CAUTIONARY STATEMENT

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2, contains forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Calavo Growers, Inc. and its consolidated subsidiaries (Calavo, the Company, we, us or our) may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements, other than statements of historical fact, are statements that could be deemed forward-looking statements, including, but not limited to, any projections of revenue, margins, expenses, earnings, earnings per share, tax provisions, cash flows, currency exchange rates, the impact of acquisitions or other financial items; any statements of the plans, strategies and objectives of management for future operations, including execution of restructuring and integration plans; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on Calavo and its financial performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include the impact of macroeconomic trends and events; the competitive pressures faced by Calavo's businesses; the development and transition of new products and services (and the enhancement of existing products and services) to meet customer needs; integration and other risks associated with business combinations; the hiring and retention of key employees; the resolution of pending investigations, claims and disputes; and other risks that are described herein, including, but not limited to, the items discussed in Item 1A, *Risk Factors*, in our Annual Report on Form 10-K for the fiscal year ended October 31, 2011, and those detailed from time to time in our other filings with the Securities and Exchange Commission. Calavo assumes no obligation and does not intend to update these forward-looking statements.

CALAVO GROWERS, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(UNAUDITED)

1. Description of the business

Business

Calavo Growers, Inc. (Calavo, the Company, we, us or our), is a global leader in the avocado industry and an expanding provider of value-added fresh food. Our expertise in marketing and distributing avocados, prepared avocados, and other perishable foods allows us to deliver a wide array of fresh and prepared food products to food distributors, produce wholesalers, supermarkets, and restaurants on a worldwide basis. We procure avocados principally from California, Mexico, and Chile. Through our various operating facilities, we sort, pack, and/or ripen avocados, tomatoes and/or Hawaiian grown papayas. Additionally, we also produce salsa and prepare ready-to-eat produce and deli products. We distribute our products both domestically and internationally and report our operations in two different business segments: Fresh products and Calavo Foods.

The accompanying unaudited consolidated condensed financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2011.

Recently Adopted Accounting Pronouncements

In December 2010, the FASB issued an update to modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. The qualitative factors are consistent with the existing guidance, which requires that goodwill of a reporting unit be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The adoption of this accounting guidance did not have a material impact on our financial position, results of operations or liquidity.

Recently Issued Accounting Standards

In June 2011, the FASB issued guidance regarding the presentation of comprehensive income. The new standard requires the presentation of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The new standard also requires presentation of adjustments for items that are reclassified from other comprehensive income to net income in the statement where the components of net income and the components of other comprehensive income are presented. The updated guidance is effective on a retrospective basis for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011.

In December 2011, the FASB issued guidance to defer the effective date for those aspects relating to the presentation of reclassification adjustments out of accumulated other comprehensive income. The adoption of this standard will only impact the presentation of our consolidated financial statements and will have no impact on the reported results.

CALAVO GROWERS, INC.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (CONTINUED)

(UNAUDITED)

In May 2011, the FASB issued additional guidance on fair value measurements that clarifies the application of existing guidance and disclosure requirements, changes certain fair value measurement principles and requires additional disclosures about fair value measurements. The updated guidance is effective on a prospective basis for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011. We do not believe that adoption of this guidance will have a material impact on our financial position and results of operations.

2. Information regarding our operations in different segments

We report our operations in two different business segments: Fresh products and Calavo Foods. These two business segments are presented based on how information is used by our Chief Executive Officer to measure performance and allocate resources. The Fresh products segment includes all operations that involve the distribution of avocados and other fresh produce products. The Calavo Foods segment represents all operations related to the purchase, manufacturing, and distribution of prepared products, including guacamole, tortilla chips, salsa, fresh-cut fruit, ready-to-eat vegetables, recipe-ready vegetables and deli meat products. Additionally, selling, general and administrative expenses, as well as other non-operating income/expense items, are evaluated by our Chief Executive Officer in the aggregate. We do not allocate assets, or specifically identify them to, our operating segments. The following table sets forth sales by product category, by segment (in thousands):

For the three months ended January 31, 2012 and 2011, inter-segment sales and cost of sales for Fresh products totaling \$5.0 million and \$4.3 million were eliminated in consolidation. For three months ended January 31, 2012 and 2011, inter-segment sales and cost of sales for Calavo Foods totaling \$2.9 million were eliminated in consolidation.

