CALCULATION OF REGISTRATION FEE

Title Of Each Class Of Securities To Be Registered	Amount To Be Registered(1)	Proposed Maximum Offering Price Per Share	Proposed Maximum Aggregate Offering Price(2)	Amount Of Registration Fee(3)
Common Stock, without par value	428,353,936	N/A	\$27,627,561,520	\$1,969,845

- (1) Represents the maximum number of shares of common stock of ExxonMobil estimated to be issuable upon completion of the merger described in this proxy statement/prospectus, equal to the product of (i) the maximum number of shares of XTO Energy common stock that may be canceled and exchanged in the merger (based on 583,275,792 shares of XTO Energy common stock outstanding on January 22, 2010, 18,281,806 shares of XTO Energy common stock issuable pursuant to the exercise of XTO Energy options outstanding on January 22, 2010 and 1,927,800 shares of XTO Energy common stock issuable pursuant to the exercise of XTO Energy warrants outstanding on January 22, 2010), multiplied by (ii) the exchange ratio of 0.7098 of a share of ExxonMobil common stock for each share of XTO Energy common stock.
- (2) Estimated solely for the purpose of calculating the registration fee required by Section 6(b) of the Securities Act and calculated pursuant to Rules 457(f)(1) and 457(c) under the Securities Act. The proposed maximum aggregate offering price of the registrant's common stock was calculated based upon the market value of shares of XTO Energy common stock (the securities to be canceled in the merger) in accordance with Rule 457(c) and is equal to the product of (i) \$45.78, the average of the high and low prices per share of XTO Energy common stock on the New York Stock Exchange on January 26, 2010, multiplied by (ii) 603,485,398, the maximum number of shares of XTO Energy common stock that may be canceled and exchanged in the merger as of January 22, 2010.
- (3) Calculated pursuant to Section 6(b) of the Securities Act and SEC Fee Advisory #4 for Fiscal Year 2010 at a rate equal to \$71.30 per \$1,000,000 of the proposed maximum aggregate offering price.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

Information contained herein is subject to completion or amendment. A registration statement relating to these securities has been filed with the Securities and Exchange Commission. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This proxy statement/prospectus shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful.

PRELIMINARY SUBJECT TO COMPLETION DATED FEBRUARY 1, 2010

MERGER PROPOSAL YOUR VOTE IS VERY IMPORTANT

[], 2010

Dear XTO Energy Inc. Stockholder:

On December 13, 2009, XTO Energy Inc. and Exxon Mobil Corporation entered into a merger agreement that provides for XTO Energy to become a wholly owned subsidiary of ExxonMobil. The XTO Energy board of directors has determined that the merger and the merger agreement are advisable and in the best interests of XTO Energy and its stockholders and has approved the merger agreement and the merger.

If the merger is completed, each outstanding share of XTO Energy common stock will be converted into the right to receive 0.7098 shares of ExxonMobil common stock. Immediately following completion of the merger, it is expected that XTO Energy stockholders will own approximately 8% of the outstanding shares of ExxonMobil common stock, based on the number of shares of XTO Energy and ExxonMobil common stock outstanding, on a fully diluted basis, as of January 22, 2010. The common stock of each of ExxonMobil and XTO Energy is traded on the New York Stock Exchange under the symbols XOM and XTO, respectively.

We are holding a special meeting of stockholders on [], 2010 at [], local time, at [], to obtain your vote to adopt the merger agreement. Your vote is very important. The merger cannot be completed unless the holders of a majority of the outstanding shares of XTO Energy common stock vote for the adoption of the merger agreement at the special meeting.

The XTO Energy board of directors recommends that XTO Energy stockholders vote FOR the adoption of the merger agreement.

On behalf of the XTO Energy board of directors, I invite you to attend the special meeting. Whether or not you expect to attend the XTO Energy special meeting in person, we urge you to submit your proxy as promptly as possible through one of the delivery methods described in the accompanying proxy statement/prospectus.

In addition, we urge you to read carefully the accompanying proxy statement/prospectus (and the documents incorporated by reference into the accompanying proxy statement/prospectus) which includes important information about the merger agreement, the proposed merger, XTO Energy, ExxonMobil and the special meeting. **Please pay particular attention to the section titled Risk Factors beginning on page [] of the accompanying proxy statement/prospectus.**

On behalf of the XTO Energy board of directors, thank you for your continued support.

Sincerely,

Bob R. Simpson

Chairman of the Board and Founder

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued under the accompanying proxy statement/prospectus or determined that the accompanying proxy statement/prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

Edgar Filing: EXXON MOBIL CORP - Form S-4

The accompanying proxy statement/prospectus is dated [], 2010 and is first being mailed to the stockholders of XTO Energy on or about [], 2010.

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS

To the Stockholders of XTO Energy Inc.:

Notice is hereby given that a special meeting of stockholders of XTO Energy Inc., which is referred to as XTO Energy, a Delaware corporation, will be held on [], 2010 at [], local time, at [], solely for the following purposes:

To consider and vote on a proposal to adopt the Agreement and Plan of Merger, dated as of December 13, 2009 (as it may be amended from time to time), among Exxon Mobil Corporation, which is referred to as ExxonMobil, ExxonMobil Investment Corporation, a wholly owned subsidiary of ExxonMobil, and XTO Energy, a copy of which is attached as Annex A to the proxy statement/prospectus accompanying this notice; and

To approve the adjournment of the XTO Energy special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

These items of business, including the merger agreement and the proposed merger, are described in detail in the accompanying proxy statement/prospectus. **The XTO Energy board of directors has determined that the merger agreement and the transactions contemplated by the merger agreement, including the merger, are advisable and in the best interests of XTO Energy and its stockholders and recommends that XTO Energy stockholders vote FOR the proposal to adopt the merger agreement and FOR the adjournment of the XTO Energy special meeting if necessary to solicit additional proxies in favor of such adoption.**

Only stockholders of record as of the close of business on [], 2010 are entitled to notice of the XTO Energy special meeting and to vote at the XTO Energy special meeting or at any adjournment or postponement thereof. A list of stockholders entitled to vote at the special meeting will be available in our offices located at 810 Houston Street, Fort Worth, Texas 76102, during regular business hours for a period of no less than ten days before the special meeting and at the place of the special meeting during the meeting.

Adoption of the merger agreement by the XTO Energy stockholders is a condition to the merger and requires the affirmative vote of holders of a majority of the shares of XTO Energy common stock outstanding and entitled to vote thereon. Therefore, your vote is very important. **Your failure to vote your shares will have the same effect as a vote AGAINST the adoption of the merger agreement.**

By order of the board of directors,

VIRGINIA N. ANDERSON

Secretary

Fort Worth, Texas

[], 2010

Table of Contents

YOUR VOTE IS IMPORTANT!

WHETHER OR NOT YOU EXPECT TO ATTEND THE XTO ENERGY SPECIAL MEETING IN PERSON, WE URGE YOU TO SUBMIT YOUR PROXY AS PROMPTLY AS POSSIBLE (1) THROUGH THE INTERNET, (2) BY TELEPHONE OR (3) BY MARKING, SIGNING AND DATING THE ENCLOSED PROXY CARD AND RETURNING IT IN THE POSTAGE-PAID ENVELOPE PROVIDED. You may revoke your proxy or change your vote at any time before the XTO Energy special meeting. If your shares are held in the name of a bank, broker or other fiduciary, please follow the instructions on the voting instruction card furnished to you by such record holder.

We urge you to read the accompanying proxy statement/prospectus, including all documents incorporated by reference into the accompanying proxy statement/prospectus, and its annexes carefully and in their entirety. If you have any questions concerning the merger, the special meeting or the accompanying proxy statement/prospectus, would like additional copies of the accompanying proxy statement/prospectus or need help voting your shares of XTO Energy common stock, please contact XTO Energy's proxy solicitor:

QUESTIONS AND ANSWERS ABOUT THE MERGER AND THE SPECIAL MEETING

The following are some questions that you, as a stockholder of XTO Energy, may have regarding the merger and the special meeting, and brief answers to those questions. You are urged to read carefully this proxy statement/prospectus and the other documents referred to in this proxy statement/prospectus in their entirety because this section may not provide all of the information that is important to you with respect to the merger and the special meeting. Additional important information is contained in the annexes to, and the documents incorporated by reference into, this proxy statement/prospectus.

Q: Why am I receiving this document?

A: ExxonMobil and XTO Energy have agreed to a merger, pursuant to which XTO Energy will become a wholly owned subsidiary of ExxonMobil and will cease to be a publicly held corporation. In order to complete the merger, XTO Energy stockholders must vote to adopt the merger agreement, and XTO Energy is holding a special meeting of stockholders solely to obtain such stockholder approval. In the merger, ExxonMobil will issue shares of ExxonMobil common stock as the consideration to be paid to holders of XTO Energy common stock.

This document is being delivered to you as both a proxy statement of XTO Energy and a prospectus of ExxonMobil in connection with the merger. It is the proxy statement by which the XTO Energy board of directors is soliciting proxies from you to vote on the adoption of the merger agreement at the special meeting or at any adjournment or postponement of the special meeting. It is also the prospectus by which ExxonMobil will issue ExxonMobil common stock to you in the merger.

Q: What will happen in the merger?

A: In the merger, ExxonMobil Investment Corporation, a wholly owned subsidiary of ExxonMobil that was formed for the purpose of the merger, will be merged with and into XTO Energy. XTO Energy will be the surviving corporation in the merger and will be a wholly owned subsidiary of ExxonMobil following completion of the merger.

Q: What will I receive in the merger?

A: If the merger is completed, each of your shares of XTO Energy common stock will be cancelled and converted automatically into the right to receive 0.7098 of a share of ExxonMobil common stock. XTO Energy stockholders will receive cash for any fractional shares of ExxonMobil common stock that they would otherwise receive in the merger.

Based on the closing price of ExxonMobil common stock on the New York Stock Exchange on December 11, 2009, the last trading day before the public announcement of the merger agreement, the merger consideration represented approximately \$51.69 in value for each share of XTO Energy common stock. Based on the closing price of ExxonMobil common stock on the New York Stock Exchange on [], 2010, the most recent practicable trading day prior to the date of this proxy statement/prospectus, the merger consideration represented approximately \$[] in value for each share of XTO Energy common stock. **The market price of ExxonMobil common stock will fluctuate prior to the merger, and the market price of ExxonMobil common stock when received by XTO Energy stockholders after the merger is completed could be greater or less than the current market price of ExxonMobil common stock.** See Risk Factors beginning on page [] of this proxy statement/prospectus.

Q: What happens if the merger is not completed?

A:

Edgar Filing: EXXON MOBIL CORP - Form S-4

If the merger agreement is not adopted by XTO Energy stockholders or if the merger is not completed for any other reason, you will not receive any payment for your shares of XTO Energy common stock in

Table of Contents

connection with the merger. Instead, XTO Energy will remain an independent public company and its common stock will continue to be listed and traded on the New York Stock Exchange. If the merger agreement is terminated under specified circumstances, XTO Energy may be required to pay ExxonMobil a termination fee of \$900 million as described under *The Merger Agreement Termination Fee Payable by XTO Energy* beginning on page [] of this proxy statement/prospectus.

Q: Will I continue to receive future dividends?

A: Before completion of the merger, XTO Energy expects to continue to pay its regular quarterly cash dividends on shares of its common stock, which currently are \$0.125 per share. However, XTO Energy and ExxonMobil will coordinate the timing of dividend declarations leading up to the merger so that a holder will neither receive two dividends, nor fail to receive one dividend, for any quarter. Receipt of the regular quarterly dividend will not reduce the merger consideration you receive. After completion of the merger, you will be entitled only to dividends on any shares of ExxonMobil common stock you receive in the merger. While ExxonMobil provides no assurances as to the level or payment of any future dividends on shares of its common stock, and ExxonMobil's board of directors has the power to modify dividend policy at any time, ExxonMobil presently pays dividends at a quarterly rate of \$0.42 per share of ExxonMobil common stock.

Q: What am I being asked to vote on?

A: XTO Energy's stockholders are being asked to vote on the following proposals:

to adopt the merger agreement between ExxonMobil and XTO Energy, a copy of which is attached as Annex A to this proxy statement/prospectus; and

to approve the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

The approval of the proposal to adopt the merger agreement by XTO Energy stockholders is a condition to the obligations of XTO Energy and ExxonMobil to complete the merger.

Q: Does XTO Energy's board of directors recommend that stockholders adopt the merger agreement?

A: Yes. The XTO Energy board of directors has approved the merger agreement and the transactions contemplated thereby, including the merger, and determined that these transactions are advisable and in the best interests of the XTO Energy stockholders. Therefore, the XTO Energy board of directors recommends that you vote **FOR** the proposal to adopt the merger agreement at the special meeting. See *The Merger XTO Energy Reasons for the Merger; Recommendation of the XTO Energy Board of Directors* beginning on page [] of this proxy statement/prospectus.

Q: What stockholder vote is required for the approval of each proposal?

A: The following are the vote requirements for the proposals:

Adoption of the Merger Agreement: The affirmative vote of holders of a majority of the shares of XTO Energy common stock outstanding and entitled to vote on the proposal. Accordingly, abstentions and unvoted shares will have the same effect as votes

AGAINST adoption.

Adjournment (if necessary): The affirmative vote of holders of a majority of the shares of XTO Energy common stock present in person or represented by proxy at the special meeting and entitled to vote on the proposal.

Q: *What constitutes a quorum for the special meeting?*

A: A majority of the outstanding shares of XTO Energy common stock entitled to vote being present in person or represented by proxy constitutes a quorum for the special meeting.

Table of Contents

Q: When is this proxy statement/prospectus being mailed?

A: This proxy statement/prospectus and the proxy card are first being sent to XTO Energy stockholders on or near [], 2010.

Q: Who is entitled to vote at the special meeting?

A: All holders of XTO Energy common stock who held shares at the close of business on the record date for the special meeting ([], 2010) are entitled to receive notice of and to vote at the special meeting provided that such shares remain outstanding on the date of the special meeting. As of the close of business on the record date, there were [] shares of XTO Energy common stock outstanding and entitled to vote at the special meeting. Each share of XTO Energy common stock is entitled to one vote.

Q: When and where is the special meeting?

A: The special meeting will be held at [] on [], 2010 at [], local time.

Q: How do I vote my shares at the special meeting?

A: If you are entitled to vote at the XTO Energy special meeting and hold your shares in your own name, you can submit a proxy or vote in person by completing a ballot at the special meeting. However, XTO Energy encourages you to submit a proxy before the special meeting even if you plan to attend the special meeting. A proxy is a legal designation of another person to vote your shares of XTO Energy common stock on your behalf. If you hold shares in your own name, you may submit a proxy for your shares by:

calling the toll-free number specified on the enclosed proxy card and follow the instructions when prompted;

accessing the Internet web site specified on the enclosed proxy card and follow the instructions provided to you; or

filling out, signing and dating the enclosed proxy card and mailing it in the prepaid envelope included with these proxy materials. If you submit a proxy by telephone or the Internet web site, please do not return your proxy card by mail.

See the response to the next question for how to vote shares held through a broker or other nominee.

Q: If my shares are held in street name by my broker, will my broker automatically vote my shares for me?

A: No. If your shares are held in an account at a broker or through another nominee, you must instruct the broker or other nominee on how to vote your shares by following the instructions that the broker or other nominee provides to you with these materials. Most brokers offer the ability for stockholders to submit voting instructions by mail by completing a voting instruction card, by telephone and via the Internet. If you do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is called a broker non-vote. In these cases, the broker can register your shares as being present at the special meeting for purposes of determining a quorum, but will not be able to vote on those matters for which specific authorization is required. Under the current rules of the New York Stock Exchange, brokers do not have discretionary authority to vote on the proposal to adopt the merger

Edgar Filing: EXXON MOBIL CORP - Form S-4

agreement. **A broker non-vote will have the same effect as a vote AGAINST adoption of the merger agreement.**

If you hold shares through a broker or other nominee and wish to vote your shares in person at the special meeting, you must obtain a proxy from your broker or other nominee and present it to the inspector of election with your ballot when you vote at the special meeting.

Table of Contents

Q: How will my shares be represented at the special meeting?

A: If you submit your proxy by telephone, the Internet web site or by signing and returning your proxy card, the officers named in your proxy card will vote your shares in the manner you requested if you correctly submitted your proxy. If you sign your proxy card and return it without indicating how you would like to vote your shares, your proxy will be voted as the XTO Energy board of directors recommends, which is:

FOR the adoption of the merger agreement; and

FOR the approval of the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

Q: Who may attend the special meeting?

A: XTO Energy stockholders (or their authorized representatives) and XTO Energy's invited guests may attend the special meeting. Stockholders may call the XTO Energy Office of the Corporate Secretary at (866) 255-0679 to obtain directions to the location of the special meeting.

Q: Is my vote important?

A: Yes, your vote is very important. If you do not submit a proxy or vote in person at the special meeting, it will be more difficult for XTO Energy to obtain the necessary quorum to hold the special meeting. In addition, an abstention or your failure to submit a proxy or to vote in person will have the same effect as a vote **AGAINST** the adoption of the merger agreement. If you hold your shares through a broker or other nominee, your broker or other nominee will not be able to cast a vote on the adoption of the merger agreement without instructions from you. **The XTO Energy board of directors recommends that you vote FOR the adoption of the merger agreement.**

Q: Can I revoke my proxy or change my voting instructions?

A: Yes. You may revoke your proxy and/or change your vote at any time before your proxy is voted at the special meeting. If you are a stockholder of record, you can do this by:

sending a written notice stating that you revoke your proxy to XTO Energy at 810 Houston Street, Fort Worth, Texas 76102, Attn: Corporate Secretary, that bears a date later than the date of the proxy and is received prior to the special meeting;

submitting a valid, later-dated proxy by mail, telephone or Internet that is received prior to the special meeting; or

attending the special meeting and voting by ballot in person (your attendance at the special meeting will not, by itself, revoke any proxy that you have previously given).

If you hold your shares through a broker or other nominee, you must follow the directions you receive from your broker or other nominee in order to revoke or change your voting instructions.

Q: What happens if I sell my shares after the record date but before the special meeting?

A: The record date for the special meeting is earlier than the date of the special meeting and the date that the merger is expected to be completed. If you sell or otherwise transfer your XTO Energy shares after the record date but before the date of the special meeting, you will retain your right to vote at the special meeting. However, you will not have the right to receive the merger consideration to be received by XTO Energy's stockholders in the merger. In order to receive the merger consideration, you must hold your shares through completion of the merger.

Table of Contents

Q: What do I do if I receive more than one set of voting materials?

A: You may receive more than one set of voting materials for the special meeting, including multiple copies of this proxy statement/prospectus, proxy cards and/or voting instruction forms. This can occur if you hold your shares in more than one brokerage account, if you hold shares directly as a record holder and also in street name, or otherwise through a nominee, and in certain other circumstances. If you receive more than one set of voting materials, each should be voted and/or returned separately in order to ensure that all of your shares are voted.

Q: Am I entitled to appraisal rights if I vote against the adoption of the merger agreement?

A: No. Appraisal rights confer on stockholders who vote against the merger the right to demand that the corporation pay the fair value for their shares as determined by a court in a judicial proceeding instead of receiving the consideration offered to stockholders in connection with the merger. Appraisal rights are not available under the Delaware General Corporation Law in connection with the merger.

Q: Is completion of the merger subject to any conditions?

A: Yes. In addition to the adoption of the merger agreement by XTO Energy stockholders, completion of the merger requires the receipt of the necessary governmental and regulatory approvals and the satisfaction or, to the extent permitted by applicable law, waiver of the other conditions specified in the merger agreement.

Q: When do you expect to complete the merger?

A: XTO Energy and ExxonMobil are working towards completing the merger promptly. XTO Energy and ExxonMobil currently expect to complete the merger in the second quarter of 2010, subject to receipt of XTO Energy's stockholder approval, governmental and regulatory approvals and other usual and customary closing conditions. However, no assurance can be given as to when, or if, the merger will occur.

Q: Is the transaction expected to be taxable to XTO Energy stockholders?

A: XTO Energy and ExxonMobil have structured the merger as a reorganization for U.S. federal income tax purposes. Accordingly, XTO Energy stockholders will generally not be subject to U.S. federal income tax as a result of the exchange of their shares of XTO Energy common stock for ExxonMobil common stock in the merger, except in connection with any cash received in lieu of fractional shares of ExxonMobil common stock. See The Merger Material U.S. Federal Income Tax Consequences of the Merger beginning on page [] of this proxy statement/prospectus.

Q: What do I need to do now?

A: Carefully read and consider the information contained in and incorporated by reference into this proxy statement/prospectus, including its annexes. Then, please vote your shares of XTO Energy common stock, which you may do by:

completing, dating, signing and returning the enclosed proxy card in the accompanying postage-paid envelope;

Edgar Filing: EXXON MOBIL CORP - Form S-4

submitting your proxy by telephone or via the Internet by following the instructions included on your proxy card; or

attending the special meeting and voting by ballot in person.

If you hold shares through a broker or other nominee, please instruct your broker or nominee to vote your shares by following the instructions that the broker or nominee provides to you with these materials.

Table of Contents

Q: Should I send in my stock certificates now?

A: No. XTO Energy stockholders should not send in their stock certificates at this time. After completion of the merger, ExxonMobil's exchange agent will send you a letter of transmittal and instructions for exchanging your shares of XTO Energy common stock for the merger consideration. Unless you specifically request to receive ExxonMobil stock certificates, the shares of ExxonMobil stock you receive in the merger will be issued in book-entry form.

Q: Whom should I call with questions?

A: XTO Energy stockholders should call Innisfree M&A Incorporated, XTO Energy's proxy solicitor, toll-free at (877) 750-5836 (banks and brokers call collect at (212) 750-5833) with any questions about the merger or the special meeting, or to obtain additional copies of this proxy statement/prospectus, proxy cards or voting instruction forms.

SUMMARY

*This summary highlights selected information from this proxy statement/prospectus. It may not contain all of the information that is important to you. You are urged to read carefully the entire proxy statement/prospectus and the other documents referred to in this proxy statement/prospectus in order to fully understand the merger agreement and the proposed merger. See *Where You Can Find More Information* beginning on page [] of this proxy statement/prospectus. Each item in this summary refers to the page of this proxy statement/prospectus on which that subject is discussed in more detail.*

Information about ExxonMobil, XTO Energy and ExxonMobil Investment Corporation (See Page []).

Exxon Mobil Corporation

Exxon Mobil Corporation, which is referred to in this proxy statement/prospectus as ExxonMobil, was incorporated in the State of New Jersey in 1882. Divisions and affiliated companies of ExxonMobil operate or market products in the United States and most other countries of the world. Their principal business is energy, involving exploration for, and production of, crude oil and natural gas, manufacture of petroleum products and transportation and sale of crude oil, natural gas and petroleum products. ExxonMobil is a major manufacturer and marketer of commodity petrochemicals, including olefins, aromatics, polyethylene and polypropylene plastics and a wide variety of specialty products. ExxonMobil also has interests in electric power generation facilities. Affiliates of ExxonMobil conduct extensive research programs in support of these businesses.

The principal trading market for ExxonMobil's common stock (NYSE: XOM) is the New York Stock Exchange.

The principal executive offices of ExxonMobil are located at 5959 Las Colinas Boulevard, Irving, TX 75039-2298, its telephone number is (972) 444-1000 and its website is www.exxonmobil.com.

XTO Energy Inc.

XTO Energy Inc., which is referred to in this proxy statement/prospectus as XTO Energy, a Delaware corporation, is engaged in the acquisition, development, exploitation and exploration of both producing oil and gas properties and unproved properties, and in the production, processing, marketing and transportation of oil and natural gas. XTO Energy's proved reserves are principally located in relatively long-lived fields with an extensive base of hydrocarbons in place and, in most cases, well-established production histories concentrated in the Eastern Region, including the East Texas Basin, Haynesville Shale, northwestern Louisiana and Mississippi; the North Texas Region, including the Barnett Shale; the Mid-Continent and Rocky Mountain Region, including the Fayetteville, Woodford and Bakken Shales; the San Juan Region; the Permian Region; the South Texas and Gulf Coast Region, including the offshore Gulf of Mexico; and other regions, including Marcellus Shale and North Sea.

XTO Energy was incorporated in 1990 to acquire the business and properties of predecessor entities that were created from 1986 through 1989. XTO Energy's initial public offering of common stock was completed in May 1993. XTO Energy was formerly known as Cross Timbers Oil Company and changed its name to XTO Energy Inc. in June 2001.

The principal trading market for XTO Energy's common stock (NYSE: XTO) is the New York Stock Exchange.

The principal executive offices of XTO Energy are located at 810 Houston Street, Fort Worth, TX 76102, its telephone number is (817) 870-2800 and its website is www.xtoenergy.com.

Table of Contents

ExxonMobil Investment Corporation

ExxonMobil Investment Corporation, which is referred to in this proxy statement/prospectus as Merger Sub, is a Delaware corporation and a wholly owned subsidiary of ExxonMobil. Merger Sub was formed solely for the purpose of consummating the merger. Merger Sub has not carried on any activities to date, except for activities incidental to its formation and activities undertaken in connection with the merger.

The principal executive offices of Merger Sub are located at 5959 Las Colinas Boulevard, Irving, TX 75039-2298 and its telephone number is (972) 444-1000.

The Merger (See Page []).

ExxonMobil, Merger Sub and XTO Energy have entered into the Agreement and Plan of Merger, dated as of December 13, 2009, which, as it may be amended from time to time, is referred to in this proxy statement/prospectus as the merger agreement. Subject to the terms and conditions of the merger agreement and in accordance with Delaware law, Merger Sub will be merged with and into XTO Energy, with XTO Energy continuing as the surviving corporation. Upon completion of this transaction, which is referred to in this proxy statement/prospectus as the merger, XTO Energy will be a wholly owned subsidiary of ExxonMobil, and XTO Energy common stock will no longer be outstanding or publicly traded.

A copy of the merger agreement is attached as Annex A to this proxy statement/prospectus. **You should read the merger agreement carefully because it is the legal document that governs the merger.**

Special Meeting of XTO Energy Stockholders (See Page []).

Meeting. The special meeting will be held at [] on [], 2010 at [], local time. At the special meeting, XTO Energy stockholders will be asked to vote on the following proposals:

to adopt the merger agreement; and

to approve the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

Record Date. Only XTO Energy stockholders of record at the close of business on [], 2010 will be entitled to receive notice of and to vote at the special meeting. As of the close of business on the record date of [], 2010, there were [] shares of XTO Energy common stock outstanding and entitled to vote at the meeting. Each holder of XTO Energy common stock is entitled to one vote for each share of common stock owned as of the record date.

Required Vote. To adopt the merger agreement, holders of a majority of the shares of XTO Energy common stock outstanding and entitled to vote on the proposal must vote in favor of adoption of the merger agreement. **XTO Energy cannot complete the merger unless its stockholders adopt the merger agreement.** Because approval is based on the affirmative vote of a majority of the outstanding shares of XTO Energy common stock, **an XTO Energy stockholder's failure to vote, an abstention from voting or the failure of an XTO Energy stockholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee will have the same effect as a vote AGAINST adoption of the merger agreement.**

To approve the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting, the affirmative vote of holders of a majority of the shares of XTO Energy common stock present in person or represented by proxy at the special meeting and entitled to vote at the special meeting is required. Because approval of this proposal is based on the

Table of Contents

affirmative vote of holders of a majority of the shares present in person or by proxy and entitled to vote, abstentions will have the same effect as a vote **AGAINST** such proposal, but failures to be present to vote and failures of XTO Energy stockholders who hold their shares in street name through brokers or other nominees to give voting instructions to such brokers or other nominees will have no effect on the vote held on such proposal.

Stock Ownership of and Voting by XTO Energy's Directors and Executive Officers. At the close of business on the record date for the special meeting, XTO Energy's directors and executive officers and their affiliates beneficially owned and had the right to vote [] shares of XTO Energy common stock at the special meeting, which represents approximately []% of the XTO Energy common stock entitled to vote at the special meeting. It is expected that XTO Energy's directors and executive officers will vote their shares **FOR** the adoption of the merger agreement, although none of them has entered into any agreement requiring them to do so.

What XTO Energy Stockholders Will Receive in the Merger (See Page []).

If the merger is completed, XTO Energy stockholders will be entitled to receive in the merger, for each share of XTO Energy common stock that they own, 0.7098 of a share of ExxonMobil common stock. The number of shares of ExxonMobil common stock delivered in respect of each share of XTO Energy common stock in the merger is referred to in this proxy statement/prospectus as the exchange ratio. ExxonMobil will not issue any fractional shares of its common stock in the merger. Instead, the total number of shares of ExxonMobil common stock that each XTO Energy stockholder will receive in the merger will be rounded down to the nearest whole number, and each XTO Energy stockholder will receive cash, without interest, for any fractional shares of ExxonMobil common stock that he or she would otherwise receive in the merger. The amount of cash for fractional shares will be calculated by multiplying the fraction of a share of ExxonMobil common stock that the XTO Energy stockholder would otherwise be entitled to receive in the merger by the closing sale price of a share of ExxonMobil common stock on the trading day immediately preceding the completion of the merger. The ExxonMobil common stock received based on the exchange ratio, together with any cash received in lieu of fractional shares, is referred to in this proxy statement/prospectus as the merger consideration.

Example: If you currently own 100 shares of XTO Energy common stock, you will be entitled to receive 70 shares of ExxonMobil common stock and cash for the market value of 0.98 shares of ExxonMobil common stock at the closing sale price of a share of ExxonMobil common stock on the trading day immediately preceding the completion of the merger.

The exchange ratio of 0.7098 of a share of ExxonMobil common stock is fixed, which means that it will not change between now and the date of the merger, regardless of whether the market price of either ExxonMobil or XTO Energy common stock changes. Therefore, the value of the merger consideration will depend on the market price of ExxonMobil common stock at the time XTO Energy stockholders receive ExxonMobil common stock in the merger. **The market price of ExxonMobil common stock will fluctuate prior to the merger, and the market price of ExxonMobil common stock when received by XTO Energy stockholders after the merger is completed could be greater or less than the current market price of ExxonMobil common stock.**

Treatment of Equity Awards (See Page []).

Upon completion of the merger, each option to purchase shares of XTO Energy common stock granted under XTO Energy's equity compensation plans outstanding immediately prior to the completion of the merger will be converted into an option to acquire a number of shares of ExxonMobil common stock (rounded down to the nearest whole share) equal to the product of (a) the number of shares of XTO Energy common stock subject to the XTO Energy option immediately prior to the completion of the merger multiplied by (b) the exchange ratio in the merger. The exercise price per share of ExxonMobil common stock subject to a converted option will be an amount (rounded up to the nearest whole cent) equal to the quotient of (1) the exercise price per share of XTO

Table of Contents

Energy common stock subject to the XTO Energy option immediately prior to the completion of the merger divided by (2) the exchange ratio in the merger. Options with vesting conditions contingent on the achievement of specified XTO Energy stock targets will be adjusted based on the exchange ratio in the merger (rounded up to the nearest whole cent). Each converted option will remain subject to the same terms and conditions (including vesting terms) as were applicable to the XTO Energy option immediately prior to the completion of the merger, except for those converted options held by Bob R. Simpson, Keith A. Hutton, Vaughn O. Vennerberg, II, Louis G. Baldwin and Timothy L. Petrus. See *Interests of Certain Persons in the Merger* *XTO Energy Named Executive Officers* *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms and conditions applicable to converted options held by Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus. Employees terminating employment at or within a stated period after the completion of the merger for reasons other than for cause or voluntary resignation without good reason (as defined in the applicable plans and arrangements) will have their option vesting accelerated upon such termination.

Upon completion of the merger, each restricted stock award or performance share award (which represents a share of XTO Energy common stock subject to vesting and forfeiture) granted under XTO Energy's equity compensation plans outstanding immediately prior to the completion of the merger will be converted into a restricted stock award or performance share award, as applicable, relating to a number of shares of ExxonMobil common stock based on the exchange ratio in the merger (rounded down to the nearest whole share). Each converted restricted stock award or performance share award will remain subject to the same terms, restrictions and vesting schedules as were applicable to the XTO Energy restricted stock award or performance share award prior to the completion of the merger (with any vesting conditions contingent on the achievement of specified XTO Energy stock targets adjusted based on the exchange ratio in the merger, rounded up to the nearest whole cent), except for those performance share awards granted to Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus prior to November 2009, performance share awards granted to certain employees (including the executive officers, other than Mr. Simpson) in November 2009 and performance share awards granted to Mr. Simpson in January 2010 pursuant to the terms of his existing employment agreement. Performance share awards granted to Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus prior to November 2009 and to Mr. Simpson in January 2010 will become fully vested upon completion of the merger. See *Interests of Certain Persons in the Merger* *XTO Energy Named Executive Officers* *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms, restrictions and vesting schedules applicable to converted performance share awards held by Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus and *Interests of Certain Persons* *Other Executive Officers of XTO Energy* *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms, restrictions and vesting schedules applicable to performance share awards held by other executive officers of XTO Energy. Employees terminating employment at or within a stated period after the completion of the merger for reasons other than for cause or voluntary resignation without good reason (as defined in the applicable plans and arrangements) will have vesting of their restricted stock and performance stock awards accelerated upon such termination.

Recommendation of the XTO Energy Board of Directors (See Page []).

The XTO Energy board of directors believes that the merger agreement and the merger are advisable and in the best interests of XTO Energy and its stockholders and has approved the merger and the merger agreement. **The XTO Energy board of directors recommends that XTO Energy stockholders vote FOR adoption of the merger agreement.**

For the factors considered by the XTO Energy board of directors in reaching its decision to approve the merger agreement, see *The Merger* *XTO Energy Reasons for the Merger*; *Recommendation of the XTO Energy Board of Directors* beginning on page [] of this proxy statement/prospectus.

Table of Contents

In addition, the XTO Energy board of directors recommends that XTO Energy stockholders vote **FOR** the XTO Energy proposal to adjourn the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

Opinion of XTO Energy's Financial Advisor (See Page []).

In connection with the merger, on December 13, 2009, Barclays Capital Inc., referred to in this proxy statement/prospectus as Barclays Capital, rendered its opinion to XTO Energy's board of directors that, as of such date and based upon and subject to the qualifications, limitations and assumptions stated in its opinion, from a financial point of view, the exchange ratio in the proposed merger was fair to XTO Energy's stockholders. The full text of Barclays Capital's written opinion, which sets forth, among other things, the procedures followed, factors considered, assumptions made and qualifications and limitations of the review undertaken in rendering its opinion, is attached as Annex B to this proxy statement/prospectus. The opinion was delivered to the XTO Energy board of directors and addresses only the fairness, from a financial point of view, of the exchange ratio in the proposed merger. The opinion does not address any other aspect of the merger nor does it constitute a recommendation to any stockholder as to how such stockholder should vote or act with respect to any matters relating to the proposed merger or any other matter.

Ownership of ExxonMobil After the Merger (See Page []).

Based on the number of shares of XTO Energy common stock (including XTO Energy restricted stock awards and performance share awards) and XTO Energy options and warrants outstanding as of January 22, 2010, ExxonMobil expects to issue approximately 414,009,157 shares of its common stock to XTO Energy stockholders pursuant to the merger and reserve for issuance approximately 14,344,778 additional shares of ExxonMobil common stock in connection with the exercise or conversion of XTO Energy's outstanding options and warrants. The actual number of shares of ExxonMobil common stock to be issued and reserved for issuance pursuant to the merger will be determined at the completion of the merger based on the exchange ratio of 0.7098 and the number of shares of XTO Energy common stock and XTO Energy options and warrants outstanding at such time. Immediately after completion of the merger, it is expected that former XTO Energy stockholders will own approximately 8% of the outstanding common stock of ExxonMobil common stock, based on the number of shares of XTO Energy and ExxonMobil common stock outstanding, on a fully diluted basis, as of January 22, 2010.

ExxonMobil Shareholder Approval Is Not Required.

ExxonMobil shareholders are not required to adopt the merger agreement or approve the merger or the issuance of the shares of ExxonMobil common stock in connection with the merger.

Interests of Certain Persons in the Merger (See Page []).

In considering the recommendation of the XTO Energy board of directors with respect to the merger agreement, XTO Energy stockholders should be aware that the executive officers of XTO Energy and members of the XTO Energy board of directors may have interests in the transactions contemplated by the merger agreement that may be different from, or in addition to, the interests of XTO Energy stockholders generally. The XTO Energy board of directors was aware of these interests, and considered them, among other matters, in evaluating and negotiating the merger agreement and the merger, and in recommending that XTO Energy stockholders adopt the merger agreement.

Listing of ExxonMobil Stock and Delisting and Deregistration of XTO Energy Stock (See Page []).

ExxonMobil will apply to have the shares of its common stock to be issued in the merger approved for listing on the New York Stock Exchange, where ExxonMobil common stock is currently traded. If the merger is completed, XTO Energy shares will no longer be listed on the New York Stock Exchange, and will be deregistered under the Securities Exchange Act of 1934, as amended, which is referred to in this proxy statement/prospectus as the Exchange Act.

Table of Contents

No Appraisal Rights Available (See Page []).

Under Delaware law, XTO Energy stockholders will not have appraisal rights in connection with the merger.

Completion of the Merger Is Subject to Certain Conditions (See Page []).

The obligation of each of ExxonMobil, XTO Energy and Merger Sub to complete the merger is subject to the satisfaction (or, to the extent permitted by applicable law, waiver) of a number of conditions, including the following:

adoption of the merger agreement by holders of a majority of the outstanding shares of XTO Energy common stock;

absence of any applicable law being in effect that prohibits completion of the merger;

expiration or termination of any applicable waiting period (or extensions thereof) relating to the merger under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations thereunder, which is referred to in this proxy statement/prospectus as the HSR Act, and the expiration of the applicable waiting period relating to the merger under the Dutch Competition Act (the Mededingingswet), as amended, and the rules and regulations thereunder, which is referred to in this proxy statement/prospectus as the Dutch Competition Act, or receipt of an approval of the Dutch Competition Authority allowing the parties to complete the merger;

receipt of all other required consents and approvals of, and the making of all other required filings or registrations with, any governmental authority, subject to certain exceptions described under The Merger Agreement Conditions to the Completion of the Merger beginning on page [] of this proxy statement/prospectus;

the effectiveness of, and the absence of any stop order with respect to, the registration statement on Form S-4 of which this proxy statement/prospectus forms a part;

approval for the listing on the New York Stock Exchange of the shares of ExxonMobil common stock to be issued in the merger;

accuracy of the representations and warranties made in the merger agreement by the other party, subject to certain materiality thresholds;

performance in all material respects by the other party of the obligations required to be performed by it at or prior to the completion of the merger;

receipt by each of ExxonMobil and XTO Energy of an opinion from its outside counsel that the merger will be a reorganization for U.S. federal income tax purposes; and

the absence of a material adverse effect on the other party since the date of the merger agreement (see The Merger Agreement Definition of Material Adverse Effect beginning on page [] of this proxy statement/prospectus for a definition of material adverse effect).

Edgar Filing: EXXON MOBIL CORP - Form S-4

In addition, the obligations of ExxonMobil and Merger Sub to complete the merger are subject to the satisfaction (or, to the extent permitted by applicable law, waiver) of the following conditions:

absence of any pending action or proceeding by any governmental authority that (i) challenges or seeks to make illegal, delay materially or otherwise directly or indirectly prohibit the completion of the merger, (ii) seeks to prohibit ExxonMobil or Merger Sub's ability effectively to exercise full rights of ownership of XTO Energy's common stock following the completion of the merger or (iii) seeks to compel ExxonMobil, XTO Energy or any of their respective subsidiaries to take any action described under The Merger Agreement Reasonable Best Efforts Covenant beginning on page [] of this proxy statement/prospectus that is not required to be effected pursuant to the terms of the merger agreement; and

Table of Contents

absence of any applicable law enacted, enforced, promulgated or issued after the date of the merger agreement by any governmental authority (other than antitrust or other competition laws), that would reasonably be likely to result in any of the consequences referred to in the preceding bullet point.

ExxonMobil and XTO Energy cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

The Merger May Not Be Completed Without All Required Regulatory Approvals (See Page []).

Completion of the merger is conditioned upon the receipt of certain governmental clearances or approvals, including, but not limited to, the expiration or termination of the applicable waiting period relating to the merger under the HSR Act and the expiration or termination of the applicable waiting period, or receipt of approval, under the Dutch Competition Act. ExxonMobil expects to file the required pre-merger notification under the Dutch Competition Act by mid-February 2010. ExxonMobil and XTO Energy are required under the merger agreement to file the required notification and report forms with respect to the merger under the HSR Act on or prior to February 11, 2010. ExxonMobil and XTO Energy have agreed to use their reasonable best efforts to obtain all regulatory approvals required to consummate the merger. However, in using their reasonable best efforts to obtain these required regulatory approvals, under the terms of the merger agreement, ExxonMobil is not required, and XTO Energy is not permitted without the consent of ExxonMobil, to take certain actions (such as divesting or holding separate assets or entering into settlements or consent decrees with governmental authorities) that would reasonably be expected to, individually or in the aggregate, restrict in any material respect, or otherwise negatively and materially impact, the natural gas (including natural gas liquids) exploration, production and sales businesses of either XTO Energy and its subsidiaries, taken as a whole, or ExxonMobil and its subsidiaries, taken as a whole.

The Merger Is Expected to Occur in the Second Quarter of 2010 (See Page []).

The merger will occur within two business days after the conditions to its completion have been satisfied or, to the extent permissible, waived, unless otherwise mutually agreed upon by the parties. As of the date of this proxy statement/prospectus, the merger is expected to occur in the second quarter of 2010. However, there can be no assurance as to when, or if, the merger will occur.

No Solicitation by XTO Energy (See Page []).

Neither XTO Energy nor any of its subsidiaries will, nor will XTO Energy or any of its subsidiaries authorize or permit any of its or their officers, directors, employees or representatives to (i) solicit, initiate or otherwise knowingly facilitate or encourage the submission of any competing proposal from any third party relating to an acquisition of XTO Energy, (ii) enter into or participate in any discussions or negotiations regarding any such proposal or by furnishing any nonpublic information relating to XTO Energy or its subsidiaries to such third party, (iii) fail to make, withdraw or modify in a manner adverse to ExxonMobil the recommendation of the XTO Energy board of directors in favor of the adoption of the merger agreement, (iv) grant any waiver or release under any standstill or similar agreement, (v) approve any transaction, or any third party becoming an interested stockholder, under the Delaware anti-takeover statute or (vi) enter into an agreement relating to a competing acquisition proposal. Notwithstanding these restrictions, however, the merger agreement provides that, under specified circumstances at any time prior to the adoption of the merger agreement by XTO Energy stockholders:

XTO Energy may, in response to an unsolicited acquisition proposal from a third party that the XTO Energy board of directors determines constitutes or could reasonably be expected to lead to a superior proposal (as defined under The Merger Agreement No Solicitation by XTO Energy beginning on page [] of this proxy statement/prospectus), directly or indirectly engage or participate in negotiations

Table of Contents

or discussions with such party and furnish nonpublic information to such third party pursuant to a customary confidentiality agreement (provided that all such information is or has been provided or made available to ExxonMobil).

The XTO Energy board of directors may fail to make, withdraw or modify in a manner adverse to ExxonMobil its recommendation in favor of the adoption of the merger agreement either (a) following receipt of an unsolicited competing acquisition proposal made after the date of the merger agreement that XTO Energy's board of directors determines constitutes a superior proposal or (b) solely in response to a material event, development, circumstance, occurrence or change in circumstances or facts not related to a competing acquisition proposal that was not known to XTO Energy's board of directors on the date of the merger agreement (or if known, the magnitude or material consequences of which were not known or understood as of that date). However, the XTO Energy board of directors may not change its recommendation unless XTO Energy notifies ExxonMobil of its intention to do so at least three business days prior to taking such action and ExxonMobil does not, within three business days of receipt of such notice, make an offer that the XTO Energy board of directors determines, in good faith, after consultation with its outside financial and legal advisors, is at least as favorable to XTO Energy's stockholders as the competing acquisition proposal (if the intended recommendation change relates to a competing acquisition proposal) or that would obviate the need for the recommendation change (if the intended recommendation change relates to any other event).

The actions described in the preceding two bullets may be taken only if the XTO Energy board of directors determines in good faith, after consultation with its outside legal advisors, that failure to take such action would be inconsistent with its fiduciary duties under Delaware law.

ExxonMobil has the right to terminate the merger agreement if, prior to the special meeting, the XTO Energy board of directors changes its recommendation in favor of the adoption of the merger agreement in a manner adverse to ExxonMobil. XTO Energy, however, does not have the right to terminate the merger agreement in connection with such a change of recommendation and, unless ExxonMobil terminates the merger agreement, XTO Energy would remain obligated to call and hold a special meeting of its stockholders for purposes of voting on a proposal to adopt the merger agreement.

Termination of the Merger Agreement (See Page []).

The merger agreement may be terminated at any time before the completion of the merger by mutual written consent of ExxonMobil and XTO Energy.

The merger agreement may also be terminated prior to the completion of the merger by either ExxonMobil or XTO Energy if:

the merger has not been completed on or before September 15, 2010, unless the only reason the merger has not occurred by September 15, 2010 is the failure of certain conditions to the merger related to regulatory matters to be satisfied, in which case the termination date will automatically be extended to December 31, 2010;

there is a permanent legal prohibition to completing the merger;

XTO Energy stockholders fail to adopt the merger agreement at the XTO Energy stockholders' meeting called for that purpose (or at any adjournment or postponement thereof); or

there has been a breach by the other party of any representation or warranty or failure to perform any covenant or agreement that would result in the failure of the other party to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, and such condition is incapable of being satisfied by September 15, 2010 (or, December 31, 2010, if extended as provided by the merger agreement).

Table of Contents

The merger agreement may also be terminated prior to the completion of the merger by ExxonMobil if:

the XTO Energy board of directors changes its recommendation in favor of the adoption of the merger agreement in a manner adverse to ExxonMobil (see The Merger Agreement No Solicitation by XTO Energy beginning on page [] of this proxy statement/prospectus);

the XTO Energy board of directors fails to reaffirm its recommendation in favor of the adoption of the merger agreement within 10 business days after receipt of a written request to do so from ExxonMobil; or

XTO Energy intentionally and materially breaches its obligation not to solicit competing acquisition proposals or its obligation to call and hold a special meeting of its stockholders.

Termination Fee Payable by XTO Energy (See Page []).

XTO Energy has agreed to pay a fee of \$900 million to ExxonMobil if the merger agreement is terminated under any of the following circumstances:

the XTO Energy board of directors changes its recommendation in favor of the adoption of the merger agreement in a manner adverse to ExxonMobil;

the XTO Energy board of directors fails to reaffirm its recommendation in favor of adoption of the merger agreement within 10 business days after receipt of a written request to do so from ExxonMobil;

XTO Energy intentionally and materially breaches its obligation not to solicit competing acquisition proposals or its obligation to call and hold a special meeting of its stockholders; and

(i) the failure of the merger to be completed by September 15, 2010 (or, December 31, 2010, if extended as provided by the merger agreement) and the XTO Energy stockholders meeting is not held on or prior to the fifth business day before the merger agreement is terminated (subject to certain limited exceptions) or (ii) the failure of XTO Energy's stockholders to adopt the merger agreement at a stockholders meeting called for that purpose, and in either case, (x) prior to the termination of the merger agreement or the stockholders meeting, as applicable, XTO Energy receives a competing acquisition proposal (that is not withdrawn) and (y) within 12 months following such termination, XTO Energy completes, enters into a definitive agreement relating to, or recommends to XTO Energy stockholders, a competing acquisition proposal.

Material U.S. Federal Income Tax Consequences of the Merger (See Page []).

