**Preliminary Prospectus**

**Subject to Completion. Dated June 29, 2010**

**Shares**

**Common Stock**

This is an initial public offering of the common stock of FleetCor Technologies, Inc.

FleetCor Technologies, Inc. is offering \_\_\_\_\_ of the shares to be sold in the offering. The selling stockholders identified in this prospectus are offering an additional \_\_\_\_\_ shares. FleetCor will not receive any proceeds from the sale of the shares being sold by the selling stockholders.

Prior to this offering, there has been no public market for the common stock. It is currently estimated that the initial public offering price per share will be between \$ \_\_\_\_\_ and \$ \_\_\_\_\_. FleetCor intends to apply for the listing of the common stock on the New York Stock Exchange under the symbol \_\_\_\_\_.

See Risk factors beginning on page 11 to read about risks you should consider before buying shares of common stock.

**Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.**

|  | <b>Per Share</b> | <b>Total</b> |
|--|------------------|--------------|
| Initial public offering price                          | \$               | \$           |
| Underwriting discount                                  | \$               | \$           |
| Proceeds, before expenses, to us                       | \$               | \$           |
| Proceeds, before expenses, to the selling stockholders | \$               | \$           |

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

To the extent the underwriters sell more than \_\_\_\_\_ shares of common stock, the underwriters have the option to purchase up to an additional \_\_\_\_\_ shares from the selling stockholders at the initial public offering price less the underwriting discount.

Delivery of the shares of common stock will be made on or about \_\_\_\_\_, 2010.

## Prospectus summary

*This summary highlights significant aspects of our business and this offering that appear later in this prospectus, but it is not complete and does not contain all of the information that you should consider before making your investment decision. You should read carefully the entire prospectus, including the section entitled Risk Factors and the information presented in the historical financial data and related notes, before making an investment decision. This summary contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results discussed in the forward-looking statements as a result of certain factors, including those set forth in this prospectus under the headings Risk factors and Special note regarding forward-looking statements. In this prospectus, unless indicated otherwise or the context otherwise requires, we, us, our and FleetCor refer to FleetCor Technologies, Inc., the issuer of the common stock, and its subsidiaries.*

### Overview

FleetCor is a leading independent global provider of specialized payment products and services to commercial fleets, major oil companies and petroleum marketers. We serve more than 530,000 commercial accounts in 18 countries in North America, Europe, Africa and Asia, and we had approximately 2.5 million commercial cards in use during the month of December 2009. Through our proprietary payment networks, our cards are accepted at approximately 83,000 locations in North America and Europe. In 2009, we processed approximately \$14 billion in purchases on our proprietary networks and third-party networks. We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. Our payment programs enable businesses to better manage and control employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty. In order to deliver our payment programs and services and process transactions, we own and operate six proprietary closed-loop networks through which we electronically connect to merchants and capture, analyze and report customized information. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall fleet operating costs.

We market our payment products directly to a broad range of commercial fleet customers, including vehicle fleets of all sizes and government fleets. Among these customers, we provide our products and services predominantly to small and medium commercial fleets. We believe these fleets represent an attractive segment of the global commercial fleet market given their relatively high use of less efficient payment products, such as cash and general purpose credit cards. We also manage commercial fleet card programs for major oil companies, such as British Petroleum (BP) (including its subsidiary Arco), Chevron and Citgo, and over 800 petroleum marketers. These companies collectively maintain hundreds of thousands of end-customer relationships with commercial fleets. We refer to these major oil companies and petroleum marketers with whom we have strategic relationships as our partners.

FleetCor benefits from an attractive business model, which is characterized by our recurring revenue, significant operating margins and low capital expenditure requirements. Our revenue is recurring in nature because we

## **Table of Contents**

### **Index to Financial Statements**

generate fees every time a card is used, customers rely on our payment programs to control their own recurring operating expenses and our partners and customers representing a substantial portion of our revenue enter into multi-year service contracts. Our highly-scalable business model creates significant operating efficiencies, which enable us to generate strong cash flow that may be used to repay indebtedness, make acquisitions and fund the future growth of our business. In addition, this business model enables us to continue to grow our business organically without significant additional capital expenditures.

We believe the fleet card industry is positioned for further consolidation because it is served by a fragmented group of suppliers, few with the size and scale to adequately invest to keep pace with industry advancements. For example, there is significant time and investment required to establish the closed-loop networks and technology solutions that address the diverse requirements of customers and partners across various geographic markets. We believe this dynamic will continue to shift market share to larger scale vendors with advanced technology platforms and drive further consolidation globally.

FleetCor's predecessor company was organized in the United States in 1986. In 2000, our current chief executive officer joined us and we changed our name to FleetCor Technologies, Inc. Since 2000, we have grown significantly through a combination of organic initiatives, product and service innovation and over 40 acquisitions of businesses and commercial account portfolios. We have grown our revenue from \$30.7 million in 2001 to \$381.3 million on a managed basis (as defined in Management's discussion and analysis of financial condition and results of operations) in 2009, representing a compound annual growth rate of 37.0%. In 2009, we generated 35.8% of our revenue from our international operations, compared to none in 2005. For the years ended December 31, 2005, 2006, 2007, 2008 and 2009, our consolidated revenue was \$143.3 million, \$186.2 million, \$264.1 million, \$341.1 million and \$354.1 million, respectively. In the same periods, we generated operating income of \$59.0 million, \$71.8 million, \$105.8 million, \$152.5 million and \$146.0 million, respectively. In addition, we have grown our net income from a net loss of \$12.6 million in 2000 to net income of \$89.1 million in 2009.

## **Industry background**

*The electronic payments industry is a large and fast-growing sector that is benefiting from favorable trends around the world.* Packaged Facts, a research firm, estimates that total global card purchase volumes reached \$6.8 trillion in 2009, growing at a compound annual growth rate of 10.8% from 2005 to 2009.

*Commercial cards provide specialized capabilities and are among the fastest growing segments of the electronic payments industry.* Commercial card products are typically charge cards, which are paid in full every month and provide businesses with control over the types of authorized purchases, integration with accounting systems, detailed reporting, and the ability to incorporate and transmit additional data with a payment transaction. Packaged Facts estimates that total global commercial card purchase volumes reached \$916.5 billion in 2009, growing at a compound annual growth rate of 8.2% from 2005 to 2009, and will reach \$1.5 trillion in 2014, growing at a compound annual growth rate of 10.6% from 2009 to 2014.

*Fleet cards typically provide differentiated services that help commercial fleet operators operate their businesses more effectively.* Fleet cards are specialized commercial cards that fleet operators provide to their drivers to pay for fuel, maintenance, repairs and other approved purchases. Fleet cards typically provide differentiated services, which include significant cost controls (managed through business rules implemented at the point of sale) and access to level 3 data regarding transactions, such as the amount of the expenditure, the identification of the driver and vehicle, the odometer reading, the identity of the fuel or vehicle maintenance provider and the items purchased.

---

**Table of Contents**

**Index to Financial Statements**

***Fleets represent a large customer base around the world.*** Fleets are composed of one or more vehicles, including automobiles, vans, SUVs, trucks and buses, used by businesses and governments. We believe small and medium commercial fleets represent a significant market opportunity for growth.

Packaged Facts estimates that there were approximately 41.9 million fleet vehicles in the United States in 2008 and that total U.S. closed-loop fleet card purchase volumes reached \$50.8 billion in 2009, growing at a compound annual growth rate of 6.0% from 2005 to 2009. Based on research by Packaged Facts, 35% of U.S. fleet vehicle fuel volume in 2009 was purchased utilizing closed-loop fleet cards.

Based on our analysis of data from several sources, we believe there were approximately 68 million fleet vehicles in 30 European countries in 2007. Datamonitor, a research firm, estimates that the total value of fuel sold on commercial fuel cards in 16 major European countries reached approximately 68 billion in 2006. Based on our analysis of data available for several of the largest European countries, including France, Germany, Italy, the Netherlands, Spain and the United Kingdom, we estimate that during 2005, approximately 59% of fleet vehicle fuel volume in Europe was purchased with some form of fleet card product.

***Industry characteristics provide an attractive growth opportunity.*** The fleet card industry is served by a fragmented group of participants with varying distribution models, including oil companies, petroleum marketers, third-party independent fleet card issuers and network operators, transaction processors and software service providers. We believe there is a significant amount of aging technology, legacy systems, and dated business practices within the fleet card industry, which we believe will continue to shift market share to larger scale vendors with advanced technology platforms and create significant barriers to entry. Given the generally rising levels of fuel prices and the continued increase in the number and size of commercial fleets, we believe the use of fleet cards will continue to increase around the world. We believe increasing penetration could accelerate the growth of the fleet card sector relative to alternative payment methods, and we believe larger scale participants may be able to grow at a faster rate than the sector due to the fragmented nature of the industry. We believe there will be an increasingly limited number of vendors that can serve the fleet card market effectively and even fewer with the ability to provide products and network services on a global scale.

**Our competitive strengths**

We believe our competitive strengths include the following:

***Global leadership.*** We are a leading independent global provider of specialized commercial payment products and services to fleets, major oil companies and petroleum marketers. We believe that our deep and diverse relationships, geographic reach, strong brands and scale contribute to our leading industry position.

***Broad distribution capabilities.*** We target new customers across different markets by using multiple distribution channels and tailored sales and marketing efforts designed to address the unique characteristics of individual market segments. By targeting and effectively marketing our products to several different customer segments, we are able to address a variety of growth opportunities and diversify our revenue base.

***Proprietary closed-loop networks.*** We operate six proprietary closed-loop networks which, as of December 31, 2009, served approximately 83,000 acceptance locations in North America and Europe. We believe that the significant time and investment required to establish a large-scale network with mass merchant acceptance makes our model extremely difficult to replicate and creates a significant barrier to entry in our industry.

## **Table of Contents**

### **Index to Financial Statements**

***Advanced, reliable technology systems.*** We operate proprietary and industry-leading technology systems that use modern, scalable and standardized architecture. Our business models and best practices are codified in our technology systems, allowing us to take advantage of revenue-enhancing and cost-saving opportunities across our different businesses and geographies.

***Superior products and services.*** We provide products and services tailored to the specific needs of our fleet customers, which we believe makes them more attractive than alternative payment methods such as cash, house accounts and general purpose credit cards, as well as many other fleet card products. We believe we are also able to achieve a competitive advantage over many other fleet card vendors by designing products targeting the unique needs of our customers and partners in different markets.

***Strong execution capabilities.*** Our leadership team has a long and demonstrated track record of growing our business. We have achieved our growth through a strategy combining operational initiatives, strategic relationships and acquisitions.

### **Our growth strategy**

Our strategy is to grow our revenue and profits by further penetrating our target markets, expanding our product and service offerings, entering new geographic markets and acquiring companies that meet our strategic criteria. The key elements of our growth strategy are to:

***Penetrate our target markets further.*** We intend to expand our presence in target markets by adding more customers, cross-selling additional products and services to existing customers, entering into additional strategic relationships and making acquisitions.

***Expand our products and services.*** We will seek to grow revenue by introducing new product features and functionality to our fleet card products, including additional maintenance, lodging and travel and entertainment capabilities. We aim to extend our network offerings in order to help major oil companies and petroleum marketers compete more effectively with other fleet cards and alternative payment methods.

***Enter new geographic markets.*** We intend to continue expanding in areas of Europe and the United States where we currently do not have a significant presence. We are also evaluating other opportunities in markets we believe to be under-penetrated, such as Latin America and Asia.

***Pursue growth through strategic acquisitions.*** Since 2002, we have completed over 40 acquisitions of companies and commercial account portfolios. In international markets, such as parts of Europe, where fleet card penetration is below levels observed in the United States, we will seek opportunities to increase our customer base through further strategic acquisitions.

### **Our products and services**

We sell a range of customized fleet and lodging payment programs directly and indirectly through partners, such as major oil companies and petroleum marketers. We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging and related products and services at participating locations. We support these cards with specialized issuing, processing and information services that enable us to manage card accounts, facilitate the routing, authorization, clearing and settlement of transactions, and provide value-added functionality and data including customizable card-level controls and productivity analysis tools. Depending on our customer's and partner's needs, we provide these services in a variety of outsourced solutions

**Table of Contents**

**Index to Financial Statements**

ranging from a comprehensive end-to-end solution (encompassing issuing, processing and network services) to limited back office processing services. In order to deliver our payment programs and services, we own and operate six proprietary closed-loop networks in North America and Europe. Our networks have well-established brands in local markets and proprietary technology that enable us to capture, transact, analyze and report value-added information pertinent to managing and controlling employee spending.

**Risk factors**

Investing in our common stock involves substantial risk, and our ability to successfully operate our business is subject to numerous risks, including those that are generally associated with our industry. Any of the risks set forth in this prospectus under the heading "Risk factors" may limit our ability to successfully execute our business strategy. You should carefully consider all of the information set forth in this prospectus and, in particular, should evaluate the specific risks set forth in this prospectus under the heading "Risk factors" in deciding whether to invest in our common stock.

Our principal executive offices are located at 655 Engineering Drive, Suite 300, Norcross, Georgia 30092-2830, and our telephone number at that address is (770) 449-0479. Our website is located at [www.fleetcor.com](http://www.fleetcor.com). The information on our website is not part of this prospectus.

Certain data included in this prospectus regarding our industry is derived from our internal assessments, which are based on a variety of sources, including publicly available data and information obtained from customers, other industry sources and management estimates. Independent consultant reports, industry publications and other published industry sources generally indicate that the information contained therein was obtained from sources believed to be reliable but do not guarantee the accuracy and completeness of such information. Our internal data and estimates are based upon information obtained from our investors, customers, suppliers, trade and business organizations, contacts in the markets in which we operate and management's understanding of industry conditions. Although we believe that such information is reliable, we cannot give you any assurance that any projections or estimates will be achieved.

## The offering

**Shares of common stock offered by us**                      shares

**Shares of common stock offered by the selling stockholders**                      shares

**Shares of our common stock to be outstanding after this offering**                      shares

**Option to purchase additional shares of common stock**                      The selling stockholders have granted the underwriters a 30-day option to purchase up to additional shares of common stock at the initial public offering price.

**Voting rights**                      Each share of common stock will entitle its holder to one vote.

**Use of proceeds**                      We estimate that the net proceeds we will receive from this offering, after deducting underwriting discounts and other estimated offering expenses payable by us, will be approximately \$                      million, assuming the shares are offered at \$                      per share, which is the mid-point of the price range set forth on the cover page of this prospectus.

We intend to use approximately \$                      of the net proceeds we will receive from this offering to repay a portion of our outstanding term loans under the 2005 Credit Facility. We intend to use the remaining net proceeds for working capital and other general corporate purposes.

We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

**Dividend policy**                      We currently expect to retain all future earnings, if any, for use in the operation and expansion of our business and debt repayment; therefore, we do not anticipate paying cash dividends on our common stock in the foreseeable future. See **Dividend policy** below.

**Proposed New York Stock Exchange ticker symbol**                      .

**Risk factors**                      You should carefully read and consider the information set forth under the heading **Risk factors** beginning on page 11 of this prospectus and all other information set forth in this prospectus before investing in our common stock.

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

The common stock to be outstanding after this offering is based on \_\_\_\_\_ shares outstanding as of June 30, 2010, and excludes the following:

as of June 30, 2010, \_\_\_\_\_ shares issuable upon the exercise of outstanding stock options at a weighted-average exercise price of \$ \_\_\_\_\_ per share; and

**Table of Contents**

**Index to Financial Statements**

2,700,000 shares reserved for future issuance under our 2010 Equity Compensation Plan.  
Except as otherwise indicated, the information in this prospectus:

assumes the automatic conversion of all outstanding shares of our preferred stock into \_\_\_\_\_ shares of our common stock immediately prior to the closing of this offering;

assumes the underwriters do not exercise their option to purchase up to \_\_\_\_\_ additional shares from the selling stockholders;

assumes a \_\_\_\_\_ -for- \_\_\_\_\_ stock split of shares of our common stock will be effected prior to the closing of this offering; and

assumes that our shares of common stock will be sold at \$ \_\_\_\_\_ per share, which is the mid-point of the price range set forth on the cover page of this prospectus.

**Table of Contents****Index to Financial Statements****Summary consolidated data for FleetCor Technologies, Inc.**

The table below summarizes our consolidated financial information for the periods indicated and has been derived from our consolidated financial statements and presents certain other financial information. You should read the following information together with the more detailed information contained in Selected consolidated financial data, Management's discussion and analysis of financial condition and results of operations and our consolidated financial statements and the accompanying notes, each appearing elsewhere in this prospectus. The consolidated statement of income data for the years ended December 31, 2006 and 2005 as well as the consolidated balance sheet data as of December 31, 2007, 2006 and 2005 are derived from our audited consolidated financial statements not included in this prospectus. The unaudited consolidated financial statements include, in the opinion of management, all adjustments, which include only normal recurring adjustments, that management considers necessary for the fair presentation of the financial information set forth in those statements. Our historical results are not necessarily indicative of the results to be expected in any future period.

**Index to Financial Statements**

- (1) In June 2009, the Financial Accounting Standards Board, or FASB, issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. This guidance was effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, our statements of income will no longer include securitization activities in revenue. Rather, we will report interest income, provision for bad debts and interest expense associated with the debt securities issued from our securitization facility.
  
- (2) Pro forma to give effect to (1) the conversion of all outstanding shares of our convertible preferred stock into \_\_\_\_\_ shares of our common stock immediately prior to the closing of this offering as though the conversion had occurred at the beginning of the indicated fiscal period, (2) the forgiveness of all cumulative dividends on our convertible preferred stock, except for a portion of the dividends related to the Series D-3 convertible preferred stock where holders will receive cash dividends of approximately \$6.5 million calculated as of March 31, 2010, (3) a \_\_\_\_\_ -for- \_\_\_\_\_ stock split of shares of our common stock prior to the closing of this offering, (4) the issuance of \_\_\_\_\_ shares of restricted stock to certain employees in June 2010 pursuant to restricted stock award agreements and (5) compensation expense of approximately \$ \_\_\_\_\_ million related to \_\_\_\_\_ shares of restricted stock which will vest upon the closing of this offering (assuming the price to the public is at the midpoint of the estimated price range set forth on the cover page of this prospectus).
  
- (3) Restricted cash represents customer deposits repayable on demand.
  
- (4) EBITDA is calculated as net income before the provision for income taxes, interest expense, net and depreciation and amortization. Adjusted EBITDA is calculated as EBITDA adjusted for the incremental interest expense attributable to our securitization facility. Adjusted net income is calculated as net income, adjusted to eliminate (a) stock-based compensation expense related to share-based compensation awards, (b) amortization of deferred financing costs and intangible assets and (c) amortization of the premium recognized on the purchase of receivables. We prepare adjusted net income to eliminate the effect of items that we do not consider indicative of our core operating performance. EBITDA, adjusted EBITDA and adjusted net income are supplemental measures of operating performance that do not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by U.S. generally accepted accounting principles, or U.S. GAAP, and our calculation thereof may not be comparable to that reported by other companies. EBITDA, Adjusted EBITDA and adjusted net income have limitations as analytical tools, and you should not consider them in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. Some of the limitations are:

EBITDA, adjusted EBITDA and adjusted net income do not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA, adjusted EBITDA and adjusted net income do not reflect changes in, or cash requirements for, our working capital needs;

adjusted net income does not reflect the non-cash component of employee compensation;

EBITDA and adjusted EBITDA do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; and

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and adjusted EBITDA do not reflect any cash requirements for such replacements.

We compensate for these limitations by relying primarily on our U.S. GAAP results and using EBITDA, adjusted EBITDA and adjusted net income only supplementally. We also compensate for these limitations by disclosing such limitations and reconciling EBITDA, adjusted EBITDA and adjusted net income to the most directly comparable U.S. GAAP measure, net income. Further, we also review U.S. GAAP measures and evaluate individual measures that are not included in EBITDA, adjusted EBITDA and adjusted net income. We believe that our presentation of these U.S. GAAP and non-GAAP financial measurements provides information that is useful to analysts and investors because they are important indicators of the strength of our operations and the performance of our core business. We believe it is useful to exclude stock-based compensation expense from adjusted net income because non-cash equity grants made at a certain price and point in time do not necessarily reflect how our business is performing at any particular time and stock-based compensation expense is not a key measure of our core operating performance. We also believe that amortization expenses can vary substantially from company to company and from period to period depending upon their financing and accounting methods, the fair value and average expected life of their acquired intangible assets, their capital structures and the method by which their assets were acquired; therefore, we have excluded amortization expense from our adjusted net income.

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

Management uses EBITDA, adjusted EBITDA and adjusted net income:

as measurements of operating performance because they assist us in comparing our operating performance on a consistent basis;

for planning purposes, including the preparation of our internal annual operating budget;

to allocate resources to enhance the financial performance of our business; and

to evaluate the performance and effectiveness of our operational strategies.

In addition, management uses EBITDA and adjusted EBITDA to calculate incentive compensation for our employees.

We believe these measurements are used by investors as supplemental measures to evaluate the overall operating performance of companies in our industry. By providing these non-GAAP financial measures, together with reconciliations, we believe we are enhancing investors' understanding of our business and our results of operations, as well as assisting investors in evaluating how well we are executing strategic initiatives.

- (a) We utilize an off-balance sheet securitization facility in the ordinary course of our business to finance a portion of our accounts receivable. Accounts receivable that we sell under the securitization facility are reported in our consolidated financial statements in accordance with relevant authoritative literature. Trade accounts receivable sold under this program are excluded from accounts receivable in our consolidated financial statements. In June 2009, the Financial Accounting Standards Board, or FASB, issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. This guidance was effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, our statements of income no longer include securitization activities in revenue. Rather, we report interest income, provision for bad debts and interest expense associated with the debt securities issued from our securitization facility. Although the provision for bad debts and interest expense related to our securitization facility are currently reported in revenue, we monitor these costs on a managed basis. Our revenue, processing expense, provision for bad debts and interest expense on a managed basis are set forth and reconciled under Management's Discussion and Analysis of Financial Condition and Results of Operations Accounts Receivable Securitization. The incremental interest expense represents the additional amount of interest expense that would have been reported if the new authoritative guidance discussed herein was applied to all years presented.

## **Risk factors**

*This offering involves a high degree of risk. In addition to the other information contained in this prospectus, prospective investors should carefully consider the following risks before investing in our common stock. If any of the following risks actually occur, our business, operating results and financial condition could be materially adversely affected. As a result, the trading price of our common stock could decline, and you may lose all or part of your investment in our common stock. The risks discussed below also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements. See Special note regarding forward-looking statements in this prospectus.*

### **Risks related to our business**

*A decline in retail fuel prices could adversely affect our revenue and operating results.*

Our fleet customers use our products and services primarily in connection with the purchase of fuel. Accordingly, our revenue is affected by fuel prices, which are subject to significant volatility. A decline in retail fuel prices could cause a decrease in our revenue from fees paid to us by merchants based on a percentage of each transaction purchase amount. We believe that in 2009, approximately 19.1% of our consolidated revenue, as adjusted for the impact of the new accounting guidance related to our securitization facility as described under the heading

Management's discussion and analysis of financial condition and results of operations Accounts receivable securitization, was directly influenced by the absolute price of fuel. In this prospectus, for the periods between January 1, 2005 and December 31, 2009, we refer to our consolidated revenue as adjusted for the impact of the new accounting guidance related to our securitization facility as our consolidated revenue on a managed basis. For the periods prior to January 1, 2005, we did not maintain a securitization facility. Changes in the absolute price of fuel may also impact unpaid account balances and the late fees and charges based on these amounts. A decline in retail fuel prices could adversely affect our revenue and operating results.

Fuel prices are dependent on several factors, all of which are beyond our control. These factors include, among others:

supply and demand for oil and gas, and market expectations regarding supply and demand;

actions by members of OPEC and other major oil-producing nations;

political conditions in oil-producing and gas-producing nations, including insurgency, terrorism or war;

oil refinery capacity;

weather;

the prices of foreign exports;

the implementation of fuel efficiency standards and the adoption by our fleet customers of vehicles with greater fuel efficiency or alternative fuel sources;

general worldwide economic conditions; and

governmental regulations, taxes and tariffs.

*A portion of our revenue is derived from fuel-price spreads. As a result, a contraction in fuel-price spreads could adversely affect our operating results.*

Approximately 18.6% of our consolidated revenue on a managed basis in 2009 was derived from transactions where our revenue is tied to fuel-price spreads. Fuel-price spreads equal the difference between the fuel price we charge to the fleet customer and the fuel price paid to the fuel merchant. In transactions where we derive revenue

**Table of Contents**

**Index to Financial Statements**

from fuel-price spreads, the fuel price paid to the fuel merchant is calculated as the merchant's wholesale cost of fuel plus a commission. The merchant's wholesale cost of fuel is dependent on several factors including, among others, the factors described above affecting fuel prices. The fuel price that we charge to our fleet customer is dependent on several factors including, among others, the fuel price paid to the fuel merchant, posted retail fuel prices and competitive fuel prices. We experience fuel-price spread contraction when the merchant's wholesale cost of fuel increases at a faster rate than the fuel price we charge to our fleet customers, or the fuel price we charge to our fleet customers decreases at a faster rate than the merchant's wholesale cost of fuel. Accordingly, when fuel-price spreads contract, we generate less revenue, which could adversely affect our operating results.

*If we fail to adequately assess and monitor credit risks of our customers, we could experience an increase in credit loss.*

We are subject to the credit risk of our customers, many of which are small to mid-sized businesses. We use various methods to screen potential customers and establish appropriate credit limits, but these methods cannot eliminate all potential credit risks and may not always prevent us from approving customer applications that are fraudulently completed. Changes in our industry and movement in fuel prices may result in periodic increases to customer credit limits and spending and, as a result, increased credit losses. We may also fail to detect changes to the credit risk of customers over time. Further, during a declining economic environment, we experience increased customer defaults. If we fail to adequately manage our credit risks, our bad debt expense could be significantly higher than historic levels and adversely affect our business, operating results and financial condition. Although the provision for bad debts and interest expense related to our securitization facility were included as a component of net revenue for the periods prior to January 1, 2010 in accordance with then-prevailing accounting guidance, we considered such amounts an expense for the periods prior to January 1, 2010. Accordingly, for internal reporting purposes, we included such amount as a component of operating expense, which we refer to as on a managed basis. As further described under the heading Management's discussion and analysis of financial condition and results of operations Accounts receivable securitization, on a managed basis, our provision for bad debts equaled \$32.6 million for the year ended December 31, 2009. For the quarter ended March 31, 2010, our provision for bad debts equaled \$5.3 million.

*We derive a portion of our revenue from program fees and charges paid by the users of our cards. Any decrease in our receipt of such fees and charges, or limitations on our fees and charges, could adversely affect our business, results of operations and financial condition.*

Our card programs include a variety of fees and charges associated with transactions, cards, reports, late payments and optional services. We derived approximately 54.0% of our consolidated revenue on a managed basis from these fees and charges during the year ended December 31, 2009 and approximately 55.5% of our consolidated revenue from these fees and charges during the quarter ended March 31, 2010. If the users of our cards decrease their transaction activity, the extent to which they pay invoices late or their use of optional services, our revenue could be materially adversely affected. In addition, several market factors can affect the amount of our fees and charges, including the market for similar charges for competitive card products and the availability of alternative payment methods such as cash or house accounts. Furthermore, regulators and Congress have scrutinized the electronic payments industry's pricing, charges and other practices related to its customers. Any legislative or regulatory restrictions on our ability to price our products and services could materially and adversely affect our revenue. Any decrease in our revenue derived from these fees and charges could materially and adversely affect our business, operating results and financial condition.

**Index to Financial Statements**

***We operate in a competitive business environment, and if we are unable to compete effectively, our business, operating results and financial condition would be adversely affected.***

The market for our products and services is highly competitive, and competition could intensify in the future. Our competitors vary in size and in the scope and breadth of the products and services they offer. Our primary competitors in the United States are small, regional and large independent fleet card providers, major oil companies and petroleum marketers that issue their own fleet cards and major financial services companies that provide card services to major oil companies and petroleum marketers. We also compete for customers with providers of alternative payment mechanisms, such as financial institutions that issue corporate and consumer credit cards and merchants offering house cash accounts or other forms of credit. Our primary competitors in Europe are independent fleet card providers, major oil companies and petroleum marketers that issue branded fleet cards, and providers of card outsourcing services to major oil companies and petroleum marketers.

The most significant competitive factors in our business are the breadth of product and service features, network acceptance size, customer service and account management and price. We may experience competitive disadvantages with respect to any of these factors from time to time as potential customers prioritize or value these competitive factors differently. As a result, a specific offering of our products and service features, networks and pricing may serve as a competitive advantage with respect to one customer and a disadvantage for another based on the customers preferences.

Some of our existing and potential competitors have longer operating histories, greater brand name recognition, larger customer bases, more extensive customer relationships or greater financial and technical resources. In addition, our larger competitors may also have greater resources than we do to devote to the promotion and sale of their products and services and to pursue acquisitions. For example, major oil companies and petroleum marketers and large financial institutions may choose to integrate fuel-card services as a complement to their existing card products and services. As a result, they may be able to adapt more quickly to new or emerging technologies and changing opportunities, standards or customer requirements. To the extent that our competitors are regarded as leaders in specific categories, they may have an advantage over us as we attempt to further penetrate these categories.

Future mergers or consolidations among competitors, or acquisitions of our competitors by large companies may present competitive challenges to our business. Resulting combined entities could be at a competitive advantage if their fuel-card products and services are effectively integrated and bundled into sales packages with their widely utilized non-fuel-card-related products and services. Further, larger competitors have reduced, and could continue to reduce, the fees for their services, which has increased and may continue to increase pricing pressure within our markets.

Overall, increased competition in our markets could result in intensified pricing pressure, reduced profit margins, increased sales and marketing expenses and a failure to increase, or a loss of, market share. We may not be able to maintain or improve our competitive position against our current or future competitors, which could adversely affect our business, operating results and financial condition.

***Our business is dependent on several key strategic relationships, the loss of which could adversely affect our operating results.***

We intend to seek to expand our strategic relationships with major oil companies. We refer to the major oil companies and petroleum marketers with whom we have strategic relationships as our partners. During 2009 and the first quarter of 2010, our top three strategic relationships with major oil companies accounted for approximately 18% and 24%, respectively, of our consolidated revenue. No single partner represented more than 10% of our consolidated revenue in 2009. In the first quarter of 2010, one partner accounted for approximately

## Table of Contents

### Index to Financial Statements

13% of our consolidated revenue. Two of our partners each represented greater than 5% of our consolidated revenue during 2009. Our agreements with our major oil company partners typically have initial terms of five to ten years with current remaining terms ranging from less than one year up to seven years.

The success of our business is in part dependent on our ability to maintain these strategic relationships and enter into additional strategic relationships with major oil companies. In our relationships with these major oil companies, our services are marketed under our partners' brands. If these partners fail to maintain their brands, or decrease the size of their branded networks, our ability to grow our business may be adversely affected. Our inability to maintain or further develop these relationships or add additional strategic relationships could materially and adversely affect our business and operating results.

To enter into a new strategic relationship or renew an existing strategic relationship with a major oil company, we often must participate in a competitive bidding process, which may focus on a limited number of factors, such as pricing. The use of these processes may affect our ability to effectively compete for these relationships. Our competitors may be willing to bid for these contracts on pricing or other terms that we consider uneconomical in order to win this business. The loss of our existing major oil company partners or the failure to contract with additional partners could materially and adversely affect our business, operating results and financial condition.

***We depend, in part, on our merchant relationships to grow our business. To grow our customer base, we must retain and add relationships with merchants who are located in areas where our customers purchase fuel and lodging. If we are unable to maintain and expand these relationships, our business may be adversely affected.***

A portion of our growth is derived from acquiring new merchant relationships to serve our customers, our new and enhanced product and service offerings and cross-selling our products and services through existing merchant relationships. We rely on the continuing growth of our merchant relationships and our distribution channels in order to expand our customer base. There can be no guarantee that this growth will continue. Similarly, our growth also will depend on our ability to retain and maintain existing merchant relationships that accept our proprietary closed-loop networks in areas where our customers purchase fuel and lodging. Our contractual agreements with fuel merchants typically have initial terms of one year and automatically renew on a year-to-year basis unless either party gives notice of termination. Our agreements with lodging providers typically have initial terms of one year and automatically renew on a month-to-month basis unless either party gives notice of termination. Furthermore, merchants with which we have relationships may experience bankruptcy, financial distress, or otherwise be forced to contract their operations. The loss of existing merchant relationships, the contraction of our existing merchants' operations or the inability to acquire new merchant relationships could adversely affect our ability to serve our customers and our business and operating results.

***A decline in general economic conditions, and in particular, a decline in demand for fuel and other vehicle products and services would adversely affect our business, operating results and financial condition.***

Our operating results are materially affected by conditions in the economy generally, both in the United States and internationally. We generate revenue based in part on the volume of fuel purchase transactions we process. Our transaction volume is correlated with general economic conditions in the United States and Europe and in particular, the amount of business activity in these economies. Downturns in these economies are generally characterized by reduced commercial activity and, consequently, reduced purchasing of fuel and other vehicle products and services by businesses. The recession in 2007 and 2008 negatively affected the organic growth of our business in 2009, which resulted from lower transaction volume from existing customers. Unfavorable changes in economic conditions, including declining consumer confidence, inflation, recession or other changes,

## Table of Contents

### Index to Financial Statements

may lead our customers, which are largely comprised of commercial fleets, to demand less fuel, or lead our partners to reduce their use of our products and services. These declines could result from, among other things, reduced fleet traffic, corporate purchasing, travel and other commercial activities from which we derive revenue. Further, economic conditions also may impact the ability of our customers or partners to pay for fuel or other services they have purchased and, as a result, our reserve for credit losses and write-offs of accounts receivable could increase. In addition, demand for fuel and other vehicle products and services may be reduced by other factors that are beyond our control, such as the development and use of vehicles with greater fuel efficiency and alternative fuel sources.

We are unable to predict the likely duration and severity of the current disruption in financial markets and adverse economic conditions in the United States and Europe. As a result, a sustained deterioration in general economic conditions in the United States or Europe, or increases in interest rates in key countries in which we operate, could adversely affect our business and operating results.

***We have expanded into new lines of business in the past and may do so in the future. If we are unable to successfully integrate these new businesses, our results of operations and financial condition may be adversely affected.***

We have expanded our business to encompass new lines of business in the past. For example, within the past several years we have entered into the lodging card business in the United States and now offer a limited telematics service to European customers. We may continue to enter new lines of business and offer new products and services in the future. There is no guarantee that we will be successful in integrating these new lines of business into our operations. If we are unable to do so, our operating results and financial condition may be adversely affected.

***If we fail to develop and implement new technology, products and services, adapt our products and services to changes in technology or the marketplace, or if our ongoing efforts to upgrade our technology, products and services are not successful, we could lose customers and partners.***

The markets for our products and services are highly competitive, and characterized by technological change, frequent introduction of new products and services and evolving industry standards. We must respond to the technological advances offered by our competitors and the requirements of our customers and partners, in order to maintain and improve upon our competitive position. We may be unsuccessful in expanding our technological capabilities and developing, marketing or selling new products and services that meet these changing demands, which could jeopardize our competitive position. In addition, we engage in significant efforts to upgrade our products and services and the technology that supports these activities on a regular basis. If we are unsuccessful in completing the migration of material technology, otherwise upgrading our products and services and supporting technology or completing or gaining market acceptance of new technology, products and services, it would have a material adverse effect on our ability to retain existing customers and attract new ones in the impacted business line.

***Our debt obligations, or our incurrence of additional debt obligations, could limit our flexibility in managing our business and could materially and adversely effect our financial performance.***

As of March 31, 2010, we had approximately \$326.7 million of long-term indebtedness outstanding. In addition, we are permitted under our credit agreement to incur additional indebtedness, subject to specified limitations. Our substantial indebtedness currently outstanding, or as may be outstanding if we incur additional indebtedness, could have important consequences, including the following:

we may have difficulty satisfying our obligations under our debt facilities and, if we fail to satisfy these obligations, an event of default could result;

**Table of Contents**

**Index to Financial Statements**

we may be required to dedicate a substantial portion of our cash flow from operations to required payments on our indebtedness, thereby reducing the availability of cash flow for acquisitions, working capital, capital expenditures and other general corporate activities. See

Management's discussion and analysis of financial condition and results of operations Contractual obligations, which sets forth our payment obligations with respect to our existing long-term debt;

covenants relating to our debt may limit our ability to enter into certain contracts or to obtain additional financing for acquisitions, working capital, capital expenditures and other general corporate activities;

covenants relating to our debt may limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate, including by restricting our ability to make strategic acquisitions;

we may be more vulnerable than our competitors to the impact of economic downturns and adverse developments in the industry in which we operate;

we are exposed to the risk of increased interest rates because certain of our borrowings are subject to variable rates of interest;

although we have no current intention to pay any dividends, we may be unable to pay dividends or make other distributions with respect to your investment; and

we may be placed at a competitive disadvantage against any less leveraged competitors.

The occurrence of one or more of these potential consequences could have a material adverse effect on our business, financial condition, operating results, and ability to satisfy our obligations under our indebtedness.

In addition, we and our subsidiaries may be able to incur substantial additional indebtedness in the future. Although our credit agreement contains restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and under certain circumstances, the amount of additional indebtedness that could be incurred in compliance with these restrictions could be substantial. If new debt is added to our existing debt levels, the related risks that we will face would increase.

***We meet a significant portion of our working capital needs through a securitization facility, which we must renew on an annual basis.***

We meet a significant portion of our working capital needs through a securitization facility, pursuant to which we sell accounts receivable to a special-purpose entity that in turn sells undivided participation interests in the accounts receivable to certain purchasers, who finance their purchases through the issuance of short-term commercial paper. The securitization facility has a one year term. During the financial crisis that began in 2008, the market for commercial paper experienced significant volatility. Although we have been able to renew our securitization facility annually, there can be no assurance that we will continue to be able to renew this facility in the future on terms acceptable to us.

A significant rise in fuel prices could cause our accounts receivable to increase beyond the capacity of the securitization facility. There can be no assurance that the size of the facility can be expanded to meet these increased working capital needs. Further, we may not be able to fund such increases in accounts receivable with our available cash resources. Our inability to meet working capital needs could adversely affect our financial condition and business, including our relationships with merchants, customers and partners. Further, we are exposed to the risk of increased interest rates because our borrowings under the securitization facility are subject to variable rates of interest.

## Table of Contents

### Index to Financial Statements

*We are subject to risks related to volatility in foreign currency exchange rates, and restrictions on our ability to utilize revenue generated in foreign currencies.*

As a result of our foreign operations, we are subject to risks related to changes in currency rates for revenue generated in currencies other than the U.S. dollar. For the year ended December 31, 2009 and the quarter ended March 31, 2010, approximately 36.0% and 34.2% of our revenue, respectively, was denominated in currencies other than the U.S. dollar (primarily Czech koruna and British pound). Revenue and profit generated by international operations may increase or decrease compared to prior periods as a result of changes in foreign currency exchange rates. Resulting exchange gains and losses are included in our net income. Volatility in foreign currency exchange rates may materially adversely affect our operating results and financial condition.

Furthermore, we are subject to exchange control regulations that restrict or prohibit the conversion of more than a specified amount of our foreign currencies into U.S. dollars, and, as we expand, we may become subject to further exchange control regulations that limit our ability to freely utilize and transfer currency in and out of particular jurisdictions. These restrictions may make it more difficult to effectively utilize the cash generated by our operations and may adversely effect our financial condition.

*We conduct a significant portion of our business in foreign countries and we expect to expand our operations into additional foreign countries where we may be adversely affected by operational and political risks that are greater than in the United States.*

We have foreign operations in, or provide services in, Belarus, Belgium, Canada, the Czech Republic, Estonia, Ireland, Latvia, Lithuania, Luxembourg, the Netherlands, Pakistan, Poland, the Russian Federation, Slovakia, South Africa, Ukraine and the United Kingdom. We also expect to seek to expand our operations into various countries in Asia, Europe and Latin America as part of our growth strategy.

Some of the countries where we operate, and other countries where we will seek to operate, have undergone significant political, economic and social change in recent years, and the risk of unforeseen changes in these countries may be greater than in the United States. In particular, changes in laws or regulations, including with respect to taxation, information technology, data transmission and the Internet, or in the interpretation of existing laws or regulations, whether caused by a change in government or otherwise, could materially adversely affect our business, operating results and financial condition. In addition, conducting and expanding our international operations subjects us to other risks that we do not generally face in the United States. These include:

difficulties in managing the staffing of our international operations, including hiring and retaining qualified employees;

increased expense related to localization of our products and services, including language translation and the creation of localized agreements;

potentially adverse tax consequences, including the complexities of foreign value added tax systems, restrictions on the repatriation of earnings and changes in tax rates;

increased expense to comply with foreign laws and legal standards, including laws that regulate pricing and promotion activities and the import and export of information technology, which can be difficult to monitor and are often subject to change;

increased expense to comply with U.S. laws that apply to foreign operations, including the Foreign Corrupt Practices Act and Office of Foreign Assets Control regulations;

longer accounts receivable payment cycles and difficulties in collecting accounts receivable;

increased financial accounting and reporting burdens and complexities;

**Table of Contents**

**Index to Financial Statements**

political, social and economic instability;

terrorist attacks and security concerns in general; and

reduced or varied protection for intellectual property rights and cultural norms in some geographies that are simply not respectful of intellectual property rights.

The occurrence of one or more of these events could negatively affect our international operations and, consequently, our operating results. Further, operating in international markets requires significant management attention and financial resources. Due to the additional uncertainties and risks of doing business in foreign jurisdictions, international acquisitions tend to entail risks and require additional oversight and management attention that are typically not attendant to acquisitions made within the United States. We cannot be certain that the investment and additional resources required to establish, acquire or integrate operations in other countries will produce desired levels of revenue or profitability.

***We are dependent on technology systems and electronic communications networks managed by third parties, which could result in our inability to prevent disruptions in our services.***

Our ability to process and authorize transactions electronically depends on our ability to communicate with our fuel, lodging and vehicle maintenance providers electronically through point-of-sale devices and electronic networks that are owned and operated by third parties. In addition, in order to process transactions promptly, our computer equipment and network servers must be functional 24 hours a day, which requires access to telecommunications facilities managed by third-parties and the availability of electricity, which we do not control. A severe disruption of one or more of these networks, including as a result of utility or third-party system interruptions, could impair our ability to authorize transactions and process information, which could harm our reputation, result in a loss of customers or partners and adversely affect our business and operating results.

We also utilize third-party providers to assist us with disaster recovery operations. As a result, we are subject to the risk of a provider's unresponsiveness in the event of a significant breakdown in our computer equipment or networks. Furthermore, our property and business interruption insurance may not be adequate to compensate us for all losses or failures that may occur.

***We may experience software defects, system errors, computer viruses and development delays, which could damage customer relations, decrease our profitability and expose us to liability.***

Our products and services are based on proprietary and third-party network technology and processing systems that may encounter development delays and could be susceptible to undetected errors, viruses or defects. Development delays, system errors, viruses or defects that result in service interruption or data loss could have a material adverse effect on our business, damage our reputation and subject us to third-party liability. In addition, errors, viruses and defects in our network technology and processing systems could result in additional development costs and the diversion of our technical and other resources from other development efforts or operations. Further, our attempts to limit our potential liability, through disclaimers and limitation-of-liability provisions in our agreements, may not be successful.

***We may incur substantial losses due to fraudulent use of our fleet cards.***

Under certain circumstances, when we fund customer transactions, we may bear the risk of substantial losses due to fraudulent use of our fleet cards. We do not maintain any insurance to protect us against any such losses.

**Table of Contents**

**Index to Financial Statements**

*We may not be able to adequately protect the data we collect about our customers and partners, which could subject us to liability and damage our reputation.*

We electronically receive, process, store and transmit our customers' and partners' sensitive information, including bank account information and expense data. We keep this information confidential; however, our websites, networks, information systems, services and technologies may be targeted for sabotage, disruption or misappropriation. Unauthorized access to our networks and computer systems could result in the theft or publication of confidential information or the deletion or modification of records or could otherwise cause interruptions in our service and operations.

Because techniques used to obtain unauthorized access or to sabotage systems change frequently and may not be recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. Although we believe we have sufficient controls in place to prevent disruption and misappropriation and to respond to such attacks, any inability to prevent security breaches could have a negative impact on our reputation, expose us to liability, decrease market acceptance of electronic transactions and cause our present and potential clients to choose another service provider. Any of these developments could have a material adverse effect on our business, operating results and financial condition.

*We expect to expand through acquisitions, which may divert our management's attention and result in unexpected operating difficulties, increased costs and dilution to our stockholders. We also may never realize the anticipated benefits of the acquisitions.*

We have been an active business acquirer both in the United States and internationally, and, as part of our growth strategy, we expect to seek to acquire businesses, commercial account portfolios, technologies, services and products in the future. We have substantially expanded our overall business, customer base, headcount and operations both domestically and internationally through acquisitions. The acquisition and integration of each business involves a number of risks and may result in unforeseen operating difficulties and expenditures in assimilating or integrating the businesses, technologies, products, personnel or operations of the acquired business. Furthermore, future acquisitions may:

involve our entry into geographic or business markets in which we have little or no prior experience;

involve difficulties in retaining the customers of the acquired business;

result in a delay or reduction of sales for both us and the business we acquire; and

disrupt our ongoing business, divert our resources and require significant management attention that would otherwise be available for ongoing development of our current business.

In addition, international acquisitions often involve additional or increased risks including, for example:

difficulty managing geographically separated organizations, systems and facilities;

difficulty integrating personnel with diverse business backgrounds and organizational cultures;

increased expense to comply with foreign regulatory requirements applicable to acquisitions;

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

difficulty entering new foreign markets due to, among other things, lack of customer acceptance and a lack of business knowledge of these new markets; and

political, social and economic instability.

**Table of Contents**

**Index to Financial Statements**

To complete a future acquisition, we may determine that it is necessary to use a substantial amount of our cash or engage in equity or debt financing. If we raise additional funds through further issuances of equity or convertible debt securities, our existing stockholders could suffer significant dilution, and any new equity securities we issue could have rights, preferences and privileges senior to those of holders of our common stock. Any debt financing obtained by us in the future could involve restrictive covenants relating to our capital-raising activities and other financial and operational matters that make it more difficult for us to obtain additional capital in the future and to pursue other business opportunities, including potential acquisitions. In addition, we may not be able to obtain additional financing on terms favorable to us, if at all, which could limit our ability to engage in acquisitions. Moreover, we can make no assurances that the anticipated benefits of any acquisition, such as operating improvements or anticipated cost savings, would be realized or that we would not be exposed to unexpected liabilities in connection with any acquisition.

Further, an acquisition may negatively affect our operating results because it may require us to incur charges and substantial debt or other liabilities, may cause adverse tax consequences, substantial depreciation and amortization or deferred compensation charges, may require the amortization, write-down or impairment of amounts related to deferred compensation, goodwill and other intangible assets, or may not generate sufficient financial return to offset acquisition costs.

***The market for fleet-card services is evolving and may not continue to develop or grow.***

Our fleet-card businesses rely on the acceptance and use of payment cards by businesses to purchase fuel for their vehicle fleets. If the use of fleet cards by businesses does not continue to grow, it could have a material adverse effect on our business, operating results and financial condition. In order to consistently increase and maintain our profitability, businesses and partners must continue to adopt our services. Similarly, growth in the acceptance and use of fleet cards will be impacted by the acceptance and use of electronic payment transactions generally. Furthermore, new technologies may displace fleet cards as payment mechanisms for fuel purchase transactions. A decline in the acceptance and use of fleet cards, and electronic payment transactions generally, by businesses and merchants could have a material adverse effect on our business, operating results and financial condition. The market for our lodging cards is also evolving and that portion of our business is subject to similar risks.

***Our balance sheet includes significant amounts of goodwill and intangible assets. The impairment of a significant portion of these assets would negatively affect our financial results.***

Our balance sheet includes goodwill and intangible assets that represent approximately 53% of our total assets at March 31, 2010. These assets consist primarily of goodwill and identified intangible assets associated with our acquisitions. We also expect to engage in additional acquisitions, which may result in our recognition of additional goodwill and intangible assets. Under current accounting standards, we are required to amortize certain intangible assets over the useful life of the asset, while goodwill is not amortized. On at least an annual basis, we assess whether there have been impairments in the carrying value of goodwill and intangible assets. If the carrying value of the asset is determined to be impaired, then it is written down to fair value by a charge to operating earnings. An impairment of a significant portion of goodwill or intangible assets could materially negatively affect our operating results and financial condition.

