**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES**

**Notes to Condensed Consolidated Financial Statements**

**(Unaudited)**

**(In thousands, except share and per share amounts, unless otherwise indicated)**

**Note 1 Basis of Presentation:**

The accompanying unaudited Condensed Consolidated Financial Statements of RTI International Metals, Inc. and its subsidiaries (the Company or RTI) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. In the opinion of management, these financial statements contain all of the adjustments of a normal and recurring nature considered necessary to state fairly the results for the interim periods presented. The results for the interim periods are not necessarily indicative of the results to be expected for the year.

The balance sheet at December 31, 2010 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these Condensed Consolidated Financial Statements be read in conjunction with accounting policies and Notes to the Consolidated Financial Statements included in the Company's 2010 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the SEC) on March 1, 2011.

**Note 2 Organization:**

The Company is a leading producer and global supplier of titanium mill products and a manufacturer of fabricated titanium and specialty metal components for the international aerospace, defense, energy, and industrial and consumer markets. It is a successor to entities that have been operating in the titanium industry since 1951. The Company first became publicly traded on the New York Stock Exchange in 1990 under the name RMI Titanium Co. and the symbol RTI, and was reorganized into a holding company structure in 1998 under the name RTI International Metals, Inc.

The Company conducts business in three segments: the Titanium Group, the Fabrication Group, and the Distribution Group.

The Titanium Group melts, processes, and produces a complete range of titanium mill products which are further processed by its customers for use in a variety of commercial aerospace, defense, and industrial and consumer applications. With operations in Niles, Ohio; Canton, Ohio; and Hermitage, Pennsylvania; and a new facility under construction in Martinsville, Virginia, the Titanium Group has overall responsibility for the production of primary mill products including, but not limited to, bloom, billet, sheet, and plate. In addition, the Titanium Group produces ferro titanium alloys for its steel-making customers. The Titanium Group also focuses on the research and development of evolving technologies relating to raw materials, melting, and other production processes, and the application of titanium in new markets.

The Fabrication Group is comprised of companies with significant hard-metal expertise that extrude, fabricate, machine, and assemble titanium and other specialty metal parts and components. Its products, many of which are complex engineered parts and assemblies, serve commercial aerospace, defense, oil and gas, power generation, medical device, and chemical process industries, as well as a number of other industrial and consumer markets. With operations located in Houston, Texas; Washington, Missouri; Laval, Canada; and a representative office in China, the Fabrication Group provides value-added products and services such as engineered tubulars and extrusions, fabricated and machined components and sub-assemblies, as well as engineered systems for deepwater oil and gas exploration and production infrastructure.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The Distribution Group stocks, distributes, finishes, cuts-to-size, and facilitates just-in-time delivery services of titanium, steel, and other specialty metal products, primarily nickel-based specialty alloys. With operations in Garden Grove, California; Windsor, Connecticut; Sullivan, Missouri; Staffordshire, England; and Rosny-Sur-Seine, France; the Distribution Group is in close proximity to its wide variety of commercial aerospace, defense, and industrial and consumer customers.

Both the Fabrication Group and the Distribution Group utilize the Titanium Group as their primary source of titanium mill products.

**Note 3 Stock-Based Compensation:****Stock Options**

A summary of the status of the Company's stock options as of September 30, 2011, and the activity during the nine months then ended, is presented below:

<b>Stock Options</b>	<b>Options</b>
Outstanding at December 31, 2010	497,686
Granted	86,048
Forfeited	(1,801)
Expired	(5,199)
Exercised	(7,337)
Outstanding at September 30, 2011	569,397
Exercisable at September 30, 2011	366,962

The fair value of stock options granted was estimated at the date of grant using the Black-Scholes option-pricing model based upon the assumptions noted in the following table:

	<b>2011</b>
Risk-free interest rate	1.92%
Expected dividend yield	0.00%
Expected lives (in years)	4.0
Expected volatility	67.00%

The weighted-average grant date fair value of stock option awards granted during the nine months ended September 30, 2011 was \$14.70.

**Restricted Stock**

A summary of the status of the Company's nonvested restricted stock as of September 30, 2011, and the activity during the nine months then ended, is presented below:

<b>Nonvested Restricted Stock Awards</b>	<b>Shares</b>
Nonvested at December 31, 2010	154,289
Granted	64,569
Vested	(54,857)
Forfeited	(2,000)

Nonvested at September 30, 2011

162,001

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The fair value of restricted stock grants was calculated using the market value of the Company's Common Stock on the date of issuance. The weighted-average grant date fair value of restricted stock awards granted during the nine months ended September 30, 2011 was \$29.14.

***Performance Share Awards***

A summary of the Company's performance share award activity during the nine months ended September 30, 2011 is presented below:

<b>Performance Share Awards</b>	<b>Awards Activity</b>	<b>Maximum Shares Eligible to Receive</b>
Outstanding at December 31, 2010	113,430	226,860
Granted	52,341	104,682
Forfeited	(2,500)	(5,000)
Outstanding at September 30, 2011	163,271	326,542

The fair value of the performance share awards granted was estimated by the Company at the grant date using a Monte Carlo model. The weighted-average grant-date fair value of performance shares awarded during the nine months ended September 30, 2011 was \$43.68.

**Note 4 Income Taxes:**

Management estimates the annual effective income tax rate quarterly, based on current annual forecasted results. Items unrelated to current year ordinary income are recognized entirely in the period identified as a discrete item of tax. The quarterly income tax provision is comprised of tax on ordinary income provided at the most recent estimated annual effective tax rate, increased or decreased for the tax effect of discrete items.

For the nine months ended September 30, 2011, the estimated annual effective tax rate applied to ordinary income was 32.8% compared to a rate of 62.4% for the nine months ended September 30, 2010. Because of the low level of expected 2010 pretax income, the rate for the nine months ended September 30, 2010 was based on the amount of tax expense associated with actual results for the nine-month period rather than an effective tax rate estimated for the entire year. Nevertheless, the effective tax rate in each year results from the mix of foreign losses benefited at lower rates and domestic income taxed at higher rates. Although these factors are present in both 2011 and 2010, the differing mix of foreign losses and domestic income between the periods has a substantial influence on the tax rates for each respective period.

Inclusive of discrete items, the Company recognized a provision for income taxes of \$4.6 million, or 41.3% of pretax income, for federal, state, and foreign income taxes for the nine months ended September 30, 2011. Discrete items for the current year to date period were \$0.9 million. They were principally due to normal adjustments for tax returns filed during the period and the reversal of tax benefits associated with the manufacturing deduction, which was reduced when the 2010 net operating loss was carried back to obtain a refund of 2008 federal tax payments. The tax provision for federal, state, and foreign income taxes for the nine months ended September 30, 2010 was \$6.1 million, or 55.5% of pretax income, which included a \$0.8 million benefit comprised of a \$1.6 million charge associated with repeal of the Medicare Part D subsidy contained in healthcare legislation enacted during the first quarter of 2010, with the remainder associated with the effective settlement of an income tax examination and other immaterial items.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)****Note 5 Earnings Per Share:**

Basic earnings per share was computed by dividing net income by the weighted-average number of shares of Common Stock outstanding for each respective period. Diluted earnings per share was calculated by dividing net income by the weighted-average of all potentially dilutive shares of Common Stock that were outstanding during the periods presented.

