Item 8.01 Other Events

ConAgra Foods, Inc. (the Company, we, us or our) has filed this Current Report on Form 8-K in order to update the historical financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations (the MD&A), for all periods presented in our Annual Report on Form 10-K for the fiscal year ended May 25, 2008 filed with the United States Securities and Exchange Commission (the Commission) on July 23, 2008 (the Form 10-K), to reflect the changes described below. These changes had no effect on the Company's reported net income or earnings per share.

As previously reported in our Quarterly Report on Form 10-Q for the quarter ended August 24, 2008 filed with the Commission on October 2, 2008 (the Form 10-Q), we have revised our reporting segments. The Form 10-K reported our results of continuing operations in three segments, the Consumer Foods segment, the Food and Ingredients segment, and the International Foods segment. During the first quarter of fiscal 2009, we completed the assimilation of the international operations primarily into the domestic Consumer Foods business and completed the transition of the direct management of the Consumer Foods reporting segment to the Chief Executive Officer. Accordingly, we have begun to report our operations in two reporting segments: Consumer Foods and Commercial Foods (formerly Food and Ingredients). The majority of the former International Foods segment operations are now managed within the Consumer Foods segment.

As required by Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information (SFAS 131), our consolidated financial statements issued subsequent to this segment reporting change are required to reflect modifications to our reportable segment information resulting from the revision, including reclassifications of all comparative prior period segment information. Accordingly, the Form 10-Q already reflects the change in segment reporting. We are providing in this Form 8-K reclassified applicable segment information in the footnotes to our financial statements and revised MD&A for each of the prior periods reported in the Form 10-K because those items are being incorporated by reference into a filing with the Commission under the Securities Act of 1933, as amended.

Beginning in the first quarter of fiscal 2009, we began including the earnings (losses) from equity method investments in segment results below operating profit. We have also updated prior period MD&A included in the Form 10-K to reflect this change.

Exhibits 99.1 and 99.2 attached hereto retroactively reflect the reclassifications described above. However, the Company has not updated matters in the Form 10-K except to the extent discussed herein. Certain other events occurring after May 25, 2008 have been disclosed in other public filings made by the Company, including various Current Reports on Form 8-K and the Form 10-Q.
