**Chunghwa Telecom Reports Operating Results for the First Quarter of 2009**

**And the Forecast for the Second Quarter of 2009**

**Taipei, Taiwan, R.O.C. April 29, 2009** - Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) ( Chunghwa or the Company ), today reported its operating results for the first quarter of 2009. All figures are presented on a consolidated basis and prepared in accordance to generally accepted accounting principles in the Republic of China ( ROC GAAP ).

Dr. Shyue-Ching Lu, Chairman and Chief Executive Officer of Chunghwa Telecom commented, For the first quarter of 2009, we continued to executive on our strategic focus of maintaining market leadership for our core services as well as expanding our digital-converged services such as broadband and mobile value-added services, MOD/IPTV, and key enterprise solutions. As a result, we are able to stabilize our top-line performance under the current adverse economic situation. In addition, I am pleased that our Board of Directors approved a third round of capital reduction program for us to return cash to shareholders in 2009. For this round, we estimate to return a total of NT\$9.7 billion, which is a strong testament of our continued commitment to maximizing shareholder value.

Given the current global economic environment, decreased visibility, and increased market volatility, we are changing our customary guidance format. We want to be as transparent as possible, but also need to be prudent with regard to comments about future outlook. As a result, CHT has decided not to provide full-year guidance for 2009; instead, we will give guidance on a quarterly basis.

*(Comparisons, unless otherwise stated, are with respect to the prior year period)*

**Financial Highlights for 1Q09:**

- Total revenue decreased by 3.6% to NT\$49.1 billion
- Internet and data revenue decreased 0.5% to NT\$12.5 billion
- Mobile revenue decreased 3.1% to NT\$17.6 billion; mobile VAS revenue increased by 18.5%
- Net income totaled NT\$10.8 billion, representing an increase of 0.7%
- Earnings per share ( EPS ) remained flat at NT\$1.11

## Revenue

Given the global economic condition and the increasing market competition, Chunghwa's total revenue for the first quarter of 2009 decreased by 3.6% year-over-year to NT\$49.1 billion, of which 26.7% was from fixed-line services, 35.8% was from mobile services, 25.4% was from Internet and data services, and the remainder was mainly from handset sales from Chunghwa's subsidiary SENA0 on a consolidated basis.

For the mobile business, total revenue for the first quarter of 2009 amounted to NT\$17.6 billion, representing a decline of 3.1% year-over-year. We made progress by increasing our subscriber numbers by 2.9% and by enhancing our VAS service revenues by 18.5% compared to 1Q2008.

However, these successes were offset by the economic downturn and the market competition.

The Internet and data revenue slightly decreased by 0.5% year-over-year to NT\$12.5 billion, mainly because of the tariff cut for ISP and ADSL services.

The fixed-line revenue totaled NT\$13.1 billion, decreasing 8.9% year-over-year. The local and domestic long distance revenues were decreased by 6.2% and 10.1% respectively, for the first quarter of 2009. These decreases were mainly due to the overall economic downturn, mobile and VOIP substitution. The international long distance revenue was decreased by 14.4% year-over-year, as a result of the overall economic downturn, VOIP substitution and the market competition.

Other revenue increased by 1.1% mainly due to the reclassification of non-core value added service from Internet and data service.

## Costs and expenses

For the first quarter of 2009, total operating costs and expenses increased year-over-year by 1.3% to NT\$35.0 billion, primarily due to the increase in personnel expense. This personnel expense increase was mainly because the Company increased the ceiling of performance-based bonus in order to encourage its employees.

## Income tax

The Company's income tax for the first quarter of 2009 was NT\$3.3 billion, representing a 4.2% decrease compared to NT\$3.5 billion for the first quarter of 2008. This was primarily due to the decrease in the taxable income resulted from the decline of operating profit.

## EBITDA and net income

EBITDA for the first quarter of 2009 decreased by 10.7% year-over-year to NT\$23.4 billion, resulting in an EBITDA margin of 47.6%, down from 51.3% for the first quarter of 2008. The EBITDA decline was primarily due to the decrease in revenue and the increase in operating expenses. Net income for the first quarter of 2009 was NT\$10.8 billion, representing an increase of 0.7% year-over-year. This net income growth was primarily attributable to the increase in the non-operating income and decrease in the income tax.

### **Capital Expenditure ( Capex )**

The capex for the first quarter of 2009 amounted NT\$4.7 billion, a 13.8% decrease compared to that for the same period in 2008. Among the NT\$4.7 billion capex, 73.6% was for wireline and 17.0% was for wireless.

### **Cash Flows**

Net cash flow from operating activities decreased by 13.6% to NT\$16.1 billion year-over year. The decrease was primarily because of the decline in EBIT year-over-year. Similarly, free cash flow for the first quarter of 2009 also decreased by 13.6% compared to the first quarter of 2008.

The Company's cash and cash equivalents amounted to NT\$69.2 billion as of the end of the first quarter of 2009.

### **Business Performance Highlights:**

#### **Internet and Data Services**

n By the end of March 2009, total HiNet subscribers decreased 0.4% year-over-year. Overall, the Company had 4.3 billion broadband subscribers (including ADSL and FTTx subscribers) at the end of March 2009, representing a 0.6% growth year-over-year. By the end of the first quarter of 2009, FTTx subscriptions with an average service speed of 10Mbps reached 1.19 million, representing 27.7% of total broadband subscribers.

n As of the end of the first quarter of 2009, Chunghwa had 686,000 MOD subscribers, equivalent to 57.6% year-over-year increase.

#### **Mobile Services**

n As of March 31, 2009, Chunghwa had 8.98 million mobile subscribers, up 2.9% compared to 8.72 million as of the first quarter of 2008.

n Chunghwa remained the leading mobile operator in Taiwan. According to statistics published by the ROC National Communications Commission, the Company's total subscriber market share (including 2G, 3G and PHS) was 35.1%, while the Company's mobile revenue share was 34.0% as of the end of February 2009.

n As of March 31, 2009, Chunghwa had 3.85 million 3G subscribers, representing a 48.9% increase as compared to that of the end of March 2008.

n Mobile VAS revenue for the first quarter of 2009 was NT\$2.05 billion, posting a 18.5% increase year-over-year. Of this increase, SMS revenue was up 12.9% and mobile Internet revenue increased by 49.6% year-over-year, respectively.

**Fixed-line Services**

As of the end of the first quarter of 2009, the Company maintained its leading fixed-line market position, with fixed-line subscribers totaling 12.66 million. According to statistics published by the ROC National Communications Commission, the Company's fixed line subscriber market share was 97.3%.

**Forecast for the Second Quarter 2009**

Chunghwa will not provide full-year guidance for 2009 due to the current global economic environment, decreased visibility, and increased market volatility. Chunghwa will instead issue guidance on a quarterly basis for 2009. With this change, Chunghwa believes it will be able to provide the market with the most accurate and relevant information regarding future outlook.

**n Note Concerning Forward-looking Statements**

This press release contains forward-looking statements. These statements constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as will, expects, anticipates, future, intends, plans, believes, estimates and similar statements. Chunghwa may also make oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission on forms 20-F and 6-K., in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about Chunghwa's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties that could cause actual results to differ materially from those contained in any forward-looking statement. Investors are cautioned that actual events and results could differ materially from those statements as a result of a number of factors including, but not limited to: extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks outlined in Chunghwa's filings with the U.S. Securities and Exchange Commission, including its registration statements on Form F-1, F-3, F-6 and 20-F, in each case as amended. Chunghwa does not undertake any obligation to update any forward-looking statement, except as required under applicable law.

This release is not an offer of securities for sale in the United States. Securities may not be offered or sold in the United States absent registration or an exemption from registration. Any public offering of securities to be made in the United States will be made by means of a prospectus that may be obtained from the issuer or selling security holder and that will contain detailed information about the company and management, as well as financial statements.

**n Special Note Regarding Non-GAAP Financial Measures**

A body of generally accepted accounting principles is commonly referred to as GAAP. A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. We disclose in this report certain non-GAAP financial measures, including EBITDA. EBITDA for any period is defined as consolidated net income (loss) excluding (i) depreciation and amortization, (ii) total net comprehensive financing cost (which is comprised of net interest expense, exchange gain or loss, monetary position gain or loss and other financing costs and derivative transactions), (iii) other expenses, net, (iv) income tax, (v) cumulative effect of change in accounting principle, net of tax and (vi) (income) loss from discontinued operations.

