Item 11. EXECUTIVE COMPENSATION

Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy and Objectives

PGT believes that the quality, skills and dedication of its named executive officers whose compensation is individually reported in this proxy statement are critical factors affecting the long-term stockholder value of PGT. We believe also that successful compensation programs for executive officers and other key employees, including the named executive officers, must further three primary objectives:

ensuring that compensation is aligned with the enhancement of stockholder value;

attracting and retaining quality personnel by providing rewards, including competitive salaries and benefits, for exemplary company and individual performance; and

providing incentives for future performance.

All compensation policies and decisions are designed to reward employees, including the named executive officers, who demonstrate the capacity to make a significant contribution to our financial and competitive performance, thereby furthering the first primary objective referred to above. Key factors to increase or decrease compensation include:

the nature, scope and level of the individual's responsibilities;

PGT's overall performance and profitability, which we primarily measure by net sales, EBITDA, earnings per share and return on operating investment and over the long-term through stock price increases and total return to stockholders; and

the employee's performance compared to the goals and objectives (which, in the case of the named executive officers, primarily relate to their effectiveness in leading our initiatives to increase sales, productivity, cash flow, income and revenue growth and the value we provide to our stockholders, customers, employees and suppliers).

Compensation to our named executive officers is intended to be competitive with that of similar companies with comparable sales. As part of our assessment, PGT, like other companies, looks to the compensation paid to individuals with similar responsibilities at peer companies. Because peer selection is somewhat difficult due to the lack of publicly-traded companies with which we compete and the lack of available data

Edgar Filing: PGT, Inc. - Form 10-K/A

for privately-held competitors, we focus primarily on compensation levels within our relevant labor market to ensure that PGT's compensation arrangements are in line with companies of its size, attract and retain executive talent and align each executive's interests with those of the stockholders.

Table of Contents

Based on our assessment of, among other things, general industry survey data of companies of similar size, we believe our total direct annual compensation to senior management (including our named executive officers), including total cash compensation and the annualized expected value of long-term incentive awards is generally at or below the level of total direct compensation for our peer group.

Roles and Responsibilities

The Compensation Committee of the Board of Directors and management (based on information including, but not limited to, research and certain other information provided by an independent compensation consultant retained by the Company in 2006), collaborate in the development, evaluation, and approval of our executive compensation programs. In general, the roles are discussed below; additional details regarding the roles of each are discussed throughout this Compensation Discussion and Analysis section.

Compensation Committee. The Compensation Committee was newly formed in 2007. As such, until the Compensation Committee was formed, the Board maintained direct authority and responsibility for the review, evaluation and approval of the compensation structure and level for all of our executive officers. The Board, based on a recommendation of the Compensation Committee, conducts an annual review and approval of the Chief Executive Officer's annual compensation, including an evaluation of his performance, corporate goals and objectives relevant to his compensation based on, among other things, contractual obligations, the Company's performance, the value of similar awards to chief executive officers of comparable companies, and the awards given to the Chief Executive Officer in past years.

Management. Our senior leadership team (which includes representation from each of the Company's major functional areas) sets our strategic business and operational objectives and strives to design and develop compensation programs that motivate executives behaviors consistent with such objectives. In collaboration with the Compensation Committee of the Board of Directors and considering information provided by the compensation consultant, our Chief Executive Officer, Chief Financial Officer and Vice President - Human Resources coordinate the annual review of the compensation programs for the executive officers. Such review includes an evaluation of individual and company performance, competitive practices and trends, and various compensation issues. Based on the outcomes of this review, management makes recommendations to the Compensation Committee of the Board of Directors regarding the compensation of each of the executive officers, other than the Chief Executive Officer.

Compensation Consultant. In 2006, the Company retained the services of Towers Perrin, a compensation consultant, to assist with compensation matters. The role of the consultant was to advise management and the Board of Directors in the executive compensation design process, provide independent compensation data and analysis to facilitate the annual review of the programs, and advise the Board of Directors in their oversight role. The compensation consultant attended meetings with our Board of Directors and management as needed. Specifically, Towers Perrin analyzed PGT's then-current incentive compensation arrangements for PGT's management team, including each of the named executive officers; and utilized an appropriate group of peer companies to use in recommending an appropriate structure for incentive compensation, including a long-term incentive plan through which the interests of management are directly aligned with those of our stockholders and consistent with PGT's status as a publicly-traded company.

