CORPORATE INITIATIVES

The corporate initiatives of Telesp in this quarter were even more aligned with the vision of the Telefónica Group to become the world's best and larger integrated telecommunication Group. This vision has as its foundation the transformation program **accelerate to be more leader** and it is composed by four transformation axes:

Client orientation: Telesp is going through a deep change with a strongly commercial orientation, considering client's satisfaction as the key driver for growth. Consequently, Telesp launched several initiatives both internally, like the alignment of the incentive systems, and externally, like the development and launching of the economy alternative plans which target a deeper segmentation based on the customers' needs and contribute to a larger socialization of the access of the population to telecommunications and information;

Innovate in order to win: by establishing innovation as one of the axes of transformation, Telesp seeks to generate the maximum of technological and commercial innovation as well as of internal processes. Starting from the traditional services, Telesp is experiencing a transformation with strong emphasis in the development and launching of new products, such as broadband, value added services, alternative telephony plans, long distance, etc. This makes Telesp to go beyond the basic telephony service and to transform itself to remain as leader in a market subject to fast evolution. Within this strategy, Telesp will continue the developing and launching of products that are more and more innovative and focused on value generation.

Operating excellence: with a very high rate of lines in service per employee, Telesp is already one of the most efficient operators around the world. For 2008, the Company has financial, operating and customer service indicators even more aggressive, with concrete and objective goals set to become the company with the highest standards of customer satisfaction and operating excellence. This represents a new stage in the search for more efficiency, which already happens in all the areas of the Company, and has as its ultimate goal to improve the return for the shareholders and the society, and to benefit the clients with a perfect execution on the first time, with total reliability and satisfaction.

Leadership and commitment: by implementing incentive and recognition systems, universal internal training and proactive management of the satisfaction levels of its collaborators, Telesp now implements a virtuous cycle: leadership on a daily basis, motivating its collaborators, which in turn promote a differentiated customer support, generating client satisfaction, accomplishing the objectives and commitments set, satisfying the society and the shareholders, generating more opportunities while involving the managers and leaders and generating more leadership on a daily basis, which continuously reinforces this cycle.

RESULTS HIGHLIGHTS

<i>Unaudited consolidated figures in Reais MM</i>	January - March		
	2005	2004	% Var
Net operating revenues ^{1/}	3,385.0	3,266.2	3.6
EBITDA ^{2/}	1,530.7	1,415.4	8.1
EBITDA margin (%)	45.2%	43.3%	1.9 p.p.
Operating income	739.8	631.3	17.2
Income before income tax and social contribution	748.5	640.5	16.9
Net income	489.9	418.6	17.0
Shares outstanding (bn)	493.6	493.6	0.0
EPS (000)	0.99	0.85	17.0
Installed Lines (switching) (000)	14,200.0	14,288.2	(0.6)
Lines in service (000)	12,364.0	12,227.5	1.1
Telephone density (per 100 inhab.)	31.3%	31.2%	0.1 p.p.
Lines in service/employee ^{3/}	1,778	1,776	0.1
Digitalization (%)	98.7	97.2	1.5 p.p.

1/ The gross operating revenues amounted to R\$4,781.1 million in the 1Q05 and R\$4,520.4 million in the 1Q04. The tax deductions, which include ICMS, PIS, COFINS, ISS, IPI and other discounts totaled R\$1,396.2 million in the 1Q05 and R\$1,254.3 million in the 1Q04.

2/ EBITDA = Earnings before interest taxes, depreciation and amortization

3/ For this calculation, the number of LIS considers both the fixed lines in service as well as the ADSL lines.

ADSL is offered under the brand name Speedy and reached 880,183 clients in March 2005, increasing 6.5% relative to the 4Q04. In relation to March 2004, the growth was 69.9%, in line with the growth trend of the last quarters and the targets for 2005.

Alternative Plans for Fixed Telephony On March 21, 2005, the Company launched the Family Economy Line, which allows the control of expenses with cellular and long distance calls. With this new Plan, the client pays a monthly fee of R\$18.91 (R\$26.50 including taxes - promotional price until June 30, 2005) and an installation fee of R\$58.55 (R\$82.06 including taxes), it can make fixed-to-fixed local calls and has 50 free pulses included in the monthly fee. In order to make long distance calls or calls to mobile numbers, an Economy Line prepaid card is needed. This line has a facility, additional to the previous Economy lines, that allows each member of the household to

Table of Contents

have its own prepaid card, having exclusive control on its individual expenses. The alternative plans for fixed telephony increase the profitability of the installed capacity of Telesp and serve the market segments that were previously not given more economical choices for access to telephony services. More than 70% of the people that purchase these lines were never before subscribers of the fixed telephony services. This reflects the commitment of Telesp with the universalization of the telecommunication services in the state of São Paulo, above the regulatory demands, and the socialization of the access to communications and information.

