1. NATURE OF OPERATIONS

The Company and Nature of Business

Pacific Ventures Group, Inc. (the “Company,” “we,” “us” or “our”) was incorporated under the laws of the state of Delaware on October 3, 1986, under the name AOA Corporation. On November 12, 1991, the Company changed its name to American Eagle Group, Inc. On October 22, 2012, the Company changed its name to “Pacific Ventures Group, Inc.”.

The current structure of the Company resulted from a share exchange with Snöbar Holdings, Inc. (“Snöbar Holdings”), which was treated as a reverse merger for accounting purposes. On August 14, 2015, the Company entered into a share exchange agreement (the “Share Exchange Agreement”) with Snöbar Holdings, pursuant to which the Company acquired 100% of the issued and outstanding shares of Snöbar Holdings’ Class A and Class B common stock in exchange for 22,500,000 restricted shares of the Company’s common stock, while simultaneously issuing 2,500,000 restricted shares of the Company’s common stock to certain other persons, including for services provided and to a former officer of the Company (the “Share Exchange”).

As the result of the Share Exchange, Snöbar Holdings became the Company’s wholly owned operating subsidiary and the business of Snöbar Holdings became the Company’s sole business operations and MAS Global Distributors, Inc., a California corporation (“MGD”), became an indirect subsidiary of the Company.

Prior to the Share Exchange, the Company operated as an insurance holding company and through its subsidiaries, which marketed and underwrote specialized property and casualty coverage in the general aviation insurance marketplace. However, in 1997, after selling several of its divisions, the Company’s remaining insurance operations were placed into receivership and the Company ceased operating its insurance business.

Since the Share Exchange represents a change in control of the Company and a change in business operations, the business operations changed to that of Snöbar Holdings and the discussions of business operations accompanying this

filing are solely that of Snöbar Holdings and its affiliates and subsidiaries comprising of Snöbar Trust, International Production Impex Corporation, a California corporation (“IPIC”), and MGD.

Snöbar Holdings was formed under the laws of the State of Delaware on January 7, 2013. Snöbar Holdings is the trustor and sole beneficiary of Snöbar Trust, a California trust (“Trust”), which was formed in June 1, 2013. The current trustee that holds legal title to the Trust is Azita Davidiyan. The Trust owns 100% of the shares of IPIC, which was formed on August 2, 2001. IPIC is in the business of selling alcohol-infused ice cream and ice-pops, and holds all of the rights to the liquor licenses to sell such products and trade names “Snöbar”. As such, the Trust holds all ownership interest of IPIC and its liquor licenses, permitting IPIC to sell its product to distributors, with all income, expense, gains and losses rolling up to the Trust, of which Snöbar Holdings is the sole beneficiary. Snöbar Holdings also owns 99.9% of the shares of MGD. MGD is in the business of selling and leasing freezers and providing marketing services. As a result of the foregoing, Snöbar Holdings is the primary beneficiary of all assets, liabilities and any income received from the business of the Trust and IPIC through the Trust and is the parent company of MGD.

The Trust and IPIC are considered variable interest entities (“VIEs”) and Snöbar Holdings is identified as the primary beneficiary of the Trust and IPIC. Under the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 810, Snöbar Holdings performs ongoing reassessments of whether it is the primary beneficiary of a VIE. As the assessment of Snöbar Holdings’ management is that Snöbar Holdings has the power to direct the activities of a VIE that most significantly impact the VIE’s activities (it is responsible for establishing and operating IPIC), and the obligation to absorb losses of the VIE that could potentially be significant to the VIE and the right to receive benefits from the VIE that could potentially be significant to the VIE’s economic performance, it was therefore concluded by management that Snöbar Holdings is the primary beneficiary of the Trust and IPIC. As such, the Trust and IPIC were consolidated in the financial statements of Snöbar Holdings since the inception of the Trust, in the case of the Trust, and since the inception of Snöbar Holdings, in the case of IPIC.

Pacific Ventures Group, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(Unaudited)

Principles of Consolidation

The consolidated financial statements include the accounts of the Company, Snöbar Holdings and its subsidiaries, in which Snöbar Holdings has a controlling voting interest and entities consolidated under the variable interest entities (“VIE”) provisions of ASC 810, “Consolidation” (“ASC 810”). Inter-company balances and transactions have been eliminated upon consolidation.

The Company applies the provisions of ASC 810 which provides a framework for identifying VIEs and determining when a company should include the assets, liabilities, non-controlling interests and results of activities of a VIE in its consolidated financial statements.

In general, a VIE is a corporation, partnership, limited-liability corporation, trust, or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that is unable to make significant decisions about its activities, (3) has a group of equity owners that does not have the obligation to absorb losses or the right to receive returns generated by its operations or (4) the voting rights of some investors are not proportional to their obligations to absorb the expected losses of the entity, their rights to receive the expected residual returns of the entity, or both and substantially all of the entity’s activities (for example, providing financing or buying assets) either involve or are conducted on behalf of an investor that has disproportionately fewer voting rights.

ASC 810 requires a VIE to be consolidated by the party with an ownership, contractual or other financial interest in the VIE (a variable interest holder) that has both of the following characteristics: a) the power to direct the activities of a VIE that most significantly impact the VIE’s economic performance and b) the obligation to absorb losses of the VIE that could potentially be significant to the VIE, or the right to receive benefits from the VIE that could potentially be significant to the VIE.