Elements of Executive Compensation in 2007

We believe executive compensation should include the following four components:

Annual Base Salary. Our objectives are to target annual base salary at the median level and to make it competitive, when taken in conjunction with the other compensatory elements, to attract and retain executives.

Annual Cash Incentive Opportunity. PGT uses annual cash bonuses to reward certain employees, including each of the named executive officers, for the achievement of annual company and individual performance objectives.

Table of Contents

Long-Term Equity-Based Incentives. PGT utilizes long term equity-based incentives, principally grants of restricted stock and stock options, to foster a focus on the long-term best interests of PGT and its stockholders, thereby aligning the interests of the executives with those of the stockholders.

Executive Benefit and Perquisites. The Company provides modest benefits and perquisites to executive officers. As the Company seeks to maintain an egalitarian culture in its facilities and operations our executive compensation program remains relatively free of executive benefits and perquisites. Such benefits and perquisites which do exist, however, are described below.

Annual Base Salary

Our Board of Directors separately considers the salary and bonus of the chief executive officer. In determining his annual compensation, our Board of Directors considers the highly competitive industry in which we operate and the unique experience he brings to the position as well as his contributions to our long-term performance.

For our other named executive officers, our chief executive officer provides our Board of Directors with recommendations regarding compensation. Our Board of Directors reviews such recommendations and approves annual compensation for named executive officers, consisting of base salary and target bonus (discussed below), on an annual basis. Our Board of Directors may request additional information and analysis and ultimately determines in its discretion, based on its own analysis and judgment and the recommendations of the chief executive officer, whether to approve any recommended changes in compensation.

Our goal is to pay each named executive officer a base salary sufficient to remain competitive in the market. Our base salaries are less performance based than our annual cash bonuses and long term equity-based incentives. See the Summary Compensation Table for Fiscal Years 2006 and 2007 for a listing of our named executive officers. Mr. Hershberger's base salary was \$325,000 per year; which was not increased from the prior year. Mr. Jackson's base salary was increased by \$13,000 effective on April 1, 2007 to \$273,000 per year. Mr. Ferrucci's base salary was increased \$10,000 effective on April 16, 2007 to \$205,000 per year. Mr. Moore's base salary was increased \$11,000 effective on April 1, 2007 to \$286,000 per year. Mr. Moore's employment with the Company terminated on December 31, 2007. Ms. Kotler's base salary was \$185,000 per year, which was not increased from the prior year. These salary increases were largely reflective of the Board of Directors' perception of individual performance, competitiveness of salary in the marketplace and inflation adjustments. Base salary paid to the named executive officers in 2007 constituted approximately the following percentages of their total compensation as set forth in the Summary Compensation Table: Mr. Hershberger: 98.2%; Mr. Jackson: 54.9%; Mr. Ferrucci: 43.7%; Mr. Moore: 24.7% and Ms. Kotler: 53.8%.

Annual Cash Incentive Opportunity

In order to provide incentives for future annual performance, we believe that a substantial portion of each named executive officer's compensation should be in the form of a bonus, the amount of which is based upon both individual and company performance. Accordingly, our policy is to allocate an amount equal to a target range of 30% to 50% of a named executive officer's annual base salary to performance based cash bonus awards. There were no payments of cash bonuses to participants in the 2007 Annual Incentive Plan, or 2007 AIP, including each of the named executive officers.

Our Board of Directors established annual cash bonus targets as a percentage of salary under the 2007 AIP for each named executive officer. As a percentage of base salary, these targets were 50% for Mr. Hershberger, 45% for Messrs. Jackson and Moore, 30% for Mr. Ferrucci and 30% for Ms. Kotler, respectively. The 2007 AIP was based on an opportunity of which:

40% was based on net sales,

40% was based on earnings per share, and

20% was based on return on operating investment.

