Payment of Additional Amounts

Subject to the exceptions and limitations set forth in the attached prospectus under **Description of Debt Securities Payment of Additional Amounts**, we will pay to the beneficial owner of the notes that is a non-U.S. person additional amounts to ensure that every net payment on the notes will not be less, due to the payment of U.S. withholding tax, than the amount then otherwise due and payable. For this purpose, a net payment on the notes means a payment by us or any paying agent, including payment of principal and interest, after deduction for any present or future tax, assessment, or other governmental charge of the United States (other than a territory or possession). These additional amounts will constitute additional interest on the notes. For this purpose, U.S. withholding tax means a withholding tax of the United States, other than a territory or possession.

Except as specifically set out in **Description of Debt Securities Payment of Additional Amounts** in the attached prospectus, we will not be required to make any payment of any tax, assessment, or other governmental charge imposed by any government, political subdivision, or taxing authority of that government.

Redemption for Tax Reasons

We may redeem the notes, in whole but not in part, at any time before maturity, after giving not less than 30 nor more than 60 calendar days notice to the trustee under the Senior Indenture and to the holders of the notes, if we have or will become obligated to pay additional amounts, as described above and under **Description of Debt Securities Payment of Additional Amounts** in the attached prospectus, as a result of any change in, or amendment to, the laws or regulations of the United States or any political subdivision or any authority of the United States having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date hereof.

In connection with any notice of redemption for tax reasons, we will deliver to the trustee under the Senior Indenture any required certificate, request or order.

Any notes redeemed for tax reasons will be redeemed at 100% of their principal amount together with interest accrued up to, but excluding, the redemption date.

Unavailability of Australian Dollars

In the event that Australian Dollars have been replaced by another currency (a **Replacement Currency**), any amount due on the notes may be paid, at our option, in the Replacement Currency or in U.S. dollars, at a rate of exchange which takes into account the conversion, at the rate prevailing on the most recent date on which official conversion rates were quoted or set by the national government or other authority responsible for issuing the Replacement Currency, from Australian Dollars to the Replacement Currency and, if necessary, the conversion of the Replacement Currency into U.S. dollars at the rate prevailing on the date of such conversion.

Edgar Filing: BANK OF AMERICA CORP /DE/ - Form 424B5

If we determine that a payment hereon cannot be made in Australian Dollars or any Replacement Currency, due to the imposition of exchange controls or other circumstances beyond our control, or Australian Dollars or any Replacement Currency are unavailable because that currency is no longer used by the Australian government or for the settlement of transactions by public institutions of or within the international banking community, such payment will be made in U.S. dollars. The U.S. dollar amount of any such payment shall be the amount of Australian Dollars or Replacement Currency otherwise payable converted into U.S. dollars using the most recently available market exchange rate for Australian Dollars or such Replacement Currency. The **market exchange rate** for a specified currency means the noon buying rate in The City of New York for cable transfers of the specified currency as certified for customs purposes (or, if not so certified, as otherwise determined) by the Federal Reserve Bank of New York.

PS-5

Any payment on the notes so made in a Replacement Currency or in U.S. dollars will not constitute an event of default with respect to the notes.

Supplemental Information Concerning Form, Exchange, Registration and Transfer of Notes

The notes will be issued in the form of a global note, in fully registered form. The global note will be deposited with The Bank of New York Mellon, London Branch, or any successor thereto, as the common depository (**Common Depository**) and registered in the name of The Bank of New York Depository (Nominees) Limited, as nominee of the Common Depository. Beneficial interests in the global note will be shown on, and transfer thereof and other transactions with respect thereto will be effected only through, records maintained by the Common Depository, its nominee or Euroclear or Clearstream, Luxembourg and the respective participants of Euroclear and Clearstream, Luxembourg, in accordance with rules and procedures established by Euroclear and Clearstream, Luxembourg (including requirements for the payment of principal and interest). So long as the notes are represented by a global registered note, we will recognize The Bank of New York Depository (Nominees) Limited, as the nominee of The Bank of New York Mellon, London Branch, as the registered owner of the notes for all purposes as set forth in the Senior Indenture.

The Bank of New York Mellon, London Branch (the **London Paying Agent**) will act as paying agent and transfer agent for the notes pursuant to a paying agency and transfer agency agreement dated as of May 18, 2016 between us, the trustee and the London Paying Agent. Copies of this agreement are available for inspection during usual business hours at the principal office of the London Paying Agent.

The notes may be exchanged in whole, but not in part, for certificated notes in definitive form only under the circumstances described in the Senior Indenture and (a) if we are notified that Euroclear and/or Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, whether statutory or otherwise) after the original issuance of the notes or has announced an intention to cease business permanently or has in fact done so and no alternative clearance system approved by the noteholders is available; or (b) we, in our sole discretion, elect to issue definitive registered notes; or (c) after the occurrence of an event of default with respect to the global note, beneficial owners representing a majority in principal amount of the notes represented by the global note advise Euroclear and/or Clearstream, Luxembourg through their respective participants to cease acting as a depository for the notes. Certificated notes will be issued in minimum denominations only and will be issued in registered form only, without coupons.

Neither we nor the trustee or any paying agent will have any direct responsibility or liability to pay amounts due with respect to the global note to any beneficial owners in the global note. Any redemption or other notices with respect to the notes will be sent by us or the London Paying Agent directly to Euroclear or Clearstream, Luxembourg, which will, in turn, inform the direct participants (or the indirect participants), which will then contact the beneficial holders, all in accordance with the rules of Euroclear or Clearstream, Luxembourg, as the case may be, and the internal procedures of the direct participant (or the indirect participant) through which any beneficial interest in the notes is held. Euroclear and Clearstream, Luxembourg will credit payments to the cash accounts of Euroclear participants or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures, to the extent received by the Common Depository. Euroclear and Clearstream, Luxembourg have established their procedures in order to facilitate transfers of the notes among participants of Euroclear and Clearstream, Luxembourg. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue or change those procedures at any time.

Supplemental Information Concerning the Plan of Distribution and Conflicts of Interest

On July 26, 2016, we entered into an agreement with the selling agents identified below for the purchase and sale of the notes. We have agreed to sell to each of the selling agents, and each of the selling agents has agreed to purchase from us, the principal amount of the notes shown

opposite its name in the table below at the public offering price set forth above.

PS-6

Table of Contents

Selling Agent	Principal Amount
Merrill Lynch (Australia) Futures Limited	A\$ 275,000,000
Australia and New Zealand Banking Group	A\$ 137,500,000
nabSecurities, LLC	A\$ 137,500,000
Total	A\$ 550,000,000

The selling agents may sell the notes to certain dealers at the public offering price, less a concession which will not exceed 0.200% of the principal amount of the notes, and the selling agents and those dealers may resell the notes to other dealers at a reallowance discount which will not exceed 0.150% of the principal amount of the notes.

After the initial offering of the notes, the concessions and reallowance discounts for the notes may change.

We estimate that the total offering expenses for the notes, excluding the selling agents' commissions, will be approximately \$145,300.

Merrill Lynch (Australia) Futures Limited is our wholly-owned subsidiary, and we will receive the net proceeds of the offering. Merrill Lynch (Australia) Futures Limited will make any offers and sales in Australia. Merrill Lynch, Pierce, Fenner & Smith Incorporated will make any offers and sales in the United States.

Australia and New Zealand Banking Group Limited will not effect any offers or sales of the notes in the United States unless it is through one or more U.S. registered broker-dealers as permitted by the regulations of the Financial Industry Regulatory Authority, Inc.

Some of the selling agents and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the selling agents and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the selling agents or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such selling agents and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The selling agents and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Edgar Filing: BANK OF AMERICA CORP /DE/ - Form 424B5

We expect that delivery of the notes will be made against payment on or about August 5, 2016, which is the seventh Business Day following the date of this pricing supplement. Under Rule 15c6-1 of the U.S. Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three Business Days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of this pricing supplement or the next succeeding three Business Days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternative settlement cycle at the time of the trade to prevent a failed settlement and should consult their own advisor in connection with that election.

ABOUT THIS PROSPECTUS SUPPLEMENT

We have registered the notes on a registration statement on Form S-3 with the Securities and Exchange Commission under Registration No. 333-202354.

From time to time, we intend to use this prospectus supplement, the accompanying prospectus, and a related product supplement, index supplement and/or pricing supplement to offer the notes. We may refer to any pricing supplement as a term sheet. You should read each of these documents before investing in the notes.

This prospectus supplement describes additional terms of the notes and supplements the description of our debt securities contained in the accompanying prospectus. If the information in this prospectus supplement is inconsistent with the prospectus, this prospectus supplement will supersede the information in the prospectus.

This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy the notes in any jurisdiction in which that offer or solicitation is unlawful. The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in some jurisdictions may be restricted by law. If you have received this prospectus supplement and the accompanying prospectus, you should find out about and observe these restrictions. Persons outside the United States who come into possession of this prospectus supplement and the accompanying prospectus must inform themselves about and observe any restrictions relating to the distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes outside of the United States. See Supplemental Plan of Distribution (Conflicts of Interest).

This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (and amendments thereto, including the Directive 2010/73/EU, to the extent implemented in the relevant Member State, the Prospectus Directive) (each, a Relevant Member State) will be made under an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of notes. Accordingly, any person making or intending to make an offer in that Relevant Member State of any notes which are contemplated in this prospectus supplement and the accompanying prospectus may only do so in circumstances in which no obligation arises for us or any of the selling agents to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither we nor the selling agents have authorized, and neither we nor they authorize, the making of any offer of notes in circumstances in which an obligation arises for us or any selling agent to publish or supplement a prospectus for the purposes of the Prospectus Directive in relation to such offer. Neither this prospectus supplement nor the accompanying prospectus constitutes an approved prospectus for the purposes of the Prospective Directive.

For each offering of notes, we will issue a product supplement, index supplement, and/or a pricing supplement which will contain additional terms of the offering and a specific description of the notes being offered. A supplement also may add, update, or change information in this prospectus supplement or the accompanying prospectus, including provisions describing the calculation of the amounts due under the notes and the method of making payments under the terms of a note. We will state in the applicable supplement the interest rate or interest rate basis or formula, issue price, any relevant market measures, the maturity date, interest payment dates, redemption, or repayment provisions, if any, and other relevant terms and conditions for each note

at the time of issuance. A supplement also may include a discussion of any risk factors or other special additional considerations that apply to a particular type of note. Each applicable supplement can be quite detailed and always should be read carefully.

Any term that is used, but not defined, in this prospectus supplement has the meaning set forth in the accompanying prospectus.

RISK FACTORS

Your investment in the notes involves significant risks. Your decision to purchase the notes should be made only after carefully considering the risks of an investment in the notes, including those discussed below, in the accompanying prospectus beginning on page 9, and in the relevant supplement(s) for the specific notes, with your advisors in light of your particular circumstances. The notes are not an appropriate investment for you if you are not knowledgeable about significant elements of the notes or financial matters in general. For information regarding risks and uncertainties that may materially affect our business and results, please refer to the information under the captions "Item 1A. Risk Factors" and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report on Form 10-K for the year ended December 31, 2014, which is incorporated by reference in the accompanying prospectus, as well as those risks and uncertainties discussed in our subsequent filings that are incorporated by reference in the accompanying prospectus. You should also review the risk factors that will be set forth in other documents that we will file after the date of this prospectus supplement.

A resolution under our preferred single point of entry resolution strategy could adversely affect our liquidity and financial condition and our ability to pay the holders of our debt securities.

We are required annually to submit a plan to our primary regulatory authorities describing our resolution strategy under the U.S. Bankruptcy Code in the event of material financial distress or failure. In our current plan, our preferred resolution strategy is a single point of entry strategy. Under this strategy, upon certain severely adverse capital and liquidity conditions, before filing for resolution with the U.S. Bankruptcy Court, we would recapitalize certain key operating subsidiaries by contributing assets with the goal of enabling these subsidiaries to continue operating. Following this recapitalization, only Bank of America would be resolved under the U.S. Bankruptcy Code. We have arrangements with these key subsidiaries that govern these recapitalizations, and restrict the ability of these subsidiaries to provide funds to us through distributions and advances upon the occurrence of such capital and liquidity conditions. Any such recapitalizations under our resolution plan and/or these arrangements, or restrictions on the ability of our subsidiaries to provide funds to us, could (i) materially and adversely affect our liquidity and our ability to pay our obligations, including our obligations under the notes, and (ii) result in holders of notes being in a worse position and suffering greater losses than would have been the case under bankruptcy, FDIC receivership or a different resolution plan.

Our obligations on the notes will be structurally subordinated to liabilities of our subsidiaries.

Because we are a holding company, our right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent we may ourselves be recognized as a creditor of that subsidiary. As a result, our obligations under the notes will be structurally subordinated to all existing and future liabilities of our subsidiaries, and claimants should look only to our assets for payments. In addition, creditors of subsidiaries recapitalized pursuant to our current resolution plan would generally be entitled to payment of their claims from the assets of the subsidiaries, including our contributed assets.

Table of Contents

The ultimate impact of the Federal Reserve Board's recently proposed rules requiring U.S. G-SIBs to maintain minimum amounts of long-term debt meeting specified eligibility requirements is uncertain.

On October 30, 2015, the Federal Reserve Board released for comment proposed rules (the "TLAC Rules") that would require the eight U.S. globally systemically important banks ("G-SIBs"), including Bank of America, among other things, to maintain minimum amounts of long-term debt ("LTD") satisfying certain eligibility criteria commencing January 1, 2019. As proposed, the TLAC Rules would disqualify from eligible LTD, among other instruments, debt securities that permit acceleration for reasons other than insolvency or payment default, as well as debt securities defined as structured notes in the TLAC Rules and debt securities not governed by U.S. law. The currently outstanding senior LTD of U.S. G-SIBs, including Bank of America, typically permits acceleration for reasons other than insolvency or payment default and, as a result, neither such outstanding senior LTD nor any subsequently issued senior LTD with similar terms would qualify as eligible LTD under the proposed rules. The U.S. G-SIBs, including Bank of America, may need to take action to comply with the final TLAC Rules depending in substantial part on the ultimate eligibility requirements for senior LTD and any grandfathering provisions.

The market value of the notes may be less than the principal amount of the notes.

The market for, and market value of, the notes may be affected by a number of factors. These factors include:

the method of calculating the principal, premium, if any, interest or other amounts payable, if any, on the notes;

the time remaining to maturity of the notes;

the aggregate amount outstanding of the relevant notes;

any redemption or repayment features of the notes;

the level, direction, and volatility of market interest rates generally;

general economic conditions of the capital markets in the United States;

geopolitical conditions and other financial, political, regulatory, and judicial events that affect the stock markets generally; and

any market-making activities with respect to the notes.

Often, the only way to liquidate your investment in the notes prior to maturity will be to sell the notes. At that time, there may be a very illiquid market for the notes or no market at all. For indexed notes that have specific investment objectives or strategies, the applicable trading market may be more limited, and the price may be more volatile, than for other notes. The market value of indexed notes may be adversely affected by the complexity of the payout formula and volatility of the applicable market measure, including any dividend rates or yields of other securities or financial instruments that relate to the indexed notes. Moreover, the market value of indexed notes could be adversely affected by changes in the amount of outstanding debt, equity, or other securities linked to the applicable market measures, assets or formula applicable to those notes.

Table of Contents

Holders of indexed notes are subject to important risks that are not associated with more conventional debt securities.

If you invest in indexed notes, you will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities. These risks include the possibility that the applicable market measures may be subject to fluctuations, and the possibility that you will receive a lower, or no, amount of principal, premium, or interest, and at different times, than expected. In recent years, many securities, currencies, commodities, interest rates, indices, and other market measures have experienced volatility, and this volatility may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future. We have no control over a number of matters, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of market volatility and other risks and their impact on the value of, or payments made on, the indexed notes. Further, you should assume that there is no statutory, judicial, or administrative authority that addresses directly the characterization of some types of indexed notes or similar instruments for U.S. federal or other income tax purposes. As a result, the income tax consequences of an investment in indexed notes are not certain. In considering whether to purchase indexed notes, you should be aware that the calculation of amounts payable on indexed notes may involve reference to a market measure determined by one of our affiliates or prices or values that are published solely by third parties or entities which are not regulated by the laws of the United States. Additional risks that you should consider in connection with an investment in indexed notes are set forth in the applicable supplement(s) for the notes.

Our obligations under subordinated notes will be subordinated.

Holders of our subordinated notes should recognize that contractual provisions in the Subordinated Indenture may prohibit us from making payments on the subordinated notes. The subordinated notes are unsecured and subordinate and junior in right of payment to all of our senior indebtedness (as defined in the Subordinated Indenture), to the extent and in the manner provided in the Subordinated Indenture. In addition, the subordinated notes may be fully subordinated to interests held by the U.S. government in the event we enter into a receivership, insolvency, liquidation or similar proceedings, including a proceeding under the orderly liquidation authority provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. For additional information regarding the subordination provisions applicable to the subordinated notes, see [Description of Debt Securities](#) [Subordination](#) in the accompanying prospectus.

Our subordinated notes are subject to limited rights of acceleration.

Payment of our subordinated notes may be accelerated only in the event of our voluntary or involuntary bankruptcy under federal bankruptcy laws (and, in the case of our involuntary bankruptcy, continuing for a period of 60 days). If you purchase any subordinated notes, you will have no right to accelerate the payment of the subordinated notes if we fail to pay interest on such notes or if we fail in the performance of any of our other obligations under such notes.

Floating-rate notes bear additional risks.

If your notes bear interest at a floating rate, there will be additional significant risks not associated with a conventional fixed-rate debt security. These risks include fluctuation of the interest rates and the possibility that you will receive an amount of interest that is lower than expected. We have no control over a number of matters, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of market volatility and other risks and their impact on the value of, or payments made on, your floating-rate

Table of Contents

notes. In recent years, interest rates have been volatile, and that volatility may be expected in the future.

Our hedging activities may affect your return at maturity and the market value of the notes.

At any time, we or our affiliates may engage in hedging activities relating to the notes. This hedging activity, in turn, may increase or decrease the market value of the notes. In addition, we or our affiliates may acquire a long or short position in the notes from time to time. All or a portion of these positions may be liquidated at or about the time of maturity of the notes. The aggregate amount and the composition of these positions are likely to vary over time. We have no reason to believe that any of our hedging activities will have a material effect on the notes, either directly or indirectly, by impacting the value of the notes. However, we cannot assure you that our activities or affiliates' activities will not affect these values.

Our hedging and trading activities may create conflicts of interest with you.

From time to time during the term of each series of notes and in connection with the determination of the payments on the notes, we or our affiliates may enter into additional hedging transactions or adjust or close out existing hedging transactions. We or our affiliates also may enter into hedging transactions relating to other notes or instruments that we issue, some of which may have returns calculated in a manner related to that of a particular series of notes. We or our affiliates will price these hedging transactions with the intent to realize a profit, considering the risks inherent in these hedging activities, whether the value of the notes increases or decreases. However, these hedging activities may result in a profit that is more or less than initially expected, or could result in a loss.

We or one or more of our affiliates, including Merrill Lynch, Pierce, Fenner & Smith Incorporated, may engage in trading activities that are not for your account or on your behalf. These trading activities may present a conflict of interest between your interest in the notes and the interests we and our affiliates may have in our proprietary accounts, in facilitating transactions, including block trades, for our other customers, and in accounts under our management. These trading activities, if they influence the market measure or other reference asset (if any) for the notes or secondary trading (if any) in the notes, could be adverse to your interests as a beneficial owner of the notes.

DESCRIPTION OF THE NOTES

This section describes the general terms and conditions of the notes, which may be senior or subordinated medium-term notes. This section supplements, and should be read together with, the general description of our debt securities included in "Description of Debt Securities" in the accompanying prospectus. If there is any inconsistency between the information in this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement.

We will describe the particular terms of the notes we sell in a separate supplement. The terms and conditions stated in this section will apply to each note unless the note or the applicable supplement indicates otherwise.

Table of Contents

General

In addition to the following summary of the general terms of the notes and the indentures, you should review the actual notes and the specific provisions of the Senior Indenture and the Subordinated Indenture, as applicable, which are on file with the SEC.

We will issue the notes as part of a series of debt securities under the Senior Indenture or the Subordinated Indenture, as applicable, which are exhibits to our registration statement and are contracts between us and The Bank of New York Mellon Trust Company, N.A., as successor trustee. In this prospectus supplement, we refer to The Bank of New York Mellon Trust Company, N.A., as the trustee, and we refer to the Senior Indenture and the Subordinated Indenture individually as the Indenture and together as the Indentures.

The Indentures are subject to, and governed by, the Trust Indenture Act of 1939. We, the selling agents, and the depository, in the ordinary course of our respective businesses, have conducted and may conduct business with the trustee or its affiliates. See Description of Debt Securities The Indentures in the accompanying prospectus for more information about the Indentures and the functions of the trustee.

The notes are our direct unsecured obligations and are not obligations of our subsidiaries. The notes are being offered on a continuous basis. There is no limit under our registration statement on the total initial public offering price or aggregate principal amount of the Senior and Subordinated Medium-Term Notes, Series L, that may be offered using this prospectus supplement. We may issue other debt securities under the Indentures from time to time in one or more series up to the aggregate principal amount of the then-existing grant of authority by our board of directors.

Unless otherwise provided in the applicable supplement, the minimum denomination of the notes will be \$1,000 and any larger amount that is a whole multiple of \$1,000 (or the equivalent in other currencies). We may also issue the notes in units of \$10.

Types of Notes

Fixed-Rate Notes. We may issue notes that bear interest at a fixed rate described in the applicable supplement, which we refer to as fixed-rate notes. We also may issue fixed-rate notes that combine principal and interest payments in installment payments over the life of the note, which we refer to as amortizing notes. For more information on fixed-rate notes and amortizing notes, see Description of Debt Securities Fixed-Rate Notes in the accompanying prospectus.