A variable interest holder that consolidates the VIE is called the primary beneficiary. If the primary beneficiary of a variable interest entity (VIE) and the VIE are under common control, the primary beneficiary shall initially measure the assets, liabilities, and non-controlling interests of the VIE at amounts at which they are carried in the accounts of

the reporting entity that controls the VIE (or would be carried if the reporting entity issued financial statements prepared in conformity with generally accepted accounting principles). ASC 810 also requires disclosures about VIEs in which the variable interest holder is not required to consolidate but in which it has a significant variable interest.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the Company, Snöbar Holdings, MGD, IPIC, and the Trust, which was established to hold IPIC, which in turn holds liquor licenses. All inter-company accounts have been eliminated during consolidation. See the discussion in Note 1 above for variable interest entity treatment of the Trust and IPIC.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Sales revenues are generally recognized in accordance with the SAB 104 Public Company Guidance, when an agreement exists and price is determinable, the products are shipped to the customers or services are rendered, net of discounts, returns and allowance and collectability is reasonably assured. We are often entitled to bill our customers and receive payment from our customers in advance of recognizing the revenue. In the instances in which we have received payment from our customers in advance of recognizing revenue, we include the amounts in deferred or unearned revenue on our consolidated balance sheet.

Pacific Ventures Group, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(Unaudited)

Unearned Revenue

Certain amounts are received pursuant to agreements or contracts and may only be used in the conduct of specified transactions or the related services are yet to be performed. These amounts are recorded as unearned or deferred revenue and are recognized as revenue in the year/period the related expenses are incurred or services are performed. As of June 30, 2018, the Company has \$0 in deferred revenues. As of December 31, 2017, the Company also had \$0 deferred revenue.

Shipping and Handling Costs

The Company's shipping costs are all recorded as operating expenses for all periods presented.

Disputed Liabilities

The Company is involved in a variety of disputes, claims, and proceedings concerning its business operations and certain liabilities. We determine whether an estimated loss from a contingency should be accrued by assessing whether a loss is deemed probable and can be reasonably estimated. We assess our potential liability by analyzing our litigation and regulatory matters using available information. We develop our views on estimated losses in consultation with outside counsel handling our defense in these matters, which involves an analysis of potential results, assuming a combination of litigation and settlement strategies. Should developments in any of these matters cause a change in our determination as to an unfavorable outcome and result in the need to recognize a material accrual, or should any of these matters result in a final adverse judgment or be settled for significant amounts, they could have a material adverse effect on our results of operations, cash flows and financial position in the period or periods in which such change in determination, judgment or settlement occurs. As of June 30, 2018, the Company has \$31,858 in disputed liabilities on its balance sheet.

In addition, on January 28, 2016, a labor dispute between IPIC and a former employee was ruled in favor of the former employee by the Labor Commissioner of the State of California. This finding resulted in compensation expenses of \$29,103 and an accrued liability of the same amount on IPIC book for the six months ended June 30, 2018.

Cash Equivalents

The Company considers highly liquid instruments with original maturity of six months or less to be cash equivalents. As of June 30, 2018, the Company has a cash balance of \$146,583 in cash and cash equivalents, compared to \$69 at December 31, 2017.

Accounts Receivable

As of June 30, 2018 the Company had \$220,263 in Accounts Receivable. Accounts receivable are stated at net realizable value. This value includes an appropriate allowance for estimated uncollectible accounts. The allowance is calculated based upon the level of past due accounts and the relationship with and financial status of our customers. The Company did not write off any bad debts during the six months ended June 30, 2018 and 2017, and thus has not set an allowance for doubtful accounts.

Inventories

Inventories are stated at the lower of cost or market value. Cost has been determined using the first-in, first-out method. Inventory quantities on-hand are regularly reviewed, and where necessary, reserves for excess and unusable inventories are recorded. Inventory consists of finished goods and includes ice cream, popsicles and the related packaging materials. As of June 30, 2018, the Company has \$65,896 in inventories.

Pacific Ventures Group, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(Unaudited)

Income Taxes

Deferred taxes are provided on an asset and liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss carry forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the difference between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Net Income/(Loss) Per Common Share

Income/(loss) per share of common stock is calculated by dividing the net income/(loss) by the weighted average number of shares of common stock outstanding during the period. The Company has no potentially dilutive securities. Accordingly, basic and dilutive income/(loss) per common share are the same.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and includes expenditures that substantially increase the useful lives of existing property and equipment. Maintenance, repairs, and minor renovations are expensed as incurred. Upon sale or retirement of property and equipment, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss is included in the results of operations. The Company provides for depreciation of property and equipment using the straight-line method over the estimated useful lives or the term of the lease, as appropriate. The estimated useful lives are as follows: vehicles, five years; office furniture and equipment, three to fifteen years; equipment, three years.

Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments, which include cash, accounts receivable, accounts payable, and accrued expenses are representative of their fair values due to the short-term maturity of these instruments. The Company performed an independent valuation of San Diego Farmers Outlet (SDFO), in which it was determined that \$950,000 of goodwill could be realized by the Company.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of cash and accounts receivable. The Company maintains cash balances at financial institutions within the United States which are insured by the Federal Deposit Insurance Corporation ("FDIC") up to limits of approximately \$250,000. The Company has not experienced any losses with regard to its bank accounts and believes it is not exposed to any risk of loss on its cash bank accounts.

Critical Accounting Policies

The Company considers revenue recognition and the valuation of accounts receivable, allowance for doubtful accounts, and inventory and reserves as its significant accounting policies. Some of these policies require management to make estimates and assumptions that may affect the reported amounts in the Company's financial statements.

Recent Accounting Pronouncements

In June 2009, the FASB established the Accounting Standards Codification ("Codification" or "ASC") as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles in the United States ("GAAP"). Rules and interpretive releases of the Securities and Exchange Commission (the "SEC") issued under authority of federal securities laws are also sources of GAAP for SEC registrants. Existing GAAP was not intended to be changed as a result of the Codification, and accordingly the change did not impact our financial statements. The ASC does change the way the guidance is organized and presented.

Pacific Ventures Group, Inc.