3. Inventories

Inventories consist of the following (in thousands):

	January 31, 2012	October 31, 2011
Fresh fruit	\$ 7,243	\$ 6,588
Packing supplies and ingredients	7,774	5,610

During the three months ended January 31, 2012 and 2011, we were not required to, and did not, record any provisions to reduce our inventories to the lower of cost or market.

4. Related party transactions

Certain members of our Board of Directors market avocados through Calavo pursuant to marketing agreements substantially similar to the marketing agreements that we enter into with other growers. During the three months ended January 31, 2012 and 2011, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$0.3 million and \$1.5 million. Accounts payable to these Board members were \$0.3 million and \$0.1 million at January 31, 2012 and October 31, 2011.

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

During the first quarter of fiscal 2012 and 2011, we received \$0.1 million as dividend income from Limoneira.

The three previous owners and current executives of RFG have a majority ownership of certain entities that provide various services to RFG. RFG's California operating facility leases a building from LIG partners, LLC (LIG) pursuant to an operating lease. LIG is majority owned by an entity owned by such three executives of RFG. For the period ended January 31, 2012, total rent paid to LIG was \$0.1 million. Additionally, RFG sells cut produce and purchases raw materials, obtains transportation services, and shares costs for certain utilities with Third Coast Fresh Distribution (Third Coast). Third Coast is majority owned by an entity owned by such three executives of RFG. For the period ended January 31, 2012, total sales made to Third Coast were \$0.8 million. For the period

CALAVO GROWERS, INC.

We anticipate recording amortization expense of approximately \$1.1 million for the remainder of fiscal 2012, with \$1.4 million of amortization expense for each of the fiscal years 2013 through 2015. We anticipate recording amortization expense of approximately \$1.3 million for fiscal year 2016. The remainder of approximately \$3.5 million will be amortized over fiscal years 2017 through 2023.

6. Stock-Based Compensation

In April 2011, our shareholders approved the Calavo Growers, Inc. 2011 Management Incentive Plan (the 2011 Plan). All directors, officers, employees and consultants (including prospective directors, officers, employees and consultants) of Calavo and its subsidiaries are eligible to receive awards under the 2011 Plan. Up to 1,500,000 shares of common stock may be issued by Calavo under the 2011 Plan. As a result of such new plan, no new awards will be made under our 2005 Stock Incentive Plan.

Edgar Filing: CALAVO GROWERS INC - Form 10-Q

The 2005 Stock Incentive Plan, was a stock-based compensation plan, under which employees and directors may be granted options to purchase shares of our common stock. We anticipate terminating such plan in the near future.

Stock options are granted with exercise prices of not less than the fair market value at grant date, generally vest over one to five years and generally expire two to five years after the grant date. We settle stock option exercises with newly issued shares of common stock.

We measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest. We measure the fair value of our stock based compensation awards on the date of grant.

CALAVO GROWERS, INC.

8. Fair value measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Company to use present value and other valuation techniques in the determination of fair value (Level 3).

The following table sets forth our financial assets and liabilities as of January 31, 2012 that are measured on a recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
	(All amounts are presented in thousands)			
Assets at Fair Value:				
Investment in Limoneira Company ⁽¹⁾	\$ 31,080			\$ 31,080
Total assets at fair value	\$ 31,080	\$	\$	\$ 31,080

- (1) The investment in Limoneira Company consists of marketable securities in the Limoneira Company stock. We currently own approximately 15% of Limoneira's outstanding common stock. These securities are measured at fair value by quoted market prices. Limoneira's stock price at January 31, 2012 and October 31, 2011 equaled \$17.98 per share and \$17.35 per share. Unrealized gains and losses are recognized through other comprehensive income. Unrealized investment holding gains arising during the quarter ended January 31, 2012 and 2011 were \$1.1 million and \$3.9 million.

	Level 1	Level 2	Level 3	Total
	(All amounts are presented in thousands)			
Liabilities at fair value:				
Salsa Lisa contingent consideration ⁽²⁾			\$ 992	\$ 992
RFG contingent consideration ⁽²⁾			\$ 1,787	\$ 1,787
Total liabilities at fair value	\$	\$	\$ 2,779	\$ 2,779

- (2) Each period we revalue the contingent consideration obligations to their fair value and record increases or decreases in the fair value into selling, general and administrative expense. Increases or decreases in the fair value of the contingent consideration obligations can result from changes in assumed discount periods and rates, changes in the assumed timing and amount of revenue and expense estimates. Significant judgment is employed in determining the appropriateness of these assumptions as of the acquisition date and for each subsequent period. Accordingly, future business and economic conditions, as well as changes in any of the assumptions described above, can materially impact the amount of contingent consideration expense we record in any given period. Total net increase to the contingent considerations during the quarter ended January 31, 2012 totaled \$0.1 million.