Floating-Rate Notes. We may issue notes that bear interest at a floating rate of interest determined by reference to one or more base interest rates, or by reference to one or more interest rate formulae, described in the applicable supplement, which we refer to as floating-rate notes. In some cases, the interest rate of a floating-rate note also may be adjusted by adding or subtracting a spread or by multiplying the interest rate by a spread multiplier. A floating-rate note also may be subject to a maximum interest rate limit, or ceiling, and/or a minimum interest rate limit, or floor, on the interest that may accrue during any interest period. For more information on floating-rate notes, including a description of the manner in which interest payments will be calculated, see Description of Debt Securities Floating-Rate Notes in the accompanying prospectus.

Indexed Notes. We may issue notes that provide that the rate of return, including the principal, premium (if any), interest, or other amounts payable (if any), is determined by reference, either directly or indirectly, to the price or performance of one or more securities, commodities, currencies or composite currencies, interest rates, stock or commodity indices, exchange traded funds, currency indices, consumer price indices, inflation indices or other market measures, or any

Table of Contents

combination of the above, in each case as specified in the applicable supplement. We refer to these notes as indexed notes.

If you purchase an indexed note, you may receive an amount at maturity that is greater than or less than the face amount of your note, depending upon the formula used to determine the amount payable and the relative value at maturity of the market measure to which your indexed note is linked. We expect that the value of the applicable market measure will fluctuate over time.

An indexed note may provide either for cash settlement or for physical settlement by delivery of the relevant asset. An indexed note also may provide that the form of settlement may be determined at our option or the holder's option. Some indexed notes may be convertible, exercisable, or exchangeable prior to maturity, at our option or the holder's option, for the relevant asset or the cash value of the relevant asset.

We will specify in the applicable supplement the method for determining the principal, premium (if any), interest, or other amounts payable (if any) in respect of particular indexed notes, as well as certain historical or other information with respect to the specified index or other market measure, specific risk factors relating to that particular type of indexed note, and tax considerations associated with an investment in the indexed notes.

A supplement for any particular indexed notes also will identify the calculation agent that will calculate the amounts payable with respect to the indexed note. The calculation agent may be one of our affiliates, including Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S), Merrill Lynch Commodities, Inc., or Merrill Lynch Capital Services, Inc. We may appoint different calculation agents from time to time after the original issue date of an indexed note without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you, the selling agents, and us. Upon request of the holder of an indexed note, and to the extent set forth in the applicable supplement, the calculation agent will provide, if applicable, information relating to the current principal, premium (if any), rate of interest, interest payable, or other amounts payable (if any) in connection with that indexed note.

For more information about indexed notes, see *Description of Debt Securities – Indexed Notes* in the accompanying prospectus.

Original Issue Discount Notes. We may issue notes at a price lower than their principal amount or lower than their minimum guaranteed repayment amount at maturity, which we refer to as original issue discount notes. Original issue discount notes may be fixed-rate, floating-rate, or indexed notes and may bear no interest (zero coupon notes) or may bear interest at a rate that is below market rates at the time of issuance. For more information on original issue discount notes, see *Description of Debt Securities – Original Issue Discount Notes* in the accompanying prospectus.

Specific Terms of the Notes. The applicable supplement(s) for each offering of notes will contain additional terms of the offering and a specific description of those notes, including:

the specific designation of the notes;

the issue price;

the principal amount;

the issue date;

Each note will mature on a business day (as defined in the accompanying prospectus) three or more months from the issue date. Unless we specify otherwise in the supplement, the record dates for any interest payments for book-entry notes denominated in U.S. dollars will be one business day (in Charlotte, North Carolina and New York City) prior to the applicable payment date, and for any book-entry notes denominated in a currency other than U.S. dollars will be the fifteenth calendar day preceding the applicable payment date.

Unless we specify otherwise in the applicable supplement, the notes will not be entitled to the benefit of any sinking fund.

Payment of Principal, Interest, and Other Amounts Due

Paying Agents. Unless otherwise provided in the applicable supplement, the trustee will act as our paying agent, security registrar, and transfer agent with respect to the notes through the

trustee's corporate trust office. That office is currently located at 101 Barclay Street, New York, New York 10286. If specified in the applicable supplement, with respect to some of our notes, including notes denominated in euro, The Bank of New York Mellon will act as the London paying agent (the "London paying agent") through its London branch, which is located at the 48th Floor, One Canada Square, London, E14 5AL. At any time, we may rescind the designation of a paying agent, appoint a successor or an additional paying agent or different paying agent (including the London paying agent), or approve a change in the office through which any paying agent acts in accordance with the applicable Indenture. In addition, we may decide to act as our own paying agent with respect to some or all of the notes, and the paying agent may resign.

Calculation Agents. The trustee or the London paying agent also will act as the calculation agent for floating-rate notes, unless otherwise specified in the applicable supplement. We will identify the calculation agent for any indexed notes in the applicable supplement. The calculation agent will be responsible for calculating the interest rate, reference rates, principal, premium (if any), interest, or other amounts payable (if any) applicable to the floating-rate notes or indexed notes, as the case may be, and for certain other related matters. The calculation agent, at the request of the holder of any floating-rate note, will provide the interest rate then in effect and, if already determined, the interest rate that is to take effect on the next interest reset date, as described below, for the floating-rate note. At the request of the holder of any floating-rate note that is an indexed note, and to the extent set forth in the applicable supplement, the calculation agent will provide the reference rate or formula then in effect. We may replace any calculation agent or elect to act as the calculation agent for some or all of the notes, and the calculation agent may resign.

Manner of Payment. Unless otherwise stated in the applicable supplement, we will pay principal, premium (if any), interest, and other amounts payable (if any) on the notes in book-entry form in accordance with arrangements then in place between the applicable paying agent and the applicable depository. Unless otherwise stated in the applicable supplement, we will pay any interest on notes in certificated form on each interest payment date other than the maturity date by, in our discretion, wire transfer of immediately available funds or check mailed to holders of the notes on the applicable record date at the address appearing on our or the security registrar's records. Unless otherwise stated in the applicable supplement, we will pay any principal, premium (if any), interest, and other amounts payable (if any) at the maturity date of a note in certificated form by wire transfer of immediately available funds upon surrender of the note at the corporate trust office of the trustee, the London paying agent or such other paying agent specified in the applicable supplement, as applicable.

Currency Conversions and Payments on Notes Denominated in Currencies Other than U.S. Dollars. For any notes denominated in a currency other than U.S. dollars, the initial investors will be required to pay for the notes in that foreign currency. The applicable selling agent may arrange for the conversion of U.S. dollars into the applicable foreign currency to facilitate payment for the notes by U.S. purchasers electing to make the initial payment in U.S. dollars. Any such conversion will be made by that selling agent on the terms and subject to the conditions, limitations, and charges as it may establish from time to time in accordance with its regular foreign exchange procedures, and subject to United States laws and regulations. All costs of any such conversion for the initial purchase of the notes will be borne by the initial investors using those conversion arrangements.

We generally will pay principal, premium (if any), interest, and other amounts payable (if any) on notes denominated in a currency other than U.S. dollars in the applicable foreign currency. Holders of beneficial interests in notes through a participant in The Depository Trust Company, or "DTC," will receive payments in U.S. dollars, unless they elect to receive payments on those notes in the applicable foreign currency. If a holder through DTC does not make an election through its

Table of Contents

DTC participant to receive payments in the applicable foreign currency, the exchange rate agent for the relevant notes, which will be named in the applicable supplement, will convert payments to that holder into U.S. dollars, and all costs of those conversions will be borne by that holder by deduction from the applicable payments.

For holders not electing payment in the applicable foreign currency, the U.S. dollar amount of any payment will be the amount of the applicable foreign currency otherwise payable, converted into U.S. dollars at the applicable exchange rate prevailing as of 11:00 a.m. (New York City time) on the second business day prior to the relevant payment dates, less any costs incurred by the exchange rate agent for that conversion. The costs of those conversions will be shared pro rata among the holders of beneficial interests in the applicable global notes receiving U.S. dollar payments in the proportion of their respective holdings. The exchange rate agent will make those conversions in accordance with the terms of the applicable note and with any applicable arrangements between us and the exchange rate agent.

If an exchange rate quotation is unavailable from the entity or source ordinarily used by the exchange rate agent in the normal course of business, the exchange rate agent will obtain a quotation from a leading foreign exchange bank in New York City, which may be an affiliate of the exchange rate agent or another entity selected by the exchange rate agent for that purpose after consultation with us. If no quotation from a leading foreign exchange bank is available, payment will be made in the applicable foreign currency to the account or accounts specified by DTC to the applicable paying agent, unless the applicable foreign currency is unavailable due to the imposition of exchange controls or other circumstances beyond our control. If payment on a note is required to be made in a currency other than U.S. dollars and that currency is unavailable due to the imposition of exchange controls or other circumstances beyond our control, or is no longer used by the government of the relevant country or for the settlement of transactions by public institutions of or within the international banking community (and is not replaced by another currency), then all payments on that note will be made in U.S. dollars on the basis of the most recently available market exchange rate for the applicable foreign currency. Any payment on a note so made in U.S. dollars will not constitute an event of default under the applicable notes.

The holder of a beneficial interest in global notes held through a DTC participant may elect to receive payments on those notes in a foreign currency by notifying the DTC participant through which it holds its beneficial interests on or prior to the fifteenth business day prior to the record date for the applicable notes of (1) that holder's election to receive all or a portion of the payment in the applicable foreign currency and (2) wire transfer instructions to an account for the applicable foreign currency outside the United States. DTC must be notified of that election and wire transfer instructions (a) on or prior to the fifth business day after the record date for any payment of interest and (b) on or prior to the tenth business day prior to the date for any payment of principal. DTC will notify the trustee of the election and wire transfer instructions (1) on or prior to 5:00 p.m. New York City time on the fifth business day after the record date for any payment of interest and (2) on or prior to 5:00 p.m. New York City time on the tenth business day prior to the date for any payment of principal. If complete instructions are forwarded to and received by DTC through a DTC participant and forwarded by DTC to the trustee and received on or prior to the dates described above, the holder will receive payment in the applicable foreign currency outside DTC; otherwise, only U.S. dollar payments will be made by the trustee to DTC.

For purposes of the above discussion about currency conversions and payments on notes denominated in a foreign currency, the term "business day" means any weekday that is not a legal holiday in New York, New York or Charlotte, North Carolina and is not a day on which banking institutions in those cities are authorized or required by law or regulation to be closed.

Payment of Additional Amounts. If we so specify in the applicable supplement, additional amounts will be payable to a beneficial holder of notes that is a non-U.S. person. Our obligation to pay additional amounts to non-U.S. persons is subject to the limitations described under **Description of Debt Securities** **Payment of Additional Amounts** in the accompanying prospectus. If we so specify in the applicable supplement, we may redeem the notes in whole, but not in part, at any time before maturity if we have or will become obligated to pay additional amounts as a result of a change in, or amendment to, U.S. tax laws or regulations, as described under **Description of Debt Securities** **Redemption for Tax Reasons** in the accompanying prospectus.

For more information about payment procedures, including payments in a currency other than U.S. dollars, see **Description of Debt Securities** **Payment of Principal, Interest, and Other Amounts Due** in the accompanying prospectus.

Ranking

Because we are a holding company, our right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent we may ourselves be recognized as a creditor of that subsidiary. Accordingly, our obligations under senior notes or subordinated notes will be structurally subordinated to all existing and future liabilities of our subsidiaries, and claimants should look only to our assets for payments.

Senior Notes. The senior notes will be unsecured and will rank equally with all our other unsecured and unsubordinated obligations from time to time outstanding, except obligations, including deposit liabilities, that are subject to any priorities or preferences by law.

The Senior Indenture and the senior notes do not contain any limitation on the amount of obligations that we may incur in the future.

Subordinated Notes. Our indebtedness evidenced by the subordinated notes, including the principal, premium (if any), interest, and other amounts payable (if any), will be unsecured and will be subordinate and junior in right of payment to all of our senior indebtedness from time to time outstanding to the extent and in the manner provided in the Subordinated Indenture. The subordinated notes will rank equally in right of payment with all our other unsecured and subordinated indebtedness, other than unsecured and subordinated indebtedness that by its terms is subordinated to the subordinated notes. Payment of principal of our subordinated indebtedness, including any subordinated notes, may not be accelerated if there is a default in the payment of amounts due under, or a default in any of our other covenants applicable to, our subordinated indebtedness.

The Subordinated Indenture and the subordinated notes do not contain any limitation on the amount of obligations ranking senior to the subordinated notes, or the amount of obligations ranking equally with the subordinated notes, that we may incur in the future.

Unless we specify otherwise in the applicable supplement, the subordinated notes will not be guaranteed by us or any of our affiliates and will not be subject to any other arrangement that legally or economically enhances the ranking of the subordinated notes.

For more information about our subordinated notes, see **Description of Debt Securities** **Subordination** in the accompanying prospectus.

Redemption

The applicable supplement will indicate whether we have the option to redeem notes prior to their maturity date. If we may redeem the notes prior to maturity, the applicable supplement will indicate the redemption price and method for redemption. See also Description of Debt Securities Redemption in the accompanying prospectus. Unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be redeemed prior to maturity without the requisite prior approvals, if any, from applicable regulators.

Repayment

The applicable supplement will indicate whether the notes can be repaid at the holder's option prior to their maturity date. If the notes may be repaid prior to maturity, the applicable supplement will indicate the amount at which we will repay the notes and the procedure for repayment. Unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be repaid prior to maturity without the requisite prior approvals, if any, from applicable regulators.

Reopenings

We have the ability to reopen, or increase after the issuance date, the principal amount of a particular tranche or series of our notes without notice to the holders of existing notes by selling additional notes having the same terms, provided that such additional notes shall be fungible for U.S. federal income tax purposes. However, any new notes of this kind may have a different offering price and may begin to bear interest at a different date.

Extendible/Renewable Notes

We may issue notes for which the maturity date may be extended at our option or renewed at the option of the holder for one or more specified periods, up to but not beyond the final maturity date stated in the note. The specific terms of and any additional considerations relating to extendible or renewable notes will be set forth in the applicable supplement.

Other Provisions

Any provisions with respect to the determination of an interest rate basis, the specification of interest rate basis, the calculation of the applicable interest rate, the amounts payable at maturity, interest payment dates, or any other related matters for a particular tranche of notes, may be modified as described in the applicable supplement.

Repurchase

We, or our affiliates, may purchase at any time our notes by tender, in the open market at prevailing prices or in private transactions at negotiated prices. If we purchase notes in this manner, we have the discretion to hold, resell, or cancel any repurchased notes. Unless we specify otherwise in the applicable supplement, to the extent then required by applicable laws or regulations, the subordinated notes may not be repurchased prior to maturity without the requisite prior approvals, if any, from applicable regulators.

Form, Exchange, Registration, and Transfer of Notes

We will issue each note in book-entry only form. This means that we will not issue certificated notes to each beneficial owner. Instead, the notes will be in the form of a global note or a master global note, in fully registered form, registered and held in the name of the applicable depository or a nominee of that depository. For notes denominated in a currency other than U.S. dollars, the notes may be issued in the form of two global notes, each in fully registered form, one of which will be deposited with DTC, or its custodian, and one of which will be deposited with a common depository for Euroclear Bank SA/NV (Euroclear) and/or Clearstream Banking, société anonyme, Luxembourg (Clearstream). Unless we specify otherwise in the applicable supplement, the depository for the notes will be DTC. DTC, Euroclear, and Clearstream, as depositories for global securities, and some of their policies and procedures are described under Registration and Settlement Depositories for Global Securities in the accompanying prospectus. For more information about book-entry only notes and the procedures for registration, settlement, exchange, and transfer of book-entry only notes, see Description of Debt Securities Form and Denomination of Debt Securities and Registration and Settlement in the accompanying prospectus.

If we ever issue notes in certificated form, unless we specify otherwise in the applicable supplement, those notes will be in registered form, and the exchange, registration, or transfer of those notes will be governed by the applicable Indenture and the procedures described under Description of Debt Securities Exchange, Registration, and Transfer and Registration and Settlement Registration, Transfer, and Payment of Certificated Securities in the accompanying prospectus.

U.S. FEDERAL INCOME TAX CONSIDERATIONS

For the material U.S. federal income tax considerations of the acquisition, ownership and disposition of certain notes, see U.S. Federal Income Tax Considerations on page 99 of the accompanying prospectus and the subsection Taxation of Debt Securities of that section. Special U.S. federal income tax rules are applicable to certain types of notes we may issue under this prospectus supplement. The material U.S. federal income tax considerations with respect to any notes we issue, and which are not addressed in the accompanying prospectus, will be discussed in the applicable supplement.

The following paragraph supplements the discussion under U.S. Federal Income Tax Considerations Foreign Account Tax Compliance Act beginning on page 122 of the accompanying prospectus.

The IRS has announced that withholding and reporting under the Foreign Account Tax Compliance Act on payments of gross proceeds from a sale or redemption of the notes will only apply to payments made after December 31, 2018.

You should consult with your own tax advisor before investing in the notes.

SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

We are offering the notes for sale on a continuing basis through the selling agents. The selling agents may act either on a principal basis or on an agency basis. We may offer the notes at varying prices relating to prevailing market prices at the time of resale, as determined by the selling agents, or, if so specified in the applicable supplement, for resale at a fixed public offering price. The applicable supplement will set forth the initial price for the notes, or whether they will be sold at varying prices.

Table of Contents

If we sell notes on an agency basis, we will pay a commission to the selling agent to be negotiated at the time of sale. The commission will be determined at the time of sale and will be specified in the applicable supplement. Each selling agent will use its reasonable best efforts when we request it to solicit purchases of the notes as our agent.

Unless otherwise agreed and specified in the applicable supplement, if notes are sold to a selling agent acting as principal, for its own account, or for resale to one or more investors or other purchasers, including other broker-dealers, then any notes so sold will be purchased by that selling agent at a price equal to 100% of the principal amount of the notes less a commission that will be a percentage of the principal amount determined as described above. Notes sold in this manner may be resold by the selling agent to investors and other purchasers from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, or the notes may be resold to other dealers for resale to investors. The selling agents may allow any portion of the discount received in connection with the purchase from us to the dealers, but the discount allowed to any dealer will not be in excess of the discount to be received by the selling agent from us. After the initial public offering of notes, the selling agent may change the public offering price or the discount allowed to dealers.

We also may sell notes directly to investors, without the involvement of any selling agent. In this case, we would not be obligated to pay any commission or discount in connection with the sale, and we would receive 100% of the principal amount of the notes so sold, unless otherwise specified in the applicable supplement.

We will name any selling agents or other persons through which we sell any notes, as well as any commissions or discounts payable to those selling agents or other persons, in the applicable supplement. As of the date of this prospectus supplement, our selling agent is MLPF&S. We will enter into a distribution agreement with MLPF&S that describes the offering of notes by them as our agent and as our principal. A form of distribution agreement has been filed as an exhibit to the registration statement of which this prospectus supplement forms a part. We also may accept offers to purchase notes through additional selling agents on substantially the same terms and conditions, including commissions, as would apply to purchases through MLPF&S under the distribution agreement. If a selling agent purchases notes as principal, that selling agent usually will be required to enter into a separate purchase agreement for the notes, and may be referred to in that purchase agreement and the applicable supplement, along with any other selling agents, as underwriters.

We have the right to withdraw, cancel, or modify the offer made by this prospectus supplement without notice. We will have the sole right to accept offers to purchase notes, and we, in our absolute discretion, may reject any proposed purchase of notes in whole or in part. Each selling agent will have the right, in its reasonable discretion, to reject in whole or in part any proposed purchase of notes through that selling agent.

Any selling agent participating in the distribution of the notes may be considered to be an underwriter, as that term is defined in the Securities Act. We have agreed to indemnify each selling agent and certain other persons against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that the selling agents may be required to make. We also have agreed to reimburse the selling agents for certain expenses.

The notes will not have an established trading market when issued, and we do not intend to list the notes on any securities exchange, unless otherwise specified in the applicable supplement. Any selling agent may purchase and sell notes in the secondary market from time to time. However, no selling agent is obligated to do so, and any selling agent may discontinue making a

Table of Contents

market in the notes at any time without notice. There is no assurance that there will be a secondary market for any of the notes.

To facilitate offerings of the notes by a selling agent that purchases notes as principal, and in accordance with industry practice, selling agents may engage in transactions that stabilize, maintain, or otherwise affect the market price of the notes. Those transactions may include over-allotment, entering stabilizing bids, effecting syndicate-covering transactions, and imposing penalty bids to reclaim selling concessions allowed to a member of the syndicate or to a dealer, as follows:

An over-allotment in connection with an offering creates a short position in the offered securities for the selling agent's own account.

A selling agent may place a stabilizing bid to purchase a note for the purpose of pegging, fixing, or maintaining the price of that note.

Selling agents may engage in syndicate-covering transactions to cover over-allotments or to stabilize the price of the notes by bidding for, and purchasing, the notes or any other securities in the open market in order to reduce a short position created in connection with the offering.

The selling agent that serves as syndicate manager may impose a penalty bid on a syndicate member to reclaim a selling concession in connection with an offering when offered securities originally sold by the syndicate member are purchased in syndicate-covering transactions, in stabilization transactions, or otherwise.

Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The selling agents are not required to engage in these activities, and may end any of these activities at any time.

MLPF&S, a selling agent and one of our affiliates, is a broker-dealer and member of the Financial Industry Regulatory Authority, Inc., or FINRA. Each initial offering and any remarketing of notes involving any of our broker-dealer affiliates, including MLPF&S, will be conducted in compliance with the requirements of FINRA Rule 5121 regarding a FINRA member firm's offer and sale of securities of an affiliate. None of our broker-dealer affiliates that is a FINRA member will execute a transaction in the notes in a discretionary account without specific prior written approval of the customer, see Plan of Distribution (Conflicts of Interest) Conflicts of Interest in the accompanying prospectus.