ExxonMobil and XTO Energy have structured the merger as a reorganization for U.S. federal income tax purposes. Accordingly, holders of shares of XTO Energy common stock will generally not recognize any gain or loss for U.S. federal income tax purposes on the exchange of their shares of XTO Energy common stock for ExxonMobil common stock in the merger, except for any gain or loss recognized in connection with any cash received in lieu of fractional ExxonMobil shares. It is a condition to the obligations of XTO Energy and ExxonMobil to complete the merger that each receive a legal opinion from its respective outside counsel that the merger will be a reorganization for U.S. federal income tax purposes.

Accounting Treatment (See Page []).

In accordance with accounting principles generally accepted in the United States, ExxonMobil will account for the merger as an acquisition of a business.

Table of Contents

Rights of XTO Energy Stockholders Will Change as a Result of the Merger (See Page []).

XTO Energy stockholders will have different rights once they become ExxonMobil shareholders due to differences between the state corporate law applicable to, and the organizational documents of, ExxonMobil and XTO Energy. These differences are described in more detail under Comparison of Shareholder Rights beginning on page [] of this proxy statement/prospectus.

Litigation Relating to the Merger (See Page []).

Shortly following the announcement of the merger agreement, several putative stockholder class action complaints were filed against various combinations of XTO Energy, the members of the XTO Energy board of directors, ExxonMobil and Merger Sub in the Court of Chancery of the State of Delaware and in the state and federal courts of Texas. These lawsuits challenge the proposed merger and generally allege, among other things, that the individual members of the XTO Energy board of directors have breached their fiduciary duties owed to the public stockholders of XTO Energy by approving the proposed merger and failing to take steps to maximize the value of XTO Energy to its public stockholders; that XTO Energy, ExxonMobil and Merger Sub aided and abetted such breaches of fiduciary duties; and that the merger agreement improperly favors ExxonMobil and unduly restricts XTO Energy's ability to negotiate with rival bidders. These lawsuits generally seek, among other things, compensatory damages, declaratory and injunctive relief concerning the alleged fiduciary breaches and injunctive relief prohibiting the defendants from consummating the merger.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA OF EXXONMOBIL**

The following table presents selected historical consolidated financial data of ExxonMobil. The data as of, and for the years ended, December 31, 2008, 2007, 2006, 2005 and 2004 are derived from ExxonMobil's audited consolidated financial statements for those periods. The data as of, and for the nine months ended, September 30, 2009 and 2008 are derived from ExxonMobil's unaudited condensed consolidated financial statements for those periods. ExxonMobil's management believes that the company's interim unaudited financial statements have been prepared on a basis consistent with its audited financial statements and include all normal and recurring adjustments necessary for a fair presentation of the results for each interim period.

The information in the following table is only a summary and is not indicative of the results of future operations of ExxonMobil. You should read the following information together with ExxonMobil's Annual Report on Form 10-K for the year ended December 31, 2008, ExxonMobil's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2009 and the other information that ExxonMobil has filed with the Securities and Exchange Commission, which is referred to in this proxy statement/prospectus as the SEC, and incorporated by reference into this proxy statement/prospectus. See "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

ExxonMobil is not required to furnish pro forma financial information with respect to the merger in this proxy statement/prospectus because XTO Energy would not be a significant subsidiary under any of the financial conditions specified in Rule 1-02(w) of SEC Regulation S-X, substituting 20% for 10% in each of those conditions in accordance with Rule 11.01(b)(1) of SEC Regulation S-X.

(1) Includes sales-based taxes of \$18,927 and \$27,297 for the nine months ended September 30, 2009 and 2008, respectively, and \$34,508, \$31,728, \$30,381, \$30,742 and \$27,263 for the years ended December 31, 2008, 2007, 2006, 2005 and 2004, respectively.

(2) Includes amounts for purchases/sales contracts with the same counterparty for 2004-2005.

(3) Effective January 1, 2009, ExxonMobil adopted the authoritative guidance for earnings per share as it relates to determining whether instruments granted in share based payment transactions are participating securities. As a result of adoption, ExxonMobil retrospectively adjusted the calculation of its prior periods' earnings per share on a basis consistent with 2009.

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA OF XTO ENERGY**

The following table presents selected historical consolidated financial data of XTO Energy. The data as of, and for the years ended, December 31, 2008, 2007, 2006, 2005 and 2004 are derived from XTO Energy's audited consolidated financial statements for those periods. The data as of, and for the nine months ended, September 30, 2009 and 2008 are derived from XTO Energy's unaudited condensed consolidated financial statements for those periods. All per share data has been adjusted for the 5-for-4 stock split effected in December 2007, the 4-for-3 stock split effected in March 2005 and the 5-for-4 stock split effected in March 2004. XTO Energy's management believes that the company's interim unaudited financial statements have been prepared on a basis consistent with its audited financial statements and include all normal and recurring adjustments necessary for a fair presentation of the results for each interim period.

The information in the following table is only a summary and is not indicative of the results of future operations of XTO Energy. Table of Contents

- (1) Effective January 1, 2009, XTO Energy adopted the authoritative guidance for earnings per share as it relates to determining whether instruments granted in share based payment transactions are participating securities. As a result of adoption, XTO Energy retrospectively adjusted the calculation of its prior periods earnings per share on a basis consistent with 2009.
- (2) Excludes the May 2006 distribution of all of the Hugoton Royalty Trust units owned by XTO Energy to its stockholders as a dividend with a market value of approximately \$1.35 per common share.
- (3) For purposes of calculating this ratio, earnings are before income tax and fixed charges. Fixed charges include interest costs and the portion of rentals considered to be representative of the interest factor.

Table of Contents

COMPARATIVE PER SHARE DATA

The following table sets forth selected historical and unaudited pro forma combined per share information of ExxonMobil and XTO Energy.

Pro Forma Combined Per Share Information of ExxonMobil. The unaudited pro forma combined per share information of ExxonMobil below gives effect to the merger under the acquisition method of accounting, as if the merger had been effective on January 1, 2008, in the case of income from continuing operations and cash dividends data, and September 30, 2009, in the case of book value per share data, and assuming that 0.7098 of a share of ExxonMobil common stock had been issued in exchange for each outstanding share of XTO Energy common stock. The unaudited pro forma combined per share information of ExxonMobil is derived from the audited financial statements as of, and for the year ended, December 31, 2008 and the unaudited condensed consolidated financial statements as of, and for the nine months ended, September 30, 2009 for ExxonMobil and XTO Energy.

The accounting for an acquisition of a business is based on the authoritative guidance for Business Combinations, which ExxonMobil adopted on January 1, 2009, and uses the fair value measurement concepts, which ExxonMobil adopted as required. Acquisition accounting requires, among other things, that most assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. Acquisition accounting is dependent upon certain valuations of XTO Energy's assets and liabilities and other studies that have yet to commence or progress to a stage where there is sufficient information for a definitive measurement. Accordingly, the pro forma adjustments reflect the assets and liabilities of XTO Energy at their preliminary estimated fair values. Differences between these preliminary estimates and the final acquisition accounting will occur and these differences could have a material impact on the unaudited pro forma combined per share information set forth in the following table.

The unaudited pro forma combined per share information of ExxonMobil does not purport to represent the actual results of operations that ExxonMobil would have achieved had the companies been combined during these periods or to project the future results of operations that ExxonMobil may achieve after the merger.

Historical Per Share Information of ExxonMobil and XTO Energy. The historical per share information of each of ExxonMobil and XTO Energy below is derived from the audited financial statements as of, and for the year ended, December 31, 2008 and the unaudited condensed consolidated financial statements as of, and for the nine months ended, September 30, 2009 for each such company.

Equivalent Pro Forma Combined Per Share Information of XTO Energy. The unaudited equivalent pro forma combined per share amounts of XTO Energy below are calculated by multiplying the unaudited pro forma combined per share amounts of ExxonMobil by the exchange ratio of 0.7098.

Generally. You should read the below information in conjunction with the selected historical financial information included elsewhere in this proxy statement/prospectus and the historical financial statements of ExxonMobil and XTO Energy and related notes that are incorporated into this proxy statement/prospectus by reference. See Selected Historical Consolidated Financial Data of ExxonMobil, Selected Historical Consolidated Financial Data of XTO Energy and Where You Can Find More Information beginning on pages [], [] and [], respectively, of this proxy statement/prospectus.

2010:						
First Quarter (through [], 2010)	\$ []	\$ []	\$ []	\$ []	\$ []	\$ []

The following table sets forth the closing sale price per share of ExxonMobil and XTO Energy common stock as reported on the New York Stock Exchange as of December 11, 2009, the last trading day before the public announcement of the merger agreement, and as of [], 2010, the most recent practicable trading day prior to the date of this proxy statement/prospectus. The table also shows the implied value of the merger consideration proposed for each share of XTO Energy common stock as of the same two dates. This implied value was calculated by multiplying the closing sale price of ExxonMobil common stock on the relevant date by the exchange ratio of 0.7098.

	ExxonMobil Common Stock	XTO Energy Common Stock	Implied Per Share Value of Merger Consideration
December 11, 2009	\$ 72.83	\$ 41.49	\$ 51.69
[], 2010	\$ []	\$ []	\$ []

The market prices of ExxonMobil and XTO Energy common stock will fluctuate between the date of this proxy statement/prospectus and the completion of the merger. No assurance can be given concerning the market prices of ExxonMobil or XTO Energy common stock before the completion of the merger or ExxonMobil common stock after the completion of the merger. Because the exchange ratio is fixed in the merger agreement, the market value of the ExxonMobil common stock that XTO Energy stockholders will receive in connection with the merger may vary significantly from the prices shown in the table above. Accordingly, XTO Energy stockholders are advised to obtain current market quotations for ExxonMobil and XTO Energy common stock in deciding whether to vote for adoption of the merger agreement.

Table of Contents

Dividends

ExxonMobil currently pays a quarterly dividend on its common stock and last paid a dividend on December 10, 2009 of \$0.42 per share.

XTO Energy currently pays a quarterly dividend on its common stock and last paid a dividend on January 15, 2010 of \$0.125 per share. Under the terms of the merger agreement, during the period before the closing of the merger, XTO Energy is prohibited from declaring, setting aside or paying any dividend or other distribution except for its regular quarterly cash dividend, which is not to exceed \$0.125 per share.

In addition, the merger agreement provides that ExxonMobil and XTO Energy will coordinate the declaration of dividends in respect of each company's common stock before the completion of the merger so that the holders of ExxonMobil and XTO Energy common stock receive, in any quarter, one and only one dividend in respect of the shares of XTO Energy or ExxonMobil common stock held prior to the completion of the merger and those shares of ExxonMobil common stock issued in connection with the merger.

Any former XTO Energy stockholder who holds ExxonMobil common stock into which XTO Energy common stock has been converted in connection with the merger will receive whatever dividends are declared and paid on ExxonMobil common stock after the completion of the merger. However, no dividend or other distribution having a record date after the effective time of the merger will actually be paid with respect to any shares of ExxonMobil common stock exchangeable in connection with the merger until the certificates, if any, formerly representing shares of XTO Energy common stock have been surrendered, at which time any accrued dividends and other distributions on such shares of ExxonMobil common stock will be paid without interest. Any future dividends will be made at the discretion of the ExxonMobil board of directors. There can be no assurance that any future dividends will be declared or paid by ExxonMobil or as to the amount or timing of such dividends, if any.

Table of Contents

RISK FACTORS

*In addition to the other information contained or incorporated by reference into this proxy statement/prospectus, including the matters addressed in **Cautionary Statement Regarding Forward-Looking Statements** beginning on page [] of this proxy statement/prospectus, you should carefully consider the following risk factors in determining whether to vote for the adoption of the merger agreement. You should also read and consider the risk factors associated with each of the businesses of ExxonMobil and XTO Energy because these risk factors may affect the operations and financial results of the combined company. These risk factors may be found under Part I, Item IA, **Risk Factors** in each company's Annual Report on Form 10-K for the year ended December 31, 2008, each of which is on file with the SEC and all of which are incorporated by reference into this proxy statement/prospectus.*

Because the exchange ratio is fixed and the market price of ExxonMobil common stock may fluctuate, you cannot be sure of the value of the merger consideration you will receive.

Upon completion of the merger, each share of XTO Energy common stock outstanding immediately prior to the merger (other than shares held by ExxonMobil and shares held by XTO Energy as treasury stock) will be converted into the right to receive 0.7098 of a share of ExxonMobil common stock. This exchange ratio is fixed in the merger agreement and will not be adjusted for changes in the market price of either ExxonMobil or XTO Energy common stock. Because the exchange ratio is fixed, any change in the price of ExxonMobil common stock prior to completion of the merger will affect the value of the consideration that you will receive upon completion of the merger. The value of the merger consideration will vary from the date of the announcement of the merger agreement, the date that this proxy statement/prospectus was mailed to XTO Energy stockholders, the date of the XTO Energy special meeting and the date the merger is completed and thereafter. Accordingly, at the time of the XTO Energy special meeting, you will not know or be able to determine the value of the ExxonMobil common stock you will receive upon completion of the merger. Stock price changes may result from a variety of factors, including, among others, general market and economic conditions, changes in ExxonMobil's and XTO Energy's respective businesses, operations and prospects, market assessments of the likelihood that the merger will be completed, the timing of the merger and regulatory considerations. Many of these factors are beyond ExxonMobil's and XTO Energy's control. You are urged to obtain current market quotations for ExxonMobil common stock in deciding whether to vote for the adoption of the merger agreement.

The market price of ExxonMobil common stock after the merger may be affected by factors different from those affecting shares of XTO Energy stock currently.

Upon completion of the merger, holders of XTO Energy common stock will become holders of ExxonMobil common stock. The businesses of ExxonMobil differ from those of XTO Energy in important respects and, accordingly, the results of operations of ExxonMobil after the merger, as well as the market price of its common stock, may be affected by factors different from those currently affecting the independent results of operations of XTO Energy. For further information on the businesses of ExxonMobil and XTO Energy and certain factors to consider in connection with those businesses, see the documents incorporated by reference into this proxy statement/prospectus and referred to under **Where You Can Find More Information** beginning on page [] of this proxy statement/prospectus.

After completion of the merger, ExxonMobil may fail to realize the anticipated benefits of the merger, which could adversely affect the value of ExxonMobil's common stock.

The success of the merger will depend, in part, on ExxonMobil's ability to integrate effectively the businesses of ExxonMobil and XTO Energy and realize the anticipated benefits from such combination. As of the date of this proxy statement/prospectus, ExxonMobil believes that these benefits, which include anticipated synergies from combining XTO Energy's technical expertise in unconventional resource development with

Table of Contents

ExxonMobil's capital strength, project management abilities and research and development programs, are achievable. However, it is possible that ExxonMobil will not be able to achieve these benefits fully, or at all, or will not be able to achieve them within the anticipated timeframe. ExxonMobil and XTO Energy have operated and, until the completion of the merger, will continue to operate, independently, and there can be no assurance that their businesses can be integrated successfully. If ExxonMobil's expectations as to the benefits of the merger turn out to be incorrect, or ExxonMobil is not able to successfully combine the businesses of ExxonMobil and XTO Energy for any other reason, the value of ExxonMobil's common stock (including the stock issued as the merger consideration) may be adversely affected.

It is possible that the integration process could result in the loss of key XTO Energy employees, as well as the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies. Specific issues that must be addressed upon completion of the merger in order to realize the anticipated benefits of the merger include, among other things:

integrating the companies' natural gas exploration and production operations;

applying each company's best practices to the combined natural gas portfolio;

combining the companies' natural gas processing, marketing and transportation operations;

harmonizing the companies' operating practices, employee development and compensation programs, internal controls and other policies, procedures and processes;

integrating the companies' corporate, administrative and information technology infrastructure; and

managing any tax costs or inefficiencies associated with integration.

In addition, at times, the attention of certain members of XTO Energy's management and ExxonMobil's management, and resources of the two companies, may be focused on the completion of the merger and the integration of the businesses of the two companies and diverted from day-to-day business operations.

ExxonMobil's future results may suffer if ExxonMobil does not effectively manage its new global unconventional resource organization following the merger.

Following the merger, ExxonMobil plans to establish a new global functional organization that combines the unconventional resource organizations of both companies. ExxonMobil's future success depends, in part, upon its ability to manage this new organization, which will pose challenges for management, including challenges related to the management and monitoring of new operations and ExxonMobil's ability to apply XTO Energy's technical expertise to ExxonMobil's unconventional resource operations abroad. ExxonMobil cannot assure you that it will be successful or that ExxonMobil will realize the expected operating efficiencies, cost savings, revenue enhancements and other benefits currently anticipated from the merger.

XTO Energy may have difficulty attracting, motivating and retaining executives and other key employees in light of the merger.

Uncertainty about the effect of the merger on XTO Energy employees may have an adverse effect on XTO Energy and consequently ExxonMobil. This uncertainty may impair XTO Energy's ability to attract, retain and motivate key personnel until the merger is completed. Employee retention may be particularly challenging during the pendency of the merger, as employees may experience uncertainty about their future roles with ExxonMobil. If key employees of XTO Energy depart because of issues relating to the uncertainty and difficulty of integration or a desire not to become employees of ExxonMobil, ExxonMobil's ability to realize the anticipated benefits of the merger could be reduced.

Table of Contents

In order to complete the merger, ExxonMobil and XTO Energy must obtain certain governmental approvals, and if such approvals are not granted or are granted with conditions that become applicable to the parties, the completion of the merger may be jeopardized or the anticipated benefits of the merger could be reduced.

Completion of the merger is conditioned upon the receipt of certain governmental approvals, including, but not limited to, the expiration or termination of the applicable waiting period under the HSR Act and the expiration of the applicable waiting period under the Dutch Competition Act or an approval of the Dutch Competition Authority allowing the merger to be completed. Although ExxonMobil and XTO Energy have agreed in the merger agreement to use their reasonable best efforts to obtain the requisite governmental approvals, there can be no assurance that these approvals will be obtained. In addition, the governmental authorities from which these approvals are required have broad discretion in administering the governing regulations. As a condition to approval of the merger, these governmental authorities may impose requirements, limitations or costs or require divestitures or place restrictions on the conduct of ExxonMobil's business after the completion of the merger. Under the terms of the merger agreement, ExxonMobil is not required, and XTO Energy is not permitted without the consent of ExxonMobil, to take certain actions (such as divesting or holding separate assets or entering into settlements or consent decrees with governmental authorities) that would reasonably be expected to, individually or in the aggregate, restrict in any material respect, or otherwise negatively and materially impact, the natural gas (including natural gas liquids) exploration, production and sales businesses of either XTO Energy and its subsidiaries, taken as a whole, or ExxonMobil and its subsidiaries, taken as a whole. However, if, notwithstanding the provisions of the merger agreement, either ExxonMobil or XTO Energy becomes subject to any term, condition, obligation or restriction (whether because such term, condition, obligation or restriction does not rise to the specified level of materiality or ExxonMobil otherwise consents to its imposition), the imposition of such term, condition, obligation or restriction could adversely affect the ability to integrate XTO Energy's operations into ExxonMobil's operations, reduce the anticipated benefits of the merger or otherwise adversely affect ExxonMobil's business and results of operations after the completion of the merger. See The Merger Agreement Conditions to the Completion of the Merger and The Merger Regulatory Approvals Required for the Merger beginning on pages [] and [], respectively, of this proxy statement/prospectus.

XTO Energy's business relationships may be subject to disruption due to uncertainty associated with the merger.

Parties with which XTO Energy does business may experience uncertainty associated with the transaction, including with respect to current or future business relationships. These disruptions could have an adverse effect on the businesses, financial condition, results of operations or prospects of XTO Energy. The adverse effect of such disruptions could be exacerbated by a delay in the completion of the merger or termination of the merger agreement.

Certain of XTO Energy's executive officers and directors have interests in the merger that may be different from your interests as a stockholder of XTO Energy.

When considering the recommendation of XTO Energy's board of directors that XTO Energy stockholders vote in favor of the adoption of the merger agreement, you should be aware that certain of the executive officers and directors of XTO Energy have interests in the merger that may be different from, or in addition to, your interests as a stockholder of XTO Energy. In particular, certain of the officers of XTO Energy have employment, consulting, retention and severance benefit arrangements and rights to acceleration of stock options, restricted stock and performance share awards and other benefits triggered upon completion of the merger or in connection with a termination of their service at or after the effective time of the merger, and the officers and directors of XTO Energy have rights to continued indemnification and insurance coverage after the completion of the merger. XTO Energy's board of directors was aware of these interests and considered them, among other things, in evaluating and negotiating the merger agreement and the merger and in recommending that XTO Energy

Table of Contents

stockholders adopt the merger agreement. See **Interests of Certain Persons in the Merger** beginning on page [] of this proxy statement/prospectus for a further description of those interests.

The receipt of compensation and other benefits by certain of XTO Energy's employees in connection with the merger may make it more difficult for ExxonMobil to retain their services after the merger, or require ExxonMobil to expend additional sums of money to do so. In addition, while certain senior executive officers have agreed to render services to XTO Energy as full-time non-employee consultants for a one-year period beginning upon the completion of the merger, there can be no assurance that these individuals will provide these or similar services at any time before, as of or after the expiration of the one-year-consultancy period. See **Interests of Certain Persons in the Merger**, **XTO Energy Named Executive Officers' Consulting Agreements and Amendments to Share Grant Agreements** beginning on page [] of this proxy statement/prospectus for a further description of the terms of these consulting arrangements.

The merger agreement limits XTO Energy's ability to pursue alternatives to the merger.

The merger agreement contains provisions that make it more difficult for XTO Energy to sell its business to a party other than ExxonMobil. These provisions include a general prohibition on XTO Energy soliciting any acquisition proposal or offer for a competing transaction, the requirement that XTO Energy pay a termination fee of \$900 million in the aggregate if the merger agreement is terminated in specified circumstances and the requirement that XTO Energy submit the adoption of the merger agreement to a vote of XTO Energy's stockholders even if the XTO Energy board of directors changes its recommendation in favor of the adoption of the merger agreement in a manner adverse to ExxonMobil. See **The Merger Agreement - No Solicitation by XTO Energy** and **The Merger Agreement - Termination Fee Payable by XTO Energy** beginning on pages [] and [], respectively, of this proxy statement/prospectus.

While XTO Energy believes these provisions are reasonable and not preclusive of other offers, the provisions might discourage a third party that has an interest in acquiring all of or a significant part of XTO Energy from considering or proposing that acquisition, even if that party were prepared to pay consideration with a higher per-share market price than the currently proposed merger consideration. Furthermore, the termination fee may result in a potential competing acquirer proposing to pay a lower per-share price to acquire XTO Energy than it might otherwise have proposed to pay because of the added expense of the \$900 million termination fee that may become payable in certain circumstances.

Failure to complete the merger could negatively impact the stock price and the future business and financial results of XTO Energy.

If the merger is not completed, the ongoing businesses of XTO Energy may be adversely affected and, without realizing any of the benefits of having completed the merger, XTO Energy would be subject to a number of risks, including the following:

XTO Energy may experience negative reactions from the financial markets and XTO Energy's customers and employees;

XTO Energy may be required to pay ExxonMobil a termination fee of \$900 million if the merger is terminated under certain circumstances (see **The Merger Agreement - Termination Fee Payable by XTO Energy** beginning on page [] of this proxy statement/prospectus);

XTO Energy will be required to pay certain costs relating to the merger, whether or not the merger is completed;

the merger agreement places certain restrictions on the conduct of XTO Energy's business prior to the completion of the merger or the termination of the merger agreement. Such restrictions, the waiver of which is subject to the consent of ExxonMobil (not to be unreasonably withheld, conditioned or delayed), may prevent XTO Energy from making certain acquisitions, taking certain other specified

Table of Contents

actions or otherwise pursuing business opportunities during the pendency of the merger (see The Merger Agreement Conduct of Business Pending the Merger beginning on page [] of this proxy statement/prospectus for a description of the restrictive covenants applicable to XTO Energy); and

matters relating to the merger (including integration planning) may require substantial commitments of time and resources by XTO Energy management, which would otherwise have been devoted to other opportunities that may have been beneficial to XTO Energy as an independent company.

There can be no assurance that the risks described above will not materialize, and if any of them do, they may adversely affect XTO Energy's business, financial results and stock price.

The shares of ExxonMobil common stock to be received by XTO Energy stockholders upon the completion of the merger will have different rights from shares of XTO Energy common stock.

Upon completion of the merger, XTO Energy stockholders will no longer be stockholders of XTO Energy, a Delaware corporation, but will instead become shareholders of ExxonMobil, a New Jersey corporation, and their rights as shareholders will be governed by New Jersey law and ExxonMobil's restated certificate of incorporation and by-laws. New Jersey law and the terms of ExxonMobil's restated certificate of incorporation and by-laws may be materially different than Delaware law and the terms of XTO Energy's restated certificate of incorporation and amended and restated bylaws, which currently govern the rights of XTO Energy stockholders. Please see Comparison of Shareholder Rights beginning on page [] of this proxy statement/prospectus for a discussion of the different rights associated with ExxonMobil common stock.

XTO Energy stockholders will have a significantly reduced ownership and voting interest after the merger and will exercise less influence over management.

Immediately after the completion of the merger, it is expected that former XTO Energy stockholders, who collectively own 100% of XTO Energy, will own approximately 8% of ExxonMobil, based on the number of shares of XTO Energy and ExxonMobil common stock outstanding, on a fully diluted basis, as of January 22, 2010. Consequently, XTO Energy stockholders will have less influence over the management and policies of ExxonMobil than they currently have over the management and policies of XTO Energy.

Multiple lawsuits have been filed against XTO Energy and ExxonMobil challenging the merger, and an adverse ruling in any such lawsuit may prevent the merger from being completed.

XTO Energy, members of the XTO Energy board of directors, ExxonMobil and Merger Sub have been named as defendants in fifteen purported class actions brought by XTO Energy stockholders challenging the merger, seeking, among other things, to enjoin ExxonMobil, XTO Energy and Merger Sub from completing the merger on the agreed terms. See The Merger Litigation Relating to the Merger beginning on page [] of this proxy statement/prospectus for more information about the lawsuits related to the merger that have been filed.

One of the conditions to the closing of the merger is that no law, order, injunction, judgment, decree, ruling or other similar requirement shall be in effect that prohibits the completion of the merger. Accordingly, if any of the plaintiffs is successful in obtaining an injunction prohibiting the completion of the merger, then such injunction may prevent the merger from becoming effective, or from becoming effective within the expected timeframe.

The merger will likely not be accretive, and may be dilutive, to ExxonMobil's earnings per share, which may negatively affect the market price of ExxonMobil common stock.

ExxonMobil anticipates that the merger will not be accretive, and may be dilutive, to earnings per share in the near term. This expectation is based on preliminary estimates that may materially change. In addition, future events and conditions could decrease or delay any accretion, result in dilution or cause greater dilution than is

Table of Contents

currently expected, including adverse changes in energy market conditions; commodity prices for oil, natural gas and natural gas liquids; production levels; reserve levels; operating results; competitive conditions; laws and regulations affecting the energy business; capital expenditure obligations; and general economic conditions. Any dilution of, or decrease or delay of any accretion to, ExxonMobil's earnings per share could cause the price of ExxonMobil's common stock to decline.

Risks relating to ExxonMobil and XTO Energy.

ExxonMobil and XTO Energy are, and following completion of the merger, ExxonMobil and XTO Energy will continue to be, subject to the risks described in (i) Part I, Item 1A in ExxonMobil's Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on February 27, 2009 and (ii) Part I, Item 1A in XTO Energy's Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on February 25, 2009, in each case, incorporated by reference into this proxy statement/prospectus. See "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

Table of Contents

**CAUTIONARY STATEMENT REGARDING
FORWARD-LOOKING STATEMENTS**

This proxy statement/prospectus and the documents incorporated by reference into this proxy statement/prospectus contain forward looking statements that are intended to be covered by the safe harbor provided by the Private Securities Litigation Reform Act of 1995. Representatives of ExxonMobil and XTO Energy may also make forward-looking statements. Forward-looking statements are statements that are not historical facts, and are identified by words such as expect, believe, predict, anticipate, contemplate, will, may, might, continue, plan, intend, project, budget, forecast, can, could, should, would, likely, potential and similar expressions. These statements include, but are not limited to, statements about the expected costs and benefits of the merger, the adoption of the merger agreement by XTO Energy's stockholders, the satisfaction of the closing conditions to the merger, the timing of the completion of the merger and ExxonMobil's plans, objectives and expectations after the completion of the merger.

Forward-looking statements are not guarantees of performance. These statements are based upon the current beliefs and expectations of management of ExxonMobil and XTO Energy and are subject to numerous risks and uncertainties that could cause actual outcomes and results, including project completion dates, production rates, capital expenditures, costs and business plans, to be materially different from those projected or anticipated. In addition to the risks described under "Risk Factors" beginning on page [] of this proxy statement/prospectus and those risks described in documents that are incorporated by reference into this proxy statement/prospectus, the following factors, among others, could cause such differences:

Merger-Related Factors

XTO Energy stockholder approval may not be obtained in a timely manner, or at all;

the regulatory approvals required for the merger may not be obtained on the proposed terms, on the anticipated schedule or at all;

the merger may not close due to the failure to satisfy any of the closing conditions;

expected synergies and value creation from the merger may not be realized;

key employees of XTO Energy may not be retained;

the businesses may not be harmonized successfully; and

management time may be diverted on merger-related matters.

Industry and Economic Factors

fluctuations in the prices of crude oil, natural gas and natural gas liquids and changes in margins on gasoline and other refined products;

general economic growth rates and the occurrence of economic recessions or other periods of low or negative economic growth;

Edgar Filing: EXXON MOBIL CORP - Form S-4

changes in demographics, including population growth rates;

technological advances, including advances in exploration, production, refining and petrochemical manufacturing technology and advances in technology relating to energy efficiency;

weather, including seasonal patterns that affect regional energy demand (such as the demand for heating oil or gas in winter) as well as severe weather events (such as hurricanes) that can disrupt supplies or interrupt the operation of either company's facilities;

Table of Contents

the competitiveness of alternative energy sources;

the effect of worldwide energy conservation measures;

changes in consumer preferences (such as toward alternative fueled vehicles);

the development of new supply sources and technologies to enhance recovery from existing sources;

changes in refining or petrochemical manufacturing capacity;

the ability of members of the Organization of Petroleum Exporting Countries to agree upon and maintain oil prices and production levels;

supply disruptions, including as a result of wars or natural disasters;

the proximity to and capacity of transportation facilities; and

actions of competitors, including actions that may affect either company's ability to acquire producing properties and oil and gas leases and to obtain goods, services and labor.

Political and Regulatory Factors

restrictions on development, exploration, production, imports and exports;

restrictions on either company's ability to do business with certain countries, or to engage in certain areas of business within a country;

political instability, lack of well developed and reliable legal systems or lack of clear regulatory frameworks for oil and gas development in areas where either company operates;

changes in law, such as tax or royalty increases (including retroactive claims), implementation of price controls, changes in law related to hydraulic fracturing or similar processes or that increase the cost of compliance with environmental or other regulations, adoption of regulations mandating the use of alternative fuels or uncompetitive fuel components, unilateral cancellation or modification of contract terms and expropriation or forced divestiture of assets;

laws and regulations related to environmental or global climate change matters, including those addressing alternative energy sources and CO2 emissions; and

Edgar Filing: EXXON MOBIL CORP - Form S-4

liability in litigation or for remedial actions, including removal and reclamation obligations under environmental regulations.

Operating Factors

unsuccessful exploration and development efforts, including unproductive exploratory drilling activities;

failure to achieve expected production from existing and future oil and natural gas development projects, including due to unexpected drilling conditions, unanticipated pressures or irregularities in formations, severe weather events, equipment failures or accidents, inability to model and optimize reservoir performance and the inherent uncertainties in predicting oil and gas reserves and oil and gas reservoir performance;

natural field decline;

the outcome of negotiations with joint venturers, partners, governments, suppliers, customers or others;

inability to develop markets for project outputs, including through long-term contracts or the development of effective spot markets;

Table of Contents

changes in technical or operating conditions and costs, including costs of third-party equipment or services such as drilling rigs and shipping and shortages or delays in the availability of equipment;

the occurrence of unforeseen technical difficulties (including technical problems that may delay project start-up or interrupt production, or that may lead to unexpected downtime or increased costs);

accidents and other workplace safety issues; and

security concerns or acts of terrorism that threaten or disrupt the safe operation of either company's facilities.

You are cautioned not to place undue reliance on the forward-looking statements made in this proxy statement/prospectus or documents incorporated into this proxy statement/prospectus or by representatives of ExxonMobil or XTO Energy. These statements speak only as of the date hereof, or, in the case of statements in any document incorporated by reference, as of the date of such document, or, in the case of statements made by representatives of ExxonMobil or XTO Energy, on the date those statements are made. All subsequent written and oral forward-looking statements concerning the merger, the combined company or any other matter addressed in this proxy statement/prospectus and attributable to ExxonMobil, XTO Energy or any person acting on behalf of either company are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. ExxonMobil and XTO Energy expressly disclaim any obligation to update or publish revised forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of any unanticipated events.

Table of Contents

THE COMPANIES

ExxonMobil

ExxonMobil was incorporated in the State of New Jersey in 1882. Divisions and affiliated companies of ExxonMobil operate or market products in the United States and most other countries of the world. Their principal business is energy, involving exploration for, and production of, crude oil and natural gas, manufacture of petroleum products and transportation and sale of crude oil, natural gas and petroleum products. ExxonMobil is a major manufacturer and marketer of commodity petrochemicals, including olefins, aromatics, polyethylene and polypropylene plastics and a wide variety of specialty products. ExxonMobil also has interests in electric power generation facilities. Affiliates of ExxonMobil conduct extensive research programs in support of these businesses.

The principal trading market for ExxonMobil's common stock (NYSE: XOM) is the New York Stock Exchange.

The principal executive offices of ExxonMobil are located at 5959 Las Colinas Boulevard, Irving, TX 75039-2298, its telephone number is (972) 444-1000 and its website is www.exxonmobil.com.

This proxy statement/prospectus incorporates important business and financial information about ExxonMobil by reference to other documents that are not included in or delivered with this proxy statement/prospectus. For a list of the documents that are incorporated by reference, see "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

XTO Energy

XTO Energy, a Delaware corporation, is engaged in the acquisition, development, exploitation and exploration of both producing oil and gas properties and unproved properties, and in the production, processing, marketing and transportation of oil and natural gas. XTO Energy's proved reserves are principally located in relatively long-lived fields with an extensive base of hydrocarbons in place and, in most cases, well-established production histories concentrated in the Eastern Region, including the East Texas Basin, Haynesville Shale, northwestern Louisiana and Mississippi; the North Texas Region, including the Barnett Shale; the Mid-Continent and Rocky Mountain Region, including the Fayetteville, Woodford and Bakken Shales; the San Juan Region; the Permian Region; the South Texas and Gulf Coast Region, including the offshore Gulf of Mexico; and other regions, including Marcellus Shale and North Sea.

XTO Energy was incorporated in 1990 to acquire the business and properties of predecessor entities that were created from 1986 through 1989. XTO Energy's initial public offering of common stock was completed in May 1993. XTO Energy was formerly known as Cross Timbers Oil Company and changed its name to XTO Energy Inc. in June 2001.

The principal trading market for XTO Energy's common stock (NYSE: XTO) is the New York Stock Exchange.

The principal executive offices of XTO Energy are located at 810 Houston Street, Fort Worth, TX 76102, its telephone number is (817) 870-2800 and its website is www.xtoenergy.com.

This proxy statement/prospectus incorporates important business and financial information about XTO Energy from other documents that are not included in or delivered with this proxy statement/prospectus. For a list of the documents that are incorporated by reference, see "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

Table of Contents

ExxonMobil Investment Corporation

Merger Sub is a Delaware corporation and a wholly owned subsidiary of ExxonMobil. Merger Sub was formed solely for the purpose of consummating the merger. Merger Sub has not carried on any activities to date, except for activities incidental to its formation and activities undertaken in connection with the merger.

The principal executive offices of Merger Sub are located at 5959 Las Colinas Boulevard, Irving, TX 75039-2298 and its telephone number is (972) 444-1000.

Table of Contents

SPECIAL MEETING OF STOCKHOLDERS OF XTO ENERGY

XTO Energy is providing this proxy statement/prospectus to its stockholders in connection with the solicitation of proxies to be voted at the special meeting of stockholders that XTO Energy has called for the purpose of holding a vote upon a proposal to adopt the merger agreement with ExxonMobil and at any adjournment or postponement thereof. This proxy statement/prospectus constitutes a prospectus for ExxonMobil in connection with the issuance by ExxonMobil of its common stock in connection with the merger. This proxy statement/prospectus is first being mailed to XTO Energy's stockholders on or about [], 2010 and provides XTO Energy stockholders with the information they need to know to be able to vote or instruct their vote to be cast at the special meeting of XTO Energy stockholders.

Date, Time and Place

The special meeting will be held at [] on [], 2010 at [], local time.

Purpose

At the special meeting, XTO Energy stockholders will be asked to vote solely on the following proposals:

to adopt the merger agreement; and

to approve the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

XTO Energy Board Recommendation

The XTO Energy board of directors has determined that the merger agreement and the transactions contemplated thereby, including the merger, are advisable and in the best interests of XTO Energy and its stockholders and recommends that you vote **FOR** the adoption of the agreement and **FOR** the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting. See "The Merger XTO Energy Reasons for the Merger; Recommendation of the XTO Energy Board of Directors" beginning on page [] of this proxy statement/prospectus.

XTO Energy Record Date; Outstanding Shares; Shares Entitled to Vote

The record date for the XTO Energy special meeting is [], 2010. Only XTO Energy stockholders of record at the close of business on [], 2010 will be entitled to receive notice of and to vote at the special meeting or any adjournment or postponement of the meeting. Shares of XTO Energy common stock held by XTO Energy as treasury shares and by XTO Energy's subsidiaries will not be entitled to vote.

As of the close of business on the record date of [], 2010, there were [] shares of XTO Energy common stock outstanding and entitled to vote at the meeting. Each holder of XTO Energy common stock is entitled to one vote for each share of common stock owned as of the record date.

A complete list of XTO Energy stockholders entitled to vote at the XTO Energy special meeting will be available for inspection at the principal place of business of XTO Energy during regular business hours for a period of no less than ten days before the special meeting and at the place of the XTO Energy special meeting during the meeting.

Quorum

A quorum of stockholders is required to adopt the merger agreement at the special meeting, but not to approve any adjournment of the meeting. A majority of the outstanding shares of XTO Energy common stock entitled to vote at the special meeting must be represented in person or by proxy at the meeting in order to

Table of Contents

constitute a quorum. Any abstentions will be counted in determining whether a quorum is present at the special meeting. With respect to broker non-votes (as defined below), the adoption of the merger agreement is not considered a routine matter. Therefore, your broker will not be permitted to vote on the adoption of the merger agreement without instruction from you as the beneficial owner of the shares of XTO Energy common stock. Broker non-votes will, however, be counted for purposes of determining whether a quorum is present at the special meeting.

Required Vote

To adopt the merger agreement, holders of a majority of the shares of XTO Energy common stock outstanding and entitled to vote on the proposal must vote in favor of adoption of the merger agreement. **Because approval is based on the affirmative vote of a majority of the outstanding shares of XTO Energy common stock, an XTO Energy stockholder's failure to submit a proxy card or to vote in person at the special meeting or an abstention from voting, or the failure of an XTO Energy stockholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee, will have the same effect as a vote AGAINST adoption of the merger agreement.**

To approve the adjournment of the special meeting, if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting, the affirmative vote of holders of a majority of the shares of XTO Energy common stock present in person or represented by proxy at the special meeting and entitled to vote at the special meeting is required, regardless of whether a quorum is present. Abstentions will have the same effect as a vote **AGAINST** the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

Stock Ownership of and Voting by XTO Energy's Directors and Executive Officers

At the close of business on the record date for the special meeting, XTO Energy's directors and executive officers and their affiliates beneficially owned and had the right to vote [] shares of XTO Energy common stock at the special meeting, which represents approximately []% of the XTO Energy common stock entitled to vote at the special meeting. It is expected that XTO Energy's directors and executive officers will vote their shares **FOR** the adoption of the merger agreement, although none of them has entered into any agreement requiring them to do so.

Voting of Shares by Holders of Record

If you are entitled to vote at the special meeting and hold your shares in your own name, you can submit a proxy or vote in person by completing a ballot at the special meeting. However, XTO Energy encourages you to submit a proxy before the special meeting even if you plan to attend the special meeting in order to ensure that your shares are voted. A proxy is a legal designation of another person to vote your shares of XTO Energy common stock on your behalf. If you hold shares in your own name, you may submit a proxy for your shares by:

calling the toll-free number specified on the enclosed proxy card and follow the instructions when prompted;

accessing the Internet web site specified on the enclosed proxy card and follow the instructions provided to you; or

filling out, signing and dating the enclosed proxy card and mailing it in the prepaid envelope included with these proxy materials.

When a stockholder submits a proxy by telephone or through the Internet, his or her proxy is recorded immediately. XTO Energy encourages its stockholders to submit their proxies using these methods whenever possible. If you submit a proxy by telephone or the Internet web site, please do not return your proxy card by mail.

Table of Contents

All shares represented by each properly executed and valid proxy received before the special meeting will be voted in accordance with the instructions given on the proxy. If an XTO Energy stockholder executes a proxy card without giving instructions, the shares of XTO Energy common stock represented by that proxy card will be voted **FOR** approval of the proposal to adopt the merger agreement.

Your vote is important. Accordingly, please submit your proxy by telephone, through the Internet or by mail, whether or not you plan to attend the meeting in person. Proxies must be received by [], local time, on [], 2010.

Voting of Shares Held in Street Name

If your shares are held in an account at a broker or through another nominee, you must instruct the broker or other nominee on how to vote your shares by following the instructions that the broker or other nominee provides to you with these proxy materials. Most brokers offer the ability for stockholders to submit voting instructions by mail by completing a voting instruction card, by telephone and via the Internet.

If you do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is referred to in this proxy statement/prospectus and in general as a broker non-vote. In these cases, the broker or other nominee can register your shares as being present at the special meeting for purposes of determining a quorum, but will not be able to vote your shares on those matters for which specific authorization is required. Under the current rules of the New York Stock Exchange, brokers do not have discretionary authority to vote on the proposal to adopt the merger agreement. **Therefore, a broker non-vote will have the same effect as a vote AGAINST adoption of the merger agreement.**

If you hold shares through a broker or other nominee and wish to vote your shares in person at the special meeting, you must obtain a proxy from your broker or other nominee and present it to the inspector of election with your ballot when you vote at the special meeting.

Revocability of Proxies; Changing Your Vote

You may revoke your proxy and/or change your vote at any time before your proxy is voted at the special meeting. If you are a stockholder of record, you can do this by:

 sending a written notice stating that you revoke your proxy to XTO Energy at 810 Houston Street, Fort Worth, Texas 76102, Attn: Corporate Secretary that bears a date later than the date of the proxy and is received prior to the special meeting and states that you revoke your proxy;

 submitting a valid, later-dated proxy by mail, telephone or Internet that is received prior to the special meeting; or

 attending the special meeting and voting by ballot in person (your attendance at the special meeting will not, by itself, revoke any proxy that you have previously given).

If you hold your shares through a broker or other nominee, you must follow the directions you receive from your broker in order to revoke or change your vote.

Solicitation of Proxies

This proxy statement/prospectus is furnished in connection with the solicitation of proxies by the XTO Energy board of directors to be voted at the XTO Energy special meeting. XTO Energy will bear all costs and expenses in connection with the solicitation of proxies. XTO Energy has engaged Innisfree M&A Incorporated to

Table of Contents

assist in the solicitation of proxies for the meeting and XTO Energy estimates it will pay Innisfree M&A Incorporated a fee of approximately \$50,000. XTO Energy has also agreed to reimburse Innisfree M&A Incorporated for reasonable out-of-pocket expenses and disbursements incurred in connection with the proxy solicitation and to indemnify Innisfree M&A Incorporated against certain losses, costs and expenses. In addition, XTO Energy may reimburse brokerage firms and other persons representing beneficial owners of shares of XTO Energy common stock for their reasonable expenses in forwarding solicitation materials to such beneficial owners. Proxies may also be solicited by certain of XTO Energy's directors, officers and employees by telephone, electronic mail, letter, facsimile or in person, but no additional compensation will be paid to them.

Shareholders should not send stock certificates with their proxies. A letter of transmittal and instructions for the surrender of XTO Energy common stock certificates will be mailed to XTO Energy stockholders shortly after the completion of the merger.

No Other Business

Under XTO Energy's amended and restated bylaws, the business to be conducted at the special meeting will be limited to the purposes stated in the notice to XTO Energy stockholders provided with this proxy statement/prospectus.

Adjournments

Adjournments may be made for the purpose of, among other things, soliciting additional proxies. Any adjournment may be made from time to time by the Chairman of the XTO Energy board of directors or with the approval of a majority of the votes present in person or by proxy at the time of the vote, whether or not a quorum exists. XTO Energy is not required to notify stockholders of any adjournment of 30 days or less if the time and place of the adjourned meeting are announced at the meeting at which the adjournment is taken, unless after the adjournment a new record date is fixed for the adjourned meeting. At any adjourned meeting, XTO Energy may transact any business that it might have transacted at the original meeting, provided that a quorum is present at such adjourned meeting. Proxies submitted by XTO Energy stockholders for use at the special meeting will be used at any adjournment or postponement of the meeting. References to the XTO Energy special meeting in this proxy statement/prospectus are to such special meeting as adjourned or postponed.

Assistance

If you need assistance in completing your proxy card or have questions regarding the special meeting, please contact Innisfree M&A Incorporated toll-free at (877) 750-5836 (banks and brokers call collect at (212) 750-5833).

THE MERGER

General

This proxy statement/prospectus is being provided to holders of XTO Energy common stock in connection with the solicitation of proxies by the board of directors of XTO Energy to be voted at the special meeting, and at any adjournments or postponements of such meeting. At the special meeting, XTO Energy will ask its stockholders to vote upon a proposal to adopt the merger agreement and a proposal to adjourn the XTO Energy special meeting if necessary to solicit additional proxies if there are not sufficient votes to adopt the merger agreement at the time of the special meeting.

The merger agreement provides for the merger of Merger Sub with and into XTO Energy, with XTO Energy continuing as the surviving corporation. **The merger will not be completed unless XTO Energy's stockholders adopt the merger agreement.** A copy of the merger agreement is attached as Annex A to this proxy statement/prospectus. You are urged to read the merger agreement in its entirety because it is the legal document that governs the merger. For additional information about the merger, see "The Merger Agreement Structure of the Merger" and "The Merger Agreement Merger Consideration" beginning on pages [] and [], respectively, of this proxy statement/prospectus.

Based on the number of shares of XTO Energy common stock (including XTO Energy restricted stock awards and performance share awards) and XTO Energy options and warrants outstanding as of January 22, 2010, ExxonMobil expects to issue approximately 414,009,157 shares of its common stock to XTO Energy stockholders pursuant to the merger and reserve for issuance approximately 14,344,778 additional shares of ExxonMobil common stock in connection with the exercise or conversion of XTO Energy's outstanding options and warrants. The actual number of shares of ExxonMobil common stock to be issued and reserved for issuance pursuant to the merger will be determined at the completion of the merger based on the exchange ratio of 0.7098 and the number of shares of XTO Energy common stock and XTO Energy options and warrants outstanding at such time. ExxonMobil and XTO Energy expect that, immediately after completion of the merger, former XTO Energy stockholders will own approximately 8% of the outstanding common stock of ExxonMobil common stock, based on the number of shares of XTO Energy and ExxonMobil common stock outstanding, on a fully diluted basis, as of January 22, 2010.

Background of the Merger

XTO Energy's board of directors has from time to time in recent years engaged with senior management in strategic reviews and considered XTO Energy's performance and prospects in light of the business and economic environment, as well as developments in the U.S. oil and gas industry and prospective challenges facing exploration and production companies such as XTO Energy. These reviews have included consideration of potential transactions with third parties that would further its strategic objectives, as well as the company's standalone business plans and prospects. In addition, these reviews have included potential acquisitions of companies or assets by XTO Energy, potential joint-venture opportunities with third parties and the potential for the strategic combination of XTO Energy with, or possible acquisition of XTO Energy by, a third party.