Notes to Unaudited Condensed Consolidated Financial Statements

(Unaudited)

In April 2015, FASB issued Accounting Standards Update (“ASU”) No. 2015-03, “Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs”, to simplify presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The ASU does not affect the recognition and measurement guidance for debt issuance costs. For public companies, the ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted.

In April 2015, FASB issued ASU No. 2015-04, “Compensation – Retirement Benefits (Topic 715): Practical Expedient for the Measurement Date of an Employer’s Defined Benefit Obligation and Plan Assets”, which permits the entity to measure defined benefit plan assets and obligations using the month-end that is closest to the entity’s fiscal year-end and apply that practical expedient consistently from year to year. The ASU is effective for public business entities for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted.

In April 2015, FASB issued ASU No. 2015-05, “Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement”, which provides guidance to customers about whether a cloud computing arrangement includes a software license. If such includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If the arrangement does not include a software license, the customer should account for it as a service contract. For public business entities, the ASU is effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. Early application is permitted. We are currently reviewing the provisions of this ASU to determine if there will be any impact on our results of operations, cash flows or financial condition.

In April 2015, FASB issued ASU No. 2015-06, “Earnings Per Share (Topic 260): Effects on Historical Earnings per Unit of Master Limited Partnership Dropdown Transactions”, which specifies that, for purposes of calculating historical earnings per unit under the two-class method, the earnings (losses) of a transferred business before the date of a drop down transaction should be allocated entirely to the general partner. In that circumstance, the previously reported earnings per unit of the limited partners (which is typically the earnings per unit measure presented in the financial statements) would not change as a result of the dropdown transaction. Qualitative disclosures about how the rights to the earnings (losses) differ before and after the dropdown transaction occurs for purposes of computing earnings per unit under the two-class method also are required. The ASU is effective for fiscal years beginning after

December 15, 2015, and interim periods within those fiscal years. Earlier application is permitted.

In June 2014, FASB issued ASU No. 2014-10, "Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation". The update removes all incremental financial reporting requirements from GAAP for development stage entities, including the removal of Topic 915 from the FASB Accounting Standards Codification. In addition, the update adds an example disclosure in Risks and Uncertainties (Topic 275) to illustrate one way that an entity that has not begun planned principal operations could provide information about the risks and uncertainties related to the company's current activities. Furthermore, the update removes an exception provided to development stage entities in Consolidations (Topic 810) for determining whether an entity is a variable interest entity-which may change the consolidation analysis, consolidation decision, and disclosure requirements for a company that has an interest in a company in the development stage. The update is effective for the annual reporting periods beginning after December 15, 2014, including interim periods therein. Early application is permitted with the first annual reporting period or interim period for which the entity's financial statements have not yet been issued (Public business entities) or made available for issuance (other entities). Our company adopted this pronouncement.

In June 2014, FASB issued ASU No. 2014-12, “Compensation – Stock Compensation (Topic 718); Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period”. The amendments in this ASU apply to all reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target that affects vesting could be achieved after the requisite service period. The amendments require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A reporting entity should apply existing guidance in Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. For all entities, the amendments in this ASU are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted. Entities may apply the amendments in this ASU either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this Update as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. Additionally, if retrospective transition is adopted, an entity may use hindsight in measuring and recognizing the compensation cost. This updated guidance is not expected to have a material impact on our results of operations, cash flows or financial condition.

In August 2014, the FASB issued ASU 2014-15 on “Presentation of Financial Statements Going Concern (Subtopic 205-40) – Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern”. Currently, there is no guidance in GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern or to provide related footnote disclosures. The amendments in this Update provide that guidance. In doing so, the amendments are intended to reduce diversity in the timing and content of footnote disclosures. The amendments require management to assess an entity’s ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management’s plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management’s plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued).

All other newly issued accounting pronouncements which are not yet effective have been deemed either immaterial or not applicable.

We reviewed all other recently issued accounting pronouncements and determined these have no current applicability to the Company or their effect on the financial statements would not have been significant.

3. GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying consolidated financial statements, the Company has incurred a net loss of \$738,584 for the six months ended June 30, 2018, and has an accumulated deficit of \$6,713,491 as of June 30, 2018.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is significantly dependent upon its ability, and will continue to attempt, to secure equity and/or additional debt financing. There are no assurances that the Company will be successful and without sufficient financing it would be unlikely for the Company to continue as a going concern.

The unaudited consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. These conditions raise substantial doubt about the Company's ability to continue as a going concern. These unaudited consolidated financial statements do not include any adjustments that might arise from this uncertainty.

Pacific Ventures Group, Inc.**Notes to Unaudited Condensed Consolidated Financial Statements****(Unaudited)****4. INVENTORIES**

As of June 30, 2018, the Company has \$65,896 in inventories. Inventories are stated at the lower of cost or market value. Cost has been determined using the first-in, first-out method. Inventory quantities on-hand are regularly reviewed, and where necessary, reserves for excess and unusable inventories are recorded. Inventory consists of finished goods and includes ice cream, popsicles and the related packaging materials.

The following description represent unrelated notes payable transactions pre-reverse merger between Snöbar and the Company that were assumed by the Company as a condition to the Share Exchange Agreement:

In February, 2012, MGD entered into an unsecured promissory note with a certain unrelated party, now a shareholder of the Company for a principal balance of \$30,000 at in interest rate of 8% per year and maturity date of August 1, 2014. The note's maturity date has been extended to December 31, 2020 and the interest rate under the extinguished as part of the extension. The note had an outstanding balance of \$25,000 as of June 30, 2018.

On March 14, 2013, Snöbar Holdings entered into an unsecured promissory note with a certain unrelated third party, now a shareholder of the Company. The note had a principal balance of \$86,821 with an interest rate of 5% and had a maturity date of March 14, 2014. The note's maturity date has subsequently been extended to February 1, 2020. Interest under the note was extinguished in a subsequent extension of the term. The note is current and the entire balance is owed and outstanding as of June 30, 2018.