Following the initial distribution of any notes, our affiliates, including MLPF&S, may buy and sell the notes in market-making transactions as part of their business as a broker-dealer. Resales of this kind may occur in the open market or may be privately negotiated at prevailing market prices at the time of sale. Notes may be sold in connection with a remarketing after their purchase by one or more firms. Any of our affiliates may act as principal or agent in these transactions.

This prospectus supplement may be used by one or more of our affiliates in connection with offers and sales related to market-making transactions in the notes, including block positioning and block trades, to the extent permitted by applicable law. Any of our affiliates may act as principal or agent in these transactions.

Notes sold in market-making transactions include notes issued after the date of this prospectus supplement as well as previously-issued securities. Information about the trade and settlement dates, as well as the purchase price, for a market-making transaction will be provided to the purchaser in a separate confirmation of sale. Unless we or one of our selling agents informs you in

Table of Contents

the confirmation of sale that notes are being purchased in an original offering and sale, you may assume that you are purchasing the notes in a market-making transaction.

MLPF&S and other selling agents that we may name in the future, or their affiliates, have engaged, and may in the future engage, in investment banking, commercial banking, and financial advisory transactions with us and our affiliates. These transactions are in the ordinary course of business for the selling agents and us and our respective affiliates. In these transactions, the selling agents or their affiliates receive customary fees and expenses.

Although we expect that delivery of the notes generally will be made against payment on or about the third business day following the date of any contract for sale, we may specify a shorter or a longer settlement cycle in the applicable supplement. Under Rule 15c6-1 of the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, if we have specified a longer settlement cycle in the applicable supplement for an offering of securities, purchasers who wish to trade those securities on the date of the contract for sale, or on one or more of the next succeeding business days as we will specify in the applicable supplement, will be required, by virtue of the fact that those securities will settle in more than T+3, to specify an alternative settlement cycle at the time of the trade to prevent a failed settlement and should consult their own advisors in connection with that election.

indirectly, in the People's Republic of China, except under circumstances that will result in compliance with applicable laws and regulations.

European Economic Area. In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each selling agent has represented and agreed, and each further selling agent appointed under the program will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date), it has not made and will not make an offer of notes which are the subject of the offering contemplated by this prospectus supplement and the accompanying prospectus to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such notes to the public in that Relevant Member State:

For the purposes of this provision, the expression an **offer of notes to the public**, in relation to any notes in any Relevant Member State, means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression **Prospectus Directive** means Directive 2003/71/EC (as amended by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

- (a) it has only made and will only make an offer of the notes to the public (*offre au public*) in France or an admission of the notes to trading on a regulated market in France in the period beginning (i) when a prospectus in relation to those notes has been approved by the AMF, on the date of such publication, or (ii) when a prospectus in relation to those notes has been approved by the competent authority of another Member State of the European Economic Area which has implemented the EU Prospectus Directive 2003/71/EC, on the date of notification of such approval to the AMF and, in either case, when the formalities required by French laws and regulations have been carried out, and ending at the latest on the date which is 12 months after the date of the approval of the prospectus, all in accordance with articles L.412-1 and L.621-8 to L.621-8-3 of the French *Code monétaire et financier* and the *Règlement général* of the AMF; or

- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation, or document relating to the notes, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the notes that are or are intended to be disposed of (i) only to persons outside Hong Kong or (ii) only to professional investors as defined in the SFO and any rules made under the SFO.

In addition and without prejudice to the foregoing, any offer, sale or delivery of the notes or distribution of copies of this prospectus supplement and the accompanying prospectus or any other document relating to such notes in the Republic of Italy under (a) or (b) above must be:

Furthermore, Article 100-bis of the Financial Services Act affects the transferability of the notes in

the Republic of Italy to the extent that any placing of the notes is made solely with qualified investors and the notes are then systematically resold to non-qualified investors on the secondary market at any time in the 12 months following such placing. Where this occurs, if a prospectus has not been published, purchasers of the notes who are acting outside of the course of their business or profession may be entitled to declare such purchase null and void and to claim damages from any authorized intermediary at whose premises the notes were purchased, unless an exemption provided for by the Financial Services Act applies.

Japan. The notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Act No. 25 of 1948, as amended, the FIEL). Each selling agent has represented and agreed that it has not offered or sold and will not offer or sell any notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person or resident in Japan, including any corporation or other entity organized under the laws of Japan) or to others for reoffering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEL and any other applicable laws, regulations, and ministerial guidelines of Japan.

If the offer is made by way of a Qualified Institutional Investors Private Placement as set out in Article 2, Paragraph 3, Item 2(i) or Article 2, Paragraph 4, Item 2(i) of the FIEL (the QII Private Placement), the notes are being offered to qualified institutional investors (the QIIs) as defined in Article 10 of the Cabinet Office Ordinance Concerning the Definition of Terms provided in Article 2 of the FIEL and the investor in any notes is prohibited from transferring such notes in Japan to any person in any way other than to QIIs. As the offering of the notes satisfies the requirements provided in Article 2, Paragraph 3, Item 2(i) or Article 2, Paragraph 4, Item 2(i) of the FIEL, no securities registration statement has been or will be filed under Article 4, Paragraph 1 of the FIEL.

Except in the case the offering is made by way of QII Private Placement, the notes are being offered only to a small number of potential investors (i.e., less than 50 offerees, except QIIs who are offered the notes pursuant to the QII Private Placement), and the investor of any notes (other than the above-mentioned QII investors) is prohibited from transferring such notes to another person in any way other than as a whole to one transferee. As the offering of the notes satisfies the requirements provided in Article 2, Paragraph 3, Item 2(ha) or Article 2, Paragraph 4, Item 2(ha) of the FIEL, no securities registration statement has been or will be filed under Article 4, Paragraph 1 of the FIEL.

Mexico. The notes have not been and will not be registered in the National Securities Registry (*Registro Nacional de Valores*). Therefore, the notes may not be offered or sold in the United Mexican States (Mexico) by any means except in circumstances which constitute a private offering (*oferta privada*) pursuant to Article 8 of the Securities Market Law (*Ley del Mercado de Valores*) and its regulations. Currency Risks

We may issue securities denominated in or whose principal and/or interest is payable in a currency other than U.S. dollars, which we refer to as "Non-U.S. Dollar-Denominated Securities." If you intend to invest in any Non-U.S. Dollar-Denominated Securities, you should consult your own financial and legal advisors as to the currency risks related to your investment. The Non-U.S. Dollar-Denominated Securities are not an appropriate investment for you if you are not knowledgeable about the significant terms and conditions of the Non-U.S. Dollar-Denominated Securities, non-U.S. dollar currency transactions, or financial matters in general. The information in this prospectus is directed primarily to investors who are U.S. residents. Investors who are not U.S. residents should consult their own financial and legal advisors about currency-related risks arising from their investment.

An investment in a Non-U.S. Dollar-Denominated Security involves currency-related risks. An investment in a Non-U.S. Dollar-Denominated Security entails significant risks that are not associated with a similar investment in a security that is payable solely in U.S. dollars. These risks include possible significant changes in rates of exchange between the U.S. dollar and the relevant non-U.S. dollar currency or currencies and the imposition or modification of foreign exchange controls or other conditions by either the United States or non-U.S. governments. These risks generally depend on factors over which we have no control, such as economic and political events and the supply of and demand for the relevant currencies in the global markets.

Changes in currency exchange rates can be volatile and may adversely affect an investment in Non-U.S. Dollar-Denominated Securities. In recent years, exchange rates between the U.S. dollar and other currencies have been highly volatile. This volatility may continue and could spread to other currencies in the future. Fluctuations in currency exchange rates could affect adversely an investment in a Non-U.S. Dollar-Denominated Security, and such changes in exchange rates may vary considerably during the life of that security. Depreciation of the specified currency against the U.S. dollar could result in a decrease in the U.S. dollar-equivalent value of payments on the Non-U.S. Dollar-Denominated Securities, including the principal payable at maturity or the redemption amount payable upon those securities. That in turn could cause the market value of the Non-U.S. Dollar-Denominated Securities to fall.

We will not adjust Non-U.S. Dollar-Denominated Securities to compensate for changes in foreign currency exchange rates. Except as described below or in a supplement, we will not make any adjustment in or change to the terms of the Non-U.S. Dollar-Denominated

Table of Contents

Securities for changes in the foreign currency exchange rate for the relevant currency, including any devaluation, revaluation, or imposition of exchange or other regulatory controls or taxes, or for other developments affecting that currency, the U.S. dollar, or any other currency. Consequently, you will bear the risk that your investment may be affected adversely by these types of events.

Government policy can adversely affect foreign currency exchange rates and an investment in a Non-U.S. Dollar-Denominated Security. Foreign currency exchange rates either can float or be fixed by sovereign governments. Governments or governmental bodies, including the European Central Bank, may intervene from time to time in their economies to alter the exchange rate or exchange characteristics of their currencies. For example, a central bank may intervene to devalue or revalue a currency or to replace an existing currency. In addition, a government may impose regulatory controls or taxes to affect the exchange rate of its currency or may issue a new currency or replace an existing currency. As a result, the yield or payout of a Non-U.S. Dollar-Denominated Security could be affected significantly and unpredictably by governmental actions. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in the country or region issuing the specified currency for a Non-U.S. Dollar-Denominated Security or elsewhere could result in significant and sudden changes in the exchange rate between the U.S. dollar and the specified currency. Changes in exchange rates could affect the value of the Non- U.S. Dollar-Denominated Securities as participants in the global currency markets move to buy or sell the specified currency or U.S. dollars in reaction to these developments.

If a governmental authority imposes exchange controls or other conditions, such as taxes on the exchange or transfer of the specified currency, there may be limited availability of the specified currency for payment on the Non-U.S. Dollar-Denominated Securities at their maturity or on any other payment date. In addition, the ability of a holder to move currency freely out of the country in which payment in the currency is received or to convert the currency at a freely determined market rate could be limited by governmental actions.

Non-U.S. Dollar-Denominated Securities may permit us to make payments in U.S. dollars if we are unable to obtain the specified currency. The terms of any Non-U.S. Dollar-Denominated Securities may provide that we may have the right to make a payment in U.S. dollars instead of the specified currency, if at or about the time when the payment on the Non-U.S. Dollar-Denominated Securities comes due, the specified currency is subject to convertibility, transferability, market disruption, or other conditions affecting its availability because of circumstances beyond our control. These circumstances could include the imposition of exchange controls, our inability to obtain the specified currency because of a disruption in the currency markets for the specified currency, or unavailability because the specified currency is no longer used by the government of the relevant country or for settlement of transactions by public institutions of or within the international banking community. The exchange rate used to make payment in U.S. dollars may be based on limited information and would involve significant discretion on the part of our exchange rate agent who may be one of our affiliates. As a result, the value of the payment in U.S. dollars may be less than the value of the payment you would have received in the specified currency if the specified currency had been available. The exchange rate agent will generally not have any liability for its determinations.

An investor may bear foreign currency exchange risk in a lawsuit for payment on Non-U.S. Dollar-Denominated Securities. Any Non-U.S. Dollar-Denominated Securities typically will be governed by New York law. Under Section 27 of the New York Judiciary Law, a state court in the State of New York rendering a judgment on the Non-U.S. Dollar-Denominated Debt Securities would be required to render the judgment in the specified currency. In turn, the judgment would be converted into U.S. dollars at the exchange rate prevailing on the date of entry

Table of Contents

of the judgment. Consequently, in a lawsuit for payment on the Non-U.S. Dollar-Denominated Securities, you would bear currency exchange risk until judgment is entered, which could be a long time.

In courts outside of New York, you may not be able to obtain judgment in a specified currency other than U.S. dollars. For example, a judgment for money in an action based on Non-U.S. Dollar-Denominated Securities in many other U.S. federal or state courts ordinarily would be enforced in the United States only in U.S. dollars. The date and method used to determine the rate of conversion of the specified currency into U.S. dollars will depend on various factors, including which court renders the judgment.

Information about foreign currency exchange rates may not be indicative of future performance. If we issue a Non-U.S. Dollar-Denominated Security, we may include in the applicable supplement information about historical exchange rates for the relevant non-U.S. dollar currency or currencies. Any information about exchange rates that we may provide will be furnished as a matter of information only, and you should not regard the information as indicative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future.

Reform of LIBOR and EURIBOR and Proposed Regulation of These and Other Benchmarks

The London Interbank Offered Rate (LIBOR), the Euro Interbank Offered Rate (EURIBOR), and other indices which are deemed benchmarks are the subject of recent national, international, and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, or have other consequences which cannot be predicted.

In September 2012, the U.K. government published the results of its review of LIBOR (commonly referred to as the Wheatley Review). The Wheatley Review made a number of recommendations for changes with respect to LIBOR including the introduction of statutory regulation of LIBOR, the transfer of responsibility for LIBOR from the British Bankers Association to an independent administrator, changes to the method of compilation of lending rates and new regulatory oversight and enforcement mechanisms for rate-setting. Based on the Wheatley Review, final rules for the regulation and supervision of LIBOR by the Financial Conduct Authority (the FCA) were published and came into effect on April 2, 2013 (the FCA Rules). In particular, the FCA Rules include requirements that (i) an independent LIBOR administrator monitor and survey LIBOR submissions to identify breaches of practice standards and/or potentially manipulative behavior, and (ii) firms submitting data to LIBOR establish and maintain a clear conflicts of interest policy and appropriate systems and controls. In response to the Wheatley Review recommendations, ICE Benchmark Administration Limited (the ICE Administration) has been appointed as the independent LIBOR administrator, effective February 1, 2014.

It is not possible to predict the effect of the FCA Rules, any changes in the methods pursuant to which the LIBOR rates are determined, and any other reforms to LIBOR that will be enacted in the U.K., which may adversely affect the trading market for LIBOR-based securities. In addition, any changes announced by the FCA, the ICE Administration, or any other successor governance or oversight body in the method pursuant to which the LIBOR rates are determined may result in a sudden or prolonged decrease (or increase) in the reported LIBOR rates. If that were to occur, the level of interest payments on and the trading value of LIBOR-based securities may be adversely affected. Further, uncertainty as to the extent and manner in which the Wheatley Review recommendations will continue to be adopted and the timing of such changes may adversely affect the current trading market for LIBOR-based securities.

Table of Contents

At an international level, proposals for the reform of benchmarks include (i) IOSCO's Principles for Financial Market Benchmarks (July 2013), (ii) ESMA-EBA's Principles for the benchmark-setting process (June 2013), and (iii) the European Commission's proposed regulation on indices used as benchmarks in certain financial instruments, financial contracts and investment funds (September 2013) (the Proposed Benchmark Regulation).

The Proposed Benchmark Regulation, if passed in its current form, would apply to contributors, administrators and users of benchmarks in the European Union, and would, among other things, (i) require benchmark administrators to be authorized (or, if non-European Union-based, to be subject to an equivalent regulatory regime) and to comply with extensive requirements in relation to the administration of benchmarks and (ii) ban the use of benchmarks of unauthorized administrators. The scope of the Proposed Benchmark Regulation is wide and, in addition to so-called critical benchmark indices such as LIBOR and EURIBOR, could also potentially apply to many interest rate and foreign exchange rate indices, equity indices, and other indices (including proprietary indices or strategies) where referenced in financial instruments, financial contracts, and investment funds.

It is presently unclear whether the Proposed Benchmark Regulation will be passed in its current form (and in particular, whether it will have the broad scope currently envisaged) and, if so, when it would become effective. However, if so enacted, it could potentially have a material impact on any securities based on or linked to a benchmark index in a range of circumstances including, without limitation, where:

the administrator of an index which is a benchmark relating to a series of securities does not have or obtain or ceases to have the appropriate European Union authorizations in order to operate such a benchmark or is based in a non-European Union jurisdiction which does not have equivalent regulation. In such an event, depending on the particular benchmark and the applicable terms of the securities, the securities could be de-listed (if listed) or may otherwise be adversely affected; and

the methodology or other terms of the benchmark relating to a series of securities is changed in order to comply with the terms of the Proposed Benchmark Regulation, and such changes have the effect of reducing or increasing the published rate or level of the benchmark or of affecting the volatility of such published rate or level, or otherwise result in an adverse effect on the trading market for, return on or the value of the relevant securities.

More broadly, the FCA Rules, the Proposed Benchmark Regulation, and any of the other international, national, or other proposals for reform or general increased regulatory scrutiny of benchmarks could have a material adverse effect on the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain benchmarks, trigger changes in the rules or methodologies used in the determination of certain benchmarks, or may even lead to the disappearance of certain benchmarks. The disappearance of, or uncertainty relating to the continued existence of, a benchmark or changes in the manner of determination of or administration of a benchmark may adversely affect the trading market for, return on, or value of benchmark-based securities.

In addition to the international proposals for the reform of benchmarks described above, there are numerous other proposals, initiatives, and investigations which may impact the use and regulation of benchmarks. For example, there are ongoing global investigations into the setting of foreign exchange rate benchmarks, which may result in further regulation around the setting of foreign exchange rates.

Table of Contents

Any of the above changes or any other consequential changes to LIBOR, EURIBOR, or any other benchmark as a result of U.K., European Union, or other international, national, or other proposals for reform or other initiatives or investigations, or any further uncertainty in relation to the timing and manner of implementation of such changes could have a material adverse effect on the value of and return on any securities based on or linked to a benchmark.

Risks Related to Our Common Stock and Preferred Stock

You may not receive dividends on our common stock. Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. Furthermore, holders of our common stock are subject to the prior dividend rights of holders of our preferred stock or the depository shares representing such preferred stock then outstanding. Although we have historically declared cash dividends on our common stock, we are not required to do so and may reduce or eliminate our common stock dividend in the future.

Our common stock is equity and is subordinate to our existing and future indebtedness and preferred stock. Shares of our common stock are equity interests in us and do not constitute indebtedness. This means that shares of our common stock will rank junior to all of our indebtedness and to other non-equity claims against us and our assets available to satisfy claims against us, including claims in our liquidation. Additionally, holders of our common stock are subject to the prior dividend and liquidation rights of holders of our outstanding preferred stock or depository shares representing interests in such preferred stock then outstanding. Our board of directors is authorized to issue additional classes or series of preferred stock without any action on the part of the holders of our common stock. As of March 31, 2015, the aggregate liquidation preference of all our outstanding preferred stock was approximately \$24.6 billion.

Our preferred stock is equity and is subordinate to our existing and future indebtedness. Shares of our preferred stock are equity interests in us and do not constitute indebtedness. This means that shares of our preferred stock and any depository shares which represent interests in shares of our preferred stock will rank junior to all of our indebtedness and to other non-equity claims against us and our assets available to satisfy claims against us, including claims in our liquidation. Our existing and future indebtedness may restrict payment of dividends on our preferred stock. In addition, holders of our preferred stock or depository shares representing interests in shares of our preferred stock may be fully subordinated to interests held by the U.S. government in the event that we enter into a receivership, insolvency, liquidation, or similar proceeding.

Cash dividends on our preferred stock are subject to certain limitations. Unlike indebtedness, where principal and interest customarily are payable on specified due dates, in the case of our preferred stock (1) dividends are payable only when, as and if declared by our board of directors or a duly authorized committee of the board and (2) as a corporation, we are restricted to making dividend payments and redemption payments out of legally available funds. In addition, under the Federal Reserve Board's risk-based capital rules related to additional Tier 1 capital instruments, dividends on our preferred stock may only be paid out of our net income, retained earnings or surplus related to other additional Tier 1 capital instruments.

Our ability to pay dividends on our common stock and preferred stock may be limited by extensive and changing regulatory considerations. We and our broker-dealer, bank, and other subsidiaries are subject to extensive laws, regulations, and rules, both in the U.S. and internationally, that may limit directly or indirectly the payment of dividends on our common stock and preferred stock. U.S. federal banking regulators are authorized to determine,

Table of Contents

under certain circumstances relating to the financial condition of a bank or a bank holding company, like Bank of America Corporation, that the payment of dividends would be an unsafe or unsound practice and to prohibit payment of those dividends. For instance, Federal Reserve Board regulations require us to submit a capital plan as part of an annual Comprehensive Capital Analysis and Review in order to assess our capital planning process, including any planned capital actions, such as payment of dividends on common stock and common stock repurchases. Furthermore, many rules and regulations are in proposed form and subject to periods of significant comment and further revisions. As a result, there is considerable uncertainty about what the final versions of these proposed rules and regulations will be or the impact they may have on us and our subsidiaries. While we closely monitor various regulatory developments and intend to manage our assets and liabilities and our operations to comply with new laws, regulations, and rules at the time they become effective, there is no assurance that we will be compliant with all such laws, regulations, and rules at such times and a failure to be so compliant could adversely affect our ability to pay dividends on our common stock and preferred stock.

If we are deferring payments on our outstanding junior subordinated notes or are in default under the indentures governing those securities, we will be prohibited from making distributions on our common stock and preferred stock, or redeeming our preferred stock. The terms of our outstanding junior subordinated notes prohibit us from declaring or paying any dividends or distributions on our common stock and preferred stock, or redeeming, purchasing, acquiring, or making a liquidation payment on such stock, if we are aware of any event that would be an event of default under the indenture governing those junior subordinated notes or at any time when we have deferred payment of interest on those junior subordinated notes.

Other Risks

Our ability to pay dividends on our common stock and preferred stock and to make payments on our other securities depends upon the results of operations of our subsidiaries. As a holding company, we conduct substantially all of our operations through our subsidiaries and depend on dividends, distributions, and other payments from our banking and nonbank subsidiaries to fund dividend payments on our common stock and preferred stock and to fund all payments on our other obligations, including debt obligations. Many of our subsidiaries, including our bank and broker-dealer subsidiaries, are subject to laws that restrict dividend payments or authorize regulatory bodies to block or reduce the flow of funds from those subsidiaries to us or to our other subsidiaries. In addition, our bank and broker-dealer subsidiaries are subject to restrictions on their ability to lend or transact with affiliates and to minimum regulatory capital and liquidity requirements. These restrictions could prevent those subsidiaries from making distributions to us or otherwise providing cash to us that we need in order to make payments on the securities.

