Our Company

Founded in 1977, we are an international real estate investment and services firm. We are a vertically integrated real estate operating company with approximately 390 professionals in 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. Based on management's estimate of fair value as of September 30, 2013, we have approximately \$13.7 billion of real estate and real estate-related assets under our management (AUM), totaling approximately 68.8 million square feet of properties throughout the United States, Europe and Japan. This includes ownership in 16,511 multifamily apartment units and 9.6 million square feet of commercial properties, of which 2,030 units and 1.2 million square feet are owned by our consolidated subsidiaries and 14,481 units and 8.4 million square feet are held in joint ventures.

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is principally intended to reflect the extent of our presence in the real estate market and is not the basis for determining our management fees. Our assets under management consist of the total estimated fair value of the real estate properties and other real estate-related assets either owned by third parties, wholly owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

Our Business Segments

Our operations are defined by two core business units: KW Investments and KW Services. KW Investments invests our capital in most cases alongside partners' capital in real estate-related assets, including multifamily properties, loans secured by real estate and commercial properties. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution based clients.

KW Investments

We invest our and our partners' capital in real estate assets and loans secured by real estate through joint ventures, separate accounts, commingled funds and wholly owned investments. We are typically the general partner in these investment vehicles with ownership interests ranging from approximately 5% to 50%. Our equity partners include financial institutions, foundations, endowments, high net worth individuals and other institutional investors. In many cases, we get a promoted interest in the profits of our investments beyond our ownership percentage.

Our investment philosophy is based on three core fundamentals:

significant proprietary deal flow from an established network of industry relationships, particularly with financial institutions;

focus on a systematic research process with a disciplined approach to investing; and

superior in-house operating execution.

S-2

Table of Contents

Our primary investment markets include the Western United States, the United Kingdom, Ireland and Japan, which we have identified as areas with dense populations, high barriers to entry, scarcity of land and supply constraints. We typically focus on the following opportunities:

real estate owners or lenders seeking liquidity;

under-managed or under-leased assets; and

repositioning opportunities.

The following table describes our investment account, which includes the following financial statement captions, and is derived from our consolidated balance sheet as of September 30, 2013 (dollars in millions):

KW Services

KW Services offers a comprehensive line of real estate services for the full lifecycle of real estate ownership and investment to clients that include financial institutions, developers, builders and government agencies. KW Services has three business lines: investment management, property services and auction and conventional sales. These three business lines generate revenue for us through commissions and fees.

S-3

Table of Contents

Through our investment management business, we provide acquisition, asset management and disposition services to our equity partners as well as to third parties.

With 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan, we have the capabilities and resources to provide property services to real estate owners, as well as the experience as a real estate investor, to understand client concerns.

Additionally, KW Services plays a critical role in supporting the company's investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

Our Competitive Strengths

We believe the combination of a service business and an investment platform provides us with significant competitive advantages and allows us to generate superior risk-adjusted returns. We use our service platform to facilitate the origination of investment opportunities, enhance the investment process and ensure the alignment of interests with our investors' interests. Our competitive advantages include:

Transaction experience: Our Executive Committee has more than 125 years of combined real estate experience and has been working and investing together, on average, for over 15 years. Members of the Executive Committee have collectively acquired, developed and managed in excess of \$20 billion of real estate investments in the United States, the United Kingdom, Ireland and Japan throughout various economic cycles, both at our company and throughout their careers.

Extensive relationship and sourcing network: We leverage our services business in order to source off-market deals. In addition, the Executive Committee and our acquisition team have transacted deals in nearly every major metropolitan market on the West Coast of the United States, as well as in the United Kingdom, Ireland and Japan. Their local presence and reputation in these markets have enabled them to cultivate key relationships with major holders of property inventory, particularly financial institutions, throughout the real estate community.

Structuring expertise and speed of execution: Our prior acquisitions have taken a variety of forms, including direct property investments, joint ventures, participating loans and investments in performing and non-performing mortgages with the objective of long-term ownership. We believe we have developed a reputation of being able to quickly execute, as well as originate and creatively structure, acquisitions, dispositions and financing transactions.

Vertically integrated platform for operational enhancement: We have approximately 390 employees, with 24 regional offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. We have a hands-on approach to real estate investing and possess the local expertise in property management, leasing, construction management, development and investment sales, which, we believe, enable us to invest successfully in selected submarkets.

Risk protection and investment discipline: We underwrite our investments based upon a thorough examination of property economics and a critical understanding of market dynamics and risk management strategies. We conduct an in-depth sensitivity analysis on each of our acquisitions. This analysis applies various economic scenarios that include changes to rental rates, absorption periods, operating expenses, interest rates, exit values and holding periods. We use this analysis to develop our disciplined acquisition strategies.

Recent Developments

Acquisition Activity

Subsequent to September 30, 2013, we and our equity partners acquired \$191.9 million of real estate-related investments, which include three commercial and three multifamily properties, two loan originations and two loan purchases. Our total equity investment in these transactions was approximately \$56.1 million. Our investments since September 30, 2013 include the following:

Real Estate: We and our equity partners acquired two commercial properties in the Western United States and one in Ireland totaling approximately 0.3 million square feet. In addition, we and our equity partners also acquired three multifamily properties in the Western United States consisting of 844 units.

Loans: We and our equity partners originated two loans secured by real estate located in the Western United States for approximately \$8.2 million. We also acquired two loans secured by real estate located in the Western United States with an unpaid principal balance of \$40.3 million.

In addition, we and our equity partners acquired a real estate and asset management platform in Spain, in which we invested approximately \$27.2 million of our equity.

Pipeline

As of January 6, 2014, we are under separate contracts to purchase 48 real estate-related investments in the United States, Ireland and the United Kingdom, as well as a real estate loan servicing business platform in Spain at an aggregate purchase price of approximately \$700 million. Included in these transactions is the potential purchase of notes secured by the Shelbourne Hotel property in Dublin, Ireland for a total purchase price of approximately \$152 million. We anticipate financing this acquisition with approximately 50% debt and potentially in part with third party equity. With respect to 47 of such real estate-related assets with an aggregate purchase price of approximately \$640 million, we have non-refundable deposits of approximately \$30 million held in escrow. These transactions remain subject to customary closing conditions. With respect to the remaining two assets with an aggregate purchase price of approximately \$60 million, we have deposited a total of \$2 million in escrow, which is refundable to us upon the failure or non-satisfaction of certain closing conditions. In the event that we consummate any of these acquisitions, we anticipate financing such transactions with a combination of debt and third-party equity. Our equity investment in any of these acquisitions has not yet been determined, but we currently expect our aggregate equity investment in these acquisitions to be between \$150 million and \$200 million. There can be no assurances that we will complete the potential acquisitions under contract.

Potential European Capital-Raising Opportunity

We are currently considering potential capital-raising opportunities in Europe, which may include transactions through a publicly listed vehicle, private funds or separate accounts. We may invest approximately \$100 million to \$150 million of our own funds in any such vehicle (which may include the contribution of assets), and we may receive asset management fees from such vehicle. Any such vehicle could also potentially be given priority access to deals sourced by us in Europe, which could limit our ability to make future investments in Europe other than through such vehicle. There can be no assurances that we will complete any such transactions or make any such investment.