ExxonMobil's senior management regularly evaluates and periodically reviews with ExxonMobil's board of directors strategies to enhance shareholder value in light of the changing competitive environment of the oil and gas industry, including opportunities to maximize the value of ExxonMobil's portfolio of assets, as well as ExxonMobil's overall position in the industry. In addition to its ongoing evaluation of, among other things, worldwide oil and natural gas exploration and development activities, midstream and downstream ventures and other alliances and acquisitions or dispositions of assets and properties, ExxonMobil has from time to time evaluated the possibility of strategic acquisitions of a number of companies, including XTO Energy.

In late July 2009, following discussion between Bob R. Simpson, XTO Energy's Chairman of the Board and Founder, and Jack P. Randall, a member of the XTO Energy board of directors and a senior member of Jefferies & Company, Inc. (referred to in this proxy statement/prospectus as Jefferies), Mr. Randall, with Mr. Simpson's approval, telephoned Rex W. Tillerson, Chairman of the Board and Chief Executive Officer of

Table of Contents

ExxonMobil, to arrange a meeting to discuss a business matter relating to XTO Energy. On August 6, 2009, Mr. Randall met with Mr. Tillerson in Irving, Texas. Mr. Randall discussed business conditions in the natural gas industry and raised the possibility of a strategic combination involving XTO Energy and ExxonMobil. Mr. Tillerson indicated that he would consider the matter. On August 17, 2009, Mr. Tillerson telephoned Mr. Randall and suggested arranging a meeting with Mr. Simpson.

During the evening of August 25, 2009, Messrs. Simpson, Randall and Tillerson met in Fort Worth, Texas. During this meeting, they discussed a range of topics generally affecting the oil and gas industry and the possibility of exploring a potential strategic combination between XTO Energy and ExxonMobil. Among other matters, Messrs. Simpson and Tillerson discussed, in general terms, XTO Energy and ExxonMobil, the complementary aspects of their businesses and the potential benefits that a strategic business combination of XTO Energy and ExxonMobil could provide, including the expansion of XTO Energy's business that ExxonMobil's financial capacity could enable, the larger geographic footprint and increased natural gas production of the combined entity, the related potential benefits to stockholders, employees and other constituencies of both companies and, were negotiations to proceed and an agreement to be reached on material terms, the potential time frame of a possible transaction.

In early September 2009, XTO Energy contacted and discussed with representatives of the law firm Skadden, Arps, Slate, Meagher & Flom LLP (which is referred to in this proxy statement/prospectus as Skadden) and representatives of Barclays Capital, which from time to time had performed various investment banking services for XTO Energy, its preliminary consideration of a potential transaction with ExxonMobil.

Preliminary telephone discussions between Messrs. Simpson, Tillerson and Randall occurred intermittently during September 2009. During this period, Messrs. Simpson and Tillerson discussed, among other things, the businesses and operations of their respective companies, the potential benefits of a transaction to XTO Energy's and ExxonMobil's respective stockholders, the importance of preserving the expertise of XTO Energy's organization, and the alternative forms of consideration that might be payable in the proposed transaction (including all cash, all stock or a mixture of cash and stock). Mr. Tillerson also indicated that a key factor in considering a potential transaction between the companies would be retaining XTO Energy's senior executive officers while reducing the amounts potentially payable to them upon the occurrence of such a transaction and modifying such payments to better serve retention objectives.

On September 30, 2009, the ExxonMobil board of directors held a regularly scheduled meeting during which a potential transaction with XTO Energy was discussed. Following this discussion, the ExxonMobil board of directors concurred with Mr. Tillerson continuing discussions with XTO Energy regarding a possible transaction.

On October 2, 2009, Messrs. Simpson and Tillerson had a telephone conversation and again preliminarily discussed a possible transaction between ExxonMobil and XTO Energy. Messrs. Simpson and Tillerson discussed, among other things, ExxonMobil's views regarding the potential for a transaction, and ExxonMobil's desire to retain key members of XTO Energy's management and preserve XTO Energy's organization. Messrs. Tillerson and Simpson both expressed the view that, taking into account the liquidity of the market for ExxonMobil common stock, an all-stock transaction would be most advantageous in that it would allow XTO Energy stockholders to choose whether to retain ExxonMobil shares received in a transaction (with no immediate tax impact) or to sell such shares (with the associated tax impact). Messrs. Tillerson and Simpson reviewed the current and historical stock price ratios between ExxonMobil common stock and XTO Energy common stock. Against that backdrop, Mr. Tillerson indicated that ExxonMobil could consider a potential transaction proposal to acquire 100% of XTO Energy's common stock at an exchange ratio that represents a premium in the range of 15% over the companies' relevant historical stock price ratios. Mr. Simpson indicated he thought that a price at

Table of Contents

the level suggested by Mr. Tillerson undervalued XTO Energy and would not be acceptable to XTO Energy's board of directors. Messrs. Simpson and Tillerson agreed that they each would continue to consider a potential range of values for a possible transaction, and that further discussions regarding a possible transaction would depend on whether their preliminary views on valuation were close enough to warrant such discussions.

On October 6, 2009, Mr. Simpson telephoned Mr. Tillerson to discuss certain XTO Energy operational matters, including XTO Energy's oil and gas reserves and proved developed reserve numbers. Mr. Simpson further indicated that, based on XTO Energy's review of the relative trading histories of XTO Energy and ExxonMobil and a preliminary review of the historical stock price ratios of XTO Energy common stock to ExxonMobil common stock, he believed an exchange ratio in the range of 0.71875 would represent a 25% premium to the relevant historical price ratios and would merit consideration by the XTO Energy board of directors. Mr. Simpson also believed such an exchange ratio would provide a basis for further discussion between the parties and commencement of the due diligence effort with the board of directors' approval. Based on the closing prices of XTO Energy and ExxonMobil common stock as of October 6, 2009, an exchange ratio of 0.71875 implied a price per share of XTO Energy common stock of approximately \$49.35 based on the companies' then-current trading prices and represented an approximately 20% premium over XTO Energy's then-current trading price and an approximately 22% premium over XTO Energy's prior 30-trading day average price. Without commenting specifically on Mr. Simpson's proposal, Mr. Tillerson expressed the view that the potential transaction valuations that each party had in mind appeared to be within a range that would warrant further discussion. Messrs. Simpson and Tillerson also agreed that, if discussions between the companies were to progress, the companies should enter into a confidentiality agreement. Mr. Tillerson cautioned that, even if no material issues were identified through due diligence, the parties would not necessarily be able to reach a final agreement.

On October 8, 2009, Mr. Tillerson telephoned Mr. Simpson and indicated that ExxonMobil wished to continue discussions and begin due diligence regarding a possible acquisition of XTO Energy in an all-stock transaction. Following this conversation, ExxonMobil delivered a draft confidentiality agreement to XTO Energy.

During the period from October 9 to October 13, 2009, the parties negotiated the terms of a mutual confidentiality agreement. On October 12, 2009, Mr. Simpson began contacting each of the members of the XTO Energy board of directors to discuss in detail the status and substance of his conversations with Mr. Tillerson, including the proposed entry into a confidentiality agreement in advance of more detailed discussions regarding a potential transaction with ExxonMobil.

On October 13, 2009, the parties entered into a confidentiality agreement, which, among other things, contained mutual standstill restrictions that, in accordance with and subject to the terms of the confidentiality agreement, prohibited either party from making an unsolicited offer to acquire the other party's stock for a period of two years.

On October 14, 2009, Mr. Tillerson sent a letter to Mr. Simpson indicating, among other things, that, in light of the fact that a confidentiality agreement had been executed by the parties, ExxonMobil was prepared to proceed with its due diligence review of XTO Energy. The letter further stated that William Colton, ExxonMobil's Vice President of Corporate Strategic Planning, would contact Vaughn O. Vennerberg, II, president of XTO Energy, to discuss the due diligence process. In the letter, Mr. Tillerson expressed his belief that a proposed transaction between ExxonMobil and XTO Energy could potentially enhance stockholder value for both companies and indicated that ExxonMobil was preparing a draft merger agreement to be delivered to XTO Energy shortly thereafter.

Also on October 14, 2009, certain members of XTO Energy's management team, including Mr. Simpson, met with legal and financial advisors from Skadden and Barclays Capital, respectively, in Fort Worth, Texas to

Table of Contents

discuss several topics, including the status of discussions with ExxonMobil, the potential process for negotiating and evaluating a potential transaction with ExxonMobil, the potential timing of a transaction and various strategic alternatives and options that could be considered as well.

From October 14, 2009 to October 21, 2009, ExxonMobil worked with Davis Polk & Wardwell LLP, its legal advisor in connection with the potential transaction and referred to in this proxy statement/prospectus as Davis Polk, to prepare an initial draft of the merger agreement. On October 21, 2009, ExxonMobil delivered to XTO Energy a draft merger agreement and a request for certain due diligence documents and materials relating to the company.

Also on October 21, 2009, XTO Energy's board of directors held a special meeting in Fort Worth, Texas primarily to review and discuss the potential transaction with ExxonMobil (including the status of discussions to date), and to consider whether XTO Energy should continue discussions with ExxonMobil regarding such transaction. Representatives of Skadden and Barclays Capital were present for a portion of the meeting as were members of XTO Energy's senior management, including Frank McDonald, Senior Vice President, General Counsel & Assistant Secretary of XTO Energy. Mr. Simpson reviewed with the XTO Energy board of directors his discussions with Mr. Tillerson to that point, and the board of directors discussed the possibility of a transaction with ExxonMobil (including the range of values for XTO Energy common stock that had been discussed by Messrs. Simpson and Tillerson), XTO Energy's potential strategic alternatives, including operating as an independent company and alternative strategic transactions, and the prospects of a third party other than ExxonMobil being able to engage in an alternative strategic transaction. The XTO Energy board of directors also discussed the fit of ExxonMobil's and XTO Energy's businesses and the potentially compelling value proposition for XTO Energy stockholders in an all-stock transaction whereby XTO Energy stockholders could retain an interest in the combined company. Representatives of Skadden reviewed with the XTO Energy board of directors certain legal matters relating to its consideration of a potential transaction with ExxonMobil, including the directors' fiduciary duties, and, based upon their preliminary review of the draft merger agreement that had been delivered earlier that day, generally described the structure of the proposed transaction provided for in, and the content of, the draft agreement. Representatives of Barclays Capital discussed with the XTO Energy board of directors the various financial analyses regarding XTO Energy and the potential transaction with ExxonMobil that they would expect to perform and review with the board of directors at upcoming meetings, as well as the various strategic alternatives and options (including XTO Energy continuing to operate on a standalone basis) that the XTO Energy board of directors might consider. At the conclusion of the meeting, XTO Energy's board of directors directed members of senior management to continue discussions with ExxonMobil, including the review and negotiation of a draft merger agreement with the assistance and advice of Skadden, and requested that Barclays Capital begin preparation of various financial analyses in connection with the proposed merger.

On October 28, 2009, representatives of Skadden and representatives of Weil, Gotshal & Manges LLP and Covington & Burling LLP, ExxonMobil's outside legal advisors on regulatory matters in connection with the potential transaction, held a conference call to begin preliminary discussions of regulatory approval aspects and the process relating thereto in connection with the proposed merger.

Also on October 28, 2009, the ExxonMobil board of directors held a regularly scheduled meeting during which a potential transaction with XTO Energy was discussed. Following this discussion, the ExxonMobil board of directors concurred with management's proposal to continue discussions with XTO Energy regarding the proposed transaction.

Between October 28, 2009 and November 3, 2009, XTO Energy's senior management conducted due diligence sessions with ExxonMobil's senior management in Irving, Texas regarding XTO Energy's business and operations, and provided representatives of ExxonMobil with requested due diligence information and materials. During this time, each of XTO Energy and ExxonMobil and their respective advisors also reviewed certain publicly available information regarding the business of the other party.

Table of Contents

On November 4, 2009, XTO Energy held a special meeting of its board of directors in Fort Worth, Texas during which, among other things, the board of directors received an update regarding the recent discussions with ExxonMobil and discussed matters relating to the proposed merger. Representatives of Skadden and Barclays Capital were present at this meeting. During this meeting, Mr. Simpson provided an update on the status of discussions with ExxonMobil to date and Messrs. Vennerberg and Hutton and certain other members of XTO Energy's senior management reported on the due diligence sessions that had been conducted. Representatives of Skadden again reviewed with the directors certain legal matters relating to their consideration of a proposed merger with ExxonMobil. Representatives from Skadden also reviewed and discussed with the board of directors the terms of the draft merger agreement provided by ExxonMobil. Mr. Simpson discussed with the board of directors ExxonMobil's concern regarding the amount and possible retention effects of payments to certain senior executive officers under certain existing employee compensation, benefit and severance arrangements relating to such officers upon the occurrence of the proposed merger, and, together with representatives of Skadden, discussed potential changes to these arrangements in connection with the proposed merger. At this meeting, the XTO Energy board of directors also authorized entry into engagement letters with each of Barclays Capital and Jefferies to act as XTO Energy's financial advisors in connection with the proposed merger. XTO Energy selected Barclays Capital and Jefferies as its financial advisors in connection with the proposed merger based upon, among other things, the fact that both are internationally recognized investment banking firms with knowledge of the industries in which XTO Energy operates, substantial experience in transactions comparable to the proposed merger and familiarity with XTO Energy. The non-employee directors met with representatives from Skadden in executive session and discussed, among other things, the proposed merger, compensation, benefit and severance matters and the potential waiver of amounts that might become payable under the terms of XTO Energy's Amended and Restated Outside Directors Severance Plan, which provided that, upon various triggering events, including upon completion of the proposed merger, each non-employee director would receive a lump-sum cash payment in accordance with the terms of the plan. Following the executive session of the non-employee directors, the full board of directors reconvened and following further discussion authorized continued discussions with ExxonMobil.

On November 5, 2009, Skadden delivered a revised draft of the merger agreement reflecting XTO Energy's initial comments thereon to Davis Polk. Also on November 5, 2009, XTO Energy entered into a financial advisory engagement letter with Barclays Capital.

On November 6, 2009, members of senior management of XTO Energy, including Messrs. Simpson, Hutton and Vennerberg, and ExxonMobil, including Mr. Tillerson, Andrew P. Swiger, Senior Vice President of ExxonMobil, and Mark W. Albers, Senior Vice President of ExxonMobil, met in Irving, Texas to discuss, among other things, various XTO Energy operational matters and the status of the due diligence process to date, including the schedule for additional due diligence review by XTO Energy of ExxonMobil. At the conclusion of this meeting, Messrs. Simpson and Tillerson met separately and discussed, among other things, matters relating to the proposed merger, during which Mr. Simpson presented to Mr. Tillerson a summary of the potential treatment of XTO Energy's current compensation, benefit and severance arrangements in connection with the proposed merger applicable to XTO Energy employees, including potential changes to the arrangements affecting senior executive officers that would subject to continued service requirements certain payments due to senior executive officers upon completion of the merger in order to facilitate a successful transaction and integration.

On November 9, 2009, XTO Energy held a special meeting of its board of directors in Fort Worth, Texas to discuss and consider the status of the proposed merger with ExxonMobil and related matters. Representatives of Skadden and Barclays Capital were present at this meeting. Messrs. Simpson, Hutton and Vennerberg reviewed with the board of directors, among other things, the substance of their meeting with Mr. Tillerson and the members of ExxonMobil's management on November 6, 2009. Representatives of Barclays Capital reviewed with the XTO Energy board of directors, among other things, the financial position of XTO Energy, then-current economic challenges and the state of the global economy, the oil and gas industry and the mergers and acquisitions market, together with a range of potential strategic alternatives and options for XTO Energy that the XTO Energy board of directors might consider, including XTO Energy continuing to operate as an independent company, certain recapitalization transactions and other types of strategic transactions. In addition, Barclays Capital reviewed with the board of directors the relative price performance of XTO Energy and Exxon Mobil, illustrative exchange ratios and certain publicly available information regarding ExxonMobil. Representatives of

Table of Contents

Barclays Capital also discussed with the XTO Energy board of directors the oil and gas industry generally, the potential third parties that might be capable of a transaction with XTO Energy of the type being proposed by ExxonMobil and the prospects of a third party making a proposal for an alternative strategic transaction that could be competitive with the proposed merger with ExxonMobil. Representatives of Skadden reviewed certain legal matters relating to the board of directors' consideration of the proposed merger with ExxonMobil. Following conclusion of the board of directors meeting, the non-employee directors met separately in executive session with representatives of Skadden.

On November 13, 2009, as part of the continuing due diligence process, Louis G. Baldwin, Executive Vice President & Chief Financial Officer of XTO Energy, and representatives of ExxonMobil met in Irving, Texas to discuss ExxonMobil's financial due diligence of XTO Energy.

On November 16, 2009, Mr. Tillerson telephoned Mr. Simpson to discuss the current status of negotiations and the due diligence process.

On November 17, 2009, XTO Energy's board of directors held a regularly scheduled meeting in Fort Worth, Texas during which the board of directors further discussed and considered, among other things, the proposed merger with ExxonMobil. Representatives of Skadden and Barclays Capital were present at this meeting. Messrs. Simpson, Vennerberg and Hutton provided an update regarding the discussions with ExxonMobil since the prior meeting of the board of directors, including the status of ExxonMobil's due diligence on XTO Energy and due diligence by XTO Energy on ExxonMobil. The board of directors discussed, among other things, the various challenges and opportunities faced by XTO Energy in the marketplace, potential risks and challenges of continuing as an independent company and potential benefits to XTO Energy and its stockholders of a merger with ExxonMobil. In this regard, the XTO Energy board of directors noted, among other things, the increasing competition in the U.S. unconventional natural gas industry, potential factors affecting natural gas pricing and profitability, the company's historical growth and challenges in the industry being faced by the company and the enhanced competitive position that a combination with a company like ExxonMobil could have on XTO Energy's exploration and production operations and the related potential for enhancement of value for XTO Energy's stockholders. Representatives of Barclays Capital reviewed with the XTO Energy board of directors its preliminary financial analyses regarding the proposed merger. The XTO Energy board of directors discussed with its financial advisors a number of matters, including the value that might be obtained by XTO Energy stockholders in the proposed merger as compared to the value of XTO Energy on a standalone basis. The XTO Energy board of directors again discussed with its financial advisors potential parties that might be capable of a transaction with XTO Energy of the type being proposed by ExxonMobil. At this meeting, XTO Energy's non-employee directors met separately with representatives of Skadden in executive session. Following the executive session of the non-employee directors, the full board of directors reconvened and instructed management and the company's legal advisors to continue discussions with ExxonMobil and its legal advisors.

On November 18, 2009, Davis Polk delivered a revised draft of a merger agreement to Skadden reflecting ExxonMobil's comments. Following receipt of the draft merger agreement, Skadden reviewed the draft merger agreement with members of XTO Energy senior management.

On November 19, 2009, Mr. Tillerson telephoned Mr. Simpson and discussed with him the potential changes to XTO Energy's compensation, benefit and severance arrangements reflected in the initial proposal presented by Mr. Simpson to Mr. Tillerson at their meeting on November 6, 2009. Among other matters, Mr. Tillerson highlighted the need for further modifications to Mr. Simpson's proposal, including modifications to enhance retention. On November 23, 2009, Mr. Simpson communicated to Mr. Tillerson proposed revisions to such arrangements that would reduce the overall payments to senior executive officers and enhance the retention features of these arrangements.

On November 24, 2009, at a regularly scheduled meeting of the ExxonMobil board of directors attended by certain members of ExxonMobil's senior management and a representative of Davis Polk, ExxonMobil's senior

Table of Contents

management updated the ExxonMobil board of directors on discussions with XTO Energy. ExxonMobil's management discussed with the ExxonMobil board of directors the rationale for the transaction, the effect of integrating XTO Energy into ExxonMobil's operating model and the market valuation of XTO Energy. Also at the meeting, the Davis Polk representative provided an overview of the proposed merger, including the material transaction terms, and reviewed certain legal matters relating to the board of directors' consideration of the proposed merger. Following discussion regarding the merits of the proposed merger with XTO Energy, the ExxonMobil board of directors agreed that management should continue its discussions with XTO Energy with a view to management presenting a possible transaction for approval to the ExxonMobil board of directors within the next several weeks.

On December 2, 2009, Messrs. Simpson and Tillerson met in Irving, Texas to discuss the status of discussions between XTO Energy and ExxonMobil regarding the proposed merger. Referring to the draft merger agreement that had been delivered to XTO Energy on November 18, 2009, Mr. Simpson and Mr. Tillerson discussed certain principal terms of the draft merger agreement, including the end date after which either party could terminate the agreement, certain exceptions to the definition of "material adverse effect" and other provisions. Mr. Simpson expressed that he and the XTO Energy board of directors had instructed XTO Energy's legal advisors to focus on provisions in the draft merger agreement relating to certainty of closing and value to the XTO Energy stockholders. Mr. Simpson also discussed his and the XTO Energy board of directors' belief that maintaining the XTO Energy facilities and brand, at least for a transitional period of time, were important factors in successfully integrating XTO Energy's business and culture within ExxonMobil following the closing of a potential transaction. Mr. Tillerson indicated that he also believed it was important to maintain certain key members of management, including Mr. Simpson, involved in the operations following the closing of any potential transaction. Messrs. Simpson and Tillerson reviewed the proposals regarding potential changes to XTO Energy's existing compensation, benefit and severance arrangements affecting XTO Energy's senior executive officers. Mr. Tillerson suggested that some form of consulting arrangement with each of the affected senior executive officers, which conditions certain of the benefits to be paid as a result of the proposed merger on the performance of consulting services and includes appropriate covenants not to compete, would be appropriate and enable ExxonMobil to utilize the expertise of the senior executive officers to help manage and continue to develop the combined company's unconventional natural gas business for the benefit of the combined company's stockholders. Messrs. Tillerson and Simpson also discussed the scheduling of future reviews by the companies' respective boards of directors and possible time frames within which a definitive agreement might be reached.

Between December 2 and December 11, 2009, Messrs. Tillerson and Simpson spoke intermittently by telephone to update each other on the progress of negotiations on the merger agreement and the amendments to the XTO Energy compensation, benefit and severance arrangements, and to schedule an in-person meeting at which they would seek to resolve any remaining open issues, including the potential exchange ratio at which XTO Energy shares would be converted into shares of ExxonMobil common stock in the merger.

On the afternoon of December 4, 2009, the board of directors of XTO Energy held a special telephonic meeting with representatives of Skadden and Barclays Capital participating. The XTO Energy board of directors reviewed the recent discussions with ExxonMobil since the board of directors' prior meeting. The XTO Energy board of directors also discussed the recent trading prices of XTO Energy and ExxonMobil common stock. Representatives of Skadden noted that they had prepared a mark-up of the draft merger agreement last distributed by Davis Polk and reviewed with the board of directors certain of the principal terms and conditions of the draft merger agreement, including certain provisions regarding the definition of "material adverse effect," restrictions on XTO Energy's ability to provide information to and have discussions with a third party that makes a transaction proposal following signing of the merger agreement, the circumstances under which XTO Energy's board of directors could change or withdraw its recommendation in respect of the proposed merger, the circumstances under which the merger agreement could be terminated and the circumstances under which a termination fee would be payable by XTO Energy, the post-closing operation of the XTO Energy business within ExxonMobil and certain other provisions relating to closing certainty. Following review of the draft merger agreement, the XTO Energy board of directors instructed Skadden to deliver a revised draft merger agreement to

Table of Contents

Davis Polk and ExxonMobil. Representatives of Barclays Capital and members of XTO Energy's senior management described to the board of directors materials delivered to XTO Energy by ExxonMobil in response to XTO Energy's due diligence request and noted that a due diligence session was scheduled to take place in Irving, Texas the following afternoon, during which representatives of Barclays Capital and members of XTO Energy's senior management would meet with representatives of ExxonMobil to discuss matters concerning ExxonMobil.

On December 4, 2009, following the conclusion of the meeting of the XTO Energy board of directors, Skadden delivered a revised draft of the merger agreement to Davis Polk.

On December 5, 2009, representatives of ExxonMobil held a due diligence session that was attended by members of XTO Energy's senior management and representatives of Barclays Capital, during which the ExxonMobil representatives presented information concerning ExxonMobil's business and operations, financial results and legal matters.

On December 6, 2009, representatives of Skadden and Davis Polk had a conference call to discuss the terms of the draft merger agreement circulated by Skadden on December 4, 2009. Among other things, the representatives of Skadden and Davis Polk discussed XTO Energy's and ExxonMobil's respective positions regarding various provisions of the draft merger agreement and key open items, including the definition of "material adverse effect" and provisions relating to XTO Energy's ability to provide information to, and have discussions with, a third party that makes a transaction proposal following signing of the merger agreement, certain regulatory requirements, the circumstances under which a termination fee would be payable, the post-closing operation of the XTO Energy business within ExxonMobil and other provisions relating to closing certainty.

From December 6, 2009 through December 10, 2009, XTO Energy's and ExxonMobil's respective senior management and legal advisors continued to engage in negotiations regarding the terms of the proposed merger, including exchanging several drafts of a merger agreement. In addition, during this period, XTO Energy's and ExxonMobil's respective senior management and legal advisors had discussions regarding the provisions of the consulting agreements to be entered into by and among XTO Energy and ExxonMobil and members of XTO Energy's senior management, including certain restrictive covenants contained therein. During this period, XTO Energy's and ExxonMobil's respective senior management and legal advisors also negotiated the terms of certain amendments to the compensation, benefit and severance arrangements relating to certain of XTO Energy's other executive officers, which are described under "Interests of Certain Persons in the Merger" Other Executive Officers of XTO Energy beginning on page [] of this proxy statement/prospectus.

On December 10, 2009, XTO Energy held a special meeting of its board of directors in Fort Worth, Texas. All members of the XTO Energy board of directors were present in person, other than Mr. Randall, who joined telephonically. Also in attendance for the meeting were representatives of Skadden and Barclays Capital, a representative of Jefferies and members of XTO Energy's senior management, including Mr. McDonald. At the meeting, representatives of Skadden again reviewed certain legal matters relating to the board of directors' consideration of the proposed merger with ExxonMobil, including the directors' fiduciary duties in relation thereto. In addition, members of XTO Energy's senior management and representatives of Barclays Capital reviewed with the board of directors the results of the due diligence review of ExxonMobil to date. Representatives of Barclays Capital reviewed with the XTO Energy board of directors its further updated preliminary financial analyses of the proposed merger and various illustrative exchange ratios and premiums to XTO Energy's stock price under different scenarios, and noted the recent trading prices of XTO Energy and ExxonMobil common stock. A representative of Jefferies reviewed market conditions in the oil and gas industry, natural gas pricing trends and outlook and related matters. The XTO Energy board of directors discussed the complementary nature of XTO Energy's and ExxonMobil's businesses and the compelling value enhancement for XTO Energy stockholders from a combination with ExxonMobil. Representatives of Skadden reviewed with the board of directors certain of the principal terms and conditions of the draft merger agreement and the

Table of Contents

substance of recent negotiations between the parties on the merger agreement. Representatives of Skadden and the board of directors discussed the regulatory requirements relating to the proposed merger and a number of provisions in the draft merger agreement, including the definition of material adverse effect contained in the draft merger agreement, commitments of XTO Energy to proceed with a meeting of its stockholders to consider the merger even in the presence of a superior bid for XTO Energy, the potential termination fee payable by XTO Energy and the circumstances under which such a termination fee would be payable, the circumstances under which XTO Energy's board of directors could change or withdraw its recommendation in respect of the proposed merger and certain provisions relating to the post-closing operation of the XTO Energy business within ExxonMobil. Representatives of Skadden also reviewed with the directors the proposed changes to the XTO Energy compensation, benefit and severance arrangements that would have the effect of reducing the overall payments to senior executive officers and would enhance the retention features of these arrangements. In addition, the XTO Energy directors discussed, among other things, the current state of the oil and natural gas industry, financial considerations relating to the combined company, various reasons for entering into the proposed merger, the anticipated timing required for signing a definitive merger agreement and completion of the proposed merger. The XTO Energy board of directors directed members of management and Skadden to engage with ExxonMobil and its legal advisors to finalize the terms of the proposed merger for possible further consideration by the XTO Energy board of directors at their meeting scheduled for the following Sunday, December 13, 2009. At the conclusion of the meeting, the non-employee directors of XTO Energy met separately in executive session with representatives of Skadden present. Among other things, the non-employee directors further reviewed the proposed treatment of and changes to the XTO Energy compensation, benefit and severance arrangements that had been discussed during the full board meeting.

During the evening of Friday, December 11, 2009, Messrs. Simpson and Tillerson met in Irving, Texas to discuss the remaining key open items of the proposed merger, including the proposed termination fee and proposed exchange ratio. Following discussion and negotiation, Messrs. Simpson and Tillerson agreed that a proposed termination fee of \$900 million would be appropriate. Mr. Tillerson indicated ExxonMobil's views on valuation of XTO Energy, taking into account, among other things, ExxonMobil's due diligence review of XTO Energy. Messrs. Simpson and Tillerson then discussed each of XTO Energy's and ExxonMobil's respective views on the exchange ratio that would be appropriate in the proposed merger. Following discussion and negotiation of the terms of the proposed merger agreement, Messrs. Simpson and Tillerson agreed that they would present an exchange ratio of 0.7098 shares of ExxonMobil common stock for each share of XTO Energy common stock to their respective boards of directors. Based on the closing price of ExxonMobil common stock on the New York Stock Exchange on the day of the meeting, this exchange ratio represented an implied price per share of XTO Energy common stock of approximately \$51.69 and a 25% premium over the closing price per share of XTO Energy common stock on that day and a 22% premium over XTO Energy's prior 30-trading day average price. During this meeting, Messrs. Simpson and Tillerson also discussed the proposed changes to XTO Energy's compensation, benefit and severance arrangements that would have the effect of reducing the overall payments to senior executive officers and would enhance the retention features of these arrangements, as well as the proposed consulting agreements. After further discussion, Mr. Simpson and Mr. Tillerson each agreed to present their agreement in principle with respect to the financial terms of the proposed merger, and the other terms discussed, to the respective boards of directors of the two companies for their consideration. Messrs. Simpson and Tillerson also indicated that they would instruct the parties' respective legal advisors to work toward finalizing draft transaction agreements.

Following Mr. Simpson's and Mr. Tillerson's meeting on December 11, 2009, and through the morning of December 13, 2009, representatives of XTO Energy, ExxonMobil, Skadden and Davis Polk exchanged drafts of the transaction documents and continued to engage in discussions and negotiations regarding the final terms of such documents. During the same period, additional telephone discussions of these matters also occurred between Messrs. Tillerson and Simpson.

In the late morning of Sunday, December 13, 2009, the board of directors of XTO Energy held a special meeting in Fort Worth, Texas to review and consider the proposed merger with ExxonMobil. Present at the

Table of Contents

meeting were representatives of Skadden, Barclays Capital and Jefferies. Mr. Simpson updated the board of directors regarding his discussion with Mr. Tillerson on December 11, 2009 and ExxonMobil's final proposal of an exchange ratio equal to 0.7098 shares of ExxonMobil common stock for each share of XTO Energy common stock. Mr. Simpson also discussed the negotiations regarding the termination fee and ExxonMobil's final proposal of \$900 million. Members of XTO Energy's senior management and representatives of Skadden provided the board of directors with an update regarding the final negotiations of the proposed merger, and representatives of Skadden reviewed the specific terms and conditions of the merger agreement that had been negotiated with ExxonMobil and its legal advisors. Representatives of Skadden also reviewed with the directors their fiduciary duties as members of the XTO Energy board of directors. The XTO Energy board of directors temporarily adjourned its meeting to allow for a meeting of the Compensation Committee of the XTO Energy board of directors.

A meeting of the Compensation Committee of the XTO Energy board of directors was called to order to review and consider the proposed consulting agreements for senior executive officers and the proposed amendments to XTO Energy's existing compensation, benefit and severance arrangements in connection with the proposed merger. Representatives of Skadden described the proposed consulting agreements to be entered into by and among XTO Energy, ExxonMobil and XTO Energy's senior executive officers, the proposed amendments to XTO Energy's employment agreements and share grant agreements with certain senior executive officers and certain other compensation, benefits and severance arrangements affecting certain members of XTO Energy's senior management. The amendments are described in detail under "Interests of Certain Persons in the Merger" beginning on page [] of this proxy statement/prospectus. The Compensation Committee unanimously recommended to the XTO Energy board of directors that the XTO Energy board of directors approve the proposed consulting agreements and proposed amendments to the compensation, benefit and severance arrangements.

The meeting of the XTO Energy board of directors resumed and Barclays Capital discussed with the board of directors its financial analyses in connection with the proposed merger and rendered its opinion to XTO Energy's board of directors that, as of December 13, 2009 and based upon and subject to the qualifications, limitations and assumptions stated in its opinion, from a financial point of view, the exchange ratio in the proposed merger was fair to the XTO Energy stockholders. Barclays Capital's opinion is attached as Annex B to this proxy statement/prospectus (see also "Opinion of XTO Energy's Financial Advisor" beginning on page [] of this proxy statement/prospectus). A representative of Jefferies then reviewed with the XTO Energy board of directors information and data concerning general market conditions in the oil and gas industry, natural gas pricing trends and related matters.

Following further discussion among the board of directors and its financial and legal advisors, members of XTO Energy's management and representatives of Barclays Capital and Jefferies were excused from the meeting and XTO Energy's non-employee directors met in executive session with representatives of Skadden present to further discuss the proposed merger. During the executive session, each non-employee director agreed to execute, at the conclusion of the meeting, a written waiver of the right to receive any payments that would otherwise become payable pursuant to the XTO Energy Amended and Restated Outside Directors Severance Plan upon the consummation of a merger with ExxonMobil. Following the conclusion of the executive session of the non-employee directors, the entire XTO Energy board reviewed and discussed the rationale for entering into the proposed merger, including a discussion of the factors described under "XTO Energy Reasons for the Merger; Recommendation of the XTO Energy Board of Directors" beginning on page [] of this proxy statement/prospectus. The XTO Energy board of directors (other than Mr. Randall, who abstained from voting) determined that the merger agreement and the transactions contemplated thereby, including the merger, are advisable to and in the best interests of XTO Energy and its stockholders. Mr. Randall abstained from voting to avoid any perception of a potential conflict of interest arising out of his employment with Jefferies, one of XTO Energy's two financial advisors in connection the proposed merger.

Also on the afternoon of December 13, 2009, the ExxonMobil board of directors convened a telephonic meeting to review and consider the proposed merger. Present at the meeting were members of ExxonMobil's

Table of Contents

senior management and representatives of Davis Polk and J.P. Morgan Securities Inc., ExxonMobil's financial advisor. At the meeting, ExxonMobil's senior management briefed the board of directors on negotiations that had occurred since their last update, reviewed the strategic rationale for the transaction, provided an overview of the proposed consulting agreements with XTO Energy's senior executive officers and the proposed amendments to XTO Energy's existing compensation, benefit and severance arrangements and recommended in favor of a transaction on the terms presented. Representatives of J.P. Morgan Securities Inc. reviewed with the board of directors certain financial aspects of the proposed merger and a representative of Davis Polk discussed with the board of directors certain material terms of the merger agreement and certain legal matters relating to the board of directors' consideration of the proposed merger. Following consideration of the terms of the proposed merger and discussion among the directors, senior management and ExxonMobil's legal and financial advisors, the ExxonMobil board of directors approved the proposed merger and authorized management to enter into the merger agreement and the consulting agreements with XTO Energy's senior executive officers.

The merger agreement was executed by XTO Energy and ExxonMobil on December 13, 2009. On December 14, 2009, prior to the commencement of trading on the NYSE, XTO Energy and ExxonMobil issued a joint press release announcing the signing of the merger agreement.

XTO Energy Reasons for the Merger; Recommendation of the XTO Energy Board of Directors

The XTO Energy board of directors carefully evaluated the merger agreement and the transactions contemplated thereby and believe that the merger agreement and the transactions contemplated thereby, including the proposed merger, are advisable to, and in the best interests of, XTO Energy and its stockholders. Accordingly, at a meeting held on December 13, 2009, the XTO Energy board of directors (other than Mr. Randall, who abstained from voting for the reasons described under "The Merger Background of the Merger" beginning on page [] of this proxy statement/prospectus) resolved to approve the merger agreement and the transactions contemplated thereby, including the proposed merger, and to recommend to the stockholders of XTO Energy that they vote **FOR** the adoption of the merger agreement.

In the course of reaching its recommendation, the XTO Energy board of directors consulted with XTO Energy's senior management, financial advisors and outside legal counsel and considered a number of substantive factors, both positive and negative, and potential benefits and detriments of the merger to XTO Energy and its stockholders. The XTO Energy board of directors believed that, taken as a whole, the following factors supported its decision to approve the proposed merger:

The exchange ratio of 0.7098 shares of ExxonMobil common stock for each share of XTO Energy common stock resulted in implied merger consideration as of December 13, 2009 of \$51.69 per share (based on the \$72.83 closing price of ExxonMobil common stock on December 11, 2009, the last trading day prior to December 13, 2009) and represented a significant premium over the market prices at which XTO Energy common stock had previously traded, including a premium of approximately:

24.6% over the closing price of XTO Energy common stock of \$41.49 per share on December 11, 2009, the last trading day prior to public announcement of the merger;

25.6% over the closing price of XTO Energy common stock of \$41.15 per share on the fifth trading day prior to public announcement of the merger; and

24.4% over the closing price of XTO Energy common stock of \$41.56 per share on the thirtieth trading day prior to public announcement of the merger.

The fact that the merger consideration will be paid in shares of ExxonMobil common stock provides XTO Energy stockholders with the opportunity to participate in any future earnings or growth of the combined company and future appreciation of ExxonMobil common stock following the merger, should they determine to retain the ExxonMobil common stock payable in the merger. The board of directors also considered the fact that receiving shares of ExxonMobil common stock would provide

Table of Contents

liquidity for those XTO Energy stockholders who do not desire to continue holding their shares of ExxonMobil common stock and seek to sell their shares into the market following the merger.

The financial analyses of Barclays Capital presented to the XTO Energy board of directors and Barclays Capital's opinion to XTO Energy's board of directors, dated December 13, 2009, that, as of such date and based upon and subject to the qualifications, limitations and assumptions stated in its opinion, from a financial point of view, the exchange ratio in the proposed merger was fair to XTO Energy's stockholders. See "Opinion of XTO Energy's Financial Advisor" beginning on page [] of this proxy statement/prospectus for a fuller description. The full text of Barclays Capital's written opinion, which sets forth, among other things, the procedures followed, factors considered, assumptions made and qualifications and limitations of the review undertaken in rendering its opinion, is attached as Annex B to this proxy statement/prospectus.

XTO Energy stockholders, as stockholders of the combined company, will have the opportunity to participate in the benefits that are expected to result from the merger, including an enhanced competitive and financial position of the combined company, increased size and scale, diversity and depth in assets and geographic scope of the combined company, an increase in proved reserves and production capacity of the combined company and an increased financial capacity to develop existing assets and to pursue additional asset acquisitions.

That by becoming stockholders of the combined company following the merger, XTO Energy stockholders who continue to hold ExxonMobil common stock will have an investment in a much larger and integrated energy company with more diversified earnings and subject to less potential financial and business risk than XTO Energy.

Increasing competition in the U.S. unconventional natural gas industry, together with technological advancements in drilling methods, could result in increased supply of natural gas and could adversely affect natural gas pricing and profitability of producers. Accordingly, ExxonMobil's global scale and diversified asset base is better positioned to drive growth and profitability.

The fact that ExxonMobil intends to use XTO Energy as its platform for its unconventional exploration and production business, its agreement to maintain the XTO Energy facilities in Fort Worth for two years following completion of the merger, and ExxonMobil's and XTO Energy's entry into consulting agreements with key members of XTO Energy's senior management. The combination of ExxonMobil's global scale and financial resources (including access to a lower cost of capital than is or will be likely available to XTO Energy either presently on a standalone basis or in the future) with XTO Energy's proven capabilities and success in the unconventional natural gas business will provide XTO Energy stockholders with a continuing opportunity to participate in the significant value in the unconventional natural gas exploration and production industry as stockholders in the combined company.

The board of directors' review, with XTO Energy's legal and financial advisors, of the structure of the merger and the financial and other terms of the merger agreement. In particular, the XTO Energy board of directors considered the following specific aspects of the merger agreement:

That the merger is intended to qualify as a reorganization for U.S. federal tax purposes and the expectation that the receipt of ExxonMobil common shares will generally not be a taxable event to XTO Energy's stockholders;

The nature of the closing conditions included in the merger agreement, as well as the likelihood of satisfaction of all conditions to the completion of the merger;

XTO Energy's right to engage in negotiations with, and provide information to, a third party that makes an unsolicited written acquisition proposal, if XTO Energy's board of directors determines in good faith, after consultation with its outside legal and

Edgar Filing: EXXON MOBIL CORP - Form S-4

financial advisors, that such proposal constitutes or could reasonably be expected to lead to a transaction that is more favorable, and would reasonably be expected to provide greater value, to XTO Energy's stockholders than the merger;

Table of Contents

The right of XTO Energy's board of directors to change its recommendation in favor of the merger upon receipt of a superior proposal or upon the occurrence of an intervening event (as defined in the merger agreement and discussed under "The Merger Agreement - No Solicitation by XTO Energy" beginning on page [] of this proxy statement/prospectus), in each case, if required by its fiduciary duties.

The circumstances under which the termination fee is payable by XTO Energy to ExxonMobil and the size of the termination fee, which the XTO Energy board of directors views as reasonable in light of the size and benefits of the transaction and not preclusive of a superior proposal, if one were to emerge.

The requirement that XTO Energy obtain stockholder approval as a condition to completion of the merger.

The requirement that ExxonMobil use reasonable best efforts to obtain required regulatory approvals and clearances to complete the merger, subject to certain exceptions described under "The Merger Agreement - Reasonable Best Efforts Covenant" beginning on page [] of this proxy statement/prospectus.

The belief that regulatory approvals and clearances necessary to complete the merger will likely be obtained without any material cost or burden to the combined company.

The belief that, after careful consideration of potential alternatives to the merger (such as, among others, XTO Energy continuing to operate as a standalone company and the pursuit of a transaction or business combination with a third party other than ExxonMobil), the merger with ExxonMobil is expected to yield greater benefits to XTO Energy stockholders (including the benefits discussed above) than would the range of alternatives considered.

In addition to considering the factors described above, the XTO Energy board of directors also considered the following factors:

The recommendation of senior management of XTO Energy that the merger is in the best interests of XTO Energy's stockholders based on their knowledge of the current environment in the oil and gas industry and markets, including economic conditions, changes in oil and gas prices, changes in the underlying demand for oil and gas, the prospects of natural gas supply and the potential of oversupply in the future, the potential for continued consolidation, current financial market conditions and the likely effects of these factors on XTO Energy's and ExxonMobil's potential growth, development, productivity and strategic options.

The board of directors' knowledge of XTO Energy's business, operations, financial condition, earnings and prospects and of ExxonMobil's business, operations, financial condition, earnings and prospects, taking into account the results of XTO Energy's due diligence of ExxonMobil.

The potential impact of pending legislation and potential regulatory changes.

The cash payments and other benefits to which members of senior management were contractually entitled upon completion of the merger, and the agreement by members of senior management to forego a significant portion of these payments and other benefits in connection with the merger.

The XTO Energy board of directors also considered certain potentially negative factors in its deliberations concerning the merger, including but not limited to the following:

Edgar Filing: EXXON MOBIL CORP - Form S-4

The fact that because the merger consideration is a fixed exchange ratio of shares of ExxonMobil common stock to XTO Energy common stock, XTO Energy stockholders could be adversely affected by a decrease in the trading price of ExxonMobil common stock during the pendency of the merger and the fact that the merger agreement does not provide XTO Energy with a price-based termination right or other similar protection. The XTO Energy board of directors determined that this structure was

Table of Contents

appropriate and the risk acceptable in view of factors such as the XTO Energy board of directors' review of the relative intrinsic values and financial performance of ExxonMobil and XTO Energy, as well the opportunity XTO Energy stockholders have as a result of the fixed exchange ratio to benefit from any increase in the trading price of ExxonMobil common stock between the announcement and completion of the merger.

The risk that the potential benefits of the merger will not be realized or will not be realized within the expected time period and the risks and challenges associated with the integration by ExxonMobil of XTO Energy's businesses, operations and workforce.

The risks and contingencies relating to the announcement and pendency of the merger and the risks and costs to XTO Energy if the closing of the merger is not timely or if the merger does not close at all, including the impact on XTO Energy's relationships with employees and third parties and the effect a public announcement of termination of the merger agreement may have on the trading price of XTO Energy's common stock and XTO Energy's operating results.

The risk of diverting management focus, employee attention and resources from other strategic opportunities and from operational matters while working to complete the merger.

The risk associated with various provisions of the merger agreement, including:

The requirements that XTO Energy must submit the ExxonMobil transaction to XTO Energy stockholders even in the presence of a superior bid for XTO Energy by a third party and that XTO Energy must pay to ExxonMobil a termination fee of \$900 million if the merger agreement is terminated under certain circumstances, which might discourage other parties potentially interested in an acquisition of, or combination with, XTO Energy from pursuing that opportunity. See "The Merger Agreement - Obligation of the XTO Energy Board of Directors to Recommend the Merger Agreement and Call a Stockholders Meeting" and "The Merger Agreement - Termination Fee Payable by XTO Energy" beginning on pages [] and [], respectively, of this proxy statement/prospectus.

The requirement that XTO Energy conduct its business only in the ordinary course prior to the completion of the merger and subject to specified restrictions on the conduct of XTO Energy's business without ExxonMobil's consent (not to be unreasonably withheld, conditioned or delayed), which might delay or prevent XTO Energy from undertaking certain business opportunities that might arise pending completion of the merger.

The risks described in the section entitled "Risk Factors" beginning on page [] of this proxy statement/prospectus. The XTO Energy board of directors concluded that the potentially negative factors associated with the proposed merger were outweighed by the potential benefits that it expected the XTO Energy stockholders would achieve as a result of the merger, including the belief of the XTO Energy board of directors that the proposed merger would maximize the value of XTO Energy's stockholders' shares and mitigate the risks and uncertainty affecting the future prospects of XTO Energy. Accordingly, the XTO Energy board of directors determined that the merger agreement and the transactions contemplated thereby, including the merger, are advisable to, and in the best interests of, XTO Energy and its stockholders.

In addition, the XTO Energy board of directors was aware of and considered the interests that XTO Energy's directors and executive officers may have with respect to the merger that differ from, or are in addition to, their interests as stockholders of XTO Energy generally, as described in "Interests of Certain Persons in the Merger" beginning on page [] of this proxy statement/prospectus.

The foregoing discussion of the information and factors considered by the XTO Energy board of directors is not exhaustive, but XTO Energy believes it includes the material factors considered by the XTO Energy board of

Table of Contents

directors. In view of the wide variety of factors considered in connection with its evaluation of the merger and the complexity of these matters, the XTO Energy board of directors did not consider it practicable to, and did not attempt to, quantify or otherwise assign relative or specific weight or values to any of these factors. Rather, the XTO Energy board of directors viewed its position and recommendation as being based on an overall analysis and on the totality of the information presented to and factors considered by it. In addition, in considering the factors described above, individual directors may have given different weights to different factors. After considering this information, the XTO Energy board of directors approved the merger agreement and the merger, and recommended that XTO Energy stockholders adopt the merger agreement.

This explanation of XTO Energy's reasons for the merger and other information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors described under "Cautionary Statement Regarding Forward-Looking Statements" beginning on page [] of this proxy statement/prospectus.

