Forecast

Takeaways
Creation of GenOn
Energy will deliver significant value to stockholders
Hedging cushioned Mirant in Q1 2010 from the effects of relatively low commodity prices
The supply/demand balance is forecasted to tighten, although at a

slower pace than previously projected Mirant continues to make progress to permit, finance and commence construction of its Marsh Landing generating facility later in 2010 Operational Performance

20 Federal NOL Update Operational Performance

Cash

Generation

_

Prudent

Growth

Mirant s estimated Federal NOL balance at December 31, 2009 was \$2.7 billion An ownership change

requires Mirant to reset the limitation that determines

how much annual taxable income may be offset by its NOLs

in future years

An ownership change occurs if there is an increase of more than 50 percentage points in the ownership of Mirant stock held by large Mirant shareholders from the date of a previous ownership change

New limitation depends on Mirant stock value on the ownership change date and an interest rate determined by the IRS

We expect that Mirant will experience an ownership change for federal

income tax purposes on the closing date of the proposed merger with RRI Energy

RRI Energy has advised us that they expect RRI Energy to experience an ownership change on the closing date of the merger as well

Prudent

Growth

Assuming the shares of Mirant and RRI Energy are at or near current prices on the closing date of the proposed merger, Mirant expects that

The combined company, GenOn

Energy, will be unable to use any pre merger NOLs

for the first 5 years following the merger

Thereafter, assuming sufficient taxable income, GenOn

will be able to use

approximately \$100MM

\$125MM per year of pre merger NOLs

until such NOLs

expire

Based on current commodity price forecasts, Mirant expects that GenOn

Energy

will pay only federal Alternative Minimum Tax and certain state

income taxes

during the 5 years immediately following the merger

Mirant s Board of Directors has extended its stockholder rights plan and the plan was approved at its 2010 Annual Meeting of Stockholders held on May 6, 2010 There is no assurance that the stockholder rights plan will prevent an ownership change prior to the closing date of the proposed merger
