Item 7.01 Regulation FD Disclosure

KAR Holdings, Inc. hosted an Analyst Day at the ADESA Boston Auction on Friday, December 12, 2008. In addition, the Company posted its Analyst Day presentation visuals on the KAR Holdings, Inc. Web site at <http://www.karholdingsinc.com>. The Analyst Day featured presentations by John Nordin, Executive Vice President and Chief Information Officer, Tom Kontos, Executive Vice President of Customer Strategies and Analytics and Eric Loughmiller, Executive Vice President and Chief Financial Officer. The presentation visuals are attached to this Current Report on Form 8-K as Exhibit 99.1 and incorporated herein by reference in their entirety.

Within the Analyst Day presentation visuals, the Company makes reference to certain non-GAAP financial measures. The non-GAAP financial measures include the following: EBITDA, Adjusted EBITDA and Adjusted EBITDA per the credit agreement. The Company has presented reconciling information along with the most directly comparable financial measure calculated and presented in accordance with Generally Accepted Accounting Principles in the United States (GAAP) for each of the above non-GAAP financial measures in the Analyst Day presentation visuals. In addition, the Company s reasons for presenting these non-GAAP financial measures are discussed below.

The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and quarter-sequential basis. Investors should consider these non-GAAP measures in addition to, not as a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. The specific reasons, in addition to the reasons described above, why the Company s management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding the Company s results of operations are as follows:

EBITDA, Adjusted EBITDA and Adjusted EBITDA per the Credit Agreement The Company s management believes that EBITDA is a useful supplement and meaningful indicator of earnings performance to be used by its investors, financial analysts and others to analyze the Company s financial performance and results of operations over time. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about one of the principal internal measures of performance used by the Company. Management uses the Adjusted EBITDA measure to evaluate the performance of the Company and to evaluate results relative to incentive compensation targets. Adjusted EBITDA per the Credit Agreement adds the pro forma impact of recent acquisitions and the pro forma cost savings per the credit agreement to Adjusted EBITDA. This measure is used by the Company s creditors in assessing debt covenant compliance and management believes its inclusion is appropriate to provide additional information to investors about certain covenants required pursuant to the Company s senior secured credit facility and notes. The most directly comparable financial performance measure calculated and presented in accordance with GAAP is net income (loss). A reconciliation of net income (loss) to EBITDA, Adjusted EBITDA and Adjusted EBITDA per the Credit Agreement is contained in the appendix to the Analyst Day presentation visuals.