***If we are unable to protect our intellectual property rights and confidential information, our competitive position could be harmed and we could be required to incur significant expenses in order to enforce our rights.***

To protect our proprietary technology, we rely on copyright, trade secret and other intellectual property laws and confidentiality agreements with employees and third parties, all of which offer only limited protection. Despite

**Table of Contents**

**Index to Financial Statements**

our precautions, it may be possible for third parties to obtain and use without consent confidential information or infringe on our intellectual property rights, and our ability to police that misappropriation or infringement is uncertain, particularly in countries outside of the United States. In addition, our confidentiality agreements with employees, vendors, customers and other third parties may not effectively prevent disclosure or use of proprietary technology or confidential information and may not provide an adequate remedy in the event of such unauthorized use or disclosure.

Protecting against the unauthorized use of our intellectual property and confidential information is expensive, difficult and not always possible. Litigation may be necessary in the future to enforce or defend our intellectual property rights, to protect our confidential information, including trade secrets, or to determine the validity and scope of the proprietary rights of others. This litigation could be costly and divert management resources, either of which could harm our business, operating results and financial condition. Accordingly, despite our efforts, we may not be able to prevent third parties from infringing upon or misappropriating our intellectual property and proprietary information.

We cannot be certain that the steps we have taken will prevent the unauthorized use or the reverse engineering of our proprietary technology. Moreover, others may independently develop technologies that are competitive to ours or infringe our intellectual property. The enforcement of our intellectual property rights also depends on our legal actions against these infringers being successful, and we cannot be sure these actions will be successful, even when our rights have been infringed. Furthermore, effective patent, trademark, service mark, copyright and trade secret protection may not be available in every country in which we may offer our products and services.

***Claims by others that we or our customers infringe their intellectual property rights could harm our business.***

Third parties could claim that our technologies and processes underlying our products and services infringe their intellectual property. In addition, to the extent that we gain greater visibility and market exposure as a public company, we may face a higher risk of being the target of intellectual property infringement claims asserted by third parties. We may, in the future, receive notices alleging that we have misappropriated or infringed a third party's intellectual property rights. There may be third-party intellectual property rights, including patents and pending patent applications, that cover significant aspects of our technologies, processes or business methods. Any claims of infringement or misappropriation by a third party, even those without merit, could cause us to incur substantial defense costs and could distract our management from our business, and there can be no assurance that we will be able to prevail against such claims. Some of our competitors may have the capability to dedicate substantially greater resources to enforcing their intellectual property rights and to defending claims that may be brought against them than we do. Furthermore, a party making such a claim, if successful, could secure a judgment that requires us to pay substantial damages, potentially including treble damages if we are found to have willfully infringed a patent. A judgment could also include an injunction or other court order that could prevent us from offering our products and services. In addition, we might be required to seek a license for the use of a third party's intellectual property, which may not be available on commercially reasonable terms or at all. Alternatively, we might be required to develop non-infringing technology, which could require significant effort and expense and might ultimately not be successful.

Third parties may also assert infringement claims against our customers relating to their use of our technologies or processes. Any of these claims might require us to defend potentially protracted and costly litigation on their behalf, regardless of the merits of these claims, because under certain conditions we agree to indemnify our customers from third-party claims of intellectual property infringement. If any of these claims succeed, we might be forced to pay damages on behalf of our customers, which could adversely affect our business, operating results and financial condition.

**Table of Contents**

**Index to Financial Statements**

*Our success is dependent, in part, upon our executive officers and other key personnel, and the loss of key personnel could materially adversely affect our business.*

Our success depends, in part, on our executive officers and other key personnel. Our senior management team has significant industry experience and would be difficult to replace. The market for qualified individuals is competitive, and we may not be able to attract and retain qualified personnel or candidates to replace or succeed members of our senior management team or other key personnel. The loss of key personnel could materially adversely affect our business.

*Changes in laws, regulations and enforcement activities may adversely affect our products and services and the markets in which we operate.*

The electronic payments industry is subject to increasing regulation in the United States and internationally. Domestic and foreign government regulations impose compliance obligations on us and restrictions on our operating activities, which can be difficult to administer because of their scope, mandates and varied requirements. We are subject to a number of government regulations, including, among others: interest rate and fee restrictions; credit access and disclosure requirements; collection and pricing regulations; compliance obligations; security and data breach requirements; identity theft avoidance programs; and anti-money laundering compliance programs. Government regulations can also include licensing or registration requirements. While a large portion of these regulations focuses on individual consumer protection, legislatures continue to consider whether to include business consumers within the scope of these regulations. As a result, new or expanded regulation focusing on business cardholders or changes in interpretation or enforcement of regulations may have an adverse effect on our business and operating results, due to increased compliance costs and new restrictions affecting the terms under which we offer our products and services. In addition, we have structured our business in accordance with existing tax laws and interpretations, including those related to state occupancy taxes, value added taxes in foreign jurisdictions and restrictions on repatriation of funds or transfers of revenue between jurisdictions. Changes in tax laws or their interpretations could increase our tax liability, further limit our utilization of funds located in foreign jurisdictions and have a material adverse effect on our business and financial condition.

*We generate a portion of our revenue from our lodging card business, which is affected by conditions in the hotel industry generally and has a concentration of customers in the railroad and trucking industries.*

Revenue from our lodging card business, which we acquired on April 1, 2009, equaled \$37.1 million of our consolidated revenue for the year ended December 31, 2009. Our lodging card business earns revenue from customers purchasing lodging from the hotel industry and derives a significant portion of this revenue from end users in the railroad and trucking industries. Therefore, we are exposed to risks affecting each of these industries. For example, unfavorable economic conditions adversely impacting the hotel, railroad and trucking industries generally could cause a decrease in demand for our products and services in our lodging card business, resulting in decreased revenue. In addition, mergers or consolidations in these industries could reduce our customer and partnership base, resulting in a smaller market for our products and services.

*We contract with government entities and are subject to risks related to our governmental contracts.*

In the course of our business we contract with government entities, including state and local government fleet customers, as well as federal government agencies. As a result, we are subject to various laws and regulations that apply to companies doing business with federal, state and local governments. The laws relating to government contracts differ from other commercial contracting laws and our government contracts may contain

**Table of Contents**

**Index to Financial Statements**

pricing terms and conditions that are not common among private contracts. In addition, we may be subject to investigation from time to time concerning our compliance with the laws and regulations relating to our government contracts. Our failure to comply with these laws and regulations may result in suspension of these contracts or administrative or other penalties.

*Litigation and regulatory actions could subject us to significant fines, penalties or requirements resulting in increased expenses.*

We are not currently party to any legal proceedings or governmental inquiries or investigations that we consider to be material. We are, however, subject to litigation from time to time in the ordinary course of our business, which if ultimately determined unfavorably could force us to pay damages or fines, or change our business practices, any of which could have a material adverse effect on our operating results. In addition, we may become involved in various actions or proceedings brought by domestic and foreign governmental regulatory agencies in the event of alleged noncompliance with laws or regulations, which could potentially subject us to significant fines, penalties or other requirements resulting in increased expenses or restricting the conduct of our business. We are currently involved in such an investigation by the Office of Fair Trading in the United Kingdom, relating to our Keyfuels product line. This product line consists of our proprietary payment card and associated site network in the United Kingdom. A competitor alleged we are dominant in a relevant market with our Keyfuels product line. The Office of Fair Trading is investigating whether we are dominant and, if dominant, whether some of our contracts with some sites and dealers would constitute exclusive dealings requiring them to be reformed to eliminate exclusivity. Although we do not currently anticipate an adverse result or material adverse impact from the investigation, if determined adversely, the regulator has authority to require us to reform contracts to eliminate exclusivity and impose significant fines.

*We rely on third parties for card issuing and processing services supporting our MasterCard network fleet card products. Failure to maintain these contractual relationships upon acceptable terms would have an adverse effect on our MasterCard network fleet card offerings, customer retention and operating results.*

Some of our fleet-card products in North America are accepted in the MasterCard merchant network pursuant to our contractual relationships with two issuing banks and two third-party processors. In order to continue offering fleet cards accepted at MasterCard network merchants, we must maintain our contractual relationship with at least one issuing bank. Further, unless we develop our own MasterCard-approved processing capabilities, we must continue to obtain processing services from at least one processor approved by MasterCard with the capability to provide acceptable levels of reporting data for fleet operators. Generally, these contracts have remaining terms of between three and four years and automatically renew from year to year unless either party provides notice of termination; however, one of the two issuing banks has provided us with notice that it does not intend to automatically renew our agreement when it expires in 2012. Approximately 1.4% and 2.1% of our 2009 and first quarter 2010 revenue, respectively, was associated with this issuing bank. We intend to replace this issuing bank if satisfactory arrangements to renew the contract are not concluded and we believe an alternative issuing bank can be found; however, our failure to maintain these relationships, or find suitable alternatives, could have an adverse effect on our MasterCard network fleet card products, our customer retention and our operating results.

*Changes in MasterCard interchange fees could decrease our revenue.*

A portion of our revenue is generated by network processing fees charged to merchants, known as interchange fees, associated with transactions processed using our MasterCard-branded fleet cards. Interchange fee amounts associated with our MasterCard network fleet cards are affected by a number of factors, including regulatory limits in the United States and Europe and fee changes imposed by MasterCard. In addition, interchange fees are

## **Table of Contents**

### **Index to Financial Statements**

the subject of intense legal and regulatory scrutiny and competitive pressures in the electronic payments industry, which could result in lower interchange fees generally in the future. Temporary or permanent decreases in the interchange fees associated with our MasterCard network fleet-card transactions, could adversely affect our business and operating results.

*If we are not able to maintain and enhance our brands, it could adversely affect our business, operating results and financial condition.*

We believe that maintaining and enhancing our brands is critical to our customer relationships, and our ability to obtain partners and retain employees. The successful promotion of our brands will depend upon our marketing and public relations efforts, our ability to continue to offer high-quality products and services and our ability to successfully differentiate our services from those of our competitors. In addition, future extension of our brands to add new products or services different from our current offerings may dilute our brands, particularly if we fail to maintain our quality standards in these new areas. The promotion of our brands will require us to make substantial expenditures, and we anticipate that the expenditures will increase as our markets become more competitive and we expand into new markets. To the extent that these activities yield increased revenue, this revenue may not offset the expenses we incur. There can be no assurance that our brand promotion activities will be successful.

*Failure to comply with the United States Foreign Corrupt Practices Act, and similar laws associated with our international activities, could subject us to penalties and other adverse consequences.*

As we continue to expand our business internationally, we may expand into certain foreign countries, particularly those with developing economies, where companies often engage in business practices that are prohibited by U.S. regulations, including the United States Foreign Corrupt Practices Act, or the FCPA. Such laws prohibit improper payments or offers of payments to foreign governments and their officials and political parties by U.S. and other business entities for the purpose of obtaining or retaining business. We have implemented policies to discourage such practices; however, there can be no assurances that all of our employees, consultants and agents, including those that may be based in or from countries where practices that violate U.S. laws may be customary, will not take actions in violation of our policies, for which we may be ultimately responsible. Violations of the FCPA may result in severe criminal or civil sanctions and suspension or debarment from U.S. government contracting, which could negatively affect our business, operating results and financial condition.

### **Risks related to this offering and ownership of our common stock**

*Our stock price will likely be volatile and your investment could decline in value.*

The market price of our common stock following this offering may fluctuate substantially as a result of many factors, some of which are beyond our control. These fluctuations could cause you to lose all or part of the value of your investment in our common stock. Factors that could cause fluctuations in the market price of our common stock include the following:

quarterly variations in our results of operations;

results of operations that vary from the expectations of securities analysts and investors;

results of operations that vary from those of our competitors;

changes in expectations as to our future financial performance, including financial estimates by securities analysts and investors;

announcements by us or our competitors of significant contracts, acquisitions, or capital commitments;

announcements by third parties of significant claims or proceedings against us;

**Table of Contents**

**Index to Financial Statements**

regulatory developments in the United States and abroad;

future sales of our common stock, and additions or departures of key personnel; and

general domestic and international economic, market and currency factors and conditions unrelated to our performance.

In addition, the stock market in general has experienced significant price and volume fluctuations that have often been unrelated or disproportionate to operating performance of individual companies. These broad market factors may seriously harm the market price of our common stock, regardless of our operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted. A securities class action suit against us could result in significant liabilities and, regardless of the outcome, could result in substantial costs and the diversion of our management's attention and resources.

***Our common stock has no prior market and our stock price may decline after the offering.***

Before this offering, there has been no public market for shares of our common stock. Although we have applied to have our common stock listed on the New York Stock Exchange, an active trading market for our common stock may not develop or, if it develops, may not be sustained after this offering. Our company and the representatives of the underwriters will negotiate to determine the initial public offering price. The initial public offering price may be higher than the market price of our common stock after the offering and you may not be able to sell your shares of our common stock at or above the price you paid in the offering. As a result, you could lose all or part of your investment.

***Our principal stockholders will have a controlling influence over our business affairs and may make business decisions with which you disagree and which may adversely affect the value of your investment.***

After this offering, it is anticipated that our principal stockholders and their affiliates will beneficially own or control, directly or indirectly, shares of our common stock, which in the aggregate will represent approximately % of the outstanding shares of our common stock, or % if the underwriters' option to purchase additional shares is exercised in full. As a result, if some of these persons or entities act together, they will have the ability to exercise significant influence over matters submitted to our stockholders for approval, including the election and removal of directors, amendments to our certificate of incorporation and bylaws and the approval of any business combination. These actions may be taken even if they are opposed by other stockholders. This concentration of ownership may also have the effect of delaying or preventing a change of control of our company or discouraging others from making tender offers for our shares, which could prevent our stockholders from receiving a premium for their shares.

Some of these persons or entities who make up our principal stockholders may have interests different from yours. For example, because many of these stockholders purchased their shares at prices substantially below the price at which shares are being sold in this offering and have held their shares for a relatively longer period, they may be more interested in selling FleetCor to an acquirer than other stockholders or may want us to pursue strategies that deviate from the interests of other stockholders.

***Investors purchasing common stock in this offering will experience immediate and substantial dilution.***

The initial public offering price of shares of our common stock is substantially higher than the net tangible book value per outstanding share of our common stock. You will incur immediate and substantial dilution of \$ per share in the net tangible book value of shares of our common stock, based on an assumed initial public offering price of \$ , the midpoint of the range set forth on the cover of this prospectus. In addition, we have

## Table of Contents

### Index to Financial Statements

outstanding options with exercise prices significantly below the initial public offering price. To the extent outstanding options are ultimately exercised, there will be further dilution of the common stock sold in this offering.

***Future sales, or the perception of future sales, of a substantial amount of our common shares could depress the trading price of our common stock.***

If we or our stockholders sell substantial amounts of our shares of common stock in the public market following this offering or if the market perceives that these sales could occur, the market price of shares of our common stock could decline. These sales may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate, or to use equity as consideration for future acquisitions.

Upon completion of this offering, we will have \_\_\_\_\_ shares of common stock authorized and \_\_\_\_\_ shares of common stock outstanding. Of these shares, the \_\_\_\_\_ shares to be sold in this offering will be freely tradable. Before the sale of any shares to be sold in this offering, we, our executive officers and directors, and the selling stockholders and other stockholders (subject to certain limited exceptions) will have entered into agreements with the underwriters not to sell or otherwise dispose of shares of our common stock for a period of at least 180 days following completion of this offering, with certain exceptions. Immediately upon the expiration of this lock-up period, \_\_\_\_\_ shares will be freely tradable pursuant to Rule 144 under the Securities Act of 1933 by non-affiliates and another \_\_\_\_\_ shares will be eligible for resale pursuant to Rule 144 under the Securities Act of 1933, subject to the volume, manner of sale and other limitations of Rule 144.

***Our failure to maintain effective internal control over financial reporting could adversely affect our business, operating results and financial condition.***

Beginning with our annual report for the year ended December 31, 2011, Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, will require us to include a report by our management on our internal control over financial reporting. This report must contain an assessment by management of the effectiveness of our internal control over financial reporting as of the end of the year and a statement as to whether or not our internal controls are effective. Our annual report for the year ended December 31, 2011 must also contain a statement that our independent registered public accounting firm has issued an attestation report on our internal control over financial reporting.

In order to achieve timely compliance with Section 404, we have begun a process to document and evaluate our internal control over financial reporting. Our efforts to comply with Section 404 have resulted in, and are likely to continue to result in, significant costs, the commitment of time and operational resources and the diversion of management's attention. Even if we develop effective controls, such controls may become inadequate because of changes in conditions, and the degree of compliance with the policies or procedures may deteriorate. If our management identifies one or more material weaknesses in our internal control over financial reporting, we will be unable to assert that our internal control over financial reporting is effective. If we are unable to assert that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an unqualified opinion that we have maintained effective internal control over financial reporting, market perception of our financial condition and the market price of our stock may be adversely affected, we could be subject to sanctions or investigations by the New York Stock Exchange, the Securities and Exchange Commission (the SEC) or other regulatory authorities, and customer perception of our business may suffer.

Furthermore, implementing any appropriate changes to our internal control over financial reporting may entail substantial costs to modify our existing accounting systems, may take a significant period of time to complete and may distract our officers, directors and employees from the operation of our business. These changes, however, may not be effective in maintaining the adequacy of our internal control over financial reporting, and any failure to

---

**Table of Contents**

**Index to Financial Statements**

maintain that adequacy, or consequent inability to produce accurate financial statements on a timely basis, could increase our operating costs and could adversely affect our business, operating results and financial condition.

*Our disclosure controls and procedures may not prevent or detect all errors or acts of fraud.*

Upon completion of this offering, we will become subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Our disclosure controls and procedures are designed to reasonably ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is accumulated and communicated to management and recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. We believe that any disclosure controls and procedures or internal controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are and will be met. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by an unauthorized override of the controls. Accordingly, because of the inherent limitations in our control system, misstatements due to error or fraud may occur and not be detected.

*We will incur significantly increased costs as a result of operating as a public company, and our management will be required to devote substantial time to compliance efforts.*

As a public company, we will incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002 and rules subsequently implemented by the Securities and Exchange Commission and the New York Stock Exchange impose additional requirements on public companies, including enhanced corporate governance practices. For example, the listing requirements for the New York Stock Exchange provide that listed companies satisfy certain corporate governance requirements relating to independent directors, audit committees, stockholder meetings, stockholder approvals, solicitation of proxies, conflicts of interest, stockholder voting rights and codes of business conduct. Our management and other personnel will need to devote a substantial amount of time and resources in complying with these requirements. Moreover, these rules and regulations will increase our legal and financial compliance costs and will make some activities more time-consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These rules and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors and board committees or as executive officers and more expensive for us to obtain director and officer liability insurance.

*Anti-takeover provisions in our charter documents could discourage, delay or prevent a change in control of our company and may affect the trading price of our common stock.*

Our corporate documents, to be effective immediately before this offering, and the Delaware General Corporation Law contain provisions that may enable our board of directors to resist a change in control of FleetCor even if a change in control were to be considered favorable by you and other stockholders. These provisions:

stagger the terms of our board of directors and require supermajority stockholder voting to remove directors;

authorize our board of directors to issue preferred stock and to determine the rights and preferences of those shares, which may be senior to our common stock, without prior stockholder approval;

establish advance notice requirements for nominating directors and proposing matters to be voted on by stockholders at stockholder meetings;

**Table of Contents**

**Index to Financial Statements**

prohibit our stockholders from calling a special meeting and prohibit stockholders from acting by written consent; and

require supermajority stockholder voting to effect certain amendments to our certificate of incorporation and bylaws. In addition, our certificate of incorporation will prohibit large stockholders, in particular those owning 15% or more of our outstanding voting stock, from merging or consolidating with us except under certain circumstances. These provisions could discourage, delay or prevent a transaction involving a change in control of FleetCor. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and cause us to take other corporate actions you desire.

*We do not expect to pay any dividends on our common stock for the foreseeable future.*

We currently expect to retain all future earnings, if any, for future operation, expansion and debt repayment and have no current plans to pay any cash dividends to holders of our common stock for the foreseeable future. Any decision to declare and pay dividends in the future will be made at the discretion of our board of directors and will depend on, among other things, our operating results, financial condition, cash requirements, contractual restrictions and other factors that our board of directors may deem relevant. In addition, we must comply with the covenants in our credit agreements in order to be able to pay cash dividends, and our ability to pay dividends generally may be further limited by covenants of any existing and future outstanding indebtedness we or our subsidiaries incur. As a result, you may not receive any return on an investment in our common stock unless you sell our common stock for a price greater than that which you paid for it.

## **Special note regarding forward-looking statements**

This prospectus contains statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results, in contrast with statements that reflect historical facts. Many of these statements are contained under the headings

Prospectus summary, Management's discussion and analysis of financial condition and results of operations and Business. In some cases, we have identified such forward-looking statements with typical conditional words such as anticipate, intend, believe, estimate, plan, seek, or expect, may, will, would, could or should, the negative of these terms or other comparable terminology.

These forward-looking statements are not a guarantee of performance, and you should not place undue reliance on such statements. We have based these forward-looking statements largely on our current expectations and projections about future events. Forward-looking statements are subject to many uncertainties and other variable circumstances, including those discussed in this prospectus under the headings Risk factors and Management's discussion and analysis of financial condition and results of operations, many of which are outside of our control, that could cause our actual results and experience to differ materially from any forward-looking statement. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements included in this prospectus are made only as of the date hereof. We do not undertake, and specifically decline, any obligation to update any such statements or to publicly announce the results of any revisions to any of such statements to reflect future events or developments.

Table of Contents

Index to Financial Statements

## Use of proceeds

We estimate that the net proceeds we will receive from the sale of \_\_\_\_\_ shares of our common stock in this offering, after deducting underwriting discounts and other offering expenses payable by us, will be approximately \$ \_\_\_\_\_ million. This estimate assumes an initial public offering price of \$ \_\_\_\_\_ per share, the mid-point of the range set forth on the cover page of this prospectus. A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share would increase (decrease) the net proceeds to us from this offering by \$ \_\_\_\_\_ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and other offering expenses payable by us. We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders (including any shares sold by the selling stockholders pursuant to the underwriters option to purchase additional shares). See Principal and Selling Stockholders for more information.

We intend to use approximately \$ \_\_\_\_\_ of the net proceeds from this offering to repay a portion of our existing term loan indebtedness under our 2005 Credit Facility, as further described under Description of indebtedness 2005 Credit Facility. As of March 31, 2010, we had \$275.5 million in outstanding term loans under the 2005 Credit Facility, which bears interest at LIBOR plus 2.25% (2.48% at March 31, 2010) and matures in April 2013. In addition, we intend to use the remaining net proceeds for working capital and other general corporate purposes.

Table of Contents

Index to Financial Statements

## **Dividend policy**

We currently expect to retain all future earnings, if any, for use in the operation and expansion of our business. We have never declared or paid any dividends on our common stock and do not anticipate paying cash dividends to holders of our common stock in the foreseeable future. In addition, our credit agreements restrict our ability to pay dividends. Any determination to pay dividends in the future will be at the discretion of our board of directors and will depend upon, among other factors, our results of operations, financial condition, capital requirements and covenants in our existing financing arrangements and any future financing arrangements.

Pursuant to the terms of our Series D-3 preferred stock, accumulated and unpaid dividends on the Series D-3 convertible preferred stock, in an aggregate amount of approximately \$6.5 million as of March 31, 2010, become payable in cash upon the automatic conversion of the Series D-3 convertible preferred stock into common stock in connection with this offering. The actual amount of this dividend will differ based on the actual closing date of this offering.

Table of ContentsIndex to Financial Statements

## Capitalization

The following table sets forth our cash and cash equivalents and our capitalization as of March 31, 2010:

on an actual basis;

on a pro forma basis to give effect to (1) the automatic conversion of all of the outstanding shares of our convertible preferred stock into \_\_\_\_\_ shares of our common stock immediately prior to the closing of this offering, (2) a \_\_\_\_\_-for-\_\_\_\_\_ stock split of shares of our common stock to be effected prior to the closing of this offering, (3) the amendment and restatement of our certificate of incorporation in connection with this offering, (4) the payment of three-eighths of the cumulative dividend on the Series D-3 convertible preferred stock, aggregating \$ \_\_\_\_\_ million, (5) the issuance of \_\_\_\_\_ shares of restricted stock to certain employees in June 2010 pursuant to restricted stock award agreements and (6) compensation expense of approximately \$ \_\_\_\_\_ million related to \_\_\_\_\_ shares of restricted stock which will vest upon the closing of this offering (assuming the price to the public is at the midpoint of the estimated price range set forth on the cover page of this prospectus); and

on a pro forma as adjusted basis to give further effect to (1) the sale by us of \_\_\_\_\_ shares of common stock in this offering at an assumed initial public offering price of \$ \_\_\_\_\_ per share, which is the midpoint of the estimated price range set forth on the cover page of this prospectus, after deducting the estimated underwriting discounts and commissions and other offering expenses payable by us, and (2) the repayment of an estimated \$ \_\_\_\_\_ million of outstanding term loans under the 2005 Credit Facility with a portion of the net proceeds of this offering.

You should read the following information together with the information contained in Selected consolidated financial data, Management's discussion and analysis of financial condition and results of operations and our consolidated financial statements and the accompanying notes appearing elsewhere in this prospectus.

| <b>Total stockholders' equity</b>  | <b>502,323</b>       |                          |   |
| <b>Total capitalization</b>  | <b>\$ 1,035,561</b>  | <b>\$</b>                | <b>\$</b>                                   |

- (1) A \$1.00 increase (decrease) in the assumed initial public offering price of \$      , which is the mid-point of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) each of the amount of cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$      , assuming the number of shares offered, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and other offering expenses payable by us. The pro forma information discussed above is illustrative only and following the closing of this offering will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing.
- (2) As of March 31, 2010, the dividend payable would have been approximately \$6.5 million. The actual amount of this dividend will differ based on the actual closing date of this offering.

The table above excludes:

as of June 30, 2010,      shares of common stock issuable upon the exercise of outstanding stock options at a weighted-average exercise price of \$      per share; and

2,700,000 shares of common stock reserved for future issuance under our 2010 Equity Compensation Plan.

**Table of Contents****Index to Financial Statements**

## Dilution

If you invest in shares of our common stock, your interest will be diluted to the extent of the difference between the initial public offering price per share of our common stock and the net tangible book value per share of our common stock upon the closing of this offering. Pro forma net tangible book value per share of common stock is determined by dividing the number of outstanding shares of common stock, after giving effect to (1) a -for- split of shares of our common stock immediately prior to the closing of this offering, (2) the automatic conversion of all outstanding shares of our convertible preferred stock into common stock immediately prior to the closing of this offering and (3) the issuance of shares of restricted stock to certain employees in June 2010 pursuant to restricted stock award agreements, into the net tangible book value attributable to our common stock, which is our total tangible assets less our total liabilities. After giving further effect to (1) the payment of accrued dividends on our Series D-3 convertible preferred stock, which are payable in connection with the conversion of such preferred stock into common stock, (2) the sale of shares of our common stock by us in this offering at an assumed initial public offering price of \$ per share, the midpoint of the range set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and commissions and other offering expenses payable by us and (3) the repayment of an estimated \$ million of outstanding term loans under the 2005 Credit Facility with a portion of the net proceeds of this offering, the adjusted pro forma net tangible book value attributable to shares of our common stock as of March 31, 2010 would have been approximately \$ , or \$ per share. This represents an immediate increase in pro forma net tangible book value of \$ per share to the holders of our existing common stock and an immediate dilution of \$ per share to new investors purchasing shares of common stock at the initial public offering price.

The following table illustrates this per share dilution:

|  |    |
|--|----|
| Assumed initial public offering price per share  | \$ |
| Pro forma net tangible book value per share as of March 31, 2010   | \$ |
| Increase in pro forma net tangible book value per share attributable to investors purchasing shares in this offering |    |
| Adjusted pro forma net tangible book value per share after this offering   |    |
| Dilution in net tangible book value per share to new investors   | \$ |

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ , which is the mid-point of the estimated price range set forth on the cover page of this prospectus, would increase (decrease): (1) our adjusted pro forma net tangible book value by \$ million; (2) our adjusted pro forma net tangible book value per common share by \$ ; and (3) the dilution in net tangible book value per common share to new investors in this offering by \$ , in each case, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and other offering expenses payable by us.

**Table of Contents**

**Index to Financial Statements**

The following table sets forth, as of March 31, 2010, the differences between the number of shares of common stock purchased from us, after giving effect to the conversion of our convertible preferred stock into common stock, the total price paid and average price per share paid by existing stockholders and by the new investors in this offering at an assumed initial public offering price of \$ \_\_\_\_\_ per share.

| Number                | Shares purchased |         | Total consideration |         | Average price |
|-----------------------|------------------|---------|---------------------|---------|---------------|
|                       | Number           | Percent | Amount              | Percent | per share     |
| Existing stockholders |                  | %       | \$                  | %       | \$            |
| New investors         |                  |         |                     |         |               |
| Total                 |                  | 100%    | \$                  | 100%    | \$            |

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_, which is the mid-point of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) total consideration paid by new investors and the total average price per share by approximately \$ \_\_\_\_\_ and \$ \_\_\_\_\_, respectively, assuming the number of shares offered, as set forth on the cover page of this prospectus, remains the same.

If the underwriters exercise their option to purchase up to \_\_\_\_\_ additional shares in full, the following will occur:

the number of shares of common stock held by existing stockholders will represent \_\_\_\_\_ % of the total number of shares of our common stock outstanding after this offering; and

the number of shares held by new investors will represent approximately \_\_\_\_\_ % of the total number of shares of our common stock outstanding after this offering.

The foregoing discussion and tables assume no exercise of stock options to purchase \_\_\_\_\_ shares of our common stock issuable upon the exercise of stock options outstanding as of March 31, 2010, at a weighted average exercise price of \$ \_\_\_\_\_ per share. To the extent that any options are exercised, new investors will experience further dilution.

## **Unaudited pro forma condensed consolidated financial information**

On April 1, 2009, FleetCor entered into an acquisition agreement to acquire all of the outstanding stock of CLC Group, Inc. and subsidiaries which we refer to in this prospectus as the CLC Acquisition. The total consideration for this acquisition was \$169.1 million, consisting of cash paid of \$161.1 million and the issuance of \$8 million of our Series E convertible preferred stock.

The unaudited pro forma condensed consolidated statement of income for the year ended December 31, 2009 has been derived from the application of pro forma adjustments to our historical audited consolidated financial statements for the year ended December 31, 2009 and CLC Group, Inc. and subsidiaries' unaudited financial statements for the quarter ended March 31, 2009 and gives effect to the CLC Acquisition as if it occurred on January 1, 2009. The unaudited pro forma condensed consolidated statement of income for the quarter ended March 31, 2009 has been derived from the application of pro forma adjustments to our historical unaudited consolidated financial statements for the quarter ended March 31, 2009 and CLC Group, Inc. and subsidiaries' unaudited financial statements for the quarter ended March 31, 2009 and gives effect to the CLC Acquisition as if it occurred on January 1, 2009. The acquisition was accounted for as a purchase in accordance with the authoritative guidance related to business combinations. The purchase price allocation is not complete because we are in the process of developing a valuation of identifiable intangible assets and tangible assets with assistance from an independent third party. We have not included pro forma balance sheet information because our consolidated balance sheet, as of December 31, 2009, reflects the effect of the CLC Acquisition.

The unaudited pro forma condensed consolidated statement of income does not purport to represent what our results of operations would have been if the CLC Acquisition had occurred on January 1, 2009 and are not intended to project our results of operations for any future period. The unaudited pro forma adjustments are based on estimates, available information and certain assumptions that we believe are reasonable and may be revised as additional information becomes available. The pro forma adjustments and principal assumptions are described in the accompanying notes. You should read this table together with the discussion under the headings "Selected consolidated financial data" and "Management's discussion and analysis of financial condition and results of operations" and CLC Group, Inc. and subsidiaries consolidated financial statements and the related notes included elsewhere in this prospectus.

(a) Represents additional amortization of intangible assets recorded in connection with the purchase price allocation of the CLC Acquisition computed as follows:

|  |          |
|--|----------|
| Amortization of intangible assets based on purchase price allocation   | \$ 1,069 |
| Amortization of intangible assets included in CLC Group, Inc. and subsidiaries historical financial statements | 600      |
| Additional amortization expense  | \$ 469   |

- (b) Represents a reduction in the provision for income taxes for the additional amortization expense recorded that related to intangible assets in connection with the CLC Group, Inc. and subsidiaries purchase price allocation.

**Table of Contents****Index to Financial Statements****Selected consolidated financial data**

We derived the consolidated statement of income and other financial data for the years ended December 31, 2009, 2008 and 2007 and the selected consolidated balance sheet data as of December 31, 2009 and 2008 from the audited consolidated financial statements included elsewhere in this prospectus. The consolidated statement of income data for the quarters ended March 31, 2010 and 2009 as well as the consolidated balance sheet data as of March 31, 2010 are derived from our unaudited consolidated financial statements that are included elsewhere in this prospectus. We derived the selected historical financial data for the years ended December 31, 2006 and 2005 and the selected consolidated balance sheets as of December 31, 2007, 2006 and 2005 from our audited consolidated financial statements that are not included in this prospectus.

The selected consolidated financial data set forth below should be read in conjunction with Management's discussion and analysis of financial condition and results of operations and our audited consolidated financial statements and notes thereto included elsewhere in this prospectus. The unaudited consolidated financial statements include, in the opinion of management, all adjustments, which include only normal recurring adjustments, that management considers necessary for the fair presentation of the financial information set forth in those statements. Our historical results are not necessarily indicative of the results to be expected in any future period.

- (1) In June 2009, the Financial Accounting Standards Board, or FASB, issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. This guidance was effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, our statements of income will no longer include securitization activities in revenue. Rather, we will report interest income, provision for bad debts and interest expense associated with the debt securities issued from our securitization facility.
- (2) Pro forma to give effect to (1) the conversion of all outstanding shares of our convertible preferred stock into shares of our common stock immediately prior to the completion of this offering, (2) the forgiveness of all cumulative dividends except for a portion of the dividends related to Series D-3 convertible preferred stock where holders will receive cash dividends of approximately \$6.5 million on our convertible preferred stock calculated as of March 31, 2010, (3) a -for- stock split of shares of our common stock to be effected prior to the closing of this offering, (4) the issuance of shares of restricted stock to certain employees in June 2010 pursuant to restricted stock award agreements and (5) compensation expense of approximately \$ million related to shares of restricted stock which will vest upon the closing of this offering (assuming the price to the public is at the midpoint of the estimated price range set forth on the cover page of this prospectus).
- (3) No cash and cash equivalents were maintained at December 31, 2005 due to a negative cash balance, which was classified as accounts payable. Further, there was no restricted cash at December 31, 2005 as restricted cash relates to acquisitions we made in 2006.
- (4) Restricted cash represents customer deposits repayable on demand.

## **Management's discussion and analysis of financial condition and results of operations**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and related notes appearing elsewhere in this prospectus. In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause actual results to differ materially from management's expectations. Factors that could cause such differences include, but are not limited to, those identified below and those described in Risk factors appearing elsewhere in this prospectus. All foreign currency amounts that have been converted into U.S. dollars in this discussion are based on the exchange rate as reported by Oanda for the applicable periods. In this prospectus, when we refer to consolidated revenue, the provision for bad debts and interest expense on a managed basis, in each case, for the periods between January 1, 2005 and December 31, 2009, such amounts have been adjusted for the impact of the new accounting guidance related to our securitization facility as further discussed below. For the periods prior to January 1, 2005, we did not maintain a securitization facility. The term managed basis is used throughout Management's discussion and analysis of financial condition and results of operations.

### **Overview**

FleetCor is a leading independent global provider of specialized payment products and services to commercial fleets, major oil companies and petroleum marketers. We serve more than 530,000 commercial accounts in 18 countries in North America, Europe, Africa and Asia, and we had approximately 2.5 million commercial cards in use during the month of December 2009. Through our proprietary payment networks, our cards are accepted at approximately 83,000 locations in North America and Europe. In 2009, we processed approximately \$14 billion in purchases on our proprietary networks and third-party networks. We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. We sell these products and services directly and indirectly through partners with whom we have strategic relationships, such as major oil companies and petroleum marketers. We refer to these major oil companies and petroleum marketers as our partners. We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging and related products and services at participating locations. Our payment programs enable businesses to better manage and control employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty.

In order to deliver our payment programs and services and process transactions, we own and operate six proprietary closed-loop networks through which we electronically connect to merchants and capture, analyze and report customized information. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall fleet operating costs.

FleetCor's predecessor company was organized in the United States in 1986. In 2000, our current chief executive officer joined us and we changed our name to FleetCor Technologies, Inc. Since 2000, we have grown significantly through a combination of organic initiatives, product and service innovation and over 40 acquisitions of businesses and commercial account portfolios. We have grown our revenue from \$30.7 million in

**Table of Contents****Index to Financial Statements**

2001 to \$381.3 million on a managed basis in 2009, representing a compound annual growth rate of 37.0%. In 2009, we generated 35.8% of our revenue from our international operations, compared to none in 2005. In addition, we have grown our net income from a net loss of \$12.6 million in 2000 to net income of \$89.1 million in 2009. Our corporate headquarters are located in Norcross, Georgia. As of December 31, 2009, we employed approximately 1,130 employees, approximately 650 of whom were located in the United States.

**Our segments, sources of revenue and expenses*****Segments***

We operate in two segments, which we refer to as our North American and International segments. Our revenue is reported net of the wholesale cost for underlying products and services. In this prospectus, we refer to this net revenue as revenue. For the years ended December 31, 2009, 2008, 2007 and 2006, and the quarters ended March 31, 2010 and 2009, our North American and International segments generated the following revenue:

| (dollars in millions) | Quarter ended March 31, 2010 |            |         |            | 2009     |            |          |            | 2008     |            |          |            | Year ended December 31, 2007 |            | 2006    |            |

***Sources of Revenue***

**Transactions.** In both of our segments, we derive revenue from transactions and the related revenue per transaction. As illustrated in the diagram below, a transaction is defined as a purchase by a customer. Our customers include holders of our card products and those of our partners, for whom we manage card programs. Revenue from transactions is derived from our merchant and network relationships as well as our customers and partners. Through our merchant and network relationships we primarily offer fuel, vehicle maintenance or lodging services to our customers. We also earn revenue from our customers and partners through program fees and charges. The following diagram illustrates a typical

transaction flow.

**Table of Contents****Index to Financial Statements****Illustrative Transaction Flow**

From our merchant and network relationships, we derive revenue from the difference between the price charged to a customer for a transaction and the price paid to the merchant or network for the same transaction. As illustrated in the table below, the price paid to a merchant or network may be calculated as (i) the merchant's wholesale cost of fuel plus a markup; (ii) the transaction purchase price less a percentage discount; or (iii) the transaction purchase price less a fixed fee per unit. The difference between the price we pay to a merchant and the merchant's wholesale cost for the underlying products and services is considered a merchant commission and is recognized as an expense. Approximately 46.0% and 44.5% of our revenue during 2009 and the first quarter of 2010, respectively, was derived from our merchant and network relationships.

| FleetCor Revenue                  | \$ 0.14   |                                 |         |                                 |         |                        |         |
| Merchant Commission               | \$ (0.05) | Price Paid to Merchant          | \$ 2.91 | Price Paid to Merchant          | \$ 2.91 | Price Paid to Merchant | \$ 2.91 |
| Price Paid to Merchant            | \$ 2.91   |                                 |         |                                 |         |                        |         |

From our customers and partners, we derive revenue from a variety of program fees including transaction fees, card fees, network fees and report fees. Our payment programs include other fees and charges associated with late payments and based on customer credit risk. Approximately 54.0% and 55.5% of our revenue during 2009 and the first quarter of 2010, respectively, was derived from customer and partner program fees and charges.

**Table of Contents****Index to Financial Statements**

**Transaction volume and revenue per transaction.** Set forth below is revenue per transaction information for the years ended December 31, 2009, 2008 and 2007 and the quarters ended March 31, 2010 and 2009:

|  | Quarter ended March 31, |             |              | Year ended December 31, |              |              |

| Managed consolidated revenue per transaction | N/A(1)                  | \$ 1.81     | \$ 1.97      | \$ 2.02                 | \$ 1.84      | \$ 1.45      |

(1) As a result of the adoption of authoritative accounting guidance, effective January 1, 2010, our statements of income no longer include securitization activities in revenues and therefore this presentation is not applicable for this period.

For the quarters ended March 31, 2009 and 2010, transactions increased from 42.5 million to 47.4 million, an increase of 4.9 million, or 11.5%. We experienced an increase in transactions in our North American segment due to our acquisition of CLC Group, Inc. and subsidiaries, in April 2009, and organic growth in certain payment programs. We experienced an increase in transactions in our International segment due to the impact of acquisitions completed in 2009 and organic growth in certain payment programs.

From 2008 to 2009 transactions increased from 189.3 million to 193.9 million, an increase of 4.6 million or 2.4%. We experienced a decrease in transactions in our North American segment due primarily to a reduction in transactions by existing customers that we believe was a result of the economic downturn, partially offset by our acquisition of CLC Group, Inc., in April 2009, and organic growth in certain payment programs. We experienced an increase in transactions in our International segment due to the full year impact of acquisitions completed in 2008 and new acquisitions in 2009. Transactions increased from 158.4 million in 2007 to 189.3 million in 2008, an increase of 30.9 million or 19.5%. The increase was due primarily to organic growth in the business and acquisitions in our International segment.

Revenue per transaction is derived from the various revenue types as discussed above and can vary based on geography, the relevant merchant relationship, the payment product utilized and the types of products or services purchased, the mix of which would be influenced by our acquisitions, organic growth in our business, and fluctuations in foreign currency exchange rates. The revenue per transaction in the International segment runs higher than the North America segment due primarily to higher margins and higher fuel prices in our international product lines. International revenue per transaction has decreased from 2007 to 2009 in part due to changes in foreign exchange rates and the impact of an acquisition completed in 2008 that carries a lower fee per transaction based on the relevant card products associated with this acquisition.

**Table of Contents**

**Index to Financial Statements**

Our consolidated revenue per transaction increased from \$1.60 for the quarter ended March 31, 2009 to \$2.20 for the quarter ended March 31, 2010. During the quarter ended March 31, 2010, our consolidated revenue increased by \$9.2 million, or \$0.19 per transaction, as a result of the adoption of authoritative accounting guidance related to our asset securitization facility as further discussed in Note 2 Summary of significant accounting policies in the notes to our consolidated financial statements. Our consolidated revenue per transaction was also positively impacted by:

acquisitions completed during 2009, that carried a higher rate per transaction due to the relevant card products associated with these acquisitions;

higher program fees and charges in certain payment programs; and

the weakening of the U.S. dollar during the quarter ended March 31, 2010, relative to other foreign currencies, which resulted in favorable foreign exchange rates that increased our revenue per transaction for the quarter ended March 31, 2010.

Our consolidated revenue per transaction increased from \$1.80 in 2008 to \$1.83 in 2009. During 2009, our consolidated revenue per transaction was positively impacted by:

acquisitions completed during 2009, that carried a higher rate per transaction due to the relevant card products associated with these acquisitions; and

higher program fees and charges primarily resulting from the full-year impact of the implementation of a private label contract on our proprietary system.

During 2009, our consolidated revenue per transaction was negatively impacted by a range of factors, including:

the strengthening of the U.S. dollar during 2009, relative to other foreign currencies, which resulted in unfavorable foreign exchange rates that reduced our 2009 revenue per transaction;

the wholesale price of fuel decreased at a higher rate than the retail price of fuel during the second half of 2008 causing the margin between the wholesale cost of fuel and the retail price of fuel in 2008 to expand beyond historical levels. In 2009, fuel price spreads returned to historical levels; and

the average retail price of fuel in 2009 was significantly lower than the average retail price of fuel in 2008, which resulted in a decrease in our 2009 revenue per transaction.

Our consolidated revenue per transaction increased from \$1.67 in 2007 to \$1.80 in 2008. During 2008, our revenue per transaction was positively impacted by:

higher program fees and charges primarily resulting from the full-year impact of a private label contract and organic growth in our existing business; and

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

the wholesale price of fuel decreased at a higher rate than the retail price of fuel during the second half of 2008 causing the margin between the wholesale cost of fuel and the retail price of fuel in 2008 to expand beyond historical levels;

the average retail price of fuel in 2008 was significantly higher than the average retail price of fuel in 2007, which resulted in an increase in our 2008 revenue per transaction; and

the weakening of the U.S. dollar during 2008, relative to foreign currencies, which resulted in favorable foreign exchange rates that increased our 2008 consolidated revenue per transaction.

## **Table of Contents**

### **Index to Financial Statements**

During 2008, our consolidated revenue per transaction was negatively impacted by:

an acquisition completed during 2008, that carried a lower rate per transaction due to the relevant card products associated with the acquisition.

#### ***Sources of expenses***

We incur expenses in the following categories:

*Merchant commissions* We incur merchant commissions expenses when we reimburse merchants with whom we have direct, contractual relationships in respect of specific transactions in which a customer purchases products or services from the merchant. Merchant commission equals the difference between the price paid by us to the merchant and the merchant's wholesale cost of the underlying products or services.

*Processing* Our processing expense consists of expenses related to processing transactions, servicing our customers and merchants and bad debt expense related to non-securitized accounts receivable.

*Selling* Our selling expenses consist primarily of wages, benefits, sales commissions (other than merchant commissions) and related expenses for our sales, marketing and account management personnel and activities.

*General and administrative* Our general and administrative expenses include compensation and related expenses (including stock-based compensation) for our executive, finance and accounting, information technology, human resources, legal and other administrative personnel. Also included are facilities expenses, third-party professional services fees, travel and entertainment expenses, and other corporate-level expenses.

*Depreciation and amortization* Our depreciation and amortization expenses include depreciation of property and equipment, consisting of computer hardware and software (including proprietary software development expense), card-reading equipment, furniture, fixtures, vehicles and buildings and leasehold improvements related to office space. Our amortization expenses include intangible assets related to customer and vendor relationships, tradenames and trademarks, non-compete agreements and software. We are amortizing intangible assets related to business acquisitions and certain private label contracts associated with the purchase of accounts receivable.

*Other income, net* Other income, net includes foreign currency transaction gains or losses, revenue/costs from the sale of assets and other miscellaneous operating costs and revenue.

*Interest expense, net* Interest expense, net includes interest income on our cash balances and interest expense on our outstanding debt and excludes interest on our securitization facility. We have historically invested our cash primarily in short-term money market funds.

*Provision for income taxes* The provision for income taxes consists primarily of corporate income taxes related to profits resulting from the sale of our products and services in the United States and internationally. Our worldwide effective tax rate is lower than the U.S. statutory rate of 35%, due primarily to lower rates in foreign jurisdictions and foreign-sourced non-taxable income.

### **Factors and trends impacting our business**

We believe that the following factors and trends are important in understanding our financial performance:

*Fuel prices* Our fleet customers use our products and services primarily in connection with the purchase of fuel. Accordingly, our revenue is affected by fuel prices, which are subject to significant volatility. A change in retail fuel prices could cause a decrease or increase in our revenue from several sources, including fees paid to us based on a percentage of each customer's total purchase. We believe that in 2009, approximately 19.1%

## **Table of Contents**

### **Index to Financial Statements**

of our consolidated revenue on a managed basis was directly influenced by the absolute price of fuel. Changes in the absolute price of fuel may also impact unpaid account balances and the late fees and charges based on these amounts.

*Fuel-price spread volatility* A portion of our revenue involves transactions where we derive revenue from fuel-price spreads, which is the difference between the price charged to a fleet customer for a transaction and the price paid to the merchant for the same transaction. In these transactions, the price paid to the merchant is based on the wholesale cost of fuel. The merchant's wholesale cost of fuel is dependent on several factors including, among others, the factors described above affecting fuel prices. The fuel price that we charge to our customer is dependent on several factors including, among others, the fuel price paid to the merchant, posted retail fuel prices and competitive fuel prices. We experience fuel-price spread contraction when the merchant's wholesale cost of fuel increases at a faster rate than the fuel price we charge to our customers, or the fuel price we charge to our customers decreases at a faster rate than the merchant's wholesale cost of fuel. Approximately 18.6% of our consolidated revenue on a managed basis in 2009 was derived from transactions where our revenue is tied to fuel-price spreads.