In managing our business we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA can be useful to facilitate comparisons of operating performance between periods and with other companies because it excludes the effect of (i) depreciation and amortization, which represents a non-cash charge to earnings, (ii) certain financing costs, which are significantly affected by external factors, including interest rates, foreign currency exchange rates and inflation rates, which have little or no bearing on our operating performance, (iii) income tax and tax on assets and statutory employee profit sharing, which is similar to a tax on income and (iv) other expenses or income not related to the operation of the business.

EBITDA is not a measure of financial performance under ROC GAAP. EBITDA should not be considered as an alternate measure of net income or operating income, as determined on a consolidated basis using amounts derived from statements of operations prepared in accordance with ROC GAAP, as an indicator of operating performance or as cash flows from operating activity or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company's overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expenses and income taxes, depreciation, pension plan reserves or capital expenditures and associated charges. These non-GAAP measures are not in accordance with or an alternative for GAAP financial data, the non-GAAP results should be reviewed together with the GAAP results and are not intended to serve as a substitute for results under GAAP, and may be different from non-GAAP measures used by other companies. For more information on these non-GAAP financial measures, please see the tables captioned set forth at the end of this release and which shall be read together with the accompanying financial statements prepared under ROC GAAP.

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have reviewed the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of March 31, 2009 and 2008, and the related statements of income and cash flows for the three months then ended, all expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our review.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 36, Review of Financial Statements, issued by the Auditing Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an audit opinion.

As discussed in Note 12 to the financial statements, we did not review all financial statements of equity-accounted investments, the investments in which are reflected in the accompanying financial statements using the equity method of accounting. The aggregate carrying values of the equity method investees were NT\$7,439,250 thousand and NT\$6,169,658 thousand as of March 31, 2009 and 2008 and the equity in their net losses were NT\$2,877 thousand and NT\$31,680 thousand for the three months ended March 31, 2009 and 2008, respectively.

Based on our reviews, except for the effects of such adjustments, if any, as might have been determined to be necessary had the investment information mentioned in the preceding paragraph and related information been based on the investees' reviewed financial statements, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the financial statements, on January 1, 2008, the Company adopted Interpretation 96-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

We have also reviewed the consolidated financial statements of the Company and its subsidiaries as of and for the three months ended March 31, 2009 and 2008, and have issued a reserve review report.

Notice to Readers

*The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the accountants' review report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants' review report and financial statements shall prevail.*

**NOTES TO FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2009 AND 2008**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**(Reviewed, Not Audited)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As the dominate telecommunications service provider of fixed-line services in the ROC, Chunghwa is subject to additional regulations imposed by ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold common shares of Chunghwa by auction in the ROC on August 9, 2005 and completed the second international offering on August 12, 2005. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

As of March 31, 2009 and 2008, the Company had 24,530 and 24,423 employees, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of financial statements requires management to make certain estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, remuneration to board of directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

### **Cash Equivalents**

Cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and are designated as FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sale of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset, when the fair value is negative, the derivative is recognized as a financial liability.

### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks - at closing prices at the balance sheet date; open-end mutual funds - at net asset values at the balance sheet date; bonds - quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when they are realized or realizable and earned. Revenues are realized or realizable and earned when the Company has persuasive evidence of an arrangement, the goods have been delivered or the services have been rendered to the customer, the sales price is fixed or determinable and collectibility is reasonably assured.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts agreed between the Company and the customers for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade receivables due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

The costs of providing services are recognized as incurred. Incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract are recognized in marketing expenses as incurred.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Where the Company enters into transactions which involve both the provision of air time bundled with products such as 3G data card and handset, total consideration received from handsets in these arrangements is allocated and measured using units of accounting within the arrangement based on relative fair values limited to the amount that is not contingent upon the delivery of other items or services.

Where the Company sells products to third party cellular phone stores the Company records the direct sale of the products, typically handsets, as gross revenue when the Company is the primary obligor in the arrangement and when title is passed and the products are accepted by the stores.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

### **Inventories**

Inventories including merchandise and work-in-process are stated at the lower of cost (weighted-average cost) or net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

### **Investments Accounted for Using Equity Method**

Investments in companies in which the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity method investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale, (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital to the extent available, with the balance charged to retained earnings.

### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values cannot be reliably measured such as non-publicly traded stocks are measured at their original cost. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash dividends and stock dividends arising from available-for-sale financial assets.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance is recognized as a loss in earnings. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment loss could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment .

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 10 to 60 years; computer equipment - 6 to 10 years; telecommunications equipment - 6 to 15 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

### **Intangible Assets**

Intangible assets mainly include 3G Concession, computer software and patents.

The 3G Concession is valid through December 31, 2018. The 3G Concession and any additional licensing fees are amortized on a straight-line basis from the date operations commence through the date the license expires. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

The Company adopted Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stock and capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient, the difference is charged to retained earnings.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders' approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at period-end; stockholders' equity - historical rates, income and expenses - average rates during the period. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

**Hedge Accounting**

A hedging relationship qualifies for hedge accounting only if, all of the following conditions are met: (a) at the inception of the hedge, there is formal documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge; (b) the hedge is expected to be highly effective in achieving offsetting changes in fair value attributable to the hedged risk, consistently with the risk management strategy documented for that particular hedging relationship; (c) the effectiveness of the hedge can be reliably measured; (d) the hedge is assessed on an ongoing basis and determined actually to have been highly effective throughout the financial reporting periods for which the hedge was designated.

The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in earnings.

**3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLES**

The Company adopted the newly-revised Statements of Financial Accounting Standards No. 10, Accounting for Inventories, ( SFAS No. 10 ) beginning from January 1, 2009, which requires inventories to be stated at the lower of cost (weighted-average cost) or net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. The inventory-related incomes and expenses shall be classified in operating cost. The adoption of the revised SFAS No. 10 does not have significant impact on the Company's net income and basic earnings per share (after income tax) for the three months ended March 31, 2009. The Company reclassified the non-operating expenses of \$6,064 thousand to operating costs for the three months ended March 31, 2008.

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. Beginning from 2009, such bonuses are classified as an operating activity for purposes of the statement of cash flows when paid.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. The investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. Chunghwa will terminate the investment management agreements on April 14, 2009, and the fund managers will dispose of the investment portfolios before the termination date.

Chunghwa entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

Outstanding forward exchange contracts on March 31, 2009 and 2008 were as follows:

As of March 31, 2008, the amount paid for future deposit was \$86,474 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations were made biweekly starting from September 20, 2007 which were 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate was less than NT\$31.50 per US dollar at any two consecutive biweekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa was required to make a cash payment to Goldman. The settlement amount was determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate was above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate was at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract would be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman with annual yield rate of 8%. On October 21, 2008, the exchange rate was above NT\$32.70 per US dollar, so the contract was terminated at that time.

Net losses arising from financial assets and liabilities at fair value through profit or loss for the three months ended March 31, 2009 and 2008 were \$19,435 thousand (including realized settlement loss of \$15,145 thousand and valuation loss of \$4,290 thousand) and \$1,879,511 thousand (including realized settlement gain of \$271,175 thousand and valuation loss of \$2,150,686 thousand), respectively.

Chunghwa invested in Senao International Co., Ltd. ( SENAO ) in January 2007, for a purchase price of \$1,065,813 thousand. Furthermore, on March 27, 2009, the board of directors of Chunghwa resolved to purchase 48,000 thousand common shares of SENAO through SENAO's private placement. The purchase price of these common shares is not yet determined, and Chunghwa's ownership of SENAO is expected to increase to 41% after the purchase. SENAO engages mainly in telecommunication facilities sales.

Chunghwa established 100% shares of Light Era Development Co., Ltd. ( LED ) by prepaying \$3,000,000 thousand in January 2008. LED completed its incorporation on February 12, 2008. LED engages mainly in development of property for rent and sale.

