YPF SOCIEDAD ANONIMA AND SUBSIDIARIES

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

AS OF SEPTEMBER 30, 2016 AND COMPARATIVE INFORMATION

(amounts expressed in millions of Argentine Pesos, except shares and per share amounts expressed in Argentine Pesos,

and as otherwise indicated Note 1.b)

1. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1.a) Basis of preparation

The condensed interim consolidated financial statements of YPF S.A. (hereinafter YPF or the Company) and its subsidiaries (hereinafter and all together, the Group) for the nine-month period ended September 30, 2016, are presented in accordance with International Accounting Standards (IAS) No. 34 Interim Financial Reporting . The adoption of the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) was determined by the Technical Resolution No. 26 (ordered text) issued by Argentine Federation of Professional Councils in Economic Sciences (FACPCE) and the Regulations of the Argentine Securities Commission (CNV).

Also, some additional information required by the Law 19,550 of Argentine Corporations and its amendments and/or regulations of the CNV was included. Such information was included in the Notes to the mentioned condensed interim consolidated financial statements only to comply with regulatory requirements.

These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Group as of December 31, 2015 (the annual consolidated financial statements) prepared in accordance with IFRS.

These condensed interim consolidated financial statements were approved by the Board of Directors meeting and authorized to be issued on November 8, 2016.

These condensed interim consolidated financial statements corresponding to the nine-month period ended on September 30, 2016 are unaudited. Management believes they include all necessary adjustments to fairly present the results of each period on a consistent basis with the annual consolidated financial statements. Income for the nine-month period ended on September 30, 2016 does not necessarily reflect the proportion of the Group s full-year income.

1.b) Significant Accounting Policies

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements, except for the valuation policy for Income Tax detailed in Note 7.i). The most significant accounting policies are described in Note 1.b) to such annual consolidated financial statements.

Functional and reporting currency

As mentioned in Note 1.b.1) to the annual consolidated financial statements, YPF has defined the U.S. dollar as its functional currency. In addition, according to General Resolution No. 562 of the CNV, YPF shall submit its financial statements in Argentine Pesos.

Table of Contents**1.c) Accounting Estimates and Judgments**

The preparation of financial statements at a certain date requires Management to make estimates and assessments affecting the amount of assets and liabilities recorded, contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and assessments made as of the date of preparation of these condensed interim consolidated financial statements.

In preparing these condensed interim consolidated financial statements, significant estimates and judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same as those applied by the Group in the preparation of the annual consolidated financial statements, which are disclosed in Note 1.c) Accounting Estimates and Judgments to those financial statements.

Provision for impairment of property, plant and equipment

As indicated in Note 1.b.8) and 1.b.9) to the annual consolidated financial statements as of December 31, 2015, as a general criterion, the method used to estimate the recoverable amount of property, plant and equipment mainly consists of: i) the calculation of the value in use, based on the future estimated cash flows resulting from the exploitation of such assets, discounted at a rate that reflects the weighted average capital employed; and, if available, ii) the price that would be received in a current transaction for the sale of the assets.

The recoverability analysis is conducted at the end of each fiscal year or whenever there are signs of impairment of an asset. Along these lines, as a result of negotiations between Argentina's Producers and Refineries during the second half of 2016, the sales prices of Medanito and Escalante crude oils in the Argentine domestic market have been reduced gradually by 6% (2% monthly since August 2016). This price readjustment in the domestic market and other signs of convergence with international prices in the near future, in addition to the price reduction expected in the medium term as compared to the estimates as of December 31, 2015, have been considered impairment indicators of the assets of the Cash Generating Unit (CGU) Oil - YPF.

Therefore, the following domestic market price assumptions have been taken into account for the different varieties of crude oil in order to produce such estimates: i) for 2017, results from a combination of price scenarios, mainly taking into account the domestic market price of crude oil as of the issuance of these financial statements, the current price of Brent crude oil in international markets (adjusted by the quality of each type of crude oil, freight and the relative shortage situation in the domestic market) and the projected international prices of Brent crude oil according to analysts' consensus estimates available as of this date. As a result, the price for Medanito crude oil is US\$56.00/Bbl and for Escalante crude oil, US\$49.60/Bbl; ii) for 2018, 2019 and 2020, estimates for the domestic market price were made on the basis of estimates of international prices based on analysts' consensus estimates available as of September 30, 2016; and iii) thereafter, price increases are based on a forecast of U.S. inflation.

For the current period, the discount rate used is 9.11% after tax (the discount rate used for fiscal year 2015 was 10.33% after tax).

Based on the above mentioned methodology, the expected oil price decline, together with the variation in costs based both on macroeconomic variables and the operating behavior of our assets, resulted in a charge for impairment of property, plant and equipment with respect to the CGU Oil - YPF in the Exploration and Production Segment of 36,188 as of September 30, 2016.

It is difficult to predict with reasonable certainty the expected value of charges or recoveries in the provision for impairment of property, plant and equipment given the several factors affecting the asset base and the cash flows used

in the recoverability analysis. These factors include, without limitation, future prices, operating costs and negotiated savings, exchange rates, investments and negotiated savings, production and its impact on depletion and the base cost, reserves revisions or reserves additions, and taxes. Therefore, value in use of the assets, calculated on the basis of future estimated cash flows, may be significantly affected by other factors, if such factors should change.

Table of Contents

The recoverable amount as of September 30, 2016 of CGU Oil YPF, after taxes, amounts to 66,558.

1.d) Comparative information

Amounts and other information corresponding to the year ended on December 31, 2015 and to the nine-month period ended on September 30, 2015 are an integral part of these condensed interim consolidated financial statements and are intended to be read only in relation to these financial statements. Certain reclassifications have been made in order to present amounts comparatively with the current period.

2. SEASONALITY OF OPERATIONS

Historically, the Group's results have been subject to seasonal fluctuations during the year, particularly as a result of the increase in natural gas sales during the winter. After the 2002 devaluation of the Argentine Peso, and as a consequence of the natural gas price freeze imposed by the Argentine government, the use of natural gas has been diversified, generating an increase in demand throughout the entire year. However, sales of natural gas are still typically higher in the winter for the residential sector of the Argentine domestic market, which has lower prices than other sectors of the Argentine market. Notwithstanding the foregoing, under the Additional Injection Stimulus Program regulation (see Note 11.d) to the annual consolidated financial statements), gas producing companies were invited to file with the Ministry of Energy and Mining (MINEM) before June 30, 2013 projects to increase natural gas injection, in order to receive an increased price of US\$7.50/MMBTU for all additional natural gas injected. These projects shall comply with the minimum requirements established in the aforementioned Program, and will be subject to approval by the MINEM, including a maximum term of five years, renewable at the request of the beneficiary, upon decision of the MINEM. If the beneficiary company does not reach the committed production increase in a given month, it will have to make up for such volumes not produced. The natural gas pricing program was incorporated into the Hydrocarbons Law, as modified by Law No. 27,007.

In view of the foregoing, seasonality of the Group operations is not significant.

3. ACQUISITIONS AND DISPOSALS

During the nine-month period ended September 30, 2016, there have been no significant acquisitions or disposals.

On May 13, 2016, the companies Y-GEN Eléctrica S.R.L. (Y-GEN) and Y-GEN Eléctrica II S.R.L. (Y-GEN II) were created for the purpose of participating in the competitive bidding established by Resolution No. 21/2016 of the Ministry of Energy and Mining (MINEM), for the new generation of energy and thermal power which, if awarded, would result in the execution with CAMMESA of a sale agreement of the energy offered during a term of 5 to 10 years, according to the offer, with a dollar price. The created companies submitted bids for construction projects of new thermal generation plants in Loma Campana (Añelo, Province of Neuquén) and in Central El Bracho (Province of Tucumán), which were ultimately awarded.

In both companies, 66.67% of the capital stock is held by the subsidiary YPF Energía Eléctrica S.A. (Managing Shareholder) and the remaining 33.33% is held by Guayama PR Holdings (Non Managing Shareholder), a member of the General Electric Group. Under the agreement signed, shareholders are required to supply during the current fiscal year and the next two years, the necessary funds as capital contributions (as of September 30, 2016, shareholders have made contributions in the amount of 388). In addition, there is a service agreement between both companies and YPF Energía Eléctrica S.A. whereby YPF Energía Eléctrica S.A., in its capacity as Managing Shareholder , has the responsibility, among other things, to perform certain management services for the companies.

The Group has followed the guidelines of IFRS 10, Consolidated financial statements and has concluded that it has joint control over Y-GEN and Y-GEN II. Accordingly, it has applied IFRS 11, Joint Arrangements, defining such companies as joint ventures, and has measured them by the equity method in accordance with IAS 28, Investments in associates and joint ventures.

Table of Contents

Some of the main factors considered were: (i) Contractually, both shareholders exercise joint control over each of the companies, whereby decisions on the relevant activities thereof are made jointly and must be unanimous, there being no power of one party (shareholder) over the other in relation to the investment, irrespective of their different holding percentages; and (ii) There is no power, as defined in IFRS 10, of one party to the detriment of the other party, whether in connection with the voting rights for the appointment of Directors or personnel (whether key or not), in the management of the company to obtain self-benefit or to unilaterally change the variable yields of investments, or, ultimately, to unilaterally direct any of the decisions related to relevant activities.