The net operating revenues for the 1Q05 totaled R\$3,385.0 million and when compared to the R\$3,266.2 million of revenues recorded in the 1Q04, an increase of R\$118.8 million, or 3.6%, is registered. This is explained by the tariff increases in 2004 and the growth in the Speedy service. When comparing the 1Q05 with the 4Q04, there is a reduction of R\$61.6 million or 1,8%, mainly explained by the historical seasonality of the local service for this period and the reduction of revenues from the inter-network fixed-to-mobile service.

Results January - March 2005 - **TELESP 4**

Table of Contents

The EBITDA margin in the 1Q05 was 45.2%, an improvement of 1.9 p.p. when compared to the 1Q04, fueled by the tariff increases and a reduction of the interconnection expenses, partially offset by the increase in outsourcing and personnel expenses. When comparing the 1Q05 with the 4Q04, a reduction of 1.1 p.p. is registered, explained by the increases in outsourcing, personnel expenses and taxes, which were partially offset by the drop in provisions, supplies and interconnection expenses.

The consolidated Capex accumulated until March 2005 totaled R\$217 million. This figure is in line with the investment needs of the Company and confirms the long-term commitment of the Telefónica Group in Brazil, both in the keeping and socialization of the traditional services as well as the growth of new services.

The total indebtedness of the Company as of March 31, 2005 was R\$2,769.3 million including hedging operations, R\$216.3 million, or 7.2%, lower than on March 31, 2004. For comparison purposes, as of December 31, 2004, the indebtedness of the Company was R\$ R\$2,992.2 million

Results January March 2005 - **TELESP 5**

Table of Contents

including hedging operations. The most relevant difference compared to the year 2004 is related to the maturity of the debt in light of the issuance of bonds. The profile of indebtedness of Telesp reflects the best possible optimization of value generation given the economic and financial situation of the Company at each moment.

NET FINANCIAL DEBT

(Million R\$)

	<u>March/05</u>	<u>December/04</u>	<u>March/04</u>
Short-term Debt	396.4	529.9	1,800.4

REVENUES HIGHLIGHTS

Gross Operating Revenues by the end of the March 2005, reached R\$4,781.1 million, which represents an increase of R\$ 260,7 million, or 5.8%, compared to the same period of the previous year. When comparing the 1Q05 with the 4Q04, the revenues dropped R\$24.6 million, or 0.5%.

The changes are explained as follows:

Monthly Subscription Fee: reached R\$1,380.4 million in the 1Q05, representing an improvement of R\$197.0 million, or 16.6% compared to the 1Q04, mainly due to the tariff increases in 2004, besides the introduction of the economy lines in the 2H04. When comparing the 1Q05 with the 4Q04, a R\$24.9 million or 1.8% raise was registered mainly because of the increase with the monthly fee for trunk lines as a result of the acquisition of Atrium.

Installation Fee: registered revenues of R\$17.1 million in the 1Q05, showing a decrease of R\$4.8 million, or 22.0%, when compared to the same period of the previous year, mainly as a consequence of the promotional campaign for the second line, in which the client does not pay the installation fee. When comparing the 1Q05 and the 4Q04, an increase of R\$12.4 million, or 266.6%, is noted, mainly as a result of an accounting readjustment in the 4Q04 as a result of a reversion in provisions.

Results January - March 2005 - **TELESP 7**

Table of Contents

Local Service: totaled R\$727.4 million in the 1Q05, presenting a decrease of R\$52.2 million, or 6.7%, compared to the 1Q04, as a result of a reduction in traffic (exceeding pulses), partially offset by the tariff increases in 2004. It is worth noting that the decrease in local traffic is mainly the consequence of a drop in dial-up Internet traffic (due to the migration to broadband) and the reconfiguration of the local areas in September 2004. Because of this reconfiguration, calls that were previously classified as DC level and billed by pulses with different cadence are now billed as local calls. When comparing the 1Q05 with the 4Q04, a R\$62.8 million or 7.9% fall is noted as a result of the drop in traffic (exceeding pulses) of about 5.6%, in line with the historical seasonality for this service within the period.

Others: amounted to R\$181.3 million in the 1Q05, showing a R\$25.8 million or a 16.6% increase when compared with the 1Q04, chiefly as a consequence of the improvement in revenues coming from the Intelligent Line services (value added services for fixed telephony) and the fact that the revenues from Atrium were consolidated from December 2004 on, which was counterbalanced by the reduction of revenues from modems resale which is not being executed by Telesp anymore. When comparing the 1Q05 with the 4Q04, an increase of R\$43.2 million, or 31.3%, was recorded, primarily as a result of growth in revenues coming from the administration of telephone services in commercial buildings, rendered by the subsidiaries Assist Telefônica and Atrium.

