Filed Pursuant to Rule 424(b)(3)

Registration No. 333-185120

To the Stockholders of Cymer, Inc.:

I want to thank all of you for your confidence in Cymer, Inc. (referred to as Cymer) and tell you how much I am looking forward to the next chapter in the company's history as we become an integral part of ASML Holding N.V. (referred to as ASML). As you know, ASML and Cymer have entered into an Agreement and Plan of Merger, dated as of October 16, 2012, providing for the acquisition of Cymer by ASML, contemplating a merger of a wholly owned subsidiary of ASML into Cymer. If the merger is completed, holders of Cymer common stock (referred to as Cymer stockholders) will receive 1.1502 ordinary shares, nominal value EUR 0.09 per share, of ASML (referred to as ASML ordinary shares) and \$20.00 in cash, without interest thereon, for each share of common stock, par value US \$0.001 per share, of Cymer (referred to as Cymer common stock) owned by them. Based on the closing price of ASML ordinary shares on the NASDAQ Global Select Market (referred to as NASDAQ) on October 16, 2012, the last trading day before public announcement of the merger, the merger consideration represented \$81.64 in value for each share of Cymer common stock. Based on the closing price of ASML ordinary shares on NASDAQ on January 2, 2013, the last trading day before the date of this proxy statement/prospectus, the merger consideration represented \$96.81 in value for each share of Cymer common stock. ASML ordinary shares currently are traded on NASDAQ under the symbol ASML, and Cymer common stock currently is traded on NASDAQ under the symbol CYMI. I urge you to obtain current market quotations of ASML and Cymer common stock.

Pursuant to the terms of the merger agreement, an indirect wholly owned subsidiary of ASML will be merged with and into Cymer, with Cymer surviving as an indirect wholly owned subsidiary of ASML. Following the effective time of this merger, we expect that Cymer will merge with and into a wholly owned limited liability company subsidiary of ASML, with the limited liability company subsidiary surviving the second merger as a wholly owned subsidiary of ASML (we refer to the transactions described in this paragraph, collectively, as the merger).

Based on the number of shares of Cymer common stock and ASML ordinary shares outstanding on December 31, 2012, former Cymer stockholders will own approximately 8.1% of the issued and outstanding ASML ordinary shares immediately after completion of the merger.

Cymer and ASML cannot complete the merger unless Cymer stockholders approve the merger agreement. For the purpose of obtaining this approval, Cymer is holding a special meeting of its stockholders on Tuesday, February 5, 2013 at 10:00 a.m. local time at Cymer's offices at 17075 Thornmint Court., San Diego, California 92127 (referred to as the special meeting). The proposal to approve the merger agreement will be approved if the holders of a majority of the outstanding shares of Cymer common stock entitled to vote at the special meeting vote to approve the merger agreement. No vote of the shareholders of ASML is required in connection with the transactions contemplated by the merger agreement.

Cymer stockholders also are being asked to vote on a proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the proposal to approve the merger agreement and on a non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger. The proposal to adjourn the meeting and the advisory proposal to approve certain compensation arrangements will be approved if the number of votes cast in favor of such proposal exceeds the number of votes cast in opposition to such proposal, assuming that a quorum is present.

Your vote is very important, regardless of the number of shares you own. Whether or not you expect to attend the special meeting in person, please submit a proxy to vote your shares as promptly as possible so that your shares may be represented and voted at the special meeting.

The Cymer board of directors unanimously determined that the merger agreement, the merger and the other transactions contemplated thereby are in the best interests of Cymer and its stockholders and adopted the merger agreement. **The Cymer board of directors unanimously recommends that Cymer stockholders vote FOR the proposal to approve the merger agreement, FOR the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the proposal to approve the merger agreement and FOR the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.** A failure to vote, failure to instruct a bank, broker or nominee or abstention from voting will have the same effect as votes **AGAINST** the proposal to approve the merger agreement.

The obligations of ASML and Cymer to complete the merger are subject to the satisfaction or waiver of several conditions. The accompanying proxy statement/prospectus contains detailed information about ASML, Cymer, the special meeting, the merger agreement and the merger. You should read this proxy statement/prospectus carefully and in its entirety before voting, including the section entitled Risk Factors beginning on page 38.

Once again, thank you for your support as a Cymer stockholder.

Sincerely,

Robert Akins

Chief Executive Officer, Cymer, Inc.

1. to consider and vote on the proposal to approve the Agreement and Plan of Merger, dated as of October 16, 2012, by and among ASML Holding N.V., a Netherlands public limited liability company (*naamloze vennootschap*) (ASML), Kona Acquisition Company, Inc., a Nevada corporation and a wholly owned subsidiary of Holdco, and Cymer and, solely for the purposes set forth therein, ASML US Inc., a Delaware corporation and an indirect wholly owned subsidiary of ASML (Holdco) and Kona Technologies, LLC, a Nevada limited liability company and a wholly owned subsidiary of Holdco, as may be amended, a copy of which is included as Annex A to the proxy statement/prospectus of which this notice forms a part;
2. to consider and vote on a proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposal; and
3. to consider and vote on a non-binding advisory proposal to approve certain compensation arrangements for Cymer s named executive officers in connection with the merger.

Please refer to the proxy statement/prospectus of which this notice forms a part for further information with respect to the business to be transacted at the special meeting.

The Cymer board of directors (the Cymer Board) unanimously determined that the merger agreement, the merger and the other transactions contemplated thereby are in the best interests of Cymer and its stockholders and adopted the merger agreement. **The Cymer Board unanimously recommends that Cymer stockholders vote FOR the proposal to approve the merger agreement, FOR the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the proposal to approve the merger agreement and FOR the non-binding advisory proposal to approve certain compensation arrangements for Cymer s named executive officers in connection with the merger.**

QUESTIONS AND ANSWERS

The following are some questions that you, as a stockholder of Cymer, Inc. (referred to as Cymer) may have regarding the merger and the special meeting and the answers to those questions. ASML Holding N.V. (referred to as ASML) and Cymer urge you to read carefully the remainder of this proxy statement/prospectus because the information in this section does not provide all the information that might be important to you with respect to the merger and the special meeting. Additional important information is also contained in the annexes to and the documents incorporated by reference into this proxy statement/prospectus. All references in this proxy statement/prospectus to the merger agreement mean the Agreement and Plan of Merger, dated October 16, 2012, by and among ASML, Kona Acquisition Company, Inc. (referred to as Merger Sub), and Cymer and, solely for the purposes set forth therein, ASML US Inc. (referred to as Holdco) and Kona Technologies, LLC (referred to as Merger Sub 2), as amended. Generally, references in this proxy statement/prospectus to the merger should, unless the context otherwise requires, be read to mean the merger of Merger Sub into Cymer (referred to as the first step merger) and the merger of Cymer into Merger Sub 2 (referred to as the second step merger), as part of an integrated plan, and otherwise be read to mean the first step merger.

Q: What is the proposed merger and why are Cymer and ASML proposing the merger?

A: Cymer, ASML, Holdco, Merger Sub and Merger Sub 2 have entered into the merger agreement pursuant to which Cymer will be acquired by ASML. Under the merger agreement, Merger Sub, a direct wholly owned subsidiary of Holdco, which is an indirect wholly owned subsidiary of ASML, will merge with and into Cymer, with Cymer continuing as the surviving entity and as a direct wholly owned subsidiary of Holdco. Pursuant to the merger agreement, immediately after the first step merger becomes effective, Cymer will merge with and into Merger Sub 2, a direct wholly owned subsidiary of Holdco, with Merger Sub 2 continuing as the surviving entity and as a direct wholly owned subsidiary of Holdco. In addition, Cymer common stock will be delisted from the NASDAQ Global Select Market (referred to as NASDAQ) and deregistered under the Securities Exchange Act of 1934, as amended (referred to as the Exchange Act), and Cymer will no longer file periodic reports with the SEC on account of Cymer common stock.

In the course of reaching their decisions to adopt the merger agreement, each of the board of directors of Cymer (referred to as the Cymer Board) and ASML's Supervisory Board (referred to as the Supervisory Board) and Board of Management (referred to as the Board of Management) considered a number of important factors in their separate deliberations. For more details on these, see The Merger Reasons for the Merger and Recommendation of the Cymer Board and The Merger ASML's Reasons for the Merger.

Q: What is this document?

A: This is a proxy statement/prospectus filed by Cymer and ASML. It will have the effect of registering under the U.S. securities laws the ordinary shares, nominal value EUR 0.09 per share, of ASML (referred to as ASML ordinary shares) to be issued in connection with the merger. In addition, it informs holders of Cymer common stock (referred to as Cymer stockholders) of the upcoming special meeting of Cymer stockholders at which Cymer stockholders will vote on a proposal to approve the merger agreement and provides details of the merger agreement and the consideration Cymer stockholders will receive upon completion of the merger. It also provides Cymer stockholders with important details about ASML and their rights as potential holders of ASML ordinary shares, and it will be used to solicit proxy votes for the special meeting.

Q: Why did I receive this proxy statement/prospectus and proxy card?

A: You are receiving this proxy statement/prospectus because you have been identified as a Cymer stockholder and, as such, you are entitled to vote at the special meeting. This document serves as both a proxy statement of Cymer used to solicit proxies for the special meeting, and as a prospectus of ASML used to offer ASML ordinary shares in exchange for shares of Cymer common stock pursuant to the terms of the merger agreement. This document contains important information about the merger and the special meeting, and you should read it carefully.

Table of Contents

Q: How will the merger occur?

A: The merger will be effected by Merger Sub merging with and into Cymer, with Cymer surviving the merger and becoming an indirect wholly owned subsidiary of ASML, and Cymer stockholders will be entitled to receive the merger consideration. Immediately thereafter, Cymer will merge with and into Merger Sub 2, with Merger Sub 2 surviving the second step merger as a wholly owned subsidiary of ASML.

Q: What will a Cymer stockholder receive in the merger?

A: If the merger is completed, Cymer stockholders will receive 1.1502 ASML ordinary shares and \$20.00 in cash, without interest thereon, for each share of Cymer common stock owned by them.

Q: Will I receive fractional interests in ASML ordinary shares?

A: No. In lieu of fractional shares, each Cymer stockholder otherwise entitled to a fractional ASML ordinary share will be entitled to receive cash in an amount equal to the product obtained by multiplying (i) the average of the last reported sales price of ASML ordinary shares, as reported on NASDAQ, on each of the last five trading days ending on the third trading day immediately preceding the closing date (referred to as the ASML Share Price) by (ii) the fraction of an ASML ordinary share to which such holder would otherwise be entitled.

Q: What will a holder of options to purchase Cymer common stock receive in the merger?

A: At the effective time of the merger, each outstanding Cymer stock option that has vested will be cancelled and the holder of each such option will be entitled to receive a cash payment equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) the ASML Share Price and (2) 1.1502, over (ii) the per share exercise price of such Cymer stock option.

Each unvested Cymer stock option will be assumed by ASML and will be converted into an option to purchase ASML ordinary shares. Each option to purchase ASML ordinary shares as so assumed and converted will continue to have, and will be subject to, the same terms and conditions as applied to the Cymer stock option immediately prior to completion of the merger, except that each option to purchase ASML ordinary shares as so assumed and converted will be for a number of ASML ordinary shares equal to the product of (i) the number of shares of Cymer common stock subject to such Cymer stock option immediately prior to completion of the merger and (ii) the sum of (A) 1.1502 plus (B) (1) \$20.00 divided by (2) the ASML Share Price (the sum in (ii) referred to as the Stock Award Exchange Ratio), at an exercise price per ASML ordinary share equal to the quotient obtained by dividing (x) the exercise price per share of Cymer common stock subject to such Cymer stock option by (y) the Stock Award Exchange Ratio.

Q: What will a holder of Cymer restricted stock units receive in the merger?

A: At the effective time of the merger, each outstanding Cymer restricted stock unit that is not vested will be assumed by ASML and converted into a restricted stock unit award to acquire ASML ordinary shares. Each restricted stock unit as so assumed and converted will continue to have, and will be subject to, the same terms and conditions as applied to the Cymer restricted stock units immediately prior to completion of the merger, except that each restricted stock unit as so assumed and converted will be for that number of ASML ordinary shares equal to the product of (i) the number of shares of Cymer common stock underlying such Cymer restricted stock unit multiplied by (ii) the Stock Award Exchange Ratio.

Q: Where are ASML ordinary shares traded?

A: ASML ordinary shares are listed for trading in the form of registered shares on NASDAQ and in the form of registered shares on NYSE Euronext in Amsterdam (referred to as Euronext Amsterdam). The principal trading market of ASML ordinary shares is Euronext Amsterdam.

Table of Contents

Q: If the merger is completed, will Cymer stockholders be able to trade the ASML ordinary shares that they receive in the merger?

A: Yes. The ASML ordinary shares you will receive if the merger is completed will be freely tradable (unless held by an affiliate of ASML) and will be listed on NASDAQ using the symbol ASML.

Q: What equity stake will former Cymer stockholders hold in ASML following completion of the merger?

A: Based on the number of shares of Cymer common stock and ASML ordinary shares outstanding on December 31, 2012, it is anticipated that former Cymer stockholders will own approximately 8.1% of the issued and outstanding ASML ordinary shares immediately after completion of the merger.

Q: When do you expect the merger to be completed?

A: ASML and Cymer intend to complete the merger as soon as reasonably possible and expect the completion of the merger to occur in the first half of 2013. However, the merger is subject to certain regulatory approvals and the satisfaction or waiver of other conditions, and it is possible that factors outside the control of ASML and Cymer could result in the merger being completed at a later time or not at all. There may be a substantial amount of time between the special meeting and the completion of the merger.

Q: Is ASML's obligation to complete the merger subject to ASML receiving financing?

A: No. ASML is obligated to complete the merger, in accordance with the terms and subject to the conditions set forth in the merger agreement, regardless of whether it has secured any financing it may require in order to pay the cash portion of the merger consideration to Cymer stockholders.

Q: What happens if the merger is not completed?

A: If Cymer stockholders do not approve the proposal to approve the merger agreement or if the merger is not completed for any other reason, Cymer stockholders will not receive any payment for their shares of Cymer common stock in connection with the merger. Instead, Cymer will remain an independent public company and shares of Cymer common stock will continue to be listed and traded on NASDAQ. Under certain circumstances, Cymer may be required to pay ASML a termination fee of \$75 million as described in The Merger Agreement Expenses and Termination Fees.

Q: What regulatory approvals are needed to complete the merger?

A: Under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended (referred to as the HSR Act), ASML and Cymer cannot complete the merger until they have filed certain information and materials with the Federal Trade Commission and the Antitrust Division of the U.S. Department of Justice and the applicable waiting period under the HSR Act has expired or been terminated. Cymer and ASML filed their respective notification and report forms under the HSR Act with the FTC and the Antitrust Division on November 9, 2012. Each party subsequently received a request for additional information (referred to as a second request) from the Antitrust Division in connection with the pending merger. ASML and Cymer intend to continue to work with the Antitrust Division and to comply promptly with these second requests. At any time before or after the completion of the merger, the Antitrust Division, the FTC, or a state attorney general could take any action under U.S. federal or state antitrust laws as it deems necessary or desirable in the public interest, including seeking to enjoin the merger in federal court or seeking the divestiture of substantial assets of ASML, Cymer, or their subsidiaries and affiliates. State attorneys general and private parties may also bring legal actions under U.S. federal or state antitrust laws under certain circumstances. There can be no assurance that a challenge to the merger on antitrust grounds will not be made or, if a challenge is made, of the result of the challenge. Clearances and consents or the expiration or termination of applicable waiting periods under competition laws in Germany, Israel, Japan, South Korea and Taiwan also are conditions to the merger. On December 17, 2012, the required clearances were received under the competition laws in Germany. In addition, ASML and Cymer have agreed that the merger is conditioned upon the favorable review of the merger by the Committee on Foreign Investments in the United States (referred to as CFIUS). This condition was satisfied on January 3, 2013, when CFIUS notified the parties that there are no unresolved national security concerns with respect to the merger, and that CFIUS review was therefore concluded.

Table of Contents

Q: What other conditions must be satisfied to complete the merger?

A: In addition to receipt of the regulatory approvals described above, Cymer and ASML are not required to complete the merger unless a number of other conditions are satisfied or waived. These conditions include, among others: (i) approval of the merger agreement by the Cymer stockholders, (ii) the absence of any governmental order, law, or legal restraint prohibiting the consummation of the merger and (iii) the listing of the ASML ordinary shares to be issued to Cymer stockholders as consideration in the merger on NASDAQ having been authorized. Additionally, ASML is not required to complete the merger if there is any pending action or proceeding by any governmental entity of competent jurisdiction challenging or seeking to make illegal, to delay materially or otherwise directly or indirectly to prohibit the consummation of the merger.

For a more complete summary of the conditions that must be satisfied or waived prior to completion of the merger, see *The Merger Agreement* *Conditions to the Merger* beginning on page 103.

Q: Can the value of the merger consideration to be received by Cymer stockholders change between now and the time the merger is completed?

A: Yes. A significant portion of the consideration Cymer stockholders will receive upon completion of the merger will be ASML ordinary shares. The exchange ratio will not change even if the market prices of Cymer common stock or ASML ordinary shares fluctuate. Therefore, the market value of the ASML ordinary shares that Cymer stockholders will receive if the merger is completed will fluctuate up or down with fluctuations in the market price of ASML ordinary shares.

Q: What are the U.S. federal income tax consequences of the merger to Cymer stockholders?

A: The first step merger and the second step merger are intended to be treated as a single integrated transaction for U.S. federal income tax purposes. Consequently, the merger will be treated as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (referred to as the Code). Accordingly, U.S. holders of Cymer common stock generally will recognize gain (but not loss) in an amount equal to the lesser of (i) the holder's gain realized (i.e., the excess, if any, of the sum of the amount of cash and the fair market value of the ASML ordinary shares received over the holder's adjusted tax basis in its shares of Cymer common stock surrendered) and (ii) the amount of cash received pursuant to the merger.

You should read *The Merger* *Certain U.S. Federal Income Tax Consequences of the Merger* beginning on page 78 for a more complete discussion of the U.S. federal income tax consequences of the merger.

Tax matters can be complicated, and the tax consequences of the merger to you will depend on your particular circumstances. You should consult your tax advisor to determine the tax consequences of the merger to you.

Q: After the merger is completed, how will I receive the merger consideration?

A: As promptly as practicable after the merger is completed, but no later than five business days following the completion of the merger, ASML will cause the exchange agent to mail to each holder of record of Cymer common stock a form of letter of transmittal and instructions for use in effecting the exchange of Cymer common stock for the merger consideration. Upon the receipt of proper documentation from a Cymer stockholder by the exchange agent, the exchange agent will deliver (i) certificates (or electronic equivalents) representing the number of ASML ordinary shares into which such shares of Cymer common stock shall have been converted in the merger, and (ii) a check for an amount equal to \$20.00 multiplied by the number of shares of Cymer common stock to be converted, plus any cash due in lieu of fractional shares.

Q: Where and when will the special meeting be held?

A: The special meeting of Cymer stockholders will be held at Cymer's corporate headquarters, 17075 Thornmint Court, San Diego, California 92127, on Tuesday, February 5, 2013 at 10:00 a.m., local time.

Table of Contents

Q: What matters will be voted on at the special meeting?

A: There are three proposals that require a stockholder vote at the special meeting. First, you will be asked to vote on a proposal to approve the merger agreement. You also will be asked to vote on a proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the merger agreement. You also will be asked to vote on a non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Q: What is the recommendation of the Cymer Board in regard to each proposal that may be voted on at the special meeting?

A: The Cymer Board unanimously determined that the merger agreement, the merger and the other transactions contemplated by the merger agreement are in the best interests of Cymer and its stockholders and adopted the merger agreement. The Cymer Board unanimously recommends that Cymer stockholders vote **FOR** the proposal to approve the merger agreement.

The Cymer Board recommends that Cymer stockholders vote **FOR** the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the proposal to approve the merger agreement.

The Cymer Board recommends that Cymer stockholders vote **FOR** the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Q: Who is entitled to vote at the special meeting?

A: The record date for the special meeting is January 7, 2013. Only holders of record of shares of Cymer common stock as of the close of business on the record date are entitled to notice of, and to vote at, the special meeting or any adjournment or postponement of the special meeting. If you are a registered Cymer stockholder planning on attending the special meeting, please be prepared to provide proper identification, such as a driver's license. If you hold your shares in street name, you will need to provide proof of ownership, such as a recent account statement or letter from your bank, broker or other nominee, along with proper identification to attend the special meeting.

Q: What constitutes a quorum at the special meeting?

A: Cymer stockholders who hold shares of Cymer common stock representing at least a majority of the outstanding shares of Cymer common stock entitled to vote at the special meeting must be present in person or represented by proxy to constitute a quorum for the transaction of business at the special meeting. If a quorum is not present at the special meeting, Cymer stockholders, by a majority of the voting power represented in person or by proxy may adjourn the special meeting to another time or place without further notice unless a new record date is fixed for the adjourned meeting, in which case a notice of the adjourned meeting shall be given to each Cymer stockholder of record entitled to vote at the special meeting. Abstentions and broker non-votes will be included in the calculation of the number of shares of Cymer common stock represented at the special meeting for purposes of determining whether a quorum has been achieved.

Q: How many votes do I have?

A: Cymer stockholders are entitled to one vote for each share of Cymer common stock owned as of the close of business on the record date. As of December 31, 2012, there were 31,369,689 shares of Cymer common stock outstanding and entitled to vote at the special meeting.

Table of Contents

Q: What vote is required to approve the merger agreement?

A: Approval of the merger agreement requires the affirmative vote of holders of a majority of the outstanding shares of Cymer common stock entitled to vote at the special meeting. As of December 31, 2012, 31,369,689 shares of Cymer common stock were outstanding and entitled to vote at the special meeting. As a result, assuming this number of shares outstanding is unchanged as of the close of business on the record date, 15,684,845 shares of Cymer common stock need to vote in favor of the proposal to approve the merger agreement for that proposal to be approved. Failures to vote, votes to abstain and broker non-votes will have the same effect as votes **AGAINST** the proposal to approve the merger agreement.

Q: What vote is required to approve the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the proposal to approve the merger agreement?

A: If a quorum is present at the special meeting, the proposal to adjourn the special meeting will be approved if the votes cast in favor of the proposal exceed the votes cast in opposition to the proposal. In that case, failure to vote, abstentions and broker non-votes will have no effect on the proposal to adjourn the special meeting. If a quorum is not present at the special meeting, the proposal to adjourn the special meeting may be approved and the special meeting may be adjourned by a majority of the voting power represented at the special meeting in person or by proxy. In that case, broker non-votes will have no effect on the proposal to adjourn the special meeting, although failure to vote and abstentions will have the same effect as votes **AGAINST** the proposal to adjourn the special meeting.

Q: What vote is required to approve the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger?

A: The non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition to the proposal. Failure to vote, abstentions and broker non-votes will have no effect on the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Q: If I am a stockholder of record of Cymer common stock, how do I vote?

A: If, on the record date, your shares of Cymer common stock were registered directly in your name with Cymer's transfer agent, American Stock Transfer & Trust Company, LLC, then you are a stockholder of record with respect to those shares.

If you are the stockholder of record with respect to your shares of Cymer common stock, you may vote in person at the special meeting or by proxy.

To vote in person, come to the special meeting, and you will receive a ballot when you arrive.

If you do not wish to vote in person or if you will not be attending the special meeting, you may vote by proxy. You can vote by proxy over the Internet, by mail, or by telephone by following the instructions provided in the proxy card.

Cymer provides Internet proxy voting to allow you to vote your shares of Cymer common stock on-line, with procedures designed to ensure the authenticity and correctness of your proxy vote instructions. However, please be aware that you must bear any costs associated with your Internet access, such as usage charges from Internet access providers and telephone companies.

Table of Contents

Q: If I am a beneficial owner of Cymer common stock held in street name, how do I vote?

A: If, on the record date, your shares of Cymer common stock were held in an account at a brokerage firm, bank, broker-dealer or other similar organization, then you are the beneficial owner of shares of Cymer common stock held in street name, and the organization holding your account is considered the stockholder of record for purposes of voting at the special meeting.

If you are a beneficial owner of shares of Cymer common stock registered in the name of your broker, bank, dealer or other similar organization, and you wish to vote in person at the special meeting, you must obtain a valid proxy from the organization that holds your shares of Cymer common stock. If you do not wish to vote in person or you will not be attending the special meeting, you should have received a proxy card and voting instructions with this proxy statement/prospectus from that organization. Please follow the voting instructions provided by your broker, bank, dealer or other similar organization to ensure that your vote is counted.

Q: What happens if I do not make specific voting choices?

A: *Stockholder of Record:* If you are a Cymer stockholder of record and you:

indicate when voting on the Internet or by telephone that you wish to vote as recommended by the Cymer Board, or

sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares of Cymer common stock in the manner recommended by the Cymer Board on all matters presented in this proxy statement/prospectus and, therefore, **FOR** the proposal to approve the merger agreement, **FOR** the proposal to adjourn the special meeting and **FOR** the non-binding proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Beneficial Owner of Shares Held in Street Name: If you are a beneficial owner of shares of Cymer common stock held in street name and do not provide the organization that holds your shares of Cymer common stock with specific instructions, under the rules of NASDAQ, the organization that holds your shares of Cymer common stock may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares of Cymer common stock does not receive instructions from you on how to vote your shares of Cymer common stock on a non-routine matter, such as the proposal to approve the merger agreement, the organization that holds your shares of Cymer common stock will inform the inspector of elections for the special meeting that it does not have the authority to vote on this matter with respect to your shares of Cymer common stock. This is generally referred to as a broker non-vote. When the inspector of elections for the special meeting tabulates the votes for any particular matter, broker non-votes will be counted for purposes of determining whether a quorum is present, but will not otherwise be counted. In connection with the special meeting, broker non-votes will have the same effect as a vote **AGAINST** the proposal to approve the merger agreement. Broker non-votes will have no effect on the proposal to adjourn the special meeting or the non-binding proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger. You should therefore provide voting instructions to the organization that holds your shares of Cymer common stock by carefully following the instructions provided in this proxy statement/prospectus.

Q: Can I change my vote or revoke my proxy after I have returned a proxy or voting instruction card?

A: Yes. You may revoke your proxy and change your vote at any time before the final vote at the special meeting.

Stockholder of Record: If you are a Cymer stockholder of record, you may revoke your proxy in any one of the following ways:

You may send a written notice that you are revoking your proxy to the Corporate Secretary of Cymer, Inc., 17075 Thornmint Court, San Diego, California 92127.

Edgar Filing: ASML HOLDING NV - Form 424B3

You may send a subsequent properly completed proxy card in accordance with the instructions in this proxy statement/prospectus.

Table of Contents

You may grant a subsequent proxy by telephone or through the Internet.

You may attend the special meeting, revoke the proxy in writing and vote in person. Your attendance at the special meeting will not automatically revoke your proxy unless you vote again at the special meeting or specifically request in writing that your prior proxy be revoked.

The most current proxy card or telephone or Internet proxy the inspector of elections for the special meeting receives is the one that is counted.

Beneficial Owner of Shares Held in Street Name: If you are a beneficial owner of shares of Cymer common stock held in street name, you will need to follow the instructions included on the proxy form provided to you by your broker regarding how to change your vote.

Q: What should I do if I receive more than one set of voting materials?

A: You may receive more than one set of voting materials, including multiple copies of this proxy statement/prospectus and multiple proxy cards or voting instruction cards. For example, if you hold your shares of Cymer common stock in more than one brokerage account, you will receive a separate voting instruction card for each brokerage account in which you hold your shares of Cymer common stock. If you are a holder of record and your shares of Cymer common stock are registered in more than one name, you will receive more than one proxy card. In order to ensure that all of your shares of Cymer common stock are voted at the special meeting, **please complete, sign, date and return each proxy card and voting instruction card that you receive.**

Q: Do I need to do anything with my shares of Cymer common stock other than voting for the proposals at the special meeting?

A: After the merger is completed, each share of Cymer common stock you hold will be converted automatically into the right to receive the merger consideration. You will receive instructions at that time regarding exchanging your shares for ASML ordinary shares and cash. You do not need to take any action at this time. Please do not send your Cymer stock certificates with your proxy card.

Q: Are stockholders entitled to dissenters' rights of appraisal?

A: No. Pursuant to the Nevada Revised Statutes 92A.390, no dissenter's rights or rights of appraisal will apply in connection with the merger.

Q: When should I submit my proxy?

A: You should submit your proxy as soon as possible so that your shares of Cymer common stock will be voted at the special meeting.

Q: What do I need to do now?

A: Carefully read through this proxy statement/prospectus. Consider all the consequences that would occur should you vote **FOR** or **AGAINST** or **ABSTAIN** on the proposal to approve the merger agreement or fail to submit a proxy. Confer with any advisors you think necessary to make the best decision. Fill out your proxy card and send it back to Cymer as soon as possible, or plan to attend and vote at the special meeting.

Q: What happens if I sell my shares of Cymer common stock before the special meeting?

A: The record date for the special meeting is earlier than the date of the special meeting and the date that the merger is expected to be completed. If you transfer your shares of Cymer common stock after the record date but before the special meeting, you will retain your right to vote at the special meeting, but will have transferred the right to receive the merger consideration in the merger. In order to receive the merger consideration, you must hold your shares of Cymer common stock through the effective date of the merger.

Table of Contents

Q: What happens if I do not respond?

A: Failure to respond will have the effect of a vote against the proposal to approve the merger agreement. Failure to respond will have no effect on the proposal to adjourn the special meeting or the non-binding proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Q: Are there risks associated with the merger that I should consider in deciding how to vote?

A: Yes. You should carefully read the detailed description of the risks associated with the merger and ASML's operations following the merger described in Risk Factors beginning on page 38.

Q: Who can help answer my questions?

A: The information provided above in the question-and-answer format is for your convenience only and is merely a summary of some of the information contained in this proxy statement/prospectus. Table of Contents

Factors beginning on page 38, together with the other information included or incorporated by reference in this proxy statement/prospectus. These risks include, without limitation, the following:

The market price of ASML ordinary shares may decline following the completion of the merger or during the period of time between the date of this proxy statement/prospectus and the date on which Cymer stockholders are entitled to receive ASML ordinary shares pursuant to the merger agreement;

Cymer and ASML may be unable to obtain the regulatory approvals required to complete the merger or may incur significant costs in doing so;

Failure to timely complete the proposed merger could disrupt Cymer's and ASML's business plans and operations; and

Cymer and ASML may not achieve the expected benefits of the proposed transaction.

The Special Meeting of Cymer Stockholders (see page 45)

The special meeting is scheduled to be held at Cymer's corporate headquarters, 17075 Thornmint Court, San Diego, California 92127 on Tuesday, February 5, 2013 at 10:00 a.m., local time.

At the special meeting, Cymer stockholders will be asked to consider and vote on:

a proposal to approve the merger agreement;

a proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposal; and

a non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Only holders of record of Cymer common stock at the close of business on Monday, January 7, 2013, the record date for the special meeting, will be entitled to notice of, and to vote at, the special meeting or any adjournments or postponements thereof. Holders of record of Cymer common stock on the record date are entitled to one vote per share at the special meeting on each proposal.

You may vote **FOR** or **AGAINST** or you may **ABSTAIN** from voting on each proposal. The proposal to approve the merger agreement requires the affirmative vote of the holders of a majority of the outstanding shares of Cymer common stock entitled to vote at the special meeting. If a quorum is present at the special meeting, the proposal to adjourn the special meeting will be approved if the votes cast in favor of the proposal exceed the votes cast in opposition of the proposal. voting power represented in person or by proxy at the special meeting.

Table of Contents

Reasons for the Merger and Recommendation of the Cymer Board (see page 57)

At its meeting held on October 16, 2012, the Cymer Board unanimously (i) adopted the merger agreement, (ii) determined that the merger agreement, the merger and the other transactions contemplated by the merger agreement are in the best interests of Cymer and its stockholders, (iii) directed that the merger agreement be submitted to the Cymer stockholders for approval at the special meeting, and (iv) determined to recommend that the Cymer stockholders vote in favor of the approval of the merger agreement.

In adopting the merger agreement, the Cymer Board considered a variety of factors in favor of the merger, which are discussed in further detail in *The Merger Reasons for the Merger and Recommendation of the Cymer Board* on page 56.

The Cymer Board unanimously recommends that Cymer stockholders vote FOR the proposal to approve the merger agreement, FOR the proposal to approve the adjournment of the special meeting, if it is necessary or appropriate, to solicit additional proxies if there are not sufficient votes to adopt the merger agreement and FOR the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Opinion of Goldman, Sachs & Co. as Financial Advisor to Cymer (see page 60)

Goldman Sachs & Co. (referred to as Goldman Sachs) delivered its opinion to the Cymer Board that, as of October 16, 2012, and based upon and subject to the factors and assumptions set forth therein, the merger consideration to be paid to holders (other than ASML and its affiliates) of shares of Cymer common stock pursuant to the merger agreement was fair from a financial point of view to such holders.

The full text of the written opinion of Goldman Sachs, dated October 16, 2012, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Annex B. Goldman Sachs provided its opinion for the information and assistance of the Cymer Board in connection with its consideration of the merger. The Goldman Sachs opinion is not a recommendation as to how any Cymer stockholder should vote with respect to the merger agreement or any other matter. Pursuant to an engagement letter between Cymer and Goldman Sachs, Cymer has agreed to pay Goldman Sachs a transaction fee based on a percentage of the aggregate consideration to be paid pursuant to the merger agreement. As of January 2, 2013 such fee is estimated to be approximately \$34.5 million, based on the closing price of ASML ordinary shares for the five trading days ending January 2, 2013, \$6.0 million of which became payable upon execution of the merger agreement and the remainder of which is payable immediately prior to consummation of the merger.

Certain U.S. Federal Income Tax Consequences of the Merger (see page 78)

The first step merger and the second step merger are intended to be treated as a single integrated transaction for U.S. federal income tax purposes. Consequently, the merger will be treated as a reorganization within the meaning of Section 368(a) of the Code. Accordingly, U.S. holders of Cymer common stock generally will recognize gain (but not loss) in an amount equal to the lesser of (i) the holder's gain realized (i.e., the excess, if any, of the sum of the amount of cash and the fair market value of the ASML ordinary shares received over the holder's adjusted tax basis in its shares of Cymer common stock surrendered) and (ii) the amount of cash received pursuant to the merger. See *The Merger Certain U.S. Federal Income Tax Consequences of the Merger* beginning on page 77 for a more complete discussion of the U.S. federal income tax consequences of the merger.

Delisting and Deregistration of Cymer Common Stock (see page 49)

Upon consummation of the merger, the Cymer common stock currently listed on NASDAQ will cease to be listed on NASDAQ and subsequently will be deregistered under the Exchange Act.

Table of Contents

No Dissenters' Rights (see page 49)

Pursuant to Nevada Revised Statutes 92A.390, no dissenters' rights or rights of appraisal will apply in connection with the merger.

The Merger Agreement (see page 88)

A copy of the merger agreement is attached as Annex A to this proxy statement/prospectus. ASML and Cymer encourage you to read the entire merger agreement carefully because it is the principal document governing the merger. For more information on the merger agreement, see the section entitled "The Merger Agreement" beginning on page 88.

Merger Consideration (see page 88)

The merger agreement provides that each share of Cymer common stock outstanding immediately prior to the consummation of the merger (other than shares owned by ASML, Holdco, Merger Sub, Merger Sub 2, any other wholly owned subsidiary of ASML, or held in the treasury of Cymer or owned by any wholly owned subsidiary of Cymer (referred to as excluded shares)) will be converted into the right to receive from Holdco (i) \$20.00 in cash, without interest thereon (referred to as the cash consideration) and (ii) 1.1502 ASML ordinary shares (referred to as the stock consideration and, collectively with the cash consideration, the merger consideration). No fractional ASML ordinary shares will be issued. In lieu of fractional ASML ordinary shares, Cymer stockholders that would otherwise be entitled to a fractional ASML ordinary share will receive cash in an amount equal to the product of the ASML Share Price and the fractional ASML ordinary share to which such holder would otherwise be entitled.

In addition, for the purposes of complying with requirements of Dutch law, upon consummation of the merger, each holder of Cymer capital stock (other than holders of excluded shares) will be entitled to receive the Euro par value amount required to satisfy the pay up obligation resulting from the deemed subscription, described below, by each Cymer stockholder (other than holders of excluded shares) of the amount of whole ASML ordinary shares to be issued to such holder (referred to as the Dutch Compensation Amount), such entitlement to receive the Dutch Compensation Amount to be set off against such pay up obligation. By virtue of the merger, each Cymer stockholder will be deemed to have subscribed for the ASML ordinary shares to be issued to such holder pursuant to the merger. In accordance with the laws of the Netherlands, each Cymer stockholder, as a result of such deemed subscription, will be obligated to pay up such ASML ordinary shares in an amount, determined solely for the purpose of satisfying such obligation, equal to the Dutch Compensation Amount to which such holder is entitled by virtue of the merger. Such obligation will be satisfied by such Cymer stockholder upon exchange of certificates (or evidence of shares in book entry form) by set off by ASML of such obligation against the right of such Cymer Stockholder to receive from ASML the Dutch Compensation Amount, and will have no effect on the receipt by a Cymer stockholder of the merger consideration.

Treatment of Cymer Stock Options and Restricted Stock Units (see page 89)

Upon consummation of the merger, each option to purchase shares of Cymer common stock that has vested will be converted into an amount in cash for each share of Cymer common stock underlying such option equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) 1.1502 and (2) the ASML Share Price, over (ii) the per share exercise price of such Cymer stock option. Each unvested option to purchase Cymer common stock will be assumed by ASML and converted into an option to purchase a number of ASML ordinary shares equal to the product of (i) the number of shares of Cymer common stock subject to such Cymer stock option prior to completion of the merger and (ii) the Stock Award Exchange Ratio, and the exercise price for each ASML ordinary share underlying such option will be equal to the exercise price per share of Cymer common stock subject to such Cymer stock option divided by the Stock Award Exchange Ratio.

Table of Contents

Upon consummation of the merger, each restricted stock unit of Cymer that has vested will be converted into the right to receive the merger consideration. Each unvested restricted stock unit of Cymer will be assumed by ASML and converted into a number of ASML restricted stock units equal to the product of (i) the number of shares of Cymer common stock underlying such Cymer restricted stock unit multiplied by (ii) the Stock Award Exchange Ratio.

Interests of Certain Persons in the Merger (see page 72)

Cymer executive officers and directors have interests in the merger that are different from, or in addition to, the interests of Cymer stockholders generally. The Cymer Board was aware of these potentially differing interests and considered them, among other matters, in reaching its decision to adopt the merger agreement and approve the merger and to recommend that you vote in favor of the proposal to approve the merger agreement.

For further information with respect to arrangements between Cymer and its named executive officers, see the information included under Advisory Vote on Merger-Related Compensation for Cymer's Named Executive Officers Golden Parachute Compensation beginning on page 108.

No Solicitation of Transactions (see page 96)

Under the terms of the merger agreement, Cymer agreed to immediately cease any activities, discussions or negotiations existing on the date of the merger agreement with any third party with respect to any acquisition proposal. Notwithstanding these general prohibitions, subject to certain conditions, if at any time prior to the approval of the merger agreement by the Cymer stockholders, Cymer receives a bona fide acquisition proposal from a third party and the Cymer Board determines in good faith (after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel) that such acquisition proposal constitutes, or would reasonably be expected to lead to a superior acquisition proposal and the third party making such a proposal executes a confidentiality agreement having provisions that are no less restrictive in the aggregate than those of the confidentiality agreement entered into between Cymer and ASML, Cymer may:

furnish information or data or access with respect to Cymer and its subsidiaries to such third party; and

participate in discussions and negotiations directly or through its representatives with such third party.

Notwithstanding the foregoing provisions of the merger agreement, prior to the Cymer stockholders' approval of the merger agreement, the Cymer Board (or any committee of the Cymer Board) may withhold, withdraw, qualify or modify (or publicly propose to do so) its recommendation that Cymer stockholders approve the merger agreement, and Cymer, the Cymer Board or a committee of the Cymer Board may approve, recommend or endorse (or publicly propose to do so) an acquisition proposal made after the date of the merger agreement and which was not solicited, initiated, encouraged or facilitated in breach of the non-solicitation obligations described in The Merger Agreement Covenants No Solicitation of Transactions, or recommend against the approval of the merger agreement and Cymer may terminate the merger agreement, in response to an acquisition proposal made after the date of the merger agreement, if:

the Cymer Board determines in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, that the acquisition proposal constitutes a superior acquisition proposal, if the acquisition proposal did not result from a breach of the non-solicitation provisions of the merger agreement;

the Cymer Board determines in good faith, after consultation with, and taking into account the advice of, its outside legal counsel, that failure to take such action would reasonably be expected to constitute a violation of its fiduciary duties;

Cymer promptly notifies ASML in writing at least four business days before taking such action of the Cymer Board's intention to do so, attaching the most current version of any proposed agreement under which such acquisition proposal is proposed to be consummated and the identity of the third party making the proposal;

within four business days after receipt of such written notification (or within two business days after Cymer has provided notice to ASML of an amendment to the financial terms or other material terms of such acquisition proposal), ASML has not made an offer that the Cymer Board determines, in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, is at least as favorable to the Cymer stockholders as such other acquisition proposal; and

the Cymer Board, after taking into account any modifications to the terms of the merger agreement proposed by ASML, continues to believe that the alternative acquisition proposal constitutes a superior acquisition proposal.

