PROXY STATEMENT

FOR 2007 ANNUAL MEETING OF SHAREHOLDERS

GENERAL INFORMATION

We are providing these proxy materials to you in connection with the solicitation of proxies by the board of directors of SunLink Health Systems, Inc. for the 2007 Annual Meeting of Shareholders and for any adjournment or postponement of the annual meeting. In this Proxy Statement, we refer to SunLink Health Systems, Inc. as SunLink, the Company, we or us.

We are holding the annual meeting at 10:00 a.m. local time, on Monday, November 12, 2007, at the Renaissance Waverly Hotel, 2450 Galleria Parkway, Atlanta, Georgia 30339, and invite you to attend in person.

We intend to mail this proxy statement and a proxy card to shareholders starting on or about September 28, 2007.

ABOUT THE MEETING

At our annual meeting, our shareholders will act upon the sole matter outlined in the accompanying notice of meeting, the election of directors. In addition, our management will report on our performance during the 2007 year and respond to questions from shareholders.

VOTING INFORMATION

All shares represented by properly executed proxies received by the board of directors pursuant to this solicitation will be voted in accordance with the shareholder's directions specified on the proxy. If no directions have been specified by marking the appropriate places on the accompanying proxy card, the shares will be voted in accordance with the board's recommendations which are:

FOR the election of Robert M. Thornton, Jr., Dr. Steven J. Baileys, Michael W. Hall and Gene E. Burlison, as directors of the Company for a term of two years.

A shareholder signing and returning the accompanying proxy has power to revoke it at any time prior to its exercise by delivering to the Company a later dated proxy or by giving notice to the Company in writing or at the meeting, but without affecting any vote previously taken.

Table of Contents

Record Date

You may vote all shares that you owned as of September 18, 2007, which is the record date for the annual meeting. On September 18, 2007, we had 7,514,784 common shares outstanding. Each common share is entitled to one (1) vote on each matter properly brought before the meeting.

Ownership Of Shares

If your shares are registered directly in your name, you are the holder of record of these shares and we are sending these proxy materials directly to you. As the holder of record, you have the right to give your proxy directly to us, give your voting instructions by telephone or by the Internet, or vote in person at the annual meeting. If you hold your shares in a brokerage account or through a bank or other holder of record, you hold the shares in street name, and your broker, bank or other holder of record is sending these proxy materials to you. As a holder in street name, you have the right to direct your broker, bank or other holder of record how to vote by filling out a voting instruction form that accompanies your proxy materials. Regardless of how you hold your shares, we invite you to attend the annual meeting.

Electronic Delivery

Beginning next year, we intend to deliver annual meeting materials electronically; however, you will be able to elect to receive printed copies of such materials. We anticipate polling our shareholders on their delivery preferences later this year. If your shares are currently registered directly in your name with American Stock Transfer & Trust Company, our share registrar and transfer agent, you can affirmatively elect now to receive and access future annual meeting materials electronically by going to the website www.amstock.com and clicking on Stockholder Services or by following the instructions provided when voting via the Internet. If your shares of Company stock are held in a brokerage account, please refer to the information provided by your bank, broker or nominee for instructions on how to affirmatively elect now to view future annual meeting materials over the internet.

How To Vote

Your Vote Is Important. We encourage you to vote promptly. Internet and telephone voting is available through 11:59 p.m. Eastern time on Sunday, November 11, 2007 for all shares. You may vote in one of the following ways:

By Telephone: If you are located in the U.S., you can vote your shares by calling the toll-free telephone number on your proxy card or, if you are an owner in street name, in the instructions that accompany your proxy materials. You may vote by telephone 24 hours a day. The telephone voting system has easy-to-follow instructions and allows you to confirm that the system has properly recorded your votes. If you vote by telephone, you do not need to return your proxy card.

By Internet: You can also vote your shares by using the Internet. Your proxy card indicates the website you may access for Internet voting. You may vote on the Internet 24 hours a day. As with telephone voting, you will be able to confirm that the system has properly recorded your votes. If you are an owner in street name, please follow the Internet voting instructions that accompany your proxy materials. You may incur telephone and Internet access charges if you vote on the Internet.

By Mail: If you are a holder of record, you can vote by marking, dating and signing your proxy card and returning it by mail in the enclosed postage-paid envelope. If you hold your shares in street name, please complete and mail the voting instruction card.

At The Annual Meeting: If you vote your shares now, it will not limit your right to change your vote at the annual meeting if you attend in person. If you hold your shares in street name, you must obtain a proxy, executed in your favor, from the holder of record if you wish to vote your shares at the meeting.

Table of Contents

All shares that have been properly voted and not revoked will be voted at the meeting. If you sign and return your proxy card without any voting instructions, your shares will be voted as the board of directors recommends.

Revocation Of Proxies: You can revoke your proxy at any time before your shares are voted if you: (1) submit a written revocation to our Secretary; (2) submit a later-dated proxy (or voting instructions if you hold shares in street name); (3) provide subsequent telephone or internet voting instructions; or (4) vote in person at the meeting.

Quorum And Required Vote

Quorum: We will have a quorum and will be able to conduct the business of the annual meeting if the holders of a majority of the shares that are entitled to vote are present at the Meeting, either in person or by proxy.

Votes Required For Proposal: To elect directors the proportion of votes required is a plurality of the votes cast.

