SECURITIES REGISTERED PURSUANT TO SECTION 12(b) OF THE ACT:

TITLE OF EACH CLASS	NAME OF EACH EXCHANGE ON WHICH REGISTERED
Common Stock, \$0.10 par value	New York Stock Exchange, Inc.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for at least the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark if the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act. Yes No

The aggregate market value of the voting Common Stock held by non-affiliates of the Registrant as of June 30, 2006 was \$961,686,738. For purposes of this computation only, the Registrant's directors and executive officers were considered to be affiliates of the Registrant. Such characterization shall not be construed to be an admission or determination for any other purpose that such persons are affiliates of the Registrant.

There were 46,766,828 shares of Common Stock outstanding as of February 15, 2007.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements that reflect management's current assumptions and estimates of future economic circumstances, industry conditions, Company performance and financial results. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for such forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors that could cause actual events to differ materially from those expressed in those statements. A variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results. These factors and assumptions include the pace and nature of new product introductions by the Company and the Company's customers; the Company's ability to successfully implement its growth strategies; the outcome of the Company's various productivity-improvement and cost-reduction efforts; changes in costs of raw materials, including energy; industry and economic factors related to the Company's domestic and international business;

Edgar Filing: SENSIENT TECHNOLOGIES CORP - Form 10-K

growth in markets for products in which the Company competes; industry and customer acceptance of price increases; actions by competitors; currency exchange rate fluctuations; and the matters discussed below under the heading "Risk Factors" and under Part II, including the critical accounting policies described therein. The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

Table of Contents

PART I

**Item 1. Business
General**

Sensient Technologies Corporation (the Company) was incorporated in 1882 in Wisconsin. Its principal executive offices are located at 777 East Wisconsin Avenue, Suite 1100, Milwaukee, Wisconsin 53202-5304, telephone (414) 271-6755.

The Company is subject to the informational and reporting requirements of the Securities Exchange Act of 1934, as amended (the Act), and, in accordance with the Act, has filed annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (the Commission). These reports and other information may be read and copied at the public reference facilities of the Commission at its principal offices at 100 F Street, N.E., Washington, D.C. 20549, and can also be accessed from the website maintained by the Commission at <http://www.sec.gov>. The public may obtain information on operations of the public reference room by calling the Commission at (800) SEC-0330.

The Company's common stock is listed on the New York Stock Exchange under the ticker symbol SXT. Information about the Company may be obtained at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The Company can also be reached at its website at www.sensient-tech.com. The Company's web address is provided as an inactive textual reference only, and the contents of this website are not incorporated in or otherwise to be regarded as part of this annual report. The Company makes available free of charge on its website its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to these reports filed or furnished pursuant to Section 13(a) or 15(d) of the Act as soon as reasonably practicable after such documents are electronically filed with or furnished to the Commission. Charters for the Audit, Compensation and Development, and Nominating and Corporate Governance Committees of the Company's Board of Directors, as well as the Company's Code of Conduct, Standards of Conduct for International Employees, Code of Ethics for Senior Financial Officers, and Corporate Governance Guidelines are also available on the Company's website, and are available in print to any shareholder, free of charge, upon request. If there are any amendments to the Code of Conduct, the Standards of Conduct, the Code of Ethics or the Corporate Governance Guidelines, or if waivers from any of them are granted for executive officers or directors, those amendments or waivers also will be posted on the Company's website.

Description of Business

Sensient Technologies Corporation is a global manufacturer and marketer of colors, flavors and fragrances. Sensient uses advanced technologies at facilities around the world to develop specialty food and beverage systems, cosmetic and pharmaceutical systems, inkjet and specialty inks and colors, and other specialty chemicals. The Company's customers include major international manufacturers representing some of the world's best-known brands.

The Company's principal products include:

flavors, flavor enhancers and bionutrients;

fragrances and aroma chemicals;

dehydrated vegetables and other food ingredients;

natural and synthetic food colors;

cosmetic and pharmaceutical additives;

technical colors, inkjet colors and aftermarket inks, and specialty dyes and pigments; and

chemicals for laser printing and flat screen displays.

Table of Contents

On October 12, 2006 the Company announced an increase in its cash dividend on its common stock from an annual rate of 60 cents per share to 64 cents per share, commencing with the quarterly dividend paid on December 1, 2006 to shareholders of record on November 8, 2006.

The Company's operations, except for the Asia Pacific Group, are managed on a products-and-services basis. The Company's two reportable segments are the Flavors & Fragrances Group and the Color Group. The Company realigned its segments in 2005. As a result, Japan and China, previously included in the Asia Pacific Group, are now reported as part of the Flavors & Fragrances Group. Financial information regarding the Company's two reportable segments is incorporated by reference to the information set forth on pages 39 through 41 of the Company's 2006 Annual Report to Shareholders under the heading Segment and Geographic Information.