Finally, as of the date of issuance of these condensed interim consolidated financial statements, the said companies had not made any relevant transactions other than the execution of the agreements for the organization thereof.

4. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS**4.a) Financial Risks**

The Group's activities are exposed to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk. The Group maintains an organizational structure and systems that allow for the identification, measurement and control of the risks to which it is exposed.

The condensed interim consolidated financial statements do not include all the information and disclosures on financial risk management; therefore, they should be read in conjunction with the Group's annual consolidated financial statements.

There have been no changes in the risk management or risk management policies applied by the Group since the last year end.

In addition, the Group is exposed to the market-price risk with respect to its investments in financial instruments during the current period (corresponding to Argentine government securities mentioned in Note 12.d) which were classified in the statement of financial position as "at fair value through profit or loss". The Group continuously monitors the change in the price thereof for significant movements.

As of September 30, 2016, the aggregate value of the Investments in financial assets accounts of the Group amounts to 14,733.

	Increase (+) /decrease (-) in the Income (loss) for the nine-month prices of investments in financial instruments	periods ended September 30, 2016
Impact on net loss	+10%	1,477
before income tax	-10%	(1,477)

4.b) Fair value measurements

Fair value measurements are described in Note 5 to the annual consolidated financial statements.

Between December 31, 2015 and September 30, 2016, there have been no significant changes in the business or economic circumstances affecting the fair value of the Group's financial assets and liabilities, either measured at fair

value or amortized cost. In addition, no transfer has occurred among the different hierarchies used to determine the fair value of the Group's financial instruments.

Table of Contents**5. SEGMENT INFORMATION**

	Exploration and Production	Downstream	Corporate and Other	Consolidation Adjustments ⁽¹⁾	Total
For the nine-month period ended September 30, 2016

Depreciation of property, plant and equipment	16,444	2,249	268		18,961
Acquisitions of property, plant and equipment	35,368	6,257	1,180		42,805
As of December 31, 2015					
Assets	223,035	113,805	26,708	(95)	363,453

(1) Corresponds to eliminations between segments of the YPF group.

(2) Includes depreciation of the provision for impairment of property, plant and equipment.

There have been no changes in the Group's structure, its business segments or its financial reporting information criteria with respect to the annual consolidated financial statements. In addition, it should be noted that on March 15, 2016, the office of Gas and Energy Executive Vice-President was created, which shall be in charge of, among other things, natural gas sales and distribution, the management of their respective installations, and the generation of

electric energy, both conventional and renewable. As of the date of these condensed interim consolidated financial statements, the Group is still in the process of determining the complete management scope of this new business unit; thus, its financial information as of September 30, 2016 is shown under the Downstream and the Exploration and Production segments.

Table of Contents**6. FINANCIAL INSTRUMENTS BY CATEGORY**

The tables below show the Group's financial assets measured at fair value as of September 30, 2016 and December 31, 2015, and their allocation to their fair value levels:

Financial assets	As of September 30, 2016			Total
	Level 1	Level 2	Level 3	
Investments in financial assets:				
- Argentine government securities	14,733 ⁽¹⁾			14,733
	14,733			14,733
Cash and cash equivalents:				
- Mutual funds	6,436			6,436
	6,436			6,436
	21,169			21,169

Financial assets	As of December 31, 2015			Total
	Level 1	Level 2	Level 3	
Investments in financial assets:				
- Mutual funds	340			340
- Other financial assets	464			464
	804			804
Cash and cash equivalents:	774			774
- Mutual funds	774			774
	1,578			1,578

(1) As of September 30, 2016, 7,353 has been classified as non current and 7,380 as current. The Group had no financial liabilities at fair value through profit or loss.

Fair value of financial assets and financial liabilities measured at amortized cost

The estimated fair value of loans, considering unadjusted listed prices (Level 1) for Negotiable Obligations and interest rates offered to the Group (Level 3) in connection with the remainder of the loans, amounted to 158,566 and 106,336 as of September 30, 2016 and December 31, 2015, respectively.

The fair value of the following financial assets and financial liabilities do not differ significantly from their book value:

Other receivables

Trade receivables

Cash and cash equivalents

Accounts payable

Table of Contents**7. ANALYSIS OF THE MAIN ACCOUNTS OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS****7.a) Intangible assets:**

Total 2015	235,156	18,961	24,583	(57)	278,643	194,394	274,122

(1) Includes 8,596, 6,268 and 8,435 of mineral property as of September 30, 2016 and September 30, and December 31, 2015, respectively.

(2) As of September 30, 2016, there are 41 exploratory wells in progress. During the nine-month period then ended, 17 wells have been drilled, 21 wells have been charged to exploration expenses and 13 wells have been transferred to properties with proved reserves in the account of Mining property, wells and exploitation equipment.

(3) Includes disposals as a result of deconsolidation of subsidiaries of 500, net.

Table of Contents

The Group capitalizes the financial cost as part of the cost of the assets. For the nine-month periods ended on September 30, 2016 and 2015 the capitalization rate was 12.91% and 12.00%, respectively, and the capitalized amount was 1,043 and 702, respectively, for the periods above mentioned.

Set forth below is the evolution of the provision for obsolescence of materials and equipment for the nine-month periods ended on September 30, 2016 and 2015:

	For the nine-month period ended September 30,	
	2016	2015
Amount at beginning of year	762	313
Increase charged to expenses	22	2
Translation differences	139	32
Amount at end of period	923	347

Set forth below is the evolution of the provision for impairment of property, plant and equipment for the nine-month periods ended on September 30, 2016 and 2015:

	For the nine-month period ended September 30,	
	2016	2015
Amount at beginning of year	2,455	
Increase charged to expenses ⁽²⁾	36,188	
Decrease charged to income ⁽¹⁾	(439)	
Translation differences	411	
Deconsolidation of subsidiaries	(105)	
Amount at end of period	38,510	

(1) Included in the line Depreciation of property, plant and equipment in Note 7.n).

(2) See Note 1.c)

7.c) Investments in associates and joint ventures:

The Group does not participate in subsidiaries with a significant non-controlling interest. Furthermore, no investments in associates or joint ventures are deemed individually material.

The following table shows in aggregate, considering that none of the companies is individually material, the amount of investments in associates and joint ventures as of September 30, 2016 and December 31, 2015:

	September 30, 2016	December 31, 2015
Amount of investments in associates	1,418	1,248
Amount of investments in joint ventures	3,689	3,136
Provision for impairment of investments in associates and joint ventures	(12)	(12)
	5,095	4,372

Investments in associates with negative shareholders' equity are disclosed in Accounts payable .

Table of Contents

The main changes that affected the amount of the investments previously mentioned, during the nine-month periods ended on September 30, 2016 and 2015, are the following:

	For the nine-month periods ended September 30,	
	2016	2015
Amount at the beginning of year	4,372	3,177
Acquisitions and contributions	388	163
Income on investments in associates and joint ventures	373	52
Translation difference	483	198
Distributed dividends	(521)	(281)
Amount at the end of period	5,095	3,309

The following table shows the main magnitudes of net income (loss) from the Group's investments in associates and joint ventures, calculated according to the equity method, for the nine-month periods ended on September 30, 2016 and 2015. YPF has made adjustments, where applicable, to the amounts reported by such companies in order to conform the accounting principles used by such companies to those used by the Group:

	Associates		Joint ventures	
	2016	2015	2016	2015
Net income (loss)	173	88	200	(36)
Other comprehensive income	25	9	458	189
Comprehensive income for the period	198	97	658	153

In connection with the Maxus Entities' Filing with the Bankruptcy Court on June 17, 2016, as described in detail in Note 11, the Company's management believes that this is an event that requires reconsideration of whether consolidation of such entities continues to be appropriate. In making this analysis, the Company has followed the guidelines set forth in IFRS 10, Consolidated financial statements, in order to reconsider whether it will keep control over the activities of the Maxus Entities. This analysis was supplemented by the criteria established in U.S. ASC 810 published by the Financial Accounting Standards Board, whose principles are consistent with previously mentioned IFRS 10, but which deal in more detail with issues related to the consolidation of entities that enter into a specific reorganization process under Chapter 11 of U.S. Bankruptcy Code.

In general, when a company files a petition under Chapter 11 of U.S. Bankruptcy Code, shareholders lose the power to make decisions that have a significant impact in the economic performance of the entities' business, as this power is typically subject to Bankruptcy Court approval.

The filing of the Chapter 11 petitions by the Maxus Entities under Chapter 11 of the Bankruptcy Code has relevant effects on the rights to which YPF Holdings, Inc. is entitled in its capacity as shareholder of those entities, because creditors substitute the shareholders in their legal capacity to file derivative suits against Directors on behalf of the entities on the grounds of non-performance of their fiduciary duties, as creditors must be the primary beneficiaries of any increase in the value of said entities. However, it should be noted that YPF Holdings, Inc. retains its right to

appoint the Debtors' Directors through Shareholders' Meetings, unless the Bankruptcy Court orders otherwise. In addition, the filing made before the Bankruptcy Court also has effects on the duties and liabilities of the Board of Directors and the management of the Maxus Entities. Each of the Maxus Entities has become a Debtor-in-Possession, whereby, according to the Bankruptcy Code, they retain possession of their property, and, subject to certain limitations, are authorized to carry on their normal course of business, unless the Bankruptcy Court otherwise orders. However, during the term of the reorganization process, the Debtors' Board of Directors does not have absolute discretion, for any transaction outside the ordinary course of business of the Debtors, such as the sale of a significant asset, the expansion of a line of business involving the use of large amounts of cash (or the commitment to do so) or the execution of loans or other kind of financing, shall be subject to the Bankruptcy Court's approval.