ExxonMobil Reasons for the Merger

ExxonMobil believes the merger will create sustainable long-term value for its shareholders. Key strategic benefits to ExxonMobil include:

Outstanding asset base. The merger will give ExxonMobil access to XTO Energy's significant diverse portfolio of high-quality unconventional gas assets. XTO Energy's unconventional gas interests are geographically dispersed across the United States and include material exposure to major unconventional gas plays. ExxonMobil views these assets as complementary to its own existing unconventional holdings in the United States, Canada, Germany, Poland, Hungary and Argentina. Combining ExxonMobil's and XTO Energy's unconventional assets will create a world-class unconventional resource portfolio positioned to support long-term production growth.

Technical expertise. The merger will give ExxonMobil access to XTO Energy's technical capabilities and operating expertise with unconventional gas resources, including XTO Energy's drilling capability and knowledge in well stimulation and productivity. XTO Energy's employees, who are recognized in the industry for their technical excellence and operating expertise, have substantial experience in all unconventional gas types, including tight gas, shale gas and coal bed methane, as well as shale oil. ExxonMobil will add to this its own drilling and completion expertise. This combined technical expertise will be applied to both ExxonMobil's and XTO Energy's unconventional holdings around the world, allowing those assets to be developed more effectively.

Development synergies. ExxonMobil believes the merger will create significant synergies by combining XTO Energy's technical capabilities and operating expertise with ExxonMobil's own extensive research and development expertise, project management and operational skills, global scale and financial capacity. These synergies will allow the combined portfolio to be developed more effectively than either company would be able to accomplish on its own.

Global functional organization. The merger will be accompanied by ExxonMobil's establishment of a new global organization that combines the unconventional resource organizations of both companies. Consistent with ExxonMobil's successful global functional organization model, this new organization will facilitate rapid sharing of technologies and best practices across the combined company's unconventional projects worldwide.

Meeting future demand. The increased supplies of natural gas available from the combined asset base will position ExxonMobil to better meet the growing demand for natural gas. ExxonMobil believes that natural gas demand will grow more rapidly over the coming decades than any other major energy source given its availability and relatively low carbon profile.

Table of Contents

Opinion of XTO Energy's Financial Advisor

XTO Energy engaged Barclays Capital to act as financial advisor with respect to the proposed merger. On December 13, 2009, Barclays Capital rendered its opinion to XTO Energy's board of directors that, as of such date and based upon and subject to the qualifications, limitations and assumptions stated in its opinion, from a financial point of view, the exchange ratio of 0.7098 shares of ExxonMobil common stock for each share of XTO Energy common stock in the proposed merger was fair to XTO Energy's stockholders.

The full text of Barclays Capital's opinion, dated as of December 13, 2009, is attached as Annex B to this proxy statement/prospectus. Holders of XTO Energy's common stock are encouraged to read Barclays Capital's opinion for a discussion of the procedures followed, factors considered, assumptions made and qualifications and limitations of the review undertaken by Barclays Capital in connection with its opinion. The following is a summary of Barclays Capital's opinion and the methodology that Barclays Capital used to render its opinion. This summary is qualified in its entirety by reference to the full text of the opinion.

Barclays Capital's opinion, the issuance of which was approved by Barclays Capital's Fairness Opinion Committee, is addressed to the board of directors of XTO Energy, addresses only the fairness, from a financial point of view, of the exchange ratio to XTO Energy's stockholders and does not constitute a recommendation to any stockholder of XTO Energy as to how such stockholder should vote with respect to the proposed merger or any other matter. The terms of the proposed merger were determined through arm's-length negotiations between XTO Energy and ExxonMobil and were approved by XTO Energy's board of directors. Barclays Capital did not recommend any specific form or amount of consideration to XTO Energy's board of directors or that any specific form or amount of consideration constituted the only appropriate consideration for the proposed merger. Barclays Capital was not requested to address, and its opinion does not in any manner address, XTO Energy's underlying business decision to proceed with or effect the proposed merger or to enter into or consummate the proposed merger at any particular time now or in the future. In addition, Barclays Capital expressed no opinion on, and its opinion does not in any manner address, the fairness of the amount or the nature of any compensation to any officers, directors or employees of any parties to the proposed merger, or any class of such persons, relative to the consideration to be offered to the stockholders of XTO Energy in the proposed merger. No limitations were imposed by XTO Energy's board of directors upon Barclays Capital with respect to the investigations made or procedures followed by it in rendering its opinion.

In arriving at its opinion, Barclays Capital reviewed and analyzed, among other things:

the merger agreement and the specific terms of the proposed merger;

publicly available information concerning XTO Energy and ExxonMobil that Barclays Capital believed to be relevant to its analysis, including, without limitation, each of XTO Energy's and ExxonMobil's Annual Reports on Form 10-K for the year ended December 31, 2008 and Quarterly Reports on Form 10-Q for the quarters ended March 31, 2009, June 30, 2009 and September 30, 2009;

financial and operating information with respect to the business, operations and prospects of XTO Energy furnished to Barclays Capital by XTO Energy;

financial and operating information with respect to the business, operations and prospects of ExxonMobil furnished to Barclays Capital by ExxonMobil;

consensus estimates published by First Call of independent equity research analysts with respect to (i) the future financial performance of XTO Energy, which are referred to in this proxy statement/prospectus as the XTO Energy research projections, and (ii) the future financial performance of ExxonMobil, which are referred to in this proxy statement/prospectus as the ExxonMobil research projections;

Edgar Filing: EXXON MOBIL CORP - Form S-4

estimates of certain (i) proved reserves of oil and gas, as of December 31, 2008, for XTO Energy as prepared by a third-party reserve engineer, or the XTO Year-End 2008 Engineered Proved Reserve Report, (ii) proved reserves of oil and gas, as of December 31, 2008, for XTO Energy prepared by the

Table of Contents

management of XTO Energy based upon the XTO Year-End 2008 Engineered Proved Reserve Report adjusted for different commodity price assumptions, or the Price Adjusted XTO Year-End 2008 Proved Reserve Report, and (iii) proved reserves of oil and gas, as of December 31, 2009, for XTO Energy based upon a roll-forward of the Price Adjusted XTO Year-End 2008 Proved Reserve Report and XTO Energy management guidance ((i) through (iii) are collectively referred to in this proxy statement/prospectus as the XTO reserve reports);

estimates of certain current non-proved oil and gas reserve potential for XTO Energy as estimated by the management of XTO Energy and classified by the management of XTO Energy between (i) Low-Risk Upside Resource Potential and (ii) Additional Resource Potential based upon the level of risk inherent in the resources ((i) through (ii) are collectively referred to in this proxy statement/prospectus as the XTO Energy non-proved resource potential);

the trading histories of XTO Energy common stock and ExxonMobil common stock from December 13, 2004 to December 11, 2009 and a comparison of those trading histories with each other and with those of other companies that Barclays Capital deemed relevant;

a comparison of the historical financial results and present financial condition of XTO Energy and ExxonMobil with each other's and with those of other companies that Barclays Capital deemed relevant;

a comparison of the financial terms of the proposed merger with the financial terms of certain other transactions that Barclays Capital deemed relevant;

the relative contributions of XTO Energy and ExxonMobil to the current and future financial performance of the combined company on a pro forma basis; and

certain strategic alternatives available to XTO Energy.

In addition, Barclays Capital had discussions with the managements of XTO Energy and ExxonMobil concerning their respective businesses, operations, assets, financial conditions, reserves, production profiles, hedging levels, commodity prices, development programs, exploration programs and prospects, and undertook such other studies, analyses and investigations as Barclays Capital deemed appropriate.

In arriving at its opinion, Barclays Capital assumed and relied upon the accuracy and completeness of the financial and other information used by Barclays Capital without assuming any responsibility for independent verification of such information and also relied upon the assurances of the managements of XTO Energy and ExxonMobil that they are not aware of any facts or circumstances that would make such information inaccurate or misleading.

Barclays Capital was not provided with, and did not have any access to, financial projections of XTO Energy prepared by the management of XTO Energy. Accordingly, upon the advice of XTO Energy, Barclays Capital assumed that the XTO Energy research projections were a reasonable basis upon which to evaluate the future financial performance of XTO Energy and Barclays Capital used such projections in performing its analysis. In addition, for purposes of its analysis and due to the limited scope of the XTO Energy research projections, Barclays Capital also considered projections of XTO Energy that Barclays Capital prepared in consultation with the management of XTO Energy. Barclays Capital discussed these projections with the management of XTO Energy and, based upon advice of XTO Energy management, Barclays Capital assumed that such projections were a reasonable basis upon which to evaluate the future performance of XTO Energy and management of XTO Energy had agreed with the appropriateness of the use of such projections in performing Barclays Capital analysis. Barclays Capital was not provided with, and did not have any access to, financial projections of ExxonMobil prepared by the management of ExxonMobil. Accordingly, upon the advice of XTO Energy, Barclays Capital assumed that the ExxonMobil research projections were a reasonable basis upon which to evaluate the future financial performance of ExxonMobil and that ExxonMobil will perform substantially in accordance with such estimates. With respect to the XTO reserve reports, Barclays Capital discussed these

Table of Contents

reports with the management of XTO Energy and, upon the advice of XTO Energy, assumed that the XTO reserve reports were a reasonable basis upon which to evaluate the proved reserve levels of XTO Energy. With respect to the XTO Energy non-proved resource potential, Barclays Capital discussed these estimates with the management of XTO Energy and, upon the advice of XTO Energy, assumed that the XTO Energy non-proved resource potential was a reasonable basis upon which to evaluate the non-proved resource levels of XTO Energy.

In arriving at its opinion, Barclays Capital did not conduct a physical inspection of the properties and facilities of XTO Energy or ExxonMobil and did not make or obtain any evaluations or appraisals of the assets or liabilities of XTO Energy or ExxonMobil. In addition, XTO Energy's board of directors did not authorize Barclays Capital to solicit, and Barclays Capital did not solicit, any indications of interest from any third party with respect to the purchase of all or a part of XTO Energy's business. Barclays Capital's opinion necessarily was based upon market, economic and other conditions as they existed on, and could be evaluated as of, the date of its opinion letter. Barclays Capital assumed no responsibility for updating or revising its opinion based on events or circumstances that may occur after the date of its opinion letter.

Barclays Capital assumed the accuracy of the representations and warranties contained in the merger agreement and all agreements related thereto and, upon the advice of XTO Energy, assumed that all material governmental, regulatory and third-party approvals, consents and releases for the proposed merger will be obtained within the constraints contemplated by the merger agreement and that the proposed merger will be consummated in accordance with the terms of the merger agreement without waiver, modification or amendment of any material term, condition or agreement thereof.

Barclays Capital did not express any opinion as to any tax or other consequences that might result from the proposed merger, nor did Barclays Capital's opinion address any legal, tax, regulatory or accounting matters, as to which Barclays Capital understood that XTO Energy had obtained such advice as it deemed necessary from qualified professionals. In addition, Barclays Capital expressed no opinion as to the prices at which shares of (i) XTO Energy common stock or ExxonMobil common stock would trade at any time following the announcement of the proposed merger or (ii) ExxonMobil common stock would trade at any time following the consummation of the proposed merger. Barclays Capital's opinion should not be viewed as providing any assurance that the market value of the ExxonMobil common stock to be held by the stockholders of XTO Energy after the consummation of the proposed merger will be in excess of the market value of the XTO Energy common stock owned by such stockholders at any time prior to announcement or consummation of the proposed merger.

In connection with rendering its opinion, Barclays Capital performed certain financial, comparative and other analyses as summarized below. In arriving at its opinion, Barclays Capital did not ascribe a specific range of values to the shares of XTO Energy common stock, but rather made its determination as to the fairness, from a financial point of view, of the exchange ratio in the proposed merger to XTO Energy's stockholders on the basis of the various financial, comparative and other analyses described below. The preparation of a fairness opinion is a complex process and involves various determinations as to the most appropriate and relevant methods of financial and comparative analyses and the application of those methods to the particular circumstances. Therefore, a fairness opinion is not readily susceptible to summary description.

In arriving at its opinion, Barclays Capital did not attribute any particular weight to any single analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor relative to all other analyses and factors performed and considered by it and in the context and circumstances of the proposed merger. Accordingly, Barclays Capital believes that these analyses and factors must be considered as a whole, as considering any portion of these analyses and factors, without considering all analyses and factors as a whole, could create a misleading or incomplete view of the process underlying its opinion.

The following is a summary of the material financial, comparative and other analyses used by Barclays Capital in preparing its opinion for XTO Energy's board of directors. Certain of the analyses summarized below

Table of Contents

include information presented in tabular format. In order to understand fully the methodologies used by Barclays Capital and the results of its financial, comparative and other analyses, the tables must be read together with the text of each summary, as the tables alone do not constitute a complete description of the financial, comparative and other analyses. None of XTO Energy, ExxonMobil, Barclays Capital or any other person assumes responsibility if future results are materially different from those discussed. Any estimates contained in these analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than as set forth below. In addition, analyses relating to the value of the businesses do not purport to be appraisals or to reflect the prices at which the businesses could actually be sold.

Summary of Analyses

Barclays Capital analyzed the value of XTO Energy using the following methodologies:

net asset valuation analysis,

comparable company analysis,

comparable transaction analysis,

discounted cash flow analysis, and

analysis of equity research analyst price targets.

The implied equity value ranges per share of XTO Energy common stock derived from each of these methodologies were compared to the value of the proposed merger consideration. The value of the proposed merger consideration was calculated as the product of the closing equity value per share of ExxonMobil common stock on December 11, 2009 (the last trading day prior to the announcement of the proposed merger) of \$72.83 per share and the exchange ratio of 0.7098 shares of ExxonMobil common stock for each share of XTO Energy common stock in the proposed merger. Based on the proposed merger consideration value of \$51.69 per share resulting from this calculation, the implied equity value ranges in the proposed merger, derived using the various valuation methodologies listed above, supported the conclusion that, from a financial point of view, the exchange ratio in the proposed merger was fair to XTO Energy's stockholders.

In addition to analyzing the value of XTO Energy, Barclays Capital also analyzed and reviewed (i) the pro forma impact of the proposed merger on the projected 2010 and 2011 earnings per share, or EPS, and discretionary cash flow per share, or DCFPS, for ExxonMobil and XTO Energy based on consensus estimates published by First Call of independent equity research analysts, (ii) certain publicly available information related to selected corporate transactions to calculate the amount of premiums paid by the acquirers to the acquired companies' stockholders, (iii) the daily historical closing prices of XTO Energy and ExxonMobil common stock from the period of December 13, 2004 to December 11, 2009 and (iv) the relative income statement and cash flow contribution of XTO Energy and ExxonMobil to the combined company based on 2010 and 2011 estimated financial data based on consensus estimates published by First Call of independent equity research analysts.

In particular, in applying the various valuation methodologies to the particular businesses, operations and prospects of XTO Energy and ExxonMobil, and the particular circumstances of the proposed merger, Barclays Capital made qualitative judgments as to the significance and relevance of each analysis. In addition, Barclays Capital made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of XTO Energy or ExxonMobil. Accordingly, the methodologies and the implied common equity value range derived therefrom must be considered as a whole and in the context of the narrative description of the financial analyses, including the assumptions underlying these analyses. Considering the implied common equity value ranges without considering the full narrative description of the financial analyses, including the assumptions underlying these analyses, could create a misleading or incomplete view of the process underlying, and conclusions represented by, Barclays Capital's opinion.

Table of Contents**Net Asset Valuation Analysis**

Barclays Capital estimated the present value of the future after-tax cash flows expected to be generated from XTO Energy's proved reserves and XTO Energy non-proved resource potential as of December 31, 2009, based on reserve, production and capital cost estimates as of December 31, 2009. The present value of the future after-tax cash flow was determined using a range of discount rates and assuming a tax rate of 36.5%. The net asset valuation analysis was performed under four commodity price scenarios (Case I, Case II, Case III and Case IV), which are described below.

Certain of the natural gas and oil price forecasts employed by Barclays Capital were based on New York Mercantile Exchange, or NYMEX, price forecasts (Henry Hub, Louisiana delivery for natural gas and West Texas Intermediate, Cushing, Oklahoma delivery for oil) to which adjustments were made to reflect location and quality differentials. NYMEX gas price quotations stated in heating value equivalents per million British Thermal Units, or MMBtu, were adjusted to reflect the value per thousand cubic feet, or Mcf, of gas. NYMEX oil price quotations are stated in dollars per barrel, or Bbl, of crude oil.

The following table summarizes the natural gas and oil price forecasts Barclays Capital employed to estimate future after-tax cash flows for each of the reserve categories Barclays Capital considered for XTO Energy. Case I, Case II and Case III reflect assumed oil and gas prices under various scenarios. Case IV reflects the NYMEX strip as of the close of business on December 11, 2009.

	2010E	2011E	2012E	2013E	2014E	Thereafter
Gas Henry Hub (\$/Mcf)						
Case I	\$ 5.00	\$ 5.00	\$ 5.00	\$ 5.00	\$ 5.00	\$ 5.00
Case II	\$ 6.50	\$ 6.50	\$ 6.50	\$ 6.50	\$ 6.50	\$ 6.50
Case III	\$ 8.00	\$ 8.00	\$ 8.00	\$ 8.00	\$ 8.00	\$ 8.00
Case IV	\$ 5.57	\$ 6.50	\$ 6.73	\$ 6.83	\$ 7.01	\$ 7.01
Oil West Texas Intermediate (\$/Bbl)						
Case I	\$ 60.00	\$ 60.00	\$ 60.00	\$ 60.00	\$ 60.00	\$ 60.00
Case II	\$ 80.00	\$ 80.00	\$ 80.00	\$ 80.00	\$ 80.00	\$ 80.00
Case III	\$ 100.00	\$ 100.00	\$ 100.00	\$ 100.00	\$ 100.00	\$ 100.00
Case IV	\$ 75.70	\$ 81.46	\$ 84.01	\$ 85.87	\$ 88.01	\$ 88.01

The net asset valuation analyses yielded valuations for XTO Energy that implied an equity value range of \$21.32 to \$29.78 per share for Case I, an equity value range of \$42.34 to \$53.94 per share for Case II, an equity value range of \$55.59 to \$69.60 per share for Case III and an equity value range of \$44.83 to \$57.24 per share for Case IV, in each case as compared to the proposed merger consideration value of \$51.69 per share. Barclays Capital noted that the proposed merger consideration was above the implied equity value range per XTO Energy share in Case I, below the implied equity value range per XTO Energy share in Case III, and in line with the implied equity value range per XTO Energy share in Case II and Case IV, in each case as yielded by Barclays Capital's net asset valuation analysis for XTO Energy.

Comparable Company Analysis

In order to assess how the public market values shares of similar publicly traded companies, Barclays Capital reviewed and compared specific financial and operating data relating to XTO Energy with selected companies that Barclays Capital deemed comparable to XTO Energy, based on its experience in the oil and gas exploration and production industry.

Barclays Capital reviewed the public stock market trading multiples for the following oil and gas exploration and production companies, which Barclays Capital selected because of their generally similar size and asset characteristics as compared to XTO Energy:

Anadarko Petroleum Corporation

Apache Corporation

Table of Contents

Chesapeake Energy Corporation

Devon Energy Corporation

EnCana Corporation

EOG Resources, Inc.

Using publicly available information, Barclays Capital calculated and analyzed enterprise value multiples of each comparable company's proved reserves and latest daily production, pro forma for acquisition and divestiture activity, and equity value multiples for each company's projected 2010 and 2011 discretionary cash flow per share based on consensus estimates published by First Call of independent equity research analysts. The enterprise value of each comparable company was obtained by adding its outstanding debt to the sum of the market value of its common stock using its stock price as of December 11, 2009, the book value of any preferred stock and the book value of any minority interest minus its cash balance, as appropriate. Barclays Capital calculated the enterprise value multiples of proved reserves and latest daily production by dividing each company's calculated enterprise value by its proved reserves and latest daily production, respectively. Barclays Capital calculated the equity value multiples by dividing each company's calculated equity value by its discretionary cash flow for 2010 and 2011. The results of the XTO Energy comparable company analysis are summarized below:

	Multiple Range of Comparable Companies of XTO Energy:		
	Low	Median	High
Enterprise Value as a Multiple of:			
12/31/08 Pro Forma Proved Reserves (\$/Mcf)	\$ 2.34	\$ 2.49	\$ 2.79
Latest Daily Production (\$/Mcf/d)	\$ 8,664	\$ 10,351	\$ 11,343
Equity Value as a Multiple of:			
Discretionary Cash Flow			
2010	3.7x	5.2x	6.1x
2011	3.4x	4.5x	6.0x

Barclays Capital selected the comparable companies listed above because their business and operating profiles were reasonably similar to that of XTO Energy. However, because of the inherent differences between the business, operations and prospects of XTO Energy and those of the selected comparable companies, Barclays Capital believed that it was inappropriate to, and therefore did not, rely solely on the quantitative results of the selected comparable company analysis. Accordingly, Barclays Capital also made qualitative judgments concerning differences between the business, financial and operating characteristics and prospects of XTO Energy and the selected comparable companies that could affect the public trading values of each in order to provide a context in which to consider the results of the quantitative analysis. These qualitative judgments related primarily to the differing sizes, growth prospects, profitability levels and degrees of operational risk between XTO Energy and the selected companies included in the comparable company analysis. Based upon these judgments, Barclays Capital selected enterprise value multiple ranges of \$2.30 to \$2.80 per proved thousand cubic feet equivalent, or Mcfe, and \$10,000 to \$12,500 per thousand cubic feet equivalent, or Mcfe/d, of daily production, and selected equity value multiple ranges of 4.50x to 6.00x and 3.75x to 5.25x, respectively, for the 2010 and 2011 discretionary cash flow. Utilizing these enterprise and equity value multiple ranges, the comparable company analysis implied an equity value range for XTO Energy of \$35.65 to \$49.80 per share as compared to the proposed merger consideration value of \$51.69 per share. Barclays Capital noted that the proposed merger consideration was above the implied equity value range per XTO Energy share yielded by Barclays Capital's comparable company analysis.

Table of Contents***Comparable Transaction Analysis***

Barclays Capital reviewed and compared the purchase prices and financial multiples paid in selected other transactions in the oil and gas industry with total transaction values in excess of \$5 billion that Barclays Capital deemed relevant, based on its experience with merger and acquisition transactions. Barclays Capital chose such transactions based on, among other things, the similarity of the applicable target companies in the transactions to XTO Energy with respect to size and asset characteristics. Barclays Capital excluded transactions in which less than 100% of the target company was acquired in the applicable transaction.

The following table sets forth the transactions analyzed based on such characteristics and the results of such analysis:

Acquirer	Target	Announcement Date
China Petroleum & Chemical Corporation	Addax Petroleum Corporation	June 24, 2009
Royal Dutch Shell plc	Duvernay Oil Corp.	July 14, 2008
Penn West Energy Trust	Canetic Resources Trust	October 31, 2007
Abu Dhabi National Energy Company PJSC	PrimeWest Energy Trust	September 24, 2007
Statoil ASA	Norsk Hydro ASA	December 18, 2006
Anadarko Petroleum Corporation	Kerr-McGee Corporation	June 23, 2006
ConocoPhillips	Burlington Resources Inc.	December 12, 2005
Chevron Corporation	Unocal Corporation	July 19, 2005
Devon Energy Corporation	Ocean Energy, Inc.	February 24, 2003
Shell Resources P.L.C.	Enterprise Oil plc	April 2, 2002
PanCanadian Energy Corporation	Alberta Energy Company Ltd.	January 27, 2002
Phillips Petroleum Company	Conoco Inc.	November 19, 2001
Conoco Inc.	Gulf Canada Resources Limited	May 29, 2001
Eni S.p.A.	Lasmo plc	December 21, 2000
Chevron Corporation	Texaco Inc.	October 16, 2000
Anadarko Petroleum Corporation	Union Pacific Resources Group Inc.	April 3, 2000
BP Amoco P.L.C.	Atlantic Richfield Company	April 1, 1999
Exxon Corporation	Mobil Corporation	December 1, 1998
Total, S.A.	Petrofina	December 1, 1998
British Petroleum Co. plc	Amoco Corporation	August 11, 1998

Using publicly available information, Barclays Capital calculated and analyzed enterprise multiples for proved reserves and latest daily production of the target companies in the comparable transactions. Barclays Capital adjusted each target company's enterprise value implied by the comparable transaction to exclude the value of non-exploration and production assets and similarly adjusted the enterprise value of XTO Energy implied by the proposed merger. Barclays Capital calculated the enterprise value multiples of proved reserves and latest daily production by dividing each target company's implied enterprise value, as so adjusted, by the

Table of Contents

disclosed proved reserves and latest daily production, respectively. The results of the comparable transaction analysis are summarized below for the comparable transactions announced in the period from January 1, 1998 to December 11, 2009 and in the period from January 1, 2005 to December 11, 2009:

	Multiple Range of Comparable Transactions Greater than \$5 billion Since January 1, 1998		
	Low	Median	High
Enterprise Value as a Multiple of:			
Proved Reserves (\$/Mcf)	\$ 0.90	\$ 1.36	\$ 12.44
Latest Daily Production (\$/Mcf/d)	\$ 3,375	\$ 5,234	\$ 47,379

	Multiple Range of Comparable Transactions Greater than \$5 billion Since January 1, 2005		
	Low	Median	High
Enterprise Value as a Multiple of:			
Proved Reserves (\$/Mcf)	\$ 1.52	\$ 4.44	\$ 12.44
Latest Daily Production (\$/Mcf/d)	\$ 5,805	\$ 12,533	\$ 47,379

The reasons for and the circumstances surrounding each of the selected comparable transactions analyzed were diverse and there are inherent differences between the businesses, operations, financial conditions and prospects of XTO Energy and the companies included in the comparable transaction analysis. Accordingly, Barclays Capital believed that a purely quantitative comparable transaction analysis would not be particularly meaningful in the context of considering the proposed merger. Barclays Capital therefore made qualitative judgments concerning differences between the characteristics of the selected comparable transactions and the proposed merger that would affect the acquisition values of the selected target companies and XTO Energy.

Based upon these judgments, Barclays Capital selected enterprise value multiple ranges of \$2.75 to \$3.25 per proved thousand cubic feet equivalent and \$12,500 to \$17,500 per thousand cubic feet equivalent of daily production. Barclays Capital then applied these enterprise value multiple ranges, as appropriate, to XTO Energy's December 31, 2009 estimated proved reserves, as reflected in the XTO Energy reserve reports, and third quarter 2009 daily production to imply an equity value range for XTO Energy of \$47.62 to \$68.25 per share as compared to the proposed merger consideration value of \$51.69 per share. Barclays Capital noted that the proposed merger consideration was in line with the implied equity value range per XTO Energy share yielded by Barclays Capital's comparable transaction analysis for XTO Energy.

Discounted Cash Flow Analysis

In order to estimate the present value of XTO Energy common stock, Barclays Capital performed a discounted cash flow analysis of XTO Energy. A discounted cash flow analysis is a traditional valuation methodology used to derive the valuation of an asset by calculating the present value of estimated future cash flows of the asset. Present value refers to the current value of future cash flows or amounts and is obtained by discounting those future cash flows or amounts by a range of discount rates that takes into account macroeconomic assumptions and estimates of risk, the opportunity cost of capital, expected returns and other appropriate factors.

To calculate the estimated enterprise values of XTO Energy using discounted cash flow analysis, Barclays Capital added (i) projected after-tax unlevered free cash flows for fiscal years 2010 through 2014 based on projections of XTO Energy that Barclays Capital prepared in consultation with the management of XTO Energy to (ii) the terminal value of XTO Energy as of 2014, and discounted such amounts to their present value using a range of selected discount rates. Specifically, Barclays Capital used a discount rate range of 9.0% to 11.0%. The discount rates were based on Barclays Capital's analysis of the weighted average cost of capital for XTO Energy based upon historical and future estimates of the weighted average cost of capital for XTO Energy as well as the weighted average cost of capital for companies with similar size and with an oil and gas exploration

Table of Contents

and production focus. The after-tax unlevered free cash flows were calculated by taking the tax-affected earnings before interest, tax expense, depreciation and amortization, excluding amortization of purchased intangibles, or EBITDA, and subtracting capital expenditures. The residual values of XTO Energy at the end of the forecast period, or terminal values, were estimated by applying multiples to estimates of XTO Energy's 2014 proved reserves. For this purpose, Barclays Capital selected a range of terminal value proved reserve multiples of \$2.25 to \$2.75 for XTO Energy based on the trading multiples of selected comparable publicly traded companies as well as the terms of recently completed acquisitions of similar assets and companies.

The enterprise value range for XTO Energy yielded by the XTO Energy discounted cash flow analysis implied an equity value range for XTO Energy of \$38.99 to \$54.75 per share as compared to the proposed merger consideration value of \$51.69 per share. Barclays Capital noted that the proposed merger consideration was in line with the implied equity value range per XTO Energy share yielded by Barclays Capital's discounted cash flow analysis.

Research Analyst Price Targets

Barclays Capital evaluated the publicly available price targets of XTO Energy published by independent equity research analysts associated with various Wall Street firms in order to calculate the implied equity value per share range for XTO Energy. Barclays Capital's analysis of research analyst price targets for XTO Energy implied an equity value range of \$48.00 to \$60.00 per share as compared to the proposed merger consideration value of \$51.69 per share. Barclays Capital noted that the proposed merger consideration was in line with the implied equity value range per XTO Energy share yielded by Barclays Capital's research analyst price target analysis for XTO Energy.

Pro Forma Merger Consequences Analysis

Barclays Capital analyzed the pro forma impact of the proposed merger on ExxonMobil's and XTO Energy's projected EPS and DCFPS based on consensus estimates published by First Call of independent equity research analysts. In the pro forma merger consequences analysis, Barclays Capital prepared a pro forma merger model which incorporated the consensus estimates published by First Call of independent equity research analysts for both XTO Energy and ExxonMobil for the years 2010 and 2011. Barclays Capital then compared the EPS and DCFPS of XTO Energy and ExxonMobil on a standalone basis to the EPS and DCFPS attributable to each of XTO Energy and ExxonMobil's interest in the pro forma combined company. Barclays Capital noted that the proposed merger was accretive to the pro forma 2010 and 2011 consensus estimates published by First Call of independent equity research analysts of EPS for XTO Energy and dilutive to the pro forma 2010 and 2011 consensus estimates published by First Call of independent equity research analysts of DCFPS for XTO Energy.

Premiums Analysis

Barclays Capital reviewed certain publicly available information related to selected corporate transactions to calculate the amount of the premiums paid by the acquirers to the acquired companies' stockholders. Barclays Capital analyzed selected corporate oil and gas exploration and production transactions announced for the period from January 1, 1998 to December 11, 2009 with total transaction values in excess of \$5 billion. Barclays Capital also analyzed all stock-for-stock corporate transactions involving target companies based in the United States for the period from January 1, 1998 to December 11, 2009 with total transaction values in excess of \$10 billion.

Table of Contents

For each of precedent transactions analyzed, Barclays Capital calculated the premiums paid by the acquirer by comparing the per share purchase price in each transaction to the historical stock price of the acquired company as of 1 day, 5 days and 30 days prior to the announcement date as well as based upon the 52-week high prior to the announcement date. Barclays Capital compared the premiums paid in the precedent transactions to the premium levels in the proposed merger consideration based on closing prices as of December 11, 2009. The table below sets forth the summary results of the analysis:

	Percentage Premium /(Discount) to the Closing Price Prior to Transaction Announcement			
	1 Day	5 Days	30 Days	52-Week High
Selected E&P Corporate Transactions Greater than \$5 billion since January 1, 1998				
Median	16.7%	24.4%	24.6%	(0.3)%
Mean	21.5%	25.4%	27.8%	(4.2)%
High	52.9%	57.4%	73.8%	22.7%
Low	2.0%	(6.7)%	(6.6)%	(55.2)%
All Stock U.S. Target Corporate Transactions Greater than \$10 billion since January 1, 1998				
Median	14.4%	24.5%	25.0%	(0.6)%
Mean	20.2%	24.3%	35.1%	0.1%
High	70.9%	69.2%	162.8%	47.3%
Low	(1.5)%	(6.7)%	(16.5)%	(25.5)%
Implied Premium Based on the exchange ratio in the proposed merger (as of December 11, 2009 close)				
	24.6%	25.6%	24.4%	11.2%

The premiums paid analysis yielded median premiums per share ranging from (0.3%) to 24.6% and (0.6%) to 25.0%, respectively, for Selected E&P Corporate Transactions Greater than \$5 billion since January 1, 1998 and All Stock U.S. Target Corporate Transactions Greater than \$10 billion since January 1, 1998, in each case as compared to the range of implied premiums of 11.2% to 25.6% based on the proposed merger consideration value of \$51.69 per share.

Historical Common Stock Trading Analysis

Barclays Capital reviewed the daily historical closing prices of XTO Energy common stock and ExxonMobil common stock for the period from December 13, 2004 to December 11, 2009. Barclays Capital analyzed the ratio of the closing share price for XTO Energy to the closing share price of ExxonMobil on the same day as of December 11, 2009 as well as both 5 days and 30 days prior to December 11, 2009. Barclays Capital also analyzed the ratio of XTO Energy's 52-week high and 52-week low common stock trading prices, respectively, to ExxonMobil's 52-week high and 52-week low common stock trading prices, respectively, as of December 11, 2009. In addition, Barclays Capital reviewed the ratio of the closing share prices for XTO Energy and ExxonMobil based on 5-day, 10-day, 30-day, 90-day, 1-year, 2-year, 3-year and 5-year averages, respectively, as of December 11, 2009. This analysis implied exchange ratios ranging from 0.4630 to 0.5889 shares of ExxonMobil common stock per share of XTO Energy common stock as compared to the exchange ratio in the proposed merger of 0.7098.

Contribution Analysis

Barclays Capital analyzed the relative income statement and cash flow contribution of XTO Energy and ExxonMobil to the combined company based on 2010 and 2011 estimated financial data based on consensus estimates published by First Call of independent equity research analysts for XTO Energy and ExxonMobil, respectively. Using consensus estimates published by First Call of independent equity research analysts, this analysis indicated that XTO Energy will contribute approximately 4.4% and 3.5% of the combined company's

Table of Contents

net income and 11.5% and 9.9% of the combined company's discretionary cash flow for the periods analyzed, implying an exchange ratio range of 0.2962 to 0.3761 shares and 0.8942 to 1.0660 shares of ExxonMobil common stock per share of XTO Energy common stock, respectively. At the exchange ratio in the proposed merger of 0.7098 shares of ExxonMobil common stock per share of XTO Energy common stock, XTO Energy stockholders will hold approximately 8% of the combined company's equity. Barclays Capital notes that the primary shortcoming of contribution analysis is that it treats all cash flow and earnings the same regardless of capitalization, expected growth rates, upside potential or risk profile.

General

Barclays Capital is an internationally recognized investment banking firm and, as part of its investment banking activities, is regularly engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, investments for passive and control purposes, negotiated underwritings, competitive bids, secondary distributions of listed and unlisted securities, private placements and valuations for estate, corporate and other purposes. XTO Energy's board of directors selected Barclays Capital because of its qualifications, reputation and experience in the valuation of businesses and securities in connection with mergers and acquisitions generally, knowledge of the industries in which XTO Energy operates, as well as substantial experience in transactions comparable to the proposed merger and familiarity with XTO Energy specifically.

Barclays Capital is acting as financial advisor to XTO Energy in connection with the proposed merger. As compensation for its services in connection with the proposed merger, XTO Energy paid Barclays Capital \$4,000,000 upon the delivery of Barclays Capital's opinion. Additional compensation of \$20,000,000 will be payable on completion of the proposed merger. In addition, XTO Energy has agreed to reimburse Barclays Capital for a portion of its reasonable expenses incurred in connection with the proposed merger and to indemnify Barclays Capital for certain liabilities that may arise out of its engagement by XTO Energy and the rendering of Barclays Capital's opinion. Barclays Capital has performed various investment banking services for XTO Energy and its affiliates in the past, and has received customary fees for such services. Specifically, in the past two years, Barclays Capital has performed the following investment banking and financial services for XTO Energy and its affiliates, for which Barclays Capital has received customary compensation: (i) in August 2008, Barclays Capital acted as an underwriter on XTO Energy's 6.75% senior notes due 2037, 5.00% senior notes due 2010, 5.75% senior notes due 2013 and 6.50% notes due 2018; (ii) in July 2008, Barclays Capital acted as an underwriter on XTO Energy's common stock offering; (iii) in April 2008, Barclays Capital acted as an underwriter on XTO Energy's 4.625% senior notes due 2013, 5.500% senior notes due 2018, and 6.375% senior notes due 2038; (iv) in February 2008, Barclays Capital acted as an underwriter on XTO Energy's common stock offering; (v) between February 2009 and April 2009, Barclays Capital assisted XTO Energy in repurchasing outstanding bonds of XTO Energy on the open market; (vi) Barclays Capital is currently a lender under XTO Energy's existing revolving credit facility and a dealer under XTO Energy's commercial paper program; and (vii) Barclays Capital has served and may continue to serve as a counterparty to XTO Energy on certain commodity hedging and trading transactions. In the past two years, Barclays Capital has performed only limited services for ExxonMobil for which Barclays Capital has received limited compensation. Barclays Capital expects to perform investment banking and financial services for ExxonMobil and its affiliates in the future and expects to receive customary fees for such services.

Barclays Capital is a full service securities firm engaged in a wide range of businesses including investment and commercial banking, lending, asset management and other financial and non-financial services. In the ordinary course of its business, Barclays Capital and its affiliates may actively trade and effect transactions in the equity, debt and/or other securities (and any derivatives thereof) and financial instruments (including loans and other obligations) of XTO Energy and ExxonMobil and their affiliates for its own account and for the accounts of its customers and, accordingly, may at any time hold long or short positions and investments in such securities and financial instruments.

Table of Contents

Regulatory Approvals Required for the Merger

General

ExxonMobil and XTO Energy have agreed to use their reasonable best efforts to obtain all regulatory approvals required to consummate the merger. These approvals include approval under, or notices pursuant to, the HSR Act and the Dutch Competition Act. However, in using their reasonable best efforts to obtain these required regulatory approvals, under the terms of the merger agreement, ExxonMobil is not required, and XTO Energy is not permitted without the consent of ExxonMobil, to take certain actions (such as divesting or holding separate assets or entering into settlements or consent decrees with governmental authorities) that would reasonably be expected to, individually or in the aggregate, restrict, in any material respect, or otherwise negatively and materially impact the natural gas (including natural gas liquids) exploration, production and sales businesses of either XTO Energy and its subsidiaries, taken as a whole, or ExxonMobil and its subsidiaries, taken as a whole.

Each of ExxonMobil's, XTO Energy's and Merger Subsidiaries' obligation to effect the merger is conditioned upon, among other things, the expiration or termination of the applicable waiting period under the HSR Act and the expiration of the applicable waiting period under the Dutch Competition Act or an approval of the Dutch Competition Authority allowing the merger to be completed. See "The Merger Agreement—Conditions to the Completion of the Merger" beginning on page [] of this proxy statement/prospectus.

Department of Justice, Federal Trade Commission and Other U.S. Antitrust Authorities

Under the HSR Act and the rules and regulations promulgated thereunder, certain transactions, including the merger, may not be consummated unless certain waiting period requirements have expired or been terminated. The HSR Act provides that each party must file a pre-merger notification with the Federal Trade Commission, or the FTC, and the Antitrust Division of the Department of Justice, or the DOJ. A transaction notifiable under the HSR Act may not be completed until the expiration of a 30-calendar-day waiting period following the parties' filing of their respective HSR Act notification forms or the early termination of that waiting period. If the DOJ or the FTC issues a Request for Additional Information and Documentary Material prior to the expiration of the initial waiting period, the parties must observe a second 30-day waiting period, which would begin to run only after both parties have substantially complied with the request for additional information, unless the waiting period is terminated earlier.

ExxonMobil and XTO Energy are required under the merger agreement to file the required notification and report forms with respect to the merger under the HSR Act on or prior to February 11, 2010.

At any time before or after the merger is completed, either the DOJ or the FTC could take action under the antitrust laws in opposition to the merger, including seeking to enjoin completion of the merger, condition approval of the merger upon the divestiture of assets of ExxonMobil, XTO Energy or their subsidiaries or impose restrictions on ExxonMobil's post-merger operations. In addition, U.S. state attorneys general could take action under the antitrust laws as they deem necessary or desirable in the public interest including without limitation seeking to enjoin the completion of the merger or permitting completion subject to regulatory concessions or conditions. Private parties may also seek to take legal action under the antitrust laws under some circumstances.

The Netherlands

Under the Dutch Competition Act, certain transactions, including the merger, may not be consummated unless certain waiting period requirements have expired or the Dutch Competition Authority (the Nederlandse Mededingingsautoriteit) has given its prior approval. A transaction subject to the Dutch Competition Act may not be completed until the expiration of a four-week waiting period following the filing of a complete notification or the Dutch Competition Authority's earlier approval of the transaction. If, prior to the expiration of the initial four-week waiting period, the Dutch Competition Authority determines that the transaction requires a license to

Table of Contents

proceed, the parties must observe an additional 13-week waiting period, which would begin to run only after the parties have submitted their application for such a license. If, during either the initial four-week waiting period or the subsequent 13-week waiting period, the Dutch Competition Authority requests additional information, the applicable waiting period is tolled until the parties adequately provide the requested information.

The required notification is expected to be filed with the Dutch Competition Authority with respect to the merger by mid-February 2010, commencing the initial four-week waiting period.

Other Governmental Approvals

Neither ExxonMobil nor XTO Energy is aware of any material governmental approvals or actions that are required for completion of the merger other than those described above. It is presently contemplated that if any such additional material governmental approvals or actions are required, those approvals or actions will be sought.

Timing; Challenges by Governmental and Other Entities

There can be no assurance that any of the regulatory approvals described above will be obtained and, if obtained, there can be no assurance as to the timing of any approvals, ability to obtain the approvals on satisfactory terms or the absence of any litigation challenging such approvals.

In addition, there can be no assurance that any of the governmental or other entities described above, including the DOJ, the FTC, the Dutch Competition Authority, U.S. state attorneys general and private parties, will not challenge the merger on antitrust or competition grounds and, if such a challenge is made, there can be no assurance as to its result.

No Appraisal Rights

Relevant state law may, under certain circumstances, give stockholders of a corporation appraisal or dissenters' rights in connection with a proposed merger. However, XTO Energy stockholders will not have such rights in connection with the merger.

Under Section 262 of the Delaware General Corporation Law, appraisal rights are not available for shares of stock if (i) such shares were, at the record date fixed to determine the stockholders entitled to receive notice of and to vote on the agreement of merger, either (a) listed on a national securities exchange, such as the New York Stock Exchange, or (b) held of record by more than 2,000 holders, and (ii) the holders of such shares will receive shares of stock of another corporation that are listed on a national securities exchange. Because XTO Energy common stock will be listed on the New York Stock Exchange on the applicable record date and will, upon the completion of the merger, be converted into the right to receive ExxonMobil common stock, which will also be listed on the New York Stock Exchange, XTO Energy stockholders will not have appraisal rights in connection with the merger. The foregoing discussion is not a complete statement of law pertaining to appraisal rights under Delaware law and is qualified in its entirety by reference to Delaware law.

Material U.S. Federal Income Tax Consequences of the Merger

In the opinion of Davis Polk & Wardwell LLP, counsel to ExxonMobil, and Skadden, Arps, Slate, Meagher & Flom LLP, counsel to XTO Energy, the following is a summary of the material U.S. federal income tax consequences of the merger to U.S. holders (as defined below) of XTO Energy common stock.

This discussion addresses only those U.S. holders that hold their XTO Energy common stock as a capital asset and does not address all aspects of federal income taxation that may be relevant to a U.S. holder of XTO Energy common stock in light of that stockholder's particular circumstances or to a stockholder subject to special rules, including:

a stockholder that is not a citizen or resident of the United States;

a financial institution or insurance company;

Table of Contents

a mutual fund;

a tax-exempt organization;

a dealer or broker in securities, commodities or foreign currencies;

a trader in securities that elects to apply a mark-to-market method of accounting;

a stockholder that holds XTO Energy common stock as part of a hedge, appreciated financial position, straddle, conversion, or other risk reduction transaction; or

a stockholder that acquired XTO Energy common stock pursuant to the exercise of options or similar derivative securities or otherwise as compensation.

If a partnership, or any entity treated as a partnership for U.S. federal income tax purposes, holds XTO Energy common stock, the tax treatment of a partner in such partnership generally will depend on the status of the partners and the activities of the partnership. A partner in a partnership holding XTO Energy common stock should consult its tax advisor.

The following discussion is not binding on the Internal Revenue Service, which is referred to in this proxy statement/prospectus as the IRS. It is based on the Internal Revenue Code of 1986, as amended from time to time, which is referred to in this proxy statement/prospectus as the Code, applicable Treasury regulations, administrative interpretations and court decisions, each as in effect as of the date of this proxy statement/prospectus and all of which are subject to change, possibly with retroactive effect. The tax consequences under U.S. state and local and foreign laws and U.S. federal laws other than U.S. federal income tax laws are not addressed. For purposes of this discussion, a U.S. holder is a beneficial owner of XTO Energy common stock that is for U.S. federal income tax purposes:

a citizen or resident of the United States;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or of any political subdivision thereof;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (i) if a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of such trust, or (ii) that has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes.

U.S. holders should consult their tax advisors as to the specific tax consequences to them of the merger, including the applicability and effect of U.S. federal, state and local and foreign income and other tax laws in light of their particular circumstances.

General

ExxonMobil and XTO Energy intend for the merger to qualify as a reorganization for U.S. federal income tax purposes. Prior to the effective time of and as a closing condition to the merger, ExxonMobil will have received a written opinion from Davis Polk & Wardwell LLP, and XTO Energy will have received a written opinion from Skadden, Arps, Slate, Meagher & Flom LLP, both to the effect that for U.S. federal income tax purposes, the merger will constitute a reorganization within the meaning of section 368(a) of the Code. Neither ExxonMobil nor XTO Energy intends to waive this closing condition. These opinions will each rely on assumptions, including assumptions regarding the absence of changes

Edgar Filing: EXXON MOBIL CORP - Form S-4

in existing facts and law and the completion of the merger in the manner contemplated by the merger agreement, and representations and covenants made by ExxonMobil and XTO Energy, including those contained in certificates of officers of ExxonMobil and XTO Energy. The accuracy of those representations, covenants and assumptions may affect the

Table of Contents

conclusions set forth in these opinions, in which case the tax consequences of the merger could differ substantially from those discussed in this section. Opinions of counsel neither bind the IRS nor preclude the IRS from adopting a contrary position and there can be no assurance that the IRS would not seek to adopt, or that a court would not agree with, that contrary position. No ruling has been or will be sought from the IRS on the tax consequences of the merger.

U.S. Federal Income Tax Consequences to ExxonMobil, Merger Sub and XTO Energy

None of ExxonMobil, Merger Sub and XTO Energy will recognize any gain or loss for U.S. federal income tax purposes as a result of the merger.

U.S. Federal Income Tax Consequences to U.S. Holders

A U.S. holder of XTO Energy common stock will not recognize any gain or loss as a result of the receipt of ExxonMobil common stock in the merger other than with respect to cash received in lieu of a fractional share of ExxonMobil common stock. In the case of cash received in lieu of a fractional share, a U.S. holder will be treated as receiving such fractional share of ExxonMobil common stock in the merger, then immediately transferring such common stock for cash in a taxable transaction. Such U.S. holder will have an adjusted tax basis in the ExxonMobil common stock received in the merger, including any fractional share for which cash is received, equal to the adjusted tax basis of XTO Energy common stock surrendered by that holder in the merger. A U.S. holder's holding period for ExxonMobil common stock received in the merger, including any fractional share for which cash is received, will include the holding period for the XTO Energy common stock surrendered therefor. A U.S. holder will recognize gain or loss in respect of any cash received in lieu of a fractional share of ExxonMobil common stock equal to the difference between the amount of cash received in lieu of the fractional share and the portion of the holder's adjusted tax basis that is allocable to such fractional share. Such gain or loss generally will be long-term capital gain or loss if the holding period in such fractional share is more than one year as of the closing date of the merger.

