registrant in connection with Rule 12g3-2(b): N/A

Telefónica Chile

Compañía de Telecomunicaciones de Chile S.A. (Telefónica Chile) is a leading telecommunications company in Chile and one of the country's benchmark stocks. It was the first Latin American company to list on the New York Stock Exchange (NYSE) in 1990, when it carried out a successful issuance of American Depositary Receipts (ADRs).

The Company owns an estimated 63% of all telephone lines in the country, as well as 49% of the broadband market. It also provides a broad range of telecommunications and other services throughout Chile, including: voice, broadband, pay TV, long distance, public telephones, terminal equipment sales and leasing, data transmission and interconnection services.

The Republic of Chile

Chile is a narrow strip of land stretching 2,700 miles along the Pacific Coast of South America. Chile boasts a tremendously diverse landscape, from its southernmost point in the Antarctic territory to the world's driest desert – the Atacama – in the north, with lakes, volcanoes and agricultural land in between and Easter Island and Robinson Crusoe Island off the coast. The Andes Mountains form a natural border to the east, separating Chile from the neighboring countries Argentina and Bolivia, and beyond the desert in the north, Chile shares a border with Peru.

The capital city, Santiago, is home to over one-third of Chile's total population of approximately 16 million, and it is considered one of the most important business centers in Latin America. Outside of the capital, economic activity is driven by the country's abundant natural and mineral resources. Chile is the largest producer and exporter of copper and molybdenum in the world, and its non-mineral export products include wood pulp, fresh fruit, wine and salmon.

The Chilean government is a democracy, and it is ruled by President Michelle Bachelet, the country's first woman president, who began her four-year term in office in March 2006.

The Chilean economy is characterized by its openness, stability and steady growth, all of which contribute to an attractive investment climate. The country stands out within the region because of its prudent fiscal policies – in particular the practice of maintaining a structural surplus – and its inflation-rate targeting. These policies, as well as the country's solid financial institutions, are reflected in Chile's sovereign bond rating, which is one of the highest in Latin America.

The Chilean telecom market is the most competitive and dynamic in the region, with multiple operators in every business segment and considerable M&A activity. It was the first Latin American market to be fully open to competition, and all segments of the telecom markets, with the exception of fixed telephony, are deregulated in terms of pricing.

"We want to enhance people's lives and the performance of businesses as well as the progress of the communities where we operate, by delivering innovative services based on information and communication technologies"

Market capitalization (millions of nominal US\$)	2,670	2,074	1,884	1,775	1,610

- (1) Fixed lines installed includes links and ISDN lines
(2) Effective traffic, which includes MLS, local tranche and prepaid
(3) Long distance traffic originated by Telefónica Chile
(4) Does not include community lines
(5) EBITDA= Operating income + depreciation

Dear Shareholders:

With a renewed commitment, Telefónica Chile is today part of Telefónica's Group – the world's fifth largest telecommunications company by market capitalization, with 259 million connections, a presence in 25 countries and operations outside Spain accounting for 63% of consolidated revenues.

Latin America plays a starring role in this global scenario. With 158 million connections. The region is one of the pillars of Grupo Telefónica's leadership.

The history of Telefónica's transformation from local to global company began here in Santiago, almost 20 years ago, when it acquired a stake in Telefónica Chile. This event signaled Telefónica's arrival in the region and constituted a show of confidence in the country.

It was here that Telefónica learned to understand Latin American customers and interact in an unfamiliar economic, institutional and social environment. Surprised at Chile's eager embrace of technological change, Telefónica made an ironclad commitment to massively expand new technologies and ensure their positive impact on education, productivity, business, and public management.

This year, that commitment has been renewed. Telefónica's decision to significantly increase its equity interest in Telefónica Chile through a Tender Offer is solid proof of its desire to deepen and prolong its relationship with Chile and the country's telecommunications industry, despite the changes in the global economic scenario. The successful conclusion of the Tender Offer was therefore a key milestone in the transformation process that Telefónica Chile already had begun in 2007.

Challenges

In a scenario in which customer relations are the top priority, increasing customer loyalty levels is critical, and the only sustainable way to do so is by offering competitive products and high quality service.

To meet this challenge, we undertook an unprecedented tripling of broadband connection speed in March 2008, only to double it again just six months later.

Today, over 80% of our customers have a 2-Mbps or faster broadband connection, which is the standard in developed countries. This is good news for customers, but even better news for the country.

Another challenge was to renew our strategy of mass expansion of broadband. Between 2000 and 2008, there was an explosive growth in connections. The Company went from zero to 711,000 connections, and coverage in the highest income segments reached maturity. The inevitable question was how to include the emerging families who wanted to be part of the connectivity era, but for whom the industry at the time offered no suitable solutions. The answer was Prepaid Broadband, a successful commercial formula that allowed us to provide the same quality product, but with an innovative payment method.

A proven strategy

The fundamental objective of the transformation process was to restabilize the Company's revenues, which had decreased as a result of the drop in traffic and number of lines in service brought about by the mass expansion of mobile telephony.

During 2008, earnings once again rose. The Company's overall revenues, which totaled Ch\$685.268 billion, grew 8% in nominal terms compared to 2007. Revenues from minute plans and new services (broadband and pay TV) continued to play an increasingly important role and now account for 45% of total consolidated revenues, 4 points more than twelve months ago.

The fact is that these emerging businesses have narrower margins, and positioning a company in the new markets requires an aggressive marketing strategy. Both factors affected the Company's costs, which grew 11% in nominal terms and made strict cost containment a self-imposed requirement. Thus, EBITDA reached Ch\$ 270.463 billion.

During 2008, the Company maintained its policy of 100% coverage of debt and financial expenses against exchange rate fluctuations. It is worth noting that 86% of the debt is at a variable interest rate. At December 31, total financial debt was Ch\$ 436.734 billion, having remained stable. Operating income allowed the Company to invest Ch\$ 151.546 billion and distribute Ch\$ 50,031 billion to shareholders.

Our financial soundness was recognized by Fitch and ICR when, in late 2008, both credit rating agencies confirmed the Company's existing risk ratings.

Ready for the change

Change is not easy. It has never been. But thanks to the effective implementation of a long-term strategy, we can now say that we have concluded the most complex stage of Telefónica Chile's renewal.

It is time to update our aims. In our industry, change is a constant. Technology and competition evolve at lightning speed, imposing new obligations on us.

In this context, we maintain our willingness to invest, as we have done in recent years, to preserve and improve our competitive position. We are required to be flexible if we are to adapt to the industry's transformation. We have no other alternative than innovation and quality as the only sustainable path to preserving our leadership.

We accept the challenge of being the Spirit of Progress and contributing to Chile's development, because we believe that communications technologies are a prerequisite for rather than a consequence of growth, prosperity and equal opportunities.

Based on these four pillars—investment, flexibility, quality and Spirit of Progress—we also aspire to a new public positioning that speaks not so much to what we have been, but to what we are and want to be.

We are and will continue to be Chile's preeminent telecommunications company, as well as the most responsive and innovative. A company determined to not only meet customer expectations but exceed them; to compete, but above all to lead; a company that, as the Bicentennial approaches, has adopted the dream of a developed Chile as its very own.

These aspirations are not modest nor can they be: in the country where Telefónica's history in Latin America began, growing and improving is a vocation.

For this reason, I would like to express my gratitude to all those who helped to make Telefónica Chile a better company in 2008. To each of our employees, all of whom did their utmost to implement the change. To the shareholders, especially all those who understood the value of the proposed change and grasped the opportunities offered them. And to each of our customers, who rewarded us with their preference and loyalty. And, finally, to Chief Executive Officer José Molés, in charge until December 2008, and the management team, who shaped a human structure capable of consolidating this great Company and making it grow. To all of them, my sincere thanks.

Warm regards,

Emilio Gilolmo

Chairman of the Board

Deeds of Incorporation and Significant Events

The Company's history begins in 1880, when telephone services first arrived in Chile. The first telephone call in the country was made on April 28, 1880 and was arranged by Compañía de Teléfonos Edison. This pioneering company, and those that succeeded it, ultimately gave rise to Compañía de Telecomunicaciones de Chile S.A., now known as Telefónica Chile. Since that first call, Telefónica Chile has gone through many owners and operated under a variety of names, but has always remained at the forefront of telecommunications in Chile.

The Company was officially organized as a corporation pursuant to a public instrument executed on November 18, 1930 before Notary Public Javier Echeverría and entered in the Commercial Register of Santiago one year later. Its Bylaws were approved under Resolution No. 599 of the Ministry of the Treasury on January 23, 1931.

In 1971, the Company was taken over by the Chilean Government and, in 1974, the Government-owned Corporación de Fomento de Producción (CORFO) acquired 80% of its capital stock. In 1987, CORFO began to privatize the Company through a public offering process. Thus it was that Bond Corporation Chile S.A. came to hold a majority interest in the Company.

In April 1990, Telefónica S.A. (Spain), acting through its subsidiary Telefónica Internacional Chile S.A., acquired a stake in the Company and eventually became the majority and controlling shareholder by purchasing a 50.4% equity interest from Bond Corporation Chile S.A. In July of that year, Telefónica reduced its equity interest by placing Telefónica Chile S.A. stock on the international markets. The Company listed its stock on the New York Stock Exchange (NYSE) at that time. In July 2004, as a result of capital increases and the purchase of an additional 1.3%, Telefónica Internacional Chile S.A. came to hold a 44.9% equity interest in the Company.

In July 2004 Telefónica Chile sold 100% of its shareholding in Telefónica Móvil de Chile S.A. to Telefónica Móviles S.A (TEM) for USD 1.321 billion.