DLI: reached R\$772.3 million in the 1Q05, presenting an raise of R\$20.7 million, or 2.8%, compared to the 1Q04. When comparing the 1Q05 with the 4Q04, there was an increase of R\$21.4 million, or 2.9%. The increase in revenues is explained by the following reasons:

Long distance (intra-state): recorded revenues of R\$570.6 million in the 1Q05, growing R\$4.2 million, or 0.7%, when compared to the 1Q04, mainly as a result of the tariff increases in 2004, partially offset by the drop in traffic. When comparing the 1Q05 with the 4Q04, a reduction of R\$8.5 million or 1.5% is noted, mainly due to the decrease in traffic, partially offset by the tariff increases in 2004.

Long distance (inter-state): reached R\$201.7 million in the 1Q05, showing an improvement of R\$16.5 million, or 8.9% when compared to the 1Q04, chiefly due to the increase in fixed-to-fixed co-billing traffic with operators within the other regions. When comparing the 1Q05 with the 4Q04, an increase of R\$29.9 million, or 17.4%, is shown because of the same aforementioned reasons and the tariff readjustment in 2004.

Fixed-to-mobile: amounted to R\$987.7 million in the 1Q05, presenting a contraction of R\$36.2 million, or 3.5%, compared to the same period of the previous year. When comparing the 1Q05 with the 4Q04, a reduction of R\$58.0 million, or 5.5%, was recorded. Both effects were the consequence of the traffic reduction, in line with the historical seasonality of that service for this period.

ILD: totaled R\$29.9 million in the 1Q05, registering an increase of R\$1.7 million, or 6.0%, when compared to the 1Q04, primarily due to the increased traffic and revenues coming from fixed-to-fixed co-billing with operators within the other regions. A reduction of R\$1.0 million, or 3.2%, is noted when comparing the 1Q05 with the 4Q04, mainly due to the increase in tariff promotions, which was partially counterbalanced by the increase in traffic and revenues from fixed-to-fixed co-billing with operators within the other regions.

Interconnection Revenues: recorded R\$180.9 million in the 1Q05, a deterioration of R\$13.3 million, or 6.8%, when compared with the 1Q04, chiefly because of the reduction in fixed-to-mobile interconnection revenues and discounts on carrier contracts with other operators, partially offset

Table of Contents

by the increase in Long Distance traffic by means of the access code 15 . When comparing the 1Q05 with the 4Q04, a reduction of R\$15.4 million, or 7.8%, due to the same aforementioned reasons.

Public Telephony: reached R\$105.6 million in the 1Q05, and when compared to the 1Q04, it increased R\$28.7 million, or 37.3%, due to the improvement in the sale of public telephone cards, besides the tariff increases in 2004. A decrease of R\$13.7 million, or 11.5%, was recorded when comparing the 1Q05 with the 4Q04, primarily because of the increase in the transfers from TUP (Public Usage Telephony) to other operators.

Data Transmission: revenues for the 1Q05 added up to R\$302.9 million, representing a R\$81.7 million or 36.9% increase regarding the 1Q04. This effect was chiefly produced by the growth in Speedy services. An improvement of R\$17.2 million, or 6.0%, was registered when comparing the 1Q05 with the 4Q04 due to the same aforementioned reason.

Infrastructure rental: amounted to R\$95.8 million in the 1Q05, showing an increase of R\$11.7 million, or 13.9%, when compared to the 1Q04. This effect was largely the result of revenues for rental for wholesale exploitation of dedicated lines of 2MB (2MB EILD) and local access to packaged network. When comparing the 1Q05 and the 4Q04, an improvement of R\$7.1 million, or 8.0%, primarily as a result of the revenues from 2MB EILD rental.

Results January - March 2005 - **TELESP 9**

Table of Contents

OPERATING EXPENSES HIGHLIGHTS

Operating Expenses in the 1Q05 reached R\$1,854.3 million, a variation of R\$3.5 million, or 0.2% compared to the 1Q04. When comparing the 1Q05 with the 4Q04, there was an increase of R\$4.8 million, or 0.3%.

The Operating Expenses variations are explained as follows:

Personnel expenses totaled R\$141.7 million in the 1Q05, which represents an increase of R\$22.7 million, or 19.1%, when compared to the 1Q04, mainly due to the salary increase of 6% in September 2004, the Career Plan that benefited an average of 3,000 employees and, to a lesser degree, the incorporation of Atrium. When comparing the 1Q05 with the 4Q04, an increase of R\$6.9 million, or 5.1%, was shown chiefly due to Career Plan.