Conditions to the Merger (see page 103)

Each party's obligation to effect the merger is subject to satisfaction or waiver, at or prior to the closing of the merger, of the following conditions:

the approval of the merger agreement and the merger by the affirmative vote of the holders of a majority of the total voting power of the outstanding shares of Cymer common stock;

the absence of any law, temporary restraining order, executive order, decree, ruling, judgment or injunction or other order of a court or governmental entity of competent jurisdiction preventing the consummation of the transactions contemplated by the merger agreement;

the expiration or termination of all applicable waiting periods under the HSR Act;

the receipt of any required clearances and consents required to be obtained under specified foreign merger control laws, and the expiration or termination of any applicable waiting period thereunder;

the receipt of the approval of CFIUS;

the approval for trading of the ASML ordinary shares issuable in connection with the merger on NASDAQ, subject to official notice of issuance; and

the effectiveness of the registration statement of which this proxy statement/prospectus forms a part and the absence of any stop order or proceedings threatened or initiated by the SEC for that purpose and not withdrawn.

In addition, Cymer's obligation to effect the merger is subject to satisfaction or waiver of the following additional conditions:

the representations and warranties of ASML must be true and correct in the manner described under "The Merger Agreement - Conditions to the Merger";

the performance and compliance by ASML, Holdco, Merger Sub and Merger Sub 2 in all material respects of their obligations to be performed or complied with on or prior to the closing date of the merger under the merger agreement;

Edgar Filing: ASML HOLDING NV - Form 424B3

the receipt by Cymer of a certificate executed by a senior executive officer of ASML certifying the satisfaction of the foregoing conditions;

since the date of the merger agreement, the absence of any change, state of facts, circumstance, occurrence, event or development that, individually or in the aggregate with any other change, state of facts, circumstance, occurrence, event or development, has had or would reasonably be expected to have an ASML material adverse effect as described under The Merger Agreement Representations and Warranties.

The obligations of ASML, Holdco, Merger Sub and Merger Sub 2 are further subject to the satisfaction or waiver of the following additional conditions:

the representations and warranties of Cymer must be true and correct in the manner described under The Merger Agreement Conditions to the Merger ;

the performance and compliance by Cymer in all material respects of its obligations to be performed and complied with on or prior to the closing date of the merger under the merger agreement;

the receipt by ASML of a certificate executed by a senior executive officer of Cymer certifying the satisfaction of the foregoing conditions;

since the date of the merger agreement, the absence of any change, state of facts, circumstance, occurrence, event or development that, individually or in the aggregate with any other change, state of facts, circumstance, occurrence, event or development, has had or would reasonably be expected to have a Cymer material adverse effect as described under The Merger Agreement Representations and Warranties ; and

the absence of any pending action or proceeding by any governmental entity of competent jurisdiction challenging or seeking to make illegal, to delay materially or otherwise directly or indirectly to prohibit the consummation of the merger.

Termination (see page 105)

The merger agreement may be terminated at any time prior to the effective time of the merger, whether before or after the Cymer stockholder approval, as follows:

by the mutual written consent of ASML and Cymer;

by either ASML or Cymer (provided that these rights to terminate the merger agreement will not be available to any party whose willful and material breach of the merger agreement was the proximate cause of such failure to consummate the merger) if:

any court or governmental entity issues an order or takes any other action permanently restraining, enjoining or otherwise prohibiting the merger and such order or other action shall have become final and non-appealable;

the Cymer stockholders fail to approve the merger agreement at the special meeting or any adjournment or postponement thereof; or

the merger is not consummated on or before the termination date of July 16, 2013, provided that, subject to certain conditions, this termination date may be extended to October 16, 2013 by either Cymer or ASML by written notice to the other party;

by ASML if:

Cymer has breached or failed to perform any of its representations, warranties, covenants or agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to the consummation of the merger and (ii) is incapable of being cured by Cymer by the termination date or, if capable of being cured, is not cured by Cymer by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from ASML and (B) the termination date; provided, however, that ASML will not have the right to terminate the merger agreement under these conditions if ASML is then in breach of its representations, covenants or agreements such that certain conditions to the consummation of the merger are incapable of being satisfied by the termination date;

the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event; or

Cymer fails to include the Cymer Board's recommendation to Cymer stockholders to approve the merger agreement in this proxy statement/prospectus;

by Cymer if:

prior to the effective time of the merger, ASML, Holdco, Merger Sub or Merger Sub 2 has breached or failed to perform any of their respective representations, warranties, covenants or

agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to consummation of the merger set forth in the merger agreement and (ii) is incapable of being cured by ASML, Holdco, Merger Sub or Merger Sub 2 by the termination date or, if capable of being cured, is not cured by ASML, Holdco, Merger Sub or Merger Sub 2 by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from Cymer and (B) the termination date; provided, however, that Cymer will not have this right to terminate the merger agreement if it is then in breach of its representations, covenants or agreements such that certain conditions to consummation of the merger are incapable of being satisfied by the termination date; or

prior to the special meeting, the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event.

Expenses and Termination Fees (see page 106)

All costs and expenses incurred by the parties in connection with the merger agreement and the transactions contemplated thereby are to be paid by the party that has incurred such costs and expenses, whether or not the merger is consummated. However, Cymer must pay ASML a termination fee of \$75,000,000 if:

the merger agreement is terminated by ASML because:

the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event;

Cymer fails to include the Cymer Board's recommendation to Cymer stockholders to approve the merger agreement in this proxy statement/prospectus;

Cymer has breached or failed to perform any of its representations, warranties, covenants or agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to consummation of the merger set forth in the merger agreement and (ii) is incapable of being cured by the termination date or, if capable of being cured, is not cured by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from ASML and (B) the termination date, if (1) Cymer's breach that gave rise to such right of termination was willful and (2) prior to the willful breach giving rise to such termination any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise disclosed to Cymer and not in good faith withdrawn and within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction;

the merger agreement is terminated by Cymer because the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event; or

the merger agreement is terminated by ASML or Cymer because:

the Cymer stockholders fail to approve the merger agreement at the special meeting or any adjournment or postponement thereof, if prior to the special meeting any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise publicly disclosed and not in good faith withdrawn, the Cymer Board does not change its recommendation to Cymer stockholders to approve the merger agreement and within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction; or

Table of Contents

the merger is not consummated on or before July 16, 2013 (or any date to which the termination date is extended, but not later than October 16, 2013), if (i) prior to such termination, any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise disclosed and not in good faith withdrawn, (ii) prior to such termination Cymer has not held the special meeting, (iii) at the time of such termination, all conditions to consummation of the merger (other than approval of the merger agreement by the Cymer stockholders) have been satisfied or waived (other than those conditions that by their nature are to be satisfied at the closing, but subject to such conditions remaining capable of satisfaction) and (iv) within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction.

Comparison of Rights of Holders of ASML Shareholders and Cymer Stockholders (see page 114)

As a result of the merger, Cymer stockholders will become holders of ASML ordinary shares, and will have different rights as holders of ASML ordinary shares than they had as holders of shares of Cymer common stock. The differences between the rights of these respective holders result from the differences between Dutch and Nevada law and the respective governing documents of ASML and Cymer. For additional information, please see *Comparison of Rights of Holders of ASML Shareholders and Cymer Stockholders* beginning on page 114.

Litigation Related to the Merger (see page 86)

On October 29, 2012, a putative shareholder class action complaint was filed against Cymer, the Cymer Board, ASML, Holdco, Merger Sub and Merger Sub 2 in the District Court of Clark County, Nevada, captioned *Jerome v. Cymer, Inc. et al.*, Case No. A-12-671009-C (Eighth Judicial Dist. Clark County, Nevada), challenging the merger and seeking, among other things, compensatory damages, attorneys' and experts' fees and injunctive relief concerning the alleged breaches of fiduciary duty and to prohibit the defendants from consummating the merger. The plaintiff subsequently amended the complaint on November 28, 2012.

The lawsuit generally alleges, among other things, that the merger agreement was reached through an unfair process, that the merger consideration is inadequate, that the merger agreement unfairly caps the price of Cymer common stock, that the merger agreement's no solicitation provision and other deal protection devices have precluded other bidders from making successful competing offers for Cymer, and that the preliminary proxy statement/prospectus filed in connection with the merger contains material misstatements and/or omissions. The lawsuit alleges that ASML aided and abetted the alleged breaches of fiduciary duties.

On December 31, 2012, the parties entered into a memorandum of understanding to settle the lawsuit. While the defendants believe that the lawsuit is without merit, in order to eliminate the burden, expense and uncertainties inherent in further litigation, the defendants have agreed, as part of the memorandum of understanding and without admitting to the validity of any allegations made in the lawsuit, to make certain additional disclosure requested by the plaintiff in this proxy statement/prospectus. The memorandum of understanding contemplates that the parties will enter into a stipulation of settlement. The stipulation of settlement will be subject to customary conditions, including certain confirmatory discovery and court approval following notice to Cymer's stockholders. If the settlement is finally approved by the court, it will resolve and release all claims in all actions that were or could have been brought challenging any aspect of the merger, the merger agreement, and any disclosure made in connection therewith (other than claims to enforce the settlement). There can be no assurance that the parties will ultimately enter into a stipulation of settlement or that the District Court of Clark County, Nevada will approve the settlement even if the parties were to enter into such stipulation. In such event, the proposed settlement as contemplated by the memorandum of understanding may be terminated.

- (1) As of January 1, 2011, ASML adopted Accounting Standards Update (ASU) 2009-13, Revenue Arrangements with Multiple Deliverables which amended ASC 605-25. The ASU was adopted prospectively and had an insignificant impact on timing and allocation of revenues.
- (2) As of January 1, 2008, ASML accounts for award credits offered to its customers as part of a volume purchase agreement using the deferred revenue model. Until December 31, 2007, ASML accounted for award credits using the cost accrual method. The comparative figures for 2007 have been adjusted to reflect this change in accounting policy.
- (3) The calculation of diluted net income (loss) per ordinary share assumes the exercise of options issued under ASML stock option plans, the issuance of shares under ASML share plans and the conversion of ASML's outstanding Convertible Subordinated Notes for periods in which exercises, issuances or conversions would have a dilutive effect. The calculation of diluted net income (loss) per ordinary share does not assume exercise, issuance of shares or conversion of such options, shares or conversion of convertible subordinated notes (converted in 2007) for periods in which such exercises, issuance of shares or conversions would be anti-dilutive.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The unaudited pro forma condensed combined financial information of ASML and Cymer has been prepared under the acquisition method in accordance with accounting principles generally accepted in the United States of America (referred to as GAAP), and is based on the historical consolidated financial statements of both ASML and Cymer. The unaudited pro forma condensed combined financial information of ASML and Cymer is based on ASML's accounting policies. ASML performed a preliminary assessment of the differences in accounting policies and financial statement presentation between ASML and Cymer. The review of the accounting policies and presentation is not yet complete and policy differences may be identified.

The unaudited pro forma condensed combined financial information includes certain adjustments, which we believe to be reasonable, to give effect to the merger, which are described in the notes below. The historical financial information has been adjusted to give effect to pro forma items that are: (1) directly attributable to the acquisition, (2) factually supportable, and (3) with respect to the statements of operations, expected to have a continuing impact on the consolidated results. However, the unaudited pro forma condensed combined financial information does not give effect to the impact, if any, of additional costs and cost savings that may result from the merger. The unaudited pro forma condensed combined balance sheet was prepared as if the merger occurred as of September 30, 2012. The unaudited pro forma condensed combined statements of operations for the year ended December 31, 2011 and the nine months ended September 30, 2012 were prepared as if the merger had occurred as of January 1, 2011. This unaudited pro forma condensed combined financial information should be read in conjunction with the historical financial statements and related notes of ASML and Cymer, both incorporated by reference into this proxy statement/prospectus.

The unaudited pro forma condensed combined financial information reflects ASML as the acquirer for accounting and legal purposes. Accordingly, consideration paid by ASML in connection with the merger will be allocated to Cymer's assets and liabilities based upon their fair values as of the date of the consummation of the merger. The notes to the unaudited pro forma condensed combined financial information provide a more detailed discussion of how such adjustments were derived and presented in the unaudited pro forma condensed combined financial information. The allocation of the purchase price is dependent upon a final determination of the fair value of Cymer's assets and liabilities as of the date of the consummation of the merger. Accordingly, the pro forma purchase price adjustments are preliminary, subject to future adjustments and have been made solely for the purpose of providing the unaudited pro forma condensed combined financial information presented below. Final determinations of fair market value may differ materially from those presented herein.

The unaudited pro forma condensed combined results of operations do not include any anticipated cost reductions from the elimination of redundant public company expenses that management believes will be specifically identified during the cooperative planning process or after consummation of the merger. The unaudited pro forma condensed combined financial information has been compiled from historical financial statements and other information, but do not purport to represent the actual combined financial position or results of operations had the merger occurred on the dates indicated, or to project financial performance for any future periods.

The unaudited pro forma condensed combined balance sheet does not include the impact of the synthetic share buyback. On November 24, 2012, ASML executed the synthetic share buyback, which involved five consecutive changes to ASML's articles of association pursuant to which (i) ordinary shares class M were created and all ASML ordinary shares held by the Customer Stichtingen were converted into class M ordinary shares and all other ASML ordinary shares were converted into ordinary shares class A, (ii) the par value of the ordinary shares class A was increased at the expense of the share premium reserve, (iii) the issued share capital was reduced by decreasing the nominal value of the ordinary shares class A resulting in repayment of an amount of EUR 9.18 per share to holders of ordinary shares class A or to holders of ASML ordinary shares into which the ordinary shares A were converted, (iv) the ordinary shares class A were exchanged at a ratio of 77 for 100

Table of Contents

and (v) the ordinary shares class M and the ordinary shares class A were cancelled and the ordinary shares class M and the ordinary shares class A were converted into ASML ordinary shares. As of December 31, 2012, there were 407,205,077 ASML ordinary shares issued and outstanding (excluding treasury shares).

Cymer's consolidated financial statements have historically been presented in US dollars (USD). The consolidated financial information of Cymer is reported in Euro (EUR) within the unaudited pro forma condensed combined financial information. The presentation of Cymer's consolidated financial statements in EUR was applied retrospectively. The balance sheet data of Cymer as of September 30, 2012, has been translated using an exchange rate of \$1.29 to 1.0 corresponding to the spot rate as of October 1, 2012. The statement of operations data of Cymer for the year ended December 31, 2011 has been translated using an average exchange rate during that period of \$1.40 to 1.0 and for the nine months ended September 30, 2012 using an average exchange rate during that period of \$1.29 to 1.0. The average exchange rate was computed using the average of prevailing exchange rates as of the end of each month during the reporting period as reported by the U.S. Federal Reserve Board.

Note 1 Basis of Preparation

The unaudited pro forma condensed combined financial information has been prepared on the basis of the assumptions described in these notes. The pro forma adjustments are based on estimates by ASML's management using information currently available. ASML has not completed its purchase price allocation for the merger, and the actual allocation may materially differ from the preliminary allocation. No pro forma adjustments were made to Property, plant and equipment, net as the Cymer register detail was not available and ASML management is not aware of any recent valuation reports on Cymer's Property, plant and equipment. The receipt of the final valuations and the impact of ongoing cooperation activities could cause material differences between actual and pro forma results in the information presented.

The unaudited pro forma condensed combined financial information is not necessarily indicative of the historical results that would have occurred had the merger taken place as of the dates indicated. Likewise, the pro forma combined provision for income taxes and the pro forma combined balances of deferred taxes may not represent the amounts that would have resulted had the entities filed consolidated income tax returns during the periods presented. In addition, they do not reflect additional costs and cost savings or other synergies resulting from the merger that may be realized in future periods.

Table of Contents

There are several pre-existing relationships between ASML and Cymer to be considered in the context of the merger. ASML and Cymer have a significant customer/supplier relationship, in addition to entering into several other collaboration agreements, particularly with regard to the development of next generation technology, specifically the EUV source R&D cooperation agreement and EUV source supply agreement. The implications of such pre-existing relationships will be fully assessed as part of the final purchase accounting to be completed upon consummation of the merger.

- 1(a) The preliminary purchase price allocation is subject to change based on finalization of the fair values of the tangible and intangible assets acquired and liabilities assumed as described above. The estimated purchase price of EUR 2,125 million has been calculated as follows:

Cymer common stock outstanding	31,126,409
Cymer vested stock units and options (*)	1,042,630
Total number of Cymer stock units (**)	32,169,039
Multiplied by per share cash consideration of 20.00 USD	15.46
Total estimated cash merger impact (EUR thousands)	497,333
Total number of Cymer stock units (**)	32,169,039
Multiplied by per share exchange ratio of 1.1502	1.1502
Estimated number of ASML ordinary shares to be issued	37,000,829
ASML market price per share as of October 31, 2012	42.45
Total estimated value of ASML ordinary shares to be issued (EUR thousands)	1,570,685
Estimated fair value compensated for Cymer unvested equity awards to be exchanged (***)	56,744
Total Purchase Price (EUR thousands)	2,124,762

- (*) ASML and Cymer have assumed that all vested options will be exercised prior to the closing of the merger. However, if some of these options are not exercised prior to the closing of the merger, those options will be cancelled and ASML would be required to make a cash payment for each option equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) the ASML Share Price and (2) 1.1502, over (ii) the per share exercise price of such option. Any cash payment for cancelled options, while impacting ASML's cash position, would have a limited effect on the total purchase consideration. The exercise price of the options has not been taken into account in these calculations.

- (**) For purposes of this subtotal, Cymer stock units are defined as common stock outstanding, vested restricted stock units and performance stock units, and vested and assumed exercised options as described above.

- (***) For the purposes of calculating the fair value of Cymer unvested equity awards to be exchanged, ASML has assumed that approximately 2.2 million ASML ordinary shares will be issued when all such equity awards vest.

Table of Contents

1(b) The estimated purchase price has been preliminarily assigned to the net tangible and intangible assets acquired and liabilities assumed as follows (in EUR thousands):

Purchase price	2,124,762
<i>Preliminary allocation of purchase price</i>	
Cymer net assets	635,334
<i>Adjustments to historical book values</i>	
To record inventory at FV	90,281(1)
To record intangibles at FV	823,049(2)
Write-off historical goodwill	(13,275)
Write-off historical intangibles	(6,954)
	893,101
Deferred tax impact	(369,312)
Implied goodwill	965,639

The unaudited pro forma condensed combined balance sheet has been adjusted to reflect the preliminary allocation of the preliminary estimated purchase price to identifiable net assets acquired with the excess recorded as goodwill. The purchase price allocation in the unaudited pro forma condensed combined financial information is based on a purchase price of approximately EUR 2,125 million. The actual value of ASML ordinary shares issued in the merger will be based on the trading price of ASML ordinary shares upon consummation of the merger. For each EUR 1 change in the price of ASML ordinary shares, the estimated purchase price will increase or decrease by approximately EUR 39 million, which would result in an increase or decrease of goodwill, respectively.

The preliminary allocation adjustments are as follows:

- (1) Reflects the adjustment of the historical Cymer inventories to estimated fair value.
- (2) To record intangible assets at their estimated fair value. As part of the preliminary purchase price allocation process, ASML has identified the following estimated fair values of intangible assets acquired (in EUR thousands):

Trademarks and trade names	26,679
Developed technology	406,537
In-process technology	198,783
Customer relationships	191,050
	823,049

Final purchase price adjustments related to the intangible assets valuation may differ materially from the numbers stated above.

Note 2 Pro forma adjustments

The adjustments to the accompanying unaudited pro forma condensed combined balance sheet as of September 30, 2012 are described below:

- Cash and cash equivalents*: To record the payment of cash consideration to Cymer stockholders in the amount of EUR 497 million, representing the entitlement of EUR 15.46 (USD 20.00) per share. Given that the exact shareholding ownership composition is

uncertain, ASML and Cymer have also applied

Table of Contents

the assumption that no fractional shares will be cash settled for the purposes of this unaudited pro forma financial information. No adjustments have been made to cash and cash equivalents for the assumed exercise of vested options before the closing of the merger that is reflected in this unaudited pro forma condensed combined financial information.

- (b) *Accounts receivable, net and accounts payable*: Represents the settlement of the net amount due from ASML to Cymer of EUR 15 million.
- (c) *Inventories, net*: Reflects the adjustment of the historical Cymer inventories to estimated fair value. Because this adjustment is directly attributed to the merger and will not have a continuing impact, it is not reflected in the unaudited pro forma condensed combined statements of combined operations. However, this inventory adjustment will result in an increase in cost of sales in the periods subsequent to the consummation of the merger during which the related inventories are sold.
- (d) *Other current assets*: Represents the settlement of prepayments from ASML to Cymer for products not yet delivered of EUR 49 million.
- (e) *Goodwill*: Represents the elimination of EUR 13 million of existing goodwill of Cymer and the assignment of EUR 966 million of goodwill attributable to the merger. See note 1 (b) above for the calculation of implied goodwill.
- (f) *Other intangible assets, net*: Represents the elimination of EUR 7 million of existing intangible assets of Cymer and the recording of EUR 823 million identifiable intangible assets attributable to the merger. See note 1 (b) above for the estimated fair values of the intangibles assets acquired.

Definite lived intangible assets are expected to consist of trademarks and trade names, developed technology, in-process technology and customer relationships.

The estimated fair values for this pro forma presentation for part of the developed technology and the trade marks and trade names were measured using the relief-from-royalty method. This method assumes the trade marks and trade names and developed technology have value to the extent that the owner is relieved of the obligation to pay royalties for the benefits received from them. Significant assumptions required for this method are projected revenues that can be attributed to the related intangible assets, the appropriate royalty rates and the appropriate discount rates.

The estimated fair values for this pro forma presentation for part of the developed technology, the customer relationships, and in-process technology were measured using the multi-period excess earnings method. The principle behind this method is that the value of an intangible asset is equal to the present value of the incremental after-tax cash flows attributable only to the subject intangible asset. Significant assumptions required for this method are projected revenues that can be attributed to the related intangible assets, profitability of these revenues and the appropriate discount rates.

- (g) *Deferred and other tax liabilities*: An adjustment to deferred tax liabilities representing the deferred income tax liability based on the U.S. federal and state statutory rate of 40.7% multiplied by the fair value adjustments was made to assets acquired and liabilities assumed, excluding goodwill. This does not reflect ASML's effective tax rate, which will include other tax items such as state and foreign taxes as well as other tax charges and benefits, and does not take into account any historical or possible future tax events that may impact the combined company. The adjustment was calculated as follows (in EUR thousands):

Fair value adjustments of identifiable intangible assets	816,095
Inventory fair market value step-up	90,281
	906,376

Edgar Filing: ASML HOLDING NV - Form 424B3

Statutory tax rate	40.7%
Deferred tax liability adjustment	369,312

Table of Contents

- (h) *Total shareholder's equity*: The overall increase in shareholder's equity is made up of the following adjustments:

The elimination of Cymer's historical equity accounts in the amount of EUR 635 million.

To record the issuance of 37 million ASML ordinary shares in exchange for the 32 million Cymer stock units, at the ASML publicly traded share price on October 31, 2012 of EUR 42.45 for a total of EUR 1,570 million. ASML and Cymer have assumed that all vested options will be exercised prior to the closing of the merger without taking into account the exercise price of such options. However, if some of these vested options are not exercised prior to the closing of the merger, those options will be cancelled and ASML would be required to make a cash payment for each option equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) the ASML Share Price and (2) 1.1502, over (ii) the per share exercise price of such option. Any cash payment for cancelled options would impact ASML's cash position and have a corresponding effect on total shareholder's equity. The value of the ASML equity to be issued will vary based on the ASML ordinary share price at the closing date and the ratio of cash to stock merger consideration, both of which are subject to change.

To record the value of ASML unvested equity awards to be granted in exchange for Cymer unvested equity awards at the closing date, of an estimated EUR 57 million.

The adjustments to the accompanying unaudited pro forma condensed combined statements of operations for the 12 months ended December 31, 2011 and nine months ended September 30, 2012 are described below:

- (i) *Net system sales*: To eliminate the sales recorded by Cymer for the sale of products to ASML of EUR 149 million and EUR 90 million for the 12 months ended December 31, 2011 and the nine months ended September 30, 2012, respectively.

- (j) *Cost of sales*: The overall credit to cost of sales is made up of the following adjustments:

An adjustment to cost of system sales matching the adjustment to Net system sales for Cymer's sales to ASML of EUR 149 million for the 12 months ended December 31, 2011 and EUR 90 million for the nine months ended September 30, 2012. This adjustment reflects the expectation that the gross margin on Cymer's sales to ASML will be additive to ASML's gross margin subsequent to the closing of the merger.

To reflect the adjustment to amortization expense for the net increase in estimated fair value of the acquired intangible assets. The allocation of amortization expense between cost of services and cost of system sales was based on the character of the associated intangible assets. These adjustments generated a net increase in amortization expense in the amount of EUR 44 million for the 12 months ended December 31, 2011 and EUR 35 million for the nine months ended September 30, 2012. All intangible assets except for in-process technology were assumed to have commenced their useful lives, which range from 7 to 15 years, as of the effective time of the merger.

An adjustment to stock-based compensation expense of EUR 2 million and EUR 1 million for the 12 months ended December 31, 2011 and the nine months ended September 30, 2012, respectively. See (l) below for further detail.

- (k) *Research and development costs*: The increase in research and development costs is made up of the following adjustments:

To reflect the adjustment to amortization expense for the net increase in estimated fair value of the acquired in-process technology of EUR 10 million for the nine months ended September 30, 2012. The useful life of in-process technology is estimated to commence

Edgar Filing: ASML HOLDING NV - Form 424B3

15 months after the closing of the merger, or April 1, 2012 for purposes of the unaudited pro forma condensed combined statements of operations.

Table of Contents

An adjustment to stock-based compensation expense of EUR 3 million and EUR 1 million for the 12 months ended December 31, 2011 and the nine months ended September 30, 2012, respectively. See (l) below for further detail.

- (l) *Selling, general and administrative costs:* An adjustment was estimated based on the 63% purchase premium which existed at October 17, 2012, the announcement date of the merger. This premium represents the increase in the value of the awards expected upon the closing of the merger and thus results in increased compensation expense to be recorded over the remaining vesting period of the awards. Upon review of the composition of equity awards an estimated allocation was made between Cost of system sales, R&D and SG&A based on the estimated nature of services rendered by the grantee of the equity awards as follows (in EUR thousands):

	For the 12 months ended December 31, 2011	For the nine months ended September 30, 2012
Cost of system sales	2,252	762
Research and development costs	2,852	965
Selling, general and administrative costs	3,984	1,348
	9,088	3,075

- (m) *Provision for income taxes:* The decrease in the provision for income taxes is made up of the following adjustments:

To record the income tax related to the effect of the pro forma adjustments for amortization at the applicable statutory rate of 40.7%. This credit amounted to EUR 18 million for the 12 months ended December 31, 2011 and EUR 19 million for the nine months ended September 30, 2012.

To record the income tax related to the stock-based compensation expense at the applicable statutory rate of 40.7%. This credit amounted to EUR 3 million for the 12 months ended December 31, 2011 and EUR 1 million for the nine months ended September 30, 2012.

- (n) *Earnings per share:* Reflects the estimated issuance of 37 million ASML ordinary shares to Cymer shareholders in exchange for all shares of Cymer common stock outstanding upon closing of the merger. For consistency, all ASML ordinary shares issued in connection with the merger are assumed to be outstanding for both the 12 months ended December 31, 2011 and the nine months ended September 30, 2012. Dilution is the result of the estimated 2.2 million ASML unvested equity awards granted to Cymer stockholders in exchange for existing Cymer unvested equity awards at the time of the merger. For consistency, all of these awards are assumed to be unvested for both the 12 months ended December 31, 2011 and the nine months ended September 30, 2012, and thus included in diluted earnings per share for both periods.
- (o) *Items not included:* The following material nonrecurring charges related to the merger which are not included in the unaudited pro forma combined statements of operations:

An estimated EUR 90 million of expense related to the release of the estimated fair market value step-up of Cymer's finished goods inventory. The estimated fair market value step-up is considered nonrecurring as it would be amortized over the first inventory turn, which is estimated to be less than 12 months.

An estimated EUR 25 million of ASML's one-time transaction costs related to the merger.

An estimated \$40 million of Cymer's one-time transaction costs related to the merger.

Table of Contents**COMPARATIVE PER SHARE INFORMATION**

The following table shows per share data regarding book value per share and earnings (loss) per share from continuing operations for ASML and Cymer on a historical and on a pro forma basis extracted from the data as presented in this proxy statement/prospectus in the section entitled Unaudited Pro Forma Condensed Combined Financial Information. The pro forma combined book value per share information was computed as if the merger had occurred as of September 30, 2012. The pro forma earnings per share information was computed as if the merger had occurred as of January 1, 2011. The Cymer pro forma combined equivalent information was calculated by multiplying the corresponding pro forma combined data by the exchange ratio of 1.1502 ASML ordinary shares for each share of Cymer common stock held. This information is intended to illustrate how each share of Cymer common stock would have participated in the combined company's earnings per share and book value per share if the merger had been completed on the relevant dates. These amounts are provided for illustrative purposes only and do not necessarily reflect future amounts of earnings per share and book value per share of ASML.

The following comparative per share information is derived from the historical consolidated financial statements of each of Cymer and ASML. The information below should be read in conjunction with the sections entitled Selected Historical Financial Data of ASML beginning on page 22, Selected Historical Financial Data of Cymer beginning on page 20 and Unaudited Pro Forma Condensed Combined Financial Information beginning on page 24 of this proxy statement/prospectus. See also Where You Can Find More Information and Incorporation of Certain Documents by Reference on pages 137 and 138, respectively.

Cymer's consolidated financial statements have historically been presented in US dollars. The presentation of Cymer's book value per share and earnings per share in EUR was applied retrospectively. RISK FACTORS

Investing in ASML ordinary shares involves risks, some of which are related to the merger. In considering whether to vote for the proposal to approve the merger agreement, you should carefully consider the risks described below, as well as the other information included in or incorporated by reference into this proxy statement/prospectus, including ASML's Annual Report on Form 20-F for the year ended December 31, 2011 and the risk factors relating to the semiconductor industry and to ASML described therein beginning on page 4 and the risk factors described in Cymer's Annual Report on Form 10-K for the year ended December 31, 2011 and Cymer's Quarterly Report on Form 10-Q for the quarters ended September 30, 2012, June 30, 2012 and March 31, 2012. The respective businesses of ASML and Cymer, as well as their respective financial condition or results of operations could be materially adversely affected by any of these risks, as well as other risks and uncertainties not currently known to ASML or Cymer or not currently deemed to be material.

Please see [Where You Can Find More Information](#) and [Incorporation of Certain Documents by Reference](#) on page 137 and 138, respectively, for information on where you can find the documents ASML and Cymer have filed with or furnished to the SEC and which are incorporated into this proxy statement/prospectus by reference.

Risks Related to the Merger

The market price of ASML ordinary shares may decline following the completion of the merger or during the period of time between the date of this proxy statement/prospectus and the date on which Cymer stockholders are entitled to receive ASML ordinary shares pursuant to the merger agreement.

At the effective time of the merger, each issued and outstanding share of Cymer common stock will be converted into the right to receive fixed consideration consisting of a fixed number of ASML ordinary shares and the cash consideration and, in lieu of fractional shares, an amount in cash equal to the product of the ASML Share Price and the fractional ASML ordinary share to which such holder would otherwise be entitled.

The stock consideration to be delivered to Cymer stockholders under the merger agreement is fixed at 1.1502 ASML ordinary shares for each share of Cymer common stock and will not be adjusted at any time to reflect changes in the market value of ASML ordinary shares.

The market price of ASML ordinary shares may decline at any time following the completion of the merger if, among other reasons:

the synergies expected by ASML and Cymer are not achieved;

the effect of the merger on the financial results of ASML is not consistent with the expectations of financial analysts or investors;

ASML shareholders sell a significant number of ASML ordinary shares after consummation of the merger, or Cymer stockholders who receive ASML ordinary shares under the merger agreement sell a significant number of ASML ordinary shares in the open market; or

ASML's financial results fail to meet the expectations of financial analysts or investors for any reason.

In addition, the market price of the ASML ordinary shares may fluctuate or decline during the period of time between the date of this proxy statement/prospectus and the date on which Cymer stockholders entitled to receive ASML ordinary shares pursuant to the merger agreement actually receive ASML ordinary shares. These fluctuations may be caused by changes in the businesses, operations, results and prospects of either Cymer or ASML, market expectations of the likelihood that the merger will be completed and the timing of the completion, general market and economic conditions or other factors. At the time Cymer stockholders cast their votes regarding the proposal to approve the merger agreement, Cymer stockholders will not know the actual market

Table of Contents

value of the ASML ordinary shares they will receive when the merger is completed. The actual market value of the ASML ordinary shares, when received by Cymer stockholders, will depend on the market value of those ASML ordinary shares on that date. This market value may be less than the value of the ASML ordinary shares at the time the merger agreement was signed or when the special meeting was held.

Cymer and ASML may be unable to obtain the regulatory approvals required to complete the merger.

Under the HSR Act, the merger may not be completed until notification and report forms have been filed with the U.S. Federal Trade Commission (referred to as the FTC), and the Antitrust Division of the U.S. Department of Justice (referred to as the Antitrust Division), and the applicable waiting period has expired or been terminated. Cymer and ASML filed their respective notification and report forms under the HSR Act with the FTC and the Antitrust Division on November 9, 2012. Each party subsequently received a second request from the Antitrust Division in connection with the pending merger. ASML and Cymer intend to continue to work with the Antitrust Division and to comply promptly with these second requests.

At any time before or after the completion of the merger, the Antitrust Division, the FTC, or a state attorney general could take any action under U.S. federal or state antitrust laws as it deems necessary or desirable in the public interest, including seeking to enjoin the merger in federal court or seeking the divestiture of substantial assets of ASML, Cymer, or their subsidiaries and affiliates. State attorneys general and private parties may also bring legal actions under U.S. federal or state antitrust laws under certain circumstances. There can be no assurance that a challenge to the merger on antitrust grounds will not be made or, if a challenge is made, of the result of the challenge.

Clearances and consents or the expiration or termination of applicable waiting periods under competition laws in Germany, Israel, Japan, South Korea, and Taiwan also are conditions to the merger. On December 17, 2012, the required clearances were received under the competition laws in Germany.

In addition, ASML and Cymer have agreed that the merger is also conditioned the favorable review of the merger by CFIUS. This condition was satisfied on January 3, 2013, when CFIUS notified the parties that there are no unresolved national security concerns with respect to the merger, and that CFIUS review was therefore concluded.

Cymer's executive officers and directors have interests in the merger that may be different from, or in addition to, the interests of Cymer stockholders generally.

Cymer's executive officers and directors have interests in the merger that may be different from, or in addition to, the interests of Cymer stockholders generally. These interests include:

some Cymer executives who are parties to change in control agreements with Cymer may become entitled to receive severance benefits, including vesting of their unvested equity, upon or after the closing of the merger in the event of their qualified termination of employment;

equity awards held by Cymer's outside directors that are unvested at the closing of the merger will accelerate upon the closing of the merger; and

certain Cymer executive officers may enter into employment agreements with ASML or the surviving corporation that would provide for continued employment, and payments and benefits, to these executives following the merger.

The Cymer Board was aware of these interests at the time it approved the merger and the transactions contemplated by the merger agreement. These interests may cause Cymer's directors and executive officers to view the merger proposal differently and more favorably than Cymer stockholders may view it. For further information with respect to these interests and arrangements between Cymer and its named executive officers, see the information included under "The Merger - Interests of Certain Persons in the Merger" beginning on page 72 and "Advisory Vote on Merger-Related Compensation for Cymer's Named Executive Officers - Golden Parachute Compensation" beginning on page 108.

Table of Contents

The merger agreement contains provisions that could discourage a potential competing acquiror of Cymer.

The merger agreement contains no solicitation provisions that, subject to limited exceptions, restrict Cymer's ability to solicit, initiate, or knowingly encourage, facilitate or induce third-party proposals for the acquisition of Cymer common stock or assets. See The Merger Agreement Covenants No Solicitation of Transactions beginning on page 96. In addition, ASML has an opportunity to offer to modify the terms of the merger in response to any competing acquisition proposals before the Cymer Board may withdraw or qualify its recommendation with respect to the merger. The merger agreement further provides that upon termination of the merger agreement under specified circumstances, including certain terminations in connection with an alternative business combination transaction as permitted by the terms of the merger agreement, Cymer may be required to pay ASML a termination fee of \$75.0 million. See The Merger Agreement Expenses and Termination Fees beginning on page 106.

These provisions could discourage a potential third-party acquiror that might have an interest in acquiring all or a significant portion of Cymer from considering or proposing that acquisition, even if it were prepared to pay consideration with a higher per share cash or market value than the merger consideration. These provisions might also result in a potential third-party acquiror proposing to pay a lower price to Cymer stockholders than it might otherwise have proposed to pay because of the added expense of the \$75.0 million termination fee that may become payable in certain circumstances.

If the merger agreement is terminated and Cymer determines to seek another business combination, Cymer may not be able to negotiate a transaction with another party on terms comparable to, or better than, the terms of the merger.

Cymer and ASML will incur transaction and integration costs in connection with the merger.

ASML and Cymer have incurred, and expect to continue to incur, significant costs in connection with the merger, including the fees of their respective professional advisors. ASML also will incur integration and restructuring costs following the completion of the merger as Cymer's operations are integrated with ASML's operations. The synergies anticipated to arise from the merger may not be achieved in the near term or at all, and if achieved, may not be sufficient to offset the costs associated with the merger. Unanticipated costs, or the failure to achieve expected synergies, may have an adverse impact on the results of operations of the combined company following the completion of the merger (referred to as the combined company).

The rights of Cymer stockholders will change as a result of the merger.

Following the completion of the merger, Cymer stockholders will no longer be stockholders of Cymer, a Nevada corporation, but will instead be shareholders of ASML, a Dutch public limited liability company. There are important differences between your current rights as a stockholder of Cymer, on the one hand, and the rights to which you will be entitled as a shareholder of ASML, on the other hand. For a more complete discussion, see Comparison of Rights of ASML Shareholders and Cymer Stockholders beginning on page 115.

ASML is a foreign private issuer under the rules and regulations of the SEC and foreign private issuers are exempt from a number of rules under the Exchange Act and are permitted to file less information with the SEC than a company incorporated in the United States.

As a foreign private issuer under the Exchange Act, ASML is exempt from certain rules under the Exchange Act, and is not required to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act, or to comply with Regulation FD, which restricts the selective disclosure of material nonpublic information. In addition, ASML will be exempt from certain disclosure and procedural requirements applicable to proxy solicitations under Section 14 of the Exchange Act. ASML's officers, directors and principal shareholders are exempt from the

Table of Contents

reporting and short-swing profit recovery provisions of Section 16 of the Exchange Act. Accordingly, there may be less publicly available information concerning ASML than there is for Cymer prior to the merger, and such information may not be provided as promptly as it is provided by Cymer prior to the merger.

Failure to timely complete the proposed merger could disrupt Cymer's and ASML's business plans and operations.

Although ASML and Cymer expect to complete the merger promptly after receiving Cymer stockholder approval at the special meeting, the transaction also is subject to governmental regulatory approvals and other customary closing conditions. The companies' inability to complete the merger on the expected schedule or at all likely would disrupt their operations and require the companies to revise their respective business plans, and otherwise could have a material adverse effect on each company's business and on the trading price of ASML ordinary shares and Cymer common stock. Moreover, if the merger is not completed, both companies will be subject to several risks, including having to pay certain costs relating to the merger and diverting the focus of their respective management teams from pursuing other opportunities that could be beneficial to ASML or Cymer, in each case, without realizing any of the benefits that might have resulted had the merger been completed.

The unaudited pro forma condensed combined financial information included in this proxy statement/prospectus is preliminary and the actual financial condition and results of operations after the merger may differ materially.

The unaudited pro forma condensed combined financial information in this proxy statement/prospectus is presented for illustrative purposes only and is not necessarily indicative of what ASML's actual financial condition or results of operations would have been had the merger been completed on the dates indicated. The pro forma condensed combined financial information reflects adjustments, which are based upon preliminary estimates, to record the Cymer identifiable assets acquired and liabilities assumed at fair value and the resulting goodwill and intangible assets recognized. The purchase price allocation reflected in this proxy statement/prospectus is preliminary, and final allocation of the purchase price will be based upon the actual purchase price and the fair value of the assets and liabilities of Cymer as of the date of completion of the merger. Accordingly, the final acquisition accounting adjustments may differ materially from the pro forma adjustments reflected in this proxy statement/prospectus. For more information, see Unaudited Pro Forma Condensed Combined Financial Information beginning on page 24. In addition, ASML performed a preliminary assessment of accounting policies and financial statement presentation. The review of the accounting policies and presentation is not yet complete and additional policy differences may be identified when completed, which may affect certain pro forma calculations.

Cymer stockholders will have a reduced ownership and voting interest after the merger.

Cymer stockholders currently have the right to vote in the election of the members of the Cymer Board and on other matters affecting Cymer. Upon the completion of the merger, each Cymer stockholder that receives ASML ordinary shares will become a shareholder of ASML with a percentage ownership of the combined company that is much smaller than such Cymer stockholder's percentage ownership of Cymer. It is expected that the former Cymer stockholders as a group will receive shares in the merger constituting less than 10% of the outstanding ASML ordinary shares immediately after the merger.

Risks Related to the Combined Business***Cymer and ASML may not achieve the expected benefits of the proposed transaction.***

ASML and Cymer entered into the merger agreement with the expectation that the proposed transaction will result in various benefits, including with respect to the development of EUV technologies. See The Merger Reasons for the Merger and Recommendation of Cymer's Board beginning on page 57 and The Merger ASML's Reasons for the Merger beginning on page 75. Some of those benefits may not be achieved or, if

Table of Contents

achieved, may not be achieved in the time frame in which they are expected. Whether the combined company will actually realize these anticipated benefits depends on future events and circumstances, some of which are beyond the parties' control. EUV sources are still under development, and it is not certain that the combined company will be able to introduce commercial EUV systems on time or at all. In addition, future growth in revenues, earnings and cash flow will be partly dependent on future economic conditions and conditions in the semiconductor industry. Also, the potential synergies that ASML and Cymer anticipate, including the expectation that the merger will make EUV development more efficient, may not be realized. In addition, other risk factors discussed below may prevent the achievement of the expected advantages of the proposed merger.