(1) EBITDA represents net income (loss) before interest expense, our share of interest expense included in income from investments in joint ventures and loan pool participations, depreciation and amortization, our share of depreciation and amortization included in income from investments in joint ventures, loss on early extinguishment of corporate debt and income taxes. We do not adjust EBITDA for gains or losses on the extinguishment of mortgage debt, as we are in the business of purchasing discounted notes secured by real estate, and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. EBITDA is not a

Table of Contents

recognized term under generally accepted accounting principles, or GAAP, and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Our management believes EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.

(2) Adjusted EBITDA represents EBITDA, as defined above, adjusted to exclude merger-related expenses and stock-based compensation expense. Our management uses Adjusted EBITDA to analyze our business because it adjusts EBITDA for items we believe are not relevant or comparable to the nature of our business going forward. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more meaningful picture of our results from operations. However, EBITDA and Adjusted EBITDA are not recognized measurements under GAAP, and, when analyzing our operating performance, readers should use EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

(3) Net Investment Account is defined as investments in joint ventures plus real estate, net, plus notes receivable plus loan pool participations plus marketable securities plus acquired in-place lease value, net, less mortgage debt. The following table sets forth a reconciliation of EBITDA and Adjusted EBITDA to net income (loss), the most directly comparable GAAP financial measure, for each of the periods indicated:

RISK FACTORS

An investment in our common stock involves a high degree of risk. Before deciding to invest in our common stock, you should carefully consider the risks set forth under the heading **Risk Factors** beginning on page 5 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, which we filed with the Securities and Exchange Commission, or the SEC, on March 12, 2013 and which is incorporated by reference into this prospectus supplement, as well as the other information in that Annual Report, as amended, and in other reports we file from time to time with the SEC that are incorporated by reference in this prospectus supplement. See **Incorporation of Certain Information by Reference**.

The risks and uncertainties referred to above are not the only risks and uncertainties that we face. SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements included or incorporated by reference in this prospectus supplement or the accompanying prospectus or in other reports and statements released by us that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21 of the Exchange Act. These forward-looking statements are estimates reflecting the judgment of our senior management based on estimates, expectations, forecasts and projections that are current as of the date of the applicable forward-looking statement. Forward-looking statements include comments that express opinions about trends and factors that may impact future operating results. Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, or the negative of these, as well as similar expressions, are intended to identify forward-looking statements, but the absence of any of these words does not necessarily mean that a statement is not forward-looking.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause actual results, performance or achievements or industry results to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable as of the time the statements were made, the transactions and events described may not happen as described or may not happen at all. In evaluating these statements, you should specifically consider the risks referred to under the heading Risk Factors on page S-10 of this prospectus supplement, including, but not limited to, the following factors:

disruptions in general economic and business conditions, particularly in geographic areas where our business may be concentrated;

the continued volatility and disruption of the capital and credit markets, higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans and mezzanine financing, all of which could increase costs and limit our ability to acquire additional real estate assets;

continued high levels of, or increases in, unemployment and a general slowdown in commercial activity;

our leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in our debt service obligations;

our ability to generate a sufficient amount of cash from operations to satisfy working capital requirements and to service our existing and future indebtedness;

our ability to achieve improvements in operating efficiency;

foreign currency fluctuations;

adverse changes in the securities markets;

our ability to retain our senior management and attract and retain qualified and experienced employees;

our ability to attract new user and investor clients;

our ability to retain major clients and renew related contracts;

trends in the use of large, full-service commercial real estate providers;

changes in tax laws in the United States, Europe or Japan that reduce or eliminate our deductions or other tax benefits;

future acquisitions may not be available at favorable prices or with advantageous terms and conditions;
and

costs relating to the acquisition of assets we may acquire could be higher than anticipated.

Each forward-looking statement should be considered in the context of the various disclosures we make about our business, including, without limitation, the factors discussed above. Except as required under the federal securities laws and the rules and regulations of the SEC, we do not intend or have an obligation to publicly update any forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a discussion of the material U.S. federal income tax considerations relevant to non-U.S. holders (as defined below) of the ownership and disposition of shares of our common stock, but does not purport to be a complete analysis of all potential tax effects. This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury Regulations issued thereunder, Internal Revenue Service (IRS) rulings and pronouncements, and judicial decisions, all as of the date hereof and all of which are subject to change at any time. Any such change may be applied retroactively in a manner that could adversely affect a holder of our common stock. We have not sought any ruling from the IRS with respect to the statements made and the conclusions reached in the following discussion, and there can be no assurance that the IRS will agree with such statements and conclusions.

This discussion does not address all of the U.S. federal income tax consequences that may be relevant to a holder in light of such holder's particular circumstances or to holders subject to special rules, including, without limitation:

banks, insurance companies and other financial institutions;

U.S. expatriates and certain former citizens or long-term residents of the United States;

holders subject to the alternative minimum tax;

dealers in securities;

traders in securities;

controlled foreign corporations, passive foreign investment companies and corporations that accumulate earnings to avoid U.S. federal income tax;

partnerships or other pass-through entities;

persons holding shares of our common stock as part of a straddle, conversion transaction or other risk reduction transaction; and

persons deemed to sell shares of our common stock under the constructive sale provisions of the Code.

In addition, this discussion is limited to non-U.S. holders purchasing shares of our common stock issued pursuant to this offering and who hold shares of our common stock as capital assets within the meaning of Section 1221 of the Code. Moreover, the effects of other U.S. federal tax laws (such as estate and gift tax laws or the unearned income Medicare contribution tax) and any applicable state, local or foreign tax laws are not discussed.

If a partnership or other entity taxable as a partnership holds our common stock, the tax treatment of the partners in the partnership generally will depend on the status of the particular partner in question and the activities of the partnership. Such partners should consult their tax advisors as to the specific tax consequences to them of holding our common stock indirectly through ownership of their partnership interests.

YOU ARE URGED TO CONSULT YOUR TAX ADVISOR WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATION AS WELL AS ANY TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL, FOREIGN OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Table of Contents

Definition of Non-U.S. Holder

A non-U.S. holder is a beneficial owner of our common stock that is not a partnership (or an entity treated as a partnership for U.S. federal income tax purposes) or a U.S. holder. A U.S. holder is any of the following:

an individual who is a citizen or resident of the United States;

a corporation or other entity treated as a corporation created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust, if (a) a U.S. court can exercise primary supervision over the administration of the trust and one or more United States persons within the meaning of the Code have authority to control all substantial trust decisions; or (b) it has made a valid election under applicable Treasury Regulations to continue to be treated as a United States person.

Distributions on Our Common Stock

Distributions we make with respect to shares of our common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a non-U.S. holder's adjusted tax basis in its shares of our common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under **Gain on Sale or Disposition of Our Common Stock**. Because we may not know the extent to which a distribution is a dividend for U.S. federal income tax purposes at the time it is made, for withholding purposes, we may treat the entire distribution as a dividend. However, amounts withheld would generally be refundable, subject to the discussion below under **Gain on Sale or Disposition of Our Common Stock**, if it were subsequently determined that the distribution was, in fact, not a dividend for U.S. federal income tax purposes, provided that certain conditions are met.