On July 22, 2013, Snöbar Holdings entered into an unsecured promissory note with a certain unrelated third party. The note had a principal balance of \$15,000 with an original interest rate of 5%. On February 22, 2014 Snobar Holdings also entered into another note with the same party for \$10,000. Maturity dates have been extended to December 31, 2018, and interest rates has been reduced to 2%, and lender agreed to make all interest retroactive and deferred. The balance of the note was \$15,000 and \$10,000 as of June 30, 2018.

In February 2014, MGD entered into a secured promissory note with a certain unrelated third party for \$10,000. The note was secured by interests in tangible and intangible property of MGD. The Company is to make payments of \$181 each business day (Monday through Friday) until the loan is paid off. The effective interest rate on the note is 137%. The outstanding balance of the note is \$1,000 as of June 30, 2018.

On May 19, 2014, Snöbar Holdings entered into a secured convertible promissory note with a principal balance of \$500,000. The note was secured by interests in cash, accounts receivable, other receivables, inventory, supplies, other assets of Snöbar Holdings including general intangibles and rights of each liquor license owned by Snöbar Trust. The note has an interest rate of 10% and an original maturity date of December 31, 2015. The Company was to make interest only payments beginning July 1, 2014. The lender determined Snöbar Holdings to be in default and on January 29, 2015, entered into a mutually agreed loan modification. The agreement increased the principal balance of the note as of December 31, 2014 to \$527,333 and all interest due and payable was deemed to have been paid and the conversion rights of the note were removed. The modification also removed and deleted, in its entirety, all secured interests in cash, accounts receivable, other receivables, inventory, supplies, and other assets of Snöbar Holdings, including intangibles, and rights of each liquor license owned by Snöbar Trust. The maturity date was December 31, 2015 if Snöbar Holdings is not in default, the maturity date of the note should automatically be extended to December 31, 2016 ("First Extended Maturity Date"). Commencing on January 1, 2016, Snöbar Holdings was to make monthly payments of \$15,000 until the First Extended Maturity Date. Assuming Snöbar Holdings was not in default with respect to its obligations as of the First Extended Maturity Date, the note would have automatically been extended to December 31, 2017 ("Second Extended Maturity Date"). Commencing on January 1, 2017, the monthly payments increased to \$25,000 for every month until the Second Extended Maturity Date. All accrued but unpaid interest, charges and the remaining principal balance of the note was fully due and payable on the Second Extended Maturity Date. In January of 2016 the company decided to enter into renegotiation period for the repayment terms of the modification dated January 29, 2015. As a result of the renegotiation with the note holder.

10. COMMITMENTS, CONTINGENCIES AND UNCERTAINTIES

Operating Lease

The Company is currently obligated under two operating leases for office spaces and associated building expenses. Both leases are on a month-to-month basis.

San Diego Farmers Outlet has a 5 years lease at \$6,000 per month with two (5) year options to extend the lease.

11. SUBSEQUENT EVENTS

ASC 855-16-50-4 establishes accounting and disclosure requirements for subsequent events. ASC 855 details the period after the balance sheet date during which we should evaluate events or transactions that occur for potential recognition or disclosure in the financial statements, the circumstances under which we should recognize events or transactions occurring after the balance sheet date in its financial statements and the required disclosures for such events.

The Company has evaluated all subsequent events through the date these consolidated financial statements were issued, and determined the following are material to disclose.

On July 19, 2018 (the “Effective Date”), Pacific Ventures Group, Inc., a Delaware corporation (the “Corporation”), entered into a Series F Preferred Stock Recipient Agreement (“Preferred Stock Recipient Agreement”) with Ms. Shannon Masjedi (the “Series F Holder“, an officer, director and controlling shareholder of the Corporation), pursuant to which the Series F Holder was issued fifty thousand (50,000) shares out of fifty thousand (50,000) authorized shares of Series F Convertible Preferred Stock, par value \$.001 per share (the “Series F Preferred Stock”). The Series F Holder

was issued one (1) share of Series F Preferred Stock as consideration for such Series F Holder's agreement to forgive \$1.00 of the Corporation's indebtedness to the Series F Holder. The total amount of Corporation indebtedness to the Series F Holder and forgiven by the Series F Holder amounted to \$50,000, pursuant to the terms of the Preferred Stock Recipient Agreement, which agreement is incorporated by reference herein as Exhibit 10.1.

The Series F Preferred Stock has the rights, privileges, preferences and restrictions set forth in the Certificate of Designation (the "Certificate of Designation") filed by the Corporation with the Secretary of State of the State of Delaware ("Delaware Secretary of State") on July 25, 2018, as more fully described in Item 5.03 below. Each issued and outstanding share Series F Preferred Stock shall be entitled to the number of votes equal to the result of: (i) the number of shares of Common Stock of the Corporation issued and outstanding at the time of such vote multiplied by 1.01; divided by (ii) the total number of Series F Preferred Stock issued and outstanding at the time of such vote, at each meeting of shareholders of the Corporation with respect to any and all matters presented to the shareholders of the Corporation for their action or consideration, including the election of directors. Holders of Series F Preferred Stock shall vote together with the holders of Common Stock as a single class.

