ISRAMCO INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1 - BASIS OF PRESENTATION

As used in these financial statements, the terms "Company" and "Isramco" refer to Isramco, Inc. and subsidiaries.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of Management, all adjustments (consisting of only normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the nine month period ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ended December 31, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in Isramco's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

Certain re-classification of prior year amounts has been made to conform to current presentation.

On March 2, 2007 (the "Acquisition Date"), Isramco purchased certain oil and gas properties located in Texas and New Mexico from Five States Energy Company, LLC for an aggregate preliminary purchase price of \$92 million (before adjustments as defined in the agreement). Although the acquisition was closed on March 2, 2007, the effective dated of the purchase was determined to be October 1, 2006 (the "Effective Date"). Accordingly, the Company is entitled to the net revenues, less direct operating expenses, of the acquired properties from the Effective Date through the Acquisition Date. This will result in an adjustment to the preliminary purchase price. These financial statements reflect the assets acquired and operations related to those assets from the Acquisition Date through September 30, 2007.

NOTE 2 - CONSOLIDATION

The consolidated financial statements include the accounts of Isramco, its direct and indirect non U.S. based wholly-owned subsidiaries Isramco Oil and Gas Ltd. ("Oil and Gas") and its U.S. based wholly-owned subsidiaries: Jay Petroleum, L.L.C. ("Jay Petroleum"), Jay Management L.L.C. ("Jay Management"), IsramTec Inc. ("IsramTec") and Isramco Energy LLC. Inter company balances and transactions have been eliminated in consolidation.

NOTE 3 - NEW ACCOUNTING PRONOUNCEMENTS

Edgar Filing: ISRAMCO INC - Form 10-Q

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" (FIN 48). This Interpretation provides guidance on recognition, classification and disclosure concerning uncertain tax liabilities. The evaluation of a tax position requires recognition of a tax benefit if it is more likely than not it will be sustained upon examination. We adopted this Interpretation effective January 1, 2007. The adoption did not have a material impact on our consolidated financial statements.

NOTE 4 - OIL AND GAS PROPERTIES

Isramco follows the "successful efforts" method of accounting for its oil and gas properties. Under this method of accounting, all property acquisition costs and costs of exploratory and development wells are capitalized when incurred, pending determination of whether the well has found proved reserves. If an exploratory well has not found proved reserves, the costs of the well are charged to expense. The costs of development wells are capitalized whether successful or unsuccessful. Geological and geophysical costs and the costs of carrying and retaining undeveloped properties are expensed as incurred.

NOTE 5 - TRANSACTION WITH FIVE STATES

On March 2, 2007, Isramco purchased certain oil and gas properties located in Texas and New Mexico from Five States Energy Company, LLC for an aggregate preliminary purchase price of \$92 million (in addition see Note 1). According to an engineering report prepared by an independent consulting company relating to the properties purchased, the estimated proved developed producing reserves are 1,447,161 net barrels of oil and 20,078,174 net MCF's of natural gas and 1,305,705 net of liquid products.

To fund the purchase, we obtained loans from our parent Naphtha Israel Petroleum Corp. Ltd. (including through its wholly owned subsidiary IOC-Israel Oil Company Ltd) in an aggregate principle amount of \$42 million. In addition, we obtained a \$7 million loan from J.O.E.L Jerusalem Oil Exploration Ltd, which is a related party, and a \$35.3 million line of credit from Wells Fargo. (see Note 7) The balance of the purchase was funded from working capital.

4

The following table summarizes the preliminary estimated fair values of assets that Isramco acquired and the liabilities assumed in connection with the acquisition of the Five States properties:

(in thousands)	
Oil and gas properties (after adjustments)	\$ 86,309
Asset retirement obligation	(1,166)

The following unaudited pro forma information assumes the acquisition of the Five States properties occurred as of January 1, 2006. The pro forma results are not necessarily indicative of what actually would have occurred had the acquisition been in effect for the period presented.