Accordingly, as a result of the filing made under Chapter 11 of the Bankruptcy Code, YPF Holdings, Inc. cannot unilaterally make decisions that would significantly affect the Debtors' business or economic performance. Indeed, the Debtors should seek Bankruptcy Court approval for seemingly ordinary course business activities if such activities could have a significant effect on the Debtors' operations or their stakeholders.

Table of Contents

Taking into account the foregoing, the Company's management believes that YPF Holdings, Inc., despite keeping 100% of the equity interest in the Maxus Entities, no longer has the capacity to use its power over said entities to significantly influence their relevant activities, a necessary condition set forth by IFRS 10 to establish the existence of a controlling financial interest and, therefore, has proceeded to the deconsolidation of the investments in Maxus Entities as of June 17, 2016.

According to ASC 810, this loss of control may involve a gain or loss for the parent company, as the parent company will have to remeasure its non-controlling interest at its fair value after the deconsolidation of the assets and liabilities of the entities. For this calculation it has also been taken into account the liabilities related to the reorganization process incurred as described in Note 11. Thus, the Group has recorded a gain of 1,528 disclosed in Other operating income, net .

As a result of the deconsolidation, the condensed consolidated statement of financial position as of September 30, 2016 is not comparable to that issued as of December 31, 2015. As of December 31, 2015, the following balances of assets and liabilities were consolidated in relation to the Maxus Entities:

Item	Debtors balances as of 12/31/2015
Noncurrent Assets	731
Current Assets	422

Table of Contents**7.i) Income tax:**

According to IAS 34, income tax expense is recognized in each interim period based on the best estimate of the effective income tax rate expected as of year-end. Amounts calculated for income tax expense for the nine-month period ended September 30, 2016 may have to be adjusted in subsequent periods if, based on new judgment elements, the estimate of the effective expected income tax rate changes.

The reconciliation of pre-tax income included in the condensed interim consolidated statement of comprehensive income, at the statutory tax rate, to net income tax as disclosed in the condensed interim consolidated statements of comprehensive income for the nine-month periods ended September 30, 2016 and 2015, respectively, is as follows:

	For the nine-month period ended September 30,	
	2016	2015
Net (loss) income before income tax	(31,202)	13,721
Statutory tax rate	35%	35%
Statutory tax rate applied to net (loss) income before income tax	10,921	(4,802)
Effect of the valuation of property, plant and equipment and intangible assets measured in functional currency	(18,302)	(5,589)
Exchange differences	9,861	3,480
Effect of the valuation of inventories measured in functional currency	(1,505)	(582)
Income on investments in associates and joint ventures	131	18
Miscellaneous	(58)	45
Income tax	1,048	(7,430)

The Group did not recognize the following deferred income tax assets since they do not meet the recognition criteria set forth under IFRS:

As of September 30, 2016, the Group did not recognize 1,272, corresponding to tax loss carry forwards from subsidiaries, of which 1,226 will expire from 2017 on and 46 has an indeterminate expiration date.

As of December 31, 2015, the Group did not recognize 4,373, of which 2,041 corresponds to taxable temporary differences not recoverable and 2,332 corresponds to tax loss carry forwards from subsidiaries.

In addition, as of September 30, 2016, 100 has not been recorded for minimum presumed income tax, which will expire between 2016 and 2024.

The composition of the Group's deferred income tax assets and liabilities as of September 30, 2016 and December 31, 2015 is as follows:

	September 30, 2016	December 31, 2015
<u>Deferred tax assets</u>		
Nondeductible provisions and other liabilities	3,596	3,093
Tax loss carryforward and other tax credits	2,390	3,236
Miscellaneous	68	83
Total deferred tax assets	6,054	6,412
<u>Deferred tax liabilities</u>		
Property, plant and equipment	(44,557)	(45,393)
Miscellaneous	(3,964)	(4,877)
Total deferred tax liabilities	(48,521)	(50,270)
Net deferred tax liability	(42,467)	(43,858)

Table of Contents

As of September 30, 2016 and December 31, 2015, 506 and 954, respectively, have been classified as deferred income tax assets and 42,973 and 44,812, respectively, as deferred income tax liabilities arising from the deferred income tax net balance of each individual company that takes part in these condensed interim consolidated financial statements.

As of September 30, 2016 and December 31, 2015, the factors that generated charges under Other comprehensive income did not generate temporary differences subject to income tax.

7.j) Loans:

	Interest rate (1)	Maturity	September 30, 2016		December 31, 2015	
			Noncurrent	Current	Noncurrent	Current
Argentine pesos:						
Negotiable obligations	26.22-36.05%	2016-2024	30,608	3,596	19,280	2,050
Loans	15.25-30.75%	2016-2020	1,991 ⁽³⁾	1,843 ⁽³⁾	1,224	792
Account overdraft	25.00-26.00%	2016		2,841		4,737 ⁽⁵⁾
			32,599	8,280	20,504	7,579
Currencies other than the Argentine peso:						
Negotiable obligations ⁽²⁾⁽⁴⁾	1.29-10.00%	2016-2028	80,266	7,914	52,651	9,981
Exports pre-financing	3.20-7.60%	2016-2019	1,988	6,188	1,039	3,680
Imports financing	4.10-6.68%	2016-2017	237	3,390		4,736
Loans	3.50-8.21%	2016-2021	6,136	4,341	3,740	1,841
			88,627	21,833	57,430	20,238
			121,226	30,113	77,934	27,817

(1) Annual interest rate as of September 30, 2016.

(2) Disclosed net of 650 and 1,349, corresponding to YPF's outstanding Negotiable Obligations repurchased through open market transactions as of September 30, 2016 and December 31, 2015, respectively.

(3) Includes loans granted by Banco Nación Argentina. As of September 30, 2016, includes 2,158, of which 158 accrues variable interest of BADLAR plus a spread of 4 percentage points and 2,000 accrues variable interest of BADLAR plus a spread of 3.5 percentage points. As of December 31, 2015, it includes 460, of which 210 accrues fixed interest of 15% up to December 2015 and thereafter a variable interest of BADLAR plus a spread of 4 percentage points, and 250 accrues variable interest of BADLAR plus a spread of 4 percentage points that must not exceed the lending rate of Banco Nación's loan portfolio. See Note 13.

(4) Includes 6,911 and 9,970 as of September 30, 2016 and December 31, 2015, respectively, of face value negotiable obligations, to be cancelled in Argentine pesos at the prevailing exchange rate according to the terms of the issued series.

(5) Includes 1,926 of account overdrafts granted by Banco Nación Argentina as of December 31, 2015. See Note 13.

The breakdown of the Group's borrowings for the nine-month period ended September 30, 2016 and 2015 is as follows:

	For the nine-month periods ended September 30,	
	2016	2015
Amount at beginning of year	105,751	49,305
Proceeds from loans	79,770	38,162
Payments of loans	(49,442)	(17,624)
Payments of interest	(11,621)	(4,531)
Accrued interest ⁽¹⁾	12,530	5,611
Exchange and translation differences, net	14,351	4,323
Amount at the end of period	151,339	75,246

(1) Includes capitalized financial costs, as mentioned in Note 7.b).

8. INVESTMENTS IN JOINT OPERATIONS

The Group participates in joint operations and other agreements which give the Group a contractually established percentage of the rights to the assets and obligations governed by the contracts. Interests in such joint operations have been consolidated line by line on the basis of the mentioned interest over the assets, liabilities, income and expenses related to each contract. Interests in joint operations have been calculated based upon the latest available financial statements as of the end of each year, taking into consideration significant subsequent events and transactions as well as available management information.

The exploration and production joint operations and other agreements in which the Group participates allocate hydrocarbon production to each partner based on its ownership interest; consequently, such hydrocarbons are commercialized directly by the partners, each of them recognizing the corresponding economic effects.

Table of Contents

The assets and liabilities as of September 30, 2016 and December 31, 2015, and main magnitudes of profit or loss for the nine-month periods ended on September 30, 2016 and 2015 of the joint operations and other agreements are detailed below:

	September 30, 2016	December 31, 2015
Noncurrent assets	59,733	47,322
Current assets	2,377	944
Total assets	62,110	48,266
Noncurrent liabilities	4,978	4,593
Current liabilities	6,238	6,391
Total liabilities	11,216	10,984
	For the nine-month periods ended September 30,	
	2016	2015
Production cost	15,406	9,454
Exploration expenses	395	130

9. SHAREHOLDERS EQUITY

On April 29, 2016, the General Ordinary and Extraordinary Shareholders meeting was held, which approved the financial statements of YPF for the year ended December 31, 2015 and additionally decided the following in relation to the distribution of earnings: (a) to allocate the amount of 50 to constitute a reserve for future acquisition of YPF shares under the performance and bonus program mentioned in the Director's report, giving the Board of Directors the opportunity to acquire shares when it considers it convenient and to comply with the commitments assumed and to be assumed in relation with the mentioned program; (b) to allocate the amount of 3,640 to constitute a reserve for investment in accordance with article 70, paragraph 3 of Law 19,550 of Argentine Corporations and its amendments; and (c) to allocate the amount of 889 to a reserve for future dividends, empowering the Board of Directors to determine when to make a payment so long as it occurs before the end of the current fiscal year. On June 9, 2016, the Board of Directors of the Company decided to pay a dividend of 2.26 per share, for an amount of 889, which was made available to shareholders on July 7, 2016.

