2005 Earnings Results

Banco Bradesco posted Net Income of R\$ 5.514 billion in 2005 (equivalent to EPS of R\$ 5.63), compared to the R\$ 3.060 billion Net Income recorded in 2004 (equivalent to EPS of R\$ 3.22), an 80.2% increase. Return on Average Stockholder's Equity (ROAE) stood at 32.1% in 2005 (22% in 2004). Net income in 4Q05 amounted to R\$ 1.463 billion, which represents a 35.3% annualized ROAE (36.5% in 3Q05). Total Assets reached R\$ 208.7 billion, with a R\$ 23.8 billion or 12.8% increase in 2005 and R\$ 6.8 billion or 3.4% increase in 4Q05.

In 2005, 32% of Bradesco's Net Income was originated by Loans, 29% by Insurance, Pension Plans and Savings Bonds, 26% by Fee Income and 12% by Securities.

Adjusted Net Interest Income reached R\$ 16.548 billion, up by 25.1% in the year, and by 6.1% in the quarter (4Q05 vs. 3Q05). Fee Income grew by R\$ 1.525 billion in the year or 26.2%, totaling R\$ 7.349 billion. In the quarter, Fees expanded by R\$ 92 million, or 4.8%, reaching R\$ 2.010 billion.

Bradesco's Efficiency Ratio for the accumulated 12-month period continues to present a constant improvement, standing at 55.5% in December 2004, 48.1% in June 2005, 45.7% in September 2005 and, finally, 44.8% in December 2005.

Bradesco's Market Capitalization as of December 31, 2005 reached R\$ 64.7 billion, corresponding to a 126.6% jump in the year and to a 25.4% increase in the quarter, variations significantly higher than the Ibovespa's which during the same period evolved by 27.7% and 5.9%, respectively.

According to **Bradesco's CEO, Mr. Márcio Artur Laurelli Cypriano**, 2005 recorded the highest Net Income of the Bank's 62-year-old history. I would highlight the strong growth of our loan portfolio, the consolidation of our customer segmentation process, Grupo Bradesco de Seguros (Insurance Activities)' better performance and the strong cost control as the main drivers for this result. Our stockholders will have received more than R\$ 1.8 billion as Interest on Own Capital and Dividends and our market value will have surpassed the R\$ 64.7 billion landmark, more than doubling from last year's.

* For further details see page 63 of the Report on Economic and Financial Analysis.

In the **year**, the R\$ 3.317 billion Net Interest Income growth was due to:

- R\$ 2.968 billion increase in interest income operations, caused by higher business volumes; and
- R\$ 349 million increase in non-interest income, mainly as a result of higher Securities and Treasury gains.

In the **quarter**, the R\$ 266 million increase was originated by:

- R\$ 253 million increase in interest income operations, in view of higher average business volumes; and
- R\$ 13 million increase in non-interest income.

Provision for Loan Losses (PDD)

In the **year**, the R\$ 465 million or 22.8% increase is consistent to the performance of Bradesco's loan portfolio, which grew by 29.2%, especially in the Individual segment with a 56.8% growth.

In the **quarter**, the R\$ 230 million growth was influenced by the extraordinary reversal of R\$ 166 million in 3Q05, as well as by the constitution of additional provisions of R\$ 6 million in 3Q05 and of R\$ 62 million in 4Q05, as follows.

In R\$ million

| | 4Q05 | 3Q05 | Variation |
|---|------------|------------|------------|
| Regular Allowance for Loan Losses | 708 | 700 | 8 |
| Extraordinary Provision Reversion | - | (166) | 166 |
| Additional Provision | 62 | 6 | 56 |
| Reported Allowance for Loan Losses | 770 | 540 | 230 |

Excluding these effects, PDD expenses in the 4Q05 would be of R\$ 708 million, recording an R\$ 8 million or 1.1% growth, well below the loan portfolio, which increased by 7.8% in the quarter.

Fee Income

The increase in this income was due to:

- increase in the operations volume;
 - customer base increase; and
 - improved cross-selling as a consequence of the segmentation process.
-

In the **year**, the R\$ 1.525 billion growth is mainly due to the increase in the following fees:

- Loan Operations - R\$ 455 million;
- Checking Account - R\$ 394 million;
- Cards - R\$ 225 million;
- Asset Management - R\$ 160 million;
- Collection - R\$ 89 million; and
- Consortium - R\$ 61 million.

