Table of Contents**NEWELL BRANDS INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****Footnote 1 Basis of Presentation and Significant Accounting Policies**

The accompanying unaudited condensed consolidated financial statements of Newell Brands Inc. (formerly, Newell Rubbermaid Inc., and collectively with its subsidiaries, the Company) have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission (the SEC) and do not include all of the information and footnotes required by U.S. generally accepted accounting principles (U.S. GAAP) for complete financial statements. In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments (including normal recurring accruals) considered necessary for a fair presentation of the financial position and the results of operations of the Company. It is recommended that these unaudited condensed consolidated financial statements be read in conjunction with the financial statements, and the footnotes thereto, included in the Company s most recent Annual Report on Form 10-K. The condensed consolidated balance sheet as of December 31, 2017, has been derived from the audited financial statements as of that date, but it does not include all of the information and footnotes required by U.S. GAAP for complete financial statements. These reclassifications have no impact on previously reported net income.

Discontinued Operations

During 2018, the Company implemented the Accelerated Transformation Plan, which was designed in part, to rationalize the organization and its portfolio of products. Pursuant to the Accelerated Transformation Plan, a number of the Company s businesses were designated for disposal. At June 30, 2018, these businesses have been classified as discontinued operations as these businesses together represent a strategic shift that has a major effect on the Company s operations and financial results (see Footnote 4). Prior periods have been reclassified to conform with the current presentation.

Seasonal Variations

Sales of the Company s products tend to be seasonal, with sales, operating income and operating cash flow in the first quarter generally lower than any other quarter during the year, driven principally by reduced volume and the mix of products sold in the first quarter. The seasonality of the Company s sales volume combined with the accounting for fixed costs, such as depreciation, amortization, rent, personnel costs and interest expense, impacts the Company s results on a quarterly basis. In addition, the Company tends to generate the majority of its operating cash flow in the second, third and fourth quarters of the year due to seasonal variations in operating results, the timing of annual performance-based compensation payments, customer program payments, working capital requirements and credit terms provided to customers. Accordingly, the Company s results of operations for the three and six months ended June 30, 2018 may not necessarily be indicative of the results that may be expected for the year ending December 31, 2018.

Recent Accounting Pronouncements

Changes to U.S. GAAP are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates (ASUs) to the FASB s Accounting Standards Codification. The Company considers the applicability and impact of all ASUs.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which requires lessees to recognize a right-of-use asset and lease liability for all leases with terms of more than 12 months. Recognition, measurement and presentation of expenses will depend on classification as a finance or operating lease. ASU 2016-02 is effective for the Company on January 1, 2019. The Company is currently evaluating the effect of the adoption of ASU 2016-02 on the Company's consolidated financial statements and has initiated its plan for the adoption and implementation of this new standard, including assessing the Company's lease portfolio, evaluating practical expedients and accounting policy elections, and implementing a new software to meet the reporting requirements of this standard.

In August 2017, the FASB issued ASU 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*. ASU 2017-12 amends existing guidance to better align an entity's risk management activities and financial reporting for hedging relationships. ASU 2017-12 also expands and refines hedge accounting for both nonfinancial and financial risk components and aligns the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. ASU 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual periods. The Company is evaluating the impact the adoption of ASU 2017-12 will have on the Company's consolidated financial statements.

Table of Contents**Adoption of New Accounting Guidance**

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The Company adopted ASU 2014-09 and all the related amendments (Topic 606) on January 1, 2018, using the modified retrospective transition method and applied this approach to contracts not completed as of that date. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The adoption of Topic 606 did not result in a material adjustment to the opening balance of retained earnings. The Company does not expect the adoption of Topic 606 to have a material impact to its net income on an ongoing basis.

The cumulative effect of the changes made to the condensed consolidated balance sheet at January 1, 2018 from the adoption of Topic 606 were as follows (in millions):

	Balance at December 31, 2017	Adjustments due to Topic 606	Balance at January 1, 2018
Accounts receivable, net	\$ 1,879.3	\$ 100.3	\$ 1,979.6
Prepaid expenses and other	327.6	14.6	342.2
Current assets held for sale	6,894.6	21.3	6,915.9
Noncurrent assets held for sale	3,312.6	33.8	3,346.4
Other accrued liabilities	1,267.1	114.9	1,382.0
Current liabilities held for sale	1,339.4	21.3	1,360.7
Noncurrent liabilities held for sale	12.8	33.8	46.6
Retained earnings	4,611.2		4,611.2

As part of Topic 606, the Company reclassified items such as cash discounts, allowances for returns, and credits or incentives provided to customers from accounts receivable, net to other accrued liabilities as of the adoption date. These items are accounted for as variable consideration when estimating the amount of revenue to recognize. Also as part of the new standard, the Company recognizes right to recover assets associated with its estimated allowances for returns in prepaid expenses and other, which were previously netted against the allowance for returns included in accounts receivable, net.

The impact of adoption of Topic 606 on the condensed consolidated balance sheet and condensed consolidated statement of operations as of and for the period indicated was as follows (in millions):

Certain costs and cash payments made to customers previously recorded in costs of products sold and selling, general and administrative expenses have been reclassified against net sales as they do not meet the specific criteria to qualify as a distinct good or service under the new guidance, primarily related to payments to customers for defective products under warranty.

Refer to Footnote 2 for additional information regarding the Company's adoption of Topic 606.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 provides guidance on the classification of certain cash receipts and payments in the statement of cash flows, including debt prepayment and debt extinguishment costs. ASU 2016-15 is effective for annual periods beginning after December 15, 2017 and the Company retrospectively adopted ASU 2016-15 effective January 1, 2018. As a result of the adoption ASU 2016-15, the Company reclassified \$34.2 million of certain debt extinguishment payments, which had the effect of increasing the Company's cash used in operating activities and decreasing net cash provided by (used in) financing activities by \$34.2 million for the six months ended June 30, 2017.

In October 2016, the FASB issued ASU 2016-16, *Intra-Entity Transfers of Assets Other Than Inventory (Topic 740)*, which requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. ASU 2016-16 is effective for annual and interim periods beginning after

December 15, 2017. The Company adopted ASU 2016-16 effective January 1, 2018. As a result of the adoption of ASU 2016-16, the Company recorded an adjustment as of January 1, 2018, that reduced retained earnings and prepaid expenses and other by \$9.5 million.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. The new guidance is intended to reduce diversity in practice by adding or clarifying guidance on classification and presentation of changes in restricted cash on the statement of cash flows. ASU 2016-18 required disclosure of the nature and amounts of restricted cash. ASU 2016-18 is effective for annual and interim periods beginning after December 15, 2017. The Company retrospectively adopted ASU 2016-18 effective January 1, 2018 and the impact was not material to the condensed consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, *Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. ASU 2017-07 changes how employers that sponsor defined benefit pension plans and other postretirement plans present the net periodic benefit cost in the income statement. ASU 2017-07 requires that the service cost component of net periodic benefit cost be reported in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. Other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. ASU 2017-07 also allows only the service cost component to be eligible for capitalization, when applicable. This guidance is effective for annual periods beginning after December 15, 2017, with early adoption permitted. ASU 2017-07 is to be applied retrospectively for the income statement presentation requirements and prospectively for the capitalization requirements of the service cost component. The

Table of Contents

Company adopted this guidance in the first quarter of 2018 and retrospectively reclassified the other components of net periodic pension cost and net periodic postretirement benefit cost using the practical expedient permitted under the guidance. As a result, \$2.4 million and \$5.0 million of income was reclassified from selling, general and administrative expenses (SG&A) to other expense (income), net, for the three and six months ended June 30, 2017, respectively (see Footnote 13).

In February 2018, the FASB issued ASU No. 2018-02, *Income Statement Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. ASU No. 2018-02 provides companies with an option to reclassify stranded tax effects within accumulated other comprehensive income (AOCI) to retained earnings in each period in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act (or portion thereof) is recorded. ASU No. 2018-02 also requires disclosure of the accounting policy for releasing income tax effects from AOCI and whether an election was made to reclassify the stranded income tax effects from the Tax Cuts and Jobs Act. ASU No. 2018-02 is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. Companies can adopt the provisions of ASU 2018-02 in either the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the Tax Cuts and Jobs Act is recognized. The Company adopted this guidance in the second quarter of 2018 and reclassified the stranded income tax effects from the Tax Cuts and Jobs Act from AOCI to retained earnings (see Footnote 5).

Other recently issued ASUs were assessed and determined to be either not applicable or are expected to have a minimal impact on the Company's consolidated financial position and results of operations.

Other Items

At June 30, 2018, the Company held a 23.4% investment in Sprue Aegis (Sprue). During the three and six months ended June 30, 2018 and 2017, the Company's related party sales to Sprue were nil and \$8.7 million, respectively, and \$7.5 million and \$15.4 million, respectively. On March 31, 2018, the Company terminated its distribution agreement with Sprue.