Chunghwa established Chunghwa Telecom Singapore Pte., Ltd. ( CHTS ) in July 2008, for a purchase price of \$200,000 thousand, and increase capital for \$579,280 thousand in September 2008. CHTS engages mainly in data wholesale, IP Transit, IPLC, IP VPN, voice wholesale services, and reinvests in the world satellite business. ST-1 telecommunications satellite is expected to be retired in 2011; therefore, CHTS and SingTelSat Pte., Ltd. established a joint venture, ST-2 Satellite Ventures Pte., Ltd. ( SSVP ) in Singapore in October 2008 in order to maintain the current service. SSVP will engage in the installation and the operation of ST-2 telecommunications satellite.

Chunghwa prepaid \$283,500 thousand to invest in InfoExplorer Co., Ltd. ( IFE ) and the record date of capital increase of IFE was January 5, 2009. Chunghwa acquired 49% of ownership. Chunghwa has control of IFE by obtaining above half of seats of the board of directors of IFE on January 20, 2009, which was IFE's stockholder's meeting. IFE mainly engages in information system planning and maintenance, software development, and information technology consultation services.

Chunghwa invested in Donghwa Telecom Co., Ltd. ( DHT ) in December 2007 and September 2008 for a purchase price of \$11,430 thousand and \$189,833 thousand. DHT engages mainly in international telecommunications, IP fictitious internet and internet transfer services.

Chunghwa established Viettel-CHT Co., Ltd. ( Viettel-CHT ) with Viettel Co., Ltd. in Vietnam in April 2008, by investing \$91,239 thousand cash at the end of 2008. Viettel-CHT engages mainly in IDC services.

Chunghwa invested in KingWaytek Technology Co., Ltd. ( KWT ) in January 2008, for a purchase price of \$71,770 thousand. KWT engages mainly in publishing books, data processing and software services.

Chunghwa increased its ownership of Spring House Entertainment Inc. ( SHE ) from 30% to 56% in January 2008, for a purchase price of \$39,800 thousand, and SHE becomes a subsidiary of Chunghwa. SHE engages mainly in network services, producing digital entertainment content and broadband visual sound terrace development.

Chunghwa established Chunghwa Telecom Japan Co., Ltd. ( CHTJ ), a 100% owned subsidiary in October 2008 by investing \$6,140 thousand cash, and increased its investment on CHTJ by investing \$11,151 thousand cash in January 2009. CHTJ engages mainly in telecommunication business, data processing and related services, development and sale of software and consulting services in telecommunication.

ELTA engages mainly in professional on-line and mobile value-added content aggregative services. Chunghwa sold all shares of ELTA with carrying value \$51,152 thousand on July 23, 2008 for a selling price of \$44,047 thousand and recognized a disposal loss of \$7,105 thousand.

Chunghwa has established New Prospect Investments Holdings Ltd. (B.V.I.) ( New Prospect ) and Prime Asia Investments Group Ltd. (B.V.I.) ( Prime Asia ) in March 2006. Both holding companies are operating as investment companies and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company.

Chunghwa participated in So-net Entertainment Taiwan's capital increase on April 3, 2009, by investing \$60,008 thousand cash, and acquired 30% of its shares. So-net Entertainment Taiwan engages mainly in online service and sale of computer hardware.

Chunghwa invested in IBT II in January 2008, for a purchase price of \$200,000 thousand. IBT II engages mainly in investment. IBT II completed its incorporation on February 13, 2008.

Chunghwa invested in GMC in December 2007, for a purchase price of \$168,038 thousand for 16,796 thousand shares. GMC engages mainly in wire communication services and computer software wholesale and circuit engineering. The National Communications Commission ( NCC ) informed Chunghwa with the Communication Letter (#0974102087) on April 1, 2008 that its investment in GMC was not authorized by NCC, and notified Chunghwa on May 5, 2008 that Chunghwa should dispose of its investment in GMC no later than June 30, 2008, otherwise, NCC would fine Chunghwa according to the Telecommunication Act. In April 2008, Chunghwa disposed of a portion of its investment in GMC (4,100 thousand shares) and filed an appeal to NCC to suspend the enforcement. In July, 2008, NCC resolved that according to the Administrative Penalty Act, Chunghwa could not divest of its investment in the short time period provided and that Chunghwa would not be subject to fines as noted above. In October 2008, NCC revoked the original decree about Chunghwa's investment in GMC, therefore, Chunghwa did not dispose of its remaining holding in GMC.

After evaluating the investments in RPTI and ETS, Chunghwa determined the investment in RPTI and ETS were impaired and recognized impairment losses of \$15,000 thousand and \$10,000 thousand, respectively, for the year ended December 31, 2008.

Chunghwa however, participated in TFC's capital increase in October 2008 and prepaid \$285,859 thousand. However, TFC is not expected to be able collect enough amount of capital increase within a specific period, therefore TFC's board of directors held a meeting on April 10, 2009 and resolved to withdraw its capital increase plan from Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan ( SFC ). The prepayments will be returned to Chunghwa within ten days after TFC receives the approval notification from SFC.

The above investments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at original cost.

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,696,808,181 shares. Chunghwa's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares at \$10 (par value) in the event its ownership of Chunghwa falls below 50% of the outstanding common shares. On March 28, 2006, the board of directors approved the issuance of the 2 preferred shares, and the MOTC purchased the 2 preferred shares at par value on April 4, 2006. In accordance with the Articles of Incorporation of Chunghwa, the preferred shares would be redeemed by Chunghwa three years from the date of issuance at their par value. These preferred shares expired on April 4, 2009 and were redeemed on April 6, 2009.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares ( ADS ) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of March 31, 2009, the outstanding ADSs were 1,375,513 thousand common shares, which equaled approximately 137,551 thousand units and represented 14.19 % of Chunghwa s total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations. The combined amount of any portions capitalized each year may not exceed 10 percent of common stock issued. However, where a company undergoes an organizational change (such as a merger, acquisition, or reorganization) that results in the capitalization of undistributed earnings after the organizational change, the above restriction does not apply.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa s dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the three months ended March 31, 2009 and 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors is based on management estimates including past experience and probable amount to be paid in accordance with Chunghwa s Articles of Incorporation and Implementation Guidance for the Employee s Bonus Distribution of Chunghwa Telecom Co., Ltd.

If the initial accrual amounts of the aforementioned bonus are different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resolute in the stockholders' meeting is charged to the earnings of the following year as a result of change in accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2008 earnings of Chunghwa have been proposed by the board of directors on March 27, 2009 and the appropriations and distributions of the 2007 earnings of Chunghwa have been approved by the stockholders on June 19, 2008 as follows:

	Appropriation of Earnings		Dividend Per Share	
	2008	2007	2008	2007
Legal reserve	\$ 4,127,675	\$ 4,823,356	\$	\$

Employee bonus - cash		1,303,605		
Employee bonus - stock		434,535		
Remuneration to board of directors and supervisors		43,454		

The amounts for bonuses to employees and remuneration to directors and supervisors proposed by the board of directors of Chunghwa on March 27, 2009, were \$1,629,915 thousand and \$38,807 thousand, respectively.

The appropriation of Chunghwa's 2008 earnings has not been resolved by the stockholders as of the review report date. Information on the appropriation of 2008 earnings, employee bonus and remuneration to directors and supervisors resolved by the stockholders is available at the Market Observation Post System website.

The stockholders, at a special meeting held on August 14, 2008, resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock.

The above mentioned 2008 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of the aforementioned proposal as October 25, 2008.

The stockholders, at the stockholders' meeting held on August 14, 2008, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$19,115,554 thousand to common capital stock and was effectively registered with SFC. Chunghwa designated December 30, 2008 as the record date and March 9, 2009 as the stock transfer date of capital reduction. Subsequently, common capital stock was reduced by \$19,115,554 thousand and a liability for the same amount of cash to be distributed to stockholders was recorded. Such cash payment to stockholders was made in March 2009.

The stockholders, at a meeting held on June 15, 2007, resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above mentioned 2007 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of aforementioned proposal as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$9,667,845 thousand to common capital stock and was effectively registered with SFC. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by \$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of \$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of \$110,068 thousand held by Chunghwa and concurrently cancelled. Such cash payments to stockholders was made in January 2008.