In the case of a holder of XTO Energy common stock that holds shares of XTO Energy common stock with differing tax bases and/or holding periods, the preceding rules must be applied to each identifiable block of XTO Energy common stock.

Information Reporting and Backup Withholding

A U.S. holder of XTO Energy common stock may be subject to information reporting and backup withholding in respect of certain cash payments received in lieu of a fractional share of ExxonMobil common stock unless such holder provides proof of an applicable exemption or a correct taxpayer identification number and otherwise complies with the applicable requirements of the backup withholding rules. The amounts withheld under the backup withholding rules are not an additional tax and may be refunded or credited against the holder's U.S. federal income tax liability, provided the required information is properly furnished.

Reporting Requirements

A U.S. holder that receives ExxonMobil common stock as a result of the merger will be required to retain records pertaining to the merger. In addition, each U.S. holder that owns at least five percent of XTO Energy's common stock will be required to file with its U.S. federal income tax return for the year in which the merger takes place a statement setting forth facts relating to the merger, including:

the cost or other basis of such holder's shares of XTO Energy common stock surrendered in the merger; and

the fair market value of the ExxonMobil common stock and the amount of cash the U.S. holder receives in the merger.

Table of Contents

This discussion is intended to provide only a general summary of the material U.S. federal income tax consequences of the merger, and is not a complete analysis or description of all potential U.S. federal income tax consequences of the merger. This discussion does not address tax consequences that may vary with, or are contingent on, individual circumstances. In addition, it does not address any non-income tax or any foreign, state or local tax consequences of the merger. **Accordingly, a holder should consult his or her tax advisor to determine the particular U.S. federal, state or local or foreign income or other tax consequences to that stockholder of the merger.**

Accounting Treatment

The merger will be accounted for as an acquisition of a business. ExxonMobil will record net tangible and identifiable intangible assets acquired and liabilities assumed from XTO Energy at their respective fair values at the date of the completion of the merger. Any excess of the purchase price, which will equal the market value, at the date of the completion of the merger, of the ExxonMobil common stock issued as consideration for the merger, over the net fair value of such assets and liabilities will be recorded as goodwill.

The financial condition and results of operations of ExxonMobil after completion of the merger will reflect XTO Energy's balances and results after completion of the transaction but will not be restated retroactively to reflect the historical financial condition or results of operations of XTO Energy. The earnings of ExxonMobil following the completion of the merger will reflect acquisition accounting adjustments, including the effect of changes in the carrying value for assets and liabilities on depreciation and amortization expense. Intangible assets with indefinite useful lives and goodwill will not be amortized but will be tested for impairment at least annually, and all assets including goodwill will be tested for impairment when certain indicators are present. If in the future, ExxonMobil determines that tangible or intangible assets (including goodwill) are impaired, ExxonMobil would record an impairment charge at that time.

Listing of ExxonMobil Stock and Delisting and Deregistration of XTO Energy Stock

Application will be made to have the shares of ExxonMobil common stock to be issued in the merger approved for listing on the New York Stock Exchange, where ExxonMobil common stock is currently traded. If the merger is completed, XTO Energy common stock will no longer be listed on the New York Stock Exchange and will be deregistered under the Exchange Act.

Litigation Relating to the Merger

Beginning on December 14, 2009, several putative stockholder class action complaints were filed against various combinations of XTO Energy, ExxonMobil, Merger Sub and the individual members of the XTO Energy board of directors challenging the proposed merger in the Texas state district court in Tarrant County, the Court of Chancery of the State of Delaware and the United States District Court for the Northern District of Texas.

Texas State Court

Beginning on December 14, 2009, 11 putative stockholder class action petitions were filed against various combinations of XTO Energy, ExxonMobil, Merger Sub and the individual members of the XTO Energy board of directors in the District Court of Tarrant County, Texas challenging the proposed merger and seeking declaratory, injunctive, rescissory and other equitable relief. The petitions generally allege, among other things, that the members of the XTO Energy board of directors have breached their fiduciary duties owed to the public stockholders of XTO Energy by approving the proposed merger and failing to take steps to maximize the value of XTO Energy to its public stockholders and by engaging in self-dealing, and that XTO Energy, ExxonMobil and Merger Sub colluded in or aided and abetted such breaches of fiduciary duties. In addition, the petitions allege that the merger agreement improperly favors ExxonMobil and unduly restricts XTO Energy's ability to negotiate with rival bidders. In one of the actions, the plaintiff also purports to bring a derivative action on behalf

Table of Contents

of XTO Energy against the individual members of the XTO Energy board of directors. The petitions generally seek, among other things, declaratory and injunctive relief concerning the alleged fiduciary breaches, injunctive relief prohibiting the defendants from consummating the merger, imposition of constructive trusts in favor of plaintiffs and putative class members and unspecified monetary damages.

Beginning on December 16, 2009, various plaintiffs in these lawsuits filed competing motions to consolidate the suits, to appoint their counsel as interim class counsel and to compel expedited discovery. Other plaintiffs also sought regular document discovery and oral depositions from defendants and their advisors. Certain defendants filed motions to quash the discovery requests and for protective orders and an opposition to the motion to compel expedited discovery.

On January 7, 2010, Judge Bob McGrath held an initial status conference and, among other things, ordered a hearing for January 12, 2010 to discuss potential consolidation and other case management issues. On January 12, 2010, Judge McGrath held a hearing on plaintiffs' competing motions to consolidate and for appointment of interim class counsel. Following the hearing, Judge McGrath entered orders consolidating the complaints filed as of that date under the caption *In re XTO Energy Shareholder Class Action Litigation*, which is referred to in this proxy statement/prospectus as the consolidated Texas state action, and designating plaintiffs' interim co-lead counsel. Judge McGrath did not take up any of the discovery issues at the January 12, 2010 hearing.

On January 19, 2010, interim class counsel in the consolidated Texas state action filed a second amended original petition that adds allegations concerning certain payments to be received by certain XTO Energy officers in connection with the merger; the remaining allegations are similar to those asserted in the previously filed complaints. The second amended original petition also purports to bring a derivative action on behalf of XTO Energy against the individual members of the XTO Energy board of directors.

Delaware Chancery Court

Beginning on December 17, 2009, two putative stockholder class action complaints were filed against XTO Energy, ExxonMobil, Merger Sub and the individual members of the XTO Energy board of directors in the Court of Chancery of the State of Delaware challenging the proposed merger and seeking monetary damages, as well as declaratory, injunctive and other equitable relief. The complaints generally allege, among other things, that the members of the XTO Energy board of directors have breached their fiduciary duties owed to the public stockholders of XTO Energy by approving the proposed merger and failing to take steps to maximize the value of XTO Energy to its public stockholders, and that XTO Energy, ExxonMobil and Merger Sub aided and abetted such breaches of fiduciary duties. In addition, the complaints allege that the merger agreement improperly favors ExxonMobil and unduly restricts XTO Energy's ability to negotiate with rival bidders. The complaints generally seek, among other things, compensatory damages and injunctive relief prohibiting the defendants from consummating the merger.

On December 22, 2009, the Court of Chancery entered an order consolidating the complaints filed as of that date under the caption *In re XTO Energy Inc. Shareholders Litigation*, which is referred to in this proxy statement/prospectus as the consolidated Delaware action, and designating plaintiffs' co-lead counsel and plaintiffs' liaison counsel. On December 28, 2009, plaintiffs served a first request for the production of documents in the consolidated Delaware action. On December 29, 2009, XTO Energy and the individual members of the XTO Energy board of directors filed an answer and moved for judgment on the pleadings. On January 7, 2010, the Court of Chancery entered a scheduling order establishing a briefing schedule on that motion and staying discovery pending the resolution of that motion. On January 8, 2010, ExxonMobil and Merger Sub filed an answer and moved for judgment on the pleadings.

Table of Contents

Texas Federal District Court

Beginning on December 28, 2009, two putative stockholder class action complaints were filed against XTO Energy, ExxonMobil, Merger Sub and the individual members of the XTO Energy board of directors in the United States District Court for the Northern District of Texas challenging the proposed merger and generally alleging, among other things, that the members of the XTO Energy board of directors have breached their fiduciary duties owed to the public stockholders of XTO Energy by approving the proposed merger and failing to take steps to maximize the value of XTO Energy to its public stockholders, and that XTO Energy, ExxonMobil and Merger Sub aided and abetted such breaches of fiduciary duties. The complaints generally seek, among other things, compensatory damages, declaratory and injunctive relief concerning the alleged fiduciary breaches and injunctive relief prohibiting the defendants from consummating the merger.

On January 4, 2010, a plaintiff in one of these lawsuits filed a motion to expedite discovery proceedings, which was denied on January 8, 2010. On January 16, 2010, a plaintiff in one of these lawsuits filed an amended complaint, which adds a description of the ExxonMobil entities; the remaining allegations are similar to those asserted in the previously filed complaints.

Congressional Subcommittee Hearing

On January 20, 2010, Rex W. Tillerson, Chairman of the Board and Chief Executive Officer of ExxonMobil, and Bob R. Simpson, Chairman of the Board and Founder of XTO Energy, each appeared in Washington, D.C. before the House of Representatives of the United States Congress, Committee on Energy and Commerce, Subcommittee on Energy and Environment, at the request of the chairman of the subcommittee, to testify at a hearing entitled The ExxonMobil-XTO Merger: Impacts on U.S. Energy Markets. The hearing reviewed the proposed merger.

Table of Contents

THE MERGER AGREEMENT

The following is a summary of the material terms and conditions of the merger agreement. This summary may not contain all the information about the merger agreement that is important to you. This summary is qualified in its entirety by reference to the merger agreement attached as Annex A to, and incorporated by reference into, this proxy statement/prospectus. You are encouraged to read the merger agreement in its entirety because it is the legal document that governs the merger.

Explanatory Note Regarding the Merger Agreement and the Summary of the Merger Agreement: Representations, Warranties and Covenants in the Merger Agreement Are Not Intended to Function or Be Relied on as Public Disclosures

The merger agreement and the summary of its terms in this proxy statement/prospectus have been included to provide information about the terms and conditions of the merger agreement. The terms and information in the merger agreement are not intended to provide any other public disclosure of factual information about ExxonMobil, XTO Energy or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the merger agreement are made by ExxonMobil, XTO Energy and Merger Sub only for the purposes of the merger agreement and were qualified and subject to certain limitations and exceptions agreed to by ExxonMobil, XTO Energy and Merger Sub in connection with negotiating the terms of the merger agreement. In particular, in your review of the representations and warranties contained in the merger agreement and described in this summary, it is important to bear in mind that the representations and warranties were made solely for the benefit of the parties to the merger agreement and were negotiated for the purpose of allocating contractual risk among the parties to the merger agreement rather than to establish matters as facts. The representations and warranties may also be subject to a contractual standard of materiality or material adverse effect different from those generally applicable to shareholders and reports and documents filed with the SEC and in some cases may be qualified by disclosures made by one party to the other, which are not necessarily reflected in the merger agreement. Moreover, information concerning the subject matter of the representations and warranties, which do not purport to be accurate as of the date of this proxy statement/prospectus, may have changed since the date of the merger agreement, and subsequent developments or new information qualifying a representation or warranty may have been included in or incorporated by reference into this proxy statement/prospectus.

For the foregoing reasons, the representations, warranties and covenants or any descriptions of those provisions should not be read alone or relied upon as characterizations of the actual state of facts or condition of ExxonMobil, XTO Energy or any of their respective subsidiaries or affiliates. Instead, such provisions or descriptions should be read only in conjunction with the other information provided elsewhere in this document or incorporated by reference into this proxy statement/prospectus.

Structure of the Merger

The merger agreement provides for a transaction in which Merger Sub will merge with and into XTO Energy. XTO Energy will be the surviving corporation in the merger and will, following completion of the merger, be a wholly owned subsidiary of ExxonMobil. After completion of the merger, the certificate of incorporation and bylaws of Merger Sub in effect as of the effective time of the merger will be the certificate of incorporation and bylaws, respectively, of the surviving corporation, in each case until amended in accordance with applicable law. After completion of the merger, the directors of Merger Sub and the officers of XTO Energy will be the directors and officers of the surviving corporation until their successors are duly elected or appointed and qualified in accordance with Merger Sub's bylaws and applicable law.

Closing and Effective Time of the Merger

The merger will become effective at such time as the certificate of merger is duly filed with the Delaware Secretary of State (or at such later time as agreed to by XTO Energy and ExxonMobil and specified in the certificate of merger). Unless another date and time are agreed by ExxonMobil and XTO Energy, the closing will

Table of Contents

occur as soon as possible, but no later than two business days following satisfaction or, to the extent permitted under applicable law, waiver, of the conditions to completion of the merger (other than those conditions that by their nature are to be satisfied at the closing, but subject to the satisfaction or waiver of such conditions at the time of closing) described under **Conditions to the Completion of the Merger** beginning on page [] of this proxy statement/prospectus.

As of the date of this proxy statement/prospectus, the merger is expected to be completed in the second quarter of 2010. However, completion of the merger is subject to the satisfaction (or waiver, to the extent permissible) of conditions to the merger, which are summarized below. There can be no assurances as to when, or if, the merger will occur. If the merger is not completed on or before September 15, 2010 (which date may be automatically extended under certain circumstances to December 31, 2010), either ExxonMobil or XTO Energy may terminate the merger agreement, unless the failure to complete the merger by that date is due to a breach of the merger agreement by the party seeking to terminate the merger agreement. See **Conditions to the Completion of the Merger** and **Termination of the Merger Agreement** beginning on pages [] and [], respectively, of this proxy statement/prospectus.

Merger Consideration

At the effective time of the merger, each share of XTO Energy common stock outstanding immediately prior to the effective time not held by XTO Energy as treasury stock or by ExxonMobil will be converted into the right to receive 0.7098 of a share of ExxonMobil common stock and the cash payable in lieu of any fractional shares as described under **Fractional Shares** beginning on page [] of this proxy statement/prospectus. Each share of XTO Energy common stock held by XTO Energy as treasury stock or by ExxonMobil immediately prior to the effective time of the merger will be canceled, and no payment will be made with respect thereto.

If, between the date of the merger agreement and the effective time, the outstanding shares of capital stock of XTO Energy or ExxonMobil are changed into a different number of shares or a different class by reason of any reclassification, recapitalization, stock split or combination, exchange or readjustment of shares, or any stock dividend thereon with a record date during such period, or any other similar event (excluding any change resulting from exercise of warrants, options or other equity awards to purchase shares of ExxonMobil or XTO Energy common stock or the grant of stock-based compensation to directors or employees of ExxonMobil or (other than any such grants not made in accordance with the terms of the merger agreement) XTO Energy under ExxonMobil or XTO Energy's stock option or compensation plans or arrangements), appropriate adjustments will be made to the merger consideration and any other amounts payable pursuant to the merger agreement.

Fractional Shares

No fractional shares of ExxonMobil common stock will be issued to any holder of XTO Energy common stock upon completion of the merger. All fractional shares of ExxonMobil common stock that a holder of XTO Energy common stock would otherwise be entitled to receive as a result of the merger will be aggregated and if a fractional share results from that aggregation, the holder will receive cash in an amount equal to that fraction multiplied by the closing price of ExxonMobil common stock on the New York Stock Exchange on the trading day immediately preceding the effective time of the merger. No interest will be paid or accrued on cash payable in lieu of fractional shares of ExxonMobil common stock.

Procedures for Surrendering XTO Energy Stock Certificates

The conversion of XTO Energy common stock into the right to receive the merger consideration will occur automatically at the effective time of the merger. Prior to completion of the merger, ExxonMobil will appoint an exchange agent reasonably acceptable to XTO Energy to handle the exchange of XTO Energy stock certificates in the merger for ExxonMobil common stock and the payment of cash for fractional shares of ExxonMobil common stock. At or prior to the effective time of the merger, ExxonMobil will deposit or make available the

Table of Contents

merger consideration payable in respect of XTO Energy common stock. Within ten days following the effective time of the merger, the exchange agent will send a letter of transmittal to each person who is a record holder of XTO Energy common stock at the effective time of the merger for use in the exchange and instructions explaining how to surrender XTO Energy stock certificates to the exchange agent.

XTO Energy stockholders who surrender their stock certificates, together with a properly completed letter of transmittal, will receive shares of ExxonMobil common stock into which the shares of XTO Energy common stock were converted in the merger. Such shares of ExxonMobil common stock will be delivered to XTO Energy stockholders in book-entry form through the Direct Registration System maintained by ExxonMobil's transfer agent, unless an XTO Energy stockholder specifically requests a physical certificate. After the effective date of the merger, each certificate that previously represented shares of XTO Energy common stock will only represent the right to receive the shares of ExxonMobil common stock (and cash in lieu of fractions thereof) into which those shares of XTO Energy common stock have been converted.

Neither ExxonMobil nor XTO Energy will be responsible for transfer or other similar taxes and fees incurred by holders of XTO Energy common stock in connection with the merger and thus such taxes and fees, if any, will be the sole responsibility of such holder. In addition, if there is a transfer of ownership of XTO Energy common stock that is not registered in XTO Energy's transfer agent's records, payment of the merger consideration as described above will be made to a person other than the person in whose name the certificate so surrendered is registered only if the certificate is properly endorsed or otherwise is in proper form for transfer; and the person requesting the exchange must satisfy the exchange agent that any such transfer or other taxes required by reason of the payment of the merger consideration to such other person have been paid or that no payment of such taxes is necessary.

After the completion of the merger, ExxonMobil will not pay dividends with a record date after the effective time of the merger to any holder of any XTO Energy stock certificates until the holder surrenders the XTO Energy stock certificates. However, once those certificates are surrendered, ExxonMobil will pay to the holder, without interest, any dividends that have been declared after the effective date of the merger on the shares into which those XTO Energy shares have been converted.

Treatment of XTO Energy Equity Awards

XTO Energy Stock Options

Upon completion of the merger, each option to purchase shares of XTO Energy common stock granted under XTO Energy's equity compensation plans outstanding immediately prior to the completion of the merger will be converted into an option to acquire a number of shares of ExxonMobil common stock (rounded down to the nearest whole share) equal to the product of (a) the number of shares of XTO Energy common stock subject to the XTO Energy option immediately prior to the completion of the merger multiplied by (b) the exchange ratio in the merger. The exercise price per share of ExxonMobil common stock subject to a converted option will be an amount (rounded up to the nearest whole cent) equal to the quotient of (1) the exercise price per share of XTO Energy common stock subject to the XTO Energy option immediately prior to the completion of the merger divided by (2) the exchange ratio in the merger. Options with vesting conditions contingent on the achievement of specified XTO Energy stock targets will be adjusted based on the exchange ratio in the merger (rounded up to the nearest whole cent). Each converted option will remain subject to the same terms and conditions (including vesting terms) as were applicable to the XTO Energy option immediately prior to the completion of the merger, except for those converted options held by Bob R. Simpson, Keith A. Hutton, Vaughn O. Vennerberg, II, Louis G. Baldwin and Timothy L. Petrus. See *Interests of Certain Persons in the Merger* XTO Energy Named Executive Officers *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms and conditions applicable to converted options held by Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus. Employees terminating employment at or within a stated period after the completion of the merger for reasons other than for cause or voluntary resignation without good reason (as defined in the applicable plans and arrangements) will have their option vesting accelerated upon such termination.

Table of Contents***XTO Energy Restricted Stock and Performance Shares***

Upon completion of the merger, each restricted stock award or performance share award (which represents a share of XTO Energy common stock subject to vesting and forfeiture) granted under XTO Energy's equity compensation plans outstanding immediately prior to the completion of the merger will be converted into a restricted stock award or performance share award, as applicable, relating to a number of shares of ExxonMobil common stock based on the exchange ratio in the merger (rounded down to the nearest whole share). Each converted restricted stock award or performance share award will remain subject to the same terms, restrictions and vesting schedules as were applicable to the XTO Energy restricted stock award or performance share award prior to the completion of the merger (with any vesting conditions contingent on the achievement of specified XTO Energy stock targets adjusted based on the exchange ratio in the merger, rounded up to the nearest whole cent), except for those performance share awards granted to Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus prior to November 2009, performance share awards granted to certain employees (including the executive officers, other than Mr. Simpson) in November 2009 and performance share awards granted to Mr. Simpson in January 2010 pursuant to the terms of his existing employment agreement. Performance share awards granted to Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus prior to November 2009 and to Mr. Simpson in January 2010 will become fully vested upon completion of the merger. See *Interests of Certain Persons in the Merger* XTO Energy Named Executive Officers *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms, restrictions and vesting schedules applicable to converted performance share awards held by Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus and *Interests of Certain Persons* Other Executive Officers of XTO Energy *Treatment of Stock Options and Other Equity-Based Awards* beginning on page [] of this proxy statement/prospectus for a discussion of the terms, restrictions and vesting schedules applicable to performance share awards held by other executive officers of XTO Energy. Employees terminating employment at or within a stated period after the completion of the merger for reasons other than for cause or voluntary resignation without good reason (as defined in the applicable plans and arrangements) will have vesting of their restricted stock and performance stock awards accelerated upon such termination.

Treatment of XTO Energy Warrants

In accordance with the terms of the merger agreement, warrants to purchase XTO Energy common stock will be converted into converted warrants to purchase ExxonMobil common stock having the same contractual terms and conditions as were in effect immediately prior to the effective time of the merger. The number of shares of ExxonMobil common stock subject to each converted warrant will equal (rounded down to the nearest whole share) the product of (i) the number of shares of XTO Energy common stock subject to the XTO Energy warrant immediately prior to the effective time of the merger multiplied by (ii) the exchange ratio in the merger. The exercise price per share of ExxonMobil common stock subject to a converted warrant will be an amount (rounded up to the nearest whole cent) equal to the quotient of (i) the exercise price per share of XTO Energy common stock subject to the XTO Energy warrant immediately prior to the effective time of the merger divided by (ii) the exchange ratio in the merger. All warrants to purchase XTO Energy common stock will expire on April 1, 2010 pursuant to their terms.

Listing of ExxonMobil Stock and Delisting and Deregistration of XTO Energy Stock

The merger agreement obligates ExxonMobil to use reasonable best efforts to have the shares of ExxonMobil common stock to be issued in connection with the merger approved for listing on the New York Stock Exchange, subject to official notice of issuance, prior to the effective time of the merger. Approval for listing on the New York Stock Exchange of the shares of ExxonMobil common stock issuable to the XTO Energy stockholders in the merger, subject only to official notice of issuance, is a condition to the obligations of ExxonMobil and XTO Energy to complete the merger. Upon completion of the merger, XTO Energy common stock will be delisted from the New York Stock Exchange and deregistered under the Exchange Act.

Table of Contents

Conditions to the Completion of the Merger

Mutual Closing Conditions. The obligation of each of ExxonMobil, XTO Energy and Merger Sub to complete the merger is subject to the satisfaction (or, to the extent permitted by applicable law, waiver) of a number of conditions, including the following:

adoption of the merger agreement by holders of a majority of the outstanding shares of XTO Energy common stock in accordance with Delaware General Corporation Law;

absence of any applicable law being in effect that prohibits completion of the merger;

expiration or termination of any applicable waiting period (or extensions thereof) relating to the merger under the HSR Act and the expiration of the applicable waiting period relating to the merger under the Dutch Competition Act or receipt of an approval of the Dutch Competition Authority allowing the parties to complete the merger;

all other consents and approvals of (or the making of all other filings or registrations with) any governmental authority required in connection with the execution, delivery and performance of the merger agreement having been made or obtained, except for (i) filings to be made after the effective time of the merger and (ii) any consents, approvals, filings or registrations the failure of which to obtain or make would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on XTO Energy or ExxonMobil;

effectiveness of the registration statement for the ExxonMobil common stock being issued in the merger (of which this proxy statement/prospectus forms a part) and the absence of any stop order suspending such effectiveness or any proceedings for such purpose pending by the SEC;

approval for the listing on the New York Stock Exchange of the shares of ExxonMobil common stock to be issued in the merger, subject to official notice of issuance;

the accuracy in all material respects as of the effective time of the merger (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time) of certain representations and warranties made in the merger agreement by the other party regarding, among other matters, corporate existence, corporate authority relative to the merger agreement and related transactions, including the merger, such party's capital structure, fees payable to financial advisors in connection with the merger, the inapplicability of certain antitakeover laws and, with respect to XTO Energy, the required vote of the XTO Energy stockholders, and with respect to ExxonMobil, that approval of the ExxonMobil shareholders is not required;

the accuracy of all other representations and warranties made in the merger agreement by the other party (disregarding any materiality or material adverse effect qualifications contained in such representations and warranties) as of the effective time of the merger (or, in the case of representations and warranties that by their terms address matters only as of another specified time, as of that time), except for any such inaccuracies that have not had and would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on such party;

performance in all material respects by the other party of the obligations required to be performed by it at or prior to the effective time of the merger;

Edgar Filing: EXXON MOBIL CORP - Form S-4

delivery of opinions of ExxonMobil's counsel, in the case of ExxonMobil, and XTO Energy's counsel, in the case of XTO Energy, that the merger will qualify as a reorganization for U.S. federal income tax purposes; and

the absence of the occurrence and continuation of any event, occurrence, development or state of circumstances or facts from the date of the merger agreement to the effective time of the merger which, individually or in the aggregate, has had a material adverse effect on the other party.

Table of Contents

Additional Closing Conditions for ExxonMobil's and Merger Subsidiaries Benefit. In addition, the obligation of ExxonMobil and Merger Subsidiaries to complete the merger is subject to the satisfaction (or, to the extent permitted by applicable law, waiver) of the following conditions:

absence of any pending action or proceeding by any governmental authority that:

challenges or seeks to make illegal, delay materially or otherwise directly or indirectly prohibit the completion of the merger;

seeks to prohibit ExxonMobil's or Merger Subsidiaries' ability effectively to exercise full rights of ownership of XTO Energy's common stock, including the right to vote any shares of XTO Energy common stock acquired or owned by ExxonMobil or Merger Subsidiaries following the effective time of the merger on all matters properly presented to XTO Energy's stockholders; or

seeks to compel ExxonMobil, XTO Energy or any of their respective subsidiaries to take any action described under Reasonable Best Efforts Covenant beginning on page [] of this proxy statement/prospectus that is not required to be effected pursuant to the terms of the merger agreement; and

absence of any applicable law that is enacted, enforced, promulgated or issued after the date of the merger agreement by any governmental authority, other than the applicable waiting period provisions of the HSR Act and any applicable provisions of any foreign antitrust laws, that would reasonably be likely to result in any of the consequences referred to in the preceding three sub-bullet points.

Representations and Warranties

The merger agreement contains a number of representations and warranties made by both ExxonMobil and XTO Energy that are subject in some cases to exceptions and qualifications (including exceptions that do not result in, and would not reasonably be expected to have, a material adverse effect). See also Definition of Material Adverse Effect beginning on page [] of this proxy statement/prospectus. The representations and warranties in the merger agreement relate to, among other things:

corporate existence, good standing and qualification to conduct business;

due authorization, execution, delivery and validity of the merger agreement;

governmental and third-party consents necessary to complete the merger;

absence of any conflict with organizational documents or any violation of agreements, laws or regulations as a result of the execution, delivery or performance of the merger agreement and completion of the merger;

capital structure;

subsidiaries;

Edgar Filing: EXXON MOBIL CORP - Form S-4

SEC filings, the absence of material misstatements or omissions from such filings and compliance with the Sarbanes-Oxley Act;

financial statements;

disclosure documents to be filed with the SEC in connection with the merger;

absence of certain changes since September 30, 2009 through the date of the merger agreement, including changes that have had or would, individually or in the aggregate, reasonably be expected to have a material adverse effect;

absence of undisclosed material liabilities;

compliance with laws and court orders;

litigation;

tax matters;

Table of Contents

fees payable to financial advisors in connection with the merger; and

no representations other than those contained in the merger agreement.

XTO Energy also makes representations and warranties relating to, among other things, regulatory matters, reserve reports, derivatives, properties, intellectual property, employees and employee benefit matters, labor, environmental matters, material contracts, inapplicability of anti-takeover statutes and the receipt of a fairness opinion from one of its financial advisors.

ExxonMobil also makes representations and warranties relating to, among other things, its lack of ownership of shares of XTO Energy common stock (other than shares held by employee benefit plans of ExxonMobil), actions triggering applicability of anti-takeover statutes and certain ExxonMobil employee benefit plans.

The representations and warranties in the merger agreement do not survive after the effective time of the merger.

See The Merger Agreement Explanatory Note Regarding the Merger Agreement and the Summary of the Merger Agreement: Representations, Warranties and Covenants in the Merger Agreement Are Not Intended to Function or Be Relied on as Public Disclosures on page [] of this proxy statement/prospectus.

Definition of Material Adverse Effect

Many of the representations and warranties in the merger agreement are qualified by material adverse effect. In addition, there are separate standalone conditions to completion of the merger relating to the absence of any event, occurrence, development or state of circumstances or facts from the date of the merger agreement to the effective time of the merger which, individually or in the aggregate, has had a material adverse effect on the other party.

For purposes of the merger agreement, material adverse effect means, with respect to ExxonMobil or XTO Energy, as the case may be, a material adverse effect on the financial condition, business, assets or results of operations of such party and its subsidiaries, taken as a whole, excluding any effect resulting from, arising out of or relating to:

- (a) changes in the financial or securities markets or general economic or political conditions in the United States or elsewhere in the world;
- (b) other than with respect to changes to applicable laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a material adverse effect), changes or conditions generally affecting the oil and gas exploration, development and/or production industry or industries (including changes in oil, gas or other commodity prices);
- (c) other than with respect to changes to applicable laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a material adverse effect), any change in applicable law or the interpretation thereof or generally accepted accounting principles in the United States or the interpretation thereof;
- (d) the negotiation, execution, announcement or consummation of the transactions contemplated by the merger agreement, including any adverse change in customer, distributor, supplier or similar relationships resulting therefrom;
- (e) acts of war, terrorism, earthquakes, hurricanes, tornados or other natural disasters;

- (f) any failure by such party or any of its subsidiaries to meet any internal or published industry analyst

Table of Contents

projections or forecasts or estimates of revenues or earnings for any period (however, the facts and circumstances that may have given rise or contributed to such failure that are not otherwise excluded from the definition of a material adverse effect may be taken into account in determining whether there has been a material adverse effect);

- (g) any change in the price of such party's stock on the New York Stock Exchange (however, the facts and circumstances that may have given rise or contributed to such change (but in no event changes in the trading price of the other party's common stock) that are not otherwise excluded from the definition of a material adverse effect may be taken into account in determining whether there has been a material adverse effect); and

- (h) compliance with the terms of, or the taking of any action required by, the merger agreement; except to the extent such effects in the cases of clauses (a), (b), (c) and (e) above materially and disproportionately effect such party and its subsidiaries relative to other participants in the industry or industries in which such party and its subsidiaries operate (in which event the extent of such material and disproportionate effect may be taken into account in determining whether a material adverse effect has occurred).

Conduct of Business Pending the Merger

Each of ExxonMobil and XTO Energy has undertaken a separate covenant that places restrictions on it and its subsidiaries until either the effective time of the merger or the termination of the merger agreement pursuant to its terms.

In general, except as expressly contemplated or permitted by the merger agreement, required by applicable law or with ExxonMobil's written approval (which will not be unreasonably withheld, conditioned or delayed), XTO Energy and its subsidiaries are required to conduct their business in the ordinary course consistent with past practice and, to the extent consistent therewith, to use their commercially reasonable efforts to preserve intact their present business organizations, to maintain in effect all of their material licenses, permits, consents, franchises, approvals and authorizations, to keep available the services of their directors, officers and key employees, to maintain material leases and personal property and to maintain existing relationships with material customers, lenders, suppliers and others having material business relationships with XTO Energy and its subsidiaries and with governmental authorities with jurisdiction over oil and gas-related matters. Without limiting the generality of the foregoing, XTO Energy has also agreed to certain restrictions on XTO Energy's and its subsidiaries' activities that are subject to exceptions described in the merger agreement, including restrictions on, among other things:

amending its organizational documents;

splitting, combining or reclassifying its capital stock, declaring, setting aside or paying any dividend or repurchasing any shares of XTO Energy capital stock (subject to certain exceptions, including the declaration of regular quarterly cash dividends with customary record and payment dates not in excess of \$0.125 per share per quarter);

subject to certain exceptions, including the issuance of XTO Energy shares of its common stock upon the exercise of options or warrants outstanding on the date of the merger agreement, and issuances of shares of an XTO Energy subsidiary's capital stock to XTO Energy or another subsidiary, issuing or selling any shares of its capital stock;

incurring capital expenditures, except for those previously disclosed to ExxonMobil or not in excess of \$300 million in the aggregate;

acquiring assets, securities, properties, interests or businesses, subject to certain exceptions, including acquisitions that do not exceed \$150 million in the aggregate;

Edgar Filing: EXXON MOBIL CORP - Form S-4

selling, leasing, transferring or creating a lien on XTO Energy's assets, securities, properties, interests or businesses, subject to certain exceptions, including sales pursuant to existing contracts or that do not exceed \$50 million individually or \$300 million in the aggregate;

Table of Contents

making or assuming any derivatives, other than in the ordinary course of XTO Energy's marketing business in accordance with its current policies;

subject to certain exceptions, entering into, amending, modifying or terminating material contracts, or waiving, releasing or assigning material rights thereunder;

entering into new contracts to sell hydrocarbons other than in the ordinary course of business consistent with past practice, and with a term less than six months;

engaging in exploration, development drilling, well completion or other development activities, other than in the ordinary course of business consistent with past practice;

creating or incurring any production burden with a cost-free interest in any given year in excess of 30%;

subject to certain exceptions, entering into any commitment or agreement to license or purchase seismic data;

making loans, advances, capital contributions or investments, other than in the ordinary course of business consistent with past practice and certain other limited exceptions;

incurring indebtedness other than in the ordinary course of business consistent with past practice on terms that allow for prepayment at any time without penalty or under XTO Energy's existing commercial paper programs or revolving credit facilities;

subject to certain exceptions, entering into agreements or arrangements that would reasonably be expected to, after the effective time, materially restrict in any material respect XTO Energy, its subsidiaries, the surviving corporation and ExxonMobil from engaging or competing in any material line of business, in any geographical location or with any person;

other than as required pursuant to the terms of certain XTO Energy compensation or benefit plans and subject to certain other limited exceptions, (i) entering into or amending agreements providing for compensation or benefits to current or former employees or directors, (ii) adopting or amending compensation or benefit plans for current or former employees or directors, (iii) granting new awards or benefits, other than in connection with promotions or job changes in the ordinary course of business consistent with past practice, (iv) increasing employee compensation other than salary and target bonus increases in connection with promotions in the ordinary course of business consistent with past practice and (v) hiring new employees with an annual rate of pay over \$200,000;

subject to certain limited exceptions, changing XTO Energy's methods of accounting;

settling, or offering or proposing to settle, (i) any litigation, arbitration, mediation or other proceeding involving XTO Energy or its subsidiaries or any stockholder litigation or dispute against XTO Energy or any of its officers or directors, in either case, where the amount paid in settlement exceeds \$5 million or (ii) any litigation or dispute relating to the transactions contemplated in the merger agreement, where the amount paid in settlement exceeds \$2 million;

Edgar Filing: EXXON MOBIL CORP - Form S-4

knowingly and intentionally taking any action that would reasonably be expected to make any material representation or warranty of XTO Energy inaccurate in any material respect at, or immediately prior to, the effective time;

entering into any material new line of business;

making or changing any material tax election, changing any annual tax accounting period, adopting or changing any method of tax accounting, filing any material amended tax return or claims for material tax refund, entering into any material closing agreement, surrendering any material tax claim, offset or other reduction in tax liability, or consenting to any extension or waiver of the limitations period applicable to any tax claim or assessment; and

authorizing or entering into any agreement to do any of the foregoing.

Table of Contents

In general, except as expressly contemplated or permitted by the merger agreement, required by applicable law or with XTO Energy's written approval (which will not be unreasonably withheld, conditioned or delayed), ExxonMobil and its subsidiaries are required to conduct their business in the ordinary course consistent with past practice and to use their commercially reasonable efforts to preserve intact their business organizations and relationships with material third parties. Without limiting the generality of the foregoing, ExxonMobil has also agreed to certain restrictions on ExxonMobil's and its subsidiaries' activities that are subject to exceptions described in the merger agreement, including restrictions on, among other things:

amending ExxonMobil's articles of incorporation or bylaws in a manner that would have a material and adverse impact on the value of ExxonMobil common stock;

paying extraordinary dividends in respect of ExxonMobil capital stock, or redeeming or repurchasing ExxonMobil capital stock, in a manner inconsistent with past practice;

acquiring (or agreeing to acquire) assets utilized in production or transportation of natural gas or more than 50% of the voting interests of any entity that is a going concern if, individually or in the aggregate, such acquisition or acquisitions would reasonably be expected to prevent, materially impede, interfere with or delay the consummation of the merger and the other transactions contemplated by the merger agreement;

knowingly and intentionally taking any action that would reasonably be expected to make any material representation or warranty of ExxonMobil inaccurate in any material respect at, or immediately prior to, the effective time; and

authorizing or entering into any agreement to do any of the foregoing.

Obligation of the XTO Energy Board of Directors to Recommend the Merger Agreement and Call a Stockholders Meeting

XTO Energy's board of directors has agreed to call a meeting of its stockholders for the purpose of obtaining the requisite vote of XTO Energy stockholders necessary to adopt the merger agreement. As discussed under "The Merger - XTO Energy Reasons for the Merger; Recommendation of the XTO Energy Board of Directors" beginning on page [] of this proxy statement/prospectus, XTO Energy's board of directors has recommended that XTO Energy stockholders vote **FOR** the adoption of the merger agreement. XTO Energy's board of directors, however, can withdraw, modify or qualify its recommendation in a manner adverse to ExxonMobil or recommend an Acquisition Proposal (as defined below) under certain specified circumstances as discussed under "No Solicitation by XTO Energy" beginning on page [] of this proxy statement/prospectus. If XTO Energy's board of directors so withdraws, modifies or qualifies its recommendation, the merger agreement must nonetheless be submitted to XTO Energy's stockholders for adoption.

No Solicitation by XTO Energy

Subject to the exceptions described below, XTO Energy has agreed that neither XTO Energy nor any of its subsidiaries will, nor will XTO Energy or any of its subsidiaries authorize or permit any of its or their officers, directors, employees, investment bankers, attorneys, accountants, consultants or other agents or advisors to, directly or indirectly, (i) solicit, initiate or otherwise knowingly facilitate or encourage the submission of any Acquisition Proposal, (ii) enter into or participate in any discussions or negotiations with, furnish any nonpublic information relating to XTO Energy or any of its subsidiaries or afford access to the business, properties, assets, books or records of XTO Energy or any of its subsidiaries to, otherwise cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that is seeking to make, or has made, an Acquisition Proposal, (iii) fail to make, withdraw or modify in a manner adverse to ExxonMobil, its recommendation to XTO Energy stockholders to vote in favor of adoption of the merger agreement or recommend an Acquisition Proposal, which is referred to in this proxy statement/prospectus as an adverse recommendation change, (iv) grant any waiver or release under any standstill or similar agreement with respect to any class of equity securities of XTO Energy or any of its subsidiaries, (v) approve any transaction under, or

Table of Contents

any third party becoming an interested stockholder under, Section 203 of the Delaware General Corporation Law or (vi) enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement or other similar instrument relating to an Acquisition Proposal (other than a confidentiality agreement to the extent permitted as described below). However, so long as XTO Energy and its representatives have complied with the foregoing, XTO Energy and its representatives may contact in writing any third party who has made an unsolicited Acquisition Proposal after the date of the merger agreement solely to request the clarification of the terms and conditions of the proposal so as to determine whether the Acquisition Proposal is, or could reasonably be expected to lead to, a Superior Proposal (as defined below).

However, at any time prior to the adoption of the merger agreement by XTO Energy stockholders:

XTO Energy, directly or indirectly through advisors, agents or other intermediaries, may (i) engage or participate in negotiations or discussions with any third party that has made an unsolicited Superior Proposal or an unsolicited Acquisition Proposal that XTO Energy's board of directors determines in good faith, after consultation with its outside financial and legal advisors, could reasonably be expected to lead to a Superior Proposal by the third party making such Acquisition Proposal, (ii) furnish to such third party and its representatives nonpublic information relating to XTO Energy or any of its subsidiaries and access to the business, properties, assets, books and records of XTO Energy and its subsidiaries pursuant to a customary confidentiality agreement (a copy of which is required to be provided for informational purposes only to ExxonMobil) with such third party with terms no less favorable to XTO Energy than those contained in the confidentiality agreement between XTO Energy and ExxonMobil (except that such confidentiality agreement need not contain a standstill or similar provision that prohibits such third party from making any Acquisition Proposals, acquiring XTO Energy or taking any other action), provided that all such information (to the extent not previously provided or made available to ExxonMobil) is provided or made available to ExxonMobil prior to or substantially concurrently with the time it is provided to such third party, and (iii) take any action required by applicable law and any action that any court of competent jurisdiction orders XTO Energy to take; and

In addition, XTO Energy's board of directors may make an adverse recommendation change (i) following receipt of an Acquisition Proposal made after the date of the merger agreement that XTO Energy's board of directors determines in good faith, after consultation with its outside financial and legal advisors, constitutes a Superior Proposal or (ii) solely in response to an Intervening Event (as defined below).

XTO Energy may only take the actions described in each of the two preceding bullets if XTO Energy's board of directors determines in good faith by a majority vote, after consultation with its outside legal advisors, that failure to take such action would be inconsistent with its fiduciary duties under Delaware law. XTO Energy's board of directors cannot take any of the actions described in the two preceding bullets unless XTO Energy has provided ExxonMobil with prior written notice advising ExxonMobil that it intends to take such action, and after taking such action, XTO Energy continues to advise ExxonMobil on a reasonably current basis of the status and terms of any discussions and negotiations with any third party if such action relates to an Acquisition Proposal.

In addition, XTO Energy's board of directors may not make an adverse recommendation change in response to an Acquisition Proposal as described above, unless (i) XTO Energy promptly notifies ExxonMobil, in writing at least three business days before taking that action, of its intention to do so, attaching the most current version of the proposed agreement under which such Acquisition Proposal is proposed to be consummated and the identity of the third party making the Acquisition Proposal, and (ii) ExxonMobil does not make, within three business days after its receipt of that written notification, an offer that XTO Energy's board of directors determines, in good faith, after consultation with its outside financial and legal advisors, is at least as favorable to XTO Energy's stockholders as such Acquisition Proposal. Any amendment to the financial terms or other material terms of such Acquisition Proposal requires a new written notification from XTO Energy and commences a new three-business-day period under the preceding sentence. XTO Energy's board of directors may not make an adverse recommendation change in response to an Intervening Event as described above, unless

Table of Contents

(i) XTO Energy has provided ExxonMobil with written information describing the Intervening Event in reasonable detail promptly after becoming aware of it, or becoming aware of or understanding the magnitude or material consequences of it, as applicable, and keeps ExxonMobil reasonably informed of material developments with respect to such Intervening Event, (ii) XTO Energy has provided ExxonMobil at least three business days prior written notice advising ExxonMobil of its intention to make an adverse recommendation change with respect to such Intervening Event, attaching a reasonably detailed explanation of the facts underlying the determination by XTO Energy's board of directors that an Intervening Event has occurred and its need to make an adverse recommendation change in light of the Intervening Event and (iii) ExxonMobil does not make, within three business days after its receipt of that written notification, an offer XTO Energy's board of directors determines, in good faith, after consultation with its outside financial and legal advisors, would obviate the need for an adverse recommendation change in light of the Intervening Event. During any three-business-day period prior to its effecting an adverse recommendation change described above, XTO Energy and its representatives must negotiate in good faith with ExxonMobil and its representatives regarding any revisions to the terms of the transactions contemplated by the merger agreement proposed by ExxonMobil.

Acquisition Proposal means, other than the transactions contemplated by the merger agreement, any offer, proposal or inquiry relating to, or any third-party indication of interest in, (i) any acquisition or purchase, direct or indirect, of more than 30% of the consolidated assets of XTO Energy or any of its subsidiaries or more than 30% or more of any class of equity or voting securities of XTO Energy or any of its subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of XTO Energy, (ii) any tender offer (including a self-tender offer) or exchange offer that, if consummated, would result in such third party beneficially owning more than 30% of any class of equity or voting securities of XTO Energy or any of its subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of XTO Energy or (iii) a merger, consolidation, share exchange, business combination, sale of substantially all the assets, reorganization, recapitalization, liquidation, dissolution or other similar transaction involving XTO Energy or any of its subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of XTO Energy.

Intervening Event means any material event, development, circumstance, occurrence or change in circumstances or facts (including any change in probability or magnitude of circumstances) not related to an Acquisition Proposal that was not known to XTO Energy's board of directors on the date of the merger agreement (or if known, the magnitude or material consequences of which were not known to or understood by XTO Energy's board of directors as of that date).

Superior Proposal means a bona fide, unsolicited written Acquisition Proposal for at least a majority of the outstanding shares of XTO Energy common stock or all or substantially all of the consolidated assets of XTO Energy and its subsidiaries which XTO Energy's board of directors determines in good faith by a majority vote, after consultation with a financial advisor of nationally recognized reputation and outside legal counsel, and taking into account all the terms and conditions of the Acquisition Proposal, including the expected timing and likelihood of consummation, any break-up fees, expense reimbursement provisions and conditions to consummation, are more favorable and would reasonably be expected to provide greater value to XTO Energy's stockholders (other than ExxonMobil and any of its affiliates) than as provided under the merger agreement (taking into account any binding proposal by ExxonMobil to amend the terms of the merger agreement pursuant to the merger agreement), which XTO Energy's board of directors determines is reasonably likely to be consummated and for which financing, if a cash transaction (whether in whole or in part), is then fully committed or reasonably determined to be available by XTO Energy's board of directors.

XTO Energy has agreed to terminate any discussions or negotiations with any third parties conducted prior to the date that it entered into the merger agreement with respect to any Acquisition Proposal.

Table of Contents

ExxonMobil's Covenant to Vote

ExxonMobil has agreed to vote all shares of XTO Energy common stock beneficially owned by it or any of its subsidiaries in favor of adoption of the merger agreement at the special meeting.

Reasonable Best Efforts Covenant

ExxonMobil and XTO Energy have agreed to use their reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable under applicable laws and regulations to complete the transactions contemplated by the merger agreement, including preparing and filing as promptly as practicable all necessary governmental or third-party filings, notices and other documents and obtaining and maintaining all required approvals, consents and authorizations necessary, proper or advisable to consummate the merger. However, ExxonMobil is not required (and without ExxonMobil's prior written consent, XTO Energy is not permitted) (i) to enter into any settlement, undertaking, consent decree, stipulation or agreement with any governmental authority in connection with the transactions contemplated by the merger agreement or (i) to divest or otherwise hold separate (including by establishing a trust or otherwise), or take any other action (or otherwise agree to do any of the foregoing) with respect to any of their respective subsidiaries or any of their respective affiliates businesses, assets or properties, except to the extent such action or actions (of the types described in clauses (i) and (ii) above) would not reasonably be expected to, individually or in the aggregate, restrict, in any material respect, or otherwise negatively and materially impact the natural gas (including natural gas liquids) exploration, production and sales businesses of XTO Energy and its subsidiaries, taken as a whole, or the natural gas (including natural gas liquids) exploration, production and sales businesses of ExxonMobil and its subsidiaries, taken as a whole.

Proxy Statement and Registration Statement Covenant

XTO Energy and ExxonMobil have agreed to prepare and file a proxy statement and a registration statement with the SEC in connection with the merger. XTO Energy and ExxonMobil will use their reasonable best efforts to cause the registration statement to become effective under the Securities Act of 1933, as amended, which is referred to in this proxy statement/prospectus as the Securities Act, as soon after such filing as practicable, and to keep the registration statement effective as long as is necessary to consummate the merger. XTO Energy will use its reasonable best efforts to cause the proxy statement to be mailed to its stockholders as promptly as practicable after the registration statement is declared effective, and, except to the extent that the XTO Energy board of directors makes an adverse recommendation change as described under "No Solicitation by XTO Energy" beginning on page [] of this proxy statement/prospectus, such proxy statement will contain the recommendation of XTO Energy's board of directors that XTO Energy stockholders vote in favor of adoption of the merger agreement.