Footnote 2 Revenue Recognition

Net sales include sales of consumer and commercial products across the Company's four segments: Food and Appliances, Home and Outdoor Living, Learning and Development and Other. In accordance with Topic 606, the Company recognizes revenue when performance obligations under the terms of a contract with the customer are satisfied, which generally occurs either on shipment or on delivery based on contractual terms. Timing of revenue recognition of a majority of the Company's sales continues to be consistent between the new and old revenue standard. However, previously under Topic 605, the Company deferred recognition of revenue for limited FOB shipping point transactions where it had a practice of providing the buyer with replacement goods at no additional cost if there was loss or damage while the goods were in transit. Under Topic 606, the Company recognizes revenue at the time of shipment for these transactions. This change did not have a material impact on the Company's consolidated financial statement upon adoption on January 1, 2018.

The Company measures revenue as the amount of consideration for which it expects to be entitled in exchange for transferring goods or providing services. Certain customers may receive cash and/or non-cash incentives such as cash discounts, returns, customer discounts (such as volume or trade discounts), cooperative advertising and other customer-related programs, which are accounted for as variable consideration. In some cases, the Company has to apply judgment, including contractual rates and historical payment trends, when estimating variable consideration.

Sales taxes and other similar taxes are excluded from revenue. The Company has elected to account for shipping and handling activities as a fulfillment cost as permitted by the standard. The Company has elected not to disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which revenue is recognized at the amount to which it has the right to invoice for services performed.

Accounts Receivable, Net

Accounts receivables, net, include amounts billed and due from customers. Payment terms vary but generally are 90 days or less. The Company evaluates the collectability of accounts receivable based on a combination of factors. When aware of a specific customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, the Company records a specific reserve for bad debt to reduce the related receivable to the amount the Company reasonably believes is collectible. The Company also records reserves for bad debt for all other customers based on a variety of factors, including the length of time the receivables are past due and historical collection experience. Accounts deemed uncollectible are written off, net of expected recoveries.

During the three months and six months ended June 30, 2018, the Company wrote-off \$5.3 million and \$28.7 million, respectively, primarily related to one of its top 10 customers in the Baby and Parenting division within the Learning and Development segment, who filed for liquidation of its bankrupt operations in March 2018.

Footnote 3 Acquisitions

2017 Activity

In September 2017, the Company acquired Chesapeake Bay Candle, a leading developer, manufacturer and marketer of premium candles and other home fragrance products, focused on consumer wellness and natural fragrance, for a cash purchase price of approximately \$75 million. Chesapeake Bay Candle is included in the Home and Outdoor Living segment from the date of acquisition.

In April 2017, the Company acquired Sistema Plastics (Sistema), a leading New Zealand based manufacturer and marketer of innovative food storage containers with strong market shares and presence in Australia, New Zealand, U.K. and parts of continental Europe for a cash purchase price of approximately \$472 million. Sistema is included in the Food and Appliances segment from the date of acquisition.

Table of Contents

In January 2017, the Company acquired Smith Mountain Industries (Smith Mountain), a leading provider of premium home fragrance products, sold primarily under the WoodWick® Candle brand, for a cash purchase price of approximately \$100 million. Smith Mountain is included in the Home and Outdoor Living segment from the date of acquisition.

Footnote 4 Divestitures and Held for Sale*Discontinued Operations*

As part of the Company's Accelerated Transformation Plan, during 2018, the Company announced it is exploring strategic options for its industrial and commercial product assets, including Process Solutions, Rubbermaid Commercial Products and Mapa businesses, as well as non-core consumer businesses, including Goody, Jostens, Pure Fishing, Rubbermaid Outdoor, Closet, Refuse and Garage, and U.S. Playing Cards businesses. These businesses are classified as discontinued operations at June 30, 2018. Prior periods have been reclassified to conform with the current presentation. During the second quarter of 2018, the Company sold the Rawlings Sporting Goods Company, Inc. (Rawlings) and Waddington Group, Inc. (Waddington) as part of the Accelerated Transformation Plan. Rawlings and Waddington are also classified as discontinued operations as of June 30, 2018. The Company expects to complete the remaining divestitures by the end of the second quarter of 2019.

Footnote 6 Restructuring Costs

Restructuring Costs

Restructuring provisions were determined based on estimates prepared at the time the restructuring actions were approved by management and are periodically updated for changes. Restructuring amounts also include amounts recognized as incurred.

As part of acquisition of Jarden Corporation (Jarden) in 2016, the Company initiated a comprehensive strategic assessment of the business and launched a new corporate strategy that focuses the portfolio, prioritizes investment in the categories with the greatest potential for growth, and extends the Company's advantaged capabilities in insights, product design, innovation, and E-commerce to the broadened portfolio.

Table of Contents*Accelerated Transformation Plan*

The Company began restructuring and other actions in 2016 to integrate the legacy Newell Rubbermaid and Jarden businesses (the Jarden Integration). Initially, integration projects were primarily focused on driving cost synergies in procurement, overhead functions and organizational changes designed to redefine the operating model of the Company from a holding company to an operating company. Subsequently, the Company announced its Accelerated Transformation Plan during the first quarter of 2018 to divest the Company's industrial and commercial product assets and non-core consumer businesses. The Accelerated Transformation Plan continues some of the Jarden Integration projects for the continuing operations and focuses on the realignment of the Company's management structure and overall cost structure as a result of the completed and planned divestitures. Restructuring costs associated with integration projects and the transformation plan include employee-related cash costs, including severance, retirement and other termination benefits, and contract termination and other costs. In addition, other costs associated with the Jarden Integration include advisory and personnel costs for managing and implementing integration projects.

Project Renewal

The Company's Project Renewal restructuring plan was completed during 2017. Project Renewal was designed, in part, to simplify and align the Company's businesses, streamline and realign the supply chain functions, reduce operational and manufacturing complexity, streamline the distribution and transportation functions, optimize global selling and trade marketing functions and rationalize the Company's real estate portfolio.

Other Restructuring

In addition to Project Renewal and the Jarden Integration the Company has incurred restructuring costs for various other restructuring activities.

The Company has designated the 300 million principal balance of the 3.75% senior notes due October 2021 as a net investment hedge of the foreign currency exposure of its net investment in certain Euro-functional currency subsidiaries with Euro-denominated net assets. At June 30, 2018, \$10.1 million of deferred losses have been recorded in AOCI. See Footnote 12 for disclosures regarding the Company's derivative financial instruments.

Table of Contents

The fair values of the Company's senior notes are based on quoted market prices and are as follows (in millions):

	June 30, 2018		December 31, 2017	
	Fair Value	Book Value	Fair Value	Book Value
Senior notes	\$ 9,816.0	\$ 9,874.2	\$ 10,688.5	\$ 9,882.3

The carrying amounts of all other significant debt approximates fair value.

Footnote 12 Derivatives

From time to time, the Company enters into derivative transactions to hedge its exposures to interest rate, foreign currency rate and commodity price fluctuations. The Company does not enter into derivative transactions for trading purposes.

Interest Rate Contracts

The Company manages its fixed and floating rate debt mix using interest rate swaps. The Company may use fixed and floating rate swaps to alter its exposure to the impact of changing interest rates on its consolidated results of operations and future cash outflows for interest. Floating rate swaps would be used, depending on market conditions, to convert the fixed rates of long-term debt into short-term variable rates. Fixed rate swaps would be used to reduce the Company's risk of the possibility of increased interest costs. Interest rate swap contracts are therefore used by the Company to separate interest rate risk management from the debt funding decision. The cash paid and received from the settlement of interest rate swaps is included in interest expense.

Fair Value Hedges

At June 30, 2018, the Company had approximately \$527 million notional amount of interest rate swaps that exchange a fixed rate of interest for variable rate (LIBOR) of interest plus a weighted average spread. These floating rate swaps are designated as fair value hedges against \$277 million of principal on the 4.7% senior notes due 2020 and \$250 million of principal on the 4.0% senior notes due 2024 for the remaining life of these notes. The effective portion of the fair value gains or losses on these swaps is offset by fair value adjustments in the underlying debt.

Cross-Currency Contracts

The Company uses cross-currency swaps to hedge foreign currency risk on certain intercompany financing arrangements with foreign subsidiaries. During 2018, all the Company's cross-currency interest rate swaps matured. The cross-currency interest rate swaps were intended to eliminate uncertainty in cash flows in U.S. Dollars and British Pounds in connection with the intercompany financing arrangements.

Foreign Currency Contracts

The Company uses forward foreign currency contracts to mitigate the foreign currency exchange rate exposure on the cash flows related to forecasted inventory purchases and sales and have maturity dates through March 2019. The derivatives used to hedge these forecasted transactions that meet the criteria for hedge accounting are accounted for as cash flow hedges. The effective portion of the gains or losses on these derivatives is deferred as a component of AOCI and is recognized in earnings at the same time that the hedged item affects earnings and is included in the same caption in the statements of operations as the underlying hedged item. At June 30, 2018, the Company had

approximately \$291 million notional amount outstanding of forward foreign currency contracts that are designated as cash flow hedges of forecasted inventory purchases and sales.