10. NET (LOSSES) EARNINGS PER SHARE

The following table shows the net (loss) income and the number of shares that have been used for the calculation of the basic net (losses) earnings per share:

**For the nine-month periods
ended on September 30,**

Edgar Filing: YPF SOCIEDAD ANONIMA - Form 6-K

	2016	2015
Net (loss) income	(29,958)	6,274
Average number of shares outstanding	391,679,550	392,214,430
Basic and diluted (losses) earnings per share	(76,49)	16,00

Basic and diluted net (losses) earnings per share are calculated as shown in Note 1.b.13) to the annual consolidated financial statements.

Table of Contents

11. PROVISIONS FOR PENDING LAWSUITS, CLAIMS AND ENVIROMENTAL LIABILITES

Provisions for pending lawsuits, claims and environmental liabilities are described in Note 10 to the annual consolidated financial statements.

As of September 30, 2016, the Group has accrued pending lawsuits, claims and contingencies which are probable and can be reasonably estimated, amounting to 9,960.

In relation to environmental obligations, and in addition to the hydrocarbon wells abandonment legal obligations for 33,834, as of September 30, 2016, the Group has accrued 1,300 corresponding to environmental remediation, which evaluations and/or remediation works are probable and can also be reasonably estimated, based on the Group's existing remediation program.

Developments during the nine-month period ended September 30, 2016, concerning the most significant pending lawsuits and contingencies are described below.

With respect to the AES Uruguaiana Emprendimientos S.A. (AESU) and Transportadora Gas del Mercosur S.A. (TGM) arbitration proceedings and the writ of nullity filed on February 2, 2016 by AESU and Companhia do Gas do Estado do Rio Grande do Sul (SULGAS), on February 23, 2016, the Court of Appeals denied the motion in limine . AESU and SULGAS filed a motion before the Supreme Court against this denial, which was communicated to YPF on March 31, 2016. On the same date, the Court of Appeals rejected the motion to appeal before the Supreme Court filed by TGM on February 2, 2016.

On April 26, 2016, Division IV of the Court of Appeals denied the motion filed by AESU and SULGAS and passed a new resolution declaring the nullity and ineffectiveness of all proceedings filed by the parties until then and by the Arbitration Tribunal regarding the second stage of the Arbitration, on the basis that they lacked legal grounds. In turn, the resolution recalls the legal order arising from Section 34, subsection 5, paragraph b, of the Argentine Civil and Commercial Code of Procedures (CPCCN), advising the Arbitration Tribunal that it may not issue any resolution regarding the second stage of the arbitration, including a final award on damages, and also advising AESU, SULGAS and TGM that any of their respective acts to that end or any act of the Arbitration Tribunal that might involve them, in violation of the above referred judgment, shall be evaluated by such Court Division in the exercise of the powers vested on it by the CPCCN as process manager (section 45 and related sections). In addition, this Division ordered to notify the Arbitration Tribunal and the International Arbitration Secretary's Office for the International Chamber of Commerce (ICC), advising them that the Arbitration Tribunal is not in a position to issue an award in accordance with applicable law.

This resolution was communicated by YPF to the Arbitration Tribunal, the parties and the ICC. On the same date but following this notification, YPF was given notice of the damages arbitration award issued by a majority of the Arbitration Tribunal, whereby the Company was ordered to pay damages of US\$185 million to AESU, for the early termination of the gas export contract in 2009, and on account of the delivery or pay penalty, and of US\$ 319 million to TGM on account of the principal invoices amount, irrevocable contributions and damages for the early termination of the transportation contract.

On May, 2, 2016, YPF filed with the ICC and the Arbitration Tribunal the relevant writ of nullity against the said arbitration award. On the same date, it also filed a writ of nullity before Division IV of the Federal Contentious Administrative Tribunal, and filed a reconsideration motions from denial of appeal.

On May 4, 2016, the Arbitration Tribunal passed a resolution resolving that it would refrain from issuing a decision regarding the writ of nullity filed by YPF. Considering this resolution a dismissal of the writ of nullity, on May 5, 2016, YPF filed before Division IV of the Federal Contentious Administrative Tribunal a motion for reconsideration against the decision rendered by the Arbitration Tribunal to deny the writ of nullity filed by the Company. On May 5, 2016, AESU filed in the jurisdiction of New York, South District an action for the acknowledgment and enforcement of the Partial Liability Award issued in 2013. As of the date hereof, YPF has neither been given notice nor has it received the Final Award on Damages.

In connection with the legal action against TGN, the case was brought to trial, and on September 21, 2016, the allegations for invoice collection were filed in the case records.

Table of Contents

In connection with the complaint filed by Users and consumers association against YPF, the Company filed an appeal against the relevant judgment, which was admitted with staying effect. Plaintiff also filed an appeal against the judgment and both parties filed their respective appellate briefs, which were answered. On April 4, 2016, the file was raised to the Court of Appeals. The updated judgment amount as of the date of these consolidated condensed interim financial statements amounts to approximately 606 plus legal costs.

As to the administrative environmental issues related to the lower 8 miles of the Passaic River, affecting Maxus Energy Corporation (Maxus) and Tierra Solutions, Inc. (TS) (companies deconsolidated on June 17, 2016 see Note 7.c)) on March 4, 2016, the U.S. Environmental Protection Agency (EPA) issued the Record of Decision (ROD) for the lower 8.3 miles of the Passaic River, which is a part of the Diamond Alkali Superfund Site Essex and Hudson Counties, New Jersey. The ROD selects the so-called Alternative 3 as the remedy for the removal of contaminated sediments with an estimated cost of US\$1,382 million (net present value at a 7% rate).

The ROD requires the removal of 3.5 million cubic yards of sediment from the lower 8.3 miles of the Passaic River by bank-to-bank dredging, to a depth of approximately 5 to 30 feet in the federal navigation channel from mile 0 to mile 1.7, and approximately 2.5 feet in the remaining areas of the lower 8.3 miles of the Passaic River. A two-foot thick cap will be installed over the dredged areas. Contaminated segments will be transported to disposal sites outside the state. The EPA estimates the whole project will take approximately 11 years, including one year for negotiations among potentially responsible parties, three to four years for project design and six years for its implementation.

On March 31, 2016, the EPA notified all potentially responsible parties, including Occidental Chemical Corporation (OCC), of the liabilities relating to the 8.3 miles area of the Passaic River relating to the ROD. In the same notice the EPA stated that it expected OCC (against whom Maxus is litigating a dispute over indemnity) to prepare the remediation plan design and that it would send a second letter with an administrative proposal to this end, which was received by counsel to OCC, Maxus and TS on April 26, 2016.

As of June 17, 2016, OCC, Maxus and TS were holding discussions with EPA to define their participation in a potential negotiation aimed at taking part in the design of EPA's proposed remediation plan, taking into account that the ROD has identified over one hundred potentially responsible parties and eight contaminants of concern, many of which have not been generated at the Lister Site. As of such date Maxus was evaluating the situation resulting from the issuance of the ROD by the EPA, as well as its subsequent associated letters.

In connection with the Passaic River litigation, in which the New Jersey Department of Environmental Protection (DEP) holds with YPF, YPF Holdings Inc. and other subsidiaries (including Maxus, a company that was deconsolidated on June 17, 2016 See Note 7.c)), with respect to the contamination of the lower Passaic River with dioxin and other hazardous substances discharged by the Newark plant, the parties appealed the recommendations of the Special Judge to Judge Furnari (presiding Judge of the legal proceedings) on February 16, 2016, who, nevertheless, adopted the Special Masters' recommendations in their entirety. In addition, having been completed discovery of all relevant evidence, the acting Judge issued Case Management Order XXVIII, which sets forth, among other procedural deadlines, June 20, 2016 as the date for the commencement of the trial. On April 25, 2016, all the parties moved to request permission to file interlocutory appeals and a stay of the litigation during the appellate proceedings. Maxus filed a motion requesting permission to appeal the ruling granting summary judgment to OCC against Maxus, which held that Maxus is liable under the stock purchase and sale agreement for all obligations under, or arising from, the Lister Site, even if attributable to OCC's own acts. YPF filed a motion requesting permission to appeal the ruling denying its motion for summary judgment seeking a decision indicating that OCC may not use allegedly fraudulent transfers which are prescribed as a basis for its alter ego claims against

YPF. OCC filed only one motion, appealing the ruling that granted to Repsol the motion for summary judgment, whereby all claims against Repsol were dismissed. OCC did not appeal the rulings that (a) denied OCC's motion to file additional cross claims; (b) denied OCC's motion for a declaratory judgment regarding future costs; and (c) denied OCC's motion for summary judgment seeking a dismissal of Repsol's Spill Act contribution claim against OCC (all of the foregoing without prejudice to reserving the right to file post-trial motions of appeal on these issues).