NOTE 7 - DEBT

In connection with the acquisition of the Five States properties (see Note 5), we obtained the following financing:

Pursuant to a Loan Agreement dated as of February 27, 2007 (the "Loan Agreement"), Isramco obtained a loan from Naphtha, its parent company, in the aggregate principal amount of \$18.5 million. The outstanding principal amount of the loan accrues interest at per annum rate equal to the London Inter-bank Offered Rate (LIBOR) plus 5.5%, not to exceed 11% per annum. Interest is payable at the end of each loan year. Principal plus any accrued and unpaid interest are due and payable on February 26, 2014. Interest after the maturity date accrues at the per annum rate of LIBOR plus 12% until paid in full. At any time, Isramco is entitled to prepay the outstanding amount of the loan without penalty or prepayment. To secure its obligations that may be incurred under the Loan Agreement, Isramco agreed to grant to Naphtha a security interest in certain specified properties held by Jay Petroleum, its wholly owned subsidiary. Naphtha can accelerate the loan and exercise its rights under the collateral upon the

Edgar Filing: ISRAMCO INC - Form 10-Q

occurrence of certain specified events of default. Mr. Jakob Maimon, Isramco's president and director is a director of Naphtha and Mr. Haim Tsuff, Isramco's Chief Executive Officer and Chairman is a controlling shareholder of Naphtha.

6

Pursuant to a Loan Agreement dated as of February 27, 2007 (the "Second Loan Agreement") Isramco obtained a loan from Naphtha, in the principal amount of \$11.5 million, repayable at the end of seven years. Interest accrues at a per annum rate of LIBOR plus 6%. At any time Isramco can make prepayments without premium or penalty. The Second Loan is unsecured. The other terms of the Second Loan Agreement are identical to the terms of the Loan Agreement.

Pursuant to a Loan Agreement dated as of February 27, 2007 (the "Third Loan Agreement ") Isramco obtained a loan from Naphtha, in the principal amount of \$12 million, repayable at the end of five years. Interest accrues at a per annum rate of LIBOR plus 6%. At any time Isramco can make prepayments without premium or penalty. The Third Loan is unsecured. The other terms of the Third Loan Agreement are identical to the terms of the Loan Agreement.

Pursuant to a Loan Agreement dated as of February 26, 2007 Isramco obtained a loan from J.O.E.L Jerusalem Oil Exploration Ltd, a related party ("JOEL"), in the principal amount of \$7 million, repayable at the end of 3 months. Interest accrues at a per annum rate of 5.36%. Mr. Jakob Maimon, Isramco's president and director is a director of JOEL and Mr. Haim Tsuff, Isramco's Chief Executive Officer and Chairman is a controlling shareholder of JOEL. On May 26, 2007, the maturity date this loan was extended until July 11, 2007. Pursuant to a loan agreement dated as of July 11, 2007, the maturity date on this loan was extended for an additional period of seven years. Interest accrues at a per annum rate of LIBOR plus 6%. Principal amount is repayable beginning at the end of third year in five equal installments. At any time Isramco can make prepayments without premium or penalty. The Loan is unsecured.

On March 2, 2007, Isramco Energy obtained a \$35.3 million credit line from Wells Fargo Bank. Amounts outstanding under the credit line are payable by March 1, 2011. Interest on amounts outstanding accrue at a per annum rate equal to LIBOR plus 2%. Isramco is required to maintain several financial covenants in connection with this credit line. The borrowing base for the credit line is determined periodically by Wells Fargo Bank using engineering reports and other information provided by Isramco. In addition, Isramco is required to hedge 80% of expected future volumes for a period of four years. Amounts outstanding under the credit line are secured by a guarantee from Isramco and a pledge by Isramco of the shares of Isramco Energy. Additionally, pursuant to an agreement between Sigma Energy Corporation ("Sigma"), an unrelated party that originated the transaction with Five States, Isramco and Isramco Energy, Isramco Energy paid to Sigma on March 2, 2007, the amount of \$300,000 and after Payout (as defined in the agreement with Sigma), Isramco Energy will assign to Sigma a direct ownership interests equal to 3.75% of the interests acquired by Isramco Energy under the Five States Purchase and Sale Agreement. During the period, the borrowing base with Wells Fargo Bank was reduced to \$27 million due to lack of engineering reports. Isramco will pay back the \$8.3 million reduction in six monthly payments beginning July 1, 2007. As of September 30, 2007 Isramco paid down approximately \$5.8 million. On 30 October, 2007 Isramco provided the bank an engineering report as required on the Credit agreement. Based on this report the bank will determine the new borrowing base.