General and administrative expenses reached R\$1,562.2 million in the 1Q05, registering an increase of R\$25.8 million, or 1.7%, compared to the 1Q04. There was a decrease of R\$9.4 million, or 0.6%, when comparing the 1Q05 with the 4Q04.

Results January - March 2005 - **TELESP 10**

Table of Contents

The General and Administrative Expenses changes are explained as follows:

Supplies added up to R\$31.8 million in the 1Q05, presenting a R\$5.7 million, or 15.2%, drop when compared to the 1Q04, mainly due to the reduction in the cost of supplies sold, as a result of the lower sales of modems, which from the 2H04 on are no longer rendered by Telesp. This reduction was partially counterbalanced by the increase with supplies related to public telephone, economy lines card and the Detecta (caller ID service) promotion. When comparing the 1Q05 and the 4Q04, a contraction of R\$2.8 million, or 8.0%, is noted, basically because of the reduction of expenses with materials for productive plant maintenance.

Outsourcing expenses totaled R\$620.7 million in the 1Q05, an increase of R\$63.2 million, or 11.3%, when compared to the 1Q04, chiefly as a result of the increase in expenses of operating plant services, the readjustment of the contracts based on price indexes and the increase in Internet IP-network traffic, in light of the increase in the Speedy plant. When comparing the 1Q05 with the 4Q04, an increase of R\$31.6 million, or 5.4%, was registered, mainly due to expenses with technical-administrative services and operating services for productive plant, which were counterbalanced to a certain degree by the reduction in expenses with advertising.

Inter-connection expenses amounted to R\$856.8 million, dropping R\$38.9 million, or 4.3%, when comparing the 1Q05 with the 1Q04 in light of the improvement in the efficiency in the interconnection expenses. When comparing the 1Q05 and the 1Q04, there was a decrease of R\$37.7 million, or 4.2%, due to the same reason.

Other Expenses reached R\$52.9 million in the 1Q05, going up R\$7.2 million, or 15.8%, compared to the 1Q04, mainly due to the increase in rental expenses of 3rd party transmission poles, the increase in fees to the power company, and the rental of infrastructure. When comparing the 1Q05 with the 4Q04, a contraction of R\$0.5 million, or 1.0%, was registered due to the lower rental expenses with data circuits.

Taxes added up to R\$62.6 million, recording an increase of R\$0.4 million, or 0.6%, when comparing the 1Q05 and the 1Q04, chiefly due to the increase in expenses with ISS (service taxes) in light of the increase on Other Revenues. This effect was partially compensated by the decrease in expenses with FUST (Telecommunications Services Universalization Fund). From the 4Q04 on, according to Anatel's authorization, Telesp started to deduct the interconnection expenses and EILD rental of the base of calculation for the FUST, which resulted in a lower payment of taxes compared to the previous year. When comparing the 1Q05 with the 4Q04, an increase of R\$9.0 million, or 16.8%, was registered, mainly as a result of the recalculation of the FUST of December 2004, when this readjustment was retroactively acknowledged for the period from January 2004 to October 2004, which made the Taxes entry to amount a lower figure in the 4Q04. This effect was partially offset by the reduction in PIS and COFINS on other revenues.

Provisions for bad debt fell R\$42.5 million, or 31.5%, when comparing the 1Q05 and the 1Q04. The quarterly figures represent 2.7% of the total net operating revenues (4.1% in the 1Q04). When comparing the 1Q05 with the 4Q04, there was a reduction of R\$12.2 million, or 11.7% (3% of the net operating revenues in 4Q04). This positive result for the Company is a consequence of the efforts in collection, debt recovery and products more suited to the different market segments. As of March 31, 2005, the Company did not register any client with an outstanding bill that surpassed 1% of the total accounts receivable.

Table of Contents

Losses with Investments presented an increase of R\$2.1 million in the 1Q05 when compared to the 1Q04, because of exchange rate effect of the consolidation of the Aliança Atlântica subsidiary by the equity method. When comparing the 1Q05 with the 4Q04, a reduction of R\$4.6 million is noted, due to the same aforementioned reason.

Other operating revenues (expenses) registered a positive net result of R\$4.9 million in the 1Q05 compared to the 1Q04. This behavior is mainly the result of the reduction in provisions for low-rotation inventories, reductions in donations and sponsorships, and increases in the revenues from fines, partially offset by the decrease in revenues from commissions over billing and collection, and the increase in expenses with contingencies. When comparing the 1Q05 with the 4Q04, there was a negative variation of R\$6.0 million, chiefly due to the recovery of taxes and the reversion of provisions for the pension plan in December 2004.

Results January - March 2005 - **TELESP 12**

Table of Contents

OTHER HIGHLIGHTS

Depreciation went down R\$15.2 million, when comparing the 1Q05 with the 1Q04, mainly due to the realignment of the Capex levels after the achievement of the universalization targets. This entry remained practically stable when comparing the 1Q05 with the 1Q04.