Flavors & Fragrances Group

The Company is a global developer, manufacturer and supplier of flavor and fragrance systems for the food, beverage, pharmaceutical, personal care and household-products industries. The Company's flavor formulations are used in many of the world's best-known consumer products. Under the unified brand names of Sensient Flavors, Sensient Dehydrated Flavors and Sensient Fragrances, the Group is a supplier to multinational companies.

The Flavors & Fragrances Group produces flavor and fragrance products that impart a desired taste, texture, aroma and/or other characteristics to a broad range of consumer and other products. This Group includes the Company's dehydrated flavors business, which produces ingredients for food processors. The main products of the Group are systems products, including flavor-delivery systems, and compounded and blended products. In addition, the Group has strong positions in selected ingredient products such as essential oils, natural and synthetic flavors, and aroma chemicals. The Group serves food and non-food industries. In food industries, markets include savory, beverage, dairy, confectionery and bakery flavors. In non-food industries, the Group supplies fragrance products to the personal and home care-markets and supplies flavor products to the pharmaceuticals market.

During 2000, the Company integrated its former Dehydrated Products Division into the Flavors & Fragrances Group. Operating through its Sensient Dehydrated Flavors business, the Company believes it is the second largest producer (by sales) of dehydrated onion and garlic products in the United States. The Company is also one of the largest producers and distributors of chili powder, paprika, chili pepper and dehydrated vegetables such as parsley, celery and spinach. Domestically, the Company sells dehydrated products to food manufacturers for use as ingredients and also for repackaging under private labels for sale to the retail market and to the food service industry. In addition, Sensient Dehydrated Flavors is one of the leading dehydrators of specialty vegetables in Europe. Advanced dehydration technologies utilized by Sensient Dehydrated Flavors permit fast and effective rehydration of ingredients used in many of today's popular convenience foods.

The Flavors & Fragrances Group operates principally through the Company's subsidiaries Sensient Flavors Inc. and Sensient Dehydrated Flavors Company. The Group's principal manufacturing plants are located in California, Illinois, Indiana, Michigan, Wisconsin, Belgium, Canada, China, France, Germany, Italy, Japan, Mexico, the Netherlands, Spain and the United Kingdom.

Color Group

The Company is a developer, manufacturer and supplier of colors for businesses worldwide. The Company provides natural and synthetic color systems for use in foods, beverages and pharmaceuticals; colors and other ingredients for cosmetics and pharmaceuticals; and technical colors for industrial applications and digital imaging.

The Company believes that it is one of the world's largest producers (by sales) of synthetic and natural colors, and that it is the world's largest manufacturer (by sales) of certified food colors. The Company sells its

Table of Contents

synthetic and natural colors to domestic and international producers of beverages, bakery products, processed foods, confections, pet foods, cosmetics and pharmaceuticals. The Company also makes inkjet inks and other dyes and pigments used in a variety of non-food applications.

The Color Group operates principally through the Company's subsidiary Sensient Colors Inc., which has its principal manufacturing plants in Missouri, California, New Jersey, Canada, Mexico, France, Germany, Hungary, Italy, Switzerland and the United Kingdom.

The Color Group operates under the following trade names:

Sensient Food Colors (food and beverage colors);

Sensient Pharmaceutical Technologies (pharmaceutical colors and coatings);

Sensient Paper Colors (paper dyes and colorants);

Sensient Cosmetic Technologies (cosmetic colors and ingredients and systems); and

Sensient Technical Colors (including paper colors; industrial colors for plastics, leather, wood stains, antifreeze and other uses; inkjet colors and aftermarket inks; specialty inks; and display imaging).

The Company believes that its advanced process technology, state-of-the-art laboratory facilities and equipment, and a complete range of synthetic and natural color products constitute the basis for its market leadership position.

Asia Pacific Group

The Asia Pacific Group focuses on marketing the Company's diverse product line in the Pacific Rim under one name. Through its Asia Pacific Group, the Company offers a full range of products from its Flavors & Fragrances Group and Color Group, as well as products developed by regional technical teams to appeal to local preferences. Sales, marketing and technical functions are managed through the Asia Pacific Group's headquarters in Australia. Manufacturing operations are located in Australia, New Zealand and the Philippines.

The Company maintains an office for research and development, as well as sales, in Jakarta, Indonesia. Additional sales offices are located in Australia, India, Singapore and Thailand.

As indicated above, operations in China and Japan are now included in the Company's Flavors and Fragrances Group.

Research and Development/Quality Assurance

The development of specialized products and services is a complex technical process calling upon the combined knowledge and talents of the Company's research, development and quality assurance personnel. The Company believes that its competitive advantage lies in its ability to work with its customers to develop and deliver high-performance products that address the distinct needs of those customers.