Each outstanding share of Series F Preferred Stock shall be convertible into the number of shares of the Corporation's common stock ("Common Stock") determined by dividing the Stated Value (\$1.00 per share) by the Conversion Price as defined below, at the option of the Holder in whole or in part, at any time commencing no earlier than six (6) months after the Issuance Date; provided that any conversion under this section must be made during the ten (10) day period immediately following the date on which the Corporation files with the Securities and Exchange Commission any periodic report on form 10-Q, 10-K or the equivalent form; provided further that, any conversion under this Section IV(a) shall be for a minimum Stated Value of \$500.00 of Series F Preferred Stock. The Conversion Price for each share of Series F Preferred Stock in effect on any Conversion Date shall be (a) eighty five percent (85%) of the average closing bid price of the Common Stock over the twenty (20) trading days immediately preceding the date of conversion, (b) but no less than Par Value of the Common Stock. For purposes of determining the closing bid price on any day, reference shall be to the closing bid price for a share of Common Stock on such date on the NASD OTC Bulletin Board, as reported on Bloomberg, L.P. (or similar organization or agency succeeding to its functions of reporting prices).

The foregoing description of the Preferred Stock Recipient Agreement is not intended to be complete and is qualified in its entirety by the complete text of the Form of a Preferred Stock Recipient Agreement.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q (this "Quarterly Report") contains forward-looking statements. The Securities and Exchange Commission (the "SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This Quarterly Report and other written and oral statements that we make from time to time contain such forward-looking statements that set out anticipated results based on management's plans and assumptions regarding future events or performance. We have tried, wherever possible, to identify such statements by using words such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will" and similar expressions in connection with any discussion of future operating or financial performance. In particular, these include statements relating to future actions, future performance or results of current and anticipated sales efforts, expenses, the outcome of contingencies, such as legal proceedings, and financial results.

We caution that the factors described herein and other factors could cause our actual results of operations and financial condition to differ materially from those expressed in any forward-looking statements we make and that investors should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time, and it is not possible for us to predict all of such factors. Further, we cannot assess the impact of each such factor on our results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

General

The Company was incorporated under the laws of the State of Delaware on October 3, 1986, under the name "AOA Corporation". On October 22, 2012, the Company changed its name to "Pacific Ventures Group, Inc.". Prior to the Share Exchange described below, the Company operated as an insurance holding company and through its subsidiaries, marketed and underwrote specialized property and casualty coverage in the general aviation insurance marketplace. However, in 1997, after selling several of its divisions, the Company's remaining insurance operations were placed into receivership and the Company ceased operating its insurance business.

The current structure of the Company resulted from a share exchange with Snöbar Holdings, Inc. (“Snöbar”), which was treated as a reverse merger for accounting purposes. On August 14, 2015, the Company entered into a share exchange agreement (the “Share Exchange Agreement”) with Snöbar Holdings, Inc. (“Snöbar Holdings”), pursuant to which the Company acquired 100% of the issued and outstanding shares of Snöbar Holdings’ Class A and Class B common stock in exchange for 22,500,000 restricted shares of the Company’s common stock, as well as issuing 2,500,000 restricted shares of the Company’s common stock to certain other persons (the “Share Exchange”). As the result of the Share Exchange, Snöbar Holdings became the Company’s wholly owned operating subsidiary and the business of Snöbar Holdings became the Company’s sole business operations. In addition, Snöbar Holdings’ majority owned subsidiary, MAS Global Distributors, Inc., a California corporation (“MGD”), became an indirect subsidiary of the Company.

Since the Share Exchange represented a change in control of the Company and a change in its business operations, the Company’s business operations changed to that of Snöbar Holdings and the discussions of the Company’s business operations contained in this Quarterly Report are solely that of Snöbar Holdings and its affiliates and subsidiaries comprising of the Snöbar Trust, IPIC and MGD.

Snöbar Holdings was formed under the laws of the State of Delaware on January 7, 2013. Snöbar Holdings is the trustor and sole beneficiary of Snöbar Trust, a California trust (the “Trust”), which was formed in June 1, 2013. The current trustee that holds legal title to the Trust is Azita Davidiyan. The Trust owns 100% of the shares of International Production Impex Corporation, a California corporation (“IPIC”), which was formed on August 2, 2001. IPIC is in the business of selling alcohol-infused ice cream and ice-pops, and holds all of the rights to the liquor licenses to sell such products and trade names “SnöBar”. Accordingly, the Trust holds all ownership interest of IPIC and its liquor licenses, permitting IPIC to sell its product to distributors, with all income, expense, gains and losses rolling up to the Trust, of which Snöbar Holdings is the sole beneficiary. Snöbar Holdings also owns 99.9% of the shares of MAS Global Distributors, Inc., a California corporation (“MGD”). MGD is in the business of selling and leasing freezers and providing marketing services. As a result of the foregoing structure, Snöbar Holdings is the primary beneficiary of all assets, liabilities and any income received from the business of the Trust and IPIC through the Trust and is the parent company of MGD.

The Trust and IPIC are considered variable interest entities (“VIEs”) and Snöbar Holdings is identified as the primary beneficiary of the Trust and IPIC. Under the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 810, Snöbar Holdings performs ongoing reassessments of whether it is the primary beneficiary of a VIE. As the assessment of Snöbar Holdings’ management is that Snöbar Holdings has the power to direct the activities of a VIE that most significantly impact the VIE’s activities (it is responsible for establishing and operating IPIC), and the obligation to absorb losses of the VIE that could potentially be significant to the VIE and the right to receive benefits from the VIE that could potentially be significant to the VIE’s economic performance, it was therefore concluded by management that Snöbar Holdings is the primary beneficiary of the Trust and IPIC. As such, the Trust and IPIC were consolidated in the financial statements of Snöbar Holdings since the inception of the Trust, in the case of the Trust, and since the inception of Snöbar Holdings, in the case of IPIC.

Description of the Business Operations of Snöbar Holdings

Snöbar Holdings is the trustor and sole beneficiary of the Trust. The Trust owns 100% of the shares of IPIC. IPIC is the owner of liquor licenses and the trade name “SnöBar” and is in the business of selling and distributing alcohol-infused ice creams and ice-pops through its distributors. Snöbar Holdings also owns 99.9% of the shares of MGD. MGD is in the business of selling and leasing freezers and providing marketing services. As a matter of law, IPIC may not be engaged in any business similar to MGD. As a result of the foregoing, Snöbar Holdings is the beneficiary of all assets, liabilities and any income received from the business of IPIC through the Trust and is the parent company of MGD.