Indemnification and Insurance

The merger agreement provides that, for six years following the effective time of the merger, XTO Energy (as the surviving corporation in the merger) will (and ExxonMobil will cause XTO Energy to) indemnify and hold harmless, and provide advancement of expenses to, each present and former officer and director of XTO Energy and its subsidiaries in respect of (i) acts or omissions occurring at or prior to the effective time, (ii) the fact that such person was a director or officer (or is or was serving at the request of XTO Energy or any of its subsidiaries as a director or officer of another entity prior to the effective time of the merger) and (iii) the merger agreement and the transactions contemplated thereby, in each case, to the fullest extent permitted by Delaware law or any other applicable law or provided under XTO Energy's or its subsidiaries' organizational documents. ExxonMobil has agreed to guarantee XTO Energy's payment and performance obligations with respect to the foregoing.

ExxonMobil has agreed that, for a period of six years after the effective time of the merger, it will cause to be maintained in effect provisions in the surviving corporation's certificate of incorporation and bylaws regarding elimination of liability of directors, indemnification of directors, officers and employees and advancement of expenses with respect to matters existing or occurring at or prior to the effective time that are no

Table of Contents

less advantageous to the intended beneficiaries than the corresponding provisions in existence on the date of the merger agreement in XTO Energy's restated certificate of incorporation and amended and restated bylaws.

ExxonMobil has also agreed to procure, for each person currently covered by XTO Energy's officers' and directors' liability insurance policy, the provision of officers' and directors' liability insurance with respect to matters existing or occurring prior to the effective time of the merger (including with respect to acts or omissions occurring in connection with the merger agreement and the transactions contemplated by the merger agreement) on terms with respect to coverage and in amounts no less favorable than those of XTO Energy's policy in effect on the date of the merger agreement from an insurance carrier with the same or better rating as XTO Energy's current insurance carrier. Such insurance policy will be underwritten by Ancon Insurance Company, Inc., a wholly owned subsidiary of ExxonMobil, which is referred to in this proxy statement/prospectus as Ancon, so long as at the time of underwriting such policy, Ancon has the same or better rating as XTO Energy's current insurance carrier. However, ExxonMobil is not required to expend annually in excess of 300% of the annual premiums paid by XTO Energy and its subsidiaries on the date of the merger agreement for such coverage; and, to the extent that the annual premiums of such coverage exceed that amount, ExxonMobil is required to obtain coverage that is then available for 300% of such annual premium.

In lieu of ExxonMobil providing the insurance coverage described in the preceding paragraph, prior to the effective time of the merger, XTO Energy may obtain a fully prepaid tail insurance policy with a claims period of six years after the effective time of the merger from Ancon (or if Ancon does not have, at the time of underwriting such policy, the same or better rating as XTO Energy's current insurance carrier, any other insurance carrier with the same or better rating as XTO Energy's current insurance carrier) in respect of matters existing or occurring prior to the effective time of the merger (including with respect to acts or omissions occurring in connection with the merger agreement and the transactions contemplated by the merger agreement) covering each person currently covered by XTO Energy's officers' and directors' liability insurance policy, on terms with respect to coverage and in amounts no less favorable than those of such policy in effect on the date of the merger agreement. However, if the aggregate annual premiums for such tail policy exceeds 300% of the annual premiums paid by XTO Energy and its subsidiaries on the date of the merger agreement for such coverage, then XTO Energy may only procure the maximum amount of coverage that is then available for 300% of such annual premium.

Employee Matters

Compensation. For one year following the effective time of the merger, ExxonMobil will provide to employees of XTO Energy or any of its subsidiaries as of the effective time of the merger who continue employment with XTO Energy (as the surviving corporation in the merger) or any of its affiliates, who are referred to in this proxy statement/prospectus as continuing employees:

base salaries that are not less than the salaries provided to such employees by XTO Energy and its subsidiaries, as in effect on December 1, 2009;

except with respect to certain more senior level continuing employees, annual or semi-annual, as applicable, cash bonuses that are not less than the annual or semi-annual, as applicable, cash bonuses provided to such employees by XTO Energy and its subsidiaries on December 1, 2009; and

benefits (other than equity-based compensation and certain other excepted benefits) that (i) to the extent provided under any employee benefit plan maintained by XTO Energy, are substantially comparable in the aggregate to the benefits provided by XTO Energy and its subsidiaries under that plan immediately prior to the effective time of the merger and (ii) to the extent provided under any employee benefit plan maintained by ExxonMobil, are substantially comparable in the aggregate to the benefits provided to similarly-situated ExxonMobil employees under that plan. ExxonMobil is not required to ensure that the aggregate level of benefits for continuing employees across all benefit plans maintained by XTO Energy or ExxonMobil after the effective time of the merger be substantially comparable to the benefits provided prior to the effective time of the merger under benefit plans maintained by XTO Energy.

Table of Contents

Employee Benefit Plans. With respect to each employee benefit plan maintained by ExxonMobil or any of its subsidiaries in which a continuing employee will become a participant, the continuing employee will receive full credit for service with XTO Energy or any of its subsidiaries for purposes of eligibility to participate and vesting, to the same extent that such service was recognized as of the effective time of the merger under a comparable plan of XTO Energy and its subsidiaries in which the continuing employee participated (but not for purposes of benefit accrual under any defined benefit pension plans, special or early retirement programs, window separation programs or similar plans which may be in effect from time to time).

With respect to any welfare plan maintained by ExxonMobil or any of its subsidiaries in which any continuing employee is eligible to participate after the effective time of the merger, ExxonMobil will, or will cause its subsidiaries to, waive all pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods applicable to such employees, except to the extent such pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods would not have been satisfied or waived under the comparable plan of XTO Energy and its subsidiaries in which the continuing employee participated. If a continuing employee commences participation in any health benefit plan of ExxonMobil or any of its subsidiaries after the commencement of a calendar year, to the extent commercially practicable, ExxonMobil will cause such plan to recognize the dollar amount of all co-payments, deductibles and similar expenses incurred by such continuing employee during such calendar year for purposes of satisfying such calendar year's deductible and co-payment limitations under the relevant welfare benefit plans in which such continuing employee commences participation.

ExxonMobil has agreed to, and to cause the surviving corporation in the merger to, (i) enter into and perform under the consulting agreements with certain senior executive officers of XTO Energy described under *Interests of Certain Persons in the Merger* *XTO Energy Named Executive Officers Consulting Agreements and Amendments to Share Grant Agreements* beginning on page [] of this proxy statement/prospectus and (ii) continue, in accordance with their respective terms, the Fourth Amended and Restated XTO Energy Inc. Management Group Employee Severance Protection Plan (which will become effective on the day prior to completion of the merger, as described under *Interests of Certain Persons in the Merger* *Other Executive Officers of XTO Energy Management Severance Plan* beginning on page [] of this proxy statement/prospectus) and the Fourth Amended and Restated XTO Energy, Inc. Employee Severance Protection Plan (which will become effective on the day prior to completion of the merger).

Under the terms of the merger agreement, none of the matters described under this heading *Employee Matters* section will (i) be treated as an amendment of, or undertaking to amend, any benefit plan, (ii) prohibit ExxonMobil or any of its subsidiaries from amending any employee benefit plan or (iii) confer any rights or benefits on any person other than the parties to the merger agreement.

Continuation of XTO Energy's Existence

For a period of two years following the effective time of the merger, ExxonMobil has agreed to (i) maintain (or cause to be maintained) the surviving corporation in the merger as a wholly owned subsidiary of ExxonMobil with the name *XTO Energy Inc.* (and ExxonMobil must continue the commercial use of that name) and (ii) maintain and continue (or cause to be maintained and continued) the operations of XTO Energy's current facilities in Fort Worth, Texas. Furthermore, so long as XTO Energy employees who as of the effective time of the merger work from or are based at such Fort Worth, Texas locations remain employed by ExxonMobil or any of its subsidiaries, ExxonMobil has agreed to retain such employees at their current location for a one-year period following the effective time of the merger.

Termination of the Merger Agreement

The merger agreement may be terminated at any time before the effective time of the merger, whether before or after XTO Energy stockholders have adopted the merger agreement, in any of the following ways:

by mutual written consent of ExxonMobil and XTO Energy;

Table of Contents

by either ExxonMobil or XTO Energy if:

the merger has not been consummated on or before September 15, 2010, provided that if certain conditions to the merger related to regulatory matters have not been satisfied and all other conditions to closing have been satisfied or (to the extent permitted by applicable law) waived, then the date will be automatically extended to December 31, 2010, which date (as it may be extended) is referred to in this proxy statement/prospectus as the end date. The right to terminate the merger agreement under this provision is not available to any party whose breach of the merger agreement results in the failure of the merger to occur on or before the end date;

any applicable law, order, injunction, judgment, decree, ruling or other similar requirement is in effect that makes completion of the merger illegal or otherwise prohibited, or permanently enjoins XTO Energy or ExxonMobil from consummating the merger and any such applicable law, including an injunction, has become final and non-appealable. A party seeking to terminate the merger agreement under this provision must have fulfilled its obligations described under Reasonable Best Efforts Covenant beginning on page [] of this proxy statement/prospectus;

XTO Energy stockholders fail to adopt the merger agreement at the XTO Energy stockholders meeting called for that purpose (or at any adjournment or postponement thereof); or

there has been a breach by the other party of any representation or warranty or failure to perform any covenant or agreement that would result in the failure of the other party to satisfy the applicable condition to the closing related to accuracy of representations and warranties or performance of covenants, and such condition is incapable of being satisfied by the end date; or

by ExxonMobil, if (i) XTO Energy's board of directors makes an adverse recommendation change, (ii) XTO Energy's board of directors fails to reaffirm its recommendation to XTO Energy stockholders in favor of adoption of the merger agreement within 10 business days after receipt of any written request to do so from ExxonMobil or (iii) prior to the adoption of the merger agreement by XTO Energy's stockholders, an intentional and material breach (a) by XTO Energy of its obligations described under No Solicitation by XTO Energy beginning on page [] of this proxy statement/prospectus has occurred that is sanctioned or permitted by XTO Energy or (b) by XTO Energy of its obligations to call and hold a special meeting of its stockholders for purposes of adopting the merger agreement.

Except as described below under Termination Fee Payable by XTO Energy, beginning on page [] of this proxy statement/prospectus, if the merger agreement is validly terminated, the merger agreement will become void without any liability on the part of any party unless the termination resulted from the intentional and willful material failure of any party to perform a covenant in the merger agreement. None of the parties to the merger agreement will be relieved or released from any liabilities or damages arising out of intentional and willful breach of any provision of the merger agreement, and the parties acknowledge that such liabilities or damages may include, to the extent proven, the benefit of the bargain lost by a party's shareholders, which will be deemed to be damages of such party in such event.

Termination Fee Payable by XTO Energy

XTO Energy has agreed to pay ExxonMobil a termination fee of \$900 million if:

the merger agreement is terminated by ExxonMobil because (i) XTO Energy's board of directors makes an adverse recommendation change, (ii) XTO Energy's board of directors fails to reaffirm its recommendation to XTO Energy stockholders in favor of adoption of the merger agreement within 10 business days after receipt of any written request to do so from ExxonMobil or (iii) prior to the adoption of the merger agreement by XTO Energy's stockholders, an intentional and material breach (a) by XTO Energy of its obligations described above under No Solicitation by XTO Energy beginning on page [] of this proxy statement/prospectus has occurred that is sanctioned or permitted

Table of Contents

by XTO Energy or (b) by XTO Energy of its obligations to call and hold a special meeting of its stockholders for purposes of adopting the merger agreement has occurred; or

(i) if the merger agreement is terminated by ExxonMobil or XTO Energy because either (a) the merger has not been completed by the end date and the XTO Energy stockholders' meeting for purposes of adopting the merger agreement has not been held on or prior to the fifth business day prior to the termination date (unless the meeting has not been held due to a material breach by ExxonMobil of its obligations under the merger agreement relating to the registration statement on Form S-4 of which this proxy statement/prospectus is a part) or (b) XTO Energy stockholders fail to adopt the merger agreement at the XTO Energy stockholders' meeting called for such purpose, (ii) an Acquisition Proposal has been publicly announced after the date of the merger agreement and prior to the date of such termination and such Acquisition Proposal has not been publicly and unconditionally withdrawn on or prior to (x) the fifth business day prior to such termination in the case of clause (i)(a) above and (y) the fifth business day prior to XTO Energy's stockholders' meeting in the case of clause (i)(b) above, and (iii) within 12 months following the date of such termination, XTO Energy completes, enters into a definitive agreement relating to, or recommends to XTO Energy stockholders, an Acquisition Proposal (provided that for purposes of the foregoing clause (iii), each reference to 30% in the definition of Acquisition Proposal is deemed to be a reference to 50%).

In the event of a termination of the merger agreement under the circumstances giving rise to the payment of the termination fee, ExxonMobil's sole remedy for damages against XTO Energy is payment of the termination fee by XTO Energy as provided above, and XTO Energy will not be required to pay ExxonMobil the termination fee on more than one occasion.

To the extent that the termination fee is not promptly paid by XTO Energy, XTO Energy is also required to pay any costs and expenses incurred by ExxonMobil or Merger Sub in connection with legal enforcement action taken against XTO Energy for such amount, together with interest on the unpaid fee, cost or expense.

Amendments; Waivers

Any provision of the merger agreement may be amended or waived before the effective time of the merger if the amendment or waiver is in writing and signed, in the case of an amendment, by each party to the merger agreement or, in the case of a waiver, by each party against whom the waiver is to be effective, provided that, after adoption of the merger agreement by XTO Energy stockholders, the parties may not amend or waive any provision of the merger agreement if such amendment or waiver would require further approval of XTO Energy stockholders under Delaware law unless such approval has first been obtained.

Expenses

Except as discussed under Termination Fee Payable by XTO Energy beginning on page [] of this proxy statement/prospectus, the merger agreement provides that each of ExxonMobil and XTO Energy will pay its own costs and expenses in connection with the transactions contemplated by the merger agreement.

Table of Contents

INTERESTS OF CERTAIN PERSONS IN THE MERGER

In considering the recommendation of the XTO Energy board of directors with respect to the merger agreement, XTO Energy stockholders should be aware that executive officers of XTO Energy and members of the XTO Energy board of directors may have interests in the merger that may be different from, or in addition to, the interests of XTO Energy stockholders generally. The XTO Energy board of directors was aware of these interests and considered them, among other matters, in evaluating and negotiating the merger agreement and the merger, and in recommending the adoption of the merger agreement to XTO Energy stockholders.

XTO Energy Non-Employee Directors

Treatment of Stock Options and Other Equity-Based Awards. As part of their overall compensation for services on the board of directors, XTO Energy's non-employee directors have received annual equity grants, either in the form of options to purchase XTO Energy common stock or as fully vested shares of XTO Energy common stock subject, in certain instances, to restrictions on sale or transfer, as described below.

The February 2008 and February 2009 equity grants to non-employee directors (which in each year totaled 4,166 shares per non-employee director) were made in the form of fully vested common shares of XTO Energy common stock, subject to a two-year restriction on transfer or sale. The restriction on transfer or sale applicable to the equity grants made in February 2008 will lapse prior to completion of the merger and the restriction on transfer or sale applicable to the equity grants made in February 2009 will lapse, pursuant to the pre-existing terms of the grants, upon completion of the merger, and thus these shares will be subject to the same treatment upon completion of the merger as outstanding shares of XTO Energy common stock generally. As permitted by the merger agreement, an annual grant of up to 4,166 shares per non-employee director is expected to be approved by the Corporate Governance and Nominating Committee and made in February 2010; upon completion of the merger, these shares will also be subject to the same treatment as outstanding shares of XTO Energy common stock generally.

Prior to 2009, non-employee directors also received an annual grant of stock options that vested over a three- to five-year period, subject to acceleration upon the achievement of specified stock price targets. All stock options granted to non-employee directors were vested and exercisable prior to execution of the merger agreement. Upon completion of the merger, each option to purchase XTO Energy common stock held by the non-employee directors that is outstanding immediately prior to completion of the merger will be converted into a fully vested option to purchase ExxonMobil common stock, with the number of shares and the exercise price being adjusted to reflect the exchange ratio, and will remain outstanding for the shorter of the original term or two years following completion of the merger.

XTO Energy Outside Directors Severance Plan. Each XTO Energy non-employee director is a participant in the XTO Energy Inc. Amended and Restated Outside Directors Severance Plan, which is referred to in this proxy statement/prospectus as the director severance plan. The director severance plan provides that, upon certain triggering events, including the completion of the merger, each non-employee director is entitled to receive a lump-sum cash payment equal to three times the sum of the annual cash retainer most recently paid to him and the value (as of the date of the triggering event) of the XTO Energy common stock most recently granted to him. Each non-employee director voluntarily waived his right to receive the cash payment that otherwise would have been made to him upon completion of the merger under the director severance plan and, accordingly, no cash payments will be made to the non-employee directors upon completion of the merger. Absent such waiver, each non-employee director would have become entitled to receive a lump-sum cash payment of approximately \$1,160,000 upon completion of the merger (based on the \$180,000 cash retainer received by each non-employee director in 2009 and assuming a grant of the full 4,166 shares in February 2010 and a \$50.00 per share XTO Energy stock price at the time of the merger). The aggregate amount of such payments to all non-employee directors would have equaled approximately \$6,960,000.

Table of Contents

Directors will be entitled to receive quarterly annual retainer payments on each ordinary retainer date that occurs prior to the completion of the merger.

XTO Energy Named Executive Officers

Treatment of Stock Options and Other Equity-Based Awards. Each of Messrs. Simpson, Hutton, Vennerberg, Baldwin and Petrus, who are collectively referred to in this proxy statement/prospectus as the named executive officers, have received, from time to time, grants of options to purchase XTO Energy common stock and performance shares relating to XTO Energy common stock.

All stock options and performance shares held by the named executive officers (other than performance shares granted to Messrs. Hutton, Vennerberg, Baldwin and Petrus in November 2009, as described below) that are outstanding immediately prior to the completion of the merger, including performance shares granted to Mr. Simpson in January 2010 pursuant to the terms of his existing employment agreement, will become fully vested (and in the case of stock options, fully exercisable) upon completion of the merger. All stock options will be converted into fully vested options to purchase ExxonMobil common stock, with the number of shares and the exercise price being adjusted to reflect the exchange ratio, and will otherwise remain outstanding in accordance with their existing terms. All performance shares outstanding immediately prior to the completion of the merger (other than performance shares granted to Messrs. Hutton, Vennerberg, Baldwin and Petrus in November 2009) will be converted into fully vested shares of ExxonMobil common stock upon completion of the merger, based upon the exchange ratio.

Each performance share granted to Messrs. Hutton, Vennerberg, Baldwin and Petrus in November 2009 that is outstanding immediately prior to the completion of the merger will be assumed by ExxonMobil upon completion of the merger and converted into a time-based vesting restricted share of ExxonMobil common stock, based upon the exchange ratio. These ExxonMobil shares will vest on the earlier of the first anniversary of completion of the merger (subject to the applicable named executive officer's continued service as a consultant) and a qualifying termination of the applicable named executive officer's service as a consultant (as described under XTO Energy Named Executive Officers Consulting Agreements and Amendments to Share Grant Agreements beginning on page [] of this proxy statement/prospectus).

The following table sets forth, for each named executive officer, as of January 22, 2010, (i) the aggregate number of performance shares of XTO Energy common stock that will vest upon completion of the merger and (ii) the aggregate number of shares of XTO Energy common stock subject to outstanding unvested options to purchase shares of XTO Energy common stock that will vest upon completion of the merger (and the weighted average exercise price of those options).

Name	Number of Unvested Performance Shares that Will Vest upon Completion of the Merger	Number of Shares Subject to Outstanding Unvested Stock Options that Will Vest upon Completion of the Merger	Weighted Average Exercise Price per Share (\$)
Bob R. Simpson	215,000	455,269	55.20
Keith A. Hutton	114,000	788,665	49.08
Vaughn O. Vennerberg, II	68,500	557,086	49.10
Louis G. Baldwin	37,000	258,850	50.05
Timothy L. Petrus	35,500	230,540	50.41

Consulting Agreements and Amendments to Share Grant Agreements. Each named executive officer has entered into a consulting agreement with XTO Energy and ExxonMobil, dated December 13, 2009 (collectively referred to in this proxy statement/prospectus as the consulting agreements), which will become effective upon completion of the merger. Upon completion of the merger, each of the existing employment agreements (collectively referred to in this proxy statement/prospectus as the existing employment agreements) between XTO Energy and Messrs. Simpson, Hutton and Vennerberg will terminate (and the provisions contained in the

Table of Contents

existing employment agreements relating to certain triggering events, including the completion of the merger, will be superseded by the consulting agreements) and Messrs. Baldwin and Petrus will no longer be entitled to any benefits in connection with the merger under the Fourth Amended and Restated XTO Energy Inc. Management Group Employee Severance Protection Plan (which will become effective on the day prior to completion of the merger, as described under Other Executive Officers of XTO Energy Management Severance Plan beginning on page [] of this proxy statement/prospectus, and referred to in this proxy statement/prospectus as the management severance plan).

Pursuant to the existing employment agreements or the management severance plan, as applicable, each named executive officer would have been entitled to receive a lump-sum cash payment upon certain triggering events, including the completion of the merger. The lump-sum cash payment would have been made within 45 days after the triggering event, and generally would equal three times (2.5 times for Messrs. Baldwin and Petrus) the sum of (i) his annual base salary, (ii) for the named executive officers other than Mr. Simpson, his annual cash bonus, (iii) for Messrs. Baldwin and Petrus, his annual car allowance and (iv) for Mr. Simpson only, pursuant to an amendment to his existing employment agreement dated September 16, 2009, the value, as of the date of the triggering event, of his annual grant of XTO Energy common stock, which are collectively referred to in this proxy statement/prospectus as the triggering event payments. The amount of the triggering event payment that each named executive officer would have become entitled to receive is approximately as follows: for Mr. Simpson, \$33,300,000 (assuming a \$50.00 per share XTO Energy stock price at the time of the merger, applied to the shares awarded in his January 2010 stock grant); for Mr. Hutton, \$28,200,000; for Mr. Vennerberg, \$16,950,000; for Mr. Baldwin, \$6,360,000; and for Mr. Petrus, \$5,990,000. If completion of the merger had occurred prior to December 1, 2009, the amount of the triggering event payment for Mr. Simpson would also have included an additional \$60 million, representing a multiple of his December 2008 cash bonus payment. Each named executive officer, other than Mr. Simpson, was also entitled to receive a gross-up payment for any excise taxes imposed under Section 280G of the Internal Revenue Code (which are referred to in this proxy statement/prospectus as 280G excise taxes).

As described below, in connection with entering into the consulting agreements, each named executive officer agreed to waive his right to receive his triggering event payment upon completion of the merger, including any tax gross-up payments. In lieu of the triggering event payments, each named executive officer will be entitled to receive the payments provided under the consulting agreements, which (i) subject all (or for Mr. Simpson, a portion) of the payments to the continued performance of consulting services and continued compliance with certain restrictive covenants (relating to confidentiality, non-competition and non-solicitation); (ii) do not provide for any tax gross-up payment; and (iii) subject certain merger-related payments to a contractual limitation equal to 90% of the maximum amount that could be provided to the named executive officer without the imposition of 280G excise taxes, which limitation is referred to in this proxy statement/prospectus as the 90% limit.

The termination of the existing employment arrangements and effectiveness of the consulting agreements is contingent on the completion of the merger. Under the consulting agreements, the named executive officers will retire as employees of XTO Energy upon completion of the merger and continue to serve XTO Energy thereafter as consultants on a full-time basis. The initial term of the consulting agreements will end, unless earlier terminated, on the first anniversary of completion of the merger. The consulting agreements are each renewable for an additional one-year period (which is referred to in this proxy statement/prospectus as the extended term) upon the mutual agreement of the named executive officer and ExxonMobil, in consultation with XTO Energy.

Pursuant to the consulting agreements, each named executive officer will be paid an annual consulting fee (which is referred to in this proxy statement/prospectus as the consulting fee), equal to one-half of his current base salary. Each named executive officer will also be entitled to receive an annual cash amount (which is referred to in this proxy statement/prospectus as the completion bonus) equal to one-half of his current base salary, generally subject to his continued performance of consulting services to the payment date (for reference, the named executive officers' current base salaries are: for Mr. Simpson, \$3,600,000; for Mr. Hutton,

Table of Contents

\$1,400,000; for Mr. Vennerberg, \$900,000; for Mr. Baldwin, \$500,000; and for Mr. Petrus, \$475,000). Also under the consulting agreements, ExxonMobil has agreed to provide each named executive officer with a one-time grant of restricted ExxonMobil common stock or stock units (which is referred to in this proxy statement/prospectus as restricted equity) having a grant-date fair market value equal to 100% of the named executive officer's current base salary. One-half of each named executive officer's restricted equity will vest on the first anniversary of completion of the merger, subject to the named executive officer's performance of consulting services through the initial one-year term and compliance with the applicable confidentiality, non-competition and non-solicitation covenants through the vesting date. The remaining one-half will vest on either the second anniversary of completion of the merger or, if the parties agree to the extended term, on the third anniversary of completion of the merger, subject to the named executive officer's continued compliance with the applicable confidentiality, non-competition and non-solicitation covenants through the vesting date and, if applicable, performance of consulting services through the extended term.

In lieu of the triggering event payments Mr. Simpson otherwise would have received in connection with the merger under his existing employment agreement, Mr. Simpson will be entitled to receive, pursuant to his consulting agreement, (i) a lump-sum cash payment within five days after completion of the merger equal to \$10,800,000 (which equals three times his current base salary) and (ii) subject to the 90% limit, a retention payment of \$24,750,000, payable in equal installments at six and twelve months after completion of the merger, generally subject to Mr. Simpson's continued performance of consulting services and continued compliance with the applicable confidentiality, non-competition and non-solicitation covenants to the payment date.

In lieu of the triggering event payments they otherwise would have received in connection with the merger under an existing employment agreement or the terms of the management severance plan, Messrs. Hutton, Vennerberg and Baldwin will each be entitled to receive a retention payment, payable in equal installments at six and twelve months after completion of the merger, generally subject to the named executive officer's continued performance of consulting services and continued compliance with the applicable confidentiality, non-competition and non-solicitation covenants to the payment date. Subject to the 90% limit, the retention payments will equal the following amounts: for Mr. Hutton, \$10,913,662; for Mr. Vennerberg, \$6,172,817; and for Mr. Baldwin, \$2,591,527. The foregoing dollar amounts reflect the estimated maximum amount that may be received by each named executive officer without exceeding the 90% limit. Given that a retention payment to Mr. Petrus in any amount would exceed his 90% limit, he will not receive a retention payment.

Under pre-existing Amended and Restated Agreements for Grant with XTO Energy, which are referred to in this proxy statement/prospectus as the grant agreements, each of the named executive officers was entitled to certain additional lump-sum cash payments upon the occurrence of certain triggering events, including the completion of the merger, valued by reference to a specified number of shares of XTO Energy common stock. Assuming a \$50.00 per share XTO Energy stock price at the time of the merger, the estimated amount of such lump-sum cash payments would be as follows: for Mr. Simpson, \$41,667,000; for Mr. Hutton, \$34,375,000; for Mr. Vennerberg, \$29,167,000; for Mr. Baldwin, \$8,333,000; and for Mr. Petrus, \$7,813,000. On December 13, 2009, the grant agreements were amended to provide that, immediately prior to completion of the merger, these lump-sum cash payments will instead be made in the form of fully vested shares of XTO Energy's common stock, which are referred to in this proxy statement/prospectus as grant agreement shares. Subject to the 90% limit, the number of grant agreement shares to be issued will be as follows: for Mr. Simpson, 833,333; for Mr. Hutton, 687,500; for Mr. Vennerberg, 583,333; for Mr. Baldwin, 166,667; and for Mr. Petrus, 156,250. The grant agreement shares will be subject to the same treatment upon completion of the merger as outstanding shares of XTO Energy common stock generally.

Each named executive officer has agreed pursuant to the terms of the consulting agreements and the grant agreement amendments that, instead of being entitled to a gross-up payment for any 280G excise taxes that might apply to the named executive officer, the aggregate value of the grant agreement shares and the retention payment (if any) will be subject to reduction, if necessary, so that this aggregate value, when added to the value of other equity awards granted to the named executive officer that are vesting in connection with the merger (as

Table of Contents

described under XTO Energy Named Executive Officers Treatment of Stock Options and Other Equity-Based Awards beginning on page [] of this proxy statement/prospectus) and, for Mr. Simpson, when added to his \$10.8 million lump-sum payment, does not exceed the 90% limit for the named executive officer. Mr. Simpson agreed to the 90% limit even though he was not previously entitled to a gross-up payment for any 280G excise taxes.

Upon termination of a named executive officer's services as a consultant either by XTO Energy without cause or by the named executive officer with good reason (each as defined in the consulting agreements) or upon a named executive officer's death or disability, the named executive officer will be entitled to receive (i) a lump-sum cash payment equal to the sum of the unpaid portion of the consulting fee for the current term, (ii) the completion bonus for the current term, (iii) subject to the 90% limit, the unpaid portion of the retention payment, and (iv) in the case of Messrs. Hutton, Vennerberg, Baldwin and Petrus, accelerated vesting of the performance shares granted in November 2009 (as described under

XTO Energy Named Executive Officers Treatment of Stock Options and Other Equity-Based Awards beginning on page [] of this proxy statement/prospectus).

2009 Annual Incentive Payments. Each of Messrs. Hutton, Vennerberg, Baldwin and Petrus is eligible to receive a cash bonus payment for 2009 pursuant to the terms of the XTO Energy Inc. 2009 Executive Incentive Compensation Plan. Mr. Simpson is not eligible to receive a bonus payment for 2009. In March 2009, the compensation committee of the XTO Energy board of directors determined that these bonuses would be paid in March 2010. On December 21, 2009, as permitted by the merger agreement, the Compensation Committee authorized and directed the payment of these bonuses in December 2009.

The amount of each bonus was as follows: for Mr. Hutton, \$8,000,000; for Mr. Vennerberg, \$4,750,000; for Mr. Baldwin, \$2,000,000; and for Mr. Petrus, \$1,875,000.

Table of Contents

The following table sets forth a comparison of (1) the estimated triggering event payments that would have been made to each named executive officer pursuant to the existing employment agreements, the grant agreements or the management severance plan, as the case may be, together with an estimate of continuing salary, bonus and equity-based compensation that would have been paid or awarded to the named executive officer during the one-year period following the merger had such compensation not been revised by his consulting agreement, and (2) the estimated payments to be made to such named executive officer pursuant to his consulting agreement. Treatment of outstanding XTO Energy equity awards (described under XTO Energy Named Executive Officers Treatment of Stock Options and Other Equity-Based Awards beginning on page [] of this proxy statement/prospectus) is excluded from this table. Amounts payable under the consulting agreements have been estimated without any further reduction that may result from application of the 90% limit. As indicated in the table below, the aggregate reduction in value to be provided to the named executive officers is estimated to be approximately \$114,350,000.

	Existing Employment Agreement, Grant Agreement or Management Severance Plan (\$ in millions)					Consulting Agreement (\$ in millions)				
	Bob. R Simpson	Keith A. Hutton	Vaughn O. Vennerberg, II	Louis G. Baldwin	Timothy L. Petrus	Bob. R Simpson	Keith A. Hutton	Vaughn O. Vennerberg, II	Louis G. Baldwin	Timothy L. Petrus

Reduction in value						\$114.35				

(1)

Edgar Filing: EXXON MOBIL CORP - Form S-4

As discussed above, each executive officer will receive fully vested shares of XTO Energy common stock instead of a lump-sum cash payment equal to the value of such shares. The value of the grant agreement award assumes a \$50.00 per share XTO Energy stock price at the time of the merger.

- (2) The calculations are based on each executive officer's taxable wages for the years 2005 through 2009 and the following assumptions: a \$50.00 XTO Energy per share stock price, completion of the merger in the second quarter of 2010 and an

Table of Contents

individual effective tax rate of 55%, consisting of a 35% income tax rate and a 20% excise tax rate. For purposes of calculating the estimated gross-up payment for 280G excise taxes, the following payments were treated as contingent on a triggering event: the cash payment on a triggering event, as set forth in the table; the cash amount payable pursuant to the grant agreement, as set forth in the table; and the intrinsic value of the acceleration of those existing XTO Energy equity awards that are vesting in connection with the merger.

- (3) Salary based on current annual salary; bonus based on actual 2009 bonus level except that, for Mr. Simpson, whose bonus is based on an assumed value (at \$50.00 per share XTO Energy stock price) of 150,000 XTO Energy shares which would be granted in January 2011; value of XTO Energy equity grant based on number of performance shares granted to the executive in November 2009 (assuming a \$50.00 per share XTO Energy stock price at the date of grant).

Other Executive Officers of XTO Energy

Treatment of Stock Options and Other Equity-Based Awards. Each executive officer of XTO Energy, other than the named executive officers, who are collectively referred to in this proxy statement/prospectus as the other executive officers, has received, from time to time, grants of options to purchase XTO Energy common stock and restricted shares and performance shares relating to XTO Energy common stock. There are two other executive officers.

Each stock option, restricted share and performance share held by the other executive officers that is outstanding immediately prior to the completion of the merger will be converted upon completion of the merger into an option to purchase, or performance share or restricted share relating to, ExxonMobil common stock, such conversion to be based upon the exchange ratio. The number of shares, option exercise price and any price targets applicable with respect to the vesting of stock options or performance shares will be adjusted upon completion of the merger based upon the exchange ratio. Each option, performance share and restricted share (other than performance shares granted to the other executive officers in November 2009, as described below) will otherwise remain outstanding in accordance with its existing terms, including with respect to vesting and date of expiration. Each performance share granted to the other executive officers in November 2009 will be converted into a time-based vesting restricted share of ExxonMobil common stock and will vest on the earlier of the first anniversary of completion of the merger and a qualifying termination of the applicable other executive officer's employment (as described under Other Executive Officers of XTO Energy Management Severance Plan beginning on page [] of this proxy statement/prospectus).

Management Severance Plan. Each of the other executive officers participates in the management severance plan. On December 13, 2009, the management severance plan was amended and restated, to become effective on the day prior to completion of the merger, to provide that lump-sum cash payments that otherwise would have been made within 45, 90 or 180 days after the occurrence of certain triggering events, including the completion of the merger, will instead become payable in equal installments at six and twelve months after completion of the merger, generally subject to continued employment to the payment date. The amount of these lump-sum payments will be equal to two-and-one-half times the sum of the other executive officer's annual base salary, annual cash bonus and annual car allowance.

The management severance plan was also amended to remove the gross-up payment in respect of any 280G excise taxes, and instead to provide that any applicable amounts payable to participants in the management severance plan will be reduced, if necessary, so that the aggregate payments to the participant in connection with the merger will not exceed the maximum amount that could be provided to the participant without the imposition of 280G excise taxes.

The management severance plan was also amended to provide that the lump-sum payment described above will be accelerated, and all XTO Energy equity awards converted into ExxonMobil awards will become vested, if the other executive officer's employment is terminated either by XTO Energy without cause, by the other executive officer for good reason (each as defined in the management severance plan) or upon the other executive officer's death or disability.

The maximum aggregate amount of the cash payments which may become payable to the other executive officers pursuant to the management severance plan is equal to approximately \$3,000,000.

Table of Contents

Indemnification and Insurance

The indemnification and insurance requirements set forth in the merger agreement relating to the named executive officers and other executive officers are described under "The Merger Agreement - Indemnification and Insurance" beginning on page [] of this proxy statement/prospectus.

In addition, each of the consulting agreements provides that XTO Energy and ExxonMobil will indemnify each of the named executive officers to the maximum extent permitted by law in connection with any action or proceeding in which the named executive officer is named as, or threatened to be made, a party because the named executive officer is or was a consultant to XTO Energy, to the same extent that XTO Energy directors and officers are indemnified by XTO Energy under its bylaws from time to time.

Pursuant to indemnification agreements dated November 15, 2005, XTO Energy is obligated to indemnify, subject to certain exceptions, each of its directors, named executive officers and certain other officers to the fullest extent permitted by law against expenses (including attorneys fees), judgments, fines and amounts paid in settlement incurred in connection with any claim or action to which such person is a party by reason of his or her service to or activities on behalf of XTO Energy. The indemnification agreements also require XTO Energy to advance, subject to certain exceptions, expenses to each such director and officer incurred in connection with a covered claim or action. The rights under the indemnification agreements are in addition to any other rights that such directors and officers may have under XTO Energy's certificate of incorporation, bylaws or applicable law. The indemnification agreements were amended in November 2007 to clarify that XTO Energy will only reimburse expenses incurred in connection with a covered claim or action if such director or officer is successful in defending against such claim or action, including by dismissal.

The rights of indemnification under the consulting and indemnification agreements are in addition to the rights of indemnification provided to the named executive officers under the merger agreement.

Relationship with Jefferies

Jack Randall, one of XTO Energy's directors, was a co-founder and director of Randall & Dewey Partners, L.P., which was acquired by Jefferies Group, Inc. in 2005 and now operates as Jefferies & Company, Inc. Jefferies served as one of XTO Energy's financial advisors in connection with the merger. If the merger is completed, XTO Energy has agreed to pay Jefferies a transaction fee of \$24 million. In addition, XTO Energy agreed to reimburse Jefferies for all reasonable and documented out-of-pocket expenses, including legal fees, incurred in connection with the services it provides to XTO Energy in connection with the merger and has agreed to indemnify Jefferies against certain liabilities. Mr. Randall participated in the deliberations of the XTO Energy board of directors regarding the merger, but abstained from voting on the merger to avoid any perception of a potential conflict of interest arising out of his employment with Jefferies. See "The Merger - Background of the Merger" beginning on page [] of this proxy statement/prospectus. The engagement of Jefferies as financial advisor in connection with the merger was approved by the disinterested members of the board of directors, with Mr. Randall recusing himself from the consideration of the matter and the vote.

Table of Contents

DESCRIPTION OF EXXONMOBIL CAPITAL STOCK

The following description of the terms of ExxonMobil's capital stock is a summary only and is qualified by reference to the relevant provisions of New Jersey law and the ExxonMobil restated certificate of incorporation and by-laws. Copies of the ExxonMobil restated certificate of incorporation and by-laws are incorporated by reference and will be sent to holders of shares of XTO Energy common stock free of charge upon written or telephonic request. See "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

Authorized Capital Stock

Under the ExxonMobil restated certificate of incorporation, ExxonMobil's authorized capital stock consists of nine billion (9,000,000,000) shares of common stock, without par value, and two hundred million (200,000,000) shares of preferred stock, without par value.

Description of Common Stock

Common Stock Outstanding. As of January 22, 2010, there were 4,720,350,164 shares of ExxonMobil common stock issued and outstanding. The outstanding shares of ExxonMobil common stock are, and the shares of ExxonMobil common stock issued pursuant to the merger will be, duly authorized, validly issued, fully paid and nonassessable.

Voting Rights. Each holder of ExxonMobil common stock is entitled to one vote for each share of ExxonMobil common stock held of record on the applicable record date on all matters submitted to a vote of shareholders.

Dividend Rights. Holders of ExxonMobil common stock are entitled to receive such dividends as may be declared from time to time by ExxonMobil's board of directors out of funds legally available therefor, subject to any preferential dividend rights granted to the holders of any outstanding ExxonMobil preferred stock.

Rights upon Liquidation. Holders of ExxonMobil common stock are entitled to share pro rata, upon any liquidation, dissolution or winding up of ExxonMobil, in all remaining assets available for distribution to shareholders after payment of or provision for ExxonMobil's liabilities and the liquidation preference of any outstanding ExxonMobil preferred stock.

Preemptive Rights. Holders of ExxonMobil common stock have no preemptive rights to purchase, subscribe for or otherwise acquire any unissued or treasury shares or other securities.

Description of Preferred Stock

Preferred Stock Outstanding. As of the date of this proxy statement/prospectus, no shares of ExxonMobil preferred stock were issued and outstanding.

Blank Check Preferred Stock. Under the ExxonMobil restated certificate of incorporation, the ExxonMobil board of directors has the authority, without shareholder approval, to create one or more classes or series within a class of preferred stock, to issue shares of preferred stock in such class or series up to the maximum number of shares of the relevant class or series of preferred stock authorized, and to determine the preferences, rights, privileges and restrictions of any such class or series, including the dividend rights, voting rights, the rights and terms of redemption, the rights and terms of conversion, liquidation preferences, the number of shares constituting any such class or series and the designation of such class or series. Acting under this authority, the ExxonMobil board of directors could create and issue a class or series of preferred stock with rights, privileges or restrictions, and adopt a shareholder rights plan, having the effect of discriminating against an existing or

Table of Contents

prospective holder of securities as a result of such shareholder beneficially owning or commencing a tender offer for a substantial amount of ExxonMobil common stock. One of the effects of authorized but unissued and unreserved shares of capital stock may be to render more difficult or discourage an attempt by a potential acquirer to obtain control of ExxonMobil by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of ExxonMobil's management. The issuance of such shares of capital stock may have the effect of delaying, deferring or preventing a change in control of ExxonMobil without any further action by the shareholders of ExxonMobil. ExxonMobil has no present intention to adopt a shareholder rights plan, but could do so without shareholder approval at any future time. See "Comparison of Shareholder Rights Certain Similarities in Shareholder Rights Stockholder or Shareholder Rights Plan" beginning on page [] of this proxy statement/prospectus for a description of ExxonMobil's Policy Statement on Poison Pills.

ExxonMobil has designated 16,500,000 shares of ExxonMobil preferred stock as Class A Preferred Stock, none of which are outstanding, and 165,800 shares of ExxonMobil preferred stock as Class B Preferred Stock, none of which are outstanding.

Transfer Agent and Registrar

Computershare Trust Company, N.A. is the transfer agent and registrar for ExxonMobil common stock.

Stock Exchange Listing

It is a condition to the merger that the shares of ExxonMobil common stock issuable in the merger be approved for listing on the New York Stock Exchange, subject to official notice of issuance. If the merger is completed, XTO Energy common stock will cease to be listed on any stock exchange and will be deregistered under the Exchange Act.

Table of Contents

COMPARISON OF SHAREHOLDER RIGHTS

The rights of ExxonMobil shareholders are currently governed by New Jersey law and ExxonMobil’s restated certificate of incorporation and by-laws. The rights of XTO Energy stockholders are currently governed by Delaware law and XTO Energy’s restated certificate of incorporation and amended and restated bylaws. Following completion of the merger, the rights of XTO Energy stockholders who become shareholders of ExxonMobil in the merger will be governed by New Jersey law and the ExxonMobil restated certificate of incorporation and by-laws.

The following discussion summarizes the material differences between the current rights of XTO Energy stockholders and the current rights of ExxonMobil shareholders. These differences arise in part from the differences between New Jersey law and Delaware law. Additional differences arise from the governing instruments of the two companies.

Although it is impracticable to compare all of the aspects in which New Jersey law and Delaware law and ExxonMobil’s and XTO Energy’s governing instruments differ with respect to shareholder rights, the following discussion summarizes certain material differences between them. This summary is not intended to be complete, and it is qualified in its entirety by reference to New Jersey law, Delaware law, ExxonMobil’s restated certificate of incorporation and by-laws and XTO Energy’s restated certificate of incorporation and amended and restated bylaws. In addition, the identification of some of the differences in the rights of these stockholders as material is not intended to indicate that other differences that are equally important do not exist. ExxonMobil and XTO Energy urge you to carefully read this entire proxy statement/prospectus, the relevant provisions of New Jersey law and Delaware law and the other documents to which ExxonMobil and XTO Energy refer in this proxy statement/prospectus for a more complete understanding of the differences between the rights of an ExxonMobil shareholder and the rights of an XTO Energy stockholder. ExxonMobil and XTO Energy have filed with the SEC their respective governing documents referenced in this comparison of shareholder rights and will send copies of these documents to you, without charge, upon your written or telephonic request. See “Where You Can Find More Information” beginning on page [] of this proxy statement/prospectus.

Table of Contents

XTO Energy Stockholder Rights

XTO Energy's restated certificate of incorporation and amended and restated bylaws provide that the XTO Energy board of directors must consist of not less than three nor more than 21 members, as may be fixed from time to time by a resolution adopted by the majority of the entire board of directors or by the affirmative vote of holders of 80% or more of the voting power of the then outstanding shares of XTO Energy capital stock entitled to vote in the election of directors, voting together as a single class.

XTO Energy's board of directors has discretion to elect one or more advisory directors to serve for a term established by the XTO Energy board of directors. Advisory directors attend meetings of the XTO Energy board of directors and meetings of committees to which they are assigned, but are not entitled to vote. Advisory directors are not considered members of the XTO Energy board of directors for notice, quorum, voting or other purposes, and the XTO Energy board of directors can excuse any advisory director from all or any portion of any meeting. There are currently three employees of XTO Energy serving as advisory directors.

ExxonMobil Shareholder Rights

Under the ExxonMobil restated certificate of incorporation and by-laws, the board of directors must consist of not less than 10 nor more than 19 members, as may be fixed from time to time by resolution of the ExxonMobil board of directors.

Classification of Board of Directors

Prior to XTO Energy's 2009 annual meeting of stockholders on May 19, 2009, XTO Energy's board of directors was divided into three classes, in as equal number as possible, with staggered three-year terms. At XTO Energy's 2009 annual meeting of stockholders, XTO Energy's stockholders approved and adopted an amendment to XTO Energy's bylaws to eliminate the classified structure effective in 2011 and provide for the annual election of all directors at that time. XTO Energy's amended and restated bylaws provide that XTO Energy's board of directors will be declassified in stages over a two-year period. XTO Energy's board of directors will cease to be classified, and all directors will be elected annually, commencing with the election of directors at the annual meeting of stockholders to be held in 2011. The XTO

ExxonMobil does not have a classified board of directors. Each ExxonMobil director is elected at each annual meeting of stockholders and holds office until the next annual meeting and until his or her successor has been elected and qualified.

Table of Contents

XTO Energy Stockholder Rights

Energy board of directors is currently divided into two classes, with three directors assigned to a class having a term that expires at the 2010 annual meeting of XTO Energy stockholders, and six directors assigned to a class having a term that expires at the 2011 annual meeting.

ExxonMobil Shareholder Rights

Election of Directors

The XTO Energy amended and restated bylaws provide that, in an uncontested election, each director will be elected by the vote of the majority of votes cast with respect to that director's election, and that, in a contested election (*i.e.*, an election in which the number of nominees exceeds the number of directors to be elected), each director will be elected by a plurality of votes cast. For purposes of the election of directors, a majority of the votes cast means the number of votes for that nominee exceeds the number of votes cast against that nominee (with abstentions and broker non-votes not counted as a vote cast either for or against that director's election). XTO Energy's Corporate Governance Guidelines (which can be found under the tab Corporate Governance of XTO Energy's Internet web site, <http://www.xtoenergy.com>) provide an advance resignation requirement for incumbent directors being nominated for re-election to the XTO Energy board of directors. This requirement provides that an incumbent director may become a nominee for further service on the XTO Energy board of directors only if the incumbent director submits an irrevocable resignation that is contingent upon (i) his or her not receiving a majority of the votes cast in an uncontested election and (ii) the XTO Energy board of director's acceptance of such resignation. The corporate governance and nominating committee will recommend to the XTO Energy board of directors whether to accept or reject the resignation or whether other action should be taken. The XTO Energy board of directors will decide whether to accept or reject the resignation, taking into account the corporate governance and nominating committee's recommendation, and make a public disclosure of its decision,

New Jersey law provides that except as otherwise provided in the corporation's certificate of incorporation or by-laws, directors are elected by a plurality of the votes cast at an election. Because the ExxonMobil's restated certificate of incorporation and by-laws include no additional provisions in this regard, New Jersey law applies without modification. This means that the director nominee with the most votes for a particular seat is elected for that seat. ExxonMobil's corporate governance guidelines (which can be found under the tab investors and then under the tab corporate governance of ExxonMobil's Internet web site, <http://www.exxonmobil.com>) state that in any non-contested election of directors, any director nominee who receives a greater number of votes withheld from his or her election than votes for such election must tender his or her resignation. Within 90 days after certification of the election results, the ExxonMobil board of directors will decide, through a process managed by ExxonMobil's Board Affairs Committee and excluding the nominee in question, whether to accept the resignation. Absent a compelling reason for the director to remain on the ExxonMobil board of directors, the ExxonMobil board of directors will accept the resignation. The ExxonMobil board of directors will promptly disclose its decision and, if applicable, the reasons for rejecting the tendered resignation on a Form 8-K filed with the SEC.