In February 2004, Decree No. 742 was published, providing terms and conditions for the various plans and joint packages offered by dominant public telephone service operators. Tariff flexibility has allowed Telefónica Chile to offer its customers several commercial plans, other than the regulated plan, to satisfy their various needs. As of December 31, 2008, approximately 78% of telephone lines have minute plans or are prepaid lines associated with tariff flexibility.

In June 2006, the Company entered the pay-TV business by launching the Telefónica Televisión Digital service nationwide, bundling this service with voice and broadband services. The following year, it expanded its offerings by launching broadband TV (IPTV), which made it possible to provide interactivity to customers.

After the successful Tender Offer that was launched by Telefónica Internacional Holding Ltda. on September 17, 2008 and concluded on January 6, 2009, Telefónica S.A. increased its stake in Telefónica Chile to 97.89%.

Significant Events in 2008:

On April 14, 2008, shareholders acting at a General Shareholders Meeting approved the payment of a final dividend charged to 2007 earnings for a total of Ch\$ 5.050 billion, equivalent to Ch\$ 5.27606 per share. The dividend was paid on May 14, 2008.

On the same date, at a Special Shareholders Meeting, shareholders approved a capital decrease of Ch\$ 39.243 billion, equivalent to Ch\$ 41 per share, for an additional cash distribution to shareholders. The cash distribution was paid on June 13, 2008.

On September 17, 2008, Inversiones Telefónica Internacional Holding Limitada, a subsidiary de Telefónica S.A, launched a Tender Offer to buy up to 100% of Telefónica Chile stock.

Pursuant to the IFRS convergence regulations issued by the Office of the Superintendent of Securities and Insurance (hereafter SVS), Telefónica Chile decided to adopt the IFRS commencing on January 1, 2009. In the context of the convergence process, the Company submitted an equity reconciliation report, a report of principal accounting policies to be applied under the IFRS, and a functional currency report at September 20, 2008. The main effects for Telefónica Chile involve monetary correction, deferred taxes, and capitalized interest.

On October 7, 2008, a Special Shareholders Meeting was held to vote on an amendment to the corporate Bylaws eliminating the stipulated limit for shareholding concentration. The meeting had been called by the Company's Board of Directors at the request of shareholder Telefónica Internacional Chile S.A. in the context of the Tender Offer process. The amendment was not approved.

On October 11, 2008, acting on a request by shareholders AFP Capital, AFP Cuprum and AFP Provida, which together hold more than 10% of the Company's voting shares, the Company's Board of Directors called a Special Shareholders Meeting for October 28, 2008 to vote on an amendment to the Bylaws aimed at eliminating the 45% limit on shareholding concentration.

On October 13, 2008, the Offeror modified the terms of the Tender Offer, increasing the offered price for the Series A and Series B shares by 10% to Ch\$ 1100 per share and Ch\$ 990 per share, respectively, and extending the term of the offer to October 30, 2008.

On October 14, 2008, the Company executed agreements for the sale of the assets and customer portfolio of its subsidiary Telefónica Asistencia y Seguridad S.A. (Teleemergencia) to Prosegur for a total of Ch\$ 15.563 billion.

On October 28, 2008, the Bylaws amendment eliminating the shareholding concentration limit was approved at a Special Shareholders Meeting.

On November 2, 2008, Inversiones Telefónica Internacional Holding Limitada declared the success of the Tender Offer launched on September 17, 2008, having thus acquired a 96.75% equity interest.

On December 10, 2008, provisional dividend N° 176 was distributed, and charged to fiscal year 2008 earnings for a total of Ch\$ 5.737 billion, equivalent to Ch\$ 6.0 per share.

On December 1, 2008, Fitch Ratings confirmed Telefónica Chile's current domestic and international risk ratings (BBB+/ AA-/F1+), keeping its outlook stable. This decision was based on the Company's leading position in the

Chilean market, strong generation of free cash flow, and solid financial profile. That same month, International Credit Rating (ICR) confirmed its local risk rating for the Company's stock.

On December 5, 2008, Telefónica Chile announced the resignation of its Chief Executive Officer, Mr. José Molés and the appointment of a new Chief Executive Officer, Mr. Oliver Flögel. Following approval by the Company's Board of Directors in December, the new appointment went into effect on January 2, 2009.

On January 6, 2009, a new Tender Offer (Mandatory Tender Offer) was concluded. As required under Chilean law after having acquired a more than two-thirds equity interest, Telefónica International Holding, Ltda. had launched an offer on December 2, 2008 for the remainder of the Telefónica Chile shares. After this process, Telefónica International Holding, Ltda. holds 97.89% of the Telefónica Chile equity.

The Company	18

Economic Environment

The year 2008 was marked by deep uncertainty and a complex global economic scenario stemming from a series of events triggered by the so-called subprime crisis. Financial markets remained tense throughout the year, making access to financing increasingly costly and difficult, while the world's major economies began to show signs of obvious slowdown. The situation worsened in September, after it was announced that major financial institutions were bankrupt. Although the monetary authorities came to their rescue to prevent an impact on international financial markets, credit became even tighter, and both securities and commodities markets plummeted. Toward year-end, it was confirmed that the world's principal economies were in a recession.

In the Chilean economy, the impact of the international financial turbulence and foreign macroeconomic performance was mainly felt through the currency exchange market and the terms of trade. In the first part of the year, the international weakness of the dollar took the exchange rate to a low of Ch\$ 434 and forced the Central Bank to intervene by buying dollars. After September's events, the US dollar traded at over \$600 on average in response to a widespread perception of heightened regional risk (the Chilean sovereign bond spread went from 189 to 351 basis points) and an expected deterioration in the current account and fiscal balances due to the drop in international copper prices (56% between September and December 2008). Domestically, the greatest concern was persistent inflation above the target range, initially caused by high international oil and food prices but later reflected in a broader array of goods. Although inflationary pressures decreased in the latter part of the year, monetary policy was generally aimed at controlling inflation, with the benchmark interest rate reaching 8.25%, i.e. 225 basis points above year-end 2007. Accumulated inflation in 2008 reached 7.1%.

12 **Telefónica Chile S.A.** | Annual Report 2008

[Economic Environment and Telecommunications Industry](#)

In the final part of 2008, the Chilean economy faced a slowdown in the most affected sectors (mining, construction and industry), resulting in a real growth rate of 3.6% and a slight increase in the unemployment rate to 7.7%. Domestic demand rose 8.7%, basically driven by the growth in investment. On the other hand, the trade deficit was 2.6% of GDP as the result of a 13% drop in net exports and a similar drop in the terms of trade. In per capita terms, the country's nominal GDP reached US\$ 10,485, one of the highest in the region.

It should be noted that as a result of copper export surpluses, fiscal funds abroad reached US\$ 28 billion, which, when added to Central Bank reserves, yielded a total of US\$ 53 billion in international financial assets (28% of GDP), almost twice the public debt (external and internal). This is evidence of the financial soundness of the Chilean public sector, which has in practice become a net international creditor. Among other considerations, this fact has led rating agencies to rate Chile as one of the safest emerging countries for foreign investment.

Telecommunications Industry

For the second consecutive year, the telecommunications industry achieved the highest growth rate of any sector in the country's economy, driven primarily by the sustained development of mobile, broadband and pay TV services.

The integrated offering of services was strengthened in 2008, this time with high broadband speeds as the result of constant speed increases by the major operators. Thus, at December 2008, approximately 90% of the industry's broadband connections had speeds starting at 2 Mbps.

In 2008, mobile telephony was marked by sustained growth and high 3G mobile broadband sales. Offerings became increasingly competitive, leading to lower prices and a significant increase in coverage, reaching sectors not serviced by fixed telephony.

In the residential market, fixed telephony operators are competing with service bundles (voice, broadband and pay TV) and better features (higher broadband speeds). A similar situation is being created in the SME market with voice and broadband plans. In the corporate market, operators offer integrated solutions that allow companies to consolidate their IP networks to transmit voice and data, thus facilitating integration toward business processes based on information technology.

The competition model still in place at the national level is based on a network infrastructure that uses mainly copper pair (ADSL), coaxial, mobile (GSM), and fiber-optic technologies.

Industry Developments

In 2008, the telecommunications industry in Chile, including the pay television business, posted sales of more than US\$ 5 billion, approximately 11% higher in nominal terms than in 2007, primarily due to the growth of the mobile telephone market and to broadband and pay TV development.

At December 2008, the fixed telephony market stood at approximately 3.4 million lines, similar to the December 2007 figure, with penetration remaining at approximately 20%.

The long-distance fixed telephony market maintained the downward trend in traffic that has been the case since 1999. Thus, annual domestic long-distance traffic decreased by 11% in 2008 with respect to last year, while international long-distance traffic fell by 4% in the same period. These drops are primarily due to the fact that fixed telephony is being replaced by mobile telephony and Internet communications.

In corporate communications and data transmission services, operators continued to migrate their traditional services (ATM, Frame Relay, Dated and E1 links) toward IP and NGN (Next Generation Networks). At December 2008, there were eight major operators in the main cities of Chile, three of which have nationwide infrastructure coverage.

Regarding Internet access services, total broadband connections (ADSL, cable modem and wireless) amounted to 1.5 million by year-end 2008, having grown 13% with respect to December 2007. At year-end 2008, ADSL broadband connections accounted for 58% of total nationwide broadband connections.

At year-end 2008, the mobile telephone market reached a total of approximately 15.9 million subscribers, having grown by 9% with respect to the prior year. The factors affecting this growth notably include the growth in GSM services and the availability of prepaid services, which account for approximately 74% of total customers. All three mobile operators currently participating in this market use primarily GSM technology.

In the pay TV business, VTR is still the dominant player.