The Company's research, development and quality assurance personnel support the Company's efforts to improve existing products and develop new products tailored to customer needs, while providing on-going technical support and know-how to the Company's manufacturing activities. As of December 31, 2006, the Company employed approximately 446 people in research, development and quality assurance.

Expenditures for research and development related to continuing operations in calendar year 2006 were \$24.8 million, compared with \$26.4 million in the year ended December 31, 2005 and \$24.3 million in the year ended December 31, 2004. As part of its commitment to quality as a competitive advantage, the Company has achieved certification under the requirements established by the International Organization for Standardization in Geneva, Switzerland, through its ISO 9000 series of quality standards. Certified sites include Flavors & Fragrances Group plants in the United States, Spain, Italy, Mexico, Belgium, Germany, the United Kingdom, Canada, the Netherlands and France, and Color

Group plants in the United States, Mexico and the United Kingdom.

Table of Contents

Products and Application Activities

The Company's strategic focus is on the manufacture and marketing of high-performance components that bring life to products. Accordingly, the Company devotes considerable attention and resources to the development of product applications and processing improvements to support its customers' numerous new and reformulated products. Many of the proprietary processes and formulae developed by the Company are maintained as trade secrets and under confidentiality agreements with customers.

Within the Flavors & Fragrances Group, development activity is focused on ingredients, flavors and flavor systems that are responsive to consumer trends and the processing needs of our food and beverage customers. These activities include the development of functional ingredient systems for foods and beverages, savory flavors, and ingredient systems for prepared foods and flavors and ingredients for dairy, confectionery and other applications. The Company believes that the development of yeast derivatives and other specialty ingredients also provides growth opportunities in bionutrients and biotechnology markets, such as pharmaceuticals, vitamins, vaccines and bioremediation.

Within the Color Group, development activity for food and beverage product lines is focused on value-added products derived from synthetic dyes and pigments and natural food and beverage colors and on color systems. The Company also produces a diverse line of colors and ingredients for cosmetics and pharmaceutical applications and technical colors for industrial applications, specialty chemicals for digital imaging, and photographic chemicals.

Raw Materials

The Company uses a wide range of raw materials in producing its products. Chemicals used to produce certified colors are obtained from several domestic and foreign suppliers. Raw materials for natural colors, such as carmine, beta-carotene, annatto and turmeric, are purchased from overseas and U.S. sources. In the production of flavors and fragrances, the principal raw materials include essential oils, aroma chemicals, botanicals, fruits and juices, and are primarily obtained from local vendors. Flavor enhancers and secondary flavors are produced from yeast and vegetable materials such as corn and soybeans. Chili peppers, onion, garlic and other vegetables are acquired under annual contracts with numerous growers in the western United States and Europe. The Company has expanded its sources of vegetables to include growers in China and expects to add growers in other Asian countries.

The Company believes that alternate sources of materials are available to enable it to maintain its competitive position in the event of an interruption in the supply of raw materials from a single supplier.

Competition

All Company products are sold in highly competitive markets. While no single factor is determinative, the Company's competitive position is based principally on process and applications expertise, quality, technological advances resulting from its research and development, and customer service and support. Because of its highly differentiated products, the Company competes with only a few companies across multiple product lines, and is more likely to encounter competition specific to an individual product.

Flavors and Fragrances. Competition to supply the flavors and fragrances industries has taken on an increasingly global nature. Most of the Company's customers do not buy their entire flavor and/or fragrance products from a single supplier and the Company does not compete with a single supplier in all product categories. Competition for the supply of flavors and fragrances is based on the development of customized ingredients for new and reformulated customer products, as well as on quality, customer service and price. Competition to supply dehydrated vegetable products is present through several large and small domestic competitors, as well as competitors in other countries. Competition for the supply of dehydrated vegetables is based principally on product quality, customer service and price.

Table of Contents

Color. Competition in the color market is diverse, with the majority of the Company's competitors specializing in either synthetic dyes or natural colors. The Company believes that it gains a competitive advantage as the only major basic manufacturer of a full range of color products, including synthetic dyes and pigments as well as natural colors. Competition in the supply of inkjet inks is based principally upon price, quality and service, as well as product development and technical capabilities. The Company competes against a number of large and small suppliers of inkjet inks.

Asia Pacific. Because of the broad array of products available to customers of the Asia Pacific Group, the Company believes that it is able to offer a wider product base than many of its competitors. Competition is based upon reliability in product quality, service and price as well as technical support available to customers.

Foreign Operations

The information appearing under the heading "Geographic Information" in Note 8 to the Consolidated Financial Statements of the Company, which appears on page 41 of the 2006 Annual Report to Shareholders, is incorporated herein by reference.

