For a shareholder proposal to be considered for possible inclusion in the 2005 Proxy Statement, the Corporate Secretary of Dominion must receive it no later than November 24, 2004. Dominion plans to hold its 2005 Annual Meeting on April 22, 2005.

Governance

Your Board has focused on good governance practices for many years. Since the enactment of the Sarbanes-Oxley Act and adoption of the New York Stock Exchange governance standards, we have codified those practices. This proxy statement includes new disclosures, and our governance guidelines, director independence standards and committee charters follow. In addition, our website (www.dom.com) has a new governance section sharing these documents, and provides a method for shareholders to communicate directly with the Board.

Dominion has also adopted a Code of Ethics that applies to its principal executive, financial and accounting officers and all employees. You can find our Code of Ethics on the governance section of our website. Any waivers or changes to our Code of Ethics will be posted on this section of our website. You also may write to the Corporate Secretary at the address found on the back cover for a copy of the Code of Ethics at no charge.

Corporate Governance Guidelines

I. Role and Function of the Board

Dominion's Board is charged with the responsibility of overseeing Dominion's management, as well as the business and assets of Dominion. Dominion's business is conducted by its employees, including its officers, under the direct supervision of its Chief Executive Officer. The Board is charged with overseeing the interests of the shareholders by protecting the long-term value of the company. The Board and management recognize that the interests of Dominion are advanced by responsibly addressing the concerns of other constituencies, including employees, customers and the communities in which Dominion operates. These governance guidelines are intended to support the Board in its oversight role and in fulfilling its obligation to shareholders. The Board will review these guidelines annually in its continuing effort to achieve this goal.

A. Composition

1. The Board will consist of a majority of independent Directors. No more than two employees or ex-employees of the company may serve concurrently as Directors. A Director's independence is determined in accordance with the New York Stock Exchange's (NYSE) listing standards. To qualify as independent, the Board must affirmatively determine that the Director has no material relationship with the company in accordance with the independence standards adopted by the Board.

2. The Board sets the exact number of Directors within the range allowed by the company's Articles of Incorporation. Currently the range is 10 to 17 Directors.

3. The Organization, Compensation and Nominating (OCN) Committee, with advice from the Chairman and CEO, screens Director candidates, including those recommended by shareholders. The Committee selects candidates who represent a mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions. Among the attributes that the Committee may consider are a candidate's character, judgement, diversity of experience, acumen and their ability to act on behalf of shareholders. Business and financial experience and governmental and community service are among the relevant criteria. The Committee may also consider in its assessment the Board's diversity, in its broadest sense, reflecting, but not limited to, geography, gender and ethnicity. The Committee will also consider the independence of any candidate under the standards of independence discussed above.

4. The company's CEO should be a member of the Board.

B. Structure

1. The Board's current committees are Audit, Finance, OCN and Risk Oversight. These committees report regularly to the full Board. The OCN Committee functions as the nominating, corporate governance and compensation committee. There will be occasions when the Board may elect to form a new standing or special committee or to disband an existing committee.

2. The OCN Committee is responsible for recommending Directors for placement on the various committees. The Board appoints the committee members and chairs at its meeting following the Annual Meeting of Shareholders.

3. The Audit and OCN Committees are composed of independent Directors in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) and the NYSE. For the Audit Committee, independence includes the additional requirement that the Director not be affiliated with Dominion or receive any compensation, directly or indirectly, from the company other than compensation for services as a Director.

4. The Audit and OCN Committees shall have written charters that address the Committees' purposes, duties and responsibilities as well as an annual performance evaluation of the Committees, all in accordance with NYSE and other regulatory standards.

C. Operation and Responsibilities

1. The Board determines whether to have a joint CEO/Chairman position or whether to separate these offices, taking into consideration succession planning, skills and experience of the individuals filling these positions and other relevant factors. Currently, the positions of Chairman of the Board and CEO are held by the same person.

2. The Board's non-employee Directors review the performance of senior management in regularly scheduled

4 Dominion

executive sessions. Also, only the Board's independent Directors make decisions with respect to CEO compensation. Leadership at executive sessions of non-employee Directors will come from chairs of the key committees (Audit and OCN) as discussions occur within the scope of their respective committees. Therefore, the Board does not believe there is a need to formally designate a lead Director.

3. The Board establishes the number of regular meetings to be held each year, and it holds special meetings when necessary. Board agendas are set by the Chairman and CEO with advice from the Directors. Agendas, with any relevant accompanying information or reports, are distributed to the Directors prior to Board meetings for their review.

4. Directors are expected to devote as much time and attention as necessary to discharge their duties. Directors also are expected to ensure that other commitments do not materially interfere with their attendance at company meetings or their ability to fulfill their responsibilities as company Directors.

5. The Board reviews and approves Dominion's Code of Ethics to guide employees, officers and, where applicable, Directors in promoting high ethical standards, fiscal accountability and compliance with all applicable laws and regulations.

6. The Board and its committees have the authority and funding at any time to retain independent outside financial, legal or other advisors.

7. The OCN Committee conducts an annual assessment of the Board's effectiveness and that of its Committees.

D. Director Policies

1. All Directors are elected annually by the shareholders. The Board does not believe it appropriate or necessary to limit the number of terms a Director may serve.

2. Newly elected Directors will receive a briefing from the CEO and senior management regarding matters related to the company's core businesses. At a minimum, they are briefed on operations and strategic directions by the Chief Financial Officer, Chief Legal Officer and CEO's of the major business units and by the Corporate Secretary on matters related to Board membership. In addition, new Directors tour company facilities when practicable.

3. Continuing education is achieved through management presentations at Board meetings from time to time to provide insights into aspects of the company's business or to provide employees with exposure to the Board for purposes of management development. The Board and committees also receive updates on any new material legal or regulatory requirements that affect the company.