The Company also uses foreign currency contracts, primarily forward foreign currency contracts, to mitigate the foreign currency exposure of certain other foreign currency transactions. At June 30, 2018, the Company had approximately \$845 million notional amount outstanding of these foreign currency contracts that are not designated as effective hedges for accounting purposes and have maturity dates through February 2019. Fair market value gains or losses are included in the results of operations and are classified in other (income) expense, net.

(a) Represents effective portion recognized in OCI.

The amount of ineffectiveness related to cash flow hedges during the three and six months ended June 30, 2018 and 2017 was not material. At June 30, 2018, deferred net gains of approximately \$5.0 million within AOCI are expected to be reclassified to earnings over the next twelve months.

During the three and six months ended June 30, 2018, the Company recognized income (expense) of \$6.5 million and (\$3.1) million, respectively, in other (income) expense, net, related to derivatives that are not designated as hedging instruments. During the three and six months ended June 30, 2017, the Company recognized expense of \$11.0 million and \$32.6 million, respectively, in other (income) expense, net, related to derivatives that are not designated as hedging instruments. Gains and losses on these derivatives are mostly offset by foreign currency movement in the underlying exposure.

Footnote 14 Income Taxes

The Company's income tax expense and resulting effective tax rate are based upon the respective estimated annual effective tax rates applicable for the respective periods adjusted for the effects of items required to be treated as discrete to the period, including changes in tax laws, changes in estimated exposures for uncertain tax positions and other items.

The Company's reported tax rate for the six months ended June 30, 2018 was a benefit of 20.4%. The Company's reported tax rate for the six months ended June 30, 2017 an expense of 5.3%. The difference from the statutory tax rate to the reported tax rate for the six months ended June 30, 2018 is primarily due to one-time benefits related to recognition of deferred taxes on our operations in France that were previously determined to be unrealizable and the effect of foreign tax credits. The difference from the statutory tax rate to the reported tax rate for the six months ended June 30, 2017 is primarily due to the sale of the Tools business and a \$35.2 million reduction in the valuation allowance related to certain deferred tax assets of its international operations.

On December 22, 2017, the Tax Cuts and Jobs Act (Tax Reform) was enacted which significantly changed U.S. tax law by lowering the federal corporate tax rate from 35.0% to 21.0%, modifying the foreign earnings deferral provisions, and imposing a one-time toll charge on deemed repatriated earnings of foreign subsidiaries as of December 31, 2017. For 2018, the Company considered in its estimated annual effective tax rate additional provisions of Tax Reform including changes to the deduction for executive compensation and interest expense, a tax on global intangible low-taxed income provisions (GILTI), the base erosion anti-abuse tax (BEAT), and a deduction for foreign-derived intangible income (FDII). The Company has elected to treat tax on GILTI income as a period cost and has therefore included it in its annual estimated effective tax rate.

The Company is continuing to apply the guidance in Staff Accounting Bulletin No. 118 (SAB 118) and as of June 30, 2018, the Company has not completed its accounting for all the tax effects enacted under Tax Reform. The Company made reasonable estimates of those effects during 2018 and 2017. The Company will continue to refine its estimates as additional guidance and information becomes available.

Table of Contents**Footnote 15 Earnings Per Share**

The computations of the weighted average shares outstanding for the periods indicated are as follows (in millions):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2018	2017	2018	2017
Weighted-average shares outstanding	485.8	483.3	485.6	483.0
Share-based payment awards classified as participating securities (1)	0.4	1.0	0.5	1.2
Basic weighted-average shares outstanding	486.2	484.3	486.1	484.2
Dilutive securities (2)		1.6		1.6
Diluted weighted-average shares outstanding	486.2	485.9	486.1	485.8

(1) For the three months ended June 30, 2018 and 2017 dividends and equivalents for share-based awards that are expected to be forfeited do not have a material effect on net income for basic and diluted earnings per share.

(2) The three and six months ended June 30, 2018 excludes 0.8 million and 0.9 million potentially dilutive share-based awards as their effect would be anti-dilutive.

As of June 30, 2018, there were 1.7 million potentially dilutive restricted share awards with performance-based vesting targets that were not met and as such, have been excluded from the computation of diluted earnings per share.

At June 30, 2018, there were approximately 2.5 million shares of the Company's common stock that had not been issued to the former holders of Jarden shares who are exercising their right to judicial appraisal under Delaware law. Absent consent by the Company, these dissenting shareholders are no longer entitled to the merger consideration, but are instead entitled only to the judicially determined fair value of their shares, plus interest accruing from the date of the acquisition of Jarden, payable in cash (see Footnote 19).

Footnote 16 Stockholders Equity and Share-Based Awards

During the six months ended June 30, 2018, the Company awarded 1.1 million performance-based restricted stock units (RSUs), which had an aggregate grant date fair value of \$35.1 million and entitle the recipients to shares of the Company's common stock primarily at the end of a three-year vesting period. The actual number of shares that will ultimately vest is dependent on the level of achievement of the specified performance conditions.

During the six months ended June 30, 2018, the Company also awarded 1.5 million time-based RSUs with an aggregate grant date fair value of \$41.8 million, of which, 0.1 million time-based RSUs with a grant date fair value of \$3.3 million were awarded to employees within businesses classified as discontinued operations. These time-based RSUs entitle recipients to shares of the Company's common stock and primarily vest in equal installments over a three-year period.

On June 11, 2018, the Company announced that its Board of Directors authorized a \$2.5 billion increase in the then available amount under its existing Stock Repurchase Program (SRP). Under the updated SRP, the Company is

authorized to repurchase up to approximately \$3.6 billion of its outstanding shares through the end of 2019. The repurchase of additional shares in the future will depend upon many factors, including the Company's financial condition, liquidity and legal requirements. During the six months ended June 30, 2018, the Company did not repurchase any shares of its common stock under the SRP.

Table of Contents**Footnote 17 Fair Value Disclosures****Recurring Fair Value Measurements**

The following table presents the Company's non-pension financial assets and liabilities which are measured at fair value on a recurring basis (in millions):

	June 30, 2018				December 31, 2017			
	Fair Value Asset (Liability)				Fair Value Asset (Liability)			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Derivatives:								
Assets	\$	\$ 17.9	\$	\$ 17.9	\$	\$ 14.9	\$	\$ 14.9
Liabilities		(29.9)		(29.9)		(56.7)		(56.7)
Investment securities, including mutual funds	5.2	5.1		10.3	5.2	3.5		8.7

For publicly-traded mutual funds, fair value is determined on the basis of quoted market prices and, accordingly, such investments have been classified as Level 1. Other investment securities are primarily comprised of money market accounts that are classified as Level 2. The Company determines the fair value of its derivative instruments using standard pricing models and market-based assumptions for all significant inputs, such as yield curves and quoted spot and forward exchange rates. Accordingly, the Company's derivative instruments are classified as Level 2.

Nonrecurring Fair Value Measurements

The Company's nonfinancial assets that are measured at fair value on a nonrecurring basis include property, plant and equipment, goodwill, intangible assets and certain other assets. In the absence of a definitive sales price for these and similar types of assets, the Company generally uses projected cash flows, discounted as necessary, or market multiples to estimate the fair values of the impaired assets using key inputs such as management's projections of cash flows on a held-and-used basis (if applicable), management's projections of cash flows upon disposition and discount rates. Key inputs into the market multiple approach include identifying companies comparable to the Company's business and estimated control premiums. Accordingly, these fair value measurements fall in Level 3 of the fair value hierarchy. These assets and certain liabilities are measured at fair value on a nonrecurring basis as part of the Company's impairment assessments and as circumstances require.

Financial Instruments

The Company's financial instruments include cash and cash equivalents, accounts receivable, accounts payable, derivative instruments, notes payable and short and long-term debt. The carrying values for current financial assets and liabilities, including cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximate fair value due to the short maturity of such instruments. The fair values of the Company's debt and derivative instruments are disclosed in Footnote 11 and Footnote 12, respectively.

Footnote 18 Segment Information

In order to align reporting with the company's Accelerated Transformation Plan, effective June 30, 2018 the Company is reporting its financial results in four segments as Food and Appliances, Home and Outdoor Living, Learning and Development and Other.

This new structure reflects the manner in which the chief operating decision maker regularly assesses information for decision-making purposes, including the allocation of resources. All prior periods have been reclassified to conform to the current reporting structure.

Table of Contents

The Company's three primary operating segments are as follows:

Segment	Key Brands	Description of Primary Products
Food and Appliances	Ball®, Calphalon®, Crock-Pot®, FoodSaver®, Mr. Coffee®, Oster®, Rubbermaid®, Sistema® and Sunbeam®	Household products, including kitchen appliances, gourmet cookware, bakeware and cutlery, food storage and home storage products and fresh preserving products
Home and Outdoor Living	Chesapeake Bay Candle®, Coleman®, Contigo®, Ex Officio®, First Alert®, Marmot®, WoodWick® and Yankee Candle®	Products for outdoor and outdoor-related activities, home fragrance products and connected home and security
Learning and Development	Aprica®, Baby Jogger®, Dymo®, Elmer®, Expo®, Graco®, Mr. Sketch®, NUK®, Paper Mate®, Parker®, Prismacolor®, Sharpie®, Tigex® Waterman® and X-Acto®	Writing instruments, including markers and highlighters, pens and pencils; art products; activity-based adhesive and cutting products; labeling solutions; baby gear and infant care; and health products

(1) All intercompany transactions have been eliminated.