*Acquisitions* Since 2002, we have completed over 40 acquisitions of companies and commercial account portfolios. Acquisitions have been an important part of our growth strategy, and it is our intention to continue to seek opportunities to increase our customer base and diversify our service offering through further strategic acquisitions. The impact of acquisitions has, and may continue to have, a significant impact on our results of operations and may make it difficult to compare our results between periods.

*Interest rates* Our results of operations are affected by interest rates. We are exposed to market risk changes in interest rates on our cash investments and debt.

*Global economic downturn* Our results of operations are materially affected by conditions in the economy generally, both in North America and internationally. Factors affected by the economy include our transaction volumes and the credit risk of our customers. These factors affected our businesses in both our North American and International segments.

*Foreign currency changes* Our results of operations are impacted by changes in foreign currency rates; namely, by movements of the British pound, the Czech koruna, the Russian rouble, the Canadian dollar and the Euro relative to the U.S. dollar. Approximately 64% of our revenue in 2009 was derived in U.S. dollars and was not affected by foreign currency exchange rates.

*Expenses* In connection with being a public company and complying with the Sarbanes-Oxley Act of 2002, we expect our general and administrative expense to increase and then remain relatively constant or increase slightly as a percentage of revenue. Over the long term, we expect that our general and administrative expense will decrease as a percentage of revenue as our revenue increases. To support our expected revenue growth, we plan to continue to incur additional sales and marketing expense by investing in our direct marketing, third-party agents, internet marketing, telemarketing and field sales force.

### **Accounts receivable securitization**

We utilize an off-balance sheet securitization facility in the ordinary course of our business to finance a portion of our accounts receivable. Our off-balance sheet activity utilizes a qualified special-purpose entity, or QSPE, in the form of a limited liability company. The QSPE raises funds by issuing debt to third-party investors. The QSPE holds trade accounts receivable whose cash flows are the primary source of repayment for the liabilities of the QSPE. Investors only have recourse to the assets held by the QSPE. Our involvement in these arrangements takes the form of originating accounts receivable and providing servicing activities. Accounts receivable that we sell under the securitization facility are reported in our consolidated financial statements in accordance with

**Table of Contents****Index to Financial Statements**

relevant authoritative literature. Trade accounts receivable sold under this program are excluded from accounts receivable in our consolidated financial statements.

In June 2009, the Financial Accounting Standards Board, or FASB, issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. The concept of a QSPE entity, which had previously facilitated sale accounting for certain asset transfers, is removed by this standard. This guidance was effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, we consolidate the QSPE and the securitization of accounts receivable related to the QSPE are accounted for as a secured borrowing rather than as a sale. Accordingly, we record accounts receivable and short-term debt related to the securitization facilities as assets and liabilities on our balance sheet. In addition, our statements of income no longer includes securitization activities in revenue. Rather, we report provision for bad debts and interest expense associated with the debt securities issued by the QSPE.

As a result of the implementation of this guidance, at March 31, 2010, we had \$196 million of accounts receivable and short-term debt on our balance sheet. See Note 2 Summary of significant accounting policies to our consolidated financial statements included herein for further details.

Although bad debt and interest associated with our securitization facility were reported in revenue for the periods prior to January 1, 2010, we monitored these costs on a managed basis. The following table presents certain statement of income items adjusted for the impact of the new accounting guidance described above related to our securitization facility.

| (in millions)         | Quarter ended<br>March 31,<br>2009 |       |                |                |         |                |                |        | Year ended<br>December 31,<br>2007 |                |         |                |

For periods prior to the year ended December 31, 2005, we did not maintain an asset securitization facility. Our revenue for the years ended December 31, 2004, 2003, 2002 and 2001 equaled \$100.0 million, \$72.6 million, \$43.2 million and \$30.7 million, respectively.

**Table of Contents****Index to Financial Statements**

Managed provision for bad debts as a percentage of gross billed revenue is as follows (dollar amounts in millions):

|   | Quarter ended<br>March 31,<br>2009 | 2009    | 2008   | 2007   | Year ended<br>December 31,<br>2006 |
|---|------------------------------------|---------|--------|--------|------------------------------------|
| Provision for bad debt included in:   |                                    |         |        |        |                                    |
| Processing expense  | \$ 3.4                             | \$ 10.7 | \$ 7.5 | \$ 3.7 | \$ 4.8                             |
| Revenue, net  | 7.9                                | 21.9    | 27.4   | 11.3   | 10.4                               |
| Managed provision for bad debts   | 11.3                               | 32.6    | 34.9   | 15.0   | 15.2                               |
| Managed provision for bad debts as a percentage of gross billed revenue (1) | 0.74%                              | 0.56%   | 0.43%  | 0.36%  | 0.43%                              |

- (1) In this table, gross billed revenue represents revenue billed to customers, when our card products are utilized, for which we bear credit risk and includes the costs underlying the transaction (e.g. fuel and lodging). Gross billed revenue is calculated on a one quarter lag. For example, gross billed revenue for the year ended December 31, 2007 is calculated as gross billed revenue for the three months ended December 31, 2006 plus gross billed revenue for the nine month period from January 1, 2007 through September 30, 2007. We believe this calculation better matches our provision for bad debts with the related gross billed revenue. For the quarter ended March 31, 2010 the provision for bad debts was \$5.3 million, or 0.35%, as a percentage of gross billed revenue.

**Acquisitions**

During 2009, we acquired three companies the two largest of which are described below. The results of CLC Group, Inc. and its subsidiaries since the date of acquisition are included within our North American segment. The results of operations for the remaining acquisitions are included in our International segment from their respective dates of acquisition.

In April 2009, we completed the acquisition of all of the outstanding stock of CLC Group, Inc., a provider of lodging management programs based in Wichita, Kansas, which we refer to as the CLC Acquisition in this prospectus. The aggregate purchase price was \$169.1 million, \$161.1 million paid in cash and \$8.0 million paid in the form of our Series E convertible preferred stock. Through this acquisition, we entered the lodging payments business. The consolidated financial statements of CLC Group, Inc. and its subsidiaries for 2008 are included elsewhere in this prospectus and pro forma adjustments to our historical results of operations for the year ended December 31, 2009, to give effect to the CLC Acquisition as if it occurred on January 1, 2009, are included in this prospectus under the caption Unaudited Pro Forma Condensed Consolidated Financial Information.

In August 2009, we completed the acquisition of all of the outstanding shares of ReD Fuel Cards (Europe) Limited, a fleet card company based in the United Kingdom, which we refer to as the ReD Acquisition in this prospectus. The aggregate purchase price was \$62.9 million (based on the exchange rate on the date of acquisition). As a result of this acquisition, we expanded our commercial fleet card offerings in the United Kingdom and Ireland.

During 2008, we acquired four companies, the three largest of which are discussed below. The results of operations for these acquisitions are included in our International segment from their respective dates of acquisition.

In March 2008, we completed the acquisition of all of the outstanding shares of Abbey Group (OXON) Limited, a fleet card company based in the United Kingdom, and affiliated entities, for an aggregate purchase price of \$15.0 million (based on the exchange rate on the date of the acquisition).

**Table of Contents****Index to Financial Statements**

In June 2008, we completed the acquisition of all of the outstanding shares of ICP International Card Products B.V., or ICP, a payment transaction processing company based in the Netherlands, for an aggregate cash purchase price of \$5.9 million (based on the exchange rate on the date of the acquisition). As a result of this acquisition, we expanded our processing services for major oil companies in Europe, Asia and Africa.

In July 2008, we completed the acquisition of all of the outstanding shares of Petrol Plus Region, an independent fuel card provider based in Russia, and an affiliated entity, for an aggregate purchase price of \$49.0 million. As a result of this acquisition, we have become the leading independent fuel card company in Russia with additional operations in Poland, Lithuania, Latvia and Estonia.

In April 2007, we completed the acquisition of all of the outstanding shares of Fambo UK Limited, a fuel card company based in the United Kingdom, for an aggregate purchase price of \$34.3 million (based on the exchange rate on the date of the acquisition). The results of operations for this acquisition are included in the consolidated results of operations of our International segment from the date of acquisition.

**Results of operations****Year ended December 31, 2009 compared to the year ended December 31, 2008**

The following table sets forth selected consolidated statement of operations data for the years ended December 31, 2009 and 2008 (dollars in millions).

**Table of Contents**

**Index to Financial Statements**

***Revenue***

Our consolidated revenue increased from \$341.1 million in 2008 to \$354.1 million in 2009, an increase of \$13.0 million, or 3.8%. During 2009, our consolidated revenue was positively impacted by:

acquisitions completed during 2009, which represented an aggregate of \$45.5 million in revenue from their respective dates of acquisition;

acquisitions completed during 2008, which contributed an aggregate of \$7.2 million in revenue in 2009 in excess of revenue recognized in 2008 (excluding the impact of foreign exchange rate fluctuations); and

higher program fees and charges from our existing customers, including the full-year impact of the implementation of a private label contract on our proprietary system, which contributed approximately \$14.9 million of revenue year over year.

During 2009, our consolidated revenue was negatively impacted by a range of factors, including:

the strengthening of the U.S. dollar during 2009, relative to other foreign currencies, which resulted in unfavorable foreign exchange rates as compared to 2008 that reduced our revenue in 2009 by \$18.1 million;

lower transaction volumes during 2009 due primarily to the impact of the economic downturn;

a decrease in the wholesale price of fuel at a higher rate than the retail price of fuel during the second half of 2008, causing the margin between the wholesale cost of fuel and the retail price of fuel to expand beyond historical levels. We believe the differential contributed incremental revenue of approximately \$9 million in 2008 relative to revenue in 2009. Fuel-price spread margins returned to more historical levels in 2009; and

the average retail price of fuel was lower in 2009 as compared to 2008. We believe that the lower average retail price of fuel in 2009 reduced revenue by approximately \$10 million.

***North American segment revenue***

North American revenue increased from \$205.5 million in 2008 to \$227.4 million in 2009, an increase of \$21.9 million, or 10.7%. The increase in our North American revenue was due primarily to:

the impact of nine months of revenue following the CLC Acquisition in April 2009, the results of which were reported in our results of operations from the date of acquisition and represented \$37.1 million in revenue;

the loss on sales of receivables to the securitization facility, which on a managed basis represents interest on the securitization facility and bad debt expense on the securitized accounts receivable, decreased from \$43.2 million in 2008 to \$27.2 million in 2009, resulting in a lower adjustment to revenue of \$16.0 million in 2009 versus 2008; and

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

\$14.9 million in higher program fees and charges from our existing customers, including the full-year impact of the implementation of a private label contract on our proprietary system.

The increase in North American revenue was primarily offset by:

a decrease in the wholesale price of fuel at a higher rate than the retail price of fuel during the second half of 2008, causing the margin between the wholesale cost of fuel and the retail price of fuel to expand beyond historical levels. We believe the differential contributed incremental revenue of approximately \$9 million in 2008 relative to revenue in 2009. Fuel-price spread margins returned to more historical levels in 2009;

the average retail price of fuel was lower in 2009 as compared to 2008. We believe that the lower average retail price of fuel in 2009 reduced revenue by approximately \$10 million; and

**Table of Contents**

**Index to Financial Statements**

lower transaction volumes, which we believe resulted from the economic downturn.

***International segment revenue***

International segment revenue decreased from \$135.6 million in 2008 to \$126.7 million in 2009, a decrease of \$8.9 million, or 6.6%. The decrease in International segment revenue was due primarily to the following:

the strengthening of the U.S. dollar during 2009, relative to foreign currencies, which resulted in unfavorable foreign exchange rates that reduced our revenue in 2009 by \$18.1 million; and

lower transaction volumes, which we believe resulted from the economic downturn.

The decrease in International segment revenue was partially offset by:

the full-year impact of acquisitions completed during 2008 and the partial-year impact of acquisitions completed during 2009, which represented an aggregate increase in revenue of \$15.7 million in 2009; and

higher revenue per transaction from our existing card products as compared to 2008.

***Consolidated operating expenses***

***Merchant commissions.*** Merchant commissions increased from \$38.5 million in 2008 to \$39.7 million in 2009, an increase of \$1.2 million, or 3.0%. This increase was due primarily to acquisitions completed during 2009 which added \$6.2 million in expense, partially offset by the favorable impact of foreign exchange rates of \$3.3 million, and lower transaction volumes by existing customers, which we believe were due to the economic downturn.

***Processing.*** Processing expenses increased from \$51.4 million in 2008 to \$58.0 million in 2009, an increase of \$6.6 million, or 12.8%. This increase was due primarily to the impact of acquisitions completed during 2009 of \$7.7 million and an increase of \$0.5 million for bad debt related to non-securitized accounts receivable due to a higher percentage of uncollectible accounts. These increases were partially offset by the favorable impact of foreign exchange rates of \$1.0 million and lower servicing costs of \$2.4 million due to operating efficiencies.

***Selling.*** Selling expenses increased from \$23.8 million in 2008 to \$30.6 million in 2009, an increase of \$6.8 million, or 28.6%. The increase was due primarily to the impact of acquisitions completed during 2009 of \$3.5 million and additional sales and marketing expense of \$4.1 million to increase sales production. These increases were partially offset by the favorable impact of foreign exchange rates of \$0.7 million.

***General and administrative.*** General and administrative expense increased from \$47.6 million in 2008 to \$51.4 million in 2009, an increase of \$3.8 million, or 8.0%. An increase of \$9.2 million was attributable to acquisitions completed during 2009. This increase was partially offset by the favorable impact of foreign exchange rates of \$3.7 million and operating efficiencies that we believe reduced expenses by \$2.2 million.

***Depreciation and amortization.*** Depreciation and amortization increased from \$27.2 million in 2008 to \$28.4 million in 2009, an increase of \$1.2 million, or 4.4%. An increase of \$5.7 million was attributable to acquisitions completed during 2009 due primarily to the amortization of intangible assets related to customer and vendor relationships, tradenames and trademarks, non-compete agreements and software. This increase was partially offset by the impact of a contract that became fully amortized during 2008 and represented \$5.9 million of additional amortization in 2008.

---

**Table of Contents****Index to Financial Statements*****Operating income and operating margin******Consolidated operating income***

Operating income decreased from \$152.5 million in 2008 to \$146.0 million in 2009, a decrease of \$6.5 million, or 4.3%. Our operating margin was 44.7% and 41.2% for 2008 and 2009, respectively. The decrease in operating income and margin from 2008 to 2009 was due primarily to the impact of lower price-spread revenue during 2009 relative to the higher than normal fuel-price spreads experienced during the second half of 2008, the unfavorable impact of foreign exchange rates in 2009 compared to 2008, lower average retail price of fuel in 2009 compared to 2008 and a decrease in transaction volumes as a result of the global economic downturn.

For the purpose of segment operations, we calculate segment operating income by subtracting segment operating expenses from segment revenue. Similarly, segment operating margin is calculated by dividing segment operating income by segment revenue.

***North American segment operating income***

North American operating income increased from \$88.3 million in 2008 to \$91.7 million in 2009, an increase of \$3.4 million, or 3.9%. North American operating margin was 42.9% and 40.4% for 2008 and 2009, respectively. The increase in operating income from 2008 to 2009 was due primarily to the impact of the CLC Acquisition, which we completed in April 2009, and organic growth in our rate per transaction during 2009 compared to 2008. These factors were partially offset by lower fuel-price spread revenue in 2009 compared to 2008 due to higher than normal fuel-price spreads in the second half of 2008, a lower average retail price of fuel in 2009 compared to 2008 and a decrease in transaction volumes, which we believe resulted from the economic downturn. Operating margin decreased from 2008 to 2009 due primarily to lower fuel-price spread revenue in 2009 as discussed above without a corresponding decrease in our operating expenses. As a result, the higher than normal revenues in 2008 increased operating margin in that year by approximately 3%.

***International segment operating income***

International operating income decreased from \$64.2 million in 2008 to \$54.3 million in 2009, a decrease of \$9.9 million, or 15.4%. International operating margin was 47.3% and 42.9% for 2008 and 2009, respectively. The decrease in operating income and margin from 2008 to 2009 was due primarily to the impact of foreign exchange rates and lower transaction volumes as a result of the economic downturn. These factors were partially offset by the impact of completed acquisitions during 2009 and the full year impact of the acquisitions completed during 2008.

***Other income, net***

Other income decreased from \$2.5 million in 2008 to \$0.9 million in 2009, a decrease of \$1.6 million, or 64.0%. The decrease was due primarily to the reversal of a previously-recorded litigation reserve of \$1.1 million in 2008 and losses on foreign currency transactions of \$0.5 million in 2009.

***Interest expense, net***

Interest expense, net reflects the amount of interest paid on our 2005 Credit Facility and CCS Credit Facility described below under the headings 2005 Credit Facility and CCS Credit Facility, respectively, offset by interest income. Interest expense decreased from \$20.3 million in 2008 to \$17.4 million in 2009, a decrease of \$2.9 million, or 14.3%. The decrease from 2008 to 2009 resulted from lower average interest rates during 2009 than experienced during 2008. The average interest rate (including the effect of interest rate derivatives) on the

**Table of Contents****Index to Financial Statements**

2005 Credit Facility was 5.13% in 2009 versus 6.19% in 2008. The average interest rate on the CCS Credit Facility was 3.81% in 2009 versus 5.82% in 2008.

***Provision for income taxes***

The provision for income taxes increased from \$37.4 million in 2008 to \$40.6 million in 2009, an increase of \$3.2 million, or 8.6%. The increase from 2008 to 2009 was due primarily to an increase in our effective tax rate from 27.8% in 2008 to 31.3% in 2009. The increase in our effective tax rate was due primarily to the increase in valuation allowances on state net operating losses. As of December 31, 2009, we had net operating loss carryforwards for state income tax purposes of approximately \$53.0 million, which are available to offset future state taxable income through 2021. A valuation allowance was made against our state net operating loss carryforwards, the cumulative effect of which was recognized as an increase in tax expense of approximately \$0.9 million for 2009. Additionally, part of the increase was due to acquisition-related costs, which were expensed for accounting purposes but capitalized for tax purposes, and the mix of earnings between domestic and foreign jurisdictions with differing tax rates.

***Net income***

For all the reasons discussed above, our net income decreased from \$97.3 million in 2008 to \$89.1 million in 2009, a decrease of \$8.2 million, or 8.4%.

**Year ended December 31, 2008 compared to the year ended December 31, 2007**

The following table sets forth selected consolidated statement of operations data for the years ended December 31, 2008 and 2007 (dollars in millions).

|                                  | Year<br>ended<br>December 31,<br>2008 | % of total<br>revenue | Year<br>ended<br>December 31,<br>2007 | % of total<br>revenue | Increase<br>(decrease) | % change |

**Table of Contents**

**Index to Financial Statements**

***Revenue***

Our consolidated revenue increased from \$264.1 million in 2007 to \$341.1 million in 2008, an increase of \$77.0 million, or 29.2%. During 2008, our consolidated revenue was positively impacted by:

acquisitions of businesses during 2008, which represented an aggregate of \$15.1 million in revenue from their respective dates of acquisition;

acquisitions of businesses and a commercial account portfolio completed during 2007, which contributed an aggregate of \$7.6 million in 2008 in excess of revenue recognized in 2007;

higher program fees and other fees and charges primarily resulting from the full-year impact of a private label contract and higher fees for a number of our commercial account portfolios;

the decrease in the wholesale price of fuel at a higher rate than the retail price of fuel during the second half of 2008, which caused the margin between the wholesale cost of fuel and the retail price of fuel to expand beyond historical levels and which we believe contributed incremental revenue of approximately \$23 million relative to revenue in 2007; and

the average retail price of fuel was higher in 2008 as compared to 2007. We believe that the higher average retail price of fuel in 2008 increased revenue by approximately \$7 million.

Our consolidated revenue was also negatively impacted during 2008 by lower transaction volumes which we believe resulted from the economic downturn.

***North American segment revenue***

Revenue increased from \$161.4 million in 2007 to \$205.5 million in 2008, an increase of \$44.1 million, or 27.3%. The increase in revenue was due primarily to:

higher program fees and other fees and charges primarily as a result of the full-year impact of a private label contract and higher fees in a number of our commercial account portfolios of \$43.7 million;

incrementally higher fuel-price spread revenue of approximately \$23 million during 2008 relative to 2007; and

the average retail price of fuel was higher in 2008 as compared to 2007. We believe that the higher average retail price of fuel in 2008 increased revenue by approximately \$7 million.

The increase in North America revenue was partially offset by:

a change in the loss on sales of receivables to the securitization facility (on a managed basis we view the loss as interest on the securitization facility and bad debt expense on the securitized accounts receivable) resulting in a higher adjustment to revenue of \$15.7 million in 2008; and

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

lower transaction volumes during 2008, which we believe resulted from the economic downturn.

### ***International segment revenue***

Revenue increased from \$102.7 million in 2007 to \$135.6 million in 2008, an increase of \$32.9 million, or 32.0%. The increase in revenue was due primarily to:

acquisitions completed during 2008 plus the full-year impact of acquisitions completed during 2007, which represented an aggregate of \$22.7 million in revenue in 2008;

higher transaction volumes and revenue per transaction from our existing card products as compared to 2007; and

---

**Table of Contents**

**Index to Financial Statements**

the weakening of the U.S. dollar during 2008, relative to certain foreign currencies, which resulted in favorable foreign exchange rates that increased our revenue in 2008 by \$8.6 million.

***Consolidated operating expenses***

***Merchant commissions.*** Merchant commissions decreased from \$39.4 million in 2007 to \$38.5 million in 2008, a decrease of \$0.9 million, or 2.3%. The decrease was attributable primarily to lower transaction volumes that incurred merchant commissions.

***Processing.*** Processing expense increased from \$34.1 million in 2007 to \$51.4 million in 2008, an increase of \$17.3 million, or 50.7%. The increase from 2007 to 2008 was due primarily to the implementation of a new private label contract of \$4.3 million, the impact of four completed acquisitions during 2008 and the full-year impact of acquisitions completed during 2007 of \$5.1 million, and additional credit/collections department expense of \$3.5 million.

***Selling.*** Selling expense increased from \$22.6 million in 2007 to \$23.8 million in 2008, an increase of \$1.2 million, or 5.3%. The increase resulted from the impact of acquisitions completed in 2007 and 2008 of \$2.0 million.

***General and administrative.*** General and administrative expense increased from \$42.0 million in 2007 to \$47.6 million in 2008, an increase of \$5.6 million, or 13.3%. The increase was due primarily to the impact of acquisitions completed in 2007 and 2008 of \$4.4 million, additional stock-based compensation expense of \$1.5 million and increased acquisition related expenses. These increases were partially offset by cost saving initiatives of \$1.9 million.

***Depreciation and amortization.*** Depreciation and amortization increased from \$20.3 million in 2007 to \$27.2 million in 2008, an increase of \$6.9 million, or 34.0%. The increase was due primarily to acquisitions completed during 2008, which increased depreciation and amortization by \$1.5 million and the amortization of the premium attributable to the purchase of a new private label portfolio of \$1.5 million. Amortization expense increased as a result of our amortization of intangible assets related to customer and vendor relationships, intellectual property and software. In addition, during 2008, we accelerated the amortization of a private label contract of \$2.2 million.

***Operating income and operating margin for segments***

***Consolidated operating income***

Operating income increased from \$105.8 million in 2007 to \$152.5 million in 2008, an increase of \$46.7 million, or 44.1%. Our operating margin was 40.0% and 44.7% for 2007 and 2008, respectively. The increase in operating income from 2007 to 2008 resulted from a number of factors, the most significant of which included the completion of four acquisitions during 2008 and the full-year impact of three acquisitions completed during 2007, higher price-spread revenue as a result of higher than normal fuel-price spreads in the second half of 2008 compared to 2007, higher average retail price of fuel in 2008 as compared to 2007 and organic growth in the business. In addition, the impact of higher fuel spread revenue in 2008 increased operating margins compared to 2007.

***North American segment operating income***

North American operating income increased from \$64.6 million in 2007 to \$88.3 million in 2008, an increase of \$23.7 million, or 36.7%. The North American operating margin was 40.0% and 42.9% for 2007 and 2008, respectively. The increase in operating income from 2007 to 2008 resulted from a number of factors, the most significant of which related to higher fuel price-spread revenue as a result of higher than normal fuel-price

**Table of Contents**

**Index to Financial Statements**

spreads in the second half of 2008 compared to 2007, higher average retail price of fuel in 2008 as compared to 2007 and organic growth in our business. In addition, the impact of higher fuel price-spread revenue in 2008 increased operating margins.

***International segment operating income***

International operating income increased from \$41.2 million in 2007 to \$64.2 million in 2008, an increase of \$23.0 million, or 55.8%. International operating margin was 40.0% and 47.3% for 2007 and 2008, respectively. The increase in operating income from 2007 to 2008 was due primarily to acquisitions completed during 2008 and the full-year impact of acquisitions completed during 2007, favorable foreign currency exchange rates in 2008 versus 2007 and organic growth in our business. Operating margins were also positively impacted during 2008 by the economies of scale gained through the integration of acquired companies into our existing business.

***Other income, net***

Other income increased from \$1.6 million in 2007 to \$2.5 million in 2008, an increase of \$0.9 million, or 56.3%. The increase was due primarily to the reversal of a previously recorded litigation reserve of \$1.1 million in 2008.

***Interest expense, net***

Interest expense increased from \$19.7 million in 2007 to \$20.3 million in 2008, an increase of \$0.6 million, or 3.0%. The increase from 2007 to 2008 resulted from additional borrowings of \$50.0 million under our 2005 Credit Facility. The increase in interest associated with the increased borrowing was offset by lower average interest rates in 2008 on the 2005 Credit Facility. The average interest rate (including the effect of interest rate derivatives) on the 2005 Credit Facility was 6.19% in 2008 versus 7.72% in 2007. The average interest rate on the CCS Credit Facility was 5.82% in 2008 versus 5.15% in 2007.

***Provision for income taxes***

The provision for income tax increased from \$26.0 million in 2007 to \$37.4 million in 2008, an increase of \$11.4 million, or 43.8%. The increase was due primarily to higher income before taxes of \$134.7 million in 2008 compared to \$87.6 million in 2007. Our consolidated effective tax rate for 2008 was 27.8% as compared to 29.7% for 2007. The decrease in our effective tax rate was due primarily to a reduction in our reserve for uncertain tax positions in certain foreign jurisdictions, a reduction in the statutory tax rate in certain foreign jurisdictions and the mix of earnings between domestic and foreign jurisdictions.

***Net income***

For all the reasons discussed above, our net income increased from \$61.6 million in 2007 to \$97.3 million in 2008, an increase of \$35.7 million, or 58.0%.

**Table of Contents****Index to Financial Statements****Quarter ended March 31, 2010 compared to the quarter ended March 31, 2009**

The following table sets forth selected consolidated statement of operations data for the quarters ended March 31, 2010 and 2009 (dollars in thousands).

**Revenue**

Our consolidated revenue increased from \$68.1 million in the quarter ended March 31, 2009 to \$104.2 million in the quarter ended March 31, 2010, an increase of \$36.1 million, or 53.0%. During the quarter ended March 31, 2010, our total revenue increased by \$9.2 million as a result of the adoption of authoritative accounting guidance related to our asset securitization facility, as further discussed in Note 2 Summary of significant accounting policies in the notes to our consolidated financial statements. In addition, our revenue was positively impacted by:

acquisitions completed during 2009, which represented an aggregate increase in revenue of \$13.0 million in the quarter ended March 31, 2010;

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

higher program fees and charges from our existing customers, which increased our revenue in the quarter ended March 31, 2010 by \$11.9 million; and

the weakening of the U.S. dollar during the quarter ended March 31, 2010, relative to other foreign currencies, which resulted in favorable foreign exchange rates as compared to the quarter ended March 31, 2009, which increased our revenue in the quarter ended March 31, 2010 by \$2.7 million.

### *North American segment revenue*

North American revenue increased from \$42.7 million in the quarter ended March 31, 2009 to \$68.6 million in the quarter ended March 31, 2010, an increase of \$25.9 million, or 60.7%. During the quarter ended March 31, 2010, our North American Segment revenue increased by \$9.2 million as a result of the adoption of authoritative accounting guidance related to our asset securitization facility, as further discussed in Note 2 Summary of

## Table of Contents

### Index to Financial Statements

significant accounting policies in the notes to our consolidated financial statements. In addition, our North American revenue increased as a result of:

the impact of an acquisition in April 2009, which increased our revenue in the quarter ended March 31, 2010 by \$8.1 million;

\$10.3 million in higher program fees and charges from our existing customers; and

higher volume and revenue per transaction from our existing card products as compared to the quarter ended March 31, 2009.

#### *International segment revenue*

International segment revenue increased from \$25.4 million in the quarter ended March 31, 2009 to \$35.6 million in the quarter ended March 31, 2010, an increase of \$10.2 million, or 40.2%. The increase in International segment revenue was due primarily to the following:

the impact of acquisitions completed during 2009, which represented an aggregate increase in revenue of \$4.9 million in the quarter ended March 31, 2010;

the weakening of the U.S. dollar during the quarter ended March 31, 2010, relative to foreign currencies, which resulted in favorable foreign exchange rates that increased our revenue in the quarter ended March 31, 2010 by \$2.7 million; and

higher volume and revenue per transaction from our existing card products as compared to the quarter ended March 31, 2009.

#### *Consolidated operating expenses*

**Merchant commissions.** Merchant commissions increased from \$8.3 million in the quarter ended March 31, 2009 to \$11.6 million in the quarter ended March 31, 2010, an increase of \$3.3 million, or 39.8%. This increase was due primarily to organic growth in certain payment programs, acquisitions completed during 2009 which added \$0.6 million in expense, and an unfavorable impact of foreign exchange rates of \$0.3 million.

**Processing.** Processing expenses increased from \$13.5 million in the quarter ended March 31, 2009 to \$17.5 million in the quarter ended March 31, 2010, an increase of \$4.0 million, or 29.6%. During the quarter ended March 31, 2010, our processing expenses increased by \$7.9 million as a result of the adoption of authoritative accounting guidance related to our asset securitization facility, as further discussed in Note 2 Summary of significant accounting policies in the notes to our consolidated financial statements. Additionally processing expenses increased due to the impact of acquisitions completed during 2009 of \$2.2 million and an unfavorable impact of foreign exchange rates of \$0.4 million. These increases were offset by lower bad debt in our existing businesses of \$6.1 million.

**Selling.** Selling expenses increased from \$6.2 million in the quarter ended March 31, 2009 to \$6.8 million in the quarter ended March 31, 2010, an increase of \$0.6 million, or 9.7%. The increase was due primarily to the impact of acquisitions completed during 2009 of \$0.8 million of additional selling expenses.

**General and administrative.** General and administrative expense increased from \$11.5 million in the quarter ended March 31, 2009 to \$13.1 million in the quarter ended March 31, 2010, an increase of \$1.6 million, or 13.9%. The increase was primarily due to the impact of acquisitions completed during 2009 of \$1.4 million, and an unfavorable impact of foreign exchange rates of \$0.4 million.

**Depreciation and amortization.** Depreciation and amortization increased from \$5.5 million in the quarter ended March 31, 2009 to \$8.1 million in the quarter ended March 31, 2010, an increase of \$2.6 million, or

**Table of Contents**

**Index to Financial Statements**

47.3%. The increase was due primarily to an increase of \$2.1 million attributable to the amortization of intangible assets related to customer and vendor relationships, tradenames and trademarks, non-compete agreements and software released to acquisitions completed during 2009, and the depreciation of a new operating system put into service during 2009.

***Operating income and operating margin***

***Consolidated operating income***

Operating income increased from \$23.1 million in the quarter ended March 31, 2009 to \$47.1 million in the quarter ended March 31, 2010, an increase of \$24.0 million, or 103.9%. Our operating margin was 33.9% and 45.2% for the quarters ended March 31, 2009 and 2010, respectively. The increase in operating income and margin from the quarter ended March 31, 2009 to the quarter ended March 31, 2010 was due primarily to a favorable impact of foreign exchange rates in 2010 compared to 2009, acquisitions completed during 2009 that carried a higher operating margin than our existing businesses, lower bad debt expense and an increase in revenue per transaction in our existing businesses.

For the purpose of segment operations, we calculate segment operating income by subtracting segment operating expenses from segment revenue. Similarly, segment operating margin is calculated by dividing segment operating income by segment revenue.

***North American segment operating income***

North American operating income increased from \$13.6 million in the quarter ended March 31, 2009 to \$30.9 million in the quarter ended March 31, 2010, an increase of \$17.3 million, or 127.2%. North American operating margin was 31.9% and 45.1% for the quarter ended March 31, 2009 and the quarter ended March 31, 2010, respectively. The increase in operating income from the quarter ended March 31, 2009 to the quarter ended March 31, 2010 was due primarily to the impact of the CLC Acquisition, which we completed in April 2009 and carried a higher operating margin than our existing businesses, and organic growth in our rate per transaction during the quarter ended March 31, 2010 compared to the quarter ended March 31, 2009.

***International segment operating income***

International operating income increased from \$9.5 million in the quarter ended March 31, 2009 to \$16.2 million in the quarter ended March 31, 2010, an increase of \$6.7 million, or 70.5%. International operating margin was 37.2% and 45.5% for the quarters ended March 31, 2009 and 2010, respectively. The increase in operating income and margin from the quarter ended March 31, 2009 to the quarter ended March 31, 2010 was due primarily to the impact of acquisitions completed during 2009, the impact of foreign exchange rates and organic growth in our rate per transaction during the quarter ended March 31, 2010.

***Other income, net***

Other income decreased from \$0.04 million in the quarter ended March 31, 2009 to a loss of \$0.04 million in the quarter ended March 31, 2010, a decrease of \$0.08 million. The decrease was due primarily to losses on foreign currency transactions in the quarter ended March 31, 2010.

***Interest expense, net***

Interest expense, net reflects the amount of interest paid on our 2005 Credit Facility and CCS Credit Facility offset by interest income, and, in the quarter ended March 31, 2010, in accordance with the adoption of authoritative guidance as further discussed in Note 2 Summary of significant accounting policies in the notes to our consolidated financial statements, the interest related to our securitization facility. Interest expense increased from \$4.3 million in the quarter ended March 31, 2009 to \$5.3 million in the quarter ended March 31,

**Table of Contents**

**Index to Financial Statements**

2010, an increase of \$1.0 million, or 23.3%. During the quarter ended March 31, 2010, our interest expense increased by \$1.3 million as a result of the adoption of authoritative accounting guidance related to our asset securitization facility, as further discussed in Note 2 Summary of significant accounting policies in the notes to our consolidated financial statements, in addition to higher average interest rates on the 2005 Credit Facility. These increases were offset by higher interest income in the quarter ended March 31, 2010 versus the quarter ended March 31, 2009, lower principal balances on both the 2005 Credit Facility and the CCS Credit Facility and lower average interest rates during the quarter ended March 31, 2010 on the CCS Credit Facility. The average interest rate (including the effect of interest rate derivatives) on the 2005 Credit Facility was 5.60% in the quarter ended March 31, 2010 versus 5.22% in the quarter ended March 31, 2009. The average interest rate on the CCS Credit Facility was 3.02% in the quarter ended March 31, 2010 versus 5.11% in the quarter ended March 31, 2009.

***Provision for income taxes***

The provision for income taxes increased from \$5.4 million in the quarter ended March 31, 2009 to \$14.4 million in the quarter ended March 31, 2010, an increase of \$9.0 million, or 166.7%. We provide for income taxes during interim periods based on an estimate of our effective tax rate for the year. Discrete items and changes in the estimate of the annual tax rate are recorded in the period they occur. Our effective tax rate for the quarter ended March 31, 2010 was 34.6% as compared to 28.8% for the quarter ended March 31, 2009. The increase in the effective tax rate was primarily due to the unfavorable impact on the prior year rate from the controlled foreign corporation look-through exclusion, which expired on December 31, 2009, and was not extended as of March 31, 2010. For periods in which the look-through rules were effective, we generally excluded from U.S. federal income tax certain dividends, interest, rents and royalties received or accrued by one controlled foreign corporation from a related controlled foreign corporation.

While proposals to extend the look-through rule retroactive to January 1, 2010 have been made, an extension was not enacted on or before March 31, 2010. If an extension of the look-through rule is enacted later in 2010 and the extension is retroactive to January 1, 2010, we will reverse in the period of enactment the additional taxes provided during 2010 related to the expiration of the look-through rule.

Our effective tax rate for the quarter ended March 31, 2010 also increased due to an increase in our reserve for unrecognized tax benefits and due to a change in the mix of earnings between domestic and foreign jurisdictions. We expect that the amount of unrecognized tax benefits will change in the next twelve months, but we do not expect the change to have a significant impact on our financial statements.

***Net income***

For the reasons discussed above, our net income increased from \$13.4 million in 2009 to \$27.3 million in 2010, an increase of \$13.9 million, or 103.7%.

**Table of Contents****Index to Financial Statements****Quarterly results of operations**

The following table sets forth our selected unaudited quarterly consolidated statement of income data for each of the eight quarters in the two-year period ended March 31, 2010. This information is derived from our unaudited financial statements, which in the opinion of management contain all adjustments necessary for a fair statement of such financial data. The results of historical periods are not necessarily indicative of the results of operations for any future period. You should read this data together with our consolidated financial statements and the accompanying notes appearing elsewhere in this prospectus.

**Liquidity and capital resources**

Our principal liquidity requirements are to service and repay our indebtedness, make acquisitions of businesses and commercial account portfolios and meet working capital, tax and capital expenditure needs.

***Sources of liquidity***

At March 31, 2010, our unrestricted cash and cash equivalent balance totaled \$86.4 million. Our restricted cash balance at March 31, 2010 totaled \$65.3 million. Restricted cash represents customer deposits, primarily in the Czech Republic, which we are restricted from using other than to repay customer deposits and which may not be deposited outside of the Czech Republic.

We utilize an accounts receivable securitization facility to finance a majority of our domestic fuel card receivables, to lower our cost of funds and more efficiently use capital. We generate and record accounts receivable when a customer makes a purchase from a merchant using one of our card products and generally pay merchants within seven days of receiving the merchant billing. As a result, we utilize the asset securitization facility as a source of liquidity to provide the cash flow required to fund merchant payments while we collect customer balances. These balances are primarily composed of charge balances, which are typically billed to the customer on a weekly, semimonthly or monthly basis, and are generally required to be paid within 30 days of billing. We also consider the undrawn amounts under our securitization facility and 2005 Credit Facility as funds available for working capital purposes or for acquisitions. At March 31, 2010, we had the ability to generate approximately \$44.9 million of additional liquidity under our securitization facility and \$47.4 million available under the 2005 Credit Facility.

Based on our current forecasts and anticipated market conditions, we believe that our current cash balances, our available borrowing capacity and our ability to generate cash from operations, will be sufficient to fund our liquidity needs for at least the next 12 months. However, we regularly evaluate our cash requirements for current operations, commitments, capital requirements and acquisitions, and we may elect to raise additional funds for these purposes in the future, either through the issuance of debt and equity securities or otherwise. We may not be able to obtain additional financing on terms favorable to us, if at all.

**Table of Contents****Index to Financial Statements*****Cash flows***

The following table summarizes our cash flows for the years ended December 31, 2009, 2008 and 2007 and for the quarters ended March 31, 2010 and 2009.

| (in millions)                                       | Quarter ended March 31, |         | 2009     | Year ended December 31, |         |
|---|-------------------------|---------|----------|-------------------------|---------|
|   | 2010                    | 2009    |          | 2008                    | 2007    |
| Net cash provided by operating activities           | \$ 42.8                 | \$ 45.6 | \$ 178.8 | \$ 59.0                 | \$ 55.9 |
| Net cash used in investing activities               | (2.1)                   | (2.4)   | (240.8)  | (63.0)                  | (40.8)  |
| Net cash (used in) provided by financing activities | (35.4)                  | (12.3)  | 72.2     | 14.0                    | 30.9    |

***Operating activities.*** Net cash provided by operating activities for the quarter ended March 31, 2010 was \$42.8 million compared to net cash provided by operating activities of \$45.6 million for the quarter ended March 31, 2009. The decrease is attributable primarily to a decrease in prepaid expenses and other current assets of \$31.7 million related to timing of purchases in our U.K. operations and an increase in accounts receivable of approximately \$12.7 million. The decrease was offset by higher net income of \$13.9 million and an increase in accounts payable, accrued expenses, income taxes, and deferred revenue of \$36.1 million primarily from the increased volume of purchases in the quarter ended March 31, 2010 compared to the volume of purchases in the quarter ended March 31, 2009 and the timing of vendor payments.

Net cash provided by operating activities for 2009 was \$178.8 million compared to \$59.0 million for 2008. This improvement is attributable primarily to working capital improvements of \$102.8 million, driven mainly by an increase in accounts payable due to timing of year-end merchant payables, interest and income tax and improved collection on accounts receivable, and an increase in prepaid expenses related to timing of purchases that contributed approximately \$24.3 million year over year. These increases were partially offset by lower net income of \$8.2 million.

Net cash provided by operating activities for 2008 was \$59.0 million compared to \$55.9 million for 2007. This improvement is attributable primarily to increased net income of \$36.0 million, an increase in provision for losses on accounts receivable due to higher bad debts of \$19.5 million and an increase in restricted cash due to favorable foreign exchange rate fluctuations of \$18.4 million. These increases were partially offset by a reduction in working capital of \$76.8 million. The decrease in working capital was a result of improved collections on accounts receivable, offset by a reduction in accounts payable due to timing of year end merchant payables, interest and income tax payments.

***Investing activities.*** Net cash used in investing activities was approximately the same amount for the quarters ended March 31, 2010 and 2009.

Net cash used in investing activities increased \$177.8 million in 2009, from \$63 million in 2008, due primarily to acquisitions completed in 2009 of \$175.2 million. In addition, our capital expenditures increased from \$7.1 million in 2008 to \$9.7 million in 2009 primarily as a result of additional investments to build and enhance our proprietary processing systems. Net cash used in investing activities increased \$22.2 million in 2008, from \$40.8 million in 2007 due primarily to acquisitions.

***Financing activities.*** Net cash used in financing activities increased \$23.1 million from net cash used of \$12.3 million for the quarter ended March 31, 2009 to net cash used of \$35.4 million for the quarter ended March 31, 2010. The increase is attributable primarily to the inclusion of the securitization facility, which as of January 1, 2010 was consolidated. During the quarter ended March 31, 2010 we made net payments on the securitization facility of approximately \$22 million.

---

**Table of Contents**

**Index to Financial Statements**

Net cash provided by financing activities increased \$58.2 million, from \$14.0 million in 2008. The increase in cash provided by financing activities resulted from the net proceeds received from the issuance of our Series E preferred stock of \$93.7 million in April 2009. In addition, during 2009 we made principal payments on the 2005 Credit Facility and the CCS Credit Facility of \$21.0 million compared to aggregate principal payments of \$33.8 million in 2008. These increases were offset by note proceeds of \$50.0 million received in 2008 under the delayed draw portion of the 2005 Credit Facility.

Net cash provided by financing activities decreased \$16.9 million in 2008, from \$30.9 million in 2007. The decrease is due primarily to \$39.8 million in note proceeds and a \$24.6 million increase in principal note payments, partially offset by the repurchase of common stock of \$24.3 million in 2007 and the premium paid on the purchase of receivables of \$14.3 million in 2007.

***Capital spending summary***

Our capital expenditures were \$2.1 million for both the quarters ended March 31, 2009 and 2010. Our capital expenditures were \$5.3 million in 2006 and \$7.1 million in both 2007 and 2008. Our capital expenditures increased to \$9.7 million in 2009, an increase of \$2.6 million, or 36.6%, from 2008. The increase was related primarily to investments to enhance our existing processing systems and to develop a new European processing system. We anticipate our capital expenditures to increase to approximately \$10.7 million during 2010 as we continue to enhance our existing processing systems.

***2005 Credit Facility***

We are a party to a credit agreement, dated as of June 29, 2005, which has been subsequently amended and restated as of April 30, 2007, among FleetCor Technologies Operating Company, LLC and FleetCor UK Acquisition Limited, as borrowers, FleetCor Technologies, Inc., JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, J.P. Morgan Europe Limited, as London agent, and the other lenders party thereto. We refer to this facility as the 2005 Credit Facility in this prospectus.

The 2005 Credit Facility provides for term loans in the amount of \$250.0 million and two tranches of multicurrency revolving loans, each of which revolving loans may be made in U.S. dollars, British pounds or Euros; a U.S. tranche for the U.S. borrower of up to \$30.0 million (with a \$10.0 million sub-limit for letters of credit), and a global tranche for both the U.S. borrower and U.K. borrower of up to \$20.0 million. The 2005 Credit Facility also includes a \$10.0 million swing line facility which is available to the U.S. borrower. The credit agreement also provides for delayed draw term loans in the amount of up to \$50.0 million, of which \$50.0 million was borrowed in April 2008. The 2005 Credit Facility further provides for incremental term loans in an aggregate amount not to exceed \$100.0 million. None of the incremental term loans have been made. As of March 31, 2010, we had \$275.5 million in outstanding term loans and no borrowings on the revolving line under the 2005 Credit Facility.

Interest on the facilities may accrue, at our election, based on a base rate, EURIBOR or LIBOR, plus a margin. The margin with respect to term loans is fixed at 2.25% for LIBOR and EURIBOR loans and at 1.25% for base rate loans. With respect to revolving loans and letter of credit fees, the margin or fee is determined based on our leverage ratio and ranges from 2.00% to 2.50% for LIBOR and EURIBOR loans and from 1.00% to 1.50% for base rate loans. As of March 31, 2010 our term loans bore interest at LIBOR plus 2.25% and we had no U.S. revolving loans or multicurrency loans outstanding. Interest on overdue amounts will accrue at a rate equal to the applicable interest rate plus 2% per annum. As described below under the heading **Market risk Use of derivatives**, we were required under the credit agreement to enter into interest rate swaps with respect to at least 40% of our long term debt.

---

**Table of Contents**

**Index to Financial Statements**

The stated maturity date for our term loans is April 30, 2013 and the stated maturity date for our revolving loans and letters of credit is April 30, 2012. The term loans are payable in quarterly installments of .25% of the initial aggregate principal amount of the loans and are due on the last business day of each March, June, September, and December with the final principal payment due in April 2013. Principal payments of \$14.0 million, \$7.9 million and \$0.75 million were made on the term loan during 2009, 2008 and the first quarter of 2010, respectively.

Our credit agreement contains a number of negative covenants restricting, among other things, indebtedness, investments, liens, dispositions of assets, restricted payments (including dividends), mergers and acquisitions, burdensome agreements (as defined in the 2005 Credit Facility), accounting changes, transactions with affiliates, prepayments of indebtedness, and capital expenditures. Two financial covenants, including a leverage ratio requirement and an interest coverage ratio requirement, are measured quarterly. We are currently required to maintain a leverage ratio of not greater than 2.25 to 1, and beginning January 1, 2011, we will be required to maintain a leverage ratio of not greater than 2.00 to 1. We are required to maintain an interest coverage ratio of not less than 4.00 to 1. As of March 31, 2010, we were in compliance with each of the covenants under the 2005 Credit Facility.

We have received commitments from lenders for an additional tranche of revolving loans in the amount of up to \$100 million to be made under the terms of the 2005 Credit Facility. The additional revolving loans will be available only in U.S. dollars, and the commitments for the additional revolving loans will not be held pro rata with the commitments held by the lenders holding existing commitments for the revolving loans and term loans. The additional revolving loan commitments will have a maturity date of October 31, 2012. The maturity date of the existing commitments for revolving loans is April 30, 2012, and the lenders providing such commitments will be asked to extend the maturity date to October 31, 2012. The revolving commitments held by any lender not agreeing to the extension of the maturity date will remain April 30, 2012. In all other respects, we expect that the additional revolving loan commitments will be subject to the terms and conditions applicable to revolving loans made under the existing commitments for the U.S. tranche. The conditions for the additional revolving loan commitments include, among other things, the closing of this offering and the execution of definitive documentation on or before September 30, 2010.

In addition, J.P. Morgan Securities Inc. has agreed to arrange an amendment to the 2005 Credit Facility to permit the additional revolving loans described above, to remove the mandatory prepayment requirement with respect to excess cash flow and certain equity issuances, to extend the maturity date on revolving loans with respect to consenting lenders to October 31, 2012, and to increase the interest rate margins for term loans. We expect that the proposed amendment will also include certain other covenant amendments, subject to the requisite consents of the other lenders. The conditions for the proposed amendments include, among other things, the closing of this offering and the execution of definitive documentation on or before September 30, 2010. A customary consent fee will be payable by us to consenting lenders, together with certain other amendment fees and expenses.