At September 30, 2011, the Company had \$230 million aggregate principal amount of 3.0% Convertible Senior Notes due 2015 (the Notes) outstanding. Under the Financial Accounting Standards Board's (the FASB) authoritative guidance, earnings per share for convertible notes with an optional net share settlement provision is calculated under the If Converted method. For the three and nine months ended September 30, 2011, diluted earnings per share was calculated by including both cash and non-cash interest expense related to the Notes and excluding the shares underlying the Notes in accordance with the If Converted method.

Actual weighted-average shares of Common Stock outstanding used in the calculation of basic and diluted earnings per share for the three and nine months ended September 30, 2011 and 2010 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
<b>Numerator:</b>				
Net income (loss)	\$ 2,067	\$ (16,775)	\$ 6,537	\$ 4,862
<b>Denominator:</b>				
Basic weighted-average shares outstanding	30,025,607	29,933,615	30,013,464	29,901,657
Effect of diluted securities	225,804		264,992	241,374
Diluted weighted-average shares outstanding	30,251,411	29,933,615	30,278,456	30,143,031
<b>Earnings (loss) per share:</b>				
Basic	\$ 0.07	\$ (0.56)	\$ 0.22	\$ 0.16
Diluted	\$ 0.07	\$ (0.56)	\$ 0.22	\$ 0.16

For the three and nine months ended September 30, 2011, options to purchase 257,804 and 250,309 shares of Common Stock, at an average price of \$47.41 and \$48.08, respectively, were excluded from the calculation of diluted earnings per share because their effects were antidilutive. For the three and nine months ended September 30, 2010, options to purchase 546,240 and 269,746 shares of Common Stock, at an average price of \$30.72 and \$46.92, respectively, were excluded from the calculation of diluted earnings per share because their effects were antidilutive.

**Note 6 Cash, cash equivalents, short-term investments, and marketable securities:****Cash and cash equivalents**

The Company considers all highly-liquid investments with an original maturity of three months or less to be cash equivalents. Cash equivalents principally consist of investments in short-term money market funds and corporate commercial paper.

**Available-for-sale securities**

Investments in marketable securities that are being held for an indefinite period are classified as available-for-sale and are recorded at fair value based on market quotes using the specific identification method, with unrealized gains and losses recorded as a component of accumulated other

comprehensive income until

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

realized. Realized gains and losses from the sale of available-for-sale securities, if any, are determined on a specific identification basis. The Company considers these investments to be available-for-sale as they may be sold to fund other investment opportunities as they arise.

The major categories of the Company's cash equivalents and marketable securities are as follows:

***Money market mutual funds***

The Company invests in money market mutual funds that seek to maintain a stable net asset value of \$1.00, while limiting overall exposure to credit, market, and liquidity risks.

***Commercial paper***

The Company invests in high-quality commercial paper issued by highly-rated corporations. By definition, the stated maturity on commercial paper obligations cannot exceed 270 days.

***Short-term municipal bond fund***

The dividends received by the Company are not taxable for U.S. Federal income tax purposes. The fund invests in municipal bonds that are near their maturity.

***Corporate notes and bonds***

The Company evaluates its corporate debt securities based upon a variety of factors including, but not limited to, the credit rating of the issuer. All of the Company's corporate debt securities are rated as investment grade by the major rating agencies.

***U.S. government agencies***

These U.S. government guaranteed debt securities are rated as investment grade by the major rating agencies and are publicly traded and valued.

Cash, cash equivalents, short-term investments, and marketable securities consist of the following:

	September 30, 2011	December 31, 2010
Cash and cash equivalents:		
Cash	\$ 17,114	\$ 31,795
Cash equivalents:		
Commercial paper	7,998	
Money market mutual funds	164,629	345,156
Total cash and cash equivalents	189,741	376,951
Short-term investments and marketable securities:		
Short-term municipal bond fund	20,520	20,275
Commercial paper	13,971	

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

Corporate notes and bonds	118,421	
U.S. government agencies	13,154	
Total short-term investments and marketable securities	166,066	20,275
Total cash, cash equivalents, short-term investments, and marketable securities	\$ 355,807	\$ 397,226

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

The Company's investments at September 30, 2011 and December 31, 2010 were as follows:

	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
<b>As of September 30, 2011:</b>				
Short-term municipal bond fund	\$ 20,436	\$ 84	\$	\$ 20,520
Commercial paper	13,988		17	13,971
Corporate notes and bonds	118,535	70	184	118,421
U.S. government agencies	13,156	2	4	13,154
<b>Total</b>	<b>\$ 166,115</b>	<b>\$ 156</b>	<b>\$ 205</b>	<b>\$ 166,066</b>
<b>As of December 31, 2010:</b>				
Short-term municipal bond fund	\$ 20,233	\$ 42	\$	\$ 20,275
<b>Total</b>	<b>\$ 20,233</b>	<b>\$ 42</b>	<b>\$</b>	<b>\$ 20,275</b>

The Company typically purchases its available-for-sale debt securities at a premium or discount. The premium or discount is amortized over the remaining term of each security using the interest method. Amortization is recorded as either a decrease to interest income for premiums or an increase to interest income for discounts. For the three and nine months ended September 30, 2011, net amortization of premiums and discounts resulted in reductions to interest income of \$842 and \$1,595, respectively.

Available-for-sale investments at September 30, 2011 had contractual maturities as follows:

	Due within 1 year	Due within 2 years	Total
Short-term municipal bond fund	\$ 20,520	\$	\$ 20,520
Commercial paper	13,971		13,971
Corporate notes and bonds	42,096	76,325	118,421
U.S. government agencies		13,154	13,154
<b>Total</b>	<b>\$ 76,587</b>	<b>\$ 89,479</b>	<b>\$ 166,066</b>

The Company classifies investments maturing within one year as short-term investments. Investments maturing in excess of one year are classified as noncurrent.

As of September 30, 2011, no investments classified as available-for-sale have been in a continuous unrealized loss position for greater than twelve months. The Company believes that the unrealized losses on the available-for-sale portfolio as of September 30, 2011 are temporary in nature and are related to market interest rate fluctuations and not indicative of a deterioration in the creditworthiness of the issuers.

**Note 7 Fair Value Measurements:**

For certain of the Company's financial instruments and account groupings, including cash and cash equivalents, accounts receivable, accounts payable, accrued wages and other employee costs, unearned revenue, and other accrued liabilities, the carrying value approximates the fair value of these instruments and groupings.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

Listed below are the Company's assets and liabilities, and their respective fair values, that are measured at fair value on a recurring basis. For the Company's short-term investments and marketable securities, fair value was determined based on the closing price reported on the active market on which the individual securities are traded. There were no transfers between levels during the nine months ended September 30, 2011.

	Quoted Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
As of September 30, 2011:				
Short-term investments:				
Short-term municipal bond fund	\$ 20,520	\$	\$	\$ 20,520
Commercial paper	13,971			13,971
Corporate notes and bonds	42,096			42,096
Marketable securities:				
Corporate notes and bonds	76,325			76,325
U.S. government agencies	13,154			13,154
<b>Total</b>	<b>\$ 166,066</b>	<b>\$</b>	<b>\$</b>	<b>\$ 166,066</b>
As of December 31, 2010:				
Short-term investments:				
Short-term municipal bond fund	\$ 20,275	\$	\$	\$ 20,275
<b>Total</b>	<b>\$ 20,275</b>	<b>\$</b>	<b>\$</b>	<b>\$ 20,275</b>

As of September 30, 2011, the Company did not have any financial assets or liabilities that were measured at fair value on a non-recurring basis.