Net Financial Revenues / (Expenses): the negative financial result increased R\$22 million when comparing the 1Q05 with the 1Q04, mainly as a result of higher financial expenses. If we compare the 1Q05 with the 4Q04, the net financial loss was reduced in R\$2.7 million, basically because of the reduction in expenses with CPMF. The indebtedness and result of the operations of the Company are significantly affected by the risk of the exchange rates. As of March 31, 2005, 39.83% of the financial debt was denominated in foreign currency (US dollar, Canadian dollar and Yen), while 99.97% of the indebtedness was being covered by active positions in hedge operations (Swap to CDI). The gains and losses of those operations are recorded in the financial statements. As of March 31, 2005, those transactions showed a negative consolidated net result of R\$54.7 million, while a liability of R\$230.7 million was recorded to acknowledge the temporary loss.

Non-Operating Revenues (Expenses) registered a drop of R\$0.5 million, or 5.9%, when comparing the 1Q05 with the 1Q04, chiefly due to the sale of assets, offset by the result of fines. When comparing the 1Q05 with the 4Q04, a fall of R\$3.2 million, or 27.2%, is registered, mainly due to the negative result of R\$6.0 million related to the sale of permanent assets.

Loans and Financing: As of March 31, 2005, the Company had R\$1,011.2 million (R\$1,228.6 million as of December 31, 2004) in loans and financing denominated in foreign currency, from which R\$434.8 million (R\$563.0 million as of December 31, 2004) were obtained at fixed interest rates, and R\$576.5 million (R\$665.6 million as of December 31, 2004) were obtained at foreign variable interest rates (Libor). In order to be protected against the exchange risk of the loans denominated in foreign currency, the Company contracted hedge operations to tie the debt to the local currency, with floating interest rates indexed to the CDI, and as a consequence the financial results of the Company are affected by the fluctuations of this rate. The position in loans and financing also includes the value of the bonds issued in 2004, paying interests based on the variation of the CDI rate (R\$1,522.5 million), as described in the Corporate Events. Furthermore, the Company invests the balance of cash and cash equivalents (financial instruments) of R\$744.0 million (R\$238.6 million as of December 31, 2004) mainly in short-term instruments, based on the variation of the CDI, which contributes to reduce this risk. Book value of those instruments is close to market value because of their short-term maturity.

Regarding the variable foreign interest rates, the Company is protected for the financing with the JBIC – Japan Bank for International Cooperation. The Company keeps monitoring the interest rates in the market in order to evaluate the eventual need to contract other derivatives to protect itself against the volatility risk of the variable foreign interest rates on its remaining position.

Telesp acquires the IP Network from Telefônica Empresas S.A.: On December 10, 2002, the management of Telecomunicações de São Paulo Telesp announced that its Board of Directors, on session held on December 10, 2002, decided to approve the proposal for the purchase, from Telefônica Empresas, of the business composed by the assets and contracts with customers related to the following services: (i) Switched IP (Internet Protocol): Services and infrastructure that allow the establishment of switched connections of remote users through the dial-up network; (ii) Speedy Link: Service rendered to Internet Service Providers (ISPs), that allows them to offer to their clients the use of the broadband access to internet named Speedy. Furthermore, the Company wants to clarify that: (a) The present transaction is interesting to the Company since it enables the optimization of its operations, increases of synergies in network development and speed in the commercial response to the market, as well as the establishment of business strategies; (b) The value of the purchase of the aforementioned services, their respective assets and contracts with clients was determined to be R\$143,910,000.00 (one hundred forty three million, nine hundred ten thousand reais), according to the valuation made by an independent company, KMPG Corporate Finance S/C Ltda.; (c) Telesp requested the proper authorization from Anatel in order to deploy the Multimedia Communication Service (SCM), thus allowing the Company the direct exploitation of the services related to the assets/businesses to be acquired.

Modification of the Company's bylaws: the Extraordinary General Shareholders Meeting, held on December 30, 2002 approved the modification of the heading of the article 7 and the 1st paragraph of article 27, and the removal of article 26 of the Company's bylaws, in order to adapt them to Law # 10303/01. Such modification refers to the fact that the preferred shares will have a secured priority in the reimbursement of capital, without premium, and will receive a dividend, in an amount that is 10% (ten per cent) higher than the one granted to each common share. This dividend substitutes the minimum dividend, non accumulative, of 6% per year of the value resulting by dividing the subscribed capital by the total number of shares of the Company, previously stated in the heading of article 7.

Bonds: On September 03, 2004, the Company announced a Public Offering of Obligations (the Program) and the activation, within the Program's parameters, of the First Issuance of Telesp's Bonds (the Offer).