***CCS Credit Facility***

Certain of our subsidiaries are parties to a credit facility agreement, dated as of December 7, 2006, which was amended as of March 28, 2008, among CCS Česká společnost pro platební karty a.s., as borrower, FENIKA s.r.o., as borrower (FENIKA s.r.o. and CCS Česká společnost pro platební karty a.s. subsequently merged into a new entity CCS Česká společnost pro platební karty s.r.o. ( CCS )), FleetCor Luxembourg Holding 3 S.à r.l., as shareholder, HVB Bank Czech Republic a.s. (current commercial name UniCredit Bank Czech republic, a.s.), as security agent, Bank Austria Creditanstalt AG (current commercial name Unicredit Bank Austria AG), as arranger and facility agent, and the other lenders party thereto. We refer to this facility as the CCS Credit Facility in this prospectus.

The CCS Credit Facility agreement provides for term loans in the total amount of CZK 1.675 billion (\$83.8 million), which consists of a Facility A amortized term loan in the amount of CZK 990 million (\$49.5 million)

---

**Table of Contents**

**Index to Financial Statements**

and a Facility B bullet term loan in the amount of CZK 685.0 million (\$34.3 million). The unpaid principal balance of the term loans as of March 31, 2010 is approximately CZK 516.5 million (\$27.3 million) for Facility A and approximately CZK 616.2 million (\$32.6 million) for Facility B. The outstanding balance of CCS term notes payable increased by an aggregate of \$1.62 million as of March 31, 2010 and decreased by an aggregate of \$6.4 million as of March 31, 2009 due to changes in the value of the Czech koruna versus the U.S. dollar.

Interest on the term loans may accrue, calculated according to the term selected by CCS, based on a base rate, PRIBOR (Prague Interbank Offered Rate), plus a margin and a mandatory cost. The margin is determined based on CCS's leverage ratio and ranges from 0.95% to 1.75% for the Facility A term loan and from 2.00% to 2.90% for the Facility B term loan. As of March 31, 2010, the interest rate on Facility A equaled 2.50% and the interest rate on Facility B was 3.55%.

The stated maturity date for CCS's term loans is December 21, 2013 with respect to Facility A and December 21, 2014 with respect to Facility B. The Facility A term loan is payable in semiannual payments in June and December of each year and the Facility B term loan is payable in one lump sum. Principal payments of \$7.0 million and \$18.0 million were made in 2009 and 2008, respectively. No principal payments were made in the first quarter of 2010. CCS has the right to prepay the loans without premium or penalty on the last day of an interest period.

The CCS credit agreement contains a number of negative covenants restricting, among other things, indebtedness, investments, liens, dispositions of assets, change of business, restricted payments (including dividends), mergers and acquisitions, transactions with affiliates and prepayments of indebtedness. The agreement also contains financial covenants including a leverage ratio requirement, a debt service cover ratio requirement, an equity ratio requirement and a liquidity ratio requirement, all of which are tested quarterly. CCS is currently required to maintain a leverage ratio of not greater than 3.50 to 1, and beginning July 1, 2010, CCS will be required to maintain a leverage ratio of not greater than 3.25 to 1. CCS is required to maintain a debt service coverage ratio of not less than 1.20 to 1, an equity ratio of not less than 0.20 to 1, and a liquidity ratio not less than 1.00 to 1. As of March 31, 2010, CCS was in compliance with each of the covenants under the CCS Credit Facility agreement.

***Seller financing***

One of our subsidiaries, FleetCor Luxembourg Holding2 S.à r.l. ( Lux 2 ), entered into a Share Sale and Purchase Agreement dated April 24, 2008 (the Purchase Agreement) with ICP Internet Cash Payments B.V. for the purchase of ICP International Card Products B.V. The acquired business is now being operated in the Netherlands as FleetCor Technologieën B.V. In connection with the purchase Lux 2 agreed to make deferred payments in the aggregate amount of 1.0 million (\$1.5 million), of which two remaining payments are due and payable on June 6, 2010 and June 6, 2011 in the amount of 0.33 million (\$0.47 million) each. The obligation to make such deferred payments is described in the Purchase Agreement, as modified by letter agreement dated August 11, 2008, and is not evidenced by a promissory note.

In connection with our acquisition of Petrol Plus Region and an affiliated company in 2007, the parties agreed to defer our payment of a portion of the purchase price, equal to approximately \$11.9 million, which was paid on February 1, 2010.

***Securitization facility***

We are a party to a receivables purchase agreement among FleetCor Funding LLC, as seller, PNC Bank, National Association as administrator, and the various purchaser agents, conduit purchasers and related committed purchasers parties thereto, which was amended and restated for the fourth time as of October 29, 2007 and which has been amended three times since then to add or remove purchasers and to extend the facility termination date,

## **Table of Contents**

### **Index to Financial Statements**

among other things. We refer to this arrangement as the securitization facility in this prospectus. The current purchase limit under the securitization facility is \$500 million and the facility termination date is February 24, 2011.

The purchasers under the securitization facility are contractually committed to purchase up to \$500 million of receivables on a revolving basis through February 24, 2011. To the extent that the commercial paper markets are unavailable, the primary bank is required to provide funding up to the purchase limit at a higher interest rate.

Under a related purchase and sale agreement, dated as of December 20, 2004, and most recently amended on July 7, 2008, between FleetCor Funding LLC, as purchaser, and certain of our subsidiaries, as originators, the receivables generated by the originators are deemed to be sold to FleetCor Funding LLC immediately and without further action upon creation of such receivables. At the request of FleetCor Funding LLC, as seller, undivided percentage ownership interests in the receivables are ratably purchased by the purchasers in amounts not to exceed their respective commitments under the facility. Collections on receivables are required to be made pursuant to a written credit and collection policy and may be reinvested in other receivables, may be held in trust for the purchasers, or may be distributed. Fees are paid to each purchaser agent for the benefit of the purchasers and liquidity providers in the related purchaser group in accordance with the securitization facility and certain fee letter agreements.

The securitization facility provides for certain termination events, upon the occurrence of which the administrator may declare the facility termination date to have occurred, may exercise certain enforcement rights with respect to the receivables, and may appoint a successor servicer, among other things. Termination events include nonpayment, noncompliance with covenants, default under any indebtedness in excess of \$10.0 million, the failure to maintain certain ratios related to defaults, delinquencies and dilution, change in control, failure to maintain a leverage ratio of not greater than 2.25 to 1 through December 31, 2010 and 2.00 to 1 for the periods thereafter (measured quarterly), failure to maintain an interest coverage ratio of not less than 4.00 to 1 (measured quarterly) and failure to perform under a performance guaranty. As of March 31, 2010, we were in compliance with each of the covenants under our securitization facility.

### **Critical accounting policies and estimates**

In applying the accounting policies that we use to prepare our consolidated financial statements, we necessarily make accounting estimates that affect our reported amounts of assets, liabilities, revenue and expenses. Some of these estimates require us to make assumptions about matters that are highly uncertain at the time we make the accounting estimates. We base these assumptions and the resulting estimates on historical information and other factors that we believe to be reasonable under the circumstances, and we evaluate these assumptions and estimates on an ongoing basis. In many instances, however, we reasonably could have used different accounting estimates and, in other instances, changes in our accounting estimates could occur from period to period, with the result in each case being a material change in the financial statement presentation of our financial condition or results of operations. We refer to estimates of this type as critical accounting estimates. Our significant accounting policies are summarized in consolidated financial statements contained elsewhere in this prospectus. The critical accounting estimates that we discuss below are those that we believe are most important to an understanding of our consolidated financial statements.

#### ***Revenue recognition and presentation***

Revenue is derived from our merchant and network relationships as well as from customers and partners. We recognize revenue on fees generated through services to commercial fleets, major oil companies and petroleum marketers and record revenue net of the wholesale cost of the underlying products and services based on the following: (i) we are not the primary obligor in the fuel arrangement and we are not responsible for fulfillment and

**Table of Contents**

**Index to Financial Statements**

the acceptability of the product; (ii) we have no inventory risk, do not bear the risk of product loss and do not make any changes to the fuel or have any involvement in the product specifications; (iii) we do not have significant latitude with respect to establishing the price for fuel and (iv) the amount we earn for our services is fixed.

Through our merchant and network relationships we provide fuel, vehicle maintenance or lodging services to our customers. We derive revenue from our merchant and network relationships based on the difference between the price charged to a customer for a transaction and the price paid to the merchant or network for the same transaction. Our net revenue consists of margin on fuel sales and fees for technical support, processing, communications and reporting. The price paid to a merchant or network may be calculated as (i) the merchant's wholesale cost of fuel plus a markup; (ii) the transaction purchase price less a percentage discount; or (iii) the transaction purchase price less a fixed fee per unit. The difference between the price we pay to a merchant and the merchant's wholesale cost for the underlying products and services is considered a merchant commission and is recognized as an expense when the transaction is executed. We recognize revenue from merchant and network relationships when persuasive evidence of an arrangement exists, the services have been provided to the customer, the sales price is fixed or determinable and collectibility is reasonably assured. We have entered into agreements with major oil companies and petroleum marketers which specify that a transaction is deemed to be captured when we have validated that the transaction has no errors and have accepted and posted the data to our records. Revenue is recognized on lodging and transportation management services when the lodging stay or transportation service is completed.

We also derive revenue from customers and partners from a variety of program fees including transaction fees, card fees, network fees, report fees and other transaction-based fees which typically are calculated based on measures such as percentage of dollar volume processed, number of transactions processed, or some combination thereof. Such services are provided through proprietary networks or through the use of third-party networks. Transaction fees and other transaction-based fees generated from our proprietary networks and third-party networks are recognized at the time the transaction is captured. Card fees, network fees and program fees are recognized as we fulfill our contractual service obligations. In addition, we recognize revenue from late fees and finance charges. Such fees are recognized net of a provision for estimated uncollectible amounts at the time the fees and finance charges are assessed.

***Accounts receivable***

As described above under the heading "Securitization facility," we maintain a \$500 million revolving trade accounts receivable securitization facility. Pursuant to the terms of the securitization facility, we transfer certain of our domestic receivables, on a revolving basis, to FleetCor Funding LLC, a wholly-owned bankruptcy remote subsidiary. In turn, FleetCor Funding LLC sells, without recourse, on a revolving basis, up to \$500 million of undivided ownership interests in this pool of accounts receivable to a multi-seller, asset-backed commercial paper conduit. FleetCor Funding LLC maintains a subordinated interest, in the form of over collateralization, in a portion of the receivables sold to the conduit. Purchases by the conduit are financed with the sale of highly-rated commercial paper. On February 25, 2010, we extended the term of the securitization facility to February 24, 2011.

We utilize proceeds from the sale of our accounts receivable as an alternative to other forms of debt, effectively reducing our overall borrowing costs. We have agreed to continue servicing the sold receivables for the financial institutions at market rates, which approximates our cost of servicing. We retain a residual interest in the accounts receivable sold as a form of credit enhancement. The residual interest's fair value approximates carrying value due to its short-term nature.

FleetCor Funding LLC determines the level of funding achieved by the sale of trade accounts receivable, subject to a maximum amount. FleetCor Funding LLC retains a residual interest in the eligible receivables transferred to

---

**Table of Contents**

**Index to Financial Statements**

the trust, such that amounts payable in respect of such residual interest will be distributed to FleetCor Funding LLC upon payment in full of all amounts owed by FleetCor Funding LLC to the financial institutions.

In June 2009, the FASB issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. The concept of a qualifying special-purpose entity, or QSPE, which had previously facilitated sale accounting for certain asset transfers, is removed by this standard. This guidance is effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, we consolidated our QSPE. Using the carrying amounts of the assets and liabilities of the QSPE as prescribed by ASU No. 2009-17 and any corresponding elimination of activity between the QSPE and us resulting from the consolidation on January 1, 2010, we recorded a \$218 million increase in total assets, a \$218 million increase in total liabilities and non-cash financing activities of \$218 million. Beginning January 1, 2010, our consolidated balance sheet and consolidated statement of income no longer reflect activity related to our retained economic interests, but instead reflect activity related to our securitized accounts receivable and the corresponding securitized debt, including interest income, fees generated from late payments, provision for losses on accounts receivable, and interest expense. Interest expense and provisions for losses on accounts receivable associated with the securitized accounts receivable are no longer included as a deduction from revenues, net in the consolidated statement of income, resulting in an increase of \$9.2 million in the three months ended March 31, 2010 as compared to the same period in 2009.

The cash flows from borrowings and repayments, associated with the securitized debt, are now presented as cash flows from financing activities. Our consolidated statement of income for the quarter ended March 31, 2009 and our balance sheet as of December 31, 2009 have not been retrospectively adjusted to reflect the adoption of ASU Nos. 2009-16 and 2009-17. Therefore, current period results and balances will not be comparable to prior period amounts, particularly with regard to accounts receivable, securitization facility, provision for losses on accounts receivable, interest expense and revenues, net.

***Credit risk and reserve for losses on receivables***

We control credit risk by performing periodic credit evaluations of our customers. Payments from customers are generally due within 30 days of billing. We routinely review our accounts receivable balances and make provisions for probable doubtful accounts based primarily on the aging of those balances. Accounts receivable are deemed uncollectible and removed from accounts receivable and the allowance for doubtful accounts when internal collection efforts have been exhausted and accounts have been turned over to a third-party collection agency.

***Impairment of long-lived assets and intangibles***

We test our other long-lived assets for impairment in accordance with relevant authoritative guidance. We evaluate whether impairment indicators related to our property, plant and equipment and other long-lived assets are present. These impairment indicators may include a significant decrease in the market price of a long-lived asset or asset group, a significant adverse change in the extent or manner in which a long-lived asset or asset group is being used or in its physical condition, or a current-period operating or cash flow loss combined with a history of operating or cash flow losses or a forecast that demonstrates continuing losses associated with the use of a long-lived asset or asset group. If impairment indicators are present, we estimate the future cash flows for the asset or group of assets. The sum of the undiscounted future cash flows attributable to the asset or group of assets is compared to their carrying amount. The cash flows are estimated utilizing various projections of revenue and expenses, working capital and proceeds from asset disposals on a basis consistent with the strategic plan. If the carrying amount exceeds the sum of the undiscounted future cash flows, we determine the assets' fair value by discounting the future cash flows using a discount rate required for a similar investment of like risk and we

## **Table of Contents**

### **Index to Financial Statements**

record an impairment charge as the difference between the fair value and the carrying value of the asset group. Generally, we perform testing of the asset group at the business-line level, as this is the lowest level for which identifiable cash flows are available.

We evaluate goodwill for impairment annually in the fourth quarter at the reporting unit level, which is one level below the operating segment level. We also test for impairment if events and circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying amount. If the carrying amount of the reporting unit is greater than the fair value, impairment may be present. We assess the fair value of each reporting unit for its goodwill impairment test based on an earnings multiple or an actual sales offer received from a prospective buyer, if available. Estimates critical to our fair value estimates using earnings multiples include the projected financial performance of the reporting unit and the applicable earnings multiple.

We measure the amount of any goodwill impairment based upon the estimated fair value of the underlying assets and liabilities of the reporting unit, including any unrecognized intangible assets, and estimate the implied fair value of goodwill. An impairment charge is recognized to the extent the recorded goodwill exceeds the implied fair value of goodwill.

We also evaluate indefinite-lived intangible assets (primarily trademarks and trade names) for impairment annually. We also test for impairment if events and circumstances indicate that it is more likely than not that the fair value of an indefinite-lived intangible asset is below its carrying amount. Estimates critical to our evaluation of indefinite-lived intangible assets for impairment include the discount rate, royalty rates used in our evaluation of trade names, projected average revenue growth and projected long-term growth rates in the determination of terminal values. An impairment charge is recorded if the carrying amount of an indefinite-lived intangible asset exceeds the estimated fair value on the measurement date.

### ***Income taxes***

We account for income taxes in accordance with relevant authoritative literature. Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. The realizability of deferred tax assets must also be assessed.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the associated temporary differences became deductible. A valuation allowance must be established for deferred tax assets that are not believed to more likely than not be realized in the future. We include any estimated interest and penalties on tax-related matters in income taxes payable and income tax expense.

We do not provide deferred taxes for the undistributed earnings of our foreign subsidiaries that are considered to be indefinitely reinvested outside of the United States in accordance with relevant authoritative literature. If in the future these earnings are repatriated to the United States, or if we determine that the earnings will be remitted in the foreseeable future, additional tax provisions may be required.

On January 1, 2007, we retrospectively adopted the provisions of relevant authoritative literature with respect to uncertainty in income taxes. This guidance clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements and prescribes threshold and measurement attributes for financial statement disclosure of tax positions taken or expected to be taken on a tax return. Under the relevant authoritative

**Table of Contents**

**Index to Financial Statements**

literature, the impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant taxing authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained.

As a result of adopting the provisions of the authoritative literature regarding uncertain tax positions, we recognized a reduction in shareholders equity of \$0.8 million on January 1, 2007 reflecting the cumulative effect of adoption. This adjustment resulted from changes in the amount of tax benefits related to uncertain tax positions and the accrual of potential interest and penalties on those uncertain tax positions.

***Business combinations***

We have accounted for business combinations under the purchase method of accounting. The cost of each acquired business is allocated to the assets acquired and liabilities assumed based on their estimated fair values. These estimates are revised during an allocation period as necessary when, and if, information becomes available to further define and quantify the value of the assets acquired and liabilities assumed. The allocation period does not exceed one year from the date of the acquisition. To the extent additional information to refine the original allocation becomes available during the allocation period, the allocation of the purchase price is adjusted. Should information become available after the allocation period, those items are included in operating results. The direct costs of the acquisition are recorded as operating expenses in 2009. Prior to 2009, the costs of an enterprise acquired in a business combination included the direct cost of the acquisition. A portion of our 2008 and earlier acquisitions include additional contingent consideration related to future earnouts based on the growth of the market. When the contingencies are resolved and additional consideration is distributable, we will record the consideration issued as additional cost of the acquired company, or goodwill. The operating results of entities acquired are included in our consolidated statements of operation from the completion date of the applicable transaction. Goodwill represents the excess of the purchase price over the fair value of the tangible and intangible assets acquired and any liabilities assumed.

***Stock-based compensation***

We account for employee stock options and restricted stock in accordance with relevant authoritative literature, which requires companies to recognize compensation cost for stock options and other stock-based awards based on the estimated fair value as measured on the grant date. We have selected the Black-Scholes model for estimating the grant date fair value of share-based payments. Stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the requisite service period based on the number of awards for which the requisite service is expected to be rendered. For performance-based restricted stock awards, we must also make assumptions regarding the likelihood of achieving performance goals. If actual results differ significantly from these estimates, stock-based compensation expense and our results of operations could be materially affected.

In connection with making our fair value estimates related to our stock option and restricted stock grants, we considered various factors including third-party equity transactions and certain commonly used valuation techniques. We sold convertible preferred stock to third parties in 2005, 2006 and 2009. In addition, in 2007 we repurchased common stock and preferred stock from the holders at a negotiated price, which we believe represented fair value. These third-party transactions served as a basis for determining the fair value of our common stock at various dates. In situations where we sold preferred stock that included conversion and dividend features, we considered such features in those instruments and the fact that such instruments could not be freely traded in determining a fair value for our common stock. Generally, we concluded that the fair value of our common stock was 10% to 25% less than the preferred stock at the date of such third-party transactions due to the features attributable to the preferred stock. In periods prior to third-party transactions, and in intervening

---

**Table of Contents**

**Index to Financial Statements**

periods subsequent to the third-party transactions, we utilized various earnings and revenue multiples to estimate the fair value of our common stock or to serve as an additional factor in determining fair value. Finally, we used information we obtained related to our acquisitions and the related determination of purchase prices for these acquisitions (which were generally based on earnings multiples) as additional data to help determine the fair value of our equity instruments.

We have continued to enhance our value through acquisitions and organic growth. Our third-party investors made their investments with the expectation that some form of liquidity event would occur in the future at values higher than their initial investments. We have continued to evaluate and adjust the estimated fair value of our common stock based on our acquisition strategy, organic growth, changes in management and other environmental factors. From June 2006 to December 2009, the estimated fair value of our common stock, as determined based on the factors noted above, increased from \$16 per share to \$45 per share and from April 2009 to December 2009, the fair value of our common stock increased from \$25 per share to \$45 per share. The factors we considered in connection with estimating the fair value of our common stock for the period from April 2009 through December 2009 were the consummation of our acquisitions of CLC Group, Inc. and ReD Fuel Cards (Europe) Limited in April 2009 and August 2009, respectively. These acquisitions coupled with modest organic growth contributed to increasing revenues and profitability measures during this period. Additionally, in December 2009, we began to consider certain strategic alternatives, including a liquidity event, which resulted in us having further discussions with third parties regarding our enterprise value. Based on these factors we estimated the fair value of our common stock had increased significantly during the period from April 2009 through December 2009. The mid-point of the price range of this offering set forth on the cover page of this prospectus is expected to be higher (as adjusted for stock splits) than our most recent stock option grant which was granted in April 2010 at \$50 per share. Given the timing of this offering, we conclude that our estimate of the fair value of our common stock was reasonable in light of various market conditions present at the date of grant.

**Recent accounting pronouncements**

***Off balance sheet arrangements***

We utilize an off-balance sheet arrangement in the ordinary course of business to finance a portion of our accounts receivable. Our off-balance sheet activity utilizes a qualified special-purpose entity, or QSPE, in the form of a limited liability company. The QSPE raises funds by issuing debt to third-party investors. The QSPE holds trade accounts receivable whose cash flows are the primary source of repayment for the liabilities of the QSPE. Investors only have recourse to the assets held by the QSPE. Our involvement in these arrangements takes the form of originating accounts receivable and providing servicing activities.

In June 2009, the FASB issued authoritative guidance limiting the circumstances in which a financial asset may be derecognized when the transferor has not transferred the entire financial asset or has continuing involvement with the transferred asset. The concept of a qualified special-purpose entity, which had previously facilitated sale accounting for certain asset transfers, is removed by this standard. This guidance was effective for us as of January 1, 2010. As a result of the adoption of such guidance, effective January 1, 2010, we will consolidate the QSPE and the securitization of accounts receivable related to the QSPE will be accounted for as a secured borrowing rather than as a sale. Accordingly, we will record accounts receivable and short-term debt related to the securitization facility as assets and liabilities on our balance sheet. In addition, subsequent to the adoption, our statements of income will no longer include securitization activities in revenue. Rather, we will report provision for bad debts and interest expense associated with the debt securities issued by the QSPE.

As a result of the implementation of this guidance, at March 31, 2010, we had \$196 million of accounts receivable and short-term debt on our balance sheet. See Note 2 Summary of significant accounting policies for further details.

---

**Table of Contents**

**Index to Financial Statements**

**Market risk**

**Foreign currency risk**

Our International segment exposes us to foreign currency exchange rate changes that can impact translations of foreign-denominated assets and liabilities into U.S. dollars and future earnings and cash flows from transactions denominated in different currencies. Revenue from our International segment was 35.8%, 39.8%, 38.9% and 34.2% of consolidated revenue for the years ended December 31, 2009, 2008, and 2007 and the quarter ended March 31, 2010, respectively. We measure foreign currency exchange risk based on changes in foreign currency exchange rates using a sensitivity analysis. The sensitivity analysis measures the potential change in earnings based on a hypothetical 10% change in currency exchange rates. Exchange rates and currency positions as of December 31, 2009 were used to perform the sensitivity analysis. Such analysis indicated that a hypothetical 10% change in foreign currency exchange rates would have increased or decreased consolidated pretax income during the year ended December 31, 2009 by approximately \$5.4 million had the U.S. dollar exchange rate increased or decreased relative to the currencies to which we had exposure. When exchange rates and currency positions as of December 31, 2008 and 2007 were used to perform this sensitivity analysis, the analysis indicated that a hypothetical 10% change in currency exchange rates would have increased or decreased consolidated pretax income for the years ended December 31, 2008 and 2007 by approximately \$7.7 million and \$2.6 million, respectively.

**Interest rate risk**

We are exposed to changes in interest rates on our cash investments and debt. We invest our excess cash either to pay down our securitization facility debt or in securities that we believe are highly liquid and marketable in the short term. These investments are not held for trading or other speculative purposes. Under the 2005 Credit Facility, we have a syndicated \$300.0 million term loan agreement with a syndicate of term loan B investors in the United States. The term loan bears interest, at our election, at the prime rate or LIBOR plus a margin based on our leverage position. As of March 31, 2010, the interest rate on the term loan was LIBOR plus 2.25%. The term loan expires in April 2013.

Under the 2005 Credit Facility, we also have a \$50 million unsecured revolving credit facility with a syndicate of banks based in the United States and Europe. The facility expires in April 2012, and borrowings bear a variable interest rate based at the prime rate or LIBOR plus a margin that varies according to our leverage position. As of March 31, 2010, there were no borrowings on this facility.

In addition, we have an \$83.8 million term loan under our CCS Credit Facility. This term loan bears interest on a base rate, PRIBOR, plus a margin and mandatory cost.

Based on the amounts and mix of our fixed and floating rate debt (exclusive of our asset securitization facility) at December 31, 2009 and December 31, 2008, if market interest rates had increased or decreased an average of 100 basis points, after considering the effect of our interest rate swap, our interest expense would have changed by \$1.8 million and \$1.7 million, respectively. We determined these amounts by considering the impact of the hypothetical interest rates on our borrowing costs and interest rate swap agreement. These analyses do not consider the effects of changes in the level of overall economic activity that could exist in such an environment.

**Fuel price risk**

Our fleet customers use our products and services primarily in connection with the purchase of fuel. Accordingly, our revenue is affected by fuel prices, which are subject to significant volatility. A decline in retail fuel prices could cause a change in our revenue from several sources, including fees paid to us based on a percentage of each

**Table of Contents****Index to Financial Statements**

customer's total purchase. Changes in the absolute price of fuel may also impact unpaid account balances and the late fees and charges based on these amounts. The impact of changes in fuel price is somewhat mitigated by our agreements with certain merchants, where the price paid to the merchant is equal to the lesser of the merchant's cost plus a markup or a percentage of the transaction purchase price. We do not enter into any fuel price derivative instruments.

**Fuel-price spread risk**

From our merchant and network relationships, we derive revenue from the difference between the price charged to a fleet customer for a transaction and the price paid to the merchant or network for the same transaction. The price paid to a merchant or network is calculated as the merchant's wholesale cost of fuel plus a markup. The merchant's wholesale cost of fuel is dependent on several factors including, among others, the factors described above affecting fuel prices. The fuel price that we charge to our customer is dependent on several factors including, among others, the fuel price paid to the fuel merchant, posted retail fuel prices and competitive fuel prices. We experience fuel-price spread contraction when the merchant's wholesale cost of fuel increases at a faster rate than the fuel price we charge to our customers, or the fuel price we charge to our customers decreases at a faster rate than the merchant's wholesale cost of fuel. Accordingly, if fuel-price spreads contract, we may generate less revenue, which could adversely affect our operating results. The impact of volatility in fuel spreads is somewhat mitigated by our agreements with certain merchants, where the price paid to the merchant is equal to the lesser of the merchant's cost plus a markup or a percentage of the transaction purchase price.

**Contractual obligations**

The table below summarizes the estimated dollar amounts of payments under contractual obligations identified below as of December 31, 2009 for the periods specified:

| (in millions)               | Total    | Payments due by period (a) |              |              |                      |
|-----------------------------|----------|----------------------------|--------------|--------------|----------------------|
|                             |          | Less than<br>1 year        | 1-3<br>years | 3-5<br>years | More than<br>5 years |
| Operating leases            | \$ 16.5  | \$ 5.3                     | \$ 8.0       | \$ 2.8       | \$ 0.4               |
| 2005 Credit Facility        | 276.3    | 3.0                        | 6.0          | 6.0          | 261.3                |
| CCS Credit Facility         | 61.5     | 7.0                        | 14.0         | 40.5         |                      |
| Interest rate swap          | 6.4      | 6.4                        |              |              |                      |
| Seller financing notes      | 12.8     | 12.3                       | 0.5          |              |                      |
| Securitization facility (b) | 223.0    |                            | 223.0        |              |                      |
| Total                       | \$ 596.5 | \$ 34.0                    | \$ 251.5     | \$ 49.3      | \$ 261.7             |

(a) Deferred income tax liabilities as of March 31, 2010 were approximately \$87.2 million. Refer to Note 11 to our audited consolidated financial statements. This amount is not included in the total contractual obligations table because we believe this presentation would not be meaningful. Deferred income tax liabilities are calculated based on temporary differences between the tax bases of assets and liabilities and their respective book bases, which will result in taxable amounts in future years when the liabilities are settled at their reported financial statement amounts. The results of these calculations do not have a direct connection with the amount of cash taxes to be paid in any future periods. As a result, scheduling deferred income tax liabilities as payments due by period could be misleading, because this scheduling would not relate to liquidity needs.

(b) As further described in Footnote 2, Recent Accounting Pronouncements, in the notes to condensed consolidated financial statements effective January 1, 2010 consolidated the special-purpose entity utilized in its securitization facility. As a result, the Company now includes securitized debt. We have reflected this securitized debt as if we had consolidated the special-purpose entity as of December 31, 2009 above.

## **Business**

### **Overview**

FleetCor is a leading independent global provider of specialized payment products and services to commercial fleets, major oil companies and petroleum marketers. We serve more than 530,000 commercial accounts in 18 countries in North America, Europe, Africa and Asia, and we had approximately 2.5 million commercial cards in use during the month of December 2009. Through our proprietary payment networks, our cards are accepted at approximately 83,000 locations in North America and Europe. In 2009, we processed approximately \$14 billion in purchases on our proprietary networks and third-party networks. We believe that our size and scale, geographic reach, advanced technology and our expansive suite of products, services, brands and proprietary networks contribute to our leading industry position.

We provide our payment products and services in a variety of combinations to create customized payment solutions for our customers and partners. Our payment programs enable businesses to better manage and control employee spending and provide card-accepting merchants with a high volume customer base that can increase their sales and customer loyalty. In order to deliver our payment programs and services and process transactions, we own and operate six proprietary closed-loop networks through which we electronically connect to merchants and capture, analyze and report customized information. We also use third-party networks to deliver our payment programs and services in order to broaden our card acceptance and use. To support our payment products, we also provide a range of services, such as issuing and processing, as well as specialized information services that provide our customers with value-added functionality and data. Our customers can use this data to track important business productivity metrics, combat fraud and employee misuse, streamline expense administration and lower overall fleet operating costs.

We market our payment products directly to a broad range of commercial fleet customers, including vehicle fleets of all sizes and government fleets. Among these customers, we provide our products and services predominantly to small and medium commercial fleets. We believe these fleets represent an attractive segment of the global commercial fleet market given their relatively high use of less efficient payment products, such as cash and general purpose credit cards. We also manage commercial fleet card programs for major oil companies, such as British Petroleum (BP) (including its subsidiary Arco), Chevron and Citgo, and over 800 petroleum marketers. These companies collectively maintain hundreds of thousands of end-customer relationships with commercial fleets. We refer to these major oil companies and petroleum marketers with whom we have strategic relationships as our partners.

FleetCor benefits from an attractive business model, which is characterized by our recurring revenue, significant operating margins and low capital expenditure requirements. Our revenue is recurring in nature because we generate fees every time a card is used, customers rely on our payment programs to control their own recurring operating expenses and our partners and customers representing a substantial portion of revenue enter into multi-year service contracts. Our highly-scalable business model creates significant operating efficiencies, which enable us to generate strong cash flow that may be used to repay indebtedness, make acquisitions and fund the future growth of our business. In addition, this business model enables us to continue to grow our business organically without significant additional capital expenditures.

We believe the fleet card industry is positioned for further consolidation because it is served by a fragmented group of suppliers, few with the size and scale to adequately invest to keep pace with industry advancements. For example, there is significant time and investment required to establish the closed-loop networks and technology solutions that address the diverse requirements of customers and partners across various geographic markets. We believe this dynamic will continue to shift market share to larger scale vendors with advanced technology platforms and drive further consolidation globally.

## **Table of Contents**

### **Index to Financial Statements**

FleetCor's predecessor company was organized in the United States in 1986. In 2000, our current chief executive officer joined us and we changed our name to FleetCor Technologies, Inc. Since 2000, we have grown significantly through a combination of organic initiatives, product and service innovation and over 40 acquisitions of businesses and commercial account portfolios. We have grown our revenue from \$30.7 million in 2001 to \$381.3 million on a managed basis in 2009, representing a compound annual growth rate of 37.0%. In 2009, we generated 35.8% of our revenue from our international operations, compared to none in 2005. For the years ended December 31, 2005, 2006, 2007, 2008 and 2009, our consolidated revenue was \$143.3 million, \$186.2 million, \$264.1 million, \$341.1 million and \$354.1 million, respectively. In the same periods, we generated operating income of \$59.0 million, \$71.8 million, \$105.8 million, \$152.5 million and \$146.0 million, respectively. In addition, we have grown our net income from a net loss of \$12.6 million in 2000 to net income of \$89.1 million in 2009.

### **Industry background**

*The electronic payments industry is a large and fast growing sector that is benefiting from favorable trends around the world*

The electronic payments industry has grown significantly over the past 50 years as card-based payment products, such as credit and debit cards, have benefited from favorable trends. These products have increasingly gained acceptance by merchants, usage by consumers and adoption by businesses and governments around the world because they offer faster, safer and often lower cost alternatives to traditional, paper-based payment methods. Packaged Facts, a research firm, estimates that total global card purchase volumes reached \$6.8 trillion in 2009, growing at a compound annual growth rate of 10.8% from 2005 to 2009.

*Commercial cards provide specialized capabilities and are among the fastest growing segments of the electronic payments industry*

Given the high degree of payment card usage globally, various types of business-specific payment products are being used increasingly in the marketplace. Commercial card products are typically charge cards, which are paid in full every month and provide businesses with control over the types of authorized purchases, integration with accounting systems, detailed reporting, and the ability to incorporate and transmit additional data with a payment transaction. Packaged Facts estimates that total global commercial card purchase volumes reached \$916.5 billion in 2009, growing at a compound annual growth rate of 8.2% from 2005 to 2009, and will reach \$1.5 trillion in 2014, growing at a compound annual growth rate of 10.6% from 2009 to 2014. Some of the more common commercial card applications and services include:

*Purchasing cards* used for corporate procurement spending

*Corporate cards* used for travel and entertainment expenses

*Small-business credit and debit cards* used for general purpose spending

*Prepaid commercial cards* used for rewards, incentives, payroll, healthcare and other pre-funded expenses

*Fleet cards* used to purchase fuel and for other commercial fleet related expenses and provide specialized, value-added information services and controls

*Lodging cards* used to purchase lodging and related services

*Fleet cards typically provide differentiated services that help commercial fleet operators operate their businesses more effectively*

Fleet cards are specialized commercial cards that fleet operators provide to their drivers to pay for fuel, maintenance, repairs and other approved purchases. Fleet cards typically provide differentiated services, which

**Table of Contents**

**Index to Financial Statements**

include significant cost controls (managed through business rules implemented at the point of sale) and access to level 3 data regarding transactions, such as the amount of the expenditure, the identification of the driver and vehicle, the odometer reading, the identity of the fuel or vehicle maintenance provider and the items purchased. These services enable commercial fleet operators to choose which products and services may be purchased using these cards and help prevent unauthorized spending. In addition, fleet cards typically provide commercial fleet operators with other valuable information services and reporting tools such as fleet tracking and mileage and maintenance trends which provide commercial fleet operators even greater control over their fleets, employees and expenses.

In order to provide fleet cards and related services, fleet card vendors contract with fuel retailers and other merchants to accept their cards, either directly or indirectly through a third party. Fleet card vendors typically process transactions for these merchants using specialized card-processing platforms and proprietary closed-loop networks. Closed-loop networks connect the fleet card vendor directly with each merchant and provide significant functionality and control. Fleet card vendors also offer products through open-loop payment networks, such as the MasterCard network, that connect to merchants through acquiring banks. These cards can provide broader acceptance, but may provide less control over functionality and pricing than some proprietary, closed-loop network card products.

***Fleets represent a large customer base around the world***

Fleets are composed of one or more vehicles, including automobiles, vans, SUVs, trucks and buses, used by businesses and governments. Fleets typically are categorized by the number of vehicles in the fleet and by the type of fleet. We divide the fleet market into the following five categories: small commercial fleets (1-10 vehicles), medium commercial fleets (11-150 vehicles), large commercial fleets (over 150 vehicles), over the road fleets (which include long-haul trucks that travel across long distances) and government fleets (which are owned and operated by governments). Based on our analysis of data from a variety of sources, we believe small and medium commercial fleets represent our greatest opportunity for growth since large commercial fleets are more likely to currently utilize fleet cards while small and medium fleets often utilize less efficient payment products (such as cash and general purpose credit cards).

***The United States market*** Packaged Facts estimates that there were approximately 41.9 million fleet vehicles in the United States in 2008. We believe small, medium, large and government fleets in the United States represent a significant market opportunity for growth. Packaged Facts estimates that total U.S. closed-loop fleet card purchase volumes reached \$50.8 billion in 2009, growing at a compound annual growth rate of 6.0% from 2005 to 2009. Based on research by Packaged Facts, 35% of U.S. fleet vehicle fuel volume in 2009 was purchased utilizing closed-loop fleet cards.

***The European market*** We believe the European market is the largest market outside the United States. Based on our analysis of fleet vehicle data from several third-party sources, we believe there were approximately 68 million fleet vehicles in 30 European countries in 2007 (2007 representing the most recent year common to each of these sources). Datamonitor, a research firm, estimates that the total value of fuel sold on commercial fuel cards in 16 major European countries reached approximately 68 billion in 2006. Based on our analysis of data available for several of the largest European countries, including France, Germany, Italy, the Netherlands, Spain and the United Kingdom, we estimate that during 2005, approximately 59% of fleet vehicle fuel volume in Europe was purchased with some form of fleet card product.

***The Latin American and Asian markets*** There is less data available on the Latin American and Asian fleet card markets; however, we believe, based on information available to us from a variety of sources, that commercial fleets in these markets will likely represent a significant, long-term growth opportunity given the levels of commercial card penetration in these markets and our belief in the potential for economic growth in

## Table of Contents

### Index to Financial Statements

these markets. According to the June 2009 BP Statistical Review of World Energy, total world consumption of oil was approximately 3.9 billion metric tons in 2008, with consumption outside of the United States, Europe and Eurasia comprising approximately 53% and consumption in Asia and Latin America comprising approximately 39% of world consumption.

#### *Industry characteristics provide an attractive growth opportunity*

The fleet card industry began to develop in the 1980s as a variety of fleet card acceptance networks were developed to address the needs of different commercial fleet customers. For example, truck stop networks were built to meet the needs of over the road fleets, as these fueling locations generally have the amenities, such as high canopies, high-speed diesel pumps, dining services and shower facilities, to accommodate heavy goods vehicles and their operators. Universal networks, formed largely through brand-wide card acceptance agreements with major oil companies, were established to meet the broader acceptance needs of large national account fleets. Cardlock networks, which utilize unattended commercial fueling locations, were developed to provide a broader network solution to fleets, typically local construction or industrial service companies. Network operators also developed varying technologies that provided specific features and functionality to address the needs of customers in distinct segments.

In the 2000s, the fleet card industry began to consolidate and a few, larger vendors emerged with the network breadth and technical capabilities to address larger and more diverse customer bases and geographic markets. Despite this trend, the fleet card industry is still served by a fragmented group of participants with varying distribution models, including oil companies, petroleum marketers, third-party independent fleet card issuers and network operators, transaction processors and software service providers. For many of these industry participants, fleet cards are not a core component to their businesses and we believe few have made the investments required to keep pace with industry advancements. As a result, we believe there is a significant amount of aging technology, legacy systems and dated business practices within the fleet card industry, which we believe will continue to shift market share to larger scale vendors with advanced technology platforms and drive further consolidation globally.

Given the generally rising levels of fuel prices and the continued increase in the number and size of commercial fleets, we believe the use of fleet cards will continue to increase around the world. In addition, we believe that penetration rates will continue to increase given the moderate penetration of fleet card products, particularly in the small and medium fleet sector and some international markets, as well as the cost-effective nature and advanced functionality of these products. We believe increasing penetration could accelerate the growth of the fleet card sector relative to alternative payment methods, and we believe larger scale participants may be able to grow at a faster rate than the sector due to the fragmented nature of the industry.

We believe the market's development and consolidation have created significant barriers to entry because, to achieve meaningful scale, new participants will need to provide technology platforms and product solutions that address the diverse requirements of commercial fleet customers, major oil companies and petroleum marketers, in certain cases across broad geographic markets. As a result of this past and expected future consolidation, we believe there will be an increasingly limited number of vendors that can serve the fleet card market effectively and (given the apparent lack of investment in global operations by other independent fleet card providers) even fewer with the ability to provide products and network services on a global scale.

### **Our competitive strengths**

We believe our competitive strengths include the following:

**Global leadership.** We are a leading independent global provider of specialized commercial payment products and services to fleets, major oil companies and petroleum marketers. We provide our products and services to more than 530,000 commercial accounts with approximately 2.5 million commercial cards in use in

**Table of Contents**

**Index to Financial Statements**

18 countries in North America, Europe, Africa and Asia. We believe that our deep and diverse relationships, geographic reach, strong brands and scale contribute to our leading industry position. Through our customer and strategic relationships, we gain valuable insight into trends in the marketplace, which allows us to identify market opportunities, develop targeted offerings and adapt our business practices to meet specific customer and partner needs. Our international presence diversifies our revenue base and gives us access to new, less-penetrated markets. We believe that our strong brand recognition increases card acceptance, drives usage of our proprietary networks and presents opportunities for future strategic relationships. Our size and scale enable us to make significant investments in technology and systems infrastructure. We seek to leverage the scale, geographic reach and diversity of our business to systematically analyze performance, develop better business models and transplant best practices throughout our company. We believe that we maintain a leading industry position and compare favorably to other independent fleet card providers based on the number of accounts served, employees, cards in use and revenue.

***Broad distribution capabilities.*** We target new customers across different markets by using multiple distribution channels and tailored sales and marketing efforts designed to address the unique characteristics of individual market segments. In 2009, we added approximately 47,000 new commercial accounts directly through our own sales efforts and approximately 25,000 additional commercial accounts via the sales efforts of our strategic relationships. Our strategic relationships with oil companies and petroleum marketers allow us to add new commercial accounts with little incremental sales costs. To target small fleets, we leverage scalable, low-cost channels, including our partners' sales efforts, numerous search-engine-optimized marketing websites and marketing at the point of sale. We target medium-sized fleets with our direct marketing, telesales and field sales channels. We serve our largest customers with a national accounts group that specializes in serving the complex needs of these customers. By targeting and effectively marketing our products to several different customer segments, we are able to address a variety of growth opportunities and diversify our revenue base.

***Proprietary closed-loop networks.*** We operate six proprietary closed-loop networks which, as of December 31, 2009, served approximately 83,000 acceptance locations in North America and Europe. In 2009, we processed purchases of over \$14 billion of fuel through our proprietary and third-party networks. Our proprietary networks require fleet operators to direct cardholder traffic to our merchant locations and concentrate cardholder activity. We believe this allows us to negotiate better economic terms for card acceptance than are typical of our industry. Many of our networks have been built over long periods of time, with acceptance negotiated directly with individual merchants operating local sites. We believe that the significant time and investment required to establish a large-scale network with mass merchant acceptance makes our model extremely difficult to replicate and creates a significant barrier to entry in our industry. Because of our long operating history in many local markets, our networks have significant brand recognition and a longstanding customer base, which drives cardholder usage and merchant acceptance.

***Advanced, reliable technology systems.*** We operate proprietary and industry-leading technology systems that use modern, scalable and standardized architecture. Our business models and best practices are codified in our technology systems, allowing us to take advantage of revenue-enhancing and cost-saving opportunities across our different businesses and geographies. The highly adaptable and configurable design of our systems allows us to add and enhance system functionality quickly and cost-effectively. We can offer customized product features, introduce new products and enter new markets without large scale redevelopment or disruption in our operations. Our infrastructure can flexibly support growth in transaction volume, conversions of large proprietary fleet card programs and the addition of new strategic relationships with low incremental operating cost and capital investment. We have a demonstrated record of transforming legacy systems of acquired businesses to achieve our scalability, security and reliability standards. Our fault-tolerant and highly secure data centers ensure continuous transaction processing, settlement and customer service, enabling us to establish greater trust among major oil companies and petroleum marketers.

---

**Table of Contents**

**Index to Financial Statements**

***Superior products and services.*** We provide products and services tailored to the specific needs of our fleet customers, which we believe makes them more attractive than alternative payment methods such as cash, house accounts and general purpose credit cards, as well as many other fleet card products. Our products and services provide advantages over traditional forms of payment by capturing vehicle-specific and point-of-sale transaction information such as odometer readings and amount and type of fuel purchased which enable fleet operators to monitor and control fuel spending. We believe we are also able to achieve a competitive advantage over many other fleet card vendors by designing products targeting the unique needs of our customers and partners in different markets. For example, the EuroFleetNet platform has emerged as a leading offering for pan-European oil companies and petroleum marketers because it provides an end-to-end (encompassing issuing, processing and network services) payment services platform incorporating the multiple languages, currencies and tax regimes in the region. We believe that the greater adoption and higher customer loyalty resulting from the functional advantages of our products contribute to the growth and stability of our business.

***Strong execution capabilities.*** Our leadership team has a long and demonstrated track record of growing our business and has generated revenue growth (on a managed basis) at a compound annual growth rate of more than 37.0% from 2001 to 2009. We have achieved our growth through a strategy combining operational initiatives, strategic relationships and acquisitions. We have grown our revenue organically by enhancing our sales and marketing channels and evolving our pricing strategies as well as by introducing new products and services. In the past five years, we have forged several important strategic relationships with major oil companies, including British Petroleum (BP) (including its subsidiary, Arco), Chevron, and Citgo. We have a successful track record of integrating business practices, operations, technology and corporate functions of acquired businesses, and have created value from the resulting synergies, operational improvements and cross-selling opportunities.

**Our growth strategy**

Our strategy is to grow our revenue and profits by further penetrating our target markets, expanding our product and service offerings, entering new geographic markets and acquiring companies that meet our strategic criteria. The key elements of our growth strategy are to:

***Penetrate our target markets further.*** We intend to expand our presence in target markets by adding more customers, cross-selling additional products and services to existing customers, entering into additional strategic relationships and making acquisitions. To target small-to-medium fleets, we will continue to invest in cost-effective distribution channels such as direct marketing, third-party agents, internet and telemarketing, including both in-house and outsourced telemarketing. We will also seek to leverage our strategic relationships with major oil companies and petroleum marketers to attract small and medium fleet customers. To further penetrate the medium-to-large fleet market, we will continue to invest in our field sales force. In addition, we also intend to attract new customers by providing enhanced customization of our card programs. We recognize the value of large institutional relationships and seek to expand our strategic relationships with fleet leasing companies, corporate and small-business card issuers and automotive manufacturers.

***Expand our products and services.*** We will seek to grow revenue by introducing new product features and functionality to our fleet card products, including additional maintenance, lodging and travel and entertainment capabilities. We aim to extend our network offerings in order to help major oil companies and petroleum marketers compete more effectively with other fleet cards and alternative payment methods. For example, we plan to offer extended network products, such as a co-branded MasterCard product, to major oil companies and petroleum marketers. We will continue to expand the servicing model for relationships with local and regional petroleum marketers to include additional services such as issuing and network services. We will also continue to market our telematics solutions and other fleet monitoring services to fleet customers.

## Table of Contents

### Index to Financial Statements

**Enter new geographic markets.** We intend to continue expanding in areas of Europe and the United States where we currently do not have a significant presence. We are also evaluating other opportunities in markets we believe to be under-penetrated, such as Latin America and Asia. We intend to enter these markets through a combination of strategic relationships with global oil companies and petroleum marketers and acquisitions.

**Pursue growth through strategic acquisitions.** We have a proven track record of growth through acquisitions of companies that meet our strategic criteria. Since 2002, we have completed over 40 acquisitions of companies and commercial account portfolios. A large portion of our historic growth in Europe has been achieved through strategic acquisitions, including the acquisitions of our CCS and Petrol Plus Region networks. In international markets, such as parts of Europe, where fleet card penetration is below levels observed in the United States, we will seek opportunities to increase our customer base through further strategic acquisitions. We also will consider acquisition targets that will provide related services to our fleet customers.

