OUR COMPANY

This summary highlights selected features of this offering and the information included or incorporated by reference in this prospectus. This summary does not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus carefully, including the information incorporated by reference herein, especially the risks of investing in our common stock described and incorporated by reference under Risk Factors, before making an investment decision. We are a pioneer in the development of Polymer Organic Light Emitting Diodes, or P-OLEDs, and their use in next-generation flat panel displays and other applications. P-OLEDs are part of the family of Organic Light Emitting Diodes, or OLEDs, which are thin, lightweight and power efficient devices that emit light when an electric current flows. Our P-OLEDs offer an enhanced visual experience and superior performance characteristics compared with alternative flat panel display, or FPD, technologies such as liquid crystal display, or LCD. We believe we hold the most extensive and significant intellectual property, or IP, portfolio for P-OLED materials and devices, including the fundamental patents for the use of polymers in electroluminescent devices.

Our objective is to establish P-OLEDs as the leading technology for the FPD industry through the use of our extensive IP portfolio, manufacturing process and engineering expertise and commercialization partnerships. Our business model is focused on licensing our P-OLED and related technologies to FPD manufacturers on a non-exclusive basis and not on manufacturing or selling products that incorporate our technologies. We believe this approach best enables us to capitalize on our IP position, generating license fees and royalty payments from sales by third parties of devices using our IP or P-OLED materials. Our business model allows us to concentrate on our core strengths of technology development and innovation, while at the same time providing significant operating leverage.

We have established a 50/50 joint venture with Sumitomo Chemical Company Limited, or Sumitomo, which is engaged in research, development and commercialization of polymer materials that are necessary for the manufacture of P-OLED displays.

We are also targeting leading display manufacturers as potential licensees of our P-OLED IP and have already licensed our technology to leading international companies such as Dai Nippon Printing, Delta Optoelectronics, DuPont Displays, OSRAM Opto Semiconductors and Seiko Epson for display manufacture. Several products that incorporate our licensed P-OLED technology in their small-area displays, have been introduced into the commercial marketplace as monochrome displays. A number of our licensees and development partners have demonstrated larger, full-color displays using P-OLED technology and have announced intentions to commercialize these and other products.

We were founded in 1992 as a company organized under the laws of England and Wales by two of the inventors of our fundamental P-OLED technology, with the support of the University of Cambridge. Our principal executive offices are located at the offices of our principal U.K. subsidiary, Cambridge Display Technology Limited, Building 2020, Cambourne Business Park, Cambridge, CB3 6DW, United Kingdom. Our phone number is 011 44 1954 713 600. Our website is located at www.cdtltd.co.uk. The information on our website is not incorporated in and is not intended to be part of this prospectus.

Table of Contents**SELLING STOCKHOLDERS**

We are registering for resale shares of our common stock held by the selling stockholders identified below. The table below presents information regarding the beneficial ownership of the outstanding shares of our common stock by the selling stockholders and the shares that they may sell or otherwise dispose of from time to time under this prospectus. Information concerning any of the selling stockholders may change from time to time, and any changed information will be presented in a prospectus supplement if and when necessary and required.

The shares of our common stock covered by this prospectus may also be sold by donees, pledgees and other transferees or successors-in-interest of the selling stockholders. Except as noted in the footnotes below, none of the selling stockholders has held any position or office with us or any of our predecessors or affiliates within the last three years or has had a material relationship with us or any of our predecessors or affiliates within the past three years other than as a result of the ownership of our shares or other securities.

The number of shares in the column **Number of Shares of Common Stock Being Offered** represents all of the shares that a selling stockholder may offer under this prospectus. In addition, the table assumes that the selling stockholders sell all of such shares. However, because the selling stockholders may offer from time to time all or some of their shares under this prospectus, or in another permitted manner, we cannot assure you as to the actual number of shares that will be sold or otherwise disposed of by the selling stockholders or that will be held by the selling stockholders after completion of such sales.

We have determined beneficial ownership in accordance with the rules of the SEC. Percentages are based on 21,483,205 shares of our common stock outstanding as of July 21, 2006. Unless otherwise indicated in the footnotes to this table, to our knowledge, all persons named in the table have sole voting and investment power with respect to their shares of common stock, except to the extent authority is shared by spouses under applicable law. The inclusion of any shares in this table does not constitute an admission of beneficial ownership for the person named below.