Balance, end of the period		

According to the Securities and Exchange Law of the ROC, total shares of treasury stock shall not exceed 10% of Chunghwa's stock issued. The total amount of the shares bought back shall not be more than the total amount of retained earnings, capital surplus and realized additional paid-in capital. The Company shall neither pledge treasury stock nor exercise stockholders' rights on these shares, such as rights to dividends and to vote.

In order to maintain its credit and stockholders' equity, Chunghwa repurchased 121,075 thousand shares of treasury stock for \$7,217,562 thousand from August 29, 2007 to October 25, 2007. On December 29, 2007, Chunghwa cancelled 11,007 thousand shares of treasury stock by reducing common stock of \$110,068 thousand. The remaining 110,068 thousand shares of treasury stock amounted to \$7,107,494 thousand and was cancelled on February 21, 2008.

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. According to the Interpretation 97-169 issued by ARDF in May 2008, Chunghwa presumed that the employees bonuses to be paid will be settled in shares and takes those shares into consideration when calculating the weighted average number of outstanding shares used in the calculation of diluted EPS if the share have a dilutive effect for the three months ended March 31, 2009. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa's shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the stockholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the three months ended March 31, 2009 and 2008 was due to the effect of potential common stock of stock options by SENAO.

**23. PENSION PLAN**

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund ) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC (the LPA ) is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. Based on the LPA, Chunghwa makes monthly contributions to employees individual pension accounts at 6% of monthly salaries and wages.

Chunghwa s pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee s length of service and average six-month salary prior to retirement. Chunghwa contributes an amount at 15% or less of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

The balance of Chunghwa s plan assets subject to defined benefit plan were \$4,945,033 thousand and \$2,879,206 thousand as of March 31, 2009 and 2008, respectively.

Pension costs of Chunghwa were \$702,024 thousand (\$683,097 thousand subject to defined benefit plan and \$18,927 thousand subject to defined contribution plan) and \$700,303 thousand (\$687,018 thousand subject to defined benefit plan and \$13,285 thousand subject to defined contribution plan) for the three months ended March 31, 2009 and 2008, respectively.

**24. TRANSACTIONS WITH RELATED PARTIES**

The ROC Government, one of Chunghwa s customers, held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, Internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm s-length prices. The information on service revenues from government

bodies and related organizations have not been provided because details of the type of transactions were not summarized by Chunghwa. Chunghwa believes that all costs of doing business are reflected in the financial statements.

## 25. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

As of March 31, 2009, Chunghwa's remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$262,916 thousand.
- b. Acquisitions of telecommunications equipment of \$17,748,339 thousand.
- c. Contracts to print billing, envelopes and telephone directories of \$88,995 thousand.
- d. Chunghwa also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operation system software under contracts that expire in various years. Future leases payments were as follows:

Year	Amount
2009 (from April 1, 2009 to December 31, 2009)	\$ 1,240,516
2010	1,192,048
2011	902,447
2012	665,568
2013 and thereafter	477,046

- e. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment - other monetary assets). If the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand upon notification from the Taipei City Government. Based on Chunghwa's understanding of the Piping Fund terms, if the project is considered to be no longer necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the Piping Fund upon its dissolution. Chunghwa does not know when its contribution to the Piping Fund will be returned; therefore, Chunghwa did not discount the face amount of its contribution on the Piping Fund.
- f. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. (the former Chunghwa Post Co., Ltd. directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. Chunghwa stated that both parties have the right to use co-management land without consideration. Chunghwa Post Co., Ltd. can't request payment for land compensation. Furthermore, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa filed an appeal at the Taiwan Taipei District Court. On March 30, 2009, the Taiwan Taipei District Court rendered its judgment that Chunghwa only need to pay \$16,870 thousand along with interest calculated at 5% per annum from July 23, 2005 and 4% of the court fees as of the court judgment compensation. Chunghwa will file an appeal at the Taiwan Taipei District Court within 20 days from the receipt of the copy of the court judgment.
- g. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court (the Court) on June 12, 2008. The complaint alleged that Chunghwa infringed Giga Media's ROC Patent No. I 258284 which is a Point-to-Point Protocol over Ethernet ( PPPoE ) technique used to launch fixed IP of ADSL. Giga Media is seeking damages of \$500,000 thousand and interest calculated at 5% for the period from one day following the date Chunghwa received the official notification from the Court to the payment date.

## b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2 and 3 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market prices of the available-for-sale financial assets are not readily available, valuation techniques are used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in investees, if quoted market prices are not available.

c. Fair values of financial assets and liabilities using quoted market prices or valuation techniques were as follows:

	Amount Based on Quoted Market Price March 31		Amount Determined Using Valuation Techniques March 31	
	2009	2008	2009	2008
<b>Assets</b>				
Financial assets at fair value through profit or loss	\$ 8,865	\$ 417,396	\$	\$
Available-for-sale financial assets	17,939,244	19,728,932		
Hedging derivative financial assets (classified as other current monetary assets)		21,679		
<b>Liabilities</b>				
Financial liabilities at fair value through profit or loss	104,743	22,073		3,075,125
Hedging derivative financial liabilities (classified as other current liabilities)	30,716	13,000		

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in Chunghwa's foreign-currency-dominated assets and liabilities and outstanding forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, Chunghwa would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by Chunghwa if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management does not expect Chunghwa's exposure to default by those parties to be material.

3) Liquidation risk

Chunghwa has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the liquidation risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

Chunghwa engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, Chunghwa engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the three months ended March 31, 2009 and 2008.

Outstanding forward exchange contracts for hedge as of March 31, 2009 and 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
<u>March 31, 2009</u>			
Sell	USD/NTD	2009.04	USD 30,000
<u>March 31, 2008</u>			
Sell	USD/NTD	2008.06	USD 65,000
	EUR/NTD	2008.05	EUR 25,000

As of March 31, 2009 and 2008, the forward exchange contract measured at fair value resulting in hedging derivative financial liability of \$30,716 thousand and \$13,000 thousand (classified as other current liabilities), respectively. As of March 31, 2008, the forward exchange contract measured at fair value resulting in hedging derivative financial asset of \$21,679 thousand (classified as other current monetary assets).

According to the regulations of Securities and Futures Bureau, Chunghwa should disclose the derivative transactions of Chunghwa's investees, SENAO, which was as follows:

1) Holding period and contract amounts

SENAO entered into a forward exchange contract for the three months ended March 31, 2009 and 2008 to reduce the exposure to foreign currency risk.

Outstanding forward exchange contracts as of March 31, 2009 and 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
<u>March 31, 2009</u>			
Buy	NTD/USD	2009.04	NTD 137,091
<u>March 31, 2008</u>			
Buy	NTD/USD	2008.04	NTD 279,695

2) Market risk

The foreign exchange rate fluctuations would result in SENAO's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The financial instruments categorized as available-for-sale financial assets are mainly beneficiary certificates. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, SENAO would assess the risk before investing, therefore, no material market risk are anticipated.

3) Credit risk

Credit risk represents the potential loss that would be incurred by SENAO if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the aforementioned financial instruments are reputable financial institutions and companies. Management does not expect SENAO's exposure to default by those parties to be material. The maximum credit exposures of SENAO's financial instruments are the same as its carrying amounts.

4) Liquidation risk

SENAO has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the liquidation risk is low.

SENAO's investments in domestic open-end mutual funds are traded in active markets and can be disposed readily approximately to their fair values. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market; therefore, material liquidation risk would be anticipated on financial assets carried at cost.

New Prospect Investments Holdings Ltd. (B.V.I.) and Prime Asia Investments Group Ltd. (B.V.I.) were incorporated in March 2006 and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company, but not on operating stage, yet.

Note 3: The net asset values of beneficiary certification (mutual fund) were based on the net asset values on March 31, 2009.

Note 4: Market value was based on the closing price of March 31, 2009.

Note 5: Showing at their original carrying amounts without the adjustments of fair values, except Held-to-maturity financial assets.

Note 6: The net asset values of investees were based on amortized cost.

Note 7: Chunghwa prepaid \$285,859 thousand cash of this long-term investment in October 2008. TFC expected not being able to collect enough amount of capital increase, therefore its board of director's meeting, which was held on April 10, 2009, resolved to apply to withdraw the case of capital increase from Financial Supervisory Commission. The related prepayment from its stockholders will be returned within ten days of the approval of withdrawing confirmation from the Financial Supervisory Commission.

