-

ITEM 1.01. ENTRY INTO MATERIAL DEFINITIVE AGREEMENT

Microgy Cogeneration Systems, Inc. (Microgy), a wholly owned subsidiary of Environmental Power Corporation (the Registrant), and Danish Biogas Technology, A/S (DBT) entered into Addendum No. 2 to the Technology Licensing Agreement, dated May 12, 2000, between Microgy and DBT (the Licensing Agreement), as amended by that certain Addendum, dated April 14, 2003 (Addendum No. 1). The Licensing Agreement, as amended, sets forth the terms on which DBT has granted to Microgy an exclusive license in North America to DBT 's proprietary anaerobic digestion technology for the extraction of methane gas from animal wastes for its use to generate energy. Addendum No. 2 to the Licensing Agreement (Addendum No. 2), which was executed and delivered as of March 17, 2005, but is effective as of March 7, 2005, further amends the Licensing Agreement principally as follows:

To provide for an agreed upon schedule of procedures for tasks to be performed during the design phase of each biogas plant developed by Microgy (the Design Phase);

To clarify that the fee referred to in Article 4.1 of Addendum No. 1 (the Design Fee) is payable upon performance of the Design Phase for a project, and that the Design Fee is the only fee to which DBT is entitled in respect of DBT 's performance during the Design Phase of a project; and

To provide that, for purposes of Appendix No. 1 to Addendum No. 1, Microgy will be considered to have initiated construction on a project upon payment by Microgy to DBT of the Design Fee with respect to such project.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