Table of Contents

However, all litigation against Maxus has been stayed upon Maxus' filing under Chapter 11 of the Bankruptcy Code, which is explained below.

On June 17, 2016, voluntary petitions under Chapter 11 of the Bankruptcy Code were filed with the United States Bankruptcy Court of the District of Delaware (hereafter, the Bankruptcy Court) by (a) Maxus Energy Corporation and its subsidiaries Maxus International Energy Company, Maxus (US) Exploration Company and Gateway Coal Company; and (b) Tierra Solutions Inc. (all of them hereafter referred to as the Maxus Entities or Debtors), subsidiaries of YPF Holdings, Inc.

The Debtors' businesses are divided into three areas: (a) management of interests related to the exploitation of hydrocarbons carried out by Maxus and its subsidiaries; (b) management of remediation activities carried out by Tierra Solutions Inc.; and (c) management of benefits of former employees who are currently retired.

In this framework, Debtors have entered into an agreement (the Agreement) with YPF S.A., jointly with its subsidiaries YPF Holdings Inc., CLH Holdings Inc., YPF International S.A. and YPF Services USA Corp (jointly, YPF Entities) to settle all Debtors' claims against YPF Entities, including any alter ego claims which, in YPF Entities' opinion, have no merit.

The Agreement provides: i) the granting of a loan by YPF Holdings for an amount of US\$ 63.1 million (DIP Loan) to finance Debtors' activities during the estimated term of the reorganization procedure in order that, ultimately, the reorganization procedure under Chapter 11 might allow them to restructure their operations in a sustainable manner; ii) a payment of US\$ 130 million to Maxus Entities (Settlement Payment) for all potential claims that the Debtors might have against YPF Entities.

The first hearing corresponding to the filing under Chapter 11 of the Bankruptcy Code (the Filing) took place on June 20, 2016. At that hearing, the Bankruptcy Court approved, among other things, the Debtors' motions to continue as Debtors-in-Possession maintaining their day-to-day operations, including the Debtors' use of the system for fund management, administration, payment of salaries and benefits to retired employees. The case is pending before United States Bankruptcy Judge Christopher S. Sontchi.

On August 19, 2016, the Judge approved the DIP Loan. On October 31, 2016, the first disbursement thereunder was made in the amount of US\$5.3 million.

On October 20, 2016, a hearing was held regarding the Debtors' exclusivity periods. The judge resolved: (a) to extend the exclusivity period until December 19, 2016; (b) to extend the exclusive solicitation period until February 17, 2017; and (c) that the parties may agree on an additional extension of the mentioned periods for up to 30 days, without need to make any express request to the Court, provided, however, that the Debtors may request new extensions of the above periods or that any interested party may request their reduction.

Subject to certain exceptions under the Bankruptcy Code, effective as of the date of the filing of the Chapter 11 petitions with the Bankruptcy Court, most decisions, as well as the issues related to creditors' claims and actions for the collection of their claims that arose prior to the filing date are automatically stayed (among others, those corresponding to claims against Maxus Entities at the local court of New Jersey related to the Passaic River litigation see Note 10 to these consolidated condensed interim financial statements and also Note 11 to the annual consolidated financial statements).

12. CONTINGENT LIABILITIES, CONTINGENT ASSETS, CONTRACTUAL COMMITMENTS, MAIN REGULATIONS AND OTHERS

Contingent liabilities, contingent assets, contractual commitments, main regulations and others are described in Note 11 to the annual consolidated financial statements.

Developments during the nine-month period ended September 30, 2016 concerning the above are detailed below.

Table of Contents

a) Contingent Liabilities

In connection with the complaint filed by Petersen Energía Inversora, S.A.U and Petersen Energía, S.A.U. (Petersen), on July 20, 2016, a hearing was held at the Court, at which the parties made their arguments regarding the motion to dismiss, answering the questions asked by the Judge. On September 9, 2016, the United States District Court for the Southern District of New York issued a resolution whereby in this preliminary instance, the claim filed by Petersen against YPF was partially dismissed. The Company appealed against this resolution.

In connection with Resolution No. 17/2012, issued by the Secretariat of the Interior of the ex-Federal Ministry of Economy and Public Finance, which ordered YPF, Shell Compañía Argentina de Petróleo S.A. and Esso Petrolera Argentina S.R.L. to supply jet fuel for the domestic and international air transport at a price net of taxes not to exceed 2.7% of the price net of taxes of Super gasoline (not Premium) offered at their respective service stations closest to the relevant airport, maintaining the current fuel supply logistics in its ordinary and usual supply quantities, the Argentine Supreme Court (CSJN) ruled in December 2015 to sustain the appeal filed by the Federal Government. Thus, the CSJN confirmed the jurisdiction of the Secretariat of Commerce to issue administrative precautionary measures under Section 35 of Law No. 25,156. In addition, it ordered that the records of the case be returned to the original court so that the person concerned may issue a new ruling on the basis of the decision. As a result, the Federal Court must issue a new ruling on the lawfulness or unlawfulness of Resolution 17/2012 on the basis of the additional grounds previously alleged by YPF regarding the substance of this issue.

b) Contingent Assets

Cerro Divisadero:

Concerning the fire that damaged the facilities of the Crude Oil Treatment Plant of Cerro Divisadero in Mendoza, as of December 31, 2015 the claim settlement proceedings were concluded, with the final settlement amount agreed at US\$122 million, of which US\$45 million was related to property damage and US\$77 million was related to production losses, for which a US\$60 million advance had already been received as of such date. During the nine-month period ended September 30, 2016, the Company received the second and final payment of US\$62 million.

c) Contractual commitments

Agreements for project investments

With respect to the Investment Project Agreement executed by and between the Company and subsidiaries of Chevron Corporation with the objective of the joint exploitation of unconventional hydrocarbon in the Province of Neuquén in the Loma Campana area, during the nine-month period ended September 30, 2016, the Company and Compañía de Hidrocarburo No Convencional S.R.L. (CHNC) have completed transactions, including mainly the purchases of gas and crude oil by YPF for 4,433. These transactions were completed under general and regulatory market conditions. The net balance payable to CHNC as of

September 30, 2016 amounts to 624.

Concerning the acquisition by Pampa Energía S.A. (PEPASA) of the whole capital stock of Petrobras Participaciones S.L., which holds 67.2% of the capital and votes of Petrobras Energía S.A. (PESA), YPF and PEPASA have entered into an agreement subject to certain conditions precedent whereby, upon formalization of the acquisition of the controlling interest in PESA by PEPASA, the latter shall assign to YPF participations in the exploitation concessions of two areas located in the Neuquén basin with production and high development potential of gas (of the tight and shale type), to be operated by YPF, according to the following percentages: (i) 33.33% interest in the Río Neuquén area located in the Province of Neuquén and in the Province of Río Negro; and (ii) 80% interest in the Aguada de la Arena area in the Province of Neuquén.

In order to give effect to this agreement, PEPASA and YPF have signed the Financing and Interest Acquisition Framework Agreement and a Loan Agreement, whereby YPF on July 25, 2016 granted PEPASA a secured loan for the indirect acquisition of the aforementioned areas in the amount of US\$140 million, equal to the acquisition cost of the mentioned interests. Upon the approval of the

Table of Contents

aforementioned interest assignment by PESA's Board of Directors, the aforementioned loan may be used during 2018 for the payment of YPF's acquisition of the interests in concession and joint operations with: (i) PESA and an affiliate of Petróleo Brasileiro S.A. for the Río Neuquén Area, and (ii) Petrouuguay S.A. for the Aguada de la Arena Area. Additionally, see Note 17.

d) Main regulations and others

Natural gas regulatory requirements - Producers and Distribution Companies
Temporary Agreement with Natural Gas Network Distribution Companies

On February 24, 2016, within the framework of the process for renegotiating public services contracts provided by Law No. 25,561 and supplementary regulations, Metrogas entered into a Temporary Agreement with the Ministry of Energy and Mining (MINEM) and the Ministry of Economy and Public Finance whereby a provisional tariff regime was established for the collection of higher revenues than those collected under the Temporary Agreement of 2014 and ENARGAS Resolution No. I/2407/2012 issued on November 27, 2012.

The new Temporary Agreement, which is not subject to ratification by the Executive Branch, establishes an interim tariff regime effective from April 1, 2016, consisting of the readjustment of tariffs, taking into account the guidelines necessary to maintain service continuity and common criteria with the other distribution licensees, and considering tariff regulations, including changes in the gas price at the Transportation System Entry Points (TSEPs).

Furthermore, the Temporary Agreement provides that, between its execution date and December 31, 2016, the parties shall reach an agreement relating to the method, time frames and timing of the execution of the Memorandum of Agreement for Comprehensive Contractual Renegotiations.

The Temporary Agreement also provides that it will incorporate any transfer that results from changes in tax regulations that remain outstanding, except for the income tax, and imposes a mandatory investment plan on Metrogas.