Routine And Non-Routine Proposals: American Stock Exchange rules determine whether proposals presented at the shareholder meetings are routine or not routine. If a proposal is routine, a broker or other entity holding shares for an owner in street name may vote for the proposal without voting instructions from the owner. The election of the 2007 slate of directors is considered a routine item.

How We Count Votes: In determining whether we have a quorum, we count abstentions and broker non-votes as present and entitled to vote.

In counting votes on the proposal:

We do not count abstentions or broker non-votes, if any, as votes cast for the election of directors, but we do count votes withheld for one or more nominees as votes cast.

CORPORATE GOVERNANCE

Our business is managed by the Company's employees under the direction and oversight of the board of directors. Except for Mr. Thornton, none of our board members is an employee of the Company. The board limits membership on the audit committee and executive compensation committee (referred to in this proxy statement as the *compensation committee*) to independent non-management directors. We keep board members informed of our business through discussions with management, materials we provide to them, visits to our offices and hospitals and their participation in board and board committee meetings.

The board of directors has adopted charters for the standing board committees, resolutions governing the process for identification and nomination of candidates for the board, and the Company's code of ethics (the SunLink Health Systems, Inc. Code of Conduct) for employees, including our principal executive officer and principal financial officer. These documents, together with the Company's Articles of Incorporation and Code of Regulations, provide the framework for the governance of the Company.

A complete copy of the charters of the board committees, the resolutions governing the process for identification and nomination of candidates for the board and the Code of Conduct for employees may be found on the Company's website at www.sunlinkhealth.com. Copies of these materials are also available to shareholders without charge upon written request to the Secretary of the Company.

Summary of the Corporate Governance Principles

Independence

A majority of the board of directors is required to consist of independent, non-management directors who meet the criteria for independence required by the American Stock Exchange. Under such rules, a director is

Table of Contents

independent if he or she does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

The board of directors has determined that as of September 18, 2007, six (6) of the Company's eight (8) incumbent directors are independent under these guidelines: Ms. Brenner and Messrs. Baileys, Burleson, Ford, Hall, and Turner. Mr. Thornton, as a management director, also participates in the board's activities and provides valuable insights and advice.

The non-management directors meet periodically in executive session without the management director present.

The executive sessions of non-management directors are presided over by the director who is the chairman of the committee responsible for the issue being discussed. General discussions, such as the review of the Company's overall performance, are presided over by the chairman or a director elected by a majority of the non-management directors.

Business Combinations

In the event SunLink receives any formal written offer(s) to purchase more than 20% of SunLink's outstanding common stock, such proposal is required to be evaluated by the board of directors, who may delegate the evaluation of such offer to a committee of the board of directors (which may be its executive committee), so long as such committee is comprised of a majority of independent directors. Such committee may be empowered to retain such legal and financial advisors as it may deem necessary to advise it and the board in respect of such offer(s).

In the event of any proposed business combination involving SunLink, the compensation committee is authorized to retain an independent financial advisor to evaluate and make recommendations to the compensation committee concerning any severance package proposed for any of SunLink's officers or directors in connection with any proposed business combination, in addition to outstanding contract terms, and the financial effect thereof.

Director Share Ownership

The Company believes that each director should have a personal investment in the Company. Each outside director (or future outside director, as the case may be) is required to own at least one thousand (1,000) shares of SunLink common stock. Each outside director (or future outside director, as the case may be) must maintain ownership of such number of common shares until such outside director ceases to serve as a member of the board.

Annual Meeting Attendance

The board of directors encourages all its members to attend the annual meeting of shareholders. In November 2006, all director nominees and all continuing directors were present at the annual meeting of shareholders, except Mr. Mills, who did not become a director until July 2007.

Communications by and with Directors

In connection with the proper discharge of their duties our non-management directors have access to individual members of management or to other employees of the Company on a confidential basis. Likewise, in connection with the discharge of their duties, non-management directors as authorized by the board or a committee thereof also have access to Company records and files, and our directors may contact other directors without informing Company management of the purpose or even the fact of such contact.

Table of Contents

The board of directors has provided a means by which shareholders, employees or other interested persons may send communications to the board or to individual members of the board. Such communications, whether by letter, e-mail or telephone, should be directed to the Secretary of the Company who will forward them to the intended recipients. However, unsolicited advertisements or invitations to conferences or promotional material, in the discretion of the Secretary or his designee, may not be forwarded to the directors.

If a shareholder wishes to communicate to the chairman of the audit committee about a concern relating to the Company's financial statements, accounting practices or internal controls, the concern should be submitted in writing to the chairman of the audit committee in care of the Company's Secretary at our headquarters address. If the concern relates to the Company's governance practices, business ethics or corporate conduct, the concern likewise should be submitted in writing to the chairman of the audit committee in care of the Company's Secretary at our headquarters address. If the shareholder is unsure as to which category his or her concern relates, he or she may communicate it to any one of the independent directors in care of the Company's Secretary.

The Company's whistleblower policy prohibits the Company or any of its employees from retaliating or taking any adverse action against anyone for raising a concern. If a shareholder or employee nonetheless prefers to raise his or her concern in a confidential or anonymous manner, the concern may be directed to the Office of Technical and Compliance Services at the Company's headquarters or by telephone at 1-866-244-5952. The Vice President for such services or his designee will refer the concern to the compliance committee, or if appropriate, the chairman of the audit committee who will assure that the matter is properly investigated.

Related Party Transactions

The Company is subject to a variety of prohibitions on, or approval procedures with respect to, related party transactions.

First, the Company is subject to certain American Stock Exchange requirements which require shareholder approval of certain related party transactions.