Table of Contents

The Program has a total value of R\$3,000,000,000.00 (three billion reais), with maturity of two years, counted from the filing at CVM on October 15, 2004. It considers the issuance of simple bonds, not convertible to shares, unsecured type and/or Promissory Notes.

The Offer consists of the issuance of 150,000 simple bonds, not convertible to shares, unsecured type (Debêntures), with nominal value of R\$10,000.00 (ten thousand reais) per unit, totaling the amount of R\$1,500,000,000.00 (one billion, five hundred million reais), in a single series, maturing on September 01, 2010 (six years). The bonds will yield interests with quarterly payments corresponding to 103.5% of the accumulated average daily rates of the DI (overnight Inter-financial Deposits Extra-Group), calculated and published by CETIP (Custodian and Liquidation Chamber).

The interest of the bonds may be reviewed on September 01, 2007. Conservatively, the Company included in the consolidated schedule of long-term maturity described above, the principal of the bonds in the year 2007, the data for the review of the interest.

Acquisition of Atrium: On December 24, 2004, the Company acquired Santo Genovese Participações Ltda. (Santo Genovese), controller of Atrium Telecomunicações Ltda. (Atrium), company dedicated to the management of the rendering of telecommunication services. Santo Genovese is a holding company that had, as its only asset, the shares representative of 99.99% of the capital stock of Atrium. The value of the deal was set in R\$113.4 million of which R\$92.7 million were effectively paid, while the difference will be paid once the operation receives the final approval of the government and regulatory entities. The operation will allow the Company to increase its offer to the domestic market with services that have greater value added, through the management of the rendering of telecommunication services.

SUBSEQUENT EVENTS

On April 02 and 04, 2005, the Company announced the payment of interim dividends and interest on the Company's net worth for the fiscal year 2005, decided in the Board of Directors Meeting held on April 01, 2005, ad referendum of the General Shareholders Meeting.

Interim Dividends Fiscal year 2005 - The Company declared interim dividends in the amount of R\$1,500,000,000 (one billion, five hundred thousand million reais), based on the accumulated earnings of the last annual balance sheet, in accordance with article 28 of the Company's bylaws and articles 204 and 205 of the Law #6404/76.

INTERIM DIVIDENDS - FISCAL YEAR 2005

(Amount per lote of 1,000 shares - R\$)

	Common	Preferred (*)
Amount per lot of 1,000 shares - R\$	2.849438	3.134382

(*) 10% higher than the dividend granted to each common share, in accordance with article 7 of the Company's bylaws.

The interim dividends will be charged against the minimum mandatory dividends for the fiscal year 2005 in accordance with the established by the single paragraph of the article 28 of the Company's bylaws.

The payment of this dividend started on April 20, 2005 to the common and preferred shareholders registered as such in the Company's registry book by the end of the day on April 01, 2005.

Interest on the Company's net worth Fiscal year 2005 - The Company declared interest on the Company's net worth in the amount of R\$359,000,000 (three hundred fifty nine million), subject to income tax withholding of 15%, resulting in a net payment of R\$305,150,000 (three hundred five million, one hundred fifty thousand reais) in accordance with the article 9 of the Law #9249/95 and the Instruction 207/96 of the CVM (Comissão de Valores Mobiliários).

INTEREST ON THE COMPANY'S NETWORTH - FISCAL YEAR 2005

(Amount per lot of 1,000 shares - R\$)

Immune or Exempt Legal Entities (Gross Value)	Income Tax Withhold (15%)	Taxed Legal Entities and Individual (Net Value)
---	------------------------------	---

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Common Shares	0.681965	0.102294	0.579670
Preferred Shares (*)	0.750162	0.112524	0.637637

(*) 10% higher than the dividend granted to each common share, in accordance with article 7 of the Company's bylaws.

The corresponding credits were made in the Company's accounting records on April 30, 2005, on an individual basis for each shareholder, based on the positions in the shareholder registry book by the end of the day, on April 29, 2005. The payment will be executed until the end of the fiscal year 2005.

In accordance with the single paragraph of the article 29 of the Company's bylaws, the interest on the Company's net worth may be charged against the minimum mandatory dividends for the fiscal year 2005. Immune or exempt entities for tax withholding will receive the payment for the gross value, upon presenting proof of such condition, according to the notice to the shareholders published on April 02 and 04, 2005.

ADDITIONAL NOTES

CVM Edict # 371 Pension Plan Accounting Procedures: The Company chose to register the liabilities related to pension plans directly in the net equity as of December 31, 2001, net from the corresponding tax effects, according to the Edict CVM # 371 published on December 13, 2000. On December 31, 2002, the Company chose to immediately register all the actuary gains and losses in the financial statements. In the actuary valuation of those pension plans, the projected unitary credit method was adopted, being the assets of the plans accounted as of September 30, 2003 and November 30, 2002, respectively. For the cases of multi-sponsored plans (PAMA and PBS-A), the valuation of assets was done based on the Company's liabilities for pension plans relative to the total liabilities of the pension plan. The total value of the registered liability until March 31, 2005 was R\$44.9 million.