Patents, Formulae and Trademarks

The Company owns or controls many patents, formulae and trademarks related to its businesses. The businesses are not materially dependent upon patent or trademark protection; however, trademarks, patents and formulae are important to the business of the Company.

Employees

As of December 31, 2006, the Company employed 3,582 persons worldwide.

Regulation

Compliance with government provisions regulating discharges into the environment, or otherwise relating to the protection of the environment, did not have a material adverse effect on the Company's operations for the year covered by this report. Current compliance is not expected to have a material adverse effect in the next two years. Certain legal proceedings discussed in Item 3 of this Report pertain to environmental compliance. The production, packaging, labeling and distribution of certain of the products of the Company are subject to the regulations of various federal, state and local governmental agencies, in particular the U.S. Food & Drug Administration.

Item 1A. Risk Factors.

As with any business, the Company's business and operations involve risks and uncertainties. In addition to the other discussions in, and incorporated by reference in, this Report, particularly those in "Management's Discussion & Analysis of Operations & Financial Condition" incorporated by reference from pages 17 through 24 of the 2006 Annual Report to Shareholders and "Forward Looking Statements" on page 2 of this Report, the following factors should be considered:

In some product lines, most of our sales are made to a relatively small number of customers; if we lose any of those customers, sales and operating results could decline.

In some of our product lines, our sales are concentrated to a small number of customers. While we do not currently have any single customer that we consider to be significant to us as a whole, the loss of a significant customer of a product line could substantially affect the sales and profitability of that line, which may cause us to need to re-evaluate that line. Those developments could affect our results.

Table of Contents

Many of our products are used in items for human consumption and contact. We may be subject to product liability claims and product recalls, which could negatively impact our profitability and corporate image.

We sell flavors and colors which are used in foods, drugs, cosmetics, and other items for human consumption or contact. These products involve risks such as product contamination or spoilage, product tampering and other adulteration. We may be subject to liability if the consumption or use of our flavors and colors, or products which incorporate ingredients we manufacture, cause injury, illness or death. In addition, we or our customers may need to recall products in the event of contamination or damage.

A significant product defect, product liability judgment or product recall may negatively impact our profitability for a period of time depending on publicity, product availability, scope, competitive reaction and consumer attitudes. Even if a product liability claim is unsuccessful or is not fully pursued, the negative publicity surrounding any assertion that our products caused illness, injury or death could adversely affect our reputation with existing and potential customers and our corporate image.

Consolidation has resulted in customers with increased buying power, which can affect our profitability.

Many of our customers have consolidated in recent years and we expect the combination trend to continue. These consolidations have often produced large, sophisticated customers with increased buying power who are more capable of resisting price increases. If the larger size or greater buying power of those customers results in additional negotiating strength, the prices we are able to charge could be negatively affected and our profitability could decline.

Intense competition may result in reduced sales and profitability.

The industries and markets in which we operate are highly competitive. That competition can reduce both our sales and the prices at which we are able to sell our products, which can in turn negatively affect our profitability.

Our sales and profitability are affected by changing consumer preferences.

Although we do not generally make or sell proprietary consumer products, many of our products are sold to companies which develop and market consumer products. Sales of these flavors, fragrances, colors and inks depend in part upon our customers' ability to identify and meet consumer preferences and their sales and marketing efforts, all of which are beyond our control. Therefore, we depend upon our customers' ability to create markets for the consumer products which incorporate many of the flavors, fragrances, colors and inks which we manufacture.

If we do not maintain an appropriate cost structure, our profitability could decrease.

Our success depends in part on our ability to maintain an efficient cost structure. We regularly initiate cost-reduction measures that could impact our manufacturing, sales, operations and information systems functions. If we do not continue to manage costs and achieve additional efficiencies, or we do not successfully implement related strategies, our competitiveness and our profits could decrease.

Commodity and energy price increases or material shortages may reduce our profits.

We use many different commodities as raw ingredients. We also use petroleum-based raw materials and other raw materials whose production is energy intensive. In addition, various energy sources are used in our production and distribution processes. Commodity and energy prices are subject to significant volatility caused by market fluctuations, supply and demand, currency fluctuation, production and transportation disruption, world events, and changes in governmental programs.

Table of Contents

Commodity and energy price increases will raise both our raw material costs and operating costs. We may not be able to increase our product prices enough to offset these increased costs. Increasing our prices also may reduce sales volume and profitability.

In addition, we obtain some of the raw materials that we use from a single supplier or a limited number of suppliers, and problems with those suppliers could affect the availability of those materials. Even if there are multiple suppliers of a particular raw material, there are occasional shortages. An unavailability or shortage of a raw material could negatively affect our operations using that raw material and thus our results.