Second, the Company's Corporate Code of Conduct prohibits related party transactions which could give rise to a conflict of interest. Related party transaction must be approved by the Company's compliance committee, or, in the case of a member of the board of directors and/or an executive officer such related party transaction must be approved by the Company's audit committee.

Audit Committee

The audit committee's primary function is to assist the board of directors in fulfilling its oversight responsibilities by reviewing:

The integrity of the financial statements and other financial information provided by the Company to the Company's shareholders, the general public and the Securities and Exchange Commission (SEC);

The Company's systems of internal controls regarding finance, accounting, legal and compliance that management and the board have established;

The Company's auditing, accounting and financial reporting processes generally;

The independence and performance of the Company's external auditors;

Annually review and reassess the adequacy of the audit committee charter and recommend any proposed changes to the board for approval; and

Perform any other activities consistent with the audit committee charter, the Company's Code of Regulations and governing law as the Committee or the board deem appropriate.

All three members of the audit committee are independent as defined in Section 121(A) of the American Stock Exchange's listing standards and Rule 10A-3 of the Securities Exchange Act of 1934. The board has also determined that Mr. Ford meets the requirements for being an audit committee financial expert as defined by SEC regulations adopted in January 2003. Our audit committee charter is attached to this proxy statement as *Exhibit A*.

Compensation Committee

Composition; Independence; Compensation Committee Interlocks and Insider Participation

As set forth in the table above, our compensation committee currently consists of Karen B. Brenner, Gene E. Burleson and Dr. Steven J. Baileys. The compensation committee is composed entirely of independent members of the board of directors. All three members of the compensation committee are independent, as defined in

Table of Contents

Section 121(A) of the American Stock Exchange's listing standards. At least two members of the compensation committee are also required to qualify as outside directors (as such term is defined under Section 162(m) of the Internal Revenue Code and the regulations thereunder) if any award or payment under any compensation or benefit plan administered by the compensation committee would be subject to the deduction limitation under Section 162(m) of the Internal Revenue Code. Each member of the compensation committee qualifies as an outside director for such purpose. Our compensation committee charter is attached to this proxy statement as *Appendix B*. No member of the committee is a current or former employee or officer of the Company or any of its affiliates.

Compensation Review Process; Management Participation in Compensation Determinations

The compensation of our executive officers is determined by the compensation committee of our board of directors on an annual basis with the exception of the compensation of our chief executive officer and chief operating officer which currently is set in multi-year employment agreements. Our compensation committee considers all elements of compensation in making its determinations. With respect to those executive officers who do not serve on our board of directors, our compensation committee also considers the recommendations of our chairman of the board and chief executive officer. The committee meets at various times during the year, and it also considers and takes action by written consent. The committee chair reports on committee actions and recommendations at board meetings.

Responsibilities

The compensation committee has the power and authority of the board to perform and shall perform the following duties and responsibilities:

Develop guidelines and, on an annual basis, review the compensation and performance of the Company's senior executive officers, review and approve corporate goals relevant to the compensation of the chief executive officer, evaluate the chief executive officer's performance in light of these goals and objectives, set the chief executive officer's compensation based on this evaluation, evaluate the performance of the Company's senior executive officers and approve their annual compensation, and produce an annual report on executive compensation for inclusion in the Company's annual proxy statement, in accordance with all applicable rules and regulations;

Make recommendations to the board with respect to incentive compensation plans and equity-based plans, and administer such plans by establishing criteria for the granting of awards to the Company's officers and other employees and reviewing and approving the granting of awards in accordance with such criteria;

Review and approve plans for managerial succession of the Company;

Review director compensation levels and practices, and recommend to the board, from time to time, changes in such compensation levels and practices (including retainers, meetings fees, committee fees, stock options and other similar items as appropriate);

Annually review and reassess the adequacy of the Compensation Committee Charter and recommend any proposed changes to the board for approval; and

Perform any other activities consistent with the Compensation Committee Charter, the Company's Code of Regulations and governing law as the committee or the board deem appropriate.

Executive Committee

The executive committee is empowered to exercise all of the authority of the board of directors except as to matters not delegable to a committee under the General Corporation Law of Ohio.

Special Committee

This special committee was organized in 2005 to consider certain proposals to acquire the Company as well as various other strategic alternatives available to the Company. The committee's tenure concluded in December 2006 when it recommended that the Company not pursue the offers to purchase the Company, but instead continue to vigorously pursue its business plan emphasizing internal growth and growth through acquisitions.

Nomination Procedures and Shareholder Nominations

The board does not have a nominating committee but has adopted a nominating resolution which provides that the Company believes it to be in its best interest and the best interest of its shareholders to authorize the entire board to identify and nominate directors to serve on the Company's board so long as, pursuant to American Stock Exchange rules, director nominees so selected are approved by a majority of the independent directors and, when vacancies occur on the Board, the board shall actively seek individuals qualified to become board members based on business experience, professional expertise, industry experience and geographic representation. Shareholders who wish to submit nominees for election at an annual or special meeting of shareholders should follow the procedure generally described in *Requirements, Including Deadlines, For Submission Of Proxy Proposals, Nomination Of Directors And Other Business Of Shareholders* on page 35 of this proxy statement and more particularly, in the Company's Code of Regulations. The board of directors applies the same standards in considering candidates submitted by shareholders as it does in evaluating candidates submitted by members of the board of directors. The board does not have a separate policy with regard to the consideration of candidates recommended by shareholders other than the process provided in the nominating resolution.