DESCRIPTION OF CAPITAL STOCK

As of July 21, 2006, our authorized capital stock consisted of 100 million shares of common stock, par value \$0.01 per share, and 46,667 shares of preferred stock, par value \$0.01 per share. The following descriptions of our capital stock and provisions of our certificate of incorporation and by-laws are summaries of their material terms and provisions and are qualified by reference to our certificate of incorporation and by-laws, copies of which are filed with the SEC as exhibits to our registration statement of which this prospectus is a part.

Common Stock

As of July 21, 2006, there were 21,483,205 shares of our common stock issued and outstanding.

Each share of common stock has identical rights and privileges. The holders of our common stock are entitled to vote upon all matters submitted to a vote of our stockholders and are entitled to one vote for each share of common stock held.

Subject to the prior rights and preferences, if any, applicable to shares of preferred stock or any series of preferred stock, the holders of common stock are entitled to receive such dividends, payable in cash, stock or otherwise, as may be declared by our board of directors out of any funds legally available for the payment of dividends.

If we voluntarily or involuntarily liquidate, dissolve or wind-up, the holders of common stock will be entitled to receive, after distribution in full of preferential amounts, if any, to be distributed to the holders of preferred stock, all of the remaining assets available for distribution ratably in proportion to the number of shares of common stock held by them. Holders of common stock have no preferences or any preemptive conversion or exchange rights.

Preferred Stock

As of July 21, 2006, there were 46,667 shares of preferred stock authorized, none of which is issued or outstanding.

Our board of directors is authorized to provide for the issuance of shares of preferred stock in one or more series, and to fix for each series voting rights, if any, designations, preferences and relative, participating, optional or other special rights and such qualifications, limitations or restrictions as provided in a resolution or resolutions adopted by our board. Our board may authorize the issuance of shares of preferred stock with terms and conditions which could discourage a takeover or other transaction that holders of some or a majority of shares of common stock might believe to be in their best interests or in which holders of common stock might receive a premium for their shares over the then market price.

Registration Rights

Prior to any offering under this prospectus, the holders of 11,657,783 shares of our common stock had the right to cause us to register these shares under the Securities Act of 1933, as follows:

Demand Registration Rights

Kelso and Hillman Capital Corporation, or Hillman Capital, each may make up to five separate requests that we register all or part of their registrable shares under the Securities Act of 1933 (which may include a shelf registration to the extent that we are eligible to effect such a registration pursuant to Rule 415 under that Act), provided that we shall not be required to effect a registration pursuant to the demand registration rights of either Kelso or Hillman Capital during the 180-day period following the effective date of the most recent registration previously effected pursuant to the demand registration rights of Kelso or Hillman Capital. The registration of shares of our common stock to be sold by Kelso under our registration statement of which this prospectus is a part does not constitute a separate request by Kelso.

Table of Contents

Piggyback Registration Rights

If at any time:

we file a registration statement to register any of our securities under the Securities Act of 1933 for our own account (other than registrations of employee benefit plans or business combinations subject to Rule 145 under that Act); and

either Kelso or Hillman Capital has requested that we include registrable securities owned by any Kelso investor or Hillman Capital investor, as the case may be, in such registration or the Kelso investors and the Hillman Capital investors no longer own any registrable securities;

then the holders of 11,657,783 shares of our common stock, including all shares owned by the Kelso investors and the Hillman Capital investors, can request to have their shares registered, including as a result of filing our registration statement of which this prospectus is a part.

Registration of any of the shares of our common stock held by security holders with registration rights would result in such shares becoming freely tradable without restriction under the Securities Act of 1933 immediately upon effectiveness of such registration. We will pay all registration expenses, other than underwriting discounts and commissions and transfer taxes, if any, to the extent not otherwise required to be paid by the seller under applicable law.

Anti-Takeover Effects of Provisions of Delaware Law and Our Certificate of Incorporation and By-laws

Delaware Anti-Takeover Statute

The provisions of Section 203 of the Delaware General Corporation Law, an anti-takeover law, generally prohibits, subject to exceptions, a publicly-held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless:

prior to such date, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding, those shares owned (i) by persons who are directors and also officers and (ii) by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or after such date, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66²/3% of the outstanding voting stock which is not owned by the interested stockholder.

For purposes of Section 203, a business combination includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder, with an interested stockholder being defined as a person who, together with affiliates and associates, owns, or within three years prior to the date of determination whether the person is an interested stockholder, did own, 15% or more of the corporation's voting stock, subject to specified exceptions.