There are many laws and regulations applicable to our industries. Compliance with those requirements is costly to us and can affect our operations. Failure to comply could also be costly and disruptive.

Our facilities and products are subject to many laws and regulations relating to the processing, packaging, storage, distribution, quality and safety of food, drugs and other consumer products. These laws and regulations are administered in the United States by the Department of Agriculture, the Food and Drug Administration, and other federal and state governmental agencies. We are subject to similar governmental regulation and oversight abroad. Compliance with these laws and regulations can be costly and affect our operations. Also, if we fail to comply with applicable laws and regulations, we could be subject to administrative penalties and injunctive relief, civil remedies, fines and recalls of our products.

Environmental compliance may be costly to us.

Our operations are subject to extensive and increasingly stringent laws and regulations which pertain to the discharge of materials into the environment and the handling and disposition of wastes. These rules operate at both the federal and state levels in the United States, and there are analogous laws at many of our overseas locations. We are currently involved in disputes relating to compliance with environmental laws. Environmental regulations, and the potential failure to comply with them, can have serious consequences, including the costs of compliance and defense, interference with our operations, civil and administrative penalties and negative publicity.

Operating in foreign countries exposes us to increased risks, including foreign currency risks.

We operate and sell our products in many foreign countries. The international aspects of our business subject us to risks that could materially impact our operating results, including: foreign exchange rate fluctuations; difficulties in staffing and managing foreign personnel in diverse cultures; transportation delays or interruptions; and the effects of international political developments, and political and economic instability. In addition, changes in policies by the United States or foreign governments could negatively affect our operating results due to changes in duties, tariffs, trade regulations, taxes or limitations on currency or fund transfers.

We depend on certain key personnel, and the loss or retirement of these persons may harm our business.

Our success depends in large part on the continued service and availability of our key management and technical personnel, and on our ability to attract and retain qualified new personnel. The competition for these individuals can be significant, and the loss of key employees could harm our business. In addition, as some of these persons approach retirement age, we need to provide for smooth transitions, and our operations and results may be negatively affected if we are not able to do so.

We may not successfully complete and integrate future acquisitions, which could adversely affect our operating results.

We have acquired many companies and operations in the past and may resume growth by acquisition in the future. Our future growth through acquisitions could involve significant risks that may have a material adverse effect on us. We may also be at risk for factors associated with acquisitions that the Company has made in the

Table of Contents

past. These risks include: inability to integrate successfully our acquired operations' businesses and personnel; the inability to realize anticipated synergies, economies of scale or other value; difficulties coordinating management of operations at new sites; the strain placed on our personnel, systems and resources; possible loss of an acquired business' customer base; and the loss of key employees of acquired businesses. Acquired companies may also have significant latent liabilities which may not be discovered before an acquisition or fully reflected in the price we pay.

We may also need to finance future acquisitions, and the terms of any financing, and the need to ultimately repay or refinance any indebtedness, may have negative effects on us. Acquisitions also could have a dilutive effect on our financial results. Acquisitions also generally result in goodwill, which would need to be written off against earnings in the future if it becomes impaired.

World events and natural disasters are beyond our control and could affect our results.

World events, such as the attacks of September 11, 2001 and their aftermath, the Iraq conflict and the situations in North Korea and Iran, can adversely affect national, international and local economies. Economies can also be affected by other events such as natural disasters, such as the recent typhoons in the Philippines, the Southeast Asian tsunami and Hurricane Katrina, or epidemics such as the avian flu. These events and conditions, which are beyond our control, could adversely affect our revenues and profitability if they affect the economy, and could particularly affect us if they occur in locations in which we or our customers have significant operations.

Item 1B. Unresolved Staff Comments.

None

Item 2. Properties

The following table sets forth information as to the principal properties of the Company and its subsidiaries. All properties are owned except as otherwise indicated below. All facilities are considered to be in good condition (ordinary wear and tear excepted) and suitable and adequate for the Company's requirements.

Item 3. Legal Proceedings

Clean Air Act Notices of Violation

On June 24, 2004, the United States Environmental Protection Agency (the "EPA") issued a Notice of Violation/Finding of Violation ("NOV") to Lesaffre Yeast Corporation ("Lesaffre") for alleged violations of the Wisconsin air emission requirements. The NOV generally alleges that Lesaffre's Milwaukee, Wisconsin, facility violated air emissions limits for volatile organic compounds during certain periods from 1999 through 2003. Some of these violations allegedly occurred before Lesaffre purchased Red Star Yeast & Products ("Red Star Yeast") from the Company.