CHILEAN TELECOMMUNICATIONS INDUSTRY

Business	Operators	Market Size
Fixed Telephony (1)	7	20.2 lines per 100 inhabitants
Long Distance (2)		
- Domestic	17	73 minutes per inhabitant per year (3)
- International	17	10 minutes per inhabitant per year (3)
Payphones (4)	7	Approx. 26,500 lines
Data Transmission	8	Revenues of US\$ 350 million (5)
Pay TV	6	1.506 million connections
Broadband	8	1.452 million broadband connections
Mobile Telephony	3	95 lines per 100 inhabitants

(1) There are 3 additional companies operating only in rural telephony, and 10 fixed telephony companies operating under 12 brands.

(2) There are 39 operators with an assigned carrier code for offering long distance services. At December 31, 2008, only 30 were in operation and 17 of them account for 99% of total long distance traffic.

(3) In actual minutes.

(4) Does not include community telephones of Telefónica Chile.

(5) Includes private networks as well as voice and data equipment. Estimated share based on data at September 2008. Exchange rate at 12/31/08: Ch\$/US\$ 636.45.

Legal Framework

In Chile, the installation, operation and use for profit of telecommunications services located in national territory, including waters and air spaces subject to national jurisdiction, are governed by Law No. 18,168 (General Telecommunications Act), its supplementary regulations and the international telecommunications agreements and treaties currently in effect in the country.

Tariff System

Pursuant to Law No. 18,168 (General Telecommunications Act), prices for public telecommunications services and for intermediate telecommunications services contracted between or among the various providers (whether companies, entities or individuals) may be freely determined by the relevant service provider, without detriment to any agreement between providers and their customers.

However, this law sets forth the following three exceptions to the principle of free pricing:

(a) Local and long-distance national and international public telephone services, excluding mobile telephony, and signal switching and/or transmission services provided either as an intermediate service or through private circuits, if there is a specific ruling by the Competition Tribunal that market conditions are insufficient to ensure a free pricing system;

(b) Services provided through interconnections; and

(c) The facilities that telephone companies are required to provide the carriers under the aforementioned Law.

In all the above cases, the maximum tariffs for these services are set by the Ministry of Transportation and Telecommunications and the Ministry of Economy, Development and Reconstruction (hereinafter the Ministries) every five years on the basis of a hypothetical efficient-company model.

In Resolution No. 686, dated May 20 2003, the then Antitrust Investigative Commission (predecessor of the Competition Tribunal) ruled that, in the Company's case, existing market conditions were not sufficient to guarantee free pricing throughout Chile, with the exception of Regions X and XI and Easter Island, in connection with a) certain local public telephone services, b) signal transmission and/or switching services provided as private circuits within the primary zone to concessionaires, licensees and the general public.

In the same ruling, the Antitrust Investigative Commission decided that signal transmission and/or switching services provided as private circuits would be regulated for all providers. Moreover, tariffs for number portability facilities were to be set for all providers when technically and economically feasible, as determined by the respective Ministries.

As a result of this ruling, the Ministries issued Decree No.169, published in the Official Gazette on February 11, 2005 with retroactive effect as of May 6, 2004, setting the maximum tariffs that the Company could charge for regulated services for the 2004-2009 five-year period.

However, because the General Telecommunications Act states that the tariffs set for regulated services are maximum tariffs, the Company is authorized to charge lower tariffs than those determined by the Ministries. Accordingly, on February 26, 2006 the Ministry of Transportation and Telecommunications published Decree No. 742, setting forth the conditions under which dominant local public telephony operators may provide lower tariffs and different plans, with a view to protecting the rights and interests of users (Tariff Flexibility). This decree was subsequently amended through Decree No. 160, published in the Official Gazette on May 8, 2007.

[New service classification by the Competition Tribunal](#)

Law No. 19,911, published in the Official Gazette on November 14, 2003, created the Competition Tribunal as successor to the Antitrust Commission, entrusting it, among other duties, with the task of examining and classifying telecommunications services as regulated or unregulated under Article 29 of Law No. 18,168.

In 2008, the Ministry of Transportation and Telecommunications asked the Competition Tribunal to review the telephony services currently subject to regulation in light of changes in present market conditions.

The Competition Tribunal is expected to issue a decision in early 2009.

On November 7, 2008, the Company submitted a Tariff Study and a tariff proposal to the Ministries for the 2009-2014 five-year period. The Ministries have until March 7, 2009 to issue their Comments and Counterproposals Report. In any event, the new tariffs will go into effect on May 6, 2009.

[New access charges for mobile companies](#)

The new maximum rates determined by the Ministries for services provided by mobile telephony companies through interconnections will go into effect in January 2009. They include the tariffs for mobile network access charges.

Telefónica Chile's vocation is to lead the growth and innovative development of the Information Society in Chile by building relationships of deep-seated trust and mutual benefit with customers, employees, shareholders, the government, and the country at large.

The Company harnesses its corporate values, technological innovations and communications solutions in the service of this objective, striving to improve the lives of its customers and contribute to the country's welfare.

Accordingly, in 2008, despite the turbulent global and local economies, Telefónica Chile reinforced its commitment to putting Chile on the path to communications levels similar to those of developed countries, investing over US\$ 150 million in the deployment of broadband technologies, high speed networks, data services and information technologies.

This has led to significant advances, the most noteworthy being:

- Quadrupling broadband connection speed from an average of 600 kpbs in late 2007 to 2.4 Mbps in late 2008.
- Ensuring broadband network coverage and quality in almost 99% of its current infrastructure through upgrades in the external copper network, new nodes, and fiber-optic links.
- Launching pilot programs for household deployment of fiber optics.
- Making IP (Internet Protocol) service convergence a reality in the corporate markets (VoIP, VPN IP and Centrex).

Corporate and Business Strategy

The internal action plan for the Company's strategy is based on Plan Ahora, launched in early 2007, defining specific objectives for each of the company's four strategic pillars: customers, employees, society and shareholders.

In 2008, the Company made significant progress in meeting the plan's components, the most noteworthy being: a customer-oriented organizational culture; implementation of several initiatives designed to improve service and customer care quality; revenue growth less dependent on traditional businesses; employees highly motivated to achieve common targets; the Proniño project; and the Public-Private Agreement for Digital Connectivity in Chile.

The specific objectives of the plan's four pillars are:

Shareholders: The best combination of growth and profitability

Telefónica Chile maintains a particular emphasis on constant innovation and on productivity gains, with the aim of growing profitably and in line with shareholder demands. Thus, the Company invests in businesses with the greatest potential impact, ensuring efficient operations and process management.

Customers: The best customer experience

The objective is to lead the industry in customer satisfaction. To achieve this, the Company promotes an organizational culture based on excellence, innovation and customer focus in all areas, emphasizing service delivery and customer care quality with a view to consolidating its competitive and market leadership position.

Employees: The best company to work for in the telecommunications industry

With a view to attracting the best talent and assembling a team that is not only the best but is also motivated and keen to accomplish its goals, the Company has implemented an internal workplace management model that focuses on five areas of action: leadership, communications, compensation, development, and recognition.

Society: Social commitment

Our objective is to be recognized as a socially responsible company in light of our efforts to shrink the digital-social gap by providing broadband access to the low-income population and by contributing to education through digital literacy and connectivity programs at schools and through social programs.

In 2008, the broadband market was highly dynamic. Telefónica Chile's broadband service continued to expand, supported by bundling with voice and pay TV plans.

Telecommunications Products and Services

The Company's primary business focus in 2008 was on marketing its Duo and Trio broadband, voice and pay television bundles, whose main feature is the flexibility afforded customers to build their own service bundles with the broadband speed they require, the number of voice minutes they need, and the pay TV plan that suits their personal tastes. For this purpose, the Company made it possible for customers to view, assess and compare all available options on the Company's website.

The main products and services offered by the Company are as follows:

Broadband:

Telefónica Chile offers ADSL broadband technology to residential customers, SME customers, and corporate clients, as well as to Internet Service Providers (ISPs) as resellers.

In 2008, the broadband market was highly dynamic as a result of the entry of a new competitor, Telmex, and strong growth in 3.5G broadband sales by Chile's three existing mobile telephony operators. In this scenario, Telefónica Chile's broadband service continued to expand, supported by bundling with voice and pay TV plans, as evidenced by a 10% increase in the number of connections.

In addition, fixed telephony operators continued to develop capacity, boosting speeds (tripling and doubling them in April and December, respectively) and increasing the average installed access speed by 75%.

At 31 December 31, 2008, there were a total of 710,979 broadband connections.

Telephone Service (Voice):

Telefónica Chile ended 2008 with 2,120,974 lines in service. The average number of lines in service fell by 1.8% compared to 2007.

The Company provides basic telephone services to its customers through the public telephone network in two forms:

(i) Regulated Plan

Includes telephone line service (fixed monthly charge); local traffic (metered local service and local portion of calls); and connection to the public network, among others.

(ii) Minute Plans

Starting in 2004, the Company began to market minute plans as an alternative to the Regulated Plan: (i) Planes de Minutos (Minute Plans), consisting of telephone service with a certain number of minutes for a monthly charge; (ii) Línea Económica (Economy Line), consisting of a monthly amount from which customer calls are deducted as they are completed, allowing for additional calls to be placed using prepaid cards (iii) Línea Súper Económica (Super Economy Line), which enables customers to make calls for a certain number of minutes through prepaid cards charged on a monthly basis; and (iv) bundled services, such as broadband plus minute plans.

Marketed individually or as service bundles along with broadband and pay TV, the Minute Plans have slowed the rate of decline in fixed lines.

Digital Television:

Telefónica Chile was the first operator to make pay television flexible through a customized service tailored to the interests and budget of each household, allowing customers to pay only for the channels they want to watch.

Telefónica TV Digital, as the service is called, provides an entry-level plan which may then be expanded to include various theme-based (family programming, movies, sports, or premium movie or sports) plans.