Table of Contents

XTO Energy Stockholder Rights

including the rationale behind its decision if the resignation is rejected, within 90 days following the certification of election results.

ExxonMobil Shareholder Rights

Removal of Directors Where a corporation does not have a classified board of directors, Delaware law provides that unless the corporation's certificate of incorporation provides otherwise, any director or the entire board of directors may be removed, with or without cause, by the holders of a majority of the votes then entitled to vote on the election of directors. Under Delaware law, where there is a classified board of directors, any director may be removed only for cause, unless the corporation's certificate of incorporation provides otherwise. Under the XTO Energy restated certificate of incorporation and amended and restated bylaws, XTO Energy stockholders may remove directors only for cause until the 2011 annual meeting of stockholders. Thereafter, stockholders may remove directors with or without cause by the affirmative vote of a majority of the voting power of the then outstanding shares entitled to vote.

XTO Energy's board of directors may remove an advisory director at any time, with or without cause.

New Jersey law allows shareholders to remove directors for cause or, unless the certificate of incorporation provides otherwise, without cause, in each case by the affirmative vote of the majority of votes cast by the holders of shares entitled to vote. Because the ExxonMobil restated certificate of incorporation includes no additional provisions in this regard, ExxonMobil shareholders may remove directors with or without cause. In addition, the ExxonMobil restated certificate of incorporation allows the removal of a director for cause by a majority of the directors then in office if, in the judgment of such majority, the director's continuation in office would be harmful to the corporation. The ExxonMobil board of directors may suspend a director pending a final determination that cause for removal exists.

Special Meetings of Stockholders or Shareholders

Under Delaware law, a special meeting of stockholders may be called by the board of directors or by any other person authorized to do so in the corporation's certificate of incorporation or bylaws.

XTO Energy's amended and restated bylaws provide that special meetings may be called by (i) the chairman of the board of directors, (ii) the chief executive officer, (iii) the president or (iv) the board of directors or the corporate secretary at the written request of holders of 80% or more of the voting power of the then outstanding shares of XTO Energy capital stock entitled to vote in the election of directors, acting together as a single class.

Under New Jersey law, holders of at least 10% of the shares of a corporation entitled to vote may apply to the New Jersey Superior Court to request that a special meeting of shareholders be called for good cause shown. At such a meeting, the shareholders present in person or by proxy and having voting powers will constitute a quorum for the transaction of business as may be designated in the order of the court.

In addition, ExxonMobil's by-laws provide that special meetings of shareholders may be called by (i) the board of directors, (ii) the chairman of the board of directors or (iii) the president.

<p>Notice of Stockholder or Shareholder Proposals and Nominations of Director Candidates by Stockholders or Shareholders</p>	<p style="text-align: center;">XTO Energy Stockholder Rights</p> <p>Under Delaware law, the notice of the annual meeting is not required to state the purpose or purposes of the annual meeting.</p>	<p style="text-align: center;">ExxonMobil Shareholder Rights</p> <p>New Jersey law requires that the written notice of any annual meeting specify the purpose or purposes of the meeting. Therefore, business conducted at an ExxonMobil annual shareholder meeting is limited to the business specified in the meeting notice.</p>
	<p>The XTO Energy amended and restated bylaws generally permit stockholders to nominate director candidates if the stockholder intending to make such nomination gives timely notice thereof in writing in proper form. To be timely, the XTO Energy amended and restated bylaws require, subject to certain limited exceptions, that written notice of an intention to nominate a director candidate be received by the XTO Energy board of directors, with a copy to the president and the corporate secretary of XTO Energy, not later than 120 days in advance of the scheduled date for the next annual meeting date. To be in proper form, the XTO Energy amended and restated bylaws require that such notice include, among other things, certain disclosures about (i) the director nominee, including all information that would be required to be disclosed in a proxy filing, any agreements, arrangements and understandings between the nominee and the proposing stockholder relating to the proposed nomination or XTO Energy and (ii) the stockholder making such nomination, including all ownership interests (including derivatives) and rights to vote any security of XTO Energy. Such notice must also contain the written consent of the proposed nominee to be named in the proxy statement as a nominee and to serve as a director if elected.</p>	<p>The ExxonMobil restated certificate of incorporation and by-laws do not contain any provisions that govern the submission of director nominations or other proposals by shareholders.</p>
	<p>XTO Energy's amended and restated bylaws allow for business to be properly brought before an annual meeting of XTO Energy by a stockholder (other than proposals with respect to the proposed nomination of director candidates or proposals subject to Rule 14a-8 under the Exchange Act), if the stockholder intending to propose the business gives timely notice thereof in writing in proper form to the corporate secretary of</p>

XTO Energy Stockholder Rights

XTO Energy. To be timely, a stockholder's notice must be received by the corporate secretary of the company, subject to certain limited exceptions, not less than 90 days, or more than 120 days, before the anniversary date of the immediately preceding annual meeting of stockholders. To be in proper form, the XTO Energy amended and restated bylaws require that such notice include, among other things, certain disclosures about (i) the proposal, including all information that would be required to be disclosed in a proxy filing, any agreements, arrangements and understandings between the proposing stockholder and any other persons relating to the proposal or XTO Energy and (ii) the stockholder making such proposal, including all ownership interests (including derivatives), rights to vote any security of XTO Energy and any material interest of the stockholder in such business, as well as the text of any resolutions proposed for consideration.

ExxonMobil Shareholder Rights

Stockholder or Shareholder Action Without a Meeting

Delaware law provides that, except as otherwise stated in the certificate of incorporation, stockholders may act by written consent without a meeting. However, the XTO Energy restated certificate of incorporation provides that XTO Energy stockholders may only take action without a meeting by unanimous written consent.

New Jersey law provides that, except as otherwise stated in the certificate of incorporation, shareholders who would have been entitled to cast the minimum number of votes that would be necessary to authorize a permitted or required action at a meeting at which all shareholders entitled to vote were present and voting may act by written consent without a meeting, except in regard to the annual election of directors, which may be by written consent only if unanimous. The ExxonMobil restated certificate of incorporation does not provide otherwise. New Jersey law also provides that such shareholder action may not take effect unless the corporation gives all non-consenting shareholders advance notice of the action consented to, the proposed effective date of the action, and any conditions precedent to such action. Also, under New Jersey law, if the action gives rise to dissenters rights, the board of directors must fix a date for the tabulation of consents.

Amendments to Certificate of Incorporation	<p>Delaware law generally provides that amendments to the certificate of incorporation must be approved by the board of directors and then adopted by the vote of a majority of the outstanding voting power entitled to vote thereon, unless the certificate of incorporation requires a greater vote. Under XTO Energy's restated certificate of incorporation, amendments to XTO Energy's certificate of incorporation generally may be made in accordance with the default positions of Delaware law. However, the XTO Energy restated certificate of incorporation requires the vote of 80% of the voting power of the shares entitled to vote in the election of directors in order to amend certain provisions of the XTO Energy restated certificate of incorporation, including provisions relating to (i) the number, election or term of directors (other than any increase in the maximum number of directors to more than 21, which may be amended by the vote of the holders of a majority or more of the XTO Energy shares entitled to vote thereon), (ii) stockholder nomination of director candidates, (iii) filling newly created directorships resulting from an increase in the authorized number of directors and any vacancies on the board of directors and (iv) stockholder action by written consent in lieu of a meeting.</p>	<p>New Jersey law provides that a corporation may amend its certificate of incorporation, from time to time, in any and as many respects as may be desired so long as the amendment contains only such provisions as might lawfully be contained in an original certificate of incorporation filed at the time of making such amendment. In accordance with New Jersey law, the ExxonMobil restated certificate of incorporation provides that upon the approval of a proposed amendment to the certificate of incorporation by a majority of the board of directors, shareholders may adopt such amendment by the affirmative vote of a majority of the votes cast by holders of shares entitled to vote.</p>
Amendments to By-laws	<p>Under Delaware law, stockholders of a corporation entitled to vote and, if so provided in the certificate of incorporation, the directors of the corporation, each have the power, separately, to adopt, amend and repeal the bylaws of a corporation. XTO Energy's restated certificate of incorporation provides that the board of directors is expressly authorized to make, alter or repeal XTO Energy's amended and restated bylaws. XTO Energy's amended and restated bylaws may also be adopted, amended and repealed by the stockholders. However, under XTO Energy's certificate of incorporation, the affirmative vote of the holders of 80% or more of the voting power of all of the XTO Energy shares entitled to vote generally in the election of directors,</p>	<p>Under New Jersey law, the initial by-laws of a corporation are adopted by the board of directors at its organization meeting. Thereafter, the board of directors has the power to make, alter and repeal by-laws unless such power is reserved to the shareholders in the certificate of incorporation, but by-laws made by the board of directors may be altered or repealed, and new by-laws made, by the shareholders. The shareholders may prescribe in the by-laws that any by-law made by them may not be altered or repealed by the board of directors. Whenever any amendment to the by-laws, other than as regards the election of directors, is to be taken by vote of the shareholders, it must be authorized by a majority of the votes cast at</p>

voting together as a single class, is required

for stockholders to amend any bylaw provision in a manner that would be inconsistent with the provisions of XTO Energy's restated certificate of incorporation relating to (i) the number, election or term of directors, (ii) stockholder nomination of director candidates, (iii) filling newly created directorships resulting from an increase in the authorized number of directors and any vacancies on the board of directors or (iv) stockholder action by written consent in lieu of a meeting.

ExxonMobil Shareholder Rights

a meeting of shareholders by the holders of shares entitled to vote thereon, unless a greater plurality is required by the certificate of incorporation or New Jersey law. ExxonMobil's by-laws give the board of directors the power to make, alter and repeal the by-laws, but by-laws made by the board may be altered or repealed, and new by-laws made, by the shareholders. ExxonMobil's restated certificate of incorporation does not contain any provision requiring a greater vote of shareholders to amend any of its by-law provisions.

Anti-Takeover Provisions

Delaware law provides that, if a person acquires 15% or more of the stock of a Delaware corporation without the approval of the board of directors of that corporation, thereby becoming an interested stockholder, that person may not engage in certain transactions, including mergers, with the corporation for a period of three years unless one of the following exceptions applies: (i) the board of directors approved the acquisition of stock or the transaction prior to the time that the person became an interested stockholder; (ii) the person became an interested stockholder and 85% owner of the voting stock of the corporation in the transaction, excluding voting stock owned by directors who are also officers and certain employee stock plans; or (iii) the transaction is approved by the board of directors and by the affirmative vote of two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

New Jersey law restricts the ability of certain persons to acquire control of a New Jersey corporation. In general, a corporation organized under the laws of New Jersey with its principal executive offices or significant business operations located in New Jersey (a resident domestic corporation) may not engage in a business combination with an interested shareholder for a period of five years following the interested shareholder's becoming such unless the business combination is approved by the board of directors prior to the stock acquisition date. Covered business combinations include certain mergers, dispositions of assets or shares and recapitalizations. An interested shareholder is generally a shareholder owning at least 10% of the voting power of a corporation's outstanding shares. In addition, after the prohibition during the first five years, a resident domestic corporation may not engage in a business combination with the interested shareholder other than (i) a business combination approved by the affirmative vote of the holders of two-thirds of the voting stock not beneficially owned by such interested shareholder at a meeting for such purpose or (ii) a business combination in which the interested shareholder pays a formula price designed to ensure that all other shareholders receive at least the highest price per share paid by such interested shareholder from the date the entity became an interested shareholder.

Table of Contents

XTO Energy Stockholder Rights

A Delaware corporation may elect not to be governed by this provision of Delaware law. XTO Energy has not elected out of this provision.

Other than for the super-majority voting requirements relating to amendments to certain provisions of XTO Energy's restated certificate of incorporation described above, there is no super-majority voting, fair price or similar provision in the XTO Energy restated certificate of incorporation.

ExxonMobil Shareholder Rights

A resident domestic corporation may not opt out of the foregoing provisions.

There is no super-majority voting, fair price or similar provision in the ExxonMobil restated certificate of incorporation.

Appraisal Rights

Under Delaware law, a stockholder of a Delaware corporation is generally entitled to demand appraisal of the fair value of his or her shares in the event the corporation is a party to a merger or consolidation, subject to specified exceptions.

Under New Jersey law, appraisal rights are available in connection with (i) a merger or consolidation to which the corporation is a party, (ii) any sale, lease or exchange or other disposition of all or substantially all of a corporation's assets other than in the usual and regular course of business or (iii) an acquisition of some or all of the outstanding shares or assets of a legal entity, either directly or through a subsidiary, in exchange for the corporation's shares (a share exchange) if, as a result of the share exchange, the number of voting or participating shares issued in connection with the share exchange, when combined with shares already outstanding, would exceed by more than 40 percent the number of those shares outstanding immediately before the share exchange, unless an exception applies. A New Jersey corporation may provide in its certificate of incorporation that shareholders will have appraisal rights even in cases where the exceptions to the availability of appraisal rights discussed below exist. ExxonMobil's restated certificate of incorporation does not so provide.

Delaware law does not confer appraisal rights to stockholders if the corporation's shares are:

New Jersey law does not confer appraisal rights to stockholders in connection with:

listed on a national securities exchange;

A merger or consolidation in which the corporation is a party if the merger does not require shareholder approval. Under New Jersey law shareholder approval for a merger or consolidation is required if the merger amends the certificate of incorporation, affects the outstanding shares of the surviving

held of record by more than 2,000 holders; or

shares of the corporation surviving or resulting from the merger or consolidation if the merger did not

Table of Contents

XTO Energy Stockholder Rights

require the vote of the stockholders of the surviving or resulting corporation for the approval of the merger under Delaware law.

Even if these exceptions to appraisal rights apply, the holders of such shares will have appraisal rights if they are required to accept in the merger any consideration in exchange for such shares other than:

shares of stock of the corporation surviving or resulting from the merger or consolidation;

shares of stock of any other corporation that will be either listed on a national securities exchange or held of record by more than 2,000 holders;

cash in lieu of fractional shares; or

any combination of the foregoing.

The certificate of incorporation of a Delaware corporation may provide appraisal rights for stockholders upon an amendment to a corporation's certificate of incorporation, any merger in which the corporation is a constituent or a sale of all or substantially all of the assets of the corporation.

The XTO Energy stockholders are not entitled to appraisal rights under Delaware law or under XTO Energy's restated certificate of incorporation in connection with the merger.

Directors and Officers Liability and Indemnification

The XTO Energy restated certificate of incorporation limits the liability of XTO Energy directors, except for liability (i) for a breach of the director's duty of loyalty to XTO Energy or its stockholders, (ii) for acts

ExxonMobil Shareholder Rights

corporation or, if the number of voting or participating shares issued in connection with the merger or consolidation, when combined with shares already outstanding, would exceed by more than 40 percent the number of those shares outstanding immediately before the merger.

The merger of the corporation into a wholly owned subsidiary if certain conditions are met.

(i) A merger or consolidation in which the corporation is a party or (ii) a share exchange if (i) the shares held by the corporation's shareholders are listed on a national securities exchange or are held of record by at least 1,000 holders or (ii) in the case of a merger or consolidation, the corporation's shareholders will receive (a) cash, (b) shares, obligations or other securities that will either be listed on a national securities exchange or held of record by not less than 1,000 holders or (c) a combination thereof.

A sale, lease, exchange or other disposition of all or substantially all of a corporation's assets if the shares held by the corporation's shareholders are listed on a national securities exchange or are held of record by at least 1,000 holders.

A dissolution transaction in which substantially all of a corporation's net assets are to be distributed to its shareholders within one year after the date of the transaction, so long as the transaction is wholly for cash, shares, obligations or other securities which will be listed on a national securities exchange or held of record by not less than 1,000 holders or a combination thereof.

The ExxonMobil restated certificate of incorporation limits the liability of the directors and officers of ExxonMobil to the fullest extent permitted by law. New Jersey law permits a domestic corporation to

Table of Contents

XTO Energy Stockholder Rights

or omissions not in good faith or which involved intentional misconduct or a knowing violation of law, (iii) under Section 174 of the Delaware General Corporate Law (which creates liability for unlawful payment of dividends and unlawful stock purchases or redemptions) or (iv) for any transaction from which the director derived an improper personal benefit.

The XTO Energy amended and restated bylaws provide for (i) the indemnification of its current or former directors, advisory directors and officers (or any other person who is or was serving at the request of XTO Energy in the capacity of director, advisory director, officer, employee or agent for another entity) to the fullest extent permitted by law, and (ii) the advancement of expenses (including attorneys' fees) to the fullest extent not prohibited by law upon receipt, to the extent required by law, of an undertaking to repay such amounts if it is ultimately determined that the indemnified person is not entitled to indemnification.

Delaware law provides that, subject to certain limitations in the case of derivative suits brought by a corporation's stockholders in its name, a corporation may indemnify any person who is made a party to any third-party action, suit or proceeding (other than an action by or in the right of the corporation) on account of being a current or former director, officer, employee or agent of the corporation (or is or was serving at the request of the corporation in such capacity for another corporation, partnership, joint venture, trust or other enterprise) against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with the action,

ExxonMobil Shareholder Rights

eliminate the liability of directors or officers to the corporation or its shareholders for the breach of any duty owed to the corporation or its shareholders, except for any breach of duty based upon an act or omission (i) in breach of such person's duty of loyalty to the corporation or its shareholders, (ii) not in good faith or involving a knowing violation of law or (iii) resulting in receipt by the person of an improper personal benefit. In this context, an act or omission in breach of a director or officer's duty of loyalty is defined as an act or omission which the director or officer knows or believes to be contrary to the best interests of the corporation or its shareholders in connection with a matter in which the director or officer has a material conflict of interest.

The ExxonMobil by-laws provide for (i) the indemnification of its current or former directors and officers to the fullest extent permitted by law, and (ii) the advancement of expenses (including attorneys' fees) upon receipt of an undertaking to repay such amounts if it is ultimately determined that the director or officer is not entitled to indemnification.

New Jersey law provides that a domestic corporation may indemnify a corporate agent (generally defined as any person who is or was a director, officer, employee or agent of the corporation or of any constituent corporation absorbed by the corporation in a consolidation or merger and any person who is or was a director, officer, trustee, employee or agent of any other enterprise, serving as such at the request of the corporation or the legal representative of any such director, officer, trustee, employee or agent) against such person's expenses and liabilities in connection with any proceeding involving the corporate agent by reason of being or having been such a corporate agent (other than a proceeding by or in the right of

Table of Contents

XTO Energy Stockholder Rights

suit or proceeding if the person (i) acted in good faith and in a manner reasonably believed to be in the best interests of the corporation (or in some circumstances, at least not opposed to its best interests), and (ii) in a criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Delaware law also permits a corporation to indemnify any person who is made a party to any third-party action, suit or proceeding (other than an action by or in the right of the corporation) on account of being a current or former director, officer, employee or agent of the corporation (or is or was serving at the request of the corporation in such capacity for another corporation, partnership, joint venture, trust or other enterprise) against expenses (including attorneys' fees) actually and reasonably incurred by such persons in connection with the defense or settlement of a derivative action or suit, except that no indemnification may be made in respect of any claim, issue or matter as to which the person is adjudged to be liable to the corporation unless the Delaware Court of Chancery or the court in which the action or suit was brought determines upon application that the person is fairly and reasonably entitled to indemnity for the expenses which the court deems to be proper.

To the extent that a current or former director or officer is successful on the merits or otherwise in the defense of such an action, suit or proceeding, the corporation is required by Delaware law to indemnify such person for expenses actually and reasonably incurred thereby.

ExxonMobil Shareholder Rights

the corporation) if the corporate agent (i) acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation; and (ii) with respect to any criminal proceeding, such corporate agent had no reasonable cause to believe his conduct was unlawful.

New Jersey law also permits indemnification of a corporate agent against expenses incurred in connection with a derivative action or suit which involves the corporate agent, if the corporate agent acted in good faith and in a manner the corporate agent reasonably believed to be in or not opposed to the best interests of the corporation. However, no indemnification shall be provided in respect of any claim, issue or matter as to which the corporate agent is adjudged to be liable to the corporation, unless and only to the extent that the Superior Court of the State of New Jersey (or the court in which the proceeding was brought) determines upon application that the corporate agent is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

New Jersey law requires a corporation to indemnify a corporate agent for such corporate agent's expenses to the extent that such corporate agent has been successful on the merits or otherwise in any proceeding referred to above, or in defense of any claim, issue or matter therein. Except as required by the previous sentence, no indemnification may be made or expenses advanced, and none may be ordered by a court, if such indemnification or advancement would be inconsistent with (i) a provision of the corporation's certificate of incorporation, (ii) its by-laws, (iii) a resolution of the board of directors or of the corporation's shareholders, (iv) an agreement to which the corporation is a party or (v) other proper corporate action in effect at the time of the

Table of Contents

XTO Energy Stockholder Rights

The indemnification and advancement of expenses provided by Delaware law do not exclude any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Expenses (including attorneys' fees) incurred by such persons in defending any action, suit or proceeding may be paid in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of that person to repay the amount if it is ultimately determined that person is not entitled to be so indemnified.

Certain Similarities in Shareholder Rights

ExxonMobil Shareholder Rights

accrual of the alleged cause of action asserted in the proceeding, which prohibits, limits or otherwise conditions the exercise of indemnification powers by the corporation or the rights of indemnification to which a corporate agent may be entitled.

The indemnification and advancement of expenses permitted by New Jersey law do not exclude any other rights to which the corporate agent may be entitled under a provision of the corporation's certificate of incorporation, its bylaws, agreement, vote of shareholders, or otherwise; provided that no indemnification is permitted if a judgment or other final adjudication adverse to the corporate agent establishes that the corporate agent's acts or omissions (i) were in breach of his duty of loyalty to the corporation or its shareholders, (ii) were not in good faith or involving a knowing violation of law or (iii) resulted in receipt by the corporate agent of an improper personal benefit.

Expenses incurred by a corporate agent in any proceeding may be paid in advance of the final disposition of such proceeding as authorized by the board of directors upon receipt of an undertaking by or on behalf of the corporate agent to repay such amount if it is ultimately determined that the corporate agent is not entitled to be so indemnified.

XTO Energy Stockholder Rights

Voting Rights Each holder of XTO Energy common stock is entitled to one vote per share of XTO Energy common stock.

ExxonMobil Shareholder Rights

Each holder of ExxonMobil common stock is entitled to one vote per share of ExxonMobil common stock.

Cumulative Voting Under Delaware law, stockholders of a Delaware corporation do not have the right to cumulate their votes in the election of directors unless that right is granted in the certificate of incorporation of the corporation. The XTO Energy restated certificate of incorporation does not permit cumulative voting.

Under New Jersey law, shareholders of a New Jersey corporation do not have the right to cumulate their votes in the election of directors unless that right is granted in the certificate of incorporation of the corporation. The ExxonMobil restated certificate of incorporation does not permit cumulative voting.

Quorum The XTO Energy amended and restated bylaws provide that the presence in person or

The ExxonMobil by-laws provide that the presence in person or by proxy at a meeting

	XTO Energy Stockholder Rights	ExxonMobil Shareholder Rights
Dividends	Delaware law generally provides that, subject to certain restrictions, the directors of every corporation may declare and pay dividends upon the shares of its capital stock either out of its surplus or, in case there shall be no such surplus, out of its net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year.	New Jersey law generally provides that a corporation may pay dividends unless (i) the corporation would not be able to pay its debts as they become due in the usual course of business or (ii) the corporation's total assets would be less than its total liabilities.
Repurchase of Shares	Delaware law provides that a corporation may generally redeem or repurchase shares of its stock unless the capital of the corporation is impaired or such redemption or repurchase would impair the capital of the corporation.	New Jersey law provides that a corporation may generally acquire its own shares subject to restrictions in its own certificate of incorporation. ExxonMobil's restated certificate of incorporation does not impose any restrictions on the repurchase of shares.
Stockholder or Shareholder Vote on Fundamental Issues or Extraordinary Corporate Transactions	Under Delaware law, a sale or other disposition of all or substantially all of a corporation's assets, a merger or consolidation of a corporation with another corporation or a dissolution of a corporation generally requires the affirmative vote of the corporation's board of directors and, with limited exceptions, the affirmative vote of a majority of the aggregate voting power of the outstanding stock entitled to vote on the transaction. Because the XTO Energy restated certificate of incorporation and amended and restated bylaws include no additional provisions in this regard, Delaware law applies without modification.	New Jersey law provides that in the case of a corporation organized prior to January 1, 1969, a sale, lease, exchange or other disposition of all or substantially all of a corporation's assets not in the usual and regular course of its business, a merger or consolidation of a corporation with another corporation or a dissolution of a corporation generally requires the affirmative vote of the corporation's board of directors and the affirmative vote of two-thirds of the votes so cast by shareholders entitled to vote thereon, unless the corporation adopts by the affirmative vote of two-thirds of the votes cast by the holders of shares entitled to vote thereon a majority voting requirement. ExxonMobil shareholders have previously adopted a majority voting requirement by the requisite shareholder approval, and the ExxonMobil restated certificate of incorporation provides that the following shareholder actions may be taken by the affirmative vote of a majority of the votes cast by the holders of shares of the corporation entitled to vote: (i) the adoption by shareholders of a proposed plan of merger or consolidation; (ii) the approval by shareholders of a sale, lease, exchange, or other disposition of all, or substantially all, of the assets of the corporation otherwise than in the usual and regular course of business as conducted by the corporation; and (iii) dissolution of the corporation.

Stockholder or Shareholder Rights Plan	<p>XTO Energy currently has no stockholder rights plan. XTO Energy's previous stockholder rights plan expired by its terms in August 2008. Notwithstanding the expiration of the stockholder rights plan and subject to the restrictions contained in the merger agreement, the XTO Energy board of directors could, pursuant to its authority to issue preferred stock, adopt a stockholders rights plan without stockholder approval at any future time.</p>	<p>ExxonMobil does not have a shareholder rights plan. While ExxonMobil has no present intention to adopt a shareholder rights plan, the ExxonMobil board of directors, pursuant to its authority to issue preferred stock, could do so without shareholder approval at any future time. See Description of ExxonMobil Capital Stock Description of Preferred Stock Blank Check Preferred Stock beginning on page [] of this proxy statement/prospectus. ExxonMobil's board of directors has adopted a Policy Statement on Poison Pills, available on ExxonMobil's Internet web site, http://www.exxonmobil.com, under the tab investors, then under the tab corporate governance, then the tab additional policies and guidelines. Under this policy, ExxonMobil undertakes that, if it ever were to adopt a shareholder rights plan, the board of directors would seek prior shareholder approval unless, due to timing or other reasons, a committee of independent directors determines that it would be in the best interest of shareholders to adopt a plan before obtaining shareholder approval. In that event, the plan must either be ratified by shareholders or must expire within one year.</p>

Table of Contents

LEGAL MATTERS

The validity of the ExxonMobil common stock to be issued to XTO Energy stockholders pursuant to the merger will be passed upon by Randall M. Ebner, Assistant General Counsel of ExxonMobil.

As a condition to the completion of the merger, ExxonMobil will have received an opinion from Davis Polk & Wardwell LLP, and XTO Energy will have received an opinion from Skadden, Arps, Slate, Meagher & Flom LLP, in each case, dated as of the effective time of the merger, to the effect that, for U.S. federal income tax purposes, the merger will constitute a reorganization within the meaning of Section 368 of the Code.

EXPERTS

The consolidated financial statements of ExxonMobil and ExxonMobil management's assessment of the effectiveness of internal control over financial reporting incorporated in this proxy statement/prospectus and in the registration statement by reference to ExxonMobil's Annual Report on Form 10-K for the year ended December 31, 2008 (which is included in Management's Report on Internal Control over Financial Reporting) have been so incorporated in reliance on the reports of PricewaterhouseCoopers LLP, independent registered public accounting firm, incorporated by reference herein, given on the authority of said firm as experts in accounting and auditing.

The consolidated financial statements of XTO Energy as of December 31, 2008 and 2007, and for each of the years in the three-year period ended December 31, 2008, and XTO Energy management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2008, have been incorporated into this proxy statement/prospectus and into the registration statement by reference to XTO Energy's Annual Report on Form 10-K for the year ended December 31, 2008 in reliance upon the report of KPMG LLP, independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

With respect to the unaudited interim financial information of XTO Energy for the three-month periods ended March 31, 2009 and 2008, the three- and six-month periods ended June 30, 2009 and 2008, and the three- and nine-month periods ended September 30, 2009 and 2008, incorporated by reference herein, KPMG LLP has reported that it applied limited procedures in accordance with professional standards for a review of such information. However, KPMG LLP's separate report included in XTO Energy's Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30 and September 30, 2009, and incorporated by reference herein, state that it did not audit and it does not express an opinion on that interim financial information. Accordingly, the degree of reliance on its reports on such information should be restricted in light of the limited nature of the review procedures applied. KPMG LLP is not subject to the liability provisions of Section 11 of the Securities Act for its reports on the unaudited interim financial information because those reports are not reports or a part of the registration statement prepared or certified by KPMG LLP within the meaning of Sections 7 and 11 of the Securities Act.

Certain information incorporated by reference in this proxy statement/prospectus regarding estimated quantities of oil and natural gas reserves owned by XTO Energy, the future net revenues from those reserves and their present value is based on estimates of the reserves and present values prepared by or derived from estimates prepared by Miller and Lents, Ltd., independent petroleum engineers, and all such information has been so incorporated in reliance on the authority of such firm as experts regarding the matters contained in their report.

Table of Contents

FUTURE STOCKHOLDER PROPOSALS

In light of the expected timing of the completion of the merger, XTO Energy expects to hold its 2010 annual meeting of stockholders only if the merger is not completed. In the event that XTO Energy holds a 2010 annual meeting of stockholders, stockholder proposals intended to be presented pursuant to Rule 14a-8 under the Exchange Act for inclusion in XTO Energy's proxy statement and accompanying proxy card for XTO Energy's 2010 annual meeting of stockholders must have been received at XTO Energy's principal executive offices in Fort Worth, Texas, on or before December 18, 2009, and must meet the requirements of Rule 14a-8.

In addition, if a stockholder intends to raise a matter at the XTO Energy 2010 annual meeting, and has not sought inclusion of the matter in the annual meeting proxy statement and accompanying proxy card pursuant to Rule 14a-8, the stockholder must comply with the advance notice provisions in XTO Energy's amended and restated bylaws. These provisions require that written notice of an intention to raise a matter at an annual meeting of stockholders must be received by the corporate secretary of XTO Energy not less than 90 days, nor more than 120 days, before the anniversary date of the immediately preceding annual meeting of stockholders. XTO Energy held its 2009 annual meeting of stockholders on May 19, 2009, so for the XTO Energy 2010 annual meeting of stockholders, such notice must have been received no earlier than January 19, 2010, and must be received no later than February 18, 2010. If notice is received after February 18, 2010, the persons named in the proxy card may exercise discretionary voting authority with respect to the matter if raised at the XTO Energy 2010 annual meeting of stockholders, without XTO Energy including any discussion of it in the proxy statement. XTO Energy also reserves the right to reject, rule out of order or take other appropriate action with respect to any matter raised at the 2010 annual meeting of stockholders that did not comply with the requirements described above or other applicable requirements. An XTO Energy stockholder who desires to raise such matters should refer to XTO Energy's amended and restated bylaws. Copies of XTO Energy's amended and restated bylaws will be sent to holders of XTO Energy common stock upon request. See "Where You Can Find More Information" beginning on page [] of this proxy statement/prospectus.

A stockholder desiring to nominate an individual for election as a director at the XTO Energy 2010 annual meeting of stockholders must comply with the advance notice provisions in XTO Energy's amended and restated bylaws. The bylaws require that written notice of an intention to nominate a director candidate be received by the board of directors of XTO Energy, with a copy to the president and the corporate secretary of XTO Energy, not later than 120 days in advance of the scheduled date of the annual meeting. For the XTO Energy 2010 annual meeting of stockholders, notice of intent to nominate a director candidate at the meeting must have been received by January 18, 2010. A stockholder desiring to suggest an individual for consideration by the corporate governance and nominating committee as a possible candidate for election as a director at the 2010 annual meeting should submit the suggestion to the committee, c/o the corporate secretary, by January 18, 2010. For a description of the information required to suggest an individual for consideration by the committee for election as a director, which requirements apply also to direct stockholder nominations, see "Corporate Governance Matters - Nomination Process" on page 10 of the XTO Energy Proxy Statement on Schedule 14A filed on April 17, 2009 and incorporated by reference into this proxy statement/prospectus.

The above deadlines may change in the event that the XTO Energy 2010 annual meeting of stockholders is held on a date that differs substantially from the date of the 2009 annual meeting of stockholders.

WHERE YOU CAN FIND MORE INFORMATION

ExxonMobil has filed a registration statement on Form S-4 to register with the SEC the shares of ExxonMobil common stock to be issued to XTO Energy stockholders in connection with the merger. This proxy statement/prospectus is a part of that registration statement and constitutes a prospectus of ExxonMobil in addition to being a proxy statement of XTO Energy for the special meeting. The registration statement, including the attached exhibits and schedules, contains additional relevant information about ExxonMobil and its common stock. The rules and regulations of the SEC allow ExxonMobil and XTO Energy to omit certain information included in the registration statement from this proxy statement/prospectus.

ExxonMobil and XTO Energy file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy this information at the SEC's Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. The SEC also maintains an Internet web site that has reports, proxy statements and other information about ExxonMobil and XTO Energy. The address of that site is <http://www.sec.gov>. The reports and other information filed by ExxonMobil and XTO Energy with the SEC are also available at their respective Internet web sites, which are <http://www.exxonmobil.com> and <http://www.xtoenergy.com>. Information on these Internet web sites is not part of this proxy statement/prospectus.

The SEC allows ExxonMobil and XTO Energy to incorporate by reference information into this proxy statement/prospectus. This means that important information can be disclosed to you by referring you to another document filed separately with the SEC. The information incorporated by reference is deemed to be part of this proxy statement/prospectus, except for any information superseded by information in this proxy statement/prospectus or in later filed documents incorporated by reference into this proxy statement/prospectus. This proxy statement/prospectus incorporates by reference the documents set forth below that ExxonMobil and XTO Energy have, respectively, previously filed with the SEC and any additional documents that either company may file with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act between the date of this proxy statement/prospectus and the date of the completion of the merger (other than, in each case, those documents, or the portions of those documents or exhibits thereto, deemed to be furnished and not filed in accordance with SEC rules). These documents contain important information about ExxonMobil and XTO Energy and their respective financial performance.

AGREEMENT AND PLAN OF MERGER

AGREEMENT AND PLAN OF MERGER (this **Agreement**) dated as of December 13, 2009 among XTO Energy Inc., a Delaware corporation (the **Company**), Exxon Mobil Corporation, a New Jersey corporation (**Parent**), and ExxonMobil Investment Corporation, a Delaware corporation and a wholly-owned subsidiary of Parent (**Merger Subsidiary**).

WITNESSETH:

WHEREAS, the respective Boards of Directors of the Company, Parent and Merger Subsidiary have approved and deemed it advisable that the respective stockholders of the Company and Merger Subsidiary approve and adopt this Agreement pursuant to which, among other things, Parent would acquire the Company by means of a merger of Merger Subsidiary with and into the Company on the terms and subject to the conditions set forth in this Agreement;

WHEREAS, Parent, in its capacity as sole stockholder of Merger Subsidiary, has agreed to approve and adopt this Agreement and the Merger by unanimous written consent in accordance with the requirements of Delaware Law as provided for herein and shall approve and adopt this Agreement and the Merger immediately after the execution of this Agreement; and

WHEREAS, for U.S. federal income tax purposes, it is intended that the Merger will qualify as a reorganization under the provisions of Section 368(a) of the Code and that this Agreement constitutes a plan of reorganization.

NOW, THEREFORE, in consideration of the foregoing and the representations, warranties, covenants and agreements contained herein, the parties hereto agree as follows:

ARTICLE 1

DEFINITIONS

Section 1.01. *Definitions.* (a) As used herein, the following terms have the following meanings:

Acquisition Proposal means, other than the transactions contemplated by this Agreement, any offer, proposal or inquiry relating to, or any Third Party indication of interest in, (i) any acquisition or purchase, direct or indirect, of more than 30% of the consolidated assets of the Company and its Subsidiaries or more than 30% or more of any class of equity or voting securities of the Company or any of its Subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of the Company, (ii) any tender offer (including a self-tender offer) or exchange offer that, if consummated, would result in such Third Party beneficially owning more than 30% of any class of equity or voting securities of the Company or any of its Subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of the Company or (iii) a merger, consolidation, share exchange, business combination, sale of substantially all the assets, reorganization, recapitalization, liquidation, dissolution or other similar transaction involving the Company or any of its Subsidiaries whose assets, individually or in the aggregate, constitute more than 30% of the consolidated assets of the Company.

Action means any claim, action, suit, arbitration, mediation, inquiry, proceeding or investigation by or before any Governmental Authority, arbitrator or mediator.

Adverse Recommendation Change means either of the following, as the context may indicate: (i) any failure by the Board of Directors of the Company to make, or any withdrawal or modification in a manner adverse to Parent of, the Company Board Recommendation or (ii) the Company or its Board of Directors recommending an Acquisition Proposal.

Table of Contents

Affiliate means, with respect to any Person, any other Person directly or indirectly controlling, controlled by, or under common control with such Person; *provided* that (i) none of the Company or any of its Subsidiaries shall be considered an Affiliate of any of Parent or any of its Affiliates (other than the Company and its Subsidiaries) and (ii) none of Parent or any of its Affiliates (other than the Company and its Subsidiaries) shall be considered an Affiliate of the Company or any of its Subsidiaries.

Applicable Law means, with respect to any Person, any federal, state or local law (statutory, common or otherwise), constitution, treaty, convention, ordinance, code, rule, regulation, order, injunction, judgment, decree, ruling or other similar requirement enacted, adopted, promulgated or applied by a Governmental Authority that is binding upon or applicable to such Person.

Benefit Plan means (A) each material employee benefit plan, as defined in Section 3(3) of ERISA, (B) each employment, consulting, severance or similar contract, plan, arrangement or policy and (C) each other plan, arrangement or policy (written or oral) providing for compensation, bonuses, perquisites, profit-sharing, stock option or other stock related rights or other forms of incentive or deferred compensation, vacation benefits, insurance (including any self-insured arrangements), health or medical benefits, employee assistance program, disability or sick leave benefits, workers compensation, supplemental unemployment benefits, severance benefits or post-employment or retirement benefits (including compensation, pension, health, medical or life insurance benefits).

Business Day means a day, other than Saturday, Sunday or other day on which commercial banks in New York, New York are authorized or required by Applicable Law to close.

Closing Date means the date on which the Closing occurs.

Code means the Internal Revenue Code of 1986.

Company Balance Sheet means the unaudited consolidated interim balance sheet of the Company as of September 30, 2009 and the footnotes thereto set forth in the Company 10-Q.

Company Balance Sheet Date means September 30, 2009.

Company Disclosure Letter means the disclosure letter dated the date hereof regarding this Agreement that has been provided by the Company to Parent and Merger Subsidiary.

Company Material Adverse Effect means a material adverse effect on the financial condition, business, assets or results of operations of the Company and its Subsidiaries, taken as a whole, excluding any effect resulting from, arising out of or relating to (A) changes in the financial or securities markets or general economic or political conditions in the United States or elsewhere in the world, (B) other than with respect to changes to Applicable Laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a Company Material Adverse Effect), changes or conditions generally affecting the oil and gas exploration, development and/or production industry or industries (including changes in oil, gas or other commodity prices), (C) other than with respect to changes to Applicable Laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a Company Material Adverse Effect), any change in Applicable Law or the interpretation thereof or GAAP or the interpretation thereof, (D) the negotiation, execution, announcement or consummation of the transactions contemplated by this Agreement, including any adverse change in customer, distributor, supplier or similar relationships resulting therefrom, (E) acts of war, terrorism, earthquakes, hurricanes, tornados or other natural disasters, (F) any failure by the Company or any of its Subsidiaries to meet any internal or published industry analyst projections or forecasts or estimates of revenues or earnings for any period (it being understood and agreed that the facts and circumstances that may have given rise or contributed to such failure that are not otherwise excluded from the definition of a

Table of Contents

Company Material Adverse Effect may be taken into account in determining whether there has been a Company Material Adverse Effect), (G) any change in the price of the Company Stock on the NYSE (it being understood and agreed that the facts and circumstances that may have given rise or contributed to such change (but in no event changes in the trading price of Parent Stock) that are not otherwise excluded from the definition of a Company Material Adverse Effect may be taken into account in determining whether there has been a Company Material Adverse Effect); and (H) compliance with the terms of, or the taking of any action required by, this Agreement; except to the extent such effects in the cases of clauses (A), (B), (C) and (E) above materially and disproportionately effect the Company and its Subsidiaries relative to other participants in the industry or industries in which the Company and its Subsidiaries operate (in which event the extent of such material and disproportionate effect may be taken into account in determining whether a Company Material Adverse Effect has occurred).

Company Stock means the common stock, \$0.01 par value, of the Company.

Company 10-K means the Company's annual report on Form 10-K for the fiscal year ended December 31, 2008.

Company 10-Q means the Company's quarterly report on Form 10-Q for the quarterly period ended September 30, 2009.

Competition Laws means statutes, rules, regulations, orders, decrees, administrative and judicial doctrines, and other laws that are designed or intended to prohibit, restrict or regulate actions having the purpose or effect of monopolization, lessening of competition or restraint of trade.

Delaware Law means the General Corporation Law of the State of Delaware.

Environmental Laws means any Applicable Laws or any agreement with any Governmental Authority, relating to the protection of human health, the environment or to pollutants, contaminants or hazardous or toxic substances, materials or wastes.

Environmental Permits means all permits, licenses, franchises, certificates, approvals and other similar authorizations of Governmental Authorities required by Environmental Laws and affecting, or relating to, the business of the Company or any of its Subsidiaries as currently conducted.

ERISA means the Employee Retirement Income Security Act of 1974.

ERISA Affiliate of any entity means any other entity that, together with such entity, would be treated as a single employer under Section 414(b), (c), (m) or (o) of the Code.

GAAP means generally accepted accounting principles in the United States.

Governmental Authority means any transnational, domestic or foreign federal, state or local governmental, regulatory or administrative authority, department, court, agency, commission or official, including any political subdivision thereof.

Hazardous Substance means any substance defined as or regulated as a pollutant, a contaminant, a hazardous substance, a hazardous material, a toxic chemical or a hazardous waste under any Environmental Law or any substance that has the characteristics of being a toxic, hazardous, radioactive, ignitable, corrosive or reactive substance, waste or material, as defined by or regulated under any Environmental Law.

HSR Act means the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

Intellectual Property means (i) trademarks, service marks, brand names, certification marks, trade dress, domain names and other indications of origin, the goodwill associated with the foregoing and registrations in any

Table of Contents

jurisdiction of, and applications in any jurisdiction to register, the foregoing, including any extension, modification or renewal of any such registration or application, (ii) inventions and discoveries, whether patentable or not, in any jurisdiction, patents, applications for patents (including divisions, continuations, continuations in part and renewal applications), and any renewals, extensions or reissues thereof, in any jurisdiction, (iii) Trade Secrets, (iv) in any jurisdiction, any and all copyright rights, whether registered or not, and registrations or applications for registration of copyrights in any jurisdiction, and any renewals or extensions thereof, (v) moral rights, database rights, design rights, industrial property rights, publicity rights and privacy rights and (vi) any similar intellectual property or proprietary rights.

IT Assets means computers, computer software, firmware, middleware, servers, workstations, routers, hubs, switches, data communications lines and all other information technology equipment, and all associated documentation owned by the Company or its Subsidiaries or licensed or leased by the Company or its Subsidiaries pursuant to written agreement (excluding any public networks).

knowledge means (i) with respect to the Company, the actual knowledge of the individuals listed in Section 1.01(a) of the Company Disclosure Letter after reasonable inquiry and (ii) with respect to Parent or Merger Subsidiary, the actual knowledge of the individuals listed in Section 1.01(a) of the Parent Disclosure Letter after reasonable inquiry.

Lien means, with respect to any property or asset, any mortgage, lien, pledge, charge, security interest, encumbrance or other adverse claim of any kind in respect of such property or asset. For purposes of this Agreement, a Person shall be deemed to own subject to a Lien any property or asset that it has acquired or holds subject to the interest of a vendor or lessor under any conditional sale agreement, capital lease or other title retention agreement relating to such property or asset.

1933 Act means the Securities Act of 1933.

1934 Act means the Securities Exchange Act of 1934.

Parent Balance Sheet means the unaudited consolidated interim balance sheet of Parent as of September 30, 2009 and the footnotes therein set forth in the Parent 10-Q.

Parent Balance Sheet Date means September 30, 2009.

Parent Disclosure Letter means the disclosure letter dated the date hereof regarding this Agreement that has been provided by Parent to the Company.

Parent Material Adverse Effect means a material adverse effect on the financial condition, business, assets or results of operations of Parent and its Subsidiaries, taken as a whole, excluding any effect resulting from, arising out of or relating to (A) changes in the financial or securities markets or general economic or political conditions in the United States or elsewhere in the world, (B) other than with respect to changes to Applicable Laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a Parent Material Adverse Effect), changes or conditions generally affecting the oil and gas industry or industries (including changes in oil, gas or other commodity prices), (C) other than with respect to changes to Applicable Laws related to hydraulic fracturing or similar processes that would reasonably be expected to have the effect of making illegal or commercially impracticable such hydraulic fracturing or similar processes (which changes may be taken into account in determining whether there has been a Parent Material Adverse Effect), any change in Applicable Law or the interpretation thereof or GAAP or the interpretation thereof, (D) the negotiation, execution, announcement or consummation of the transactions contemplated by this Agreement, including any adverse change in customer, distributor, supplier or similar relationships resulting therefrom, (E) acts of war, terrorism, earthquakes,

Table of Contents

hurricanes, tornados or other natural disasters, (F) any failure by Parent or any of its Subsidiaries to meet any internal or published industry analyst projections or forecasts or estimates of revenues or earnings for any period (it being understood and agreed that the facts and circumstances that may have given rise or contributed to such failure that are not otherwise excluded from the definition of a Parent Material Adverse Effect may be taken into account in determining whether there has been a Parent Material Adverse Effect), (G) any change in the price of the Parent Stock on the NYSE (it being understood and agreed that the facts and circumstances that may have given rise or contributed to such change (but in no event changes in the trading price of Company Stock) that are not otherwise excluded from the definition of a Parent Material Adverse Effect may be taken into account in determining whether there has been a Parent Material Adverse Effect) and (H) compliance with the terms of, or the taking of any action required by, this Agreement; except to the extent such effects in the cases of clauses (A), (B), (C) and (E) above materially and disproportionately effect Parent and its Subsidiaries relative to other participants in the industry or industries in which Parent and its Subsidiaries operate (in which event the extent of such material and disproportionate effect may be taken into account in determining whether a Parent Material Adverse Effect has occurred).

Parent Stock means the common stock, without par value, of Parent.

Parent 10-Q means Parent's quarterly report on Form 10-Q for the quarterly period ended September 30, 2009.