Our obligations on the securities will be structurally subordinated to liabilities of our subsidiaries. Because we are a holding company, our right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganization or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent we may ourselves be recognized as a creditor of that subsidiary. As a result, our obligations under the securities will be structurally subordinated to all existing and future liabilities of our subsidiaries, and claimants should look only to our assets for payments.

We cannot assure you that a trading market for your securities will ever develop or be maintained. We may not list our securities on any securities exchange. We cannot predict how these securities will trade in the secondary market or whether that market will be liquid or illiquid. The number of potential buyers of our securities in any secondary market may be limited. Although

Table of Contents

any underwriters or agents may purchase and sell our securities in the secondary market from time to time, these underwriters or agents will not be obligated to do so and may discontinue making a market for the securities at any time without giving us notice. We cannot assure you that a secondary market for any of our securities will develop, or that if one develops, it will be maintained.

Redemption of the securities prior to maturity may result in a reduced return on your investment. The terms of our securities may permit or require redemption of the securities prior to maturity. That redemption may occur at a time when prevailing interest rates are relatively low. As a result, in the case of debt or similar securities, a holder of the redeemed securities may not be able to invest the redemption proceeds in a new investment that yields a similar return.

Payments on the securities are subject to our credit risk, and actual or perceived changes in our creditworthiness may affect the value of the notes. Our credit ratings are an assessment of our ability to pay our obligations. Consequently, our perceived creditworthiness and actual or anticipated changes in our credit ratings may affect the market value of our securities. However, because the return on our securities generally depends upon factors in addition to our ability to pay our obligations, an improvement in our credit ratings will not reduce the other investment risks, if any, related to our securities.

DESCRIPTION OF DEBT SECURITIES

General

We may issue senior or subordinated debt securities. Neither the senior debt securities nor the subordinated debt securities will be secured by any of our property or assets. As a result, by owning a debt security, you are one of our unsecured creditors.

The senior debt securities will constitute part of our senior debt, will be issued under our senior debt indenture described below, and will rank equally with all of our other unsecured and unsubordinated debt.

The subordinated debt securities will constitute part of our subordinated debt, will be issued under our subordinated debt indenture described below, and will be subordinated in right of payment to all of our senior indebtedness, as defined in the subordinated debt indenture. Neither the senior debt indenture nor the subordinated debt indenture limits our ability to incur additional senior indebtedness.

The Indentures

The senior debt securities and the subordinated debt securities each are governed by a document called an indenture, which is a contract between us and the applicable trustee. Senior debt securities will be issued under the Indenture dated as of January 1, 1995 (as supplemented, the Senior Indenture) between us and The Bank of New York Mellon Trust Company, N.A., as successor trustee, and subordinated debt securities will be issued under the Indenture dated as of January 1, 1995 (as supplemented, the Subordinated Indenture) between us and The Bank of New York Mellon Trust Company, N.A., as successor trustee. The indentures are substantially identical, except for:

the covenant described below under Sale or Issuance of Capital Stock of Banks, which is included only in the Senior Indenture;

the provisions relating to subordination described below under Subordination, which are included only in the Subordinated Indenture; and

the events of default described below under Events of Default and Rights of Acceleration, many of which are not included in the Subordinated Indenture.

In this prospectus, when we refer to debt securities, we mean both our senior debt securities and our subordinated debt securities, and when we refer to the indenture or the trustee with respect to any debt securities, we mean the indenture under which those debt securities are issued and the trustee under that indenture.

The trustee under each indenture has two principal functions:

First, the trustee can enforce your rights against us if we default. However, there are limitations on the extent to which the trustee may act on your behalf, which we describe below under Collection of Indebtedness.

Second, the trustee performs administrative duties for us, including the delivery of interest payments and notices.

Table of Contents

Neither indenture limits the aggregate amount of debt securities that we may issue or the number of series or the aggregate amount of any particular series. The indentures and the debt securities also do not limit our ability to incur other indebtedness or to issue other securities. This means that we may issue additional debt securities and other securities at any time without your consent and without notifying you. In addition, neither indenture contains provisions protecting holders against a decline in our credit quality resulting from takeovers, recapitalizations, the incurrence of additional indebtedness, or restructuring. If our credit quality declines as a result of an event of this type, or otherwise, any ratings of our debt securities then outstanding may be withdrawn or downgraded.

This section is a summary of the general terms and provisions of the indentures. We have filed the indentures with the SEC as exhibits to the registration statement of which this prospectus forms a part. See **Where You Can Find More Information** below for information on how to obtain copies of the indentures. Whenever we refer to the defined terms of the indentures in this prospectus or in a supplement without defining them, the terms have the meanings given to them in the indentures. You must look to the indentures for the most complete description of the information summarized in this prospectus.

Form and Denomination of Debt Securities

Unless we specify otherwise in the applicable supplement, we will issue each debt security in book-entry form. Debt securities in book-entry form will be represented by a global security registered in the name of a depository. Accordingly, the depository will be the holder of all the debt securities represented by the global security. Those who own beneficial interests in a global security will do so through participants in the depository's securities clearing system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depository and its participants. We describe the procedures applicable to book-entry securities below under the heading **Registration and Settlement**.

Generally, all securities represented by the same global security will have the same terms. We may, however, issue a global security that represents multiple debt securities that have different terms and are issued at different times. We call this kind of global security a master global security. Your prospectus supplement will not indicate whether your debt securities are represented by a master global security.

Unless we specify otherwise in the applicable supplement, we will issue our debt securities in fully registered form, without coupons. If we issue a debt security in bearer form, we will describe the special considerations applicable to bearer securities in the applicable supplement. Some of the features that we describe in this prospectus may not apply to the bearer securities.

Our debt securities may be denominated, and cash payments with respect to the debt securities may be made, in U.S. dollars or in another currency, or in a composite currency, a basket of currencies, or a currency unit or units. Unless we specify otherwise in the applicable supplement, the debt securities will be denominated, and cash payments with respect to the debt securities will be made, in U.S. dollars, and the debt securities ordinarily will be issued in denominations of \$1,000 and multiples of \$1,000 in excess of \$1,000. We may also issue debt securities that are denominated in units of \$10. If any of the debt securities are denominated, or if principal, any premium, interest, and any other amounts payable on any of the debt securities is payable, in a foreign currency, or in a composite currency, a basket of currencies, or a currency unit or units, the specified currency, as well as any additional investment considerations, risk factors, restrictions, tax consequences, specific terms and other information relating to that issue of debt securities and

Table of Contents

the specified currency, composite currency, basket of currencies, or currency unit or units, may be described in the applicable supplement. We describe some of those investment considerations relating to securities denominated or payable in a currency other than U.S. dollars above under the heading Risk Factors.

Different Series of Debt Securities

We may issue our debt securities from time to time in one or more series with the same or different maturities. We also may reopen a series of our debt securities. This means that we can increase the principal amount of a series of our debt securities by selling additional debt securities with the same terms, provided that such additional notes shall be fungible for U.S. federal income tax purposes. We may do so without notice to the existing holders of securities of that series. However, any new securities of this kind may begin to bear interest at a different date.

This section of the prospectus summarizes the material terms of the debt securities that are common to all series. We will describe the financial and other specific terms of the series of debt securities being offered in the applicable supplement. The supplement also may describe any differences from the material terms described in this prospectus. If there are any differences between the applicable supplement and this prospectus, the applicable supplement will control.

The terms of your series of debt securities as described in the applicable supplement may include the following:

the title and type of the debt securities;

the principal amount of the debt securities;

the minimum denominations, if other than \$1,000 and multiples of \$1,000 in excess of \$1,000;

the percentage of the stated principal amount at which the debt securities will be sold and, if applicable, the method of determining the price;

the person to whom interest is payable, if other than the owner of the debt securities;

the maturity date or dates;

the interest rate or rates, which may be fixed or variable, and the method used to calculate that interest;

any index or other reference asset or assets that will be used to determine the amounts of any payments on the debt securities and the manner in which those amounts will be determined;

the interest payment dates, the regular record dates for the interest payment dates, the date interest will begin to accrue, and the applicable business day convention;

the place or places where payments on the debt securities may be made and the place or places where the debt securities may be presented for registration of transfer or exchange;

any date or dates after which the debt securities may be redeemed, repurchased, or repaid in whole or in part at our option or the option of the holder, and the periods, prices, terms, and conditions of that redemption, repurchase, or repayment;

if other than the full principal amount, the portion of the principal amount of the debt securities that will be payable if their maturity is accelerated;

the currency of principal, any premium, interest, and any other amounts payable on the debt securities, if other than U.S. dollars;

if the debt securities will be issued in other than book-entry form;

the identification of or method of selecting any calculation agents, exchange rate agents, or any other agents for the debt securities;

any provisions for the discharge of our obligations relating to the debt securities by the deposit of funds or U.S. government obligations;

any provisions relating to the extension or renewal of the maturity date of the debt securities;

whether the debt securities will be listed on any securities exchange; or

any other terms of the debt securities that are permitted under the applicable indenture.

Fixed-Rate Notes

General. We may issue debt securities that bear interest at one or more fixed rates of interest, as specified in the applicable supplement. We refer to these as fixed-rate notes. Unless we specify otherwise in the applicable supplement, each fixed-rate note will bear interest from its original issue date or from the most recent date to which interest on the note has been paid or made available for payment. Interest will accrue on the principal of a fixed-rate note at the fixed annual rate stated in the applicable supplement, until the principal is paid or made available for payment or the note is converted or exchanged.

Unless we specify otherwise in the applicable supplement, we will pay interest on any fixed-rate note quarterly, semi-annually, or annually, as applicable, in arrears, on the days set forth in the applicable supplement (each such day being an interest payment date for a fixed-rate note) and at maturity. Each interest payment due on an interest payment date or the maturity date will include interest accrued from and including the most recent interest payment date to which interest has been paid, or, if no interest has been paid, from the original issue date, to but excluding the next interest payment date or the maturity date, as the case may be. Unless we specify otherwise in the applicable supplement, interest on fixed-rate notes will be computed and paid on the basis of a 360-day year consisting of twelve 30-day months, which we may refer to as the 30/360 day count convention. We will make payments on fixed-rate notes as described below under the heading Payment of Principal, Interest, and Other Amounts Due.

Amortizing Notes. We also may issue amortizing notes, which are fixed-rate notes for which combined principal and interest payments are made in installments over the life of the debt security. Payments on amortizing notes are applied first to interest due and then to the reduction of the unpaid principal amount. The supplement for an amortizing note

will include a table setting forth repayment information.

Floating-Rate Notes

General. We may issue debt securities that will bear interest at a floating rate of interest determined by reference to one or more interest rate bases, or by reference to one or more interest

Table of Contents

rate formulae, referred to as the base rate. We refer to these debt securities as floating-rate notes. The base rate may be one or more of the following:

the federal funds rate, in which case the debt security will be a federal funds rate note ;

the London interbank offered rate, in which case the debt security will be a LIBOR note ;

the euro interbank offered rate, in which case the debt security will be a EURIBOR note ;

the prime rate, in which case the debt security will be a prime rate note ;

the treasury rate, in which case the debt security will be a treasury rate note ; or

any other interest rate formula as may be specified in the applicable supplement.
The interest rate for a floating-rate note will be determined by reference to:

the specified base rate based on the index maturity;

plus or minus the spread, if any; and/or

multiplied by the spread multiplier, if any.

For any floating-rate note, the index maturity is the period to maturity of the instrument for which the interest rate basis is calculated and will be specified in the applicable supplement. The spread is the number of basis points we specify on the floating-rate note to be added to or subtracted from the base rate. The spread multiplier is the percentage we may specify on the floating-rate note by which the base rate is multiplied in order to calculate the applicable interest rate.

A floating-rate note also may be subject to:

a maximum interest rate limit, or ceiling, on the interest that may accrue during any interest period;

a minimum interest rate limit, or floor, on the interest that may accrue during any interest period; or

both.

In addition, the interest rate on a floating-rate note may not be higher than the maximum rate permitted by New York law, as that rate may be modified by United States law of general application. Under current New York law, the maximum rate of interest, subject to some exceptions, for any loan in an amount less than \$250,000 is 16% and for any loan in the amount of \$250,000 or more but less than \$2,500,000 is 25% per annum on a simple interest basis. These limits do not apply to loans of \$2,500,000 or more.

Unless we specify otherwise in the applicable supplement, each floating-rate note will bear interest from its original issue date or from the most recent date to which interest on the note has been paid or made available for payment. Interest will accrue on the principal of a floating-rate note at the annual rate determined according to the interest rate formula stated in the applicable supplement, until the principal is paid or made available for payment. Unless we specify otherwise

Table of Contents

in the applicable supplement, we will pay interest on any floating-rate note monthly, quarterly, semi-annually, or annually, as applicable, in arrears, on the days set forth in the applicable supplement (each such day being an interest payment date for a floating-rate note) and at maturity. Unless we specify otherwise in the applicable supplement, each interest payment due on an interest payment date or the maturity date will include interest accrued from and including the most recent interest payment date to which interest has been paid, or, if no interest has been paid, from the original issue date, to but excluding the next interest payment date or the maturity date, as the case may be (each such period, an interest period). Interest payment dates and interest periods may be adjusted in accordance with the business day convention (as described below under Payment of Principal, Interest, and Other Amounts Due Business Day Conventions) specified in the applicable supplement. We will make payments on floating-rate notes as described below under the heading Payment of Principal, Interest, and Other Amounts Due.

How Interest Is Reset. The interest rate in effect from the date of issue to the first interest reset date for a floating-rate note will be the initial interest rate determined as described in the applicable supplement. The interest rate of each floating-rate note may be reset daily, weekly, monthly, quarterly, semi-annually, or annually, as we specify in the applicable supplement. We refer to each date on which the interest rate for a floating-rate note will reset as an interest reset date.

The interest determination date for any interest reset date is the day the calculation agent will refer to when determining the new interest rate at which a floating rate will reset. Unless we specify otherwise in the applicable supplement, the interest determination date for an interest reset date will be:

for a federal funds rate note or a prime rate note, the business day immediately preceding the interest reset date;

for a LIBOR note, the second London Banking Day (as defined below) preceding the interest reset date unless the index currency is pounds sterling, in which case the interest determination date will be the interest reset date;

for a EURIBOR note, the second TARGET Settlement Date (as defined below) preceding the interest reset date;

for a treasury rate note, the day of the week in which the interest reset date falls on which Treasury bills (as described below) of the applicable index maturity would normally be auctioned; and

for a floating-rate note with two or more base rates, the interest determination date will be the most recent business day that is at least two business days prior to the applicable interest reset date on which each applicable base rate is determinable.

Treasury bills usually are sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction usually is held on the following Tuesday, except that the auction may be held on the preceding Friday. If, as a result of a legal holiday, an auction is held on the preceding Friday, that preceding Friday will be the interest determination date pertaining to the interest reset date occurring in the next succeeding week. The treasury rate will be determined as of that date, and the applicable interest rate will take effect on the applicable interest reset date. If

Treasury bills are sold at an auction that falls on a day that is an interest reset date, that interest reset date will be the next following business day unless we specify otherwise in the applicable supplement.

Table of Contents

We will specify the interest reset dates in the applicable supplement. Interest reset dates may be adjusted in accordance with the business day convention (as described below under Payment of Principal, Interest, and Other Amounts Due Business Day Conventions) specified in the applicable supplement.

Calculation of Interest. Calculations relating to floating-rate notes will be made by the calculation agent, which will be an institution that we appoint as our agent for this purpose. The calculation agent may be one of our affiliates, including Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Commodities, Inc., or Merrill Lynch Capital Services, Inc. and may also be The Bank of New York Mellon Trust Company, N.A. We will identify in the applicable supplement the calculation agent we have appointed for a particular series of debt securities as of its original issue date. We may appoint different calculation agents from time to time after the original issue date of a floating-rate note without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you, the trustee and us.

For each floating-rate note, the calculation agent will determine, on the corresponding calculation or interest determination date, the interest rate for the applicable interest period. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period. Unless we specify otherwise in the applicable supplement, the calculation date for any interest determination date will be the date by which the calculation agent computes the amount of interest owed on a floating-rate note for the related interest period. Unless we specify otherwise in the applicable supplement, the calculation date pertaining to an interest determination date will be the earlier of:

the tenth calendar day after that interest determination date or, if that day is not a business day, the next succeeding business day; or

the business day immediately preceding the applicable interest payment date, the maturity date, or the date of redemption or prepayment, as the case may be.

Accrued interest on a floating-rate note is calculated by multiplying the principal amount of a note by an accrued interest factor. This accrued interest factor is the sum of the interest factors calculated for each day in the period for which accrued interest is being calculated. Unless we specify otherwise in the applicable supplement, the daily interest factor will be computed on the basis of:

a 360-day year of twelve 30-day months if the day count convention specified in the applicable supplement is 30/360 ;

the actual number of days in the relevant period divided by 360 if the day count convention specified in the applicable supplement is Actual/360 ; or

the actual number of days in the relevant period divided by 365, or in the case of an interest payment date falling in a leap year, 366, if the day count convention specified in the applicable supplement is Actual/Actual.

If no day count convention is specified in the applicable supplement, the daily interest factor will be computed and interest will be paid (including payments for partial periods) as follows:

for federal funds rate notes, LIBOR notes, EURIBOR notes, prime rate notes, or any other floating-rate notes other than treasury rate notes, on the basis of the actual number of days in the relevant period divided by 360; and

Table of Contents

for treasury rate notes, on the basis of the actual number of days in the relevant period divided by 365 or 366, as applicable.

All amounts used in or resulting from any calculation on floating-rate notes will be rounded to the nearest cent, in the case of U.S. dollars, or to the nearest corresponding hundredth of a unit, in the case of a currency other than U.S. dollars, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward. Unless we specify otherwise in the applicable supplement, all percentages resulting from any calculation with respect to a floating-rate note will be rounded, if necessary, to the nearest one hundred-thousandth of a percent, with five one-millionths of a percentage point rounded upwards, e.g., 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655).

In determining the base rate that applies to a floating-rate note during a particular interest period, the calculation agent may obtain rate quotes from various banks or dealers active in the relevant market, as described in the descriptions of the base rates below and/or in the applicable supplement. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any underwriter, dealer, or agent participating in the distribution of the relevant floating-rate notes and its affiliates, and they may include our affiliates.

At the request of the holder of any floating-rate note, the calculation agent will provide the interest rate then in effect for that floating-rate note and, if already determined, the interest rate that is to take effect on the next interest reset date.

LIBOR Notes. Each LIBOR note will bear interest at the LIBOR base rate, adjusted by any spread or spread multiplier, as specified in the applicable supplement. The LIBOR base rate will be the London interbank offered rate for deposits in U.S. dollars or any index currency, as specified in the applicable supplement.

LIBOR for any interest determination date will be the arithmetic mean of the offered rates for deposits in the relevant index currency having the index maturity described in the applicable supplement, commencing on the related interest reset date, as the rates appear on the Reuters LIBOR screen page designated in the applicable supplement as of 11:00 A.M., London time, on that interest determination date, if at least two offered rates appear on the designated LIBOR page, except that, if the designated Reuters LIBOR screen page only provides for a single rate, that single rate will be used.

If fewer than two of the rates described above appear on that page or no rate appears on any page on which only one rate normally appears, then the calculation agent will determine LIBOR as follows:

The calculation agent will request on the interest determination date four major banks in the London interbank market, as selected and identified by us, to provide their offered quotations for deposits in the relevant index currency having an index maturity specified in the applicable supplement commencing on the interest reset date and in a representative amount to prime banks in the London interbank market at approximately 11:00 A.M., London time.

If at least two quotations are provided, the calculation agent will determine LIBOR as the arithmetic mean of those quotations.

If fewer than two quotations are provided, we will select and identify to the calculation agent three major banks in New York City, or if the relevant index currency is not U.S. dollars, the principal financial center of the country issuing the index currency. On the

Table of Contents

interest reset date, those three banks will be requested by the calculation agent to provide their offered quotations for loans in the relevant index currency having an index maturity specified in the applicable supplement commencing on the interest reset date and in a representative amount to leading European banks at approximately 11:00 A.M., New York time (or the time in the relevant principal financial center). The calculation agent will determine LIBOR as the arithmetic mean of those quotations.

If fewer than three New York City banks (or banks in the relevant principal financial center) selected by us are quoting rates, LIBOR for that interest period will remain LIBOR then in effect on the interest determination date.

Principal financial center means, unless we specify otherwise in the applicable supplement, the capital city of the country to which the index currency relates, except for U.S. dollars, Australian dollars, Canadian dollars, South African rand, and Swiss francs, for which the principal financial center is New York, Sydney and Melbourne, Toronto, Johannesburg, and Zurich, respectively.

Representative amount means an amount that, in our judgment, is representative of a single transaction in the relevant market at the relevant time.

Reuters page means the display on the Thomson Reuters service, or any successor or replacement service (Reuters), on the page or pages specified in this prospectus or the applicable supplement, or any successor or replacement page or pages on that service.

EURIBOR Notes. Each EURIBOR note will bear interest at the EURIBOR base rate, adjusted by any spread or spread multiplier, as specified in the applicable supplement.

EURIBOR, for any interest determination date, will mean the rate for deposits in euro as sponsored, calculated, and published jointly by the European Banking Federation and ACI The Financial Markets Association, or any company established by the joint sponsors for purposes of compiling and publishing those rates, having the index maturity specified in the applicable supplement, as that rate appears on Reuters page EURIBOR01, referred to as Reuters Page EURIBOR01, as of 11:00 A.M., Brussels time.