On April 1, 2016 the MINEM issued the following Resolutions:

- (1) Resolution No. 28/2016 passed by the MINEM, which, among other things:

Sets the new prices for natural gas at the TSEPs, broken up by basin and user category, and provides discounts to those Residential users who record a savings in their consumption by fifteen percent (15%) or more compared to the same period of the previous year, taking into effect consumption from April 1, 2016.

Sets the new Propane Gas Prices for Undiluted Propane Gas distribution, as well as provides discounts to those Residential users who record a savings in their consumption equal to or higher than fifteen percent (15%) compared to the same period of the previous year.

Instructs the ENARGAS to update the Registry of Persons Exempt from the Argentine Government Policy of Subsidy Reallocation through which ENARGAS adopts for Residential users the Eligibility Criteria to benefit from a Social Tariff , with a one hundred percent (100%) discount on the Natural Gas price or the Propane Gas price consumed by such users. On May 6, 2016, the Registry of Persons Exempt from the Argentine Government Policy of Subsidy Reallocation was modified by ENARGAS Resolution No. 3,784/2016.

Revokes resolutions passed by the former ex-Ministry of Federal Planning, Public Investment and Services under Section 6 of Executive Order No. 2,067/2008 and Section 7 of Resolution No. 1,451/2008, related to the assessment of tariff charges, which instructs ENARGAS to take the necessary measures to cease applying those charges in the bills issued to users.

- (2) Resolution No. 31 of the MINEM instructs ENARGAS to implement the procedure for the Comprehensive Tariff Review established by the Memorandum of Agreement for Comprehensive Contractual Renegotiations entered into with Licensees within the framework of Law No. 25,561, its amendments and complementary rules, to be executed within a maximum term of one year from April 1, 2016. It further established the application of a provisional tariff.

Table of Contents

(3) Resolution No. 34/2016 passed by the MINEM, which, among other things:

Sets the new prices at TSEPs for natural gas supply to Compressed Natural Gas (CNG) stations, taking into effect consumption from April 1, 2016.

Provides that from May 1, 2016, natural gas for CNG supply stations must be acquired by distributors. On April 4, 2016, ENARGAS Resolution No. 3,726/2016 was published in the Argentine Official Gazette whereby:

A new tariff scheme applicable to Metrogas users was approved, effective from April 1, 2016, in line with the provisions of Resolution No. 28/2016 issued by the MINEM.

Additionally, new tariffs are established for Residential users who record a savings in their consumption equal to or higher than fifteen percent (15%) compared to the same period of the previous year and for users registered with the registry established under ENARGAS Resolution No. I-2,905/2015 as amended by section 5 of Resolution No. 28/2016 issued by the MINEM (social tariff).

It orders Metrogas to:

- i. No longer include the amounts derived from the charge imposed by Executive Decree No. 2,067/2008;
- ii. Effectuate the monthly collection of bills which are issued bi-monthly, which shall be paid as two monthly payments, each equal to 50% of the total amount of the bi-monthly bill, to be paid 30 days apart;
- iii. Refrain from distributing dividends without first demonstrating to the ENARGAS full compliance with the Mandatory Investment Plan.

Subsequently, on June 1, 2016, the MINEM published Resolution No. 89 whereby:

The ENARGAS is required to elaborate a procedure modifying and supplementing the provisions of ENARGAS Resolutions No. 716/1998 and 1,410/2010, and setting forth the daily operating conditions of the Transportation and Distribution Systems.

It establishes the volumes the Distribution Companies may request to supply priority demand and sets forth that if natural gas is contracted with a Producer for such purpose, the contracted volume amount requirement of natural gas from such Producer will be reduced in accordance with the framework provided by Resolution No. 1,410/2010 to the extent of the volume contracted.

Pursuant to this Resolution, on June 5, 2016 ENARGAS Resolution No. I/3833 was issued, whereby the Supplementary Procedure for Gas Requests, Confirmations and Control was established.

On June 7, 2016, MINEM Resolution No. 99 was issued, under which:

The ENARGAS, in exercise of its powers, is required to establish the necessary measures so that during 2016, the amounts before taxes of bills issued by providers of the gas distribution public service in all the territory, to be paid by Residential users (category R and its subcategories) and users of the Small General Service category with full service (subcategories P1, P2 and P3, and equivalent categories in the undiluted propane gas distribution service), for consumption made from April 1, 2016, shall not exceed by more than 400% and 500%, respectively, the final amount, before taxes, that should have been invoiced for such consumption, if the tariffs effective as of March 31, 2016 had been applied to the same user and for the volume consumed in the new billing period.

On June 8, 2016, ENARGAS, through Resolution No. 3,843/2016, regulated these limits until December 31, 2016. According to Resolution No. 99/2016 of the MINEM, any differences arising from the final amount resulting from the application of the relevant limit and the tariff schemes applicable as of that date shall be determined during 2016 as a discount on the prices to be billed by natural gas Producers to Distribution Companies.

Table of Contents

On July 12, 2016, the MINEM, through Resolution No. 129/2016:

Amended Resolution No. 99/2016 and instructed ENARGAS to take the necessary steps in order that during 2016, the aggregate amount, after taxes, of the bills issued by Gas Distribution Companies to be paid by Residential users (category R and its subcategories), Small General Service (SGS) category with full service and equivalent categories in the undiluted propane network distribution service for consumptions made as of April 1, 2016, do not exceed by more than 400% and 500%, respectively, the final amount, after tax, of the bill issued to the same user, for the same billing period of the previous year, i.e. the amount billed should not exceed an amount equivalent to 5 or 6 times, respectively, the final amount of the bill issued to the same user for the same billing period of the previous year.

Instructed ENARGAS to take the necessary steps to complete, before December 31, 2016, the comprehensive Tariff Review process (referred to in Section 1 of Resolution No. 31 dated March 29, 2016).

The public hearing for such Tariff Review process should be held before October 31, 2016.

On July 27, 2016, the ENARGAS issued Note No. 6,877 informing that, as a result of the decision of Division II of the Federal Court of Appeals of La Plata in the case filed by Centro de Estudios para la Promoción de la Igualdad y la Solidaridad (CEPIS) regarding the declaration of nullity of MINEM Resolutions No. 28/2016 and 31/2016, and until the appeal filed by the MINEM to the Supreme Court is decided, it is not feasible to apply the ENARGAS Resolutions related to tariff increases, including, among others, Resolutions No. 3,726/2016 and 3,843/2016.

On August 18, 2016, the Argentine Supreme Court (CSJN for its acronym in Spanish) ruled unanimously to partially uphold the judgment of Division II of La Plata Federal Court of Appeals regarding the nullity of MINEM Resolutions 28/2016 and 31/2016, which decision is limited to the residential users, who will keep the social tariff as long as it is more beneficial. The decision was based on the fact that no public hearings had been held to order tariff increases. Thus, the tariff schemes established on April 1, 2016 in relation to residential users are no longer in effect. The decision of the CSJN acknowledges the authority of the Executive branch to set tariffs and provides that a public hearing before a decision to increase tariffs is an essential requirement to make decisions in this respect. It also provides that the production and sale of natural gas was an unregulated activity until the enactment of Executive Order 181/2004. Therefore, as long as the gas price at the Transportation System Entry Points (TSEPs) is determined on the basis of the free market supply and demand, its analysis should be made jointly with the tariff review, for which a public hearing is necessary.

Based on CSJN's decision, the MINEM issued Resolution No. 152-E/2016 instructing ENARGAS with respect to the manner in which consumption by Residential users and SGS users will be billed from April 1, 2016. To that end, Resolution No. 3,961/2016 provides that gas consumption by Residential users from April 1, 2016 is to be billed at the tariff scheme in effect as of March 31, 2016. The resolution further abrogates Section 1 of ENARGAS Resolution No. I-3843/16, which relates to the discount provided by MINEM Resolution No. 129/2016. In addition ENARGAS issued Resolution No. 3,960/2016, which instructs Distributors on the mechanisms for the application of the discount provided by MINEM Resolution No. 129/2016 for SGS clients.

Resolution No. 152-E/2016 also instructed ENARGAS to call a public hearing for the treatment of the temporary tariff adjustment for natural gas transportation and distribution services, to be applied until the establishment of the tariff schemes resulting from the Comprehensive Tariff Review.

Edgar Filing: YPF SOCIEDAD ANONIMA - Form 6-K

On September 16, 17 and 18, 2016 public hearings were held, as called by ENARGAS pursuant to Resolutions No. I-3953/16 and No. I-3957/16 under the Comprehensive Tariff Review, in compliance with MINEM's order under its Resolution No. 152-E/2016.

As a result of the Temporary Agreement with Natural Gas Distribution Companies and the tariff schemes issued accordingly, a large number of legal actions (motions for protection of constitutional rights, precautionary measures, etc.) were filed throughout the Argentine territory against the then effective

Table of Contents

scheme. With the issuance of the judgment of the CSJN in the CEPIS case, the Group anticipates that no new legal actions will be filed challenging the application of tariff schemes established by ENARGAS as a result of the aforementioned public hearings.

