Commentary by Paul Thurston, CEO of Grupo Financiero HSBC Mexico:

"Grupo Financiero HSBC has achieved strong business growth during the first quarter of 2007 as a result of our continued investment in building our customer base and business volumes in Mexico. Year-on-year, our personal customer base is up by more than 800,000 clients, the number of credit cards in issue has increased by 69.4 per cent to 2.1 million cards, and our small business client base has risen by 21 per cent. Our packaged products have continued to be very successful, and in the first quarter we sold 170,000 Tu Cuenta and 1,718 Estimulo packages.

"Net income of MXN1,376 million in the first quarter of 2007, however, fell by MXN52 million compared with the first quarter of 2006 as overall strong revenue momentum was offset by reduced revenues in Global Markets, with trading income down MXN224 million year-on-year.

"The group achieved strong total revenue growth of 11.1 per cent - despite lower earnings from Global Markets - exceeding cost growth of 7.5 per cent for the period ended 31 March 2007 compared with the same period of 2006, and resulting in a cost efficiency improvement. Loan impairment charges grew as a consequence of our investment in expanding our consumer and small business commercial loan portfolios.

"In line with the HSBC Group's organic growth strategy, we continue to invest in building our business in Mexico, and are modernising and streamlining our processes to handle greater business volumes and provide improved services to our clients. By combining the Group's knowledge, network and brand with the experience and capabilities of our staff, we are driving product innovation and service enhancements to capture market share in key markets.

"Our commitment to Corporate Responsibility remains strong and I am pleased to announce that, in 2007, for the second consecutive year, the Mexican Philanthropy Centre (CEMEFI) and Aliarse recognised HSBC Mexico with a certification for Socially Responsible Company 2007."

Overview

In the first quarter of 2007, Grupo Financiero HSBC's net income of MXN1,376 million was MXN52 million, or 3.6 per cent, lower than the same period in 2006.

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

Net interest income (excluding monetary position) was up by MXN692 million to MXN5,110 million for the period ended 31 March 2007, a 15.7 per cent increase compared to the same period in 2006. Lower spreads on deposits, as a result of reduced market rates, and lower net interest income in Global Markets, were more than offset by significant growth in higher-yielding credit card lending and small- and medium-sized business (SME) products.

Net fees and commissions were up by MXN321 million to MXN2,433 million for the quarter ended 31 March 2007, a 15.2 per cent increase on the same period in 2006. This was mainly driven by an increased number of credit cards in circulation and the continued success of the bank's packaged products, Tu Cuenta (for personal customers) and Estimulo (for business customers), in addition to ATM, point of sale, mutual fund and trade services fees.

Trading income at MXN325 million was 40.8 per cent lower than in the same period of the previous year. Retail foreign exchange continues to drive positive results, but both interest rate and fixed income trading portfolios generated lower income than in the same period in 2006, affected by the volatility in the local markets resulting from both local and international market conditions.

Administrative expenses of MXN4,705 million were 7.5 per cent higher than in the same period in 2006. Personnel expenses increased as a result of the 2,199 new employees hired since March 2006. Marketing expenses, information technology improvements and investment in the expansion, relocation and renovation of the branch and ATM infrastructure have also contributed to expense growth. With cost growth below the rate of revenue growth, however, the cost efficiency ratio (excluding monetary position) improved from 61.8 per cent in the first quarter of 2006 to 59.8 per cent for the same period in 2007.

During the first quarter of 2007, loan impairment charges increased by MXN781 million to MXN1,407 million compared with the same period in 2006, reflecting strong growth in the consumer loan portfolio and higher impairment in the small business and self-employed loan portfolios. These were partially offset by higher recoveries (which are included in Other Income in 2007 in accordance with new Mexican GAAP reporting requirements). The allowance for loan losses as a percentage of impaired loans was 141.6 per cent as at 31 March 2007.

The bank's capital adequacy ratio remains sound at 14.7 per cent, well above Mexican Banking and Securities Commission (CNBV) requirements.

Business highlights

During the first quarter of 2007, the bank's Personal Financial Services (PFS) business generated significant volume growth, with higher balances in credit cards, mortgages, personal and payroll loans. More than 370,000 new credit cards were issued during the quarter. At the end of March 2007, total customer loans were up 27.8 per cent year-on-year. Higher revenues were generated from credit cards, ATMs and from the Tu Cuenta packaged financial services product, which reached 1.2 million accounts at 31 March 2007. Insurance premiums continued to grow, with a 15.6 per cent increase year-on-year.

During the first quarter of 2007, the distribution network grew with six new branches opened and 76 new ATMs installed. In March, HSBC launched a savings account, Cuenta Chicos HSBC, for children between the ages of one and 15 years' old.

In Commercial Banking (CMB), customer loans were 32.9 per cent higher than in the first quarter of 2006 as HSBC continued to be a market leader in delivering banking services to the small and micro business sector in Mexico. There were higher revenues from card acquiring and trade services fees, as well as increased cross-sales activity through ATMs and of payments and cash management

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

(PCM) services. HSBC Mexico's trade services business continues to increase market share and has now opened offices in three regional centres, in Monterrey, Guadalajara and Puebla.

The international business centre, which supports Mexican businesses in expanding internationally and foreign companies in investing in Mexico, has been expanded to cater for the growth in inward and outward business flows between HSBC Mexico and HSBC Group members in other countries.

In Corporate, Investment Banking and Markets (CIBM), revenues from the PCM business increased compared to the first quarter of 2006. However, in Global Markets, revenues were significantly lower than in the same period of 2006, as interest rate, fixed income and balance sheet trading were all negatively affected by the volatility in the local markets resulting from both local and international market conditions. This was partially offset by continued profitability in retail foreign exchange and the sale of securities from the available-for-sale portfolio.

In March 2007, HSBC Mexico successfully issued its first residential mortgage-backed security (RMBS) for MXN2,500 million, in two series and with a term of 15.9 years. This issuance was the largest of its kind in Latin America and obtained AAA(mex) and mxAAA grades assigned by Fitch Ratings and Standard & Poors, respectively.