The following procedures will be followed if EURIBOR cannot be determined as described above:

If no offered rate appears on Reuters Page EURIBOR01 on an interest determination date at approximately 11:00 A.M., Brussels time, then the calculation agent will request four major banks in the Eurozone interbank market selected and identified by us to provide a quotation of the rate at which deposits in euro having the index maturity specified in the applicable supplement are offered to prime banks in the Eurozone interbank market, and in a principal amount not less than the equivalent of 1,000,000, that is representative of a single transaction in euro in that market at that time. If at least two quotations are provided, EURIBOR will be the average of those quotations.

If fewer than two quotations are provided, then the calculation agent will request four major banks in the Eurozone interbank market selected and identified by us to provide a quotation of the rate offered by them, at approximately 11:00 A.M., Brussels time, on the interest determination date, for loans in euro to prime

banks in the Eurozone interbank market for a period of time equivalent to the index maturity specified in the applicable supplement commencing on that interest reset date and in a principal amount not less than the equivalent of 1,000,000, that is representative of a single transaction in euro in that market at that time. If at least three quotations are provided, EURIBOR will be the average of those quotations.

Table of Contents

If three quotations are not provided, EURIBOR for that interest determination date will be equal to EURIBOR for the immediately preceding interest period.

Eurozone means the region comprised of member states of the European Union that adopted the single currency in accordance with the Treaty establishing the European Community (signed in Rome on March 25, 1957), as amended by the Treaty on European Union (signed in Maastricht on February 7, 1992) and the Treaty of Amsterdam (signed in Amsterdam on October 2, 1997).

Treasury Rate Notes. Each treasury rate note will bear interest at the treasury rate, adjusted by any spread or spread multiplier, as specified in the applicable supplement.

The treasury rate for any interest determination date will be the rate set at the auction of direct obligations of the United States, referred to as Treasury bills, having the index maturity described in the applicable supplement, as specified under the caption INVEST RATE on Reuters page USAUCTION10 or page USAUCTION11.

The following procedures will be followed if the treasury rate cannot be determined as described above:

If the rate is not displayed on Reuters by 3:00 P.M., New York City time, on the related calculation date, the treasury rate will be the bond equivalent yield, as defined below, of the auction rate of the applicable Treasury bills as announced by the U.S. Department of the Treasury.

If the alternative rate described in the paragraph immediately above is not announced by the U.S. Department of the Treasury, or if the auction is not held, the treasury rate will be the bond equivalent yield of the rate on the particular interest determination date of the applicable Treasury bills as published in H.15(519) under the caption U.S. government securities/Treasury Bills (Secondary Market).

If the alternative rate described in the paragraph immediately above is not announced by the U.S. Department of the Treasury, the treasury rate will be the bond equivalent yield of the rate on the particular interest determination date of the applicable Treasury bills as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, under the caption U.S. Government Securities/Treasury Bills/Secondary Market.

If the alternative rate described in the paragraph immediately above is not published by 3:00 P.M., New York City time, on the related calculation date, the treasury rate will be the rate on the particular interest determination date calculated by the calculation agent as the bond equivalent yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on that interest determination date, of three primary U.S. government securities dealers, selected by us, for the issue of Treasury bills with a remaining maturity closest to the particular index maturity.

If the dealers selected by us are not quoting as described in the paragraph immediately above, the treasury rate will be the treasury rate in effect on the particular interest determination date.

The bond equivalent yield will be calculated using the following formula:

$$\text{Bond equivalent yield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

Table of Contents

where *D* refers to the applicable annual rate for Treasury bills quoted on a bank discount basis and expressed as a decimal, *N* refers to 365 or 366, as the case may be, and *M* refers to the actual number of days in the applicable interest period.

H.15(519) means the weekly statistical release designated as H.15(519), or any successor publication, published by the Board of Governors of the Federal Reserve System at <http://www.federalreserve.gov/releases/h15/current/>, or any successor site or publication.

H.15 Daily Update means the daily update of H.15(519), available through the website of the Board of Governors of the Federal Reserve System at www.federalreserve.gov/releases/h15/update, or any successor site or publication.

Federal Funds Rate Notes. Each federal funds rate note will bear interest at the federal funds rate, adjusted by any spread or spread multiplier, as specified in the applicable supplement.

If *Federal Funds (Effective) Rate* is specified in the applicable supplement, the federal funds rate for any interest determination date will be the rate on that date for U.S. dollar federal funds, as published in H.15(519) under the heading *Federal funds (effective)* and displayed on Reuters on page FEDFUNDS1 under the heading *EFFECT*, referred to as *Reuters Page FedFunds1*. If this rate is not published in H.15 Daily Update by 3:00 P.M., New York City time, on the related calculation date, or does not appear on Reuters Page FedFunds1, the federal funds rate will be the rate on that interest determination date as published in H.15 Daily Update, or any other recognized electronic source for the purposes of displaying the applicable rate, under the caption *Federal funds (effective)*. If this alternate rate is not published in H.15 Daily Update, or other recognized electronic source for the purpose of displaying the applicable rate, by 3:00 P.M., New York City time, on the related calculation date, then the calculation agent will determine the federal funds rate to be the average of the rates for the last transaction in overnight U.S. dollar federal funds quoted prior to 9:00 A.M., New York City time, on the business day following that interest determination date, by each of three leading brokers of U.S. dollar federal funds transactions in New York City, selected by us. If fewer than three brokers selected by us are so quoting, the federal funds rate will be the federal funds rate in effect on that interest determination date.

If *Federal Funds Open Rate* is specified in the applicable supplement, the federal funds rate will be the rate on that interest determination date set forth under the heading *Federal Funds* opposite the caption *Open* and displayed on Reuters on page 5, referred to as *Reuters Page 5*, or if that rate does not appear on Reuters Page 5 by 3:00 P.M., New York City time, on the related calculation date, the federal funds rate will be the rate on that interest determination date displayed on FFPREBON Index page on Bloomberg L.P. (*Bloomberg*), which is the Fed Funds Opening Rate as reported by Prebon Yamane (or a successor) on Bloomberg. If the alternate rate described in the preceding sentence is not displayed on FFPREBON Index page on Bloomberg, or any other recognized electronic source for the purpose of displaying the applicable rate, by 3:00 P.M., New York City time, on the related calculation date, then the calculation agent will determine the federal funds rate to be the average of the rates for the last transaction in overnight U.S. dollar federal funds, quoted prior to 9:00 A.M., New York City time, on that interest determination date, by each of three leading brokers of U.S. dollar federal funds transactions in New York City, selected by us. If fewer than three brokers selected by us are quoting as described above, the federal funds rate will be the federal funds rate in effect on that interest determination date.

If *Federal Funds Target Rate* is specified in the applicable supplement, the federal funds rate will be the rate on that interest determination date for U.S. dollar federal funds displayed on the FDTR Index page on Bloomberg. If that rate does not appear on the FDTR Index page on Bloomberg by 3:00 P.M., New York City time, on the calculation date, the federal funds rate for the

Table of Contents

applicable interest determination date will be the rate for that day appearing on Reuters on page USFFTARGET=, referred to as Reuters Page USFFTARGET=. If that rate does not appear on the FDTR Index page on Bloomberg or is not displayed on Reuters page USFFTARGET= by 3:00 P.M., New York City time, on the related calculation date, then the calculation agent will determine the federal funds rate to be the average of the rates for the last transaction in overnight U.S. dollar federal funds, quoted prior to 9:00 A.M., New York City time, on that interest determination date, by each of three leading brokers of U.S. dollar federal funds transactions in New York City, selected by us. If fewer than three brokers selected by us are quoting as described above, the federal funds rate will be the federal funds rate in effect on that interest determination date.

Prime Rate Notes. Each prime rate note will bear interest at the prime rate, as adjusted by any spread or spread multiplier, as specified in the applicable supplement.

The prime rate for any interest determination date will be the prime rate or base lending rate on that date, as published in H.15(519) prior to 3:00 P.M., New York City time, on the related calculation date, under the heading Bank prime loan.

The following procedures will be followed if the prime rate cannot be determined as described above:

If the rate is not published in H.15(519) by 3:00 P.M., New York City time, on the related calculation date, then the prime rate will be the rate as published in H.15 Daily Update, or any other recognized electronic source used for the purpose of displaying the applicable rate, under the caption Bank prime loan.

If the alternative rate described above is not published in H.15 Daily Update or another recognized electronic source by 3:00 P.M., New York City time, on the related calculation date, then the calculation agent will determine the prime rate to be the arithmetic mean of the rates of interest publicly announced by each bank that appears on Reuters page USPRIME1, as defined below, as that bank's prime rate or base lending rate as in effect as of 11:00 A.M., New York City time, on that interest determination date.

If fewer than four rates appear on the Reuters page USPRIME1 for that interest determination date, by 3:00 P.M., New York City time, then the calculation agent will determine the prime rate to be the average of the prime rates or base lending rates furnished in New York City by three substitute banks or trust companies (all organized under the laws of the United States or any of its states and having total equity capital of at least \$500,000,000) selected by us.

If the banks selected by us are not quoting as described above, the prime rate will remain the prime rate then in effect on the interest determination date.

Reuters page USPRIME1 means the display designated as page USPRIME1 on Reuters for the purpose of displaying prime rates or base lending rates of major U.S. banks.

Indexed Notes

We may issue debt securities that provide that the rate of return, including the principal, premium (if any), interest, or other amounts payable (if any), is determined by reference, either directly or indirectly, to the price or performance of

one or more securities, currencies or composite currencies, commodities, interest rates, stock indices, commodity indices or other indices, formulae, or measure, in each case as specified in the applicable supplement. We refer to these as indexed notes.

Table of Contents

Holders of indexed notes may receive an amount at maturity that is greater than or less than the face amount of the notes, depending upon the formula used to determine the amount payable and the relative value at maturity of the reference asset or underlying obligation. The value of the applicable index will fluctuate over time.

An indexed note may provide either for cash settlement or for physical settlement by delivery of the indexed note or securities, or other securities of the types listed above. An indexed note also may provide that the form of settlement may be determined at our option or the holder's option. Some indexed notes may be convertible, exercisable, or exchangeable prior to maturity, at our option or the holder's option, for the related securities.

We will specify in the applicable supplement the method for determining the principal, premium (if any), interest, or other amounts payable (if any) in respect of particular indexed notes, as well as certain historical information with respect to the specified index or indexed items, specific risk factors relating to that particular type of indexed note, and tax considerations associated with an investment in the indexed notes.

The applicable supplement for any particular indexed notes also will identify the calculation agent that will calculate the amounts payable with respect to the indexed note. The calculation agent may be one of our affiliates, including Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Merrill Lynch Commodities, Inc., or Merrill Lynch Capital Services, Inc. We may appoint different calculation agents from time to time after the original issue date of an indexed note without your consent and without notifying you of the change. Absent manifest error, all determinations of the calculation agent will be final and binding on you, the trustee and us. Upon request of the holder of an indexed note, the calculation agent will provide, if applicable, information relating to the current principal, premium (if any), rate of interest, interest payable, or other amounts payable (if any) in connection with the indexed note.

We also may offer indexed amortizing notes, the rate of amortization and final maturity of which are subject to periodic adjustment based upon the degree to which an objective base or index rate such as LIBOR, called a reference rate, coincides with a specified target rate. Indexed amortizing notes may provide for adjustment of the amortization rate either on every interest payment date, or only on interest payment dates that occur after a specified lockout date. Each indexed amortizing note will include an amortization table, specifying the rate at which the principal of the note is to be amortized following any applicable interest payment date, based upon the difference between the reference rate and the target rate. The specific terms of, and any additional considerations relating to, indexed amortizing notes will be set forth in the applicable supplement.

Floating-Rate/Fixed-Rate/Indexed Notes

We may issue a debt security with elements of each of the fixed-rate, floating-rate, and indexed notes described above. For example, a debt security may bear interest at a fixed rate for some periods and at a floating rate in others. Similarly, a debt security may provide for a payment of principal at maturity linked to an index and also may bear interest at a fixed or floating rate. We will describe the determination of interest for any of these debt securities in the applicable supplement.

Original Issue Discount Notes

A fixed-rate note, a floating-rate note, or an indexed note may be an original issue discount note. Original issue discount notes are debt securities that are issued at a price lower than their

Table of Contents

stated principal amount or lower than their minimum guaranteed repayment amount at maturity. Original issue discount notes may bear no interest (zero coupon rate notes) or may bear interest at a rate that is below market rates at the time of issuance. Upon an acceleration of the maturity of an original issue discount note, the amount of interest payable will be determined in accordance with the terms of the note, as described in the applicable supplement. That amount normally is less than the amount payable at the maturity date. A note issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount note, regardless of the amount payable upon redemption or acceleration of maturity. See U.S. Federal Income Tax Considerations Taxation of Debt Securities below for a summary of the U.S. federal income tax consequences of owning an original issue discount note.

Payment of Principal, Interest, and Other Amounts Due

Paying Agents. We may appoint one or more financial institutions to act as our paying agents. Unless we specify otherwise in the applicable supplement, the trustee will act as our sole paying agent, security registrar, and transfer agent with respect to the debt securities through the trustee's office. That office is currently located at 101 Barclay Street, New York, New York 10286. In addition, in the case of some of our debt securities, such as debt securities denominated in euro, that office is expected to be 48th Floor, One Canada Square, London, E14 5AL. At any time, we may rescind the designation of a paying agent, appoint a successor or an additional paying agent, or approve a change in the office through which any paying agent acts in accordance with the applicable indenture. In addition, we may decide to act as our own paying agent with respect to some or all of the debt securities, and the paying agent may resign.

Payments to Holders and Record Dates for Interest. We refer to each date on which interest is payable on a debt security as an interest payment date. Unless we specify otherwise in the applicable supplement, the provisions described in this section will apply to payments on the debt securities.

Subject to any applicable business day convention as described below, interest payments on the debt securities will be made on each interest payment date applicable to, and at the maturity date of, the debt securities. Interest payable at any interest payment date other than the maturity date will be paid to the registered holder of the debt security on the regular record date for that interest payment date, as described below. However, unless we specify otherwise in the applicable supplement, the initial interest payment on a debt security issued between a regular record date and the interest payment date immediately following the regular record date will be made on the second interest payment date following the original issue date to the holder of record on the regular record date preceding the second interest payment date. The principal and interest payable at maturity will be paid to the holder of the debt security at the time of payment by the paying agent.

Unless we specify otherwise in the applicable supplement, the record date for any interest payment for a debt security in book-entry only form generally will be the business day prior to the payment date. If the debt security is in a form that is other than book-entry only, and unless we specify otherwise in the applicable supplement, the regular record date for an interest payment date will be the last day of the calendar month preceding the interest payment date or the fifteenth day of the calendar month in which the interest payment date occurs, as specified in the supplement, whether or not that date is a business day.

Business Day Conventions. If the applicable supplement specifies that one of the following business day conventions is applicable to a debt security, the interest payment dates, interest reset dates, and interest periods for that debt security will be affected and, consequently, may be adjusted

Table of Contents

as described below. Unless we specify otherwise in the applicable supplement, any interest payment due at maturity or on a redemption date or repayment date will not be affected as described below.

Following business day convention (adjusted) means, if an interest payment date would otherwise fall on a day that is not a business day (as described below), then such interest payment date will be postponed to the next day that is a business day. Unless we specify otherwise in the applicable supplement, the related interest reset dates and interest periods also will be adjusted for non-business days.

Modified following business day convention (adjusted) means, if an interest payment date would otherwise fall on a day that is not a business day, then such interest payment date will be postponed to the next day that is a business day, except that, if the next succeeding business day falls in the next calendar month, then such interest payment date will be advanced to the immediately preceding day that is a business day. In each case, unless we specify otherwise in the applicable supplement, the related interest reset dates and interest periods also will be adjusted for non-business days.

Following unadjusted business day convention means, if an interest payment date falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date will not accrue from and including such interest payment date to and including the date of payment of such interest as so postponed. Interest reset dates and interest periods also are not adjusted for non-business days under the following unadjusted business day convention.

Modified following unadjusted business day convention means, if an interest payment date falls on a day that is not a business day, any payment due on such interest payment date will be postponed to the next day that is a business day; *provided* that interest due with respect to such interest payment date will not accrue from and including such interest payment date to and including the date of payment of such interest as so postponed, and, *provided further* that, if such next succeeding business day would fall in the next succeeding calendar month, the date of payment with respect to such interest payment date will be advanced to the business day immediately preceding such interest payment date. Interest reset dates and interest periods also are not adjusted for non-business days under the modified following unadjusted business day convention.

Preceding business day convention means, if an interest payment date would otherwise fall on a day that is not a business day, then such interest payment date will be advanced to the immediately preceding day that is a business day. If the preceding business day convention is specified in the applicable supplement to be adjusted, then the related interest reset dates and interest periods also will be adjusted for non-business days; however, if the preceding business day convention is specified in the applicable supplement to be unadjusted, then the related interest reset dates and interest periods will not be adjusted for non-business days.

In all cases, unless we specify otherwise in the applicable supplement, if the maturity date or any earlier redemption date or repayment date with respect to any debt security falls on a day that is not a business day, any payment of principal, premium, if any, interest and any other amounts otherwise due on such day will be made on the next succeeding business day, and no interest on such payment will accrue for the period from and after such maturity date,

redemption date or repayment date, as the case may be.

Table of Contents

If no business day convention is specified in the applicable supplement, then the following unadjusted business day convention will apply to the debt security. We also may specify and describe a different business day convention from those described above in the applicable supplement.

Unless we specify otherwise in the applicable supplement, the term **business day** means, for any debt security, a day that meets all the following applicable requirements:

for all debt securities, is any weekday that is not a legal holiday in New York, New York, Charlotte, North Carolina, or any other place of payment of the debt security, and is not a date on which banking institutions in those cities are authorized or required by law or regulation to be closed;

for any LIBOR note, also is a day on which commercial banks are open for business (including dealings in the index currency specified in the applicable supplement) in London, England (a **London Banking Day**);

for any debt security denominated in euro or any EURIBOR note, also is a day on which the TransEuropean Automated Real-Time Gross Settlement Express Transfer, or **TARGET**, System or any successor is operating (a **TARGET Settlement Date**); and

for any debt security that has a specified currency other than U.S. dollars or euro, also is not a day on which banking institutions generally are authorized or obligated by law, regulation, or executive order to close in the principal financial center of the country of the specified currency.

Unless we specify otherwise in the applicable supplement, for purposes of this determination, the **principal financial center** is:

the capital city of the country issuing the specified currency, except for U.S. dollars, Australian dollars, Canadian dollars, South African rand, and Swiss francs, for which the **principal financial center** is New York, Sydney and Melbourne, Toronto, Johannesburg, and Zurich, respectively; or

the capital city of the country to which the index currency relates, except for U.S. dollars, Australian dollars, Canadian dollars, South African rand, and Swiss francs, for which the **principal financial center** is New York, Sydney, Toronto, Johannesburg, and Zurich, respectively.

Payments Due in U.S. Dollars. Unless we specify otherwise in the applicable supplement, we will follow the practices described in this subsection when we pay amounts that are due in U.S. dollars.

We will make payments on debt securities in book-entry form in accordance with arrangements then in place between the paying agent and the depository or its nominee, as holder. An indirect owner's right to receive those payments will be governed by the rules and practices of the depository and its participants, as described below under the heading **Registration and Settlement**.

We will pay any interest on debt securities in certificated form on each interest payment date other than the maturity date by, in our discretion, wire transfer of immediately available funds or check mailed to holders of the debt securities on the applicable record date at the address

appearing on our or the security registrar's records. We will pay any principal, premium (if any), interest, and other amounts payable (if any) at the maturity date of a debt security in certificated form by wire transfer of immediately available funds upon surrender of the debt security at the corporate trust office of the applicable trustee or paying agent.

Book-entry and other indirect owners should contact their banks or brokers for information on how they will receive payments on their debt securities.

Payments Due in Other Currencies. Unless we specify otherwise in the applicable supplement, we will follow the practices described in this subsection when we pay amounts that are due on a debt security in a currency other than U.S. dollars. Unless we specify otherwise in the applicable supplement, holders are not entitled to receive payments in U.S. dollars of an amount due in another currency, either on a global debt security or a debt security in certificated form.

We will make payments on non-U.S. dollar-denominated debt securities in book-entry form in the applicable specified currency in accordance with arrangements then in place between the paying agent and the depository or its nominee, as holder. An indirect owner's right to receive those payments will be governed by the rules and practices of the depository and its participants, as described below under the heading **Registration and Settlement**.

We will pay any interest on non-U.S. dollar-denominated debt securities in certificated form by, in our discretion, wire transfer of immediately available funds or check mailed to holders of the debt securities on the applicable record date at the address appearing on our or the security registrar's records. We will pay any principal, premium (if any), interest, and other amounts payable (if any) at the maturity date of a non-U.S. dollar-denominated debt security in certificated form by wire transfer of immediately available funds upon surrender of the debt security at the corporate trust office of the applicable trustee or paying agent.

If we issue a debt security in a specified currency other than U.S. dollars, unless we specify otherwise in the applicable supplement, we will appoint a financial institution to act as the exchange rate agent. The exchange rate agent will determine the applicable rate of exchange that would apply to a payment made in U.S. dollars, if the currency in which we otherwise would be required to make the applicable payment is not available. The exchange rate agent may be one of our affiliates. We will identify in the applicable supplement the exchange rate agent that we have appointed for a particular debt security as of its original issue date. We may appoint different exchange rate agents from time to time after the original issue date of the debt security without your consent and without notifying you of the change. All determinations made by the exchange rate agent will be in its sole discretion unless we state in the applicable supplement that any determination requires our approval. Absent manifest error, those determinations will be final and binding on you and us.

Book-entry and other indirect owners of a debt security with a specified currency other than U.S. dollars should contact their banks or brokers for information about how to receive payments in the specified currency or in U.S. dollars.

No Sinking Fund

Unless we specify otherwise in the applicable supplement, our debt securities will not be entitled to the benefit of any sinking fund. This means that we will not deposit money on a regular basis into any separate custodial account to repay the debt securities.