### **Our products and services**

We sell a range of customized fleet and lodging payment programs directly and indirectly through partners, such as major oil companies and petroleum marketers. We provide our customers with various card products that typically function like a charge card to purchase fuel, lodging and related products and services at participating locations. We support these cards with specialized issuing, processing and information services that enable us to manage card accounts, facilitate the routing, authorization, clearing and settlement of transactions, and provide value-added functionality and data including customizable card-level controls and productivity analysis tools. Depending on our customer's and partner's needs, we provide these services in a variety of outsourced solutions ranging from a comprehensive end-to-end solution (encompassing issuing, processing and network services) to limited back office processing services. In addition, we offer a telematics solution in Europe that combines global positioning, satellite tracking and other wireless technology to allow fleet operators to monitor the capacity utilization and movement of their vehicles and drivers.

#### **Networks**

In order to deliver our payment programs and services, we own and operate six proprietary closed-loop networks in North America and Europe. In other geographies we utilize the networks of our major oil and petroleum marketer partners. Our networks have well-established brands in local markets and proprietary technology that enable us to capture, transact, analyze and report value-added information pertinent to managing and controlling employee spending. Our networks include:

#### **North American proprietary closed-loop networks**

**Fuelman network** our primary proprietary fleet card network in the United States. We have negotiated card acceptance and settlement terms with over 11,000 individual merchants, providing the Fuelman network with nearly 31,000 fueling sites and nearly 24,000 maintenance sites across the country.

**Corporate Lodging Consultants network (CLC)** our proprietary lodging network in the United States and Canada. We have negotiated card acceptance and settlement terms with over 10,000 individual merchants, providing the CLC network with over 16,000 hotels across the United States and Canada.

**Commercial Fueling Network (CFN)** our members only unattended fueling location network in the United States and Canada. The CFN network is composed of approximately 2,800 fueling sites, each of which is owned by a CFN member, and the majority of which are unattended cardlock facilities. The CFN membership base is comprised of approximately 280 independent petroleum marketers. Our members join CFN to provide network access to their fleet customers and benefit from fleet card volume generated by our other members fleet customers fueling at their locations.

## Table of Contents

### Index to Financial Statements

#### *International proprietary closed-loop networks*

**Keyfuels network** our primary proprietary fleet card network in the United Kingdom. We have negotiated card acceptance and settlement terms with approximately 490 individual merchants, providing the Keyfuels network with over 1,400 fueling sites.

**CCS network** our primary proprietary fleet card network in the Czech Republic and Slovakia. We have negotiated card acceptance and settlement terms with several major oil companies on a brand-wide basis, including Agip, Benzina, OMV and Shell, and with approximately 530 other merchants, providing the CCS network with over 2,500 fueling sites.

**Petrol Plus Region (PPR) network** our primary proprietary fleet card network in Russia, Poland, Ukraine, Belarus, Lithuania, Estonia and Latvia. We have negotiated card acceptance and settlement terms with over 640 individual merchants, providing the PPR network with approximately 6,000 fueling sites across the region.

#### *Third-Party networks*

In addition to our proprietary closed-loop networks, we also utilize various third-party networks to deliver our payment programs and services. These networks include:

**MasterCard network** In the United States, we issue corporate cards that utilize the MasterCard payment network, which includes 165,000 fuel sites and 400,000 maintenance locations across the country. Our co-branded MasterCard corporate cards, which represent less than 10% of our total cards in use during the month of December 2010, have additional purchasing capabilities and can be accepted at over 27 million locations worldwide. We market these cards to customers who require card acceptance beyond our proprietary merchant locations. The MasterCard network delivers the ability to capture value-added transaction data at the point-of-sale and allows us to provide customers with fleet controls and reporting comparable to those of our proprietary fleet card networks.

**Major oil and fuel marketer networks** The proprietary networks of branded locations owned by our major oil and petroleum marketer partners in both North America and internationally are generally utilized to support the proprietary, branded card programs of these partners.

**UTA network** UNION TANK Eckstein GmbH & Co. KG (UTA) operates a network of over 43,000 fleet card-accepting locations across 38 countries throughout Europe, including more than 28,000 fueling sites. The UTA network is generally utilized by European transport companies that travel between multiple countries.

**ReD network** Retail Decisions Limited (ReD) operates a network of over 3,700 fleet card-accepting fueling sites across 16 countries in Europe. The ReD network is generally utilized by European transport companies that travel between multiple countries.

#### **Customers and distribution channels**

We provide our products and services primarily to fleet customers and our major oil company and petroleum marketer partners. Our commercial fleet customers are businesses that operate fleets comprised of one or more vehicles, including small fleets (1-10 vehicles), medium fleets (11-150 vehicles), large fleets (over 150 vehicles), and government fleets (which are owned and operated by governments). We also provide services through strategic relationships with our partners, ranging in size from major oil companies, such as British Petroleum (BP) (including its subsidiary, Arco), Chevron and Citgo, to small petroleum marketers with a single fueling location. While we refer to companies with whom we have strategic relationships as partners, our legal relationships with these companies are contractual, and do not constitute legal partnerships.

## **Table of Contents**

### **Index to Financial Statements**

We distribute our products and services directly to fleet customers as well as through our major oil company and petroleum marketer partners. We provide comprehensive end-to-end support for our direct card programs that include issuing, processing and network services. We manage and market the fleet card programs of our partners under our partners' own brands. We support these programs with a variety of business models ranging from fully outsourced card programs, which include issuing, processing and network services, to card programs where we may only provide limited back office processing services. These supporting services vary based on our partners' needs and their own card program capabilities.

We primarily provide issuing, processing and information services to our major oil company partners, as these partners utilize their proprietary networks of branded locations to support their card programs. In addition, we provide network services to those major oil company partners who choose to offer a co-branded MasterCard as part of their card program. Our agreements with our major oil company partners typically have initial terms of five to ten years with current remaining terms ranging from less than one year up to seven years.

Our top three strategic relationships with major oil companies represented in the aggregate approximately 24%, 18%, 14% and 13% of our consolidated revenue for the quarter ended March 31, 2010, and the years ended December 31, 2009, 2008 and 2007, respectively. No single partner represented more than 10% of our consolidated revenue in these periods other than British Petroleum (including its subsidiary, Arco), which represented approximately 11% of our consolidated revenue in 2007, and one partner that represented approximately 13% of our consolidated revenue for the quarter ended March 31, 2010.

We provide similar products and services to government fleet customers as we provide to other commercial fleet customers. Our government fleet customers generally constitute local, state or federal government-affiliated departments and agencies with vehicle fleets, such as police vehicle fleets and school bus fleets. For a description of our financial information by our North American and International segments and geographical areas, see Note 16 to the accompanying consolidated financial statements.

### **Sales and marketing**

We market our products and services to fleet operators in North America and internationally through multiple channels including field sales, telesales, direct marketing, point-of-sale marketing and the internet. We also leverage the sales and marketing capabilities of our strategic relationships with over 800 oil companies, petroleum marketers, card marketers and leasing companies. As of December 31, 2009, we employed approximately 285 sales and marketing employees worldwide that are focused on acquiring new customers for all of our direct business card programs, as well as select card programs for oil companies and petroleum marketers. We also utilize tradeshows, advertising and other awareness campaigns to market our products and services.

In marketing our products and services, we emphasize the size and reach of our card acceptance networks, the benefits of our purchasing controls and reporting functionality and a commitment to high standards of customer service. We utilize proprietary and third-party databases to develop our prospect universe, and segment those prospects by various characteristics, including industry, geography, fleet size and credit score, to identify potential customers. We develop customized offers for different types of potential customers and work to deliver those offers through the most effective marketing channel. We actively manage prospects across our various marketing channels to optimize our results and avoid marketing channel conflicts.

In 2009, we acquired approximately 47,000 new commercial accounts across our markets through our own sales and marketing efforts. In addition, our partners acquired approximately another 25,000 new commercial accounts in 2009 through their own sales and marketing efforts.

## Table of Contents

### Index to Financial Statements

Our primary means of acquiring new customers include:

**Field sales** Our direct sales team includes approximately 120 field sales representatives, as of December 31, 2009, who conduct face-to-face sales presentations and product demonstrations with prospects, assist with post-sale program implementation and training and provide in-person account management. Our field sales force generally targets fleets with 15 or more vehicles or cards. Field sales representatives also attend and manage our marketing at tradeshow.

**Telesales** We had approximately 135 telesales representatives handling inbound and outbound sales calls as of December 31, 2009. Our inbound call volume is primarily generated as a result of referrals, direct marketing, point-of-sale marketing and the internet. Our outbound phone calls typically target fleets that have expressed an initial interest in our services or have been identified through database analysis as prospective customers. Our telesales teams generally target fleets with 15 or fewer vehicles or cards. We also leverage our telesales channel to cross-sell additional products to existing customers.

**Direct marketing** We market directly to potential fleet customers via mail and email. We test various program offers and promotions, and adopt the most successful features into subsequent direct marketing initiatives. We seek to enhance the sales conversion rates of our direct marketing efforts by coordinating timely follow-up calls by our telesales teams.

**Point-of-sale marketing** We provide marketing literature at the point-of-sale within our proprietary networks and those of major oil companies and petroleum marketers. Literature may include take-one applications, pump-top advertising and in-store advertising. Our point-of-sale marketing leverages the branding and distribution reach of the physical merchant locations.

**Internet marketing** We manage numerous marketing websites around the world. Our marketing websites tend to fall into two categories: product-specific websites and marketing portals.

**Product-specific websites** Our product-specific websites, including fuelman.com, cfnet.com, checkinncard.com and keyfuels.co.uk, focus on one or more specific products, provide the most in-depth information available online regarding those particular products, allow prospects to apply for cards online (where appropriate) and allow customers to access and manage their accounts online. We manage product-specific websites for our own proprietary card programs as well as card programs of select oil companies and petroleum marketers.

**Marketing portals** Our marketing portals, including fleetcardsUSA.com and fuelcards.co.uk, serve as information sources for fleet operators interested in fleet card products. In addition to providing helpful information on fleet management, including maintenance, tax reporting and fuel efficiency, these websites allow fleet operators to research card products, compare the features and benefits of multiple products, and identify the card product which best meets the fleet manager's needs. Our exclusive FleetMatch technology matches an operator's information, including fleet size, geographic span of operations and fuel type usage, to the benefits and features of our various fleet card products and provides a customized product recommendation to the fleet manager.

As part of our internet marketing strategy, we monitor and modify our marketing websites to improve our search engine rankings and test our advertising keywords to optimize our pay-per-click advertising spend among the major internet search firms such as Google and Yahoo.

**Strategic relationships** We have developed and currently manage relationships with over 800 oil companies, independent petroleum marketers, card marketers and leasing companies. Our major oil company and petroleum marketer relationships offer our payment processing and information management services to their fleet customers in order to establish and enhance customer loyalty. Our card programs for

major oil companies

## **Table of Contents**

### **Index to Financial Statements**

and petroleum marketers carry their proprietary branding and may or may not be accepted in one of our merchant networks. We benefit from the marketing efforts of major oil companies and petroleum marketers with whom we have strategic relationships to attract customers to their fueling locations. We manage the fleet card sales and marketing efforts for several major oil companies across the full spectrum of channels, including field sales, telesales, direct marketing, point-of-sale marketing and internet marketing. In these cases, we establish dedicated sales and marketing teams to focus exclusively on marketing the products of major oil companies and petroleum marketers. Our major oil company relationships include some of the world's largest oil companies such as BP, Chevron and Citgo. Through our leasing company relationships, we offer our payment processing and information management services to their fleet customers as part of the leasing company's broader package of fleet services. Our leasing company relationships all reside outside of North America, and we view these relationships as an important strategic growth area.

### **Account management**

***Customer service, account activation, account retention.*** We provide account management and customer services with approximately 390 service professionals as of December 31, 2009. Based in dedicated call centers across our key markets, these professionals handle transaction authorizations, billing questions and account changes. Customers also have the opportunity to self-service their accounts through interactive voice response and online tools. We monitor the quality of the service we provide to our customers by adhering to industry standard service levels with respect to abandon rates and answer times and through regular agent call monitoring. We also conduct regular customer surveys to ensure customers are satisfied with our products and services. In addition to our base customer service support, we provide the following specialized services:

***Welcome and activation*** We have dedicated teams that contact and welcome our new customers. These teams focus on successful activation and utilization of our new customers and provide training and education on the use of our products and services.

***Strategic account management*** We assign designated account managers who serve as the single point of contact for our large fleets. Our account managers have in-depth knowledge of our programs and our customers' operations and objectives. Our account managers train fleet operators and support them on the operation and optimal use of our programs, oversee account setup and activation, review online billing and create customized reports. Our account managers also prepare periodic account reviews, provide specific information on trends in their accounts and work together to identify and discuss major issues and emerging needs of large fleets.

***Account retention*** We have proprietary, proactive strategies to contact customers who may be at risk of terminating their relationship with us. Through these strategies we seek to address service concerns, enhance product structures and provide customized solutions to address customer issues.

***Merchant network services*** Our representatives work with merchants such as fuel and vehicle maintenance providers to enroll them in one of our proprietary networks, install and test all network and terminal software and hardware and train them on the sale and transaction authorization process. In addition, our representatives provide transaction analysis and site reporting and address settlement issues.

***Credit underwriting and collections.*** We follow detailed application credit review, account management, and collections procedures for all our fleet customers. We use multiple levers including billing frequency, payment terms, spending limits and security to manage risk in our portfolio.

***New account underwriting.*** We use a combination of quantitative, third-party credit scoring models and judgmental underwriting to screen potential customers and establish appropriate credit terms and spend limits. Our underwriting process provides additional scrutiny for large credit amounts and we utilize tiered credit approval authority among our management.

## **Table of Contents**

### **Index to Financial Statements**

**Prepaid and secured accounts.** We also offer products and services on a prepaid or fully-secured basis. Prepaid customer accounts are funded with an initial deposit and subsequently debited for each purchase transacted on the cards issued to the customer. Fully-secured customer accounts are funded with an initial deposit equal to the anticipated purchase volume for a given timeframe. The deposit is held until such time as the customer either fails to pay the account or closes its account after paying outstanding amounts. Under either approach, our prepaid and fully-secured offerings allow us to market to a broader universe of prospects, including customers who might otherwise not meet our credit standards.

**Monitoring and account management.** We have developed proprietary fraud detection programs to monitor transactions and prevent misuse of our products. We monitor the credit quality of our portfolio monthly utilizing external credit scores and internal behavior data to identify high risk or deteriorating credit quality accounts. We conduct targeted strategies to minimize exposure to high risk accounts, including reducing spending limits and payment terms or requiring additional security.

**Collections.** As accounts become delinquent, we may suspend future transactions based on our risk assessment of the account. Our collections strategy includes a combination of internal and outsourced resources which use both manual and dialer-based calling strategies. We use a segmented collection strategy which prioritizes higher risk and higher balance accounts. For severely delinquent, high balance accounts we may pursue legal remedies from time to time.

### **Competition**

We face considerable competition in our business. The most significant competitive factors in our business are the breadth of product and service features, network acceptance size, customer service and account management and price. We believe that we generally compete favorably with respect to each of these factors. However, we may experience competitive disadvantages with respect to each of these factors from time to time as potential customers prioritize or value these competitive factors differently. As a result, a specific offering of our products and service features, networks and pricing may serve as a competitive advantage with respect to one customer and a disadvantage for another based on the customers' preferences.

We compete with independent fleet card providers, providers of card outsourcing services and major financial services companies as well as major oil companies and petroleum marketers that issue their own fleet cards. We also compete with providers of alternative payment mechanisms, such as financial institutions that issue corporate and consumer credit cards, and merchants offering house accounts as well as other forms of credit. Our primary independent fleet card competitors are Wright Express Corporation, Comdata Corporation and U.S. Bank Voyager Fleet Systems Inc. in North America and Arval UK Group Limited (a subsidiary of BNP Paribas) internationally.

### **Technology**

Our technology provides continuous authorization of transactions, processing of critical account and client information and settlement between merchants, issuing companies and individual commercial entities. We recognize the importance of state-of-the-art, secure, efficient and reliable technology in our business and have made significant investments in our applications and infrastructure. In 2009, we spent more than \$20 million in capital and operating expenses to operate, protect and enhance our technology and we expect to spend a similar amount in 2010.

Our technology function comprises approximately 120 employees, as of December 31, 2009, based in the United States and Europe with expertise in the management of applications, transaction networks and infrastructure. We operate application development centers in the United States, United Kingdom, Netherlands, Russia and Czech

## **Table of Contents**

### **Index to Financial Statements**

Republic. Our distributed application architecture allows us to maintain, administer and upgrade our systems in a cost-effective and flexible manner. We integrate our systems with third-party vendor applications for certain products, sales and customer relationship management and back-office support. Our technology organization has undertaken and successfully executed large scale projects to develop or consolidate new systems, convert oil company and petroleum marketer systems and integrate acquisitions while continuing to operate and enhance existing systems.

Our technology infrastructure is supported by best-in-class, highly-secure data centers, with redundant locations. We operate three primary data centers, located in Atlanta, Georgia, Prague, Czech Republic and Las Vegas, Nevada. We use only proven, client-server technology and have no foreseeable capacity limitations. Our systems meet the highest standards for security with multiple industry certifications. Our network is configured with multiple layers of security to isolate our databases from unauthorized access. We use sophisticated security protocols for communication among applications, and our employees access critical components on a need-only basis. As of March 31, 2010, we have not experienced any breaches in network, application or data security.

We maintain up-to-date disaster recovery and business continuity plans. Our telecommunications and internet systems have multiple levels of redundancy to ensure reliability of network service. In 2009, we experienced 99.99% up-times for authorizations.

#### ***Proprietary processing systems***

We operate several proprietary processing systems that provide the features and functionality to run our card programs, including our card issuing, processing and information services. Our processing systems also integrate with our proprietary networks, which provide brand awareness and connectivity to our acceptance locations that enables the end-to-end card acceptance, data capture and transaction authorization capabilities of our card programs. Our proprietary processing systems are tailored to meet the unique needs of the individual markets they serve.

### **Intellectual property**

Our intellectual property is an essential element of our business. We use trademark, copyright, trade secret and other intellectual property laws and confidentiality agreements to protect our intellectual property. We own trademark registrations supporting a number of our brands, such as FleetCor®, Fuelman®, FleetNet®, FleetCards USA®, CFN®, and Mannatec® in the United States. We also own trademark registrations in various European jurisdictions for a number of our brands, such as Keyfuels®, The Fuelcard Company®, CCS®, iMonitor® and Transit Card®. Our employees involved in technology development in some of the countries in which we operate, including the United States, are required to sign agreements acknowledging that all intellectual property created by them on our behalf is owned by us. We also have stringent internal policies regarding the protection, disclosure and use of our confidential information.

### **Regulatory**

A substantial number of laws and regulations apply to businesses offering payment cards to customers or processing or servicing such cards. These laws generally apply only to consumer cards, which are cards used to make purchases for personal, family or household purposes. Because our payment cards are limited to purchases for business purposes only, they are typically classified as commercial cards which are generally not subject to many of the laws and regulations applicable to consumer cards. However, our business is still subject to significant regulation, and the following is a description of certain United States federal and state laws and regulations and certain laws and regulations of other jurisdictions applicable to our business.

## **Table of Contents**

### **Index to Financial Statements**

#### ***Federal Trade Commission Act***

The Federal Trade Commission Act empowers the Federal Trade Commission (the "FTC") to regulate unfair methods of competition and unfair or deceptive acts or practices affecting commerce. While this power generally applies only to consumers, the FTC has sometimes taken enforcement action on behalf of small business owners in certain circumstances. We also may be subject to state laws and regulations that generally prohibit engaging in unfair and deceptive business practices, which may extend to small businesses. Other countries in which we operate also regulate unfair and deceptive practices in a similar manner.

#### ***Truth in Lending Act***

The Truth in Lending Act, or TILA, which is implemented by the Federal Reserve's Regulation Z, was enacted to increase consumer awareness of the cost of credit. Most provisions of Regulation Z apply only to the extension of consumer credit, but a limited number of provisions apply to commercial cards, including a provision providing that, in cases where ten or more credit cards are issued by a card issuer for use by the employees of an organization, the organization, to which credit is extended, may agree to liability imposed on the organization for unauthorized use without regard to Regulation Z limitations. Our cardholder agreements generally provide that the customer agrees that if it has been issued ten or more cards at its request, then the customer waives to the fullest extent possible all limitations on liability for unauthorized use of the cards.

#### ***Equal Credit Opportunity Act***

The Equal Credit Opportunity Act, which is implemented by the Federal Reserve's Regulation B, prohibits creditors from discriminating when extending credit on certain prohibited bases such as an applicant's sex, race, nationality and marital status, and further requires that creditors disclose the reasons they took any adverse action against an applicant or a customer.

#### ***The Fair Credit Reporting Act***

The Fair Credit Reporting Act of 1970, or FCRA, regulates the disclosure and use of consumer reports by consumer reporting agencies. We are permitted to obtain consumer reports with respect to an individual who guarantees or otherwise is obligated on a commercial card.

#### ***FACT Act***

The Fair and Accurate Credit Transactions Act of 2003, or the FACT Act, amended certain provisions of FCRA applicable to consumer reports generally not applicable to business credit. However, the FACT Act included provisions that require creditors to adopt Identity Theft Prevention Programs to detect, prevent and mitigate identity theft, including detecting identity theft red flags, in connection with covered accounts, which can include business purpose accounts for which there is a reasonably foreseeable risk of identity theft (the "Red Flags Rules"). Enforcement of the Red Flags Rules by the FTC has been delayed until December 31, 2010.

#### ***Bank Secrecy Act***

We are subject to certain provisions of the Currency and Foreign Transactions Reporting Act and the accompanying regulations issued by the U.S. Department of the Treasury, or the Bank Secrecy Act, as amended by the USA PATRIOT Act of 2001, or the Patriot Act. The Patriot Act contains a wide variety of provisions aimed at fighting terrorism and money laundering. Among other things, the Bank Secrecy Act, as amended by the Patriot Act, requires financial services providers to establish anti-money laundering programs that meet certain standards, including, in some instances, expanded reporting and enhanced information gathering and

## **Table of Contents**

### **Index to Financial Statements**

recordkeeping requirements. We maintain anti-money laundering controls designed to prevent our network from being used for money laundering or terrorist financing purposes. Other countries in which we operate have also enacted laws or regulations regarding anti-terrorism and money laundering.

#### ***Credit Card Accountability Responsibility and Disclosure Act of 2009***

The Credit Card Accountability Responsibility and Disclosure Act of 2009, or the Credit CARD Act, was adopted on May 22, 2009 and amended certain provisions of the TILA and Regulation Z generally not applicable to business purpose cards. However, the Credit CARD Act directs the Federal Reserve to conduct a study of credit card use by small businesses, and not later than 12 months after enactment to provide a report to Congress including recommendations for administrative or legislative initiatives to provide protections for credit card plans for small businesses, as appropriate. Any changes in credit card rules applicable to small businesses resulting from the study and recommendations, if any, may affect our small business customer card plans.

#### ***State usury laws***

Some of our card products may be deemed to involve commercial purpose loans. Most state laws provide that money cannot be lent at an interest rate in excess of a certain statutory maximum. This usury limit may act as a ceiling on interest to cardholders for the extension of credit. These limits are often different for consumer cards and commercial cards. Because we have substantial operations in multiple jurisdictions, and we utilize choice of law provisions in our cardholder agreements, we have flexibility as to the laws of which jurisdiction to apply. In addition, the interest rates on certain of our card products are set based upon the usury limit of the cardholder's state. With respect to card products where we work with a partner or issuing bank, the partner bank utilizes the law of the jurisdiction applicable to the bank and exports the usury limit of that state in connection with cards issued to residents of other states.

#### ***Payment card industry rules***

Partner banks issuing payment cards bearing the MasterCard brand, and FleetCor to the extent it provides certain services in connection with those cards and fleet customers acting as merchants accepting those cards, must comply with the bylaws, regulations and requirements that are promulgated by MasterCard and other applicable payment card organizations, including the Payment Card Industry Data Security Standard developed by MasterCard and Visa, the MasterCard Site Data Protection Program, and any other applicable bank card data security program requirements.

#### ***Other regulations***

We are subject to U.S. federal and state data security and breach notification laws and regulations, as well as data protection laws in the foreign countries in which we operate. We are also subject to bankruptcy and debtor relief laws that can affect our ability to collect amounts owed to us.

## **Legal matters**

We are not currently party to any legal proceedings or governmental inquiries or investigations that we consider to be material. We are and may become, however, subject to lawsuits from time to time in the ordinary course of our business. We are currently involved in an investigation by the Office of Fair Trading in the United Kingdom, relating to our Keyfuels product line. This product line consists of our proprietary payment card and associated site network in the United Kingdom. A competitor alleged we are dominant in a relevant market with our Keyfuels product line. The Office of Fair Trading is investigating whether we are dominant and, if dominant,

**Table of Contents****Index to Financial Statements**

whether some of our contracts with some sites and dealers would constitute exclusive dealings requiring them to be reformed to eliminate exclusivity. Although we do not currently anticipate an adverse result or material adverse impact from the investigation, if determined adversely, the regulator has authority to require us to reform contracts to eliminate exclusivity and impose significant fines.

**Employees and labor relations**

As of December 31, 2009, we employed approximately 1,130 employees, approximately 650 of whom were located in the United States. None of our employees are subject to a collective bargaining agreement. We consider our employee relations to be good and have never experienced a work stoppage.

**Facilities**

We lease all of the real property used in our business, except as noted below. The following table lists each of our material facilities and its location, use and approximate square footage.

| <b>Facility</b>               | <b>Use</b>   | <b>Approximate size</b>   |
|-------------------------------|--|---------------------------|
|                               |  | <b><i>Square Feet</i></b> |
| <b><i>United States</i></b>   |  |                           |
| Norcross, Georgia             | Corporate headquarters and operations                    | 57,300                    |
| Covington, Louisiana          | Accounting, treasury, merchant authorization             | 13,600                    |
| Houston, Texas                | Credit and collections                                   | 15,000                    |
| Carlsbad, California          | Customer support   | 3,900                     |
| Concord, California           | Customer support   | 7,100                     |
| San Mateo, California         | CFN operations and customer support                      | 9,200                     |
| Wichita, Kansas               | CLC operations and customer support                      | 31,100                    |
| <b><i>Europe</i></b>          |  |                           |
| Prague, Czech Republic        | CCS headquarters, operations, customer service and sales | 55,000                    |
| Doetinchem, Netherlands       | Customer support and card processing                     | 2,700                     |
| Kaliningrad, Russia           | PPR sales and customer support                           | 1,400                     |
| Moscow, Russia                | PPR headquarters, sales, customer support and operations | 6,400                     |
| Vilnius, Lithuania            | Credit and collections                                   | 800                       |
| Warsaw, Poland                | Sales and credit and collections                         | 500                       |
| Ipswich, United Kingdom(1)    | Operations, sales and customer support                   | 17,900                    |
| Knaresborough, United Kingdom | Operations, sales and customer support                   | 5,100                     |
| London, United Kingdom        | Europe headquarters                                      | 2,800                     |
| Walsall, United Kingdom       | Operations, sales and customer support                   | 9,500                     |

(1) We own a freehold interest in this facility.

We also lease a number of minor additional facilities, including local sales offices, small storage facilities and a small number of service stations in the United Kingdom. We believe our facilities are adequate for our needs for at least the next 12 months. We anticipate that suitable additional or alternative facilities will be available to accommodate foreseeable expansion of our operations.

**Table of Contents****Index to Financial Statements****Management**

The following table sets forth certain information regarding the members of our board of directors, our executive officers and other key employees upon the closing of this offering, with their respective ages as of April 1, 2010. Our officers serve at the discretion of our board of directors. There are no family relationships between any of our directors or executive officers.

| <b>Name</b>                | <b>Age</b> | <b>Position(s)</b>  |
|----------------------------|------------|---|
| <i>Executive Officers:</i> |            |   |
| Ronald F. Clarke           | 54         | President, Chief Executive Officer and Chairman of the Board of Directors |
| Eric R. Dey                | 50         | Chief Financial Officer   |
| Todd W. House              | 38         | Chief Operating Officer U.S. Shared Services                              |
| Van E. Huff                | 49         | Chief Information Officer   |
| Scott C. Ruoff             | 44         | Executive Vice President Corporate Development                            |
| Alex P. Hart               | 47         | President Fuelman Fleet Cards   |
| William J. Schmit          | 53         | President Major Oil Card Programs   |
| Robert P. Brandes          | 49         | President Universal Fleet Cards   |
| Timothy J. Downs           | 52         | President Corporate Lodging Consultants                                   |
| Andrew R. Blazye           | 51         | Chief Executive Officer FleetCor Europe                                   |
| <i>Other Directors:</i>    |            |   |
| Andrew B. Balson           | 43         | Director  |
| John R. Carroll            | 42         | Director  |
| Bruce R. Evans             | 51         | Director  |
| Mark A. Johnson            | 57         | Director  |
| Glenn W. Marschel          | 63         | Director  |
| Steven T. Stull            | 51         | Director  |
| <i>Proposed Director:*</i> |            |   |
| Richard Macchia            | 58         | Proposed Director   |

\* We expect to add one independent director, Richard Macchia, to our board of directors effective upon completion of this offering.

*Ronald F. Clarke* has been our President and Chief Executive Officer since August 2000 and was appointed Chairman of our board of directors in March 2003. From 1999 to 2000, Mr. Clarke served as President and Chief Operating Officer of AHL Services, Inc, a staffing firm. From 1990 to 1998, Mr. Clarke served as chief marketing officer and later as a division president with Automatic Data Processing, Inc., a computer services company. From 1987 to 1990, Mr. Clarke was a principal with Booz Allen Hamilton, a global management consulting firm. Earlier in his career, Mr. Clarke was a marketing manager for General Electric Company, a diversified technology, media, and financial services corporation.

*Eric R. Dey* has been our Chief Financial Officer since November 2002. From October 2000 to October 2002, Mr. Dey served as Chief Financial Officer of NCI Corporation, a call center company. From July 1999 to October 2000, Mr. Dey served as Chief Financial Officer of Leisure Time Technology, a software development/manufacturing company. On March 16, 2001, Leisure Time Technology filed a petition for bankruptcy under the federal bankruptcy laws. From 1994 to 1999, Mr. Dey served as Corporate Controller with Excel Communications, a telecommunications service provider. From 1984 to 1994, Mr. Dey held a variety of financial and accounting positions with PepsiCo, Inc., a global beverage, snack and food company.

*Todd W. House* has been our Chief Operating Officer U.S. Shared Services since April 2009. From July 2007 to April 2009, Mr. House held various positions, including Chief Financial Officer, with Axiant, LLC, a provider

**Table of Contents**

**Index to Financial Statements**

of financial services and recovery management solutions. From April 2005 to July 2007, Mr. House was Vice President and Chief Credit Officer with Carmax, Inc., an automobile retailer. From August 1993 to April 2005, Mr. House was Vice President Credit Risk Management with Capital One Financial Corp., a financial services company. On November 20, 2009, Axiant, LLC filed a petition for bankruptcy under the federal bankruptcy laws.

*Van E. Huff* has been our Chief Information Officer since October 2004. From August 1984 to October 2004, Mr. Huff served in various positions, including as Senior Vice President IT for First Data Corporation, a provider of electronic commerce and payment solutions.

*Scott C. Ruoff* has been with us since October 2000, serving as Senior Vice President of Business Development and since November 2005, Mr. Ruoff has served as Executive Vice President of Corporate Development. From 1996 to 2000 Mr. Ruoff served as a management consultant with Nextera Enterprises, a management consulting firm and from 1993 to 1996 served as Project Manager and Derivatives Controller with Bankers Trust Company. Effective August 1, 2010, we expect that Mr. Ruoff will no longer serve as an executive officer, but will continue to provide services to us in a limited consulting role.

*Alex P. Hart* has been our President Fuelman Fleet Cards since September 2009. From May 2007 to April 2008, Mr. Hart served as Executive Vice President and General Manager of Electronic Banking Services for CheckFree Corporation, a provider of financial electronic commerce products and services. From 2000 to 2007 Mr. Hart held various positions with Corillian Corporation, a provider of solutions for Internet-based financial services which was acquired by CheckFree in May 2007, including President and Chief Executive Officer from October 2002 to May 2007, President from January 2001 to October 2002 and Executive Vice President of Corporate Development from April 2000 to January 2001. Mr. Hart served as a director of Corillian Corporation from January 2001 until May 2007 and as a director of Goldleaf Financial Services, Inc. from January 2009 to February 2009.

*William J. Schmit, Jr.* has served as our President Major Oil Card Programs since November 2005. From April 1999 to November 2005, Mr. Schmit served as our Senior Vice President Private Label Programs.

*Robert P. Brandes* has been with us since June 2002. Since September 2009, Mr. Brandes has served as our President Universal Fleet Cards. Mr. Brandes served as Senior Vice President Product Management from December 2008 to September 2009, Senior Vice President Co-Brand from January 2007 to December 2008 and Vice President Marketing from June 2002 to January 2007.

*Timothy J. Downs* joined us as President Corporate Lodging Consultants in connection with our acquisition of CLC Group, Inc. in April 2009. Prior to joining us, Mr. Downs held various positions with Corporate Lodging Consultants, including Vice President Technology from May 1999 to September 2004 and as Executive Vice President Operations from September 2004 to April 2009.

*Andrew R. Blazye* has served as our Chief Executive Officer FleetCor Europe, since July 2007. From April 2006 to June 2007, Mr. Blazye was a Group Director for Dunhumby Ltd., a research firm. From September 1980, to March 2006, Mr. Blazye held various positions with Shell International Ltd., a subsidiary of Royal Dutch Shell plc, a global energy company, including Global Payments General Manager.

*Andrew B. Balson* joined our board of directors in July 2006. Since 1996, Mr. Balson has been with Bain Capital Partners, LLC, a private equity firm and has served as a Managing Director since 2000. Mr. Balson is a director of Domino's Pizza, Inc. and OSI Restaurant Partners, LLC. Mr. Balson served as a director of Burger King Holdings, Inc., a restaurant owner and franchisor, from December 2002 to July 2008.

*John R. Carroll* joined our board of directors in May 2002. Since 1998, Mr. Carroll has served as a Managing Director with Summit Partners, a growth equity firm. Mr. Carroll has served on numerous private company boards.

## Table of Contents

### Index to Financial Statements

*Bruce R. Evans* joined our board of directors in May 2002. Since 1986, Mr. Evans has served in various positions with Summit Partners, including most recently as a Managing Director. Mr. Evans currently serves as a director of optionsXpress Holdings, Inc. Mr. Evans has previously served as a director of Unica Corporation and Hittite Microwave Corporation.

*Mark A. Johnson* joined our board of directors in March 2003. Since September 2008, Mr. Johnson has served as a Partner with Total Technology Ventures, a venture capital firm. From February 2003 to January 2008, Mr. Johnson was Vice Chairman M&A of CheckFree Corporation. Mr. Johnson served on the board of directors of CheckFree from 1982 to 2007.

*Glenn W. Marschel* joined our board of directors in September 2002. Since August 2000, Mr. Marschel has served as President and Chief Executive Officer of NetNumber, Inc., a provider of standards based registry and directory services and software technology to the communications industry.

*Steven T. Stull* joined our board of directors in October 2000. Since 1992, Mr. Stull has served as President of Advantage Capital Partners, a private equity firm, which he co-founded.

### **Proposed Director**

*Richard Macchia* served as Chief Financial Officer and Senior Vice President of Administration for Internet Security Systems, Inc., an information security provider, from December 1997 through October 2005. Mr. Macchia remained employed with Internet Security Systems, Inc. during the following year to transition the Chief Financial Officer role to his successor. Internet Security Systems, Inc. was acquired by International Business Machines Corporation in October 2006 and Mr. Macchia has been retired since October 2006.

### **Director Qualifications**

The current members of our board of directors have been designated pursuant to our sixth amended and restated stockholders agreement. The stockholders agreement provides that our board is composed of our chief executive officer, directors designated by our major stockholders, and directors elected by our common and preferred stockholders. The stockholders agreement will terminate upon the closing of this offering and, thereafter, our directors will be elected by vote of our stockholders.

When considering whether our directors have the experience, qualifications, attributes or skills, taken as a whole, to enable the board of directors to satisfy its oversight responsibilities effectively in light of our business and structure, the board of directors focused primarily on each person's background and experience as reflected in the information discussed in each of the directors' individual biographies set forth immediately above. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business.

In addition, we believe that our directors provide a broad range of experience and substantial qualifications and skills that are important to our business, which factors may change from time to time.

***Business and strategic acquisition experience.*** We believe that the company benefits from our directors' substantial and recent business experience, including their knowledge and understanding of international markets. In addition, given our history of strategic acquisitions and growth strategy both domestically and internationally, we value directors who provide deep knowledge and experience evaluating, executing and integrating strategic acquisitions. In particular, we have obtained these qualities on our board from directors with experience evaluating and advising a range of portfolio companies.

## Table of Contents

### Index to Financial Statements

**Leadership experience.** We believe that directors with experience in significant leadership positions over an extended period, especially president or chief executive officer positions, provide us with leadership for our company and strategic insight. These directors generally possess effective leadership qualities and the ability to identify and develop those qualities in others. They demonstrate a practical understanding of organizations, long-term strategy, risk management and executing growth strategies.

**High level of financial literacy.** We also believe that an understanding of finance and financial reporting processes represents an important characteristic for our board of directors. We use financial measures and performance targets to evaluate the performance of our employees, businesses and payment products across our international customer and network base.

**Industry and company knowledge.** We also seek directors with relevant business expertise and experience as executives, directors, investors or in other leadership positions in the electronic payments, technology and business and financial services industries both domestically and internationally.

We have set forth below additional summary information regarding the specific experience, qualifications, attributes and skills of each of our current directors and our additional proposed director.

#### Mr. Balson

**Business and strategic acquisition experience** managing director of Bain Capital Partners; oversees investments in portfolio companies; evaluates and oversees strategic acquisitions by Bain Capital and its portfolio companies.

**Leadership experience** director of numerous public and private companies, including serving as member of nominating and corporate governance and compensation committees.

**High level of financial literacy** ten years of experience as a managing director of a global investment company overseeing and evaluating investments and portfolio companies; former experience in the merchant banking group of Morgan Stanley & Co. and the leveraged buyout group of SBC Australia.

**Industry and company knowledge** served as our board member since 2006 providing strategic and financial advice relevant to our growth; oversees investments and portfolio companies in the software and business services industries; former Bain & Company consultant to the technology, telecommunications, financial services and consumer goods industries.

#### Mr. Carroll

**Business and strategic acquisition experience** managing director of Summit Partners; helps oversee investments in portfolio companies in North America, Europe and Asia; evaluates and oversees strategic acquisitions and dispositions by Summit Partners and its portfolio companies.

**Leadership experience** director of numerous private companies, including serving as member of audit and compensation committees.

**High level of financial literacy** 15 years of experience with Summit Partners, a global growth equity investment firm, including serving as a managing director; experience overseeing and evaluating investments and portfolio companies; former experience as a commercial banker with BayBank Corporation.

***Industry and company knowledge*** served as our board member since 2002 providing strategic, financial and acquisition advice relevant to our growth domestically and internationally; oversees investments and portfolio companies in the technology, business, financial and information services industries; former Bain & Company consultant to the financial services industry.

**Table of Contents**

**Index to Financial Statements**

**Mr. Clarke**

***Business and strategic acquisition experience*** significant experience with our business as our chief executive officer for ten years; strategic direction for our numerous acquisitions both domestically and internationally over this period.

***Leadership experience*** chairman of our board of directors, providing leadership and oversight of our board's operations; prior experience as an executive officer with several public companies, including service as a chief operating officer, chief marketing officer and division president.

***High level of financial literacy*** significant experience with our finance function through his oversight of our chief financial officer for ten years.

***Industry and company knowledge*** significant familiarity with our company and industry through his service as our chief executive officer for ten years, his prior experience in the financial and business services industry, including with AHL Services, Inc. (staffing services), Automated Data Processing, Inc. (transaction processing, data communication and information services) and his experience providing management consulting services with Booz Allen, a global management consulting firm.

**Mr. Evans**

***Business and strategic acquisition experience*** managing director of Summit Partners; oversees investments in portfolio companies in North America, Europe and Asia; evaluates and oversees strategic acquisitions and dispositions by Summit Partners and its portfolio companies; director of the National Venture Capital Association.

***Leadership experience*** served as a director of more than 25 private and public companies, including as a member of audit, nominating, governance, investment and compensation committees; substantial experience addressing corporate development, compensation, human resources, governance, management and growth strategy matters; member of the Vanderbilt University Board of Trustees.

***High level of financial literacy*** over 24 years of experience with Summit Partners, a global growth equity investment firm, including serving as a managing director; substantial experience overseeing and evaluating numerous investments and portfolio companies; past service on public company audit committees.

***Industry and company knowledge*** served as our board member since 2002 providing strategic, financial and acquisition advice relevant to our growth domestically and internationally; oversees investments and portfolio companies in the technology, business and financial services industries; prior experience in the data processing and national accounts divisions of International Business Machines Corporation.

**Mr. Johnson**

***Business and strategic acquisition experience*** a partner of Total Technology Ventures, a venture capital firm; chairman of Venture Atlanta and member of the board of directors of the Technology Association of Georgia; former vice chairman of CheckFree Corporation (a Nasdaq-listed company acquired in December 2007 by Fiserv, Inc.) which included oversight of mergers and acquisitions and evaluating strategic growth opportunities.

**Leadership experience** former vice chairman of CheckFree Corporation; responsibilities included overseeing mergers and acquisitions, evaluating strategic growth opportunities, developing strategic corporate relationships and supporting long term business strategies; member of the CheckFree board of directors; joined CheckFree Corporation in 1982 as vice president of operations; currently serves as a member of the board of directors of private companies.

## Table of Contents

### Index to Financial Statements

**High level of financial literacy** founder of e-RM Ventures, a private investing consultancy focused on early-stage payments-related companies; former experience with the Federal Reserve Bank of Cleveland and Bank One with responsibilities for checking and cash management operations; member of balance sheet committee of CheckFree Corporation; public company audit committee experience.

**Industry and company knowledge** served as our board member since 2003 providing strategic advice relevant to our growth; senior executive of CheckFree Corporation, a provider of financial electronic commerce services and products to organizations around the world; responsible for the development and launch of CheckFree's commercial and consumer electronic funds transfer services and CheckFree's electronic bill payment and bill presentment businesses as well as the development of key strategic alliances and marketing initiatives.

#### Mr. Marschel

**Business experience** extensive experience as a senior executive of various technology, payment and information processing companies; currently the president and chief executive officer of NetNumber, Inc., a provider of standards based software technology to the communications industry.

**Leadership experience** president and chief executive officer of NetNumber, Inc.; former chief executive officer, president and co-chairman of Faroudja, Inc., a video processing technology company; former president and chief executive officer of Paging Network Inc., a provider of wireless messaging services; and former vice chairman of First Financial Management Corporation, a provider of credit card and transaction authorization, processing and settlement, healthcare claims processing and document management/imaging services; experience serving on the board of directors of private and public companies.

**Industry and company knowledge** served as our board member since 2002 providing strategic advice relevant to our growth; extensive senior executive experience in the technology, payment processing and information processing industries, including substantial experience with Automated Data Processing, Inc., a computer services company, where he served as president of several businesses, including the automotive and employer services divisions, following senior positions in sales, client services, strategy and marketing.

#### Mr. Stull

**Business and strategic acquisition experience** President of Advantage Capital Partners, a private equity firm, serving as the firm's chief executive officer and directing investment policy, overall operations, strategic planning, and fundraising activities.

**Leadership experience** director of numerous private companies, including serving as member of audit and compensation committees.

**High level of financial literacy** served for nine years as an executive in the investment department of General American Life Insurance Company, heading its securities division and personally managing its high yield, convertible, and preferred stock portfolios; experience as a chief financial officer; experience with a commercial bank and a savings and loan association.

**Industry and company knowledge** served as our board member since 2000 providing strategic advice relevant to our growth; oversees investments and portfolio companies in the technology, business, financial and information services industries; served as the chief financial officer of an information services company.

---

**Table of Contents**

**Index to Financial Statements**

**Mr. Macchia**

***Business and leadership experience*** retired chief financial officer and senior vice president of administration; oversaw financial functions, human resources, facilities and investor relations; served in senior executive roles with several public companies for over 20 years; served as a partner of KPMG LLP, an international accounting firm, for two years.

***High level of financial literacy*** served as a principal financial or principal accounting officer with several public companies for over 20 years; certified public accountant in good standing since 1976; practiced with KPMG LLP from 1973 to 1985.

***Industry knowledge*** over 20 years experience in the financial and information services industry, including with MicroBilt Corporation (financial information services), First Financial Management Corporation (credit card authorization, processing and settlement services; healthcare claims processing services; document management/imaging services) and Internet Security Systems, Inc. (information security services).

**Compensation committee interlocks and insider participation**

None of our executive officers currently serve on the compensation committee or board of directors of any other company of which any member or proposed member of our compensation, nominating and corporate governance committee is an executive officer.

**Board of directors and committees**

Our board of directors currently consists of seven members. Of our directors, six Messrs. Balson, Carroll, Evans, Johnson, Marschel and Stull are independent directors as defined under the New York Stock Exchange listing standards. We expect to add one additional independent director, Richard Macchia, effective upon the completion of this offering. Under our amended and restated bylaws effective immediately prior to the closing of this offering, the number of directors will be determined from time to time by our board of directors.

Upon the completion of this offering, the board of directors will be divided into three classes, with each class serving for a staggered three-year term. The board of directors will initially consist of class I directors, class II directors and class III directors. Our directors will be divided among the three classes as follows:

the class I directors are Messrs. \_\_\_\_\_ ;

the class II directors are Messrs. \_\_\_\_\_ ; and

the class III directors are Messrs. \_\_\_\_\_ .

At each annual meeting of stockholders, a class of directors will be elected for a three-year term to succeed the directors of the same class whose terms are then expiring. The terms of the class I directors, class II directors and class III directors identified above will expire upon the election and qualification of successor directors at the annual meeting of stockholders held during the calendar years 2011, 2012 and 2013, respectively.

Pursuant to our stockholders agreement, as amended and restated, Messrs. Balson, Carroll, Evans, Johnson, Marschel and Stull were appointed to our board of directors by certain of our investors. Messrs. Balson, Carroll, Evans, Johnson, Marschel and Stull will continue to serve as directors despite the fact that our stockholders agreement will terminate upon the closing of this offering.

**Table of Contents**

**Index to Financial Statements**

***Audit committee***

Our audit committee currently consists of Messrs. Carroll, Johnson and Marschel. We intend to appoint Mr. Macchia as the chairman of our audit committee effective upon the completion of this offering. Our board will affirmatively determine that each member of the audit committee, other than Mr. Carroll, meets the definition of independent director for purposes of the New York Stock Exchange rules and the independence requirements of Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the Exchange Act). We expect that Mr. Carroll will continue to serve as a member of the Audit Committee in accordance with the transition period rules and regulations of the New York Stock Exchange. Our board of directors will also determine which member of our audit committee will qualify as an audit committee financial expert under Securities and Exchange Commission rules and regulations.

Our audit committee will be responsible for, among other matters:

appointing, compensating, retaining, evaluating, terminating and overseeing our independent registered public accounting firm;

discussing with our independent registered public accounting firm their independence from management;

reviewing with our independent registered public accounting firm the scope and results of their audit;

approving all audit and permissible non-audit services to be performed by our independent registered public accounting firm;

overseeing the financial reporting process and discussing with management and our independent registered public accounting firm the interim and annual financial statements that we file with the Securities and Exchange Commission;

reviewing and monitoring our accounting principles, accounting policies, financial and accounting controls and compliance with legal and regulatory requirements;

establishing procedures for the confidential anonymous submission of concerns regarding questionable accounting, internal controls or auditing matters; and

reviewing and approving related person transactions.

Our board of directors will adopt a written charter for the audit committee, which will be available on our website.

***Compensation, nominating and corporate governance committee***

Our compensation committee currently consists of Messrs. Balson, Evans and Marschel. Immediately prior to the closing of this offering, we will establish a new compensation, nominating and corporate governance committee that will consist of Messrs. Balson, Evans (chairman), Marschel and Stull. Our board of directors will affirmatively make a determination whether each compensation, nominating and corporate governance committee member meets the definition of independent director for purposes of the New York Stock Exchange rules and the definition of outside director for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended. In addition, we intend to establish a sub-committee of our compensation, nominating and corporate governance committee consisting of Messrs. Johnson and Marschel for purposes of approving any compensation that may otherwise be subject to Section 16 of the Exchange Act.