**INDEPENDENT ACCOUNTANTS REVIEW REPORT**

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have reviewed the accompanying consolidated balance sheets of Chunghwa Telecom Co., Ltd. and subsidiaries ( the Company ) as of March 31, 2009 and 2008, and the related consolidated statements of income and cash flows for the three months then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our review.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 36, Review of Financial Statements, issued by the Auditing Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an audit opinion.

As discussed in Note 2 to the consolidated financial statements, the financial statements of certain subsidiaries as of and for the three months ended March 31, 2009 and 2008 have not been reviewed. The total assets of these subsidiaries were 1.70% (NT\$7,665,048 thousand) and 1.11% (NT\$5,204,421 thousand), and the total liabilities of these subsidiaries were 3.00% (NT\$1,818,155 thousand) and 1.50% (NT\$931,143 thousand), of the related consolidated amounts as of March 31, 2009 and 2008, respectively. The total revenues of these subsidiaries were 1.08% (NT\$531,756 thousand) and 0.74% (NT\$379,570 thousand) of the related consolidated revenues for the three months ended March 31, 2009 and 2008, respectively, and their net losses were NT\$151,745 thousand and NT\$153,036 thousand for the three months ended March 31, 2009 and 2008, respectively. As discussed in Note 12 to the consolidated financial statements, the financial statements of certain equity method investees as of and for the three months ended March 31, 2009 and 2008 have not been reviewed. The aggregate carrying values of these equity method investees were NT\$2,347,725 thousand and NT\$1,729,510 thousand as of March 31, 2009 and 2008, respectively, and the equity in losses of these equity method investees were NT\$8,552 thousand and NT\$57,579 thousand for the three months ended March 31, 2009 and 2008, respectively.

Based on our reviews, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to obtain reviewed financial statements of certain subsidiaries and equity method investees referred to in the preceding paragraph, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the consolidated financial statements, beginning from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052 issued by the Accounting and Research Development Foundation in the Republic of China.

April 21, 2009

Notice to Readers

*The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the accountants' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants' review report and consolidated financial statements shall prevail.*

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As the dominate telecommunications service provider of fixed-line services in the ROC, Chunghwa is subject to additional regulations imposed by ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold common shares of Chunghwa by auction in the ROC on August 9, 2005 and completed the second international offering on August 10, 2005. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

Senao International Co., Ltd. ( SENAO ) was incorporated in 1979. SENAO engages mainly in selling and maintaining mobile phone and its peripheral products. Chunghwa acquired 31.33% shares of SENAO on January 15, 2007 and has control in SENAO by obtaining four out of seven seats of the board of directors of SENAO on April 12, 2007. Furthermore, on March 27, 2009, the board of directors of Chunghwa resolved to purchase 48,000 thousand common shares of SENAO through SENAO s private placement. The purchase price of these common shares is not yet determined, and Chunghwa s ownership of SENAO is expected to increase to 41% after the purchase.

Chunghwa established Chunghwa International Yellow Pages Co., Ltd. ( CIYP ) in January 2007. CIYP engages mainly in yellow pages sales and advertisement services.

CHIEF Telecom Inc. ( CHIEF ) was incorporated in 1991. CHIEF engages mainly in internet communication and internet data center ( IDC ) service. Chunghwa acquired 70% shares of CHIEF on September 2006.

Unigate Telecom Inc. ( Unigate ) was established by CHIEF in 1999. Unigate engages mainly in telecommunication and information software service.

CHIEF Telecom (Hong Kong) Limited ( CHIEF (HK) ) was established by CHIEF in 2003. CHIEF (HK) engages mainly in internet communication and internet data center ( IDC ) service.

Chief International Corp. ( CIC ) was established by CHIEF in 2008. CIC engages mainly in internet communication and internet data center ( IDC ) service.

Chunghwa System Integration Co., Ltd. ( CHSI ) was incorporated in 2002. CHSI engages mainly in providing communication and information integration services. Chunghwa has acquired 100% shares of CHSI in December 2007.

Concord Technology Co., Ltd. ( Concord ), a subsidiary of CHSI, was incorporated in 2006. Concord engages mainly in investment.

Glory Network System Service (Shanghai) Co., Ltd. ( GNSS (Shanghai) ), a subsidiary of Concord, was incorporated in 2006. GNSS (Shanghai) engages mainly in planning and designing of systems and communications and information integration services. On March 20, 2009, the stockholders of GNSS (Shanghai) resolved to dissolve GNSS (Shanghai). GNSS (Shanghai) has not yet into dissolution process until GNSS (Shanghai) completed the application to the local government for approval of dissolution.

Chunghwa Telecom Global, Inc. ( CHTG ) was incorporated in 2004. CHTG engages mainly in international data and internet services and long distance call wholesales to carriers. Chunghwa acquired 100% shares of CHTG in December 2007.

Donghwa Telecom Co., Ltd. ( DHT ) was incorporated in 2004. DHT engages mainly in international telecommunications, IP fictitious internet and internet transfer services. Chunghwa acquired 100% shares of DHT in December 2007.

Spring House Entertainment Inc. ( SHE ) was incorporated in 2000. SHE engages mainly in network services, producing digital entertainment contents and broadband visual sound terrace development. SHE was an equity method investee before Chunghwa obtained control interest over it in January 2008.

Chunghwa established Light Era Development Co., Ltd. ( LED ) in February 2008. LED engages mainly in development of property for rent and sale.

Chunghwa established Chunghwa Telecom Singapore Pte. Ltd. ( CHTS ) in July 2008, CHTS engages mainly in telecommunication wholesale, internet transfer services, international data, long distance call wholesales to carriers and the world satellite business.

Chunghwa established Chunghwa Telecom Japan Co., Ltd. ( CHTJ ) in October 2008. CHTJ engages mainly in telecommunication business, information processing and information providing service, development and sale of software and consulting services in telecommunication.

InfoExplorer Co., Ltd. ( IFE ) was incorporated in 2008. IFE engages mainly in information system planning and maintenance, software development, and information technology consultation services. Chunghwa acquired 49% shares of IFE on January 5, 2009 and has control of IFE by obtaining four out of seven seats of the board of directors of IFE on January 20, 2009, the date of acquisition. IFE s financial results have been consolidated with Chunghwa from the date of acquisition.

Chunghwa has established New Prospect Investments Holdings Ltd. ( New Prospect ) and Prime Asia Investments Group Ltd. ( Prime Asia ) in March 2006, but not on operation stage yet. Both holding companies are operating as investment companies and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company.

As of March 31, 2009 and 2008, the Company had 27,303 and 26,666 employees, respectively.

The following diagram presents information regarding the relationship and ownership percentages between Chunghwa and its subsidiaries as of March 31, 2009:

Chunghwa together with its subsidiaries are hereinafter referred to collectively as the Company . Minority interest in the aforementioned subsidiaries are presented as a separate component of stockholders' equity

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying consolidated financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of consolidated financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Principle of Consolidation**

The Company accounts for business combinations in accordance with the requirements of the Statement of Financial Accounting Standards No. 25, Business Combinations .

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of the Company, and the accounts of investees in which the Company's ownership percentage is less than 50% but over which the Company has a controlling interest. All significant intercompany transactions and balances are eliminated upon consolidation.

The consolidated financial statements for the three months ended March 31, 2009 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CIC, CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, LED, CHTS, CHTJ, IFE, New Prospect and Prime Asia. The consolidated financial statements for the three months ended March 31, 2008 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, SHE (B.V.I.), SHE (Japan), AKP, LED, New Prospect and Prime Asia.

For foreign subsidiaries using their local currency as their functional currency, assets and liabilities are translated in New Taiwan dollars at the exchange rates in effect on the balance sheet date; stockholders' equity accounts are translated into New Taiwan dollars at historical exchange rates and income statement accounts are translated into New Taiwan dollars at average exchange rates during the period.