The carrying amounts and fair values of financial instruments for which the fair value option was not elected were as follows:

	September 30, 2011		December 31, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 189,741	\$ 189,741	\$ 376,951	\$ 376,951
Long-term debt	\$ 184,695	\$ 232,300	\$ 178,107	\$ 239,533

The fair value of long-term debt was estimated based on the quoted market price for the debt.

**Note 8 Receivables:**

Receivables are carried at net realizable value. Estimates are made as to the Company's ability to collect outstanding receivables, taking into consideration the amount, the customer's financial condition, and the age of the receivable. The Company ascertains the net realizable value of amounts owed and provides an allowance when collection becomes doubtful. Receivables are expected to be collected in the normal course of business and consisted of the following:

	September 30, 2011	December 31, 2010
Trade and commercial customers	\$ 88,661	\$ 56,713

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

Less: Allowance for doubtful accounts	(778)	(478)
Total receivables	\$ 87,883	\$ 56,235

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)****Note 9 Inventories:**

Inventories are valued at cost as determined by the last-in, first-out ( LIFO ) method for approximately 61% and 63% of the Company's inventories at September 30, 2011 and December 31, 2010, respectively. The remaining inventories are valued at cost determined by a combination of the first-in, first-out ( FIFO ) and weighted-average cost methods. Inventory costs generally include materials, labor, and manufacturing overhead (including depreciation). When market conditions indicate an excess of carrying cost over market value, a lower-of-cost-or-market provision is recorded. Inventories consisted of the following:

	September 30, 2011	December 31, 2010
Raw materials and supplies	\$ 79,031	\$ 118,031
Work-in-process and finished goods	240,994	211,001
LIFO reserve	(62,976)	(59,313)
Total inventories	\$ 257,049	\$ 269,719

As of September 30, 2011 and December 31, 2010, the current cost of inventories exceeded their carrying value by \$62,976 and \$59,313, respectively. The Company's FIFO inventory value is used to approximate current costs.

**Note 10 Goodwill and Other Intangible Assets:**

The Company does not amortize goodwill; however, the carrying amount of goodwill is tested, at least annually, for impairment. Absent any events throughout the year which would indicate a potential impairment has occurred, the Company performs its annual impairment testing during the fourth quarter.

While there have been no impairments during the first nine months of 2011, uncertainties or other factors that could result in a potential impairment in future periods include continued long-term production delays or a significant decrease in expected demand related to the Boeing 787 Dreamliner® program, as well as any cancellation of one of the other major aerospace programs the Company currently supplies, including the Joint Strike Fighter program or the Airbus family of aircraft, including the A380 and A350XWB programs. In addition, the Company's ability to ramp up its production of these programs in a cost efficient manner may also impact the results of a future impairment test.

*Goodwill.* The carrying amount of goodwill attributable to each segment at December 31, 2010 and September 30, 2011 was as follows:

	Titanium Group	Fabrication Group	Distribution Group	Total
December 31, 2010	\$ 2,548	\$ 29,414	\$ 9,833	\$ 41,795
Translation adjustment		(490)		(490)
September 30, 2011	\$ 2,548	\$ 28,924	\$ 9,833	\$ 41,305

*Intangibles.* Intangible assets consist of customer relationships as a result of the Company's prior acquisitions. These finite-lived intangible assets, which were initially valued at fair value using an income approach, are being amortized over 20 years. In the event that long-term demand or market conditions change and the expected future cash flows associated with these assets is reduced, a write-down or acceleration of the amortization period may be required.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

There were no intangible assets attributable to either the Titanium Group or Distribution Group at December 31, 2010 and September 30, 2011. The carrying amount of intangible assets attributable to our Fabrication Group at December 31, 2010 and September 30, 2011 was as follows:

	December 31, 2010	Amortization	Translation Adjustment	September 30, 2011
Fabrication Group	\$ 14,066	\$ (787)	\$ (450)	\$ 12,829

**Note 11 Unearned Revenue:**

The Company reported a liability for unearned revenue of \$18,234 and \$28,358 as of September 30, 2011 and December 31, 2010, respectively. These amounts primarily represent payments received in advance from commercial aerospace, defense, and energy market customers on long-term orders, which the Company has not recognized as revenues.

**Note 12 Long-term Debt:**

Long-term debt consisted of:

	September 30, 2011	December 31, 2010
\$230 million aggregate principal amount 3.0% convertible notes due December 2015	\$ 184,675	\$ 178,062
Other	20	45
<b>Total debt</b>	<b>\$ 184,695</b>	<b>\$ 178,107</b>

During the three and nine months ended September 30, 2011, the Company recorded long-term debt discount amortization of \$2,252 and \$6,613, respectively, as a component of interest expense. Interest expense from the amortization of debt issuance costs was \$280 and \$840 for the three and nine months ended September 30, 2011, respectively. Additionally, the Company capitalized interest totaling \$281 and \$539 for the three and nine months ended September 30, 2011, respectively.

**Note 13 Employee Benefit Plans:**

Components of net periodic pension and other post-retirement benefit cost for the three and nine months ended September 30, 2011 and 2010 for covered employees were as follows:

	Pension Benefits				Other Post-Retirement Benefits			
	Three Months Ended September 30, 2011		Nine Months Ended September 30, 2011		Three Months Ended September 30, 2011		Nine Months Ended September 30, 2011	
Service cost	\$ 512	\$ 451	\$ 1,535	\$ 1,353	\$ 187	\$ 178	\$ 560	\$ 534
Interest cost	1,794	1,770	5,382	5,310	590	550	1,771	1,650
Expected return on plan assets	(1,947)	(1,869)	(5,843)	(5,607)				
Amortization of prior service cost	100	131	301	393	303	303	910	910
Amortization of actuarial loss	1,004	702	3,013	2,104				

Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

Net periodic benefit cost	\$ 1,463	\$ 1,185	\$ 4,388	\$ 3,553	\$ 1,080	\$ 1,031	\$ 3,241	\$ 3,094
---------------------------	----------	----------	----------	----------	----------	----------	----------	----------

---

**Table of Contents**

**RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES**

**Notes to Condensed Consolidated Financial Statements**

**(Unaudited)**

**(In thousands, except share and per share amounts, unless otherwise indicated)**

During the three and nine months ended September 30, 2011, the Company made cash contributions totaling \$20.8 million and \$27.8 million, respectively, to its qualified defined benefit pension plans.

**Note 14 Commitments and Contingencies:**

From time to time, the Company is involved in litigation relating to claims arising out of its operations in the normal course of business. In the Company's opinion, the ultimate liability, if any, resulting from these matters will have no significant effect on its Consolidated Financial Statements. Given the critical nature of many of the aerospace end uses for the Company's products, including specifically their use in critical rotating parts of gas turbine engines, the Company maintains aircraft products liability insurance of \$500 million, which includes grounding liability.

***Tronox LLC Litigation***

On August 16, 2011, a subsidiary of the Company and Tronox LLC (Tronox) settled the claims regarding a long-term supply agreement entered into amongst the parties. Under the terms of the settlement, the Company paid Tronox \$9.9 million in full satisfaction of all outstanding claims under the agreement. The Company had previously accrued a liability of \$11.0 million related to this litigation. The \$1.1 million accrual reduction was recorded during the three months ended June 30, 2011 as a reduction to Cost of Sales.