Telefónica TV Digital has nationwide coverage and provides all customers with additional services such as parental control, onscreen programming guide, program reminders, pay-per-view service access, search feature by theme, and PVR (Personal Video Recorder).

With the pay TV service, provided by its Telefónica Multimedia Chile S.A. subsidiary, Telefónica Chile supplements its telecommunications offering with entertainment, providing packages known as Duos, which combine fixed telephone and TV services, and Trios, which also include broadband.

At December 31, 2008, the Company had 262,957 pay TV customers.

Additional Services:

Prepaid Services

Prepaid services have supported the development of the flexible plans. The prepaid service known as Tarjeta Línea Propria (TLP) allows customers to have their own versatile, portable virtual line, while controlling and managing their telecommunications expenses. Users can make calls from any fixed telephone, public phone or enabled mobile phone, and surf the web on a broadband connection using Wi-Fi or through dialup access. Additionally, the TLP allows customers to recharge the Super Economy Line and the bundled Prepaid Broadband through prepaid or postpaid lines.

At December 31, 2008, 15.7 million TLPs had been sold at Ch\$ 1.00 each. Total prepaid lines reached 336,973 in 2008.

Value-Added Services

Telefónica Chile markets value-added services to fixed telephone customers. Such services include caller ID (incoming and call waiting), voice mail, call waiting, call forwarding, control of outbound traffic to mobile phones, information and entertainment services (600 and 700 numbers), itemized list of local calls, and guaranteed indoor maintenance.

Long-Distance Business

Telefónica Larga Distancia, a Telefónica Chile subsidiary, offers various domestic and international long-distance services to the general public, as well as services that use this company's telecommunications network for voice, data and image communications.

Telefónica Larga Distancia also serves the voice transportation and capacity needs of other telecommunications companies, including carriers, mobile companies and Internet Service Providers (ISPs). This makes it possible to optimize network capacity both domestically and internationally.

This business continues to face major challenges as a result of growing penetration by the mobile industry and Internet access services. Even so, the Company's strategy has been to make installed capacity profitable and create innovative product plans that generate traffic, ensure customer loyalty and allow the Company to lead the industry.

In 2008, Telefónica Larga Distancia installed the Puerto Natales - Cerro Castillo fiber-optic network, having been awarded the contract in the public tender held by the Telecommunications Development Fund to provide telecommunications infrastructure for residents of rural areas in the region.

During 2008, Telefónica Larga Distancia was able to overcome the negative industry trend, positioning itself as market leader.

Corporate Communications

Through the Telefónica Empresas subsidiary, the Corporate Communications business area aims to provide a comprehensive response to the communications needs of the larger and more complex organizations operating in Chile, in view of their distinctive requirements. Telefónica Empresas clients include ministries, public institutions, and both domestic and global corporations and large companies engaged in all manner of economic activities.

Communications are an essential and inseparable component of these clients' mission-critical processes, requiring the assistance of a partner to manage complex technologies and maximize their associated opportunities. For this reason, the services provided by Telefónica Empresas are subject to two constant challenges: ever-increasing capacity, availability and quality standards, and the need for progressive convergence and integration of technologies. By integrating technologies, the Company delivers solutions that add value to the customers' businesses, meeting their requirements more efficiently.

The main services provided by Telefónica Empresas include data transmission, primarily through IP technology. In some cases, circuit-based solutions and traditional data network services such as ATM and Frame Relay are provided. The Company also offers PABX-based solutions, videoconferencing services, advanced telephony solutions and private IP Telephony and IP Centrex solutions based on the Next Generation Network (NGN) infrastructure.

This is supplemented with international services tailored to each customer's needs. These services take advantage of Grupo Telefónica's international presence and network, delivering relevant added value for global customers.

In recent years, Telefónica Empresas has begun offering Networked IT services that ensure the availability, protection and operational continuity of a company's information systems and involve managing the infrastructure at both the customer's facilities and the Telefónica Chile Datacenter. Telefónica Empresas also provides and manages the IT equipment and voice terminals, as well as integrated corporate connectivity and Internet access for the customer's employees, with features tailored to each position.

In 2008, major projects were undertaken with public-sector (e.g., the Office of the Deputy Minister of Interior, Hospital Militar, Banco del Estado) and private-sector clients.

Other businesses

t-gestiona

Telefónica Gestión de Servicios Compartidos Chile S.A. (t-gestiona), a subsidiary of Telefónica Chile, provides support services to all Company subsidiaries and other Grupo Telefónica companies.

The t-gestiona strategy is aimed at positioning the company as a provider of shared services, mainly within the Grupo Telefónica. These services include logistics, e-learning, accounting, insurance, collections, payroll, real estate management and general services.

Fundación Telefónica

Fundación Telefónica is a nonprofit organization tasked with developing and channeling the community and cultural activities of the Grupo Telefónica companies in Chile.

In its ongoing support of digital literacy in Chile, Fundación Telefónica has not only provided Internet training for teachers, students, community leaders and the disabled; it also continues making efforts to contribute to and improve quality and equal opportunity in Chilean education. Over the years, its projects have trained more than 30,000 teachers in educational uses of the Internet; more than 60,000 people have been introduced to the world of the Internet; more than 5,500 disabled individuals have improved their potential by being trained in new technologies (500 in 2008); and more than 30,000 students have seen how the Internet can support their academic education (12,500 in 2008). In 2008, the Fundación Telefónica media portal www.educared.cl developed educational contents in the sciences, technology and mathematics, receiving almost one and a half million visits during the year. In early 2008, it was named Best Ibero-American Portal by the Spanish-American Association of Research Centers and Telecommunications Companies (AHCJET). These efforts are supplemented through the Education through Art program, which links the exhibits in the Fundación Telefónica exhibition hall to school curricula.

Fundación Telefónica also continues to promote the Educational Internet project, which has provided free Internet connections to more than 5,500 educational establishments throughout Chile.

In 2008, the Foundation continued its program of support for integration of the handicapped. Fundación Telefónica has continued traveling throughout Chile, training handicapped youth and their teachers and tutors, free of charge, to access the SICLA (Alternative Communication System) software which allows them to communicate by computer through a text and image to voice converter. Over 2,000 young people throughout Chile, from Arica in the north to Punta Arenas in the south, have benefited from this program and are now using SICLA to communicate with their immediate environment.

Another important program sponsored by the Foundation is Proniño, a community initiative providing support for children and youth at social risk by offering full scholarships that allow them to continue their education. In addition, the Volunteer Army made up of some 1,500 individuals and led by Fundación Telefónica organized various support activities and fundraisers in 2008 that directly benefited more than 7,000 underprivileged people.

In addition, in 2008, the Fundación Telefónica Hall of the Arts presented the highly successful exhibit *Cubism and its Surroundings* with works from the Telefónica España art collection, notably by Juan Gris and other world-renowned artists. This was followed by *Territories and Existences, Gobi- Southern Atacama*, an exhibit by Magdalena Correa, and *Tesla, a Digital Culture Encounter*, a collective exhibit of the work of major Chilean artists. As a form of national cultural outreach, the Foundation also continued its traveling photo exhibit *One Day in Chile*, which visited the cities

of Temuco, Talca and Curicó.

Analysis of Consolidated Results

Operating income for 2008 totaled Ch\$ \$685.268 billion, a slight 0.9% decrease in real terms compared to the previous year. In the context of the Company's service bundling strategy, this was mainly due to the fact that lower revenues from traditional fixed telephony and long distance services were offset by increases in revenues from minute plans, which grew 2.4%, from pay TV and broadband services, which were up 43.4% and 10%, respectively, and from the Corporate Communications business, which grew 2.3% with respect to 2007.

Operating costs for 2008 amounted to Ch\$ 628.170 billion, a 2.2% increase in real terms compared to 2007. This was mainly due to higher costs associated with increases in accesses and IP capacity leasing, and higher costs of equipment maintenance and commercial activities associated with new business development.

By reason of the above, operating results for 2008 totaled Ch\$ 57.098 billion, down 25.7% from 2007, yielding an 8.3% operating margin compared to the 2007 margin of 11.1%. Meanwhile, EBITDA for the year totaled \$270.463 billion, down 13.0% compared to 2007. EBITDA margin was 39.5% compared to 45.0% in 2007.

Non-operating results yielded a Ch\$ 8.106 billion deficit at December 31, 2008, which compares favorably with the 2007 deficit of Ch\$ 28.931 billion. This was mainly due to the impact of the sale of Telemergencia and the positive monetary correction of Ch\$ 29.142 million resulting from fluctuations in the CPI, the Unidad de Fomento and the exchange rate.

At December 31, 2008, Telefónica Chile posted consolidated net earnings of Ch\$ 17.612 billion, a 49% increase compared to 2007 which, additionally to operating income obtained, was favoured by Ch\$ 11.3 billion in net earnings generated by the sale of the Telemergencia subsidiary.

Investment and Financing

Investment

In 2008, Telefónica Chile's investments totaled Ch\$ 151.546 billion, equivalent to US\$ 238 million.

These investments were chiefly focused on consolidating business growth, basically for broadband, projects for the corporate segment and digital television, which account for 64% of the total for the year.

In the fixed telecommunications business, investment funds were used for commercializing lines with minute plans and for maximizing the use of installed capacity, focusing on network deployment in areas of real estate development.

The investment plan for the year emphasized initiatives aimed at updating network infrastructure by replacing old equipment and introducing new generation technologies (IP), with a view to attaining high service quality standards with more stable and flexible platforms.

Additional emphasis was placed on simplifying the processes and systems that support Company operations, thus improving the support tools for the Company's business, technical and administrative management.