NOTE 8 - DISCONTINUED OPERATION

In March 2004, Isramco purchased a luxury cruise liner for aggregate

Edgar Filing: ISRAMCO INC - Form 10-Q

consideration of \$8,050,000. The vessel, a Bahamas registered ship, contains 270 passenger cabins on nine decks. Isramco leased the vessel to a tour operator for the period from April 4, 2005 through October 31, 2005 and from April 6 2006 through November 5 2006 at a daily rate of \$8,000. Under the lease all maintenance and operating costs associated with the vessel were borne by the operator.

Title to the Vessel was in Magic 1 Cruise Line Corp., a British Virgin Islands corporation and a wholly owned subsidiary of Isramco ("Magic"). Isramco expended approximately \$1.4 million and \$1 million in the years 2006 and 2005, respectively, in respect of the maintenance, repairs, renovation and upkeep of the vessel. In addition, following management's assessment conducted in April and May 2006 as part of the preparation of the financial statements for the first quarter of 2006, management determined that there has been a decrease in the fair market value of Isramco's investment in the Magic 1 cruise vessel and, that as a consequence thereof, Isramco believed the investment had been impaired. Accordingly, Isramco recorded as impairment charge in March 2006 in the amount of \$2,200,000.

On December 31, 2006, Isramco and Chesny Estates Ltd., a British Virgin Islands corporation, entered into a Share Purchase and Sale Agreement, dated as of December 31, 2006, pursuant to which Isramco sold to Chesny all of the outstanding share capital of Magic for a purchase price of \$2.15 million. The purchase included the assumption by Chesny of a loan in the principal amount of \$3.3 million incurred by Isramco in connection with the purchase of Magic.

7

Isramco's decision to sell its holdings in Magic was primarily attributable to Isramco's decision to focus principally on the oil and gas business. Following the sale of Magic, Isramco is no longer engaged in the cruise line business.

NOTE 9 - EARNINGS PER SHARE COMPUTATION

Basic and diluted net income/loss per share calculations are presented in accordance with Financial Accounting Standards Statement 128, and are calculated on the basis of the weighted average number of common shares outstanding during the year. Our weighted average number of outstanding share is the same for both calculating both basic and diluted earnings per share as we did not have any common stock equivalents outstanding during the period.

NOTE 10 - GEOGRAPHICAL SEGMENT INFORMATION

Isramco's operations for 2007 involve one industry segment - the exploration, development production and transportation of oil and natural gas. Prior to 2007 Isramco operated in two operating segment - oil and gas activities and holding and leasing its cruise line vessel. Its current oil and gas activities are concentrated in the United States and Israel. Operating outside the United States subjects the company to inherent risks such as a loss of revenues, property and equipment from such hazards as exploration, nationalization, war and other political risks, risks of and governmental royalties, renegotiation of contracts with governmental royalties, renegotiation of contracts with government entities and change in laws and policies governing operations of foreign-based companies.

Isramco's oil and gas business is subject to operating risks associated with the exploration, and production of oil and gas, including blowouts, pollution and acts of nature that could result in damage to oil and gas wells, production facilities of formations. In addition, oil and gas prices have fluctuated

Edgar Filing: ISRAMCO INC - Form 10-Q

substantially in recent years as a result of events outside of Isramco's control. Isramco does not directly operator the operators. This segment of Isramco's business is subject to many risks all of which cannot be presently anticipated, including losses resulting from unexpected repairs and maintenance and competition.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING COMMENTARY SHOULD BE READ IN CONJUNCTION WITH THE CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES CONTAINED ELSEWHERE IN THIS REPORT ON FORM 10-Q. THE DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. THESE STATEMENTS RELATE TO FUTURE EVENTS OR OUR FUTURE FINANCIAL PERFORMANCE. IN SOME CASES, YOU CAN IDENTIFY THESE FORWARD-LOOKING STATEMENTS BY TERMINOLOGY SUCH AS "MAY," "WILL," "SHOULD," "EXPECT," "PLAN," "ANTICIPATE," "BELIEVE," "ESTIMATE," "PREDICT," "POTENTIAL," "INTEND," OR "CONTINUE," AND SIMILAR EXPRESSIONS. THESE STATEMENTS ARE ONLY PREDICTIONS. OUR ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF A VARIETY OF FACTORS, INCLUDING, BUT NOT LIMITED TO, THOSE SET FORTH UNDER "RISK FACTORS" AND ELSEWHERE IN THIS REPORT ON FORM 10-Q. ISRAMCO INC. DISCLAIMS ANY OBLIGATION TO UPDATE SUCH FORWARD LOOKING STATEMENTS.

