## Forward-looking statements

---

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'believes', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'Value-at-Risk (VaR)', 'target', 'goal', 'objective', 'will', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions.

In particular, this document includes forward-looking statements relating, but not limited to: the Group's restructuring plans, capitalisation, portfolios, net interest margin, capital ratios, liquidity, risk weighted assets, return on equity (ROE), profitability, cost:income ratios, leverage and loan:deposit ratios, funding and risk profile; certain ring-fencing proposals; the Group's future financial performance; the level and extent of future impairments and write-downs, including sovereign debt impairments; the protection provided by the Asset Protection Scheme (APS); and the Group's potential exposures to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity and equity price risk. These statements are based on current plans, estimates and projections, and are subject to inherent risks, uncertainties and other factors which could cause actual results to differ materially from the future results expressed or implied by such forward-looking statements. For example, certain market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated.

Other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to: the full nationalisation of the Group or other resolution procedures under the Banking Act 2009; the global economic and financial market conditions and other geopolitical risks, and their impact on the financial industry in general and on the Group in particular; the financial stability of other financial institutions, and the Group's counterparties and borrowers; the ability to complete

restructurings on a timely basis, or at all, including the disposal of certain Non-Core assets and assets and businesses required as part of the EC State Aid restructuring plan; organisational restructuring, including any adverse consequences of a failure to transfer, or delay in transferring, certain businesses, assets and liabilities from RBS Bank N.V. to RBS plc; the ability to access sufficient funding to meet liquidity needs; the extent of future write-downs and impairment charges caused by depressed asset valuations; the inability to hedge certain risks economically; costs or exposures borne by the Group arising out of the origination or sale of mortgages or mortgage-backed securities in the United States; the value and effectiveness of any credit protection purchased by the Group; unanticipated turbulence in interest rates, yield curves, foreign currency exchange rates, credit spreads, bond prices, commodity prices, equity prices and basis, volatility and correlation risks; changes in the credit ratings of the Group; ineffective management of capital or changes to capital adequacy or liquidity requirements; changes to the valuation of financial instruments recorded at fair value; competition and consolidation in the banking sector; HM Treasury exercising influence over the operations of the Group; the ability of the Group to attract or retain senior management or other key employees; regulatory or legal changes (including those requiring any restructuring of the Group's operations) in the United Kingdom, the United States and other countries in which the Group operates or a change in United Kingdom Government policy; changes to regulatory requirements relating to capital and liquidity; changes to the monetary and interest rate policies of central banks and other government and regulatory bodies; impairments of goodwill; pension fund shortfalls; litigation and regulatory investigations; general operational risks; insurance claims; reputational risk; changes in UK and foreign laws, regulations, accounting standards and taxes, including changes in regulatory capital regulations and liquidity requirements; the recommendations made by the UK Independent Commission on Banking and their potential implications; the participation of the Group in the APS and the effect of the APS on the Group's financial and capital position; the ability to access the contingent capital arrangements with HM Treasury; the conversion of the B Shares in accordance with their terms; limitations on, or additional requirements imposed on, the Group's activities as a result of HM Treasury's investment in the Group; and the success of the Group in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as of the date of this announcement, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation or an offer to sell or solicitation of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or other financial instruments.

#### Presentation of information

---

The financial information on pages 5 to 57, prepared using the Group's accounting policies, shows the underlying performance of the Group on a managed basis which excludes certain one-off and other items. This information is provided to give a better understanding of the results of the Group's operations. Group operating profit on this basis excludes:

- movements in the fair value of own debt;
- Asset Protection Scheme credit default swap - fair value changes;
- Payment Protection Insurance costs;
- sovereign debt impairment and related interest rate hedge adjustments;

- amortisation of purchased intangible assets;
- integration and restructuring costs;
- gain on redemption of own debt;
- strategic disposals;
- bonus tax; and
- RFS Holdings minority interest (RFS MI).

#### Net interest margin

The basis of calculating the net interest margin (NIM) was refined in Q1 2011 and reflects the actual number of days in each quarter. Group and divisional NIMs for 2010 have been re-computed on the new basis.

(2) Retail & Commercial comprises the UK Retail, UK Corporate, Wealth, Global Transaction Services, Ulster Bank and US Retail & Commercial divisions.