Redemption

The applicable supplement will indicate whether we may redeem the debt securities prior to their maturity date. If we may redeem the debt securities prior to maturity, the applicable

Table of Contents

supplement will indicate the redemption price, the method for redemption, and the date or dates upon which we may redeem the debt securities. Unless we specify otherwise in the applicable supplement, we may redeem debt securities only on an interest payment date, and the redemption price will be 100% of the principal amount of the debt securities to be redeemed, plus any accrued and unpaid interest.

Unless we specify otherwise in the applicable supplement, we may exercise our right to redeem debt securities by giving notice to the trustee under the applicable indenture at least 10 business days but not more than 60 calendar days before the specified redemption date. The notice will take the form of a certificate signed by us specifying:

the date fixed for redemption;

the redemption price;

the CUSIP number of the debt securities to be redeemed;

the amount to be redeemed, if less than all of a series of debt securities is to be redeemed;

the place of payment for the debt securities to be redeemed; and

that on and after the date fixed for redemption, interest will cease to accrue on the debt securities to be redeemed.

So long as a depository is the record holder of the applicable debt securities to be redeemed, we will deliver any notice of our election to exercise our redemption right only to that depository.

Repayment

The applicable supplement will indicate whether the debt securities can be repaid at the holder's option prior to their maturity date. If the debt securities may be repaid prior to maturity, the applicable supplement will indicate the applicable repayment price or prices, the procedures for repayment and the date or dates on or after which the holder can request repayment.

Repurchase

We may purchase at any time and from time to time, including through a subsidiary or affiliate of ours, outstanding debt securities by tender, in the open market, or by private agreement. We, or our affiliates, have the discretion to hold or resell any repurchased debt securities. We also have the discretion to cancel any repurchased debt securities.

Conversion

We may issue debt securities that are convertible into, or exercisable or exchangeable for, at either our option or the holder's option or otherwise as provided in the applicable supplement, our preferred stock, depositary shares, common

stock, or other debt securities, or debt or equity securities of one or more third parties. The applicable supplement will describe the terms of any conversion, exercise, or exchange features, including:

the periods during which conversion, exercise, or exchange, as applicable, may be elected;

the conversion, exercise, or exchange price payable and the number of shares or amount of our preferred stock, depositary shares, common stock, or other debt securities, or debt or equity securities of a third party, that may be issued upon conversion, exercise, or exchange, and any adjustment provisions; and

the procedures for electing conversion, exercise, or exchange, as applicable.

Exchange, Registration, and Transfer

Subject to the terms of the applicable indenture, debt securities of any series in certificated form may be exchanged at the option of the holder for other debt securities of the same series and of an equal aggregate principal amount and type in any authorized denominations.

Debt securities in certificated form may be presented for registration of transfer at the office of the security registrar or at the office of any transfer agent that we designate and maintain. The security registrar or the transfer agent will make the transfer or registration only if it is satisfied with the documents of title and identity of the person making the request. There will not be a service charge for any exchange or registration of transfer of debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with the exchange. Unless we specify otherwise in the applicable supplement, The Bank of New York Mellon Trust Company, N.A. will be the authenticating agent, registrar, and transfer agent for the debt securities issued under the respective indentures. We may change the security registrar or the transfer agent or approve a change in the location through which any security registrar or transfer agent acts at any time, except that we will be required to maintain a security registrar and transfer agent in each place of payment for each series of debt securities. At any time, we may designate additional transfer agents for any series of debt securities.

We will not be required to (1) issue, exchange, or register the transfer of any debt security of any series to be redeemed for a period of 15 days before those debt securities were selected for redemption, or (2) exchange or register the transfer of any debt security that was selected, called, or is being called for redemption, except the unredeemed portion of any debt security being redeemed in part.

For a discussion of restrictions on the exchange, registration, and transfer of book-entry securities, see [Registration and Settlement](#) below.

Subordination

Our subordinated debt securities are subordinated and junior in right of payment to all of our senior indebtedness. The Subordinated Indenture defines senior indebtedness as any indebtedness for money borrowed, including all of our indebtedness for borrowed and purchased money, all of our obligations arising from off-balance sheet guarantees and direct credit substitutes, and our obligations associated with derivative products such as interest and foreign exchange rate contracts and commodity contracts, that was outstanding on the date we executed the Subordinated Indenture, or was created, incurred, or assumed after that date, for which we are responsible or liable as obligor, guarantor, or otherwise, and all deferrals, renewals, extensions, and refundings of that indebtedness or obligations, other than the debt securities issued under the Subordinated Indenture or any other indebtedness that by its terms is subordinate in right of payment to any of our other indebtedness. Each supplement for a series of subordinated debt securities will indicate the aggregate amount of our senior indebtedness outstanding, as of the most recent practicable date, and any limitation on the issuance of additional senior indebtedness. As of March 31, 2015, on a non-consolidated basis, we had approximately \$142 billion of senior long-term debt and certain short-term borrowings. Senior indebtedness also includes our obligations under letters of credit, guarantees, foreign exchange contracts and interest rate swap contracts, none of which are included in such amount. In addition, holders of subordinated debt securities may be fully subordinated to interests held by the U.S. government in the event that we enter into a receivership, insolvency, liquidation or similar proceeding.

Table of Contents

If there is a default or event of default under any senior indebtedness that would allow acceleration of maturity of the senior indebtedness and that default or event of default is not remedied, and we and the trustee of the Subordinated Indenture receive notice of this default from the holders of at least 10% in principal amount of any kind or category of any senior indebtedness or if the trustee of the Subordinated Indenture receives notice from us, then we will not be able to make any principal, premium, interest, or other payments on the subordinated debt securities or repurchase our subordinated debt securities.

If any subordinated debt security is declared due and payable before the required date or upon a payment or distribution of our assets to creditors pursuant to a dissolution, winding up, liquidation, or reorganization, we are required to pay all principal, premium, interest, or other payments to holders of senior indebtedness before any holders of subordinated debt are paid. In addition, if any amounts previously were paid to the holders of subordinated debt or the trustee of the Subordinated Indenture, the holders of senior indebtedness will have first rights to the amounts previously paid.

Subject to the payment in full of all our senior indebtedness, the holders of our subordinated debt securities will be subrogated to the rights of the holders of our senior indebtedness to receive payments or distributions of our assets applicable to the senior indebtedness until our subordinated debt securities are paid in full. For purposes of this subrogation, the subordinated debt securities will be subrogated equally and ratably with all our other indebtedness that by its terms ranks equally with our subordinated debt securities and is entitled to like rights of subrogation.

Due to differing subordination provisions in various series of subordinated debt securities issued by us and our predecessors, in the event of a dissolution, winding up, liquidation, reorganization, insolvency, receivership or other proceeding, holders of subordinated debt securities may receive more or less, ratably, than holders of some other series of our outstanding subordinated debt securities.

Sale or Issuance of Capital Stock of Banks

The Senior Indenture prohibits the issuance, sale, or other disposition of capital stock, or securities convertible into or options, warrants, or rights to acquire capital stock, of any Principal Subsidiary Bank (as defined below) or of any subsidiary which owns shares of capital stock, or securities convertible into or options, warrants, or rights to acquire capital stock, of any Principal Subsidiary Bank, with the following exceptions:

sales of directors' qualifying shares;

sales or other dispositions for fair market value, if, after giving effect to the disposition and to conversion of any shares or securities convertible into capital stock of a Principal Subsidiary Bank, we would own at least 80% of each class of the capital stock of that Principal Subsidiary Bank;

sales or other dispositions made in compliance with an order of a court or regulatory authority of competent jurisdiction;

any sale by a Principal Subsidiary Bank of additional shares of its capital stock, securities convertible into shares of its capital stock, or options, warrants, or rights to subscribe for or purchase shares of its capital

stock, to its stockholders at any price, so long as before that sale we owned, directly or indirectly, securities of the same class and immediately after the sale, we owned, directly or indirectly, at least as great a percentage of each class of securities of the Principal Subsidiary Bank as we owned before the sale of additional securities; and

Table of Contents

any issuance of shares of capital stock, or securities convertible into or options, warrants, or rights to subscribe for or purchase shares of capital stock, of a Principal Subsidiary Bank or any subsidiary which owns shares of capital stock, or securities convertible into or options, warrants, or rights to acquire capital stock, of any Principal Subsidiary Bank, to us or our wholly owned subsidiary.

A Principal Subsidiary Bank is defined in the Senior Indenture as any bank with total assets equal to more than 10% of our total consolidated assets. As of the date of this prospectus, Bank of America, N.A. is our only Principal Subsidiary Bank.

Limitation on Mergers and Sales of Assets

Each indenture generally permits a consolidation or merger between us and another entity. It also permits the sale or transfer by us of all or substantially all of our assets. These transactions are permitted if:

the resulting or acquiring entity, if other than us, is organized and existing under the laws of the United States or any state or the District of Columbia and expressly assumes all of our obligations under that indenture; and

immediately after the transaction, we (or any successor company) are not in default in the performance of any covenant or condition under that indenture.

Upon any consolidation, merger, sale, or transfer of this kind, the resulting or acquiring entity will be substituted for us in the applicable indenture with the same effect as if it had been an original party to that indenture. As a result, the successor entity may exercise our rights and powers under the indenture.

Waiver of Covenants

The holders of a majority in principal amount of the debt securities of all affected series then outstanding under the indenture may waive compliance with some of the covenants or conditions of that indenture.

Modification of the Indentures

We and the trustee may modify the applicable indenture and the rights of the holders of the debt securities with the consent of the holders of at least 66 2/3% of the aggregate principal amount of all series of debt securities under that indenture affected by the modification. However, no modification may extend the fixed maturity of, reduce the principal amount or redemption premium of, or reduce the rate of, or extend the time of payment of, interest on, any debt security without the consent of each holder affected by the modification. No modification may reduce the percentage of debt securities that is required to consent to modification of an indenture without the consent of all holders of the debt securities outstanding under that indenture.

In addition, we and the trustee may execute supplemental indentures in some circumstances without the consent of any holders of outstanding debt securities.

For purposes of determining the aggregate principal amount of the debt securities outstanding at any time in connection with any request, demand, authorization, direction, notice, consent, or waiver under the applicable indenture, (1) the principal amount of any debt security issued with original issue discount is that amount that would be due and payable at that time upon an event of

Table of Contents

default, and (2) the principal amount of a debt security denominated in a foreign currency or currency unit is the U.S. dollar equivalent on the date of original issuance of the debt security.

Meetings and Action by Securityholders

The trustee may call a meeting in its discretion, or upon request by us or the holders of at least 10% in principal amount of a series of outstanding debt securities, by giving notice. If a meeting of holders is duly held, any resolution raised or decision taken in accordance with the indenture will be binding on all holders of debt securities of that series.

Events of Default and Rights of Acceleration

The Senior Indenture defines an event of default for a series of senior debt securities as any one of the following events:

our failure to pay principal or any premium when due on any securities of that series;

our failure to pay interest on any securities of that series, within 30 calendar days after the interest becomes due;

our breach of any of our other covenants contained in the senior debt securities of that series or in the Senior Indenture, that is not cured within 90 calendar days after written notice to us by the trustee of the Senior Indenture, or to us and the trustee of the Senior Indenture by the holders of at least 25% in principal amount of all senior debt securities then outstanding under the Senior Indenture and affected by the breach; and

specified events involving our bankruptcy, insolvency, or liquidation.

The Subordinated Indenture defines an event of default only as our voluntary or involuntary bankruptcy under U.S. federal bankruptcy laws (and, in the case of our involuntary bankruptcy, continuing for a period of 60 days).

If an event of default occurs and is continuing, either the trustee or the holders of 25% in principal amount of the debt securities outstanding under the applicable indenture (or, in the case of an event of default under the Senior Indenture with respect to a series of senior debt securities, the holders of 25% in principal amount of the outstanding debt securities of all series affected) may declare the principal amount, or, if the debt securities are issued with original issue discount, a specified portion of the principal amount, of all debt securities (or the debt securities of all series affected, as the case may be) to be due and payable immediately. The holders of a majority in principal amount of the debt securities then outstanding (or of the series affected, as the case may be), in some circumstances, may annul the declaration of acceleration and waive past defaults.

Payment of principal of the subordinated debt securities may not be accelerated in the case of a default in the payment of principal, any premium, interest, or any other amounts or the performance of any of our other covenants.

Collection of Indebtedness

If we fail to pay the principal of (or, under the Senior Indenture, any premium on) any debt securities, or if we are over 30 calendar days late on an interest payment on the debt securities, the applicable trustee can demand that we pay to it, for the benefit of the holders of those debt securities,

Table of Contents

the amount which is due and payable on those debt securities, including any interest incurred because of our failure to make that payment. If we fail to pay the required amount on demand, the trustee may take appropriate action, including instituting judicial proceedings against us.

In addition, a holder of a debt security also may file suit to enforce our obligation to make payment of principal, any premium, interest, or other amounts due on that debt security regardless of the actions taken by the trustee.

The holders of a majority in principal amount of each series of the debt securities then outstanding under an indenture may direct the time, method, and place of conducting any proceeding for any remedy available to the trustee under that indenture, but the trustee will be entitled to receive from the holders a reasonable indemnity against expenses and liabilities.

We are required periodically to file with the trustees a certificate stating that we are not in default under any of the terms of the indentures.

Payment of Additional Amounts

If we so specify in the applicable supplement, and subject to the exceptions and limitations set forth below, we will pay to the beneficial owner of any debt security that is a non-U.S. person additional amounts to ensure that every net payment on that debt security will not be less, due to the payment of U.S. withholding tax, than the amount then otherwise due and payable. For this purpose, a net payment on a debt security means a payment by us or any paying agent, including payment of principal and interest, after deduction for any present or future tax, assessment, or other governmental charge of the United States (other than a territory or possession). These additional amounts will constitute additional interest on the debt security. For this purpose, U.S. withholding tax means a withholding tax of the United States, other than a territory or possession.

However, notwithstanding our obligation, if so specified, to pay additional amounts, we will not be required to pay additional amounts in any of the circumstances described in items (1) through (15) below, unless we specify otherwise in the applicable supplement.

- (1) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the beneficial owner of the debt security:

having a relationship with the United States as a citizen, resident, or otherwise;

having had such a relationship in the past; or

being considered as having had such a relationship.

- (2) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the beneficial

owner of the debt security:

being treated as present in or engaged in a trade or business in the United States;

being treated as having been present in or engaged in a trade or business in the United States in the past;

Table of Contents

having or having had a permanent establishment in the United States; or

having or having had a qualified business unit which has the U.S. dollar as its functional currency.

- (3) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the beneficial owner of the debt security being or having been a:

personal holding company;

foreign personal holding company;

private foundation or other tax-exempt organization;

passive foreign investment company;

controlled foreign corporation; or

corporation which has accumulated earnings to avoid U.S. federal income tax.

- (4) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the beneficial owner of the debt security owning or having owned, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote.

- (5) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the beneficial owner of the debt security being a bank extending credit under a loan agreement entered into in the ordinary course of business.

For purposes of items (1) through (5) above, beneficial owner includes, without limitation, a holder and a fiduciary, settlor, partner, member, shareholder, or beneficiary of the holder if the holder is an estate, trust, partnership, limited liability company, corporation, or other entity, or a person holding a power over an estate or trust administered by a fiduciary holder.

- (6) Additional amounts will not be payable to any beneficial owner of a debt security that is:

A fiduciary;

A partnership;

A limited liability company;

Another fiscally transparent entity; or

Not the sole beneficial owner of the debt security, or any portion of the debt security.

However, this exception to the obligation to pay additional amounts will apply only to the extent that a beneficiary or settlor in relation to the fiduciary, or a beneficial owner, partner, or member of the partnership, limited liability company, or other fiscally transparent entity, would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner, partner, or member received directly its beneficial or distributive share of the payment.

Table of Contents

- (7) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld solely by reason of the failure of the beneficial owner of the debt security or any other person to comply with applicable certification, identification, documentation, or other information reporting requirements. This exception to the obligation to pay additional amounts will apply only if compliance with such requirements is required as a precondition to exemption from such tax, assessment, or other governmental charge by statute or regulation of the United States or by an applicable income tax treaty to which the United States is a party.
- (8) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is collected or imposed by any method other than by withholding from a payment on a debt security by us or any paying agent.
- (9) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld by reason of a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later.
- (10) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld by reason of the presentation by the beneficial owner of a debt security for payment more than 30 days after the date on which such payment becomes due or is duly provided for, whichever occurs later.
- (11) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any:
- estate tax;
- inheritance tax;
- gift tax;
- sales tax;
- excise tax;
- transfer tax;
- wealth tax;

personal property tax; or

any similar tax, assessment, or other governmental charge.

- (12) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge required to be withheld by any paying agent from a payment of principal or interest on the applicable security if such payment can be made without such withholding by any other paying agent.

Table of Contents

- (13) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld by reason of the application of Section 1471 through Section 1474 of the U.S. Internal Revenue Code of 1986, as amended, (or any successor provision), any regulation, pronouncement, or agreement thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto, whether currently in effect or as published and amended from time to time.
- (14) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any tax, assessment, or other governmental charge that is imposed or withheld by reason of the payment being treated as a dividend or dividend equivalent for U.S. tax purposes.
- (15) Additional amounts will not be payable if a payment on a debt security is reduced as a result of any combination of items (1) through (14) above.

Except as specifically provided in this section, we will not be required to make any payment of any tax, assessment, or other governmental charge imposed by any government, political subdivision, or taxing authority of that government.

For purposes of determining whether the payment of additional amounts is required, the term **U.S. person** means any individual who is a citizen or resident of the United States; any corporation, partnership, or other entity created or organized in or under the laws of the United States; any estate if the income of such estate falls within the federal income tax jurisdiction of the United States regardless of the source of that income; and any trust if a U.S. court is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all of the substantial decisions of the trust. Additionally, for this purpose, **non-U.S. person** means a person who is not a U.S. person, and **United States** means the United States of America, including each state of the United States and the District of Columbia, its territories, its possessions, and other areas within its jurisdiction.

Redemption for Tax Reasons

If we so specify in the applicable supplement, we may redeem the debt securities in whole, but not in part, at any time before maturity, after giving not less than 30 nor more than 60 calendar days' notice to the trustee under the applicable indenture and to the holders of the debt securities, if we have or will become obligated to pay additional amounts, as described above under **Payment of Additional Amounts**, as a result of any change in, or amendment to, the laws or regulations of the United States or any political subdivision or any authority of the United States having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date of the applicable supplement for the issuance of those debt securities.

In connection with any notice of redemption for tax reasons, we will deliver to the trustee under the indenture any required certificate, request, or order.

Unless we specify otherwise in the applicable supplement, any debt securities redeemed for tax reasons will be redeemed at 100% of their principal amount together with interest accrued up to, but excluding, the redemption date.

Defeasance and Covenant Defeasance

If we so specify in the applicable supplement, the provisions for full defeasance and covenant defeasance described below will apply to the debt securities if certain conditions are satisfied.

Full Defeasance. If there is a change in the U.S. federal tax law, as described below, we can legally release ourselves from all payment and other obligations on any debt securities. This is called full defeasance. For us to do so, each of the following must occur:

We must deposit in trust for the benefit of the holders of those debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal, and any other payments on those debt securities at their due dates;

There must be a change in current U.S. federal tax law or an Internal Revenue Service ruling that lets us make the above deposit without causing the holders to be taxed on the debt securities any differently than if we did not make the deposit and repaid the debt securities ourselves. Under current U.S. federal tax law, the deposit, and our legal release from your debt security, would be treated as though we took back your debt security and gave you your share of the cash and notes or bonds deposited in trust. In that event, you could recognize gain or loss on your debt security; and

We must deliver to the trustee under the indenture a legal opinion of our counsel confirming the tax law treatment described above.

If we ever fully defeased your debt security, you would have to rely solely on the trust deposit for payments on your debt security. You would not be able to look to us for payment in the event of any shortfall.

Covenant Defeasance. Under current U.S. federal tax law, we can make the same type of deposit described above and be released from any restrictive covenants relating to your debt security. This is called covenant defeasance. In that event, you would lose the protection of those restrictive covenants. In order to achieve covenant defeasance for the debt securities, we must do both of the following:

We must deposit in trust for the benefit of the holders of those debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal, and any other payments on those debt securities on their due dates; and

We must deliver to the trustee under the indenture a legal opinion of our counsel confirming that under current U.S. federal income tax law we may make the above deposit without causing the holders to be taxed on the debt securities any differently than if we did not make the deposit and repaid the debt securities ourselves.

If we achieve covenant defeasance with respect to your debt security, you can still look to us for repayment of your debt security in the event of any shortfall in the trust deposit. You should note, however, that if one of the remaining events of default occurred, such as our bankruptcy, and your debt security became immediately due and payable, there

may be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Notices

We or the trustee on our behalf, if so requested, will provide the holders with any required notices by first-class mail to the addresses of the holders as they appear in the security register. So long as a depository is the record holder of a series of debt securities with respect to which a notice is given, we or the trustee, if so requested, will deliver the notice only to that depository.

Concerning the Trustees

We and certain of our affiliates have from time to time maintained deposit accounts and conducted other banking transactions with The Bank of New York Mellon Trust Company, N.A. and its affiliates in the ordinary course of business. We expect to continue these business transactions. The Bank of New York Mellon Trust Company, N.A. and its affiliates also serve as trustee for a number of series of outstanding indebtedness of us and our affiliates under other indentures.

Governing Law

The indentures and the debt securities will be governed by New York law.

DESCRIPTION OF WARRANTS

General

We may issue warrants, including debt warrants and universal warrants. We may offer warrants separately or as part of a unit, as described below under the heading **Description of Units**.

We may issue warrants in any amounts or in as many distinct series as we determine. We will issue each series of debt warrants and universal warrants under a separate warrant agreement to be entered into between us and a warrant agent to be designated in the applicable supplement. When we refer to a series of warrants, we mean all warrants issued as part of the same series under the applicable warrant agreement.