COMPENSATION OF DIRECTORS FOR FISCAL YEAR 2007

Management Directors

We do not pay directors who are also our employees any additional compensation for serving as a director, other than customary reimbursement of expenses.

Non-Management Directors

The Company believes that each director should have a personal investment in the Company and each outside director (or future outside director, as the case may be) is required to own at least one thousand (1,000) shares of SunLink common stock. Each outside director (or future outside director, as the case may be) must maintain ownership of such number of common shares until such outside director ceases to serve as a member of the board.

The following chart discloses the compensation of each non-management director for the fiscal year ended June 30, 2007:

Cash Compensation. Each non-employee director receives a quarterly fee of \$4,500 for service as a director. In addition, he or she receives \$1,500 for attendance in person and \$1,000 for attendance by phone

- at a meeting of the board of directors or of a committee. Members of the audit committee receive \$3,000 per quarter and the chairperson of the audit committee receives \$6,000 per quarter. Further, the chairperson of the compensation committee receives an additional \$3,000 per quarter. We also reimburse customary expenses for attending board, committee and shareholder meetings.
- (2) **Equity Compensation.** Each non-employee director currently is eligible to participate in the Company's 2001 Outside Directors' Stock Ownership and Stock Option Plan and in the 2005 Equity Incentive Plan. For fiscal 2008 we have awarded equity compensation to non-employee directors in the form of stock options granted under the 2005 Equity Incentive Plan. Such options entitle the holder to purchase 4,857 shares at an exercise price of \$8.00 per share. The exercise price of such options exceeded the fair market value of the Company's common stock as of the date of grant. The closing price of the Company's common stock as of the date of grant was \$6.05. Because such grant is for the 2008 fiscal year, the value of such options is not included in the above table. No further options are anticipated to be granted to non-employee directors for fiscal 2008. With the grant of the September 2008 options, the Company has exhausted the number of shares available for issuance to non-employee directors under its 2005 Equity Incentive Plan. No new shares have been available for issuance under the 2001 Outside Directors' Stock Ownership and Stock Option Plan since 2005. Accordingly, the Company anticipates that it will propose a new equity compensation plan for consideration by its shareholders at the 2008 annual meeting.
- (3) Option grants in December 2003, each of the Company's non-employee directors was granted options to purchase 6,250 shares of the Company's common stock at an exercise price of \$2.90 per share. One-third of such options vest each year, beginning with the date of the grant. Upon adoption of the 2005 Equity Incentive Plan, we awarded each non-employee director options to purchase 5,500 shares, which vested on November 11, 2006.
- (4) **Other Arrangements.** Mr. Turner is a partner of the law firm of Smith, Gambrell & Russell, LLP. Mr. Mulligan, a director emeritus and our Secretary, is a partner of the law firm of Mulligan & Mulligan. These firms provided legal services to the Company in the fiscal year ended June 30, 2007 at customary rates and they continue to provide such services to the Company in the fiscal year ending June 30, 2008.
- (5) Mr. Mills was not appointed to the board until July 11, 2007 and therefore no fees were paid nor options granted for his services as a non-employee director during fiscal year 2007.

EXECUTIVE COMPENSATION

Compensation Disclosure and Analysis

Objectives and Goals

The objectives of the compensation committee has been to adopt a compensation approach that is basically simple, internally equitable and externally competitive, and that attracts, motivates and retains qualified people capable of contributing to the growth, success and profitability of the Company, thereby contributing to long-term stockholder value.

Simplicity. The committee believes that a compensation package with three major elements of compensation is the simplest approach consistent with the Company's goals. The Company generally does not utilize any special personal perquisites such as private jets, payment of country club dues, Company-furnished motor vehicles or motor vehicle allowances, permanent lodging or defrayment of the cost of personal entertainment not in connection with business activities.

Internal Equity. Internal equity has generally been evaluated based on an assessment of the relative contributions of the members of the management team. In 2007, the committee did not undertake any formal audit or similar analysis of compensation equity with respect to either the CEO relative to the other members of the management team or with respect to the management team relative to the Company's employees generally. However, the committee believes that the relative difference between CEO compensation and the compensation of the Company's other executives is consistent with such differences found in the Company's peer group and the market for executive level personnel for public companies.

External Competitiveness. The committee believes it is important to management retention and morale that compensation be competitive with our competitors. That said, the committee has not established any formal comparative goals or comparative percentile rankings. Likewise, the committee looks at not only the relative compensation within the healthcare industry but also at the relative health and profitability of other competitors, including both regional hospital companies as well as a larger group of general healthcare industry companies against whom executive compensation levels may be compared or contrasted.

Compensation Consultant. During the latter part of fiscal 2005 the compensation committee retained a compensation consulting firm to review and evaluate the current compensation packages for the three highest paid executives of the Company as compared to those of the executives of other health care companies with comparable revenues. The committee considered the results of such survey as one source of information in formulating 2007 compensation packages and the reasonableness of potential compensation levels. The compensation committee expects to retain a compensation consulting firm to review and evaluate the compensation arrangements for the Company's executive officers for periods after July 1, 2007.

Major Compensation Components

The principal components of compensation for our executive officers historically have been base salary, short-term incentives, generally in the form of cash bonus programs, and long-term incentives, generally in the form of equity-based awards such as stock awards and stock options. Historically, we have believed that the Company's goals are best met by utilizing an approach to compensation with these three distinct elements.