Key points

Q3 2011 compared with Q2 2011

- Group NIM was impacted by the cost of carrying higher liquidity portfolio and balances held at central banks (3 basis points). Lower recoveries and run-off in Non-Core also negatively impacted Group NIM (6 basis points).
- R&C NIM fell 3 basis points, principally reflecting lower long-term swap yields on current account balances and competitive deposit pricing. Front book asset margins in UK Retail and UK Corporate have continued to rebuild.
- Average interest-earning assets remained stable, as the build-up in the liquidity portfolio was offset by continued run-off of Non-Core.

Q3 2011 compared with Q3 2010

- R&C NIM remained essentially flat, with asset repricing offsetting the tightening of liability margins to support the Group's deposit-gathering targets.

Total non-interest income	3,280	4,534	4,513	12,545	14,581

Key points

Q3 2011 compared with Q2 2011

- Non-interest income decreased by £1,254 million, 28%, principally reflecting lower trading income in Non-Core and in GBM. In Non-Core, Q2 2011 had reflected significant valuation gains c.£0.5 billion which were not repeated in the third quarter. Also in Q3 2011 Non-Core recorded net fair value losses on monoline related portfolios c.£0.2 billion.
- GBM's non-interest income was 33% lower, reflecting depressed primary market volumes, limited opportunities in the secondary market and a cautious risk appetite.
- Insurance net premium income fell 5%, driven by continued run-off of legacy insurance policies in Non-Core. Net premium income in RBS Insurance, at £990 million, remained largely flat quarter on quarter.

Q3 2011 compared with Q3 2010

- The 27% decline in non-interest income was largely driven by uncertain market conditions during the quarter.
- Q3 2010 Non-Core trading results included some substantial valuation gains with trading income of £219 million in the quarter, compared with a loss of £246 million in Q3 2011.
- Insurance net premium income declined by 20%, driven by the run-off of legacy policies in Non-Core and an 8% decrease in RBS Insurance largely as a result of the de-risking of the motor book and exit from unprofitable business lines.

Key points

Q3 2011 compared with Q2 2011

- Group expenses fell by 2%, largely driven by reduced compensation accruals in GBM, while R&C costs were flat.
- The Group cost:income ratio was 68% in Q3 2011 compared with 56%, reflecting the subdued operating environment, with income trends the dominant factor. The Core cost:income ratio also worsened, to 62% in the quarter.

Q3 2011 compared with Q3 2010

- Group costs were 7% lower than in the prior year, with expenses in Non-Core declining 42% with run-off the principal driver.
- General insurance claims fell by £358 million, 33%, primarily driven by the non-repeat of Q3 2010 reserve strengthening relating to bodily injury claims.
- The Group cost reduction programme continues to run ahead of target, achieving strong returns with lower programme spend than originally projected. The underlying run rate achieved to date is just under £3 billion per annum. This has enabled the Group to reinvest savings into enhancing the systems infrastructure to improve customer service, increase product offerings and respond to regulatory changes.

Key points

Q3 2011 compared with Q2 2011

- Loan impairments fell 35% on the prior quarter to £1,452 million or 1.1% of gross loans and advances to customers. Core impairments were largely flat on Q2 2011 with a small increase in Retail & Commercial being offset by a reduction in GBM.
- Non-Core's Q3 2011 loan impairments fell £792 million on the previous quarter, primarily reflecting a decline in impairments on the Ulster Bank portfolio, including a significantly reduced charge for development land values in Ireland.
- The Retail & Commercial impairment uplift mainly reflected a £58 million increase in Core Ulster Bank driven primarily by deteriorating mortgage metrics. Combined Ulster Bank (Core and Non-Core) impairments were £610 million, down 51% or £641 million from Q2 2011.

Q3 2011 compared with Q3 2010

- Core loan impairments were up 5% on Q3 2010, primarily driven by the increase in Ulster Bank's mortgage portfolio. GTS increased its provision on an existing single name impairment, while UK Corporate saw an increase in collective charges.

- The Group customer loan impairment charge as a percentage of loans and advances was 1.1%, compared with 1.4% in Q3 2010.
- Provision coverage of risk elements in lending was 49% at the end of Q3 2011, in line with Q3 2010.