(2) Operating income (loss) by segment is net sales less cost of products sold, SG&A and impairment of goodwill, intangibles and other assets for continuing operations. Certain headquarters expenses of an operational nature are allocated to business segments primarily on a net sales basis. Corporate depreciation and amortization is allocated to the segments on a percentage of sales basis, and the allocated depreciation and amortization are included in segment operating income.

Footnote 19 Litigation and Contingencies

The Company is involved in legal proceedings in the ordinary course of its business. These proceedings include claims for damages arising out of use of the Company's products, allegations of infringement of intellectual property, commercial disputes and employment matters, as well as environmental matters. Some of the legal proceedings include claims for punitive as well as compensatory damages, and certain proceedings may purport to be class actions.

Table of Contents*Legal Matters*

The Company and certain of its executive officers have been named as defendants in two putative securities class action lawsuits, each filed in the United States District Court for the District of New Jersey, on behalf of all persons who purchased or otherwise acquired our common stock between February 6, 2017 and January 24, 2018. The first lawsuit was filed on June 21, 2018 and is captioned *Bucks County Employees Retirement Fund, Individually and on behalf of All Others Similarly Situated v. Newell Brands Inc., Michael B. Polk, Ralph J. Nicoletti, and James L. Cunningham, III*, Civil Action No. 2:18-cv-10878. The second lawsuit was filed on June 27, 2018 and is captioned *Matthew Barnett, Individually and on Behalf of All Others Similarly Situated v. Newell Brands Inc., Michael B. Polk, Ralph J. Nicoletti, and James L. Cunningham, III*, Civil Action No. 2:18-cv-11132. The complaints allege certain violations of the securities laws, including, among other things, that the defendants made certain materially false and misleading statements and omissions regarding the Company's business, operations, and prospects between February 6, 2017 and January 24, 2018. The plaintiffs seek compensatory damages and attorneys' fees and costs, among other relief, but have not specified the amount of damages being sought.

Recall of Harness Buckles on Select Car Seats

In February 2014, Graco, a subsidiary of the Company, announced a voluntary recall in the U.S. of harness buckles used on approximately 4 million toddler car seats manufactured between 2006 and 2013. In July 2014, Graco announced that it had agreed to expand the recall to include certain infant car seats manufactured between July 2010 and May 2013. In December 2014, the National Highway Traffic Safety Administration (the "NHTSA") announced an investigation into the timeliness of the recall, and in March 2015, the investigation concluded with Graco entering into a consent order with NHTSA pursuant to which Graco committed to spend \$7.0 million in total over a five-year period to enhance child passenger safety and make a \$3.0 million payment to NHTSA. At June 30, 2018, the amount remaining to be paid associated with the consent order was immaterial to the consolidated financial statements of the Company.

Jarden Acquisition

Under the Delaware General Corporation Law ("DGCL"), any Jarden stockholder who did not vote in favor of adoption of the Merger Agreement, and otherwise complies with the provisions of Section 262 of the DGCL, is entitled to seek an appraisal of his or her shares of Jarden common stock by the Court of Chancery of the State of Delaware as provided under Section 262 of the DGCL. As of June 30, 2018, dissenting stockholders collectively holding approximately 2.9 million shares of Jarden common stock have delivered (and not withdrawn) to Jarden written demands for appraisal. Two separate appraisal petitions, styled as *Dunham Monthly Distribution Fund v. Jarden Corporation*, Case No. 12454-VCS (Court of Chancery of the State of Delaware) and *Merion Capital LP v. Jarden Corporation*, Case No. 12456-VCS (Court of Chancery of the State of Delaware), respectively, were filed on June 14, 2016 by a total of ten purported Jarden stockholders seeking an appraisal of the fair value of their shares of Jarden common stock pursuant to Section 262 of the DGCL. A third appraisal petition *Fir Tree Value Master Fund, LP v. Jarden Corporation*, Case No. 12546-VCS (Court of Chancery of the State of Delaware) was filed on July 8, 2016 by two purported Jarden stockholders seeking an appraisal of the fair value of their shares of Jarden common stock pursuant to Section 262 of the DGCL. A fourth appraisal petition *Veritian Partners Master Fund LTP v. Jarden Corporation*, Case No. 12650-VCS (Court of Chancery of the State of Delaware) was filed on August 12, 2016 by two purported Jarden stockholders seeking an appraisal of the fair value of their shares of Jarden common stock pursuant to Section 262 of the DGCL. On or about October 3, 2016, the foregoing petitions were consolidated for joint prosecution under Case No. 12456-VCS, and except as provided below, the litigation is ongoing. The holders of a total of approximately 10.6 million former Jarden shares were represented in these actions initially.

On July 5, 2017 and July 6, 2017, Jarden and eleven of the dissenting stockholders, specifically including Merion Capital ERISA LP, Merion Capital LP, Merion Capital II LP, Dunham Monthly Distribution Fund, WCM Alternatives: Event-Driven Fund, Westchester Merger Arbitrage Strategy sleeve of the JNL Multi-Manager Alternative Fund, JNL/Westchester Capital Event Driven Fund, WCM Master Trust, The Merger Fund, The Merger Fund VL and SCA JP Morgan Westchester (collectively, the Settling Petitioners), entered into settlement agreements with respect to approximately 7.7 million former Jarden shares (collectively, the Settlement Agreements). Pursuant to the Settlement Agreements in exchange for withdrawing their respective demands for appraisal of their shares of Jarden common stock and a full and final release of all claims, among other things, the Settling Petitioners received the original merger consideration provided for under the Merger Agreement, specifically (1) 0.862 of a share of Newell common stock, and (2) \$21.00 in cash, per share of Jarden common stock (collectively, the Merger Consideration), excluding any and all other benefits, including, without limitation, the right to accrued interest, dividends, and/or distributions. Accordingly, pursuant to the terms of the Settlement Agreements, Newell issued 6.6 million shares of Newell common stock to the Settling Petitioners (representing the stock component of the Merger Consideration), and authorized payment to the Settling Petitioners of approximately \$162 million (representing the cash component of the Merger Consideration). The Court of Chancery of the State of Delaware has dismissed with prejudice the appraisal claims for the Settling Petitioners. Following the settlements, claims from the holders of approximately 2.9 million former Jarden shares remain outstanding in the proceedings. The value of the merger consideration attributable to such shares based on the Company's stock price on the closing date of the Jarden acquisition would have been approximately \$171 million in the aggregate. The fair value of the shares of Jarden common stock held by these dissenting stockholders, as determined by the court, would be payable in cash and could be lower or higher than the merger consideration to which such Jarden stockholders would have been entitled under the Merger Agreement. The evidentiary trial was held from June 26 through June 29, 2018. Post-trial briefing is expected to be completed in the fourth quarter of 2018.

Table of Contents*Environmental Matters*

The Company is involved in various matters concerning federal and state environmental laws and regulations, including matters in which the Company has been identified by the U.S. Environmental Protection Agency (U.S. EPA) and certain state environmental agencies as a potentially responsible party (PRP) at contaminated sites under the Federal Comprehensive Environmental Response, Compensation and Liability Act (the CERCLA) and equivalent state laws. In assessing its environmental response costs, the Company has considered several factors, including the extent of the Company s volumetric contribution at each site relative to that of other PRPs; the kind of waste; the terms of existing cost sharing and other applicable agreements; the financial ability of other PRPs to share in the payment of requisite costs; the Company s prior experience with similar sites; environmental studies and cost estimates available to the Company; the effects of inflation on cost estimates; and the extent to which the Company s, and other parties , status as PRPs is disputed.

The Company s estimate of environmental remediation costs associated with these matters as of June 30, 2018, was \$41.9 million, which is included in other accrued liabilities and other noncurrent liabilities in the consolidated balance sheets. No insurance recovery was taken into account in determining the Company s cost estimates or reserves, nor do the Company s cost estimates or reserves reflect any discounting for present value purposes, except with respect to certain long-term operations and maintenance CERCLA matters.

Lower Passaic River Matter

U.S. EPA has issued General Notice Letters (GNLs) to over 100 entities, including the Company and Berol Corporation, a subsidiary of the Company (Berol), alleging that they are PRPs at the Diamond Alkali Superfund Site, which includes a 17-mile stretch of the Lower Passaic River and its tributaries. Seventy-two of the GNL recipients, including the Company on behalf of itself and its subsidiaries, Goody Products, Inc. and Berol (the Company Parties), have taken over the performance of the remedial investigation (RI) and feasibility study (FS) for the Lower Passaic River. On April 11, 2014, while work on the RI/FS remained underway, U.S. EPA issued a Source Control Early Action Focused Feasibility Study (FFS), which proposed four alternatives for remediation of the lower 8.3 miles of the Lower Passaic River. U.S. EPA s cost estimates for its cleanup alternatives ranged from approximately \$315 million to approximately \$3.2 billion in capital costs plus from \$0.5 million to \$1.8 million in annual maintenance costs for 30 years, with its preferred alternative carrying an estimated cost of approximately \$1.7 billion plus an additional \$1.6 million in annual maintenance costs for 30 years. In February 2015, the participating parties submitted to the U.S. EPA a draft RI, followed by submission of a draft FS in April 2015. The draft FS sets forth various alternatives for remediating the lower 17 miles of the Passaic River, ranging from a no action alternative, to targeted remediation of locations along the entire lower 17 mile stretch of the river, to remedial actions consistent with U.S. EPA s preferred alternative as set forth in the FFS for the lower 8.3 miles coupled with monitored natural recovery and targeted remediation in the upper 9 miles. The cost estimates for these alternatives range from approximately \$28.0 million to \$2.7 billion, including related operation, maintenance and monitoring costs. The participating parties have been discussing the draft RI and FS reports with U.S. EPA and are preparing revised reports.