The financial statements as of and for the three months ended March 31, 2009 and 2008 of the following subsidiaries were based on unreviewed financial statements: CIYP, CHIEF, Unigate, CHIEF (HK), CIC, CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, LED, CHTS, CHTJ, IFE, New Prospect and Prime Asia, as of and for the three months ended March 31, 2009; CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, SHE (B.V.I.), SHE (Japan), AKP, LED, New Prospect and Prime Asia, as of and for the three months ended March 31, 2008. The total assets of these subsidiaries were 1.70% (NT\$7,665,048 thousand) and 1.11% (NT\$5,204,421 thousand), and the total liabilities of these subsidiaries were 3.00% (NT\$1,818,155 thousand) and 1.50% (NT\$931,143 thousand), of the related consolidated amounts as of March 31, 2009 and 2008, respectively. The total revenues of these subsidiaries were 1.08% (NT\$531,756 thousand) and 0.74% (NT\$379,570 thousand) of the related consolidated revenues for the three months ended March 31, 2009 and 2008, respectively, and their net loss were NT\$151,745 thousand and NT\$153,036 thousand for the three months ended March 31, 2009 and 2008, respectively.

#### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

As LED engages mainly in development of property for rent and sale, its operating cycle is over one year.

#### **Cash Equivalents**

Cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

#### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and are designated as FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

#### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks - at closing prices at the balance sheet date; open-end mutual funds - at net asset values at the balance sheet date; bonds - quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when they are realized or realizable and earned. Revenues are realized or realizable and earned when the Company has persuasive evidence of an arrangement, the goods have been delivered or the services have been rendered to the customer, the sales price is fixed or determinable and collectibility is reasonably assured.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts agreed between the Company and the customers for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade receivables due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

The costs of providing services are recognized as incurred. Incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract are recognized in marketing expenses as incurred.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Where the Company enters into transactions which involve both the provision of air time bundled with products such as 3G data card and handset, total consideration received from handsets in these arrangements is allocated and measured using units of accounting within the arrangement based on relative fair values limited to the amount that is not contingent upon the delivery of other items or services.

Where the Company sells products to third party cellular phone stores the Company records the direct sale of the products, typically handsets, as gross revenue when the Company is the primary obligor in the arrangement and when title is passed and the products are accepted by the stores.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

### **Inventories**

Inventories including merchandise and work-in-process are stated at the lower of cost (weighted-average cost) or net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

Beginning from 2008, the Company classified certain land as land held for development within inventories. Prior to 2008, such land was classified as part of property, plant, and equipment. Such land is stated at the lower of cost or net realizable value. Prepayments for licensing and other miscellaneous costs have been capitalized as part of inventory. Profit shall be recognized in full when the land is sold, provided (a) the profit is determinable, that is, the collectibility of the sales price is reasonably assured or the amount that will not be collectible can be estimated, and (b) the earnings process is virtually complete.

### **Investments Accounted for using Equity Method**

Investments in companies in which the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein Chunghwa exercises significant influence over these equity method investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from equity method investees to Chunghwa are deferred in proportion to Chunghwa's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale, (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investee shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital to the extent available, with the balance charged to retained earnings.

### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values cannot be reliably measured such as non-publicly traded stocks are measured at their original cost. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash dividends and stock dividends arising from available-for-sale financial assets.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance is recognized as a loss in earnings. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment loss could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment .

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 5 to 60 years; computer equipment - 3 to 10 years; telecommunication equipment - 5 to 30 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 2 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the year of sale or disposal.

### **Intangible Assets**

Intangible assets mainly include 3G Concession, computer software, patents and goodwill.

The 3G Concession is valid through December 31, 2018. The 3G Concession and any additional licensing fees are amortized on a straight-line basis from the date operations commence through the date the license expires. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 2-20 years.

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is tested for impairment annually. If an event occurs or circumstances change which indicates that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The Company adopted the Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stock and capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient, the difference is charged to retained earnings.

### **Share-based Compensation**

Employee stock options granted on or after January 1, 2008 are accounted for using fair value method in accordance with under SFAS No. 39, Accounting for Share-based Payment. The adoption of SFAS No. 39 did not have any impact on the Company.

Employee stock options granted between January 1, 2004 and December 31, 2007 were accounted for under the interpretations issued by the Accounting Research and Development Foundation (the ARDF). The Company adopted the intrinsic value method, under which compensation cost was amortized over the vesting period.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders' approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at period-end; stockholders' equity - historical rates, income and expenses - average rates during the period. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

## Hedge Accounting

A hedging relationship qualifies for hedge accounting only if, all of the following conditions are met: (a) at the inception of the hedge, there is formal documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge; (b) the hedge is expected to be highly effective in achieving offsetting changes in fair value attributable to the hedged risk, consistently with the risk management strategy documented for that particular hedging relationship; (c) the effectiveness of the hedge can be reliably measured; (d) the hedge is assessed on an ongoing basis and determined actually to have been highly effective throughout the financial reporting periods for which the hedge was designated.

The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in earnings.

### 3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLES

The Company adopted the newly-revised Statements of Financial Accounting Standards No. 10, Accounting for Inventories, (SFAS No. 10) beginning from January 1, 2009, which requires inventories to be stated at the lower of cost (weighted-average cost) or net realizable value item by item, except for those that may be appropriate to group items of similar or related inventories. The inventory-related incomes and expenses shall be classified in operating cost. The adoption of the revised SFAS No. 10 does not have significant impact on the Company's consolidated net income and basic earnings per share (after income tax) for the three months ended March 31, 2009. The Company reclassified the non-operating income of \$4,962 thousand to operating costs for the three months ended March 31, 2008.

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. Beginning from 2009, such bonuses are classified as an operating activity for purposes of the statement of cash flows when paid.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. The investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. Chunghwa will terminate the investment management agreements on April 14, 2009, and the fund managers will dispose of the investment portfolios before the termination date.

The Company entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

Outstanding forward exchange contracts on March 31, 2009 and 2008 were as follows:

As of March 31, 2008, the deposits paid for index future contracts were \$86,474 thousand.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations were made biweekly starting from September 20, 2007 which were 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate was less than NT\$31.50 per US dollar at any two consecutive biweekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa was required to make a cash payment to Goldman. The settlement amount was determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate was above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate was at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract would be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman with annual yield rate of 8%. On October 21, 2008, the exchange rate was above NT\$32.70 per US dollar, so the contract was terminated at that time.

Net loss arising from financial assets and liabilities at fair value through profit or loss for the three months ended March 31, 2009 and 2008 were \$14,956 thousand (including realized settlement loss of \$9,865 thousand and valuation loss of \$5,091 thousand) and \$1,893,141 thousand (including realized settlement gain of \$258,494 thousand and valuation loss of \$2,151,635 thousand), respectively.

Chunghwa invested in IBT II in January 2008, for a purchase price of \$200,000 thousand. IBT II engages mainly in investment. IBT II completed its incorporation on February 13, 2008.

Chunghwa invested in GMC in December 2007, for a purchase price of \$168,038 thousand for 16,796 thousand shares. GMC engages mainly in wire communication services and computer software wholesale and circuit engineering. The National Communications Commission ( NCC ) informed Chunghwa with the Communication Letter (#0974102087) on April 1, 2008 that its investment in GMC was not authorized by NCC, and notified Chunghwa on May 5, 2008 that Chunghwa should dispose of its investment in GMC no later than June 30, 2008, otherwise, NCC would fine Chunghwa according to the Telecommunication Act. In April 2008, Chunghwa disposed of a portion of its investment in GMC (4,100 thousand shares) and filed an appeal to NCC to suspend the enforcement. In July 2008, NCC resolved that according to the Administrative Penalty Act, Chunghwa could not divest of its investment in the short time period provided and that Chunghwa would not be subject to fines as noted above. In October 2008, NCC revoked the original decree about Chunghwa's investment in GMC, therefore, Chunghwa did not dispose of its remaining holding in GMC.

After evaluating the investments in RPTI and ETS, Chunghwa determined the investments in RPTI and ETS were impaired and recognized impairment losses of \$15,000 thousand and \$10,000 thousand, respectively, for the year ended December 31, 2008.

Chunghwa participated in TFC's capital increase in October 2008 and prepaid \$285,859 thousand. However, TFC is not expected to be able to collect enough amount of capital increase within a specific period, therefore TFC's board of directors held a meeting on April 10, 2009 and resolved to withdraw its capital increase plan from Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan ( SFC ). The prepayment will be returned to Chunghwa within ten days after TFC receives the approval notification from SFC.