Dividends paid to a non-U.S. holder of shares of our common stock that are not effectively connected with a U.S. trade or business conducted by such non-U.S. holder generally will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends, or such lower rate as is specified by an applicable tax treaty. To receive the benefit of a reduced treaty rate, a non-U.S. holder must furnish a valid IRS Form W-8BEN (or applicable successor form) certifying such non-U.S. holder's qualification for the reduced rate. This certification must be provided prior to the payment of dividends and must be updated periodically. If the non-U.S. holder holds the stock through a financial institution or other agent acting on the non-U.S. holder's behalf, the non-U.S. holder will be required to provide appropriate documentation to the agent. If a non-U.S. holder qualifies for a reduced treaty rate but does not timely provide the required certification, the non-U.S. holder may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding possible entitlement to benefits under a tax treaty.

If a non-U.S. holder holds shares of our common stock in connection with the conduct of a trade or business in the United States, and dividends paid on the shares of our common stock are effectively connected with such non-U.S.

holder's U.S. trade or business (and, if required by an applicable tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States), the non-U.S. holder will be exempt from U.S. federal withholding tax. To claim the exemption, the non-U.S. holder must furnish a valid IRS Form W-8ECI (or applicable successor form), certifying that the dividends are effectively connected with the non-U.S. holder's conduct of a trade or business within the United States. Any such dividends generally will be subject to U.S. federal income tax on a net income basis in the same manner as if such non-U.S. holder were a U.S. holder. A non-U.S. holder that is a corporation also may be subject to a branch profits tax at a rate of 30%

S-17

Table of Contents

(or such lower rate as is specified by an applicable tax treaty) on its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Gain on Sale or Disposition of Our Common Stock

Subject to the discussion below regarding backup withholding, a non-U.S. holder generally will not be subject to U.S. federal income tax on any gain realized upon the sale or disposition of shares of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if required by an applicable tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States;

the non-U.S. holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the sale or disposition and certain other requirements are met; or

shares of our common stock constitute U.S. real property interests by reason of our status as a U.S. real property holding corporation, or a USRPHC, for U.S. federal income tax purposes.

Unless an applicable tax treaty provides otherwise, the gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis in the same manner as if such non-U.S. holder were a United States person. A non-U.S. holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate as is specified by an applicable tax treaty) on its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Gain described in the second bullet point above generally will be subject to U.S. federal income tax at a flat 30% rate (or such lower rate as is specified by an applicable income tax treaty), but may be offset by U.S.-source capital losses of the non-U.S. holder during the taxable year of the sale or disposition (even though the individual is not considered a resident of the United States), provided that the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe that we currently are a USRPHC. Because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other real estate and business assets, however, there can be no assurance that we currently are a USRPHC or will remain a USRPHC in the future. Assuming we are a USRPHC, as long as shares of our common stock are regularly traded on an established securities market (within the meaning of applicable Treasury Regulations), a non-U.S. holder's shares of our common stock will not be treated as U.S. real property interests unless the non-U.S. holder actually or constructively held more than 5% of the shares of our common stock at any time during the shorter of (i) the five-year period ending on the date of the non-U.S. holder's sale or disposition of such shares and (ii) the non-U.S. holder's holding period for such shares. We believe, but cannot guarantee, that shares of our common stock will continue to be regularly traded on an established securities market. If gain on the sale or other taxable disposition of shares of our common stock were subject to taxation under the third bullet point above, the non-U.S. holder would be subject to regular U.S. federal income tax with respect to such gain in generally the same manner as a United States person, and the non-U.S. holder would be required to file a U.S. tax return with respect to

such gain. In addition, if shares of our common stock were not regularly traded on an established securities market, the purchaser of such common stock would generally be required to withhold and remit to the IRS 10% of the purchase price, which withholding would be creditable against any income tax liability described in the previous sentence and generally refundable to the extent in excess thereof.

Information Reporting and Backup Withholding

Generally, information returns must be filed annually with the IRS and provided to each non-U.S. holder with respect to dividends paid to such non-U.S. holder and the amount, if any, of tax withheld with respect to those dividends. This information also may be made available under a specific treaty or agreement with the tax authorities of the country in which the non-U.S. holder resides or is established. Under certain circumstances, the Code imposes backup withholding on certain reportable payments. Backup withholding generally will not, however, apply to payments of dividends to a non-U.S. holder, provided that the non-U.S. holder furnishes to the applicable withholding agent the required certification as to its non-U.S. status, such as by providing a valid IRS Form W-8BEN or W-8ECI, or otherwise establishes an exemption. Notwithstanding the foregoing, backup withholding may apply if the payor has actual knowledge, or reason to know, that the non-U.S. holder is a United States person that is not an exempt recipient.

Unless a non-U.S. holder complies with certification procedures to establish that it is not a United States person, information returns may be filed with the IRS in connection with, and the non-U.S. holder may be subject to backup withholding on the proceeds from, a sale or other disposition of shares of our common stock. The certification procedures described in the immediately preceding paragraph will satisfy these certification requirements as well.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

Under legislation commonly referred to as the Foreign Account Tax Compliance Act (FATCA), withholding taxes may apply to certain types of payments made to foreign financial institutions (as specially defined in the Code) and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, and gross proceeds from the sale or other disposition of, shares of our common stock paid to a foreign financial institution or to a non-financial foreign entity, unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution described in clause (1) above, in order to avoid this tax, it must generally enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain United States persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an inter-governmental agreement with the United States governing FATCA may be subject to different rules.

Treasury Regulations and IRS guidance provide that the withholding provisions described above generally will apply to payments of dividends on or after July 1, 2014 and to payments of gross proceeds from a sale or other disposition of stock on or after January 1, 2017. Prospective investors should consult their tax advisors regarding these withholding provisions.

any shares of common stock we issue upon the exercise of an option or warrant or the conversion of a security that is either (x) outstanding on the date of this prospectus supplement and referred to in this prospectus supplement and the registration statement relating to this prospectus supplement (including the documents incorporated by reference) or (y) issued pursuant to the exception described in the immediately following bullet point;

any shares of common stock issued or options to purchase common stock granted pursuant to our existing employee benefit plans referred to in this prospectus supplement and the registration statement relating to this prospectus supplement (including the documents incorporated by reference); and

any shares of common stock issued pursuant to any non-employee director stock plan or dividend reinvestment plan referred to in this prospectus supplement and the registration statement relating to this prospectus supplement (including the documents incorporated by reference).

The lock-up provision that applies to our directors and certain executive officers contains exceptions for, among other things, securities transferred:

as a bona fide gift or gifts; or

to any trust for the direct or indirect benefit of the person who signed a lock-up agreement or the immediate family of the person who signed a lock-up agreement, provided that in each case such transfers do not require any public filing and no public filing is voluntarily made. In each of these cases, the transferee of the securities must also sign a lock-up agreement. In addition, the lock-up provision that applies to our directors and certain executive officers contains an exception for the sale of our common stock purchased in the open market after the offering, so long as those sales do not require any public filing and no public filing is voluntarily made.

In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to us occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lockup period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event, unless Deutsche Bank Securities Inc. waives such extension in writing.

Table of Contents

In connection with the offering, Deutsche Bank Securities Inc. may purchase and sell shares of our common stock in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions.

Short sales involve the sale by Deutsche Bank Securities Inc. of a greater number of shares than it is required to purchase in the offering. Covered short sales are sales made in an amount not greater than Deutsche Bank Securities Inc.'s option to purchase additional shares of common stock from us in the offering. Deutsche Bank Securities Inc. may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, Deutsche Bank Securities Inc. will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares.