On June 30, 2005, the EPA issued a second NOV to Lesaffre and Sensient which alleges that certain operational changes were made during Sensient's ownership of the Milwaukee facility without complying with new-source review procedures and without the required air pollution control permit. The Company has raised significant legal defenses in response to the June 2005 NOV. The Company has met with the EPA in an attempt to resolve the NOV's. In September 2005, as follow-up to one of those meetings, the Company submitted information to refute the allegations of the June 30, 2005 NOV and requested that the NOV be withdrawn.

On December 18, 2006, the EPA initiated an administrative proceeding to assess a penalty for the alleged violations covered by the two NOV's. The EPA named Lesaffre as a respondent in that proceeding. The EPA did not name Sensient as a respondent in that proceeding. The EPA has proposed a penalty covering both NOV's of \$488,000.

In connection with the sale of Red Star Yeast, the Company provided Lesaffre and certain of its affiliates with indemnification against environmental claims attributable to the operation, activities or ownership of Red Star Yeast prior to February 23, 2001, the closing date of the sale. See Note 10 to the Company's consolidated financial statements. In December 2005, Lesaffre closed the Milwaukee plant. The Company informed the EPA of this development. On December 20, 2006, Lesaffre formally requested indemnification from Sensient for the portion of the civil penalty arising from the June 30, 2005 NOV. It is not clear what portion of the proposed penalty will be subject to the indemnification agreement. However, the amount subject to indemnification will likely be less than \$488,000.

Superfund Claim

On July 6, 2004, the EPA notified the Company's Sensient Colors Inc. subsidiary that it may be a potentially responsible party ("PRP") under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") for activities at the General Color Company Superfund Site in Camden, New Jersey. The EPA requested reimbursement of \$10.9 million in clean-up costs, plus interest. Sensient Colors Inc. advised the EPA that this site had been expressly excluded from the Company's 1988 stock purchase of H. Kohnstamm & Company, Inc. (now Sensient Colors Inc.). The selling shareholders had retained ownership of and liability for the site, and some became owners of General Color Company, which continued to operate there until the mid-1990s. The Company's legal defense costs are being paid, in part, by an insurer with a reservation of coverage rights. Litigation to resolve coverage rights is pending. The Company continues to assess the existence and solvency of other PRPs, additional insurance coverage, the nature of the alleged contamination, and the extent to which the EPA's activities satisfy the requirements for reimbursement under CERCLA, as well as issues surrounding the manner in which the 1988 transaction was structured. In a letter to the EPA dated January 31, 2005, the Company outlined legal challenges to the recoverability of certain costs and urged the EPA to pursue General Color Company and related parties. The EPA subsequently informed the Company that it is unwilling to discuss these legal challenges without prior conditions. In 2006, the EPA issued a news release stating that a private developer, Westfield Acres Urban Renewal Association II, LP, pursuant to an agreement with EPA, began redevelopment efforts at the Site (construction of affordable housing) by demolishing buildings thereon. Thereafter, the EPA removed alleged contaminated soil from the locations where the buildings once stood. Documents received pursuant to a Freedom of Information Act request indicate that the EPA incurred additional alleged response costs of approximately \$4 million. The Department of Justice must evaluate any referral by the EPA for potential civil litigation under applicable environmental laws.

Table of Contents

Pleasant Gardens Realty Corp. v. H. Kohnstamm & Co., et al.

The owner of Pleasant Gardens, an apartment complex adjacent to the General Color Superfund Site (the subject property), filed a complaint in New Jersey state court in November 2003 against H. Kohnstamm & Co. (now Sensient Colors Inc.), the Company, General Color Company, and unknown defendants. Plaintiff seeks to hold defendants liable, in an unspecified amount, for damages related to the alleged contamination of plaintiff s property. Plaintiff voluntarily dismissed the Company without prejudice. Sensient Colors Inc. filed an answer denying liability and asserting affirmative defenses. Limited discovery has occurred. In November 2006, the Camden Redevelopment Agency (the Agency) filed condemnation litigation against Plaintiff (and other purported interested parties) to take the subject property. Sensient Colors is not a party to the condemnation litigation. In advance of its filing, the Agency notified plaintiff that its appraiser had assessed the fair market value of the subject property at \$7.7 million and that its environmental consultant had estimated the costs for environmental cleanup, purportedly to meet requirements of the New Jersey Department of Environmental Protection, at \$7.5 million. Upon notice of such condemnation proceedings, the Court stayed the litigation between the Company and Pleasant Gardens to allow the parties to assess, among other things, the impact of such condemnation litigation upon the case. The stay is currently in effect until at least April 2007. In the interim, Sensient Colors is working with Plaintiff to pursue a reduction in the scope and cost of the Agency s proposed environmental cleanup. To the extent that there is a reduction in the condemnation value of the Pleasant Gardens property due to the Agency s remediation of contamination for which Sensient Colors Inc. is allegedly responsible, such reduction may become a part of the damages claimed by Plaintiff.