4. Independent Directors submit their resignations not later than December 31 following their 72nd birthday. However, in view of the rapidly changing environments in which Dominion and its businesses operate, Board stability and experience are essential. Accordingly, the Board reserves the right not to accept such resignations, and to nominate such Directors for election to the Board at the Annual Meeting of Shareholders if the Board determines that it is in the company's best interest.

5. Non-employee Directors are expected to tender their resignations to the OCN Committee if their job responsibilities change meaningfully from those they held when they were elected to the Board or if there is a change in circumstances that could reasonably affect their independence. This does not mean that the Committee will automatically accept such resignations; instead there will be an opportunity for the Committee to determine the appropriateness of Board membership under such circumstances.

6. Directors who are employed by Dominion shall submit their resignation from the Board to the OCN Committee when they conclude their employment. The OCN Committee has discretion as to whether such offer will be accepted.

7. Each Director will advise the Chairman and CEO or the Corporate Secretary of any affiliation with public, private or non-profit enterprises so that the relationship can be reviewed to determine if it could create a potential conflict of interest, potential embarrassment to Dominion or its subsidiaries or possible inconsistency with Dominion's corporate policies.

8. Each Director, depending upon individual circumstances, should acquire meaningful ownership of Dominion Common Stock.

9. The OCN Committee periodically reviews and assesses the compensation paid to the non-employee Directors and recommends to the Board any changes it believes are appropriate. To assist it, the OCN Committee retains an independent consultant to benchmark non-employee Director compensation with that of Dominion's peer companies. In addition, to link Directors' compensation to performance and to align the Board's interests with the interests of Dominion's shareholders, a significant portion of the Directors' compensation is payable in some form of Dominion Common Stock.

II. Management and the Board

Board members have complete access to the CEO, the Chief Financial Officer, the Chief Legal Officer and/or General Counsel, General Auditor, other members of senior management and the independent auditors. Management shall be responsive to all requests for information from Board members.

Governance CONTINUED

A. Development and Succession

1. The OCN Committee annually evaluates the CEO's performance as part of its review of Dominion's executive compensation program. The CEO is not present during the OCN Committee's review of his performance and compensation. The OCN Committee ensures that executive compensation programs align the interests of management with those of Dominion's shareholders.

2. The CEO is responsible for developing and maintaining a process to plan for successor chief executive officers, as well as for other key senior leadership positions. The CEO reviews this process with the OCN Committee at least annually. The Board has final authority to select any successor CEO and, in the case of an emergency, the company's bylaws direct the process.

B. Risk Oversight

1. The Audit Committee meets periodically with members of management, including the Principal Accounting Officer or Controller, the Chief Legal Officer and/or General Counsel, and the internal and independent auditors to receive and discuss reports on Dominion's internal control systems and compliance. The Committee operates in accordance with the guidelines established by the NYSE, which includes the Written Affirmation submitted annually to the NYSE.

2. The Risk Oversight Committee meets periodically with the Chief Financial Officer, the Treasurer, the Chief Legal Officer and other members of management to review the policies, procedures and guidelines concerning Dominion's energy trading activities. The Committee consults with and advises management (including the members of the management Risk Oversight Committee), the Audit Committee and the Board of Directors regarding such trading activities.

3. In addition, management has established a Disclosure Committee for the purpose of ensuring that Dominion's disclosure controls and procedures for periodic filings with the SEC are in compliance with applicable laws and regulations. The Disclosure Committee, which reports to the Audit Committee quarterly, is comprised of representatives of the major business functions and units, Chief Legal Officer, General Counsel, Corporate Secretary, and the Controller, who chairs the Committee.

III. Modifications

The operation of the Board is a dynamic and evolving process, as are the demands of the marketplace. As such, the OCN Committee periodically reviews these Guidelines and recommends proposed modifications to the Board when appropriate and when NYSE or SEC regulations dictate.

Director Independence Standards

The Board of Directors of Dominion will be composed at all times of a majority of independent directors. To be considered independent under the New York Stock Exchange (NYSE) rules, a Director must not be an employee of Dominion and the Board must affirmatively determine that

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

a Director has no material relationship with Dominion. To assist it in determining Director independence, the Board has established the following standards.

1) A Director will *not* be independent if, within the preceding three¹ years:

- a) the Director was employed by Dominion, or had an immediate family member,² who was an executive officer of Dominion;
- b) the Director, or an immediate family member, was employed by or affiliated with, Dominion's independent or internal auditor in a professional capacity;
- c) the Director, or an immediate family member, was employed as an executive officer of another company where any of Dominion's present executive officers served on that company's compensation committee;
- d) the Director is an executive officer or employee, or has an immediate family member who is an executive officer, of a company that made payments to, or received payments from, Dominion in an annual amount exceeding the greater of \$1 million or 2% of such company's consolidated gross revenues³ or
- e) the Director, or an immediate family member, received more than \$100,000 per year in direct compensation from Dominion, other than director and committee fees, pension or other forms of deferred compensation or benefits for prior service not contingent in any way on continued service.⁴

2) *Each* member of Dominion's Audit Committee must be an independent member of the Board. For purposes of determining the independence of an Audit Committee member, a Director must meet the independence standards

¹ Under the NYSE rules, the three-year look back period will begin to apply after November 4, 2004. Before such date only a one-year look back should be applied.

² An immediate family member is a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone who shares the person's home.

³ Charitable organizations shall not be considered companies for the purpose of this restriction.

⁴ Compensation received by a Director's immediate family member for service as a non-executive employee of Dominion will not be considered.