Naked short sales are any sales in excess of the option to purchase additional shares. Deutsche Bank Securities Inc. must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if Deutsche Bank Securities Inc. is concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the offering. Stabilizing transactions consist of various bids for or purchases of our common stock made by Deutsche Bank Securities Inc. in the open market prior to the completion of the offering.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our common stock. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

A prospectus supplement and accompanying prospectus in electronic format may be made available on Internet web sites maintained by Deutsche Bank Securities Inc. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on Deutsche Bank Securities Inc.'s web site and any information contained in any other web site maintained by Deutsche Bank Securities Inc. is not part of the prospectus supplement, the accompanying prospectus or the related registration statement.

Deutsche Bank Securities Inc. or its affiliates have provided investment banking services to us in the past and may do so in the future. They receive customary fees and commissions for these services.

Committed (but unfunded) capital from investors in our sponsored funds is not included in our AUM. The estimated value of development properties is included at estimated completion cost.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements made by in this prospectus and in other reports and statements released by either issuer that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21 of the Securities Exchange Act. These forward-looking statements are necessary estimates reflecting the judgment of senior management based on current estimates, expectations, forecasts and projections and include comments that express current opinions about trends and factors that may impact future operating results. Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, project or the negative or as similar expressions, are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of the issuers control, and involve known and unknown risks and uncertainties that could cause actual results, performance or achievement, or industry results, to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. Although the issuers believe that their plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, no assurance can be given that the transactions and events described will happen as described (or that they will happen at all). In evaluating these statements, you should specifically consider the risks referred to under the heading Risk Factors on page 1 of this prospectus, and in the reports Kennedy-Wilson Holdings files from time to time with the SEC and incorporates by reference herein, including, but not limited to, the following factors:

disruptions in general economic and business conditions, particularly in geographies where the issuers respective businesses may be concentrated;

the continued volatility and disruption of the capital and credit markets, higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans and mezzanine financing, all of which could increase costs and could limit the issuers ability to acquire additional real estate assets;

continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;

the issuers leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in the issuers debt service obligations;

the issuers ability to generate a sufficient amount of cash from operations to satisfy working capital requirements and to service their existing and future indebtedness;

the issuers ability to achieve improvements in operating efficiency;

foreign currency fluctuations;

adverse changes in the securities markets;

the issuers' ability to retain their senior management and attract and retain qualified and experienced employees;

the issuers' ability to attract new user and investor clients;

the issuers' ability to retain major clients and renew related contracts;

trends in use of large, full-service commercial real estate providers;

changes in tax laws in the United States, Europe or Japan that reduce or eliminate deductions or other tax benefits the issuers receive;

future acquisitions may not be available at favorable prices or upon advantageous terms and conditions; and

costs relating to the acquisition of assets the issuers may acquire could be higher than anticipated.

Table of Contents

Any such forward-looking statements, whether made in this prospectus or elsewhere, should be considered in the context of the various disclosures made by the issuers about their respective businesses including, without limitation, the risk factors discussed above. Except as required under the federal securities laws and the rules and regulations of the SEC, none of the issuers intends or has an obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS**

The following table sets forth Kennedy-Wilson Holdings' ratio of earnings to fixed charges and ratio of earnings to fixed charges and preferred dividends for the periods indicated:

	Six Months Ended		Year Ended December 31,			
	June 30, 2013	2012	2011	2010	2009	2008
Ratio of earnings to fixed charges	1.67	1.41	n/a	1.51	n/a	n/a
Ratio of earnings to combined fixed charges and preferred stock dividends	1.44	1.13	n/a	1.02	n/a	n/a

The ratio of earnings to fixed charges is calculated by dividing earnings, as defined, by fixed charges, as defined. For this purpose, earnings consist of pretax income from continuing operations before noncontrolling interest and equity in income of joint ventures plus operating distributions from equity investees, and fixed charges consists of interest expense, whether capitalized or expensed, amortization related to indebtedness and premiums or discounts of stock issuances and an estimate of interest expense within rental expense. For the years ended December 31, 2011, 2009, and 2008, Kennedy-Wilson Holdings' earnings were insufficient to cover fixed charges, and the deficiency of earnings was \$6.5 million, \$21.1 million and \$9.5 million, respectively.

The ratio of earnings to combined fixed charges and preferred stock dividends is calculated by dividing earnings, as defined, by fixed charges, as defined. For this purpose, earnings and fixed charges have the respective meanings assigned above. Preferred stock dividends refers to preferred dividend requirements of consolidated subsidiaries. For the years ended December 31, 2011, 2009 and 2008, Kennedy-Wilson Holdings' earnings were insufficient to cover fixed charges and preferred stock dividends, and the deficiency of earnings was \$15.3 million, \$21.1 million and \$9.5 million, respectively.

DESCRIPTION OF COMMON STOCK

Unless otherwise stated or the context otherwise requires, as used in this section, the words “we,” “us,” “our” or the “company” refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

Our second amended and restated certificate of incorporation authorizes the issuance of 125,000,000 shares of common stock, par value \$0.0001. As of October 30, 2013, 81,413,679 shares of common stock were issued and outstanding. Holders of common stock have exclusive voting rights for the election of our directors and all other matters requiring stockholder action, except with respect to amendments to our second amended and restated certificate of incorporation that alter or change the powers, preferences, rights or other terms of any outstanding preferred stock if the holders of such affected series of preferred stock are entitled to vote on such an amendment. Holders of common stock are entitled to one vote per share on matters to be voted on by stockholders and also are entitled to receive such dividends, if any, as may be declared from time to time by our board of directors in its discretion out of funds legally available therefor. The payment of dividends, if ever, on the common stock will be subject to (i) the prior payment of dividends on any outstanding shares of preferred stock, and (ii) compliance with any applicable limitation in our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement. Our common stock has no conversion, preemptive or other subscription rights and there are no sinking fund or redemption provisions applicable to the common stock.

Our board of directors is divided into three classes, each of which generally serve for a term of three years with only one class of directors being elected in each year. A plurality of the votes cast at a stockholders meeting is sufficient to elect any director into office. There is no cumulative voting with respect to the election of directors.

Table of Contents

DESCRIPTION OF PREFERRED STOCK

Unless otherwise stated or the context otherwise requires, as used in this section, the words “we,” “us,” “our” or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

General. Our second amended and restated certificate of incorporation provides that we may issue up to 1,000,000 shares of preferred stock, \$0.0001 par value per share, or preferred stock. Our second amended and restated certificate of incorporation provides that shares of preferred stock may be issued from time to time in one or more series. Our board of directors is authorized to fix the voting rights, if any, the designations, powers, and preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions, applicable to the shares of each series of preferred stock. Our board of directors is able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control or the removal of existing management by diluting the stock ownership or voting rights of a person seeking to obtain control of the company or remove existing management. As of October 30, 2013, 100,000 shares of our series A preferred stock were issued and outstanding and 32,550 shares of our series B preferred stock were issued and outstanding. Other than the series A preferred stock and series B preferred stock, no shares of preferred stock are currently outstanding.

