the US during the first quarter of 2015 increased by 11% compared to the first quarter of 2014. We believe that as a result of our increased marketing activities and our recent expansion of our sales force in the West Coast we will be able to increase our US sales this year. The equipment we recently purchased has been installed and already offers us increased operational flexibility and improved product quality."

"Based on these steps, I am optimistic regarding the Company's ability to return to sustainable profitability in the future," Mr. Nissan concluded.

#### Use of EBITDA

ELTEK uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation and amortization. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company's business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. Reconciliation between the company's results on a GAAP and non-GAAP basis is provided in a table immediately following the Consolidated Statement of Operations.