6 Dominion

set forth in 1) above and, in addition, must meet the following criteria:

- a) Audit Committee members may not receive any fees or compensation from Dominion other than in their capacity as a Director or committee member; and
- b) Audit Committee members cannot be affiliated persons of Dominion or its subsidiaries.⁵

3) The Board will annually review commercial relationships of Directors and determine whether any such relationships would create a conflict of interest that would interfere with a Director's independence, even though such relationships are not restricted by the standards in 1) and 2) above. In making such a determination, the following relationships will not be considered by the Board as material relationships that would impair a Director's independence:

- a) the Director is an executive officer or an employee, or whose immediate family member is an executive officer, of another company:
 - i) that is indebted to Dominion, or to which Dominion is indebted, and the total amount of either company's indebtedness to the other is less than 5% of the total consolidated assets of either company; or
 - ii) in which Dominion owns a common stock interest, or the other company owns a common stock interest in Dominion, and the amount of the common stock interest is less than 5% of the total shareholders' equity of the company in which the interest is owned.

4) The Board will annually review charitable relationships of Directors and determine whether any such relationships would create a conflict of interest that would interfere with a Director's independence, even though such relationships are not restricted by the standards in 1) and 2) above. In making such a determination, the following relationships will not be considered by the Board as material relationships that would impair a Director's independence:

- a) the Director, or an immediate family member, serves as an officer, director or trustee of a charitable organization and Dominion's or the Dominion Foundation's discretionary charitable contributions to the organization are less than the greater of \$1 million or 2% of the organization's total annual charitable receipts. (Dominion's automatic matching of employee charitable contributions will not be included in the calculation.)

⁵ An affiliated person as defined by Rule 10A-3 of the Securities Exchange Act of 1934.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

At least one Committee member shall be a audit committee financial expert, as defined by the rules of the SEC and as disclosed by Dominion; and

If a Committee member simultaneously serves on the audit committee of more than three public companies, the Board must determine that such simultaneous service would not impair his or her ability to serve on the Committee and must disclose this determination.

3. The Committee will meet at least four times annually or more frequently as circumstances dictate, and report regularly to the Board on all of the matters discussed and acted on by the Committee. A majority of the Committee constitutes a quorum, and the Committee may act by unanimous written consent.

IV. Administration and Delegation

1. The Committee is authorized to obtain advice and assistance from independent counsel and other advisors as it believes necessary and appropriate, and it will have the funding and sole authority to retain and terminate such advisors and to approve such advisors' fees and other retention concerns.

2. Except as described below, the Committee may delegate functions to a subcommittee of one or more members only with the Board's approval.

3. On an annual basis, the Committee will:

Dominion will disclose the Committee's approval of any non-audit services by the independent auditor in its periodic reports filed with the SEC.

6. Resolve any disagreements between management and the independent auditor.

7. Review the internal audit function (including its responsibilities, budget and staffing as well as any significant reports it prepares for management) and discuss these with the internal auditor, management and the independent auditor.

4. Perform such other functions as may be assigned by the Board of Directors or as specified in its Corporate Governance Guidelines or any policies approved by the Board.

Nomination Process

Nominating Committee

The Organization, Compensation and Nominating Committee of the Board, which is comprised entirely of independent directors (as determined by the Board in accordance with its independence standards) is responsible for reviewing the qualifications of and selecting director candidates for nomination by the Board. As stated in the Committee's charter and the Board's governance guidelines found on the preceding pages, the Committee selects candidates who represent a mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions. These attributes may include a candidate's character, judgement, diversity of experience, acumen and ability to act on behalf of shareholders. Business and financial experience and governmental and community service are relevant criteria. In selecting candidates, the Committee assesses and considers the Board's diversity, in its broadest sense, reflecting, but not limited to, geography, gender and ethnicity.

The Committee also considers whether a director candidate is independent in accordance with Dominion's independence standards found on the preceding pages. Based on its deliberations, the Committee recommends director candidates, the majority of whom are independent, to the Board for nomination.

Director Nominations

Director nominees may be submitted to the Committee by a current member of the Board, a member of management or by a shareholder. The Committee considers all nominee recommendations and uses the nomination process described above in selecting nominees. Under our bylaws, if you wish to nominate a director at a shareholder's meeting you must be a shareholder and deliver written notice to our Corporate Secretary at least 60 days before the meeting. If the meeting date has not been publicly announced 70 days before the meeting, then notice can be given 10 days following the public announcement. Any notice must include the following information:

1. your name and address;
2. each nominee's name and address;
3. a statement that you are entitled to vote at the meeting and intend to appear in person or by proxy to nominate your nominee;
4. a description of all arrangements or undertakings between you and each nominee and any other person concerning the nomination;
5. other information about the nominee that would be included in a proxy statement soliciting proxies for the election of directors; and
6. the consent of the nominee to serve as a director.

The Board

Executive Sessions

Dominion's governance guidelines found on page 4 of this proxy statement, describe the operation of the Board and who will preside over executive sessions of non-employee, independent directors.

Committees & Meeting Attendance

The Board met eight times in 2003. Each Board member attended at least 94% of the total number of meetings of the Board and committees on which he or she served. All 2003 Board nominees attended the 2003 annual meeting of shareholders. Messrs. William S. Barrack and Steven A. Minter, both of whom did not stand for re-election at that meeting, did not attend.

<u>Committee</u>	<u>Members</u>	<u>Description</u>
Audit	David A. Wollard, <i>Chairman</i> Ronald J. Calise Robert S. Jepson, Jr. Margaret A. McKenna Kenneth A. They consult with the independent and internal auditors regarding the audits of Dominion's consolidated financial statements, the adequacy of internal controls and the independence of auditors. 12 Dominion

Compensation and Other Programs

Fees. In 2003, non-employee directors were paid an annual retainer of \$40,000 (\$20,000 in cash and \$20,000 in shares of Dominion stock). They also received \$1,500 in cash per Board or committee meeting attended. Each committee chairman was paid an additional \$5,000 annual retainer.