The specific terms of a particular class or series of preferred stock will be described in the prospectus supplement relating to that class or series, including a prospectus supplement providing that preferred stock may be issuable upon the exercise of warrants, or upon the conversion of any debt securities, that we issue pursuant to this prospectus. The description of preferred stock set forth below and the description of the terms of a particular class or series of preferred stock set forth in the applicable prospectus supplement do not purport to be complete and are qualified in their entirety by reference to the articles supplementary relating to that class or series.

The preferences and other terms of the preferred stock of each class or series will be fixed by the certificate of designation relating to such class or series. A prospectus supplement, relating to each class or series, will specify the terms of the preferred stock as follows:

the title and stated value of such preferred stock;

the number of shares of such preferred stock offered, the liquidation preference per share and the offering price of such preferred stock;

the dividend rate(s), period(s), and/or payment date(s) or method(s) of calculation thereof applicable to such preferred stock;

whether such preferred stock is cumulative or not and, if cumulative, the date from which dividends on such preferred stock shall accumulate;

the provision for a sinking fund, if any, for such preferred stock;

the provision for redemption, if applicable, of such preferred stock;

any listing of such preferred stock on any securities exchange;

preemptive rights, if any;

the terms and conditions, if applicable, upon which such preferred stock will be converted into our common stock, including the conversion price (or manner of calculation thereof);

a discussion of any material United States federal income tax consequences applicable to an investment in such preferred stock;

the relative ranking and preferences of such preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

Table of Contents

any limitations on issuance of any class or series of preferred stock ranking senior to or on a parity with such class or series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

any voting rights of such preferred stock; and

any other specific terms, preferences, rights, limitations or restrictions of such preferred stock.

Rank. Unless otherwise specified in the applicable prospectus supplement, the preferred stock will, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our company, rank: (i) senior to all classes or series of our common stock, and to any other class or series of our stock expressly designated as ranking junior to the preferred stock; (ii) on parity with any class or series of our stock expressly designated as ranking on parity with the preferred stock; and (iii) junior to any other class or series of our stock expressly designated as ranking senior to the preferred stock.

Conversion Rights. The terms and conditions, if any, upon which any shares of any class or series of preferred stock are convertible into our common stock will be set forth in the applicable prospectus supplement relating thereto. Such terms will include the number of shares of our common stock into which the shares of preferred stock are convertible, the conversion price (or manner of calculation thereof), the conversion period, provisions as to whether conversion will be at the option of the holders of such class or series of preferred stock, the events requiring an adjustment of the conversion price and provisions affecting conversion in the event of the redemption of such class or series of preferred stock.

Power to Increase Authorized Stock and Issue Additional Shares of Our Preferred Stock. The number of authorized shares of preferred stock may be increased by the affirmative vote of the holders of a majority of the voting power of all the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class, without a separate vote of the holders of the Preferred Stock, or any series thereof, unless a vote of any such holders is required pursuant to the resolutions adopted by the board of directors for such series. Our board of directors has the power to issue additional authorized but unissued shares of our preferred stock and to classify or reclassify unissued shares of our preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock. Although our board of directors does not intend to do so, it could authorize us to issue a class or series that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for our stockholders or otherwise be in their best interest.

Dividend Limitations. The payment of dividends, if ever, on the preferred stock will be subject to compliance with any applicable limitations in our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement.

6.0% Convertible Series A Preferred Stock

General. Our board of directors and a duly authorized committee thereof approved the certificate of designation, a copy of which we have previously filed with the SEC and which we incorporate by reference as an exhibit to the registration statement of which this prospectus is a part, creating the series A preferred stock as a class of our preferred stock, designated as the 6.0% convertible series A preferred stock. The outstanding series A preferred stock is validly issued, fully paid and nonassessable.

Ranking. The series A preferred stock ranks, with respect to dividend rights and rights upon our liquidation, dissolution or winding-up:

on parity with any class or series of our stock expressly designated as ranking on parity with the series A preferred stock; and

Table of Contents

junior to any other class or series of our stock expressly designated as ranking senior to the series A preferred stock.

Dividend Rate and Payment Date. Investors are entitled to receive cumulative cash dividends on the series A preferred stock from and including the date of original issue, payable quarterly in arrears on or about the last calendar day of January, April, July and October of each year, commencing June 30, 2010, at the rate of 6.0% per annum of the \$1,000.00 liquidation preference per share. Dividends on the series A preferred stock will accrue whether or not we have earnings, whether or not there are funds legally available for the payment of such dividends. Our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement, may restrict our ability to declare and pay dividends on our preferred stock.

Liquidation Preference. If we liquidate, dissolve or wind-up, holders of the series A preferred stock will have the right to receive \$1,000.00 per share, plus accrued and unpaid dividends (whether or not earned or declared) up to and including the date of payment, before any payment is made to holders of our common stock and any other class or series of stock ranking junior to the series A preferred stock as to liquidation rights. The rights of holders of series A preferred stock to receive their liquidation preference will be subject to the proportionate rights of any other class or series of our stock ranking on parity with the series A preferred stock as to liquidation.

Optional Conversion and Mandatory Conversion. Prior to May 19, 2015, each share of series A preferred stock is convertible, at the option of the holder at any time, into approximately 81 shares of our common stock, subject to adjustments under certain circumstances. On May 19, 2015, each outstanding share of series A preferred stock will automatically be converted into shares of our common stock.

Voting Rights. Holders of series A preferred stock generally have no voting rights. However, if we are in arrears on dividends on the series A preferred stock for three or more quarterly periods, whether or not consecutive, holders of the series A preferred stock (voting together as a class with the holders of all other classes or series of parity preferred stock upon which like voting rights have been conferred and are exercisable) will be entitled to vote at our next annual meeting or special meeting of stockholders for the election of two additional directors to serve on our board of directors until all unpaid dividends and the dividend for the then-current period with respect to the series A preferred stock and any other class or series of parity preferred stock have been paid or declared and a sum sufficient for the payment thereof set aside for payment. In addition, we may not make certain material and adverse changes to the terms of the series A preferred stock without the affirmative vote of the holders of at least two-thirds of the outstanding shares of series A preferred stock and the holders of all other shares of any class or series ranking on parity with the series A preferred stock that are entitled to similar voting rights (voting together as a single class).

Transfer Agent and Registrar. The transfer agent and registrar for our series A preferred stock is Continental Stock Transfer & Trust Company.

The outstanding series B preferred stock is validly issued, fully paid and nonassessable.

Our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement, may restrict our ability to declare and pay dividends on our preferred stock.

Liquidation Preference. If we liquidate, dissolve or wind-up, holders of the series B preferred stock will have the right to receive \$1,000.00 per share, plus accrued and unpaid dividends (whether or not earned or declared) up to and including the date of payment, before any payment is made to holders of our common stock and any other class or series of stock ranking junior to the series B preferred stock as to liquidation rights. The rights of holders of series B preferred stock to receive their liquidation preference will be subject to the proportionate rights of any other class or series of our stock ranking on parity with the series B preferred stock as to liquidation.

Optional Conversion and Mandatory Conversion. Prior to November 3, 2018, each share of series B preferred stock is convertible, at the option of the holder at any time, into approximately 93 shares of our common stock, subject to adjustments under certain circumstances, or the series B conversion rate. At any time on or after May 3, 2017 and prior to November 3, 2018, we have the option to convert all or part of the outstanding shares of series B preferred stock into shares of common stock at the series B conversion rate. On November 3, 2018, each outstanding share of series B preferred stock will automatically be converted into shares of our common stock at the series B conversion rate.