The above investments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at original cost.

As part of the government's effort to upgrade the existing telecommunications infrastructure, Chunghwa and other public utility companies were required by the ROC government to contribute a total of \$1,000,000 thousand to a Piping Fund administered by the Taipei City Government. This fund was used to finance various telecommunications infrastructure projects.

In January 2008, CHSI invested in Taiwan Goal Co., Ltd. ( TG ) for a purchase price of \$30,000 thousand. TG engages mainly in import and export activities for machine wholesale, arms and ammunition products. On March 17, 2008, the stockholders of TG resolved to dissolve TG at a special meeting. As of December 31, 2008, TG has completed its dissolution process. CHSI received \$29,585 thousand for the liquidation and recognized a loss of \$415 thousand in 2008.

## 21. STOCKHOLDERS EQUITY

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020 which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,696,808,181 shares. Chunghwa's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares at \$10 (par value) in the event its ownership of Chunghwa falls below 50% of the outstanding common shares. On March 28, 2006, the board of directors approved the issuance of the 2 preferred shares, and the MOTC purchased the 2 preferred shares at par value on April 4, 2006. In accordance with the Articles of Incorporation of Chunghwa, the preferred shares would be redeemed by Chunghwa three years from the date of issuance at their par value. These preferred shares expired on April 4, 2009 and were redeemed on April 6, 2009.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of March 31, 2009, the outstanding ADSs were 1,375,513 thousand common shares, which equaled approximately 137,551 thousand units and represented 14.19% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations. The combined amount of any portions capitalized each year may not exceed 10 percent of common stock issued. However, where a company undergoes an organizational change (such as a merger, acquisition, or reorganization) that results in the capitalization of undistributed earnings after the organizational change, the above restriction does not apply.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the three months ended March 31, 2009 and 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors is based on management estimates including past experience and probable amount to be paid in accordance with Chunghwa's Articles of Incorporation and Implementation Guidance for the Employee's Bonus Distribution of Chunghwa Telecom Co., Ltd.

If the initial accrual amounts of the aforementioned bonus are different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resolute in the stockholders' meeting is charged to the earnings of the following year as a result of change in accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2008 earnings of Chunghwa have been proposed by the board of directors on March 27, 2009 and the appropriations and distributions of the 2007 earnings of Chunghwa have been approved by the stockholders on June 19, 2008 as follows:

	Appropriation of Earnings		Dividend Per Share

The amounts for bonuses to employees and remuneration to directors and supervisors proposed by the board of directors of Chunghwa on March 27, 2009, were \$1,629,915 thousand and \$38,807 thousand, respectively.

The appropriation of Chunghwa's 2008 earnings has not been resolved by the stockholders as of the review report date. Information on the appropriation of 2008 earnings, employee bonus and remuneration to directors and supervisors resolved by the stockholders is available at the Market Observation Post System website.

The stockholders, at a special meeting held on August 14, 2008, resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock.

The above mentioned 2008 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of the aforementioned proposal as October 25, 2008.

The stockholders, at the stockholders' meeting held on August 14, 2008, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$19,115,554 thousand to common capital stock and was effectively registered with SFC. Chunghwa designated December 30, 2008 as the record date and March 9, 2009 as the stock transfer date of capital reduction. Subsequently, common capital stock was reduced by \$19,115,554 thousand and a liability for the same amount of cash to be distributed to stockholders was recorded. Such cash payment to stockholders was made in March 2009.

The stockholders, at a meeting held on June 15, 2007, resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above mentioned 2007 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of the aforementioned proposal as August 1, 2007.

The stockholders, at the stockholders' meeting held on June 15, 2007, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$9,667,845 thousand to common capital stock and was effectively registered with SFC. Chunghwa designated October 19, 2007 and December 29, 2007 as the record date and the stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by \$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of \$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of \$110,068 thousand held by Chunghwa and concurrently cancelled. Such cash payment to stockholders was made in January 2008.

**22. SENAO s SHARE-BASED COMPENSATION PLANS**

SENAO has several share-based compensation plans ( SENAO Plans ) described as follows:

Effective Date	Grant Date	Stock Options Units (Thousand)	Exercise Price
2003.09.03	2003.10.17	3,981	\$ 15.8 (Original price \$20.2)

Each option is eligible to subscribe for one common share when exercisable. Under the terms of the Plans, the options are granted at an exercise price equal to the closing price of the SENAO s common shares listed on the TSE on the higher of closing price or par value. The SENAO Plans have exercise price adjustment formula upon the issuance of new common shares, capitalization of retained earnings and/or capital reserves, stock split as well as distribution of cash dividend (except for 2007 Plan), except (i) in the case of issuance of new shares in connection with mergers and in the case of cancellation of outstanding shares in connection with capital reduction (2007 Plan is out of this exception), and (ii) except if the exercise price after adjustment exceeds the exercise price before adjustment. The options of all the Plans are valid for six years and the graded vesting schedule for which 50% of option granted will vest two years after the grant date and another two tranches of 25% will vest three and four years after the grant date respectively.

	2009	2008
Balance of Imputation Credit Account ( ICA ) Chunghwa	\$ 7,343,493	\$ 6,601,656

The estimated and the actual creditable ratios distribution of Chunghwa s of 2008 and 2007 for earnings were 30.96% and 28.81%, respectively. The imputation credit allocated to stockholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of imputation credit is made.

e. Undistributed earnings information

All Chunghwa s earnings generated prior to June 30, 1998 have been appropriated.

Chunghwa s income tax returns have been examines by tax authorities through 2005. The following entities income tax returns have been examined by tax authorities through 2006: SENAO, CHIEF, Unigate, and CHSI. SHE and CIYP s income tax returns have been examines by tax authorities through 2007.

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. According to the Interpretation 97-169 issued by ARDF in May 2008, Chunghwa presumed that the employees bonuses to be paid will be settled in shares and takes those shares into consideration when calculating the weighted average number of outstanding shares used in the calculation of diluted EPS if the share have a dilutive effect for the three months ended March 31, 2009. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa s shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the stockholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the three months ended March 31, 2009 and 2008 was due to the effect of potential common stock of stock options by SENAO.

## **27. PENSION PLAN**

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC (the LPA) is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. Based on the LPA, Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHSI, SHE, LED makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

The Company's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement. Chunghwa, SENAO, CHIEF and SHE contribute an amount equal to 2% to 15% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

Pension costs of the Company were \$721,090 thousand (\$684,210 thousand subject to defined benefit plan and \$36,880 thousand subject to defined contributed plan) and \$717,366 thousand (\$690,060 thousand subject to defined benefit plan and \$27,306 thousand subject to defined contribution plan) for the three months ended March 31, 2009 and 2008, respectively.

## **28. TRANSACTIONS WITH RELATED PARTIES**

The ROC Government, one of Chunghwa's customers held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, Internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of transactions were not summarized by Chunghwa. Chunghwa believes that all costs of doing business are reflected in the financial statements.

- a. The Company engages in business transactions with the following related parties:

## 30. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

As of March 31, 2009, the Company's remaining commitments under non-cancelable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$262,916 thousand.
- b. Acquisitions of telecommunications equipment of \$15,541,292 thousand.

- c. Contract to print billing, envelopes and selling gifts of \$88,995 thousand.

- 39 -

- d. LED has already contracted to advance sale of land for \$1,680,874 thousand, and collected \$242,370 thousand according to the contracts.
- e. For the purpose of completion the construction, acquisition of the building construction license and registration ownerships of all buildings for Wan-Xi Project, LED signed the trust deeds with Hua Nan Bank and China Real Estate Management Co., Ltd. for the fund management, property rights and related development to the extent of authority they are given.