In late 2003, the Organization, Compensation and Nominating (OCN) Committee of the Board requested that its independent compensation consultant evaluate the compensation for non-employee directors. Based on their review and comparisons with the compensation paid to directors of Dominion's peer companies, in December 2003 the Board approved new annual fees, effective January 1, 2004, for non-employee directors as follows: an annual retainer of \$55,000 (\$20,000 in cash and \$35,000 in stock); \$2,000 in cash per Board, Audit and OCN committee meetings attended, and \$1,500 per other committee meetings attended. In addition, the chairman of the Audit committee will receive an annual cash retainer of \$12,500, while the other committee chairmen will receive \$5,000 in annual cash retainer.

Deferred Cash Compensation Plan. Directors may elect to defer their cash fees under this plan until they reach retirement or a specified age. The deferred fees are credited to either an interest bearing account or a Dominion common stock equivalent account. Interest or dividend equivalents accrue until distributions are made. A director will be paid in cash or stock according to the election made.

Stock Compensation Plan. The stock portion of the directors' retainer is paid under this plan. Directors have the option to defer receipt of the stock. If a director elects this option, the shares are held in trust until the director's retirement and the dividends on those shares are reinvested. However, the director retains all voting and other rights as a shareholder.

Stock Accumulation Plan. Effective February 27, 2004, the Board has ceased using this plan for newly elected directors. All current non-employee directors received a one-time award under this plan upon their election to the Board. The award, in Stock Units equivalent in value to Dominion common stock, was determined by multiplying the director's annual cash retainer by 17, then dividing the result by the average price of Dominion common stock on the last trading days of the three months before the director's election to the Board. Stock Units awarded to a director are credited to a book account. A separate account is credited with additional Stock Units equal in value to dividends on all Stock Units held in the director's account. A director must have 17 years of service to receive all of the Stock Units awarded and accumulated under this plan. Reduced distributions may be made at the discretion of the Board or where a director has at least 10 years of service.

Charitable Contribution Program. This program was discontinued in January 2000. For directors elected prior to that time, Dominion funded the Program by purchasing life insurance policies on the directors. Those policies have been fully funded and participating directors will derive no financial or tax benefits from the Program, because all insurance proceeds and charitable tax deductions accrue solely to Dominion.

Matching Gifts Program. Directors may give up to \$1,000 per year to 501(c)3 organizations of their choice and Dominion will match their donations on a 1-to-1 basis, with a maximum of \$5,000 of matching funds per director per year. If their donation is to an organization on whose board they serve or for which they volunteer more than 50 hours of work during a year, Dominion will match the donation on a 2-to-1 basis.

Certain Relationships

Two of Dominion's directors, Dr. Simmons and Dr. Brown, have adult, financially-independent children who are employees of Dominion's service company. Dominion and its subsidiaries have approximately 16,700 full-time employees, and the company is a significant employer in

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

Richmond, Virginia where both of the children are employed. Both are in non-officer, professional positions that they are qualified for based on their education and experience. Both are paid within the current market rate for their positions and are eligible only for company benefits available to all other employees in similar positions. The Board has determined that these employment relationships do not affect either director's independence. Dominion and the individual directors have determined that neither director has a material interest in his child's employment.

Communications with Directors

Shareholders may communicate directly with members of the Board of Directors in two ways:

By email please go to our website at www.dom.com/about/governance for instructions; or

By writing to the Board of Directors, c/o Corporate Secretary, Dominion Resources, Inc., P.O. Box 26532, Richmond, Virginia 23261.

Directors are elected annually; therefore, each director's term of office will end at the next annual meeting of shareholders.

Your proxy will be voted to elect the nominees unless you tell us otherwise. If any nominee is not available to serve (for reasons such as death or disability), your proxy will be voted for a substitute nominee if the Board of Directors nominates one.

Committee Report on Audit Function

Our Committee operates under a written charter (see page 9) originally adopted by the Board in 2001, and most recently revised in December 2003 to comply with the rules and regulations of the Sarbanes-Oxley Act of 2002, the New York Stock Exchange and the Securities and Exchange Commission.

As stated in our 2003 report, our committee has increased its review and oversight of Dominion's financial reporting process to address new requirements and regulations. In November, we developed our 2004 meeting schedule and agendas to address these changes, including discussions and reviews of Dominion's disclosure controls and procedures, charter requirements, charitable giving, auditor independence requirements, policy for pre-approved fees, whistleblower procedures and other issues that we, management and the independent auditors feel should be addressed more closely.

During 2003, we reviewed and discussed the following with management and the independent auditors:

quarterly and year end results, financial statements and reports prior to public disclosure;

management's disclosure committee and Dominion's disclosure controls and procedures, including internal controls;

risk management policies and procedures, including reports from the Board's Risk Oversight Committee regarding the company's trading activities;

information technology security;

environmental compliance; and

Dominion's compliance program for employees.

In four of the meetings, we met with the internal and independent auditors, with and without management present, to discuss the plans for, and scope and results of, their audits and reviews of Dominion's internal controls and the overall quality of Dominion's financial reporting.

Management has represented that Dominion's consolidated financial statements were prepared in accordance with generally accepted accounting principles. We reviewed and discussed the audited consolidated financial statements with management and the independent auditors. In accordance with the requirements established by the Statement on Auditing Standards No. 61, *Communication with Audit Committees* (as amended by Auditing Standards 89 and 90), this discussion included a review of significant accounting estimates and controls, and the quality of Dominion's accounting principles.