Voting Rights. Holders of series B preferred stock generally have no voting rights. However, if we are in arrears on dividends on the series B preferred stock for three or more quarterly periods, whether or not consecutive, holders of the series B preferred stock (voting together as a class with the holders of all other classes or series of parity preferred stock upon which like voting rights have been conferred and are exercisable) will be entitled to vote at our next annual meeting or special meeting of stockholders for the election of two additional directors to serve on our board of directors until all unpaid dividends and the dividend for the then-current period with respect to the series B preferred stock and any other class or series of parity preferred stock have been paid or declared and a sum sufficient for the payment thereof set aside for payment. In addition, we may not make certain material and adverse changes to the terms of the series B preferred stock without the affirmative vote of the holders of at least two-thirds of the outstanding shares of series B preferred stock and the holders of all other shares of any class or series ranking on parity with the series B preferred stock that are entitled to similar voting rights (voting together as a single class).

Transfer Agent and Registrar. The transfer agent and registrar for our series B preferred stock is Continental Stock Transfer & Trust Company.

DESCRIPTION OF WARRANTS

Unless otherwise stated or the context otherwise requires, as used in this section, the words “we,” “us,” “our” or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

This section describes the general terms and provisions of our warrants to acquire our securities that we may issue from time to time. The applicable prospectus supplement will describe the terms of any warrant agreements and the warrants issuable thereunder. If any particular terms of the warrants described in the prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed superseded by that prospectus supplement.

We may issue warrants for the purchase of our common stock or preferred stock. We may issue warrants independently or together with other securities, and they may be attached to or separate from the other securities. Each series of warrants will be issued under a separate warrant agreement that we will enter into with a bank or trust company, as warrant agent, as detailed in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation, or agency or trust relationship, with you. We will file a copy of the warrant and warrant agreement with the SEC each time we issue a series of warrants, and these warrants and warrant agreements will be incorporated by reference into the registration statement of which this prospectus is a part. A holder of our warrants should refer to the provisions of the applicable warrant agreement and prospectus supplement for more specific information.

The prospectus supplement relating to a particular issue of warrants will describe the terms of those warrants, including, when applicable:

the offering price;

the currency or currencies, including composite currencies, in which the price of the warrants may be payable;

the number of warrants offered;

the securities underlying the warrants, including the securities of third parties or other rights, if any, to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing, purchasable upon exercise of the warrants;

the exercise price and the amount of securities you will receive upon exercise;

the procedure for exercise of the warrants and the circumstances, if any, that will cause the warrants to be automatically exercised;

the rights, if any, we have to redeem the warrants;

the date on which the right to exercise the warrants will commence and the date on which the warrants will expire;

the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security;

the date on and after which the warrants and the related securities will be separately transferable;

material U.S. federal income tax consequences;

the name of the warrant agent; and

any other material terms of the warrants.

After the warrants expire they will become void. The prospectus supplement may provide for the adjustment of the exercise price of the warrants.

Table of Contents

Warrants may be exercised at the appropriate office of the warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of warrants, holders will not have any of the rights of holders of the securities purchasable upon exercise and will not be entitled to payments made to holders of those securities.

The applicable warrant agreement may be amended or supplemented without the consent of the holders of the warrants to which it applies to effect changes that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants. However, any amendment that materially and adversely alters the rights of the holders of warrants will not be effective unless the holders of at least a majority of the applicable warrants then outstanding approve the amendment. Every holder of an outstanding warrant at the time any amendment becomes effective, by continuing to hold the warrant, will be bound by the applicable warrant agreement as amended. The prospectus supplement applicable to a particular series of warrants may provide that certain provisions of the warrants, including the securities for which they may be exercisable, the exercise price and the expiration date, may not be altered without the consent of the holder of each warrant.

Terms of New Series of Debt Securities

The following description, together with the additional information included in any applicable prospectus supplement, summarizes certain general terms and provisions of any new debt securities that may be offered under this prospectus. When a particular series of new debt securities is offered and sold, a description of the specific terms of the series will be included in a supplement to this prospectus. The supplement will also indicate to what extent the general terms and provisions described in this prospectus apply to a particular series of new debt securities.

For purposes of this description, the term **applicable base indenture** means the existing base indenture or the new base indenture, as applicable, pursuant to which a particular series of debt securities will be issued.

Table of Contents

Solely for purposes of the description below, in connection with the issuance of a new series of new debt securities pursuant to the existing base indenture, the 2042 notes will be deemed to be a series of new debt securities separate from such new series of debt securities.

The new debt securities that may be offered pursuant to this prospectus may be senior, senior subordinated or subordinated obligations, and, unless otherwise specified in a supplement to this prospectus, the new debt securities will be the direct, unsecured obligations of the applicable issuer and may be issued in one or more series.

The new debt securities will be issued pursuant to the applicable base indenture between the applicable issuer and a trustee, which will be named in the applicable supplement to this prospectus (or, in the case of new debt securities to be issued pursuant to the existing base indenture, Wilmington Trust, National Association, or any successor trustee). Select portions of the applicable base indenture are summarized below. The summary is not complete. The form of each applicable base indenture, which may be modified prior to an offering, has been filed as an exhibit to the registration statement of which this prospectus forms a part, and you should read the applicable base indenture for provisions that may be important to you. Capitalized terms used in the summary and not defined herein have the meanings specified in the applicable base indenture.

The applicable issuer can issue an unlimited amount of new debt securities under the applicable base indenture that may be in one or more series with the same or various maturities, at par, at a premium, or at a discount. The applicable issuer may issue new debt securities that provide for an amount less than their stated principal amount to be due and payable upon declaration of acceleration of their maturity pursuant to the terms of the applicable

base indenture. Information on material federal income tax considerations and other special considerations applicable to any of these new debt securities will be provided in the applicable prospectus supplement.

If the purchase price of any of the new debt securities is denominated in a foreign currency or currencies or a foreign currency unit or units, or if the principal of, and any premium and interest on, any series of new debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, then information on the restrictions, elections, general tax considerations, specific terms and other information with respect to that issue of new debt securities and such foreign currency or currencies or foreign currency unit or units will be provided in the applicable prospectus supplement.

Transfer and Exchange

Each new debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, or the Depository, or a nominee of the Depository (which is referred to as a book-entry debt security) or a certificate issued in definitive registered form (which is referred to as a certificated debt security), as set forth in the applicable prospectus supplement. Except in limited circumstances, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office the applicable issuer maintains for this purpose in accordance with the terms of the applicable base indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange may be required.

You may effect the transfer of certificated debt securities and the right to receive the principal of, or any premium or interest on, certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by the applicable issuer or the trustee of the certificate to the new holder or the issuance by the applicable issuer or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the Depository and registered in the name of the Depository or a nominee of the Depository.

Covenants

Any restrictive covenants applicable to any issue of new debt securities will be set forth in the applicable prospectus supplement.

No Protection In the Event of a Change of Control

Unless stated otherwise in the applicable prospectus supplement, the new debt securities will not contain any provisions that may afford holders of the new debt securities protection in the event the applicable issuer has a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) that could adversely affect holders of new debt securities.