***Environmental Matters***

Based on available information, the Company believes that its share of possible environmental-related costs is in a range from \$737 to \$2,209 in the aggregate. At September 30, 2011 and December 31, 2010, the amounts accrued for future environmental-related costs were \$1,369 and \$1,403, respectively. Of the total amount accrued at September 30, 2011, \$100 was expected to be paid out within the next twelve months, and was included in the other accrued liabilities line of the balance sheet. The remaining \$1,269 was recorded in other noncurrent liabilities.

***Other Matters***

The Company is also the subject of, or a party to, other pending or threatened legal actions involving a variety of matters incidental to its business. The Company is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the results of the operations, cash flows, or the financial position of the Company.

**Note 15 Foreign Currency Translation:**

For the Company's foreign subsidiaries in the United Kingdom and France, whose functional currency is the U.S. Dollar, monetary assets and liabilities are remeasured at current rates, non-monetary assets and liabilities are remeasured at historical rates, and revenues and expenses are translated at average rates on a monthly basis throughout the year. Resulting differences from the remeasurement process are recognized in income and reported as other income.

The functional currency of the Company's Canadian subsidiary is the Canadian Dollar. Assets and liabilities are translated at period-end exchange rates. Income statement accounts are translated at the average rates of exchange prevailing during the period. Translation adjustments are reported as a component of other comprehensive income and are not included in net income.

Transactions and balances denominated in currencies other than the functional currency of the transacting entity are remeasured at current rates when the transaction occurs and at each balance sheet date. Transaction gains and losses are included in net income for the period.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)****Note 16 Segment Reporting:**

The Company has three reportable segments: the Titanium Group, the Fabrication Group, and the Distribution Group. Both the Fabrication Group and the Distribution Group utilize the Titanium Group as their primary source of titanium mill products. Intersegment sales are accounted for at prices that are generally established by reference to similar transactions with unaffiliated customers. Reportable segments are measured based on segment operating income after an allocation of certain corporate items such as general corporate overhead and expenses. Assets of general corporate activities include unallocated cash and deferred taxes. A summary of financial information by reportable segment is as follows:

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2011</b>	<b>2010</b>	<b>2011</b>	<b>2010</b>

Distribution Group	156,448	120,935
General corporate assets	255,292	371,498
Total consolidated assets	\$ 1,086,405	\$ 1,106,854

**Note 17 New Accounting Standards:**

In April 2011, the FASB issued ASU No. 2011-02, *Receivables – A Creditor’s Determination of Whether a Restructuring is a Troubled Debt Restructuring*. This ASU clarifies when a restructuring of receivables constitutes a troubled debt restructuring for a creditor. This applies to both the recording of an impairment loss and related disclosures for a troubled debt restructuring. The amendments in this ASU are effective for interim and annual periods beginning on or after June 15, 2011, and apply retrospectively to restructurings occurring on or after the beginning of the fiscal year of adoption. The adoption of this guidance did not have a material impact on the Company’s Consolidated Financial Statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The new guidance amends current fair value measurement and enhances disclosure requirements to include expansion of the information required for Level 3 measurements. The amendments in this ASU are effective for fiscal years and interim periods beginning after December 15, 2011 and are to be applied prospectively. The Company does not expect the new guidance to have a material impact on its Consolidated Financial Statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income – Presentation of Comprehensive Income*. This ASU requires that all non-owner changes in stockholders’ equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this ASU are effective for interim and annual periods beginning on or after December 15, 2011, and apply retrospectively. Early adoption is permitted. The Company does not expect the new guidance to have a material impact on its Consolidated Financial Statements.

In September 2011, the FASB issued ASU No. 2011-08, *Intangibles – Goodwill and Impairment – Testing Goodwill for Impairment*. This ASU added an optional qualitative analysis to the yearly testing for goodwill impairment. Depending on the outcome of this analysis, the quantitative two-step process could be eliminated for the year the analysis is performed. The amendments in this ASU are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted. The Company does not expect the new guidance to have a material impact on its Consolidated Financial Statements.

**Note 18 Guarantor Subsidiaries:**

The Notes are jointly and severally, fully and unconditionally (subject to certain customary exceptions) guaranteed by several of RTI International Metals, Inc.’s (the Parent’s) 100% owned subsidiaries (the Guarantor Subsidiaries). Separate financial statements of the Parent and each of the Guarantor Subsidiaries are not presented because the guarantees are full and unconditional (subject to certain customary exceptions) and the Guarantor Subsidiaries are jointly and severally liable. The Company believes separate financial statements and other disclosures concerning the Guarantor Subsidiaries would not be material to investors in the Notes.

**Table of Contents****RTI INTERNATIONAL METALS, INC. AND SUBSIDIARIES****Notes to Condensed Consolidated Financial Statements****(Unaudited)****(In thousands, except share and per share amounts, unless otherwise indicated)**

There are no current restrictions on the ability of the Guarantor Subsidiaries to make payments under the guarantees referred to above, except, however, the obligations of each Subsidiary Guarantor under its guarantee will be limited to the maximum amount as will result in obligations of such Subsidiary Guarantor under its guarantee not constituting a fraudulent conveyance or fraudulent transfer for purposes of bankruptcy law, the Uniform Conveyance Act, the Uniform Fraudulent Transfer Act, or any similar Federal or state law.

The following tables present Condensed Consolidating Financial Statements as of September 30, 2011 and December 31, 2010 and for the three and nine months ended September 30, 2011 and 2010:

**Condensed Consolidating Statement of Operations****Three Months Ended September 30, 2011**

	<b>RTI International Metals, Inc.</b>	<b>Guarantor Subsidiaries</b>	<b>Non-Guarantor Subsidiaries</b>	<b>Eliminations</b>	<b>Consolidated</b>
Net sales	\$	\$ 97,118	\$ 95,330	\$ (48,777)	\$ 143,671
Costs and expenses:					
Cost of sales		85,942	81,500	(48,777)	118,665
Selling, general, and administrative expenses	(793)	5,707	11,474		16,388

Operating income	793	4,595	2,305		7,693
Other income (expense)	(39)	34	203		198
Interest income (expense), net	(4,074)	479	(247)		(3,842)
Equity in earnings of subsidiaries	4,179			(4,179)	
Income before income taxes	859	5,108	2,261	(4,179)	4,049
Provision for (benefit from) income taxes	(1,208)	2,465	725		1,982
Net income	\$ 2,067	\$ 2,643	\$ 1,536	\$ (4,179)	\$ 2,067

## Note to Condensed Consolidating Statement of Operations:

The parent company charges a management fee to the subsidiaries based upon its budgeted annual expenses. A credit in selling, general, and administrative expenses ( SG&A ) for the parent company indicates that actual expenses were lower than budgeted expenses. A credit in parent company SG&A is offset by an equal debit amount in the subsidiaries SG&A.

## Notes to Condensed Consolidating Statement of Operations:

During the three months ended September 30, 2010, rebates on sales were provided to one of the Company's customers. This amount was recorded at the parent company as it was outside of the ordinary course of business for contracts of this type and the contract was between the parent company and the customer.

The parent company charges a management fee to the subsidiaries based upon its budgeted annual expenses. A credit in SG&A for the parent company indicates that actual expenses were lower than budgeted expenses. A credit in parent company SG&A is offset by an equal debit amount in the subsidiaries' SG&A.

## Notes to Condensed Consolidating Statement of Operations:

During the nine months ended September 30, 2010, the parent company recorded net sales related to the March 2010 settlement of Airbus 2009 contractual obligations. Additionally, during the nine months ended September 30, 2010, rebates on sales were provided to one of the Company's customers. This amount was recorded at the parent company as it was outside of the ordinary course of business for contracts of this type and the contract was between the parent company and the customer.