Base salaries. The Company's base salaries are intended to be consistent with its understanding of competitive practices, levels of executive responsibility, qualifications necessary for the particular executive position and the expertise and experience of the executive officer. Salary adjustments reflect the compensation committee's belief as to competitive trends, the performance of the individual and, to some extent, the overall financial condition of the Company.

Table of Contents

During the fiscal year ended June 30, 2007, the CEO, Mr. Thornton, was employed under an employment agreement which provided for an annual base salary of \$335,000. The compensation committee, believes, based in part on consultation with a compensation consulting firm at the end of fiscal year 2005, Mr. Thornton's salary continues to be on the low end of salaries for CEOs of regional hospital management companies and also below that of CEOs for healthcare companies with similar revenues.

Short-Term Incentives. The short-term incentive for an executive is the opportunity to earn an annual cash bonus. The Committee has concluded that bonus payments should be based in part on the achievement of specific predetermined financial targets and part discretionary based on the compensation committee's evaluation of an executive's performance in specific qualitative areas. We do not disclose specific profit and expense control targets or other specific quantitative or qualitative performance related factors. Such targets and information are intended as a way to allocate risk and reward in incentivising SunLink's management. Such targets and information are not intended to be predictions or statements of fact on which any person may rely. Likewise, such targets may be subject to change based on subsequent developments or may be dependent on events or assumptions which are, either in whole or in part, beyond the control of the Company or the named officer. However, specific qualitative areas may include profitability, stock price, net income from continuing operations and cost control. We also do not disclose specific targets which are based on other factors or criteria involving confidential trade secrets or confidential commercial or financial information.

Our targets typically have had a threshold which must be achieved before any payments are made and a maximum performance target beyond which no additional bonus amounts will be paid. It is not presumed that thresholds necessarily can be achieved.

The Executive Bonus Plan for the fiscal year ended June 30, 2007 provided that bonuses would be payable based on two factors: (1) the net income of the Company from continuing operations during fiscal 2007 and (2) the achievement of certain unweighted discretionary criteria.

The net income goal was set forth in the budget adopted by the board in June 2006 for the 2007 fiscal year and represented a decrease over the net income from continuing operations for fiscal 2006 due partially to higher depreciation expected in fiscal year 2007. The Company's net income from continuing operations did not achieve the goal set forth in the 2007 budget. Based on this result and the compensation committee's evaluation of each executive's performance against his discretionary criteria, the executive officers of the Company were not paid bonuses for the 2007 fiscal year as reflected in the *Summary Compensation Table* on page 24.

During the fiscal year ended June 30, 2007, Mr. Thornton was granted the opportunity to earn a bonus equal to seventy percent of his 2007 annual salary if certain criteria established by the compensation committee, after consultation with him, were met (a more complete description of Mr. Thornton's employment agreement is contained on page 28 under the heading *Employment Contracts, Termination of Employment and Change-in-Control Agreements*). In the opinion of the compensation committee Mr. Thornton's cash bonus opportunity (which is calculated as a percentage of his salary) is somewhat on the low side for comparable positions for healthcare companies with similar revenues and below the market median for healthcare companies with similar revenues.

Under the Executive Bonus Plan for fiscal 2007, Mr. Thornton's bonus opportunity for fiscal 2007 was weighted as follows: (1) 50% was based on the Company's net income from continuing operations for fiscal 2007 and (2) 50% was based on certain un-weighted discretionary criteria. As explained above, the Company did not achieve the net earnings from continuing operations goal set for fiscal 2007 so no bonus was paid to Mr. Thornton based on this factor nor did the compensation committee grant Mr. Thornton a bonus based on the un-weighted discretionary criteria. The un-weighted discretionary criteria chosen to evaluate Mr. Thornton's performance were the same as in fiscal 2006: (i) maintaining an active acquisition program which capitalizes on suitable opportunities and (ii), maintaining an active program of investor relations and major shareholder contacts. Historically, the compensation committee has considered adjustments where sound business practices

Table of Contents

favor the implementation of business actions or practices which may have a temporary or short-term negative impact on profitability or expenses or for factors substantially independent of management's practical control. Examples of historical or potential adjustments include adjustments for force majeure type events, such as weather related impacts and changes in government reimbursement levels.

The potential incentive award, as a percentage of base salary, was higher for our principal executive officer reflecting his greater responsibility for and greater ability to influence the achievement of targets.

Mr. Thornton was not awarded any new equity compensation in fiscal 2007. Mr. Thornton previously was granted 38,500 options for Company common stock on November 11, 2005. These options vested one third on November 11, 2006 and will vest one third each on November 11, 2007 and 2008.

The following table sets forth for each named executive officer, the bonus percentage potentially attributable to performance targets and the percentage attributable to the committee's discretion. The committee has the authority to adjust, waive or reset targets. The following table also sets forth information regarding the annual cash incentive awards made to the named executive officers for 2007:

Long-Term Incentives. While salary and short-term incentives are primarily designed to compensate current and past performance, the primary goal of the long-term incentive compensation program is to directly link management compensation with the long-term interests of the shareholders. Historically, the compensation committee has not utilized any percentage or relative measure of valuation to establish any relationship or allocation between total cash and non-cash compensation.

Types of Equity Awards and Criteria for Award Type Selection. The Company currently uses, as it has for many years, stock options to align their interests with those of our shareholders. Options are intended to provide strong incentives for superior long-term performance. On November 7, 2005, Company shareholders adopted the 2005 Equity Incentive Plan. In the future, the compensation committee may, at its discretion, grant awards to executive officers through this plan.