Financing

At December 31, 2008, the total financial debt with coverage was Ch\$ 436.734 billion (equivalent US\$ 686.2 million), which meant a reduction of Ch\$ 21.195 billion (equivalent to US\$ 33.3 million) over the course of the year, due to derivative payments and amortizations of Series F bonds in April and October 2008.

The sources of financing were operating funds, which allowed the Company to make year investments and to distribute to shareholders a total of Ch\$ 50.031 billion (equivalent to US\$ 78.6 million) in 2008.

The breakdown of financing activities in 2008 is as follows:

22 **Telefónica Chile S.A.** | Annual Report 2008

Repayments and Derivatives

Ch\$ 1.463 billion (equivalent to US\$ 2.3 million) to amortize Local Series F Bonds (April and October). The derivatives payments were associated with the principal on the US\$ 150 million loan that matured in December 2008 and was refinanced in June of that year.

Renegotiation of International Bank Loan:

On June 23, 2008, the Company renegotiated an international bank loan of US\$ 150 million in advance of its maturity.

The loan was structured as a five-year bullet term loan with interest rate at LIBOR plus a 0.60% annual spread.

The financing was granted through a Club Deal including Banco Santander, Banesto, Bank of Tokio, BBVA, Caja Madrid, EDC and Rabobank.

Given the 2008 market's tighter credit and higher borrowing costs, this transaction is evidence of bank confidence in Telefónica Chile, and acknowledgment of the Company's soundness and creditworthiness.

Change in debt restriction due to adoption of the IFRS

In December 2008, Telefónica Chile agreed with both its bank creditors and local bondholders to adjust the debt-to-equity ratio, the sole current financial limitation, to conform to the International Financial Reporting Standards (IFRS). As a result, as of 2009, the debt limit is total liabilities covered assets/ shareholders' equity less than or equal to 2.5 times.

The Company maintains a healthy debt ratio, which equaled 0.87 times at December 2008 compared to 0.86 times at year-end 2007. Likewise, the Company's interest coverage ratio (EBITDA/ net financial expense) reached to 9.9 in December 2008.

Foreign Exchange and Interest Rate Management

The Company maintains US dollar-denominated financing, with floating interest rates in certain cases. As a result, Telefónica Chile is exposed to financial risks arising from foreign exchange and/or interest rate fluctuations. For this reason, the Company determines the levels of coverage required for each period based on its exposure.

In 2008, the Company maintained coverage for 100% of its financial debt against fluctuations in foreign exchange and financial expenses up to the maturity of its financial obligations. Thus at December 31, 2008 it maintained foreign currency derivatives covering dollar-denominated liabilities in the amount of US\$500 million through Cross Currency Swaps. At the same time, it maintained interest-rate fluctuation coverage on 14% of the fixed rate debt at year-end 2008. It is important to note that the Company uses derivative financial instruments available on the domestic and international markets for these purposes.

Property, Suppliers, Logistics and Insurance

Property

The property, plant and equipment owned by Telefónica Chile and used in its business activities, such as buildings duly listed in the Real Estate Registry, switching centers, external networks, customer terminal equipment, furniture and office equipment and other business-related items, are distributed throughout Chile.

The Company also operates public and private switching exchange networks, wired circuits, local and long distance fiber optic, radio and microwave circuits.

In 2008, Telefónica Chile sold property deemed nonessential for its business.

Suppliers

In 2008, Telefónica Chile's procurement totaled US\$533 million (approximately Ch\$ 335 billion), which was awarded to 1149 suppliers. The Company's top suppliers by volume under contract were the following: Sice Agencia in Chile, Telefónica Multimedia Perú, Consorcio RDTC S.A., Cisco System, Alcatel Lucent Chile S.A., Servicio de Televisión Canal del Fútbol Ltda., Telconsur Ltda., Huawei (Chile) S.A., IBM Chile S.A. and TIWS Chile S.A. A full 90.3% of Telefónica Chile's purchases were awarded to local suppliers.

Moreover, 69.8% of purchases fall under the market products and services and construction categories. The rest is distributed among network infrastructure, information systems and, to a lesser extent, advertising and marketing.

In the Adquira e-commerce platform, use of electronic auctions to negotiate purchases is on the rise. This auction system provides greater transparency and objectivity in the purchasing process, gives equal opportunity to all bidding suppliers, and both simplifies and helps to streamline procurement management. The volume of purchases awarded through this system reached US\$ 143.5 million, through 199 procurement processes.

In addition, an e-procurement platform for purchase order management has been implemented to complement the Adquira e-commerce platforms. This platform provides Telefónica Chile with a service that facilitates, streamlines and simplifies its procurement and order management processes by automatically sending suppliers requests and purchase orders.

Finally, in keeping with Telefónica Chile's Operating Principles, the Company has begun to require all suppliers wishing to be part of its Suppliers Catalogue to complete the Social and Corporate Responsibility questionnaire in order to make it subsequently possible to monitor their compliance.

Trademarks

In order to distinguish and market their products domestically, the Company and its subsidiaries use various trademarks, which are duly registered with the Ministry of Economy's Industrial Property Department.

Insurance

Pursuant to its risk management policy, the Company decides whether to transfer risks to insurance companies on a case-by-case basis. If it elects to do so, it applies standard coverage available on the market or adapts coverage to the specific risk in particularly complex cases.

The Company's assets are fully insured against physical damage and lost income due to service shutdown. This coverage includes, but is not limited to, the risk of fire and associated risks, earthquake, natural disasters, theft, shipment risk, political risk, cyber risk, employee disloyalty, and domestic transport. The insured amount totals approximately US\$ 2.7 billion.

For work performed by independent contractors, overall insurance quotes are requested and coverage is adapted to conform to the contractor's activities.

The Company also has liability insurance for damage/injury to third parties, as well as other insurance covering executives, staff, vehicles, and imports of equipment and materials.

Risk Factors

Competition

Telefónica Chile faces stiff competition in all of its business areas and believes that this high level of competition will continue. In order to confront this challenge, the Company continually adapts its business and product strategies, striving to satisfy the demands of current and potential customers, innovating and aiming for excellence in customer service.

New Tariff Decree

Approximately 19% of the Company's 2008 revenues are subject to tariff regulation. The tariffs set for the new five-year period starting in May 2009 may affect the Company's revenues and ability to compete in the marketplace.

Technological Changes

The telecommunications industry is subject to rapid and significant technological advances and the introduction of new products and services. It is impossible to predict the effect of such technological changes on the market or on Telefónica Chile, or whether the Company will need to make significant investments in the development or implementation of new competitive technologies.

The Company is also unable to predict whether these technologies or services will replace or supplement the products and services it currently offers. Telefónica Chile is constantly evaluating the introduction of new technologies in light of their potential costs and benefits.

Chilean Economy

Since Company operations are located in Chile, they are sensitive to, and depend on, the country's level of economic activity. During periods of slow economic growth, high levels of unemployment and contraction of domestic demand, local and long distance telephone traffic has been affected, and payment delinquency levels have also increased.

Financial Risk

Because the Company maintains a significant portion of its debt in foreign currency and at floating interest rates, the volatility and fluctuation of the peso with respect to other currencies, as well as changes in domestic and international interest rates, may affect the Company's earnings. Therefore, management continuously evaluates its foreign exchange and interest rate risk management policies (see "Foreign exchange and interest rate risk coverage management").

Telefónica Chile S.A. | Annual Report 2008 27

The Company

Shareholder Information

Composition of Capital Stock

At December 31, 2008, the Company's capital stock was composed of 957,157,085 fully subscribed and paid-in shares, divided into 873,995,447 Series A and 83,161,638 Series B shares.

Shareholders Meetings

A General Shareholders Meeting of Telefónica Chile was held on April 14, 2008. All items submitted to a vote were approved, including the 2007 Annual Report, Balance Sheet and Financial Statements, and payment of a final dividend (No. 175) of Ch\$ 5.27606 per share totaling Ch\$ 5.050 billion, which was charged to fiscal-year 2007 profits and paid on May 14, 2009. At a Special Shareholders Meeting held on the same date, shareholders approved amending the corporate bylaws to allow a capital reduction of Ch\$ 39.243 billion for purposes of distributing additional cash to shareholders. The capital distribution was equal to \$41 per share and was paid on June 13, 2008.

On September 17, 2008, Telefónica S.A., acting through its subsidiary Inversiones Telefónica Internacional Holding Limitada, filed a Tender Offer for the remaining 55.1% of the shares of Telefónica Chile with the securities market regulatory authorities in the United States and Chile. The Tender Offer was for any and all Telefónica Chile shares trading (in the form of American Depositary Shares, ADSs) on the Santiago and New York exchanges, at a price per share of Ch\$ 1,000 for Series A shares and Ch\$ 900 for Series B shares.

Among other suspensive conditions, the Tender Offer was subject to approval at a Special Shareholders meeting of an amendment to the bylaws, which at the time limited any shareholder's stake to 45%. Although 55% of the shares voted in favor, the 75% majority required for approval was not achieved and the amendment was not approved.

On October 7, 2008, a third Telefónica Chile Special Shareholders Meeting was held to submit the aforementioned amendment to a vote after the terms of the offer were modified. This time, the

The Company

Stock Performance

In 2008, the combined volume of the CTC-A and CTC-B stocks traded on the Santiago, Electronic and Valparaíso Securities Exchanges totaled US\$ 426 million, while the prices of both stocks rose, driven by the Tender Offer launched by Telefónica. CTC-A closed at Ch\$ 1100, up 18.9% compared to the 2007 closing price, in contrast to the drop in the Selective Stock Price Index (IPSA) and General Stock Price Index (IPGA), which fell 22.1% and 19.4%, respectively. In turn, CTC-B rose 11.4%, closing at Ch\$ 980.