This section describes some of the general terms and provisions of warrants. We will describe the specific terms of a series of warrants and the applicable warrant agreement in the applicable supplement. The following description and any description of the warrants in the applicable supplement may not be complete and is subject to and qualified in its entirety by reference to the terms and provisions of the applicable warrant agreement. A warrant agreement reflecting the particular terms and provisions of a series of offered warrants will be filed with the SEC in connection with the offering and incorporated by reference in the registration statement and this prospectus. See **Where You Can Find More Information** below for information on how to obtain copies of any warrant agreements.

Description of Debt Warrants

We may issue warrants for the purchase of our debt securities. We refer to this type of warrant as a **debt warrant**. If debt warrants are offered, the supplement will describe the terms of the debt warrants and the warrant agreement relating to the debt warrants, including the following:

the offering price;

any circumstances that will cause the debt warrants to be deemed to be automatically exercised;

if applicable, a discussion of the U.S. federal income tax consequences;

whether the debt warrants or related securities will be listed on any securities exchange;

any other terms of the debt warrants which are permitted under the warrant agreement.

Description of Universal Warrants

We may also issue warrants for the purchase or sale of, or whose cash value is determined by reference to the performance, level, or value of, one or more of the following:

securities of one or more issuers, including our common or preferred stock or other securities described in this prospectus, or the debt or equity securities of third parties;

one or more currencies, currency units, or composite currencies;

one or more commodities;

any other financial, economic, or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance; and

one or more indices or baskets of the items described above.

Table of Contents

We refer to each type of property described above as warrant property. We refer to this type of warrant as a universal warrant.

We may satisfy our obligations, if any, and the holder of a universal warrant may satisfy its obligations, if any, with respect to any universal warrants by delivering the assets described in the applicable supplement, and in some cases, cash.

If universal warrants are offered, the applicable supplement will describe the terms of the universal warrants and the warrant agreement, including the following:

the offering price;

the title and aggregate number of the universal warrants;

the nature and amount of the warrant property that the universal warrants represent the right to buy or sell;

whether the universal warrants are put warrants or call warrants, including in either case, the method by which the warrants may be settled;

the price at which the warrant property may be purchased or sold, the currency, and the procedures and conditions relating to exercise;

the method of exercising the universal warrants, the method of paying the exercise price, and the method of settling the warrant;

the dates on which the right to exercise the universal warrants will commence and expire;

if applicable, a discussion of the U.S. federal income tax consequences;

whether the universal warrants or underlying securities will be listed on any securities exchange;

whether the universal warrants will be issued in global or certificated form;

the name of the warrant agent;

a description of the terms of any warrant agreement to be entered into between us and a bank or trust company, as warrant agent, governing the universal warrants; and

any other terms of the universal warrants which are permitted under the warrant agreement.

Modification

We and the warrant agent may amend the terms of any warrant agreement and the warrants without the consent of the holders of the warrants to cure any ambiguity, to correct any inconsistent provision, or in any other manner we deem necessary or desirable and which will not affect adversely the interests of the holders. In addition, we may amend the warrant agreement and the terms of the warrants with the consent of the holders of a majority of the outstanding unexercised warrants affected. However, any modification to the warrants cannot change the exercise price, reduce the amounts receivable upon exercise, cancellation, or expiration, shorten the time period during which the warrants may be exercised, or otherwise materially and adversely

Table of Contents

affect the rights of the holders of the warrants or reduce the percentage of outstanding warrants required to modify or amend the warrant agreement or the terms of the warrants, without the consent of the affected holders.

Enforceability of Rights of Warrantholders; No Trust Indenture Act Protection

The warrant agent will act solely as our agent and will not assume any obligation or relationship of agency or trust with the holders of the warrants. Any record holder or beneficial owner of a warrant, without anyone else's consent, may enforce by appropriate legal action, on his or her own behalf, his or her right to exercise the warrant in accordance with its terms. A holder of a warrant will not be entitled to any of the rights of a holder of the debt securities or other securities or warrant property purchasable upon the exercise of the warrant, including any right to receive payments on those securities or warrant property or to enforce any covenants or rights in the relevant indenture or any other agreement, before exercising the warrant.

No warrant agreement will be qualified as an indenture, and no warrant agent under any warrant agreement will be required to qualify as a trustee, under the Trust Indenture Act of 1939. Therefore, holders of warrants issued under a warrant agreement will not have the protection of the Trust Indenture Act of 1939 with respect to their warrants.

DESCRIPTION OF PURCHASE CONTRACTS

General

We may issue purchase contracts in any amounts and in as many distinct series as we determine. We may offer purchase contracts separately or as part of a unit, as described below under the heading **Description of Units**. When we refer to a series of purchase contracts, we mean all purchase contracts issued as part of the same series under the applicable purchase contract.

This section describes some of the general terms and provisions applicable to all purchase contracts. We will describe the specific terms of a series of purchase contracts in the applicable supplement. The following description and any description of the purchase contracts in the applicable supplement may not be complete and is subject to and qualified in its entirety by reference to the terms and provisions of the applicable purchase contract. A purchase contract reflecting the particular terms and provisions of a series of offered purchase contracts will be filed with the SEC in connection with the offering and incorporated by reference in the registration statement and this prospectus. See **Where You Can Find More Information** below for information on how to obtain copies of any purchase contracts.

Purchase Contract Property

We may issue purchase contracts for the purchase or sale of, or whose cash value is determined by reference or linked to the performance, level, or value of, one or more of the following:

securities of one or more issuers, including our common or preferred stock, other securities described in this prospectus, or the debt or equity securities of third parties;

one or more currencies, currency units, or composite currencies;

one or more commodities;

any other financial, economic, or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance; and

Table of Contents

one or more indices or baskets of the items described above.

We refer to each type of property described above as a purchase contract property.

Each purchase contract will obligate:

the holder to purchase or sell, and us to sell or purchase, on specified dates, one or more purchase contract properties at a specified price or prices; or

the holder or us to settle the purchase contract with a cash payment determined by reference to the value, performance, or level of one or more purchase contract properties, on specified dates and at a specified price or prices.

No holder of a purchase contract will, as such, have any rights of a holder of the purchase contract property purchasable under or referenced in the contract, including any rights to receive payments on that property.

Information in Supplement

If we offer purchase contracts, the applicable supplement will describe the terms of the purchase contracts, including the following:

the purchase date or dates;

if other than U.S. dollars, the currency or currency unit in which payment will be made;

the specific designation and aggregate number of, and the price at which we will issue, the purchase contracts;

whether the purchase contract obligates the holder to purchase or sell, or both purchase and sell, one or more purchase contract properties, and the nature and amount of each of those properties, or the method of determining those amounts;

the purchase contract property or cash value, and the amount or method for determining the amount of purchase contract property or cash value, deliverable under each purchase contract;

whether the purchase contract is to be prepaid or not and the governing document for the contract;

the price at which the purchase contract is settled, and whether the purchase contract is to be settled by delivery of, or by reference or linkage to the value, performance, or level of, the purchase contract

properties;

whether, following the occurrence of a market disruption event or force majeure event (as defined in the applicable supplement), the settlement delivery obligation or cash settlement value of a purchase contract will be determined on a different basis than under normal circumstances;

whether the purchase contract will be issued as part of a unit and, if so, the other securities comprising the unit and whether any unit securities will be subject to a security interest in our favor as described below;

if applicable, a discussion of the U.S. federal income tax consequences;

the identities of any depositories and any paying, transfer, calculation, or other agents for the purchase contracts;

whether the purchase contract will be issued in global or certificated form;

any securities exchange or quotation system on which the purchase contracts or any securities deliverable in settlement of the purchase contracts may be listed; and

any other terms of the purchase contracts and any terms required by or advisable under applicable laws and regulations.

Prepaid Purchase Contracts; Applicability of Indenture

Purchase contracts may require holders to satisfy their obligations under the purchase contracts at the time they are issued. We refer to these contracts as prepaid purchase contracts.

In certain circumstances, our obligation to settle a prepaid purchase contract on the relevant settlement date may constitute our senior debt securities or our subordinated debt securities. Accordingly, prepaid purchase contracts may be issued under the Senior Indenture or the Subordinated Indenture, which are described above under the heading Description of Debt Securities.

Non-Prepaid Purchase Contracts; No Trust Indenture Act Protection

Some purchase contracts do not require holders to satisfy their obligations under the purchase contracts until settlement. We refer to these contracts as non-prepaid purchase contracts. The holder of a non-prepaid purchase contract may remain obligated to perform under the contract for a substantial period of time.

Non-prepaid purchase contracts will be issued under a unit agreement, if they are issued in units, or under some other document, if they are not. We describe unit agreements generally under the heading Description of Units below. We will describe the particular governing document that applies to your non-prepaid purchase contracts in the applicable supplement.

Non-prepaid purchase contracts will not be our senior debt securities or subordinated debt securities and will not be issued under one of our indentures, unless we specify otherwise in the applicable supplement. Consequently, no

governing documents for non-prepaid purchase contracts will be qualified as indentures, and no third party will be required to qualify as a trustee with regard to those contracts, under the Trust Indenture Act of 1939. Therefore, holders of non-prepaid purchase contracts will not have the protection of the Trust Indenture Act of 1939.

Pledge by Holders to Secure Performance

If we so specify in the applicable supplement, the holder's obligations under the purchase contract and governing document will be secured by collateral. In that case, the holder, acting through the unit agent as its attorney-in-fact, if applicable, will pledge the items described below to a collateral agent that we will identify in the applicable supplement, which will hold them, for our benefit, as collateral to secure the holder's obligations. We refer to this as the pledge and all the items described below as the pledged items. Unless we specify otherwise in the applicable supplement, the pledge will create a security interest in the holder's entire interest in and to:

any other securities included in the unit, if the purchase contract is part of a unit, and/or any other property specified in the applicable supplement;

all additions to and substitutions for the pledged items;

all income, proceeds, and collections received in respect of the pledged items; and

all powers and rights owned or acquired later with respect to the pledged items.

The collateral agent will forward all payments and proceeds from the pledged items to us, unless the payments and proceeds have been released from the pledge in accordance with the purchase contract and the governing document. We will use the payments and proceeds from the pledged items to satisfy the holder's obligations under the purchase contract.

Settlement of Purchase Contracts that Are Part of Units

Unless we specify otherwise in the applicable supplement, where purchase contracts issued together with debt securities as part of a unit require the holders to buy purchase contract property, the unit agent may apply principal payments from the debt securities in satisfaction of the holders' obligations under the related purchase contract as specified in the applicable supplement. The unit agent will not so apply the principal payments if the holder has delivered cash to meet its obligations under the purchase contract. If the holder is permitted to settle its obligations by cash payment, the holder may be permitted to do so by delivering the debt securities in the unit to the unit agent as provided in the governing document. If the holder settles its obligations in cash rather than by delivering the debt security that is part of the unit, that debt security will remain outstanding, if the maturity extends beyond the relevant settlement date and, as more fully described in the applicable supplement, the holder will receive that debt security or an interest in the relevant global debt security.

Book-entry and other indirect owners should consult their banks or brokers for information on how to settle their purchase contracts.

Failure of Holder to Perform Obligations

If the holder fails to settle its obligations under a non-prepaid purchase contract as required, the holder will not receive the purchase contract property or other consideration to be delivered at settlement. Holders that fail to make timely settlement also may be obligated to pay interest or other amounts.

DESCRIPTION OF UNITS

General

We may issue units from time to time in such amounts and in as many distinct series as we determine.

We will issue each series of units under a unit agreement to be entered into between us and a unit agent to be designated in the applicable supplement. When we refer to a series of units, we mean all units issued as part of the same series under the applicable unit agreement.

This section describes some of the general terms and provisions applicable to all the units. We will describe the specific terms of a series of units and the applicable unit agreement in the applicable supplement. The following description and any description of the units in the applicable supplement may not be complete and is subject to and qualified in its entirety by reference to the terms and provisions of the applicable unit agreement. A unit agreement reflecting the particular terms and provisions of a series of offered units will be filed with the SEC in connection with the offering and incorporated by reference in the registration statement and this prospectus. See **Where You Can Find More Information** below for information on how to obtain copies of any unit agreements.

We may issue units consisting of one or more securities described in this prospectus or debt or equity securities of third parties, in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

If units are offered, the applicable supplement will describe the terms of the units, including the following:

the designation and aggregate number of, and the price at which we will issue, the units;

the terms of the units and of the securities comprising the units, including whether and under what circumstances the securities comprising the units may or may not be held or transferred separately;

the name of the unit agent;

a description of the terms of any unit agreement to be entered into between us and a bank or trust company, as unit agent, governing the units;

if applicable, a discussion of the U.S. federal income tax consequences;

whether the units will be listed on any securities exchange; and

a description of the provisions for the payment, settlement, transfer, or exchange of the units.

Unit Agreements: Prepaid, Non-Prepaid, and Other

If a unit includes one or more purchase contracts, and all those purchase contracts are prepaid purchase contracts, we will issue the unit under a prepaid unit agreement. Prepaid unit agreements will reflect the fact that the holders of the related units have no further obligations

Table of Contents

under the purchase contracts included in their units. If a unit includes one or more non-prepaid purchase contracts, we will issue the unit under a non-prepaid unit agreement. Non-prepaid unit agreements will reflect the fact that the holders have payment or other obligations under one or more of the purchase contracts comprising their units. We may also issue units under other kinds of unit agreements, which will be described in the applicable supplement, if applicable.

Each holder of units issued under a non-prepaid unit agreement will:

be bound by the terms of each non-prepaid purchase contract included in the holder's units and by the terms of the unit agreement with respect to those contracts; and

appoint the unit agent as its authorized agent to execute, deliver, and perform on the holder's behalf each non-prepaid purchase contract included in the holder's units.

Any unit agreement for a unit that includes a non-prepaid purchase contract also will include provisions regarding the holder's pledge of collateral and special settlement provisions. These are described above under the heading Description of Purchase Contracts.

A unit agreement also may serve as the governing document for a security included in a unit. For example, a non-prepaid purchase contract that is part of a unit may be issued under and governed by the relevant unit agreement.

Modification

We and the unit agent may amend the terms of any unit agreement and the units without the consent of the holders to cure any ambiguity, to correct any inconsistent provision, or in any other manner we deem necessary or desirable and which will not affect adversely the interests of the holders. In addition, we may amend the unit agreement and the terms of the units with the consent of the holders of a majority of the outstanding unexpired units affected. However, any modification to the units that materially and adversely affects the rights of the holders of the units, or reduces the percentage of outstanding units required to modify or amend the unit agreement or the terms of the units, requires the consent of the affected holders.

Enforceability of Rights of Unitholders; No Trust Indenture Act Protection

The unit agent will act solely as our agent and will not assume any obligation or relationship of agency or trust with the holders of the units. Except as described below, any record holder of a unit, without anyone else's consent, may enforce his or her rights as holder under any security included in the unit, in accordance with the terms of the included security and the indenture, warrant agreement, unit agreement, or purchase contract under which that security is issued. We describe these terms in other sections of this prospectus relating to debt securities, warrants, and purchase contracts.

Notwithstanding the foregoing, a unit agreement may limit or otherwise affect the ability of a holder of units issued under that agreement to enforce his or her rights, including any right to bring legal action, with respect to those units or any included securities, other than debt securities. We will describe any limitations of this kind in the applicable supplement.

No unit agreement will be qualified as an indenture, and no unit agent will be required to qualify as a trustee under the Trust Indenture Act of 1939. Therefore, holders of units issued under a unit agreement will not have the protection of the Trust Indenture Act of 1939 with respect to their units.

DESCRIPTION OF PREFERRED STOCK

General

We may issue preferred stock in one or more series, each with the preferences, designations, limitations, conversion rights, and other rights as we may determine. As of the date of this prospectus, under our Amended and Restated Certificate of Incorporation, we have authority to issue 100,000,000 shares of preferred stock, par value \$.01 per share. As of March 31, 2015, we had approximately 3.77 million issued and outstanding shares of preferred stock and the aggregate liquidation preference of all of our outstanding preferred stock was approximately \$24.6 billion.

Any preferred stock sold under this prospectus will have the general dividend, voting, and liquidation preference rights stated below unless we specify otherwise in the applicable supplement. The applicable supplement for a series of preferred stock will describe the specific terms of those shares, including, where applicable:

the title and stated value of the preferred stock;

the aggregate number of shares of preferred stock offered;

the offering price or prices of the preferred stock;

the dividend rate or rates or method of calculation, the dividend period, and the dates dividends will be payable;

whether dividends are cumulative or noncumulative, and, if cumulative, the date the dividends will begin to cumulate;

the dividend and liquidation preference rights of the preferred stock relative to any existing or future series of our preferred stock;

the dates the preferred stock become subject to redemption at our option, and any redemption terms;

any redemption or sinking fund provisions, including any restriction on the repurchase or redemption of the preferred stock while there is an arrearage in the payment of dividends;

whether the preferred stock will be issued in other than book-entry form;

whether the preferred stock will be listed on any securities exchange;

any rights on the part of the stockholder or us to convert the preferred stock into shares of our common stock or any other security; and

any additional voting, liquidation, preemptive, and other rights, preferences, privileges, limitations, and restrictions.

Shares of our preferred stock will be uncertificated unless our board of directors by resolution determines otherwise.

Shares represented by an existing certificate will remain certificated until such certificate is surrendered to us.

This section summarizes the general terms and provisions of our preferred stock. You also should refer to our Amended and Restated Certificate of Incorporation and the respective

Table of Contents

certificates of designations for each series of our preferred stock. We have filed our Amended and Restated Certificate of Incorporation as an exhibit to the registration statement of which this prospectus forms a part, and we will file with the SEC the certificate of designations with respect to the particular series of preferred stock being offered promptly after the offering of that series of preferred stock.

Dividends

The holders of our preferred stock will be entitled to receive when, as, and if declared by our board of directors, cash dividends at those rates as will be fixed by our board of directors, subject to the terms of our Amended and Restated Certificate of Incorporation. All dividends will be paid out of funds that are legally available for this purpose. Unless we specify otherwise in the applicable supplement, whenever dividends on any non-voting preferred stock are in arrears for three or more semi-annual dividend periods or six quarterly dividend periods, as applicable (whether or not consecutive), holders of the non-voting preferred stock will have the right to elect two additional directors to serve on our board of directors, and these two additional directors will continue to serve until full dividends on such non-voting preferred stock have been paid regularly for at least four quarterly dividend periods.

Voting

The holders of our preferred stock will have no voting rights except:

as required by applicable law; or

as specifically approved by us for that particular series.

Under regulations adopted by the Board of Governors of the Federal Reserve System (the Federal Reserve Board), if the holders of any series of our preferred stock become entitled to vote for the election of directors because dividends on that series are in arrears, that series may then be deemed a class of voting securities. In such a case, a holder of 25% or more of the series, or a holder of 5% or more if that holder would also be considered to exercise a controlling influence over us, may then be subject to regulation as a bank holding company in accordance with the Bank Holding Company Act of 1956. In addition, (1) any other bank holding company may be required to obtain the prior approval of the Federal Reserve Board to acquire or retain 5% or more of that series, and (2) any person other than a bank holding company may be required to obtain the approval of the Federal Reserve Board to acquire or retain 10% or more of that series.

Liquidation Preference

In the event of our voluntary or involuntary dissolution, liquidation, or winding up, the holders of any series of our preferred stock will be entitled to receive, after distributions to holders of any series or class of our capital stock ranking superior, an amount equal to the stated or liquidation value of the shares of the series plus an amount equal to accrued and unpaid dividends. If the assets and funds to be distributed among the holders of our preferred stock will be insufficient to permit full payment to the holders, then the holders of our preferred stock will share ratably in any distribution of our assets in proportion to the amounts that they otherwise would receive on their shares of our preferred stock if the shares were paid in full. In addition, holders of our preferred stock, or depositary shares representing interests in our preferred stock, may be fully subordinated to interests held by the U.S. government in the event that we enter into a receivership, insolvency, liquidation or similar proceeding.

Table of Contents

Preemptive Rights

Unless we specify otherwise in the applicable supplement, holders of our preferred stock will not have any preemptive rights.

Conversion Right. Each share of the Series L Preferred Stock may be converted at any time, at the option of the holder, into 20 shares of our common stock (which reflects an initial conversion price of \$50.00 per share of common stock) plus cash in lieu of fractional shares, subject to anti-dilution adjustments.

Conversion at Our Option. We may, at our option, at any time or from time to time, cause some or all of the Series L Preferred Stock to be converted into shares of our common stock at the then-applicable conversion rate if, for 20 trading days during any period of 30 consecutive trading days, the closing price of our common stock exceeds 130% of the then-applicable conversion price of the Series L Preferred Stock.

Conversion Upon Certain Acquisitions. If a make-whole acquisition occurs, holders of Series L Preferred Stock may cause this Series L Preferred Stock held by such holder to be converted into shares of our common stock, and we will, under certain circumstances, increase the conversion rate in respect of such conversions of the Series L Preferred Stock that occur during the period beginning on the effective date of the make-whole acquisition and ending on the date that is 30 days after the effective date by a number of additional shares of common stock. The amount of the make-whole adjustment, if any, will be based upon the price per share of our common stock and the effective date of the make-whole acquisition. Subject to certain exceptions, a make-whole acquisition occurs in the event of (1) the acquisition by a person or group of more than 50% of the voting power of our common stock, or (2) our consolidation or merger where we are not the surviving entity.