The following is a reconciliation of the beginning and ending amounts of the contingent consideration for Salsa Lisa and RFG:

10. Subsequent events

We have evaluated subsequent events to assess the need for potential recognition or disclosure in this Quarterly Report on Form 10-Q. Such events were evaluated till the date these financial statements were issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition in the financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This information should be read in conjunction with the unaudited consolidated condensed financial statements and the notes thereto included in this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report on Form 10-K for the year ended October 31, 2011 of Calavo Growers, Inc. (we, Calavo, or the Company).

Recent Developments*Dividend payment*

On December 12, 2011, we paid a \$0.55 per share dividend in the aggregate amount of \$8.1 million to shareholders of record on December 2, 2011.

Contingencies

Hacienda Suits There have been no material changes to the examinations by the Mexican tax authorities (Hacienda) from those previously disclosed in our Annual Report on Form 10-K for our fiscal year ended October 31, 2011. See Note 8 on Form 10-K for our fiscal year ended October 31, 2011.

From time to time, we are also involved in litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

Net Sales

The following table summarizes our net sales by business segment for each of the three-month periods ended January 31, 2012 and 2011:

(in thousands)	Three months ended January 31,		
	2012	Change	2011
Net sales to third-parties:			
Fresh products	\$ 71,136	(11.8)%	\$ 80,656
Calavo Foods ⁽¹⁾	46,258	333.8%	10,663
Total net sales	\$ 117,394	28.6%	\$ 91,319
As a percentage of net sales:			
Fresh products	60.6%		88.3%
Calavo Foods	39.4%		11.7%
	100.0%		100.0%

(1) Three months ended January 31, 2012, includes net sales of \$35.0 million related to Renaissance Food Group, LLC (RFG). Net sales for the first quarter of fiscal 2012, compared to fiscal 2011, increased by \$26.1 million, or 28.6%. The increase in sales, when compared to the same corresponding prior year period, is primarily related to the sales of Renaissance Food Group, LLC (RFG), which was acquired on June 1, 2011. Not considering RFG, which is included in our Calavo Foods segment, we experienced a decrease in Fresh product sales during the first quarter of fiscal 2012, which was due primarily to decreased sales of California sourced avocados, as well as tomatoes. Partially offsetting this decrease in Fresh product sales, however, was an increase in sales of Mexican sourced avocados. While the procurement of fresh avocados related to our Fresh products segment is very seasonal, our Calavo Foods business is generally not subject to a seasonal effect.

Net sales to third parties by segment exclude value-added services billed by our Uruapan packinghouse and our Uruapan processing plant to the parent company. All intercompany sales are eliminated in our consolidated results of operations.

Fresh products

Net sales delivered by the Fresh products business decreased by approximately \$9.5 million, or 11.8%, for the first quarter of fiscal 2012, when compared to the same period for fiscal 2011. As discussed above, this decrease in Fresh product sales during the first quarter of fiscal 2012 was primarily related to decreased sales of California sourced avocados and tomatoes. These decreases were partially offset, however, by increased sales from Mexican sourced avocados. See details below.

Sales of California sourced avocados decreased \$12.6 million, or 95.2%, for the first quarter of 2012, when compared to the same prior year period. The decrease in California sourced avocados was due to a combination of a decrease in pounds sold and a decrease in the sales price per carton. California sourced avocados sales reflect a decrease in 11.3 million pounds of avocados sold or 94.5%, when compared to the same prior year period. We attribute most of this decrease in volume to the large California avocado crop in 2010, which contributed to significant deliveries in November 2010. In addition, the sales price per carton decreased by approximately 12.7%. We attribute this decrease primarily to a higher overall volume of avocados in the marketplace.

Sales of tomatoes decreased \$4.7 million, or 68.2%, for the first quarter of fiscal 2012, when compared to the same period for fiscal 2011. The decrease in sales for tomatoes is primarily due to a combination of a decrease in the number of cartons sold and a decrease in the sales price per carton. Warmer than expected weather was experienced in both Florida's and Mexico's growing areas during the first fiscal quarter of 2012. This situation delayed the start of harvests and reduced the number of units available in the quarter. We attribute some of the decrease in the per carton selling price to the higher volume of tomatoes in the U.S. marketplace, due primarily to cold weather which reduced supplies and delayed harvests in prior year.