The parent company charges a management fee to the subsidiaries based upon its budgeted annual expenses. During the nine months ended September 30, 2010, the guarantor subsidiaries received a credit in SG&A totaling \$15.4 million related to the settlement of Airbus 2009 contractual obligations.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.  
Forward-Looking Statements**

The following discussion should be read in connection with the information contained in the condensed Consolidated Financial Statements and condensed Notes to Consolidated Financial Statements. The following information contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, and is subject to the safe harbor created by that Act. Such forward-looking statements may be identified by their use of words like expects, anticipates, believes, intends, estimates, projects, or other words of similar meaning. Forward-looking statements are based on expectations and assumptions regarding future events. In addition to factors discussed throughout this quarterly report, the following factors and risks should also be considered, including, without limitation:

the future availability and prices of raw materials,

competition in the titanium industry,

the historic cyclicity of the titanium and commercial aerospace industries,

changes in defense spending and cancellation or changes in defense programs or initiatives,

changes in the Joint Strike Fighter production schedule,

the ability to obtain access to financial markets and to maintain current covenant requirements,

long-term supply agreements and the impact if another party to a long-term supply agreement fails to fulfill its requirements under existing contracts or successfully manage its future development and production schedule,

the impact of the current titanium inventory overhang throughout our supply chain,

the impact of Boeing 787 Dreamliner® production delays,

our ability to attract and retain key personnel,

legislative challenges to the Specialty Metals Clause, which requires that titanium for U.S. defense programs be produced in the U.S.,

labor matters,

global economic activities,

## Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

the successful completion of our expansion projects,

our ability to execute on new business awards,

our order backlog and the conversion of that backlog into revenue,

demand for our products, and

other statements contained herein that are not historical facts.

Because such forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These and other risk factors are set forth in this filing, as well as in other filings filed with or furnished to the Securities and Exchange Commission ( SEC ) over the last 12 months, copies of which are available from the SEC or may be obtained upon request from the Company. Except as may be required by applicable law, we undertake no duty to update our forward-looking information.

### **Overview**

RTI International Metals, Inc. (the Company, RTI, we, us, or our ) is a leading producer and global supplier of titanium mill products and a supplier of fabricated titanium and specialty metal components for the international aerospace, defense, energy, and industrial and consumer markets. The Company conducts business in three segments.

## Table of Contents

The Titanium Group melts, processes, and produces a complete range of titanium mill products which are further processed by its customers for use in a variety of commercial aerospace, defense, and industrial and consumer applications. With operations in Niles, Ohio; Canton, Ohio; and Hermitage, Pennsylvania; and the new facility under construction in Martinsville, Virginia, the Titanium Group has overall responsibility for the production of primary mill products including, but not limited to, bloom, billet, sheet, and plate. In addition, the Titanium Group produces ferro titanium alloys for its steel-making customers. The Titanium Group also focuses on the research and development of evolving technologies relating to raw materials, melting and other production processes, and the application of titanium in new markets.

The Fabrication Group is comprised of companies with significant hard-metal expertise that extrude, fabricate, machine, and assemble titanium and other specialty metal parts and components. Its products, many of which are complex engineered parts and assemblies, serve the commercial aerospace, defense, oil and gas, power generation, medical device, and chemical process industries, as well as a number of other industrial and consumer markets. With operations located in Houston, Texas; Washington, Missouri; Laval, Canada; and a representative office in China, the Fabrication Group provides value-added products and services such as engineered tubulars and extrusions, fabricated and machined components and sub-assemblies, as well as engineered systems for deepwater oil and gas exploration and production infrastructure.

The Distribution Group stocks, distributes, finishes, cuts-to-size, and facilitates just-in-time delivery services of titanium, steel, and other specialty metal products, primarily nickel-based specialty alloys. With operations in Garden Grove, California; Windsor, Connecticut; Sullivan, Missouri; Staffordshire, England; and Rosny-Sur-Seine, France; the Distribution Group services a wide variety of commercial aerospace, defense, and industrial and consumer customers.

Both the Fabrication and Distribution Groups access the Titanium Group as their primary source of titanium mill products. For the three months ended September 30, 2011 and 2010, approximately 49% and 38%, respectively, of the Titanium Group's sales were to the Fabrication and Distribution Groups. For the nine months ended September 30, 2011 and 2010, approximately 50% and 40%, respectively, of the Titanium Group's sales were to the Fabrication and Distribution Groups.

## **Trends and Uncertainties**

We believe that overall end-market demand for titanium continues to accelerate, notwithstanding the headwinds in the defense sector. This demand is being driven largely by the commercial aircraft build rate increases announced by both Airbus and Boeing as well as strong jet engine market activity, both of which are contributing to the increasing order activity in our titanium mill product business. In addition, we continue to win incremental value-added packages in validation of our strategy to move further up the value chain.

In the near-term, we will be impacted by increasing titanium sponge prices as the underlying raw material input costs increase. In the medium to long-term, we expect these costs to moderate as supply catches up with demand.

## ***Three Months Ended September 30, 2011 Compared To Three Months Ended September 30, 2010***

*Net Sales.* Net sales for our reportable segments, excluding intersegment sales, for the three months ended September 30, 2011 and 2010 was as follows:

<i>(In millions except percents)</i>	<b>Three Months Ended</b>		<b>\$</b>	<b>%</b>
	<b>September 30, 2011</b>	<b>September 30, 2010</b>	<b>Increase/ (Decrease)</b>	<b>Increase/ (Decrease)</b>
Titanium Group	\$ 45.0	\$ 32.3	\$ 12.7	39.3%
Fabrication Group	40.2	34.1	6.1	17.9%
Distribution Group	58.5	36.2	22.3	61.6%
Total consolidated net sales	\$ 143.7	\$ 102.6	\$ 41.1	40.1%

**Table of Contents**

The combination of a 25% increase in shipments and a 14% increase in the average realized selling prices of prime mill products to our trade customers resulted in an \$11.3 million increase in the Titanium Group's net sales. Additionally, ferro-alloy sales increased by \$1.4 million due to higher demand from our specialty steel customers.

The increase in the Fabrication Group's net sales was primarily attributable to higher shipments to our commercial aerospace market, resulting in a \$5.4 million improvement. Additionally, higher military market shipments increased net sales by \$0.7 million.

The increase in the Distribution Group's net sales was primarily related to higher demand for the Group's titanium products, principally in the commercial aerospace and defense markets, resulting in a \$20.2 million increase in net sales. Additionally, higher demand for our specialty metals products increased net sales by \$2.1 million.

*Gross Profit.* Gross profit for our reportable segments for the three months ended September 30, 2011 and 2010 was as follows:

(In millions except percents)	Three Months Ended		\$	%
	September 30, 2011	September 30, 2010		
Titanium Group	\$ 10.0	\$ 5.7	\$ 4.3	75.4%
Fabrication Group	5.0	3.5	1.5	42.9%
Distribution Group	10.0	5.0	5.0	100.0%
Total consolidated gross profit	\$ 25.0	\$ 14.2	\$ 10.8	76.1%

Gross profit in the Titanium Group increased \$3.4 million due to higher sales levels of prime mill products, while a higher margin sales mix benefited gross profit \$0.9 million.