**Table of Contents**

**Index to Financial Statements**

The compensation, nominating and corporate governance committee will be responsible for, among other matters:

annually reviewing and approving our goals and objectives for executive compensation;

annually reviewing and approving for the chief executive officer and other executive officers (1) the annual base salary level, (2) the annual cash incentive opportunity level, (3) the long-term incentive opportunity level, and (4) any special or supplemental benefits or perquisites;

reviewing and approving employment agreements, severance arrangements and change of control agreements for the chief executive officer and other executive officers, as appropriate;

making recommendations and reports to the board of directors concerning matters of executive compensation;

administering our executive incentive plans;

reviewing compensation plans, programs and policies;

developing and recommending criteria for selecting new directors;

screening and recommending to the board of directors individuals qualified to become executive officers; and

handling such other matters that are specifically delegated to the compensation, nominating and corporate governance committee by the board of directors from time to time.

Our board of directors will adopt a written charter for the compensation, nominating and corporate governance committee, which will be available on our website.

See Compensation Discussion and Analysis for a description of the processes and procedures of the compensation committee and for additional information regarding the compensation committee's role and management's role in determining compensation for executive officers and directors prior to this offering.

***Executive and acquisitions committee***

Immediately prior to the closing of this offering, we will form an executive and acquisitions committee that will consist of Messrs. Clarke (chairman), Balson, Evans and Johnson. Between meetings of our board of directors, the executive and acquisitions committee will have and may exercise the powers of the board of directors to act upon any matters which, in the view of the Chairman of the Board, should not be postponed until the next previously scheduled meeting of the board of directors, except for those powers expressly reserved to the board. In particular, the executive and acquisitions committee may assist the board of directors in connection with capital expenditures, investments, acquisitions, financing activities and other matters. Our board of directors will adopt a written charter for the executive and acquisitions committee.

## Compensation discussion and analysis

This Compensation Discussion and Analysis describes the compensation policies and programs for our named executive officers for 2009, which consist of our chief executive officer, our chief financial officer and three other executive officers with the highest total compensation in 2009, as determined under the rules and regulations of the SEC. Our named executive officers for 2009 are Ronald F. Clarke, our President and Chief Executive Officer; Eric R. Dey, our Chief Financial Officer; Alex P. Hart, our President Fuelman Fleet Cards; Todd W. House, our Chief Operating Officer U.S. Shared Services; and Andrew R. Blazye, our Chief Executive Officer FleetCor Europe. It also discusses compensation decisions that have been made in early 2010 and describes our expectations with respect to certain compensation decisions to be made subsequent to this offering. Because Mr. Blazye is based in the United Kingdom, his compensation is denominated in British pounds; all amounts discussed in this section for Mr. Blazye have been converted into dollars at an exchange rate of \$1.572 to £1, the average exchange rate during 2009.

This Compensation Discussion and Analysis does not give effect to a \_\_\_\_\_ -for- \_\_\_\_\_ stock split of shares of all our common stock to be effected prior to the closing of this offering.

### Overview of compensation program

The compensation committee of our board of directors is responsible for establishing and implementing our compensation philosophy, as detailed below. Our compensation committee evaluates and determines the levels and forms of individual compensation for our executive officers, including salaries, cash incentive compensation, bonuses and equity incentive compensation. Our compensation committee reviews and approves compensation for our executive officers periodically, generally in the first quarter of each fiscal year, based on each executive officer's performance and our overall performance during the prior year. The committee designs the program with the overall goal that the total compensation paid to our executive officers is fair, reasonable and competitive and includes incentives that are designed to appropriately drive corporate performance. In addition, our chief executive officer has historically played a significant role in reviewing the performance of the other executive officers and making compensation recommendations to the compensation committee for the executive officers (other than himself).

### Compensation philosophy

Our executive compensation program is designed to help us attract talented individuals to manage and operate all aspects of our business, to reward those individuals for the achievement of our financial and strategic goals, to retain those individuals who contribute to the success of our business and to align the interests of those individuals with those of our stockholders. We believe that annual cash incentive compensation should be linked to metrics that create value for our stockholders and the ownership by management of equity interests in our business is an effective mechanism for providing incentives for management to maximize gains for stockholders.

### Overview of elements of compensation

As discussed in further detail below, our compensation program consists of the following four principal components:

**Base salary.** Base salaries for our named executive officers are evaluated periodically.

**Annual cash incentive compensation.** Our named executive officers typically earn annual cash incentive compensation based on (1) achievement of company-wide financial performance goals for the year and/or (2) achievement of individual or business unit performance goals.

## **Table of Contents**

### **Index to Financial Statements**

***Long-term equity incentive awards.*** We grant equity awards to our named executive officers as long-term incentives. We attempt to ensure that a significant portion of our named executive officers' compensation is linked to our long-term success and aligned with the returns provided to our stockholders.

***Benefits and perquisites.*** We provide various health and welfare benefits to all of our employees. We provide a 401(k) plan to all of our U.S. employees. We also provide minimal perquisites to our named executive officers, as described below. Our named executive officers do not participate in any non-qualified deferred compensation plans or defined benefit pension plans.

### **Determining compensation for the named executive officers**

The compensation committee is responsible for administering our compensation practices and making decisions with respect to the compensation paid to our named executive officers. Our compensation committee has not retained the services of a compensation consultant. Compensation for our executive officers historically has been individualized, impacted by arm's-length negotiations at the time of employment, and based on a variety of factors, including:

our compensation committee's evaluation of the competitive market based on its general market experience;

the roles and responsibilities of our executives;

the individual experience and skills of, and expected contributions from, our executives;

the individual performance of our executives during the year and the historic performance levels of our executives;

our overall financial performance;

our financial condition and available resources; and

our need for a particular position to be filled.

Our chief executive officer has historically played a significant role in reviewing the performance of the other executive officers and making compensation recommendations to the compensation committee for the executive officers. When discussing performance evaluations and setting compensation levels for our executive officers, the compensation committee works closely with our chief executive officer; however, the compensation committee has the discretion to reject or modify the recommendations of our chief executive officer. Our chief executive officer does not participate in determining or recommending the amount of his own compensation.

Going forward, our chief executive officer will periodically evaluate the other executive officers' performance with the compensation committee and make recommendations for base salary, cash incentive awards and grants of long-term equity incentive awards for all executive officers other than himself. Based on these recommendations from our chief executive officer and in consideration of the objectives described above and the principles described below, the compensation committee will approve the annual compensation packages of all our executive officers. As we gain experience as a public company, we expect that the specific direction, emphasis and components of our executive compensation program will continue to evolve. For example, over time we may reduce our reliance upon subjective determinations made by our compensation committee in favor of a more empirically based approach that involves benchmarking against peer companies or the input of a compensation consultant.

### ***Compensation mix and how each element fits into our overall compensation objectives***

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

The compensation committee strives to achieve an appropriate mix between cash payments and equity incentive awards in order to meet our compensation objectives. Our compensation committee does not have any formal

**Table of Contents**

**Index to Financial Statements**

policy for allocating compensation between short-term and long-term compensation or cash and non-cash compensation. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our executive officers to deliver superior performance and retain them to continue their careers with us on a cost-effective basis.

Our mix of compensation elements is designed to reward recent results, motivate long-term performance and align our executives' interests with those of our stockholders. We achieve this through a combination of cash and equity awards. Base salary and benefits are designed to provide a secure level of cash compensation. Annual cash incentive awards support our annual operating plan and are earned only if we meet the performance goals established by the compensation committee. Equity awards are granted in the form of stock options and performance-based restricted stock. Stock options have value for our executives only if our stock price increases. Performance-based restricted stock has value to our executives only if we meet the performance goal established by the compensation committee.

While we have typically provided cash compensation (base salary) and a cash incentive opportunity to each executive in each year, we do not typically provide equity compensation to each executive on an annual basis. For example, our chief executive officer received an equity grant in 2009, but did not receive an equity grant in 2008 or 2007. Historically we have made an initial equity grant in connection with the commencement of employment and additional refresher grants when an executive has vested in his existing grants. We also make equity grants designed to encourage a specific performance goal or to reward an executive for extraordinary performance in a particular year. In determining the size of an equity award the compensation committee considers relative job responsibility, the value of existing unvested awards, individual performance history, prior contributions to us, the size of prior grants, arm's-length negotiation at the time of an executive's hiring and availability of shares in our pool. The compensation committee considers cash compensation and equity compensation separately, and therefore the grant of an equity award in one year does not impact the potential cash compensation to that executive for the same year.

***Compensation levels for the named executive officers***

The compensation committee applies the same compensation policies to all of our named executive officers with the overall goal that the total compensation paid to our executive officers is fair, reasonable and competitive and includes incentives that are designed to appropriately drive corporate performance. The ultimate compensation levels earned by the named executive officers reflect the application of these policies to the varying roles and responsibilities of the executives. Generally, the greater the responsibility of the executive and the greater the potential impact of the executive on revenue and net income growth, the higher the potential compensation that can be earned by the executive. In addition, the compensation committee is aware of the competitive market for executive compensation, which reflects a meaningful variation between the chief executive officer and other executive positions for each element of compensation.

Our chief executive officer has the greatest responsibility in managing our company. He joined our company in 2000, and has managed our significant growth over the decade through a combination of organic initiatives, product and service innovation and over 40 acquisitions of businesses and commercial account portfolios, growing our revenue from \$33.0 million in 2000 to \$354.1 million in 2009. As a result of our compensation committee's assessment of our chief executive officer's role and responsibilities within our company, his nearly ten years of service to our company and the competitive market for chief executive officer compensation, there is a significant compensation differential between his compensation levels and those of our other named executive officers.

**Components of compensation**

The components of compensation include base salary, annual cash incentive compensation, long-term equity incentive awards and benefits and perquisites.

---

**Table of Contents**

**Index to Financial Statements**

***Base salary***

Base salaries are adjusted from time to time, taking into account individual responsibilities, individual performance for the year, the experience of the individual, current salary, retention incentives, internal equity and the compensation committee's evaluation of the competitive market based on its general market experience. No particular weight is assigned to each factor. Historically, we have not applied specific formulas to set base salaries, nor have we sought to benchmark base salaries against similarly situated companies. Initial base salaries for our executive officers are typically negotiated at arm's-length at the time of hiring.

Effective March 16, 2009, Mr. Clarke received a raise of approximately 8.7%, which increased his base salary to \$625,000. Our compensation committee approved the increase in recognition of his oversight of three acquisitions that significantly increased our International operations: Abbey Group (OXON) Limited, a fleet card company based in the United Kingdom, ICP, a payment transaction processing company based in the Netherlands, and Petrol Plus Region, an independent fuel card provider based in Russia, his oversight of the successful implementation of a new private label contract, the superior financial performance of our business as a whole, the launch of new distribution channels for our U.S. direct business and the finalization of extensions of two private label contracts.

Effective March 1, 2010, February 15, 2010 and February 1, 2010, respectively, Mr. Clarke, Mr. Dey and Mr. Blayze received base salary increases. Our compensation committee approved an increase to Mr. Clarke's base salary of 10% to \$687,500 in recognition of his oversight of two significant acquisitions (the CLC Acquisition and the ReD Acquisition) in 2009, his leadership of our company in maintaining our performance through the economic downturn, and recognition of his increased responsibilities as a result of this offering. Our compensation committee approved an increase to Mr. Dey's base salary of 12.5% to \$270,000 in recognition of his increased responsibilities as a result of this offering, his steady management of the accounting, accounts payable and accounts receivable and planning and analysis functions in 2009 and in light of the fact that he had not received a base salary increase in recent years. Our compensation committee approved an increase to Mr. Blayze's base salary of 10% to \$345,840 in recognition of his increased responsibilities due to the ReD Acquisition in 2009, his assumption of the day-to-day management of Petrol Plus Region and in light of the fact that he had not received a base salary increase in recent years.

Mr. Hart joined us in September 2009 and Mr. House joined us in April 2009, each with an initial base salary of \$275,000. These initial base salaries represented the results of arm's-length negotiations at their time of employment. In negotiating the base salaries in connection with their initial employment, the compensation committee considered their levels of responsibility in our company, the base salaries of other employees with similar roles at our company, the base salaries of Messrs. Hart and House at their previous positions and our knowledge of the competitive market. Our compensation committee determined not to increase the salaries of Messrs. Hart and House in 2010 due to their relatively recent tenure.

***Annual cash incentive compensation***

Our compensation committee generally awards annual cash incentive payments to our executive officers. The annual cash incentive payments are intended to compensate our executive officers for achieving company-wide and/or individual or business unit performance goals that are important to our success. Our compensation committee approves all targets and payouts, in consultation with our chief executive officer. Executives are generally eligible for payments only if they are employed by us both on the last day of the applicable fiscal year and on the actual payment date of the bonus amount.

In April 2009, the compensation committee approved our 2009 annual cash incentive program for our executive officers employed at that time. The primary objectives of the program were to provide an incentive for superior work, to motivate our employees toward even higher achievement and business results, to tie our employees

---

**Table of Contents**

**Index to Financial Statements**

goals to company performance and to enable us to attract and retain highly qualified individuals. In addition, the compensation committee approved goals under the incentive program for Mr. House at the time of his employment. Mr. Hart, who joined us in September 2009, did not participate in the program, but instead received a guaranteed bonus for 2009 in connection with his hiring, as described below. Mr. House, who joined us in April 2009, was eligible to participate in the program but was guaranteed a minimum bonus amount for 2009 in connection with his hiring, as described below.

The annual cash incentive program was intended to compensate for the achievement of both our annual financial goals and individual or business unit performance objectives, as outlined below, and was structured to result in significant compensation payouts if targets were achieved. Our compensation committee set the target payout levels, generally as a percentage of base salary, for the executive officers based on recommendations from the chief executive officer (except with respect to his own level). The compensation committee determined these target payout levels based on a combination of factors, including each executive's role and responsibilities, experience and skills and expected contribution to our company. Mr. Clarke's target payout level was set at 100% of his base salary and, in addition, incorporated two additional goals in the amount of \$100,000 each. Mr. Dey's target payout level was set at 33% of his base salary. Mr. House's target payout level was set at 50% of his base salary. Mr. Blazye's target payout level was set at 50% of his base salary.

The compensation committee may also grant discretionary bonuses based on its subjective evaluation of company performance and the executive officers' performance during the year. Discretionary bonus grants to the named executive officers for 2009 performance are discussed below.

***2009 Performance goals and results.*** Our compensation committee structured the 2009 annual incentive program to include a combination of company-wide, business unit and individual performance goals, as appropriate, for the named executive officers. Individual or business unit performance goals are necessarily tied to the particular area of expertise and responsibilities of the executive and his or her performance in attaining those objectives. Our named executive officers prepare recommendations regarding their individual or business unit performance goals, which are reviewed by our chief executive officer and approved by the compensation committee. Pursuant to this process, our compensation committee approved the 2009 performance goals for each named executive officer, other than Mr. Hart who did not participate in the program.

The 2009 performance goals for each named executive officer that participated in the program are described below. Certain of these goals could be paid out in amounts up to 150% of the individual target amounts for performance exceeding objectives. Other goals could be paid out in amounts as low as 50% of the individual target amounts if performance achieved only a portion of the objectives.

Mr. Clarke was eligible to receive (i) 30% of his target award, or \$187,500, if we achieved 2009 earnings per share of \$3.34 and (ii) 70% of his target award, or \$437,500 by successfully integrating certain acquisitions during 2009, hiring employees in certain key areas and achieving key financial and operating projects. We did not attain the target performance described in (i) above. Mr. Clarke achieved approximately 146%, or \$643,750, of his award described in (ii) above. In addition, Mr. Clarke was eligible to receive an additional incentive award of \$200,000 by (a) managing certain credit risks and (b) increasing revenue within a CLC lodging division. Mr. Clarke earned \$100,000 of the additional incentive award.

Mr. Dey was eligible to receive (i) 50% of his target award, or \$40,000, if we achieved 2009 earnings per share of \$3.34 and (ii) 50% of his target award, or \$40,000, by amending our receivables purchase agreement, completing certain acquisitions and generating certain tax savings through restructurings. We did not attain the target performance described in (i) above. Mr. Dey achieved 90%, or \$36,000, of his award described in (ii) above.

Mr. House's award did not include company-wide performance goals. Mr. House was eligible to receive his target award by managing credit risk, achieving certain revenue within certain business units and hiring employees in certain key areas. Mr. House achieved approximately 26%, or \$36,094, of his award.

---

**Table of Contents**

**Index to Financial Statements**

Mr. Blazye's award did not include company-wide performance goals. Mr. Blazye was eligible to receive his target award by achieving certain profits before taxes within certain business units, hiring employees in certain key areas, completing certain acquisitions, and executing certain operating arrangements. Mr. Blazye achieved 35%, or \$55,020, of this award. In addition, Mr. Blazye was eligible to receive an additional incentive award of \$80,650 by completing certain acquisitions. Mr. Blazye earned \$31,440 of the additional incentive award.

The annual incentive award amounts earned by each named executive officer under our cash incentive program are included in the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table below.

**2009 Discretionary and guaranteed bonuses.** Upon the recommendation of our chief executive officer, the compensation committee determined to award additional discretionary bonuses to certain of our named executive officers for 2009. Messrs. Dey, House and Blazye received discretionary bonuses of \$29,000, \$31,250 and \$39,300, respectively. For Mr. Dey, the compensation committee noted that his structuring of payments for our 2009 acquisitions resulted in significant overall expense savings for the company, his creation of a new corporate entity structure will create ongoing expense savings for the company and his role in increasing the account receivable facility availability. For Mr. House, the compensation committee noted that he made significant progress in overseeing the reduction of bad debt during 2009 and recognized his assumption of increased responsibilities during 2009 for certain sales and marketing oversight. For Mr. Blazye, the compensation committee noted that he made considerable progress in 2009 toward winning a private label contract.

The compensation committee also determined to award a discretionary bonus to Mr. Clarke of \$56,250, so that his actual 2009 incentive compensation would be equivalent to his actual 2008 incentive compensation, in accordance with the compensation committee's belief that Mr. Clarke's performance during 2009 was consistent with his performance during 2008. In awarding the discretionary bonus, the compensation committee also noted that he successfully hired new talent to the senior executive team in 2009 and his leadership of value-added projects for our company in 2009 including corporate entity restructuring, increasing the accounts receivable facility capacity, reducing bad debt and launching of new products and services.

In connection with their hiring, Messrs. Hart and House negotiated guaranteed minimum bonus amounts for 2009 of \$35,000 and \$68,750, respectively. In negotiating the guaranteed bonuses in connection with their initial employment, the compensation committee considered their levels of responsibility in our company, their bonus history at their previous positions and our knowledge of the competitive market.

The discretionary and guaranteed bonus amounts earned by each named executive officer for 2009 are included in the Bonus column in the Summary Compensation Table below.

**2010 Annual cash incentive program.** The compensation committee has approved a 2010 annual cash incentive program that is materially consistent with our 2009 program.

***Long-term equity incentive awards***

The goals of our long-term, equity-based incentive awards are to motivate long-term performance and align the interests of our executive officers with the interests of our stockholders. Because vesting is based on continued employment, our equity-based incentives also encourage the retention of our executive officers through the vesting period of the awards. We do not typically provide equity awards to our executives on an annual basis. For example, our chief executive officer received an equity award in 2009, but did not receive an equity award in 2008 and 2007.

We typically use equity awards to compensate our executive officers in the form of (1) initial grants in connection with the commencement of employment and additional "refresher" grants when an executive has vested in his existing grants and (2) grants designed to encourage a specific performance goal or to reward the executive for extraordinary performance. To date there has been no set program for the award of refresher grants.

**Table of Contents**

**Index to Financial Statements**

and our compensation committee retains discretion to make equity awards to executives at any time, including in connection with the promotion of an executive, to reward an executive, for retention purposes or for other circumstances. Our compensation committee has established a pool of shares available for equity awards, which is increased from time to time by the compensation committee, in consultation with our chief executive officer. All awards are subject to the availability of shares from this pool.

We believe that stock options are an effective tool for meeting our compensation goals because executives are able to profit from stock options only if our stock price increases relative to the stock option's exercise price. In addition, we believe that performance-based restricted stock awards are an effective tool for meeting our compensation goals because the conditions to vesting motivate the achievement of performance goals and the value of the grants will increase as the value of our stock price increases.

In determining the size of the long-term equity incentives to be awarded to our executive officers, we take into account a number of internal factors, such as the relative job scope, the value of existing long-term incentive awards, individual performance history, prior contributions to us, the size of prior grants, arm's-length negotiation at the time of an executive's hiring and availability of shares in our pool. Our chief executive officer makes equity award grant recommendations for each executive, including our named executive officers (other than himself). Grant recommendations are presented to the compensation committee for its review and approval.

We do not have any security ownership requirements for our executive officers.

Prior to this offering, we granted options and performance-based restricted stock to our employees, including executive officers, under the FleetCor Technologies, Inc. Amended and Restated Stock Incentive Plan, which we refer to as our 2002 Plan. See 2002 Plan.

***Stock option grants.*** The exercise price of each stock option grant is the fair market value of our common stock on the grant date. For 2009, the determination of the appropriate fair market value was made by the board of directors. In the absence of a public trading market, the board considered numerous objective and subjective factors to determine its best estimate of the fair market value of our common stock as of the date of each option grant, including but not limited to, the following factors: (i) our operating performance, including metrics such as earnings per share; (ii) one-time gains and losses affecting our operating results and other extraordinary corporate events; and (iii) arm's-length transactional valuations of our common stock.

As a privately owned company, there was no market for our common stock prior to this offering. Accordingly, in 2009, we had no program, plan or practice pertaining to the timing of stock option grants to executive officers coinciding with the release of material non-public information. Going forward, the compensation committee intends to adopt a formal policy regarding the timing of grants.

Stock option awards to our named executive officers typically vest ratably over a period of three to five years. In some cases a portion of the grant is immediately vested if the grant is designed to reward performance that has already been completed. We believe our vesting schedules generally encourage long-term employment with our company while allowing our executives to realize compensation in line with the value they have created for our stockholders.

***Performance-based restricted stock grants.*** Our performance-based restricted stock grants generally contain individual or business unit performance conditions. Such shares typically do not vest until these performance conditions have been satisfied and we achieve a qualifying liquidity event for our stockholders, such as a sale, merger or an initial public offering, each exceeding a specified level of per-share consideration. See 2002 Plan for a further discussion of qualifying liquidity events.

**Table of Contents****Index to Financial Statements**

**2009 Equity awards.** During 2009, we granted the following equity awards to our named executive officers:

| Name             | Shares of<br>performance<br>based<br>restricted<br>stock | Stock options |
|------------------|--|---------------|
| Ronald F. Clarke | 300,000  | 300,000       |
| Alex P. Hart     |  | 50,000        |
| Todd W. House    |  | 50,000        |

Mr. Clarke's shares of restricted stock will vest upon a qualifying liquidity event, such as this offering, if the per-share consideration received in such transaction is greater than or equal to certain specified thresholds. A certain number of the shares will vest if the per-share consideration ranges from an increase of 28% to 140% over the fair value of our common stock on the grant date. Of Mr. Clarke's options, 67,500 vested on the grant date, and 67,500 vest on June 17, 2010, June 17, 2011 and June 17, 2012, respectively, and 30,000 vest on June 17, 2013. In determining the size of the option and restricted stock grant to Mr. Clarke in June 2009, the compensation committee noted that he had not received an equity grant since August 2006 and had vested in almost 90% of his previously-granted equity awards. The compensation committee believed that it would need to make a significant grant of equity in order to retain Mr. Clarke, encourage his leadership efforts in growing our stock price and moving our company toward a liquidity event and more closely align Mr. Clarke's interests with those of our stockholders.

Mr. Hart's options were granted in connection with his hiring in September 2009, and Mr. House's options were granted in connection with his hiring in April 2009. Both option grants vest ratably over four years. In addition, the compensation committee approved awards of up to 35,000 shares of performance-based restricted stock to Messrs. Hart and House in connection with their hiring. The terms of these awards were established in June 2010 and are described below under 2010 equity awards. Because the terms of these awards were not established in 2009, these awards were not deemed to be granted in 2009 and are not included in the table above or the compensation tables below. The equity grants to Messrs. Hart and House were based on arm's-length negotiations at the time of their hire. In negotiating the number of the option and restricted stock awards in connection with their initial employment, the compensation committee considered their level of responsibility in our company and the expected value of the equity grants based on our knowledge of the competitive market.

Messrs. Dey and Blazye were not granted any equity awards during 2009 because of the limited number of shares available for grant in the pool and because they had received grants of awards in prior years.

**2010 equity awards.** In June 2010, the compensation committee finalized the terms of the previously-approved performance-based restricted stock grants under the 2002 Plan to Messrs. Hart and House described in 2009 equity awards above. Of Mr. Hart's award of 35,000 shares, (1) 2,000 will vest upon the achievement of earnings per share targets in each of 2010, 2011 and 2012, and (2) 14,500 will vest upon the achievement of certain operating metrics within certain lines of business in each of 2011 and 2012. Mr. House's award was reduced to 30,000 shares, (1) 5,000 of which will vest upon the completion of this offering, (2) 2,000 of which will vest upon the achievement of earnings per share targets in each of 2010, 2011 and 2012 and (3) 9,500 of which will vest upon the achievement of certain operating metrics within certain lines of business in each of 2011 and 2012. These awards were initially approved in 2009 for the reasons described in 2009 equity awards above, and the specific terms of the awards described above were made to encourage these executives to work to complete this offering and to grow our business in the short- and long-term. In addition, the compensation committee finalized the terms of a previously-approved performance-based restricted stock grant to Mr. Blazye.

---

**Table of Contents**

**Index to Financial Statements**

Mr. Blazye's award was reduced from 35,000 to 30,000 shares, (1) 5,000 of which will vest upon the closing of this offering, (2) 2,000 of which will vest upon the achievement of earnings per share targets in each of 2010, 2011 and 2012 and (3) 19,000 of which will vest upon the achievement of certain business transactions.

We have reserved an aggregate of 2,700,000 shares of common stock under the FleetCor Technologies, Inc. 2010 Equity Compensation Plan, which we refer to as the 2010 Plan. See 2010 equity compensation plan. We anticipate presenting our 2010 Plan to our board of directors and stockholders for approval prior to the closing of this offering. Subsequent to this offering, all equity awards will be made pursuant to the 2010 Plan and no further awards will be made under the 2002 Plan; however, all options granted prior to this offering will remain valid in accordance with their terms. The 2010 Plan will permit the grant of stock options, stock appreciation rights and stock grants. See 2010 equity compensation plan.

***Benefits and perquisites***

We provide benefits and perquisites to our named executive officers as described below. Because Mr. Blazye is based in the United Kingdom, his benefits differ from the benefits offered to our U.S.-based employees and are generally consistent with the benefits offered to our U.K.-based employees.

We offer all U.S.-based employees the opportunity to participate in a 401(k) plan. The general purpose of our 401(k) plan is to provide employees with an incentive to make regular savings in order to provide additional financial security during retirement. Our 401(k) plan provides that we match 25% of an employee's contribution, up to an employee contribution of 4% of salary. Our named executive officers (other than Mr. Blazye) participate in this 401(k) plan on the same basis as all of our other participating employees. Our U.K. employees, including Mr. Blazye, are eligible to participate in a self-invested personal pension plan, called a SIPP, which is similar to a 401(k) plan or other qualified deferred compensation plan. If Mr. Blazye contributes 2% of his annual base salary to the SIPP, we are required to contribute 5% of his annual base salary to the SIPP.

We provide to all of our eligible employees, including our named executive officers, health and welfare benefits and we pay the premiums for these benefits on behalf of our named executive officers. We provide to our named executive officers life insurance benefits and long term care insurance and pay the premiums on their behalf.

We do not provide any nonqualified deferred compensation arrangements or defined benefit pension plans to our named executive officers.

**Severance and change of control benefits**

Under their employment agreements or offer letters, and pursuant to our historic practice, our executive officers are generally entitled to certain severance and change of control benefits. If we terminate Mr. Clarke's employment for any reason other than for cause, Mr. Clarke will receive cash severance payments, in equal monthly installments over 12 months equal to 150% of his then-current annual base salary plus any accrued and unpaid vacation. Mr. Clarke will also be eligible to receive payment of his health insurance premiums in amounts equal to those made immediately prior to his termination and, if permissible, continuation of coverage under our life and disability insurance plans for twelve months. In addition, if Mr. Clarke's employment is terminated for good reason or is terminated for any reason other than cause, in each case within 12 months following a change in control, he can elect to have us purchase from him all stock options granted to him and all shares of our stock that he then owns at fair market value.

Each of our other named executive officers will receive cash severance in the amount of six months of his then-current salary, upon execution of a general release, if he is terminated by us for any reason other than for cause. We provide severance compensation if our executives are terminated without cause, to incentivize our executive officers to act in the best interests of our stockholders in the face of a transaction even if they may be terminated as a result. For a further discussion of these benefits, see Employment agreements and offer letters and Potential payments on termination or change in control.

**Table of Contents****Index to Financial Statements**

Our stock option and restricted stock award agreements do not provide for accelerated vesting under any circumstances. Outstanding restricted stock awards generally vest only upon a qualifying liquidity event, such as this offering, subject in most cases to the additional condition that the price to the public exceeds applicable thresholds. See 2002 Plan.

**Section 162(m)**

Section 162(m) of the Code limits a public company's deduction for federal income tax purposes to not more than \$1 million of compensation paid to certain executive officers in a calendar year. Compensation above \$1 million may be deducted if it is performance-based compensation. Section 162(m) of the Code was not applicable to us in 2009 because we were not a public company. When we become a public company, we intend to rely on an exemption from Section 162(m) for a plan adopted prior to the time a company becomes a public company. Subject to certain requirements, we may rely on this grandfather provision for certain awards granted under our 2010 Plan for a period that ends no later than the first stockholders meeting after the close of the third calendar year following the calendar year in which our initial public offering occurs. We anticipate that the compensation committee will evaluate the effects of the compensation limits of Section 162(m) on any compensation it proposes to grant, and the compensation committee intends to provide future compensation in a manner consistent with our best interests and those of our stockholders.

**Summary compensation table for 2009**

The following table shows the compensation for each of the named executive officers for 2009, calculated in accordance with SEC rules and regulations.

| Name and principal position  | Year | Salary<br>(\$)(1) | Bonus<br>(\$)(2) | Stock<br>awards<br>(\$)(3) | Option<br>awards<br>(\$)(4) | Non-Equity<br>incentive<br>plan<br>compensation<br>(\$)(5) | All other                    | Total<br>(\$) |
|--|------|-------------------|------------------|----------------------------|-----------------------------|--|------------------------------|---------------|
|  |      |                   |                  |                            |                             |  | compen-<br>sation<br>(\$)(6) |               |
| Ronald F. Clarke<br>President, Chief Executive Officer and<br>Chairman of the Board of Directors | 2009 | \$ 614,863        | \$ 56,250        | \$ 1,200,000               | \$ 1,738,500                | \$ 743,750   | \$ 19,493                    | \$ 4,372,856  |

| Alex P. Hart<br>President Direct Business  | 2009 | \$ 76,096         | \$ 35,000        |                            | \$ 627,500                  |  | \$ 4,615                     | \$ 743,211    |
| Todd W. House<br>Chief Operating Officer   | 2009 | \$ 192,877        | \$ 63,906        |                            | \$ 357,000                  | \$ 36,094  | \$ 10,679                    | \$ 660,556    |
| Andrew R. Blazye(7)<br>Chief Executive Officer FleetCor Europe                                   | 2009 | \$ 314,400        | \$ 39,300        |                            |                             | \$ 86,460  | \$ 19,344                    | \$ 459,504    |

(1) This column represents the salary earned from January 1 through December 31, 2009.

(2) This column represents the discretionary and guaranteed bonus amounts paid for 2009. For a description of these payments, see Components of compensation Annual cash incentive compensation.

**Table of Contents**

**Index to Financial Statements**

- (3) The values for stock awards in this column represent the aggregate grant date fair value for the performance-based restricted stock awards granted in 2009, computed in accordance with FASB ASC Topic 718. Awards with performance conditions, such as the performance-based restricted stock granted in 2009, are computed based on the probable outcome of the performance condition as of the grant date for the award. For an overview of the features of these awards, see Components of compensation Long-term equity incentive awards . The maximum grant date fair value of Mr. Clarke s performance-based restricted stock awards assuming satisfaction of all performance conditions is \$7,500,000.
- (4) The values for stock option awards in this column represent the aggregate grant date fair value for the stock option awards granted in 2009 computed in accordance with FASB ASC Topic 718. The assumptions used to value these awards can be found in Note 5 in the accompanying consolidated financial statements. For an overview of the features of these awards, see Components of compensation Long-term equity incentive awards .
- (5) This column represents the amounts earned under the 2009 annual cash incentive award program based on achievement of performance goals under the program. For a description of the program, including the performance goals under the program, see Components of compensation Annual cash incentive compensation.
- (6) The following table breaks down the amounts shown in this column for 2009 (all amounts in \$):

| Name      | Company contribution to U.K.-based SIPP | Health benefit premiums | Life insurance premiums | Long-Term care premiums |  | Total     |
|-----------|---|-------------------------|-------------------------|-------------------------|--|-----------|
|           |   |                         |                         |                         |  |           |
| R. Clarke |   | \$ 17,592               | \$ 864                  | \$ 1,037                |  | \$ 19,493 |
| E. Dey    |   | \$ 17,592               | \$ 826                  | \$ 742                  |  | \$ 19,160 |
| A. Hart   |   | \$ 4,399                | \$ 216                  |                         |  | \$ 4,615  |
| T. House  |   | \$ 10,154               | \$ 525                  |                         |  | \$ 10,679 |
| A. Blazye | \$ 15,720                               | \$ 2,767                | \$ 857                  |                         |  | \$ 19,344 |

- (7) Because Mr. Blazye is based in the United Kingdom, his compensation is denominated in British Pounds; all amounts for Mr. Blazye have been converted into dollars at an exchange rate of 1.572 to £1, the average exchange rate during 2009.

**Grants of plan-based awards for 2009**

The following table provides information about awards granted in 2009 to each of the named executive officers.

| Name | Grant date | Date of committee action(1) | Threshold (\$) | Estimated possible payouts under non-equity incentive plan awards(2) |              | Estimated future payouts under equity incentive plan awards(3) Target | All other option awards: number of securities underlying | Exercise or base price of option | Grant date fair value of stock and option |
|------|------------|-----------------------------|----------------|--|--------------|---|--|----------------------------------|---|
|      |            |                             |                | Target (\$)  | Maximum (\$) |   |  |                                  |   |
|      |            |                             |                |  |              |   | options (#)(4)   | awards (\$/Sh)                   | award (\$)(5)                             |

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

|                  |            |            |            |              |         |         |                    |
|------------------|------------|------------|------------|--------------|---------|---------|--------------------|
| Ronald F. Clarke | 6/17/2009  | 6/17/2009  | \$ 625,000 | \$ 1,125,000 | 300,000 |         | \$ 1,200,000       |
|                  | 6/17/2009  | 6/17/2009  |            |              |         | 300,000 | \$ 25 \$ 1,738,500 |
| Eric R. Dey      |            |            | \$ 80,000  | \$ 104,000   |         |         |                    |
| Alex P. Hart     | 12/17/2009 | 12/14/2009 |            |              |         | 50,000  | \$ 45 \$ 627,500   |
| Todd W. House    | 8/11/2009  | 4/15/2009  | \$ 137,500 | \$ 192,500   |         | 50,000  | \$ 25 \$ 357,000   |
| Andrew R. Blazye |            |            | \$ 157,200 | \$ 251,520   |         |         |                    |

- (1) Awards for Mr. House were authorized on April 15, 2009, but were not granted until August 11, 2009, because of insufficient shares available in our pool.
- (2) The amount reflects the target and maximum amounts that could be earned under our 2009 annual cash incentive program for each named executive officer. There is no threshold amount under the program. For information concerning this program, see Components of compensation Annual cash incentive compensation. Because Mr. Blazye is based in the United Kingdom, his compensation is denominated in British Pounds; all amounts for Mr. Blazye have been converted into dollars at an exchange rate of 1.572 to £1, the average exchange rate during 2009.
- (3) These columns show the number of shares of restricted stock that would be earned by Mr. Clarke if the performance goal is satisfied. The award does not have a threshold or maximum amount. For information concerning this grants, see Components of compensation Long-term equity incentive awards 2009 Equity awards.

**Table of Contents**

**Index to Financial Statements**

(4) This column shows the number of stock options granted in 2009. For information concerning these grants, see Components of compensation Long-term equity incentive awards 2009 Equity awards.

(5) This column shows the grant date fair value of the restricted stock and stock option awards under FASB ASC Topic 718 granted to each of the named executive officers in 2009. Awards with performance conditions, such as the performance-based restricted stock granted to Mr. Clarke in 2009, are computed based on the probable outcome of the performance condition as of the grant date for the award. There can be no assurance that the grant date fair value of stock and option awards will ever be realized by the named executive officers.

**Outstanding equity awards at fiscal year-end 2009**

The following table shows the number of stock options and restricted stock held by the named executive officers on December 31, 2009.

| Name             | Number of securities underlying unexercised options (#) exercisable | Number of securities underlying unexercised options (#) unexercisable (1) | Option exercise price (\$) | Option awards     |                        | Stock awards Equity incentive plan awards: market or payout value of unearned unearned                |   |
|------------------|---|---|----------------------------|-------------------|------------------------|---|---|
|                  |   |   |                            | Option grant date | Option expiration date | Equity incentive awards: number of unearned shares, units or other rights that have not vested (#)(2) | incentive awards: market or payout value of unearned shares, units or other rights that have not vested (\$)(3) |
| Ronald F. Clarke | 333,333   |   | \$ 5.77                    | 1/3/2005          | 1/3/2015               |   |   |
|                  | 200,000   |   | \$ 13.00                   | 11/7/2005         | 11/7/2015              |   |   |
|                  | 67,500  | 232,500   | \$ 25.00                   | 6/17/2009         | 6/17/2019              |   |   |
| Eric R. Dey      |   |   |                            |                   |                        | 500,000   | \$ 18,000,000   |
| Alex P. Hart     |   | 50,000  | \$ 45                      | 12/17/2009        | 12/17/2019             |   |   |

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

- (1) Stock options granted on June 17, 2009 vest 67,500 each on June 17, 2010, June 17, 2011 and June 17, 2012 and 30,000 on June 17, 2013. Stock options granted on December 17, 2009 and August 11, 2009 each vest ratably on the first, second, third and fourth anniversaries of the respective grant dates. Stock options granted on September 20, 2007 vested 21,667 each on July 9, 2008 and July 9, 2009, and will vest 21,666 on July 9, 2010.
- (2) Represents restricted stock award to be earned by Mr. Clarke upon the satisfaction of applicable performance condition of a qualifying liquidity event where the per-share consideration exceeds certain thresholds, and will vest upon the closing of this offering.
- (3) Market or payout value assumes that a qualifying liquidity event occurred on December 31, 2009 at a per-share value of \$45 per share, which represents the fair value of our common stock as of December 31, 2009, as determined by our board of directors. At such value, 100,000 of Mr. Clarke's restricted shares would expire unvested. There is no guarantee that this amount will be earned by Mr. Clarke, and if any amount is earned, it may differ from the amount shown in this column.

### **Nonqualified deferred compensation**

We do not provide any nonqualified deferred compensation arrangements to our named executive officers.

### **Pension benefits**

We do not provide any defined benefit pension plans to our named executive officers.

### **Annual executive incentive program**

We intend to adopt the FleetCor Technologies, Inc. Annual Executive Incentive Program, which we refer to in this prospectus as the Incentive Program, prior to the completion of this offering.

**Background.** Under Section 162(m) of the Internal Revenue Code, after the initial public offering of our common stock, we cannot deduct compensation paid in any fiscal year to our chief executive officer and our

---

**Table of Contents**

**Index to Financial Statements**

three other highest paid officers (other than the chief financial officer) for such year which exceeds \$1 million, unless such compensation meets the requirements for performance-based compensation under Section 162(m) of the Internal Revenue Code or satisfies a transition rule available for a company that becomes a publicly held corporation. One of the requirements for this transition rule is that the prospectus accompanying our initial public offering discloses information regarding the program under which the compensation is provided. We are providing the following information for purposes of satisfying this transition rule.

**Purpose.** The purpose of the Incentive Program is to give each participant the opportunity to receive an annual bonus in each fiscal year payable in cash if, and to the extent, the committee administering the Incentive Program determines that the performance goals set by the committee for each participant for such year have been satisfied.

**Administration.** The committee administering the Incentive Program will be our board's compensation committee or, following the expiration of a transition period under the Internal Revenue Code and if all members of that committee fail to qualify as outside directors within the meaning of Section 162(m), a subcommittee of such committee that consists solely of outside directors.

**Participants.** The committee has the right to designate any of our executive officers, including our chief executive officer and any other of our employees whom the committee deems a key employee, as a participant in the Incentive Program provided (1) such designation is made no later than 90 days from the beginning of our fiscal year or (2) such designation is effective on the date an individual is first employed if he or she will be a key employee on the date he or she is first employed by us.

**Performance criteria upon which performance goals are based.** The committee will establish performance goals for each participant for each fiscal year no later than 90 days after the beginning of such year (or for an individual who is a key employee on the date he or she is first employed, within the 30-day period that starts on the date he or she is first employed by FleetCor). The performance goals for participants may be different and, further, each participant's performance goals may be based on different performance criteria. However, all performance goals will be based on one or more of the following performance criteria, or any variations of the following business criteria: (1) our return over capital costs or increases in our return over capital costs, (2) our total earnings or the growth in such earnings, (3) our consolidated earnings or the growth in such earnings, (4) our earnings per share or the growth in such earnings, (5) our net earnings or the growth in such earnings, (6) our earnings before interest expense, taxes, depreciation, amortization and other non-cash items or the growth in such earnings, (7) our earnings before interest and taxes or the growth in such earnings, (8) our consolidated net income or the growth in such income, (9) the value of our common stock or the growth in such value, (10) our stock price or the growth in such price, (11) our return on assets or the growth on such return, (12) our cash flow or the growth in such cash flow, (13) our total shareholder return or the growth in such return, (14) our expenses or the reduction of our expenses, (15) our sales growth, (16) our overhead ratios or changes in such ratios, (17) our expense-to-sales ratios or the changes in such ratios, (18) our economic value added or changes in such value added, (19) our gross margin or growth in such gross margin, or (20) our bad debt expense or the reduction in such bad debt expense.

The performance goals may, as the committee deems appropriate, be based on criteria related to company-wide performance, division-specific performance, department-specific performance, region-specific performance, personal performance or any combination of such criteria.

**Maximum annual bonus.** The maximum annual bonus payable under the Incentive Program to any participant for any fiscal year cannot exceed 500% of the base salary which is paid to such participant in such fiscal year or \$5 million, whichever is less. However, a bonus will be paid to a participant under the Incentive Program for a fiscal year only to the extent the participant satisfies his or her performance goals for such bonus for such fiscal year, and the committee certifies in writing prior to payment of any bonus under the Incentive Program the

## Table of Contents

### Index to Financial Statements

extent, if any, to which a participant has satisfied his or her performance goals for each fiscal year. Finally, the committee shall have the discretion to reduce but not to increase the bonus payable to any participant if the committee acting in its discretion determines that such reduction is appropriate.

**Amending and terminating the incentive program.** The committee shall have the power to amend the Incentive Program from time to time as the committee deems necessary or appropriate and to terminate the Incentive Program if the committee deems such termination in the best interest of FleetCor.

### **2010 Equity compensation plan**

We intend to adopt the FleetCor Technologies, Inc. 2010 Equity Compensation Plan, which we refer to in this prospectus as the 2010 Plan, prior to the completion of this offering. The following description assumes the adoption of the 2010 Plan. The purpose of the 2010 Plan is to:

attract and retain employees and directors;

provide an additional incentive to employees and directors to work to increase the value of our common stock; and

provide employees and directors with a stake in the future of our company which corresponds to the stake of each of our stockholders. No grants will be made under our 2002 Plan on or after the date the 2010 Plan becomes effective.

**Share reserve.** We have reserved a total of 2,700,000 shares of our common stock for issuance pursuant to our 2010 Plan. All shares reserved for issuance shall remain available for issuance under our 2010 Plan until issued pursuant to the exercise of any option, stock appreciation right or issued pursuant to a stock grant, and when any shares are issued pursuant to any option, stock appreciation right or stock grant, the shares reserved for issuance shall be reduced on a one-to-one basis. Any shares of common stock issued pursuant to a stock grant, which are forfeited will again be available for grants under the 2010 Plan, and if the option price is paid in common stock or if shares of common stock are tendered in satisfaction of any condition to the stock grant, such shares shall not be available for grant under the 2010 Plan.

**Administration.** The compensation committee of our board of directors, or a subcommittee of the compensation committee, will administer our 2010 Plan. All grants under the 2010 Plan will be evidenced by a certificate that incorporates such terms and conditions as the compensation committee (or its subcommittee) deems necessary or appropriate.

**Types of awards.** Our 2010 Plan provides for the following types of awards to certain eligible employees and outside directors: stock options; stock grants; and stock appreciation rights, or SARs. Under the 2010 Plan, stock options may be incentive stock options, which we refer to as ISOs, or non-incentive stock options.

**Eligibility.** The compensation committee may grant options that are intended to qualify as ISOs only to eligible employees and may grant all other awards to eligible employees and outside directors. An eligible employee is an employee of FleetCor or any subsidiary, parent or affiliate of FleetCor who has been designated by the compensation committee to receive a grant under the 2010 Plan. No eligible employee or outside director in any calendar year may be granted an option to purchase more than 900,000 shares of common stock, a SAR based on the appreciation with respect to more than 900,000 shares of common stock or stock grants, which are intended to satisfy the requirements of Section 162(m) of the Internal Revenue Code, for more than 900,000 shares of common stock; provided, that, the compensation committee will have the discretion to increase each such grant limit to 1,000,000 shares of common stock if deemed necessary or appropriate in connection with hiring any eligible employee.

---

**Table of Contents****Index to Financial Statements**

**Options.** The exercise price for stock options granted under our 2010 Plan may not be less than the fair market value of our common stock on the option grant date. Option recipients may, in the discretion of the compensation committee, pay the exercise price by using cash, check, stock or through an approved cashless exercise procedure. Our options vest at the time or times determined by the compensation committee. The compensation committee, in its discretion, may require completion of a period of service as an eligible employee or outside director and/or satisfaction of a performance requirement before an option may be exercised. Our options will expire at a time determined by the compensation committee, but in no event more than ten years after they are granted. At the compensation committee's discretion, the option certificate may provide for the exercise of an option after an employee's or director's status has been terminated for any reason whatsoever, including death and disability.

**Tax limitations on incentive stock options.** The aggregate fair market value, determined at the time of grant, of shares of our common stock with respect to ISOs that are exercisable for the first time by an optionholder during any calendar year under all of our stock plans may not exceed \$100,000. No ISO may be granted to any person who, at the time of grant, owns or is deemed to own stock possessing more than ten percent of our total combined voting power or that of any of our affiliates unless (a) the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant and (b) the term of the ISO does not exceed five years from the date of grant.

**Stock appreciation rights.** SARs may be granted by the compensation committee to eligible employees and outside directors under the 2010 Plan, either as part of an option or as stand alone SARs. The terms and conditions for a SAR granted as part of an option will be set forth in the option certificate for the related option, while the terms and conditions for a stand alone SAR will be set forth in a SAR certificate. SARs entitle the holder to receive the appreciation of the fair market value of one share of common stock as of the date such right is exercised over the baseline price specified in the option or SAR certificate, or the SAR Value, multiplied by the number of shares of common stock in respect of which the SAR is being exercised. The SAR Value for a SAR must equal or exceed the fair market value of a share of common stock as determined on the grant date in accordance with the 2010 Plan. The SAR Value for a SAR granted together with an option shall be no less than the option price under the related option. If a SAR is granted together with an option, then the exercise of the SAR shall cancel the right to exercise the related option, and the exercise of a related option shall cancel the right to exercise the SAR. A SAR granted as a part of an option shall be exercisable only while the related option is exercisable. The compensation committee, in its discretion, may require completion of a period of service as an eligible employee or outside director and/or satisfaction of a performance requirement before a SAR may be exercised. At the discretion of the compensation committee, any payment due upon the exercise of a SAR can be made in cash or in the form of common stock.