Trust assets are as follow:

	<b>March 31, 2009</b>
Restricted assets -bank deposits	\$ 71,046
Land held under development	706,176
	<b>\$ 777,222</b>

- f. The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operation system software under contracts that expire in various years. Future lease payments were as follows:

	<b>Amount</b>
2009 (from April 1, 2009 to December 31, 2009)	\$ 1,318,776
2010	1,283,709
2011	970,493
2012	714,933
2013 and thereafter	813,629

- g. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment - other monetary assets). If the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand upon notification from the Taipei City Government. Based on Chunghwa's understanding of the Piping Fund terms, if the project is considered to be no longer necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the Piping Fund upon its dissolution. The Company does not know when its contribution to the Piping Fund will be returned; therefore, the Company did not discount the face amount of its contribution to the Piping Fund.
- h. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. (the former Chunghwa Post Co., Ltd. directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. Chunghwa stated that both parties have the right to use co-management land without consideration. Chunghwa Post Co., Ltd. can't request payment for land compensation. Furthermore, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa filed an appeal at the Taiwan Taipei District Court. On March 30, 2009, the Taiwan Taipei District Court rendered its judgment that Chunghwa only need to pay \$16,870 thousand along with interest calculated at 5% per annum from July 23, 2005 and 4% of the court fees as of the court judgment compensation. Chunghwa will file an appeal at the Taiwan Taipei District Court within 20 days from the receipt of the copy of the court judgment.

- i. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court (the Court) on June 12, 2008. The complaint alleged that Chunghwa infringed Giga Media's ROC Patent No. I258284 which is a Point-to-Point Protocol over Ethernet (PPPoE) technique used to launch fixed IP of ADSL. Giga Media is seeking damages of \$500,000 thousand and interest calculated at 5% for the period from one day following the date Chunghwa received the official notification from the Court to the payment date. As of review report date, the case is still in the procedure of the first instance.

b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2, 3, and 4 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies if quoted market prices are not available.
- 4) The fair value of long-term loans (including current portion) is discounted based on projected cash flow. The projected cash flows were discounted using the interest rate of similar long-term loans.

c. Fair value of financial assets and liabilities using quoted market price or valuation techniques were as follows:

	Amount Based on Quoted Market Price		Amount Determined Using Valuation Techniques	
	2009	2008	2009	2008
<b>Assets</b>				
Financial assets at fair value through profit or loss	\$ 8,993	\$ 418,169	\$	\$
Available-for-sale financial assets	17,959,397	20,361,594		
Hedging derivative financial assets (classified as other current monetary assets)		21,679		
<b>Liabilities</b>				
Financial liabilities at fair value through profit or loss	105,672	23,795		3,075,125
Hedging derivative financial liabilities (classified as other current liabilities)	30,716	13,000		

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in the Company's foreign-currency-dominated assets and liabilities and outstanding forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, the Company would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management does not expect the Company's exposure to default by those parties to be material.

3) Liquidation risk

The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the liquidation risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

Chunghwa engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, Chunghwa engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the three months ended March 31, 2009 and 2008.

Outstanding forward exchange contracts for hedge as of March 31, 2009 and 2008:

	Currency	Maturity Period	Contract Amount (in Thousands)
<u>March 31, 2009</u>			
Sell	USD/NTD	2009.04	USD 30,000
<u>March 31, 2008</u>			
Sell	USD/NTD	2008.06	USD 65,000
	EUR/NTD	2008.05	EUR 25,000

As of March 31, 2009 and 2008, the forward exchange contract measured at fair value resulting in hedging derivative financial liability of \$30,716 thousand and \$13,000 thousand (classified as other current liabilities), respectively. As of March 31, 2008, the forward exchange contract measured at fair value resulting in hedging derivative financial asset of \$21,679 thousand (classified as other current monetary assets).

## 3) Cash Flows Differences

The Company applies R.O.C. SFAS No. 17, Statement of Cash Flows. Its objectives and principles are similar to those set out in U.S. SFAS No. 95, Statement of Cash Flows. The principal differences between the two standards relate to classification. Cash flows from investing activities for changes in other assets, and cash flows from financing activities for changes in customer deposits, other liabilities and cash bonuses paid to employees, directors and supervisors are reclassified to operating activities under U.S. SFAS No. 95.

Note 1: In August 2007, the ARDF issued ROC SFAS No. 39, Accounting for Share-based Payment, which require companies to record share-based payment transactions granted on or after January 1, 2008 using fair value method. There is no impact of the adoption this statement since the Company did not grant options on or after January 1, 2008.

Note 2: Prior to the adoption of SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51 (SFAS No. 160), the noncontrolling interests in the income of subsidiaries is deducted in arriving at net income. Upon the adoption of SFAS No. 160 beginning from January 1, 2009, the noncontrolling interests forms part of net income. In addition, prior to the adoption of SFAS No. 160, the noncontrolling interests in subsidiaries is classified as mezzanine equity. Upon the adoption SFAS No. 160 beginning from January 1, 2009, the non-controlling interest in subsidiaries is classified as a separate component of shareholders' equity and the presentation and disclosure requirements of SFAS No. 160 are applied retrospectively for all periods presented. Therefore, from January 1, 2009, there are no differences in presentation for non-controlling interest (or minority interest as referred to under ROC GAAP) between ROC GAAP and US GAAP.

Note 3: The adjustment to Net Income for the three months ended March 31, 2009 and to Stockholders' Equity as of March 31, 2009 represents a difference between ROC GAAP and US GAAP for the accounting for business combinations. Under ROC GAAP, the noncontrolling interest in the acquiree is measured at historical cost whereas under US GAAP, the noncontrolling interest in the acquiree is measured at fair value at acquisition date upon the adoption of SFAS No. 141R, Business Combination beginning from January 1, 2009. Such adjustment for the three-month period ended March 31, 2009 was caused by the Company's acquisition of IFE in January 2009. The adjustment to ROC GAAP net income represents additional depreciation and amortization expense recognized under US GAAP due to the difference between the measurement of noncontrolling interests at historical cost and fair value. The adjustment to stockholders equity represents the difference for the measurement of noncontrolling interests at historical cost and fair value after the aforementioned net income adjustment.

Note 4: There are significant differences in the classification of items on the statements of income under ROC GAAP and US GAAP. These include:

(1) Incentives paid to third party dealers for inducing business:

- Under ROC GAAP: Such account is included in operating expenses.

- Under US GAAP: Such account is included in cost of revenues.

(2) Gains (losses) on disposal of property, plant and equipment and other assets:

- Under ROC GAAP: Such account is included in non-operating income (expenses).

- Under US GAAP: Such account is included in cost of revenues.

## 2. RECENT ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED

In April 2009, the FASB issued three related Staff Positions ( FSPs ): (i) FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability have Significantly Decreased and Identifying Transactions That Are Not Orderly , or FSP FAS 157-4, (ii) FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments , or FSP FAS 115-2 and FAS 124-2, and (iii) FSP FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments , or FSP FAS107 and APB 28-1, which will be effective for interim and annual periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. FSP FAS 157-4 provides guidance on how to determine the fair value of assets and liabilities under SFAS 157 in the current economic environment and reemphasizes that the objective of a fair value measurement remains an exit price. If we were to conclude that there has been a significant decrease in the volume and level of activity of the asset or liability in relation to *normal* market activities, quoted market values may not be representative of fair value and we may conclude that a change in valuation technique or the use of multiple valuation techniques may be appropriate. FSP FAS115-2 and FAS 124-2 modify the requirements for recognizing other-than-temporarily impaired debt securities and revise the existing impairment model for such securities, by modifying the current intent and ability indicator in determining whether a debt security is other-than-temporarily impaired. FSP FAS 107 and APB 28-1 enhance the disclosure of instruments under the scope of SFAS 157 for both interim and annual periods. The Company will not adopt the provisions of these FSPs until April 1, 2009 and the Company is currently evaluating the impact of these FSPs on its consolidated financial statements.

In December 2008, the FASB issued FSP SFAS 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets, which provides additional guidance on employers' disclosures about the plan assets of defined benefit pension or other postretirement plans. FAS 132(R)-1 clarifies the disclosures about fair value measurement of pension or other postretirement plan assets are not within the scope of the disclosures requirements of SFAS 157. The disclosures required by FSP FAS 132(R)-1 include a description of how investment allocation decisions are made, major categories of plan assets, valuation techniques used to measure the fair value of plan assets, the impact of measurements using significant unobservable inputs and concentrations of risk within plan assets. The disclosures about plan assets required by this FSP shall be provided for fiscal years ending after December 15, 2009. For the Company, FSP FAS 132(R)-1 will be effective for its 2009 fiscal year and will result in additional disclosures related to the assets of defined benefit pension plans in notes to its consolidated financial statements.