The increase in the Fabrication Group's gross profit was primarily attributable to increased shipments, driven by higher customer demand in the commercial aerospace and military markets, as well as a customer payment for engineering design changes which benefited gross profit \$1.7 million, partially offset by a slowdown in the energy market.

The increase in the Distribution Group's gross profit was principally related to higher customer demand in the commercial aerospace and defense markets, which increased gross profit \$5.7 million. The increase was partially offset by a lower margin sales mix in the current period, which decreased gross profit \$0.7 million.

*Selling, General, and Administrative Expenses.* Selling, general, and administrative expenses ( SG&A ) for our reportable segments for the three months ended September 30, 2011 and 2010 were as follows:

(In millions except percents)	Three Months Ended		\$	%
	September 30, 2011	September 30, 2010		
Titanium Group	\$ 4.2	\$ 3.8	\$ 0.4	10.5%
Fabrication Group	6.5	6.5		0.0%
Distribution Group	5.7	5.5	0.2	3.6%
Total consolidated SG&A expenses	\$ 16.4	\$ 15.8	\$ 0.6	3.8%

The increase in SG&A expenses was primarily attributable to a \$0.4 million increase in compensation-related expenses in the current year, due in large part to higher overall salaries and incentive compensation in the current year. Additionally, SG&A increased by \$0.5 million for professional and consulting fees, partially offset by a \$0.3 million reduction in insurance costs.

## Edgar Filing: RTI INTERNATIONAL METALS INC - Form 10-Q

*Research, Technical, and Product Development Expenses.* Research, technical, and product development expenses were \$0.9 million and \$0.8 million for the three months ended September 30, 2011 and 2010, respectively. This spending reflects our continued focus on productivity and quality enhancements to our operations.

**Table of Contents**

*Asset and Asset-Related Charges (Income).* There were no asset and asset-related charges (income) for the three months ended September 30, 2011. Asset and asset-related charges (income) for the three months ended September 30, 2010 was \$(0.2) million. Asset and asset-related charges consisted of settlements related to the Company's accrued contractual commitments at the Company's indefinitely idled titanium sponge plant.

*Operating Income (Loss).* Operating income (loss) for our reportable segments for the three months ended September 30, 2011 and 2010 was as follows:

(In millions except percents)	Three Months Ended		\$	%
	September 30, 2011	September 30, 2010		
Titanium Group	\$ 4.9	\$ 1.3	\$ 3.6	276.9%
Fabrication Group	(1.5)	(3.0)	1.5	50.0%
Distribution Group	4.3	(0.5)	4.8	960.0%
Total operating income (loss)	\$ 7.7	\$ (2.2)	\$ 9.9	450.0%

The increase in the Titanium Group's operating income was primarily attributable to higher gross profit, largely due to higher shipments of prime mill products and a higher-margin sales mix. This increase was partially offset by increased SG&A expenses.

The decrease in the Fabrication Group's operating loss was primarily attributable to higher gross profit, due to increased shipments for the Boeing 787 Dreamliner®, improvement in the internal supply chain for the fabrication of these parts, and a customer payment for engineering design changes which benefited operating income \$1.7 million, partially offset by a slowdown in the energy market.

The increase in the Distribution Group's operating income was principally attributable to higher gross profit due to increased sales, which were primarily driven by higher customer demand in the commercial aerospace and defense markets, partially offset by an increase in SG&A.

*Other Income (Expense).* Other income (expense) for the three months ended September 30, 2011 and 2010 was \$0.2 million and \$(0.5) million, respectively. Other income (expense) consisted primarily of foreign exchange gains and losses from our foreign operations.

*Interest Income and Interest Expense.* Interest income for the three months ended September 30, 2011 and 2010 was \$0.3 million and \$0.1 million, respectively. The increase was principally related to higher returns on invested cash, as well as higher overall cash and investment balances, compared to the prior year period. Interest expense was \$4.2 million and \$0.3 million for the three months ended September 30, 2011 and 2010, respectively. The increase in interest expense was primarily attributable to the issuance of \$230 million aggregate principal amount of 3.0% Convertible Senior Notes due 2015 (the "Notes") in December 2010.

*Provision for Income Taxes.* We recognized a provision for income taxes of \$2.0 million, or 49.0% of pretax income, and \$13.9 million, or (481.7)% of pretax income, for federal, state, and foreign income taxes for the three months ended September 30, 2011 and 2010, respectively. Tax expense in the current quarter reflects a more customary relationship between income and tax compared to the same period in the prior year. Tax expense in the prior year reflected the reversal of a benefit that was recorded for the six months ended June 30, 2010 based on an estimated annual effective tax rate and a charge for tax expense associated with actual results generated through the nine months ended September 30, 2010. Included in the three-month period ended September 30, 2011 were discrete items of \$0.8 million, principally related to tax benefits forfeited upon the carryback of 2010 net operating losses to receive a refund of 2008 federal tax payments. Discrete items in the three month period ended September 30, 2010 were not material.

**Table of Contents****Nine Months Ended September 30, 2011 Compared To Nine Months Ended September 30, 2010**

*Net Sales.* Net sales for our reportable segments, excluding intersegment sales, for the nine months ended September 30, 2011 and 2010 was as follows:

<i>(In millions except percents)</i>	Nine Months Ended		\$	%
	September 30,			
	2011	2010	Increase/ (Decrease)	Increase/ (Decrease)
Titanium Group	\$ 117.0	\$ 101.7	\$ 15.3	15.0%
Fabrication Group	110.5	100.0	10.5	10.5%
Distribution Group	160.2	115.4	44.8	38.8%
Total consolidated gross profit	\$ 387.7	\$ 317.1	\$ 70.6	22.3%

Excluding the \$15.4 million in the prior year related to the resolution of Airbus' 2009 contractual obligations, the Titanium Group's net sales increased by \$30.7 million. The combination of a 27% increase in shipments and a 10% increase in the average realized selling price of prime mill products to our trade customers resulted in a \$27.7 million increase in the Titanium Group's net sales. Additionally, ferro-alloy sales increased by \$3.0 million due to increased demand from our specialty steel customers.

Excluding the \$4.2 million of nonrecurring engineering funds related to the Boeing 787 Dreamliner® program recognized in the prior year, for which there was a corresponding amount recorded in cost of sales, the Fabrication Group's net sales increased \$14.7 million. This increase was principally due to increased demand in the commercial aerospace market, led by the Boeing 787 Dreamliner® program, which increased net sales by \$23.1 million. Additionally, net sales to our military customers increased \$4.1 million due to strong demand from the F-15, F-18, and V-22 programs. These increases were partially offset by a decrease in sales to our energy market customers totaling \$12.3 million, principally due to the slowdown in drilling permitting in the Gulf of Mexico during the current year and the delivery of several engineered components supporting the containment of the oil spill in the Gulf of Mexico in 2010.

The increase in the Distribution Group's net sales was primarily related to higher demand for our titanium products, primarily in the commercial aerospace market, resulting in a \$34.1 million improvement. Additionally, higher demand for our specialty metals products increased net sales by \$10.7 million.