Note:

- (1) The Group holds Greek government bonds with a notional amount of £1.45 billion. In the second quarter of 2011, the Group recorded an impairment loss of £733 million in respect of these bonds as a result of Greece's continuing fiscal difficulties. This charge (c.50% of notional) wrote the bonds down to their market price as at 30 June 2011. In the third quarter of 2011, an additional impairment loss of £142 million was recorded to write the bonds down to their market price as at 30 September 2011 (c.37% of notional).

## Analysis of results (continued)

## Key points (continued)

## Q3 2011 compared with Q2 2011

- The Group's credit spreads widened significantly in the third quarter driving a FVOD gain of £2,357 million, compared with the Q2 2011 gain of £339 million.
- The continuing macroeconomic issues in Greece and a further decline in the value of Greek sovereign bonds in Q3 2011 drove an additional impairment of the Group's AFS bond portfolio of £142 million. The Greek AFS bond portfolio was marked at 37% of par value at 30 September 2011.
- The APS is accounted for as a derivative and changes to fair value are recorded in the income statement. In Q3 2011 the fair value charge was £60 million compared with a charge of £168 million in Q2 2011. The cumulative charge for the APS is £2.2 billion as at 30 September 2011.

## Q3 2011 compared with Q3 2010

- Integration and restructuring costs fell 25% versus a year ago, largely reflecting lower costs of established cost efficiency programmes.
- Strategic disposals saw a £49 million charge in Q3 2011, primarily relating to certain Non-Core loan assets which are held for disposal. This compares with a gain of £27 million in Q3 2010 primarily from the disposals of RBS

Sempra Commodities JV and factoring businesses in France and Germany.

#### Bank Levy

Under IFRS, no liability for the bank levy arises until the measurement date, 31 December 2011. Accordingly, no accrual was made for the estimated cost of the levy at 30 September 2011. If the levy had been applied to the balance sheet at 30 September 2011, the cost of the levy to RBS would be a full year charge of approximately £330 million.

#### Note:

(1) The benefit of APS in Core Tier 1 ratio is 1.3% at 30 September 2011 (30 June 2011 - 1.3%; 31 December 2010 - 1.2%).

#### Key points

- The Group's Core Tier 1 ratio strengthened to 11.3%. The impact of the attributable loss (excluding FVOD) for the quarter was more than offset by a £17 billion reduction in gross RWAs, excluding the benefit of APS.
- In the third quarter APS provided Core Tier 1 benefit of 1.3%.
- The Q3 2011 gross RWAs decline was predominantly driven by Non-Core and GBM. Non-Core RWAs declined £7 billion from run-off and disposals; GBM's RWAs declined by £5 billion to £134 billion as a result of on-going risk mitigating actions.

Notes:

- (1) Excluding reverse repurchase agreements and stock borrowing.
- (2) Excluding repurchase agreements and stock lending.
- (3) Net of provisions.

Key points

- The Group's Q3 2011 funded balance sheet decreased by £16 billion versus the prior quarter to £1,035 billion. GBM's funded balance sheet fell £20 billion to £399 billion while Non-Core's steady progress in run-off and disposals during the quarter reduced its assets by a further £8 billion to £105 billion. Non-Core is well placed to reach its year end target of funded assets of £96 billion. A £15 billion increase in liquidity portfolio assets held by Group Treasury partially offset these asset declines.
- The Group's total assets increased by £162 billion compared with Q2 2011 due to an increase in derivative fair values as a result of lower interest rates. Further discussion of derivatives is included on pages 121 to 125.
- Group customer deposits increased by £5 billion from Q2 2011, reflecting an increase in GBM and strong growth in both savings and current account balances in UK Retail. Loans and advances to customers fell in the third quarter as Non-Core continued to run down assets. In the core franchises there was modest loan growth in Wealth, US Retail & Commercial, GTS and GBM.
- The Q3 2011 Group loan:deposit ratio improved to 112% compared with 114% in Q2 2011. The Core loan:deposit ratio also improved to 95% versus 96% at Q2 2011.

Further discussion of the Group's funding and liquidity position is included on pages 102 to 110.