Consolidation, Merger and Sale of Assets

The applicable issuer may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of its properties and assets to any person (a successor person) unless:

the applicable issuer is the surviving person or the successor person (if other than the applicable issuer) is a person that is organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes the applicable issuer's obligations on the new debt securities and under the applicable base indenture; and

Table of Contents

immediately after giving effect to the transaction, no Default or Event of Default, shall have occurred and be continuing.

Notwithstanding the above, any subsidiaries of the applicable issuer may consolidate with, merge into or transfer all or part of its properties to the applicable issuer.

Events of Default

Event of Default means, with respect to any series of new debt securities, any of the following:

a default in the payment of any interest upon any new debt security of that series when it becomes due and payable, and continuance of such default for a period of 30 days (unless the entire amount of the payment is deposited by the applicable issuer with the trustee or with a paying agent prior to the expiration of the 30-day period);

a default in the payment of principal of any security of that series at its maturity;

a default in the deposit of any sinking fund payment, if, when and as due by the terms of the new debt securities of that series, and the continuance of such default for a period of 60 days;

a default in the performance or breach of any other covenant or warranty by the applicable issuer (or, in the case the new debt securities of that series are subject to a guarantee, the guarantor of such guarantee) in the applicable base indenture (other than a covenant or warranty that has been included in the applicable base indenture solely for the benefit of a series of new debt securities other than that series), which default continues uncured for a period of 60 days after the applicable issuer receives written notice from the trustee or the applicable issuer and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding new debt securities of that series as provided in the applicable base indenture;

if the new debt securities of such series are subject to a guarantee of a guarantor, such guarantee shall for any reason cease to be, or shall for any reason be asserted in writing by such guarantor or the applicable issuer not to be, in full force and effect and enforceable in accordance with its terms, except to the extent contemplated or permitted by the applicable base indenture or the terms of the new debt securities of that series;

certain voluntary or involuntary events of bankruptcy, insolvency or reorganization of the applicable issuer; and

any other Event of Default provided with respect to new debt securities of that series that is described in the applicable prospectus supplement.

No Event of Default with respect to a particular series of new debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of new debt securities. The occurrence of certain Events of Default or an acceleration under the applicable base indenture may constitute an event of default under certain other indebtedness of the applicable issuer or its

subsidiaries outstanding from time to time.

If an Event of Default with respect to new debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding new debt securities of that series may, by a notice in writing to the applicable issuer (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the new debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series), and any premium and accrued and unpaid interest on, all new debt securities of that series. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of, and any premium and accrued and unpaid interest on, all outstanding new debt securities of the

Table of Contents

applicable series will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding new debt securities. At any time after a declaration of acceleration with respect to new debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding new debt securities of that series may rescind and annul the acceleration if all Events of Default (other than the non-payment of accelerated principal, premium and interest, if any, with respect to new debt securities of that series) have been cured or waived as provided in the applicable base indenture. You are referred to the prospectus supplement relating to any series of new debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The applicable base indenture will provide that the trustee will be under no obligation to exercise any of its rights or powers under the applicable base indenture unless the trustee receives indemnity satisfactory to it against any cost, liability or expense which might be incurred by it in exercising such right of power. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding new debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the new debt securities of that series.

No holder of any new debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the applicable base indenture or for the appointment of a receiver or trustee, or for any remedy under the applicable base indenture, unless:

that holder has previously given to the trustee written notice of a continuing Event of Default with respect to new debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding new debt securities of that series have made written request, and offered reasonable indemnity or security, to the trustee to institute the proceeding as trustee, and the trustee has (x) not received from the holders of not less than a majority in principal amount of the outstanding new debt securities of that series a direction inconsistent with that request and (y) failed to institute the proceeding within 60 days.

Notwithstanding any other provision in the applicable base indenture, the holder of any new debt security will have an absolute and unconditional right to receive payment of the principal of, and any premium and interest on, that new debt security on or after the due dates expressed in that new debt security and to institute suit for the enforcement of payment.

The applicable base indenture will require the applicable issuer to, within 120 days after the end of its fiscal year, furnish to the trustee a statement as to compliance with the applicable base indenture. If a Default or Event of Default occurs and is continuing with respect to the securities of any series and is known to a responsible officer of the trustee, then the trustee must mail to each holder of the securities of that series notice of a Default or Event of Default within 90 days after it occurs. The applicable base indenture will provide that the trustee may withhold notice to the holders of new debt securities of any series of any Default or Event of Default (except in payment on any new debt securities of that series) with respect to new debt securities of that series if the trustee determines in good faith that withholding notice is in the interest of the holders of those new debt securities.

to provide for uncertificated debt securities in addition to or in place of certificated debt securities;

to make any change that does not materially adversely affect the rights of any holder;

to comply with requirements of the SEC in order to effect or maintain the qualification of the applicable base indenture under the Trust Indenture Act;

to amend the provisions of the applicable base indenture relating to the transfer and legending of new debt securities; *provided, however*, that (i) compliance with the applicable base indenture as so amended would not result in new debt securities being transferred in violation of the Securities Act or any applicable securities law; and (ii) such amendment does not materially and adversely affect the rights of holders to transfer new debt securities, except as required by law;

to add any additional Events of Default for the benefit of the holders of all or any new debt securities of any series;

to add to, change or eliminate any provision of the applicable base indenture in respect of all or any new debt securities of any series or any guarantees thereof, provided that such addition, change or elimination shall either (A) (i) not apply to any new debt security of any series or any guarantee thereof that was created prior to the execution and delivery of such supplemental indenture; and (ii) not modify the rights of the holder of any such new debt security with respect to such provision; or (B) become effective only when there are no new debt securities outstanding;

to add any person as a guarantor of all or any new debt securities of any series, which new debt securities were not theretofore subject to a guarantee, or to add additional guarantors of all or any new debt securities of any series;

to evidence the release and discharge of any guarantor from its obligations under its guarantees of any new debt securities and its obligations under the applicable base indenture in respect of any new debt securities, in each case in accordance with the applicable base indenture and the terms of such new debt securities; or

to conform the text of the applicable base indenture or any new debt securities of any series or any guarantee to the description of the applicable base indenture, such new debt securities or such guarantee contained in this prospectus and the applicable prospectus supplement, provided that such supplemental indenture shall apply only to such new debt securities or guarantee.

Except to the extent the terms of a series of new debt securities otherwise provide with respect to any of such new debt securities or guarantee thereof, the applicable issuer may also modify and amend the applicable base indenture with the consent of the holders of at least a majority in principal amount of the outstanding new debt securities of each series affected by the modifications or amendments. However, no waiver or amendment may be made without the consent of the holders of each affected new debt security then outstanding if that waiver or amendment will:

reduce the amount of new debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any new debt security;

reduce the principal of or premium, if any, on or change the fixed maturity of any new debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of new debt securities;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default in the payment of the principal of, or any premium or interest on, any new debt security (except a rescission of acceleration of the new debt securities of any series by the holders of at least a majority in aggregate principal amount of the then-outstanding new debt securities of that series and a waiver of the payment default that resulted from such acceleration);

make the principal of, or any premium or interest on, any new debt security payable in currency other than that stated in the new debt security;

make any change to certain provisions of the applicable base indenture relating to, among other things, (i) the right of holders of new debt securities to receive payment of the principal of, or any premium or interest on, new debt securities and to institute suit for the enforcement of any such payment; (ii) waivers of past defaults; and (iii) amendments and waivers that require the consent of each affected holder;

waive a redemption payment with respect to any new debt security;

in the case of any new debt security that is subject to a guarantee, release the guarantor of such guarantee from any of its obligations under such guarantee, except in accordance with the terms of the applicable base indenture and such new debt security;

make any change in the ranking or priority of any new debt security or any guarantee thereof that would adversely affect the holders of such new debt security; or

in the case of any new debt security that provides that the holder thereof may require the applicable issuer to repurchase or convert such new debt security, impair such holder's right to require such repurchase or effect such conversion of such Security in accordance with the applicable base indenture and the terms of such new debt security.