**Stock grants.** Stock grants are grants which are designed to result in the issuance of common stock to the eligible employee or outside director to whom the grants are made, and stock grants may be granted by the compensation committee subject to such terms and conditions, if any, as the compensation committee acting in its absolute discretion deems appropriate. The compensation committee, in its discretion, may make the issuance of common stock under a stock grant and/or the vesting of such stock subject to certain conditions. These conditions may include, for example, a requirement that the eligible employee continue employment or the outside director continue service with us for a specified period or that we or the eligible employee achieve stated performance or other conditions. To the extent the performance conditions are intended to result in the stock grant qualifying as performance-based compensation under Section 162(m) of the Internal Revenue Code, the performance conditions will be one or more of the following: (1) our return over capital costs or increase in return over capital costs, (2) our total earnings or the growth in such earnings, (3) our consolidated earnings or the growth in such earnings, (4) our earnings per share or the growth in such earnings, (5) our net earnings or the growth in such earnings, (6) our earnings before interest expense, taxes, depreciation, amortization and other non-cash items or the growth in such earnings, (7) our earnings before interest and taxes or the growth in such

**Table of Contents**

**Index to Financial Statements**

earnings, (8) our consolidated net income or the growth in such income, (9) the value of our stock or the growth in such value, (10) our stock price or the growth in such price, (11) our return on assets or the growth in such return, (12) our cash flow or the growth in our cash flow, (13) our total stockholder return or the growth in such return, (14) our expenses or the reduction in such expenses, (15) our sales growth, (16) our overhead ratios or changes in such ratios, (17) our expense-to-sales ratios or changes in such ratios, (18) our economic value added or changes in such value added, (19) our gross margin or growth in such gross margin, or (20) our bad debt expense or the reduction in such bad debt expense.

Each stock grant shall be evidenced by a certificate which will specify what rights, if any, an eligible employee or outside director has with respect to such stock grant as well as any conditions applicable to the stock grant.

***Transfer of awards.*** No award shall be transferable otherwise than by will or the laws of descent and distribution without the consent of the compensation committee.

***Change in control.*** Pursuant to the 2010 Plan, all conditions to the exercise of outstanding options and SARs, and all conditions to the issuance or forfeiture of outstanding stock grants, will be deemed satisfied as of the effective date of the change in control, if as a result of a change in control:

all of the outstanding options, SARs and stock grants granted under the 2010 Plan are not continued in full force and effect or there is no assumption or substitution of the options, SARs and stock grants (with their terms and conditions unchanged) in connection with such change in control; or

the terms of an option certificate, SAR certificate or stock grant certificate expressly provide that this provision applies to the grant made under such certificate even if there is such a continuation, assumption, or substitution of such grant or the 2010 Plan.

In this case, our board of directors shall have the right to deem at the time of the change in control any and all terms and conditions to the exercise of all outstanding options and SARs on such date and any and all outstanding issuance and vesting conditions under any stock grants on such date be 100% satisfied on such date, and our board of directors shall also have the right, to the extent required as a part of a change in control transaction, to cancel all outstanding options, SARs and stock grants after giving eligible employees and outside directors a reasonable period of time to exercise their outstanding options and SARs or to take such other action as is necessary to receive common stock subject to stock grants.

The 2010 Plan also provides that if outstanding options, SARs and stock grants are continued in full force and effect or there is an assumption or substitution of the options, SARs and stock grants in connection with a change in control and the terms of option certificate, SAR certificate or stock grant certificate do not otherwise provide, then any conditions to the exercise of an eligible employee's or director's outstanding options and SARs and any issuance and forfeiture conditions of outstanding stock grants will automatically expire and have no further force or effect on or after the date that the employee's or director's service terminates, if:

the employee's employment with FleetCor is terminated at our initiative for reasons other than cause (as defined in the 2010 Plan) or is terminated at the employee's initiative for good reason (as defined in the 2010 Plan) within the two-year period starting on the date of the change in control; or

an outside director's service on our board of directors terminates for any reason within the two-year period starting on the date of the change in control.

A change in control means, generally:

Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

any sale by us of all or substantially all of our assets or our consummation of any merger, consolidation, reorganization or business combination with any person, except for certain transactions to be described in the 2010 Plan;

## Table of Contents

### Index to Financial Statements

the acquisition by any person, other than certain acquisitions to be specified in the 2010 Plan, of 30% or more of the combined voting power of our then-outstanding voting securities;

a change in the composition of our board of directors that causes less than a majority of the directors to be directors that meet one or more of the descriptions to be set forth in the 2010 Plan; or

stockholder approval of our liquidation or dissolution, other than as will be provided in the 2010 Plan.

**Adjustment of shares.** The number, kind or class of shares of common stock reserved for issuance under the 2010 Plan, the annual grant caps, the number, kind or class of shares of common stock subject to options or SARs granted under the 2010 Plan, and the option price of the options and the SAR Value of the SARs, as well as the number, kind or class of shares of common stock granted pursuant to stock grants under the 2010 Plan, shall be adjusted by the compensation committee in a reasonable and equitable manner to reflect any equity restructuring, change in the capitalization of our company or any transaction described in Internal Revenue Code section 424(a) which does not constitute a change in control, as provided in our 2010 Plan.

**Adjustment of shares mergers.** The compensation committee, as part of any transaction described in Code Section 424(a) which does not constitute a change in control, shall have the right to adjust the number of shares of common stock reserved for issuance under the 2010 Plan without seeking approval of our stockholders, unless such approval is required by applicable laws or rules of the stock exchange. The compensation committee will also have the right to make stock, option and SAR grants to effect the assumption of, or the substitution for, stock, option and SAR grants previously made by any other corporation to the extent that such transaction calls for the substitution or assumption of such grants.

**Amendments or termination.** Our board of directors may amend or terminate our 2010 Plan at any time, subject to applicable laws and regulations requiring stockholder approval. No amendment may be made to the section of the plan governing a change in control which might adversely affect any rights that would otherwise vest on a change in control with respect to awards granted prior to the date of any such amendment. The 2010 Plan will terminate on the earlier of (1) the tenth anniversary of the date our stockholders approve its adoption and (2) the date upon which all of the stock reserved for use under the 2010 Plan has been issued or is no longer available for use under this plan.

## **2002 Plan**

We previously adopted the FleetCor Technologies, Inc. Amended and Restated Stock Incentive Plan effective as of May 17, 2002, which we refer to in this prospectus as the 2002 Plan. The 2002 Plan expires on May 16, 2012, but we generally do not intend to grant awards under the 2002 Plan after the 2010 Plan is adopted. The purpose of the 2002 Plan is to provide equity awards to our employees, officers, directors, consultants and advisors. The 2002 Plan provides for incentive stock options, non-incentive stock options, restricted stock, and other awards based on our common stock, including without limitation, the grant of shares based upon certain conditions, the grant of securities convertible into our common stock and the grant of stock appreciation rights, phantom stock awards or stock units.

Unless otherwise expressly provided in the applicable award, upon the consummation of an acquisition (as defined in the 2002 Plan) our board or the board of directors of the surviving or acquiring entity (either of which we refer to as the board ) shall make appropriate provision for the continuation of outstanding awards or the assumption of such awards by the surviving or acquiring entity by substituting on an equitable basis for the shares then subject to such awards either (a) the consideration payable in connection with the acquisition, (b) shares of stock of the surviving or acquiring corporation or (c) such other securities or consideration as the board deems appropriate. In addition to or in lieu of the foregoing, with respect to outstanding options, our board

**Table of Contents**

**Index to Financial Statements**

may provide that outstanding options must be exercised within a specified period after which the options will terminate or may provide that outstanding options will be terminated in exchange for a cash payment. Unless otherwise determined by the board, any repurchase or other rights that relate to an option or other award will continue to apply to any consideration, including cash, that has been substituted for the option or other award. We may hold in escrow all or any portion of any such consideration in order to effect any continuing restrictions. Upon the consummation of an acquisition, the exercisability and/or vesting provisions of awards shall be accelerated, if at all, in accordance with the terms and conditions of the award.

In the event of certain changes in our capitalization, our board will make certain adjustments as specified in the Plan. Our board may also amend, suspend or terminate the 2002 Plan at any time.

To date, we have issued restricted stock and stock options under the 2002 Plan. We have also agreed in certain instances to issue restricted stock in the future if certain issuance conditions are met.

Under the most common form of restricted stock award, the restricted stock award vests only if the recipient continuously maintains a business relationship as an employee, officer, director or consultant with us through the date of a qualifying liquidity event that is not a private transaction. For purposes of these restricted stock awards, a qualifying liquidity event is defined as (1) a liquidity event in which the per share liquidity value is at least a specified dollar amount (which amount is set forth in the individual award agreement) or (2) a firmly underwritten offering of our common stock pursuant to a registration statement which results in gross proceeds to us of \$100 million or more and which has a per share price to the public of at least a specified dollar amount (which amount is set forth in the individual award agreement). On March 31, 2010, our board of directors determined that for purposes this offering, clause (2) above will be satisfied if the proceeds to the selling stockholders are greater than \$100 million. A liquidity event is defined as the closing of (1) a sale of all or substantially all of our assets or a merger or consolidation of us with or into another corporation (other than a merger or consolidation in which our outstanding voting stock is exchanged or converted into or constitutes shares which represent more than 50% of the surviving entity's voting capital stock) or (2) a transaction or series of transactions in which a person or group of persons acquire more than 50% of our voting power. A private transaction is defined as a liquidity event where the consideration does not consist of cash or cash equivalent consideration, registered securities or securities for which a registration statement will be filed within 90 days after the completion of the transaction.

We issued certain restricted stock awards that contain the vesting provision described above and also provide that if the employee's business relationship with us ends as a result of an involuntary termination without cause or due to death or disability and there is a qualifying liquidity event that is not a private transaction within 24 months following the end of his business relationship, we will pay to this employee the proceeds that he would have otherwise received in the qualifying liquidity event (less any amounts we previously paid him) for such shares of restricted stock.

We issued certain restricted stock awards that become fully vested only if the employee continuously maintains a business relationship with us in his capacity as an employee, officer, director or consultant through the date of a liquidity event (as opposed to a qualifying liquidity event) that is not a private transaction.

We issued restricted stock awards to certain other employees which provide for vesting only if the employee continuously maintains a business relationship with us through the later of the date of a qualifying liquidity event (as specifically defined in these two restricted stock awards) or the date a goal specified in the restricted stock award is met. However, for purposes of these restricted stock awards, qualifying liquidity event does not require any specific per share liquidity value or any specific per share price to the public.

We issued a restricted stock award that provides for vesting if both a qualifying liquidity event that is not a private transaction (as such terms are specifically defined in the restricted stock award) occurs and the employee

## **Table of Contents**

### **Index to Financial Statements**

satisfies a service vesting schedule in such award. For purposes of these restricted stock awards, a qualifying liquidity event does not require any specific per share liquidity value or any specific per share price to the public.

The board has the discretion to accelerate the vesting of any restricted stock award at any time without regard to whether there has been a qualifying liquidity event or other event or transaction.

The incentive stock options and non-incentive stock options granted under the 2002 Plan vest based on the optionee's continued service with us through the dates specified in the option agreements and, except as described in this paragraph, have no special vesting rules if a liquidity event occurs. However, we granted stock options to Mr. Clarke which provide that in the event a liquidity event that is not a private transaction occurs while he maintains a business relationship with us and when the option is not fully vested, then upon the next scheduled vesting date, the option will be settled in cash with respect to the number of shares for which the option is vested on such date, in an amount per share equal to the difference between the (1) the lesser of the per share liquidity value and the fair market value of a share of stock on such date and (2) the option exercise price per share set forth in the option agreement. The option will have no further value after such settlement.

All option agreements give us a right of first refusal and impose transfer restrictions on the shares covered by the option agreement. The right of first refusal and transfer restrictions expire on the earlier of the tenth anniversary of the date of the option agreement, immediately prior to the close of a public offering of common stock by us pursuant to an effective registration statement filed with the SEC or the occurrence of an acquisition that is not a private transaction. If the optionee is a party to a stockholders' agreement with us containing right of first refusal provisions, the stockholders' agreement will control.

All option agreements and restricted stock agreements provide that if there is an initial underwritten public offering of our common stock, the shares subject to such awards may not be sold, offered for sale or otherwise disposed of without consent of the underwriters for a period of time after the execution of the underwriting agreement.

## **Employment agreements and offer letters**

### ***Ronald F. Clarke***

We entered into an employment agreement with Mr. Clarke, in connection with his hiring, on September 25, 2000. The initial term of the employment agreement was one year, and the agreement automatically renews for successive one year periods unless we provide notice at least 30 days prior to the expiration date. Pursuant to the agreement, Mr. Clarke is entitled to an annual base salary of at least \$350,000, with annual increases at the discretion of the compensation committee. We may terminate Mr. Clarke's employment under the agreement by providing 30 days prior written notice and the payment of all sums due under the agreement. If we terminate Mr. Clarke's employment for any reason other than for cause (as defined below), Mr. Clarke will receive (1) cash severance payments, in equal monthly installments over 12 months (the Severance Period), in an amount equal to 150% of his then-current annual base salary plus any accrued and unpaid vacation; (2) at his election, payment of his health insurance premiums in amounts equal to those made immediately prior to his termination until the earlier of the expiration of the Severance Period or his commencement of employment with another employer; and (3) continuation of coverage during the Severance Period under our life and disability insurance plans, if permitted by the terms of the plans.

In addition, if Mr. Clarke's employment is terminated (1) for good reason (as defined below) or (2) for any reason other than cause, in each case within 12 months following a change in control (as defined below), he can elect to have us purchase from him all stock options granted to him and all shares of our stock that he then owns at fair market value. The fair market value is determined by the change in control price, if the change in control is a cash transaction, or, in all other cases, by the board of directors in good faith.

---

**Table of Contents**

**Index to Financial Statements**

Cause is defined to mean: Mr. Clarke's (1) failure to render services to us; (2) commission of an act of disloyalty, gross negligence, dishonesty or breach of fiduciary duty; (3) material breach of the agreement; (4) commission of any crime or act of fraud or embezzlement; (5) misappropriation of our assets; (6) violation of our material written rules or policies; (7) commission of acts generating material adverse publicity toward us; (8) commission or conviction of a felony; or (9) death or inability due to disability to perform his essential job functions for a period of three months.

Good reason is defined to mean, following a change in control, and without Mr. Clarke's written consent: (1) there is a significant diminution in his responsibilities; (2) a reduction in his annual base salary or total benefits in the amount of 10% or more; (3) his principal place of employment is relocated to a place that is 25 miles from the prior principal place of employment; or (4) he is required to be away from his office 25% more than was required prior to the change in control.

Change in control is defined to mean: (1) we are merged, consolidated or reorganized and as a result less than a majority of the combined voting power of the resulting entity is held by our security holders prior to the transaction; (2) we sell or otherwise dispose of all or substantially all or our assets; (3) with certain exceptions, a person (as defined in the Exchange Act) becomes the beneficial owner (as defined in the Exchange Act) of more than 50% of our voting securities; or (4) we file a Form 8-K or Schedule 14A to disclose that a change in control has occurred.

***Andrew R. Blazye***

We entered into an employment agreement with Mr. Blazye on July 9, 2007. The agreement provides that Mr. Blazye's employment shall continue until either party provides six months' notice of termination; however, we may terminate the agreement immediately in certain limited circumstances. The agreement provides for a base salary of \$314,400, which may be increased, and an annual target bonus payment of 50% of annual base salary and a maximum bonus payment of 75% of annual base salary. The agreement requires Mr. Blazye to make an annual payment in the amount of 2% of annual base salary to a pension plan and we are required to make an annual payment in the amount of 5% of annual base salary. Mr. Blazye has elected to participate in a defined contribution plan.

***Other named executive officers***

We entered into offer letter agreements with Messrs. Dey, Hart and House in connection with their hiring. Consistent with these offer letters and our historic practice, if any of these named executive officers is terminated by us for any reason other than for cause, we will (1) pay cash severance in the amount of six months of his then-current base salary and (2) provide health benefits for six months, each upon execution of a general release.

**Confidentiality and non-competition agreements**

Under the terms and conditions of the employee confidentiality and non-competition agreement executed by our named executive officers, which survives any termination of such executive's employment, our named executive officers, for a period of one year following termination for any reason, have an obligation not to (i) disclose certain of our confidential information, (ii) accept employment with certain enumerated competitors, (iii) solicit, in competition with our sale of products or services, any of our customers with which such executive had substantial contact within one year of such executive's termination and (iv) recruit or hire, or attempt to recruit or hire, any of our employees, consultants, contractors or other personnel, who have knowledge of certain of our confidential information and with whom such executive had substantial contact within one year of such executive's termination. In addition, pursuant to the employee confidentiality and non-competition agreement, during the term of employment our named executive officers have an obligation not to (i) disclose certain of our confidential information or (ii) accept employment with certain enumerated competitors.

**Table of Contents****Index to Financial Statements****Indemnification of directors and officers and limitation of liability**

As allowed by the Delaware General Corporation Law we have adopted provisions in our amended and restated certificate of incorporation to relieve our directors from monetary damages to us or our stockholders for breach of each such director's fiduciary duty as a director to the fullest extent permitted by the Delaware General Corporation Law.

We anticipate entering into indemnification agreements with each of our current directors and certain officers to give such directors and officers additional contractual assurances regarding the scope of their indemnification. The indemnification agreements will provide indemnification against all expenses (as defined in the agreement), judgments, fines and amounts paid in settlement actually and reasonably incurred to the fullest extent permitted by our amended and restated certificate of incorporation, amended and restated bylaws and the Delaware General Corporation Law, and to any greater extent that applicable law may in the future permit. The indemnification agreements will further provide procedures for the determination of a director or officer's right to receive indemnification and to receive reimbursement of expenses as incurred. In addition, we maintain liability insurance for our directors and officers, which will be required by their indemnification agreements. We believe that the indemnification agreements and liability insurance are necessary to attract and retain qualified persons as directors and officers.

**Potential payments on termination or change in control**

The following table shows the potential payments to the named executive officers upon a termination of employment under various circumstances. In preparing the table, we assumed the termination occurred on December 31, 2009.

| Name   | Severance<br>Amount<br>\$(1) | Accelerated<br>Vesting of<br>Equity |                   | Total<br>(\$) |
|--|------------------------------|-------------------------------------|-------------------|---------------|
|  |                              | Awards<br>\$(2)                     | Benefits<br>\$(3) |               |
| Ronald F. Clarke   |                              |                                     |                   |               |
| Termination other than for cause   | \$ 949,519                   |                                     | \$ 19,322         | \$ 968,841    |
| Termination for good reason or termination without cause following a change in control | \$ 949,519                   | \$ 27,150,000                       | \$ 19,322         | \$ 28,118,841 |
| Eric R. Dey  |                              |                                     |                   |               |
| Termination other than for cause   | \$ 120,000                   |                                     | \$ 9,661          | \$ 129,661    |
| Alex P. Hart   |                              |                                     |                   |               |
| Termination other than for cause   | \$ 137,500                   |                                     | \$ 9,661          | \$ 147,161    |
| Todd W. House  |                              |                                     |                   |               |
| Termination other than for cause   | \$ 137,500                   |                                     | \$ 9,661          | \$ 147,161    |
| Andrew R. Blazye   |                              |                                     |                   |               |
| Termination other than for cause   | \$ 157,200                   |                                     | \$ 9,671          | \$ 166,871    |

(1) For Mr. Clarke, represents 150% of his then-current annual base salary and any accrued vacation. For Messrs. Dey, Hart, House and Blazye, represents six months of their then-current annual base salary.

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

(2) Under Mr. Clarke's employment agreement he can elect to have us purchase, at fair market value, all outstanding stock options and shares of our stock then owned by him, upon a termination for good reason or without cause within 12 months after a change in control. The value shown above represents the value of the unvested options and restricted stock held by Mr. Clarke at December 31, 2009, assuming a value of \$45 per share, for which vesting would be accelerated and that we would be required to purchase from him should he so elect. Our equity incentive award agreements do not provide for accelerated vesting of equity awards under any circumstances. See 2002 Plan. Outstanding restricted stock awards will generally vest upon the closing of this offering, in some cases subject to the additional condition that the price to the public exceeds applicable thresholds.

(3) For Mr. Clarke, represents payment of medical, dental and vision benefits for 12 months. For Messrs. Dey, Hart and House, represents the value of continuation of medical, dental and vision benefits for six months. For Mr. Blazye represents continuation of all benefits for six months.

Table of ContentsIndex to Financial Statements**Compensation of directors**

Members of our board of directors, except for Messrs. Johnson and Marschel do not receive compensation for serving as directors. Messrs. Johnson and Marschel received restricted stock grants in 2009 of 3,500 shares each. These shares will vest upon the closing of this offering. We do not pay cash compensation or grant option awards to our directors. All members of our board of directors are reimbursed for actual expenses incurred in connection with attendance at board meetings. Mr. Clarke did not receive any compensation for service on our board of directors. Mr. Clarke's compensation is described in Compensation discussion and analysis.

We believe restricted stock awards are an appropriate form of compensation for our directors because the value of the grants will increase as the value of our stock price increases, thus aligning the interests of these directors with those of our stockholders. The amount of these grants was determined based on our board of directors' general experience with market levels of director compensation. Following this offering, we expect to continue to make annual grants of restricted stock to each of our non-employee directors (who are not otherwise affiliated with Advantage Capital Partners, Bain Capital Partners or Summit Partners) with a value of approximately \$175,000. The following table sets forth the total compensation earned by each person who received compensation as a director in 2009.

| Name              | Stock      | Total      |
|-------------------|------------|------------|
|                   | awards     |            |
|                   | (\$)(1)    | (\$)       |
| Mark A. Johnson   | \$ 157,500 | \$ 157,500 |
| Glenn W. Marschel | \$ 157,500 | \$ 157,500 |

(1) The values for stock awards in this column represent the grant date fair value for the stock awards granted in 2009, computed in accordance with FASB ASC Topic 718. The amounts shown above assume that we achieve a qualifying liquidity event.

The aggregate number of stock awards outstanding as of December 31, 2009 for each of our non-employee directors is as follows: Mr. Johnson, 7,000 shares of restricted stock; Mr. Marschel, 7,000 shares of restricted stock. None of our other non-employee directors hold outstanding equity awards, and Messrs. Johnson and Marschel do not hold any stock option awards.

**Table of Contents**

**Index to Financial Statements**

**Principal and selling stockholders**

The following table sets forth the beneficial ownership of shares of our common stock before and immediately following the closing of this offering by:

each stockholder who is known by us to be a beneficial owner of 5% or more of our outstanding shares of common stock;

each selling stockholder;

each of our current directors;

each of our named executive officers; and

all of our directors and executive officers as a group.

This table assumes (1) the conversion of all outstanding shares of our preferred stock into shares of our common stock immediately prior to the closing of this offering, (2) a -for- stock split of shares of our common stock to be effected prior to the closing of this offering and (3) no further exercises of outstanding options or the underwriters' option to purchase additional shares. The column entitled "Percentage of shares outstanding Before offering" is based on shares of our common stock outstanding as of , 2010. The column entitled "Percentage of shares outstanding After offering" is based on shares of common stock to be outstanding after this offering after giving effect to the shares we are selling in this offering and assumes no further exercises of outstanding options or the underwriters' option to purchase additional shares.

Unless otherwise indicated in the footnotes to the table, we believe, based on the information furnished to us, that each person named in the table has sole voting and investment power with respect to all of the shares of our common stock shown as beneficially owned by such person. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person and the percentage of ownership held by that person, shares of common stock subject to options or which are otherwise subject to vesting and that are currently exercisable or will become exercisable within 60 days after , 2010 are deemed outstanding, while these shares are not deemed outstanding for computing percentage ownership of any other person. Unless otherwise indicated below, the address of each named person is c/o FleetCor Technologies, Inc., 655 Engineering Drive, Suite 300, Norcross, Georgia 30092.

|  | Number of shares beneficially owned |                | Percentage of shares outstanding |                | Number of shares to be sold in the offering |
|--|-------------------------------------|----------------|----------------------------------|----------------|---|
|  | Before offering                     | After offering | Before offering                  | After offering |   |

- (1) Represents \_\_\_\_\_ shares held by Summit VI Advisors Fund, L.P., \_\_\_\_\_ shares held by Summit VI Entrepreneurs Fund, L.P., \_\_\_\_\_ shares held by Summit Ventures VI-A, L.P., \_\_\_\_\_ shares held by Summit Ventures VI-B, L.P., \_\_\_\_\_ shares held by Summit Investors VI, L.P., \_\_\_\_\_ shares held by Summit Subordinated Debt Fund II, L.P., \_\_\_\_\_ shares held by Summit Partners Private Equity Fund VII-A, L.P., \_\_\_\_\_ shares held by Summit Partners Private Equity Fund VII-B, L.P., \_\_\_\_\_ shares held by Summit Investors I, LLC and \_\_\_\_\_ shares held by Summit Investors I (UK), L.P. In this offering, each of the Summit Partners entities will sell the following number of \_\_\_\_\_ shares of common stock: Summit VI Advisors Fund, L.P., \_\_\_\_\_; Summit VI Entrepreneurs Fund, L.P., \_\_\_\_\_; Summit Ventures VI-A, L.P., \_\_\_\_\_; Summit Ventures VI-B, L.P., \_\_\_\_\_; Summit Investors VI, L.P., \_\_\_\_\_; Summit Subordinated Debt Fund II, L.P., \_\_\_\_\_; Summit Partners Private Equity Fund VII-A, L.P., \_\_\_\_\_; Summit Partners Private Equity Fund VII-B, L.P., \_\_\_\_\_; Summit Investors I, LLC, \_\_\_\_\_; Summit Investors I (UK), L.P., \_\_\_\_\_. Summit Partners, L.P. is (i) the managing member of Summit Partners VI (GP), LLC, which is the general partner of Summit Partners VI (GP), L.P., which is the general partner of each of Summit Ventures VI-A, L.P., Summit Ventures VI-B, L.P., Summit VI Advisors Fund, L.P., Summit VI Entrepreneurs Fund, L.P. and Summit Investors VI, L.P., (ii) the managing member of Stamps, Woodsum & Co. IV, which is the managing member of Summit Partners SD II, LLC, which is the general partner of Summit Subordinated Debt Fund II, L.P., (iii) managing member of Summit Partners PE VII, LLC, which is the general partner of Summit Partners PE VII, L.P., which is the general partner of Summit Partners Private Equity Fund VII-A, L.P. and Summit Partners Private Equity Fund VII-B, L.P., and (iv) the manager of Summit Investors Management, LLC, which is manager of Summit Investors I, LLC and the general partner of Summit Investors I (UK), L.P. Summit Partners, L.P., through a two-person investment committee, currently composed of Martin J. Mannion and Bruce R. Evans, has voting and dispositive authority over the shares held by each of these entities and therefore beneficially owns such shares. The address for each of these entities is 222 Berkeley Street, 18th Floor, Boston, MA 02116. Entities affiliated with Summit Partners hold private equity investments in one or more brokerdealers, and as a result Summit Partners is an affiliate of a broker dealer. However, Summit Partners acquired the securities to be sold in this offering in the ordinary course of business for investment for its own account and not as a nominee or agent and, at the time of that purchase, had no contract, undertaking, agreement, understanding or arrangement, directly or indirectly, with any person to sell, transfer, distribute or grant participations to such person or to any third person with respect to those securities.
- (2) Includes (a) \_\_\_\_\_ shares held by Bain Capital Fund VIII, LLC, whose sole member is Bain Capital Fund VIII, L.P., whose general partner is Bain Capital Partners VIII, L.P., whose general partner is Bain Capital Investors, LLC ( BCI ), (b) \_\_\_\_\_ shares held by BCIP Associates III, LLC, whose sole member is BCIP Associates III, whose managing general partner is BCI, (c) \_\_\_\_\_ shares held by BCIP T Associates III, LLC, whose sole member is BCIP Trust Associates III, whose managing general partner is BCI, (d) \_\_\_\_\_ shares held by BCIP Associates III-B, LLC, whose sole member is BCIP Associates III-B, whose managing general partner is BCI, (e) \_\_\_\_\_ shares held by BCIP T Associates III-B, LLC, whose sole member is BCIP Trust Associates III-B, whose managing general partner is BCI and (f) \_\_\_\_\_ shares held by BCIP Associates-G, whose managing general partner is BCI. As a result of the relationships described above, BCI may be deemed to own the shares held by entities in the foregoing sentence (the Bain Capital Entities ). BCI disclaims beneficial ownership of such shares except to the extent of its pecuniary interest therein. Voting and investment determinations with respect to the shares held by the Bain Capital Entities are made by an investment committee comprised of the following managing directors of BCI: Andrew Balson, Steven Barnes, Joshua Bekenstein, John Connaughton, Todd Cook, Paul Edgerley, Christopher Gordon, Blair Hendrix, Jordan Hitch, Matthew Levin, Ian Loring, Philip Loughlin, Mark Nunnally, Stephen Pagliuca, Mark Verdi, Michael Ward and Stephen Zide. As a result, and by virtue of the relationships described in this footnote, the investment committee of BCI may be deemed to exercise voting and dispositive power with respect to the shares held by the Bain Capital Entities. The investment committee of BCI disclaims ownership of such shares except to the extent of its pecuniary interest therein. In this offering each of the Bain Capital Entities will sell the following number of shares of common stock: (a) Bain Capital Fund VIII, LLC, \_\_\_\_\_; (b) BCIP Associates III, LLC, \_\_\_\_\_; (c) BCIP T Associates III, LLC, \_\_\_\_\_; (d) BCIP Associates III-B, LLC, \_\_\_\_\_; (e) BCIP T Associates III-B, LLC, \_\_\_\_\_; and (f) BCIP Associates-G, \_\_\_\_\_. Certain partners and other employees of the Bain Capital Entities may make a contribution of shares of stock to one or more charities prior to this offering. In such case, a recipient charity, if it chooses to participate in the offering, will be the selling stockholder with respect to the donated shares.
- (3) Represents \_\_\_\_\_ shares held by Chestnut Hill Fuel, LLC and \_\_\_\_\_ shares held by Richard A. Smith and Nancy Lurie Marks, as the trustees of the trust under the will of Philip Smith FBO Richard A. Smith. Chestnut Hill Ventures, LLC owns a controlling interest in GCC Investments, LLC, which wholly owns Chestnut Hill Fuel, LLC. Chestnut Hill Ventures, LLC, through a two-person board of managers, currently composed of Richard A. Smith and John G. Berylson, has voting and dispositive authority over the shares held by Chestnut Hill Fuel, LLC and therefore beneficially owns such shares. In this offering, each of the GCC Investments entities will sell the following number of shares of common stock: Chestnut Hill Fuel, LLC, \_\_\_\_\_ and Richard A. Smith and Nancy Lurie Marks, as the trustees of the trust under the will of Philip Smith FBO Richard A. Smith \_\_\_\_\_.
- (4) Represents \_\_\_\_\_ shares held by Wm. B. Reily & Company, Inc. An eleven-person board of directors of Wm. B. Reily & Company, Inc., consisting of Wm. B. Reily, III, Robert D. Reily, Wm. B. Reily, IV, Peter A. Aron, Robert Aron, Callaghan James McCarthy, Harold M. Herrmann, Jr., David T. Darragh, Homer Devon Graham, John K. Stubblefield, Jr., and A. Ewan McDonald, has voting and dispositive authority over such shares. Each member of the board of directors disclaims beneficial ownership of the shares owned by Wm. B. Reily & Company, Inc.
- (5) Represents \_\_\_\_\_ shares held by Advent Central & Eastern Europe III Limited Partnership, \_\_\_\_\_ shares held by Advent Central & Eastern Europe III A Limited Partnership, \_\_\_\_\_ shares held by Advent Central & Eastern Europe III B Limited Partnership, \_\_\_\_\_ shares held by Advent Central & Eastern Europe III C Limited Partnership, \_\_\_\_\_ shares held by Advent Central & Eastern Europe III D Limited Partnership, \_\_\_\_\_ shares held by Advent Central & Eastern Europe III E Limited Partnership, \_\_\_\_\_ shares held by Advent Partners ACEE III Limited Partnership and \_\_\_\_\_ shares held by Advent Partners III Limited Partnership. In this offering, each of the Advent Partners entities will sell the following number of \_\_\_\_\_ shares of common stock: Advent

are individuals affiliated with Advent. Advent International Corporation exercises voting and investment power over the shares held by each of these entities and may be deemed to have beneficial ownership of these shares. With respect to the shares of our common stock held by the Advent Funds, a group of individuals currently composed of Ernest G. Bachrach, David M. Mussafer and Steven M. Tadler exercises voting and investment power over the shares beneficially owned by Advent International Corporation. Each of Mr. Bachrach, Mr. Mussafer and Mr. Tadler disclaims beneficial ownership of the shares held by the Advent funds, except to the extent of their respective pecuniary interest therein. The address of Advent International Corporation and each of the funds listed above is c/o Advent International Corporation, 75 State Street, Boston, MA 02109.

(6) Includes options to purchase            shares vested or vesting within 60 days of            , 2010.

(7) Includes options to purchase            shares vested or vesting within 60 days of            , 2010.

(8) Includes options to purchase            shares vested or vesting within 60 days of            , 2010.

(9) Includes            shares held by the Bain Capital Entities. Mr. Balson is a Managing Director and serves on the investment committee of BCI and as a result, and by virtue of the relationships described in Footnote (2), may be deemed to beneficially own the shares owned by the Bain Capital Entities. Mr. Balson disclaims ownership of the shares held by the Bain Capital Entities except to the extent of his pecuniary interest therein.

(10) Excludes            shares held by the Summit Partners entities. Mr. Carroll is a member of the general partner of Summit Partners, L.P. and as a result may be deemed to beneficially own the shares owned by the Summit Partners entities. Mr. Carroll disclaims ownership of the shares held by the Summit Partners entities except to the extent of his pecuniary interest therein.

(11) Excludes            shares held by the Summit Partners entities. Mr. Evans is a member of the general partner of and is on the investment committee for Summit Partners, L.P. and as a result may be deemed to beneficially own the shares owned by the Summit Partners entities. Mr. Evans disclaims ownership of the shares held by the Summit Partners entities except to the extent of his pecuniary interest therein.

(12) Includes options to purchase            shares vested or vesting within 60 days of            , 2010.

**Table of Contents****Index to Financial Statements****Certain relationships and related party transactions**

We describe below the transactions that have occurred since January 1, 2007, and any currently proposed transactions, that involve our company and exceed \$120,000, and in which a related party had or has a direct or indirect material interest. All descriptions of the agreements below are qualified in their entirety by reference to the actual agreements. The share amounts disclosed herein do not give effect to (1) the automatic conversion of all outstanding shares of our preferred stock into \_\_\_\_\_ shares of our common stock upon the closing of this offering or (2) a \_\_\_\_\_ -for- \_\_\_\_\_ stock split of shares of our common stock to be effected prior to the closing of this offering.

**Series E preferred stock issuance and acquisition of CLC Group, Inc. and subsidiaries**

On April 1, 2009, in connection with our acquisition of CLC Group, Inc., and subsidiaries we issued 3.4 million shares of Series E convertible preferred stock at a price of \$30 per share, for an aggregate purchase price of \$102.0 million. All purchase prices were paid in cash, except as described below. The following table presents the number of shares of preferred stock purchased by each of the parties named below (including shares purchased by their respective affiliates). Each of the parties listed below was, at the time of the transaction, or as a result of the transaction, a holder of 5% or more of a class of our capital stock.

| Entity   | Shares of<br>series E<br>convertible<br>preferred<br>stock | Purchase<br>price |

| Peter Vallis   | 76,667   | 2,300,010         |
|  | 3,400,000  | \$ 102,000,000    |

(1) Includes 1,050,424 shares purchased by Summit Partners Private Equity Fund VII-A, L.P., 630,901 shares purchased by Summit Partners Private Equity Fund VII-B, L.P., 25,208 shares purchased by Summit Subordinated Debt Fund II, L.P., 6,044 shares purchased by Summit Investors I, LLC, 634 shares purchased by Summit Investors I (UK), L.P. and 122 shares purchased by Summit Investors VI, L.P.

(2) Includes 277,174 shares purchased by Performance Direct Investments II, L.P., 176,911 shares purchased by JP Morgan Chase Bank, N.A. as trustee for First Plaza Group Trust, solely for the benefit of pool PMI-127, 39,307 shares purchased by JP Morgan Chase Bank, N.A. as trustee for First Plaza Group Trust, solely for the benefit of pool PMI-128, 31,219 shares purchased by JP Morgan Chase Bank, N.A. as trustee for First Plaza Group Trust, solely for the benefit of pool PMI-129 and 8,723 shares purchased by JP Morgan Chase Bank, N.A. as trustee for First Plaza Group Trust, solely for the benefit of pool PMI-130.

(3) Includes 166,667 shares purchased by HarbourVest Partners VIII-Buyout Fund L.P. and 166,666 shares purchased by HarbourVest Partners 2007 Direct Fund L.P.

## Edgar Filing: FLEETCOR TECHNOLOGIES INC - Form S-1/A

- (4) Includes 266,400 shares purchased by Nautic Partners V, L.P. and 267 shares purchased by Kennedy Plaza Partners III, LLC. The consideration for the purchase price was all of the common stock of CLC Group, Inc. held by Nautic Partners.
  
- (5) Includes 265 shares purchased by Advent Partners III Limited Partnership, 98,744 shares purchased by Advent Central & Eastern Europe III Limited Partnership, 75,754 shares purchased by Advent Central & Eastern Europe III A Limited Partnership, 10,762 shares purchased by Advent Central & Eastern Europe III B Limited Partnership, 14,619 shares purchased by Advent Central & Eastern Europe III C Limited Partnership, 22,192 shares purchased by Advent Central & Eastern Europe III D Limited Partnership, 18,606 shares purchased by Advent Central & Eastern Europe III E Limited Partnership and 2,391 shares purchased by Advent Partners ACEE III Limited Partnership.
  
- (6) Includes 28,498 shares purchased by Advantage Capital Partners VI, L.P., 36,667 shares purchased by Advantage Capital Partners X, L.P., 41,668 shares purchased by Advantage Capital Management Fund, LLC and 26,500 shares purchased by Advantage Capital Financial Company, LLC.

## **Table of Contents**

### **Index to Financial Statements**

In addition, in connection with our purchase of all of the common stock of CLC Group, Inc., and subsidiaries we purchased 853 shares from Timothy J. Downs our President Corporate Lodging Consultants and cancelled 682 options held by Mr. Downs, for aggregate consideration of \$1,748,574. We paid Mr. Downs \$972,932 in cash and withheld \$650,138 for taxes, \$120,047 for his portion of an indemnification pool and \$5,457 for his portion of payments due to a seller representative. Mr. Downs received the same per-share consideration as other CLC Group, Inc. stock and option holders. As a result of the transaction, Mr. Downs became an executive officer of our Company.

### **Warrant exercises**

On October 13, 2008, we issued an aggregate of 146,578 shares of our common stock to Summit Investors VI, L.P. and Summit Subordinated Debt Fund II, L.P., entities affiliated with Summit Partners, upon the exercise of outstanding warrants, and received approximately \$1,466 in cash proceeds.

### **Stock repurchases**

On May 15, 2007, we repurchased an aggregate of 386,344 shares of common stock from Robert P. Brandes, Ronald F. Clarke, Eric R. Dey, Scott C. Ruoff and William J. Schmit, executive officers, 250,686 shares of Series D-1 convertible preferred stock from Advantage Capital Partners, a 5% security holder, and an aggregate of 36,250 shares of common stock issuable upon the exercise of options from Van E. Huff, an executive officer, and Mark A. Johnson, a director, for \$30 per share (in the case of options, less any applicable per share exercise price).

### **Preferred stock conversion and dividends**

Our certificate of incorporation provides that immediately upon the closing of this offering, each share of our Series E convertible preferred stock and each share of each class of our Series D convertible preferred stock will convert automatically into one share of our common stock. Our Series E and Series D convertible preferred stock is held by the following 5% holders of a class of our capital stock: Advantage Capital Partners, funds managed by Advent International Corporation, funds sponsored by Bain Capital Partners, GCC Investments, HarbourVest Partners, Nautic Partners, Performance Equity Management, entities affiliated with Summit Partners, Wm B. Reily & Company, Inc. and Peter Vallis (in each case including certain affiliated entities, and collectively, the 5% Security Holders ) and Ronald F. Clarke, Scott C. Ruoff and William J. Schmit, executive officers. No accrued and unpaid dividends will be paid in connection with this conversion, except that we will pay 37.5% of all unpaid accrued dividends on our Series D-3 convertible preferred stock. For more information, see Dividend Policy.

### **Loan to chief executive officer**

On May 3, 2002, we accepted a promissory note from Ronald F. Clarke, our Chief Executive Officer, in the amount of \$132,235 for a portion of the purchase price of 265,000 shares of our Series B preferred stock (which was subsequently reclassified as Series D-2 preferred stock). The promissory note provided for an annual compound interest rate of 4.99%. Mr. Clarke repaid the note in full on December 23, 2009. Mr. Clarke paid \$132,235 in principal and \$50,492 in interest over the term of the note. The largest aggregate amount of principal outstanding during the term of the note was \$132,235.

### **Stockholders agreement**

On April 1, 2009, we entered into a sixth amended and restated stockholders agreement that binds the holders of our common stock and our Series D and Series E preferred stock. These holders include the 5% Security Holders;

---

**Table of Contents****Index to Financial Statements**

the following executive officers: Ronald F. Clarke, Scott C. Ruoff, Eric R. Dey, Todd W. House, Van E. Huff, Alex P. Hart, William J. Schmit, Robert P. Brandes, Timothy J. Downs and Andrew R. Blazye; and Mark A. Johnson and Glenn W. Marschel, directors. Pursuant to the sixth amended and restated stockholders agreement, the parties are subject to contractual restrictions relating to their proposed transfer of our capital stock. Under this agreement, proposed transfers of our capital stock by parties to the agreement to a third party that is not a permitted transferee are subject to our right of first refusal and, to the extent we do not exercise our right, non-selling holders have a right, on a pro-rata basis, to purchase the shares proposed to be transferred. If neither we nor the non-selling holders exercise the right to purchase all of the shares of capital stock proposed to be transferred, then certain of our major investors have a pro rata right of participation in the sale. In addition, if certain of our major investors propose to transfer shares of our capital stock to a third party, then non-selling major investors have a pro rata right of participation in the sale. Further, certain of our major investors also have a preemptive right to purchase a pro rata share of any equity securities that we issue. Under this agreement, we are also granted certain drag-along rights to require security holders to participate in a proposed sale or merger of the company. The sixth amended and restated stockholders agreement will terminate immediately prior to the consummation of this offering, and will not apply to the sale of shares in this offering.

**Registration rights agreement**

After this offering, pursuant to the terms of a sixth amended and restated registration rights agreement, the holders of \_\_\_\_\_ shares of our common stock issued upon conversion of our preferred stock, and the holders of \_\_\_\_\_ shares of our currently outstanding common stock will be entitled to rights with respect to the registration of these shares under the Securities Act of 1933, as amended, as described below. These holders include the 5% Security Holders.

***Demand registration rights***

At any time beginning 180 days after the closing of this offering, and upon the written request of entities sponsored by or associated with Bain Capital Partners, LLC or entities affiliated with Summit Partners or funds managed by Advent International Corporation, we must give notice to all holders of our common stock with registration rights, who would have 30 days to request inclusion in the offering, file a registration statement and use our best efforts to register all shares timely requested to be registered. Entities affiliated with Bain Capital Partners and certain entities affiliated with Summit Partners have two such demand registration rights and certain other entities affiliated with Summit Partners and the funds managed by Advent International Corporation have one such demand registration right. We are generally not obligated to effect a registration during the 120-day period subsequent to our filing a registration statement pursuant to these demand registration rights. We may postpone the filing of a registration statement for up to 90 days twice in a 12-month period, but not more than 120 consecutive days, if we have plans to engage in a registered public offering and our board of directors determines in good faith that such offering would be adversely affected by the requested registration.

***Piggyback registration rights***

If we register any of our securities for public sale, we must give notice to all holders of our common stock with registration rights, who would have 20 days to request inclusion in the offering, and use our best efforts to cause to be registered shares held by our stockholders with registration rights that request to include their shares in the registration statement. However, this right does not apply to a registration relating to any of our employee benefit plans or a corporate reorganization. The managing underwriter of any underwritten public offering will have the right to limit, due to marketing reasons, the number of shares registered by these holders. These piggyback registration rights will not apply to this offering.

## **Table of Contents**

### **Index to Financial Statements**

#### ***Form S-3 registration rights***

The holders of registration rights can request that we register all or a portion of their shares on Form S-3 if we are eligible to file a registration statement on Form S-3, upon which request we must give notice to all holders of our common stock with registration rights, who would have 20 days to request inclusion in the offering. We are required to file no more than one registration statement on Form S-3 upon exercise of these rights per six-month period and we are not required to honor registration requests if the aggregate market value of securities registered would be less than \$10 million.

#### ***Registration expenses***

We will pay all expenses incurred in connection with each of the registrations described above, except for underwriters' discounts and selling commissions. In addition, we will pay the reasonable fees and disbursements of one counsel for the stockholders participating in such registration.

#### ***Indemnification***

We have agreed, subject to certain exceptions, to indemnify against liabilities resulting from this offering and the offerings described above, each selling stockholder that is a party to the registration rights agreement, including the 5% Security Holders. In addition, we have agreed that, in order to provide for just and equitable contribution to joint liability, if indemnification is not available to such parties, FleetCor and such parties will each contribute to any liability based on the proportion that the price of the shares sold by them relates to the aggregate offering price, subject to certain exceptions.

#### ***Expiration of registration rights***

The registration rights described above will terminate with respect to a particular stockholder to the extent the shares held by and issuable to such holder may be sold without registration under the Securities Act in the manner and quantity proposed to be sold.

### **Policies and procedures with respect to related party transactions**

Prior to this offering, we had not adopted any policies or procedures for the review, approval or ratification of transactions with related parties. However, in accordance with the charter of our audit committee, which will become effective upon the closing of this offering, and our policy on related party transactions, which our board of directors will adopt effective upon the closing of this offering, our audit committee will be responsible for reviewing and approving related party transactions. The related party transaction policy will apply to transactions, arrangements and relationships where the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, where we are a participant and in which a related person has or will have a direct or indirect material interest. A related person is: (1) any of our directors, nominees for director or executive officers; (2) any immediate family member of a director, nominee for director or executive officer; and (3) any person, and his or her immediate family members, or entity that was a beneficial owner of 5% or more of any of our outstanding equity securities at the time the transaction occurred or existed.

In the course of its review and approval of related party transactions, our audit committee will consider the relevant facts and circumstances to decide whether to approve such transactions. Our audit committee will approve only those transactions that it determines are in our best interest. In particular, our policy on related party transactions will require our audit committee to consider, among other factors it deems appropriate:

**Table of Contents**

**Index to Financial Statements**

whether the related party transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances; and

the extent of the related party's interest in the transaction.

Pursuant to our policy on related party transactions, our audit committee will identify the following categories of transactions as deemed to be preapproved by the audit committee, even if the aggregate amount involved exceeds the \$120,000 threshold:

our employment of any executive officer or compensation paid by us to any executive officer if our compensation, nominating and corporate governance committee approved (or recommended that our board of directors approve) such compensation;

any compensation paid to a director if the compensation is required to be reported in our proxy statement under Item 402 of the SEC's compensation disclosure requirements;

any transaction with another company at which a related person's only relationship is as an employee (other than an executive officer), director or beneficial owner of less than 10% of that company's shares, if the aggregate amount involved does not exceed the greater of \$1,000,000, or 2% of that company's total annual revenues;

any charitable contribution, grant or endowment made by us to a charitable organization, foundation or university at which a related person's only relationship is as an employee (other than an executive officer) or a director, if the aggregate amount involved does not exceed the lesser of \$1,000,000, or 2% of the charitable organization's total annual receipts;

any transaction where the related person's interest arises solely from the ownership of our common stock and all holders of our common stock received the same benefit on a pro rata basis;

any transaction involving a related person where the rates or charges involved are determined by competitive bids;

any transaction with a related person involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority; and

any transaction with a related person involving services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services.

In addition, our Code of Business Conduct and Ethics, which will become effective upon the closing of this offering, requires that each of our employees and directors inform his or her superior or the chairman of the audit committee, respectively, of any material transaction or relationship that comes to their attention that could reasonably be expected to create a conflict of interest. Further, at least annually, each director and executive officer will complete a detailed questionnaire that asks questions about any business relationship that may give rise to a conflict of interest and all transactions in which we are involved and in which the executive officer, a director or a related person has a direct or indirect material interest.