ASML's inability to effectively integrate the business and operations of Cymer with its own could disrupt its operations and force ASML to incur unanticipated costs.

ASML's ability to integrate Cymer's operations with its own will be important to the future success of the combined company. Successful integration is subject to numerous factors beyond ASML's control, including adverse general and regional economic conditions, general industry trends and competition. ASML's future performance will depend, in part, on ASML's ability to effectively integrate Cymer's operations with its own. The failure to do so could disrupt ASML's ongoing business, force ASML to incur unanticipated costs and adversely affect the trading price of ASML ordinary shares. If ASML is unable to realize the anticipated benefits of the merger due to its inability to address the challenges of integrating Cymer's business or for any other reason, it could have a material adverse effect on the combined company's financial condition and results of operations and require significant additional time on the part of its senior management dedicated to attempting to resolve integration issues.

If ASML is unable to retain key Cymer and/or ASML personnel after the merger is completed, ASML's business may suffer.

The success of the merger will depend in part on ASML's ability to retain key personnel currently employed by ASML and Cymer. There is no assurance that ASML will be able to retain key employees of either ASML or Cymer after the merger. Current and prospective employees of ASML and Cymer may experience uncertainty about their future roles with their company until after the merger is completed. This may adversely affect the ability of both companies to attract and retain key personnel. If key employees terminate their employment, or if insufficient numbers of employees are retained to maintain effective operations, management's attention might be diverted from successfully integrating Cymer's operations to hiring suitable replacements, and ASML's business might suffer. In addition, ASML might not be able to locate suitable replacements for any key employees that leave ASML or Cymer.

Risks Related to an Investment in ASML Ordinary Shares

ASML may not declare cash dividends at all or in any particular amounts in any given year.

ASML aims to pay an annual dividend that will be stable or growing over time. Annually, the Board of Management will, upon prior approval from the Supervisory Board, submit a proposal to the general meeting of ASML shareholders (referred to as the General Meeting) with respect to the amount of dividend to be declared with respect to the prior year. The dividend proposal in any given year will be subject to the availability of distributable profits or retained earnings and may be affected by, among other factors, the Board of Management's views on the potential future liquidity requirements, including for investments in production capacity, the funding of ASML's research and development programs and for acquisition opportunities that may arise from time to time; and by future changes in applicable income tax and corporate laws. Accordingly, it may be decided to propose not to pay a dividend or pay a lower dividend with respect to any given year, which could have a negative effect on the price of ASML ordinary shares.

Table of Contents

The price of ASML ordinary shares is volatile.

The current market price of ASML ordinary shares may not be indicative of prices that will prevail in the future. In particular, the market price of ASML ordinary shares has in the past experienced significant fluctuation, including fluctuation that is unrelated to ASML's performance. This fluctuation may continue in the future.

Restrictions on shareholder rights may dilute voting power.

ASML's articles of association (referred to as the articles of association) provide that ASML is subject to the provisions of Dutch law applicable to large corporations, called *structuurregime*. These provisions have the effect of concentrating control over certain corporate decisions and transactions in the hands of the Supervisory Board. As a result, holders of ASML ordinary shares may have more difficulty in protecting their interests in the face of actions by members of the Supervisory Board than if ASML was incorporated in the United States or another jurisdiction.

ASML's authorized share capital also includes a class of cumulative preference shares and ASML has granted the ASML preference share foundation (Stichting Preferente Aandelen ASML), an option to acquire, at their nominal value of EUR 0.09 per share, such cumulative preference shares (referred to as the preference share option). Exercise of the preference share option would effectively dilute the voting power of outstanding ASML ordinary shares by one-half, which may discourage or significantly impede a third party from acquiring a majority of voting shares.

The participating customers together own a significant amount of ASML ordinary shares.

In the customer co-investment program, Intel Corporation, Taiwan Semiconductor Manufacturing Company Ltd. and Samsung Electronics Corporation (collectively referred to as the participating customers) through certain wholly owned subsidiaries, acquired an interest in the share capital of ASML of 15%, 5% and 3%, respectively (following the synthetic share buyback).

The interests of the participating customers may not always coincide with the interests of other ASML shareholders. The listing shares acquired by the participating customers are held by Dutch foundations which have issued depositary receipts to wholly owned subsidiaries of the participating customers and the participating customers may only vote in General Meetings in exceptional circumstances. When such exceptional circumstances occur, the participating customers will be able to influence matters requiring approval by the General Meeting and may vote their ASML ordinary shares in a way with which other ASML shareholders may not agree.

The participating customers have also agreed that they will not, without the prior written consent of ASML, transfer any ASML ordinary shares or depositary receipts until two years and six months after the date of their respective shareholder agreement. Upon expiry of such period the ASML ordinary shares held by customers participating in the customer co-investment program are freely transferable, subject to orderly market arrangements and certain other restrictions.

The foregoing list of risk factors is not exhaustive. You should consider carefully the foregoing factors and the other risks and uncertainties that affect the businesses of ASML and Cymer described in the risk factors set forth in Risk Factors beginning on page 38 and the risk factors included in ASML's Annual Report on Form 20-F for the year ended December 31, 2011 and Cymer's Annual Report on Form 10-K for the year ended December 31, 2011, Cymer's Quarterly Reports on Form 10-Q for the quarters ended September 30, 2012, June 30, 2012 and March 31, 2012, and other documents filed by ASML or Cymer from time to time with the SEC. THE SPECIAL MEETING

This proxy statement/prospectus is being provided to the Cymer stockholders as part of a solicitation of proxies by the Cymer Board for use at the special meeting that has been called to approve the merger agreement, approve the adjournment of the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the merger agreement, and approve the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger, and at any properly convened meeting following an adjournment or postponement thereof. This proxy statement/prospectus provides Cymer stockholders with the information they need to know to be able to vote or instruct their vote to be cast at the special meeting.

Date, Time and Place

The special meeting is scheduled to be held at Cymer's corporate headquarters, 17075 Thornmint Court, San Diego, California 92127 on Tuesday, February 5, 2013 at 10:00 a.m., local time.

Purpose of the Special Meeting

At the special meeting, Cymer stockholders will be asked to consider and vote on:

the proposal to approve the merger agreement;

a proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposal; and

a non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Recommendation of the Board of Directors of Cymer

The Cymer Board unanimously determined that the merger agreement, the merger and the other transactions contemplated thereby are in the best interests of Cymer and its stockholders and adopted the merger agreement.

The Cymer Board unanimously recommends that Cymer stockholders vote FOR the proposal to approve the merger agreement; FOR the proposal to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposal; and FOR the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Record Date; Stockholders Entitled to Vote

Only holders of record of Cymer common stock at the close of business on Monday, January 7, 2013, the record date for the special meeting, will be entitled to notice of, and to vote at, the special meeting or any adjournments or postponements thereof. As of December 31, 2012, 31,369,689 shares of Cymer common stock were issued and outstanding. Holders of record of Cymer common stock on the record date are entitled to one vote per share at the special meeting on each proposal.

Quorum

No business may be transacted at the special meeting unless a quorum is present. Attendance in person or by proxy at the special meeting of holders of record of a majority of the shares of Cymer common stock entitled to vote at the special meeting will constitute a quorum. If a quorum is not present, or if fewer shares of Cymer common stock are voted in favor of the proposal to approve the merger agreement than the number required for

Table of Contents

its approval, the special meeting may be adjourned to allow additional time for obtaining additional proxies or votes. At any subsequent reconvening of the special meeting, all proxies will be voted in the same manner as they would have been voted at the original convening of the special meeting, except for any proxies that have been effectively revoked or withdrawn prior to the subsequent meeting.

Abstentions (shares of Cymer common stock for which proxies have been received but for which the holders have abstained from voting) and broker non-votes (as discussed below) will be included in the calculation of the number of shares of Cymer common stock represented at the special meeting for purposes of determining whether a quorum has been achieved. However, as discussed below under Required Vote, abstentions and broker non-votes will have the same effect as voting against the proposal to approve the merger agreement.

Required Vote

You may vote **FOR** or **AGAINST** or you may **ABSTAIN** from voting on each proposal.

If, on the record date, your shares of Cymer common stock were held in an account at a brokerage firm, bank, broker-dealer or other similar organization, then you are the beneficial owner of shares of Cymer common stock held in street name, and the organization holding your account is considered the stockholder of record for purposes of voting at the special meeting. In that case, this proxy statement/prospectus has been forwarded to you by the organization that holds your shares of Cymer common stock. If you are a beneficial owner of shares of Cymer common stock held in street name and do not provide the organization that holds your shares of Cymer common stock with specific instructions, under the rules of NASDAQ, the organization that holds your shares of Cymer common stock may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares of Cymer common stock does not receive instructions from you on how to vote your shares of Cymer common stock on a non-routine matter, such as the proposal to approve the merger agreement, the organization that holds your shares of Cymer common stock will inform the inspector of elections for the special meeting that it does not have the authority to vote on this matter with respect to your shares of Cymer common stock. This is generally referred to as a broker non-vote.

The proposal to approve the merger agreement requires the affirmative vote of the holders of a majority of the outstanding shares of Cymer common stock entitled to vote at the special meeting. Because the vote on the proposal to approve the merger agreement is based on the total number of shares outstanding, rather than the number of actual votes present or cast, abstentions and broker non-votes will have the same effect as voting against the proposal to approve the merger agreement.

If a quorum is present at the special meeting, the proposal to adjourn the special meeting will be approved if the votes cast in favor of the proposal exceed the votes cast in opposition of the proposal. In that case, abstentions and broker non-votes will have no effect on the proposal to adjourn the special meeting. If a quorum is not present at the special meeting, the proposal to adjourn the special meeting may be approved and the special meeting may be adjourned by a majority of the voting power represented at the special meeting in person or by proxy. In that case, broker non-votes will have no effect on the proposal to adjourn the special meeting, although abstentions will have the same effect as votes **AGAINST** the proposal to adjourn the special meeting.

The non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast in opposition to the proposal. Abstentions and broker non-votes will have no effect on the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Voting by Cymer's Directors and Executive Officers

As of December 31, 2012, directors and executive officers of Cymer and their affiliates were entitled to vote 2,392,257 shares of Cymer common stock, or approximately 7.6% of the shares of Cymer common stock outstanding and entitled to vote on that date. Each of Cymer's directors and officers has indicated his or her present intention to vote their shares of Cymer common stock in favor of each of the proposals to be presented at the special meeting, although none of them has entered into any agreement obligating them to do so.

Voting at the Special Meeting

If, on the record date, your shares of Cymer common stock were registered directly in your name with Cymer's transfer agent, American Stock Transfer & Trust Company, LLC, then you are a stockholder of record with respect to those shares, and you may vote in person at the special meeting or by proxy. If your shares are held in street name, you must follow the instructions from your broker, bank or other nominee in order to vote.

Voting in Person

If you plan to attend the special meeting and wish to vote in person, you will be given a ballot at the special meeting. Please note, however, that if your shares of Cymer common stock are held in street name, and you wish to vote at the special meeting, you must bring to the special meeting a proxy executed in your favor from the record holder (your broker, bank or other nominee) of the shares authorizing you to vote at the special meeting, along with proper identification.

Voting by Proxy

If you are a Cymer stockholder of record, a proxy card is enclosed for your use. Cymer requests that you submit a proxy via Internet by logging onto www.proxyvote.com and following the instructions on your proxy card or by telephone by dialing 1-800-690-6903 and listening for further directions or by signing the accompanying proxy and returning it promptly by mail. You should vote your proxy in advance of the special meeting even if you plan to attend the special meeting. You can always change your vote at the special meeting.

Stockholders of record of Cymer may submit their proxies through the mail by completing their proxy card, and signing, dating and returning it. To be valid, a returned proxy card must be signed and dated. If you hold your shares of Cymer common stock in street name, you will receive instructions from the organization that holds your shares of Cymer common stock that you must follow in order to vote your shares. If you vote by Internet or telephone, you need not return a proxy card by mail, but your vote must be received by 11:59 p.m., eastern time, on February 4, 2013.

How Proxies are Counted

All shares represented by properly executed proxies received in time for the special meeting will be voted at the special meeting in the manner specified by the stockholders giving those proxies. Properly executed proxies that do not contain voting instructions will be voted in the manner recommended by the Cymer Board on all matters presented in this proxy statement/prospectus and, therefore, **FOR** the proposal to approve the merger agreement, **FOR** the proposal to adjourn the special meeting and **FOR** the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Abstentions and broker non-votes will have the same effect as votes **AGAINST** the proposal to approve the merger agreement. If a quorum is present at the special meeting, abstentions and broker non-votes will have no effect on the proposal to adjourn the special meeting. If a quorum is not present at the special meeting, broker non-votes will have no effect on the proposal to adjourn the special meeting, although abstentions will have the same effect as votes **AGAINST** the proposal to adjourn the special meeting. Abstentions and broker non-votes will have no effect on the non-binding advisory proposal to approve certain compensation arrangements for Cymer's named executive officers in connection with the merger.

Revocation of Proxies

If you are the record holder of stock, you can change your vote or revoke your proxy at any time before your proxy is voted at the special meeting. You can do this in any one of the following ways:

You may send a written notice that you are revoking your proxy to the Corporate Secretary of Cymer, Inc., 17075 Thornmint Court, San Diego, California 92127.

You may send a subsequent properly completed proxy card in accordance with the instructions in this proxy statement/prospectus.

You may grant a subsequent proxy by telephone or through the Internet.

You may attend the special meeting, revoke the proxy in writing and vote in person. Your attendance at the special meeting will not automatically revoke your proxy unless you vote again at the meeting or specifically request in writing that your prior proxy be revoked.

The most current proxy card or telephone or Internet proxy the inspector of elections for the special meeting receives is the one that is counted.

If you are a beneficial owner of shares held in street name, you will need to follow the instructions included on the proxy form provided to you by your broker regarding how to change your vote.

Solicitation of Proxies

Cymer is soliciting proxies for the special meeting from its stockholders. Cymer will pay its own cost of soliciting proxies, including the cost of mailing this proxy statement, from its stockholders. In addition to solicitation by use of the mails, proxies may be solicited by each of Cymer's directors and executive officers, each of whom is a participant in this solicitation, in person or by telephone or other means of communication. These persons will not receive additional compensation, but may be reimbursed for reasonable out-of-pocket expenses in connection with this solicitation.

Cymer has retained the services of Morrow & Co., LLC to assist in the solicitation of proxies for an estimated fee of \$30,000, plus reimbursement of out-of-pocket expenses. Cymer will make arrangements with brokerage houses, custodians, nominees and fiduciaries to forward proxy solicitation materials to beneficial owners of shares held of record by them. Cymer will also reimburse these brokerage houses, custodians, nominees and fiduciaries for their reasonable expenses incurred in forwarding the proxy materials.

Adjournments

Any adjournment of the special meeting may be made from time to time by Cymer stockholders. If a quorum is present at the special meeting, the special meeting may be adjourned if the votes cast in favor of adjournment exceed the number of votes cast in opposition. If a quorum is not present at the special meeting, the special meeting may be adjourned by a majority of the voting power represented at the special meeting, whether in person or by proxy.

In either case, the adjourned meeting may take place without further notice other than by an announcement made at the special meeting unless a new record date is fixed for the adjourned meeting, in which case a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the special meeting. If a quorum is not present at the special meeting, or if a quorum is present at the special meeting but there are not sufficient votes at the time of the special meeting to approve the merger agreement, then Cymer may seek to adjourn the special meeting so as to permit the further solicitation of proxies.

PROPOSAL 1 APPROVAL OF THE MERGER AGREEMENT

THE MERGER

Background of the Merger

The light sources manufactured by Cymer are an important component of the lithography system. Therefore, Cymer has worked closely with its lithography tool manufacturer customers, including ASML, and with semiconductor manufacturers who use lithography systems that include light sources provided by Cymer, to develop and refine DUV products that meet their needs. ASML has been a customer of Cymer's since the early 1990s, and, in 2011, and through the first three quarters of 2012, ASML was Cymer's largest customer, accounting for approximately 35% and 27%, respectively, of Cymer's revenue. Throughout their relationship, ASML and Cymer have worked together closely and Cymer has provided ASML with products that meet its and its customers' needs, as well as to position the companies to provide next-generation technology.

The evolution of semiconductor manufacturers' needs has forced the development of a new source and lithography system technology based on EUV light. This technology is more complex and expensive to develop than existing commercial technologies. EUV technology is vital to support the semiconductor industry's transition to manufacturing technology that will enable the production of computer chips with more functionality at a lower cost, and that are more energy efficient. Computer chips produced with EUV light sources are expected to be as much as 100 times faster than, with 1,000 times the memory capacity of, today's most powerful computer chips.

In light of the importance of EUV technology, and given the technological complexity, the magnitude of the necessary investment, and the delays that Cymer has experienced in developing EUV technologies suitable for commercial purposes, Cymer and ASML have increased their cooperation. Cymer and ASML began negotiations in September 2011 of a cooperation arrangement regarding the joint development of EUV technologies, aiming at pooling more resources and achieving more efficient development. On December 15, 2011, Cymer and ASML entered into a non-binding Shared Vision of EUV Source Cooperation agreement (referred to as the cooperation agreement), which, subject to agreement upon and execution of definitive documentation, provided for joint funding of a separate division of Cymer dedicated solely to development of EUV technology.

Throughout the first half of 2012 ASML and Cymer continued to conduct activities related to the joint development of EUV technology, including having ASML employees work with Cymer employees at Cymer business locations, development of a business model for the proposed joint development of EUV technology, and discussing drafts of definitive documentation with respect to the joint development of EUV technology as contemplated by the cooperation agreement. Mr. Eric Meurice, President, Chief Executive Officer and Chairman of the Board of Management of ASML, Mr. Robert P. Akins, Chairman and Chief Executive Officer of Cymer, and other members of the senior management of ASML and Cymer communicated frequently on the progress of these activities. Recognizing the challenges in the development of EUV sources, including the technical challenges and magnitude of investment needed to enable the development of EUV technologies on a timeframe required by semiconductor manufacturers and the fact that Cymer would not have sufficient resources on a standalone basis to continue to develop and commercialize EUV technologies within such timeframe, as early as January 2012 the Cymer Board discussed that an acquisition of Cymer by ASML might be the best solution to facilitate the development of EUV technology and offer the greatest value to Cymer stockholders. During that time period, the Cymer Board was kept apprised of the status of negotiations on definitive agreements to implement the terms of the cooperation agreement with ASML, and the Cymer Board expressed concerns about the economic terms and terms regarding the sharing of intellectual property on which ASML was prepared to proceed and the impact on Cymer. As a result of these concerns and the challenges inherent in the proposed model of cooperation and the terms being proposed by ASML, the Cymer Board continued to consider and discuss a potential acquisition of Cymer by ASML. At a meeting on May 9, 2012 to discuss progress on EUV development and the issues arising from the negotiation of definitive documents concerning the cooperation

agreement, Mr. Akins asked Mr. Meurice if ASML would be interested in an acquisition of Cymer. Mr. Meurice indicated that this could be of interest as a possible solution to the current delays in developing EUV technologies and could be attractive to ASML's shareholders and customers.

On May 17, 2012, the Cymer Board met to discuss the May 9, 2012 meeting between executives of ASML and Cymer. At that meeting, the Cymer Board was briefed by Mr. Akins on the meeting with ASML and ASML's suggestion to have an in-person meeting with ASML management and some or all of the members of the Cymer Board to discuss possible alternatives to the proposed joint development of EUV technologies.

On May 21, 2012, the Cymer Board met again and discussed possible alternatives to the contemplated joint development activities with respect to EUV with ASML, including the possible acquisition of Cymer by ASML or another third party. The Cymer Board also discussed the need to engage a financial advisor to assist Cymer in an analysis of its strategic alternatives. At that meeting, the Cymer Board requested that management of Cymer contact Goldman Sachs based on its familiarity with Cymer and expertise in merger and acquisition transactions. The next day, on May 22, 2012, the Cymer Board met with a representative of Goldman Sachs and discussed the potential engagement of Goldman Sachs with respect to Cymer's analysis of its strategic alternatives. In addition, at this meeting, the Cymer Board established a committee of the Cymer Board composed of Mr. Charles J. Abbe, Mr. Edward H. Braun and Mr. Young K. Sohn (referred to as the Transaction Committee) and authorized the Transaction Committee to, among other things, establish, approve, modify, monitor and direct the processes and procedures related to a review of Cymer's strategic alternatives, and review and approve the terms of Goldman Sachs' engagement and to engage such legal, financial and other advisors as the Transaction Committee deemed necessary or appropriate. Following this meeting, Mr. Akins contacted Mr. Meurice about meeting with him, the Transaction Committee and Mr. Edward J. Brown, Chief Operating Officer of Cymer, on June 13, 2012.

On June 5, 2012, the Transaction Committee held a meeting, with members of Cymer management and representatives of Goldman Sachs in attendance, where they discussed the terms and conditions of Goldman Sachs' engagement and representatives of Goldman Sachs provided background information on its transaction team and their experience. Goldman Sachs also discussed preliminary financial analyses and process considerations, including preparation for the June 13, 2012 meeting with ASML, preparation of financial analyses, regulatory considerations and the need to retain legal counsel.

On June 8, 2012, the Transaction Committee held a meeting at which representatives from Goldman Sachs reviewed illustrative financial analyses and discussed strategies for engaging with and negotiating a transaction with ASML. On June 11, 2012, Cymer retained Sullivan & Cromwell LLP (referred to as S&C) to serve as its legal counsel. In addition, Cymer entered into an engagement letter dated June 11, 2012, with Goldman Sachs to act as financial advisor in connection with the possible sale of all or a majority of Cymer. On June 12, 2012, the Transaction Committee held a meeting, with members of Cymer management and Goldman Sachs in attendance, at which they reviewed various preliminary financial analyses, talking points for the meeting with Mr. Meurice scheduled to take place the next day, and process considerations, including a potential timeline for a transaction with ASML, arranging meetings between ASML's and Cymer's respective legal and financial advisors and the due diligence process.

On June 13, 2012, Mr. Akins and Mr. Brown, and the members of the Transaction Committee met with Mr. Meurice and Mr. Peter Wennink, Executive Vice President, Chief Financial Officer and a Member of the Board of Management of ASML, in New York to discuss the potential merger transaction. At this meeting the parties discussed why they thought a merger of the two companies would be mutually beneficial and had a high-level discussion as to how the business model would work for DUV, installed base products, silicon crystallization tools and EUV. At this meeting, both parties discussed the potential value of such a transaction as a way to reduce the risk and cost of execution of EUV and as a way to manage better the mix of DUV (current technology and future standard layer technology) and EUV (future critical layer technology). In addition, in view of the current execution delays, ASML indicated that it was considering the possibility of developing EUV

Table of Contents

source technology independently from Cymer. Mr. Meurice indicated that ASML likely would not be willing to participate in a process that involved Cymer seeking other bidders and highlighted that the Cymer valuation would need to be at least as attractive to ASML as ASML's alternatives for developing EUV technology.

On June 20, 2012, the Cymer Board held a meeting at which Mr. Akins provided an update on the in-person discussions with ASML management and discussed activities expected to take place in the coming weeks. In addition, a representative of S&C discussed the fiduciary duties and other legal rights and obligations of the Cymer Board. The Cymer Board authorized Cymer management and the Transaction Committee, with the assistance of its financial and legal advisors, to continue to explore a potential merger with ASML. The Cymer Board also discussed its belief that a combination with ASML was a natural evolution of the companies' relationship given the importance of EUV development to Cymer's prospects, and their belief that there were no other parties that would be willing to enter into a transaction at a better value to Cymer's stockholders, particularly given Cymer's relationship with ASML. As a result, the Cymer Board concluded at that meeting not to seek out an acquisition of Cymer by another party.

Members of ASML's Board of Management regularly apprised ASML's Supervisory Board of the ongoing discussions with Cymer relating to a possible merger. On June 20, 2012, ASML's Supervisory Board held a meeting, at which members of the Board of Management were present. The Board of Management provided an update on discussions with Cymer. After further discussion, the Supervisory Board asked the Board of Management to further explore the possibility of an acquisition of Cymer, but determined that a final decision regarding the potential acquisition would not be made until the fourth quarter of 2012 because ASML was focusing on its customer co-investment program.

Between June 20, 2012 and July 6, 2012, Cymer, ASML and their respective counsel negotiated the terms of a mutual non-disclosure agreement. On July 6, 2012, Cymer and ASML executed a mutual non-disclosure agreement that includes a standstill provision with respect to Cymer securities.

On July 2, 2012, ASML entered into an engagement letter with Greenhill & Co. (referred to as Greenhill) to act as financial advisor in connection with the possible merger.

On July 9, 2012, ASML publicly announced that it had established a program (referred to as the customer co-investment program) to enable minority equity investments in ASML by its largest customers, in addition to commitments to fund ASML's research and development spending for future programs, the objective of which was to accelerate development of 450 nm and EUV technology. Simultaneously with that announcement, ASML announced an investment in it by Intel Corporation (referred to as Intel) as part of the customer co-investment program, as well as execution of two research and development engineering funding agreements and a commercial agreement.

Representatives of Cymer, Goldman Sachs, ASML and Greenhill met on July 12, 2012 in Rancho Bernardo, San Diego to review Cymer's business and its prospects and to review Cymer's financial models. At that meeting, ASML indicated its belief that the financial models provided to ASML and presented by Cymer and Goldman Sachs were overly aggressive and that any offer ASML might make for Cymer would be at a much lower price and premium than those implied by such financial models. In addition, ASML proposed at that meeting that Cymer and ASML reengage in September, as ASML would be focusing on completing its customer co-investment program until then.

On July 16, 2012, ASML's Supervisory Board held a telephonic meeting at which Mr. Meurice updated the Supervisory Board on discussions with Cymer and indicated that Cymer had expressed interest to continue discussions regarding a possible merger.

On July 20, 2012, the Transaction Committee met with members of Cymer management, representatives of Goldman Sachs and representatives of S&C. At this meeting, Goldman Sachs updated the Transaction

Table of Contents

Committee on its discussions with Greenhill, and Cymer management updated the Transaction Committee with respect to the ASML customer co-investment program and ASML's indication that it would not be prepared to engage in further discussions on a possible merger until September 2012.

Between July 20, 2012 and September 18, 2012, ASML and Cymer continued to engage with each other in connection with their ongoing commercial arrangements, including the development of EUV, but had no substantive discussions regarding the proposed merger. ASML continued to pursue a definitive agreement between it and Cymer to implement the parties' previously agreed cooperation arrangement, and discussed the terms of that agreement, including pricing terms and the terms under which ASML would be reimbursed for its assistance, including the application of its know-how. On July 23, 2012, ASML sent a proposed term sheet relating to the parties' cooperation in the development of EUV technology.

The Transaction Committee met with members of Cymer management on July 27, 2012 to discuss the term sheet. At that meeting, the Transaction Committee raised issues regarding the advisability of entering into the definitive agreement due to the economic terms and terms regarding the sharing of intellectual property being proposed. In addition, in light of the potential for a merger of the companies, which could be a far more attractive opportunity for Cymer stockholders given the increased certainty of value to Cymer stockholders and the challenges in the development of EUV technology, the Transaction Committee expressed the view that immediately entering into a commercial agreement relating to the parties' cooperation in the development of EUV technology was not optimal.

Cymer management, representatives of Goldman Sachs and S&C, and the Transaction Committee also met on August 3, 2012, August 10, 2012 and August 13, 2012, to develop and refine a negotiation strategy and discuss and develop financial analyses in order to come to a view on valuation for purposes of future negotiations with ASML on the terms of a transaction. On August 10, 2012, there was a conference call between the Transaction Committee, Cymer management and ASML management. On this call, ASML continued to press for a commercial agreement relating to the development of EUV technology, regardless of whether or not a merger could ultimately be agreed. In addition, the parties agreed to meet on September 18, 2012 to resume discussions with respect to a merger. On August 13, 2012, ASML supplied Cymer with another draft of a commercial agreement relating to the parties' cooperation in the development of EUV technology.

At the August 15-17, 2012 meeting of the Cymer Board, representatives of Goldman Sachs discussed financial information with respect to Cymer and ASML with the Cymer Board and Cymer management. Members of Cymer management also discussed Cymer's standalone prospects if a merger with ASML was not pursued or consummated, including the fact that Cymer would not have sufficient resources on a standalone basis to continue to develop and commercialize EUV technologies within the timeframe required by its current and potential customers and the decrease in the near-term outlook in Cymer's business and earnings prospects on a standalone basis. A representative of S&C led a discussion regarding fiduciary duties and other legal issues related to a potential merger. In addition, Goldman Sachs discussed with the Transaction Committee and management the various financial models developed and reviewed by management and the sensitivity around assumptions relating to the prospects for the EUV business, as well as the perspective that Goldman Sachs expected ASML would have on the financial models given the fact that the volume of units and the pricing for such units that would actually be achieved would be subject to negotiation and agreement with ASML, and provided guidance concerning the range of values implied by the financial scenarios analyzed. The Cymer Board and Cymer management then asked questions and engaged in a discussion with respect to the matters presented at the meeting.

Cymer management, representatives of Goldman Sachs and S&C, and the Transaction Committee also held meetings on August 31, 2012 and September 10, 2012 to further refine their financial analyses and negotiating positions for purposes of a meeting with ASML scheduled for September 18, 2012.

Table of Contents

On September 18, 2012, Mr. Meurice, Mr. Wennink, Mr. Akins, Mr. Brown, the members of the Transaction Committee, representatives of Goldman Sachs and a representative of Greenhill held an in-person meeting in New York. In the course of that meeting, Mr. Meurice indicated that ASML would be willing to offer a premium to the then-current value of Cymer common stock of approximately 30%, which based on the closing price of Cymer common stock on September 17, 2012, implied a price of approximately \$74.11 per share of

Cymer common stock. Mr. Akins and Mr. Braun indicated to Mr. Meurice and Mr. Wennink their view that the Cymer Board would support an offer that implied a price per share of Cymer common stock in excess of \$90.00. After further discussions, Mr. Meurice indicated that ASML would be willing to make an offer to acquire Cymer at an implied price of approximately \$80.00 per share of Cymer common stock. After further discussion with the Transaction Committee and Goldman Sachs, Mr. Akins and Mr. Braun explained that a price per share of Cymer common stock of approximately \$85.00 was the minimum price that they would be willing to recommend to the Cymer Board. Mr. Meurice indicated that he believed that ASML would support a transaction at that price as long as it was fixed at that time, and the parties then discussed further details of that offer, including the balance of cash and stock that would comprise the \$85.00 per share price to be paid to Cymer stockholders. After a series of back and forth negotiations, the parties agreed to recommend proceeding with a merger in which ASML would acquire all the outstanding shares of Cymer common stock for consideration comprised of a fixed exchange ratio of 1.1502 ASML ordinary shares, which was calculated based on the average trading price of ASML ordinary shares for the 15 trading days ending on September 17, 2012, and \$20.00 in cash per share of Cymer common stock, which, based on the prices of ASML ordinary shares and Cymer common stock at that time, represented a significant premium over the price of Cymer common stock. The parties also discussed the next steps in the negotiations and the due diligence process with a view to determining whether a transaction could be completed at or before ASML's earnings conference call on October 17, 2012. The Transaction Committee and Cymer management each indicated that they would support such a transaction and would discuss it with the Cymer Board over the next few days. ASML indicated that it would need the support of its Supervisory Board before it would be able to move forward with a transaction. Later that day Skadden, Arps, Slate, Meagher & Flom LLP (referred to as Skadden), counsel to ASML, and S&C discussed how the process would develop from that point forward.

On September 21, 2012, the Cymer Board met to discuss the economic terms discussed at the September 18, 2012 meeting between Cymer and ASML management, their respective financial advisors and the Transaction Committee. Mr. Akins reported on the evolving business conditions facing Cymer and ASML, including the difficulties Cymer would have in commercializing EUV on its own on an acceptable timeframe. After additional discussion, the Cymer Board authorized Cymer management and the Transaction Committee to proceed with negotiation of definitive documentation and completion of the due diligence process, including due diligence on ASML in light of the portion of the consideration consisting of ASML ordinary shares.

On September 22, 2012, ASML delivered to Goldman Sachs a preliminary due diligence request list requesting certain information about Cymer's business. Cymer provided a due diligence request list with respect to ASML on September 24, 2012. Cymer granted ASML and its advisors access to a virtual data room containing non-public information about Cymer and its subsidiaries beginning on September 25, 2012. On September 28, 2012, Skadden provided Cymer and its advisors certain materials responsive to items on the due diligence list provided by Cymer and its advisors. Also on September 28, 2012, the parties participated on a diligence call with respect to ASML's third-quarter results and near-term financial prospects. The parties continued reviewing due diligence materials and had frequent discussions on diligence matters until the signing of the merger agreement.

On October 1 and October 2, 2012, ASML's Supervisory Board met in Belgium. Members of the Board of Management were also present and representatives of Greenhill joined the meeting in person when discussions about the proposed merger started. The parties discussed the strategic rationale and value for ASML with respect to the merger with Cymer and the next steps in the merger process. The Supervisory Board authorized ASML management to proceed with negotiation of definitive documentation and completion of the due diligence process.

During the evening of October 3, 2012, representatives from Skadden delivered a draft merger agreement and a draft voting agreement to Cymer. The draft voting agreement contemplated that affiliates of Tincum, Inc. (referred to as Tincum) would, among other things, vote in favor of a merger agreement should Cymer and ASML reach a definitive agreement. On October 4, 2012, S&C and Skadden discussed certain issues raised by the draft merger agreement. S&C provided comments to the draft merger agreement and the draft voting agreement to Skadden on October 6, 2012. On October 8, 2012, S&C and Skadden discussed issues in the draft merger agreement, including, among other things, the possibility of structuring the proposed merger as a forward triangular merger as opposed to a reverse triangular merger, the standard for securing antitrust approval in the United States and certain foreign jurisdictions, as well as CFIUS approval, the scope of the representations and warranties, certain interim operating covenants, the provisions allowing Cymer to discuss and negotiate acquisition proposals with third parties and to change its recommendation of the merger (including for intervening events), conditions to closing, the termination rights, the events that would give rise to the payment of a termination fee and the size of the termination fee, including the proposal for an increased termination fee for certain termination events and the necessity of a voting agreement with Tincum. On October 9, 2012, Skadden circulated a revised draft of the merger agreement.

During the week of October 8, 2012, Mr. Akins and Mr. Brown visited the Netherlands and held in-person meetings with ASML management relating to their on-going business as part of a trip that was scheduled before the renewed merger discussions. During these meetings, the parties discussed a number of open points related to the potential merger, including employee retention, regulatory issues and integration issues. The parties also, at these meetings and throughout the period prior to execution of the merger agreement, continued to negotiate and discuss the commercial agreements relating to the parties' cooperation in the development of EUV technology, as ASML required additional clarity on the rights and obligations of the parties in connection with its purchase order for 12 additional EUV light source units. In addition, members of Cymer management participated in calls with ASML and its legal and financial advisors regarding a variety of diligence matters, including finance, environmental, intellectual property, contracts, employee benefits and international trade.

At a Cymer Board meeting on October 9, 2012, Mr. Akins updated the Cymer Board on the recent in-person meetings with ASML management. Mr. Akins also informed the Cymer Board that ASML management continued to express ASML's desire to enter into the commercial agreements relating to the parties' cooperation in the development of EUV technology regardless of whether or not Cymer and ASML were able to agree on a merger. S&C then updated the directors with respect to the negotiations of the merger agreement. This update included reviewing the terms of the current draft merger agreement and highlighting the significant ongoing negotiations including the standards for securing regulatory approval, the conditions to closing, the provisions that enable the directors to change their recommendation of the merger under certain circumstances and the termination fee payable by Cymer upon termination for specified reasons. S&C then reviewed the Cymer Board's fiduciary duties generally and in the context of the proposed merger. Goldman Sachs discussed the proposed consideration and reviewed the projections for Cymer and ASML, individually and as a combined company. Mr. Akins reviewed with the Cymer Board the list of strategic reasons for the proposed merger including those discussed in "Reasons for the Merger and Recommendation of the Cymer Board" and compared the proposed merger with other options including pursuing their standalone plan or seeking another strategic partner. Following these discussions, the Cymer Board authorized Cymer management to proceed with negotiations on substantially the same terms presented at the meeting.

On October 12, 2012, members of Cymer management, along with representatives of S&C and Goldman Sachs, participated in a due diligence call with Mr. Meurice, Mr. Wennink, as well as other representatives of ASML, Skadden and Greenhill to review ASML's quarterly results and business outlook.

Early in the morning on October 12, 2012, S&C circulated a revised draft of the merger agreement, as well as an initial draft of the Cymer disclosure schedules. On that morning, Mr. Meurice made a number of proposals on issues outstanding in the merger agreement to Mr. Akins, including the definition of "Company Material Adverse Effect," the structure of the proposed merger, ASML's ability to pay dividends to its shareholders prior

to the consummation of the merger, the events that would give rise to the payment of a termination fee and the size of the termination fee, and employment agreements for certain Cymer employees. Later that afternoon, S&C and Skadden discussed various issues relating to the merger agreement, including the earlier proposals made by Mr. Meurice to Mr. Akins, and ASML's ongoing due diligence review of Cymer, during which Skadden informed S&C that ASML would withdraw its request for Tinicum to enter into a voting agreement in connection with the merger agreement. Skadden then circulated a further revised draft of the merger agreement later that day. On October 13, 2012, S&C and Skadden discussed various open issues reflected in the draft merger agreement, and S&C circulated a revised draft of the merger agreement later that evening.

In addition, on October 13, 2012, the Cymer Board held a special telephonic meeting with members of Cymer management and representatives of S&C and Goldman Sachs also in attendance. At the meeting, Cymer management informed the Cymer Board about recent discussions with ASML and updated the directors on the negotiation process. Representatives of S&C updated the Cymer Board on the ongoing negotiations with respect to the structure of the transaction and other provisions in the draft merger agreement. Cymer management then reviewed the terms of the proposed EUV source R&D cooperation agreement and EUV source supply agreement—the commercial agreements relating to the parties cooperation in the development of EUV technology. Following these discussions, the Cymer Board authorized Cymer management to proceed with discussions to complete the proposed merger agreement and the associated transactions on substantially the terms discussed.

On the morning of October 14, 2012, Skadden circulated comments to the Cymer disclosure schedules, and later that afternoon, Skadden circulated a revised draft of the merger agreement and an initial draft of the ASML disclosure schedules. S&C provided a further revised draft of the merger agreement later that evening. Skadden and S&C provided revised drafts of the merger agreement in the afternoon and evening of October 15, 2012 and on the afternoon of October 16, 2012, and during this time, continued to discuss open issues. In addition, S&C circulated revised drafts of the Cymer disclosure schedules on the mornings of October 15, 2012 and October 16, 2012, and S&C and Skadden continued to discuss matters related thereto during that time period.

On October 15, 2012, ASML's Supervisory Board held a telephonic meeting at which members of the Board of Management were present. ASML's Board of Management provided an update on the developments with respect to the acquisition of Cymer and the main terms of the merger agreement. Following discussion, the Supervisory Board unanimously determined to proceed with the proposed merger. The following day, the Board of Management adopted a resolution approving the merger agreement.

On October 16, 2012, the Cymer Board held a meeting including all members of the Cymer Board, certain members of Cymer management, as well as representatives of S&C and Goldman Sachs. Mr. Akins provided an update to the Cymer Board regarding discussions related to the merger, the EUV source R&D cooperation agreement and the EUV source supply agreement. Representatives of S&C then summarized the principal terms and conditions contained in the merger agreement. Representatives of S&C again reviewed with the Cymer Board its fiduciary duties with respect to the merger. Goldman Sachs then reviewed their financial analysis of the transaction and rendered an oral opinion to the Cymer Board, which was subsequently confirmed by delivery of a written opinion dated October 16, 2012, to the effect that, as of such date, and based upon and subject to the assumptions, limitations, qualifications and factors set forth in its opinion, the consideration to be paid to holders (other than ASML and its affiliates) of Cymer common stock pursuant to the merger agreement was fair from a financial point of view to such holders. See Opinion of Goldman Sachs as Financial Advisor to Cymer. After further discussion, the Cymer Board unanimously determined that the merger is in the best interests of Cymer and its stockholders, adopted the merger agreement, and resolved to recommend that the Cymer stockholders vote in favor of the merger.

Later in the evening on October 16, 2012, the parties executed the merger agreement, the EUV source R&D cooperation agreement and the EUV source supply agreement, and thereafter, the parties issued a joint press release announcing the parties' entry into the merger agreement.

Reasons for the Merger and Recommendation of the Cymer Board

At its meeting held on October 16, 2012, the Cymer Board unanimously (i) adopted the merger agreement, (ii) determined that the merger agreement, the merger and the other transactions contemplated by the merger agreement are in the best interests of Cymer and its stockholders, (iii) directed that the merger agreement be submitted to the Cymer stockholders for approval at the special meeting, and (iv) determined to recommend that Cymer stockholders vote in favor of the approval of the merger agreement.

THE CYMER BOARD UNANIMOUSLY RECOMMENDS THAT CYMER STOCKHOLDERS VOTE FOR THE PROPOSAL TO APPROVE THE MERGER AGREEMENT, FOR THE PROPOSAL TO APPROVE THE ADJOURNMENT OF THE SPECIAL MEETING, IF IT IS NECESSARY OR APPROPRIATE, TO SOLICIT ADDITIONAL PROXIES IF THERE ARE NOT SUFFICIENT VOTES TO APPROVE THE PROPOSAL TO APPROVE THE MERGER AGREEMENT AND FOR THE NON-BINDING ADVISORY PROPOSAL TO APPROVE CERTAIN COMPENSATION ARRANGEMENTS FOR CYMER S NAMED EXECUTIVE OFFICERS IN CONNECTION WITH THE MERGER.