OVERVIEW

Isramco, Inc., a Delaware company, is active in the exploration of oil and gas in Israel and the United States. The Company acts as an operator of certain leases and licenses and also holds participation interests in certain other interests. The Company also holds certain non-oil and gas properties.

On March 2, 2007 (the "Acquisition Date"), Isramco purchased certain oil and gas properties located in Texas and New Mexico from Five States Energy Company, LLC for an aggregate preliminary purchase price of \$92 million (before adjustments as defined in the agreement). Although the acquisition was closed on March 2, 2007, the effective date of the purchase was determined to be October 1, 2006 (the "Effective Date"). Accordingly, the Company is entitled to the net revenues, less direct operating expenses, of the acquired properties from the Effective Date through the Acquisition Date. This will result in an adjustment to the preliminary purchase price. These financial statements reflect the assets acquired and operations related to those assets from the Acquisition Date through September 30, 2007.

CRITICAL ACCOUNTING POLICIES

In response to the Release No. 33-8040 of the Securities and Exchange Commission, "Cautionary Advice Regarding Disclosure and Critical Accounting Policies", the Company identified the accounting principles which it believes are most critical to the reported financial status by considering accounting policies that involve the most complex of subjective decisions or assessments.

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. If the financial condition of customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The Company records an investment impairment charge when it believes an investment has experienced a decline in value that is other than is temporary. Future adverse changes in market conditions or poor operating results of underlying investments could result in losses or an inability to recover the

Edgar Filing: ISRAMCO INC - Form 10-Q

carrying value of the investment that may not be reflected in an investment's current carrying value, thereby possibly requiring an impairment charge in the future.

The Company records a valuation allowance to reduce its deferred tax assets to the amount that is more likely than not to be realized. While the Company has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance, in the event that the Company were to determine that it would be able to realize its deferred tax assets in the future in excess of its net recorded amount, an adjustment to the deferred tax asset would increase net income in the period such determination was made.

The Company does not participate in, nor has it created, any off-balance sheet special purpose entities or other off-balance sheet financing.

The Company records a liability for asset retirement obligation at fair value in the period in which it is incurred and a corresponding increase in the carrying amount of the related long live assets.

11

LIQUIDITY AND CAPITAL RESOURCES

The Company finances its operations primarily from cash generated by operations.

During the nine months ended September 30, 2007, our consolidated cash and cash equivalents increased by \$1,499,000 from \$573,000 at December 31, 2006 to \$2,072,000 at September 30, 2007. Our restricted and designated cash decreased from \$17,000,000 to \$1,501,000 during the same period. The decrease in our restricted cash is primarily attributable to the use of cash reserves related to the Five States Acquisition, which was completed in March 2007.

Net cash used by operating activities was \$178,000 for the nine months ended September 30, 2007 compared to \$6,487,000 provided by operating activities for the same period in 2006. The decrease is primarily due to operational cash flows from the properties acquired in the Five States Acquisition and from discontinued operations in 2006 that did not exist in 2007.

Net cash used in investing activities for the nine-month period ended September 30, 2007 was \$65,587,000 compared to \$3,266,000 for the same period in 2006. The cash used in 2007 period was use is primarily attributable to the Five States Acquisition, offset by proceeds from a restricted deposit and the sale or settlement of various investments.

Net cash provided by financing activities was \$67,264,000 for the nine months ended September 30, 2007 compared to net cash used in financing activities of \$840,000 for the same period in 2006. Our financing activities in 2007 primarily relate to borrowings in connection with the Five States Acquisition.

The Company believes that existing cash balances and cash flows from operating activities will be sufficient to meet its financing needs. The Company intends to finance its ongoing oil and gas exploration activities from working capital.