Table of Contents

Criteria for Award Amounts. In considering whether to grant equity incentives for fiscal 2007, the committee looked at a variety of factors, with no formal weighting assigned to any single factor or group of factors. In determining the size of equity awards, the committee assesses the current value of previous awards; however, it has not historically given any weight to accumulated wealth in evaluating whether future awards are merited. The committee also evaluated equity incentive awards made by our competitors (both individually and as part of a comparative compensation analysis), historical levels of the Company's equity incentives, the extent to which value under the award was subject to risk, whether the award vehicle has intrinsic value and the need to motivate and retain persons eligible to participate under the Company's plans.

Vesting and Holding Periods for Equity Incentive Compensation. As a means to encourage long-term thinking and encourage continued employment with us, the Company's equity awards historically have been subject to a multi-year vesting period. Grants of stock options shall be exercisable at such times and subject to such terms and conditions as the Committee may, in its sole discretion, specify in the applicable Award Agreement. The committee anticipates that future awards will be subject to multi-year vesting, most likely over three year periods; although vesting and holding periods may be examined as part of a planned compensation review. Currently, the Company does not impose minimum equity ownership requirements for equity compensation awarded to its executive officers, nor does it require any continued ownership of the securities issued pursuant to such awards after vesting. Historically, the Company's executive officers have held substantially all shares acquired by exercise of options, although there can be no assurance that they will continue to do so in the future. Because there is no mandatory holding policy, executive officers may sell shares issuable upon the exercise of options for any reason, including to pay tax liabilities, and persons who cease to be executive officers may elect to sell some or all of their holdings.

Equity Awards in 2007

In 2007, no stock options and no shares of restricted stock were granted to the executive officers of the Company.

Equity Award Timing

Our current policy with respect to annual equity awards to key employees, including our executive officers (but excluding grants to newly hired employees) is that equity awards occur at the time of the board of directors meeting to be effective as of a specified date no sooner than 48 hours after earnings are released.

Use of Employment and Severance Agreements

In the past, the committee has determined that competitive considerations merit the use of employment contracts or severance agreements for certain members of senior management. Currently, Messrs. Thornton and Alvis are employed pursuant to employment contracts, while Messrs. Stockslager, Orth and Spurr are employed pursuant to employment letters. Messrs. Thornton, Alvis and Stockslager's agreements include severance benefits (*severance benefits*). Compensation criteria for officers employed pursuant to an employment agreement may be more difficult to adjust on an annual basis. The Company's severance benefits with Messrs. Thornton, Alvis and Stockslager take effect with severance in connection with a change of control and for severance other than for death, disability or cause. We have designed these severance benefits to help keep employees focused on their jobs, especially during the uncertainty that accompanies a change of control, to preserve benefits after a change in control transaction, and to help us attract and retain key talent. For more information on employment or severance contracts please refer to *Employment Agreements and Change of Control Arrangements* beginning on page 28 of these proxy materials.

Change of Control Compensation

Provisions for additional or continued compensation in connection with a change of control of the Company are located in two areas: in, as discussed above, the Company's employment agreements with Messrs. Thornton,

Table of Contents

Alvis and Stockslager; as well as, more generally, in the Company's equity incentive plans and/or award agreements thereunder, whereby the committee administering such plans and awards has the power to accelerate the vesting of such awards upon a change of control or where such plans or awards provide for automatic vesting in the event of such change, whether merely upon the occurrence of such event or upon the occurrence of such event and an adverse occurrence for the participant, such as termination of employment.

The Change of Control provisions set forth in the Company's employment agreements employ several approaches to cause a triggering event. Change of Control benefits are payable in the ordinary course upon the occurrence of the event. Payment of benefits is not restricted only to situations involving the involuntary termination of the officer afforded such Change of Control protection. Instead, benefits are payable not only in the case of involuntary terminations but also where the executive, in connection with or within one year of the transaction, elects to terminate his employment. The committee believes this approach helps to ensure the continued availability of the services of the executive during the times of uncertainty inherent with any change of control, including especially in the post event period under new ownership and/or management, while at the same time limiting windfall benefits by making the benefits payable only after a termination of employment. By providing post-event coverage, the executive is encouraged to remain in the employ of the Company without the need to be concerned about a post-event restructuring which may result in a material diminishment of the executive's duties or post-event management or ownership with respect to which the executive may have concerns or reservations.

In connection with providing severance benefits to the Company's other executive officers, the committee has evaluated, and expects to continue to examine, the amounts which could be realized by persons granted such rights upon a Change of Control.

Recapture and Forfeiture Policies

Historically the Company has not had formal policies with respect to the adjustment or recapture of performance based awards where the financial measures on which such awards are based, or to be based, are adjusted for changes in reported results such as, but not limited to, instances where the Company's financial statements are restated. The committee does not believe that repayment should be required where the Plan participant has acted in good faith and the errors are not attributable to the participants gross negligence or willful misconduct. In such later situations, the committee believes the Company has or will have available negotiated or legal remedies. However, the committee may elect to take into account factors such as the timing and amount of any financial restatement or adjustment, the amounts of benefits received and the clarity of accounting requirements leading to any restatement in fixing of future compensation.

Deductibility of Compensation and Related Tax Considerations

As one of the factors in its review of compensation matters, the committee considers the anticipated tax treatment to the Company and to the executives of various payments and benefits.