Permitted Liens means (i) Liens for Taxes not yet due and payable or that are being contested in good faith by appropriate proceedings for which adequate accruals or reserves have been established, (ii) Liens in favor of vendors, carriers, warehousemen, repairmen, mechanics, workmen, materialmen, construction or similar Liens or other encumbrances arising by operation of Applicable Law, (iii) Liens affecting the interest of the grantor of any easements benefiting owned real property and Liens of record attaching to real property, fixtures or leasehold improvements, which would not materially impair the use of the real property in the operation of the business thereon or the value of such real property, (iv) Liens reflected in the Company Balance Sheet or Parent Balance Sheet, as applicable, (v) in the case of oil and gas leases, the lessor's Production Burdens and (vi) Liens, exceptions, defects or irregularities in title, easements, imperfections of title, claims, charges, security interests, rights-of-way, covenants, restrictions, and other similar matters that would not, individually or in the aggregate, reasonably be expected to materially impair the continued use and operation of the assets to which they relate in the business of such entity and its Subsidiaries as presently conducted or the value of such assets.

Person means an individual, corporation, partnership, limited liability company, association, trust or other entity or organization, including a government or political subdivision or an agency or instrumentality thereof.

Sarbanes-Oxley Act means the Sarbanes-Oxley Act of 2002.

SEC means the Securities and Exchange Commission.

Subsidiary means, with respect to any Person, any entity of which securities or other ownership interests having ordinary voting power to elect a majority of the board of directors or other persons performing similar functions are at any time directly or indirectly owned by such Person.

Tax means any (i) tax, governmental fee or other like assessment or charge of any kind whatsoever (including withholding on amounts paid to or by any Person), together with any interest, penalty, addition to tax or additional amount imposed by any Governmental Authority (a **Taxing Authority**) responsible for the imposition of any such tax (domestic or foreign), and any liability for any of the foregoing as transferee, (ii) liability for the payment of any amount of the type described in clause (i) as a result of being or having been a member of an affiliated, consolidated, combined or unitary group, or a party to any agreement or arrangement, as a result of which liability to a Taxing Authority is determined or taken into account with reference to the activities of any other Person, and (iii) liability for the payment of any amount as a result of being party to any

Table of Contents

Tax Sharing Agreement or with respect to the payment of any amount imposed on any Person of the type described in (i) or (ii) as a result of any existing express or implied agreement or arrangement (including an indemnification agreement or arrangement).

Tax Representation Letters means the letters delivered to Davis Polk & Wardwell LLP, tax counsel to Parent, and Skadden, Arps, Slate, Meagher & Flom LLP, tax counsel to the Company, pursuant to Section 8.06(b), substantially in the form of Exhibits A and B hereto, which shall contain customary representations of Parent or the Company, respectively, dated as of the Closing Date and signed by an officer of Parent or the Company, respectively, in each case as shall be reasonably necessary or appropriate to enable Davis Polk & Wardwell LLP and Skadden, Arps, Slate, Meagher & Flom LLP to render the opinions described in Sections 9.02(d) and 9.03(b) hereof, respectively.

Tax Return means any report, return, document, declaration or other information or filing required to be supplied to any Taxing Authority with respect to Taxes, including information returns, any documents with respect to or accompanying payments of estimated Taxes, or with respect to or accompanying requests for the extension of time in which to file any such report, return, document, declaration or other information.

Tax Sharing Agreements means all existing agreements or arrangements (whether or not written) binding a party or any of its Subsidiaries that provide for the allocation, apportionment, sharing or assignment of any Tax liability or benefit, or the transfer or assignment of income, revenues, receipts, or gains for the purpose of determining any Person's Tax liability (excluding any indemnification agreement or arrangement pertaining to the sale or lease of assets or subsidiaries).

Third Party means any Person, including as defined in Section 13(d) of the 1934 Act, other than Parent or any of its Affiliates.

Trade Secrets means trade secrets and confidential information and rights in any jurisdiction to limit the use or disclosure thereof by any Person.

Treasury Regulations means the regulations promulgated under the Code.

Section 1.02. *Other Definitional and Interpretative Provisions.* The words hereof, herein and hereunder and words of like import used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The headings and captions herein are included for convenience of reference only and shall not affect in any way the meaning, construction or interpretation hereof. References to Articles, Sections, Exhibits and Schedules are to Articles, Sections, Exhibits and Schedules of this Agreement

Table of Contents

unless otherwise specified. All Exhibits and Schedules annexed hereto or referred to herein are hereby incorporated in and made a part of this Agreement as if set forth in full herein. Any capitalized terms used in any Exhibit or Schedule but not otherwise defined therein, shall have the meaning as defined in this Agreement. Any singular term in this Agreement shall be deemed to include the plural, and any plural term the singular. Whenever the words include, includes or including are used in this Agreement, they shall be deemed to be followed by the words without limitation, whether or not they are in fact followed by those words or words of like import. Writing, written and comparable terms refer to printing, typing and other means of reproducing words (including electronic media) in a visible form. References to any statute shall be deemed to refer to such statute as amended from time to time and to any rules or regulations promulgated thereunder (*provided*, that for purposes of any representations and warranties contained in Articles 3 and 4 of this Agreement that are made as of a specific date, references to any statute shall be deemed to refer to such statute, as amended, and to any rules or regulations promulgated thereunder, as of such date). References to any agreement or contract are to that agreement or contract as amended, modified or supplemented from time to time in accordance with the terms hereof and thereof; *provided* that with respect to any agreement or contract listed on any schedules hereto, all such material amendments, modifications or supplements must also be listed in the appropriate schedule. References to any Person include the successors and permitted assigns of that Person. References from or through any date mean, unless otherwise specified, from and including or through and including, respectively. References to law or laws shall be deemed also to include any Applicable Law.

ARTICLE 2

THE MERGER

Section 2.01. *The Merger.* (a) At the Effective Time, Merger Subsidiary shall be merged (the **Merger**) with and into the Company in accordance with Delaware Law, whereupon the separate existence of Merger Subsidiary shall cease, and the Company shall be the surviving corporation (the **Surviving Corporation**) and a wholly-owned subsidiary of Parent.

(b) The closing of the Merger (the **Closing**) shall take place in New York City at the offices of Davis Polk & Wardwell LLP, 450 Lexington Avenue, New York, New York, 10017 as soon as possible, but in any event no later than two Business Days after the date the conditions set forth in Article 9 (other than conditions that by their nature are to be satisfied at the Closing, but subject to the satisfaction or, to the extent permissible, waiver of those conditions at the Closing) have been satisfied or, to the extent permissible, waived by the party or parties entitled to the benefit of such conditions, or at such other place, at such other time or on such other date as Parent and the Company may mutually agree.

(c) At the Closing, the Company and Merger Subsidiary shall file a certificate of merger with the Delaware Secretary of State and make all other filings or recordings required by Delaware Law in connection with the Merger. The Merger shall become effective at such time (the **Effective Time**) as the certificate of merger is duly filed with the Delaware Secretary of State (or at such later time as may be agreed to by the parties and specified in the certificate of merger).

(d) From and after the Effective Time, the Surviving Corporation shall possess all the rights, powers, privileges and franchises and be subject to all of the obligations, liabilities, restrictions and disabilities of the Company and Merger Subsidiary, all as provided under Delaware Law.

Section 2.02. *Conversion of Shares.* At the Effective Time by virtue of the Merger and without any action on the part of any holder of shares of Company Stock or any holder of shares of common stock of Merger Subsidiary:

(a) Except as otherwise provided in Section 2.02(c), each share of Company Stock outstanding immediately prior to the Effective Time (other than any shares of Company Stock relating to each restricted stock award or

Table of Contents

performance share award outstanding under the Company's equity compensation plans immediately prior to the Effective Time) shall be converted into the right to receive 0.7098 shares of Parent Stock (the **Per Share Consideration** and, together with the cash in lieu of fractional shares of Parent Stock as specified below, the **Merger Consideration**). As of the Effective Time, all such shares of Company Stock shall no longer be outstanding and shall automatically be canceled and retired and shall cease to exist, and shall thereafter represent only the right to receive the Merger Consideration and the right to receive any dividends or other distributions pursuant to Section 2.03(f), in each case to be issued or paid in accordance with Section 2.03, without interest.

(b) Each share of common stock of Merger Subsidiary outstanding immediately prior to the Effective Time shall be converted into and become one share of common stock of the Surviving Corporation with the same rights, powers and privileges as the shares so converted and shall constitute the only outstanding shares of capital stock of the Surviving Corporation.

(c) Each share of Company Stock held by the Company as treasury stock or owned by Parent immediately prior to the Effective Time shall be canceled, and no payment shall be made with respect thereto.

Section 2.03. *Surrender and Payment.* (a) Prior to the Effective Time, Parent shall appoint an agent reasonably acceptable to the Company (the **Exchange Agent**) for the purpose of exchanging for the Merger Consideration (i) certificates representing shares of Company Stock (the **Certificates**) and (ii) uncertificated shares of Company Stock (the **Uncertificated Shares**). At or prior to the Effective Time, Parent shall deposit with or otherwise make available to the Exchange Agent, in trust for the benefit of holders of shares of Company Stock, the Merger Consideration to be paid in respect of the Certificates and the Uncertificated Shares. Parent agrees to make available to the Exchange Agent from time to time as needed, any dividends or distributions to which such holder is entitled pursuant to Section 2.03(f) of this Agreement. Promptly after the Effective Time, and in any event no later than the 10th Business Day following the Effective Time, Parent shall send, or shall cause the Exchange Agent to send, to each holder of record of shares of Company Stock at the Effective Time a letter of transmittal and instructions reasonably acceptable to the Company (which shall specify that the delivery shall be effected, and risk of loss and title shall pass, only upon proper delivery of the Certificates or transfer of the Uncertificated Shares to the Exchange Agent and which shall otherwise be in customary form and shall include customary provisions with respect to delivery of an agent's message regarding the book-entry transfer of Uncertificated Shares) for use in such exchange.

(b) Each holder of shares of Company Stock that have been converted into the right to receive the Merger Consideration shall be entitled to receive, upon (i) surrender to the Exchange Agent of a Certificate, together with a properly completed letter of transmittal, or (ii) receipt of an agent's message by the Exchange Agent (or such other evidence, if any, of transfer as the Exchange Agent may reasonably request) in the case of a book-entry transfer of Uncertificated Shares, the Merger Consideration in respect of the Company Stock represented by a Certificate or Uncertificated Share. The shares of Parent Stock constituting part of such Merger Consideration, at Parent's option, shall be in uncertificated book-entry form, unless a physical certificate is requested by a holder of shares of Company Stock or is otherwise required under Applicable Law. Until so surrendered or transferred, as the case may be, each such Certificate or Uncertificated Share shall represent after the Effective Time for all purposes only the right to receive such Merger Consideration and the right to receive any dividends or other distributions pursuant to Section 2.03(f).

(c) If any portion of the Merger Consideration is to be paid to a Person other than the Person in whose name the surrendered Certificate or the transferred Uncertificated Share is registered, it shall be a condition to such payment that (i) either such Certificate shall be properly endorsed or shall otherwise be in proper form for transfer or such Uncertificated Share shall be properly transferred and (ii) the Person requesting such payment shall pay to the Exchange Agent any transfer or other taxes required as a result of such payment to a Person other than the registered holder of such Certificate or Uncertificated Share or establish to the satisfaction of the Exchange Agent that such tax has been paid or is not payable.

Table of Contents

(d) After the Effective Time, there shall be no further registration of transfers of shares of Company Stock. If, after the Effective Time, Certificates or Uncertificated Shares are presented to the Surviving Corporation or the Exchange Agent, they shall be canceled and exchanged for the Merger Consideration provided for, and in accordance with the procedures set forth, in this Article 2.

(e) Any portion of the Merger Consideration deposited with or otherwise made available to the Exchange Agent pursuant to Section 2.03(a) that remains unclaimed by the holders of shares of Company Stock nine months after the Effective Time shall be returned to Parent, upon demand, and any such holder who has not exchanged shares of Company Stock for the Merger Consideration in accordance with this Section 2.03 prior to that time shall thereafter look only to Parent for, and Parent shall remain liable for, payment of the Merger Consideration, and any dividends and distributions with respect thereto pursuant to Section 2.03(f), in respect of such shares without any interest thereon. Notwithstanding the foregoing, Parent shall not be liable to any holder of shares of Company Stock for any amounts properly paid to a public official pursuant to applicable abandoned property, escheat or similar laws. Any amounts remaining unclaimed by holders of shares of Company Stock five years after the Effective Time (or such earlier date, immediately prior to such time when the amounts would otherwise escheat to or become property of any Governmental Authority) shall become, to the extent permitted by Applicable Law, the property of Parent free and clear of any claims or interest of any Person previously entitled thereto.

(f) No dividends or other distributions with respect to securities of Parent constituting part of the Merger Consideration, and no cash payment in lieu of fractional shares as provided in Section 2.07, shall be paid to the holder of any Certificates not surrendered or of any Uncertificated Shares not transferred until such Certificates or Uncertificated Shares are surrendered or transferred, as the case may be, as provided in this Section 2.03. Following such surrender or transfer, there shall be paid, without interest, to the Person in whose name the securities of Parent have been registered, (i) at the time of such surrender or transfer, the amount of any cash payable in lieu of fractional shares to which such Person is entitled pursuant to Section 2.07 and the amount of all dividends or other distributions with a record date after the Effective Time previously paid or payable on the date of such surrender with respect to such securities, and (ii) at the appropriate payment date, the amount of dividends or other distributions with a record date after the Effective Time and prior to surrender or transfer and with a payment date subsequent to surrender or transfer payable with respect to such securities.

(g) The payment of any transfer, documentary, sales, use, stamp, registration, value added and other such Taxes and fees (including any penalties and interest) incurred by a holder of Company Stock in connection with the Merger, and the filing of any related Tax returns and other documentation with respect to such Taxes and fees, shall be the sole responsibility of such holder.

Section 2.04. *Equity-Based Awards.* (a) Except as set forth in Section 2.04(a) of the Company Disclosure Letter, the terms of each outstanding option to purchase shares of Company Stock under any equity compensation plan of the Company (a **Company Stock Option**), whether or not exercisable or vested, shall be adjusted as necessary to provide that, at the Effective Time, each Company Stock Option outstanding immediately prior to the Effective Time shall be converted into an option (each, an **Adjusted Option**) to acquire, on the same terms and conditions as were applicable under such Company Stock Option immediately prior to the Effective Time, the number of shares of Parent Stock equal to the product of (i) the number of shares of Company Stock subject to such Company Stock Option immediately prior to the Effective Time *multiplied by* (ii) the Per Share Consideration, with any fractional shares rounded down to the next lower whole number of shares. The exercise price per share of Parent Stock subject to any such Adjusted Option will be an amount (rounded up to the nearest whole cent) equal to the quotient of (A) the exercise price per share of Company Stock subject to such Company Stock Option immediately prior to the Effective Time *divided by* (B) the Per Share Consideration, with any fractional cents rounded up to the next higher number of whole cents. Notwithstanding the foregoing, if the conversion of a Company Stock Option in accordance with the preceding provisions of this Section 2.04(a) would cause the related Adjusted Option to be treated as the grant of new stock right for purposes of Section 409A of the Code, such Company Stock Option shall not be converted in accordance with the

Table of Contents

preceding provisions but shall instead be converted in a manner that would not cause the related Adjusted Option to be treated as the grant of new stock right for purposes of Section 409A. Except as set forth in Section 2.04(a) of the Company Disclosure Letter, no Company Stock Option shall be subject to accelerated vesting upon or in connection with the transactions contemplated herein.

(b) Each restricted stock award or performance share award outstanding immediately prior to the Effective Time under any equity compensation plan of the Company (each, a **Company Stock Award**) shall be adjusted as necessary to provide that, at the Effective Time, such Company Stock Award shall be converted into a restricted stock award or performance share award, as applicable, relating to the number of shares of Parent Stock equal to the product of (i) the number of shares of Company Stock relating to such Company Stock Award immediately prior to the Effective Time *multiplied by* (ii) the Per Share Consideration, with any fractional shares rounded down to the next lower whole number of shares. Except as set forth in Section 2.04(b) of the Company Disclosure Letter, each converted Company Stock Award shall be subject to the same terms, conditions and restrictions as were applicable under such Company Stock Award immediately prior to the Effective Time. Notwithstanding the foregoing, any Company Stock Award vesting condition contingent on the achievement of specified Company stock targets (**Stock Vesting Targets**) shall be adjusted so that each Stock Vesting Target is equal to the quotient of: (A) the Stock Vesting Target *divided by* (B) the Per Share Consideration, with any fractional cents rounded up to the next higher number of whole cents. Except as set forth in Section 2.04(b) of the Company Disclosure Letter, no Company Stock Award shall be subject to accelerated vesting upon or in connection with the transactions contemplated herein.

(c) Parent shall take such actions as are necessary for the assumption of the Company Stock Options pursuant to this Section 2.04, including the reservation, issuance and listing of Parent Stock as is necessary to effectuate the transactions contemplated by this Section 2.04. Parent shall prepare and file with the SEC a registration statement on an appropriate form, or a post-effective amendment to a registration statement previously filed under the 1933 Act, with respect to the shares of Parent Stock subject to the Company Stock Options and, where applicable, shall use its reasonable best efforts to have such registration statement declared effective as soon as practicable following the Effective Time and to maintain the effectiveness of such registration statement covering such Company Stock Options (and to maintain the current status of the prospectus contained therein) for so long as any such Company Stock Options remain outstanding. With respect to those individuals, if any, who, subsequent to the Effective Time, will be subject to the reporting requirements under Section 16(a) of the 1934 Act, where applicable, Parent shall administer any equity compensation plan of the Company assumed pursuant to this Section 2.04 in a manner that complies with Rule 16b-3 promulgated under the 1934 Act to the extent such equity compensation plan of the Company complied with such rule prior to the Merger.

(d) Prior to the Effective Time, the Company shall, with respect to stock option or compensation plans or arrangements, use its reasonable efforts to give effect to the transactions contemplated by this Section 2.04.

Section 2.05. *Treatment of Company Warrants.* At the Effective Time, each warrant to purchase shares of Company Stock (each, a **Company Warrant**), which is outstanding immediately prior to the Effective Time shall cease to represent a right to acquire shares of Company Stock and shall be converted, at the Effective Time, into a right to acquire shares of Parent Stock (a **Converted Warrant**), on the same contractual terms and conditions as were in effect immediately prior to the Effective Time under the terms of the Company Warrant or other related agreement or award pursuant to which such Company Warrant was granted. The number of shares of Parent Stock subject to each such Converted Warrant shall be equal to (a) the number of shares of Company Stock subject to each such Company Warrant immediately prior to the Effective Time *multiplied by* (b) the Per Share Consideration, with any fractional shares rounded down to the next lower whole number of shares, and such Converted Warrant shall have an exercise price per share (rounded up to the nearest whole cent) equal to the quotient of (i) the exercise price per share of Company Stock subject to such Converted Warrant immediately prior to the Effective Time *divided by* (ii) the Per Share Consideration, with any fractional cents rounded up to the next higher number of whole cents.

Table of Contents

Section 2.06. *Adjustments.* If, during the period between the date of this Agreement and the Effective Time, the outstanding shares of capital stock of the Company or Parent shall have been changed into a different number of shares or a different class by reason of any reclassification, recapitalization, stock split or combination, exchange or readjustment of shares, or any stock dividend thereon with a record date during such period, or any other similar event, but excluding any change that results from (a) the exercise of Company Warrants, stock options or other equity awards to purchase shares of Parent Stock or Company Stock or (b) the grant of stock based compensation to directors or employees of Parent or (other than any such grants not made in accordance with the terms of this Agreement) the Company under Parent's or the Company's, as applicable, stock option or compensation plans or arrangements, the Merger Consideration and any other amounts payable pursuant to this Agreement, as applicable, shall be appropriately and proportionately adjusted.

Section 2.07. *Fractional Shares.* No fractional shares of Parent Stock shall be issued in the Merger. All fractional shares of Parent Stock that a holder of shares of Company Stock would otherwise be entitled to receive as a result of the Merger shall be aggregated and if a fractional share results from such aggregation, such holder shall be entitled to receive, in lieu thereof, an amount in cash without interest determined by multiplying the closing sale price of a share of Parent Stock on the NYSE on the trading day immediately preceding the Effective Time by the fraction of a share of Parent Stock to which such holder would otherwise have been entitled.

Section 2.08. *Withholding.* Notwithstanding any provision contained herein to the contrary, each of the Exchange Agent, the Surviving Corporation and Parent shall be entitled to deduct or withhold from the consideration otherwise payable to any Person pursuant to this Article 2 such amounts as it is required to deduct or withhold with respect to the making of such payment under any provision of federal, state, local or foreign tax law. The Company shall, and shall cause its Affiliates to, assist Parent in making such deductions and withholding as reasonably requested by Parent. If the Exchange Agent, the Surviving Corporation or Parent, as the case may be, so withholds amounts, such amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the shares of Company Stock in respect of which the Exchange Agent, the Surviving Corporation or Parent, as the case may be, made such deduction and withholding.

Section 2.09. *Lost Certificates.* If any Certificate shall have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such Certificate to be lost, stolen or destroyed and, if required by the Surviving Corporation, the posting by such Person of a bond, in such reasonable amount as the Surviving Corporation may direct, as indemnity against any claim that may be made against it with respect to such Certificate, the Exchange Agent will issue, in exchange for such lost, stolen or destroyed Certificate, the Merger Consideration to be paid in respect of the shares of Company Stock represented by such Certificate and any dividends or distributions with respect thereto pursuant to Section 2.03(f), as contemplated by this Article 2.

ARTICLE 3

THE SURVIVING CORPORATION

Section 3.01. *Certificate of Incorporation.* At the Effective Time and by virtue of the Merger, the certificate of incorporation of the Company shall be amended to be identical to the certificate of incorporation of Merger Subsidiary in effect immediately prior to the Effective Time, except (a) for Article FIRST, which shall read "The name of the corporation is XTO Energy Inc.", (b) that the provisions of the certificate of incorporation of Merger Subsidiary relating to the incorporator of Merger Subsidiary shall be omitted and (c) as otherwise required by Section 7.05(b), and as so amended shall be the amended and restated certificate of incorporation of the Surviving Corporation until thereafter amended in accordance with Delaware Law.

Section 3.02. *Bylaws.* At the Effective Time, the bylaws of the Company shall be amended to be identical to the bylaws of Merger Subsidiary in effect immediately prior to the Effective Time and as so amended shall be the bylaws of the Surviving Corporation until thereafter amended in accordance with Delaware Law.

Section 3.03. *Directors and Officers.* From and after the Effective Time, until successors are duly elected or appointed and qualified in accordance with Applicable Law, (i) the directors of Merger Subsidiary at the

Table of Contents

Effective Time shall be the directors of the Surviving Corporation and (ii) the officers of the Company at the Effective Time shall be the officers of the Surviving Corporation.

ARTICLE 4

REPRESENTATIONS AND WARRANTIES OF THE COMPANY

Subject to Section 11.05, except (a) as disclosed in the Company SEC Documents filed or furnished since January 1, 2009 but prior to the date hereof (and excluding any supplement, modification or amendment thereto made after the date hereof) (collectively, the **Filed Company SEC Documents**) or (b) as set forth in the Company Disclosure Letter, the Company represents and warrants to Parent that:

Section 4.01. *Corporate Existence and Power.* The Company is a corporation duly incorporated, validly existing and in good standing under the laws of the State of Delaware and has all corporate powers and all governmental licenses, authorizations, permits, consents and approvals required to carry on its business as now conducted, except for those licenses, authorizations, permits, consents and approvals the absence of which would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. The Company is duly qualified to do business as a foreign corporation and is in good standing (with respect to jurisdictions that recognize such concept) in each jurisdiction where such qualification is necessary, except for those jurisdictions where failure to be so qualified or in good standing would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. Prior to the date hereof, the Company has delivered or made available to Parent true and complete copies of the certificate of incorporation and bylaws of the Company as in effect on the date of this Agreement.

Section 4.02. *Corporate Authorization.* (a) The execution, delivery and performance by the Company of this Agreement and the consummation by the Company of the transactions contemplated hereby are within the Company's corporate powers and, except for the required approval of the Company's stockholders in connection with the consummation of the Merger, have been duly authorized by all necessary corporate action on the part of the Company. The affirmative vote of the holders of a majority of the outstanding shares of Company Stock (the **Company Stockholder Approval**) is the only vote of the holders of any of the Company's capital stock necessary in connection with the consummation of the Merger. This Agreement, assuming due authorization, execution and delivery by Parent and Merger Subsidiary, constitutes a valid and binding agreement of the Company enforceable against the Company in accordance with its terms (subject to applicable bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium and other laws affecting creditors' rights generally and general principles of equity).

(b) At a meeting duly called and held, as of the date of this Agreement, the Company's Board of Directors has (i) determined that this Agreement and the transactions contemplated hereby are in the best interests of the Company's stockholders, (ii) approved and declared advisable this Agreement and the transactions contemplated hereby and (iii) resolved, subject to Section 6.03(b), to recommend adoption of this Agreement by its stockholders (such recommendation, the **Company Board Recommendation**).

Section 4.03. *Governmental Authorization.* The execution, delivery and performance by the Company of this Agreement and the consummation by the Company of the transactions contemplated hereby require no authorizations, consents or approvals of, or filing with, any Governmental Authority, other than (a) the filing of a certificate of merger with respect to the Merger with the Delaware Secretary of State and appropriate documents with the relevant authorities of other states in which the Company is qualified to do business, (b) compliance with any applicable requirements of the HSR Act and any other Competition Laws, (c) compliance with any applicable requirements of the 1933 Act, the 1934 Act and any other applicable state or federal securities, takeover and blue sky laws, (d) compliance with any applicable requirements of the New York Stock Exchange (the **NYSE**) and (e) any authorizations, consents or approvals or filings the absence of which would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect or prevent or materially impede, interfere with, hinder or delay the consummation of the Merger.

Table of Contents

Section 4.04. *Non-contravention.* The execution, delivery and performance by the Company of this Agreement and the consummation of the transactions contemplated hereby do not and will not (a) contravene, conflict with, or result in any violation or breach of any provision of the certificate of incorporation or bylaws of the Company, (b) assuming compliance with the matters referred to in Section 4.03, contravene, conflict with or result in a violation or breach of any provision of any Applicable Law, (c) assuming compliance with the matters referred to in Section 4.03, require any consent or approval by any Person under, constitute a default, or an event that, with or without notice or lapse of time or both, would constitute a default, under, or cause or permit the termination, cancellation, acceleration or other adverse change of any right or obligation or the loss of any benefit to which the Company or any of its Subsidiaries is entitled under any provision of any agreement or other instrument binding upon the Company or any of its Subsidiaries or any license, franchise, permit, certificate, approval or other similar authorization affecting, or relating in any way to, the assets or business of the Company and its Subsidiaries or (d) result in the creation or imposition of any Lien, other than Permitted Liens, on any asset of the Company or any of its Subsidiaries, except, in the case of clauses (b) through (d), for such as would not be reasonably expected to have, individually or in the aggregate, a Company Material Adverse Effect or materially impair the ability of the Company to consummate the Merger.

Section 4.05. *Capitalization.* (a) The authorized capital stock of the Company consists of (i) 1,000,000,000 shares of Company Stock and (ii) 25,000,000 shares of preferred stock, par value \$0.01, of the Company (including 70,000 shares of Series A Junior Participating Preferred Stock). As of December 11, 2009, there were outstanding (A) 580,408,780 shares of Company Stock (including restricted shares and performance shares), (B) Company Stock Options to purchase an aggregate of 20,603,005 shares of Company Stock at a weighted-average exercise price of \$37.00 per share of Company Stock (of which options to purchase an aggregate of 16,584,852 shares of Company Stock were exercisable), (C) Company Stock Options held by non-employee directors or former non-employee directors of the Company (each a **Director Option**) to purchase an aggregate of 608,053 shares of Company Stock at a weighted-average exercise price of \$33.00 per share of Company Stock (of which options to purchase an aggregate of 608,053 shares of Company Stock were exercisable) and (D) Company Warrants to purchase 2,318,804 shares of Company Stock at an exercise price of \$20.7766 per share of Company Stock. There are no shares of preferred stock (including any Series A Junior Participating Preferred Stock) outstanding. All outstanding shares of capital stock of the Company have been, and all shares that may be issued pursuant to any employee stock option or other compensation plan or arrangement will be, when issued in accordance with the respective terms thereof, duly authorized and validly issued, fully paid and nonassessable and free of preemptive rights. No Subsidiary or Affiliate of the Company owns any shares of capital stock of the Company or any Company Securities.

(b) There are outstanding no bonds, debentures, notes or other indebtedness of the Company having the right to vote (or convertible into, or exchangeable for, securities having the right to vote) on any matters on which stockholders of the Company may vote. Except as set forth in this Section 4.05, as permitted under Section 6.01 and for changes since December 11, 2009 resulting from the exercise of Company Stock Options outstanding on such date and the vesting of restricted shares and performance shares outstanding on such date, there are no issued, reserved for issuance or outstanding (i) shares of capital stock or other voting securities of or other ownership interests in the Company, (ii) securities of the Company convertible into or exchangeable for shares of capital stock or other voting securities of or other ownership interests in the Company, (iii) warrants, calls, options or other rights to acquire from the Company, or other obligation of the Company to issue, any capital stock, voting securities or securities convertible into or exchangeable for capital stock or other voting securities of or other ownership interests in the Company or (iv) restricted shares, stock appreciation rights, performance shares or units, contingent value rights, phantom stock or similar securities or rights that are derivative of, or provide economic benefits based, directly or indirectly, on the value or price of, any capital stock of or other voting securities of or other ownership interests in the Company (the items in clauses (i) through (iv) being referred to collectively as the **Company Securities**). There are no outstanding obligations of the Company or any of its Subsidiaries to repurchase, redeem or otherwise acquire any of the Company Securities. A complete and correct list of each outstanding Company Stock Option and Director Option as of December 11, 2009, including the holder, date of grant, exercise price, vesting schedule and number of shares of Company

Stock subject thereto has been made available to Parent. Neither the Company nor any of its Subsidiaries is a party to any voting trust, proxy, voting agreement or other similar agreement with respect to the voting of any Company Securities.

Section 4.06. *Subsidiaries.* (a) Each Subsidiary of the Company is an entity duly incorporated or otherwise duly organized, validly existing and (where applicable) in good standing under the laws of its jurisdiction of incorporation or organization, has all corporate, limited liability company or comparable powers and all governmental licenses, authorizations, permits, consents and approvals required to carry on its business as now conducted, except for those licenses, authorizations, permits, consents and approvals the absence of which would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. Each such Subsidiary is duly qualified to do business as a foreign entity and is in good standing (with respect to jurisdictions that recognize such concept) in each jurisdiction where such qualification is necessary, except for those jurisdictions where failure to be so qualified or in good standing would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. All Subsidiaries of the Company and their respective jurisdictions of organization are identified in Section 4.06(a) of the Company Disclosure Letter.

(b) All of the outstanding capital stock or other voting securities of, or ownership interests in, each Subsidiary of the Company, is owned by the Company, directly or indirectly, free and clear of any Lien and free of any other limitation or restriction (including any restriction on the right to vote, sell or otherwise dispose of such capital stock or other voting securities or ownership interests, other than any such restriction imposed by Applicable Law). There are no issued, reserved for issuance or outstanding (i) securities of the Company or any of its Subsidiaries convertible into, or exchangeable for, shares of capital stock or other voting securities of, or ownership interests in, any Subsidiary of the Company, (ii) warrants, calls, options or other rights to acquire from the Company or any of its Subsidiaries, or other obligations of the Company or any of its Subsidiaries to issue, any capital stock or other voting securities of, or ownership interests in, or any securities convertible into, or exchangeable for, any capital stock or other voting securities of, or ownership interests in, any Subsidiary of the Company or (iii) restricted shares, stock appreciation rights, performance units, contingent value rights, phantom stock or similar securities or rights that are derivative of, or provide economic benefits based, directly or indirectly, on the value or price of, any capital stock or other voting securities of, or ownership interests in, any Subsidiary of the Company (the items in clauses (i) through (iii) being referred to collectively as the **Company Subsidiary Securities**). There are no outstanding obligations of the Company or any of its Subsidiaries to repurchase, redeem or otherwise acquire any of the Company Subsidiary Securities.

(c) Section 4.06(c) of the Company Disclosure Letter lists, as of the date of this Agreement, each Person other than a Subsidiary of the Company in which the Company owns, directly or indirectly, any capital stock, or other equity, voting or ownership interest, other than (i) ownership interests in gas plants and operational joint-ventures and co-operatives customary in connection with the operation of the Company and its Subsidiaries, (ii) publicly traded securities held for investment which do not exceed 5% of the outstanding securities of any Person and (iii) securities held by any employee benefit plan of the Company or any of its Subsidiaries or any trustee or other fiduciary in such capacity under any such employee benefit plan. All of the capital stock or other voting securities of, or ownership interests in, each entity set forth on Section 4.06(c) of the Company Disclosure Letter that are owned, directly or indirectly, by the Company, are owned by the Company or a Subsidiary of the Company free and clear of all Liens and any other limitation or restriction (including any restriction on the right to vote, sell or otherwise dispose of such capital stock or other voting securities or ownership interests).

Section 4.07. *SEC Filings and the Sarbanes-Oxley Act.* (a) The Company has filed with or furnished to the SEC all reports, schedules, forms, statements, prospectuses, registration statements and other documents required to be filed or furnished by the Company since January 1, 2008 (collectively, together with any exhibits and schedules thereto and other information incorporated therein, as they have been supplemented, modified or amended since the time of filing, the **Company SEC Documents**).

Table of Contents

(b) As of its filing date (or, if amended or superseded by a filing, on the date of such filing), each Company SEC Document complied as to form in all material respects with the applicable requirements of the 1933 Act and the 1934 Act and the Sarbanes-Oxley Act, as the case may be.

(c) As of its filing date (or, if amended or superseded by a filing, on the date of such filing), each Company SEC Document filed pursuant to the 1934 Act did not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

(d) Each Company SEC Document that is a registration statement, as amended or supplemented, if applicable, filed pursuant to the 1933 Act, as of the date such registration statement or amendment became effective, did not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading.

(e) The Company has established and maintains disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the 1934 Act). Such disclosure controls and procedures are reasonably designed to ensure that material information relating to the Company, including its consolidated Subsidiaries, required to be included in the Company's periodic and current reports under the 1934 Act, is made known to the Company's principal executive officer and its principal financial officer by others within those entities. Such disclosure controls and procedures are effective in timely alerting the Company's principal executive officer and principal financial officer to material information required to be included in the Company's periodic and current reports required under the 1934 Act.

(f) The Company and its Subsidiaries have established and maintained a system of internal controls over financial reporting (as defined in Rule 13a-15 under the 1934 Act) (**internal controls**). Such internal controls are sufficient to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of Company financial statements for external purposes in accordance with GAAP. The Company has disclosed, based on its most recent evaluation of internal controls prior to the date hereof, to the Company's auditors and audit committee (i) any significant deficiencies and material weaknesses in the design or operation of internal controls which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information and (ii) any fraud, whether or not material, that involves management or other employees who have a significant role in internal controls. There has not been any such disclosure made by management to the Company's auditors and audit committee since January 1, 2008.

(g) Neither the Company nor any of its Subsidiaries has extended or maintained credit, arranged for the extension of credit, or renewed an extension of credit, in the form of a personal loan to or for any executive officer (as defined in Rule 3b-7 under the 1934 Act) or director of the Company in violation of Section 402 of the Sarbanes-Oxley Act.

(h) The Company is in compliance with, and since January 1, 2008 has complied, in each case in all material respects with (i) the applicable provisions of the Sarbanes-Oxley Act and (ii) the applicable listing and corporate governance rules and regulations of the NYSE.

(i) Each of the principal executive officer and principal financial officer of the Company (or each former principal executive officer and principal financial officer of the Company, as applicable) have made all certifications required by Rule 13a-14 and 15d-14 under the 1934 Act and Sections 302 and 906 of the Sarbanes-Oxley Act and any related rules and regulations promulgated by the SEC and the NYSE, and the statements contained in any such certifications are complete and correct. For purposes of this Agreement, "principal executive officer" and "principal financial officer" shall have the meanings given to such terms in the Sarbanes-Oxley Act.

(j) Section 4.07(j) of the Company Disclosure Letter describes, and the Company has delivered to Parent, prior to the date hereof, copies of the material documentation creating or governing, material securitization

Table of Contents

transactions and other off-balance sheet arrangements (as defined in Item 303 of Regulation S-K of the SEC) that existed or were effected by the Company or its Subsidiaries since January 1, 2008.

(k) Since the Company Balance Sheet Date, there has been no transaction, or series of similar transactions, agreements, arrangements or understandings, nor is there any proposed transaction as of the date of this Agreement, or series of similar transactions, agreements, arrangements or understandings to which the Company or any of its Subsidiaries was or is to be a party, that would be required to be disclosed under Item 404 of Regulation S-K promulgated under the 1933 Act that has not been disclosed in the Company's definitive proxy statement on Schedule 14A filed with the SEC on April 17, 2009.

Section 4.08. *Financial Statements.* The audited consolidated financial statements and unaudited consolidated interim financial statements of the Company included or incorporated by reference in the Company SEC Documents (including all related notes and schedules thereto) fairly present in all material respects, in conformity with GAAP (except, in the case of unaudited consolidated interim financial statements, as permitted by Form 10-Q of the SEC) applied on a consistent basis (except as may be indicated therein or in the notes thereto), the consolidated financial position of the Company and its consolidated Subsidiaries as of the dates thereof and their consolidated results of operations and cash flows for the periods then ended (subject to normal year-end audit adjustments in the case of any unaudited interim financial statements).

Section 4.09. *Disclosure Documents.* The information supplied by the Company in writing for inclusion or incorporation by reference in the registration statement of Parent on Form S-4 or any amendment or supplement thereto pursuant to which shares of Parent Stock issuable as part of the Merger Consideration will be registered with the SEC (the **Registration Statement**) shall not, at the time the Registration Statement is declared effective by the SEC (or, with respect to any post-effective amendment or supplement, at the time such post-effective amendment or supplement becomes effective), contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading. The proxy statement of the Company to be filed as part of the Registration Statement with the SEC in connection with the Merger and to be sent to the Company stockholders in connection with the Merger (the **Proxy Statement**), and any amendment or supplement thereto, when filed, will comply as to form in all material respects with the applicable requirements of the 1934 Act. The Proxy Statement, or any amendment or supplement thereto, shall not, on the date the Proxy Statement or any amendment or supplement thereto is first mailed to the stockholders of the Company and at the time of the Company Stockholder Approval, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading. The representations and warranties contained in this Section 4.09 will not apply to statements or omissions included or incorporated by reference in the Registration Statement or Proxy Statement or any amendment or supplement thereto based upon information furnished by Parent or any of its representatives or advisors in writing specifically for use or incorporation by reference therein.

Section 4.10. *Absence of Certain Changes.* Since the Company Balance Sheet Date through the date of this Agreement, (a) the business of the Company and its Subsidiaries has been conducted in the ordinary course of business consistent with past practice in all material respects and (b) there has not been any event, occurrence, development or state of circumstances or facts that has had or would, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect.

Section 4.11. *No Undisclosed Material Liabilities.* There are no liabilities or obligations of the Company or any of its Subsidiaries of any kind whatsoever, whether accrued, contingent, absolute, determined, determinable or otherwise, other than:

(a) liabilities or obligations disclosed, reflected, reserved against or otherwise provided for in the Company Balance Sheet or in the notes thereto;

Table of Contents

- (b) liabilities or obligations incurred in the ordinary course of business consistent with past practices since the Company Balance Sheet Date;
- (c) liabilities or obligations arising out of this Agreement or the transactions contemplated hereby; and
- (d) liabilities or obligations that would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect.

Section 4.12. *Compliance with Laws and Court Orders.* The Company and each of its Subsidiaries is and since January 1, 2008 has been in compliance with, and to the knowledge of the Company, it is not under pending investigation with respect to and has not been threatened to be charged with or given notice of any violation of any, Applicable Law, except for failures to comply or violations that have not had and would not, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. There is no judgment, decree, injunction, rule or order of any arbitrator or Governmental Authority outstanding against the Company or any of its Subsidiaries that has had or would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect or that in any manner seeks to prevent, enjoin or materially alter or delay the Merger or any of the other transactions contemplated hereby.

Section 4.13. *Litigation.* There is no Action pending against, or, to the knowledge of the Company, threatened against, the Company, any of its Subsidiaries or any of their respective properties, or any present or former officer, director or employee of the Company or its Subsidiaries in their capacity as such, before (or, in the case of threatened Actions, that would be before) or by any Governmental Authority or arbitrator, that (i) would, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect or (ii) that, as of the date of this Agreement, challenges or seeks to prevent, enjoin, alter in any material respect or materially delay the Merger or any of the other transactions contemplated hereby.

Section 4.14. *Regulatory Matters.* Neither the Company nor any of its Subsidiaries is (a) an investment company or a company controlled by an investment company within the meaning of the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder or (b) a holding company, a subsidiary company of a holding company, an affiliate of a holding company, a public utility or a public-utility company, as each such term is defined in the Public Utility Holding Company Act of 2005. Except as set forth in Section 4.14 of the Company Disclosure Letter, all natural gas pipeline systems and related facilities constituting the Company's and or any of its Subsidiaries properties are (i) gathering facilities that are exempt from regulation by the Federal Energy Regulatory Commission (**FERC**) under the Natural Gas Act of 1938, as amended, and (ii) not subject to rate regulation or comprehensive nondiscriminatory access regulation under the laws of any state or other local jurisdiction.

Section 4.15. *Reserve Reports.* The Company has delivered or made available to Parent true and correct copies of all reports requested or commissioned by the Company or its Subsidiaries and delivered to the Company or its Subsidiaries in writing estimating the Company's and its Subsidiaries' proved oil and gas reserves prepared by any unaffiliated Person, including those prepared by the engineering firm Miller and Lents, Ltd. (each, a **Report Preparer**), concerning the Oil and Gas Interests of the Company and the Company Subsidiaries as of December 31, 2008 (the **Company Reserve Reports**). Except as, individually or in the aggregate, would not be material to the Company and its Subsidiaries, taken as a whole, the factual, non-interpretative data provided by the Company to each Report Preparer in connection with the preparation of the Company Reserve Reports that was material to such Report Preparer's estimates of the oil and gas reserves set forth in the Company Reserve Reports was, as of the time provided (or as modified or amended prior to the issuance of the Company Reserve Reports), accurate, and the Company has no knowledge of any material errors in the assumptions and estimates provided by the Company to any Report Preparer in connection with their preparation of the Company Reserve Reports. To the knowledge of the Company, the estimates of proved oil and gas reserves provided by the Company to each Report Preparer in connection with the preparation of the Company Reserve Reports were, as of the time provided (or as modified or amended prior to the issuance of the

Table of Contents

Company Reserve Reports), prepared in accordance with the definitions contained in Rule 4-10(a) of Regulation S-X promulgated by the SEC. Except for changes generally affecting the oil and gas exploration, development and production industry (including changes in commodity prices) and normal depletion by production, there has been no change in respect of the matters addressed in the Company Reserve Reports that has had or would, individually or in the aggregate, reasonably be expected to have a Company Material Adverse Effect. For purposes of this Agreement, **Oil and Gas Interests** means direct and indirect interests in and rights with respect to crude oil, natural gas, natural gas liquids and related properties and assets of any kind and nature, direct or indirect, including working and leasehold interests and operating rights and royalties, overriding royalties, production payments, net profit interests and other non-working interests and non-operating interests; Hydrocarbons or revenues therefrom, all contracts in connection therewith and claims and rights thereto (including all oil and gas leases, production sharing agreements, operating agreements, unitization and pooling agreements and orders, division orders, transfer orders, royalty deeds, oil and gas sales, exchange and processing contracts and agreements, and in each case, interests thereunder), surface interests, fee interests, reversionary interests, reservations, and concessions; all easements, rights of way, licenses, permits, leases, and other interests associated with, appurtenant to, or necessary for the operation of any of the foregoing; and all interests in equipment and machinery (including wells, well equipment and machinery), oil and gas production, gathering, transmission, treating, processing, and storage facilities (including tanks, tank batteries, pipelines, and gathering systems), pumps, water plants, electric plants, gasoline and gas processing plants, refineries, and other tangible personal property and fixtures associated with, appurtenant to, or necessary for the operation of any of the foregoing. For purposes of this Agreement, **Hydrocarbons** means, with respect to any Person, crude oil, natural gas and natural gas liquids (including coalbed gas).

Section 4.16. *Derivatives.* The Company SEC Reports accurately summarize, in all material respects, the outstanding Derivative positions of the Company, including Hydrocarbon and financial Derivative positions attributable to the production and marketing of the Company and its Subsidiaries as of the date reflected therein, and there have been no changes since the date thereof, except for changes in financial Derivative positions occurring in the ordinary course of business and in accordance with the Company's policies and practices. For purposes of this Agreement, a **Derivative** means a derivative transaction within the coverage of SFAS No. 133, including any swap transaction, option, hedge, warrant, forward purchase or sale transaction, futures transaction, cap transaction, floor transaction or collar transaction relating to one or more currencies, commodities, bonds, equity securities, loans, interest rates, credit-related events or conditions or any indexes, or any other similar transaction (including any option with respect to any of these transactions) or combination of any of these transactions, including collateralized mortgage obligations or other similar instruments or any debt or equity instruments evidencing or embedding any such types of transactions, and any related credit support, collateral, transportation or other similar arrangements related to such transactions.

Section 4.17. *Properties.* (a) Except as, individually or in the aggregate, would not be material to the Company and its Subsidiaries, taken as a whole, all items of operating equipment owned or leased by the Company or any of the Company Subsidiaries with a fair market value in excess of \$20 million as of the date of this Agreement (i) are, in the aggregate, in a state of repair so as to be adequate in all material respects for reasonably prudent operations in the areas in which they are operated and (ii) are adequate, together with all other properties of the Company and its Subsidiaries, to comply in the ordinary course of business consistent with past practice in all material respects with the requirements of all applicable contracts, including sales contracts.

(b) Except (i) as, individually or in the aggregate, would not be material to the Company and its Subsidiaries, taken as a whole, and (ii) for goods and other property sold, used or otherwise disposed of since the Company Balance Sheet Date in the ordinary course of business, the Company and its Subsidiaries have good and defensible title for oil and gas purposes to (x) all of the Oil and Gas Interests reflected in the Company Reserve Reports as attributable to interests owned by the Company and its Subsidiaries and (y) all other real properties and assets set forth in Section 4.17(b) of the Company Disclosure Letter, free and clear of any Lien, except (A) Permitted Liens and (B) Production Burdens. For purposes of this Agreement, **good and defensible**

Table of Contents

title means title that is free from reasonable doubt to the end that a prudent person engaged in the business of purchasing and owning, developing, and operating producing oil and gas properties in the geographical areas in which they are located, with knowledge of all of the facts and their legal bearing, would be willing to accept the same acting reasonably.

(c) Section 4.17(c)(i) of the Company Disclosure Letter sets forth, as of the date hereof, the Company's and its Subsidiaries' average net revenue interests (working interest less Production Burdens) on an 8/8ths basis, sorted by District in the currently active wells of the Company and its Subsidiaries located in the United States. Section 4.17(c)(ii) of the Company Disclosure Letter sets forth the Company's and its Subsidiaries' average lessor royalty burden with respect to Leases entered into or renewed by the Company or any of its Subsidiaries since December 31, 2008 in each of the Company's and its Subsidiaries' shale plays and East Texas tight sands. **Production Burdens** means all royalty interests, overriding royalty interests, production payments, net profit interests or other similar interests that constitute a burden on, and are measured by or are payable out of, the production of Hydrocarbons or the proceeds realized from the sale or other disposition thereof (including any amounts payable to publicly traded royalty trusts), other than Taxes and assessments of Governmental Authorities.

(d) Except as, individually or in t
