Nuveen recommended the proposed merger in order to simplify and more clearly delineate the fund from the investment strategies of its other equity option strategy funds. The Boards considered information provided by Nuveen on the potential benefits of the proposals which included:

Reduced fees and expenses as a result of economies of scale from a larger combined fund.

Better liquidity and reduced trading costs from the greater share volume of the combined fund.

Accordingly, each Board has determined that its respective Reorganization would be in the best interests of its Fund.