The Cymer Board consulted with the Transaction Committee and Cymer's senior management and Cymer's outside financial and legal advisors and considered a number of factors in connection with the adoption of the merger agreement, including the following:

Premium over historical share price. Based on the closing price of ASML ordinary shares on October 15, 2012, the merger consideration to be received by Cymer stockholders represented a value of \$80.74 per share of Cymer common stock, which represents a premium over historical prices of Cymer common stock of approximately:

73.1%, based on the closing price of Cymer common stock on October 15, 2012 (the last closing price prior to the time the Cymer Board met to consider the adoption of the merger agreement);

64.2%, 52.2%, 44.8%, and 57.8%, based on the average of the closing prices of Cymer common stock for the 10-trading day, 30-trading day, 60-trading day and one year periods, respectively, preceding October 15, 2012; and

30.1%, based on the highest closing price of Cymer common stock for the 52-week period ending October 15, 2012.

Fixed Exchange Ratio. The stock component of the merger consideration is a fixed exchange ratio which will not fluctuate as a result of changes in the price of ASML ordinary shares prior to the merger, which provides Cymer stockholders with certainty as to the number of ASML ordinary shares they will receive in the merger.

Participation in Future Appreciation. The stock component of the merger consideration will enable Cymer stockholders to share in any synergies, including those discussed below in Opinion of Goldman Sachs as Financial Advisor to Cymer, and to participate in any future appreciation of ASML ordinary shares following the consummation of the merger (including any related to Cymer).

Liquidity. A portion of the merger consideration will be in cash, which will provide Cymer stockholders with liquidity and some certainty of value while retaining the ability to participate in any future appreciation of ASML ordinary shares following the consummation of the merger.

Development of EUV Technologies. The challenges involved in Cymer successfully commercializing EUV technologies (which is critical to Cymer's future success) that could be mitigated by merging with ASML, including that:

Edgar Filing: ASML HOLDING NV - Form 424B3

ASML's resources will enable the combined company to continue to develop and successfully commercialize EUV technologies on a timeframe required by semiconductor manufacturers, which Cymer may not be able to do on a standalone basis or with any other acquirer;

the ability of the combined company to manage and direct all activities relating to the development of EUV technologies will enable the more effective development of those technologies than Cymer could on a stand-alone basis; and

a merger with ASML will increase the industry's confidence in the potential success of EUV technologies.

Business and Financial Condition and Prospects. The Cymer Board's understanding of the business, operations, financial condition, earnings and prospects of Cymer as an independent entity, including:

that lower forecast demand from semiconductor manufacturers in the near term would likely have a negative impact on the price of Cymer common stock, and such impact would likely be greater than that on the price of ASML ordinary shares;

that Cymer will not have sufficient resources on a standalone basis to continue to develop and commercialize EUV technologies on a timeframe required by semiconductor manufacturers;

Cymer's dependence on ASML as a customer, as discussed below under "ASML as Acquirer";

the decrease in the near-term outlook in Cymer's business and earnings prospects.

ASML as Acquirer. The Cymer Board's belief that ASML was the most logical acquirer of Cymer given, among other things, Cymer's dependence on ASML as a customer. In particular, the Cymer Board considered the following:

no other strategic buyer would be likely to realize the same synergies as ASML from an acquisition of Cymer given ASML's status as Cymer's largest customer and the existing relationship with respect to EUV development;

ASML is Cymer's largest customer and any potential decrease in orders for light sources by ASML could have a significant negative effect on Cymer's business;

no other participant in the lithography industry is investing in a meaningful way in EUV technologies, making ASML the best positioned partner to facilitate the success of Cymer's EUV strategy;

Cymer's understanding, based on its relationship with ASML, that, absent an agreed framework for EUV development with Cymer, ASML expected that it might delay introducing commercial EUV technologies, and Cymer would therefore experience a corresponding decrease in demand for Cymer products, which would likely have a negative impact on the price of Cymer common stock;

the potential for ASML, Cymer's largest customer, to pursue on its own multiple avenues for enhancing the prospects for success of EUV technologies, including possible development of EUV technologies on its own, establishing direct relationships with various suppliers of critical EUV components and working with other developers of alternative EUV technologies; and

Edgar Filing: ASML HOLDING NV - Form 424B3

ongoing negotiations between Cymer and ASML regarding a reasonable price for EUV light sources.

Prospects of Combined Business. The potential synergies from combining Cymer's and ASML's businesses, including:

an expected increase in the use of Cymer light sources in ASML's installed based products and a related increase in installed base product revenue;

increased effectiveness of the integration of Cymer light sources into ASML scanners; and

increased ability of Cymer to retain and attract key employees due to the financial strength and prospects of a combined ASML and Cymer.

Terms of the Merger Agreement. The Cymer Board considered the terms of the merger agreement that permit it to terminate the merger agreement under specified conditions, as well as the amount of the termination fee. The Cymer Board has the ability to change its recommendation in favor of the merger and terminate the merger agreement upon receipt of a superior acquisition proposal or upon the occurrence of an intervening event, if, after a negotiation period with ASML, failure to take such action would be reasonably likely to constitute a breach of the directors' fiduciary duties under applicable law and after compliance with the other requirements set forth in the merger agreement. The Cymer Board considered that the termination fee of \$75.0 million was equal to approximately 2.8% of the equity value of the transaction (based on the closing price of ASML ordinary shares on October 15, 2012).

Opinion of Financial Advisor. The analyses of Goldman Sachs and the oral opinion of Goldman Sachs, rendered on October 16, 2012 and subsequently confirmed in writing on the same day, to the Cymer Board that, as of that date and based upon and subject to the various assumptions, procedures, factors, qualifications and limitations set forth in the written opinion, the merger consideration was fair, from a financial point of view, to the Cymer stockholders (other than ASML and its affiliates). See Opinion of Goldman Sachs as Financial Advisor to Cymer.

Familiarity with Businesses. The familiarity, given the fact that ASML is Cymer's largest customer, that the management teams of Cymer and ASML have with the business, operations, financial conditions, earnings and prospects of the other party, as well as their respective knowledge of the current and prospective environment in which Cymer and ASML operate, including general economic and market conditions and the more specific conditions of the semiconductor and semiconductor equipment businesses, as well as the challenges involved in developing and commercializing new technologies.

Potential for Consummation. The Cymer Board's view, after consultation with its legal counsel, concerning the likelihood that regulatory approvals and clearances necessary to consummate the transactions contemplated by the merger agreement would be obtained on the terms specified in the merger agreement.

The Cymer Board also considered a variety of risks and other potentially negative factors concerning the merger agreement and the merger, including the following:

the fact that the stock portion of the merger consideration has a fixed exchange ratio which will not adjust as a result of changes in the price of ASML ordinary shares prior to the merger, which means that the value of the merger consideration would decrease prior to the consummation of the merger if the trading price of ASML ordinary shares decreases;

the fact that the termination fee to be paid to ASML under the circumstances specified in the merger agreement and the last look rights may discourage other companies that might otherwise have an interest in a business combination with, or an acquisition of, Cymer (see The Merger Agreement Expenses and Termination Fees);

the terms of the merger agreement placing limitations on the ability of Cymer to solicit alternative business combination transactions and to provide confidential due diligence information to, or engage in discussions with, a third party interested in pursuing an alternative business combination transaction (see The Merger Agreement Covenants No Solicitation of Transactions);

the potential risk of diverting management focus and resources from operational matters while working to implement the merger;

the substantial costs to be incurred in connection with the transaction, including the transaction expenses arising from the merger that Cymer would have to bear if the merger is not completed;

the restrictions on the conduct of Cymer's business pending the completion of the merger;

Table of Contents

the potential effect of the merger on Cymer's business and relationships with employees, customers, suppliers, distributors, regulators and the communities in which it operates, including those customers that are direct competitors with ASML;

the risk that certain key members of senior management might choose not to remain employed with Cymer prior to the completion of the merger or with the combined company after the merger;

the possibility that the merger might not be completed, or that completion might be unduly delayed, for reasons beyond Cymer's and/or ASML's control and the potential negative impact that may have on Cymer's business and relationships with employees, customers, suppliers, regulators and the communities in which it operates;

the terms of the merger agreement that limit the actions that ASML must take in the event that governmental entities seek to impose conditions on Cymer and/or ASML in order to gain approval for the merger; and

the risks of the type and nature described under Risk Factors, and the matters described under Forward-Looking Statements. The Cymer Board also was apprised of certain interests in the merger of executive officers and the directors that may be different from, or in addition to, the interests of Cymer stockholders generally as discussed in Interests of Certain Persons in the Merger.

The foregoing discussion of the information and factors considered by the Cymer Board in reaching its conclusions and recommendations is not intended to be exhaustive, but includes the material factors considered by the Cymer Board. In view of the wide variety of factors considered in connection with its evaluation of the merger agreement and the transactions contemplated thereby, and the complexity of these matters, the Cymer Board did not find it practicable to, and did not attempt to, quantify, rank or assign any relative or specific weights to the various factors considered in reaching its determination and making its recommendation. In addition, individual directors may have given different weights to different factors. The Cymer Board considered all of the foregoing factors as a whole.

Opinion of Goldman Sachs as Financial Advisor to Cymer

Goldman Sachs rendered its opinion to the Cymer Board that, as of October 16, 2012, and based upon and subject to the factors and assumptions set forth therein, the merger consideration to be paid to holders (other than ASML and its affiliates) of shares of Cymer common stock pursuant to the merger agreement was fair from a financial point of view to such holders.

The full text of the written opinion of Goldman Sachs, dated October 16, 2012, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached to this proxy statement/prospectus as Annex B. Goldman Sachs provided its opinion for the information and assistance of the Cymer Board in connection with its consideration of the merger. The Goldman Sachs opinion is not a recommendation as to how any Cymer stockholder should vote with respect to the merger agreement, or any other matter.

In connection with rendering the opinion described above and performing its related financial analyses, Goldman Sachs reviewed, among other things:

the merger agreement;

annual reports on Form 10-K of Cymer for the five years ended December 31, 2011 and annual reports on Form 20-F of ASML for the five years ended December 31, 2011;

certain interim reports to stockholders and Quarterly Reports on Form 10-Q of Cymer;

Edgar Filing: ASML HOLDING NV - Form 424B3

certain interim reports to stockholders and Reports of Foreign Private Issuer on Form 6-K of ASML;

certain other communications from Cymer and ASML to their respective stockholders;

certain publicly available research analyst reports for Cymer and ASML;

certain internal financial analyses and forecasts for Cymer and certain financial analyses and forecasts for ASML, in each case as prepared by Cymer's management and approved for Goldman Sachs' use by Cymer, (referred to as the Forecasts); and

certain cost savings and operating synergies projected by Cymer's management to result from the merger, as approved for Goldman Sachs' use by Cymer, (referred to as the Synergies).

Goldman Sachs also held discussions with members of the senior managements of Cymer and ASML regarding their assessment of the strategic rationale for, and the potential benefits of, the merger and the past and current business operations, financial condition, and future prospects of their respective companies. In addition, Goldman Sachs reviewed the reported price and trading activity for Cymer common stock and for ASML ordinary shares, compared certain financial and stock market information for Cymer and ASML with similar information for certain other companies the securities of which are publicly traded, reviewed the financial terms of certain recent business combinations in the semiconductor industry and in other industries, and performed such other studies and analyses, and considered such other factors, as it deemed appropriate.

For purposes of rendering this opinion, Goldman Sachs, with Cymer's consent, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by it, without assuming any responsibility for independent verification thereof. In that regard, Goldman Sachs assumed with Cymer's consent that the Forecasts and the Synergies were reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of Cymer. Goldman Sachs did not make an independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of Cymer or ASML or any of their respective subsidiaries and it was not furnished with any such evaluation or appraisal. Goldman Sachs has also assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the merger will be obtained without any adverse effect on Cymer or ASML or on the expected benefits of the merger in any way meaningful to its analysis. Goldman Sachs has also assumed that the merger will be consummated on the terms set forth in the merger agreement, without the waiver or modification of any term or condition the effect of which would be in any way meaningful to its analysis.

Goldman Sachs' opinion does not address the underlying business decision of Cymer to engage in the merger or the relative merits of the merger as compared to any strategic alternatives that may be available to Cymer; nor does it address any legal, regulatory, tax or accounting matters. Goldman Sachs was not requested to solicit, and did not solicit, interest from other parties with respect to an acquisition of, or other business combination with, Cymer or any other alternative transaction. Goldman Sachs' opinion addresses only the fairness from a financial point of view to the holders (other than ASML and its affiliates) of shares of Cymer common stock, as of the date of the opinion, of the merger consideration pursuant to the merger agreement. Goldman Sachs' opinion does not express any view on, and does not address, any other term or aspect of the merger agreement or any other term or aspect of any other agreement or instrument contemplated by the merger agreement or entered into or amended in connection with the merger, including, without limitation, the fairness of the merger to, or any other consideration received in connection therewith by, the holders of any other class of securities, creditors or other constituencies of Cymer; nor as to the fairness of the amount or nature of any compensation to be paid or payable to any of the officers, directors or employees of Cymer, or class of such persons in connection with the merger, whether relative to the merger consideration to be paid to Cymer stockholders (other than ASML and its affiliates) pursuant to the merger agreement or otherwise. Goldman Sachs' opinion was necessarily based on economic, monetary, market and other conditions as in effect on, and the information made available to it as of, the date of the opinion and Goldman Sachs assumed no responsibility for updating, revising or reaffirming its opinion based on circumstances, developments or events occurring after the date of its opinion. In addition, Goldman Sachs does not express any opinion as to the prices at which ASML

ordinary shares will trade at any time or as to the impact of the merger on the solvency or viability of Cymer or ASML or the ability of Cymer or ASML to pay their respective obligations when they come due. Goldman Sachs' opinion was approved by a fairness committee of Goldman Sachs.

The following is a summary of the material financial analyses delivered by Goldman Sachs to the Cymer Board in connection with rendering the opinion described above. The following summary, however, does not purport to be a complete description of the financial analyses performed by Goldman Sachs, nor does the order of analyses described represent relative importance or weight given to those analyses by Goldman Sachs. Some of the summaries of the financial analyses include information presented in tabular format. The tables must be read together with the full text of each summary and are alone not a complete description of Goldman Sachs' financial analyses. Except as otherwise noted, the following quantitative information, to the extent that it is based on market data, is based on market data as it existed on or before October 15, 2012, the last trading day prior to the date on which the Cymer Board adopted the merger agreement, and is not necessarily indicative of current market conditions.

Historical Stock Price Analysis. Goldman Sachs reviewed the historical trading prices for Cymer common stock for the ten-year period ended October 15, 2012. In addition, Goldman Sachs noted that based on the closing price of Cymer common stock of \$46.65 per share on October 15, 2012, and the closing price of ASML ordinary shares of \$52.81 on that date, the implied value of the stock consideration pursuant to the merger agreement of 1.1502 ASML ordinary shares was \$60.74, and together with \$20.00 to be paid in cash, the implied value of the merger consideration to be paid for each share of Cymer common stock was \$80.74, which is referred to as the implied per-share value. In addition, Goldman Sachs analyzed the implied per-share value to be paid to Cymer stockholders pursuant to the merger agreement in relation to the average closing prices of Cymer common stock for the 10-trading day, 30-trading day, 60-trading day and one-year periods ended October 15, 2012, and the 52-week high closing price to calculate the implied premium of the implied per-share value to the respective historical prices per share of Cymer common stock. The following table presents the results of these calculations:

Historical Date or Period	Closing Price or Average Closing Price of Cymer Common Stock	Implied Premium of Implied Per- Share Value to Price of Cymer Common Stock
October 15, 2012	\$ 46.65	73.1%
10-trading day mean	\$ 49.17	64.2%
30-trading day mean	\$ 53.06	52.2%

Newport Corporation

IPG Photonics Corporation

FLIR Systems, Inc.

Veeco Instruments Inc.

Nikon Corporation

Rofin-Sinar Technologies Inc.

Ultratech, Inc.

Although none of the selected companies is directly comparable to Cymer or ASML, the companies included were chosen because they are publicly traded companies with operations that for purposes of analysis may be considered similar to certain operations of Cymer and ASML.

Goldman Sachs also calculated and compared various financial multiples and ratios based on information it obtained from SEC filings, Institutional Brokers Estimate System (referred to as IBES) medians and the Forecasts. The multiples and ratios of Cymer were calculated using the closing price of Cymer common stock on October 15, 2012 and the multiples and ratios of ASML were calculated using the closing price of ASML ordinary shares on October 15, 2012. The multiples and ratios of Cymer were based on the Forecasts and IBES estimates, and current share, options and cash balance information provided by Cymer management. The multiples and ratios for ASML were based on IBES estimates, and subject to pro forma adjustments such that share count and cash balance reflect the issuance of shares to Taiwan Semiconductor Manufacturing Company Limited and the synthetic share buyback pursuant to ASML's customer co-investment program, as announced by ASML by press release on September 13, 2012. The multiples and ratios for each of the selected companies were based on IBES estimates and the most recent publicly available information. With respect to the selected companies, Goldman Sachs calculated:

enterprise value, which is the market value of common equity plus book value of debt less cash and cash equivalents, as a multiple of estimated calendar year 2012 revenues;

enterprise value as a multiple of estimated calendar year 2013 revenues; and

enterprise value as a multiple of estimated calendar year 2014 revenues.

The results of these analyses are summarized as follows:

Enterprise value as a multiple of:	Selected Companies	ASML	Cymer	
	Medians	IBES Estimates	Forecasts	IBES Estimates
CY2012E Revenue	1.2x	3.0x	2.2x	2.0x
CY2013E Revenue	1.1x	2.6x	1.6x	1.6x
CY2014E Revenue	1.0x	2.4x	1.2x	1.4x

Goldman Sachs also calculated the selected companies' enterprise value as a multiple of estimated earnings before interest, taxes and depreciation and amortization, or EBITDA, for calendar years 2012, 2013 and 2014, and compared it to the results for Cymer and ASML. The

results of these analyses are summarized as follows:

Goldman Sachs also calculated the selected companies' estimated price/earnings ratios for calendar years 2012, 2013 and 2014, and compared it to the results for Cymer and ASML. The results of these analyses are summarized as follows:

Price as a multiple of:	Selected Companies	ASML	Cymer	
	Medians	IBES Estimates	Forecasts	IBES Estimates
CY2012E Earnings per share	15.6x	15.3x	47.5x	40.2x

Implied Multiples Analysis. Assuming a price of \$46.65 per share of Cymer common stock and a price of \$52.81 per ASML ordinary share, which were the closing prices for Cymer common stock and ASML ordinary shares on October 15, 2012, Goldman Sachs performed certain analyses, based on the Forecasts and IBES estimates, using the implied per-share value of the merger consideration offered pursuant to the merger agreement of \$80.74. Goldman Sachs calculated for Cymer the implied equity value, the implied enterprise value, the ratio of implied enterprise value to revenue, the ratio of implied enterprise value to EBITDA and the ratio of price to earnings. Illustrative Discounted Cash Flow Analysis. Goldman Sachs performed an illustrative discounted cash flow analysis on Cymer using the Forecasts for the IBP, DUV, EUV and TCZ segment cash flows, in each case, as prepared by the management of Cymer. Goldman Sachs calculated indications of net present value of free cash flows for Cymer for the years 2013 through 2020. Goldman Sachs used a range of discount rates from 11.7% to 13.7%, which reflect an estimate of Cymer's weighted average cost of capital and were derived by application of the Capital Asset Pricing Model, which takes into account certain company-specific metrics, including a company's target capital structure, the cost of long-term debt, after-tax yield on permanent excess cash, if any, forecast tax rate and historical beta, as well as certain financial metrics for the United States financial markets generally. Goldman Sachs calculated implied prices per share of Cymer common stock using illustrative terminal values based on perpetuity growth rates ranging from 0% to 2% (with respect to a portion of IBP revenue, the perpetuity growth rate was (20%), and with respect to another portion of IBP revenue, steady state perpetuity

growth was not reached until seven years after it was reached for DUV, EUV, TCZ and remaining IBP revenue segments), which implied terminal year EBITDA multiples ranging from 5.4x to 7.2x. The range of perpetuity growth rates was estimated by Goldman Sachs utilizing its professional judgment and experience, taking into account the Forecasts and market expectations regarding long-term real growth of gross domestic product and inflation. The illustrative terminal values were then discounted to calculate implied indications of present values using illustrative discount rates ranging from 11.7% to 13.7%. This analysis resulted in a range of implied present values per share of Cymer common stock of \$68.36 - \$82.35 per share.

Goldman Sachs also performed a sensitivity analysis to illustrate the effect of different assumptions for changes in annual revenue growth and operating margin for Cymer for 2013 and beyond. The sensitivity adjustments to projected annual revenue growth ranged from (4.0%) to 4.0% of incremental growth. The sensitivity adjustments to projected annual operating margin ranged from (5.0%) to 5.0% of incremental operating margin. This analysis, assuming a 12.7% discount rate and a perpetuity growth rate of 1.0%, resulted in a range of illustrative implied present values of \$47.50 to \$108.07 per share of Cymer common stock.

Illustrative Contribution Analysis. Goldman Sachs reviewed estimated future operating and financial information including, among other things, revenues, gross profit, operating income, EBITDA and net income for Cymer, ASML and the combined company, based on the Forecasts. The analysis indicated that Cymer

stockholders would receive 11.0% of the outstanding ordinary shares of the combined company following completion of the merger assuming for illustrative purposes an all stock consideration transaction at an implied exchange ratio of 1.529, based on the \$80.74 implied value of the merger consideration as of October 15, 2012. Goldman Sachs then analyzed the relative income contributions of Cymer and ASML to the combined company following completion of the merger, without taking into account any of the Synergies, based on estimated calendar years 2012, 2013, 2014 and 2015 using the Forecasts and the assumptions provided to Goldman Sachs by Cymer management. The following table presents the results of this analysis:

	Cymer Contribution to Combined Company				
	Revenues	Gross Profit	Operating Income	EBITDA	Net Income
CY2012E	8.3%	9.9%	1.8%	3.2%	2.3%
CY2013E	10.8	11.1	3.2	3.6	2.8
CY2014E	12.4	12.0	6.6	6.3	5.6
CY2015E	15.3	16.0	13.7	12.5	11.6

Goldman Sachs also analyzed the implied equity contributions of Cymer and ASML to the combined company, by applying the weighted average multiples of revenue, gross profit, operating income, EBITDA and net income, respectively, to Cymer and ASML metrics to obtain an enterprise value, and then adjusting for each company's net debt position. The following table presents the results of this analysis:

	Cymer Implied Equity Contribution to Combined Company				
	Revenues	Gross Profit	Operating Income	EBITDA	Net Income
CY2012E	8.4%	9.8%	2.8%	4.0%	2.3%

CY2014E	11.9	11.5	6.9	6.7	5.6
CY2015E	14.3	15.0	13.0	12.0	11.6

Goldman Sachs also analyzed the implied equity contributions of Cymer and ASML to the combined company, based on the actual transaction structure. The analysis indicated that Cymer stockholders would receive 8.5% of the outstanding ordinary shares of the combined company following completion of the merger. The weighted average multiples of revenue, gross profit, operating income, EBITDA and net income, respectively, were applied to Cymer and ASML metrics to obtain an enterprise value, which was adjusted for the cash consideration of \$20.00 per share and each company's net debt position. The following table presents the results of this analysis:

	Cymer Implied Equity Contribution to Combined Company per Transaction Structure				
	Revenues	Gross Profit	Operating Income	EBITDA	Net Income
CY2012E	5.7%	7.1%	0.0%	1.2%	2.3%

Illustrative Pro Forma Merger Analysis. Goldman Sachs prepared an illustrative pro forma analysis of the potential financial impact of the merger using the Forecasts for Cymer and ASML both taking into account and excluding the Synergies. For each of the years 2013, 2014 and 2015, Goldman Sachs compared the projected earnings per share of ASML ordinary shares, in each case, on a standalone basis, to the projected earnings per share of the combined company on a pro forma basis. The following table presents the results of this analysis:

Accretion/(Dilution)	Excluding Synergies	Including Synergies
CY2013E	(6.5)%	(6.5)%
CY2014E	(4.0)%	(1.7)%
CY2015E	2.6%	6.1%

Goldman Sachs also calculated the estimated price earnings ratios of the combined company for calendar years 2013, 2014 and 2015 on a pro forma basis, including and excluding Synergies, at various trading prices that ranged from a (25.0%) to a 25.0% premium to the \$52.81 closing price of ASML ordinary shares on October 15, 2012. The results of these analyses are summarized as follows:

Price/Earnings Ratio:	Premium (Discount) to October 15, 2012 ASML Closing Price

Illustrative Present Value of Future Share Price Analysis. Goldman Sachs performed an illustrative analysis of the implied present value of the future price per share of Cymer common stock, which is designed to provide an indication of the present value of a theoretical future value of a company's equity as a function of the company's estimated future earnings and its assumed price to future earnings per share multiple. For this analysis, Goldman Sachs used the Forecasts for Cymer for each of the fiscal years 2014 and 2015. Goldman Sachs first calculated the implied values per share of Cymer common stock as of December 31 for each of the fiscal years 2014 and 2015, by applying illustrative price to forward earnings per share multiples of 13.0x to 17.0x to estimated earnings per share of Cymer common stock for each of the calendar years 2014 and 2015. These illustrative price/earnings multiple estimates were derived by Goldman Sachs utilizing its professional judgment and experience, taking into account current and historical trading data and the current price/earnings multiples for Cymer and the selected companies. Goldman Sachs then discounted 2014 and 2015 values back to December 31, 2012 using a range of discount rates from 10.5% to 12.5%, reflecting an estimate of Cymer's cost of equity and were derived by application of the Capital Asset Pricing Model, which takes into account certain company-specific metrics, including a company's target capital structure and historical beta, as well as certain financial metrics for the United States financial markets generally. This analysis resulted in a range of implied present values reflected in the table below:

	Implied Present Value per Cymer Share
2014E	\$ 32.26 - \$42.94
2015E	\$ 68.26 - \$92.52

Goldman Sachs also performed illustrative analyses of the implied value of the price per share of Cymer common stock on a pro forma basis for the combined company, both taking into account and excluding the Synergies. For these analyses, Goldman Sachs used the Forecasts for the combined company on a pro forma basis for each of the calendar years 2014 and 2015. Goldman Sachs first calculated the implied values per ordinary share of the combined company as of December 31 for each of the calendar years 2014 and 2015, by applying illustrative price to forward earnings per share multiples of 12.0x to 16.0x to estimated earnings per share of the combined company (both taking into account and excluding the Synergies) on a pro forma basis. These illustrative price/earnings multiple estimates were derived by Goldman Sachs utilizing its professional judgment and experience, taking into account current and historical trading data and the current price/earnings multiples for ASML and the selected companies. Goldman Sachs then discounted 2014 and 2015 values back to December 31, 2012 using a range of discount rates from 9.8% to 11.8%, which reflect an estimate of the cost of equity of the combined company and were derived by application of the Capital Asset Pricing Model, which takes into account certain company-specific metrics, including a company's target capital structure and historical beta, as well as certain financial metrics for financial markets generally. The implied value per share of Cymer common stock was calculated by multiplying the resulting value by the exchange ratio pursuant to the merger

agreement of 1.1502 and adding the resulting product to the \$20.00 per share cash consideration. This analysis resulted in a range of implied present values reflected in the table below:

	Implied Present Value per Cymer Share
2014E (ex. Synergies)	\$ 69.08 - \$86.63
2014E (incl. Synergies)	\$ 70.22 - \$88.18
2015E (ex. Synergies)	\$ 71.61 - \$91.34
2015E (incl. Synergies)	\$ 73.40 - \$93.82

The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Selecting portions of the analyses or of the summary set forth above, without considering the analyses as a whole, could create an incomplete view of the processes underlying Goldman Sachs' opinion. In arriving at its fairness determination, Goldman Sachs considered the results of all of its analyses and did not attribute any particular weight to any factor or analysis considered by it. Rather, Goldman Sachs made its determination as to fairness on the basis of its experience and professional judgment after considering the results of all of its analyses. No company or transaction used in the above analyses as a comparison is directly comparable to Cymer or ASML, respectively, or the contemplated transaction.

Goldman Sachs prepared these analyses for purposes of providing its opinion to the Cymer Board as to the fairness from a financial point of view of the merger consideration pursuant to the merger agreement. These analyses do not purport to be appraisals nor do they necessarily reflect the prices at which businesses or securities actually may be sold. Analyses based upon forecasts of future results are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by these analyses. Because these analyses are inherently subject to uncertainty, being based upon numerous factors or events beyond the control of the parties or their respective advisors, none of Cymer, ASML, Goldman Sachs or any other person assumes responsibility if future results are materially different from those forecast.

The merger consideration was determined through arm's-length negotiations between Cymer and ASML and was approved by the Cymer Board. Goldman Sachs provided advice to Cymer during these negotiations. Goldman Sachs did not, however, recommend any specific consideration to Cymer or the Cymer Board or that any specific consideration constituted the only appropriate consideration for the merger.

As described above, Goldman Sachs' opinion to the Cymer Board was one of many factors taken into consideration by the Cymer Board in making its determination to approve the merger agreement. The foregoing summary does not purport to be a complete description of the analyses performed by Goldman Sachs in connection with the fairness opinion and is qualified in its entirety by reference to the written opinion of Goldman Sachs attached to this proxy statement/prospectus as Annex B.

Goldman Sachs and its affiliates are engaged in commercial and investment banking and financial advisory services, market making and trading, research and investment management (both public and private investing), principal investment, financial planning, benefits counseling, risk management, hedging, financing, brokerage activities and other financial and non-financial activities and services for various persons and entities. Goldman Sachs and its affiliates, and funds or other entities in which they invest or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of Cymer, ASML, any of their respective affiliates and third parties, including Tinicum, and its affiliates and portfolio companies, or any currency or commodity that may be involved in the transactions contemplated by the merger agreement for the accounts of Goldman Sachs and its affiliates and their customers. Goldman Sachs acted as financial advisor to Cymer in connection with, and participated in certain of the negotiations leading to, the transactions contemplated by the merger agreement. Goldman Sachs has provided certain investment banking services to Cymer and its affiliates from time to time. Goldman Sachs has also provided certain investment banking services to Tinicum, its affiliates and its portfolio companies from time to time. Goldman Sachs may also in the future

provide investment banking services to Cymer, ASML and their respective affiliates and Tincum and its affiliates and portfolio companies for which the Investment Banking Division of Goldman Sachs may receive compensation. Affiliates of Goldman, Sachs & Co. may also have co-invested with Tincum and its affiliates from time to time and may have invested in limited partnership units of affiliates of Tincum from time to time, and may do so in the future.

The Cymer Board selected Goldman Sachs as its financial advisor because it is an internationally recognized investment banking firm that has substantial experience in transactions similar to those contemplated by the merger agreement. Pursuant to a letter agreement dated June 11, 2012, Cymer engaged Goldman Sachs to act as its financial advisor in connection with the contemplated transaction. Pursuant to this engagement letter, Cymer has agreed to pay Goldman Sachs a transaction fee based on a percentage of the aggregate consideration to be paid pursuant to the merger agreement. As of January 2, 2013, such fee is estimated to be approximately \$34.5 million, based on the closing price of ASML ordinary shares for the five trading days ending January 2, 2013, \$6.0 million of which became payable upon execution of the merger agreement and the remainder of which is payable immediately prior to consummation of the merger. In addition, Cymer has agreed to reimburse Goldman Sachs for certain of its expenses, including attorneys' fees and disbursements, and to indemnify Goldman Sachs and related persons against various liabilities, including certain liabilities under the federal securities laws.

Except as described in the previous paragraph, during the two year period ended October 16, 2012, Goldman Sachs has not been engaged by Cymer, ASML or their respective affiliates to provide services for which the Investment Banking Division of Goldman Sachs has received compensation.

Certain Financial Forecasts of Cymer

In performing its financial analysis for purposes of rendering the opinion described and summarized above in *Opinion of Goldman Sachs as Financial Advisor to Cymer*, at the direction of Cymer management and the Cymer Board, Goldman Sachs used the Forecasts for Cymer (referred to as the Cymer Forecasts) and the Synergies. The Cymer Forecasts and the Synergies were prepared by Cymer management and presented to the Cymer Board. Cymer is electing to provide the Cymer Forecasts in this section of the proxy statement/prospectus to provide Cymer stockholders access to certain non-public unaudited prospective financial information that was made available to the Cymer Board for the purpose of considering and evaluating the merger. Neither Cymer nor any other person has made, or makes, any representation regarding the Cymer Forecasts, which are set forth below.

Cymer does not as a matter of course publicly disclose detailed financial forecasts or projections, and Cymer does not disclose forecasts for extended periods due to the unpredictability of the underlying assumptions and estimates. However, certain prospective financial information, which we refer to as the Cymer Forecasts, was prepared by Cymer's management, reviewed with and discussed among members of the Cymer Board in connection with its consideration of the merger, and made available to Goldman Sachs in connection with the delivery of its opinion described in the section titled *Opinion of Goldman Sachs as Financial Advisor to Cymer*, beginning on page 60. The Cymer Forecasts included information for the years 2012 through 2020, and did not include any consideration, impact or benefit from the merger with ASML. The Synergies were based on potential revenue and cost savings synergies in connection with the merger. Cymer has provided below certain information included in the Cymer Forecasts and the Synergies to give stockholders and investors access to certain non-public information that was furnished to third parties.

The Cymer Forecasts and the Synergies have been prepared by, and are the responsibility of, the management of Cymer. The Cymer Forecasts and the Synergies were not prepared with a view toward public disclosure or compliance with published guidelines of the SEC or the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information or with GAAP. The Cymer Forecasts and the Synergies include certain non-GAAP financial measures. The footnotes to the tables below

Table of Contents

provide certain supplemental information with respect to the calculation of these non-GAAP financial measures. Certain of this supplemental information may not have been included in the Cymer Forecasts. In addition, the Cymer Forecasts are unaudited and neither Cymer's independent registered public accounting firm, nor any other independent auditor, has compiled, examined or performed any procedures with respect to the Cymer Forecasts, nor have they expressed any opinion or given any form of assurance on the Cymer Forecasts or the Synergies or their respective achievability. The report of Cymer's independent registered public accounting firm incorporated by reference in this proxy statement/prospectus relates to Cymer's historical financial statements. The report does not extend to the Cymer Forecasts or the Synergies and should not be read to do so.

Information from the Cymer Forecasts and the Synergies is not being included in this proxy statement/prospectus to influence your decision about whether to vote for the proposal to approve the merger agreement, but because the Cymer Forecasts and the Synergies were provided to Cymer's financial advisor and, in the case of the Cymer Forecasts only, to ASML.

Furthermore, the Cymer Forecasts and the Synergies:

were based upon numerous variables and assumptions (including but not limited to those related to industry performance and competition and general business, economic, market and financial conditions) that are inherently uncertain, may be beyond the control of Cymer and may not prove to be accurate;

do not necessarily reflect current estimates or assumptions that the management of Cymer may have about prospects for Cymer's businesses (including Cymer's ability to achieve strategic goals, objectives and targets over applicable periods), changes in general business or economic conditions, industry performance, the regulatory environment and other factors described under the section titled "Forward-Looking Statements" beginning on page 44; and

reflect assumptions as to certain business decisions that are subject to change.

As a result, actual results may differ materially from those contained in the Cymer Forecasts and the actual synergies realized may differ materially from the Synergies. Accordingly, there can be no assurance that the Cymer Forecasts or the Synergies will be realized.

The inclusion of the Cymer Forecasts and the Synergies in this proxy statement/prospectus should not be regarded as an indication that Cymer or its affiliates, advisors, representatives or any other recipient of this information, including ASML or its affiliates, advisors, or representatives, considered, or now considers, the Cymer Forecasts or the Synergies to be predictive of actual future results, and the Cymer Forecasts and the Synergies should not be relied upon as such. Neither Cymer nor ASML nor any of their respective affiliates, advisors, officers, directors, partners or representatives can give you any assurance that actual results will not differ from the Cymer Forecasts or the Synergies, and none of them undertakes any obligation to update or otherwise revise or reconcile the Cymer Forecasts or the Synergies to reflect circumstances existing after the date the Cymer Forecasts and the Synergies were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the Cymer Forecasts and/or the Synergies are shown to be in error. Cymer and ASML do not intend to make publicly available any update or other revision to the Cymer Forecasts or the Synergies. Further, the inclusion of the Cymer Forecasts and the Synergies in this proxy statement/prospectus does not constitute an admission or representation by Cymer or ASML that this information is material. Neither Cymer nor ASML nor any of their respective affiliates, advisors, officers, directors, partners or representatives has made or makes any representation to any stockholder or other person regarding Cymer's ultimate performance compared to the information contained in the Cymer Forecasts or the combined company's ultimate achievement of the Synergies or that forecasted results will be achieved. Cymer has made no representation to ASML, in the merger agreement or otherwise, concerning the Cymer Forecasts or the Synergies. The Cymer Forecasts and the Synergies were, in general, prepared solely for use by the Cymer Board and are subjective in many respects and thus subject to interpretation.

The Cymer Forecasts and the Synergies are forward-looking statements. For additional information on factors which may cause Cymer's future financial results to materially vary from the Cymer Forecasts, or cause the combined company to fail to achieve the Synergies, see the sections titled "Forward-Looking Statements" and "Risk Factors," beginning on pages 44 and 38, respectively.

The following table presents certain information included in the Cymer Forecasts:

- (2) Free Cash Flow is calculated as Operating Income, minus the provision (benefit) for income taxes, capital expenditures and changes in working capital, plus depreciation and amortization, and includes stock based compensation expense.

Interests of Certain Persons in the Merger*Interests of Cymer Officers and Directors in the Merger*

Cymer executive officers and directors have interests in the merger that are different from, or in addition to, the interests of Cymer stockholders generally. The Cymer Board was aware of these potentially differing interests and considered them, among other matters, in reaching its decision to adopt the merger agreement and approve the merger and to recommend that you vote in favor of the proposal to approve the merger agreement.

For further information with respect to arrangements between Cymer and its named executive officers, see the information included under "Advisory Vote on Merger-Related Compensation for Cymer's Named Executive Officers" "Golden Parachute Compensation" beginning on page 108.

Table of Contents*Outstanding Equity Compensation Awards*

Upon consummation of the merger, each option to acquire shares of Cymer common stock that has vested will be converted into an amount in cash, without interest thereon, for each share of Cymer common stock underlying such option equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) 1.1502 and (2) the ASML Share Price, over (ii) the per share exercise price of such Cymer stock option. Each unvested option to purchase Cymer common stock will be assumed by ASML and converted into an option to purchase a number of ASML ordinary shares equal to the number of shares of Cymer common stock subject to such option multiplied by the Stock Award Exchange Ratio, and the exercise price for each ASML ordinary share underlying such option will be equal to the exercise price per share of Cymer common stock subject to such Cymer stock option divided by the Stock Award Exchange Ratio.

Other than with respect to restricted stock units held by outside directors, upon consummation of the Merger, each restricted stock unit of Cymer that has vested will be converted into the right to receive the merger consideration. In addition, other than with respect to restricted stock units held by outside directors, each unvested restricted stock unit of Cymer will be assumed by ASML and converted into a number of ASML restricted stock units equal to the product of (i) the number of shares of Cymer common stock underlying such Cymer restricted stock unit multiplied by (ii) the Stock Award Exchange Ratio.

The unvested options and restricted stock units are not subject to single-trigger vesting (i.e., vesting is not triggered merely upon a change in control) in connection with the merger, so there is no acceleration of the vesting upon completion of the merger. However, four of the executives, Robert P. Akins, Edward J. Brown, Jr., Paul B. Bowman and Karen K. McGinnis, are entitled to double-trigger vesting (i.e., vesting is triggered upon a termination of an executive's employment without cause or a resignation for good reason within 18 months following the merger or a resignation for any reason during the 30-day period beginning one year after the merger) of their unvested options and unvested restricted stock units, as detailed further in the section titled *Employment Agreements with Robert P. Akins, Edward J. Brown, Jr., Paul B. Bowman and Karen K. McGinnis*.

Outside directors will be entitled to receive in respect of each restricted stock unit that is outstanding at the time of the merger, whether vested or unvested, a cash payment equal to the sum of (i) \$20.00 plus (ii) the product of 1.1502 and the ASML Share Price. Based on the outstanding equity held as of December 31, 2012, and assuming the merger closes on March 1, 2013, there would be 1,395 unvested director restricted stock units cashed out (all other director restricted stock units would be vested).

2013 Equity Compensation Grants

Cymer expects to make 2013 equity compensation grants before the merger is consummated. Cymer presented its 2013 Operating Plan to the Cymer Board in November 2012 for approval. The 2013 Operating Plan includes, among other things, proposed 2013 equity grants per individual and the terms and value of such grants. The proposed 2013 equity grants are intended to be generally consistent with the value of 2012 equity grants. Following approval of the Cymer Board, the 2013 Operating Plan was submitted to ASML for its approval, which approval is not to be unreasonably withheld, conditioned or delayed. If 2013 equity compensation grants are awarded to outside directors those grants would be subject to accelerated vesting at the time of the merger.

Employment Agreements with Robert P. Akins, Edward J. Brown, Jr., Paul B. Bowman and Karen K. McGinnis

Cymer previously entered into employment agreements with Robert P. Akins, Edward J. Brown, Jr., Paul B. Bowman and Karen K. McGinnis. The employment agreements provide these executives with certain severance protections in the event of their termination of employment in connection with a change in control. Consummation of the merger would constitute a change in control for purposes of such employment agreements.

Table of Contents

If employment is terminated by Cymer or ASML without cause or if the executive terminates his or her employment for good reason in either case within 18 months after the closing of the merger, or if the executive terminates his or her employment for any reason during the 30-day period beginning one year after the merger (all of such events referred to as a qualifying termination), the executive would be entitled to receive immediate vesting of all of his or her unvested restricted stock units and options, monthly severance payments for 24 months for Messrs. Akins and Brown, 18 months for Mr. Bowman, and 12 months for Ms. McGinnis, equal to the executive's monthly base salary, plus the average monthly bonus and incentive program payments he or she has received for the past three calendar years, a payout of a percentage of the maximum amount of short term incentive bonus he or she could receive for the year in which the qualifying termination occurs, and continuation of health benefit premium payments under COBRA for 24 months for Messrs. Akins and Brown, 18 months for Mr. Bowman, and 12 months for Ms. McGinnis.