As a Delaware corporation, we have elected to be subject to Section 203 of the Delaware General Corporation Law. Accordingly, Section 203 restricts any person who acquires 15% or more of our outstanding voting stock from engaging in business combinations with us within the three year period.

Table of Contents

Certificate of Incorporation and By-laws

Some provisions of our certificate of incorporation and by-laws may have an anti-takeover effect. These provisions may delay, defer or prevent a tender offer or takeover attempt of our company that a stockholder might consider in his or her best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders. The following summarizes these provisions:

Authorized But Unissued Shares. Our authorized but unissued shares of common stock and preferred stock are available for our board of directors to issue without stockholder approval. We may use these additional shares for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of our authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of our company by means of a proxy context, tender offer, merger or other transaction.

Right to Call Special Meetings. Our by-laws provide that special meetings of our stockholders may be called at any time by our board of directors or by the chairman of our board. A special meeting may only be called by our stockholders upon a written request to our chairman by stockholders holding in the aggregate not less than a majority of the voting power of all issued and outstanding shares of our common stock entitled to vote at any meeting of our stockholders. If we fail to call such meeting within three days after receipt of such request, any stockholder executing such request may call such meeting.

Amendment of By-laws. Our by-laws are subject to amendment, alteration or repeal, either by resolution adopted by a majority of our board of directors or by the affirmative vote of a majority of the voting power of all issued and outstanding shares of our common stock.

Indemnification. Our by-laws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law. We currently maintain and intend to continue to maintain directors and officers liability insurance. In addition, our certificate of incorporation limits the personal liability of our board members for breaches by the directors of their fiduciary duties to the fullest extent permitted under Delaware law.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is The Bank of New York.

Nasdaq Global Market Listing

Shares of our common stock are quoted on the Nasdaq Global Market under the symbol **OLED**.

If we or the selling stockholders use underwriters for a sale of shares of our common stock, the underwriters will acquire the shares for their own account. Edgar Filing: Cambridge Display Technology, Inc. - Form 424B3

use underwriters with whom we or the selling stockholders have a material relationship. We will describe in the prospectus supplement naming the underwriter the nature of any such relationship.

We or the selling stockholders may designate agents who agree to use their reasonable efforts to solicit purchases for the period of their appointment or to sell shares of our common stock on a continuing basis.

We or the selling stockholders may also sell shares of our common stock directly to one or more purchasers without using underwriters or agents. Underwriters, dealers and agents that participate in the distribution of the shares of our common stock may be underwriters as defined in the Securities Act of 1933 and any discounts or commissions they receive from us or the selling stockholders and any profit on their resale of the shares may be treated as underwriting discounts and commissions under that Act. We will identify in the applicable prospectus supplement any underwriters, dealers or agents and will describe their compensation. We or the selling stockholders may have agreements with the underwriters, dealers and agents to indemnify them against specified civil liabilities, including liabilities under the Securities Act of 1933. Underwriters, dealers and agents may engage in transactions with or perform services for us or selling stockholders in the ordinary course of their businesses.

To the extent required under the Securities Act of 1933, we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of that Act.

We will bear all costs, expenses and fees in connection with the registration of the shares of our common stock, as well as the expenses of all commissions and discounts, if any, attributable to the sales of shares by us. The selling stockholders will bear all commissions and discounts attributable to the sales of shares by them.

In connection with an offering, an underwriter may purchase and sell shares of our common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares, if any, from us or the selling stockholders in the offering. If the underwriters have an over-allotment option to purchase additional shares from us or the selling stockholders, the underwriters may close out any covered short position by either exercising their over-allotment option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters may consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Naked short sales are any sales in excess of such option or where the underwriters do not have an over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Accordingly, to cover these short sales positions or to otherwise stabilize or maintain the price of the shares of our common stock, the underwriters may bid for or purchase shares in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to syndicate members or other broker-dealers participating in the offering are reclaimed if shares previously distributed in the offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the shares at a level above that which might otherwise prevail in the open market. The impositions of a penalty bid may also affect the price of the shares to the extent that it discourages resale of the shares. The magnitude or effect of any stabilization or other transactions is uncertain. These transactions may be effected on the Nasdaq Global Market or otherwise and, if commenced, may be discontinued at any time.