*Gross Profit.* Gross profit for our reportable segments for the nine months ended September 30, 2011 and 2010 was as follows:

<i>(In millions except percents)</i>	Nine Months Ended		\$	%
	September 30,			
	2011	2010	Increase/ (Decrease)	Increase/ (Decrease)
Titanium Group	\$ 36.6	\$ 28.6	\$ 8.0	28.0%
Fabrication Group	13.1	11.8	1.3	11.0%
Distribution Group	25.9	18.2	7.7	42.3%
Total consolidated gross profit	\$ 75.6	\$ 58.6	\$ 17.0	29.0%

Excluding the \$15.4 million in the prior year related to the resolution of Airbus's 2009 contractual obligations, the Titanium Group's gross profit increased \$23.4 million. Improved operational efficiency increased gross profit by \$9.3 million. Higher sales levels of prime mill products and a higher margin sales mix increased gross profit by \$5.3 million and \$7.2 million, respectively. Furthermore, the Titanium Group was favorably impacted \$1.1 million due to the settlement of the dispute regarding the Tronox long-term supply agreement. Additionally, gross margin increased \$0.5 million due to higher ferro-alloy sales to specialty steel customers.

Spending controls and improved production efficiencies and delivery performance in the Fabrication Group resulted in a \$10.3 million improvement in gross profit, as Fabrication Group deliveries related to the Boeing 787

**Table of Contents**

Dreamliner® Pi Box program began to ramp up. This increase was offset by a \$9.0 million reduction in gross profit on sales to our energy market customers, principally due to the delivery of several engineered components supporting the containment of the oil spill in the Gulf of Mexico in the prior year.

The increase in the Distribution Group's gross profit was principally related to increased volume, which improved gross profit \$12.4 million, primarily driven by higher customer demand in the commercial aerospace market. This increase was partially offset by a lower margin sales mix in the current period, which decreased gross profit \$4.7 million.

*Selling, General, and Administrative Expenses.* SG&A for our reportable segments for the nine months ended September 30, 2011 and 2010 were as follows:

	Nine Months Ended		\$	%
	September 30, 2011	September 30, 2010		
<i>(In millions except percents)</i>				
Titanium Group	\$ 13.0	\$ 11.2	\$ 1.8	16.1%
Fabrication Group	21.2	20.9	0.3	1.4%
Distribution Group	17.3	15.7	1.6	10.2%
Total consolidated SG&A expenses	\$ 51.5	\$ 47.8	\$ 3.7	7.7%

The increase in SG&A expenses was primarily related to a \$3.7 million increase in compensation-related expenses in the current year compared to the prior year, due in large part to higher overall salaries and incentive compensation in the current year.

*Research, Technical, and Product Development Expenses.* Research, technical, and product development expenses were \$2.4 million and \$2.5 million for the nine months ended September 30, 2011 and 2010, respectively. This spending reflects our continued focus on productivity and quality enhancements to our operations.

*Asset and Asset-Related Charges (Income).* Asset and asset-related charges (income) for the nine months ended September 30, 2011 and 2010 were \$(1.5) million and \$(3.3) million, respectively. Asset and asset-related charges consisted of settlements related to the Company's accrued contractual commitments at the Company's indefinitely idled titanium sponge plant.

*Operating Income (Loss).* Operating income (loss) for our reportable segments for the nine months ended September 30, 2011 and 2010 was as follows:

	Nine Months Ended		\$	%
	September 30, 2011	September 30, 2010		
<i>(In millions except percents)</i>				
Titanium Group	\$ 22.9	\$ 18.1	\$ 4.8	26.5%
Fabrication Group	(8.0)	(9.1)	1.1	12.1%
Distribution Group	8.3	2.5	5.8	232.0%
Total operating income (loss)	\$ 23.2	\$ 11.5	\$ 11.7	101.7%

The increase in the Titanium Group's operating income was primarily attributable to higher gross profit, largely due to improved operational efficiency, a higher margin sales mix, higher volume, and the settlement of the dispute regarding the Tronox long-term supply agreement. These improvements were partially offset by increased SG&A and other expenses, primarily due to higher overall compensation-related expenses.

The decrease in the Fabrication Group's operating loss was primarily attributable to higher demand in the commercial aerospace and military markets, led by the ramp up of deliveries for the 787 Dreamliner® program. These improvements were partially offset by a reduction in sales to our energy market customers, principally due to delivery of several engineered components supporting the containment of the oil spill in the

Gulf of Mexico in 2010.

## **Table of Contents**

The increase in the Distribution Group's operating income was primarily attributable to higher gross profit due to increased sales, which were primarily driven by higher customer demand in the commercial aerospace market, partially offset by an increase in SG&A.

*Other Income (Expense).* Other income (expense) was \$(0.2) million for each of the nine months ended September 30, 2011 and 2010. Other income (expense) consists primarily of foreign exchange gains and losses from our international operations.

*Interest Income and Interest Expense.* Interest income for the nine months ended September 30, 2011 and 2010 was \$0.9 million and \$0.4 million, respectively. The increase was principally related to higher returns on invested cash, as well as higher overall cash and investment balances, compared to the prior year period. Interest expense was \$12.7 million and \$0.8 million for the nine months ended September 30, 2011 and, 2010, respectively. The increase in interest expense was primarily attributable to the issuance of \$230 million aggregate principal amount of the Notes in December 2010.

*Provision for Income Taxes.* We recognized a provision for income taxes of \$4.6 million, or 41.3% of pretax income, and \$6.1 million, or 55.5% of pretax income, for federal, state, and foreign income taxes for the nine months ended September 30, 2011 and 2010, respectively. The percentage of pretax income in 2011 differs from the percentage in the prior year principally due to the differing mix of foreign losses benefited at lower rates and domestic income taxed at higher rates. Included in the year-to-date provisions for income tax were discrete items of tax totaling \$0.9 million in 2011 and \$(0.8) million in 2010. The amount in 2011 principally relates to tax benefits forfeited upon the carryback of 2010 Net Operating Losses to receive a refund of 2008 tax payments. The amount in 2010 was comprised of a \$1.6 million charge associated with repeal of the Medicare Part D subsidy contained in healthcare legislation enacted in during the first quarter of 2010, with the remainder associated with the effective settlement of an income tax examination and other immaterial items.

## **Liquidity and Capital Resources**

In connection with our long-term mill product supply agreements for the Joint Strike Fighter ( JSF ) program and the Airbus family of commercial aircraft, including the A380 and A350XWB programs, we are constructing a new titanium forging and rolling facility in Martinsville, Virginia, and new melting facilities in Canton and Niles, Ohio, with anticipated aggregate capital spending of approximately \$160 million. The Niles melting facility is substantially complete, whereas we have capital spending of approximately \$3 million remaining on the Canton facility and expect it will begin operations in 2011. We have capital expenditures of approximately \$55 million remaining related to the Martinsville, Virginia facility and anticipate that the rolling mill and forging cell associated with this facility will begin operations in 2012. We expect that the Martinsville facility will enable us to enhance our throughput and shorten lead times on certain products, primarily titanium sheet and plate. We will continually evaluate market conditions as we move forward with these capital projects to ensure our operational capabilities are matched to our anticipated demand.

We expect that our cash and cash equivalents of \$189.7 million, available-for-sale investments of \$166.1 million, combined with our internally generated funds, and our undrawn \$150 million credit facility, borrowings under which are conditional upon continuing to meet our financial covenants under our Amended and Restated Credit Agreement (the Credit Agreement ), will provide us sufficient liquidity to meet our operating needs and capital expansion plans. The financial covenants under our Credit Agreement are as follows:

Our leverage ratio (the ratio of Net Debt to Consolidated EBITDA, as defined in the Credit Agreement) was (0.3) at September 30, 2011. If this ratio were to exceed 3.25 to 1, we would be in default under our Credit Agreement and our ability to borrow under our Credit Agreement would be impaired.