Tariff Increases - On June 29, 2004, through Edicts #45011 and #45012, the Agência Nacional de Telecomunicações - ANATEL approved the percentages for the tariff adjustment for the Switched Fixed Telephony Service (STFC) according to the criteria established in the Local and Domestic Long Distance Concession Contracts, to be effective starting on July 02, 2004 and for sector 32 (former CETERP) since July 03, 2004. On July 02, the approved percentages were applied on top of the tariffs determined by the legal injunction.

The average variations of the tariff baskets were as follows:

Local: 6.89%

Long Distance: 3.20%

TU-RL: -10.47%

TU-RIU: 3.20%

After the final decision regarding the Legal Injunction by the STJ, with the reincorporation of the IGP-DI as the index, the approved percentages, in accordance with Anatel's published acts, were applied on top of the approved tariffs in June 2003, non-retroactively. The increase was divided in two installments, with the first one being effective on September 01, 2004. On September 01, 2004 on, the following readjustment indexes were applied to Telefônica's services:

Pulse: average of 3.22%

Domestic Long Distance: average of 5.22%

Non-residential and trunk monthly fee: 7.75%

Residential monthly fee: 3.14%

Installation: average of 14.14%

The second installment was effective from November 01, 2004 on. The following readjustment indexes were applied to Telefônica's services:

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Pulse: average of 3.13%

Domestic Long Distance: average of 4.97%

Non-residential and trunk monthly fee: 7.20%

Residential monthly fee: 3.05%

Installation: average of 12.40%

Relevant Fact Shares Reverse Split Proposal - On February 22, 2005, the Company, in compliance with CVM Instruction #358 of January 03, 2002, published a relevant fact informing that on the meeting held on February 21, 2005, the Board of Directors decided to submit to the Extraordinary General Shareholders Meeting, called for on May 11, 2005, the proposal for the reverse split of the shares representative of the capital stock of the Company, in accordance with the established on the

HISTORICAL SUMMARY

Telecomunicações de São Paulo S/A - TELESP since November 30, 1999 (due to a corporate restructuring) is the new name of Telesp Participações S/A., a corporation organized under the laws of the Federal Republic of Brazil, formed upon the reorganization of Telecomunicações Brasileiras S.A., on May 22, 1998. TELESP is the main supplier of fixed line public telecommunications services in the Brazilian state of São Paulo. The Brazilian Government sold its stake in TELESP PARTICIPAÇÕES thus privatizing the Company on July 29, 1998. TELESP's operating concession expires on December 31, 2005, at which point it can be extended for a period of 20 years.

Telecomunicações de São Paulo S/A - TELESP acquired, in December 1999, voting and non-voting shares of Centrais Telefônicas de Ribeirão Preto S/A - CETERP. The CETERP cellular operating division was sold afterwards.

The tender offer to exchange the shares of the Company by BDRs (Brazilian Depositary Receipts) representatives of the shares of Telefônica, S.A. was concluded on June 30, 2000.

On August 03, 2000, the wholly owned subsidiary Telefônica Empresas S.A. was created, whose corporate goal is to render switched package network services. On November 24, 2000, the Company completed the capital increase on its fully owned subsidiary in local currency and through the valuation of the assets related to the switched package network services, including the transfer of the authorization to render that service.

On January 31, 2001, Telefônica Data Brasil Holding S.A. was created, resulting of the partial spin-off of the Company's net equity. This equity was represented by the investment in the fully owned subsidiary Telefônica Empresas S.A. and accounts receivable. The purpose of the creation of Telefônica Data Brasil Holding S.A. was the segregation of the operating activities related to the switched package network services, due to the administrative and operating restructuring in the year 2000.

TELESP's business, services and tariffs have been regulated by ANATEL (Agência Nacional de Telecomunicações) since June 16, 1997, according to various decrees, decisions, plans and regulatory measures.

TELESP became the first operator to file the corresponding information of the accomplishment of Anatel's targets. ANATEL has already granted the license to permit Telesp to offer domestic and international long distance services to its customers, and also to extend its business out of its concession area (São Paulo) to the whole country.

The international long distance services started to be deployed on May 7, 2002 while the domestic long distance services were not being rendered in that period due to a legal injunction. For the same reasons, the domestic long distance services started to be deployed on July 29, 2002.

The Board of Directors of ANATEL, on its 240th meeting held on January 29, 2003 granted Telecomunicações de São Paulo, S.A. - Telesp the authorization to exploit the Multimedia Communications Service (SCM) nationwide. The Company may offer voice and data services through

points of presence, composed of networks and telecommunication circuits.