IPIC is a food, beverage and alcohol distribution company that is in the business of selling alcohol-infused ice cream and ice-pops, and holds all of the rights to the liquor licenses to sell such products and trade names “SnöBar”. IPIC is initially marketing two products: SnöBar alcohol infused ice pops, and SnöBar alcohol infused ice cream and sorbet. SnöBar ice pops are original frozen alcohol beverage bars, similar to popsicles on a stick, but made with premium liquor such as premium tequila and vodka and are currently manufactured in three flavors, Margarita, Cosmopolitan and Mojito. The alcohol freezing technology used to produce these beverage bars can be applied to almost any alcohol type and mixture, presenting significant market potential and an almost unlimited variety of flavors and employment of premium brands. Each ice pop is the equivalent of a full cocktail.

SnöBar ice cream is an additional innovative product that the Company is marketing using proprietary formulas and technology. These products are premium ice cream and sorbets that are distilled spirit cocktails containing up to 15% quality liqueurs and liquors. Currently, there are four flavors available: Brandy Alexander; Brandy Alexander with chocolate chips; Grasshopper; and Pink Squirrel. There are also numerous different liquor ice cream flavors in development in classic ice cream drink styles such as Coffee Liqueur Ice Cream, Piña Colada Sorbet, Sherry Ice Cream, and Strawberry Margarita Sorbet. The product contains ultra premium dairy and the highest quality of ingredients.

What makes the SnöBar products unique in the Company's view is the proprietary formulation and method of manufacturing. SnöBar ice pops and SnöBar ice cream use a system to stabilize the alcohol molecule, whereby the alcohol content, quality and flavor is not degraded during the production process. The technology is also applicable to other food and beverage products such as yogurt, water ice creations and alcohol based goods. IPIC has begun the process of obtaining trade secret and other intellectual property protections as to these unique technologies. The SnöBar brand is fully trademarked within the USA and is currently seeking worldwide trademark rights.

SnöBar brand products have been through extensive consumer testing across all age groups and sexes over 21 years of age. According to the results of the consumer testing, there is a large untapped market potential for frozen alcohol desserts. Market research shows that there are very few alcohol infused ice-creams and ice pops available in the U.S. markets and the few that are out there are of lower quality ingredients and are not mass produced. IPIC holds several Federal and State granted liquor licenses. These licenses allow the SnöBar product line to be introduced and distributed in 95% of the United States. IPIC desires to be the first to mass market the SnöBar alcohol-infused products in this untapped and sizeable market segment and capitalize on these two exclusive products. IPIC only uses the finest of ingredients and dairy to produce SnöBar products and strives to achieve the highest quality of texture and taste for all of the SnöBar products. IPIC believes that the SnöBar brand has the potential to scale on a national and international level with worldwide distribution capabilities.

As of June 30, 2018, Snöbar products are currently being sold in the east coast by our distributor. The Company's management has been actively constructing an online platform that will allow Snöbar distribution on a national level. Please see "Plan of Operations" below for further detail.

Acquisition of San Diego Farmers Outlet

On May 1, 2018, Royalty Foods Partners, LLC – a Florida Limited Liability Corporation and a subsidiary of Pacific Ventures Group, Inc. – completed an asset acquisition of San Diego Farmers Outlet, Inc., a California Corporation. San Diego Farmers Outlet was started in over thirty Five years ago to provide primarily restaurants customers in southern California’s three largest counties with quality food and produce, and does business under the name of Farmers Outlet and San Diego Farmers Outlet.

The purchase price of SDFO was one million and fifty thousand \$1,050,00 and with an additional \$70,000 toward current inventory. This merger allows the Company to gain entry into the healthy foods distribution in Southern California and provide healthy-foods and local produce to restaurants in the Southern California market.

The merger was accounted for under the purchase method of accounting and was financed by a line of credit. In a business combination, the purchase price is allocated to assets acquired and liabilities assumed based on their fair values, with any excess of purchase price over fair value recognized as goodwill. In addition to recognizing the assets and liabilities on the acquired company’s balance sheet, the Company reviews supply contracts, leases, financial instruments, employment agreements and other significant agreements to identify potential assets or liabilities that require recognition in connection with the application of acquisition accounting under Accounting Standards Codification (“ASC”) 805. Intangible assets are recognized apart from goodwill when the asset arises from contractual or other legal rights, or are separable from the acquired entity such that they may be sold, transferred, licensed, rented or exchanged either on a standalone basis or in combination with a related contract, asset or liability.

Unlike some larger distributors who make their customers receive products on a day and time convenient to the distributor, Farmers Outlet deliver daily and pays attention to what the customer wants. Farmers Outlet added products to meet the needs of restaurants, Hotels, Clubs and bars, Resorts, food trucks and caterers. Free delivery was added to demonstrate that Farmers Outlet had customers interest first in mind.

Farmers Outlet provides a wide array of products to serve customers of all types. However, they do have a niche in providing fresh produce and food products. Farmers Outlet provides specialty produce that the larger distributors do not carry on a daily basis.

Farmers Outlet can cover a large market area servicing Los Angeles, Orange County and San Diego, which we have estimated to be a \$2.5 billion addressable market. Farmers Outlet currently services the San Diego territory and has over 125 active customers, and no customer represents more than five percent of Farmers Outlet gross revenues.

The company services customers in high, middle and low-income communities with a specialty in providing food and fresh produce to customers serving small to medium size restaurants of all nationalities, including Chinese, Korean, Mexican, American, Japanese and Thai.