In 2008, in addition to distributing dividends, the Company carried out, in June, a capital reduction equivalent to Ch\$ 41 per share. The total amount distributed to shareholders in 2008 was US\$ 78.6 million, i.e. Ch\$ 52.3 per share, which is equivalent to 4.8% of the CTC-A share price at December 31, 2008.

The volume of Telefónica Chile ADRs traded on the New York Stock Exchange (NYSE) totaled US\$ 177 million, 50.3% lower than the volume traded in 2007. The INTER-10 index, which measures the price variation in the shares of Chilean companies listed on the NYSE, rose 8.3% in 2008. On the other hand, the price of the Telefónica Chile ADR (1 ADR = 4 CTC-A shares) closed the year at US\$ 6.2, down 16.9% compared to 2007.

Compañía de Telecomunicaciones de Chile S.A. Dividend Distribution Policy

The following is the Dividend Distribution Policy approved at the General Shareholders Meeting of April 14, 2008.

1. For fiscal year 2008 and subsequent years, the Board of Directors intends to distribute 100% of net profits generated during the respective year through a provisional dividend to be distributed in November of each year and a final dividend to be distributed in May of the following year, which will be submitted for approval at the relevant General Shareholders' Meeting. In addition, for the following fiscal year, if there is surplus cash once all business-related commitments have been met, the Board of Directors intends to supplement the aforementioned dividends by distributing a portion of these funds, following submittal at the respective Shareholders Meeting for approval.
2. The amount of the provisional November dividend shall be determined each year based on the earnings for the January- September period of such year.
3. The General Dividend Distribution Policy shall be in keeping with the objectives set forth in the Company's Financial Plan.
4. This policy reflects the intent of the Board of Directors, and its fulfillment shall be contingent upon the actual profit and surplus cash earned, as well as on the Company's periodic projections or the presence of certain conditions, as the case may be.
5. Dividend payment procedures shall be as follows:

To collect dividends, shareholders may choose one of the following options:

Deposit in a checking account held by the shareholder.

Deposit in a savings account held by the shareholder.

Payment by check or cashier's check sent by certified mail to the shareholder's address of record.

Payment by check or cashier's check to be collected at the offices of DCV Registros S.A., the company responsible for managing the stock ledger for Compañía de Telecomunicaciones de Chile S.A., or at a bank designated by DCV Registros S.A. This form of payment will remain effective throughout the term of the respective agreement with DCV Registros S.A. Otherwise, payment by check or cashier's check may be collected at the offices of the Company, located at Avenida Providencia 111, Santiago, or at a bank designated by the Company in due course.

Checking or savings accounts held anywhere in Chile may qualify for these purposes.

It should be noted that the form of payment selected by each shareholder shall be used for all dividend payments, unless the shareholder provides written notice of change and lists a new option.

Shareholders failing to indicate a form of payment shall be paid by check in accordance with Payment Option 4 above.

In the case of bank account deposits, bank verification may be requested for security reasons. If the accounts indicated by shareholders are denied, whether based on a verification procedure or for any other reason, the dividend shall be paid in accordance with Payment Option 4 above.

ADR holders shall be paid through the Depositary Bank, under the provisions of Title I, Chapter XXVI of the Compendio de Normas de Cambios Internacionales (Compendium of International Foreign Exchange Regulations) of the Central Bank of Chile and the Deposit Agreement between Citibank N.A. and Compañía de Telecomunicaciones de Chile S.A.

Investment and Financing Policy of Compañía de Telecomunicaciones de Chile S.A. and Subsidiaries for the year 2008

General Policy

In 2007, Compañía de Telecomunicaciones de Chile S.A. (hereinafter *Telefónica Chile* or the *Company*) will focus on investing in all business areas defined in its Bylaws, with particular emphasis on the following objectives:

Meeting the communications needs of current and prospective customers of the Company and its Subsidiaries by providing telecommunications, information and audiovisual communications services using the range of available technology, provided that the regulatory framework allows adequate profitability for shareholders.

Expanding the Company's activity domestically and internationally through new business opportunities in markets where its telecommunications knowledge and experience allow it to compete profitably.

Implementing a modern management strategy aimed at maximizing Company value by innovatively and efficiently organizing employees and resources involved in the operation and development of the telecommunications business.

Ensuring that invested funds are adequately allocated and solvency indicators are met, consistent with domestic and international economic conditions.

This policy framework is applied to the specific structure of the Telefónica Chile group of companies, with each company independently managing and optimizing its own businesses within the limits of the group's general policies and financial controls, and subject to the decisions of each company's own Board of Directors.

- Investment Policy

As described in the General Policy, Telefónica Chile will make the necessary investments to achieve its corporate objective, pursuant to its Bylaws and the above-described goals. To this end, the Company's Management has sufficient power and authority to invest in the telecommunications business on the basis of the regulatory framework in effect from time to time, seeking to derive an appropriate level of profitability from its various investment projects in line with technical and economic criteria.

Telefónica Chile will invest in telecommunications-related businesses areas by undertaking projects either directly or through its subsidiaries and, if applicable, by creating and/or acquiring an interest in joint ventures or corporations.

Following is a description of the primary investment projects scheduled by the Telefónica Chile Group for 2008.

The Company

1. Areas of Investment

a) Network Infrastructure

Telefónica Chile's network infrastructure comprises fixed telephony, data, long-distance and IP network platforms. These networks include telecommunications systems and equipment as well as associated intangible assets and provide the integrated physical, technological and operational support for the services the Company offers its customers. The associated investments are described below:

Line Plan

In 2008, Telefónica Chile will continue using available installed capacity to expand service, subject to the tariff and regulatory environment. Associated investments involve minor external work aimed at the efficient use of available capacity and internal equipment when demand and the return on such investments so warrant.

Quality of Service

Improving service quality is a vital element of management, and includes a variety of work aimed at replacing equipment, supporting the networks, preventive maintenance, corrective maintenance due to accidents and third party damage, and providing and replacing tools to better manage network capacity, thereby ensuring reliability in line with international standards.

Long Distance Voice and Data Network

Investments in this area include the ongoing development of a domestic and international fiber optic network to ensure the quality of long distance communications, and, based on the Multi-Service Network, creating the infrastructure required to support current and future bandwidth needs and maintain current quality-of-service levels..

Corporate Communications

The Company will continue to develop data network projects and implement private networks, according to demand and the requirements of customers, companies and corporations. The Company will also offer integrated solutions based on dedicated and switched communication products and services. It will also continue development of the IP network in order to provide a differentiated service offering.

b) Sale of Lines

These investments are related to the connection of residential lines, line transfers, extensions, annexes, and others.

c) Public Telephony and Terminal Equipment

These investments are necessary to maintain public telephones and purchase basic terminal equipment for the marketing and sale of lines and advanced equipment with new features that provide new services.

d) Interconnections

These investments include interconnections with long distance carriers, fixed telephone companies, mobile telephone companies and Internet service providers (ISPs). They also include investments in the various services related to network unbundling.

e) [Process Management Support Information Systems](#)

These investments are necessary to provide Telefónica Chile with the information technology infrastructure required to automate and coordinate its business processes and better serve its customers, in line with the most efficient global practices.

f) [Broadband and Internet Expansion](#)

Telefónica Chile will continue to implement broadband technologies through the integration of xDSL platforms and

36 [Telefónica Chile S.A.](#) | Annual Report 2008

technologies, deployment of wireless developments (Wi-Fi), addition of new services for broadband customers, remote monitoring and security services, among other initiatives.

g) Television and Contents

In 2008, Telefónica Chile will continue developing and investing in the business of television signal distribution and entertainment through digital and interactive media.

h) Other Businesses

Through its subsidiary Telefónica Empresas, Telefónica Chile will promote web hosting, transaction services, telecommunications outsourcing services and computer services for corporate clients.

i) Other Investments

These include investments in office and computer equipment for administrative areas, the improvement of administrative and customer service spaces and other minor investments.

2. Estimated Investment

Telefónica Chile's maximum investment limit will be based on the cost of implementing the projects previously defined under Areas of Investment, within the regulatory framework, in order to allow the Company to meet new customer demand using existing capacity. The investments are expected to ensure an appropriate return for the Company, provide new services as required by corporate customers, maintain high quality-of-service levels, and support operational and administrative management based on the demands of the Company's growing customer base.

The maximum investment in partnerships or corporations, both domestically and internationally, is set at 25% of shareholders' equity on the last consolidated quarterly balance sheet filed with the Superintendencia de Valores y Seguros (Chilean Securities Exchange Commission).

3. Investment in Financial Instruments

Investments will also be made in financial assets in order to maximize the yield from cash surpluses and offer adequate protection for Company liabilities denominated in various currencies and subject to variable interest rates. The investment portfolio will be diversified along the lines of liquidity, profitability and issuer risk as determined by Company Management, taking also into consideration the coverage of liabilities.

4. Role in Controlling Areas of Investment

Since its investment projects are primarily related to its own line of business, the Telefónica Chile group of companies has control over the projects various stages of development. Should new business ventures require third-party involvement the Company will enter into appropriate agreements to define the relationship with such third parties.

II.- Financing policy

In 2008, emphasis will be placed on seeking alternatives to strengthen the Company's financial structure through new financing arrangements and current debt renegotiation.

The financing sources for 2008 investments will be managed in keeping with the Company's long-term Financial Plan. The funding required during 2008 will be obtained internally; through traditional borrowing; from the sale and leasing of real estate and other property, with or without purchase options; from public or private debt instruments, whether convertible or not, in Chile or abroad; through loans from financial institutions; and in the form of supplier credit, securitization of assets and capital contributions, if strategic considerations so warrant. Other financing alternatives available on the local and international financial markets may also be considered if they provide an adequate liability structure and minimize costs.