Section 162(m). Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") generally limits to \$1 million the amount that a publicly-held corporation is allowed each year to deduct for the compensation paid to each of the corporation's chief executive officer and the corporation's four most highly compensated executive officers, other than the chief executive officer. However, performance-based compensation is not subject to the \$1 million deduction limit. In general, to qualify as performance-based compensation, the following requirements must be satisfied: (i) payments must be computed on the basis of an objective, performance-based compensation standard determined by a committee consisting solely of two or more outside directors; (ii) the material terms under which the compensation is to be paid, including the business criteria upon which the performance goals are based, and a limit on the maximum amount which may be paid to any participant pursuant to any award with respect to any performance period, are approved by a majority of the corporation's stockholders; and (iii) the committee certifies that the applicable performance goals were satisfied before payment of any performance-based compensation is made.

Table of Contents

Although the Company's stock option plans generally have been structured with the goal of complying with the requirements of Section 162(m), and the compensation committee believes stock options awarded thereunder should qualify as performance-based compensation exempt from limitations on deductibility under Section 162(m), the deductibility of any compensation has not been a condition to any compensation decision. Based on current compensation levels, the Company does not expect its ability to deduct executive compensation to be limited by operation of Section 162(m). However, due to interpretations and changes in the tax laws, some types of compensation payments and their deductibility depend on the timing of an executive's vesting or exercise of previously granted rights and other factors beyond the compensation committee's control which could affect the deductibility of compensation.

The compensation committee will continue to consider the impact of Section 162(m) when designing compensation programs, and in making compensation decisions affecting the Company's Section 162(m) covered executives. We fully expect the majority of future stock awards will be excludable from the Section 162(m) \$1 million limit on deductibility, since vesting of any such awards will likely be tied to performance-based criteria, or be part of compensation packages which are less than \$1 million. Nonetheless, the compensation committee believes that in certain circumstances factors other than tax deductibility are more important in determining the forms and levels of executive compensation most appropriate and in the best interests of the Company and its shareholders. Accordingly, it may award compensation in excess of the deductibility limit, with or without requiring a detailed analysis of the estimated tax cost of non-deductible awards to the Company. Given our dynamic and rapidly changing industry and business, as well as the competitive market for outstanding leadership talent, the compensation committee believes it is important to retain the flexibility to design compensation programs consistent with its compensation philosophy for the Company, even if some executive compensation is not fully deductible.

Section 280G. Code Section 280G generally denies a deduction for a significant portion of certain compensatory payments made to corporate officers, certain stockholders and certain highly-compensated employees if the payments are contingent on a change of control of the employer and the aggregate amounts of the payments to the relevant individual exceed a specified relationship to that individual's average compensation from the employer over the preceding five years. In addition, Code Section 4999 imposes on that individual a 20% excise tax on the same portion of the payments received for which the employer is denied a deduction under Section 280G. In determining whether to approve an obligation to make payments for which Section 280G would deny the Company a deduction or whether to approve an obligation to indemnify (or gross-up) an executive against the effects of the Section 4999 excise tax, the committee has adopted an approach similar to that described above with respect to payments which may be subject to the deduction limitations of Section 162(m).

Future Executive Compensation

The compensation committee has not yet set executive compensation for fiscal 2008 other than base salaries. The committee is currently reviewing the Company's executive compensation arrangements in light of the Company's performance and the current healthcare environment. The committee expects to engage the services of a compensation consultant in connection with such review and expects to establish fiscal 2008 short and long term incentive arrangements for the Company's executive officers.

Chief Executive Officer Compensation

The compensation policies described above apply equally to the compensation of the Chief Executive Officer.

Committee Conclusions

Attracting and retaining talented and motivated management and employees is essential to create long-term shareholder value. Offering a competitive, performance-based compensation program with a large equity

Table of Contents

component helps to achieve this objective by aligning the interests of the Company's executive officers with those of shareholders. The committee believes that SunLink's 2007 compensation program met these objectives. Likewise, based on our review, the committee finds the total compensation (and, in the case of the severance and change-in-control scenarios, the potential payouts) to the Company's named executive officers in the aggregate to be reasonable and not excessive.

Compensation Committee Report

The compensation committee has reviewed the above Compensation Disclosure and Analysis with the Company's Chief Executive Officer and Chief Financial Officer. Based on a review of this Compensation Disclosure and Analysis and discussion with the compensation committee, the Company's Chief Executive Officer and Chief Financial Officer have approved the inclusion of the Compensation Disclosure and Analysis in this proxy statement.

(1) The Company did not grant any awards during Fiscal Year 2007. For fiscal 2008 we have awarded equity compensation to our named executive officers in the form of stock options granted under the 2005 Equity Incentive Plan. Such options entitle Mr. Thornton to purchase 70,000 shares, Mr. Stockslager to purchase 20,000 shares, Mr. Alvis to purchase 40,000 shares, Mr. Orth to purchase 2,000 shares and Mr. Spurr to purchase 8,000 shares at an exercise price of \$8.00 per share. One-third of such options will vest each year beginning on September 23, 2008. The exercise price of such options exceeded the fair market value of the Company's common stock on September 24, 2007, the date of grant. The closing price of the Company's common stock as of the date of grant was \$6.25. Because such grant is for the 2008 fiscal year, the value of such options is not included in the above table.

(2) The Company has not granted any awards under equity incentive plans the vesting of which is contingent upon the achievement of any performance based criteria. Vesting of Company awards is generally based on continued service and the passage of time, subject to acceleration upon the occurrence of various events.