Cause is defined in each of the employment agreements generally as acts of personal dishonesty, conviction of a felony that is injurious to Cymer, a willful act of gross misconduct that is injurious to Cymer, and continued violations of the duties and scope of employment.

Good Reason is defined in each of the employment agreements and generally arises if Cymer or ASML significantly reduces the executive's duties, responsibilities (including, when Cymer becomes a non-publicly traded company due to the merger, the executive not becoming the Chief Executive Officer (Mr. Akins), Chief Operating Officer (Mr. Brown), Chief Financial Officer (Mr. Bowman), or Chief Accounting Officer (Ms. McGinnis) of ASML, its then-publicly traded parent), base compensation or target incentive compensation, or relocates the executive to a facility more than 50 miles from his or her present location, or if ASML fails to assume the executive's employment agreement.

The employment agreements further provide that if the payments and benefits provided to the executive under his or her employment agreement, or otherwise, would constitute parachute payments within the meaning of Section 280G of the Code, then the executive will have his or her payments and benefits either (i) paid in full, or (ii) reduced to the highest amount that could be paid without triggering Section 280G of the Code, whichever of the foregoing amounts, taking into account all applicable taxes and the excise tax imposed by Section 4999 of the Code, would result in the receipt by the executive of the higher after-tax amount.

Based on the executives' compensation levels and equity holdings as of December 31, 2012, an assumed closing and termination of employment date of March 1, 2013, a \$79.75 price for Cymer common stock (derived from an average ASML stock price for the first 5 days after public announcement of the merger) and 2012 performance-based restricted stock units paying out at a 138% level for revenue/net income performance and a 150% level for market share performance (based on performance through September 30, 2012), the executives would receive approximately the following: (1) Mr. Akins: \$9,582,681 in value of unvested equity, \$3,104,999 in cash severance and \$17,113 in COBRA benefits; (2) Mr. Brown: \$5,018,668 in value of unvested equity, \$2,283,435 in cash severance and \$52,546 in COBRA benefits; (3) Mr. Bowman: \$2,832,561 in value of unvested equity, \$1,056,439 in cash severance and \$27,710 in COBRA benefits; (4) Ms. McGinnis: \$1,393,574 in value of unvested equity, \$425,056 in cash severance and \$26,273 in COBRA benefits.

On October 16, 2012, Mr. Akins and Mr. Brown each entered into a letter agreement with ASML in connection with Cymer entering into the merger agreement. The letters provide that if the executive is offered the positions of Chief Technology Strategist of ASML and Senior Vice President of the Cymer Technologies Division for Mr. Akins, and the position of Chief Executive Officer of the Cymer Light Source Division for Mr. Brown, following the merger, then the change in the executive's duties and responsibilities will not be treated as good reason as defined in Mr. Akins and Mr. Brown's employment agreements with Cymer, and that any claim for good reason after the merger having to do with the reduction in the duties and responsibilities portion of their good reason definition will be based off their new duties and responsibilities. The letters further provide that the executives and ASML will work together in good faith to try to reach agreement on the post-closing terms of their employment. The letters do not alter Mr. Akins' and Mr. Brown's right to terminate their

Table of Contents

employment for any reason during the 30-day period beginning one year after the merger and have such a termination be deemed a qualifying termination. As of January 3, 2013, Mr. Bowman and Ms. McGinnis have not yet entered into employment letters with ASML.

2012 Short Term Incentive Plan Payments

ASML and Cymer have agreed that Cymer will pay 2012 annual bonuses on the closing date of the merger. Each executive in good standing as of closing will be entitled to receive 50% of their 2012 target short term incentive plan bonus award. Executives are entitled to receive the following bonus amounts: \$342,570 for Mr. Akins; \$265,532 for Mr. Brown; \$148,526 for Mr. Bowman; \$66,950 for Ms. McGinnis; and \$114,330 for Thomas J. Bondur.

Indemnification and Insurance

For a period of six years after consummation of the merger, the limited liability company agreement of the surviving entity shall contain equivalent provisions with respect to exculpation, indemnification and advancement of expenses to those set forth in Cymer's articles of incorporation and bylaws as of the date of the merger agreement. Such provisions may not be amended, repealed or otherwise modified for a period of six years after consummation of the merger in a manner that would adversely affect the rights thereunder of individuals who, at or prior to the effective time of the merger, were directors, officers or employees of Cymer or any of its subsidiaries, unless required by applicable law and then only to the minimum extent required by applicable law.

For a period of six years after consummation of the merger, the surviving entity and ASML will, to the fullest extent permitted under applicable law, indemnify and hold harmless, each of Cymer's and its subsidiaries' present and former directors, officers and employees against all costs and expenses (including attorneys' fees), judgments, fines, losses, claims, damages, liabilities and settlement amounts paid in connection with any claim, action, suit, proceeding or investigation to the extent they were indemnified under Cymer's articles, bylaws and indemnification contracts in effect as of the date of the merger agreement with respect to any action or omission in their capacity as an officer, director or employee, at or prior to the consummation of the merger.

Prior to consummation of the merger, Cymer shall and, if it is unable to, ASML shall use its commercially reasonable efforts to have the surviving entity as of the effective time of the merger, purchase a six-year prepaid tail policy, with a claims period of six years from the consummation of the merger, on the current directors' and officers' liability insurance policies maintained by Cymer covering acts or omissions occurring at or prior to the consummation of the merger with respect to those persons who are covered by Cymer's directors' and officers' liability insurance policy on terms and scope with respect to such coverage, and in amount, not less favorable to such individuals than those of such policy in effect on the date of the merger agreement. If Cymer and the surviving entity for any reason fail to obtain such tail policy, then the surviving entity will maintain for six years from the consummation of the merger the current directors' and officers' liability insurance policies maintained by Cymer (or the surviving entity may substitute policies issued by an insurance carrier with the same or better credit rating as Cymer's current insurance carrier, of at least the same coverage with respect to matters occurring prior to the consummation of the merger containing terms and conditions that are not less favorable in the aggregate). The surviving entity's obligation to purchase this tail policy is subject to a cap of 300% of the annual premiums paid by Cymer for such coverage on the date of the merger agreement per year of coverage. If any tail policy described above is put in place, then from and after the effectiveness of such tail policy, neither ASML nor any of its subsidiaries will have any further obligations to obtain directors' and officers' liability insurance policies.

ASML's Reasons for the Merger

At a meeting held on October 15, 2012, the Supervisory Board unanimously determined to approve the merger agreement, and, in a resolution dated October 16, 2012, the Supervisory Board approved the merger agreement. In a resolution dated October 16, 2012, the Board of Management approved the merger agreement.

Table of Contents

The Supervisory Board and the Board of Management each consulted with ASML's outside financial and legal advisors and considered a number of factors in connection with their respective approvals of the merger agreement, including the following:

Fundamental Objective. An acquisition of Cymer is critical to achieving ASML's strategic objective of delivering an economically viable EUV scanner to semiconductor manufacturers as soon as possible. Absent the acquisition, ASML believed that Cymer would not have sufficient resources to complete the development of the EUV source. In addition, ASML's history of working collaboratively with Cymer to help Cymer develop the EUV source has proven to be inefficient, difficult to manage and has led to delays in EUV source development. The merger will allow ASML to more effectively partition responsibilities between Cymer, its suppliers and ASML, reducing risks and increasing development speed.

Development of EUV Technologies. The potential for success of commercializing EUV technologies, including:

the fact that ASML and Cymer have collaborated closely for over a year, and the merger is the natural evolution of their existing cooperation in developing EUV technology;

the belief that combining Cymer's expertise in EUV light sources with ASML's expertise in lithography systems design and integration will reduce the risks related to the successful development of, and accelerate the introduction of, EUV technology;

the belief that the merger will improve ASML's capabilities to bring new technologies to its customers;

the expectation that the merger will make EUV technology development significantly more efficient and simplify the supply chain and integration flow of the EUV modules; and

the belief that the only way to make the EUV source development successful without additional delay was to combine ASML and Cymer, thereby removing the inherent limitations of two separate companies trying to develop the technology and unlocking the potential value of the EUV business.

Business and Financial Condition and Prospects. The Supervisory Board's and the Board of Management's knowledge of Cymer's business, financial condition, results of operations and prospects and their belief that the merger is more favorable to ASML shareholders than any other alternative reasonably available to ASML and its shareholders.

Prospects of Combined Business. The potential synergies from combining ASML's and Cymer's businesses, including:

the opportunities ASML expects to create around Cymer's growing advanced immersion systems and dry DUV and IBP business, and the possibility to manage optimally the transition to EUV technologies;

the fact that EUV success is critical to the semiconductor industry, and the belief that ASML's resources will enable the combined company to continue to develop and successfully commercialize EUV on an accelerated timeframe; and

Edgar Filing: ASML HOLDING NV - Form 424B3

the fact that ASML also will acquire Cymer's DUV business, which technology is expected to remain a significant and growing engine of sales and profit and is expected to be well positioned to support and balance customer needs for EUV and immersion multiple patterning.

Terms of the Merger Agreement. The financial and other terms of the merger, the merger agreement and related documents.

Table of Contents

The Supervisory Board and the Board of Management also considered a variety of risks and other potentially negative factors concerning the merger agreement and the merger, including the following:

the likelihood and anticipated timing of completing the merger in light of the scope of the conditions to completion, including required regulatory approvals;

the risks and costs to ASML if the merger does not close, including the diversion of management and employee attention, potential employee attrition and the potential disruptive effect on business and customer relationships; and

the risks of delays and limitations of EUV technology, even after enhanced execution enabled by the merger.

The foregoing discussion of the information and factors considered by the Supervisory Board and the Board of Management in reaching their respective conclusions is not intended to be exhaustive, but includes the material factors considered by the Supervisory Board and the Board of Management. In view of the wide variety of factors considered in connection with their respective evaluations of the merger agreement and the transactions contemplated thereby, and the complexity of these matters, the Supervisory Board and the Board of Management did not find it practicable to, and did not attempt to, quantify, rank or assign any relative or specific weights to the various factors considered in reaching their respective determinations and making their respective recommendations. In addition, individual directors may have given different weights to different factors. The Supervisory Board and the Board of Management considered all of the foregoing factors as a whole.

Accounting Treatment

The acquisition of Cymer common stock pursuant to the merger will be accounted for by ASML under the acquisition method of accounting in conformity with GAAP.

Regulatory Matters

Under the HSR Act, the merger may not be completed until notification and report forms have been filed with the FTC and the Antitrust Division, and the applicable waiting period has expired or been terminated. Cymer and ASML filed their respective notification and report forms under the HSR Act with the FTC and the Antitrust Division on November 9, 2012. Each party subsequently received a second request from the Antitrust Division in connection with the pending merger. ASML and Cymer intend to continue to work with the Antitrust Division and to comply promptly with these second requests.

At any time before or after the completion of the merger, the Antitrust Division, the FTC, or a state attorney general could take any action under U.S. federal or state antitrust laws as it deems necessary or desirable in the public interest, including seeking to enjoin the merger in federal court or seeking the divestiture of substantial assets of ASML, Cymer, or their subsidiaries and affiliates. State attorneys general and private parties may also bring legal actions under U.S. federal or state antitrust laws under certain circumstances. There can be no assurance that a challenge to the merger on antitrust grounds will not be made or, if a challenge is made, of the result of the challenge.

Clearances and consents or the expiration or termination of applicable waiting periods under competition laws in Germany, Israel, Japan, South Korea, and Taiwan also are conditions to the merger. On December 17, 2012, the required clearances were received under the competition laws in Germany.

In addition, ASML and Cymer have agreed that the merger is conditioned upon the favorable review of the merger by CFIUS. This condition was satisfied on January 3, 2013, when CFIUS notified the parties that there are no unresolved national security concerns with respect to the merger, and that CFIUS review was therefore concluded.

In accordance with the terms and subject to the conditions of the merger agreement, ASML and Cymer have agreed to use their reasonable best efforts to obtain all regulatory clearances necessary to complete the merger. See *The Merger Agreement Covenants Efforts to Complete Transactions* beginning on page 99.

Certain U.S. Federal Income Tax Consequences of the Merger

The following discussion addresses certain U.S. federal income tax consequences of the merger to holders of Cymer common stock that are U.S. holders (as defined below). This discussion is based upon the Code, Treasury regulations, administrative rulings and judicial decisions currently in effect, all of which are subject to change, possibly with retroactive effect. Any such change could affect the accuracy of this discussion. The discussion assumes that Cymer stockholders hold their Cymer common stock, and will hold their ASML ordinary shares, as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). Further, the discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular Cymer stockholder in light of its personal investment circumstances or to Cymer stockholders subject to special treatment under the U.S. federal income tax laws, such as:

banks, insurance companies or other financial institutions;

regulated investment companies;

tax-exempt organizations;

entities or arrangements that are treated as partnerships for U.S. federal income tax purposes and investors in such partnerships;

U.S. expatriates;

broker-dealers;

traders in securities that elect mark-to-market treatment;

dealers in securities or foreign currency;

U.S. holders subject to the alternative minimum tax;

U.S. holders that hold Cymer common stock as part of a straddle, hedge, constructive sale, conversion or other integrated transaction, including a wash sale;

U.S. holders that have a functional currency other than the U.S. dollar;

U.S. holders that acquired their Cymer common stock through the exercise of options or otherwise as compensation or through a tax-qualified retirement plan; or

U.S. holders who own directly, indirectly, or constructively five percent or more of the Cymer common stock or will own five percent or more of the ASML ordinary shares immediately after the merger, including a five-percent transferee shareholder.

Edgar Filing: ASML HOLDING NV - Form 424B3

In general, a five-percent transferee shareholder is a person who holds Cymer common stock and will own directly, indirectly or constructively, at least five percent or more of either the total voting power or total value of ASML ordinary shares immediately after the merger. The attribution rules for determining ownership are complex, and neither Cymer nor ASML can offer any assurance that you will not be a five-percent transferee shareholder based on your particular facts and circumstances. If you believe you could become a five-percent transferee shareholder of ASML, you should consult your tax advisor about the special rules and time-sensitive tax procedures, including the requirement to file a gain recognition agreement under section 367(a) of the Code, that might apply regarding your ability to obtain nonrecognition treatment in the merger.

Furthermore, this discussion does not consider the potential effects of any state, local or non-U.S. tax laws.

For purposes of this discussion, a U.S. holder is a beneficial owner of Cymer common stock who is, for U.S. federal income tax purposes: (i) an individual who is a citizen or resident of the United States; (ii) a corporation or other entity taxable as a corporation created or organized under the laws of the United States or any of its political subdivisions; (iii) an estate that is subject to U.S. federal income tax on its income regardless of its source; or (iv) a trust (A) if a U.S. court is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust or (B) that has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes.

Table of Contents

If a partnership (or other entity treated as a partnership for U.S. federal income tax purposes) holds Cymer common stock, the tax treatment of the partnership and its partners generally will depend upon the status of the partner and the activities of the partnership. If you are a partnership or a partner of a partnership holding Cymer common stock, you should consult your tax advisor regarding the tax consequences of the merger to you.

Neither ASML nor Cymer has requested a ruling from the Internal Revenue Service (referred to as the IRS) with respect to any of the U.S. federal income tax consequences of the merger and, as a result, there can be no assurance that the IRS will not disagree with any of the conclusions described below.

You should consult your tax advisor regarding the specific tax consequences to you of the merger, including the applicability and effect of U.S. federal, state, local and non-U.S. income and other tax laws in light of your particular circumstances.

Under the merger agreement, Merger Sub, a direct wholly owned subsidiary of Holdco, which is an indirect wholly owned subsidiary of ASML (but is treated as a direct wholly owned subsidiary of ASML for U.S. federal income tax purposes), will merge with and into Cymer, with Cymer continuing as the surviving entity and as a direct wholly owned subsidiary of Holdco. This step is referred to as the first step merger. Pursuant to the merger agreement, immediately after the first step merger becomes effective, Cymer will merge with and into Merger Sub 2, a direct wholly owned subsidiary of, and for U.S. federal income tax purposes, disregarded as separate from, Holdco, with Merger Sub 2 continuing as the surviving entity and as a direct wholly owned subsidiary of and, for U.S. federal income tax purposes, disregarded as separate from, Holdco. This second step is referred to as the second step merger, and both the first step merger and the second step merger together are referred to as the merger.

In the opinion of Skadden, Arps, Slate, Meagher & Flom LLP and Sullivan & Cromwell LLP, the merger will be treated as a reorganization within the meaning of Section 368(a) of the Code, with the tax consequences described under Certain U.S. Federal Income Tax Consequences of the Merger. These opinions of counsel are given in reliance on customary representations of ASML, Cymer, Holdco, Merger Sub, and Merger Sub 2 and are based on assumptions as to certain factual matters. Further, these opinions will not bind the courts or the IRS, nor will they preclude the IRS from adopting a position contrary to those expressed in the opinions.

A U.S. holder of Cymer common stock that exchanges its shares of Cymer common stock for a combination of ASML ordinary shares and cash (other than cash received in lieu of a fractional share) pursuant to the merger will generally recognize gain (but not loss) in an amount equal to the lesser of (i) the holder's gain realized (i.e., the excess, if any, of the sum of the amount of cash and the fair market value, as of the effective time of the merger, of the ASML ordinary shares received over the holder's adjusted tax basis in its shares of Cymer common stock surrendered) and (ii) the amount of cash received pursuant to the merger. Any recognized gain generally will be long-term capital gain if the U.S. holder's holding period for the Cymer common stock surrendered exceeds one year at the effective time of the merger (except for gain treated as a dividend, as discussed below under Potential Treatment of Cash as a Dividend).

A U.S. holder must calculate the amount of gain or loss realized separately for each block of shares of Cymer common stock surrendered. A U.S. holder's aggregate tax basis in its ASML ordinary shares received pursuant to the merger, including the basis allocable to any fractional share of ASML ordinary shares for which cash is received, will be equal to the U.S. holder's aggregate tax basis in the Cymer common stock surrendered pursuant to the merger, decreased by the amount of cash received (excluding any cash received in lieu of a fractional share of ASML ordinary shares) and increased by the amount of gain, if any, recognized or any amount treated as a dividend, as described below (but excluding any gain resulting from the deemed receipt and redemption of fractional shares). A U.S. holder's holding period for shares of ASML ordinary shares received pursuant to the merger will include the holding period for the block of Cymer common stock surrendered in exchange therefor.

Table of Contents

ASML's and Cymer's obligations to complete the merger are not conditioned upon the receipt of the opinions of Skadden, Arps, Slate, Meagher & Flom LLP and Sullivan & Cromwell LLP described above. If the merger fails to qualify as a reorganization within the meaning of Section 368(a) of the Code, then the merger would be treated as a taxable stock sale by Cymer stockholders pursuant to which they would recognize gain or loss equal to the difference between their tax basis in their Cymer common stock and the sum of the amount of cash plus the fair market value, as of the effective time of the merger, of the ASML ordinary shares received pursuant to the merger.

Application of Section 367 of the Code

Section 367(a)(1) of the Code and the applicable Treasury regulations thereunder provide that where a U.S. holder exchanges stock in a U.S. corporation for stock in a non-U.S. corporation in a transaction that would otherwise constitute a tax-free reorganization, the U.S. holder is required to recognize gain, but not loss, realized on such exchange unless certain requirements are met. Cymer and ASML expect to meet such requirements and therefore the merger is not expected to be subject to Section 367(a)(1) of the Code.

Potential Treatment of Cash as a Dividend

The gain recognized by a U.S. holder on the receipt of ASML ordinary shares and cash pursuant to the merger may be treated as a dividend for U.S. federal income tax purposes to the extent of the holder's ratable share of Cymer's accumulated earnings and profits. In general, the determination of whether such gain recognized will be treated as capital gain or has the effect of a distribution of a dividend depends upon whether and to what extent the exchange reduces the holder's deemed percentage of stock ownership of ASML ordinary shares. For purposes of this determination, the holder generally will be treated as if it first exchanged all of its shares of Cymer common stock solely for ASML ordinary shares and then ASML immediately redeemed a portion of the ASML ordinary shares in exchange for the cash the holder actually received, which redemption we refer to in this proxy statement/prospectus as the deemed redemption. Such gain recognized by a holder pursuant to the deemed redemption will be treated as capital gain if the deemed redemption is (i) substantially disproportionate with respect to the holder (and after the deemed redemption the holder actually or constructively owns less than 50% of the voting power of the outstanding ASML ordinary shares) or (ii) not essentially equivalent to a dividend.

The deemed redemption generally will be substantially disproportionate with respect to a holder if the percentage of the outstanding ASML ordinary shares that the holder actually and constructively owns immediately after the deemed redemption is less than 80% of the percentage of the outstanding ASML ordinary shares that the holder is deemed actually and constructively to have owned immediately before the deemed redemption. The deemed redemption will not be considered to be essentially equivalent to a dividend if it results in a meaningful reduction in the holder's deemed percentage of stock ownership of ASML. In applying the above tests, the holder may, under the constructive ownership rules, be deemed to own stock that is owned by other persons or otherwise in addition to the stock the holder actually owns or owned. The IRS has ruled that a minority shareholder in a publicly held corporation whose relative stock interest is minimal and who exercises no control with respect to corporate affairs is considered to have a meaningful reduction if the shareholder has at least a relatively minor reduction in such shareholder's percentage of stock ownership under the above analysis.

As these rules are complex and dependent upon your specific circumstances, you should consult your tax advisor to determine whether you may be subject to these rules.

Cash in Lieu of Fractional ASML Ordinary Shares

A U.S. holder that receives cash in lieu of a fractional share of ASML ordinary shares generally will be treated as having received such fractional share and then as having received such cash in redemption of the fractional share. Gain or loss generally will be recognized based on the difference between the amount of cash

Table of Contents

received in lieu of the fractional share and the portion of the holder's aggregate adjusted tax basis in the shares of Cymer common stock surrendered which is allocable to the fractional share. Such gain or loss generally will be long-term capital gain or loss if the holder's holding period for its Cymer common stock exceeds one year at the effective time of the merger.

Backup withholding

Under the backup withholding provisions of the Code, a U.S. holder may be subject to information reporting and backup withholding on any cash payments it receives for Cymer common stock pursuant to the merger. A U.S. holder generally will not be subject to backup withholding, however, if such holder (i) furnishes a correct taxpayer identification number, certifies that it is not subject to backup withholding on the substitute Form W-9 included in the election form/letter of transmittal it will receive and otherwise complies with the applicable requirements of the backup withholding rules, or (ii) provides proof that it is otherwise exempt from backup withholding.

Backup withholding is not an additional federal income tax. Any amounts withheld under the backup withholding rules will generally be allowed as a refund or credit against a holder's U.S. federal income tax liability, if any, provided such holder timely furnishes the required information to the IRS.

Material U.S. Federal Income Tax Consequences of Holding and Disposing of ASML Ordinary Shares

The ASML Form 20-F, which has been incorporated by reference into this proxy statement/prospectus, contains a description of material U.S. federal income tax consequences related to holding and disposing of ASML ordinary shares. The description contained in the Form 20-F, however, is only a summary and does not purport to be a complete analysis of all potential tax effects resulting from the ownership or disposition of ASML ordinary shares (such as tax consequences for holders who are subject to special treatment under U.S. federal income tax law). You should consult your tax advisor regarding the U.S. federal, state, local and non-U.S. income and other tax considerations of holding and disposing of in ASML ordinary shares.

Taxation in the Netherlands

The following is intended as general information only and it does not purport to present any comprehensive or complete description of all aspects of Dutch tax law which could be of relevance to a holder of ASML ordinary shares (referred to as a Shareholder) and, where indicated, a (former) Cymer stockholder. For Dutch tax purposes, a Shareholder may include an individual or entity who does not have the legal title of the ASML ordinary shares, but to whom nevertheless the ASML ordinary shares are attributed based either on such individual or entity holding a beneficial interest in the ASML ordinary shares or based on specific statutory provisions, including statutory provisions pursuant to which ASML ordinary shares are attributed to an individual who is, or who has directly or indirectly inherited from a person who was, the settlor, grantor or similar originator of a trust, foundation or similar entity that holds the ASML ordinary shares.

Prospective Shareholders should therefore consult their tax advisor regarding the tax consequences of the merger and any purchase, ownership or disposal of ASML ordinary shares.

The following summary is based on the Dutch tax law as applied and interpreted by Dutch tax courts and as published and in effect on the date of this proxy statement/prospectus, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect.

For the purpose of this section, Dutch Taxes shall mean taxes of whatever nature levied by or on behalf of the Netherlands or any of its subdivisions or taxing authorities. The Netherlands means the part of the Kingdom of the Netherlands located in Europe.

Table of Contents

Any reference hereafter made to a treaty for the avoidance of double taxation concluded by the Netherlands, includes the Tax Regulation for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*), the Tax Regulation for the country of the Netherlands (*Belastingregeling voor het land Nederland*) and the agreement between the Taipei Representative Office in the Netherlands and the Netherlands Trade and Investment Office in Taipei for the avoidance of double taxation.

The Merger

Withholding Tax

Whereas a (former) Cymer stockholder will receive the cash consideration, the stock consideration and the Dutch Compensation Amount as consideration for the merger and not in his capacity of Shareholder, the cash consideration, the stock consideration and the Dutch Compensation Amount will not be subject to withholding or deduction for, or on account of, any Dutch Taxes.

Taxes on Income and Capital Gains

Generally, a Cymer stockholder will not be subject to Dutch Taxes on income or capital gains as a result of the exchange of Cymer common stock into ASML ordinary shares and the receipt of cash. This may be different for the following categories of Cymer stockholders:

- (i) Cymer stockholders who are resident or deemed to be resident in the Netherlands for Dutch income tax or corporate income tax purposes;
- (ii) Cymer stockholders who are individuals and who opt to be treated as if resident in the Netherlands for Dutch income tax purposes;
- (iii) Cymer stockholders who derive profits from an enterprise, whether as entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands, to which the Cymer common stock is attributable;
- (iv) individuals who derive benefits from miscellaneous activities (*resultaat uit overige werkzaamheden*) carried out in the Netherlands in respect of the Cymer common stock, including, without limitation, activities which are beyond the scope of active portfolio investment activities;
- (v) Cymer stockholders who are not individuals and who are, other than by way of the holding of securities, entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise that is effectively managed in the Netherlands and to which enterprise the Cymer common stock is attributable; or
- (vi) Cymer stockholders who are individuals and who are, other than by way of the holding of securities, entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands, other than by way of the holding of securities, and to which enterprise the Cymer common stock is attributable.

After the Merger

Withholding Tax

A Shareholder is generally subject to Dutch dividend withholding tax at a rate of 15 percent on dividends distributed by ASML. Generally, ASML is responsible for the withholding of such dividend withholding tax at source; the dividend withholding tax is for the account of the Shareholder.

Dividends distributed by ASML include, but are not limited to:

- (i) distributions of profits in cash or in kind, whatever they be named or in whatever form;

Table of Contents

- (ii) proceeds from the liquidation of ASML, or proceeds from the repurchase of ASML ordinary shares by ASML, in excess of the average paid-in capital recognized for Dutch dividend withholding tax purposes;
- (iii) the par value of ASML ordinary shares issued to a Shareholder or an increase in the par value of ASML ordinary shares, to the extent that no contribution, recognized for Dutch dividend withholding tax purposes, has been made or will be made; and
- (iv) partial repayment of paid-in capital, that is:

not recognized for Dutch dividend withholding tax purposes, or

recognized for Dutch dividend withholding tax purposes, to the extent that ASML has net profits (*zuivere winst*), unless:

- (a) the general meeting of Shareholders has resolved in advance to make such repayment, and
- (b) the par value of the ASML ordinary shares concerned has been reduced with an equal amount by way of an amendment to the articles of association of ASML.

The term net profits includes anticipated profits that have yet to be realized.

Notwithstanding the above, no withholding is required in the event of a repurchase of ASML ordinary shares, if certain conditions are fulfilled.

Subject to certain exceptions under Dutch domestic law, ASML may not be required to transfer to the Dutch tax authorities the full amount of Dutch dividend withholding tax withheld in respect of dividends distributed by ASML, if ASML has received a profit distribution from a qualifying foreign subsidiary, which distribution is exempt from Dutch corporate income tax and has been subject to a foreign withholding tax of at least 5 percent. The amount that does not have to be transferred to the Dutch tax authorities can generally not exceed the lesser of (i) 3 percent of the dividends distributed by ASML and (ii) 3 percent of the profit distributions ASML received from qualifying foreign subsidiaries in the calendar year in which ASML distributes the dividends (up to the moment of such dividend distribution) and the two previous calendar years; further limitations and conditions apply.

If a Shareholder is resident or deemed to be resident in the Netherlands or, in the case of an individual, has opted to be treated as if resident in Netherlands, such Shareholder is generally entitled to an exemption or a full credit for any Dutch dividend withholding tax against his Dutch (corporate) income tax liability and to a refund of any residual Dutch dividend withholding tax.

If a Shareholder is resident in a country other than the Netherlands, under certain circumstances exemptions from, reduction in or refunds of, dividend withholding tax may be available pursuant to Dutch domestic law or treaties for avoidance of double taxation.

If a Shareholder:

is an entity which is resident for Dutch tax purposes in a member state of the European Union (including the Netherlands) or in Iceland, Liechtenstein or Norway or a qualifying Shareholder resident elsewhere (see below); and

is not subject to a profit tax levied in that state and, in case the Shareholder is not resident in the Netherlands, would not have been subject to Dutch corporate income tax had the Shareholder been resident in the Netherlands for Dutch tax purposes; generally, such Shareholder will be eligible for a full refund of Dutch dividend withholding tax on dividends distributed by ASML, unless such Shareholder carries out duties or activities comparable to an investment institution (*beleggingsinstelling*) as defined in articles 6a and 28 of the Dutch Corporate Income Tax Act 1969, (referred to as CITA), respectively.

Table of Contents

For purposes of the above, a qualifying Shareholder is an entity that (i) is resident for Dutch tax purposes in a jurisdiction which has an arrangement for the exchange of tax information with the Netherlands and (ii) holds its ASML ordinary shares as portfolio investment, i.e. such shares are not held with a view to establishment or maintenance of lasting and direct economic links between the Shareholder and ASML and the ASML ordinary shares do not allow the Shareholder to participate effectively in the management or control of ASML.

A Shareholder who is considered to be resident in the United States (referred to as a U.S. Shareholder) and is entitled to the benefits of the 1992 Double Taxation Treaty between the U.S. and the Netherlands, as amended most recently by the Protocol signed March 8, 2004 (referred to as the Treaty), may be entitled to a reduction in the Dutch withholding tax by way of an exemption, reduction or refund. The main conditions are: being a resident of the U.S. for the purposes of the Treaty, being the beneficial owner of the distributed dividend and being qualified under article 26 of the Treaty (the limitation on benefits article). Such Shareholder will effectively be subject to Dutch dividend withholding tax as follows:

if the U.S. Shareholder is an exempt pension trust as described in article 35 of the Treaty, or an exempt organization as described in article 36 of the Treaty, the U.S. Shareholder will be exempt from Dutch dividend withholding tax;

if the U.S. Shareholder is a company which holds directly at least 10 percent but less than 80 percent of the voting power in ASML, the U.S. Shareholder will be subject to Dutch withholding tax at a rate not exceeding 5 percent;

if the U.S. Shareholder is a company which holds directly at least 80 percent of the voting power in ASML and certain other conditions are met, the U.S. Shareholder will be exempt from Dutch dividend withholding tax; and

in all other cases, the U.S. Shareholder will be subject to Dutch dividend withholding tax at a rate not exceeding 15 percent. U.S. Shareholders qualifying for a reduction of the Dutch withholding tax may generally claim (i) an exemption or reduction at source, or (ii) a refund, by filing, through the withholding agent as mentioned in article 9 of the Dutch Dividend Withholding Tax Act 1965, a completed and signed copy of one of the following forms within three years after the end of the calendar year in which the withholding tax was levied:

if the U.S. Shareholder is an exempt pension trust as described in article 35 of the Treaty: Form IB 96 USA; or

if the U.S. Shareholder is an exempt organization as described in article 36 of the Treaty: Form IB 95 USA.

According to Dutch domestic anti-dividend stripping rules, no credit against Dutch (corporate) income tax, exemption from, reduction in or refund of, Dutch dividend withholding tax will be granted if the recipient of the dividend paid by ASML is not considered to be the beneficial owner (*uiteindelijk gerechtigde*) of such dividends as meant in these rules.

Taxes on Income and Capital Gains

This section does not purport to describe the possible Dutch tax considerations or consequences that may be relevant to a Shareholder:

- (i) who is an individual and for whom the income or capital gains derived from the ASML ordinary shares are attributable to employment activities, the income from which is taxable in the Netherlands;

- (ii) who has a (fictitious) substantial interest;

- (iii) that is an entity that is not subject to Dutch corporate income tax or is in full or in part exempt from Dutch corporate income tax (such as pension funds);

Table of Contents

(iv) that is an investment institution (*beleggingsinstelling*) as defined in articles 6a and 28 of the CITA; or

(v) which is entitled to the participation exemption (*deelnemingsvrijstelling*) with respect to the ASML ordinary shares (as defined in article 13, CITA).

Generally, a Shareholder has a substantial interest (*aanmerkelijk belang*) in ASML if such Shareholder, alone or together with his partner, directly or indirectly:

(i) owns, or holds certain rights on, ASML ordinary shares representing five percent or more of the total issued and outstanding capital of ASML, or of the issued and outstanding capital of any class of shares of ASML;

(ii) holds rights to acquire ASML ordinary shares, whether or not already issued, representing five percent or more of the total issued and outstanding capital of ASML, or of the issued and outstanding capital of any class of shares of ASML; or

(iii) owns, or holds certain rights on, profit-participating certificates that relate to five percent or more of the annual profit of ASML or to five percent or more of the liquidation proceeds of ASML.

A Shareholder will also have a substantial interest if his partner or one of certain relatives of the Shareholder or of his partner has a substantial interest.

Generally, a Shareholder has a fictitious substantial interest (*fictief aanmerkelijk belang*) in ASML if, without having an actual substantial interest in ASML:

(i) an enterprise has been contributed to ASML in exchange for ASML ordinary shares on an elective non-recognition basis;

(ii) the ASML ordinary shares have been obtained under gift law, inheritance law or matrimonial law, on a non-recognition basis, while the previous Shareholder had a substantial interest in ASML;

(iii) the ASML ordinary shares have been acquired pursuant to a share merger, legal merger or legal demerger, on an elective non-recognition basis, while the Shareholder prior to this transaction had a substantial interest in an entity that was party thereto; or

(iv) the ASML ordinary shares held by the Shareholder, prior to dilution, qualified as a substantial interest and, by election, no gain was recognized upon disqualification of these ASML ordinary shares.

Residents in the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Shareholders:

(i) individuals who are resident or deemed to be resident in the Netherlands for Dutch income tax purposes;

(ii) individuals who opt to be treated as if resident in the Netherlands for Dutch income tax purposes ((i) and (ii) jointly referred to as Dutch Individuals); and

Edgar Filing: ASML HOLDING NV - Form 424B3

- (iii) entities that are subject to the CITA and are resident or deemed to be resident in the Netherlands for corporate income tax purposes (referred to as Dutch Corporate Entities).

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Dutch Individuals are generally subject to income tax at statutory progressive rates with a maximum of 52 percent with respect to any benefits derived or deemed to be derived from Dutch Enterprise Shares (as defined below), including any capital gains realized on the disposal thereof.

Table of Contents

Dutch Enterprise Shares are ASML ordinary shares or any right to derive benefits from ASML ordinary shares:

(a) which are attributable to an enterprise from which a Dutch Individual derives profits, whether as an entrepreneur or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder); or

(b) of which the benefits are taxable in the hands of a Dutch Individual as benefits from miscellaneous activities (*resultaat uit overige werkzaamheden*) including, without limitation, activities which are beyond the scope of active portfolio investment activities.

Dutch Individuals not engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Generally, a Dutch Individual who owns ASML ordinary shares, excluding Dutch Enterprise Shares and Substantial Interest Shares, will be subject annually to an income tax imposed on a fictitious yield on such ASML ordinary shares under the regime for savings and investments (*inkomen uit sparen en beleggen*). Irrespective of the actual income or capital gains realized, the annual taxable benefit of all the assets and liabilities of a Dutch Individual that are taxed under this regime, including the ASML ordinary shares, is set at a fixed amount. The fixed amount equals 4 percent of the fair market value of the assets reduced by the liabilities and measured, in general, exclusively at the beginning of every calendar year. The tax rate under the regime for savings and investments is a flat rate of 30 percent.

Dutch Corporate Entities

Dutch Corporate Entities are generally subject to corporate income tax at statutory rates up to 25 percent with respect to any benefits derived or deemed to be derived (including any capital gains realized on the disposal) of ASML ordinary shares.

Non-residents in the Netherlands

A Shareholder other than a Dutch Individual or Dutch Corporate Entity, will not be subject to any Dutch Taxes on income or capital gains with respect to the ownership and disposal of the ASML ordinary shares, other than dividend withholding tax as described above, except if:

(i) the Shareholder derives profits from an enterprise, whether as entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise other than as an entrepreneur or a Shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands, to which the ASML ordinary shares are attributable;

(ii) the Shareholder is an individual and derives benefits from miscellaneous activities (*resultaat uit overige werkzaamheden*) carried out in the Netherlands in respect of the ASML ordinary shares, including, without limitation, activities which are beyond the scope of active portfolio investment activities;

(iii) the Shareholder is not an individual and is, other than by way of the holding of securities, entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise that is effectively managed in the Netherlands and to which enterprise the ASML ordinary shares are attributable; or

(iv) the Shareholder is an individual and is, other than by way of the holding of securities, entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands and to which enterprise the ASML ordinary shares are attributable.

Table of Contents

Gift Tax and Inheritance Tax

No Dutch gift or inheritance tax is due in respect of any gift of the ASML ordinary shares by, or inheritance of the ASML ordinary shares on the death of, a Shareholder, except if:

- (i) at the time of the gift or death of the Shareholder, the Shareholder is resident, or is deemed to be resident, in the Netherlands;
- (ii) the Shareholder passes away within 180 days after the date of the gift of the ASML ordinary shares and is not, or not deemed to be, at the time of the gift, but is, or deemed to be, at the time of his death, resident in the Netherlands; or
- (iii) the gift of the ASML ordinary shares is made under a condition precedent and the Shareholder is resident, or is deemed to be resident, in the Netherlands at the time the condition is fulfilled.

Other Taxes and Duties

No other Dutch Taxes, including turnover tax and taxes of a documentary nature, such as capital tax, stamp or registration tax or duty, are payable by or on behalf of a Shareholder by reason only of the purchase, ownership and disposal of the ASML ordinary shares.

Litigation Related to the Merger

On October 29, 2012, a putative shareholder class action complaint was filed against Cymer, the Cymer Board, ASML, Holdco, Merger Sub and Merger Sub 2 in the District Court of Clark County, Nevada, captioned *Jerome v. Cymer Inc., et al.*, Case No. A-12-671009-C (Eighth Judicial Dist. Clark County, Nevada), challenging the merger and seeking, among other things, compensatory damages, attorneys' and experts' fees and injunctive relief concerning the alleged breaches of fiduciary duties and to prohibit the defendants from consummating the merger. The plaintiff subsequently amended the complaint on November 28, 2012.

The lawsuit generally alleges, among other things, that the merger agreement was reached through an unfair process and that the merger consideration is inadequate and that the merger agreement unfairly caps the price of Cymer common stock, that the merger agreement's no solicitation provision and other deal protection devices have precluded other bidders from making successful competing offers for Cymer, and that the preliminary proxy statement/prospectus filed in connection with the merger contains material misstatements and/or omissions. The lawsuit alleges that ASML aided and abetted the alleged breaches of fiduciary duties.

On December 28, 2012, the parties entered into a memorandum of understanding to settle the lawsuit. While the defendants believe that the lawsuit is without merit, in order to eliminate the burden, expense and uncertainties inherent in further litigation, the defendants have agreed, as part of the memorandum of understanding and without admitting to the validity of any allegations made in the lawsuit, to make certain additional disclosure requested by the plaintiff in this proxy statement/prospectus. The memorandum of understanding contemplates that the parties will enter into a stipulation of settlement. The stipulation of settlement will be subject to customary conditions, including certain confirmatory discovery and court approval following notice to Cymer's stockholders. If the settlement is finally approved by the court, it will resolve and release all claims in all actions that were or could have been brought challenging any aspect of the merger, the merger agreement, and any disclosure made in connection therewith (other than claims to enforce the settlement). There can be no assurance that the parties will ultimately enter into a stipulation of settlement or that the District Court of Clark County, Nevada will approve the settlement even if the parties were to enter into such stipulation. In such event, the proposed settlement as contemplated by the memorandum of understanding may be terminated.

THE MERGER AGREEMENT

The following is a summary of the material terms and conditions of the merger agreement. The description in this section and elsewhere in this proxy statement/prospectus does not purport to be complete and is subject to, and qualified in its entirety by reference to, the complete text of the merger agreement, a copy of which is attached to this proxy statement/prospectus as Annex A. This summary may not contain all of the information about the merger that is important to you. Stockholders should read carefully the merger agreement in its entirety. The merger agreement has been included to provide you with information regarding its terms. It is not intended to provide any other factual information about Cymer or ASML. Such information can be found elsewhere in this proxy statement/prospectus and in the other public filings Cymer and ASML make with the SEC, which are available without charge at www.sec.gov. As discussed in Summary, generally, references in this proxy statement/prospectus to the merger should, unless the context otherwise requires, be read to mean the first step merger and the second step merger, as part of an integrated plan, and otherwise be read to mean the first step merger.