Internal resources include book depreciation, other amortization and net profits for the period.

The maximum consolidated debt-to-equity ratio (indebtedness) of the Telefónica Chile group of companies may not exceed 1.6. Indebtedness shall be defined as the result of dividing Debt by Equity. Debt shall be defined as total consolidated liabilities, and Equity as the difference between total consolidated assets and consolidated liabilities. All figures used to calculate this ratio shall be computed as of the same date and in constant currency.

The Company will obtain external financing from financial institutions and on the public market, and will finance its subsidiaries as needed.

III.- Management's Authority to Enter into Agreements with Creditors Providing for Guarantees and Restrictions on the Distribution of Dividends.

Notwithstanding restrictions provided by law or the Bylaws regarding collateral or security interests securing third party obligations, the Company's management shall not agree to furnish collateral or security interests to secure the obligations of the Company or third parties other than subsidiaries unless such action is approved at a Special Shareholders' Meeting. These restrictions shall not apply to monetary obligations resulting from balances on the purchase of real estate or other property secured by the assets being purchased.

The Company may agree with creditors to restrict the distribution of dividends only if so approved at a shareholders meeting.

IV.- Assets Essential to the Operation of Compañía de Telecomunicaciones de Chile S.A.

Assets essential to the operation of Compañía de Telecomunicaciones de Chile S.A. include all networks and switching centers, primary facilities and equipment in service, including real estate and easements required by these facilities for their operation and protected under the respective licensing decrees. Notwithstanding the foregoing, such assets may be modified or replaced in the event of technical or economic obsolescence.

The essential assets of Compañía de Telecomunicaciones de Chile S.A. additionally include 51% of the capital stock of Telefónica Larga Distancia S.A and Telefónica Empresas Chile S.A., and the assets required to operate such companies, whether owned by such companies or under lease from Compañía de Telecomunicaciones de Chile S.A. and protected under the respective licensing decrees, as well as any assets modifying or replacing the above for reasons of technical or economic obsolescence.

Furthermore, should either of the subsidiaries Telefónica Larga Distancia S.A or Telefónica Empresas Chile S.A. intend to dispose of any or all of the assets indicated in the foregoing paragraph, Compañía de Telecomunicaciones de Chile S.A. shall call a special shareholders' meeting to determine its position regarding the sale and the terms thereof.

V.- Management's Authority to Execute, Amend or Terminate a Purchase, Sale or Lease Agreement for Goods and Services Required for the Normal Operation of Compañía de Telecomunicaciones de Chile S.A.

In addition to the power and authority vested in it, the Company's management shall, pursuant to its Bylaws, have sufficient power and authority to execute, amend or terminate, within the applicable legal framework, any purchase, sale or lease agreements for goods and services required for the normal operation of the Company, subject to prevailing market conditions for goods or services of the same type, quality, characteristics and condition.

However, Management may not dispose of any assets or ownership rights deemed essential to its operation without prior approval at a special shareholders' meeting.

Board of Directors

In accordance with the Company's Bylaws, the Board of Directors is comprised of seven directors and their respective alternates.

Six directors and their alternates are elected by holders of Series A shares, and one director and his/her alternate by holders of Series B shares. Alternate directors take part in Board meetings and may only vote in the absence of their respective director. Company Bylaws require that the director and alternate director elected by holders of Series B stock be shareholders in the Company.

If a vacancy occurs on the Board of Directors, the respective alternate director will assume the duties of the vacant directorship for the remainder of the term. Upon any alternate director's resignation, death, or legal disqualification, the Board may appoint a replacement to serve until the next General Shareholders' Meeting, where elections shall be held for the entire Board.

The current Board of Directors of Telefónica Chile was elected at the General Shareholders' Meeting held on April 13, 2007 for a three-year term, with the exception of Raúl Morodo Leoncio, who was appointed on April 23, 2008 for the remainder of the period.

At December 31, 2008, the Board of Directors is made up of the following directors and alternates:

Compensation of the Board of Directors

Each Telefónica Chile director and alternate director receives monthly compensation (fees) equal to 120 UTM (Chilean inflation-adjusted monetary unit, equivalent to Ch\$ 37,652 at December 31, 2008) for attending Board meetings, being required to attend at least one meeting per month. The Chairman of the Board of Directors receives twice the compensation paid to each director, while the Vice Chairman receives 1.5 times the compensation of each director. Directors' compensation is approved annually at the General Shareholders' Meeting, and represents the sole compensation paid to the Directors.

Subsidiaries pay no compensation to their directors.

Telefónica Chile S.A. | Annual Report 2008 41

(1) On April 27, 2006 the Board of Directors of Telefónica Chile approved various changes in its makeup. It accepted the resignations tendered by Series A Director and Chairman of the Board Mr. Bruno Philippi. Mr. Emilio Gilolmo López was appointed Series A director and Chairman of the Board. At the same meeting, Series A Alternate Directors

Messrs. Juan Carlos Ros and Guillermo Ansaldo resigned and were replaced, respectively, by Messrs. Manuel Alvarez Trongé and Manoel Amorin.

(2) On November 21, 2007 resigned as Series A Alternate Director and were replaced by Mr. Raúl Morodo Leoncio as of April 23, 2008.

(3) On April 23, 2007 was designed as Series A Alternate Director.

2008 Board of Director s Expenses

In 2008, additionally to the cost of the cellular equipment assigned to each Board member, the Company incurred expenses of foreing legal advicing associated with legal opinions required from directors in relation with Telefónica s Tender offer. These expenses amounted to US\$90,000.

Corporate Oversight and Governance

Director s Committee

Pursuant to Article 50 bis of Law 18,046, all publicly held companies having market capitalization greater than or equal to UF 1,500,000 must appoint a Directors Committee, comprised of three directors, the majority of whom must be independent of the controlling shareholder.

The members of the Directors Committee were elected by the Board of Directors at a meeting held on April 23, 2007, and are as follows:

Director

Emilio Gilolmo López
 Patricio Rojas Ramos*
 Hernán Cheyre Valenzuela*

*Director independent of controlling shareholder.

Alternate

José María Álvarez-Pallete López
 Benjamín Holmes Bierwirth*
 Carlos Díaz Vergara *

Director s Committee Budget and Compensation

The 2008 Directors Committee budget and monthly compensation were approved at the General Shareholders Meeting held on April 14, 2008. Each director and alternate receives a monthly compensation of UF 30, provided he/she has attended at least one meeting during the month. It was also agreed to maintain the operating budget of the Directors Committee at Ch\$ 75 million. The Committee did not make use of this budget.

Directors Committee Duties and Activities

As provided by law, the duties of the Directors Committee are: to review the internal and independent auditors reports, balance sheet and other financial statements as presented by management and to issue an opinion prior to their presentation to the shareholders; to suggest independent auditors and risk rating agencies to the Board of Directors for subsequent submittal at Shareholders Meetings; to examine, and report on, the background of any transactions relating to Articles 44 and 89 of the Corporations Act; to review the compensation and bonuses received by the chief executive officer and senior executives; and any other duty entrusted to such Committee under the Bylaws, pursuant to a Shareholders Meeting or by the Board of Directors.

In 2008, the Directors Committee held monthly meetings, reviewing matters within its jurisdiction, including the following transactions, which were subsequently approved by the Board of Directors at the Committee s recommendation.

		Compensation 2008 Total (In Ch\$ at 12/31/08)	Compensation 2007 Total (In Ch\$ at 12/31/2007)

JANUARY:**Telefónica Empresas Chile S.A.**

At meeting No. 676 held on January 30, 2008, Telefónica Empresas Chile S.A. was awarded a two-year general contract for US\$1,408,833 as well as a regular purchase in the amount of US\$ 231,356, to cover the first four months of 2008 in terms of satisfying the service demand of SME and Wholesale clients requiring a Cisco router.

MARCH**Casiopea re**

At meeting No. 677 held on March 5, 2008, the Committee agreed to renew the insurance on the assets of Telefónica Chile and its subsidiaries with Casiopea Re (the reinsurance company of Grupo Telefónica) for the March 31, 2008 to March 31, 2009 period, pursuant to a policy issued by Mapfre Seguros Generales. This insurance coverage includes, but is not limited to, the risks of fire, natural disasters, theft and assault, securities remittance and employee disloyalty. The insured amount totals US\$2.669 billion, including buildings, internal equipment, external facilities (excluding aerial cable), inventory, office furniture and equipment, computer equipment, radio and transmission equipment and operating revenues. The premium is US\$ 987,071, substantially lower than the average market rate, with a claim limit of US\$ 400 million.

Regional Synergies Project.

At meeting No. 677 held on March 5, 2008, the Committee approved the allocation of 3.5 million to the Regional Synergies projects in order to continue the Synergies and Efficiencies projects that had been approved for the 2007 fiscal year for a total of 670,000. These projects produce a savings of approximately 16.9 million.

APRIL:**Telefónica Móviles Chile S.A.**

At meeting No. 679, held on April 23, 2008, the following was approved:

- 1) Execution of leasing agreements for commercial space with Telefónica Móviles Chile S.A. (a Grupo Telefónica company), aimed at increasing Telefónica Chile's presence in nontraditional venues such as shopping centers and supermarkets and reducing leasing expenses. Telefónica Móviles Chile S.A. was also tasked with negotiating Telefónica Chile's current leasing agreements for a commission equal to 1- 2% of the negotiated monthly rent.
- 2) Execution of subleasing agreements with Telefónica Móviles Chile S.A. for the use of space to sell its products at 14 commercial offices leased by Telefónica Chile. The transaction as a whole represents 82 UF in additional monthly income for Telefónica Chile. The sublease prices were determined on the basis of market levels.
- 3) Execution of a leasing agreement with Telefónica Móviles Chile S.A. for 1,411 square meters in the Bustamante building, including parking spaces, for a monthly rent of UF 1001.84. The rental price is based on market prices and a Universidad de Chile study.