We have received written disclosures and a letter from the independent auditors required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees* and have discussed with the independent auditors the issue of their independence from Dominion, including any non-audit services performed by them.

2003 Consolidated Financial Statements

Relying on these reviews and discussions, we recommended to the Board of Directors, and the Board approved, that the audited financial statements be included in Dominion's Annual Report on Form 10-K for the year ended December 31, 2003, for filing with the Securities and Exchange Commission.

Independent Auditors for 2004

Our Committee discussed with management and reviewed with the independent auditors their plans and proposed fees for auditing the 2004 consolidated financial statements of Dominion and its subsidiaries, as well as their proposed audit-related and non-audit services and fees. Based on our discussion and review of the proposed fee schedule, we have retained Deloitte & Touche LLP, independent certified public accountants, as Dominion's independent auditors for 2004, and in accordance with our pre-approval policy (described on page 19), approved the fees for the services presented to us. We determined that the non-audit services proposed to us do not impair Deloitte & Touche's independence, and that it is more economical and efficient to use them for the proposed services. Permission for any other specific non-audit services will require prior approval by our Committee or Chairman. When appropriate, Dominion seeks competitive bids for non-audit services.

Committee Report on Executive Compensation

Executive Compensation Philosophy

We believe that Dominion should provide its executives with competitive salaries, bonuses, long-term incentives and benefits that align their financial success to the financial success of our shareholders and our company. We will continue to place a substantial portion of our executives pay at risk, including tying compensation to the achievement of strategic financial performance measures. We also will continue to place a strong emphasis on stock ownership, as evidenced by our share ownership guidelines for officers.

We determine the appropriate competitive position for our executive compensation program by:

using the expert assistance of our independent compensation consultant;

defining an appropriate peer group of companies and comparing Dominion with these peer companies based on financial and stock performance and compensation practices for our senior executives; and

comparing the compensation of our other executives with that of similarly situated executives through the use of national compensation surveys.

Our Consultant

In the fall of 2002, our Committee secured the services of an independent compensation consultant to report directly to our Committee. We continued to use the services of this consultant in 2003, and we met with the consultant to discuss our compensation program without the presence of management. Our consultant reviews the individual compensation for our senior officers, and on a broader basis the compensation program for our other officers, and advises us on long-term compensation practices, trends in executive compensation and other executive benefit programs such as perquisites, retirement plans and insurance programs.

As a result of our consultant's thorough review of Dominion's executive compensation program and that of our peer companies, we decided to re-balance our program over time to provide the appropriate mix of base salary and annual and long-term incentives. We believe our current program will attract, motivate and retain a superior management team under a range of industry and broader market economic circumstances. The basic components of our program are discussed in more detail below.

During our deliberations concerning the re-balancing of our program, we also determined that our executives should be allowed and encouraged to prepay their company-guaranteed loans under the Stock Purchase and Loan Program described on page 27 of this proxy statement. Provisions of the Sarbanes-Oxley Act, which was enacted two years after the Stock Purchase and Loan Program was established, specifically prohibit the Company from materially modifying or extending our current program. In light of the Act, we believe that it is in Dominion's best interest to take advantage of our authority under the program to allow for prepayments.

In order to minimize the sale of Dominion shares by executives in connection with any prepayments, we also waived the forfeiture provisions of their 2001 option grant to allow them to not only sell shares but to exercise options granted prior to 2001. Proceeds from the sale of shares and any option exercises must be used to either pay down their company-guaranteed loans or to acquire net shares that will count towards their stock ownership guidelines.

Our Peer Group and Peer Group Comparisons

Our 2003 peer group consisted of a diversified group of ten energy companies, many of which are included in the S&P utilities index used in the Performance Graph on page 24 of this proxy. For 2004, we have dropped two of the companies from our peer group (one for financial underperformance, another due to its smaller size relative to Dominion), and added three more companies in their place. For our senior E&P executive, we have a similarly sized, separate group of peer companies that are targeted for that industry.

Our Committee receives reports comparing Dominion to its peer group companies based on a number of financial and stock performance measures, including assets; profitability; net income; return on capital; return on common equity; total shareholder return over one, three and five-year periods and market capitalization. We use these measurements to ensure (i) that we have chosen appropriate companies for the peer group and (ii) that our compensation program is appropriate based on Dominion's financial and stock performance relative to its peer group.

2003 Compensation

Our 2003 executive compensation program consisted of three basic components:

Base Salary

Annual Incentives

Long-term Incentives

Our Committee targets our executives' total compensation (base salary, annual bonus and long-term compensation

combined) to be within 10 percentage points of the market 75th percentile for each position. By 75th percentile, we mean that our targeted compensation for an individual is 25% below the highest paid comparable position in our peer group. However, in setting compensation we also consider other factors such as experience, time in office, retention of officers in key positions with high demand, and succession planning. Therefore, it may take three or four years for a new officer's compensation to come within 10 percentage points of the market 75th percentile for their position, while under certain circumstances another new officer may be hired at the 75th percentile level.

Base Salary

We target the market median for the base salary component of our program. Targeting this level of base salary allows us to put a significant portion of overall compensation at risk by using annual incentives and long-term awards to reach the market 75th percentile.

In 2003, we increased base salaries for our officers based on the peer review, survey data and other factors discussed above. These increases were generally in the range of 3 to 12%.

As reported last year, officers (including Mr. Capps) did not receive base salary increases in 2002, and no increases have been approved for 2004, with the exception of increases related to promotions and, in a limited number of cases, for compelling market reasons.

Annual Incentives

Under the annual incentive program, if goals are achieved or exceeded, the executive's total cash compensation for the year is targeted to be at or above market median total cash compensation.