U.S. EPA issued its final Record of Decision for the lower 8.3 miles of the Lower Passaic River (the ROD) in March 2016, which, in the language of the document, finalizes as the selected remedy the preferred alternative set forth in the FFS, which U.S. EPA estimates will cost \$1.4 billion. Subsequent to the release of the ROD in March 2016, U.S. EPA issued GNLs for the lower 8.3 miles of the Lower Passaic River (the 2016 GNL) to numerous entities, apparently including all previous recipients of the initial GNL as well as several additional entities. As with the initial GNL, the Company and Berol were among the recipients of the 2016 GNL. The 2016 GNL states that U.S. EPA would like to determine whether one entity, Occidental Chemical Corporation (OCC), will voluntarily perform the remedial design for the selected remedy for the lower 8.3 miles, and that following execution of an agreement for the remedial design,

U.S. EPA plans to begin negotiation of a remedial action consent decree under which OCC and the other major PRPs will implement and/or pay for U.S. EPA's selected remedy for the lower 8.3 miles of the Lower Passaic River and reimburse U.S. EPA's costs incurred for the Lower Passaic River. The letter encourage[s] the major PRPs to meet and discuss a workable approach to sharing responsibility for implementation and funding of the remedy without indicating who may be the major PRPs. Finally, U.S. EPA states that it believes that some of the parties that have been identified as PRPs under CERCLA, and some parties not yet named as PRPs, may be eligible for a cash out settlement with U.S. EPA for the lower 8.3 miles of the Lower Passaic River.

In September 2016, OCC and EPA entered into an Administrative Order on Consent for performance of the remedial design. On March 30, 2017, U.S. EPA sent a letter offering a cash settlement in the amount of \$0.3 million to twenty PRPs, not including the Company Parties, for CERCLA Liability (with reservations, such as for Natural Resource Damages) in the lower 8.3 miles of the Lower Passaic River. U.S. EPA further indicated in related correspondence that a cash out settlement might be appropriate for additional parties that are not associated with the release of dioxins, furans, or PCBs to the Lower Passaic River. Then, by letter dated September 18, 2017, U.S. EPA announced an allocation process involving all GNL recipients except those participating in the first-round cash-out settlement, and five public entities. The letter affirms that U.S. EPA anticipates eventually offering cash-out settlements to a number of parties, and that it expects that the private PRPs responsible for release of dioxin, furans, and/or PCBs will perform the OU2 [lower 8.3 mile] remedial action. At this time, it is unclear how the cost of any cleanup would be allocated among any of the parties, including the Company Parties or any other entities. The site is also subject to a Natural Resource Damage Assessment.

OCC has asserted that it is entitled to indemnification by Maxus Energy Corporation (Maxus) for its liability in connection with the Diamond Alkali Superfund Site. OCC has also asserted that Maxus's parent company, YPF, S.A., and certain other affiliates (the YPF Entities) similarly must indemnify OCC, including on an alter ego theory. On June 17, 2016, Maxus and certain of its affiliates commenced a chapter 11 bankruptcy case in the U.S. Bankruptcy Court for the District of Delaware. In connection with that proceeding, the YPF Entities are attempting to resolve any liability they may have to Maxus and the other Maxus entities undergoing the chapter 11 bankruptcy. An amended Chapter 11 plan of liquidation became effective in July 2017. In conjunction with that plan, Maxus and certain other parties, including the Company, entered into a mutual contribution release agreement (Passaic Release) pertaining to certain costs, but not costs associated with ultimate remedy.

On June 30, 2018, OCC sued 120 parties, including the Company and Berol, in the U.S. District Court in New Jersey (OCC Lawsuit). OCC subsequently filed a separate, related complaint against 5 additional defendants. The OCC Lawsuit includes claims for cost recovery, contribution, and declaratory judgement under CERCLA. The current, primary focus of the claims is on certain past and future costs for investigation, design and remediation of the lower 8.3 miles of the Passaic River, other than those subject to the Passaic Release. The complaint notes, however, that OCC may broaden its claims in the future if and when EPA selects remedial actions for other portions of the Site or completes a Natural Resource Damage Assessment. Given the uncertainties pertaining to this matter, including that U.S. EPA is still reviewing the draft RI and FS, that no framework for or agreement on allocation for the investigation and ultimate remediation has been developed, and that there exists the potential for further litigation regarding costs and cost sharing, the extent to which the Company Parties may be held liable or responsible is not yet known.

Based on currently known facts and circumstances, the Company does not believe that this matter is reasonably likely to have a material impact on the Company's results of operations, including, among other factors, because there are numerous other parties who will likely share in any costs of remediation and/or damages. However, in the event of one or more adverse determinations related to this matter, it is possible that the ultimate liability resulting from this matter and the impact on the Company's results of operations could be material.

Because of the uncertainties associated with environmental investigations and response activities, the possibility that the Company could be identified as a PRP at sites identified in the future that require the incurrence of environmental response costs and the possibility that sites acquired in business combinations may require environmental response costs, actual costs to be incurred by the Company may vary from the Company's estimates.

Other Matters

Although management of the Company cannot predict the ultimate outcome of these proceedings with certainty, it believes that the ultimate resolution of the Company's proceedings, including any amounts it may be required to pay in excess of amounts reserved, will not have a material effect on the Company's Consolidated Financial Statements, except as otherwise described above.

In the normal course of business and as part of its acquisition and divestiture strategy, the Company may provide certain representations and indemnifications related to legal, environmental, product liability, tax or other types of issues. Based on the nature of these representations and indemnifications, it is not possible to predict the maximum potential payments under all of these agreements due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. Historically, payments made by the Company under these agreements did not have a material effect on the Company's business, financial condition or results of operations.

As of June 30, 2018, the Company had approximately \$74 million in standby letters of credit primarily related to the Company's self-insurance programs, including workers' compensation, product liability and medical expenses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of Newell Brands Inc.'s (Newell Brands, the Company, we, us or our) consolidated financial condition and results of operations. The discussion should be read in conjunction with the accompanying condensed consolidated financial statements and notes thereto.

Business Overview

Newell Brands is a leading global consumer goods company with a strong portfolio of well-known brands, including Paper Mate®, Sharpie®, Dymo®, EXPO®, Parker®, Elmer's®, Coleman®, Marmot®, Oster®, Sunbeam®, FoodSaver®, Mr. Coffee®, Graco®, Baby Jogger®, NUK®, Calphalon®, Rubbermaid®, Contigo®, First Alert® and Yankee Candle®. For hundreds of millions of consumers, Newell Brands makes life better every day, where they live, learn, work and play.

Business Strategy

In 2018, Newell Brands announced its Accelerated Transformation Plan, which aims to accelerate value creation and more rapidly transform the portfolio to one best positioned to leverage the company's advantaged capabilities in innovation, design and e-commerce. The Accelerated Transformation Plan is designed to significantly increase shareholder value through both meaningful returns of capital to shareholders and strengthened operational and financial performance, while simultaneously deleveraging the balance sheet.

As part of Accelerated Transformation Plan, Newell Brands will restructure into a global consumer products company with leading brands in seven core consumer divisions (Appliances & Cookware, Writing, Outdoor & Recreation, Baby, Food, Home Fragrance and Connected Home & Security). The Company is also exploring divestitures of industrial and commercial product assets, including Process Solutions, Rubbermaid Commercial Products and Mapa, as well as non-core consumer businesses, including Pure Fishing, Jostens, Goody, Rubbermaid Outdoor, Closet, Refuse and Garage, and U.S. Playing Cards. Execution of these strategic options would significantly reduce operational complexity and focus the Company's remaining portfolio on leading brands in global consumer-facing categories that can leverage Newell Brands' advantaged capabilities in innovation, design and e-commerce. During the second quarter of 2018 the Company sold Rawlings and Waddington as part of the Accelerated Transformation Plan. The Company expects to complete its portfolio transformation by the end of 2019. These businesses are classified as discontinued operations at June 30, 2018. Prior periods have been reclassified to conform with the current presentation.

The Company expects to incur costs and expenses in connection with the transformation of the portfolio of businesses as part of the Accelerated Transformation Plan.

Organizational Structure

In order to align reporting with the company's Accelerated Transformation Plan, effective January 1, 2018, the Company is reporting its financial results in four segments as Food and Appliances, Home and Outdoor Living, Learning and Development and Other.