Partially offsetting such decreases was an increase in sales of Mexican sourced avocados, which increased \$6.0 million, or 11.3% for the first quarter of 2012, when compared to the same prior year period. The increase in Mexican sourced avocados was due to an increase in pounds sold. Mexican sourced avocados sales reflect an increase in 8.2 million pounds of avocados sold, or 17.1%, when compared to the same prior year period. We attribute much of this increase in volume to the lack of fruit available from other sources. Partially offsetting this increase, however, was the decrease in the sales price per carton, which decreased by approximately 5.0%. We attribute this decrease primarily to a higher overall volume of avocados in the marketplace.

We anticipate that California avocado sales will experience an increase during our second fiscal quarter of 2012, as compared to the first quarter of 2012. Additionally, we believe that the sales volume of California grown avocados will increase in second quarter of fiscal 2012, when compared to the same prior year period. This increase is due to a larger expected avocado crop.

We anticipate that net sales related to Mexican sourced avocados and tomatoes will increase during our second fiscal quarter of 2012, as compared to the first fiscal quarter of 2012. We anticipate that sales of Mexican grown avocados will decrease in the second quarter of fiscal 2012, when compared to the same prior year period, due to higher volume of avocados in the marketplace, which should decrease overall sales prices. We anticipate that sales of tomatoes will increase in the second quarter of fiscal 2012, when compared to the same prior year period. This increase is due to a larger expected tomato crop.

Calavo Foods

Sales for Calavo Foods for the quarter ended January 31, 2012, when compared to the same period for fiscal 2011, increased \$35.6 million, or 333.8%. The significant increase in sales of our Calavo Foods business for the

first quarter of fiscal 2012, when compared to the same corresponding prior year period, is due to the addition of RFG, which contributed approximately \$35.0 million in the first quarter of fiscal year 2012. In addition to this increase, is the increase in sales of Calavo Salsa Lisa which increased approximately \$0.4 million, or 165.3%, in the first quarter of fiscal year 2012, when compared to the same prior year period. This is due to an increase in pounds sold by approximately 137.4%. In addition, sales of our prepared guacamole products increased approximately \$0.2 million, or 1.7%. This increase was primarily related to a 15.2% increase in the average net selling price per pound for both our frozen guacamole products and our refrigerated guacamole products (formerly high-pressure), partially offset by a decrease in overall pounds sold by 11.8%.

Gross Margins

The following table summarizes our gross margins and gross profit percentages by business segment for each of the three-month periods ended January 31, 2012 and 2011:

(in thousands)	Three months ended January 31,		
	2012	Change	2011
Gross margins:			
Fresh products	\$ 6,112	(0.1)%	\$ 6,118
Calavo Foods ⁽¹⁾	5,933	132.6%	2,551
Total gross margins	\$ 12,045	38.9%	\$ 8,669
Gross profit percentages:			
Fresh products	8.6%		7.6%
Calavo Foods	12.8%		23.9%
Consolidated	10.3%		9.5%

(1) Three months ended January 31, 2012, includes the gross margin of RFG of \$2.5 million.

Our cost of goods sold consists predominantly of fruit costs, packing materials, freight and handling, labor and overhead (including depreciation) associated with preparing food products and other direct expenses pertaining to products sold. Gross margins increased by approximately \$3.4 million, or 38.9%, for the first quarter of fiscal 2012 when compared to the same period for fiscal 2011. This increase was primarily attributable to increases in our Calavo Foods segment.

During our first fiscal quarter of 2012, as compared to the same prior year period, the increase in our Fresh products segment gross margin percentage was primarily related to a decrease in fruit costs for Mexican sourced avocados, as well as a decrease in operating costs related to our Mexican operations. These decreases are primarily related to the larger Mexican avocado crop, as well as the strengthening of the U.S. Dollar compared to the Mexican Peso. During our first fiscal quarter of 2012, when compared to the prior year period, we experienced an increase in the volume of Mexican sourced avocados sold by 8.2 million pounds, or 17.1%. All together, these had the effect of decreasing our per pound costs, which, as a result, positively impacted gross margins. These decreases were partially offset by a decrease in per carton sales prices for Mexican avocados of 5.0%. Partially offsetting the increase in the gross margin percentage for Fresh products, was the higher costs per pound for California sourced avocados. The significantly lower volume of California sourced avocados in the first quarter of fiscal 2012, when compared to the same prior year period, significantly increased our per pound costs, which, negatively impacted gross margins. As discussed above, we attribute most of this decrease in volume to the large California avocado crop in 2010 which contributed to significant deliveries in November 2010.

