Yes No

Change in relation of underlying shares and ADR s

(Rio de Janeiro, May 11, 2007). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, announces that a meeting of the Board of Directors today approved the change in the ratio of underlying shares issued in the Company s name and the American Depositary Receipts ADR s from the existing 4 (four) shares for each ADR to 2 (two) shares for each ADR.

The purpose of this change in the ratio between the Share and ADR is to facilitate the purchase of ADR s on the New York Stock Exchange NYSE by small investors, consequently broadening the Company s shareholder base. This decision also reflects Petrobras confidence in its future results.

This change will come into effect on July 2 2007.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