This new structure reflects the manner in which the chief operating decision maker regularly assesses information for decision-making purposes, including the allocation of resources. All prior periods have been reclassified to conform to the current reporting structure.

The Company's three primary operating segments are as follows:

Segment	Key Brands	Description of Primary Products
Food and Appliances	Ball [®] , Calphalon [®] , Crock-Pot [®] , FoodSaver [®] , Mr. Coffee [®] , Oster [®] , Rubbermaid [®] , Sistema [®] and Sunbeam [®]	Household products, including kitchen appliances, gourmet cookware, bakeware and cutlery, food storage and home storage products and fresh preserving products
Home and Outdoor Living	Chesapeake Bay Candle [®] , Coleman [®] , Contigo [®] , Ex Officio [®] , First Alert [®] , Marmot [®] , WoodWick [®] and Yankee Candle [®]	Products for outdoor and outdoor-related activities, home fragrance products and connected home and security
Learning and Development	Aprica [®] , Baby Jogger [®] , Dymo [®] , Elmer [®] , Expo [®] , Graco [®] , Mr. Sketch [®] , NUK [®] , Paper Mate [®] , Parker [®] , Prismacolor [®] , Sharpie [®] , Tigex [®] Waterman [®] and X-Acto [®]	Writing instruments, including markers and highlighters, pens and pencils; art products; activity-based adhesive and cutting products; labeling solutions; baby gear and infant care; and health products

Summary of Significant 2018 Activities

On June 11, 2018, the Company announced that its Board of Directors authorized an increase in the then available amount under its existing Stock Repurchase Program (SRP). Under the updated SRP, the Company is authorized to repurchase up to approximately \$3.6 billion of its outstanding shares through the end of 2019 (see Capital Resources).

During 2018, the Company completed the sale of its Team Sports business, including the Rawlings brand and its Waddington business.

Acquisitions

2017 Activity

In September 2017, the Company acquired Chesapeake Bay Candle, a leading developer, manufacturer and marketer of premium candles and other home fragrance products, focused on consumer wellness and natural fragrance, for a cash purchase price of approximately \$75 million. Chesapeake Bay Candle is included in the Home and Outdoor Living segment from the date of acquisition.

In January 2017, the Company acquired Smith Mountain Industries (Smith Mountain), a leading provider of premium home fragrance products, sold primarily under the WoodWick® Candle brand, for a cash purchase price of approximately \$100 million. Smith Mountain is included in the Food and Appliances segment from the date of acquisition.

In April, 2017, the Company acquired Sistema Plastics, a leading New Zealand based manufacturer and marketer of innovative food storage containers with strong market shares and presence in Australia, New Zealand, U.K. and parts of continental Europe for a cash purchase price of approximately \$472 million. Sistema is included in the Home and Outdoor Living segment from the date of acquisition.

Divestitures

On June 29, 2018, the Company sold Rawlings, its Team Sports business, to a fund managed by Seidler Equity Partners with a co-investment of Major League Baseball for approximately \$395 million, subject to customary working capital and transaction adjustments. As a result, during the three and six months ended June 30, 2018, the Company recorded a pretax loss of \$136 million, which is included in the income (loss) from discontinued operations.

On June 29, 2018, the Company sold Waddington to Novolex Holdings LLC for approximately \$2.3 billion, subject to customary adjustments for working capital and other items. As a result, during the three and six months ended June 30, 2018, the Company recorded a pretax gain of approximately \$598 million, which is included in the income (loss) from discontinued operations.

On July 14, 2017, the Company sold its Winter Sports business for a selling price of approximately \$240 million, subject to working capital adjustments. During the three and six months ended June 30, 2017, the Company recorded an impairment charge of \$59.1 million related to the write-down of the carrying value of the net assets of the Winter Sports business based on the expected proceeds to be received. For the three and six months ended June 30, 2017 net sales from the Winter Sports business were not material.

During 2017, the Company sold its Rubbermaid® consumer storage totes business, its stroller business under the Teutonia® brand, its Lehigh business, its firebuilding business and its triathlon apparel business under the Zoot® and Squadra® brands. The selling prices for these businesses were not material. During the three and six months ended June 30, 2017, the Company recorded impairment charges of \$14.9 million related to the write down of the carrying value of the net assets of the firebuilding and Teutonia® stroller businesses, which included goodwill and certain fixed assets, to their estimated fair market value. Martin E. Franklin and Ian G.H. Ashken are affiliates of Royal Oak, the purchaser of the firebuilding assets, and were company directors at the time of the transaction.

On March 9, 2017, the Company sold its Tools business, including the Irwin®, Lenox® and Hilmor® brands. The selling price was \$1.95 billion, subject to customary working capital adjustments. The net assets of the Tools business were approximately \$1.1 billion, resulting in a pretax gain of \$784 million, which is included in other (income) expense, net for the six months ended June 30, 2017.

Held for Sale

As businesses under the Accelerated Transformation Plan met held for sale criteria, the Company tested the recoverability of goodwill and indefinite-lived intangible assets for these businesses ahead of the Company's annual impairment testing date. Fair values used for testing the assets of these businesses are subject to many factors, including but not limited to, the number of interested buyers, buyer's strategic fit and synergies and nature of the sales transaction.

During the second quarter, the Company recorded a \$454 million goodwill impairment (in discontinued operations) related to its Process Solutions business as the carrying value exceeded the estimated fair value less cost to sell. While there were no other impairment charges for the other held for sale businesses, the Company may incur future impairment charges based on changes in the estimated sales price as the factors surrounding the sale of each business becomes more defined, changes in the disposal groups, or changes in the carrying values of any of these businesses.

Table of Contents

During the second quarter, the Company also performed impairment testing of the indefinite-lived intangibles associated with the businesses held for sale. Fair value of these assets, primarily related to the Jarden acquisition, was determined using the same method which was used at time of acquisition. While there were no impairment charges recorded for indefinite-lived intangibles, changes in forecasted operations, business conditions and other assumptions could affect the estimated fair values. The estimated fair values for certain trade names within the Gaming (U.S. Playing Cards) business and Process Solutions business exceed their carrying values by less than a 10%. The trade names within Gaming business have carrying values of approximately \$81 million and fair values exceed the carrying values by approximately 5%, while the tradenames within the Process Solutions business have carrying values of approximately \$56 million that approximate their fair values.

Since a tradename within the Food division was included in the Process Solutions disposal group, the remaining tradenames of the Food division were tested for impairment. The tradenames within the Food division have a carrying value of approximately \$184 million, which approximate their fair values.

Ongoing Restructuring Initiatives

Accelerated Transformation Plan

The Company began restructuring and other actions in 2016 to integrate the legacy Newell Rubbermaid and Jarden businesses (the Jarden Integration). Initially, integration projects were primarily focused on driving cost synergies in procurement, overhead functions and organizational changes designed to redefine the operating model of the Company from a holding company to an operating company. Subsequently, the Company announced its Accelerated Transformation Plan during the first quarter of 2018 to divest of the Company's industrial and commercial product assets and non-core consumer businesses. The Accelerated Transformation Plan continues some of the Jarden Integration projects for the continuing operations and focuses on the realignment of the Company's management structure and overall cost structure as a result of the completed and planned divestitures. Restructuring costs associated with integration projects and the transformation plan include employee-related cash costs, including severance, retirement and other termination benefits, and contract termination and other costs. In addition, other costs associated with the Jarden Integration include advisory and personnel costs for managing and implementing integration projects.

Project Renewal

The Company's Project Renewal restructuring plan was completed during 2017. Project Renewal was designed, in part, to simplify and align the Company's businesses, streamline and realign the supply chain functions, reduce operational and manufacturing complexity, streamline the distribution and transportation functions, optimize global selling and trade marketing functions and rationalize the Company's real estate portfolio.

See Footnote 6 of the Notes to Condensed Consolidated Financial Statements for further information.

Impacts of Tariffs

The current U.S. presidential administration has implemented new U.S. tariffs that could impact the level of trade between the U.S and Canada, China, and the European Union in addition to global commerce in general. U.S. trading partners such as Canada, China and the European Union have responded by announcing retaliatory tariffs on some U.S. exports. Tariffs on imports into the U.S. and exports to Canada, China and the European Union will increase costs for the Company in 2018. At this time, the tariff percentages are not final and the Company cannot determine the exact impacts these tariffs will have on the Company's consolidated financial statements. However, the impact could

be significant in a given reporting period.

NMF Not meaningful

The decrease in net sales for the three months ended June 30, 2018 was primarily due to the divestitures of the Tools, Lehigh, firebuilding and Winter Sports businesses (the Divestitures) (approximately 1%) completed in 2017, and a decline in sales across all segments of approximately 12% and the impact of the adoption of new revenue recognition standards.

Table of Contents

The decrease in cost of products sold for the three months ended June 30, 2018 was primarily driven by the impact of the Divestitures (approximately \$30 million) and lower sales (approximately \$205 million). Reported gross margin was 35.2% versus 34.7% in the prior year period. The change was primarily due to the benefit from synergies and cost savings, partially offset by the negative mix effect of lower sales and the impact of cost of goods and freight inflation.

