Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee

of the Baxter International Inc. and

Subsidiaries Incentive Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) at December 31, 2003 and December 31, 2002, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held for Investment Purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Incentive Investment Plan

Notes to Financial Statements

December 31, 2003 and 2002

1. General Description of the Plan

The following description of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan allows tax deferred contributions in compliance with Section 401(k) of the Internal Revenue Code. Eligible participants may make pre-tax contributions of up to 20% of their eligible annual compensation, as defined in the Plan agreement. The Plan sponsor, Baxter International Inc. (Baxter), matches participant contributions up to a maximum of 3% of the employees' compensation. Participant contributions are fully vested at all times. Vesting in the Plan sponsor matching contributions is based on years of continuous service, and a participant vests in annual increments of 20%, for the period ended December 31, 2002. Effective January 1, 2003, the Plan sponsor matching contributions of all participants who are employees on and after January 1, 2003 shall be fully vested and nonforfeitable. Participants may borrow up to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at variable rates as outlined in the Plan.

Participants, or their beneficiaries, may elect lump-sum benefit payments or benefits may be paid in installments. Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their pre-tax contributions and related earnings in cases of financial hardship.

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan agreement, represents a forfeiture. Forfeitures are utilized to reduce Baxter matching contributions for the plan year. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan agreement, the participant's account will be reinstated. Forfeitures utilized for the periods ended December 31, 2003 and 2002 were \$539,431 and \$268,960, respectively.

Upon enrollment in the Plan, a participant may direct contributions in any of eight investment options: Stable Income Fund, Baxter Common Stock Fund, Composite Fund, General Equity Fund, S&P 500 Equity Index Fund, International EAFE Equity Index Fund, Small Cap Fund and the Self-Managed Fund. In addition, certain participants may maintain shares received in connection with Baxter's 1996 spin-off of Allegiance Corporation (Allegiance), which were subsequently converted into common shares of Cardinal Health Inc. (Cardinal) upon Cardinal's acquisition of Allegiance in 1999. These shares are maintained in the Cardinal Health Common Stock Fund. Additionally, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its Cardiovascular Business Group. Participants are not able to make contributions to the Cardinal Health Common Stock Fund or the Edwards Lifesciences Common Stock Fund.

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2003 and 2002****2. Summary of Significant Accounting Policies**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred. The valuation of Plan investments is determined as follows:

| | |
|--|---|
| U.S. government and government agency issues | Value based on the last reported sale price from a national security exchange on the valuation date |
| Corporate and other bonds | Value based on the last reported sale price from a national security exchange on the valuation date |
| Common stock: | |
| Traded on national exchanges | Value based on composite pricing of all national closing sales prices on the valuation date |
| Traded on over-the-counter market | Value based on last reported sale price defaulting to bid quotations |
| Commingled investments | Value based on closing prices of the underlying securities on the valuation date |
| Guaranteed Investment Contracts | Value based on contract value |
| Short term investments | Value based on cost which approximates fair value |
| Loan fund | Value based on cost which approximates fair value |

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized appreciation or depreciation of investments. The financial statements reflect the net appreciation or depreciation in the fair value of the Plan's investments. This net appreciation or depreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

The Plan's synthetic Guaranteed Investment Contracts are credited monthly with earnings on the underlying investments and charged for Plan withdrawals and expenses. These contracts are fully benefit-responsive and are reported in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contracts, plus earnings, less withdrawals and expenses. There are no reserves for credit risk of the contract issuer

or otherwise. The Plan's two contracts, Baxter Global Wrap Account and Pacific Investment Management Company, utilize wrapper contracts issued by Aegon Institutional Markets and Bank of America NT & SA, respectively. The average yield was 3.9% and 4.1% and the average crediting interest rate was 5.5% and 6.2% for the investment contracts for 2003 and 2002, respectively. The crediting interest rates are based on an agreed-upon formula with the issuers, Aegon Institutional Markets and Bank of America NT & SA, which are reset quarterly and monthly, respectively. These crediting interest rates cannot be less than zero percent.

Benefits are recorded when paid.

Due from or due to brokers for securities sold or purchased, respectively, represent the cash value of security trades initiated but not yet settled at each respective year-end.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Risks and Uncertainties

The Plan provides for various investment options in any combination of registered investment entities, which invest in U.S. government and government agency issues, corporate and other bonds, common stock, commingled investments, guaranteed investment contracts, and short term investments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in fund values.

3. Eligibility Requirements

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Employees become eligible to participate in the Plan as of the first day of the month following the completion of thirty days of employment. Eligible employees are those who meet the following requirements:

1. U.S. employees of Baxter or its subsidiaries which have adopted the Plan.
2. U.S. employees not covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan.
3. U.S. employees who are not leased employees.

| | <u>\$ 123,924,690</u> | <u>\$ (231,444,466)</u> |

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested and such termination would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

7. Tax Status of the Plan

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated October 1, 2003 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since the date of the determination letter. The Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