Structure and Effective Time

The merger agreement provides for two mergers, which will occur in immediate succession. First, Merger Sub, a Nevada corporation and a wholly owned subsidiary of Holdco, a Delaware corporation and an indirect wholly owned subsidiary of ASML, will merge with and into Cymer. Cymer will survive the merger as a wholly owned subsidiary of Holdco (referred to as the surviving corporation). Immediately thereafter, Cymer will merge with and into Merger Sub 2, a Delaware limited liability company and wholly owned subsidiary of Holdco. Merger Sub 2 will survive the second step merger as a wholly owned subsidiary of Holdco (referred to as the surviving entity).

The merger will take place on the third business day after the satisfaction or, to the extent not prohibited by law, waiver of all conditions described under Conditions to the Merger, or at such other place, time and date as ASML and Cymer may mutually agree in writing.

The merger will be complete when Cymer and ASML file the appropriate articles of merger with the Secretary of State of the State of Nevada, as provided by the NRS, or at such later time as may be agreed by the parties in writing and specified in the articles of merger.

Governing Documents, Directors and Officers

Immediately following the merger, the limited liability company agreement and the articles of organization of Merger Sub 2 in effect immediately prior to the merger will be the limited liability company agreement and articles of organization, respectively, of the surviving entity, except that the name of the surviving entity will be Cymer, LLC.

Cymer will use its reasonable best efforts to cause the removal or resignation of its existing directors, effective upon the effective time of the merger. The managers of Merger Sub 2 will be the initial managers of the surviving entity. The officers of Cymer (other than those who ASML determines, as set forth in a written notice to Cymer, shall not remain officers of the surviving entity) immediately prior to the effective time of the merger shall be the initial officers of the surviving corporation. The officers of the surviving corporation shall be the initial officers of the surviving entity.

Merger Consideration

The merger agreement provides that each share of Cymer common stock outstanding immediately prior to the consummation of the merger (other than shares owned by ASML, Holdco, Merger Sub, Merger Sub 2, any other wholly owned subsidiary of ASML, or held in the treasury of Cymer or owned by any wholly owned subsidiary of Cymer) will be converted into the right to receive from Holdco (i) \$20.00 in cash, without interest thereon, and (ii) 1.1502 ASML ordinary shares. No fractional ASML ordinary shares will be issued. In lieu of

Table of Contents

fractional ASML ordinary shares, Cymer stockholders that would otherwise be entitled to a fractional ASML ordinary share will receive in cash an amount equal to the product of the ASML Share Price and the fractional ASML ordinary share to which such holder would otherwise be entitled.

In addition, for purposes of complying with requirements of Dutch law, upon consummation of the merger, each holder of Cymer capital stock (other than holders of excluded shares) will be entitled to receive the Dutch Compensation Amount from ASML, to be set off against the obligation to pay up the ASML ordinary shares as described below. By virtue of the merger, each Cymer stockholder will be deemed to have subscribed for the ASML ordinary shares to be issued to such holder pursuant to the merger. In accordance with the laws of the Netherlands, each Cymer stockholder, as a result of such deemed subscription, will be obligated to pay up such ASML ordinary shares in an amount, determined solely for the purpose of satisfying such obligation, equal to the Dutch Compensation Amount to which such holder is entitled by virtue of the merger. Such obligation will be satisfied by such Cymer stockholder upon exchange of certificates (or evidence of shares in book entry form) as described below, by set off by ASML of such obligation against the right of such Cymer stockholder to receive from ASML the Dutch Compensation Amount, and will have no effect on the receipt by a Cymer stockholder of the merger consideration.

At the effective time of the merger, each share of common stock of Merger Sub, par value \$0.001 per share, outstanding immediately prior to the effective time of the merger will be converted into a share of capital stock of the surviving corporation. At the effective time of the second step merger, each share of capital stock of the surviving corporation issued and outstanding will be converted into one limited liability company interest of the surviving entity.

Pursuant to NRS 92A.390, no dissenter's rights or rights of appraisal will apply in connection with the merger.

Treatment of Cymer Stock Options and Restricted Stock Units

Upon consummation of the merger, each option to purchase shares of Cymer common stock that has vested will be converted into an amount in cash, without interest thereon, for each share of Cymer common stock underlying such option equal to the excess, if any, of (i) the sum of (A) \$20.00 and (B) the product of (1) 1.1502 and (2) the ASML Share Price, over (ii) the per share exercise price of such Cymer stock option. Each unvested option to purchase Cymer common stock will be assumed by ASML and converted into an option to purchase a number of ASML ordinary shares equal to the number of shares of Cymer common stock subject to such option multiplied by the Stock Award Exchange Ratio, and the exercise price for each ASML ordinary share underlying such option will be equal to the exercise price per share of Cymer common stock subject to such Cymer stock option divided by the Stock Award Exchange Ratio.

Upon consummation of the merger, each restricted stock unit of Cymer that has vested will be converted into the right to receive the merger consideration. Each unvested restricted stock unit of Cymer will be assumed by ASML and converted into a number of ASML restricted stock units equal to the product of (i) the number of shares of Cymer common stock underlying such Cymer restricted stock unit multiplied by (ii) the Stock Award Exchange Ratio.

Immediately prior to the closing of the merger, the then-current purchase period under Cymer's 1996 Employee Stock Purchase Plan, as amended (referred to as the ESPP) will end, each participant's accumulated payroll deduction will be used to purchase Cymer common stock in accordance with the terms of the ESPP and the ESPP will terminate immediately after such purchases.

Exchange of Stock Certificates

Prior to the closing of the merger, ASML will appoint an agent reasonably acceptable to Cymer to act as exchange agent under the Agreement (referred to as the exchange agent), who will serve pursuant to an agreement between ASML, Holdco and the exchange agent. Immediately prior to the closing of the merger,

Table of Contents

ASML will, or will cause Holdco to, deliver to the exchange agent an amount in cash equal to the cash consideration multiplied by the number of shares of Cymer common stock to be converted in the merger plus any cash due in lieu of fractional shares.

As promptly as practicable after the effective time of the merger, but in no event later than five business days following the effective time of the merger, ASML will cause the exchange agent to mail to each holder of record of Cymer common stock a form of letter of transmittal describing how it may exchange its shares of Cymer common stock for the merger consideration. Upon the surrender of a certificate for cancellation to the exchange agent, or the receipt of an agent's message by the exchange agent, as applicable, in each case with the letter of transmittal, duly, completely and validly executed in accordance with the instructions provided, and such other documents as may reasonably be required by the exchange agent, the holder of such shares will be entitled to receive certificates (or electronic equivalents) representing the number of ASML ordinary shares into which such shares of Cymer common stock have been converted in the merger, a bank check for an amount equal to the cash consideration multiplied by the number of shares of Cymer common stock converted in the merger, and any cash due in lieu of fractional shares. Holders of any surrendered certificates (or evidence of shares in book entry form) are not entitled to receive interest on any of the cash consideration.

If any certificate shall have been lost, stolen or destroyed, ASML will direct the exchange agent to issue the merger consideration as contemplated by the merger agreement upon the making of an affidavit by the person claiming such certificate to be lost, stolen or destroyed and, if required by the exchange agent, the posting by such person of a bond, in such amount as ASML or the exchange agent may reasonably direct, as indemnity against any claim with respect to such certificate.

Representations and Warranties

The merger agreement contains representations and warranties that Cymer, on the one hand, and ASML, Holdco, Merger Sub and Merger Sub 2, on the other hand, have made to each other as of specific dates. These representations and warranties have been made for the benefit of the other parties to the merger agreement and may be intended not as statements of fact, but rather as a way of allocating risk to one of the parties if those statements prove to be incorrect. In addition, the assertions embodied in the representations and warranties are qualified by information in confidential disclosure letters provided by Cymer to ASML, Holdco, Merger Sub and Merger Sub 2, on the one hand, and provided by ASML, Holdco, Merger Sub and Merger Sub 2 to Cymer, on the other hand, delivered in connection with the signing of the merger agreement. Subject to certain exclusions (which are summarized below), for purposes of the merger agreement, a material adverse effect means, when used in reference to Cymer or ASML, a material adverse effect on the financial condition, properties, assets, liabilities, business or results of operations of the referenced party and its subsidiaries, taken as a whole, provided that none of the following, in and of itself or themselves, will constitute a material adverse effect:

effects resulting from worsening of geopolitical conditions in the United States or any other country in which Cymer and its respective subsidiaries or ASML and its respective subsidiaries, as the case may be, conduct material operations or acts of war, sabotage or terrorism (including any escalation or general worsening of any such acts of war, sabotage or terrorism) in the United States or any other country in which Cymer and its respective subsidiaries or ASML and its respective subsidiaries, as the case may be, conduct material operations;

any action required to be taken or not taken with the consent of Cymer or ASML, as the case may be, or pursuant to and in accordance with the merger agreement; and

only with respect to Cymer, reductions in (i) the level of purchases by ASML or any of its subsidiaries of products and services of Cymer or its subsidiaries, except in circumstances where such reductions are attributable to a failure by Cymer or its subsidiaries to provide products and services in a manner and level of quality consistent with past practices (to the extent that such failure materially adversely affects such products and services) or a breach under certain contracts between or among the parties or their respective subsidiaries, and (ii) the research and development support provided by ASML or any of its subsidiaries to Cymer or any of its subsidiaries, except in circumstances where such reductions are attributable to a breach of certain contracts, on the part of Cymer or any of its subsidiaries;

The representations and warranties of each of the parties to the merger agreement do not survive the effective time of the merger.

Conduct of Business of ASML

In the merger agreement, the parties have stated their intent that, subject to the terms of the merger agreement, ASML and its subsidiaries are free to conduct their businesses and operations without restrictions between the date of the merger agreement and the closing of the merger, except that:

ASML may not redeem, purchase or otherwise acquire ASML ordinary shares, or declare or pay any dividend in respect of any ASML ordinary shares or otherwise make a payment to holders of ASML ordinary shares in their capacity as such (excluding amounts payable pursuant to the ASML synthetic share buyback) in an aggregate amount exceeding EUR 2,000,000,000, of which no more than EUR 500,000,000 may be used for declarations or payments of any dividend in respect of any ASML ordinary shares or payments to holders of ASML ordinary shares in their capacity as such;

Prior to entering into any contract to acquire or license, or acquiring or licensing, any such assets, businesses or securities from a third party that could reasonably be expected to prevent or materially delay the consummation of the merger, ASML must consult with Cymer with respect to such acquisition or license and consider in good faith Cymer's views with respect to such acquisition or license and the impact of such acquisition or license on satisfaction of certain mutual closing conditions relating to the absence of orders of governmental entities preventing the transaction and the receipt of regulatory approvals; and

ASML and its subsidiaries may not enter into any contract to acquire or license, or acquire or license, any assets, businesses or securities of a third party if, in ASML's reasonable judgment, such acquisition or license would or would reasonably be expected to prevent satisfaction of the conditions to consummation of the merger relating to the absence of orders of governmental entities preventing the transaction and receipt of regulatory approvals by the termination date (as the same may be extended pursuant to the merger agreement).

No Solicitation of Transactions

Under the terms of the merger agreement, Cymer agreed to immediately cease any activities, discussions or negotiations existing on the date of the merger agreement with any third party with respect to any acquisition proposal. Cymer further agreed that it would not directly or indirectly:

solicit or initiate, or take any action to knowingly encourage, facilitate or induce, directly or indirectly, any inquiries relating to, or the submission of, any acquisition proposal;

participate in any discussions or negotiations regarding any acquisition proposal, or furnish to any person any non-public information or data with respect to or access to Cymer's properties in connection with an acquisition proposal;

enter into any agreement, arrangement or understanding with respect to any acquisition proposal or enter into any agreement, arrangement or understanding requiring Cymer to abandon, terminate or fail to consummate the merger and the other transactions contemplated by the merger agreement;

Edgar Filing: ASML HOLDING NV - Form 424B3

change the recommendation of the Cymer Board that Cymer stockholders approve the merger agreement; or

fail to include the Cymer Board's recommendation to Cymer stockholders to approve the merger agreement in the proxy statement/prospectus.

Table of Contents

Notwithstanding these general prohibitions, subject to certain conditions, if at any time prior to the approval of the merger agreement by the Cymer stockholders, Cymer receives a bona fide acquisition proposal from a third party and the Cymer Board determines in good faith (after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel) that such acquisition proposal constitutes, or would reasonably be expected to lead to a superior acquisition proposal and the third party making such a proposal executes a confidentiality agreement having provisions that are no less restrictive in the aggregate than those of the confidentiality agreement entered into between Cymer and ASML, Cymer may:

furnish information or data or access with respect to Cymer and its subsidiaries to such third party; and

participate in discussions and negotiations directly or through its representatives with such third party.

Regardless of the foregoing, Cymer may have discussions with any person solely to clarify the terms of an acquisition proposal made by such person, provided that such proposal did not result from a breach by Cymer of the non-solicitation provisions in the merger agreement.

Cymer also has agreed to promptly (but in no event later than 24 hours) advise ASML of receipt of an acquisition proposal and the proposed material terms of such acquisition proposal, including the identity of the third party making such proposal, and to provide ASML a copy of the proposal, and provide or make available, to the extent not previously provided or made available to ASML or its representatives, any of Cymer's non-public information that is provided to the third party making such acquisition proposal.

Throughout this proxy statement/prospectus, an acquisition proposal means any proposal, whether in writing or otherwise, from any person other than ASML, Merger Sub or any of their respective affiliates, to acquire beneficial ownership (as determined under Rule 13d-3 of the Exchange Act) of all or more than 15% of the consolidated assets of Cymer and its subsidiaries, taken as a whole, or assets to which 15% or more of the consolidated revenues or net income of Cymer and its subsidiaries is attributable, or 15% or more of any class of voting capital stock of Cymer pursuant to a merger, consolidation or other business combination, sale of shares of stock, sale or license of assets, tender offer, exchange offer, similar transaction or series of related transactions or otherwise.

Throughout this proxy statement/prospectus, a superior acquisition proposal means any bona fide written acquisition proposal (with all references to 15% in the definition thereof deemed to be 50% for purposes of this definition) not solicited or initiated in violation of the non-solicitation provisions of the merger agreement that (i) the Cymer Board determines in its good faith judgment (after consultation with, and taking into account the advice of, its outside legal counsel and outside financial advisors) would, if consummated, result in a transaction that is more favorable to the Cymer stockholders from a financial point of view than the merger and the transactions contemplated by the merger agreement, after taking into account any other binding proposal made by ASML after ASML's receipt of notice of an intention by the Cymer Board to change its recommendation to the Cymer stockholders to approve the merger agreement or terminate the merger agreement, and the time likely to be required to consummate such acquisition proposal and (ii) the Cymer Board determines in good faith (after consultation with, and taking into account the advice of, its outside financial advisors and its outside legal counsel) is reasonably capable of being consummated on the terms proposed, in each case taking into account all legal, financial, regulatory and other aspects of the proposal, and for which financing, if a cash transaction (whether in whole or in part), is then fully committed or reasonably determined to be available by the Cymer Board.

Board Recommendation

Subject to the exceptions discussed below, under the terms of the merger agreement, the Cymer Board (or any committee of the Cymer Board) cannot withhold, withdraw, amend, qualify or modify (or publicly propose to do so) in a manner adverse to ASML, the recommendation of the Cymer Board to the Cymer stockholders to approve the merger agreement at the special meeting and neither Cymer, the Cymer Board, nor a committee of the Board may approve, recommend or endorse (or publicly propose to do so) an acquisition proposal or recommend against the approval of the merger agreement.

Table of Contents

Notwithstanding this provision of the merger agreement, prior to the Cymer stockholders' approval of the merger agreement, the Cymer Board (or any committee of the Cymer Board) may withhold, withdraw, qualify or modify (or publicly propose to do so) its recommendation that Cymer stockholders approve the merger agreement, and Cymer, the Cymer Board or a committee of the Cymer Board may approve, recommend or endorse (or publicly propose to do so) an acquisition proposal made after the date of the merger agreement and which was not solicited, initiated, encouraged or facilitated in breach of the non-solicitation obligations described in No Solicitation of Transactions, or recommend against the approval of the merger agreement and Cymer may terminate the merger agreement, in response to an acquisition proposal made after the date of the merger agreement, if:

the Cymer Board determines in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, that the acquisition proposal constitutes a superior acquisition proposal, if the acquisition proposal did not result from a breach of the non-solicitation provisions of the merger agreement;

the Cymer Board determines in good faith, after consultation with, and taking into account the advice of, its outside legal counsel, that failure to take such action would reasonably be expected to constitute a violation of its fiduciary duties;

Cymer promptly notifies ASML in writing at least four business days before taking such action of the Cymer Board's intention to do so, attaching the most current version of any proposed agreement under which such acquisition proposal is proposed to be consummated and the identity of the third party making the proposal;

within four business days after receipt of such written notification (or within two business days after Cymer has provided notice to ASML of an amendment to the financial terms or other material terms of such acquisition proposal), ASML has not made an offer that the Cymer Board determines, in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, is at least as favorable to the Cymer stockholders as such other acquisition proposal; and

the Cymer Board, after taking into account any modifications to the terms of the merger agreement proposed by ASML, continues to believe that the alternative acquisition proposal constitutes a superior acquisition proposal.

In addition, the Cymer Board may change its recommendation that Cymer stockholders approve the merger agreement in connection with an intervening event. Throughout this proxy statement/prospectus, an intervening event means a material development or material change in circumstances with respect to Cymer, occurring after the date of the merger agreement, that is materially more favorable to the recurring financial condition and results of operations of Cymer and its subsidiaries, taken as a whole, relative to other businesses operating in the same industry, was neither known to the Cymer Board nor reasonably foreseeable as of date of the merger agreement and does not relate to:

any acquisition proposal;

any change, state of facts, circumstance, occurrence, event or development relating to the financial condition, properties, assets, liabilities, business or results of operation of ASML, including changes in the market price or trading volume of ASML ordinary shares;

any change, state of facts, circumstance, occurrence, event or development arising out of or relating to EUV technologies or Cymer's and its subsidiaries' EUV business;

clearance of the merger under specified foreign merger control laws, the HSR Act or approval by CFIUS;

the fact, in and of itself, that Cymer meets or exceeds any internal or published projections, forecasts, estimates or predictions of revenue, earnings or other financial or operating metrics for any period

Table of Contents

ending on or after the date of the merger agreement (provided that this exception shall not prevent or otherwise affect any such development or change underlying Cymer meeting or exceeding such metrics from being taken into account in determining whether an intervening event has occurred); or

any changes after the date of the merger agreement in the market price or trading volume of Cymer common stock (provided that this exception shall not prevent or otherwise affect any such development or change underlying such change in market price or trading value of Cymer common stock from being taken into account in determining whether an intervening event has occurred).

In connection with an intervening event, the Cymer Board may change its recommendation that the Cymer stockholders approve the merger agreement, and Cymer may terminate the merger agreement, if the Cymer Board concludes in good faith, after consultation with, and taking into account the advice of, its outside legal counsel, that, in light of such occurrence, the failure to effect such a recommendation change would reasonably be expected to constitute a violation of its fiduciary duties, only if:

Cymer promptly notifies ASML, in writing at least four business days before taking such action, of its intention to do so, attaching a reasonably detailed explanation of the facts underlying the determination by the Cymer Board of its need to make such a recommendation change; and

within four business days after its receipt of such written notification, ASML has not made an offer that the Cymer Board determines, in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, would obviate the need for such a recommendation change.

Efforts to Complete Transactions

In order to facilitate the consummation of the merger, the parties to the merger agreement, subject to certain exceptions, have agreed:

to make respective filings, and any other required submissions, under the HSR Act and specified foreign merger control laws with respect to the merger and the transactions contemplated by the merger agreement as promptly as reasonably possible;

to use its reasonable best efforts to take, or cause to be taken, all appropriate action, and to do, or cause to be done, all things necessary to consummate the merger as promptly as reasonably practicable, including using reasonable best efforts to make a joint, voluntary filing with CFIUS and to obtain as promptly as reasonably practicable all permits, consents, approvals, authorizations, qualifications and orders of governmental entities and parties to contracts with Cymer and its subsidiaries as are necessary for the consummation of the merger and the transactions contemplated by the merger agreement and to fulfill the conditions to consummation of the merger;

to use commercially reasonable efforts to obtain consents under any contracts of Cymer or its subsidiaries that would be violated or under which consent otherwise is required as a result of entering into the merger agreement or the transactions contemplated by the merger agreement;

to use its reasonable best efforts to furnish to the other parties all information required for any application, notification or other filing to be made pursuant to any applicable laws in connection with the merger and the transactions contemplated by the merger agreement to the extent not prohibited by applicable law;

that ASML and Cymer will give each other reasonable prior notice of any communication with, and any proposed understanding, undertaking or agreement with, any governmental entity regarding any such applications, notifications or filings or any such transaction;

that both ASML and Cymer will be represented at all in-person meetings and in all substantive conversations with any governmental entity regarding the regulatory matters contemplated by the merger agreement, except (i) if, and to the extent that, any governmental entity objects to any party's

Table of Contents

being represented at any such meeting or conversation and (ii) to the extent that the communication or meeting relates to a national security risk mitigation agreement between ASML and CFIUS or any of its constituent agencies;

to consult and cooperate with one another in connection with any analyses, appearances, presentations, memoranda, briefs, arguments, opinions and proposals made or submitted by or on behalf of any party in connection with proceedings under or relating to the HSR Act, the applicable foreign competition laws and Section 721 of the Defense Production Act of 1950, as added by the Exon-Florio Amendment of 1988 and as amended by the Foreign Investment and National Security Act of 2007 (referred to as Exon-Florio);

that, unless otherwise agreed, ASML shall take the lead in coordinating any applications, notifications or filings, obtaining any necessary approvals, and resolving any investigation or other inquiry of any such agency or other governmental entity under the HSR Act, the applicable foreign competition laws and Exon-Florio;

to cooperate and use its reasonable best efforts to vigorously contest and resist any action or proceeding, including administrative or judicial action or proceeding, and to have vacated, lifted, reversed or overturned any decree, judgment, injunction or other order (whether temporary, preliminary or permanent) that is in effect and that restricts, prevents or prohibits consummation of the merger and the transactions contemplated by the merger agreement, including reasonably pursuing administrative and judicial appeal; and

ASML will use its reasonable best efforts to take, or cause to be taken, all such further actions as may be necessary to resolve such objections, if any, as the United States Federal Trade Commission, the Antitrust Division of the United States Department of Justice or competition authorities of any other nation or other jurisdiction or any other person may assert under any competition laws with respect to the merger and the other transactions contemplated by the merger agreement, and to avoid or eliminate each and every impediment under any competition laws that may be asserted by any governmental entity or any other person with respect to the merger so as to enable the closing to occur as promptly as reasonably practicable and in any event no later than the termination date (as such date may be extended pursuant to the merger agreement).

Notwithstanding the foregoing, neither ASML nor any of its subsidiaries is required under the merger agreement, in order to satisfy the conditions to the merger relating to the absence of orders of governmental entities preventing the transaction and receipt of approvals under the HSR Act and applicable foreign competition laws, to execute or carry out agreements (including consent decrees) or submit to orders:

providing for the license, sale, divestiture or other disposition or holding separate (through the establishment of trust or otherwise) of any assets of Cymer, ASML or their respective subsidiaries or the holding separate of the capital stock or limited liability company interests of an ASML subsidiary (including the surviving entity after the effective time of the merger); or

imposing or seeking to impose any (i) limitation on the freedom of action of Cymer, ASML or any of their respective subsidiaries with respect to or the ability of Cymer, ASML or any of their respective subsidiaries to conduct their respective businesses (including, with respect to, market practices, sale and structure) or own such assets or to acquire, hold or exercise full rights of ownership of the business of ASML or (ii) requirement on how or where Cymer, ASML or any of their respective subsidiaries conduct their respective businesses (including, with respect to, market practices, sale and structure);

that, individually or in the aggregate, would or would reasonably be expected to result in:

the license, sale, divestiture or other disposition of any assets of Cymer, ASML or the surviving entity or their subsidiaries (other than assets acquired or licensed by ASML or its subsidiaries from a third party (other than Cymer or its subsidiaries) on or after September 30, 2012, (referred to, collectively, as Divestiture Assets));

an ASML or Cymer material adverse effect (without taking into account the effect or any license, sale, divestiture or other disposition of Divestiture Assets); or

a material adverse effect on the benefits that ASML reasonably expects to be realized or derived from the transactions contemplated by the merger agreement (without taking into account the effect of any license, sale, divestiture or other disposition of Divestiture Assets).

In addition, ASML and its subsidiaries are not required to agree to any terms or conditions, or take any actions, in order to obtain CFIUS approval that:

would require the license, sale, divestiture or other disposition of any assets of Cymer, ASML or the surviving entity or their subsidiaries, other than Divestiture Assets;

relate to ASML's or its subsidiaries' assets, businesses or operations (other than the surviving entity's and its subsidiaries' assets, businesses and operations after the effective time of the merger or Divestiture Assets); or

would or would reasonably be expected to have an ASML or Cymer material adverse effect or a material adverse effect on the benefits that ASML reasonably expects to be realized or derived from the transactions contemplated by the merger agreement (without taking into account the effect of any license, sale, divestiture or other disposition of Divestiture Assets).

Employee Matters

ASML has agreed, subject to certain exceptions, that it will, or will cause its subsidiaries to, as applicable:

provide Cymer's continuing employees for 12 months after the closing of the merger with (i) base compensation and incentive compensation opportunities which are no less favorable, on an aggregate basis, to the base compensation and incentive compensation (including equity incentive compensation) opportunities provided by Cymer and its subsidiaries prior to the closing of the merger, and (ii) pension and welfare benefits that are no less favorable in the aggregate to the pension and welfare benefits provided by Cymer and its subsidiaries prior to the closing of the merger;

provide to any continuing employee who is laid-off or terminated without cause during the twelve months following the closing date with severance benefits in an amount equal to the severance benefits (including severance payments and continued health coverage) that the employee would have been entitled to pursuant to the terms of Cymer's Reduction in Force Separation Benefits Plan;

use its reasonable best efforts to cause its third party insurers to provide that the continuing employees shall receive full credit for service with Cymer or any of its subsidiaries for purposes of eligibility to participate in any employee benefit plan, vesting and determination of benefits under severance and vacation pay plans, to the same extent that such service was recognized as of the closing date of the merger under a comparable employee benefit plan (but not for purposes of benefit accrual and not to the extent such credit would result in a duplication of benefits);

use its reasonable best efforts to (and use its reasonable best efforts to cause its third party insurers to) (i) waive, or cause to be waived, any pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods under any welfare benefit plan maintained by ASML or any of its subsidiaries in which the continuing employees are eligible to participate from and after the closing of the merger to the extent that such pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods were satisfied or waived under comparable Cymer employee benefit plans and (ii) cause any health benefit plan of ASML or its subsidiaries in which the continuing employees participate after the closing date of the merger to recognize the dollar

amount of all co-payments, deductibles and similar expenses incurred by such continuing employee during the calendar year in which the closing of the merger occurs for purposes of satisfying deductible and co-payment limitations for such year under the relevant welfare benefit plans in which such continuing employee (and dependents) participates following the closing date of the merger;

cooperate with Cymer prior to the closing to identify those employees of Cymer and its subsidiaries whose continuing services are critical to the success of ASML and its subsidiaries and to develop and implement as of the closing date an appropriate retention program with respect to such individuals;

cause the surviving entity and any successor thereto to honor, fulfill and discharge Cymer's and its subsidiaries' obligations under all employee benefit plans in accordance with their terms, including any reserved right to amend or terminate; and

maintain, and cause the surviving entity and any successor thereto, to maintain the Executive Option, Bonus and Group Health Coverage Extension Program on the same terms and conditions as of the date of the merger agreement for any continuing employee who was eligible for benefits under such plan as of the date of the merger agreement.

In addition, Cymer has agreed, subject to certain exceptions, that it will:

cooperate with ASML prior to the closing of the merger to identify those employees of Cymer and its subsidiaries whose continuing services are critical to the success of ASML and its subsidiaries and to develop and implement as of the closing date of the merger an appropriate retention program with respect to such individuals;

provide notice to, enter into any consultation procedure with, and use reasonable efforts to obtain required consents or opinions from any labor union, labor organization, works council or group of employees of Cymer and its subsidiaries in connection with the merger; and

use commercially reasonable efforts to take all such actions as are reasonably necessary to accrue on its financial statements, to the extent in accordance with GAAP, all expenses relating to the termination of employment of any certain individuals.

Indemnification and Insurance

For a period of six years after consummation of the merger, the limited liability company agreement of the surviving entity shall contain equivalent provisions with respect to exculpation, indemnification and advancement of expenses to those set forth in Cymer's articles of incorporation and bylaws as of the date of the merger agreement. Such provisions may not be amended, repealed or otherwise modified for a period of six years after consummation of the merger in a manner that would adversely affect the rights thereunder of individuals who, at or prior to the effective time of the merger, were directors, officers or employees of Cymer or any of its subsidiaries, unless required by applicable law and then only to the minimum extent required by applicable law.

For a period of six years after consummation of the merger, the surviving entity and ASML will, to the fullest extent permitted under applicable law, indemnify and hold harmless, each of Cymer's and its subsidiaries' present and former directors, officers and employees against all costs and expenses (including attorneys' fees), judgments, fines, losses, claims, damages, liabilities and settlement amounts paid in connection with any claim, action, suit, proceeding or investigation to the extent they were indemnified under Cymer's articles, bylaws and indemnification contracts in effect as of the date of the merger agreement with respect to any action or omission in their capacity as an officer, director or employee, at or prior to the consummation of the merger.

Prior to consummation of the merger, Cymer shall and, if it is unable to, ASML shall use its commercially reasonable efforts to have the surviving entity as of the effective time of the merger, purchase a six-year prepaid tail policy, with a claims period of six years from the consummation of the merger, on the current directors' and officers' liability insurance policies maintained by Cymer covering acts or omissions occurring at or prior to the consummation of the merger with respect to those persons who are covered by Cymer's directors' and officers' liability insurance policy on terms and scope with respect to such coverage, and in amount, not less favorable to such individuals than those of such policy in effect on the date of the merger agreement. If Cymer and the surviving entity for any reason fail to obtain such tail policy, then the surviving entity will maintain for six years from the consummation of the merger the current directors' and officers' liability insurance policies

Table of Contents

maintained by Cymer (or the surviving entity may substitute policies issued by an insurance carrier with the same or better credit rating as Cymer's current insurance carrier, of at least the same coverage with respect to matters occurring prior to the consummation of the merger containing terms and conditions that are not less favorable in the aggregate). The surviving entity's obligation to purchase this tail policy is subject to a cap of 300% of the annual premiums paid by Cymer for such coverage on the date of the merger agreement per year of coverage.

If any tail policy described above is put in place, then from and after the effectiveness of such tail policy, neither ASML nor any of its subsidiaries will have any further obligations to obtain directors' and officers' liability insurance policies.

Other Covenants and Agreements

The merger agreement contains certain other covenants and agreements, including covenants relating to:

obtaining the approval for listing of the ASML ordinary shares issuable in the merger on NASDAQ and, following the effective time, delisting the Cymer common stock from NASDAQ and terminating registration under the Exchange Act;

ASML's access to certain information about Cymer during the period prior to the effective time of the merger;

press releases and public statements relating to the merger agreement or the transactions contemplated by the merger agreement;

delivery of tax representation letters;

delivery of a certificate by Cymer certifying that Cymer is not, and has not been, a United States real property holding corporation within the meaning of Section 897(c)(2) of the Code; and

payment of fees, costs damages and expenses related to obtaining consents of third parties under Cymer's contracts.

Conditions to the Merger

Each party's obligation to effect the merger is subject to satisfaction or waiver, at or prior to the closing of the merger, of the following conditions:

the approval of the merger agreement and the merger by the affirmative vote of the holders of a majority of the total voting power of the outstanding shares of Cymer common stock;

the absence of any law, temporary restraining order, executive order, decree, ruling, judgment or injunction or other order of a court or governmental entity of competent jurisdiction preventing the consummation of the transactions contemplated by the merger agreement;

the expiration or termination of all applicable waiting periods under the HSR Act;

the receipt of any required clearances and consents required to be obtained under specified foreign merger control laws, and the expiration or termination of any applicable waiting period thereunder;

the receipt of the approval of CFIUS;

the approval for trading of the ASML ordinary shares issuable in connection with the merger on NASDAQ, subject to official notice of issuance; and

the effectiveness of the registration statement of which this proxy statement/prospectus forms a part and the absence of any stop order or proceedings threatened or initiated by the SEC for that purpose and not withdrawn.

Table of Contents

In addition, Cymer's obligation to effect the merger is subject to satisfaction or waiver of the following additional conditions:

the representation and warranty of ASML related to the absence of certain changes or events from December 31, 2011 to the date of the merger agreement that has had or would reasonably be expected to have an ASML material adverse effect must be true and correct as of the date of the merger agreement and as of the effective time of the merger, with the same effect as if made as of the closing date of the merger;

the representations and warranties of ASML (other than certain representations and warranties related to capitalization, authority and absence of certain changes or events) must be true and correct as of the date made and as of the closing date of the merger, with the same effect as if made as of the closing date of the merger (other than those representations and warranties that by their terms speak as of the date of the merger agreement or some other date, the accuracy of which will be determined as of such date), except where the failure of such representations and warranties in the aggregate to be true and correct would not reasonably be expected to have an ASML material adverse effect (without giving effect to any materiality or material adverse effect qualifications contained in such representations and warranties, other than specific references to materiality in the representations and warranties regarding ASML's SEC reports, ASML's consolidated financial position, ASML's disclosure controls and the information provided by ASML for inclusion in the proxy statement/prospectus);

the representations and warranties of ASML related to capitalization and authority must be true and correct in all material respects both when made and as of the closing date of the merger, with the same effect as if made as of the closing date of the merger (other than those representations and warranties that by their terms speak as of the date of the merger agreement or some other date, the accuracy of which will be determined as of such date);

the performance and compliance by ASML, Holdco, Merger Sub and Merger Sub 2 in all material respects of their obligations to be performed or complied with on or prior to the closing date of the merger under the merger agreement;

the receipt by Cymer of a certificate executed by a senior executive officer of ASML certifying the satisfaction of the foregoing conditions;

since the date of the merger agreement, the absence of any change, state of facts, circumstance, occurrence, event or development that, individually or in the aggregate with any other change, state of facts, circumstance, occurrence, event or development, has had or would reasonably be expected to have an ASML material adverse effect.

The obligations of ASML, Holdco, Merger Sub and Merger Sub 2 are further subject to the satisfaction or waiver of the following additional conditions:

the representation and warranty of Cymer related to the absence of certain changes or events from December 31, 2011 to the date of the merger agreement that has had or would reasonably be expected to have a Cymer material adverse effect must be true and correct as of the date of the merger agreement and as of the closing date of the merger, with the same effect as if made as of the closing date of the merger;

the representations and warranties of Cymer (other than certain representations and warranties related to capitalization, authority, absence of certain changes or events, brokers and finders, and rights plans and takeover provisions) must be true and correct both when made and as of the closing date of the merger, with the same effect as if made as of the closing date of the merger (other than those representations and warranties that by their terms speak as of the date of the merger agreement or some other date, the accuracy of which will be determined as of such date), except where the failure of such representations and warranties in the aggregate to be

effect qualifications contained in such representations and warranties, other than specific references to materiality in certain representations and warranties regarding Cymer's SEC reports, Cymer's financial statements, off-balance sheet arrangements, Cymer's disclosure controls, the information provided by Cymer for inclusion in the proxy statement/prospectus, property, and disputes with Cymer's suppliers and customers);

the performance and compliance by Cymer in all material respects of its obligations to be performed or complied with on or prior to the closing date of the merger under the merger agreement;

the receipt by ASML of a certificate executed by a senior executive officer of Cymer certifying the satisfaction of the foregoing conditions;

since the date of the merger agreement, the absence of any change, state of facts, circumstance, occurrence, event or development that, individually or in the aggregate with any other change, state of facts, circumstance, occurrence, event or development, has had or would reasonably be expected to have a Cymer material adverse effect; and

the absence of any pending action or proceeding by any governmental entity of competent jurisdiction challenging or seeking to make illegal, to delay materially or otherwise directly or indirectly to prohibit the consummation of the merger.

Termination

The merger agreement may be terminated at any time prior to the effective time of the merger, whether before or after the Cymer stockholder approval, as follows:

by the mutual written consent of ASML and Cymer;

by either ASML or Cymer (provided that these rights to terminate the merger agreement will not be available to any party whose willful and material breach of the merger agreement was the proximate cause of such failure to consummate the merger) if:

any court or governmental entity issues an order or takes any other action permanently restraining, enjoining or otherwise prohibiting the merger and such order or other action shall have become final and non-appealable;

the Cymer stockholders fail to approve the merger agreement at the special meeting or any adjournment or postponement thereof; or

the merger is not consummated on or before the termination date of July 16, 2013, provided that, subject to certain conditions, this termination date may be extended to October 16, 2013 by either Cymer or ASML by written notice to the other party;

by ASML if:

Cymer has breached or failed to perform any of its representations, warranties, covenants or agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to the consummation of the merger and (ii) is incapable of being cured by Cymer by the termination date or, if capable of being cured, is not cured by Cymer by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from ASML and (B) the termination date; provided, however, that ASML will not have the right to terminate the merger agreement under these conditions if ASML is then in breach of its representations, covenants or agreements such that certain conditions to the consummation of the merger are incapable of being satisfied by the termination date;

Cymer fails to include the Cymer Board's recommendation to Cymer stockholders to approve the merger agreement in this proxy statement/prospectus; or

the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with an intervening event;

by Cymer if:

prior to the effective time of the merger, ASML, Holdco, Merger Sub or Merger Sub 2 has breached or failed to perform any of their respective representations, warranties, covenants or agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to consummation of the merger set forth in the merger agreement and (ii) is incapable of being cured by ASML, Holdco, Merger Sub or Merger Sub 2 by the termination date or, if capable of being cured, is not cured by ASML, Holdco, Merger Sub or Merger Sub 2 by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from Cymer and (B) the termination date; provided, however, that Cymer will not have this right to terminate the merger agreement if it is then in breach of its representations, covenants or agreements such that certain conditions to consummation of the merger are incapable of being satisfied by the termination date; or

prior to the special meeting, the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event.

Expenses and Termination Fees

All costs and expenses incurred by the parties in connection with the merger agreement and the transactions contemplated thereby are to be paid by the party that has incurred such costs and expenses, whether or not the merger is consummated. However, Cymer must pay ASML a termination fee of \$75,000,000 if:

the merger agreement is terminated by ASML because:

the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal;

Cymer fails to include the Cymer Board's recommendation to Cymer stockholders to approve the merger agreement in this proxy statement/prospectus;

the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with an intervening event;

Cymer has breached or failed to perform any of its representations, warranties, covenants or agreements set forth in the merger agreement, which breach or failure to perform (i) would give rise to the failure of certain conditions to consummation of the merger set forth in the merger agreement and (ii) is incapable of being cured by the termination date or, if capable of

Edgar Filing: ASML HOLDING NV - Form 424B3

being cured, is not cured by the earlier of (A) 30 calendar days following receipt of written notice of such breach or failure to perform from ASML and (B) the termination date, if (1) Cymer's breach that gave rise to such right of termination was willful and (2) prior to the willful breach giving rise to such termination any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise disclosed to Cymer and not in good faith withdrawn and within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction;

the merger agreement is terminated by Cymer because the Cymer Board changes its recommendation to Cymer stockholders to approve the merger agreement in connection with a superior acquisition proposal or an intervening event; or

Table of Contents

the merger agreement is terminated by ASML or Cymer because:

the Cymer stockholders fail to approve the merger agreement at the special meeting or any adjournment or postponement thereof, if prior to the special meeting any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise publicly disclosed and not in good faith withdrawn, the Cymer Board does not change its recommendation to Cymer stockholders to approve the merger agreement and within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction; or

the merger is not consummated on or before July 16, 2013 (or any date to which the termination date is extended, but not later than October 16, 2013), if (i) prior to such termination, any proposal or offer for an acquisition proposal made after the date of the merger agreement has been publicly announced or otherwise disclosed and not in good faith withdrawn, (ii) prior to such termination Cymer has not held the special meeting, (iii) at the time of such termination, all conditions to consummation of the merger (other than approval of the merger agreement by the Cymer stockholders) have been satisfied or waived (other than those conditions that by their nature are to be satisfied at the closing, but subject to such conditions remaining capable of satisfaction) and (iv) within 12 months after the termination of the merger agreement Cymer enters into a definitive agreement with respect to any alternative transaction or consummates any alternative transaction.

Modification or Amendment; Waiver of Conditions

At any time prior to the consummation of the merger, any provision of the merger agreement may, subject to Nevada law, be amended or modified by written agreement signed by Cymer and ASML. However, after the Cymer stockholders have approved the merger agreement at the special meeting, no amendment to the merger agreement which by law requires further Cymer stockholder approval may be made without the approval of the Cymer stockholders.

The merger agreement also provides that any conditions to each of the parties' obligations to complete the merger may be waived by such party in whole or in part to the extent permitted by law.

Third-Party Beneficiaries

The merger agreement generally is not intended to confer upon any person other than Cymer, ASML, Holdco, Merger Sub and Merger Sub 2 any benefit or remedy, other than the right of Cymer prior to the effective time of the merger to pursue equitable remedies or damages (including the benefit of the bargain lost by Cymer stockholders), rights to indemnification and insurance described above, the right of the Cymer stockholders to cause the second step merger to occur and certain other exceptions.

Specific Performance

Cymer and ASML have agreed that the parties to the merger agreement will be entitled to an injunction or injunctions to prevent breaches of the merger agreement by the other parties and to enforce specifically the terms and provisions of the merger agreement in the courts of the State of New York and the federal courts of the United States of America for the Southern District of New York.