The decrease in SG&A for the three months ended June 30, 2018 was primarily due the impact of the Divestitures (approximately \$23 million) and a decrease in integration cost (approximately \$31 million), as well as the benefits of synergies and cost savings.

The restructuring costs for the three months ended June 30, 2018 and 2017 were mostly comprised of costs related to the Accelerated Transformation Plan, primarily consisting of severance costs.

During the three and six months ended June 30, 2018, the Company recorded \$31.6 million of impairment charges on certain other assets, the majority of which relate to the Home Fragrance business in the Home and Outdoor Living segment.

Consolidated operating income as a percentage of net sales for the three months ended June 30, 2018 and 2017 was approximately 3.8% and 3.7%, respectively. The change is primarily due to positive pricing, synergies and cost savings and lower integration and acquisition-related costs and lower impairment charges, partially offset by increased restructuring costs and the negative impact of lower sales.

The increase in interest expense for the three months ended June 30, 2018 was primarily due to an increase in the weighted average interest rate. The weighted average interest rate for the three months ended June 30, 2018 and 2017 was approximately 4.2% and 3.9%, respectively.

See Footnote 14 of the Notes to Condensed Consolidated Financial Statements for information regarding income taxes.

Three Months Ended June 30, 2018 versus the Three Months Ended June 30, 2017

Food and Appliances

The decrease in net sales for the three months ended June 30, 2018 was primarily due to weakness certain categories, primarily in appliances and food storage categories, softness in the fresh preserving business due to unfavorable spring weather conditions, competitive challenges in the U.S. Beverage Appliance category, the timing of sales in Latin America and the impact of the adoption of new revenue recognition standards, partially offset by innovation driven growth on Calphalon Space Saving Cookware and Crock-Pot Express Crock.

Operating income as a percentage of net sales for the three months ended June 30, 2018 and 2017 was approximately 6.5% and 10.0%. The decrease was primarily driven by the negative impact of lower sales and cost of goods and freight inflation.

Home and Outdoor Living

The decrease in net sales for the three months ended June 30, 2018 was primarily driven softness in the Outdoor & Recreation business related to lost distribution in certain categories, softness in tents and cooler sales due to unfavorable spring weather conditions, continuing declines in the Home Fragrance retail channel and the impact of the adoption of new revenue recognition standards, partially offset by growth in the Connected Home & Security business and Home Fragrance in the U.S. wholesale channel.

Operating income as a percentage of net sales for the three months ended June 30, 2018 and 2017 was approximately 1.3% and 5.0%, respectively. The decrease was primarily driven by an increase in restructuring cost and impairment charges, partially offset by improved gross margins, in part due to positive pricing, partially offset by cost of goods and freight inflation.

Table of Contents**Learning and Development**

The decrease in net sales for the three months ended June 30, 2018 was primarily due to weakness in the Elmer's business due to the prior year Slime pipeline build and a decline in the Writing business related to significant inventory destocking in the Writing category's office superstore and distributive trade channels; weakness in the baby gear category attributable to the bankruptcy filing and subsequent liquidation of a top global customer of the Baby division; and the impact of the adoption of new revenue recognition standards.

Operating income as a percentage of net sales for the three months ended June 30, 2018 and 2017 was approximately 23.3% and 22.7%, respectively. The increase was primarily driven by a decrease in SG&A, positive sales mix and synergy and productivity savings.

Other

The decrease in net sales for the three months ended June 30, 2018 was due to the Divestitures.

The change in operating income (loss) for the three months ended June 30, 2018 and 2017 was primarily due to impairment charges and other costs incurred during the three months ended June 30, 2017, related to the Divestitures and assets held for sale.

The decrease in net sales for the six months ended June 30, 2018 was primarily due to the Divestitures (approximately 5%), a decline in sales across all segments of approximately 9% (inclusive of favorable foreign currency of approximately 1%) and the impact of the adoption of new revenue recognition standards, partially offset by the impact of acquisitions (approximately 1%).

The decrease in cost of products sold for the six months ended June 30, 2018 was primarily driven by the impact of the Divestitures (approximately \$175 million) and lower sales (approximately \$320 million) partially offset by unfavorable foreign currency (approximately \$ 40 million) and the impact of acquisitions (approximately \$42 million). Reported gross margin was 34.4% versus 34.3% as the negative mix effect of lower sales and the impact of cost of goods and freight inflation were more than offset by the benefit from synergies and cost savings.

The decrease in SG&A for the six months ended June 30, 2018 was primarily due the impact of the Divestitures (approximately \$78 million), a decrease in integration cost (approximately \$44 million), as well as the benefits of synergies and cost savings.

The restructuring costs for the six months ended June 30, 2018 and 2017 were mostly comprised of costs related to the Jarden Integration.

Consolidated operating income as a percentage of net sales for the six months ended June 30, 2018 and 2017 was approximately 1.4% and 2.3%, respectively. The change is primarily due to the negative impact of lower sales, partially offset by lower SG&A and impairment charges, as well as the benefits of synergies and cost savings.

Interest expense was flat on a period-over-period basis. The weighted average interest rate for the six months ended June 30, 2018 and 2017 was approximately 4.2% and 4.0%, respectively.

The decrease in net sales for the six months ended June 30, 2018 was primarily due to weakness across all categories, primarily the appliance and food storage categories, in part due to unfavorable spring weather conditions and the impact of the adoption of new revenue recognition standards, partially offset by improved sales in other categories.

Operating income as a percentage of net sales for the six months ended June 30, 2018 and 2017 was approximately 4.7% and 8.3%. The decrease was primarily driven by the negative impact of lower sales and cost of goods and freight inflation.

Home and Outdoor Living

The decrease in net sales for the six months ended June 30, 2018 was primarily driven by decline in the Outdoor & Recreation and Home Fragrance businesses, primarily due to lost distribution in the certain product categories and continuing declines in the retail channel, unfavorable spring weather conditions affecting the Coleman business; and the impact of the adoption of new revenue recognition standard, partially offset by improved sales in Connected Home & Security.

Operating income as a percentage of net sales for the six months ended June 30, 2018 and 2017 was approximately 1.2% and 4.8%, respectively. The decrease was primarily driven by an increase in restructuring costs and impairment charges, partially offset by improved gross margins.

Learning and Development

The decrease in net sales for the six months ended June 30, 2018 was primarily due to a decline in the Writing business related to significant inventory contraction in the U.S. office superstore and distributive trade channels, the absence of the Elmer's Slime pipeline build from the prior year; expected sales declines in the baby gear category

attributable to the bankruptcy and liquidation of a top global customer of the Baby division and the impact of the adoption of new revenue recognition standards.

Operating income as a percentage of net sales for the six months ended June 30, 2018 and 2017 was approximately 18.1% and 19.8%, respectively. The decrease was primarily driven by the impact of lower sales volume and negative sales mix, partially offset by a decrease in SG&A and synergy and productivity savings.

Other

The decrease in net sales for the six months ended June 30, 2018 was due to impact of the Divestitures.

The change in operating income (loss) for the six months ended June 30, 2018 and 2017 was primarily due to impairment charges and other costs incurred during the six months ended June 30, 2017, related to the Divestitures and assets held for sale.

Table of Contents**Liquidity and Capital Resources*****Liquidity***

At June 30, 2018, the Company had cash and cash equivalents of \$2.3 billion, of which approximately \$410 million was held by the Company's non-U.S. subsidiaries. Overall, the Company believes that available cash and cash equivalents, cash flows generated from future operations, access to capital markets, and availability under its revolving credit facility and receivables purchase agreement will be adequate to support the cash needs of the Company. The Company intends to use available cash, borrowing capacity, cash flows from future operations and alternative financing arrangements to invest in capital expenditures in support of the Company's growth platforms, to maintain its dividend per share and to repay debt maturities as they come due and to complete its ongoing restructuring initiatives.

Cash and cash equivalents increased as follows for the six months ended June 30, 2018 and 2017 (in millions):

	2018	2017	Increase (Decrease)
<u>Continuing Operations</u>			
Cash used in operating activities	\$ (478.8)	\$ (266.4)	\$ (212.4)
Cash provided by investing activities	(121.3)	1,221.4	(1,342.7)
Cash used in financing activities	(262.4)	(796.7)	534.3
<u>Discontinued Operations</u>			
Cash provided by operating activities	88.3	59.6	28.7
Cash provided by (used in) investing activities	2,581.7	(63.1)	2,644.8
Cash used in financing activities	(0.5)	(1.0)	0.5
<u>Total Company</u>			
Cash used in operating activities	\$ (390.5)	\$ (206.8)	\$ (183.7)
Cash provided by investing activities	2,460.4	1,158.3	1,302.1
Cash used in financing activities	(262.9)	(797.7)	534.8
Currency effect on cash and cash equivalents	(13.3)	38.9	(52.2)
Increase in cash and cash equivalents	\$ 1,793.7	\$ 192.7	\$ 1,601.0

The Company tends to generate the majority of its operating cash flow in the third and fourth quarters of the year due to seasonal variations in operating results, the timing of annual performance-based compensation payments, customer program payments, working capital requirements and credit terms provided to customers.