## Description of indebtedness

*The following summary of our indebtedness and the provisions of each debt instrument summarized below do not purport to be complete and are subject to, and qualified in their entirety by reference to, each of the debt instruments, which we have included as exhibits to the registration statement of which this prospectus is a part. All foreign currency amounts that have been converted into U.S. dollars in this summary are based on the exchange rate as reported by Oanda as of December 31, 2009.*

### 2005 Credit Facility

We are a party to a credit facility agreement, dated as of June 29, 2005, which was amended and restated as of April 30, 2007, among FleetCor Technologies Operating Company, LLC and FleetCor UK Acquisition Limited, as borrowers, FleetCor Technologies, Inc., JPMorgan Chase Bank, N.A., as administrative agent and collateral agent, J.P. Morgan Europe Limited, as London agent, and the lenders from time to time party thereto. We refer to this credit facility as the 2005 Credit Facility in this prospectus. The 2005 Credit Facility provides for term loans in the amount of \$250.0 million, and two tranches of multicurrency revolving loans, each of which may be made in U.S. dollars, British pounds or Euros; a U.S. tranche for the U.S. borrower of up to \$30.0 million (with a \$10 million sublimit for letters of credit), and a global tranche for both the U.S. borrower and the U.K. borrower of up to \$20.0 million. There is also a \$10.0 million swing line facility which is available to the U.S. borrower. The 2005 Credit Facility provides for delayed draw term loans in the amount of up to \$50.0 million, of which \$50.0 million was borrowed in April 2008. The 2005 Credit Facility further provides for incremental term loans in the aggregate not to exceed \$100.0 million. None of the incremental term loans have been made.

The stated maturity date for our term loans is April 30, 2013 and the stated maturity date for our revolving loans and letters of credit is April 30, 2012. We have the right to prepay the loans without premium or penalty, other than to compensate the lenders for losses on any LIBOR loan or EURIBOR loan which is prepaid on a date other than the last day of an interest period. Mandatory prepayments are required from net cash proceeds of certain dispositions of assets, issuances of equity and issuances of indebtedness. We are required to prepay our term loans in an amount equal to 50% of the net cash proceeds from the issuance of shares of our stock in a public offering. There are exceptions for net cash proceeds that we receive from the issuance of stock to repurchase certain other equity interests or that we use to finance acquisitions. We must make any required prepayment within five business days of receipt of such net cash proceeds. This requirement of prepayment will apply to the proceeds of this offering. We are required to make mandatory prepayments in an amount equal to 50% of excess cash flow for each fiscal year unless our leverage ratio was less than 1.5 to 1 as of the last day of the immediately preceding four fiscal quarters, in which case the prepayment must be in an amount equal to 25% of excess cash flow. No prepayment is required if our leverage ratio on such date was less than 1.0 to 1.

All obligations of the U.S. borrower, under the 2005 Credit Facility are guaranteed by each of our domestic subsidiaries other than FleetCor Funding LLC and are secured by substantially all of our domestic assets, including intercompany debt, and by pledges of 65.0% of our equity interests in our first tier foreign subsidiaries, with an express exclusion for accounts receivable and related assets sold under our securitization facility. All obligations of the U.K. borrower under the 2005 Credit Facility are guaranteed by each of our domestic and U.K. subsidiaries and are secured by all the assets securing the obligations of the U.S. borrower and by pledges of all our equity interests in substantially all of our U.K. subsidiaries.

Interest on the facilities may accrue, at our election, based on a base rate, EURIBOR or LIBOR, plus a margin. The margin with respect to term loans is fixed at 2.25% for LIBOR and EURIBOR loans and at 1.25% for base rate loans. With respect to revolving loans and letter of credit fees, the margin or fee is determined based on our leverage ratio and ranges from 2.00% to 2.50% for LIBOR and EURIBOR loans and from 1.00% to 1.50% for

---

**Table of Contents**

**Index to Financial Statements**

base rate loans. As of March 31, 2010 our term loans bore interest at LIBOR plus 2.25% and we had no U.S. revolving loans or multicurrency loans outstanding. Interest on overdue amounts will accrue at a rate equal to the applicable interest rate plus 2.0% per annum. We were required under the credit agreement to enter into interest rate swaps with respect to at least 40% of our long term debt.

The proceeds of the initial term loans made on April 30, 2007 were used to refinance existing term loans, to finance a share repurchase, to finance certain acquisitions, and for working capital and other general corporate purposes. The proceeds of the revolving loans and swing line loans are to be used for working capital and other general corporate purposes. The proceeds of the delayed draw term loans were used for permitted acquisitions. Letters of credit are to be used solely to support payment obligations incurred by us in the ordinary course of business.

We are required to pay the following fees with respect to the 2005 Credit Facility: (i) an unused fee of 0.375% per annum of the daily availability under our revolving credit facility, (ii) a participation fee with respect to letters of credit for each lender for its participation in letters of credit and a fronting fee of 0.125% per annum to the issuing bank, plus the issuing bank's other fees, and (iii) other fees of the agents as separately agreed.

The 2005 Credit Facility contains a number of negative covenants restricting, among other things, indebtedness, investments, liens, dispositions of assets, restricted payments (including dividends), mergers and acquisitions, burdensome agreements, accounting changes, transactions with affiliates, prepayments of indebtedness, and capital expenditures. Two financial covenants, including a leverage ratio requirement and an interest coverage ratio requirement, are measured quarterly. We are currently required to maintain a leverage ratio of not greater than 2.25 to 1, and beginning January 1, 2011, we will be required to maintain a leverage ratio of not greater than 2.00 to 1. We are required to maintain an interest coverage ratio of not less than 4.00 to 1. As of March 31, 2010, we were in compliance with each of the covenants under this credit agreement.

The events of default under the 2005 Credit Facility include non-payment, noncompliance with covenants, breaches of representations and warranties, default under the securitization facility or under any other agreement relating to indebtedness in excess of \$10.0 million, insolvency proceedings, inability to pay debts, judgments in excess of \$10.0 million which are not satisfied or stayed pending appeal, writ issued against a material part of a restricted party's assets, invalidity of loan documents, failure of collateral documents to create liens, change of control, certain ERISA events, and the obligations under the credit agreement ceasing to be senior debt. Following this offering, a change of control will mean: (1) a person or group (each as defined in sections 13(d) and 14(d) of the Exchange Act), subject to certain exceptions and excluding Bain Capital Partners LLC, Summit Ventures, L.P., Advantage Capital, GCC Investments, Advent and Reily Corporation and their respective affiliates (the Permitted Holders), becomes the beneficial owner (as defined in Rules 13(d)-3 and 13(d)-5 under the Exchange Act), directly or indirectly, of more than the greater of (a) 35% of the outstanding shares of our capital stock and (b) the percentage of our outstanding capital stock owned, directly or indirectly, beneficially by the Permitted Holders, or (2) during any period of twelve consecutive months, a majority of our board of directors fails to consist of continuing directors (as defined in the 2005 Credit Facility).

We have received commitments from lenders for an additional tranche of revolving loans in the amount of up to \$100 million to be made under the terms of the 2005 Credit Facility. The additional revolving loans will be available only in U.S. dollars, and the commitments for the additional revolving loans will not be held pro rata with the commitments held by the lenders holding existing commitments for the revolving loans and term loans. The additional revolving loan commitments will have a maturity date of October 31, 2012. The maturity date of the existing commitments for revolving loans is April 30, 2012, and the lenders providing such commitments will be asked to extend the maturity date to October 31, 2012. The revolving commitments held by any lender not agreeing to the extension of the maturity date will remain April 30, 2012. In all other respects, we expect that the additional revolving loan commitments will be subject to the terms and conditions applicable to revolving loans

**Table of Contents****Index to Financial Statements**

made under the existing commitments for the U.S. tranche. The conditions for the additional revolving loan commitments include, among other things, the closing of this offering and the execution of definitive documentation on or before September 30, 2010.

In addition, J.P. Morgan Securities Inc. has agreed to arrange for an amendment to the 2005 Credit Facility to permit the additional revolving loans described above, to remove the mandatory prepayment requirement with respect to excess cash flow and certain equity issuances, to extend the maturity date on revolving loans with respect to consenting lenders to October 31, 2012, and to increase the interest rate margins for term loans. We expect that the proposed amendment will also include certain other covenant amendments, subject to the requisite consents of the other lenders. The conditions for the proposed amendments include, among other things, the closing of this offering and the execution of definitive documentation on or before September 30, 2010. A customary consent fee will be payable by us, together with certain other amendment fees and expenses.

**CCS Credit Facility**

Certain of our subsidiaries are parties to a credit facility agreement, dated as of December 7, 2006, which was amended as of March 28, 2008, among CCS Česká společnost pro platební karty a.s., as borrower, FENIKA s.r.o., as borrower (FENIKA s.r.o. and CCS Česká společnost pro platební karty a.s. subsequently merged into a new entity CCS Česká společnost pro platební karty s.r.o. ( CCS )), FleetCor Luxembourg Holding 3 S.à r.l., as shareholder, HVB Bank Czech Republic a.s. (current commercial name UniCredit Bank Czech republic, a.s.), as security agent, Bank Austria Creditanstalt AG (current commercial name Unicredit Bank Austria AG), as arranger and facility agent, and the other lenders party thereto. We refer to this facility as the CCS Credit Facility in this prospectus. The CCS Credit Facility agreement provides for term loans in the total amount of CZK 1.675 billion (\$83.8 million), which consists of a Facility A amortized term loan in the amount of CZK 990.0 million (\$49.5 million) and a Facility B bullet term loan in the amount of CZK 685.0 million (\$33.5 million).

The stated maturity date for CCS's term loans is December 21, 2013 with respect to Facility A and December 21, 2014 with respect to Facility B. The unpaid principal balance of the term loans as of March 31, 2010 is approximately CZK 516.5 million (\$26.8 million) for Facility A and approximately CZK 616.2 million (\$32.0 million) for Facility B. CCS has the right to prepay the loans without premium or penalty on the last day of any interest period with respect to the loans being prepaid. Mandatory prepayments are required from proceeds of certain dispositions of assets. CCS is required to make a mandatory prepayment in an amount equal to 50% of such proceeds or in case of the disposal of the shares in CCS's subsidiary CCS Slovenská spoločnosť preplatabné karty s.r.o., the greater of 50% of the net proceeds and CZK 100.0 million (\$5.4 million). CCS is also required to make a mandatory prepayment in an amount equal to 50% of excess cash flow for each fiscal year unless CCS's leverage ratio was less than 2.5 to 1 as of the last day of the immediately preceding four fiscal quarters, in which case no prepayment is required. The mandatory prepayment of all outstanding loans is also required if FleetCor ceases to be the beneficial owner of 100% of the issued share capital of CCS.

The obligations at CCS with respect to the term loans are guaranteed FleetCor Luxembourg Holding 3 S.à r.l. and are secured by substantially all of CCS's and such guarantor's assets, including a pledge of 100% of the equity interest in CCS and a pledge of all of CCS's business assets, including the security assignment of trade receivables and intercompany debt. In addition, FleetCor is obligated to provide a payment support loan to CCS if the ratio of cash and substitutes to customer deposits received falls below 67%. The amount of any required payment support loan would be the amount by which the aggregate amount of customer deposits received from CCS's customers exceeds the average amount of cash and cash substitutes that CCS has on hand, determined monthly. As of March 31, 2010, the aggregate customer deposits received by CCS were approximately CZK 1.2 billion (\$65.3 million).

---

**Table of Contents**

**Index to Financial Statements**

Interest on the term loans may accrue, calculated according to the term selected by CCS, based on a base rate, PRIBOR (Prague Interbank Offered Rate), plus a margin and a mandatory cost. The margin is determined based on CCS's leverage ratio and ranges from 0.95% to 1.75% for the Facility A term loan and from 2.00% to 2.50% for the Facility B term loan. As of March 31, 2010, the interest rate on Facility A equaled 2.50 and the interest rate on Facility B equaled 3.55. Interest on overdue amounts will accrue at a rate equal to the applicable interest rate plus 1.00% per annum.

CCS is required to pay the following fees with respect to CCS's term loans: (i) an annual agency fee in the amount of 20,000, (ii) an annual security agency fee in the amount of CZK 420,000 (\$0.23 million), and (iii) a one-time arrangement fee.

The CCS Credit Facility agreement contains a number of negative covenants restricting, among other things, indebtedness, investments, liens, dispositions of assets, change of business, restricted payments (including dividends), mergers and acquisitions, transactions with affiliates and prepayments of indebtedness. The agreement also contains financial covenants including a leverage ratio requirement, a debt service cover ratio requirement, an equity ratio requirement and a liquidity ratio requirement, all of which are tested quarterly. CCS is currently required to maintain a leverage ratio of not greater than 3.50 to 1, and beginning July 1, 2010, CCS will be required to maintain a leverage ratio of not greater than 3.25 to 1. CCS is required to maintain a debt service coverage ratio of not less than 1.20 to 1, an equity ratio of not less than 0.20 to 1, and a liquidity ratio not less than 1.00 to 1. As of March 31, 2010, CCS was in compliance with each of the covenants under the CCS Credit Facility agreement.

The events of default under CCS's Credit Facility agreement include non-payment, noncompliance with covenants, breaches of representations and warranties, default under any agreement relating to indebtedness or any agreements relating to indebtedness in an aggregate amount in excess of CZK 75.0 million (\$4.1 million), insolvency proceedings, cessation of business, inability to pay debts, any one or more judgments including an aggregate liability in excess of CZK 50.0 million (\$2.7 million) that are not vacated, discharged or stayed pending appeal, attachment of a part of a restricted party's assets having an aggregate value of at least CZK 50.0 million (\$2.7 million), invalidity of the CCS Credit Facility loan documents and audit qualification.

**Seller financing note**

One of our subsidiaries, FleetCor Luxembourg Holding2 S.à r.l. ( Lux 2 ), entered into a Share Sale and Purchase Agreement dated April 24, 2008 (the Purchase Agreement ) with ICP Internet Cash Payments B.V. for the purchase of ICP International Card Products B.V. The acquired business is now being operated in the Netherlands as FleetCor Technologieën B.V. In connection with the purchase, Lux 2 agreed to make deferred payments in the aggregate amount of 1,022,500 (\$1.5 million), of which two remaining payments are due and payable on June 6, 2010 and June 6, 2011 in the amount of 325,000 (\$0.47 million) each. The obligation to make such deferred payments is described in the Purchase Agreement, as modified by letter agreement dated August 11, 2008, and is not evidenced by a promissory note.

**Securitization facility**

We are a party to a receivables purchase agreement among FleetCor Funding LLC, as seller, PNC Bank, National Association as administrator, and the various purchaser agents, conduit purchasers and related committed purchasers parties thereto, which was amended and restated for the fourth time as of October 29, 2007 and which has been amended three times since then to add or remove purchasers and to extend the facility termination date, among other things. We refer to this arrangement as the securitization facility in this prospectus. The current purchase limit under the receivables purchase facility is \$500.0 million and the facility termination date is

---

**Table of Contents**

**Index to Financial Statements**

February 24, 2011. The receivables and related rights sold under the facility are expressly excluded from the collateral securing our 2005 Credit Facility and the sale of the receivables and related rights is expressly permitted under the covenants in the 2005 Credit Facility.

Under a related purchase and sale agreement dated as of December 20, 2004 and most recently amended on July 7, 2008, between FleetCor Funding LLC, as purchaser, and certain of our subsidiaries, as originators, the receivables generated by the originators are deemed to be sold to FleetCor Funding LLC immediately and without further action upon creation of such receivables. At the request of FleetCor Funding LLC, as seller, undivided percentage ownership interests in the receivables are ratably purchased by the purchasers in amounts not to exceed their respective commitments under the facility. Collections on receivables are required to be made pursuant to a written credit and collection policy and may be reinvested in other receivables, may be held in trust for the purchasers, or may be distributed. Under the securitization facility, FleetCor has been appointed and currently serves as the servicer on the facility, but following the occurrence of a termination event (as described below), a successor servicer may be designated by the administrator, with the consent of, or at the direction of, the majority purchaser agents. The servicer may delegate its duties to a sub-servicer. Fees are paid to each purchaser agent for the benefit of the purchasers and liquidity providers in the related purchaser group in accordance with the securitization facility and certain fee letter agreements.

The securitization facility provides for certain termination events, upon the occurrence of which the administrator may declare the facility termination date to have occurred, may exercise certain enforcement rights with respect to the receivables, and may appoint a successor servicer, among other things. Termination events include nonpayment, noncompliance with covenants, breaches of representations or warranties, failure to transfer rights as servicer to any successor servicer when required, failure of any purchase to be a valid and enforceable first priority perfected undivided percentage ownership or security interest free and clear of adverse claims, insolvency, inability to pay debts, default under any indebtedness in excess of \$10.0 million, the failure to maintain certain ratios related to defaults, delinquencies and dilution, change in control, the purchased interest exceeds 100% for two business days, the Internal Revenue Service or the Pension Benefit Guaranty Corporation files liens for amounts in excess of \$250,000 against our assets, failure to maintain a leverage ratio of not greater than 2.25 to 1 through December 31, 2010 and 2.00 to 1 for the periods thereafter (measured quarterly), failure to maintain an interest coverage ratio of not less than 4.00 to 1 (measured quarterly), failure to perform under the performance guaranty, or the making of capital expenditures in excess of \$16.0 million for domestic subsidiaries or \$6.0 million for foreign subsidiaries, among others. A change in control means (1) we cease to own, directly or indirectly, (a) 100% of the capital stock of FleetCor Funding LLC or (b) a majority of the capital stock of any of our subsidiary originators, in each case free and clear of all adverse claims as defined in the receivables purchase agreement and subject to certain exceptions, or (2) the occurrence of a change of control as defined in the 2005 Credit Facility (as described in 2005 Credit Facility ). As of March 31, 2010, we were in compliance with each of the covenants under our securitization facility.

**Table of Contents****Index to Financial Statements****Description of capital stock**

*The following description summarizes important terms of our capital stock. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description, you should refer to our amended and restated certificate of incorporation and amended and restated bylaws, forms of which have been filed as exhibits to the registration statement of which this prospectus is a part, as well as the relevant portions of the Delaware General Corporation Law, or DGCL. References to our certificate of incorporation and bylaws are to our amended and restated certificate of incorporation and our amended and restated bylaws, respectively, each of which will become effective upon completion of this offering.*

**Common stock**

*General.* As of the date of this prospectus, there are \_\_\_\_\_ shares of our common stock outstanding, par value \$0.001 per share, and approximately \_\_\_\_\_ stockholders of record. After this offering, our certificate of incorporation will authorize the issuance of \_\_\_\_\_ shares of our common stock, and there will be \_\_\_\_\_ shares of our common stock outstanding.

*Voting rights.* The holders of our common stock will be entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders, including the election of directors, and do not have cumulative voting rights. Unless otherwise required by law, matters submitted to a vote of our stockholders will require the approval of a majority of votes cast by stockholders represented in person or by proxy and entitled to vote on such matter, except that directors are elected by a plurality of votes cast. Accordingly, the holders of a majority of the shares of common stock entitled to vote in any election of directors will be able to elect all of the directors standing for election, if they so choose.

*Dividend rights.* Holders of common stock will be entitled to receive ratably dividends if, as and when dividends are declared from time to time by our board of directors out of funds legally available for that purpose subject to any preferential dividend rights of any then outstanding preferred stock. Our ability to pay dividends is limited by covenants in our credit facilities. See *Description of indebtedness* for restrictions on our ability to pay dividends.

*Other matters.* Upon our liquidation, dissolution or winding up, the holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities and subject to any other distribution rights granted to holders of any outstanding preferred stock. Holders of common stock will have no preemptive or conversion rights or other subscription rights, and no redemption or sinking fund provisions will be applicable to our common stock. All outstanding shares of common stock are, and the shares of common stock to be outstanding upon completion of this offering will be, fully paid and nonassessable.

**Preferred stock**

Our certificate of incorporation will permit our board of directors to issue up to \_\_\_\_\_ shares of preferred stock from time to time in one or more classes or series. The board also may fix the relative rights and preferences of those shares, including dividend rights, conversion rights, voting rights, redemption rights, terms of sinking funds, liquidation preferences and the number of shares constituting any class or series or the designation of the class or series. Terms selected by our board of directors in the future could decrease the amount of earnings and assets available for distribution to holders of common stock or adversely affect the rights and powers, including voting rights, of the holders of common stock without any further vote or action by the stockholders. As a result, the rights of holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any preferred stock that may be issued by us in the future, which could have the effect of decreasing the market price of our common stock.

**Table of Contents**

**Index to Financial Statements**

**Anti-takeover effects of provisions of our certificate of incorporation and bylaws and Delaware law**

The provisions of the Delaware General Corporation Law and our certificate of incorporation and bylaws could have the effect of discouraging others from attempting an unsolicited offer to acquire our company. Such provisions may also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

*Election and removal of directors.* Our board of directors will be divided into three classes with initial terms ending at our annual meetings of stockholders in 2011, 2012 and 2013, respectively. Following their initial terms, each class of directors will be elected for a three-year term. Our directors may be removed only by the affirmative vote of at least 66 2/3% of our then outstanding common stock and only for cause. For more information on the terms of our directors, see the section entitled "Management Board of directors and committees." This system of electing and removing directors generally makes it more difficult for stockholders to replace a majority of our directors.

*Authorized but unissued shares.* The authorized but unissued shares of our common stock and our preferred stock will be available for future issuance without any further vote or action by our stockholders. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of our common stock and our preferred stock could render more difficult or discourage an attempt to obtain control over us by means of a proxy contest, tender offer, merger or otherwise.

*Stockholder action; advance notification of stockholder nominations and proposals.* Our certificate of incorporation and bylaws require that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by a consent in writing. Our certificate of incorporation also requires that special meetings of stockholders be called only by a majority of our board of directors. In addition, our bylaws provide that candidates for director may be nominated and other business brought before an annual meeting only by the board of directors or by a stockholder who gives written notice to us no later than 90 days prior to nor earlier than 120 days prior to the first anniversary of the last annual meeting of stockholders. These provisions may have the effect of deterring unsolicited offers to acquire our company or delaying changes in control of our management, which could depress the market price of our common stock.

*Amendment of certain provisions in our organizational documents.* The amendment of any of the above provisions would require approval by holders of at least 66 2/3% of the voting power of all of the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class.

*No cumulative voting.* The DGCL provides that stockholders are not entitled to the right to cumulate votes in the election of directors unless our certificate of incorporation provides otherwise. Our certificate of incorporation will expressly prohibit cumulative voting.

*Delaware anti-takeover law.* Our certificate of incorporation provides that Section 203 of the DGCL, an anti-takeover law, will apply to us. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a "business combination" with an "interested stockholder" for a period of three years following the date the person became an interested stockholder, unless the "business combination" or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Generally, a "business

## **Table of Contents**

### **Index to Financial Statements**

combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. Generally, an interested stockholder is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own, 15% or more of a corporation's voting stock.

### **Limitation of liability and indemnification**

Our certificate of incorporation will provide that no director will be personally liable for monetary damages for breach of any fiduciary duty as a director, except with respect to liability:

for any breach of the director's duty of loyalty to us or our stockholders;

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

under Section 174 of the DGCL (governing distributions to stockholders); or

for any transaction from which the director derived any improper personal benefit.

If the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our amended and restated certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our bylaws will also provide that we will, to the fullest extent permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding or arising out of their status as an officer or director or their activities in these capacities. We will also indemnify any person who, at our request, is or was serving as a director, officer, employee, agent or trustee of another corporation or of a partnership, limited liability company, joint venture, trust or other enterprise. We may, by action of our board of directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers.

### **Registration rights**

Some of our stockholders have the right to require us to register common stock for resale in some circumstances. See [Certain Relationships and Related Transactions](#) Registration Rights Agreement.

### **Transfer agent and registrar**

The transfer agent and registrar for our common stock will be American Stock Transfer & Trust Company, LLC.

---

**Table of Contents**

**Index to Financial Statements**

## **Shares eligible for future sale**

Based upon the number of shares of our common stock outstanding as of \_\_\_\_\_, 2010, we will have \_\_\_\_\_ shares of common stock outstanding upon the closing of this offering. All of the shares of our common stock sold in this offering are freely tradable without restriction or further registration under the Securities Act of 1933, as amended, except for any such shares which may be held or acquired by our affiliates, as that term is defined in Rule 144 promulgated under the Securities Act of 1933, as amended, which shares will be subject to the volume limitations and other restrictions of Rule 144 described below. The remaining \_\_\_\_\_ shares of common stock will be restricted securities, as that term is defined in Rule 144. These restricted securities will be eligible for public sale only if they are registered under the Securities Act of 1933, as amended, or if they qualify for an exemption from registration under Rule 144.

### **Rule 144**

In general, under Rule 144 as in effect on the date of this prospectus, a person who is not one of our affiliates at any time during the three months preceding a sale, and who has beneficially owned shares of our common stock for at least six months, would be entitled to sell an unlimited number of shares of our common stock provided current public information about us is available and, after owning such shares for at least one year, would be entitled to sell an unlimited number of shares of our common stock without restriction. Our affiliates who have beneficially owned shares of our common stock for at least six months are entitled to sell within any three-month period a number of shares that does not exceed the greater of:

1% of the number of shares of our common stock then outstanding, which was equal to approximately \_\_\_\_\_ shares as of \_\_\_\_\_, 2010;  
or

the average weekly trading volume of our common stock on the New York Stock Exchange during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales under Rule 144 by our affiliates are also subject to manner of sale provisions and notice requirements and to the availability of current public information about us.

### **Options**

Following the date of this prospectus, we intend to file one or more registration statements on Form S-8 under the Securities Act of 1933, as amended to register the issuance of up to \_\_\_\_\_ shares of common stock under our stock plans. These registration statements will become effective upon filing. All of the \_\_\_\_\_ shares issued or to be issued upon the exercise of stock options or settlement of other awards under our stock plans are or will be eligible for resale in the public market without restrictions, subject to Rule 144 limitations applicable to affiliates and the lock-up agreements described below.

### **Registration rights**

Upon the closing of this offering, the holders of \_\_\_\_\_ shares of our common stock will be entitled to rights with respect to the registration of these shares under the Securities Act of 1933, as amended. Registration of these shares under the Securities Act of 1933, as amended, would result in these shares becoming freely tradable without restriction under the Securities Act of 1933, as amended, immediately upon the effectiveness of registration, except for shares purchased by affiliates. For more information, see [Certain Relationships and Related Transactions](#) Registration Rights.

**Table of Contents**

**Index to Financial Statements**

**Lock-up agreements**

Notwithstanding the foregoing, we, the selling stockholders and our directors and executive officers (collectively representing approximately shares or approximately % of our common stock outstanding immediately prior to the offering) have agreed with the underwriters, subject to limited exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the 180-day period after the date of this prospectus, subject to extensions in certain cases, without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co.

---

**Index to Financial Statements**

## **Certain United States federal tax consequences**

The following is a summary of certain U.S. federal income and estate tax consequences relevant to the purchase, ownership and disposition of our common stock. The following summary is based upon current provisions of the Internal Revenue Code of 1986, as amended, or the Code, Treasury regulations and judicial and administrative authority, all of which are subject to change, possibly with retroactive effect. State, local and foreign tax consequences are not summarized, nor are tax consequences to special classes of investors including, but not limited to, tax-exempt organizations, insurance companies, banks or other financial institutions, partnerships or other entities classified as partnerships for U.S. federal income tax purposes, dealers in securities, persons liable for the alternative minimum tax, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, persons who have acquired our common stock as compensation or otherwise in connection with the performance of services, persons that will hold our common stock as a position in a hedging transaction, straddle, conversion transaction or other risk reduction transaction, and U.S. holders (as defined below) whose functional currency is not the U.S. dollar. Tax consequences may vary depending upon the particular status of an investor. The summary is limited to taxpayers who will hold our common stock as capital assets (generally, property held for investment). Each potential investor should consult its own tax advisor as to the U.S. federal, state, local, foreign and any other tax consequences of the purchase, ownership and disposition of our common stock.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax consequences relating to an investment in our common stock will generally depend upon the status of the partner and the activities of the partnership. If you are treated as a partner in such an entity holding our common stock, you should consult your tax advisor as to the particular U.S. federal income and estate tax consequences applicable to you.

### **U.S. holders**

The discussion in this section is addressed to a holder of our common stock that is a U.S. holder for federal income tax purposes. You are a U.S. holder if you are a beneficial owner of our common stock that is for U.S. federal income tax purposes (i) a citizen or individual resident of the United States; (ii) a corporation (or other entity that is taxable as a corporation) created or organized in the United States or under the laws of the United States or of any State (or the District of Columbia); (iii) an estate if the income of such estate falls within the federal income tax jurisdiction of the United States regardless of the source of such income; or (iv) a trust (a) if a United States court is able to exercise primary supervision over its administration and one or more United States persons have the authority to control all of the substantial decisions of the trust, or (b) that has in effect a valid election under applicable Treasury regulations to be treated as a U.S. person.

### ***Distributions***

Distributions with respect to our common stock will be taxable as dividend income when paid to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. To the extent that the amount of a distribution with respect to our common stock exceeds our current and accumulated earnings and profits, such distribution will be treated first as a tax-free return of capital to the extent of the U.S. holder's adjusted tax basis in the common stock, and thereafter as a capital gain, which will be a long-term capital gain if the U.S. holder has held such stock at the time of the distribution for more than one year.

Distributions constituting dividend income received by an individual in respect of our common stock before January 1, 2011 are generally subject to taxation at a maximum rate of 15%, provided certain holding period

## **Table of Contents**

### **Index to Financial Statements**

requirements are satisfied. Distributions on our common stock constituting dividend income paid to U.S. holders that are U.S. corporations will generally qualify for the dividends received deduction, subject to various limitations.

#### ***Sale or redemption***

A U.S. holder will generally recognize capital gain or loss on a sale, exchange, redemption (other than a redemption that is treated as a distribution) or other disposition of our common stock equal to the difference between the amount realized upon the disposition and the U.S. holder's adjusted tax basis in the shares so disposed. Such capital gain or loss will be long-term capital gain or loss if the U.S. holder's holding period for the shares disposed of exceeds one year at the time of disposition. Long-term capital gains of non-corporate taxpayers are generally taxed at a lower maximum marginal tax rate than the maximum marginal tax rate applicable to ordinary income. The deductibility of net capital losses by individuals and corporations is subject to limitations.

#### ***Information reporting and backup withholding***

Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of common stock payable to a U.S. holder that is not an exempt recipient. Certain U.S. holders may be subject to backup withholding with respect to the payment of dividends on our common stock and to certain payments of proceeds on the sale or redemption of our common stock unless such U.S. holders provide proof of an applicable exemption or a correct taxpayer identification number, and otherwise comply with applicable requirements of the backup withholding rules.

Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules from a payment to a U.S. holder is allowable as a credit against such U.S. holder's U.S. federal income tax, which may entitle the U.S. holder to a refund, provided that the U.S. holder timely provides the required information to the IRS. Moreover, certain penalties may be imposed by the IRS on a U.S. holder who is required to furnish information but does not do so in the proper manner. U.S. holders should consult their tax advisors regarding the application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations.

#### ***New medicare tax***

On March 23, 2010, U.S. President Barack Obama signed into law the Patient Protection and Affordable Care Act. On March 30, 2010, President Obama signed into law a separate package of modifications (the Reconciliation Act). The Reconciliation Act imposes a 3.8% tax on certain types of income, including capital gains, dividends and interest. The tax applies to individuals meeting certain income thresholds during taxable years beginning after December 31, 2012. Prospective U.S. holders should consult their own tax advisors regarding these changes in the tax law.

### **Non-U.S. holders**

The discussion in this section is addressed to holders of our common stock that are non-U.S. holders. You are a non-U.S. holder if you are a beneficial owner of our common stock (other than an entity treated as a partnership) and not a U.S. holder for U.S. federal income tax purposes.

#### ***Distributions***

Generally, distributions treated as dividends as described above under U.S. Holders Distributions paid to a non-U.S. holder with respect to our common stock will be subject to a 30% U.S. withholding tax, or such lower

**Table of Contents**

**Index to Financial Statements**

rate as may be specified by an applicable income tax treaty. Distributions that are effectively connected with such non-U.S. holder's conduct of a trade or business in the United States (and, if a tax treaty applies, are attributable to a U.S. permanent establishment of such holder) are generally subject to U.S. federal income tax on a net income basis and are exempt from the 30% withholding tax (assuming compliance with certain certification requirements). Any such effectively connected distributions received by a non-U.S. holder that is a corporation may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or such lower rate as may be applicable under an income tax treaty.

For purposes of obtaining a reduced rate of withholding under an income tax treaty, a non-U.S. holder will generally be required to provide a U.S. taxpayer identification number as well as certain information concerning the holder's country of residence and entitlement to tax treaty benefits. A non-U.S. holder can generally meet the certification requirement by providing a properly executed IRS Form W-8BEN (if the holder is claiming the benefits of an income tax treaty) or Form W-8ECI (if the dividends are effectively connected with a trade or business in the United States) or suitable substitute form.

***Sale or redemption***

A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on gain realized on the sale, exchange or other disposition (other than a redemption, which may be subject to withholding tax or certification requirements under certain circumstances) of our common stock unless (i) the non-U.S. holder is a non-resident alien individual present in the United States for 183 or more days in the taxable year of the sale or disposition and certain other conditions are met, or (ii) the gain is effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States (and, if an income tax treaty applies, is attributable to a U.S. permanent establishment maintained by such non-U.S. holder).

***Federal estate tax***

Common stock owned or treated as owned by an individual who is not a citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore may be subject to U.S. federal estate tax. The status of the U.S. federal estate tax is uncertain as of the time of this writing. You should consult your own tax advisor as to the U.S. federal estate tax consequences of the ownership of our common stock.

***Information reporting and backup withholding***

Payment of dividends, and the tax withheld with respect thereto, is subject to information reporting requirements. These information reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable income tax treaty. Under the provisions of an applicable income tax treaty or agreement, copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides. U.S. backup withholding will generally apply on payment of dividends to non-U.S. holders unless such non-U.S. holders furnish to the payor a Form W-8BEN (or other applicable form), or otherwise establish an exemption and the payor does not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code, that is not an exempt recipient.

Payment of the proceeds of a sale of our common stock within the United States or conducted through certain U.S.-related financial intermediaries is subject to information reporting and, depending on the circumstances, backup withholding, unless the non-U.S. holder, or beneficial owner thereof, as applicable, certifies that it is a

**Table of Contents**

**Index to Financial Statements**

non-U.S. holder on Form W-8BEN (or other applicable form), or otherwise establishes an exemption and the payor does not have actual knowledge or reason to know the holder is a U.S. person, as defined under the Code, that is not an exempt recipient.

Backup withholding is not an additional tax. Any amount withheld under the backup withholding rules from a payment to a non-U.S. holder is allowable as a credit against such non-U.S. holder's U.S. federal income tax, which may entitle the non-U.S. holder to a refund, provided that the non-U.S. holder timely provides the required information to the IRS. Moreover, certain penalties may be imposed by the IRS on a non-U.S. holder who is required to furnish information but does not do so in the proper manner. Non-U.S. holders should consult their tax advisors regarding the application of backup withholding in their particular circumstances and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury regulations.

***New reporting requirements***

On March 18, 2010, President Obama signed into law the Hiring Incentives to Restore Employment Act (the Act). The Act imposes a 30% withholding tax on certain withholdable payments, including dividends and proceeds from the sale of stock, made to foreign financial institutions and non-financial foreign entities that do not satisfy substantial new reporting requirements. The Act generally applies to payments made after December 31, 2012.

Generally, a foreign financial institution will satisfy these new reporting requirements by entering into an agreement with the U.S. Treasury to report the identities, account balances, and account transaction activity with respect to its U.S. accounts. A foreign financial institution must also agree to comply with any request by the U.S. Treasury for additional information relating to such accounts and any withholdable payments it receives. Generally, a non-financial foreign entity satisfies its reporting requirements by providing the withholding agent with either (i) a certification that it does not have any direct or indirect substantial U.S. owners or (ii) the name, address, and tax identification number of each of its substantial U.S. owners. Certain foreign entities, including publicly traded foreign corporations and foreign governments, are excluded from the new reporting requirements. Prospective non-U.S. holders should consult their own tax advisors regarding these changes in the tax law.

**Table of Contents****Index to Financial Statements**

## Underwriting

We and the selling stockholders are offering the shares of common stock described in this prospectus through a number of underwriters. J.P. Morgan Securities Inc. and Goldman, Sachs & Co. are acting as joint book-running managers of the offering and as representatives of the underwriters. Barclays Capital Inc. and Morgan Stanley & Co. Incorporated are also acting as joint book-running managers of the offering. We and the selling stockholders have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement among us, the selling stockholders and the underwriters, we and the selling stockholders have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus, the number of shares of our common stock listed next to its name in the following table:

| Name                              | Number<br>of shares |
|-----------------------------------|---------------------|
| J.P. Morgan Securities Inc.       |                     |
| Goldman, Sachs & Co.              |                     |
| Barclays Capital Inc.             |                     |
| Morgan Stanley & Co. Incorporated |                     |
| PNC Capital Markets LLC           |                     |
| Raymond James & Associates, Inc.  |                     |
| Wells Fargo Securities, LLC       |                     |
| <b>Total</b>                      |                     |

The underwriters are committed to purchase all the shares of our common stock offered by us and the selling stockholders if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may also be increased or the offering may be terminated.

The underwriters propose to offer the common stock directly to the public at the initial public offering price set forth on the cover page of this prospectus and to certain dealers at that price less a concession not in excess of \$ \_\_\_\_\_ per share. Any such dealers may resell shares to certain other brokers or dealers at a discount of up to \$ \_\_\_\_\_ per share from the initial public offering price. After the initial public offering of the shares, the offering price and other selling terms may be changed by the underwriters. Sales of shares made outside the United States may be made by affiliates of the underwriters. The representatives have advised us that the underwriters do not intend to confirm discretionary sales in excess of 5% of the common stock offered in this offering. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The underwriters have an option to buy up to \_\_\_\_\_ additional shares of our common stock from the selling stockholders to cover over-allotments, if any. The underwriters have 30 days from the date of this prospectus to exercise this over-allotment option. If any shares are purchased with this over-allotment option, the underwriters will purchase shares in approximately the same proportion as shown in the table above. If any additional shares of our common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

**Table of Contents**

**Index to Financial Statements**

The underwriting fee is equal to the public offering price per share of our common stock less the amount paid by the underwriters to us and the selling stockholders per share of our common stock. The underwriting fee is \$ per share. The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

|   | <b>Without<br/>over-<br/>allotment</b> | <b>Per share<br/>With<br/>over-<br/>allotment</b> | <b>Without<br/>over-<br/>allotment</b> | <b>Total<br/>With<br/>over-<br/>allotment</b> |
|---|--|---|--|---|
| Underwriting discounts and commissions paid by us                   |  |   |  |   |
| Underwriting discounts and commissions paid by selling stockholders |  |   |  |   |

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts and commissions, will be approximately \$ , and will be paid by us.

A prospectus in electronic format may be made available on the websites maintained by one or more underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters and selling group members that may make Internet distributions on the same basis as other allocations.

For a period of 180 days after the date of this prospectus, we have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or any securities convertible into or exercisable or exchangeable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of any of the shares of our common stock or any such other securities, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of shares of our common stock or such other securities, in cash or otherwise, without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co., other than the shares of our common stock to be sold hereunder and any shares of our common stock issued upon the exercise of options granted under our stock-based compensation plans. Notwithstanding the foregoing, if (1) during the last 17 days of the 180-day restricted period, we issue an earnings release or material news or a material event relating to our company occurs; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 180-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

Before the sale of any shares to be sold in this offering, our directors and executive officers, and our existing stockholders (subject to certain exceptions), have entered into lock-up agreements with the underwriters pursuant to which each of these persons or entities, with limited exceptions, for a period of 180 days after the date of this prospectus, may not, without the prior written consent of J.P. Morgan Securities Inc. and Goldman, Sachs & Co., (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for common stock (including without limitation, common stock or such other securities which may be deemed to be beneficially owned by such directors, executive officers and existing stockholders in accordance with the rules and

**Table of Contents****Index to Financial Statements**

regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant), or publicly disclose the intention to make any offer, sale, pledge or disposition, (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of our common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of our common stock or such other securities, in cash or otherwise or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock, in each case other than (A) the securities to be sold by such directors, executive officers and existing stockholders pursuant to the underwriting agreement, (B) transfers of shares of our common stock or any security, directly or indirectly, convertible into common stock as a bona fide gift or gifts, (C) distributions of shares of our common stock or any security, directly or indirectly, convertible into common stock to limited or general partners, members, stockholders or affiliates (as defined under Rule 12b-2 of the Exchange Act) of such directors, executive officers and existing stockholders, as applicable, (D) transfers to immediate family members, trusts for the benefit of such directors, executive officers and existing stockholders or immediate family members of such directors, executive officers and existing stockholders, or limited partnerships the partners of which are such directors, executive officers and existing stockholders and/or immediate family members of such directors, executive officers and existing stockholders, in each case, for estate planning purposes, (E) transfers of shares of common stock by will or intestacy and (F) transfers of shares of common stock or any security, directly or indirectly, convertible into common stock to the affiliates of such directors, executive officers and existing stockholders or to any investment fund or other entity controlled or managed by such directors, executive officers and existing stockholders; *provided* that in the case of any transfer or distribution pursuant to clauses (B) (except in the case of a transfer by such directors, executive officers and existing stockholders on the date of the underwriting agreement to the charitable organizations scheduled in the underwriting agreement, so long as any such shares of common stock or any shares of common stock resulting from the conversion, exercise or exchange of any other such securities convertible into or exercisable or exchangeable for common stock are sold by such charitable organizations as part of the public offering pursuant to the underwriting agreement (such transfer, a permitted donation)), (C) (except in the case of a distribution to facilitate a permitted donation), (D), (E) or (F) (except in the case of a transfer to facilitate a permitted donation), each donee, distributee or transferee shall execute and deliver to the representatives a lock-up letter in the form of this paragraph; and *provided, further* that in the case of any transfer or distribution pursuant to clause (B), (C), (D) and (F), no filing by any party (donor, donee, transferor or transferee) under the Exchange Act or other public announcement (except for any public announcement of a permitted donation made in the prospectus) shall be required or shall be made voluntarily in connection with such transfer or distribution (other than a filing on a Form 5 made after the expiration of the lock-up period). For purposes of the lock-up agreement, immediate family shall mean any relationship by blood, marriage or adoption, not more remote than a first cousin. Notwithstanding the foregoing, such directors, executive officers and existing stockholders may (1) transfer shares of our common stock purchased by such directors, executive officers and existing stockholders on the open market following the public offering if and only if (i) no filing by any party (donor, donee, transferor or transferee) under the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such transfer or distribution (other than a filing on a Form 5 made after the expiration of the lock-up period), (2) conduct a net or cashless exercise of options to acquire shares of our common stock in accordance with their terms, provided that any common stock received upon such exercise shall be subject to the restrictions contained in the lock-up agreement, (3) forfeit shares of restricted common stock that vest during the lock-up period to us only to satisfy tax withholding requirements, and (4) enter into a sales plan in accordance with Rule 10b5-1 promulgated under the Exchange Act if permitted by us, *provided* that no sales may be made pursuant to such plan until the expiration of the lock-up period. Further notwithstanding, if (1) during the last 17 days of the 180-day restricted period, the Company issues an earnings release or material news or a material event relating to the Company occurs; or (2) prior to the expiration of the 180-day restricted period, the Company announces that it will release earnings results during the

**Table of Contents**

**Index to Financial Statements**

16-day period beginning on the last day of the 180-day period, the restrictions imposed by this Letter Agreement shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event. Further notwithstanding, if (1) during the last 17 days of the 180-day restricted period, we issue an earnings release or material news or a material event relating to our company occurs; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 180-day period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

In connection with this offering, the underwriters may engage in stabilizing transactions, which involve making bids for, purchasing and selling shares of our common stock in the open market for the purpose of preventing or retarding a decline in the market price of our common stock while this offering is in progress. These stabilizing transactions may include making short sales of our common stock, which involve the sale by the underwriters of a greater number of shares of our common stock than they are required to purchase in this offering, and purchasing shares of our common stock in the open market to cover positions created by short sales. Short sales may be covered shorts, which are short positions in an amount not greater than the underwriters' over-allotment option referred to above, or may be naked shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their over-allotment option, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriters will consider, among other things, the price of shares available for purchase in the open market compared to the price at which the underwriters may purchase shares through the over-allotment option. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market that could adversely affect investors who purchase shares in this offering. To the extent that the underwriters create a naked short position, they will purchase shares in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of our common stock, including the imposition of penalty bids. This means that, if the representatives of the underwriters purchase our common stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock, and, as a result, the price of our common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise.

Prior to this offering, there has been no public market for our common stock. The initial public offering price will be determined by negotiations between us, the selling stockholders and the representatives of the underwriters. In determining the initial public offering price, we and the representatives of the underwriters expect to consider a number of factors including:

the information set forth in this prospectus and otherwise available to the representatives;

our prospects and the history and prospects for the industry in which we compete;

an assessment of our management;

**Table of Contents**

**Index to Financial Statements**

our prospects for future earnings;

the general condition of the securities markets at the time of this offering;

the recent market prices of, and demand for, publicly traded common stock of generally comparable companies; and

other factors deemed relevant by the underwriters and us.

Neither we nor the underwriters can assure investors that an active trading market will develop for our common stock, or that the shares will trade in the public market at or above the initial public offering price.

Other than in the United States, no action has been taken by us or the underwriters that would permit a public offering of the securities offered by this prospectus in any jurisdiction where action for that purpose is required. The securities offered by this prospectus may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such securities be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. Persons into whose possession this prospectus comes are advised to inform themselves about and to observe any restrictions relating to the offering and the distribution of this prospectus. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any securities offered by this prospectus in any jurisdiction in which such an offer or a solicitation is unlawful.

This document is only being distributed to and is only directed at (i) persons who are outside the United Kingdom or (ii) to investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (iii) high net worth entities, and other persons to whom it may lawfully be communicated, falling with Article 49(2)(a) to (d) of the Order (all such persons together being referred to as "relevant persons"). The securities are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such securities will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this document or any of its contents.

In relation to each Member State of the European Economic Area that has implemented the Prospectus Directive (each, a "Relevant Member State"), from and including the date on which the European Union Prospectus Directive (the "EU Prospectus Directive") is implemented in that Relevant Member State (the "Relevant Implementation Date"), an offer of securities described in this prospectus may not be made to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares that has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the EU Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

to legal entities that are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;

to fewer than 100 natural or legal persons (other than qualified investors as defined in the EU Prospectus Directive) subject to obtaining the prior consent of the book-running managers for any such offer; or

in any other circumstances that do not require the publication by the issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

**Index to Financial Statements**

For the purposes of this provision, the expression an offer of securities to the public in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the same may be varied in that Member State by any measure implementing the EU Prospectus Directive in that Relevant Member State and the expression EU Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the shares under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and

their affiliates have provided in the past to us and our affiliates and may provide from time to time in the future certain commercial banking, financial advisory, investment banking and other services to us and those affiliates in the ordinary course of their business, for which they have received and may continue to receive customary fees and commissions. In particular, J.P. Morgan Securities Inc. is the lead arranger and sole bookrunner under our 2005 Credit Facility and an affiliate of J.P. Morgan Securities Inc. is the administrative agent, collateral agent and a lender under our 2005 Credit Facility and affiliates of J.P. Morgan Securities Inc., Goldman, Sachs & Co., Barclays Capital Inc., Morgan Stanley & Co. Incorporated, PNC Capital Markets LLC, Raymond James & Associates, Inc. and Wells Fargo Securities, LLC have provided commitments for an additional tranche of revolving loans under the 2005 Credit Facility. In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the accounts of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the issuer.

## Report of independent registered public accounting firm

The Board of Directors and Stockholders of FleetCor Technologies, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of FleetCor Technologies, Inc. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, stockholders' equity and comprehensive income (loss), and cash flows for each of the three years in the period ended December 31, 2009. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of FleetCor Technologies, Inc. and subsidiaries at December 31, 2009 and 2008, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, in 2009 the Company retrospectively adopted Financial Accounting Standard Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (codified in FASB Accounting Standards Codification ASC 740, *Income Taxes*).