On October 7, 2016, MINEM Resolution No. 212/2106 was published, whereby:

New prices have been determined at the TSEPs with a discount for natural gas Residential users who record savings in consumption equal to or higher than 15% with respect to the same period of 2015 and the new prices propane gas for undiluted propane gas distribution, being \$800/ton for Residential users and P1 and P2 General Service users, and \$2,100/ton for P3 General Service users.

In connection with the new price of Propane Gas for Undiluted Propane Gas distribution, it provides that Residential users who record savings equal to or higher than 15% with respect to the same period of 2015 will receive a 30% discount from the price indicated in the previous paragraph.

The Hydrocarbon Resources Secretariat has been instructed that as long as the gas prices at the TSEPs are determined by free market supply and demand, it shall prepare on a semi-annual basis and submit to the MINEM for approval the proposal of gas prices at the TSEP corresponding to each six-month period.

ENARGAS has been instructed, on the basis of the economic and financial situation of Licensees and on account of the Comprehensive Tariff Review, to adjust the transition tariffs in effect for Natural Gas Transportation and Distribution Services, under the Memoranda of Agreements for Comprehensive Contractual Renegotiations and Temporary Agreements executed with those Licensees which as of the date thereof shall not have reached a renegotiation agreement, allowing Licensees to comply with the investment plan for the current year, to meet their operations, maintenance, administration and marketing expenses and to pay the obligations assumed as they become due, thus maintaining the payment chain in order to ensure the continued and regular provision of the public services they render until the final tariff schemes resulting from the Comprehensive Tariff Review are established.

ENARGAS has been instructed to take the necessary measures so that the aggregate amount, including taxes, of the bills issued by gas distribution companies throughout the country to be paid by users for consumption since the effective date of the gas prices at the TSEPs established in this resolution, does not exceed the maximum amounts equal to the percentages set forth below, considered as a percentage of increase over the aggregate amount, including taxes, of the bill issued to the same user for the same billing period of the previous year: R1-R23 Users: 300%; R31-R33 Users: 350%; R34 Users: 400%; and SGS Users: 500%.

It further provided that the afore mentioned increase limits on the final amounts billed will be applied provided the invoice amount exceeds \$250.

On that same date, ENARGAS published Resolutions No. 4,053/2016 and No. 4,054/2016 with the tariff schemes for transportation companies Transportadora de Gas del Norte S.A. and Transportadora de Gas del Sur S.A., respectively,

and ENARGAS Resolution No. 4,044/2016, whereby the tariff schemes for Metrogas users were approved.

However, Metrogas anticipates an agreement with the Argentine government concerning the guidelines contained in the Annex to the 2016 Temporary Agreement related to the methods, time periods and timelines of the execution of the Memorandum of Agreement for Comprehensive Contractual Renegotiations, so as to facilitate the restructuring of the economic-financial standing.

In turn, in connection with ENARGAS Resolution No. 1,410/2010 approving a Procedure for Gas Requests, Confirmations and Controls , which had been appealed by YPF on December 9, 2015, ENARGAS rejected YPF 's challenge to such resolution. YPF is evaluating the course of action that it will pursue.

Table of Contents

Natural Gas New Projects Stimulus Program

On May 18, 2016, MINEM Resolution No. 74/2016 created the Natural Gas New Projects Stimulus Program in order to foster natural gas production for those companies submitting new natural gas projects, provided they are not beneficiaries of the Natural Gas Additional Injection Stimulus Program or the Natural Gas Injection Stimulus for Companies with Reduced Injection, created by Resolutions No. 1/2013 and 60/2013, respectively, of the former Strategic Planning and Coordination Commission of the Hydrocarbon Investments National Plan.

The submission of new projects, which must be approved by the Hydrocarbon Resources Secretariat, may obtain a stimulus price of US\$7.50/MMBTU.

The Natural Gas Injection Stimulus for Companies without Injection, created by Resolution No. 185/2015 of the former Strategic Planning and Coordination Commission of the Hydrocarbon Investments National Plan has been abolished, but any projects submitted under such program which are pending approval must be evaluated under the Natural Gas New Projects Program.

The Natural Gas New Projects Program shall be effective as from the publication of the relevant resolution in the Official Gazette (May 19, 2016) until December 31, 2018.

Following this Resolution, no new projects may be submitted under the natural gas production incentive Program known as Gas Plus, created by Resolution No. 24/2008 of the former Energy Secretariat of the former Ministry of Federal Planning, Public Investment and Services, as amended. Notwithstanding the foregoing, any projects approved under said Program shall remain in full force according to the terms of their respective approvals.

The requirements to be fulfilled by gas to be involved in a new natural gas project are the following: a) it must come from an exploitation concession granted as a result of a discovery reported after the effective date of Resolution No. 1/2013 of the former Strategic Planning and Coordination Commission of the Hydrocarbon Investments National Plan or b) come from an exploitation concession of areas classified as Tight Gas or Shale Gas, or c) belong to companies without natural gas injection registers which acquire an interest in areas belonging to companies registered in the Natural Gas Additional Injection Stimulus Program or the Natural Gas Injection Stimulus for Companies with Reduced Injection, created by Resolutions No. 1/2013 and 60/2013, respectively, of the former Strategic Planning and Coordination Commission of the Hydrocarbon Investments National Plan, but for which the total injection coming from the areas in question, including the acquired areas, would have been zero during the period in which the selling company would have calculated its base injection.

On May 20, 2016, Executive Order No. 704/2016 was issued, which converted into pesos the debt under the Natural Gas Additional Injection Stimulus Program, the Natural Gas Injection Stimulus for Companies with Reduced Injection and debt derived from the Agreement for the Supply of Propane Gas for Undiluted Propane Gas Distribution Networks, taking into account the closing rate of exchange for each period, and the delivery of sovereign bonds issued by the Argentine government denominated in US dollars with an 8% interest rate and a maturity date in 2020 (BONAR 2020 US\$) for the cancellation thereof.

The sale of these BONAR 2020 US\$ is restricted; therefore, until and including December 2017, the Group may not sell monthly more than 3% of the aggregate amount of the BONAR 2020 US\$ received. In addition, during the months in which the Group does not exercise its right to sell the BONAR 2020 US\$ up to the above mentioned percentage, it may accumulate the unused percentage for its sale in subsequent months. In no event will the sale in a single month of the accrued balances exceed 12% of the total BONAR 2020 US\$ received.

In order to request the cancellation of outstanding payments, beneficiaries must subscribe and file with the Hydrocarbon Resources Secretariat of the MINEM letters of accession. YPF has filed the letters of accession and has reserved the right to claim the exchange differences and interest.

On July 13, 2016, the Group has received, under the Natural Gas Additional Injection Stimulus Program, BONAR 2020 US\$, with a face value of US\$630 million.

Table of Contents

In addition, on September 21, 2016, under the Supply of Propane Gas for Undiluted Propane Gas Distribution Networks Agreement, the Group received BONAR 2020 US\$, with a face value of US\$12 million.

Regulatory framework for the electric power industry:

Law No. 27,191, amending Law No. 26,190 of Argentina's Scheme for Promotion of Use of Energy Renewable Sources intended for Electricity Production. This law binds Large Users to incorporate at least 8% of energy from renewable sources into their electric power usage by December 31, 2017.

Executive Branch Order No. 531/2016 (Regulations of Law No. 27,191), dated March 31, 2016. Among other things, this Executive Order establishes that before December 31, 2017, users shall provide evidence of subscription of self and joint generation contracts or projects. Upon revision of compliance with the purposes of the law, if an energy shortage is found, a penalty shall be imposed, but no further details have been provided.

Resolution No. 22/2016 issued by the Energy Secretariat, dated March 30, 2016. Pursuant to this Resolution, the Energy Secretariat amended SE Resolution No. 482/2015 and adjusted tariff components collected by generators who have adhered to SE Resolutions Nos. 95/2013, 529/14 and 482/2015. The resolution modifies remunerative components of financial transactions retroactively to February 2016.

MINEM Resolution No. 41/2016 issued on April 13, 2016. It sets the new prices at the entry points to the natural gas transportation system for each basin of origin, which prices will be applied to natural gas acquisitions made to be used for the generation of electricity to be sold in the Wholesale Electricity Market (MEM) or, generally, to be supplied to the electricity distribution public service.

Resolution No. 21/2016 issued by the Energy Secretariat published on March 22, 2016. This resolution calls generators, self-generators and joint generators interested in bidding on a new capacity of thermal power generation and associated electricity production, undertaking to be available in the MEM during summer (2016/2017 and 2017/2018) and winter 2017.

MINEM Resolution No. 71/2016, dated May 18, 2016. This resolution provides for the commencement of the open competitive bidding process for contracting, in the MEM, electric energy from renewable generation sources in order to achieve the contribution goals from renewable energy sources scheduled by December 31, 2017, in Sections 2 of Law No. 26,190 and 8 of Law No. 27,191 (Renovar Program (Round 1)).

SEE Resolution No. 155/2016, dated June 15, 2016. This resolution informs the first projects awarded under the call for bids set forth by SEE Resolution No. 21/2016, including, among others, Thermal Power Plant El Bracho (Province of Tucumán) awarded to Y-GEN II, in which YPF Energía Eléctrica S.A. has a 66.67%

interest. See Note 3.