The increase in gross margin dollars for the Calavo Foods segment was due partially to the addition of RFG, which contributed approximately \$2.5 million for the first quarter of fiscal 2012. This addition, however, decreased the Calavo Foods gross margin percentage. The gross margin percentage for Calavo Foods, without RFG, would have been 30.2%. Not considering RFG, our prepared guacamole products gross margin increased \$1.1 million, or 48.7%. This increase in gross margins was due to lower operating costs, as well as the strengthening of the U.S. Dollar compared to the Mexican Peso. We anticipate that the gross profit percentage for our Calavo Foods segment

will continue to experience significant fluctuations during this fiscal year primarily due to the uncertainty of the cost of fruit that will be used in the production process. Additionally, any significant fluctuations in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Fresh product and Calavo Foods segments.

Selling, General and Administrative

(in thousands)	Three months ended January 31,		
	2012	Change	2011
Selling, general and administrative	\$ 7,637	52.3%	\$ 5,015
Percentage of net sales	6.5%		5.5%

(1) Three months ended January 31, 2012, includes the selling, general and administrative costs of \$1.9 million related to RFG. Selling, general and administrative expenses include costs of marketing and advertising, sales expenses and other general and administrative costs. Selling, general and administrative expenses increased \$2.6 million, or 52.3%, for the three months ended January 31, 2012, when compared to the same period for fiscal 2011. This increase was primarily related to the acquisition of RFG which contributed \$1.9 million in selling, general and administrative expenses for the three months ended January 31, 2012. The remaining increase of \$0.7 million is due to higher corporate costs, including, but not limited to, management bonuses (totaling approximately \$0.2 million), data processing (totaling approximately \$0.1 million), maintenance and repairs (totaling approximately \$0.1 million), promotions and advertising (totaling approximately \$0.1 million), contingent consideration related to the acquisition of RFG (totaling approximately \$0.1 million, see Note 8 of the unaudited consolidated condensed financial statements) and salaried employees payroll expense (totaling approximately \$0.1 million).

Provision for Income Taxes

(in thousands)	Three months ended January 31,		
	2012	Change	2011
Provision for income taxes	\$ 1,695	22.3%	\$ 1,386
Percentage of income before provision for income taxes	39.0%		37.7%

For the first three months of fiscal 2012, our provision for income taxes was \$1.7 million, as compared to \$1.4 million for the comparable prior year period. We expect our effective tax rate to be approximately 39% during fiscal 2012.

Liquidity and Capital Resources

Cash provided by operating activities was \$0.4 million for the three months ended January 31, 2012, compared to \$7.7 million used in operations for the similar period in fiscal 2011. Operating cash flows for the three months ended January 31, 2012 reflect our net income of \$2.7 million, net non-cash charges (depreciation and amortization, stock compensation expense, interest on deferred consideration, and income from unconsolidated entities) of \$1.4 million and net of cash used in the components of our operating capital of approximately \$3.7 million.

Cash used in operations caused by working capital changes, when compared to October 31, 2011, includes a net increase in accounts receivable of \$3.6 million, an increase in inventory of \$3.0 million, a net decrease in payable to growers of \$0.7 million, an increase in prepaid expenses and other current assets of \$0.3 million, and an increase in advances to suppliers of \$0.3 million, partially offset by, an increase in trade accounts payable and accrued expenses of \$2.6 million and a decrease in income tax receivable of \$1.6 million.

The increase in our accounts receivable, as of January 31, 2012, when compared to October 31, 2011, primarily reflects higher sales recorded in the month of January 2012, as compared to October 2011. The increase in inventory is primarily related to an increase in the fresh fruit on hand at January 31, 2012. This was primarily driven by more fruit being delivered for Mexican sourced avocados in the month of January 2012 as compared to October 2011. The decrease in our payable to growers primarily reflects a decrease in California fruit delivered in the month of January 2012, as compared to October 31, 2011. The increase in accounts payable and accrued expenses is primarily related to an increase in our payables related to tomatoes and Mexican avocados. The decrease in income tax receivable primarily relates to income from operations for the three months ended January 31, 2012.

Cash used in investing activities was \$1.4 million for the three months ended January 31, 2012 and related principally to the purchase of property, plant and equipment items.

Cash provided by financing activities was \$1.8 million for the three months ended January 31, 2012, which related principally to borrowings on our credit facilities totaling \$10.9 million, and exercises of stock options of \$0.2 million, partially offset by the payment of our \$8.1 million dividend and payments on long-term obligations of \$1.2 million.