Under this program our Committee establishes target awards for each executive. These target awards are expressed as a percentage of the individual executive's base salary (for example, 50% x base salary). The target award is the amount of cash that will be paid, at year-end, if the executive achieves 100% of the goals established at the beginning of the year. We also establish a threshold as a minimum acceptable level of financial performance. If this threshold is not met for consolidated earnings, no executive receives an annual bonus. Actual bonuses, if any, are based on a pre-established formula and may exceed 100% of the target award if an additional earnings per share target is met.

For Dominion's executive officers, four performance criteria were established for the 2003 annual incentive plan: corporate operating earnings; business unit operating earnings; operating and stewardship goals and goals resulting from process improvements under the Six Sigma discipline. For 2003, the bonuses could exceed 100% of the targeted award only if earnings per share (based on generally accepted accounting principles as reported in our SEC filings) were at or above a pre-set performance goal in addition to the consolidated operating earnings goal mentioned above. Each executive's goals were weighted according to his or her responsibilities.

The goal weightings for 2003 bonuses were as follows:

Officer

Six Sigma

	<u>Consolidated</u> <u>Earnings</u>	<u>Business Unit</u> <u>Earnings/Expense</u>	
CEO & CFO	90%		10%
CEOs of operating companies and other senior officers	75%	15%	10%

Other officers generally have a lower weighting on the consolidated earnings goal (50%) but heavier weighting on operating company earnings and operating/stewardship goals (20% each), and the same weighting (10%) on the Six Sigma goal.

Our Committee established and approved these goals at the beginning of 2003. At year-end, we compared the company's actual financial performance with the consolidated and business unit earnings goals. Based on the 2003 financial performance on a consolidated and operating company basis and the achievement of all of the Six Sigma goals, we approved 100% payout of bonuses for our senior officers. Other officers received bonuses based on the achievement of these targets, in addition to their own operating and stewardship goals. Not all officers received their full target award, and no bonuses exceeded the target award.

Annual bonuses paid to the named executives are detailed in the Summary Compensation Table on page 23.

Long-term Incentives

As mentioned above, we continue to believe that our long-term incentive programs play a critical role in our compensation practices and philosophy. We believe that equity-based awards remain the strongest form of long-term compensation and underscore commitment to the company's shareholders while rewarding performance. We continue to believe that aligning our officers' long-term incentives with the financial success of our shareholders is vitally important.

Committee Report on Executive Compensation CONTINUED

Based on our consultant's review of our overall compensation program and that of our peer companies and upon further deliberation, we issued restricted stock under our long-term compensation program in 2003 in an effort to achieve our desired mix of equity incentives and to provide a balance with outstanding stock option grants. Our Committee will continue to review our program, our peer companies' programs and other market data to determine the most appropriate mix of pay elements for our executives and to maintain a strong link between pay and performance.

For 2003, we awarded restricted stock to officers with five-year cliff vesting. We chose a longer vesting period than previous awards to encourage our officers to focus on solid, long-term performance and financial success for the company and its shareholders. In addition, the awards:

are consistent with our peer group's compensation policies and general trends in executive compensation practices;

serve as a retention tool for our key officers; and

are not as dilutive as stock options.

Chief Executive Officer

In recognition of his experience, performance, achievements and market position, Mr. Capps received a 10% salary increase, bringing his 2003 base salary to \$1.1 million. As mentioned above, he did not receive any salary increase in 2002 and will not receive an increase in 2004.

Annual and long-term incentive awards for Mr. Capps have been developed based on the same principles described earlier for other officers. At the beginning of 2003, we approved a consolidated operating earnings goal and a Six Sigma cost savings goal for Mr. Capps under the 2003 annual profit sharing plan. The consolidated earnings goal accounted for 90% of his targeted bonus, and the Six Sigma cost savings goal was 10% of his targeted bonus. Because our consolidated earnings and Six Sigma goals for 2003 were achieved, we approved an annual cash bonus of \$1,430,000 for Mr. Capps. Mr. Capps also received 71,628 shares of restricted stock on February 24, 2003 with five-year cliff vesting under our 2003 long-term incentive program described above.

Stock Ownership

Our Committee recently updated the stock ownership guidelines for our executives (outlined below). We believe these guidelines and management's internal policies emphasize stock ownership and retention that align management with the interests of our shareholders. The ownership guidelines have been expressed both as a targeted multiple of salary and as a targeted fixed number of shares. An executive may meet the ownership guidelines by achieving either targeted level. We continue to encourage our executive officers to methodically accumulate shares to meet the guidelines within five years from election to office.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

Restricted shares (except those restricted shares acquired under the Executive Stock Purchase Tool Kit described on page 27) and options do not count towards an officer's ownership target.

Deductibility of Compensation

Under Section 162(m) of the Internal Revenue Code, Dominion may not deduct certain forms of compensation in excess of \$1 million paid to our CEO or any of the four other most highly compensated executive officers. However, certain performance-based compensation is specifically exempt from the deduction limit.

It is our intent to provide competitive executive compensation while maximizing the company's tax deduction. However, we reserve the right to approve, and in some cases have approved, non-deductible compensation if we believe it is in the company's best interest.

Dominion Retirement Plan. Benefits under the Retirement Plan are based on:

highest average base salary over a consecutive five-year period during the ten years preceding retirement;

years of credited service;

age at retirement; and

the offset of Social Security benefits.

Dominion provides a Special Retirement Account (SRA) feature to the Retirement Plan. This account is credited with two percent of an employee's base salary earned each year. Account balances are credited with earnings based on the 30-year Treasury rate and may be taken as a lump sum or an annuity at retirement. The above table includes the effect of SRA earnings converted to an annual annuity.