SEE Note 355/2016, dated June 28, 2016. This Note gives bidders who have exceeded the technical offers the opportunity to improve their financial offers in order to be again taken into consideration in the award of the call for bids set forth in SEE Resolution No. 21/2016.

SEE Resolution No.216/2016, dated July 15, 2016. This resolution informs the new projects awarded under the call for bids set forth by SEE Resolution No. 21/2016, including, among others, Thermal Power Plant Loma Campana (Province of Neuquén) awarded to Y-GEN, in which YPF Energía Eléctrica S.A. has a 66.67% interest. See Note 3.

MINEM Resolution No. 136, dated July 26, 2016, whereby interested parties are invited to tender in the National and International Open Bidding Process to contract in the MEM electric energy from renewable generation sources through the Renovar Program (Round 1) in order to execute Forward Contracts known as Contracts for the Supply of Renewable Electric Energy, with CAMMESA on behalf of the Distributors and MEM Large Users, in accordance with the terms and conditions approved by the same resolution.

Table of Contents*Investments in financial assets*

During the three-month period ended September 30, 2016, the Group acquired sovereign bonds issued by the Argentine government denominated in US dollars with a 6.875% annual interest rate and due in 2021 with a face amount of US\$195 million.

13. BALANCES AND TRANSACTIONS WITH RELATED PARTIES

The Group enters into operations and transactions with related parties according to general market conditions, which are part of the normal operations of the Group with respect to their purpose and conditions.

The information detailed in the tables below shows the balances with associates and joint ventures as of September 30, 2016 and December 31, 2015 and transactions with such parties for the nine-month periods ended September 30, 2016 and 2015.

(1) Disclosed balances and transactions since the date of the acquisition of interest.

Additionally, in the normal course of business, and taking into consideration that the Group is the main oil and gas company in Argentina, its client/suppliers portfolio encompasses both private sector entities as well as national, provincial and municipal public sector entities. As required by IAS 24 Related party disclosures, the most important transactions mentioned above are:

Table of Contents

CAMMESA: the provision of fuel oil, which is directed to thermal power plants, and the revenues and purchases of energy (the operations of sale and purchase for the nine-month period ended on September 30, 2016 amounted to 15,946 and 1,795, respectively, and on September 30, 2015 amounted to 7,836 and 1,098, respectively, while the net balance as of September 30, 2016 and December 31, 2015 was a trade receivable of 2,437 and 1,960, respectively);

ENARSA: rendering of services in the regasification projects of liquefied natural gas in Bahía Blanca and Escobar and the purchase of natural gas and crude oil (the operations for the nine-month period ended on September 30, 2016 amounted to 1,895 and 920, respectively, and on September 30, 2015 amounted to 1,270 and 708, respectively, while the net balance as of September 30, 2016 and December 31, 2015 was a trade payable of 780 and 135, respectively);

Aerolíneas Argentinas S.A. and Austral Líneas Aéreas Cielos del Sur S.A.: the provision of jet fuel (the operations for the nine-month periods ended on September 30, 2016 and 2015 amounted to 2,124 and 1,635, respectively, while the net balance as of September 30, 2016 and December 31, 2015 was a trade receivable of 392 and 255, respectively);

Industry Secretariat: incentive for domestic manufacturing of capital goods, for the benefit of A-Evangelista S.A. (the operations for the nine-month period ended on September 30, 2016 and 2015 amounted to 228 and 505, respectively, while the net balance as of September 30, 2016 and December 31, 2015 was a trade receivable of 194 and 27, respectively).

Such transactions are generally based on medium-term agreements and are provided according to general market and/or regulatory conditions, as applicable.

Additionally, the Group has entered into certain financing and insurance transactions with entities related to the national public sector, as defined in IAS 24. Such transactions consist of certain financial transactions that are described in Note 7.j) of these condensed interim consolidated financial statements, and transactions with Nación Seguros S.A. related to certain insurance policies contracts, and in connection therewith, to the reimbursement from the insurance coverage for the incident mentioned in Note 11.b) to the annual consolidated financial statements and in Note 12.b) of these condensed interim consolidated financial statements.

Furthermore, in relation to the investment agreement signed between YPF and Chevron subsidiaries, YPF has an indirect non-controlling interest in CHNC with which YPF carries out transactions in connection with the mentioned investment agreement. See Note 11.c) to the annual consolidated financial statements and Note 12.c) of these condensed interim consolidated financial statements.

Table of Contents

The table below discloses the compensation for the Company's key management personnel, including members of the Board of Directors and vice president managers with executive functions appointed by the Board of Directors, for the nine-month periods ended September 30, 2016 and 2015:

	For the nine-month period ended on September 30,	
	2016⁽¹⁾	2015⁽¹⁾
Short-term employee benefits ⁽²⁾	128	108
Share-based benefits	19	38
Post-retirement benefits	6	4
Other long term benefits	68	
	221	150

(1) Includes the compensation for YPF's key management personnel which developed their functions during the mentioned periods.

(2) Does not include Social Security contributions of 34 and 23 for the nine-month periods ended on September 30, 2016 and 2015, respectively.

14. EMPLOYEE BENEFIT PLANS AND OTHER OBLIGATIONS

Note 1.b.10) to the annual consolidated financial statements describes the main characteristics and accounting treatment for benefit plans implemented by the Group. The charges recognized during the nine-month periods ended on September 30, 2016 and 2015 are as follows:

i. Retirement plan:

The total charges recognized under the Retirement Plan amounted to approximately 56 and 36 for the nine-month periods ended on September 30, 2016 and 2015, respectively.

ii. Performance Bonus Programs and Performance evaluation:

The amount charged to expenses related to the Performance Bonus Programs was 862 and 735 for the nine-month periods ended on September 30, 2016 and 2015, respectively.

iii. Share-based benefit plan:

The amounts recognized in net income in relation with the Share-based Plans, which are disclosed according to their nature, amounted to 108 and 89 for the nine-month periods ended on September 30, 2016 and 2015, respectively.

17. SUBSEQUENT EVENTS

On October 14, 2016, the assignment of the following interests in the exploitation concessions between YPF and PEPASA was formalized: (i) 33.33% interest in Río Neuquén area for a price of US\$72 million; and (ii) 80% interest in the Aguada de la Arena area for a price of US\$68 million.

On October 17, 2016, YPF and its subsidiary YSUR Energía Argentina S.R.L., the Province of Neuquén and Gas y Petróleo del Neuquén S.A. (GyP) executed an agreement whereby, under Laws No. 17,319 24,145, 26,197, 26,741 and 27,007 and other relevant legislation in force, they decided, with the subsequent approval of the agreement by Executive Order No. 1431/2016 of the Province of Neuquén, and the ratification thereof by Provincial Law No. 3030/2016, the following:

- i. In relation to the Pampa de las Yeguas I and La Ribera I y II areas, the conversion of contracts with GyP into unconventional exploitation concessions without participation of GyP, for an associated term of 35 years, under the provisions of Law No. 27,007. The total investment commitment of YPF and its partners with respect to the granting of the said concessions amounts to US\$220 million, of which US\$170 million corresponds to YPF's interest.
- ii. With respect to the La Amarga Chica, Bajada de Añelo and Bandurria Sur areas, the extension of the terms for the execution of the pilot projects up to a maximum term of 5 year pursuant to Law No. 27,007.
- iii. Regarding to the Aguada de Castro, Bajo del Toro, Cerro Arena, Cerro Las Minas, Chasquivil, Las Tacanas, Loma del Molle, Pampa de las Yeguas II and Salinas del Huitrín areas, the conversion of the contracts with GyP into unconventional exploration permits without participation of GyP, for the associated term of 4 years, under the provisions of Law No. 27,007, partially returning certain land in some of the aforementioned areas. The total activity commitment associated with the permits will entail an investment by YPF and its partners of an estimated US\$232 million, of which US\$155 million corresponds to YPF's interest.
- iv. Finally, all of GyP's interests in the Cerro Avispa, Cerro Partido, Loma del Mojón, Los Candeleros, Santo Domingo I, Santo Domingo II, Cortadera, Huacalera, Buta Ranquil I, Buta Ranquil II, Rio Barrancas, Chapúa Este, Corralera and Mata Mora areas were restored.
- v. In consideration for the granting of the permits, the concessions and the extension of terms for the execution of the pilot projects, YPF agreed to pay US\$30 million to the Province of Neuquén, which will be partially repaid to YPF by its partners.

The Executive Order granting the respective Exploration Permits, the Exploitation Concessions and the new terms for the Pilot Plans has not yet been enacted.

In October 2016, the Company issued additional Class XXVIII Negotiable Obligations in the amount of US\$197 million. These Negotiable Obligations will accrue interest at a fixed rate of 8.75% with the principal amount due in 2024. Simultaneously, these were exchanged for Class X Negotiable Obligations in the amount of US\$ 157 million and Class XI Negotiable Obligations in the amount of 804.

As of the date of issuance of these condensed interim consolidated financial statements, there are no other significant subsequent events that require adjustments or disclosure in the condensed interim consolidated financial statements of the Group as of September 30, 2016 which were not already considered in such consolidated financial statements according to IFRS.