Our principal sources of liquidity are our existing cash balances, cash generated from operations and amounts available for borrowing under our existing credit facilities. Cash and cash equivalents as of January 31, 2012 and October 31, 2011 totaled \$3.6 million and \$2.8 million. Our working capital at January 31, 2012 was \$10.3 million, compared to \$8.6 million at October 31, 2011.

We believe that cash flows from operations and available credit facilities will be sufficient to satisfy our future capital expenditures, grower recruitment efforts, working capital and other financing requirements. We will continue to evaluate grower recruitment opportunities and exclusivity arrangements with food service companies to fuel growth in each of our business segments. Our non-collateralized, revolving credit facilities with Farm Credit West, PCA and Bank of America, N.A. expire in February 2016. Under the terms of these agreements, we are advanced funds for both working capital and long-term productive asset purchases. Total credit available under these combined borrowing agreements was \$65 million, with a weighted-average interest rate of 1.8% and 1.6% at January 31, 2012 and October 31, 2011. Under these credit facilities, we had \$28.8 million and \$17.9 million outstanding as January 31, 2012 and October 31, 2011. These credit facilities contain various financial covenants, the most significant relating to Tangible Net Worth (as defined), Current Ratio (as defined), and Fixed Charge Coverage Ratio (as defined). We were in compliance with all such covenants at January 31, 2012.

Contractual Obligations

There have been no material changes to our contractual commitments from those previously disclosed in our Annual Report on Form 10-K for our fiscal year ended October 31, 2011. For a summary of the contractual commitments at October 31, 2011, see Part II, Item 7, in our 2011 Annual Report on Form 10-K.

Impact of Recently Issued Accounting Pronouncements

See footnote 1 to the unaudited consolidated condensed financial statements that are included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our financial instruments include cash and cash equivalents, accounts receivable, payable to growers, accounts payable, current and long-term borrowings pursuant to our credit facilities with financial institutions, and long-term, fixed-rate obligations. All of our financial instruments are entered into during the normal course of operations and have not been acquired for trading purposes. The table below summarizes interest rate sensitive financial instruments and presents principal cash flows in U.S. dollars, which is our reporting currency, and weighted-average interest rates by expected maturity dates, as of January 31, 2012.

(All amounts in thousands)	Expected maturity date January 31,						Total	Fair Value
	2012	2013	2014	2015	2016	Thereafter		
Assets								
Cash and cash equivalents (1)	\$ 3,595	\$	\$	\$	\$	\$	\$ 3,595	\$ 3,595
Accounts receivable (1)	39,693						39,693	39,693
Advances to suppliers (1)	3,617						3,617	3,617
Liabilities								
Payable to growers (1)	\$ 4,389	\$	\$	\$	\$	\$	\$ 4,389	\$ 4,389
Accounts payable (1)	7,743						7,743	7,743
Current borrowings pursuant to credit facilities (1)	28,760						28,760	28,760
Fixed-rate long-term obligations (2)	5,460	5,384	5,264	4,732	1,222	472	22,534	22,306

- (1) We believe the carrying amounts of cash and cash equivalents, accounts receivable, advances to suppliers, payable to growers, accounts payable, and current borrowings pursuant to credit facilities approximate their fair value due to the short maturity of these financial instruments.
- (2) Fixed-rate long-term obligations bear interest rates ranging from 1.8% to 5.7% with a weighted-average interest rate of 3.1%. We believe that loans with a similar risk profile would currently yield a return of 2.5%. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$550,000.

Except for the buyout option for Calavo Salsa Lisa, LLC, as mentioned on Note 16 on Form 10-K for our fiscal year ended October 31, 2011, we were not a party to any derivative instruments during the fiscal year. It is currently our intent not to use derivative instruments for speculative or trading purposes. Additionally, we do not use any hedging or forward contracts to offset market volatility.

Our Mexican-based operations transact business in Mexican pesos. Funds are transferred by our corporate office to Mexico on a weekly basis to satisfy domestic cash needs. Historically, the consistency of the spot rate for the Mexican peso has led to a small-to-moderate impact on our operating results. We do not anticipate using derivative instruments to hedge fluctuations in the Mexican peso to U.S. dollar exchange rates during fiscal 2012. Total foreign currency gains for the three months ended January 31, 2012, and 2011, net of losses, was less than \$0.1 million.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting during the quarter ended January 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in litigation in the ordinary course of business, none of which we believe will have a material adverse impact on our financial position or results of operations.