Dominion Benefit Restoration Plan. The Retirement Plan pays a benefit that is calculated on average base salary over a five-year period. In some years our executives' base salaries were set below the competitive market median in order to more closely link annual pay to company

performance through the incentive programs. Under this Restoration Plan, we calculate a market-based adjustment to base salary in those years when base salary was below the market median. The difference between the

Executive Compensation CONTINUED

benefit calculated on the market-based salary and the benefit provided by the Retirement Plan is paid to the executive under the Restoration Plan. In 2003, a market-based adjustment to Dominion's executive base salaries was not necessary.

In addition, certain officers, if they reach a specified age while still employed, will be credited with additional years of service. For Messrs. Capps, Farrell and Chewning, credited years of service at age 60 would be 30 years. Mr. Radtke receives 20 years of credited service at age 62, and Mr. Johnson receives 20 years of credited service after 10 years of actual service with the company. Other retirement agreements and arrangements for the named executives are described in Other Executive Agreements and Arrangements.

Also, the Internal Revenue Code imposes certain limits related to Retirement Plan benefits. Any resulting reductions in an executive's Retirement Plan benefit will be compensated for under the Restoration Plan. The above table reflects any amounts payable due to IRS salary limits and the effect of SRA earnings from salaries in excess of the IRS limits.

Executive Supplemental Retirement Plan. The Supplemental Plan provides an annual retirement benefit equal to 25% of a participant's final cash compensation (base salary plus target annual bonus). To retire with full benefits under the Supplemental Plan, an executive must be 55 years old and have been employed by Dominion for at least five years. Benefits under the plan are provided either as a lump sum cash payment at retirement or as a monthly annuity paid out, typically, over 10 years. Certain executive officers receive this benefit for their lifetime. Based on 2003 cash compensation, the estimated annual benefit under this plan for certain executives named in the Summary Compensation Table on page 23 are: Mr. Capps: \$632,500; Mr. Farrell: \$271,700; Mr. Chewning: \$228,000; Mr. Radtke: \$199,500; and Mr. Johnson: \$155,300.

Other Executive Agreements and Arrangements

Companies that are in a rapidly changing industry such as ours require the expertise and loyalty of exceptional executives. Not only is the business itself competitive, but so is the demand for such executives. In order to secure the continued services and focus of key management executives, Dominion has entered into employment agreements with them, including those named in the Summary Compensation Table on page 23.

Employment Agreement Chief Executive Officer. The Board determined that it was in Dominion's best interest to enter into a new employment agreement with Mr. Capps to induce him to remain as an employee of the company and to continue on as CEO and President until the Annual Meeting of Shareholders in 2005. As a result, in September of 2002, Mr. Capps and Dominion entered into an agreement providing for his employment as CEO and President until 2005. Upon Mr. Farrell's election as President, Mr. Capps will no longer hold the title. During Mr. Capps' employment, the agreement provides for the following: (1) an annual base salary of at least \$1,000,000, (2) incentive compensation awards based on performance and (3) continued eligibility for all employee benefit and incentive plans provided by Dominion to its senior management. When his employment ends (whether or not before the end of the term of the agreement), Mr. Capps will: (1) receive a retirement benefit calculated on the highest base salary rate during his employment, (2) receive a Supplemental Plan benefit payable for life, determined with the unreduced percentage of salary mid-point for a given year, (3) become fully vested in outstanding restricted stock (unless otherwise provided by the grant agreement), (4) any outstanding stock options become fully exercisable for the remaining term of the grant, and (5) receive a payment of \$950,000 plus an amount equal to the present value of his salary and annual cash incentives for the period between the Annual Meetings of Shareholders for 2004 and 2005 to the extent not otherwise paid. In addition, any outstanding stock options become fully exercisable for the remaining term of the grant if the termination occurs in connection with a change in control. During the term of the agreement, Dominion may terminate Mr. Capps for cause only. Mr. Capps also receives

age and service credit and continued benefit plan coverage through the end of the contract period in the event of termination for cause or resignation for cause.

Continuity Agreements. Dominion has entered into employment continuity agreements with executives named in the Summary Compensation Table (but not Mr. Capps), which provide benefits in the event of a change in control*. Each agreement has a three-year term and is automatically extended for an additional year, unless cancelled by Dominion.

The agreements provide for the continuation of salary and benefits for a maximum period of three years after (1) a change in control, (2) termination without cause following a change in control or, (3) a reduction of responsibilities, salary and incentives following a change in control (if the executive gives 60 days notice). Payment of this benefit will be made in either a lump sum or installments over three years. In addition, the agreements indemnify the executives for potential penalties related to the Internal Revenue Code and fees associated with the enforcement of the agreements. If an executive is terminated for cause, the agreements are not effective.

Other Arrangements. Dominion also has entered into supplemental agreements with Messrs. Chewning and Farrell. Upon retirement, each of them will receive a payment of 12 months base salary for their agreement not to compete with any activities of Dominion nor solicit any Dominion employees for a period of two years.

Messrs. Farrell, Chewning, Radtke and Johnson have enhanced retirement benefits under certain of Dominion's benefit plans.

Executive Stock Purchase Programs. Dominion's Board has established stock ownership target levels for its executives. In 1999, the Board approved Stock Purchase and Loan programs intended to encourage and facilitate executives' ownership of common stock through the availability of loans guaranteed by Dominion. Officers borrowed money from an independent bank to purchase stock, for which they are personally liable and which Dominion has guaranteed. Because of new restrictions on company loans or guarantees to executives under the Sarbanes-Oxley Act of 2002, Dominion has ceased its programs involving the company guaranty of a third-party loan to executives for the purpose of acquiring company stock. In the fall of 2003, the OCN Committee authorized non-Section 16 executives with loans to exercise previously granted options or to sell shares of Dominion stock solely for the purpose of paying off their loans under the programs. Any sales or option exercises for this purpose would not trigger the forfeiture provisions of their 2001 stock option grant.