PROPOSAL 2 AUTHORITY TO ADJOURN THE SPECIAL MEETING

The Adjournment Proposal

If at the special meeting, the Cymer Board determines it is necessary or appropriate to adjourn the special meeting, Cymer intends to move to adjourn the special meeting. For example, the Cymer Board may make such a determination if the number of shares of Cymer common stock represented and voting in favor of the proposal to approve the merger agreement at the special meeting is insufficient to approve that proposal under the NRS, in order to enable the Cymer Board to solicit additional votes in respect of such proposal. If the Cymer Board determines that it is necessary or appropriate, it will ask Cymer stockholders to vote only upon the proposal to adjourn the special meeting, and not the proposal to approve the merger agreement.

In this proposal, Cymer stockholders are asked to authorize the holder of any proxy solicited by the Cymer Board to vote in favor of the proposal to adjourn the special meeting to another time and place. If the Cymer stockholders approve the proposal to adjourn the special meeting, Cymer could adjourn the special meeting and any adjourned session of the special meeting and use the additional time to solicit additional votes, including the solicitation of votes from Cymer stockholders that have previously voted. Among other things, approval of the proposal to adjourn the special meeting could mean that, even if proxies representing a sufficient number of votes against the proposal to approve the merger agreement were received to defeat that proposal, the special meeting could be adjourned without a vote on the proposal to approve the merger agreement and Cymer could seek to convince the holders of those shares of Cymer common stock to change their votes to votes in favor of the proposal to approve the merger agreement.

Board of Directors Recommendation

THE CYMER BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE PROPOSAL TO ADJOURN THE SPECIAL MEETING.

PROPOSAL 3 ADVISORY VOTE ON MERGER-RELATED COMPENSATION FOR CYMER S NAMED EXECUTIVE OFFICERS

Golden Parachute Compensation

This section sets forth the information required by Item 402(t) of Regulation S-K regarding the compensation for each named executive officer of Cymer that is based on or otherwise relates to the merger. This compensation is referred to as golden parachute compensation by the applicable SEC disclosure rules, and in this section we use such term to describe the merger-related compensation payable to Cymer s named executive officers. The golden parachute compensation payable to these individuals is subject to a non-binding advisory vote of Cymer stockholders, as described in this section.

Pursuant to the merger agreement, each unvested option to purchase Cymer common stock will be assumed by ASML and converted into an option to purchase a number of ASML ordinary shares equal to the number of shares of Cymer common stock subject to such option multiplied by the Stock Award Exchange Ratio, and the exercise price for each ASML ordinary share underlying such option will be equal to the exercise price per share of Cymer common stock subject to such Cymer stock option divided by the Stock Award Exchange Ratio. Each unvested restricted stock unit of Cymer will be assumed by ASML and converted into a number of ASML restricted stock units equal to the product of (i) the number of shares of Cymer common stock underlying such restricted stock unit multiplied by (ii) the Stock Award Exchange Ratio.

Each of Cymer s named executive officers, other than Mr. Bondur, is also entitled to certain double-trigger severance payments and benefits upon a termination of their employment by Cymer or ASML without cause or if they resign from their employment for good reason within 18 months after the merger or if they

Table of Contents

resign for any reason during the 30-day period beginning one year after the merger, as described in the section titled "The Merger Interests of Certain Persons in the Merger." These severance payments and benefits are conditioned on the named executive officer executing a waiver and release of claims in favor of Cymer.

Assuming that the merger was completed and the employment of each of the named executive officers was terminated without cause (or resigned with good reason) on March 1, 2013 and based on compensation levels and equity holdings as of December 31, 2012, each named executive officer would receive approximately the amounts set forth in the table below, based on a price of \$51.95 per ASML ordinary share, which is the average closing market price of ASML ordinary shares over the first five business days following the October 17, 2012 public announcement of the merger agreement. This equates to \$79.75 per share of Cymer common stock based on the 1.1502 exchange ratio plus the \$20.00 cash consideration. The amounts set forth below are estimates based on multiple assumptions that may or may not actually occur, including assumptions described in this proxy statement/prospectus, and do not reflect certain compensation actions that may occur before closing of the merger (such as any grant of stock options and restricted stock units in 2013). As a result, the actual amounts, if any, to be received by a named executive officer may materially differ from the amounts set forth below.

Name	Cash \$(1)	Equity \$(2)	Perquisites/Benefits \$(3)	Other \$(4)	Total (\$)
Robert P. Akins	3,104,999	9,582,681	17,113	342,570	13,047,363
Paul B. Bowman	1,056,439	2,832,561	27,710	148,526	4,065,236
Edward J. Brown, Jr.	2,283,435	5,018,668	52,546	265,533	7,620,182
Karen K. McGinnis	425,056	1,393,574	26,273	66,950	1,911,853
Thomas J. Bondur				114,330	114,330

- (1) Includes the continuation of monthly base salary as well as monthly payments equivalent to 1/36 of the aggregate bonus payments for the prior three years and a short term incentive plan bonus payment for the first two months of 2013.
- (2) Reflects the value of the unvested restricted stock units that would vest in full effective as of the date of the termination of employment under the terms of the executives' employment agreements (the amounts reported assume that 2012 performance-based restricted stock units pay out at a 138% level for revenue/net income and a 150% level for market share performance, which are the projected amounts based on actual performance through September 30, 2012). In addition, the amount reflects that Ms. McGinnis has \$181,613 in unvested stock options that would vest upon her termination of employment.
- (3) Includes continuation of premium payments under COBRA assuming the election of continuing health, dental and vision insurance benefits for the executive officer and his or her qualified beneficiaries for the maximum applicable period.
- (4) Represents payments under Cymer's short term incentive plan equal to 50% of each named executive officer's 2012 target incentive, as contemplated by the merger agreement.

Merger-Related Compensation Proposal

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and Rule 14a-21(c) of the Exchange Act, Cymer is seeking stockholder approval of a non-binding advisory proposal to approve the compensation of Cymer's named executive officers that is based on or otherwise relates to the merger as disclosed above in this section. The non-binding advisory proposal gives Cymer stockholders the opportunity to express their views on the merger-related compensation of Cymer's named executive officers.

Accordingly, Cymer is requesting stockholders to adopt the following resolution, on a non-binding advisory basis:

RESOLVED, that the compensation that may be paid or become payable to Cymer's named executive officers, in connection with the merger, and the agreements or understandings pursuant to which such compensation may be paid or become payable, in each case as disclosed pursuant to Item 402(t) of Regulation S-K in "Advisory Vote on Merger-Related Compensation for Cymer's Named Executive Officers - Golden Parachute Compensation," are hereby APPROVED.

Table of Contents

Vote Required and Cymer Board Recommendation

The vote on this non-binding, advisory proposal is a vote separate and apart from the vote to approve the merger agreement. Accordingly, you may vote not to approve this non-binding, advisory proposal on merger-related executive compensation and vote to approve the merger agreement and vice versa. Because the vote is advisory in nature, it will not be binding on Cymer, regardless of whether the merger agreement is approved. Approval of the non-binding advisory proposal with respect to the compensation that may be received by Cymer's executive officers in connection with the merger is not a condition to closing of the merger, and failure to approve this advisory matter will have no effect on the vote to approve the merger agreement. Because the merger-related executive compensation to be paid in connection with the merger is almost entirely based on contractual arrangements with the named executives, such compensation will be payable, regardless of the outcome of this advisory vote, if the merger agreement is approved (subject only to the contractual conditions applicable thereto) and the merger is completed.

The advisory vote on the compensation that may be received by Cymer's named executive officers in connection with the merger will be approved if a majority of the votes cast on such proposal vote **FOR** such proposal.

Board of Directors Recommendation

THE CYMER BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE NON-BINDING ADVISORY PROPOSAL TO APPROVE CERTAIN COMPENSATION FOR CYMER'S NAMED EXECUTIVE OFFICERS IN CONNECTION WITH THE MERGER.

Appraisal / Dissenters Rights

ASML HOLDING N.V.

Pursuant to section 2:92a of the DCC, a shareholder who, for his own account, contributes at least 95% of the issued share capital of a Dutch public limited liability company may institute proceedings against that company's minority shareholders jointly for the transfer of their shares to the claimant. Group companies who together contribute at least such percentage of the issued share capital may also institute such proceedings. The proceedings are held before the enterprise chamber of the court of appeal in Amsterdam (Ondernemingskamer van het Gerechtshof te Amsterdam, referred to as the Enterprise Chamber). The Enterprise Chamber may grant the claim for squeeze out in relation to all minority shareholders and will determine the price to be paid for the shares, if necessary after appointment of one or three experts who will offer an opinion to the Enterprise Chamber on the value to be paid for the shares of the minority shareholders. Once the order to transfer becomes final before the Enterprise Chamber, the person acquiring the shares shall give written notice of the date and place of payment and the price to the holders of the shares to be acquired whose addresses are known to him. Unless the addresses of all of them are known to him, he shall also publish this information in a daily newspaper with national circulation.

Section 2:359c of the DCC provides that the offeror under a public offer is also entitled to start a squeeze out procedure if, following the public offer, the offeror contributes at least 95% of the issued share capital and represents at least 95% of the total voting rights of the target company. A squeeze out procedure may also be started by group companies who together contribute and represent at least such percentage of the issued share capital and voting rights. The claim of a takeover squeeze out needs to be filed with the Enterprise Chamber within three months following the expiry of the acceptance period of the public offer. Under Nevada law, there is no right of dissent with respect to a plan of merger, conversion or exchange with respect to stockholders of any class or series which is traded in an organized market and has at least 2,000 stockholders and a market value of at least \$20,000,000, exclusive of the value of such shares held by the corporation's subsidiaries, senior executives, directors and beneficial stockholders owning more than 10 percent of such shares, unless; (i) the articles of the corporation issuing the shares provide otherwise or (ii) the stockholders are required to accept in exchange for their shares anything other than cash or shares of any class or any series of shares of any corporation, or any other proprietary interest of any other entity, which is traded in an organized market and has at least 2,000 stockholders and a market value of at least \$20,000,000, exclusive of the value of such shares held by the corporation's subsidiaries, senior executives, directors and beneficial stockholders owning more than 10 percent of such shares at the time the corporate action becomes effective.

claim may only be instituted with regard to the class of shares of which the offeror, alone or jointly with group companies, holds at least 95% of the issued share capital and represents 95% of the voting rights. The Enterprise Chamber may grant the claim for squeeze out in relation to all relevant minority shareholders and will determine the price to be paid for the shares, if necessary after appointment of one or three experts who will offer an opinion to the Enterprise Chamber on the value to be paid for the shares of the minority shareholders. In principle, the offer price shall be considered a reasonable price if the offer was a mandatory offer or if 90% or more of the shares to which the offer relates have been acquired by way of a voluntary offer.

Section 2:359d of the DCC entitles those minority shareholders that have not previously tendered their shares under an offer, to transfer their shares to the offeror, provided that the offeror, alone or together with group companies, has acquired at least 95% of the share capital and represents at least 95% of the total voting rights. If there are different classes of shares, which is the case for ASML, the claim may only be instituted with regard to the class of shares of which the offeror alone or jointly with group companies holds at least 95% of the issued share capital and represents 95% of the voting rights. With regard to price, the same procedure as for takeover squeeze out proceedings initiated by an offeror applies. The claim also needs to be filed with the Enterprise Chamber within three months following the expiry of the acceptance period of the offer.

Preemptive Rights

Holders of ASML ordinary shares have a pre-emptive right of subscription, in proportion to the aggregate nominal amount of the ASML ordinary shares held by them, to any issuance of ASML ordinary shares for cash, which right may be restricted or excluded. Holders of

Under Nevada law, the stockholders of a corporation organized on or after October 1, 1991, do not have a preemptive right to acquire the corporation's unissued shares except to the extent the articles of incorporation so provide. Cymer was organized on July 12, 1996.

Table of Contents

ASML HOLDING N.V.

ASML ordinary shares have no pro rata pre-emptive right of subscription to any ASML ordinary shares issued for consideration other than cash or ASML ordinary shares issued to employees of ASML, ASML preference shares or ASML ordinary shares issued to persons exercising a previously-granted right to subscribe for ordinary shares. Holders of ASML preference shares (if any) do not have pre-emptive rights. If authorized by the General Meeting (either by means of a resolution or by an amendment to the articles of association), the Board of Management has the power subject to approval of the Supervisory Board, to restrict or exclude the pre-emptive rights of holders of ASML ordinary shares. At ASML's extraordinary General Meeting held on September 7, 2012, the Board of Management was authorized through October 25, 2013, subject to approval of the Supervisory Board, to restrict or exclude pre-emptive rights of holders of ASML ordinary shares up to a maximum of five percent of ASML's issued share capital on April 25, 2012 and an additional five percent of such issued share capital on the occasion of mergers, acquisitions and / or (strategic) alliances.

CYMER, INC.

Cymer's articles of incorporation do not provide for preemptive rights.

Amendments to Articles of Association or Articles of Incorporation

The General Meeting can resolve to amend the articles of association. A proposed amendment requires the approval of the Supervisory Board.

Under Nevada law, unless the articles of incorporation provide otherwise, a proposed amendment to the articles of incorporation must be approved by stockholders holding shares in the corporation entitling them to exercise at least a majority of the voting power.

A resolution to amend the articles of association is adopted at a General Meeting at which more than one half of the issued share capital is represented and with at least three-fourths of the votes cast; if the required share capital is not represented at a meeting convened for that purpose, a subsequent meeting shall be convened, to be held within four weeks of the first meeting, at which, irrespective of the share capital represented, the resolution can be adopted with at least three-fourths of the votes cast. If a resolution to amend the articles of association is proposed by the Board of Management, the resolution will

Cymer's articles of incorporation do not require a greater vote.

be adopted with an absolute majority of votes cast irrespective of the represented share capital at the General Meeting.

The complete proposals should be made available for inspection by the shareholders and the others entitled to attend meetings at the office of ASML and at a banking institution designated in the convocation to the general meeting of shareholders, as from the date of said convocation until the close of that meeting. Furthermore, ASML must consult Euronext Amsterdam and communicate the draft amendment to the Netherlands Authority for the Financial Markets, before the amendment is proposed to its shareholders.

The above requirements applicable to the amendment of the articles of association, as set forth in the articles of association, are more stringent than the minimum approval requirements under Netherlands law (which only requires approval by the General Meeting in addition to the approval of the Supervisory Board of a proposal from the Board of Management to amend the articles of association).

Amendments to Bylaws or Other Governing Documents

ASML does not have bylaws. The rules of procedure of the Board of Management may be amended by the Board of Management, subject to approval of the Supervisory Board. The rules of procedure of the Supervisory Board may be amended by the Supervisory Board.

Cymer's bylaws, regardless of whether made by the stockholders or by the Cymer Board, may be amended, added to, or repealed by the stockholders, at any meeting of the stockholders, provided notice of the proposed change is given in the notice of meeting, or notice thereof is waived in writing.

Subject to those bylaws, if any, adopted by the Cymer stockholders, the Cymer Board may amend, add to, or repeal Cymer's bylaws.

Number of Directors

Newly adopted Dutch legislation taking effect on January 1, 2013, will require a Dutch public limited liability company which qualifies as a large company within the meaning of section 2:397(1) of the DCC, to pursue a policy of having at least 30% of the seats on the executive board be

held by men and at least 30% of the seats on the executive board be held by women to the extent these seats are held by natural persons. Based on ASML's assets and turnover, this rule will apply to ASML. Pursuant to this new legislation, ASML will be required to take this allocation of seats into account in connection with the (nomination for the) appointment of members of the Board of Management. In addition, if ASML does not comply with the gender diversity rules, it must explain in its annual report (1) why the seats are not allocated in accordance with this ratio, (2) how ASML has attempted to achieve a well-balanced allocation, and (3) how ASML aims to achieve a well-balanced allocation in the future. These rules are subject to a sunset provision of four years after their effectiveness.

The Board of Management currently consists of five members, the minimum pursuant to the articles of association being two members.

The Supervisory Board currently consists of eight members, the minimum being three members. The Supervisory Board determines the number of Supervisory Board members required for the performance of its functions.

Election of Directors

Members of the Board of Management are appointed by the Supervisory Board upon recommendation by ASML's Selection and Nomination Committee and upon notification to the General Meeting. Members of the Board of Management appointed after the amendment of the articles of association in 2004 are appointed for a period of four years, after which reappointment is possible.

Cymer's bylaws provide that directors are elected by a plurality of the votes cast by the shares entitled to vote for the election of directors at a meeting at which a quorum is present.

Because ASML is subject to the structure regime (*structuurregime*), members of the Supervisory Board are appointed by the General Meeting based on nominations proposed by the Supervisory Board. the Works Council) about upcoming resignations by rotation at the General Meeting in the year preceding the actual resignation(s) by rotation to ensure that the General Meeting and the Works Council have sufficient opportunity to recommend candidates for the upcoming vacancies. The Supervisory Board has the right to reject the proposed recommendations. Furthermore, the Works Council has an enhanced right to make recommendations for one-third of the members of the Supervisory Board. The enhanced recommendation right implies that the Supervisory Board may only reject the Works Council's recommendations for the following reasons: (i) if the relevant person is unsuitable or (ii) if the Supervisory Board would not be duly composed if the recommended person were appointed as Supervisory Board member. If no agreement on the recommended person(s) can be reached between the Supervisory Board and the Works Council, the Supervisory Board may request the Enterprise Chamber to declare that the Supervisory Board's objection is legitimate. Any decision of the Enterprise Chamber on this matter is non-appealable.

Removal of Directors

The Supervisory Board may suspend and dismiss members of the Board of Management, but only after consulting the General Meeting.

Under Nevada law and Cymer's bylaws, any director or one or more of the incumbent directors may be removed from office, with or without cause, by the vote of stockholders representing not less than two-thirds of the voting power of the issued and outstanding stock entitled to vote. Under Nevada law, the required voting power to remove directors may be increased, but may not be reduced.

The General Meeting may, by an absolute majority of the votes representing at least one-third of the total outstanding capital, dismiss the Supervisory Board in its entirety for lack of confidence. In such case, the Enterprise Chamber shall appoint one or more Supervisory Board members at the request of the Board of Management.

Quorum	<p>ASML does not follow NASDAQ's quorum requirements applicable to meetings of ordinary shareholders. In accordance with Dutch law and Dutch generally accepted business practice, the articles of association do not provide for any quorum requirements generally applicable to General Meetings. Under Dutch law and the articles of association, there are special majority and/or quorum requirements in relation to certain specific resolutions. To the extent that Dutch law or the articles of association do not provide otherwise, resolutions of the General Meeting will be adopted by a simple majority of the votes cast, without a quorum being required.</p>	<p>Cymer's bylaws provide that the majority of the shares entitled to vote, represented in person or by proxy, constitutes a quorum at any Cymer stockholder meeting.</p>

The Company is required to advance expenses as they are incurred upon receipt of an undertaking to repay such amounts if it is ultimately determined that indemnification was proper.

**Certain Business
Combination Restrictions**

The Board of Management shall require the approval of the Supervisory Board and the General Meeting for resolutions of the Board of Management regarding a significant change in the identity or nature of the company or the enterprise, including in any event of a transfer of the enterprise or practically the entire enterprise to a third party.

Cymer is subject to NRS Sections 78.411 to 78.444, which restrict certain business combinations between Cymer and an interested stockholder (beneficial ownership of 10% of more of the voting power of Cymer's outstanding stock) for two years after the stockholder becomes an interested stockholder. The restrictions do not apply if the Cymer Board approved the combination before such stockholder became an interested stockholder, the Cymer Board approved the transaction that caused the stockholder to become an interested stockholder before the stockholder became an interested stockholder, or the combination is approved by the affirmative vote of a majority of the outstanding voting stock of Cymer not beneficially owned by the interested stockholder or any affiliate or associate of the interested stockholder at a meeting called for that purpose no earlier than two years after the person became an interested stockholder. Although Cymer may elect to exclude itself from the restrictions imposed by Sections 78.411 to 78.444 of the NRS by providing so in its articles of incorporation, its articles of incorporation do not currently do so and any such exclusionary amendment to the articles of incorporation would, under Nevada law, not be effective for 18 months after approval by the company's stockholders and would not apply to any combination with any person who first became an

Shareholder Suits	Pursuant to section 2:345 of the DCC, shareholders (or holders of depositary receipts) meeting certain thresholds and certain other stakeholders of a company can initiate inquiry proceedings with the Enterprise Chamber. Plaintiffs may request an inquiry into the policy of the company and the conduct of its business. The court will only order an inquiry if a plaintiff can demonstrate that well founded reasons exist to doubt the soundness of the policies of the company and/or the conduct of its business, in a way that may amount to mismanagement (<i>wanbeleid</i>). The proceedings may only be initiated after the plaintiff has given the managing board of the company advance written notice of his objections to the policy of the company or the conduct of the business. Ample time should be given to the company to examine the objections and to address the alleged issues.	Under Nevada law, a Cymer stockholder may bring a derivative action on behalf of Cymer only if the stockholder was a Cymer stockholder at the time of the transaction in question or the stockholder acquired Cymer stock thereafter by operation of law.

Conflict of Interest Transactions

ASML HOLDING N.V.

If a member of the Board of Management, acting in his personal capacity, enters into an agreement with ASML, or if he, acting in his personal capacity, conducts any litigation against ASML, ASML may be represented in that matter by one of the other members of the Board of Management, or by a member of the Supervisory Board designated by the Supervisory Board, unless the General Meeting designates a person for that purpose or unless the law provides otherwise for such designation. Such a person may also be the member of the Board of Management in respect with whom the conflict of interest exists. If a member of the Board of Management has a conflict of interest with ASML other than as referred to in the first sentence of this paragraph, he shall have the power to represent ASML, as each of the other members of the Board of Management, in accordance with the rule that ASML shall be represented by the Board of Management or by two members of the Board of Management acting jointly.

CYMER, INC.

Under Nevada law, a contract or transaction in which a director or officer of Cymer is financially interested is not void or voidable if (i) the interest is known to the Cymer Board or a committee thereof, and the Cymer Board or committee authorizes, approves or ratifies the contract or transaction in good faith by a vote sufficient for the purpose, without counting the vote or votes of the interested director, (ii) the interest is known to the Cymer stockholders, and the Cymer stockholders approve or ratify the contract or transaction in good faith by the holders of a majority of the voting power of Cymer (including shares held by the interested director or officer), (iii) the interest is not known to the director or officer at the time the transaction is brought before the Cymer Board for action, or (iv) the contract or transaction is fair to Cymer at the time it is authorized or approved. Common or interested directors may be counted to determine a quorum and if the votes of the common or interested directors are not counted at the meeting, then a majority of disinterested directors may authorize, approve or ratify a contract or transaction.

Newly adopted Dutch legislation taking effect on January 1, 2013 does not contain restrictions on the powers of members of the executive board (including a one tier board) of a Dutch public limited liability company or a Dutch private limited liability company to represent such company in case of a conflict of interest, but provides that a member of the executive board may not participate in the adoption of resolutions (including deliberations in respect thereof) if he or she has a direct or indirect personal conflict of interest with the company. This rule will apply to ASML. Pursuant to this new legislation, if no resolution can be adopted by the Board of Management as a consequence thereof, the applicable resolution will be adopted by the Supervisory Board, unless the articles of association provide otherwise. In addition, if a member of the Board of Management does not comply with the provisions on

conflicts of interest, the applicable resolution is subject to nullification (*vernietigbaar*) and this member may be held liable to ASML.

Conflict of interest procedures are incorporated in the rules of procedure of the Supervisory Board and address the principle and the best practice provisions of the Dutch Corporate Governance Code with respect to conflicts of interest.

Similar to the rules for the Board of Management described above, newly adopted Dutch legislation taking effect on January 1, 2013 provides that a member of the supervisory board (including a one tier board) of a Dutch public limited liability company or a Dutch private limited liability company may not participate in the adoption of resolutions (including deliberations in respect thereof) if he or she has a direct or indirect personal conflict of interest with the company. This rule will apply to ASML. Pursuant to this new legislation, if no resolution can be taken as a consequence thereof, the applicable resolution will be adopted by the General Meeting, unless the articles of association provide otherwise. If a member of the Supervisory Board does not comply with the provisions on conflicts of interest, the applicable resolution is subject to nullification (*vernietigbaar*) and this member may be held liable to ASML.

Control Share Acquisitions

N/A

Cymer is subject to NRS Sections 78.378 to 78.3793, which limit the acquisition of a controlling interest in a Nevada corporation with 200 or more stockholders of record, at least 100 of whom have Nevada addresses, and that does business in Nevada directly or indirectly through an affiliated corporation. Under these sections of the NRS, an acquiring person who acquires a controlling interest in an issuing corporation may not exercise voting rights on any control shares unless such voting rights are conferred by a majority

vote of the disinterested stockholders of the issuing corporation at a special or annual meeting of the stockholders. In the event that the control shares are accorded full voting rights and the acquiring person acquires control shares with a majority or more of all the voting power, any stockholder, other than the acquiring person, who does not vote in favor of authorizing voting rights for the control shares is entitled to demand payment for the fair value of such person's shares.

Under the NRS, a controlling interest means the ownership of outstanding voting shares of an issuing corporation sufficient to enable the acquiring person, directly or indirectly and individually or in association with others, to exercise (1) one-fifth or more but less than one-third, (2) one-third or more but less than a majority, or (3) a majority or more of the voting power of the issuing corporation in the election of directors. Outstanding voting shares of an issuing corporation that an acquiring person (i) acquires or offers to acquire in an acquisition and (ii) acquires within 90 days immediately preceding the date when the acquiring person became an acquiring person are referred to as control shares.

The control share provisions of the NRS do not apply if the corporation opts out of such provisions in the articles of incorporation or bylaws of the corporation in effect on the 10th day following the acquisition of a controlling interest by an acquiring person. The Cymer Board has adopted an amendment to Cymer's bylaws, which will become effectively immediately prior to the consummation of the merger, opting out of these provisions of the NRS only with respect to ASML, Holdco, Merger Sub 2 and Merger Sub.

In respect of financial reporting, ASML, as a foreign private issuer, is required to file an annual report on Form 20-F within four months after the end of its fiscal year. Furthermore, ASML is required to submit a report on Form 6-K whenever ASML makes publicly available certain information pursuant to law, regulation or under the rules of Euronext Amsterdam, or otherwise makes such information available to its shareholders.</p> <p>As a foreign private issuer, ASML is exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements, but rather ASML is permitted to prepare and deliver proxy solicitation materials to its shareholder in accordance with Dutch law.</p> <p>The short-swing profit sections of the Exchange Act that require insider transactions to be reported within several days of a transaction and makes insiders liable for short-swing profits do not apply to covered persons of a foreign private issuer. Therefore, shareholders may not have the protection or the knowledge generated about such transactions as that afforded to shareholders of a public company organized in the United States. Notwithstanding the inapplicability of the short-swing profit rules, persons owning greater than 5% of the outstanding shares, which may include insiders, will still have to report their holdings and changes in their holdings on Schedule 13(d) of the Exchange Act.</p>

CANCELLATION OF SHARES IN THE MERGER**

4.1 Share Consideration for the Merger; Conversion or Cancellation of Shares in the Merger.

(a) Merger Consideration.

(i) At the Effective Time, by virtue of the Merger and without any action on the part of Parent, Holdco, Merger Sub, the Company, the Surviving Corporation or the holders of any shares of Company Capital Stock or the holders of any capital stock of Merger Sub, (A) each issued and outstanding share of Company Common Stock (other than Excluded Shares (as defined in Section 4.1(c)) shall, by virtue of the Merger, be converted into the right to receive under applicable Law and from Holdco, pursuant to Section 4.2, upon the surrender of the certificates evidencing the Company Common Stock (or evidence of shares in book entry form), (x) the Parent Stock Consideration, which Parent Stock Consideration shall, for purposes of the Laws of The Netherlands, be paid up by the holders of the shares of Company Common Stock as described in Section 4.1(a)(ii) below, and (y) the Cash Consideration (together, the Merger Consideration), without interest thereon, and such shares of Company Common Stock (or evidence of shares in book entry form) automatically shall be cancelled and extinguished, in accordance with Section 4.2 and (B) each holder of shares of Company Capital Stock (other than holders of Excluded Shares) shall be entitled to receive from Parent the Dutch Compensation Amount (as defined in clause (v) below) to be set off against the obligation to pay up the Parent Ordinary Shares as described in Section 4.1(a)(ii). Parent shall cause Holdco to take all applicable actions required under this Section 4.1(a)(i).

(ii) By virtue of the Merger and without any further action on the part of the holders of the shares of Company Common Stock, each such holder shall be deemed to have subscribed hereunder for the Parent Ordinary Shares to be issued to such holder in accordance with this Article IV. In accordance with the Laws of The Netherlands, each such holder, as a result of such deemed subscription, shall be obligated to pay up such Parent Ordinary Shares in an amount, determined solely for the purpose of satisfying such obligation, equal to the Dutch Compensation Amount (as defined below) to which such holder is entitled by virtue of the Merger. Such obligation shall be satisfied by each such holder, upon exchange of certificates (or evidence of shares in book entry form) in accordance with Section 4.2, by set off against its right to receive the Dutch Compensation Amount. In no event shall such obligation reduce the amount of Merger Consideration to which such holder is entitled hereunder.

(iii) Holdco's obligation to deliver the Merger Consideration to holders of shares of Company Common Stock in accordance with the terms and subject to the conditions set forth in this Article IV, may be assigned, in whole or in part, to Parent or any of Parent's Subsidiaries; provided, however, that no such assignment shall relieve Holdco of its obligations hereunder.

(iv) Notwithstanding the foregoing and subject to Section 7.1(c), if prior to the Effective Time the outstanding shares of Company Common Stock or Parent Ordinary Shares shall have been changed into a different number of shares or a different class, by reason of any stock dividend or distribution, subdivision, reclassification, recapitalization, stock split (including a reverse stock split), combination or exchange of shares or other similar transaction, and, in each such case, the record date for such transaction is between the date of this Agreement and the Effective Time, then any number or amount contained herein that is based upon the number of shares of Company Common Stock or Parent

Ordinary Shares, as the case may be, will be adjusted as appropriate to provide to the holders of Company Common Stock the same economic effect as contemplated by this Agreement prior to such event; provided, however, that (A) any stock repurchase by Parent, (B) the reverse stock split and any other actions associated with the Parent Synthetic Buyback or any similar transaction, shall not require or result in any adjustment hereunder. As provided in Section 4.4, the right of any holder of Company Common Stock to receive the Merger Consideration shall be subject to and reduced by the amount of any withholding under applicable Tax Law.

(v) Definitions. For purposes hereof, the following terms have the following respective meanings:

Cash Consideration means an amount per share of Company Common Stock in cash equal to US \$20.00.

Conversion Ratio shall equal 1.1502.

Parent Stock Consideration means an amount of Parent Ordinary Shares equal to the Conversion Ratio.

(b) No Fractional Shares. No fractional Parent Ordinary Shares shall be issued in the Merger. In lieu thereof, each holder of shares of Company Common Stock otherwise entitled to a fractional share of Parent Ordinary Shares shall be entitled to receive cash in an amount equal to the product obtained by multiplying (A) the average of the last reported sales prices of Parent Ordinary Shares, calculated to two (2) decimal places, as reported on NASDAQ, on each of the five (5) trading days ending on the third trading day immediately preceding the Closing Date (the Parent Stock Price) by (B) the fractional Parent Ordinary Shares to which such holder would otherwise be entitled. The Exchange Agent shall make available such amounts to such holders of Parent Ordinary Shares without interest, subject to and in accordance with Section 4.2.

(c) At the Effective Time, each share of Company Common Stock issued and outstanding and owned by Parent, Holdco, Merger Sub, Merger Sub 2 or any other wholly owned Subsidiary of Parent, or held in the treasury of the Company or owned by any wholly owned Subsidiary of the Company immediately prior to the Effective Time (collectively, the Excluded Shares) shall cease to be outstanding, and automatically shall be cancelled and retired without payment of any consideration therefor and shall cease to exist.

(d) At the Effective Time, each share of Merger Sub Capital Stock outstanding immediately prior to the Effective Time shall be converted into a share of capital stock of the Surviving Corporation (the Surviving Corporation Capital Stock).

(e) Dissenting Shares. Pursuant to NRS 92A.390, no dissenter's rights or rights of appraisal will apply in connection with the Merger.

(f) Conversion of Surviving Corporation Common Stock. At the effective time of the Subsequent Merger, and without any action on the part of Parent, Holdco, the Surviving Corporation, Merger Sub 2 or any holder of shares or other equity interests thereof, each share of Surviving Corporation Capital Stock issued and outstanding immediately prior to the Effective Time shall be converted into one limited liability company interest of the Surviving LLC and shall constitute the only limited liability company interests of the Surviving LLC. From and after the effective time of the Subsequent Merger, all certificates representing shares of Surviving Corporation Capital Stock shall be deemed for all purposes to represent the number of limited liability company interests of the Surviving LLC into which they were converted in accordance with the immediately preceding sentence.

4.2 Exchange of Stock Certificates. Certificates (or evidence of shares in book entry form) for shares of Company Common Stock shall be exchanged for the Merger Consideration in accordance with the following procedures:

(a) Prior to the Closing, Parent shall appoint an agent reasonably acceptable to the Company to act as exchange agent under this Agreement (the Exchange Agent) and who shall serve pursuant to an agreement between Parent, Holdco and the Exchange Agent, the terms of and conditions of which are reasonably satisfactory to the Company (the Exchange Agent Agreement). Immediately prior to the Closing, Parent shall, or shall cause Holdco to, deliver to the Exchange Agent, in trust for the benefit of the holders of Company Common Stock an amount in cash equal to the Cash Consideration multiplied by the number of shares of Company Common Stock to be converted in the Merger plus any cash due in lieu of fractional shares pursuant to Section 4.1(b).

(b) As promptly as practicable after the Effective Time, but in no event later than five (5) Business Days following the Effective Time, Parent shall cause the Exchange Agent to mail to each holder of record of Company Common Stock a form of letter of transmittal (the Letter of Transmittal), which shall specify that delivery shall be effected, and risk of loss and title to the certificates shall pass, only upon delivery of the certificates to the Exchange Agent and shall be in such form and have such other provisions (including customary provisions with respect to delivery of an agent s message with respect to shares held in book-entry form) as Parent may specify, subject to the Company s reasonable approval, together with instructions thereto. Upon (i) in the case of shares of Company Common Stock represented by a certificate, the surrender of such certificate for cancellation to the Exchange Agent, or (ii) in the case of shares of Company Common Stock held in book-entry form, the receipt of an agent s message by the Exchange Agent, in each case together with the Letter of Transmittal, duly, completely and validly executed in accordance with the instructions thereto, and such other documents as may reasonably be required by the Exchange Agent, the holder of such shares shall be entitled to receive (and the Exchange Agent shall deliver) (A) certificates (or electronic equivalents) representing the number of Parent Ordinary Shares into which such shares of Company Common Stock shall have been converted in the Merger, and (B) a bank check for an amount equal to the Cash Consideration multiplied by the number of shares of Company Common Stock to be converted plus any cash due in lieu of fractional shares pursuant to Section 4.1(b).

(c) No dividends or other distributions with respect to securities of Parent constituting part of the Merger Consideration shall be paid to the holder of any certificates (or electronic equivalents) for Company Common Stock not surrendered until such certificates (or electronic equivalents) for Company Common Stock are surrendered or transferred, as the case may be, as provided in this Section 4.2 Subject to the effect of applicable Laws, following such surrender or transfer, there shall be paid, without interest, to the Person in whose name the Parent Ordinary Shares have been registered, (i) the amount of all dividends or other distributions, if any, with a record date on or after the Effective Time and previously paid or payable on the date of such surrender with respect to such surrendered securities, and (ii) at the appropriate payment date, the amount of dividends or other distributions, if any, with a record date on or after the Effective Time and prior to surrender or transfer and with a payment date subsequent to surrender or transfer payable with respect to such securities.

(d) In no event shall the holder of any surrendered certificates (or evidence of shares in book entry form) be entitled to receive interest on any of the Cash Consideration to be received in the Merger.

(e) If any certificate (or electronic equivalents) for such Parent Ordinary Shares or check for the Cash Consideration is to be issued in the name of a Person other than the Person in whose name the certificates (or electronic equivalents) surrendered for exchange therefor are registered, it shall be a condition of the exchange that the certificates (or electronic equivalents) so surrendered shall be endorsed or shall otherwise be in proper form for transfer, and that the Person requesting such exchange shall pay to the Exchange Agent any transfer or other taxes required by reason of issuance of such check to a Person other than the registered holder of the certificates (or electronic equivalents) surrendered, or shall establish to the satisfaction of the Exchange Agent that such tax has been paid or is not applicable.

(f) If, for any reason (including losses), the Exchange Agent shall not have sufficient funds or Parent Ordinary Shares to pay the amounts to which holders of Company Common Stock are entitled under this Article IV, Parent and the Surviving Entity shall take all steps necessary to promptly deposit with the Exchange Agent additional cash and Parent Ordinary Shares sufficient to make all payments required under this Article IV. Any funds deposited with the Exchange Agent (including any interest received with respect thereto) that remains undistributed to the holders of Company Common Stock for twelve (12) months after the Effective Time shall be delivered to Parent, upon demand, and any holder of Company Common Stock who has not theretofore complied with this Article IV shall thereafter look only to Parent and the Surviving Entity for payment of its claim for Merger Consideration, any cash in lieu of fractional shares and any dividends and distributions to which such holder is entitled pursuant to this Article IV, in each case without any interest thereon.

(g) If any certificate shall have been lost, stolen or destroyed, then, upon the making of an affidavit of that fact by the Person claiming such certificate to be lost, stolen or destroyed and, if required by the Exchange Agent, the posting by such Person of a bond, in such amount as Parent or the Exchange Agent may reasonably direct, as indemnity against any claim that may be made against it with respect to such certificate, Parent shall direct the Exchange Agent to issue, in exchange for such lost, stolen or destroyed certificate, the Merger Consideration to be paid in respect of the shares of Company Common Stock represented by such certificate, as contemplated by this Article IV.

(h) None of the Company, Parent, Holdco, Merger Sub, the Surviving Entity or the Exchange Agent shall be liable to any Person in respect of any Parent Ordinary Shares (or dividends or distributions with respect thereto) or cash deposited with the Exchange Agent, in each case, properly delivered to a public official pursuant to any applicable abandoned property, escheat or similar Law. Any Merger Consideration, any cash in lieu of fractional Parent Ordinary Shares and any dividends or distributions remaining unclaimed as of a date which is immediately prior to such time as such amounts would otherwise escheat or become property of any Governmental Entity shall, to the extent permitted by applicable Law, become the property of the Surviving Entity free and clear of any claims or interests of any Person previously entitled thereto.

(i) The Exchange Agent shall invest any of the funds deposited with the Exchange Agent as directed by Parent; provided, that such investments shall be in obligations of or guaranteed by the United States of America in commercial paper obligations rated A-1 or P-1 or better by Moody's Investors Service, Inc. or Standard & Poor's Corporation, respectively, in certificates of deposit, bank repurchase agreements or banker's acceptances of commercial banks with capital exceeding \$1 billion, or in money market funds having a rating in the highest investment category granted by a recognized credit rating agency at the time of acquisition or a combination of the foregoing and, in any such case, no such instrument shall have a maturity exceeding three months. Any interest and other income resulting from such investment shall become a part of the exchange fund, and any amounts in excess of the amounts payable under Section 4.1(a) shall be promptly returned to Parent. No investment of the funds shall relieve Parent, the Surviving Entity or the Exchange Agent from making the payments required by this Article IV, and following any net losses from any such investment, Parent shall promptly provide additional funds to the Exchange Agent for the benefit of the applicable holders of any shares of Company Common Stock immediately prior to the Effective Time in the amount of such net losses, which additional funds shall be deemed to be part of the funds. No investment of the funds shall have maturities that could prevent or delay payments to be made pursuant to this Agreement.

(j) Except for the right to surrender of the certificate(s) (or evidence of shares in book entry form) representing the Company Common Stock in exchange for the right to receive the Merger Consideration with respect to each share of Company Common Stock and any cash in lieu of fractional Parent Ordinary Shares, all shares of Company Common Stock shall no longer be outstanding and automatically shall be cancelled and shall cease to exist at the Effective Time and each holder of Company Common Stock shall cease to have any rights as a stockholder of the Company, and no transfer of Company Common Stock shall thereafter be made on the stock transfer books of the Surviving Corporation.

If the Exchange Agent, the Surviving Entity, Holdco, Parent or any of their respective agents, as the case may be, so withholds amounts, such amounts shall be treated for all purposes of this Agreement as having been paid to the holder of the shares of Company Common Stock, Company Options or Company RSUs in respect of which the Exchange Agent, the Surviving Entity, Parent or the agent, as the case may be, made such deduction and withholding. Notwithstanding the foregoing sentence or any other provision of this Agreement, if, (A) after the date hereof and prior to the receipt of Company Stockholder Approval, the Company receives a bona fide Acquisition Proposal by a Third Party and such Acquisition Proposal did not result from a breach of this Section 7.3, (B) the Company Board determines in good faith (after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel) that such Acquisition Proposal constitutes, or would reasonably be expected to lead to a Superior Acquisition Proposal, and (C) the Company receives from such Third Party an executed confidentiality agreement having provisions that are no less restrictive in the aggregate than those of the Confidentiality Agreement, then the Company may, in response to such Acquisition Proposal, subject to compliance with this Section 7.3 and after giving notice to Parent, (x) furnish information or data or access with respect to the Company and its Subsidiaries to, and (y) participate in discussions and negotiations directly or through its representatives with, such Third Party; provided, that the Company shall promptly (but in no event later than 24 hours) provide or make available, to the extent not previously provided or made available to Parent or its representatives, any non-public information with respect to the Company or any of its Subsidiaries that is provided to the Third Party making such Acquisition Proposal; provided, further, however, that nothing in this Section 7.3 shall require the Company to provide or make available to Parent information that it is not legally permitted to disclose or the disclosure of which would contravene any applicable Law.