Fults et al. v. Sensient Flavors Inc. et al.

In August 2005, the Company and certain other flavoring manufacturers were sued in the City of St. Louis, Missouri, Circuit Court by Elizabeth Fults (as administrator for the Estate of Dixie Asbury), Nancy Lee Dudley and Jill Roth, all of whom allege that they suffered damage as a result of work-related exposure to butter flavoring vapors at the Gilster-Mary Lee microwave popcorn plant in McBride, Missouri. At present, it does not appear that the Company ever sold butter flavoring products to this facility. Both plaintiffs and defendants filed motions for change of venue from the City of St. Louis, Missouri, to neighboring counties. These motions were granted and the matter is now pending in Cape Girardeau County, Missouri state court. Because of these filings a firm scheduling order has not yet been entered. Once these procedural issues are finalized, the Company intends to conduct discovery, file a motion to dismiss, and will vigorously defend its interests in this case.

Kuiper et al. v. Sensient Flavors Inc. et al.

In late January 2006, the Company and certain other flavor manufacturers, and a flavor industry trade association and its management company were sued in the Federal District Court for the Northern District of Iowa, Western Division, by Ronald Kuiper and his spouse, Conley Kuiper. Mr. Kuiper claims that while working at American Popcorn Company of Sioux City, Iowa, he was exposed to butter flavoring vapors that caused injury to his respiratory system. Ms. Kuiper s claim is for loss of consortium. The allegations of this complaint are virtually identical to those contained in another complaint that was filed against the Company, involving another worker at the same facility, that ultimately was settled with the Company paying nothing to the plaintiff. The Company believes that plaintiffs claims are without merit and is vigorously defending this case. A trial ready date of November 5, 2007, has been set in this matter.

The Company is involved in various other claims and litigation arising in the normal course of business. In the judgment of management, which relies in part on information from Company counsel, the ultimate resolution of these actions will not materially affect the consolidated financial statements of the Company except as described above.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of security holders during the fourth quarter of the year ended December 31, 2006.

Table of Contents**Executive Officers of the Registrant**

The executive officers of the Company and their ages as of March 1, 2007 are as follows:

Name	Age	Position
Kenneth P. Manning	65	Chairman, President and Chief Executive Officer
Richard Carney	56	Vice President - Administration
James J. Clarke II	57	Assistant Secretary and Assistant General Counsel
John F. Collopy	37	Treasurer
John L. Hammond	60	Vice President, Secretary and General Counsel
Richard F. Hobbs	59	Vice President and Chief Financial Officer
Richard J. Malin	40	Assistant Controller
Peter G. Bradley	47	President - Color Group
Ralph G. Pickles	60	President - Flavors & Fragrances Group
Stephen J. Rolfs	42	Vice President, Controller and Chief Accounting Officer
Dr. Ho-Seung Yang	59	Vice President - Marketing & Technology

The Company has employed all of the individuals named above, in their current positions, for at least the past five years except as follows. Mr. Clarke has served as Assistant Secretary since October 2006 and as Assistant General Counsel since 2003 and previously practiced law in Illinois. Mr. Collopy has held his present office since October 2006, and previously served as Assistant Treasurer (February 2006 - October 2006), Director, Treasury Operations (2004-2006), and Manager, Corporate Development (1999-2004). Mr. Malin has held his present office since April 2005 and previously served as Assistant Treasurer (2001-2005). Mr. Bradley has held his present office since July 2005 and previously served as President-Asia Pacific Group (2004-2005) and General Manager-Food Colors UK (2003-2004). Mr. Pickles has held his present office since 2003 and previously served as President-Asia Pacific Group (2000-2003) and Managing Director, Color-Europe (1995-2000). Dr. Yang has held his present office since 2003 and previously served as Vice President-Technologies (1998-2003).

PART II**Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The only market in which the common stock of the Company is traded is the New York Stock Exchange. The range of the high and low sales prices as quoted in the New York Stock Exchange Composite Transaction tape for the common stock of the Company and the amount of dividends declared for the fiscal years 2005 and 2006 appearing under Common Stock Prices and Dividends on page 47 of the 2006 Annual Report to Shareholders are incorporated by reference. In 2006, common stock dividends were paid on a quarterly basis, and it is expected that quarterly dividends will continue to be paid in the future.

On February 10, 2000, the Board of Directors established a share-repurchase program that authorized the Company to repurchase up to five million shares of the Company's common stock, all of which have been repurchased. On April 27, 2001, the Board of Directors authorized the repurchase of an additional five million shares. As of February 15, 2007, 1,965,890 shares had been repurchased under the latter authorization. The Company did not repurchase any shares during the fourth quarter of 2006.

The number of shareholders of record on February 15, 2007 was 3,398.