Table of Contents

If PGT achieves less than 100% of its target for net sales, earnings per share, or return on operating investment, the corresponding percentage of the opportunity based on such respective measurement will be reduced accordingly. Conversely, if PGT achieves greater than 100% of its target for net sales, earnings per share, or return on operating investment, the corresponding percentage of the opportunity based on such respective measurement will be increased, to a maximum of 200%. Specific targets, for each of the above, are set so they can only be achieved through performance that exceeds that which is generally expected in the current economic and industrial environment. As such, company-wide performance at these targeted levels, which is required for an executive officer to obtain his/her target annual cash bonus, is challenging.

Our Board of Directors, in its sole discretion, administered the 2007 AIP and had the right to modify the awards and the terms of such plan, and, based on achievement of individual objectives or performance, among other things, determines final awards. No payments of cash bonuses to participants in the 2007 AIP have been or will be made, including to the named executive officers.

Long-Term Equity-Based Incentives

We believe the best way to align the interests of the named executive officers and our stockholders are for such officers to own a meaningful amount of our common stock. In order to reach this objective and to retain our executives, we grant equity-based awards to named executive officers under the long term incentive portion of our 2006 Equity Incentive Plan.

Long-term incentive compensation, rather than reflecting a single year's results, is intended to reward performance over the long term. Our practice is to structure this long-term incentive compensation in the form of options and restricted stock granted under the Company's Long-Term Incentive Plan, or LTIP. All outstanding options have an exercise price equal to the fair market value of the common stock on the date of grant. Options granted to officers and employees have been granted on, or shortly after, the date that PGT's Board of Directors authorized the grant of the option.

In 2007, stock options and restricted stock granted pursuant to the Company's LTIP were authorized by our Board of Directors and granted three market days after the Company released its fiscal year earnings. From time to time, options and restricted stock have been granted to officers on the respective dates of commencement of their employment with the Company, and restricted stock has been granted to non-management directors, other than those affiliated with our majority stockholder, in connection with commencement of service on the Board.

Restricted stock and options create a strong link between executive compensation and stockholder return and contribute to the ability of our executives to develop a meaningful ownership interest in PGT. In order to allow executive officers to benefit from increases in common stock values and thus provide such officers a continuing incentive to achieve results beneficial to the stockholders, we generally award restricted stock and options on an annual basis on terms providing for vesting over a period of time. In comparison with stock option awards, restricted stock awards are less dilutive and still closely align the interests of the named executive officers with those of our stockholders.

The Board of Directors of the Company determined that, as a result of economic conditions that have adversely affected the Company and the industry in which the Company competes, the options held by certain designated employees had exercise prices that were significantly above the current market price of the Company's common stock and that the grants of replacement options would help the Company retain and provide additional incentive to such designated employees and align their interests with those of the Company's stockholders.

Therefore, on March 6, 2008, the Board of Directors approved, subject to the approval of the Company's stockholders, the cancellation and termination of the then-current option agreements of certain designated employees of the Company, including Messrs. Jackson and Ferrucci and Ms. Kotler, and the grant of replacement options under the Company's 2006 Equity Incentive Plan.

Table of Contents

Pursuant to the terms of the Replacement Option Agreement executed on March 6, 2008 by each of the designated employees, the grant of replacement options is conditioned upon the approval of the Company's stockholders at a duly called annual or special meeting. If the grant of replacement options and the cancellation and termination of the then-current option agreements fail to be approved by the Company's stockholders on or prior to September 30, 2008, the Replacement Option Agreements will automatically expire without further action of the parties and become null and void, and the then-current option agreements will be reinstated and continue in full force and effect.

The replacement options have an exercise price of \$3.09 per share, which was the closing price on the NASDAQ Global Market of the Company's common stock on March 5, 2008, the day before the date on which the Board of Directors of the Company granted the replacement options and the designated employees executed the Replacement Option Agreements. The replacement options are exercisable with respect to one third of the shares (rounded to the nearest whole share) on each of the first, second, and third anniversaries of March 6, 2008. The replacement options expire on March 6, 2015.