Our interest coverage ratio (the ratio of Consolidated EBITDA to Net Interest, as defined in the Credit Agreement) was 9.5 at September 30, 2011. If this ratio were to fall below 2.0 to 1, we would be in default under our Credit Agreement and our ability to borrow under the Credit Agreement would be impaired.

---

## **Table of Contents**

Consolidated EBITDA, as defined in the Credit Agreement, allows for adjustments related to unusual gains and losses, certain noncash items, and certain non-recurring charges. At September 30, 2011, we were in compliance with our financial covenants under the Credit Agreement.

*Off-balance sheet arrangements.* As of September 30, 2011, there were no off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures, or capital resources.

*Cash provided by (used in) operating activities.* Cash provided by (used in) operating activities for the nine months ended September 30, 2011 and 2010 was \$(13.5) million and \$31.6 million, respectively. This decrease was largely due to pension contributions of \$27.8 million in the current year and increased working capital balances, primarily accounts receivable, as sales increased throughout the period.

*Cash provided by (used in) investing activities.* Cash provided by (used in) investing activities for the nine months ended September 30, 2011 and 2010, was \$(173.3) million and \$23.4 million, respectively. The increase in cash used in investing activities was principally related to available-for-sale investment activity, which used \$147.4 million in the current year as we invested some of our excess cash, and provided \$44.8 million in the prior period as we sold several short-term investments. Additionally, capital expenditures were \$3.1 million higher in the current year compared to the prior year.

*Cash provided by financing activities.* During both periods presented, there were limited financing activities.

## **Duty Drawback Investigation**

As previously disclosed in various Company filings, since 2007 we have been under investigation by U.S. Customs and Border Protection ( U.S. Customs ), with respect to \$7.6 million of claims previously filed under a program that we maintained through an authorized agent to recapture duty paid on imported titanium sponge as an offset against exports for products shipped outside the U.S. by us or our customers. We have recorded no additional charges or any change to the amount accrued for penalties during the nine months ended September 30, 2011 with respect to the investigation. While our internal investigation is complete, there is not a timetable of which we are aware for when U.S. Customs will conclude its investigation.

## **Backlog**

The Company's order backlog for all markets was approximately \$454 million as of September 30, 2011, compared to \$347 million at December 31, 2010. Of the backlog at September 30, 2011, approximately \$135 million is expected to be realized over the remainder of 2011. We define backlog as firm business scheduled for release into our production process for a specific delivery date. We have numerous contracts that extend multiple years, including the Airbus, JSF, and Boeing 787 Dreamliner® long-term supply agreements, which are not included in backlog until a specific release into production or a firm delivery date has been established.

## **Environmental Matters**

Based on available information, we believe our share of possible environmental-related costs is in a range from \$0.7 million to \$2.2 million in the aggregate. At both September 30, 2011 and December 31, 2010, the amount accrued for future environmental-related costs was \$1.4 million. Of the total amount accrued at September 30, 2011, \$0.1 million is expected to be paid out within the next twelve months and is included in the other accrued liabilities line of the balance sheet. The remaining \$1.3 million is recorded in other noncurrent liabilities. During the nine months ended September 30, 2011, payments related to our environmental liabilities were not material.

## **New Accounting Standards**

In April 2011, the Financial Accounting Standards Board (the FASB ) issued ASU No. 2011-02, *Receivables - A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring*. This ASU clarifies when a restructuring of receivables constitutes a troubled debt restructuring for a creditor. This applies to both the recording of an impairment loss and related disclosures for a troubled debt restructuring. The

## **Table of Contents**

amendments in this ASU are effective for interim and annual periods beginning on or after June 15, 2011, and apply retrospectively to restructurings occurring on or after the beginning of the fiscal year of adoption. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The new guidance amends current fair value measurement and enhances disclosure requirements to include expansion of the information required for Level 3 measurements. The amendments in this ASU are effective for fiscal years and interim periods beginning after December 15, 2011 and are to be applied prospectively. We do not expect the new guidance to have a material impact on our Consolidated Financial Statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income – Presentation of Comprehensive Income*. This ASU requires that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments in this ASU are effective for interim and annual periods beginning on or after December 15, 2011, and apply retrospectively. Early adoption is permitted. We do not expect the new guidance to have a material impact on our Consolidated Financial Statements.

In September 2011, the FASB issued ASU No. 2011-08, *Intangibles – Goodwill and Impairment – Testing Goodwill for Impairment*. This ASU added an optional qualitative analysis to the yearly testing for goodwill impairment. Depending on the outcome of this analysis, the quantitative two-step process could be eliminated for the year the analysis is performed. The amendments in this ASU are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted. We do not expect the new guidance to have a material impact on our Consolidated Financial Statements.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

There have been no significant changes in our exposure to market risk from the information provided in Item 7A. Quantitative Disclosures about Market Risk in our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 1, 2011.

### **Item 4. Controls and Procedures.**

As of September 30, 2011, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management concluded that the Company's disclosure controls and procedures were effective as of September 30, 2011.

There were no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2011 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**Table of Contents**

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings.**

In connection with its now indefinitely idled plans to construct a premium-grade titanium sponge production facility in Hamilton, Mississippi, in 2008, a subsidiary of the Company, RTI Hamilton, Inc. ( RTI Hamilton ), entered into an agreement with Tronox LLC ( Tronox ) for the long-term supply of titanium tetrachloride, the primary raw material in the production of titanium sponge. Tronox filed for Chapter 11 bankruptcy protection in January 2009 and emerged from bankruptcy protection in February 2011. In September 2009, RTI Hamilton filed a complaint in the United States Bankruptcy Court for the Southern District of New York (the Bankruptcy Court ) against Tronox challenging the validity of the supply agreement. Tronox filed a motion to dismiss the complaint, which the Bankruptcy Court granted in February 2010. RTI Hamilton appealed the order. During the pendency of the appeal, in January 2011, Tronox filed a complaint with the Bankruptcy Court against RTI Hamilton, alleging breach of contract, repudiation, and two additional related claims under the Bankruptcy Code with respect to the supply agreement.

After agreeing in principle on July 25, 2011, RTI Hamilton and Tronox entered into a settlement agreement on August 16, 2011. Under the terms of the settlement, RTI Hamilton paid Tronox \$9.9 million plus approximately \$0.7 million for capital expenses incurred by Tronox plus interest. The satisfaction of the settlement agreement resulted in the dismissal of both actions described above and the termination of the titanium tetrachloride supply agreement.

**Item 1A. Risk Factors.**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the SEC on March 1, 2011, which could materially affect our business, financial condition, financial results, or future performance. Reference is made to Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements of this report which is incorporated herein by reference.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

Employees may surrender shares to the Company to pay tax liabilities associated with the vesting of restricted stock awards under the 2004 Stock Plan. No shares of Common Stock were surrendered to satisfy tax liabilities for the three months ended September 30, 2011. In addition, the Company may repurchase shares of Common Stock under the RTI International Metals, Inc. share repurchase program approved by the Company's Board of Directors on April 30, 1999. The repurchase program authorizes the repurchase of up to \$15 million of RTI Common Stock. No shares were purchased under the program during the three months ended September 30, 2011. At September 30, 2011, approximately \$3 million of the \$15 million remained available for repurchase. There is no expiration date specified for the share repurchase program.

**Item 6. Exhibits.**

The exhibits listed on the Index to Exhibits are filed herewith and incorporated herein by reference.