In 2001, Dominion's OCN Committee approved the implementation of the Executive Stock Purchase Tool Kit. The Tool Kit consists of a variety of programs to encourage ownership of Dominion stock by executives who could not participate in the Executive Stock Purchase and Loan programs. Executives who participate in one or more of the Tool Kit programs to achieve their stock ownership target levels receive bonus shares for up to ten percent of the value of their investment in Dominion Stock. The programs include: exchanging an officer's annual bonus for restricted stock; deferring an officer's annual bonus into the company stock investment option under our deferred compensation plan; or acquiring on a one-time or periodic basis shares of company stock through Dominion Direct®. The Tool Kit previously included the availability of third-party loans guaranteed by Dominion for the purpose of buying shares of company stock, but this alternative has been terminated for the reasons discussed above.

As of December 31, 2003, our officers had borrowed an aggregate of \$57 million for which they are personally liable and which Dominion has guaranteed under these programs.

** A change in control shall be deemed to have occurred if (i) any person or group becomes a beneficial owner of 20% or more of the combined voting power of Dominion voting stock or (ii) as a direct or indirect result of, or in connection with, a cash tender or exchange offer, merger or*

other business combination, sale of assets, or contested election, the Directors constituting the Dominion Board before any such transactions cease to represent a majority of Dominion or its successor s Board within two years after the last of such transactions.

Shareholder Proposal Item 3

Dominion has been notified that a shareholder intends to present a proposal for consideration at the annual meeting. We will furnish upon request the name, address and stock ownership of the proponent of the proposal identified below:

Shareholder Proposal

RESOLVED, that the Corporation's by-laws be amended by adding the following Article XXXII:

Article XXXII. Executive Compensation. No officer of the Corporation shall receive annual compensation in excess of the limits established by the U.S. Internal Revenue Code for deductibility of employee remuneration, without approval by a vote of the majority of the Shareholders within one year preceding the payment of such compensation.

For purposes of this Article, the Corporation may exclude compensation that qualifies either as performance-based compensation or as an incentive stock option within the meaning of the Internal Revenue Code, but only if:

(a) the Corporation shall first have disclosed to Shareholders the specific performance goals and standards adopted for any performance-based compensation plan; and

(b) in the case of incentive stock options, the Corporation shall have recorded as an expense in its financial statements the fair value of any stock options granted.

This Article may not be altered, amended, or repealed by the Directors.

This amendment shall be applied so as not to cause violation of any contract in effect on the date of adoption of this resolution.

Supporting Statement

This proposal would require that Dominion Resources may not pay executive compensation in excess of the amount the Internal Revenue Code permits to be deducted as an expense for federal income tax purposes, without first securing shareholder approval.

Edgar Filing: DOMINION RESOURCES INC /VA/ - Form DEF 14A

The Code provides that publicly held corporations generally may not deduct more than \$1 million in annual compensation for any of the company's five highest-paid executives. The Code provides an exception for certain kinds of performance-based compensation. Even so, the Compensation Committee of our Board of Directors says that it reserves the right to approve, and in some cases has approved, non-deductible compensation if the Committee believes it is in the Company's best interests.

We believe the best way to determine the best interests of the Company is to ask the shareholders. In our view, \$1 million should be adequate compensation to attract qualified executives. Even if not, it is reasonable to require the Board to obtain shareholder approval before paying more than this amount.

Under our proposal, moreover, the Company would be able to pay performance-based compensation in excess of the deductibility limit, so long as management has disclosed the performance goals and standards the Board has adopted under these plans. The proposal also provides an exception for incentive stock options, if the Company has recorded the expense of such options in its financial statements.

We think it is reasonable to require the Company to fully disclose to shareholders both the costs and terms of its executive compensation plans, if the Board wishes to pay executives more than the amounts that are generally deductible under federal income taxes.

If shareholders believe that paying compensation beyond IRS deductibility limits is necessary to attract talented executives, they will approve the compensation plans. If not, executives should not accept compensation packages that exceed what shareholders are willing to support.

We urge shareholders to vote FOR this proposal.

Opposing Statement

The Board recommends that you reject this proposal. While this proposal is included in our proxy, we believe that implementing it would prevent our Board of Directors from fulfilling its fiduciary responsibilities under the New York Stock Exchange governance listing standards and as required by Virginia corporate law.

As presented, the proposal would put Dominion at a competitive disadvantage in recruiting and retaining the most experienced, skilled and talented senior managers available in today's market. It would severely limit the Board's discretion by establishing an arbitrary constraint that does not take into account the compensation being paid to executives within our industry's peer group.

As directed by the NYSE governance standards, the Board has delegated to its Organization, Compensation and Nominating Committee the responsibility of determining a compensation program that is fair and competitive. That Committee, consisting exclusively of independent directors, is advised by Pearl Meyer Partners LLC, one of the nation's leading compensation consultants. The Board believes that this independent Committee must have the flexibility to offer compensation programs that can attract and retain top talent. The Committee provides information detailing how it uses its consultant, peer group comparisons and national survey data to recommend for Board approval a competitive executive compensation program—all of which appears on pages 20 through 22 of this proxy statement.

Implementation of this proposal would be costly, disruptive and impractical. Calling a special meeting of shareholders to approve the compensation of a potential executive candidate would be expensive and time consuming. Under our current policy, the Board and its Committee is empowered to react quickly to changes in the executive compensation programs of our peer group competitors.

The Board believes its Committee has designed a performance-driven program that is in the best interest of Dominion and its shareholders.

Your Board of Directors recommends that you vote **AGAINST** this proposal.