Table of Contents

On October 12, 2006 the Company announced an increase in its cash dividend on its common stock from an annual rate of 60 cents per share to 64 cents per share, commencing with the quarterly dividend paid on December 1, 2006 to shareholders of record on November 8, 2006.

Information regarding the Company's equity compensation plans appears in Item 12 of Part III of this annual report.

Item 6. Selected Financial Data

The selected financial data required by this item is incorporated by reference from the Five Year Review and the notes thereto on pages 48 and 49 of the 2006 Annual Report to Shareholders.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information required by this item is set forth under Management's Discussion & Analysis of Operations & Financial Condition on pages 17 through 24 of the 2006 Annual Report to Shareholders and is incorporated by reference.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

The information required by this item is set forth under Market Risk Factors on pages 22 and 23 of the 2006 Annual Report to Shareholders and is incorporated by reference.

Item 8. Financial Statements and Supplementary Data

The financial statements and supplementary data required by this item are set forth on pages 25 through 44 and pages 46 and 47 of the 2006 Annual Report to Shareholders and are incorporated by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

The information required by this item is set forth under Change in Independent Registered Public Accounting Firm on page 47 of the 2006 Annual Report to Shareholders and is incorporated by reference.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. The Company carried out an evaluation, under the supervision and with the participation of management, including the Company's Chairman, President and Chief Executive Officer, and its Vice President and Chief Financial Officer, of the effectiveness, as of December 31, 2006, of the design and operation of the disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act. Based upon that evaluation, the Company's Chairman, President and Chief Executive Officer, and its Vice President and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of December 31, 2006.

Management's Report on Internal Control over Financial Reporting. The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Management has assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2006. In making its assessment of internal control over financial reporting, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control - Integrated Framework*. Based on that assessment, management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2006. Management's report on internal control over financial reporting, which appears on page 44 of the 2006 Annual Report to Shareholders, is incorporated by reference.

Table of Contents

Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, has been audited by Ernst & Young LLP, an independent registered public accounting firm. The attestation report on internal control over financial reporting, set forth on page 46 of the 2006 Annual Report to Shareholders, is incorporated by reference.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting. There has been no change in the Company's internal control over financial reporting during the quarter ended December 31, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information

None.

Table of Contents

PART III

Item 10. Directors and Executive Officers of the Registrant

Information regarding directors and officers appearing under Election of Directors and Section 16(a) Beneficial Ownership Reporting Compliance in the Proxy Statement for the Annual Meeting of Shareholders of the Company dated March 15, 2007 (Proxy Statement), is incorporated by reference. Additional information regarding executive officers appears at the end of Part I above, and information regarding codes of conduct and ethics for officers appears at the beginning of Part I above.

Item 11. Executive Compensation

Information relating to compensation of directors and officers is incorporated by reference from the Director Compensation and Benefits, Executive Compensation, Equity Compensation Plan Information and Employment Agreements and Other Arrangements portions of the Proxy Statement. Information relating to the Compensation and Development Committee of the Company's Board of Directors is incorporated by reference from the third paragraph under the heading Committees of the Board of Directors in the Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The discussion of security ownership of certain beneficial owners and management and related stockholder matters appearing under Principal Shareholders in the Proxy Statement is incorporated by reference. The discussion appearing under Equity Compensation Plan Information in the Proxy Statement is incorporated by reference.

Item 13. Certain Relationships and Related Transactions

There are no family relationships between any of the directors or director nominees and the officers of the Company, nor any arrangement or understanding between any director or officer or any other person pursuant to which any of the nominees has been nominated. No director, nominee for director or officer had any material interest, direct or indirect, in any material business transaction of the Company or any subsidiary during the period January 1, 2006 through December 31, 2006, or in any such proposed transaction. In the ordinary course of business, the Company may engage in business transactions with companies whose officers or directors are also directors of the Company. These transactions are routine in nature and are conducted on an arm's-length basis. The terms of any such transactions are comparable at all times to those obtainable in business transactions with unrelated persons.

Item 14. Principal Accountant Fees and Services

The disclosure regarding principal accountant fees and services appearing under Audit Committee Report in the Proxy Statement is incorporated by reference.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

Sensient Technologies Corporation

Milwaukee, Wisconsin

We have audited the consolidated financial statements of Sensient Technologies Corporation and subsidiaries (the Company) as of December 31, 2006 and for the year ended December 31, 2006, management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, and the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, and have issued our reports thereon dated February 8, 2007. Such consolidated financial statements and reports are included in your 2006 Annual Report to Shareholders and are incorporated herein by reference. Our audit also included the consolidated financial statement schedule of the Company listed in Item 15. That consolidated financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audit. In our opinion, that consolidated financial statement schedule is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.