In order to establish and maintain a competitive advantage, Farmers Outlet developed a proprietary and sophisticated dynamic inventory and accounting system that integrates with account management and accounting software.

Farmers Outlet plans to continue growing its business by:

- Increasing its share of business in their market niche by soliciting present customers and adding additional products
- Solicit new customers in the Los Angeles, Orange, and San Diego niche market and expanding territory for deliveries
- Add new product lines that appeal to current and new customers.
- Add more trucks to their current fleet
- Promote its retail operation by Marketing and advertising all their services and unique products to the general public.
- Create a company website and promote the website
- Create an online portal to receive wholesale orders from wholesale accounts
- Implementing policies and procedures throughout its operations and departments

Plan of Operations

As of the date of this Quarterly Report, Snöbar products are currently being sold in the east coast of United States by the Company's distributor. The Company's management has been actively constructing an online platform that will allow Snöbar distribution on a national level.

The company plans on increasing sales in San Diego Farmers Outlet (SDFO) on the wholesale side of the business. We plan on expanding our current delivery territory from 25 miles to a 50 mile radius. SDFO is also in the process of obtaining 2 new delivery trucks to add to the current fleet of trucks. The Company will be marketing to all restaurants in the area and let them know that SDFO can deliver the finest produce in market. The Company also plan to "wrap" its trucks and have mobile advertising all around the San Diego Area.

SDFO will be getting new signage around the retail market and The Company is in the process of adding additional landscaping to enhance the appearance of the market.

Management believes that the Company's general and administrative costs should be cash flow positive and be able to sustain itself for the next six months.

The Company will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy the Company's working capital and other cash requirements.

Results of Operations

Six Months ended June 30, 2018, as Compared to Six Months Ended June 30, 2017

Revenues The Company accrued \$690,135 in Sales, net of discounts for the six months ended June 30, 2018 as compared to \$0 for the same period of June 30, 2017.

Operating Expenses Total operating expenses for the six months ended June 30, 2018 were \$691,933 as compared to \$249,466 in the same period in, 2017, due to increased operating activities during the period ended June 30, 2018, and an increase in general and administrative expenses, marketing and advertising and professional fees.

Selling, General and Administrative Expenses Selling, general and administrative expenses for the six months ended June 30, 2018 increased to \$370,071 from \$205,725 in the same period in 2017, which was due to an increase in marketing and business development expenses and professional fees.

Marketing and Advertising Expenses – Marketing and advertising expenses for the six months ended June 30, 2018 was \$54,895 which includes marketing and business development expenses.

Professional fees – Professional fees expenses for the six months ended June 30, 2018 was \$265,369, which includes accounting, legal fees and consulting services.

Depreciation Expense Depreciation expense for the six months ended June 30, 2018 and 2017 was \$5,094 and \$1,997, respectively.

Salaries and Wages Salaries and wages expense for the six months ended June 30, 2018 was \$0, as compared to \$6,437 for the prior same period. The decrease was due to cost cutting measures implemented previously that froze compensation accrual for senior management. This action was primarily responsible for the reduction compensation of staff during the period under review.

Net Loss Net loss for six months ended June 30, 2018 was \$738,584, as compared to net loss of \$244,014 for the six months ended June 30, 2017, which was primarily due to increase in operating expenses, marketing and business development expenses and professional fees.

Financial Condition, Liquidity and Capital Resources

As of June 30, 2018, the Company had a working capital deficit of \$1,352,343, consisting of \$146,583 in cash and cash equivalents, accounts receivable of 220,263, accounts payable \$477,612, accrued expenses of \$385,801, \$840,536 in the current portion of notes payable, and \$88,896 in the current portion of leases payable.

For the six months period ended June 30, 2018, the Company used \$782,622 of cash in operating activities, obtained cash of \$2,032,575 from financing activities, resulting in an increase in total cash of \$146,514 and a balance of \$146,583 for the period.

Total current assets as of June 30, 2018 were \$440,501, while current liabilities for the six months period ended June 30, 2018 were \$1,792,844. The Company has incurred an operating loss of \$483,471 for the six months period ended June 30, 2018, largely due the increase in operating expenses and increase in marketing and business development expenses and professional fees. During the six months period ended June 30, 2018, the Company had an accumulated deficit of \$6,713,491. These factors raise substantial doubt about our ability to continue as a going concern.

Changes in the composition of our Notes Payable and Notes Payable-Related Parties are presented in the table below:

	As of June 30, 2018		As of December 31, 2017	
	\$ Current	\$ Long-Term	\$ Current	\$ Long Term
Notes Payable	557,193	1,886,821	456,914	311,821
Notes Payable - Related	283,343	42,000	353,759	42,000
	\$895,538	\$ 1,928,821	\$810,673	\$ 353,821

Total Notes Payable for related and unrelated parties increased by \$1,659,865 from the fiscal year ended December 31, 2017 from \$1,164,494 to \$2,824,359 in six months period ended June 30, 2018.

As of June 30, 2018, total stockholders' equity deficit increased to \$2,099,800 from \$1,632,080 as of December 31, 2017. Accumulated deficit increased from \$5,970,024 in the fiscal year ended December 31, 2017 to \$ 6,713,491 for the six months period ended June 30, 2018.

As of June 30, 2018, the Company had \$146,583 in cash to fund our operations. The Company does not believe our current cash balances will be sufficient to allow us to fund our operating plan for the next twelve months. Our ability to continue as a going concern is dependent on us obtaining adequate capital to fund operating losses until we become profitable. If we are unable to obtain adequate capital, we could be forced to cease operations or substantially curtail its drug development activities. These conditions raise substantial doubt as to our ability to continue as a going concern. The accompanying financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities should we be unable to continue as a going concern.