Mr. Jackson was granted an option to purchase an aggregate of 152,675 shares of the Company's common stock at an exercise price of \$3.09 per share. Executive Benefits and Perquisites

Our executive compensation program remains relatively free of fringe benefits and perquisites. Generally, benefits and perquisites available to executive officers are available to all employees on similar terms.

The Company does not provide its executive officers separate dining or other facilities, company cars, club dues, or other similar perquisites. Company-provided air travel for executive officers is for business purposes only. The Company's use of non-commercial aircraft on a rental basis is limited to appropriate business-only travel. The Company's health care, insurance, 401(k) plan, and other welfare and employee-benefit programs are the same for all eligible employees, including the named executive officers. In certain situations, we provide our named executive officers with expense reimbursement relating to relocation. Additionally, the Company does, within certain limits, provide product free of charge to executive officers for installation in their respective primary residences. The Company does not, however, pay for the cost of installing such product.

We provide the above-described executive benefits and perquisites in order to attract and retain our named executive officers by offering compensation opportunities that are competitive with those offered by similarly situated public companies. However, such executive benefits and perquisites represent a relatively small portion of their total compensation. The value of benefits and perquisites provided are presented in the "All Other Compensation" column (and described in the related footnotes) of the Summary Compensation Table for Fiscal Years 2006 and 2007.

Table of Contents**Other Compensation**

Retirement/Post-Employment Benefits. The Company does not provide any retirement programs, pension benefits or deferred compensation plans to its named executive officers other than its 401(k) plan, which is available to all employees.

Equity Grant Practices. The Board's plan is to grant annual equity awards to certain eligible employees, including the named executive officers, following the release of earnings in February of each year to ensure that the most current information regarding the Company's financial position is properly reflected in the fair market value for all such equity grants. We do not engage in the practice of timing equity grants prior to the release of material non-public information. We determine the fair market value of equity grants as the closing price of the Company's common stock on the date immediately preceding the grant date.

Employment Agreements

We have entered into employment agreements with each of our named executive officers. Each of these agreements has a term of three years, with automatic one-year renewals commencing on the first anniversary of the effective date of the employment agreement. In addition to providing for an annual base salary and employee benefits, these agreements provide, among other things, that the executive is eligible for an annual performance bonus, as determined by the President of the Company and the Board of Directors, in their discretion. The executive must be employed at the time such bonus is awarded and paid by the Company.

Under each of these employment agreements, in the event that (a) the executive's employment is terminated by us without cause (as defined in the employment agreement) or (b) the executive terminates his/her employment because of (i) a material adverse diminution of his/her duties or responsibilities to which he/she has not agreed in writing, (ii) the assignment of the executive to a location outside of a fifty (50) mile radius from the Company's current headquarters, or (iii) conduct on the part of the Company amounting to fraud against the executive; in addition to the benefits otherwise due to the executive and as otherwise required by law, the executive is entitled to continuation of his/her base salary for twelve months after the date of termination. Should the executive terminate his/her employment other than for the reasons set forth above in clause (b), the Company will continue to pay such executive's salary for the shorter of thirty days or the notice period provided by the executive with respect to his/her termination. In addition, under this employment agreement, in the event that the executive's employment is terminated by his or her death or disability (as defined in the employment agreement), in addition to the benefits otherwise due to him or her, the Company will pay to the executive (or, in the case of death, to his or her designated beneficiary) his/her base salary for a period of six months.

During the executive's employment with us and at all times thereafter, he/she may not disclose confidential information. During the executive's employment with us and for two years thereafter, unless the employment agreement is terminated by us without cause or by him/her for the reasons set forth in the paragraph above in clause (b), in which case the period will be the duration of the executive's employment with us and for one year thereafter (except in the case of Mr. Hershberger, for whom the period is two years thereafter), the executive may not directly or indirectly compete with the Company. In addition, the executive may not solicit any employees or agents of the Company or any suppliers or contractors of the Company to terminate or adversely change their relationships with us.