The Company did not grant any awards to named executive officers during the fiscal year ended June 30, 2007 under any long-term incentive plan, as defined under applicable SEC Rules.

Pension Plan Benefits

Effective February 28, 1997, SunLink amended its domestic retirement plan to freeze participant benefits and close the plan to new participants. Accordingly, compensation earned after February 28, 1997 is not used in determining a participant's accrued benefit. Mr. Thornton and Mr. Stockslager are participants in the plan. The estimated monthly benefits to be received by them at age 65 are \$159.94 and \$601.24, respectively.

Table of Contents**Employment Contracts, Termination of Employment and Change-In-Control Arrangements***Employment Agreements*

Robert M. Thornton, Jr. Mr. Thornton, Chairman, President and Chief Executive Officer, is currently employed by the Company under the terms of an Employment Agreement effective July 1, 2005, as amended to date, for a term ending June 30, 2008 with automatic renewal periods of eighteen months. Mr. Thornton's current Employment Agreement provides for a base salary at a rate of not less than \$335,000 per annum effective July 1, 2005 and thereafter plus any increases that may be granted at least annually by the Company. Mr. Thornton will be eligible to participate in the Company's 2005 Equity Incentive Plan if the board decides to grant him additional options. Mr. Thornton is also eligible to receive an annual bonus of up to seventy percent of his annual base salary if certain criteria established by the compensation committee (in consultation with him) are met. Mr. Thornton is eligible to participate in the Company's medical, dental, life and disability programs.

Mr. Thornton's Employment Agreement also provides for severance payments in the event Mr. Thornton ceases to be employed by the Company. If Mr. Thornton is terminated for death, disability or cause, he is entitled to the accrued compensation under the Agreement, including a pro rata share of any annual bonus. If Mr. Thornton is terminated other than for death, disability or cause, he shall receive severance payments equal to thirty months salary, a pro rata portion of any annual bonus for which goals have been proportionately met and continuation of certain benefits for and during the thirty months following termination.

Mark J. Stockslager. Mr. Stockslager, Chief Financial Officer, is currently employed by the Company under the terms of an Employment Letter effective January 1, 2001. Mr. Stockslager's current Employment Letter provides for a salary of \$7,333 per month or \$88,000 on an annualized basis, which will be reevaluated at least annually to determine if any adjustments should be made. Currently, Mr. Stockslager's salary is \$12,500 per month or \$150,000 on an annualized basis. Additionally, Mr. Stockslager is also eligible to receive an annual bonus of up to forty percent of his annual base salary if certain criteria established by the compensation committee are met. Mr. Stockslager is eligible to participate in the Company's stock option program, as well as the Company's medical, dental, life and disability programs. The authority, duties and responsibilities of the audit committee of the board of directors of the Company are set forth in detail in the written audit committee charter, which was adopted by the board of directors of the Company and which complies with the applicable rules of the American Stock Exchange. The audit committee has three members, each of whom is independent under the applicable rules of the American Stock Exchange. In accordance with section 407 of the Sarbanes-Oxley Act of 2002, Mr. Ford has been identified as Audit Committee Financial Experts .

The audit committee reviews and assesses the adequacy of its charter on an annual basis.

The audit committee is responsible for overseeing the Company's financial reporting process on behalf of the board of directors. Management of the Company has the primary responsibility for the Company's financial reporting process, principles and internal controls as well as preparation of its financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for performing an audit of the Company's financial statements and expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles in the United States.

The audit committee has reviewed and discussed the Company's audited financial statements as of and for the year ended June 30, 2007, with management and the independent auditors. The audit committee has discussed with the independent auditors the matters required to be discussed under Standards of the Public Company Accounting Board (United States), including those matters set forth in Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended by Statement on Accounting Standards 90 (Audit and other Communications) as amended (AICPA, Professional Standards, Vol. 1 AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The independent auditors have provided to the audit committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and the audit committee has also considered whether the independent auditors' provision of information technology and other non-audit services to the Company is compatible with maintaining the auditors' independence. The audit committee has concluded that the independent auditors are independent from the Company and its management.

The audit committee met four times during the 2007 fiscal year. In addition, the members of the committee reviewed, and the chairman of the committee discussed with management and the Company's independent auditors, the interim financial information contained in each quarterly earnings release prior to the release of such information to the public.

The audit committee discussed with the Company's independent auditors the overall scope and plans for their respective audits. In addition, the audit committee met with the Chief Executive Officer and Chief Financial Officer of the Company to discuss the processes that they have undertaken to evaluate the accuracy and fair presentation of the Company's financial statements and the effectiveness of the Company's system of disclosure controls and procedures.

Table of Contents

In fulfilling its oversight responsibilities and as part of its review of the Company's 2007 Annual Report, the audit committee met with the Company's independent auditors, with and without management present, to discuss their evaluations of the Company's internal controls as well as the overall quality of its financial reporting.

The fees paid to the Company's auditors, Cherry, Bekaert & Holland, L.L.P., as well as the policy on pre-approval of audit and non-audit services are set forth elsewhere in this proxy statement.

As a result of the reviews and discussions with management and Cherry, Bekaert & Holland, L.L.P. referred to above, the audit committee recommended to the board and the board has approved that the audited financial statements of the Company be included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2007 for filing with the Securities and Exchange Commission.

The procedures require all proposed engagements of Cherry, Bekaert & Holland, L.L.P. for services of any kind to be directed to the Company's Principal Accounting Officer and then submitted for approval to the audit committee prior to the beginning of any services.