Cash Flows from Operating Activities

The change in net cash used in operating activities from continuing operations for the six months ended June 30, 2018 is in part due to an increase in cash taxes paid (approximately \$135 million) related to the gain on the sale of the Tools business, unfavorable working capital primarily related to accounts payable (approximately \$391 million) and

working capital benefits in 2017 related to the divested businesses, partially offset by a lower investment in inventory and lower bonus and incentive payments.

Cash Flows from Investing Activities

The change in cash provided by investing activities from continuing operations was primarily due to a \$1.9 billion decrease in the proceeds from the sale of businesses and a decrease in cash used for the acquisition of businesses (approximately \$558 million). For the six months ended June 30, 2018, capital expenditures from continuing operations were \$117 million versus \$129 million for the same prior year period.

Cash Flows from Financing Activities

The change in net cash used in financing activities from continuing operations was primarily due to the decrease in the payments on long-term debt (approximately \$1.2 billion), partially offset by the period-over-period decrease in borrowings on short-term debt (approximately \$638 million).

CAPITAL RESOURCES

The Company maintains a \$1.25 billion revolving credit facility that matures in January 2022 (the Facility). Under the Facility, the Company may borrow funds on a variety of interest rate terms. Since the Facility provides the committed backup liquidity required to issue commercial paper, the Company may issue commercial paper up to a maximum of \$800 million provided there is a sufficient amount available for borrowing under the Facility. The Facility also provides for the issuance of up to \$100 million of letters of credit, so long as there is a sufficient amount available for borrowing under the Facility. At June 30, 2018, there was approximately \$285 million of commercial paper outstanding, approximately \$32.6 million of outstanding standby letters of credit and there were no borrowings outstanding under the Facility. The net availability under the Facility was approximately \$932 million.

The Company maintains a \$950 million receivables purchase agreement that matures in October 2019 (the Securitization Facility) and bears interest at a margin over a variable interest rate. At June 30, 2018, the borrowing rate margin and the unused line fee on the Securitization Facility were 0.80% and 0.40% per annum, respectively. At June 30, 2018, net availability under the Facility was approximately \$833 million.

The Company was not in default of any of its debt covenants at June 30, 2018.

At June 30, 2018, there were approximately 2.5 million shares of the Company's common stock that had not been issued and \$61 million in cash that had not been paid to the former holders of Jarden shares who are exercising their right to judicial appraisal under Delaware law. Absent consent by the Company, these dissenting shareholders are no longer entitled to the merger consideration, but are instead entitled only to the judicially determined fair value of their shares, plus interest accruing from the date of the Jarden Acquisition, payable in cash. However, it is possible that the Company could issue a consent to or reach agreement with one or more of these shareholders resulting in the issuance of Company shares (in lieu of or along with the payment of cash) in settlement of the dissenters' claims. At June 30, 2018, the Company has accrued approximately \$171 million of unpaid consideration related to these former shares of Jarden common stock.

Table of Contents

On June 11, 2018, the Company announced that its Board of Directors authorized a \$2.5 billion increase in the then available amount under its existing Stock Repurchase Program (SRP). Under the updated SRP, the Company is authorized to repurchase up to approximately \$3.6 billion of its outstanding shares through the end of 2019. The repurchase of additional shares in the future will depend upon many factors, including the Company's financial condition, liquidity and legal requirements. At June 30, 2018, approximately \$3.6 billion remains available under the SRP.

Risk Management

From time to time, the Company enters into derivative transactions to hedge its exposures to interest rate, foreign currency rate and commodity price fluctuations. The Company does not enter into derivative transactions for trading purposes.

Interest Rate Contracts

The Company manages its fixed and floating rate debt mix using interest rate swaps. The Company may use fixed and floating rate swaps to alter its exposure to the impact of changing interest rates on its consolidated results of operations and future cash outflows for interest. Floating rate swaps would be used, depending on market conditions, to convert the fixed rates of long-term debt into short-term variable rates. Fixed rate swaps would be used to reduce the Company's risk of the possibility of increased interest costs. Interest rate swap contracts are therefore used by the Company to separate interest rate risk management from the debt funding decision. The cash paid and received from the settlement of interest rate swaps is included in interest expense.

Fair Value Hedges

At June 30, 2018, the Company had approximately \$527 million notional amount of interest rate swaps that exchange a fixed rate of interest for variable rate (LIBOR) of interest plus a weighted average spread. These floating rate swaps are designated as fair value hedges against \$277 million of principal on the 4.7% senior notes due 2020 and \$250 million of principal on the 4.0% senior notes due 2024 for the remaining life of these notes. The effective portion of the fair value gains or losses on these swaps is offset by fair value adjustments in the underlying debt.

Cross-Currency Contracts

The Company uses cross-currency swaps to hedge foreign currency risk on certain intercompany financing arrangements with foreign subsidiaries. During 2018, all of the Company's cross-currency interest rate swaps matured. The cross-currency interest rate swaps were intended to eliminate uncertainty in cash flows in U.S. Dollars and British Pounds in connection with the intercompany financing arrangements.

Foreign Currency Contracts

The Company uses forward foreign currency contracts to mitigate the foreign currency exchange rate exposure on the cash flows related to forecasted inventory purchases and sales and have maturity dates through March 2019. The derivatives used to hedge these forecasted transactions that meet the criteria for hedge accounting are accounted for as cash flow hedges. The effective portion of the gains or losses on these derivatives is deferred as a component of AOCI and is recognized in earnings at the same time that the hedged item affects earnings and is included in the same caption in the statements of operations as the underlying hedged item. At June 30, 2018, the Company had approximately \$291 million notional amount outstanding of forward foreign currency contracts that are designated as cash flow hedges of forecasted inventory purchases and sales.

The Company also uses foreign currency contracts, primarily forward foreign currency contracts, to mitigate the foreign currency exposure of certain other foreign currency transactions. At June 30, 2018, the Company had approximately \$845 million notional amount outstanding of these foreign currency contracts that are not designated as effective hedges for accounting purposes and have maturity dates through February 2019. Fair market value gains or losses are included in the results of operations and are classified in other (income) expense, net.

Forward-Looking Statements**Forward-Looking Statements**

Forward-looking statements in this Quarterly Report on Form 10-Q (this Quarterly Report) are made in reliance upon the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements generally can be identified by the use of words such as intend, anticipate, believe, estimate, project, target, plan, expect, would or similar statements. The Company cautions that forward-looking statements are not guarantees because there are inherent difficulties in predicting future results. In addition, there are no assurances that the Company will complete any or all of the potential transactions, or other initiatives referenced here. Actual results may differ materially from those expressed or implied in the forward-looking statements. Important factors that could cause actual results to differ materially from those suggested by the forward-looking statements include, but are not limited to:

the Company's dependence on the strength of retail, commercial and industrial sectors of the economy in various parts of the world;

competition with other manufacturers and distributors of consumer products;

major retailers' strong bargaining power and consolidation of the Company's customers;

the Company's ability to improve productivity, reduce complexity and streamline operations;

the Company's ability to develop innovative new products, to develop, maintain and strengthen end-user brands and to realize the benefits of increased advertising and promotion spend;

risks related to the Company's substantial indebtedness, potential increases in interest rates or changes in the Company's credit ratings;

the Company's ability to effectively accelerate its transformation plan and explore and execute its strategic options;

the Company's ability to complete planned acquisitions and divestitures, to integrate Jarden and other acquisitions and unexpected costs or expenses associated with acquisitions or dispositions;

changes in the prices of raw materials and sourced products and the Company's ability to obtain raw materials and sourced products in a timely manner;

the risks inherent to the Company's foreign operations, including currency fluctuations, exchange controls and pricing restrictions;

a failure of one of the Company's key information technology systems or related controls;

future events that could adversely affect the value of the Company's assets and require impairment charges;

the impact of United States or foreign regulations on the Company's operations, including the impact of tariffs and environmental remediation costs;

the potential inability to attract, retain and motivate key employees;

the resolution of tax contingencies resulting in additional tax liabilities;

product liability, product recalls or related regulatory actions;

the Company's ability to protect its intellectual property rights;

significant increases in the funding obligations related to the Company's pension plans; and

other factors listed from time to time in the Company's filings with the SEC including, but not limited to, the Company's most recent Annual Report on Form 10-K.

The information contained in this Quarterly Report is as of the date indicated. The Company assumes no obligation to update any forward-looking statements contained in this Quarterly Report as a result of new information or future events or developments. In addition, there can be no assurance that the Company has correctly identified and assessed all of the factors affecting the Company or that the publicly available and other information the Company receives with respect to these factors is complete or correct.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes from the information previously reported under Part II, Item 7A. in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of its disclosure controls and procedures as of the end of the period covered by this Quarterly Report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of the end of the period covered by this Quarterly Report.

As required by Rule 13a-15(d) under the Exchange Act, the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the Company's internal control over financial reporting to determine whether any changes occurred during the quarter covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there have been no such changes during the quarter covered by this Quarterly Report.