(b) The Company shall advise Parent orally and in writing, promptly (but in no event later than 24 hours) after receipt thereof, of (i) any proposal for an Acquisition Proposal received by any officer or director of the Company or its Subsidiaries (whether or not such proposal was received by the Company directly from the party making such Acquisition Proposal), and (ii) the material terms of such Acquisition Proposal (including the identity of the entity proposing the Acquisition Proposal), and provide a copy of such proposal for an Acquisition Proposal to Parent if such proposal is in writing. The Company shall keep Parent reasonably informed on a reasonably current basis of the status of, and any material changes to, the terms of any such Acquisition Proposal and the status of discussions and negotiations with respect thereto.

(c) Notwithstanding Section 7.3(a), but subject to Section 7.3(e), at any time prior to the receipt of the Company Stockholder Approval, the Company Board may, in response to a material development or material change in circumstances with respect to the Company, occurring after the date hereof, that is (i) materially more favorable to the recurring financial condition and results of operations of the Company and its Subsidiaries, taken as a whole, relative to other businesses operating in the same industry, (ii) was neither known to the Company Board nor reasonably foreseeable as of or prior to the date hereof and (iii) does not relate to (A) any Acquisition Proposal, (B) any change, state of facts, circumstance, occurrence, event or development relating to the financial condition, properties, assets, liabilities, business or results of operation of Parent or Merger Sub or any of their Affiliates, including changes in the market price or trading volume of the Parent Ordinary Shares, (C) any change, state of facts, circumstance, occurrence, event or development arising out of or relating to EUV Technologies or the Company's and its Subsidiaries' EUV business, (D) clearance of the Merger under the Foreign Merger Control Laws, the HSR Act or CFIUS, (E) the fact, in and of itself, that the Company meets or exceeds any internal or published projections, forecasts, estimates or predictions of revenue, earnings or other financial or operating metrics for any period ending on or after the date hereof (provided that the exception in this clause (E) shall not prevent or otherwise affect any such development or change underlying the Company meeting or exceeding such metrics from being taken into account in determining whether an Intervening Event has occurred), or (F) any changes after the date hereof in the market price or trading volume of the Company Common Stock (provided that the exception in this clause (F) shall not prevent or otherwise affect any such development or change underlying such change in market price or trading value of the Company Common Stock from being taken into account in determining whether an Intervening Event occurred) (such development or

change in circumstances, an Intervening Event), make a Board Recommendation Change if the Company Board has concluded in good faith, after consultation with, and taking into account the advice of, its outside legal counsel, that, in light of such Intervening Event, the failure of the Company Board to effect such a Board Recommendation Change would reasonably be expected to constitute a violation of its fiduciary duties under applicable Law (such Board Recommendation Change in response to an Intervening Event, an Intervening Event Board Recommendation Change) and terminate the Agreement pursuant to Section 9.4(iii).

(d) Notwithstanding Section 7.3(a), but subject to Section 7.3(e), at any time prior to receipt of the Company Stockholder Approval, the Company Board may make a Board Recommendation Change (and, solely with respect to a Superior Acquisition Proposal, terminate this Agreement pursuant to Section 9.4(ii)) in response to an Acquisition Proposal made after the date hereof that the Company Board determines in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, constitutes a Superior Acquisition Proposal, provided, that such Acquisition Proposal did not result from a breach of this Section 7.3, and that the Company Board has determined in good faith, after consultation with, and taking into account the advice of, its outside legal counsel, that the failure to make such a Board Recommendation Change or terminate this Agreement pursuant to Section 9.4(ii) would reasonably be expected to constitute a violation of its fiduciary duties.

(e) Last Look . Further, neither the Company Board nor a Committee shall make a Board Recommendation Change in response to an Acquisition Proposal as permitted by Section 7.3(d) or terminate this Agreement in accordance with Section 9.4(ii), unless (i) the Company promptly notifies Parent, in writing at least four (4) Business Days before taking such action, of its intention to do so, attaching the most current version of any proposed agreement under which such Acquisition Proposal is proposed to be consummated and the identity of the Third Party making the Acquisition Proposal, and (ii) within four (4) Business Days after its receipt of such written notification, Parent has not made an offer that the Company Board determines, in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, is at least as favorable to the stockholders of the Company as such Acquisition Proposal (it being understood and agreed that any amendment to the financial terms or other material terms of such Acquisition Proposal shall require a new written notification from the Company under clause (i) and a new period under clause (ii) of this Section 7.3(e)) which in any subsequent case shall be a two (2) Business Day period. Neither the Company Board nor a Committee shall make an Intervening Event Board Recommendation Change as permitted by Section 7.3(c) or terminate the Agreement pursuant to Section 9.4(iii), unless (A) the Company promptly notifies Parent, in writing at least four (4) Business Days before taking such action, of its intention to do so, attaching a reasonably detailed explanation of the facts underlying the determination by the Company Board of its need to make a Intervening Event Board Recommendation Change and (B) within four (4) Business Days after its receipt of such written notification, Parent has not made an offer that the Company Board determines, in good faith, after consultation with, and taking into account the advice of, its outside financial advisors and outside legal counsel, would obviate the need for a Intervening Event Board Recommendation Change. During any such applicable period prior to its effecting a Board Recommendation Change or an Intervening Event Board Recommendation Change pursuant to and in compliance with this Section 7.3 or terminating this Agreement pursuant to Section 9.4(ii) or Section 9.4(iii), the Company and its representatives shall negotiate in good faith with Parent and its representatives regarding any revisions to the terms of the transactions contemplated by this Agreement proposed by Parent.

(f) Nothing contained in this Section 7.3 shall prevent the Company or the Company Board from (i) complying with any applicable securities Law, rule or regulation, including Rule 14d-9 and Rule 14e-2 promulgated under the Exchange Act, (ii) making any disclosure to its stockholders required by applicable Law, rule or regulation or by the rules and regulations of NASDAQ, or (iii) otherwise making such disclosure to the Company's stockholders or otherwise that the Company Board or a Committee (after consultation with, and taking into account the advice of, its outside legal counsel) concludes in good faith would reasonably be expected to be necessary in order to comply with its fiduciary duties to the Company's stockholders under applicable Law; provided, that any such action taken or statement or disclosure made that relates to an Acquisition Proposal shall

be deemed to be a Board Recommendation Change unless the Company Board publicly reaffirms the Company Board Recommendation within three (3) Business Days following such statement or disclosure or in connection with such action (except that a mere stop, look and listen disclosure in compliance with Rule 14d-9(f) of the Exchange Act or other similar communication shall not constitute a Board Recommendation Change).

(g) For purposes of this Agreement, Superior Acquisition Proposal means any bona fide written Acquisition Proposal (with all references to fifteen percent (15%) in the definition thereof deemed to be fifty percent (50%) for purposes of this definition) not solicited or initiated in violation of this Section 7.3 that (i) the Company Board determines in its good faith judgment (after consultation with, and taking into account the advice of, its outside legal counsel and outside financial advisors) would, if consummated, result in a transaction that is more favorable to the Company's stockholders from a financial point of view than the transactions contemplated hereby, including the Merger, after taking into account any other binding proposal made by Parent after Parent's receipt of notice of an intention to make a Board Recommendation Change or terminate this Agreement pursuant to Section 9.4(ii) and the time likely to be required to consummate such Acquisition Proposal and (ii) the Company Board determines in good faith (after consultation with, and taking into account the advice of, its outside financial advisors and its outside legal counsel) is reasonably capable of being consummated on the terms proposed, in each case taking into account all legal, financial, regulatory and other aspects of the proposal, and for which financing, if a cash transaction (whether in whole or in part), is then fully committed or reasonably determined to be available by the Company Board.

7.4 Stockholders Meeting; Proxy Statement; Registration Statement.

(a) The Company shall:

(i) (A) use reasonable best efforts to promptly prepare (with the assistance of Parent and its representatives) the Proxy Statement, (B) obtain and furnish the information required to be included by it in the Proxy Statement and the Registration Statement and, after consultation with Parent and Merger Sub, respond promptly to any comments made by the SEC with respect to the Proxy Statement and any preliminary version thereof, and (C) undertake and use its reasonable best efforts to obtain the Company Stockholder Approval (unless, with respect to this clause (C), prior to such time the Company Board has made a Board Recommendation Change or Intervening Event Board Recommendation Change in accordance with Section 7.3(c) or Section 7.3(d));

(ii) include (unless prior to such time the Company Board has made a Board Recommendation Change or Intervening Event Board Recommendation Change in accordance with Section 7.3(c) or Section 7.3(d)) in the Proxy Statement the Company Board Recommendation and shall not, except in accordance with Section 7.3(c) or Section 7.3(d), make a Board Recommendation Change or an Intervening Event Board Recommendation Change;

(iii) mail the Proxy Statement to the Company's stockholders as promptly as practicable after the Registration Statement is declared effective by the SEC; provided, however, that without Parent's prior written consent, in no event shall the Company mail the Proxy Statement to the Company's stockholders prior to the earlier of (A) one (1) Business Day after the date on which the closing of the Parent Synthetic Buyback occurs and (B) January 1, 2013; and

(iv) duly call, give notice of, convene and hold the Stockholders Meeting, to be held as soon as reasonably practicable after the filing of the Registration Statement, in which the Proxy Statement shall be included, with the SEC and the completion of the SEC's review of the Proxy Statement, and the Company shall not adjourn or postpone the Stockholders Meeting if there are sufficient shares of Company Common Stock represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of the Stockholders Meeting and the Company believes such shares will be voted in a number sufficient to approve and adopt this Agreement and the Merger; provided, however, that notwithstanding anything in this Agreement to the contrary, the Company may adjourn or postpone the Stockholders Meeting to the earliest practicable date but no later than ten (10) Business Days from

such adjournment or postponement in order to permit the dissemination of any supplement or amendment to the Proxy Statement or other disclosure to the Company's stockholders if after consultation with, and taking into account the advice of, its outside legal counsel, the Company Board or a Committee determines in good faith that the failure to make such disclosure would reasonably be expected to violate applicable Law, including their fiduciary duties.

(b) Parent and Merger Sub shall, and shall each cause their respective representatives to, fully cooperate with the Company in the preparation of the Proxy Statement, and shall, upon request, furnish the Company with all information concerning it and its Affiliates as the Company may deem reasonably necessary or advisable in connection with the preparation of the Proxy Statement. (c) Parent shall use reasonable best efforts to promptly prepare (with the assistance of the Company and its representatives) and file with the SEC, the Registration Statement, in which the Proxy Statement shall be included, and, after consultation with the Company, respond promptly to any comments made by the SEC with respect to the Registration Statement. Parent shall inform Euronext of the Closing and provide a copy of the Registration Statement to Euronext at least two (2) days prior to Closing.

(f) Except as may be required by Law, no amendment or supplement to the Proxy Statement or the Registration Statement will be made by Parent or the Company without the approval of the other party, which will not be unreasonably withheld or delayed. Parent and the Company each will advise the other, promptly after it receives notice thereof, of the time when the Registration Statement has become effective or any supplement or amendment has been filed, the issuance of any stop order, the suspension of the qualification of the Parent Ordinary Shares issuable in connection with the Merger for offering or sale in any jurisdiction, any request by the SEC for amendment of the Proxy Statement or the Registration Statement or comments thereon or requests for additional information by the SEC.

1988 and as amended by the Foreign Investment and National Security Act of 2007 (Exon-Florio) and to obtain as promptly as reasonably practicable all Permits, consents, approvals, authorizations, qualifications and orders of Governmental Entities and parties to contracts with the Company and the Subsidiaries as are necessary for the consummation of the Merger and the transactions contemplated by this Agreement and to fulfill the conditions to the Merger and (iii) use commercially reasonable efforts to obtain consents under any Contracts of the Company or its Subsidiaries that would be violated or under which consent otherwise is required as a result of entering into this Agreement or the transactions contemplated hereby.

(b) To the extent not prohibited by applicable Law, each party shall use its reasonable best efforts to furnish to the other parties all information required for any application, notification or other filing to be made pursuant to any applicable Laws in connection with the Merger and the transactions contemplated hereby. Parent and the Company shall give each other reasonable prior notice of any communication with, and any proposed understanding, undertaking or agreement with, any Governmental Entity regarding any such applications, notifications or filings or any such transaction. The parties hereto agree that both Parent and Company shall be represented at all in-person meetings and in all substantive conversations with any Governmental Entity regarding the matters set forth in this Section 7.5, except (i) if, and to the extent that, any Governmental Entity objects to any party's being represented at any such meeting or in any such conversation and (ii) to the extent that the communication or meeting relates to a national security risk mitigation agreement between Parent and CFIUS or any of its constituent agencies. The parties hereto will consult and cooperate with one another in connection with any analyses, appearances, presentations, memoranda, briefs, arguments, opinions and proposals made or submitted by or on behalf of any party hereto in connection with proceedings under or relating to the HSR Act, the Foreign Merger Control Laws, any other applicable foreign Competition Laws and Exon-Florio. Unless Parent and the Company agree otherwise, Parent shall take the lead in coordinating any applications, notifications or filings, obtaining any necessary approvals, and resolving any investigation or other inquiry of any such agency or other Governmental Entity under the HSR Act, the Foreign Merger Control Laws, any other applicable foreign Competition Laws and Exon-Florio.

(c) Each of the parties hereto agrees to cooperate and use its reasonable best efforts to vigorously contest and resist any action or proceeding, including administrative or judicial action or proceeding, and to have vacated, lifted, reversed or overturned any decree, judgment, injunction or other order (whether temporary, preliminary or permanent) that is in effect and that restricts, prevents or prohibits consummation of the Merger and the transactions contemplated by this Agreement, including reasonably pursuing administrative and judicial appeal.

(d) In furtherance of, and not in limitation of, the foregoing, but upon the terms and subject to the conditions of this Agreement, Parent shall use its reasonable best efforts to take, or cause to be taken, all such further actions as may be necessary to resolve such objections, if any, as the United States Federal Trade Commission, the Antitrust Division of the United States Department of Justice or competition authorities of any other nation or other jurisdiction or any other Person may assert under any Competition Laws with respect to the Merger and the other transactions contemplated hereby, and to avoid or eliminate each and every impediment under any Competition Laws that may be asserted by any Governmental Entity or any other Person with respect to the Merger so as to enable the Closing to occur as promptly as reasonably practicable and in any event no later than the Termination Date (as such date may be extended pursuant to Section 9.2); provided, however, that nothing in this Section 7.5 or this Agreement shall require or be deemed to require Parent or any of its Subsidiaries to agree to or take any action that would or would reasonably be expected to result in or be any Burdensome Condition in order to satisfy the conditions set forth in Sections 8.1(b), 8.1(c)(i) or (ii). For purposes of this Agreement, a Burdensome Condition shall mean executing or carrying out agreements (including consent decrees) or submitting to Orders (i) providing for the license, sale, divestiture or other disposition or holding separate (through the establishment of trust or otherwise) of any assets or categories of assets of the Company, Parent or their respective Subsidiaries or the holding separate of the capital stock or limited liability company interests of a Parent Subsidiary (including the Surviving Entity after the Effective Time), or (ii) imposing or seeking to impose any (x) limitation on the freedom of action of the Company, Parent or any of

their respective Subsidiaries with respect to or the ability of the Company, Parent or any of their respective Subsidiaries to conduct their respective businesses (including, with respect to, market practices, sales and structure) or own such assets or to acquire, hold or exercise full rights of ownership of the business of Parent or (y) requirement on how or where the Company, Parent or any of their respective Subsidiaries conduct their respective businesses (including, with respect to, market practices, sales and structure) that, in the case of (i) or (ii), individually or in the aggregate, would or would reasonably be expected to result in (A) the license, sale, divestiture or other disposition of any assets of the Company, Parent or the Surviving Entity or their Subsidiaries (other than assets acquired or licensed by Parent or its Subsidiaries from a third party (other than the Company or its Subsidiaries) on or after September 30, 2012 (collectively, Divestiture Assets)), (B) a Company Material Adverse Effect or a Parent Material Adverse Effect, or (C) a material adverse effect on the benefits that Parent reasonably expects to be realized or derived from the transactions contemplated hereby; provided, however, that the effect of any license, sale, divestiture or other disposition of any Divestiture Assets shall not be taken into account in determining whether the result described in clause (B) or (C) has occurred. If requested by Parent, the Company will agree to any action contemplated by this Section 7.5(d), provided that such agreement or action is conditioned on the consummation of the Merger.

(e) In furtherance of, and not in limitation of, the foregoing, but upon the terms and subject to the conditions of this Agreement, each of the Company and Parent shall seek to obtain CFIUS Approval, provided, however, that nothing in this Section 7.5 will require or be deemed to require Parent or any of its Subsidiaries to agree to any terms or conditions, or take any actions, in order to obtain CFIUS Approval that (i) would require the license, sale, divestiture or other disposition of any assets of the Company, Parent or the Surviving Entity or their Subsidiaries, other than Divestiture Assets, (ii) relate to Parent's or its Subsidiaries' assets, businesses or operations (other than the Surviving Entity's and its Subsidiaries' assets, businesses and operations after the Effective Time or Divestiture Assets), or (iii) would or would reasonably be expected to have a Company Material Adverse Effect, a Parent Material Adverse Effect, or a material adverse effect on the benefits that Parent reasonably expects to be realized or derived from the transactions contemplated hereby; provided, that the effect of a license, sale, divestiture or other disposition of any Divestiture Assets shall not be taken into account in determining whether the result described in clause (iii) has occurred.

7.6 NASDAQ Listing and Delisting. Prior to Effective Time, Parent shall prepare and submit to NASDAQ a listing application, if required under NASDAQ rules, covering the Parent Ordinary Shares issuable in the Merger, and shall use best efforts to obtain approval for the listing of such Parent Ordinary Shares, subject to official notice of issuance, and the Company shall reasonably cooperate with Parent with respect to such listing. Each of the parties hereto agrees to cooperate with each other in taking, or causing to be taken, all actions necessary to delist the Company Common Stock from NASDAQ and to terminate registration under the Exchange Act; provided, that such delisting and termination shall not be effective until after the Effective Time of the Merger.

7.7 Access to Information.

(a) Subject to applicable Laws relating to the exchange of information, upon reasonable notice, the Company shall (and shall cause each of its Subsidiaries to) afford to officers, employees, counsel, accountants and other authorized representatives of Parent (Parent Representatives), reasonable access, during normal business hours and upon reasonable advance notice throughout the period prior to the Effective Time, to its officers, employees, accountants, consultants, representatives, plants, properties, contracts, commitments, books and records and, during such period, shall (and shall cause each of its Subsidiaries to) furnish or make available reasonably promptly to such Parent Representatives all information concerning its business, properties and personnel as may reasonably be requested (including financial and operating data, customer billing and other data files for the purpose of system integration and testing as well as compensation and payroll data files for the purpose of payroll system integration and testing with respect to employees of the Company and its Subsidiaries); provided, however, that any such access shall be conducted under the supervision of personnel of the Company and in a manner that does not interfere in any material respect with the normal operations of the Company.

(b) Parent agrees that it shall not, and shall cause the Parent Representatives not to, use any information obtained pursuant to this Section 7.7 for any purpose unrelated to the transactions contemplated by this Agreement.

(c) Notwithstanding anything to the contrary set forth herein, nothing in this Section 7.7 shall require the Company to disclose any information that, in its sole and reasonable judgment, (i) it is not legally permitted to disclose or the disclosure of which would contravene any applicable Law or binding Order, (ii) the disclosure of which would jeopardize any attorney-client or other legal privilege or (iii) the disclosure of which would conflict with, violate or cause a default under any existing contract or agreement to which it is a party; provided, however, that to the extent that the Company or any of its Subsidiaries is restricted in or prohibited from providing any such access to any documents or data pursuant to any such contract or agreement for the benefit of any third party, each of the Company and any such Subsidiary shall use its commercially reasonable efforts to obtain any approval, consent or waiver with respect to such contract or agreement that is necessary to provide such access to such officer, employee or agent. Notwithstanding clause (ii) of the immediately preceding sentence, if any of the information or material furnished pursuant to this Section 7.7 includes materials or information subject to the attorney-client privilege, work product doctrine or any other applicable privilege concerning pending or threatened legal proceedings or governmental investigations, each party understands and agrees that the parties have a commonality of interest with respect to such matters and it is the desire, intention and mutual understanding of the parties that the sharing of such material or information is not intended to, and shall not, waive or diminish in any way the confidentiality of such material or information or its continued protection under the attorney-client privilege, work product doctrine or other applicable privilege. All such information provided by the Company that is entitled to protection under the attorney-client privilege, work product doctrine or other applicable privilege shall remain entitled to such protection under these privileges, this Agreement, and under the joint defense doctrine.

(d) No information received pursuant to an investigation made under this Section 7.7 shall be deemed to (i) qualify, modify, amend or otherwise affect any representations, warranties, covenants or other agreements of the Company set forth in this Agreement or any certificate or other instrument delivered to Parent and Merger Sub in connection with the transactions contemplated hereby, (ii) amend or otherwise supplement the information set forth in the Company Disclosure Letter, (iii) limit or restrict the remedies available to the parties under applicable Law arising out of a breach of this Agreement, or (iv) limit or restrict the ability of either party to invoke or rely on the conditions to the obligations of the parties to consummate the transactions contemplated by this Agreement set forth in Article VIII hereof.

7.8 Publicity. The parties agree that no press release or public statement relating to this Agreement or the transactions contemplated hereby shall be issued or made by any party without prior consultation with and consent of the other party (such consent not to be unreasonably withheld or delayed), except (i) as may be required by applicable Law or by obligations pursuant to any agreement with or regulations of any stock exchange, national securities exchange or automated quotation system, in which case the party proposing to issue such press release or make such public announcement shall use its commercially reasonable efforts to consult in good faith with the other party before issuing any such press releases or making any such public announcements; provided, that each of Parent and the Company may include disclosures relating to this Agreement, the Merger and the transactions contemplated herein in its periodic filings with the SEC or non-U.S. authorities or Governmental Entities without seeking approval from, or consulting with, the other party so long as such disclosures are substantially similar to the information contained in previous press releases, public disclosures or public statements made jointly by Parent and the Company (or individually, if approved by the other party), or (ii) each of Parent and the Company may make any public statement substantially similar to the information contained in any press release, public disclosures or public statements made in compliance with this Section 7.8, including in response to specific questions by the press, analysts, investors or those attending industry conferences or financial analyst conference calls, so long as such statements are substantially similar to the information contained in press releases, public disclosures or public statements made in compliance with this Section 7.8.

(a) For a period of six (6) years from the Effective Time, the limited liability company agreement of the Surviving LLC shall contain equivalent provisions with respect to exculpation, indemnification and advancement of expenses than are set forth in the Company Articles and Company Bylaws on the date hereof, which provisions shall not be amended, repealed or otherwise modified for a period of six (6) years from the Effective Time in any manner that would affect adversely the rights thereunder of individuals who, at or prior to the Effective Time, were directors, officers or employees of the Company or any Subsidiary, unless such modification shall be required by applicable Law and then only to the minimum extent required by applicable Law.

(b) After the Effective Time, the Surviving Entity and Parent shall, to the fullest extent permitted under applicable Law, indemnify and hold harmless, each present and former director, officer and employee of the Company and each Subsidiary (collectively, the Indemnified Parties) against all costs and expenses (including attorneys' fees), judgments, fines, losses, claims, damages, liabilities and settlement amounts paid in connection with any claim, action, suit, proceeding or investigation (whether arising before or after the Effective Time), in each case, to the extent they were indemnified under the Company Articles, Company Bylaws and indemnification contracts in effect as of the date hereof, arising out of or pertaining to any action or omission in their capacity as an officer, director or employee, at or prior to the Effective Time, for a period of six (6) years after the date hereof.

(c) Prior to the Closing, the Company shall and, if the Company is unable to, Parent shall use its commercially reasonable efforts to have the Surviving Entity as of the Effective Time, obtain and fully pay for a single premium tail policy, with a claims period of six (6) years from the Effective Time, on the current directors' and officers' liability insurance policies maintained by the Company covering acts or omissions occurring at or prior to the Effective Time with respect to those persons who are currently (and any additional persons who prior to the Effective Time become) covered by the Company's directors' and officers' liability insurance policy on terms and scope with respect to such coverage, and in amount, not less favorable to such individuals than those of such policy in effect on the date hereof. If the Company and the Surviving Entity for any reason fail to obtain such tail policy as of the Effective Time, then the Surviving Entity shall maintain for six (6) years from the Effective Time such current directors' and officers' liability insurance policies maintained by the Company (provided, that the Surviving Entity may substitute therefor policies, issued by an insurer carrier with the same or better credit rating as the Company's current insurance carrier, of at least the same coverage with respect to matters occurring prior to the Effective Time containing terms and conditions that are not less favorable in the aggregate, including a tail policy); provided, however, that in no event shall the Surviving Entity be required to expend pursuant to this Section 7.9(c) more than an amount per year of coverage equal to 300% of current annual premiums paid by the Company for such insurance as of the date hereof; provided, further, that in the event of an expiration, termination or cancellation of such current policies, Parent or the Surviving Entity shall be required to obtain as much coverage as is possible under substantially similar policies for such maximum annual amount in aggregate annual premiums. If any tail policy described above is put in place, then from and after the effectiveness of such tail policy, neither Parent, nor any of its Subsidiaries, shall have any further obligations under this Section 7.9(c).

(d) In the event the Surviving Entity or any of its successors or assigns (i) consolidates with or merges into any other Person and shall not be the continuing or surviving corporation or entity of such consolidation or merger, or (ii) transfers all or substantially all of its properties and assets to any Person, then, and in each such case, proper provision shall be made so that the successors and assigns of the Surviving Entity, or at Parent's option, Parent, shall assume the obligations set forth in this Section 7.9.

occurred on or before July 16, 2013 (the Termination Date); provided, that the Termination Date may be extended to October 16, 2013 by either Parent or the Company by written notice to the other party if the Closing shall not have occurred by such date and on such date the conditions set forth in Section 8.1(c) have not been satisfied or waived and each of the other conditions to consummation of the Merger set forth in Article VIII has been satisfied, waived or remains capable of satisfaction; provided, further, that the right to terminate this Agreement pursuant to this Section 9.2 shall not be available to any party whose willful and material breach of this Agreement was the proximate cause of such failure to close.

9.3 Termination by Parent. This Agreement may be terminated by Parent prior to the Effective Time, if (i) the Company shall have breached or failed to perform any of its representations, warranties, covenants or agreements set forth in this Agreement, which breach or failure to perform (A) would give rise to the failure of a condition set forth in Sections 8.3(a) or (b) and (B) is incapable of being cured by the Company by the Termination Date or, if capable of being cured, shall not have been cured by the Company by the earlier of (x) 30 calendar days following receipt of written notice of such breach or failure to perform from Parent and (y) the Termination Date, (ii) the Company Board makes a Board Recommendation Change in connection with a Superior Acquisition Proposal pursuant to Section 7.3(d), (iii) the Company shall have failed to include the Company Board Recommendation in the Proxy Statement or (iv) the Company Board makes an Intervening Event Board Recommendation Change pursuant to Section 7.3(c), provided, however, that Parent shall not have the right to terminate this Agreement pursuant to Section 9.3(i) if it is then in breach of its representations, covenants or agreements such that the conditions in Sections 8.2(a) or (b) are incapable of being satisfied by the Termination Date.

9.4 Termination by the Company. This Agreement may be terminated by the Company and the Merger may be abandoned (i) if at any time prior to the Effective Time, Parent, Holdco, Merger Sub or Merger Sub 2 shall have breached or failed to perform any of its respective representations, warranties, covenants or agreements set forth in this Agreement, which breach or failure to perform (A) would give rise to the failure of a condition set forth in Sections 8.2(a) or (b) and (B) is incapable of being cured by Parent, Holdco, Merger Sub or Merger Sub 2 by the Termination Date or, if capable of being cured, shall not have been cured by Parent or Merger Sub by the earlier of (x) 30 calendar days following receipt of written notice of such breach or failure to perform from the Company and (y) the Termination Date; provided, however, that the Company shall not have the right to terminate this Agreement pursuant to Section 9.4(i) if it is then in breach of its representations, covenants or agreements such that the conditions in Sections 8.3(a) or (b) are incapable of being satisfied by the Termination Date, (ii) if prior to the Stockholders Meeting, the Company Board makes a Board Recommendation Change in connection with a Superior Acquisition Proposal pursuant to Section 7.3(d) or (iii) if prior to the Stockholders Meeting, the Company Board makes an Intervening Event Board Recommendation Change pursuant to Section 7.3(c).

9.5 Effect of Termination.

(a) In the event of the termination and abandonment of this Agreement pursuant to this Article IX, this Agreement shall forthwith become void and have no effect, without any liability on the part of any party hereto or its Affiliates, directors, officers or stockholders, other than the provisions of this Section 9.5 and the provisions of Article X; provided, however, that nothing contained in this Section 9.5 shall relieve any party from liability or damages incurred or suffered by a party for any fraud or willful breach of any provision contained in this Agreement.

(b) In the event of termination of this Agreement prior to consummation of the transactions contemplated hereby:

(i) by Parent pursuant to Section 9.3(ii), Section 9.3(iii) or Section 9.3(iv);

(ii) by the Company pursuant to Section 9.4(ii) or Section 9.4(iii);

Table of Contents

(iii) by Parent pursuant to Section 9.3(i) if (A) the Company's breach that gave rise to such right of termination was willful and (B) prior to the willful breach giving rise to such termination any proposal or offer for an Acquisition Proposal made after the date hereof has been publicly announced or otherwise disclosed to the Company or its Subsidiaries and not in good faith withdrawn and within twelve (12) months after the termination of this Agreement the Company enters into a definitive agreement with respect to any Alternative Transaction or consummates any Alternative Transaction;

(iv) by either Parent or the Company pursuant to Section 9.2(ii) if prior to the Stockholders Meeting any proposal or offer for an Acquisition Proposal made after the date hereof has been publicly announced or otherwise publicly disclosed and not in good faith withdrawn, the Company Board has not made a Board Recommendation Change and within twelve (12) months after the termination of this Agreement the Company enters into a definitive agreement with respect to any Alternative Transaction or consummates any Alternative Transaction; or

(v) by either Parent or the Company pursuant to Section 9.2(iii) if prior to such termination, (A) any proposal or offer for an Acquisition Proposal made after the date hereof has been publicly announced or otherwise disclosed and not in good faith withdrawn, (B) prior to such termination the Company has not held the Stockholders Meeting at which a vote on the approval of this Agreement and the Merger is taken, (C) at the time of such termination, each of the conditions to the consummation of the Merger set forth in Article VIII (other than the condition set forth in Section 8.1(a)) has been satisfied or waived (other than those conditions that by their nature are to be satisfied at the Closing, but subject to such conditions remaining capable of satisfaction) and (D) within twelve (12) months after the termination of this Agreement the Company enters into a definitive agreement with respect to any Alternative Transaction or consummates any Alternative Transaction;

then the Company shall make payment to Parent by wire transfer of immediately available funds of a fee in the amount equal to \$75,000,000, in the case of clause (i) above, within two (2) Business Days following such termination, in the case of clause (ii) above, prior to or concurrently with such termination, or, in the case of clauses (iii), (iv) or (v) above, within one (1) Business Day of the earlier of the execution of such definitive agreement or the consummation of such Alternative Transaction. For the purposes of the foregoing Section 9.5(b) above, the term Alternative Transaction shall mean a transaction of a type described in the definition of Acquisition Proposal in Section 7.3 except that the references to fifteen percent (15%) in the definition of Acquisition Proposal in Section 7.3 shall be deemed to be references to fifty percent (50%).

(c) The Company acknowledges that the agreements contained in this Section 9.5 are an integral part of the transactions contemplated by this Agreement and that, without these agreements, Parent, Holdco, Merger Sub and Merger Sub 2 would not enter into this Agreement. Accordingly, if the Company fails promptly to pay any amount due to Parent pursuant to this Section 9.5, it shall also pay any costs and expenses actually incurred by Parent, Holdco, Merger Sub or Merger Sub 2 in connection with a legal action to enforce this Agreement that results in a judgment against the Company for such amount, together with interest on the amount of any unpaid fee, cost or expense at the publicly announced prime rate of Citibank, N.A. from the date such fee, cost or expense was required to be paid to (but excluding) the payment date.

9.6 Extension; Waiver. At any time prior to the Effective Time, each of Parent, Holdco, Merger Sub and Merger Sub 2 and the Company may (i) extend the time for the performance of any of the obligations or other acts of the other party, (ii) waive any inaccuracies in the representations and warranties of the other party contained herein or in any document, certificate or writing delivered pursuant hereto, or (iii) waive compliance by the other party with any of the agreements or conditions contained herein. Any agreement on the part of either party hereto to any such extension or waiver shall be valid only if set forth in any instrument in writing signed on behalf of such party. The failure of either party hereto to assert any of its rights hereunder shall not constitute a waiver of such rights.

None of the representations, warranties, covenants and other agreements in this Agreement, including any rights arising out of any breach of such representations, warranties, covenants and other agreements, shall survive beyond the Effective Time, except for those covenants and agreements contained herein that by their terms apply or are to be performed in whole or in part after the Effective Time and/or the provisions of this Article X, including without limitation Section 7.9. Each party hereto agrees that, except for the representations and warranties contained in this Agreement, none of the Company, Parent, Holdco, Merger Sub or Merger Sub 2 makes any other representations or warranties, and each hereby disclaims any other representations and warranties made by itself or any of its officers, directors, employees, agents, financial and legal advisors or other representatives, with respect to the execution and delivery of this Agreement, the documents and the instruments referred to herein, or the transactions contemplated hereby or thereby, notwithstanding the delivery or disclosure to the other party or the other party's representatives of any documentation or other information with respect to any one or more of the foregoing. The Confidentiality Agreement, dated July 6, 2012 (the Confidentiality Agreement), by and between the Company and Parent, shall survive the execution and delivery of this Agreement and any termination of this Agreement, and the provisions of such Confidentiality Agreement shall apply to all information and material delivered by any party hereunder.

10.3 Modification or Amendment. Subject to the applicable provisions of the NRS at any time prior to the Effective Time, the parties hereto may modify or amend this Agreement, by written agreement executed and delivered by duly authorized officers of the respective parties; provided, however, that after approval of this Agreement by the stockholders of the Company, no amendment shall be made which by Law requires further approval by the Company's stockholders, without the approval of such stockholders.

10.4 Waiver of Conditions. The conditions to each of the parties' obligations to consummate the Merger are for the sole benefit of such party and may be waived by such party in whole or in part to the extent permitted by applicable Law.

10.5 Counterparts. For the convenience of the parties hereto, this Agreement may be executed in any number of counterparts (including by facsimile or electronic transmission), each such counterpart being deemed to be an original instrument, and all such counterparts shall together constitute the same agreement.

10.6 Governing Law. This Agreement shall be governed and construed in accordance with the Laws of the State of New York, including as to validity, interpretation, enforcement and effect, without regard to any applicable conflicts of law principles to the extent that the application of the Laws of another jurisdiction would be required thereby, except that (a) the internal affairs of the corporations party hereto that are organized and existing under the Laws of the State of Nevada, including fiduciary duties of the directors and officers of such corporations, and (b) all other provisions of, or transactions contemplated by, this Agreement that are expressly or otherwise required to be governed by the NRS shall be governed by the Laws of the State of Nevada.

10.7 Jurisdiction; Enforcement; Waiver of Jury Trial.

(a) The parties hereby irrevocably submit to the exclusive personal jurisdiction of the courts of the State of New York located in the county of New York and the federal courts of the United States of America for the Southern District of New York in any action, suit or proceeding arising out of or relating to this Agreement or the transactions contemplated hereby, and hereby waive, and agree not to assert, as a defense in any such action, suit or proceeding, that it is not subject thereto or that such action, suit or proceeding may not be brought or is not

maintainable in said courts or that the venue thereof may not be appropriate or convenient, or that this Agreement or any such document may not be enforced in or by such courts, and the parties hereto irrevocably agree that all claims with respect to such action or proceeding shall be heard and determined exclusively in such a New York state or federal court. The parties hereby consent to and grant any such court jurisdiction over the person of such parties and, to the extent permitted by Law, over the subject matter of such dispute and agree that mailing of process or other papers in connection with any such action or proceeding in the manner provided in Section 10.8 or in such other manner as may be permitted by Law shall be valid and sufficient service thereof.

It is accordingly agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches or threatened breaches hereof and to enforce specifically the terms and provisions hereof exclusively in New York state or federal court and any appellate court therefrom, in addition to any and all other rights and remedies at law or in equity, and all such rights and remedies shall be cumulative.

10.9 Entire Agreement; Assignment. This Agreement (including the documents and instruments referred to herein, including the Confidentiality Agreement) constitutes the entire agreement of the parties and supersedes all prior agreements and understandings, both written and oral, among the parties hereto, or any of them, with respect to the subject matter hereof. Except as provided in this Agreement, this Agreement may not be assigned by any of the parties hereto by operation of law or otherwise.

10.10 Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of each party hereto and their respective successors and assigns. 10.11 Obligation of Parent. Whenever this Agreement requires Holdco, Merger Sub or Merger Sub 2 to take any action, such requirement shall be deemed to include an undertaking on the part of Parent to cause Merger Sub to take such action and a guarantee of the performance thereof.

10.12 Severability. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of Law or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in a manner adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so

Gentlemen:

You have requested our opinion as to the fairness from a financial point of view to the holders (other than ASML Holding N.V. (ASML) and its affiliates) of the outstanding shares of common stock, par value \$0.001 per share (the Shares), of Cymer, Inc. (the Company) of the Consideration (as defined below) to be paid to such holders pursuant to the Agreement and Plan of Merger, dated as of October 16, 2012 (the Agreement), by and among ASML, ASML US Inc., an indirect wholly owned subsidiary of ASML (Holdco), Kona Acquisition Company, Inc., a wholly owned subsidiary of Holdco (Merger Sub), Kona Technologies, LLC, a wholly owned subsidiary of Holdco (Merger Sub 2), and the Company. The Agreement provides that Merger Sub will be merged with and into the Company, and immediately thereafter the Company shall be merged with and into Merger Sub 2, and each outstanding Share (other than Excluded Shares (as defined in the Agreement)) will be converted into \$20.00 in cash (the Cash Consideration) and 1.1502 ordinary shares, nominal value EUR 0.09 per share (ASML Ordinary Shares), of ASML (the Stock Consideration ; together with the Cash Consideration, the Consideration).

Goldman, Sachs & Co. and its affiliates are engaged in commercial and investment banking and financial advisory services, market making and trading, research and investment management (both public and private investing), principal investment, financial planning, benefits counseling, risk management, hedging, financing, brokerage activities and other financial and non-financial activities and services for various persons and entities. Goldman, Sachs & Co. and its affiliates, and funds or other entities in which they invest or with which they co-invest, may at any time purchase, sell, hold or vote long or short positions and investments in securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments of the Company, ASML, any of their respective affiliates and third parties, including Tincum Capital Partners II, LP, a significant shareholder of the Company (together with Tincum Capital Partners LP and Tincum Incorporated, Tincum), and its affiliates and portfolio companies, or any currency or commodity that may be involved in the transaction contemplated by the Agreement (the Transaction) for the accounts of Goldman, Sachs & Co. and its affiliates and their customers. We have acted as financial advisor to the Company in connection with, and have participated in certain of the negotiations leading to, the Transaction. We expect to receive fees for our services in connection with the Transaction, the principal portion of which is contingent upon consummation of the Transaction, and the Company has agreed to reimburse our expenses arising, and indemnify us against certain liabilities that may arise, out of our engagement. We have provided certain investment banking services to the Company and its affiliates from time to time. We have also provided certain investment banking services to Tincum and its affiliates and portfolio companies from time to time. We may also in the future provide investment banking services to the Company, ASML and their respective affiliates and Tincum and its affiliates and portfolio companies for which our Investment Banking Division may receive compensation. Affiliates of Goldman, Sachs & Co. may also have co-invested with Tincum and its affiliates from time to time and may have invested in limited partnership units of affiliates of Tincum from time to time, and may do so in the future.

In connection with this opinion, we have reviewed, among other things, the Agreement; annual reports to stockholders of the Company and ASML, Annual Reports on Form 10-K of the Company and Annual Reports on Form 20-F of ASML, in each case, for the five fiscal years ended December 31, 2011; certain interim reports to stockholders and Quarterly Reports on Form 10-Q of the Company; certain interim reports to stockholders and Reports of Foreign Private Issuer on Form 6-K of ASML; certain other communications from the Company and ASML to their respective stockholders; certain publicly available research analyst reports for the Company and ASML; and certain internal financial analyses and forecasts for the Company and certain financial analyses and

forecasts for ASML, in each case as prepared by the management of the Company and approved for our use by the Company (the Forecasts), including certain cost savings and operating synergies projected by the management of the Company to result from the Transaction, as approved for our use by the Company (the Synergies). We have also held discussions with members of the senior managements of the Company and ASML regarding their assessment of the strategic rationale for, and the potential benefits of, the Transaction and the past and current business operations, financial condition and future prospects of the Company and ASML; reviewed the reported price and trading activity for the Shares and the ASML Ordinary Shares; compared certain financial and stock market information for the Company and ASML with similar information for certain other companies the securities of which are publicly traded; reviewed the financial terms of certain recent business combinations in the semiconductor industry and in other industries; and performed such other studies and analyses, and considered such other factors, as we deemed appropriate.

For purposes of rendering this opinion, we have, with your consent, relied upon and assumed the accuracy and completeness of all of the financial, legal, regulatory, tax, accounting and other information provided to, discussed with or reviewed by, us, without assuming any responsibility for independent verification thereof. In that regard, we have assumed with your consent that the Forecasts, including the Synergies, have been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the management of the Company. We have not made an independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or other off-balance-sheet assets and liabilities) of the Company or ASML, and we have not been furnished with any such evaluation or appraisal. We have assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the Transaction will be obtained without any adverse effect on the Company or ASML or on the expected benefits of the Transaction in any way meaningful to our analysis.