Except in certain circumstances, the holders of at least a majority in principal amount of the outstanding new debt securities of any series may on behalf of the holders of all new debt securities of that series waive compliance by the applicable issuer or any guarantor of new debt securities of that series with provisions of the

applicable base indenture or guarantee. The holders of a majority in principal amount of the outstanding new debt securities of any series may, on behalf of the holders of all the new debt securities of such series, waive any past default under the applicable base indenture with respect to that series and its consequences, except a default in the payment of the principal of, or any premium or interest on, any new debt security of that series. The holders of a majority in principal amount of the outstanding new debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of New Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The applicable base indenture will provide that, unless otherwise provided by the terms of the applicable series of new debt securities, the applicable issuer and the guarantors, if any, will be deemed to have paid and discharged the entire indebtedness on all the outstanding new debt securities of any series on the 123rd day after the date of the deposit referred to below, and the provisions of the applicable base indenture, as it relates to such outstanding new debt securities of such series, will no longer be in effect, except as to certain specified rights, powers, immunities and provisions. In order to effect such legal defeasance, the following conditions, among others, must be satisfied:

subject to certain rights of the applicable issuer and guarantors, if any, the applicable issuer or, if applicable, any guarantor(s), must deposit, or cause to be irrevocably deposited, with the trustee money or U.S. government obligations or, in the case of new debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants or investment bank, to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of all the new debt securities of that series on the stated maturity of those payments in accordance with the terms of the applicable base indenture and those new debt securities; and

such deposit will not result in a breach or violation of, or constitute a default under, the applicable base indenture or any other agreement or instrument to which the applicable issuer is a party or by which it is bound;

no default or Event of Default with respect to the new debt securities of such series shall have occurred and be continuing on the date of such deposit or during the period ending on the 123rd day after such date; and

the applicable issuer or guarantor(s) must deliver to the trustee an opinion of counsel stating that the applicable issuer or guarantor(s), as applicable, have received from, or there has been published by, the U.S. Internal Revenue Service a ruling or, since the date of execution of the applicable base indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the new debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The applicable base indenture will provide that, unless otherwise provided by the terms of the applicable series of new debt securities, upon compliance with certain conditions:

the applicable issuer and, if applicable, may omit to comply with the covenant described under the heading Consolidation, Merger and Sale of Assets and certain other covenants set forth in the applicable base indenture, as well as any additional covenants which may be described in the applicable prospectus supplement; and

any omission to comply with those covenants, or with certain other Events of Default, will not constitute a default or an Event of Default with respect to the new debt securities of that series (covenant defeasance).

Table of Contents

The conditions include the following, among others:

subject to certain rights of the applicable issuer and guarantors, if any, the applicable issuer or, if applicable, any guarantor(s), must deposit, or cause to be irrevocably deposited, with the trustee money or U.S. government obligations or, in the case of new debt securities denominated in a single currency other than U.S. Dollars, government obligations of the government that issued or caused to be issued such currency, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants or investment bank, to pay and discharge each installment of principal of, premium and interest on and any mandatory sinking fund payments in respect of all the new debt securities of that series on the stated maturity of those payments in accordance with the terms of the applicable base indenture and those new debt securities; and

the applicable issuer or guarantor(s) must deliver to the trustee an opinion of counsel to the effect that the holders of the new debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Covenant Defeasance and Events of Default. In the event the applicable issuer exercises its option to effect covenant defeasance with respect to any series of new debt securities, and the new debt securities of that series are declared due and payable immediately following an acceleration after the occurrence of any Event of Default, the amount of money or U.S. government obligations or foreign government obligations on deposit with the trustee will be sufficient to pay amounts due on the new debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the new debt securities of that series at the time of such acceleration. However, the applicable issuer shall remain liable for those payments.

Governing Law

The applicable base indenture and the new debt securities, including any claim or controversy arising out of or relating to the applicable base indenture or the securities, will be governed by the laws of the State of New York (without regard to the conflicts of laws provisions thereof, other than Section 5-1401 of the General Obligations Law).

PLAN OF DISTRIBUTION

The issuers may sell the securities domestically or abroad to one or more underwriters for public offering and sale by them or may sell the securities to investors directly or through dealers or agents, or through a combination of methods. Any underwriter, dealer or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement.

Underwriters may offer and sell the securities at: (i) a fixed price or prices, which may be changed, (ii) market prices prevailing at the time of sale, (iii) prices related to the prevailing market prices at the time of sale or (iv) negotiated prices. The issuers also may, from time to time, authorize underwriters acting as their agents to offer and sell the securities upon the terms and conditions as are set forth in the applicable prospectus supplement. In connection with the sale of securities, underwriters may be deemed to have received compensation from the applicable issuer in the form of underwriting discounts or commissions and may also receive commissions from purchasers of securities for whom they may act as agent. Underwriters may sell securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent.

Any underwriting compensation paid by an issuer to underwriters, dealers or agents in connection with the offering of securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. Underwriters, dealers and agents may be entitled, under agreements entered into with any of the issuers, to indemnification against and contribution toward civil liabilities, including liabilities under the Securities Act. Any indemnification agreement will be described in the applicable prospectus supplement.

Unless specified otherwise in the applicable prospectus supplement, any series of securities issued hereunder will be a new issue with no established trading market (other than Kennedy-Wilson Holdings' common stock, which is listed on the NYSE). If Kennedy-Wilson Holdings sells any shares of its common stock pursuant to a prospectus supplement, such shares will be listed on the NYSE, subject to official notice of issuance. The issuers may elect to list any other securities issued hereunder on any exchange, but the issuers are not obligated to do so. Any underwriters or agents to or through whom such securities are sold for public offering and sale may make a market in such securities, but such underwriters or agents will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of the trading market for any such securities.

If indicated in the applicable prospectus supplement, the issuers may authorize underwriters or other persons acting as the issuers' agents to solicit offers by institutions or other suitable purchasers to purchase the securities from the issuers at the public offering price set forth in the prospectus supplement, pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in the prospectus supplement. These purchasers may include, among others, commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions. Delayed delivery contracts will be subject to the condition that the purchase of the securities covered by the delayed delivery contracts will not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject. The underwriters and agents will not have any responsibility with respect to the validity or performance of these contracts.

To facilitate the offering of the securities, certain persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involves the sale by persons participating in the offering of more securities than the issuers sold

to them. In these circumstances, these persons would cover the over-allotments or

Table of Contents

short positions by making purchases in the open market or by exercising their over-allotment option. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The underwriters, dealers and agents and their affiliates may be customers of, engage in transactions with and perform services for the issuers in the ordinary course of business.

The specific plan of distribution, including any underwriters, dealers, agents or direct purchasers and their compensation, will be identified in a prospectus supplement.