Our principal sources of liquidity to date have been cash generated by issuing new shares of the Company's common stock and cash generated from loans to us. In order to be able to achieve our strategic goals, we need to further expand our business and financing activities. Expanding market awareness of the SnöBar products and our international distribution networks, together with further improvement of the SnöBar products will require future capital and liquidity expansion. Since our inception in January 2013, our shareholders have contributed a significant amount of capital making it possible for us to develop and market the SnöBar products. To continue to develop our product offerings and generate sales, significant capital has been and will continue to be required. Management intends to fund future operations through additional private or public equity and/or debt offerings. We continue to engage in preliminary discussions with potential investors and broker-dealers but no terms have been agreed upon. There can be no assurances, however, that additional funding will be available on terms acceptable to us, or at all. Any equity financing may be dilutive to existing shareholders. We do not currently have any contractual restrictions on our ability to incur debt and, accordingly we could incur significant amounts of indebtedness to finance operations. Any such indebtedness could contain covenants which would restrict our operations.

Off-Balance Sheet Arrangements

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The SEC has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain.

Based on this definition, we have identified the critical accounting policies and judgments addressed which are described in Note 2 to our condensed consolidated financial statements included elsewhere in this Quarterly Report. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required for smaller reporting companies.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As required by Securities Exchange Act of 1934, as amended (the “Exchange Act”), Rule 13a-15(b), we have carried out an evaluation (the “Evaluation”), under the supervision and with the participation of our management, including our Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of the design and operation of our management, and the design and operation of our disclosure controls and procedures as of June 30, 2018. Based upon an evaluation of the effectiveness of disclosure controls and procedures, our Chief Executive Officer and Interim Chief Financial Officer has concluded that as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act) were not effective because of the material weaknesses described below, in order to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the SEC and is accumulated and communicated to management, including the Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure (see below for further discussion). We had neither the resources, nor the personnel, to provide an adequate control environment.

Due to our limited resources, the following material weaknesses in our internal control over financial reporting continued to exist at June 30, 2018:

we do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”);

we do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our limited size and early stage nature of operations, segregation of all conflicting duties may not always be possible and may not be economically feasible; however, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals;

we do not have an independent audit committee of our Board of Directors;

insufficient monitoring and review controls over the financial reporting closing process, including the lack of individuals with current knowledge of GAAP that led to the restatement of our previously issued financial statements; and

we continue to outsource the functions of controller on an interim basis to assist us in implementing the necessary financial controls over the financial reporting and the utilization of internal management and staff to effectuate these controls.

We believe that these material weaknesses primarily related, in part, to our lack of sufficient staff with appropriate training in GAAP and SEC rules and regulations with respect to financial reporting functions, and the lack of robust accounting systems, as well as the lack of sufficient resources to hire such staff and implement these accounting systems.

If and when our financial resources allow, we plan to take a number of actions to correct these material weaknesses including, but not limited to, establishing an audit committee of our Board of Directors comprised of three independent directors, hiring a full-time Chief Financial Officer, adding experienced accounting and financial personnel and retaining third-party consultants to review our internal controls and recommend improvements.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable and not absolute assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of certain events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Control Over Financial Reporting

There were no material changes in our internal control over financial reporting (as defined in Rule 13a- 15(f) under the Exchange Act) that occurred as of June 30, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CEO and CFO Certifications

Exhibits 31.1 and 31.2 to this Quarterly Report are the Certifications of the Chief Executive Officer and the Interim Chief Financial Officer, respectively. These Certifications are required in accordance with Section 302 of the Sarbanes-Oxley Act (the “Section 302 Certifications”). This Item 4 of this Quarterly Report, which you are currently reading, is the information concerning the Evaluation referred to above and in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of

the topics presented.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

There are no legal proceedings that have occurred within the past ten years concerning our directors or officers which involved a criminal conviction, a criminal proceeding, an administrative or civil proceeding limiting one's participation in the securities or banking industries, or a finding of securities or commodities law violations. Except for Mrs. Masjedi, who filed for Chapter 7 personal bankruptcy in 2010, which was discharged in August 2011, and Mr. Shenkman, who filed for Chapter 11 personal bankruptcy in 2010, which was dismissed but not discharged in May 2012, none of our directors or officers have filed for or have been affiliated with any company that has filed for bankruptcy within the last ten years.

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may have, individually or in the aggregate, a material adverse effect on our business, financial condition or operating results. We are not aware of any proceedings to which any of our officers or directors, or any associate of any such officer or director, is a party adverse to us or any of our or has a material interest adverse to us or any of our subsidiaries.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Recent Sales of Unregistered Securities

During the six months ended June 30, 2018, the Company issued 46,370,509 shares of its common stock, of which shares were issued for services valued at \$28,700, and shares were issued as repayment of debt in the amount of \$87,213.

The Company believes the offers, sales and issuances of the securities described above were exempt from registration under the Securities Act of 1933, as amended (the "Securities Act"), in reliance on Section 4(a)(2) of the Securities Act and/or Rule 506 promulgated under Regulation D under the Securities Act as transactions by an issuer not involving a public offering. The purchasers of securities in each of these transactions acquired the securities for investment only and not with a view to or for sale in connection with any distribution thereof. Each of the purchasers of securities in these transactions was an accredited investor within the meaning of Rule 501 of Regulation D under the Securities Act

and had adequate access, through employment, business or other relationships, to information about us. The offer, sale and issuance of these securities were made without any general solicitation or advertising.

Use of Proceeds of Registered Securities

Not applicable.

Purchases of Equity Securities by Us and Affiliated Purchasers

During the six months ended June 30, 2018, the Company has not purchased any equity securities nor have any officers or directors of the Company.

ITEM 3. Defaults Upon Senior Securities

The Company is not aware of any defaults upon its senior securities.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information.

None.
