Notes to Condensed Financial Statements (Unaudited)

Note 1: Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of ICOP Digital, Inc. (the Company), the accompanying unaudited condensed financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of June 30, 2007, the results of operations for the three and six months ended June 30, 2007 and 2006, and cash flows for the six months ended June 30, 2007 and 2006. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report on Form 10-KSB for the year ended December 31, 2006.

There is no provision for dividends for the quarter to which this quarterly report relates.

The results of operations for the three- and six-month periods ended June 30, 2007 are not necessarily indicative of the results to be expected for the full year ending December 31, 2007.

Note 2: Nature of Operations, Merger, and Summary of Significant Accounting Policies

Operations and Merger

The Company was incorporated in May 2002 in Nevada and merged into a wholly owned subsidiary of the Company (a Colorado corporation) as of December 31, 2003 and was merged out of existence in June 2005. The Company, formerly named Vista Exploration Corporation, subsequently changed its name to ICOP Digital, Inc. The Company is engaged in the design, development and marketing of surveillance equipment and systems for use in the law enforcement, security and defense industries. The Company's offices are located in Lenexa, Kansas.

Accounting for uncertainty in income taxes

Effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), an interpretation of Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the measurement and recognition related to accounting for income taxes. This interpretation did not have a significant impact on the financial statements due to the Company's significant net operating loss carryforward.

New Accounting Standards

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), an amendment of FASB Statement No. 115. SFAS No. 159 addresses how companies should measure many financial instruments and certain other items at fair value. The objective is to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. Management is assessing the impact of the adoption of SFAS No. 159.

Note 3: Shareholders' Equity

Sale of common stock

During the first quarter 2007, the Company received proceeds of \$27,915 in connection with employees purchasing 5,257 shares of its no par value common stock under the Company's Employee Stock Purchase Plan.

During the second quarter 2007, the Company received proceeds of \$185,895 in connection with warrants exercised to purchase 42,162 shares of the Company's no par common stock.

During the second quarter 2007, the Company received proceeds of \$52,649 in connection with stock options exercised.

Awards of restricted common stock and stock options

The Company has granted to employees, contractors and directors shares of restricted common stock and options to purchase shares of the Company's common stock which vest in 2007 and future years. Compensation expense related to these unvested awards of \$490,298 and \$402,000 has been recorded in the six-month periods ended June 30, 2007 and 2006, respectively.

Note 4: Income Taxes

The Company records its income taxes in accordance with SFAS 109. The Company incurred net operating losses during the periods shown on the condensed financial statements resulting in a deferred tax asset, all of which was fully reserved; therefore the net benefit and expense resulted in \$0 income taxes. The recognition of these net operating loss carryforwards depends on the ability of the Company to generate taxable income.

The Company adopted the provisions of FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, the Company had no changes in the carrying value of its tax assets or liabilities for any unrecognized tax benefits.

Certain U.S. Federal returns from inception and following are not closed by relevant statutes of limitation due to unused net operating losses reported on those returns.

The Company's policy is to record estimated interest and penalties related to the underpayment of income taxes as income tax expense in the statements of operations. There has been no interest or penalties recognized in the condensed financial statements.

Note 5: Subsequent Events

In the third quarter 2007, we received proceeds of \$336,879 relating to the exercising of 55,636 warrants at exercise prices ranging from \$4.13 to \$6.19 per share.

In the third quarter 2007, we borrowed \$2.5 million from the bank line of credit to purchase inventory.

Item 2. Management's Discussion and Analysis or Plan of Operation
Summary Results of Operations

Sales and Cost of Sales

During the six months ended June 30, 2007, the Company reported sales of \$4,801,193 and cost of sales of \$2,643,898 resulting in gross profit of \$2,157,295 compared to sales of \$2,167,759 and cost of sales of \$1,263,251 resulting in gross profit of \$904,508 for the same period of 2006. This represents an increase in sales of 121% and an increase in gross profit of 139% over the prior year. Significant sales of ICOP Model 20/20s began in June 2005.

Gross margin as a percentage of sales was 44.9% for the six months ended June 30, 2007 compared to 41.8% for the six months ended June 30, 2006. The increase in gross margin as percentage of sales is the result of improvements in product mixes.

Operating Expenses

During the six months ended June 30, 2007, the Company incurred \$989,072 in research and development expenses and \$3,455,748 in selling, general and administrative expense, resulting in an operating loss of \$2,287,525. During the six months ended June 30, 2006, the Company incurred \$564,930 in research and development expenses and \$2,204,516 in selling, general and administrative expense, resulting in an operating loss of \$1,864,938. This represents an increase in research and development expense of 75% and an increase in selling, general and administrative expense of 57%. The increased level of expense in 2007 over the corresponding period of 2006 is the result of increased effort to enhance existing products and develop new products and increased staffing to support selling, marketing and customer support activities. Included in operating expenses, compensation expense related to unvested stock based compensation awards of \$490,298 and \$402,000 has been recorded in the six-month periods ended June 30, 2007 and 2006, respectively.

The Company completed a public offering of common stock and warrants in October 2006 to allow it to increase inventory, expand its facilities, add personnel and extend its product line. Through 2007, we plan to continue to expand our sales, marketing, product promotion and product development activities to leverage what we believe to be our advantages in technology and pricing. Funding provided by the completed secondary offering will allow us to accelerate product development and manufacturing and exploit the enhanced and new products we are developing. We believe these new products and the expansion of sales, service and support personnel should allow the Company to achieve operating breakeven over the coming twelve months.