Conversion Upon Fundamental Change. In lieu of receiving the make-whole shares described above, if the reference price (as defined below) in connection with a make-whole acquisition is less than the applicable conversion price (a fundamental change), a holder may elect to convert each share of the Series L Preferred Stock during the period beginning on the effective date of the fundamental change and ending on the date that is 30 days after the effective date of such fundamental change at an adjusted conversion price equal to the greater of (1) the reference price, which is the price per share of our common stock paid in the event of a fundamental change, and (2) \$19.95, which is 50% of the closing price of our common stock on January 24, 2008, the date of the initial offering of the Series L Preferred Stock, subject to adjustment (the base price). If the reference price is less than the base price, holders of the Series L Preferred Stock will receive a maximum of 50.1253 shares of our common stock per share of Series L Preferred Stock, subject to adjustment, which may result in a holder receiving value that is less than the liquidation preference of the Series L Preferred Stock.

Anti-Dilution Adjustments. The conversion rate may be adjusted in the event of, among other things, (1) stock dividend distributions, (2) subdivisions, splits, and combinations of our common stock, (3) issuance of stock purchase rights, (4) debt or asset distributions, (5) increases in cash dividends, and (6) tender or exchange offers for our common stock.

Voting Rights. Holders of Series L Preferred Stock do not have voting rights, except as specifically required by Delaware law and in the case of certain dividend arrearages in relation to the Series L Preferred Stock. Series 5 Preferred Stock

Preferential Rights. The Series 5 Preferred Stock ranks senior to common stock and equally with the Series B Preferred Stock, Series D Preferred Stock, Series E Preferred Stock, Series F Preferred Stock, Series G Preferred Stock, Series I Preferred Stock, Series K Preferred Stock, Series L Preferred Stock, Series M Preferred Stock, Series T Preferred Stock, Series U Preferred Stock, Series V Preferred Stock, Series W Preferred Stock, Series X Preferred Stock, Series Y Preferred Stock, Series Z Preferred Stock, Series AA Preferred Stock, Series 1 Preferred Stock, Series 2 Preferred Stock, Series 3 Preferred Stock, and Series 4 Preferred Stock as to dividends and distributions on our liquidation, dissolution, or winding up. Shares of the Series 5 Preferred Stock are not convertible into or exchangeable for any shares of common stock or any other class of our capital stock. Holders of the Series 5 Preferred Stock do not have any preemptive rights. We may issue stock with preferences equal to the Series 5 Preferred Stock without the consent of the holders of the Series 5 Preferred Stock.

Dividends. Holders of the Series 5 Preferred Stock are entitled to receive cash dividends, when, as, and if declared by the our board of directors or a duly authorized committee thereof, on the liquidation preference of \$30,000 per share at an annual floating rate per share equal to the greater of (a) three-month LIBOR, plus a spread of 0.50% and (b) 4.00%. Dividends on the Series 5 Preferred Stock are non-cumulative and are payable quarterly in arrears, if declared. As long as shares of Series 5 Preferred Stock remain outstanding, we cannot declare or pay cash dividends on any shares of common stock or other capital stock ranking junior to the Series 5 Preferred Stock unless full dividends on all outstanding shares of Series 5 Preferred Stock have been declared, paid or set aside for payment for the immediately preceding dividend period. We cannot declare or pay cash dividends on capital stock ranking equally with the Series 5 Preferred Stock for any period unless for such dividend period full dividends on all outstanding shares of Series 5 Preferred Stock for the immediately preceding dividend period have been declared, paid or set aside for payment. When dividends are not paid in full upon the shares of the Series 5 Preferred Stock and any capital stock ranking equally with the Series 5 Preferred Stock, all dividends declared upon shares of the Series 5 Preferred Stock and all shares of capital stock ranking equally with the Series 5 Preferred Stock shall be declared pro rata so that the amount of dividends declared per share on the Series 5 Preferred Stock, and all such other of our stock shall in all cases bear to each other the same ratio that accrued dividends per share on the shares of the Series 5 Preferred Stock and all such other stock bear to each other.

Voting Rights. Holders of Series 5 Preferred Stock do not have voting rights, except as provided herein and as specifically required by law. Holders of Series 5 Preferred Stock shall be entitled to vote on all matters submitted to a vote of the holders of common stock, voting together with the holders of common stock as one class, and each share of Series 5 Preferred Stock shall be entitled to 150 votes. If any quarterly dividend payable on the Series 5 Preferred Stock is in arrears for six or more quarterly dividend periods, whether or not for consecutive dividend periods, the holders of the Series 5 Preferred Stock will be entitled to vote as a class, together with the holders of all series of preferred stock ranking equally with the Series 5 Preferred Stock as to payment of dividends and upon which voting rights equivalent to those granted to the holders of Series 5 Preferred Stock have been conferred and are exercisable, for the election of two Preferred Stock Directors; each share of Series 5 Preferred Stock shall be entitled to three votes for the election of such Preferred Stock Directors. When we have paid full dividends on the Series 5 Preferred Stock for at least four quarterly dividend periods following a dividend arrearage described above, these voting rights will terminate.

As long as the Series 5 Preferred Stock remains outstanding, the affirmative vote or consent of the holders of at least two-thirds of the shares of Series 5 Preferred Stock, outstanding at the time (voting as a class with all other series of preferred stock ranking equally with the Series 5

Table of Contents

Preferred Stock), shall be necessary to permit, effect, or validate (i) the authorization, creation, or issuance, or any increase in the authorized or issued amount, of any class or series of stock ranking prior to the Series 5 Preferred Stock or (ii) the amendment, alteration, or repeal, whether by merger, consolidation, or otherwise, of any of the provisions of the Certificate of Incorporation or of the resolutions set forth in a certificate of designations for the Series 5 Preferred Stock, which would adversely affect any right, preference, or privilege or voting power of the Series 5 Preferred Stock, or of the holders thereof.

Distributions. In the event of our voluntary or involuntary liquidation, dissolution, or winding up, holders of Series 5 Preferred Stock will be entitled to receive out of assets legally available for distribution to stockholders, before any distribution or payment out of our assets may be made to or set aside for the holders of our capital stock ranking junior to the Series 5 Preferred Stock, a liquidating distribution in the amount of the liquidation preference of \$30,000 per share, plus any declared and unpaid dividends, without accumulation of any undeclared dividends, to the date of liquidation. Shares of Series 5 Preferred Stock will not be subject to a sinking fund.

Redemption. We may redeem the Series 5 Preferred Stock, in whole or in part, at our option, at the redemption price equal to \$30,000 per share, plus any declared and unpaid dividends, without accumulation of any undeclared dividends.

Additional Classes or Series of Stock

We will have the right to create and issue additional classes or series of stock ranking equally with or junior to our preferred stock as to dividends and distribution of assets upon any liquidation, dissolution, or winding up without the consent of the holders of such preferred stock, or the holders of the related depositary shares.

DESCRIPTION OF DEPOSITARY SHARES

General

We may offer depositary receipts evidencing depositary shares, each of which will represent a fractional interest in shares of preferred stock, rather than full shares of these securities. We will deposit shares of preferred stock of each series represented by depositary shares under a deposit agreement between us and a U.S. bank or trust company that we will select (the "depositary").

This section describes some of the general terms and provisions applicable to all depositary shares. We will describe the specific terms of a series of depositary shares and the deposit agreement in the applicable supplement. A form of deposit agreement, including the form of depositary receipt, has been filed as an exhibit to the registration statement of which this prospectus forms a part. The deposit agreement and depositary receipts reflecting the particular terms and provisions of a series of offered depositary shares will be filed with the SEC in connection with the offering and incorporated by reference in the registration statement and this prospectus. See **Where You Can Find More Information** below for information on how to obtain copies of any deposit agreements and depositary receipts.

Terms of the Depositary Shares

Depositary receipts issued under the deposit agreement will evidence the depositary shares. Depositary receipts will be distributed to those persons purchasing depositary shares representing fractional shares of preferred stock in accordance with the terms of the offering. Subject to the

Table of Contents

terms of the deposit agreement, each holder of a depositary share will be entitled, in proportion to the fractional interest of a share of preferred stock represented by the applicable depositary share, to all the rights and preferences of the preferred stock being represented, including dividend, voting, redemption, conversion, and liquidation rights, all as will be set forth in the applicable supplement relating to the depositary shares being offered.

Pending the preparation of definitive depositary receipts, the depositary, upon our written order, may issue temporary depositary receipts. The temporary depositary receipts will be substantially identical to, and will have all the rights of, the definitive depositary receipts, but will not be in definitive form. Definitive depositary receipts will be prepared thereafter and temporary depositary receipts will be exchanged for definitive depositary receipts at our expense.

Withdrawal of Preferred Stock

Unless the depositary shares have been called for redemption, a holder of depositary shares may surrender his or her depositary receipts at the principal office of the depositary, pay any charges, and comply with any other terms as provided in the deposit agreement for the number of shares of preferred stock underlying the depositary shares. A holder of depositary shares who withdraws shares of preferred stock will be entitled to receive whole shares of preferred stock on the basis set forth in the applicable supplement relating to the depositary shares being offered.

However, unless we specify otherwise in the applicable supplement, holders of whole shares of preferred stock will not be entitled to deposit those shares under the deposit agreement or to receive depositary receipts for those shares after the withdrawal. If the depositary shares surrendered by the holder in connection with the withdrawal exceed the number of depositary shares that represent the number of whole shares of preferred stock to be withdrawn, the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the preferred stock to the record holders of depositary shares relating to that preferred stock in proportion to the number of depositary shares owned by those holders. However, the depositary will distribute only the amount that can be distributed without attributing to any holder of depositary shares a fraction of one cent. Any balance that is not distributed will be added to and treated as part of the next sum received by the depositary for distribution to record holders.

If there is a distribution other than in cash, the depositary will distribute property it receives to the record holders of depositary shares who are entitled to that property. However, if the depositary determines that it is not feasible to make this distribution of property, the depositary, with our approval, may sell that property and distribute the net proceeds to the holders of the depositary shares.

Redemption of Depositary Shares

If a series of preferred stock which relates to depositary shares is redeemed, the depositary shares will be redeemed from the proceeds received by the depositary from the redemption, in whole or in part, of that series of preferred stock. Unless we specify otherwise in the applicable supplement, the depositary will mail notice of redemption at least 30 and not more than 60 calendar days before the date fixed for redemption to the record holders of the depositary shares to be redeemed at their addresses appearing in the depositary's books. The redemption price per

Table of Contents

depository share will be equal to the applicable fraction of the redemption price per share payable on that series of the preferred stock.

Whenever we redeem preferred stock held by the depository, the depository will redeem as of the same redemption date the number of depository shares representing the preferred stock redeemed. If less than all of the depository shares are redeemed, the depository shares redeemed will be selected by lot or pro rata.

After the date fixed for redemption, the depository shares called for redemption will no longer be deemed to be outstanding. At that time, all rights of the holder of the depository shares will cease, except the right to receive any money or other property they become entitled to receive upon surrender to the depository of the depository receipts.

Voting the Deposited Preferred Stock

Any voting rights of holders of the depository shares are directly dependent on the voting rights of the underlying preferred stock, which customarily have limited voting rights. Upon receipt of notice of any meeting at which the holders of the preferred stock held by the depository are entitled to vote, the depository will mail the information contained in the notice of meeting to the record holders of the depository shares relating to the preferred stock. Each record holder of depository shares on the record date, which will be the same date as the record date for the preferred stock, will be entitled to instruct the depository as to the exercise of the voting rights pertaining to the amount of preferred stock underlying the holder's depository shares. The depository will endeavor, insofar as practicable, to vote the amount of preferred stock underlying the depository shares in accordance with these instructions. We will agree to take all action which may be deemed necessary by the depository to enable the depository to do so. The depository will not vote any shares of preferred stock except to the extent it receives specific instructions from the holders of depository shares representing that number of shares of preferred stock.

Amendment and Termination of the Deposit Agreement

The form of depository receipt evidencing the depository shares and any provision of the deposit agreement may be amended by agreement between us and the depository. However, any amendment which materially and adversely alters the rights of the existing holders of depository shares will not be effective unless the amendment has been approved by the record holders of at least a majority of the depository shares then outstanding. Either we or the depository may terminate a deposit agreement if all of the outstanding depository shares have been redeemed or if there has been a final distribution in respect of our preferred stock in connection with our liquidation, dissolution, or winding up.

Charges of Depository

We will pay all transfer and other taxes, assessments, and governmental charges arising solely from the existence of the depository arrangements. We will pay the fees of the depository in connection with the initial deposit of the preferred stock and any redemption of the preferred stock. Holders of depository receipts will pay transfer and other taxes, assessments, and governmental charges and any other charges as are expressly provided in the deposit agreement to be for their accounts. The depository may refuse to effect any transfer of a depository receipt or any withdrawals of preferred stock evidenced by a depository receipt until all taxes, assessments, and governmental charges with respect to the depository receipt or preferred stock are paid by their holders.

Miscellaneous

The depository will forward to the holders of depository shares all of our reports and communications which are delivered to the depository and which we are required to furnish to the holders of our preferred stock.

Neither we nor the depository will be liable if we are prevented or delayed by law or any circumstance beyond our control in performing our obligations under the deposit agreement. All of our obligations as well as the depository's obligations under the deposit agreement are limited to performance in good faith of our respective duties set forth in the deposit agreement, and neither of us will be obligated to prosecute or defend any legal proceeding relating to any depository shares or preferred stock unless provided with satisfactory indemnity. We, and the depository, may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred stock for deposit, holders of depository shares, or other persons believed to be competent and on documents believed to be genuine.

Resignation and Removal of Depository

The depository may resign at any time by delivering to us notice of its election to do so, and we may remove the depository at any time. Any resignation or removal will take effect only upon the appointment of a successor depository and the successor depository's acceptance of the appointment. Any successor depository must be a U.S. bank or trust company.

DESCRIPTION OF COMMON STOCK

This section describes the general terms and provisions of the shares of our common stock. We also have filed our Amended and Restated Certificate of Incorporation and our by-laws as exhibits to the registration statement of which this prospectus is a part. You should read our Amended and Restated Certificate of Incorporation and our by-laws for additional information about our common stock.

General

As of the date of this prospectus, under our Amended and Restated Certificate of Incorporation, we are authorized to issue twelve billion eight hundred million (12,800,000,000) shares of common stock, par value \$.01 per share, of which approximately 10.52 billion shares were outstanding on March 31, 2015. Our common stock trades on the New York Stock Exchange under the symbol BAC. Our common stock also is listed on the London Stock Exchange, and certain shares are listed on the Tokyo Stock Exchange. As of March 31, 2015, approximately 1.79 billion shares were reserved for issuance in connection with our various employee and director benefit plans, the conversion of outstanding securities convertible into shares of our common stock, and for other purposes. After taking into account the reserved shares, there were approximately 491 million authorized shares of our common stock available for issuance as of March 31, 2015.

Shares of our common stock will be uncertificated unless our board of directors by resolution determines otherwise. Shares represented by an existing certificate will remain certificated until such certificate is surrendered to us.

Voting and Other Rights

Holders of our common stock are entitled to one vote per share. There are no cumulative voting rights. In general, a majority of votes cast on a matter is sufficient to take action upon routine

Table of Contents

matters, including the election of directors in an uncontested election. However, (1) amendments to our Amended and Restated Certificate of Incorporation generally must be approved by the affirmative vote of the holders of a majority of the voting power of the outstanding stock, and (2) a merger, dissolution, or the sale of all or substantially all of our assets generally must be approved by the affirmative vote of the holders of a majority of the voting power of the outstanding stock.

In the event of our liquidation, holders of our common stock will be entitled to receive pro rata any assets legally available for distribution to stockholders, subject to any prior rights of any preferred stock then outstanding.

Our common stock does not have any preemptive rights, redemption privileges, sinking fund privileges, or conversion rights. All the outstanding shares of our common stock are, and upon proper conversion of any convertible securities, all of the shares of our common stock into which those securities are converted will be, validly issued, fully paid, and nonassessable.

Computershare Trust Company, N.A. is the transfer agent and registrar for our common stock.

Dividends

Subject to the preferential rights of any holders of any outstanding series of preferred stock, the holders of our common stock are entitled to receive dividends or distributions, whether payable in cash or otherwise, as our board of directors may declare out of funds legally available for payments. Stock dividends, if any are declared, may be paid from our authorized but unissued shares of common stock.

Certain Anti-Takeover Matters

Certain provisions of Delaware law and of our Amended and Restated Certificate of Incorporation and by-laws could make it more difficult for a third party to acquire control of us or have the effect of discouraging a third party from attempting to acquire control of us. For example, we are subject to Section 203 of the Delaware General Corporation Law, which would make it more difficult for another party to acquire us without the approval of our board of directors. Certain provisions of our Amended and Restated Certificate of Incorporation and by-laws may make it less likely that our management would be changed or that someone would acquire voting control of our company without our board's consent. These provisions could make it more difficult for a third party to acquire us even if an acquisition might be in the best interest of our stockholders.

Preferred Stock. Our board of directors can, at any time, under our Amended and Restated Certificate of Incorporation and without stockholder approval, issue one or more new series of preferred stock. In some cases, the issuance of preferred stock without stockholder approval could discourage or make more difficult attempts to take control of our company through a merger, tender offer, proxy contest or otherwise. Preferred stock with special voting rights or other features issued to persons favoring our management could stop a takeover by preventing the person trying to take control of our company from acquiring enough voting shares necessary to take control.

Advance Notice Requirements. Our by-laws establish advance notice procedures with regard to stockholder proposals relating to nominations for the election of directors or other business to be brought before meetings of our stockholders. These procedures provide that notice of such stockholder proposals must be timely given to our corporate secretary prior to the meeting at which the action is to be taken. The notice must contain certain information specified in the by-laws and must otherwise comply with the by-laws.

Table of Contents

Vacancies. Under our by-laws, a majority vote of our board of directors may increase or decrease the number of directors. Any director may be removed at any time with or without cause by the affirmative vote of the holders of a majority of the voting power of the outstanding shares then entitled to vote at an election of directors. Any vacancy on our board of directors or newly created directorship will be filled by a majority vote of the remaining directors then in office, and those newly elected directors will serve for a term expiring at the next annual meeting of stockholders, and until such directors' successor has been duly elected and qualified.

Amendment of By-laws. Our by-laws may be adopted, amended or repealed by a majority of our board of directors, subject to certain limitations in our by-laws. Our stockholders also have the power to adopt, amend or repeal our by-laws.

REGISTRATION AND SETTLEMENT

Unless we specify otherwise in the applicable supplement, we will issue the securities in registered, and not bearer, form. This means that our obligation runs to the holder of the security named on the face of the security. Each debt security, warrant, purchase contract, unit, share of preferred stock, and depositary share issued in registered form will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities.

We refer to those persons who have securities registered in their own names, on the books that we or the trustee, warrant agent, or other agent maintain for this purpose, as the holders of those securities. These persons are the legal holders of the securities. We refer to those who, indirectly through others, own beneficial interests in securities that are not registered in their own names as indirect owners of those securities. As we discuss below, indirect owners are not legal holders, and investors in securities issued in global, or book-entry, form or in street name will be indirect owners.

Book-Entry Only Issuance

Unless we specify otherwise in the applicable supplement, we will issue each security in global, or book-entry, form. This means that we will not issue certificated securities in definitive form to investors. Instead, we will issue global securities in registered form representing the entire issuance of securities. Each global security will be registered in the name of a financial institution or clearing system that holds the global security as depositary on behalf of other financial institutions that participate in that depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the global securities on behalf of themselves or their customers.

Because securities issued in global form are registered in the name of the depositary, we will recognize only the depositary as the holder of the securities. This means that we will make all payments on the securities, including deliveries of any property other than cash, to the depositary. The depositary passes along the payments it receives from us to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants are not obligated to pass these payments along under the terms of the securities. Instead, they do so under agreements they have made with one another or with their customers.

As a result, investors will not own securities issued in book-entry form directly. Instead, they will own beneficial interests in a global security, through a bank, broker, or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant in the depositary's book-entry system. As long as the securities are issued in global form, investors will be indirect owners, and not holders, of the securities. The depositary will not have knowledge of the actual beneficial owners of the securities.

Certificated Securities

In the future, we may cancel a global security or we may issue securities initially in non-global, or certificated, form. We do not expect to exchange global securities for certificated securities in definitive form registered in the names of the beneficial owners of the global securities representing the securities except in the limited circumstances described in the relevant securities or in the indenture, agreement or other instrument governing the relevant securities.

Table of Contents

Street Name Owners

If we issue certificated securities in definitive form registered in the names of the beneficial owners, investors may choose to hold their securities in their own names or in street name. Securities held by an investor in street name would be registered in the name of a bank, broker, or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account that he or she maintains at that institution.

For securities held in street name, we will recognize only the intermediary banks, brokers, and other financial institutions in whose names the securities are registered as the holders of those securities, and we will make all payments on those securities, including deliveries of any property other than cash, to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect owners, not holders, of those securities.

Legal Holders

Our obligations, as well as the obligations of the trustee under any indenture and the obligations, if any, of any warrant agents, unit agents, depository for depository shares, and any other third parties employed by us, the trustee, or any of those agents, run only to the holders of the securities. We do not have obligations to investors who hold beneficial interests in global securities, who hold the securities in street name, or who hold the securities by any other indirect means. This will be the case whether an investor chooses to be an indirect owner of a security or has no choice because we are issuing the securities only in global form. For example, once we make a payment or give a notice to the holder, we have no further responsibility for that payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect owners, but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose, such as to amend the indenture for a series of debt securities or the warrant agreement for a series of warrants or the unit agreement for a series of units or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture, we would seek the approval only from the holders, and not the indirect owners, of the relevant securities. Whether and how the holders contact the indirect owners is up to the holders.

When we refer to **you** in this prospectus, we mean those who invest in the securities being offered by this prospectus, whether they are the holders or only indirect owners of those securities. When we refer to **your securities** in this prospectus, we mean the securities in which you will hold a direct or indirect interest.

Special Considerations for Indirect Owners

If you hold securities through a bank, broker, or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles payments on your securities and notices;

whether it imposes fees or charges;

whether and how you can instruct it to exercise any rights to purchase or sell warrant property under a warrant or purchase contract property under a purchase contract or to exchange or convert a security for or into other property;