The following table summarizes the value of the termination payments and benefits that our named executive officers would receive if they had terminated employment on December 29, 2007 under the circumstances shown. The amounts shown in the table exclude distributions under our 401(k) retirement plan and any additional benefits that are generally available to all of our salaried employees.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS
SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding the beneficial ownership of our common stock as of April 23, 2008, unless otherwise noted, for (a) each person who is known by us to own beneficially more than 5% of the outstanding shares of our common stock, (b) each of our incumbent directors, (c) each of our named executive officers named in the Summary Compensation Table, and (d) all of our incumbent directors and executive officers as a group.

The percentages of shares outstanding provided in the table below are based on 27,777,512 voting shares outstanding as of April 23, 2008. Beneficial ownership is determined in accordance with SEC rules and generally includes voting or investment power with respect to securities. Unless otherwise indicated, each person or entity named in the table has sole voting and investment power, or shares voting and investment power with his or her spouse, with respect to all shares of stock listed as owned by that person. The number of shares shown does not include the interest of certain persons in shares held by family members in their own right. Shares issuable upon the exercise of options that are exercisable within 60 days of April 23, 2008 are considered outstanding for the purpose of calculating the percentage of outstanding shares of our common stock held by the individual, but not for the purpose of calculating the percentage of outstanding shares held by any other individual. The address of our directors and executive officers is c/o PGT, Inc., 1070 Technology Drive, North Venice, FL 34275.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE
CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Since December 31, 2006 (the first day of the Company's 2007 fiscal year), there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or are to be a party in which the amount involved exceeds \$120,000 and in which any director, executive officer or holder of more than 5% of our common stock, or an immediate family member of any of the foregoing, had or will have a direct or indirect interest other than compensation arrangements, which are described above.

Director Independence

The Board of Directors applies standards in affirmatively determining whether a director is independent, in compliance with applicable SEC rules and the rules of The NASDAQ listing standards. The Board of Directors, in applying the above-referenced standards, has affirmatively determined that Messrs. Feintuch, McHugh, Morgan and Sherman are independent directors. As part of the Board's process in making such determination, it also determined that each such director has no other material relationship with the Company that could interfere with his ability to exercise independent judgment.

In addition to Messrs. Feintuch, McHugh, Morgan and Sherman, our Board of Directors includes: one management director, Mr. Hershberger, who is the Company's President and CEO; five directors (Chairman Levy and Messrs. Agroskin, Castaldi, Frank and Milgrim) who are affiliated with our majority stockholder; and Mr. White.

As part of its annual evaluation of director independence, the Board examined (among other things) whether any transactions or relationships exist currently (or existed during the past three years), between each independent director and the Company, its subsidiaries, affiliates, equity investors, or independent auditors and the nature of those relationships under the relevant NASDAQ and SEC standards. The Board also examined whether there are (or have been within the past year) any transactions or relationships between each independent director and any executive officer of PGT or its affiliates. As a result of this evaluation, the Board has affirmatively determined that each independent director is independent under those criteria. Independent directors meet in regularly scheduled executive sessions outside the presence of other directors and management representatives. Interested parties, including stockholders, may communicate with the Chairman of the Board of Directors or the independent directors as a group through the process described in our proxy statement for our 2007 annual meeting of shareholders, previously filed with the SEC, under the heading Corporate Governance Policy on Stockholder-Director Communications.

Principal Accountant Fees and Services

Our independent registered public accounting firm may not be retained to perform the non-audit services specified in Section 10A(g) of the Exchange Act. Pursuant to the Audit Committee Charter, the Audit Committee reviews and, in its sole discretion, approves in advance the Corporation's independent auditors' annual engagement letter, including the proposed fees contained therein, as well as all audit and, as provided in the Sarbanes-Oxley Act of 2002 and the SEC rules and regulations promulgated thereunder, all permitted non-audit engagements and relationships between the Corporation and such independent auditors (which approval should be made after receiving input from the Corporation's management, if desired).

With respect to the audits for the year ended December 29, 2007 and December 30, 2006, the Audit Committee approved the audit services performed by Ernst & Young, LLP, as well as certain categories and types of audit-related, tax, and permitted non-audit services.
