Item 1.01 Entry into a Material Definitive Agreement.

On September 27, 2006 Alphatec Holdings, Inc. (the Company) entered into two Stock Purchase Agreements, one with Olivier Carli (the Carli Agreement) and one with HealthpointCapital Partners, L.P. (the Luxco Agreement). Following the closing of the transactions contemplated by both the Carli Agreement and the Luxco Agreement, the Company shall have acquired 74.1% of the outstanding capital stock of Scient x, S.A., a French medical device manufacturer (Scient x).

Pursuant to the Carli Agreement, the Company will purchase an aggregate of 2.15 million shares of Ideal Medical Products, a French company (Ideal Medical), which represents 61.3% of the outstanding capital stock of Ideal Medical, from Olivier Carli and Christian Carli for aggregate consideration of approximately \$70.2 million, which represents a purchase price per share of approximately \$32.69, with 15% of the consideration paid in cash and 85% of the consideration paid in the Company's common stock (the Common Stock). Ideal Medical owns 66.9% of the outstanding capital stock of Scient x. The number of shares of Common Stock that will be issued in connection with this transaction will be based on the weighted-average trading price of the Common Stock during the time period from September 27, 2006 through the date that is twenty days prior to the Company's shareholders meeting to vote on the transaction, subject to a maximum price of \$9.50 and a minimum price of \$5.00. Mr. Carli will also receive certain registration rights related to the resale of the Common Stock he receives.

Pursuant to the Luxco Agreement, the Company will purchase 3.95 million shares of Scient x (which represents 33.1% of the outstanding capital stock of Scient x) owned by HealthPoint (Luxembourg) I by purchasing 100% of the share capital of HealthPoint (Luxembourg) I from HealthpointCapital Partners, L.P. for aggregate consideration of approximately \$56.5 million in Common Stock. The number of shares of Common Stock that will be issued in connection with this transaction will be based on the weighted-average trading price of the Common Stock during the time period from September 27, 2006 through the date that is twenty days prior to the Company's shareholders meeting to vote on the transaction, subject to a maximum price of \$9.50 and a minimum price of \$5.00.

Following the completion of these transactions, Alphatec will directly and indirectly own 61.3% of Ideal Medical and 74.1% of Scient x. The closing of the transactions are subject to certain closing conditions, including approval by the Company's shareholders, the Company obtaining the financing required to fund the transaction and the approval of all applicable anti-trust agencies.

After the closing of the transactions above, the Company will initiate a tender offer to purchase all shares of Ideal Medical that are not held already by the Company. The terms of the tender offer will be substantially equivalent to the terms upon which the Ideal Medical shares were purchased from Olivier Carli and Christian Carli, however, the tender offer will contain an option for these shareholders to receive consideration entirely in cash.

The foregoing descriptions of the Carli Agreement and the Luxco Agreement do not purport to be complete and are qualified in their entirety by reference to such agreements. A copy of the Carli Agreement and the Luxco Agreement are filed as Exhibit 10.1 and 10.2 hereto, respectively, and each is incorporated by reference herein.