In the **quarter**, the R\$ 92 million variation was originated by increase in the following fees:

- Checking Account - R\$ 34 million;
- Cards - R\$ 36 million; and
- Loan Operations - R\$ 14 million.

Personnel Expenses

In the **year**, the R\$ 343 million variation was due to the:

- increase in payroll, resulting from the 2004 collective bargaining agreement (8.5%), benefits and others, totaling R\$ 306 million;
- effect of the 2005 collective bargaining agreement (6%), totaling R\$ 87 million;
- increased payment of bonus lump-sum payment of R\$ 60 million;
- higher employee profit sharing expenses of R\$ 105 million;
- lower severance and labor provision expenses of R\$ 47 million;
- lower expenses with synergies obtained in administrative processes, in the estimated amount of R\$ 168 million.

In the **quarter**, the R\$ 122 million decrease was a result of:

- payment of bonus lump-sum payment of R\$ 103 million, provisioned in the 3Q05;
- lower employee profit sharing expenses of R\$ 16 million;
- lower severance and labor provision expenses R\$ 20 million; and
- increase in payroll, resulting from the 2005 collective bargaining agreement (6%) in September 2005.

Other Administrative Expenses

In the **year**, the R\$ 205 million variation was mostly due to the:

- increase in Third-Party Services Expenses in the amount of R\$ 174 million, in line with the business volume growth, as well as investments in the improvement and optimization of the IT platform.

In the **quarter**, the R\$ 168 million increase was due to higher expenses with:

- Advertising, summing up to R\$ 124 million, mainly by larger investments in the Bradesco Completo and Finasa marketing campaigns;
- Depreciation and Amortization of R\$ 26 million; and
- Data processing of R\$ 7 million.

Performance Indexes

Operating Efficiency Ratio:

Reflecting the focus on personnel and administrative expenses, as well as the increase on several income sources, we present the continued improvement in this ratio below:

Coverage Ratio:

The Coverage Ratio (Fee Income / Personnel Expenses + Administrative Expenses), has been improving over the last quarters, as follows.

Insurance, Private Pension Plans and Savings Bonds

This segment reported Net Income of R\$ 1.597 billion in the **year** (R\$ 888 million in 2004) and of R\$ 372 million in the **quarter** (R\$ 425 million in the previous quarter).

In the **Auto Segment**, premiums increased by 22.3% y-o-y, attesting the success of the underwriting policy in line with each customer characteristic (named Profile). Bradesco's Auto Insurance market share reached 17.5%, thus maintaining the leadership in the segment.

Basis Lines, with a priority focus on Mass Insurance, particularly Home Insurance, which presents low claims ratio, reached nearly 800 thousand insured homes.

In the **Life Segment**, in which Bradesco maintains leadership with a 16% market share, we emphasize low-ticket products, especially the products *Vida Máxima Mulher Bradesco* (Life Insurance for Women) and *Vida Segura Bradesco* (Bradesco Safe Life), aiming at reaching lower income classes.

Considering **Pension Plans**, Bradesco still keeps the strategy of increasing PGBL and VGBL products sales. This segment's market share reached 37.5%, maintaining the leadership in the segment.

In the **Savings Bonds** segment, the portfolio profile was maintained, despite the increase in monthly payment bonds.

Bradesco Saúde (Bradesco Health) presented in the year, a loss of R\$ 210 million, compared to R\$ 17 million in the previous year, in line with extraordinary provision in the amount of R\$ 324 million. The Company continues prioritizing sales of Corporate Plans, which have been accounting for nearly 73% of the health segment sales. The growth in the number of insured customers in this segment reflects the Company's high level of specialization and tailor-made services in Corporate Insurance, which is currently the greatest differential in the Brazilian Supplementary Health market. Nearly 12 thousand companies in Brazil chose Bradesco Saúde, and 31 out of the 100 largest companies are our customers.

Premiums from **Insurance, Private Pension Plans and Savings Bonds** amounted to R\$ 16.8 billion in 2005, vis-à-vis R\$ 15.4 billion in 2004, accounting for a 9.3% growth.

Technical Reserves for Insurance, Private Pension Plans and Savings Bonds reached the amount of R\$ 40.9 billion, representing a 37.9% market share.