Table of Contents

On July 06, 2003, the mobile telephone operating companies started to implement the long distance carrier selection. It enables the client to determine the long distance carrier for each domestic long distance call (VP2 and VP3) or international call, according to the SMP Mobile Personal Service rules. Consequently, the Company started to acknowledge the revenues from said services and, at the same time, started to pay to the mobile telephone operators for the use of their networks.

On September 04, 2004, the rules established in Resolution #373 of Anatel (National Telecommunications Agency), dated as of June 03, 2004, were implemented. This Resolution deals with the reconfiguration of the local areas for the Switched Fixed Telephony Service. As a consequence, all calls, previously billed as domestic long distance (DC - Áreas Conurbadas), will now be billed as local calls. In São Paulo, this modification comprised 53 municipalities, while 39 of them were in Grande São Paulo.

On December 24, 2004, the Company acquired Santo Genovese Participações Ltda. (Santo Genovese), controller of Atrium Telecomunicações Ltda. (Atrium), company dedicated to the management of the rendering of telecommunication services. The operation will allow the Company to increase its offer to the domestic market with services that have greater value added, through the management of the rendering of telecommunication services.

- 1/ Installation Charge was readjusted on October 04, 2003.
- 2/ Some services have differentiated tariff rates for the former CTBC concession area, such as: installation charge (R\$66.74), monthly fee for non-residential and trunk lines (R\$55.96), DLD (D1=R\$0.150, D2=R\$0.216, D3=R\$0.308 and D4=R\$0.439). There are different tariffs within CETERP's region.
- 3/ From February 8, 2003 on, there are different tariffs for the several concession sectors where the calls are originated and terminated, according to the table approved by Anatel.

Note a) On February 06, 2004, according to the Act 42422, ANATEL (Agência Nacional de Telecomunicações) approved the tariff adjustment of the Cellular Móvil Service - SMC and Personal Mobile Service - SMP, with an increase of 6.99% for the VC1, VC2 and VC3 throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. The new tariffs started to be charged on February 11, 2004.

Note b) On June 29, 2004, through Edicts #45011 and #45012, the Agência Nacional de Telecomunicações ANATEL approved the percentages for the tariff adjustment for the Switched Fixed Telephony Service (STFC) according to the criteria established in the Local and Domestic Long Distance Concession Contracts, to be effective starting on July 02, 2004 and for sector 32 (former CETERP) since July 03, 2004. On July 02, the approved percentages were applied on top of the tariffs determined by the legal injunction.

The average variations of the tariff baskets were as follows: Local: 6.89%; Long Distance: 3.20%; TU-RL: -10.47%; TU-RIU: 3.20%

Note c) After the final decision regarding the Legal Injunction by the STJ, with the reincorporation of the IGP-DI as the index, the approved percentages, in accordance with Anatel's published acts, were applied on top of the approved tariffs in June 2003, non-retroactively. The increase was divided in two installments, with the first one being effective on September 01, 2004. On September 01, 2004 on, the following readjustment indexes were applied to Telefónica's services: Pulse: average of 3.22%; Domestic Long Distance: average of 5.22%; Non-residential and trunk monthly fee: average of 7.75%; Residential monthly fee: 3.14%; Installation: average of 14.14%

Note d) The second installment was effective from November 01, 2004 on. The following readjustment indexes were applied to Telefónica's services: Pulse: average of 3.13%; Domestic Long Distance: average of 4.97%; Non-residential and trunk monthly fee: average of 7.20%; Residential monthly fee: 3.05%; Installation: average of 12.40%

DISCLAIMER

This document contains statements that constitute forward looking statements in its general meaning and within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this document and include statements regarding the intent, belief or current expectations of the customer base, estimates regarding future growth in the different business lines and the global business, market share, financial results and other aspects of the activity and situation relating to the Company. The forward-looking statements in this document can be identified, in some instances, by the use of words such as *expects*, *anticipates*, *intends*, *believes*, and similar language or the negative thereof or by forward-looking nature of discussions of strategy, plans or intentions.

Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties and actual results may differ materially from those in the forward looking statements as a result of various factors.

Analysts and investors are cautioned not to place undue reliance on those forward looking statements which speak only as of the date of this presentation. The Company undertakes no obligation to release publicly the results of any revisions to these forward looking statements which may be made to reflect events and circumstances after the date of this presentation, including, without limitation, changes in Company's business or acquisition strategy or to reflect the occurrence of unanticipated events. Analysts and investors are encouraged to consult the Company's Annual Report as well as periodic filings filed with the relevant Securities Markets Regulators, and in particular with the Brazilian Market Regulator.