JUNE:

Atento Chile S.A.

At meeting No. 681 held on June 18, 2008, the Commission approved extending the Televentas Outbound agreement for the SME segment with Atento Chile S.A., a Grupo Telefónica company, to August 31, 2008, for an approximate total of US\$ 950,000.

JULY:

Telefónica International Whosales Services S.L.

At meeting No. 682 held on June 22, 2008, the Committee approved the execution of an agreement between subsidiary Telefónica Larga Distancia S.A. and Telefónica International Wholesale Services S.L., a Grupo Telefónica company, as provider of the PSNT-OUT service, similar to the service provided by Skype, which covers only international calls to a Telefónica Chile customer. This transaction will create US\$ 80,000 in revenues from access charges and technological positioning benefits for Grupo Telefónica Chile.

Telefónica International Whosales Services Chile S.A.

At meeting No. 682 held on July 22, 2008, the Committee approved the execution of an agreement between subsidiary Telefónica Multimedia Chile S.A. and Telefónica International Wholesale Services Chile S.A., a Grupo Telefónica company, for satellite leasing in connection with the satellite TV (DTH) business. The prices for 2006, 2007 and 2008 total US \$5.6 million.

AUGUST:

At meeting No. 683 held on August 27, 2008, the Committee approved the report on related transactions approved between January and June 30, 2008, and agreed to Management-approved transactions in amounts under US\$ 250,000.

SEPTEMBER:

Atento Chile S.A.

At meeting No. 684 held on September 25, 2008, the Committee approved extending the Outbound Telesales Agreement with Atento Chile S.A.(a Grupo Telefónica S.A. company) for the SME segment up to December 2008, for a monthly sales cost of Ch\$ 31,000.

NOVEMBER:

Telefónica Multimedia Chile S.A.

At meeting No. 688 held on November 19, 2008, the Committee approved the Computer Services Agreement executed on December 15, 2006 by Compañía de Telecomunicaciones de Chile S.A. and Telefónica Multimedia Chile S.A. for approximately Ch\$ 115 million per year.

Telefónica Multimedia Chile S.A.

At meeting No. 688 held on November 19, 2008, the Committee approved the Engineering and Network Maintenance Agreement executed on September 1, 2006 by Compañía de Telecomunicaciones de Chile S.A. and Telefónica Multimedia Chile S.A for approximately Ch\$ 300 million per year.

Telefónica Empresas Chile S.A

At meeting No. 688 held on November 19, 2008, the Committee approved the Service Agreement executed on February 23, 2007 by Telefónica Multimedia Chile S.A. and Telefónica Empresas Chile S.A. for approximately Ch\$ 30 million per year.

Telefónica International Wholesale Services Chile S.A.

At meeting No. 688 held on November 19, 2008, the Committee approved extending the capacity leasing service for the Santiago (Chile) - Lurin (Peru) circuit via fiber optic link intended to carry CAS control signals. The agreement was entered into between TIWS Chile S.A. and Telefónica Multimedia Chile S.A., for approximately US\$ 354,000 per year.

DECEMBER:

Telefónica Larga Distancia S.A.

At meeting No. 689 held on December 18, 2008, the Committee approved the execution of a Framework Services Agreement between Telefónica Chile and Telefónica Larga Distancia.

Purpose: To bring under a single agreement all services provided by Telefónica Larga Distancia to Telefónica Chile pursuant to previous contracts. These services include: a) Domestic Long Distance Circuit, E1, E3, STM, STM-1 and STM-4 Services with estimated annual billings of Ch\$ 11.300 billion; b) Domestic Long Distance Service for TV with estimated annual billings of Ch\$ 300 million; c) Use of the Advanced Services Platform (PSA), with estimated annual billings of Ch\$ 1.6 billion; d) Satellite Services, with estimated annual billings of Ch\$ 700 million; e) International Internet Access Service (NAP), with estimated annual billings of Ch\$ \$12.2 billion; and f) Domestic Flexible Access Service, with estimated annual billings of Ch\$ 12.4 billion.

Atento Chile S.A.

At meeting No. 689 held on December 18, 2008, the Committee approved the execution of a Services Agreement between Telefónica Chile and ATENTO. Purpose: Professional Services (Task Force) provided by ATENTO to Telefónica Chile for deploying 3 platforms needed for the Company's provision process, for a total of Ch\$ 732 million, including: a) Deployment of a single line dispatch and closing model; b) Redesign of the facility failure and service modification process; and c) Technical feasibility.

Telefónica Gestión de Servicios Compartidos Chile S.A. At meeting No. 689 held on December 18, 2008 the Committee approved the purchase of 1 share of Telemergencia from t-gestiona for Ch\$ 205,793, leading to the dissolution of Telemergencia as Telefónica Chile came to hold 100% of the outstanding shares.

Compliance with the Sarbanes-Oxley Act

The Sarbanes-Oxley Act, enacted in July 2002, contains various requirements aimed at protecting shareholders through mechanisms designed to prevent financial fraud and ensure the accuracy, completeness, reliability, intelligibility, and timeliness of information presented to the markets.

Starting in 2006, the Company requires the opinion of its independent auditors on internal control over financial reporting as part of form 20-F filed with the Securities and Exchange Commission (SEC). An Internal Control Assessment was done by the Internal Audit Office, with the participation and supervision of the independent auditors. The purpose of this endeavor is to lay a foundation for the opinions required under both the corporate internal regulations and the SEC (Securities and Exchange Commission) and PCAOB (Public Company Accounting Oversight Board) standards.

The 2007 20-F form included the independent auditors' opinion on internal control over financial reporting, and there were no remarks on areas needing improvement.

Audit Committee:

On July 21, 2005, an Audit Committee was created with three independent members pursuant to the requirements of the Sarbanes-Oxley Act. Its primary duties relate to independent audits, disclosure of financial statements, and internal audits.

At the Board of Directors' Meeting held on April 23, 2008, Andrés Concha Rodríguez was appointed as Committee Chairman and Alfonso Ferrari Herrero and Hernán Cheyre Valenzuela were appointed as Committee Members. Mr. Cheyre Valenzuela was also designated as financial expert.

Audit Committee Budget and Compensation:

Compensation for committee members and the committee's budget for 2008 were approved at the General Shareholders' Meeting held on April 14, 2008. Each member receives compensation equal to 15 UF per meeting, with a maximum limit of six meetings per year. The annual operating budget is Ch\$37 million.

In 2008, the Committee did not make use of this budget.

	Compensation 2008 Total (in Ch\$ at 12/31/08)	Compensation 2007 Total (in Ch\$ at 12/31/07)
Andrés Concha R.	1,279,344	1,470,530
Hernán Cheyre V.	1,279,344	1,470,530
Alfonso Ferrari H.	320,980	588,042
Total	2,879,668	3,529,102

Complaint Desk:

The Complaint Desk, created specifically to address matters related to accounting, internal control, and financial reporting, commenced operations in July 2005. An electronic service was set up for this purpose pursuant to the requirements of the Sarbanes-Oxley Act. The Audit Committee receives and is responsible for channeling any

complaints submitted.

Policy on Independent Auditor Services:

Telefónica Chile maintains a control policy on Prior approval of services to be rendered by the Independent Auditor. This policy provides criteria for the Company and its subsidiaries when engaging an Independent Auditor to render services other than auditing services, thus ensuring that an Independent Auditor is only engaged for cases that are duly warranted. This policy distinguishes between audit services, non-audit services, and prohibited services.

Assessment of Internal Control over Financial Reporting:

In 2006, form 20-F for the first time included the independent auditors opinion on internal control over financial reporting, in compliance with international guidelines (Rule SOX, section 404), and there were no remarks on areas needing improvement. Since 2004, the Company has used an Internal Control Assessment Model for financial reporting that was created in coordination with Grupo Telefónica pursuant to current legislation. This model is consistent with internal policies regarding market communications and reporting, and is in compliance with internal policies on record-keeping, communication and oversight of financial and accounting information, among other policies. As in previous years, this model was applied in 2008.

46 **Telefónica Chile S.A.** | Annual Report 2008

Code of Ethics and Code of Conduct:

Published in September 2003, the Code of Ethics of Telefónica Chile summarizes and formalizes the principles and values upheld by the Company in its dealings with customers, suppliers, employees, shareholders, and society at large. The full document is available at www.telefonicachile.cl, in the Investors Corporate Governance section.

In May 2007, to supplement the existing Code of Ethics, Telefónica Chile's Board of Directors approved a Code of Conduct. This is a series of general standards associated with honesty and trust, respect for the law, integrity, human rights and specific principles aimed at ensuring the confidence of customers, professionals, shareholders, suppliers and society in general. All workers must be familiar with these principles.

The Ethics Committee assumes the duties, authority and administration of the Code of Conduct Office, which issues ethics directives, conducts process reviews, examines questions, complaints or allegations filed by employees, suppliers or shareholders, and promotes the policies needed for proper observance of the relevant principles.

Loan Policy

Loans to executives are prohibited as of July 2002.

Market Reporting Policy

Effective as of 2005, this policy is designed to determine the actions and controls to be considered when reporting information to the markets, whether such reporting is done pursuant to legal provisions or at the Company's initiative.

Other measures:

Certification of Annual Financial Statements: The Financial Statements contained in the annual report, form 20-F, filed with the Securities and Exchange Commission (SEC) for 2003, 2004, 2005, 2006 and 2007 have been certified by the Company's Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer pursuant to the requirements of the Sarbanes-Oxley Act. Moreover, the 20-F 2006 form and 20-F 2007 form include the opinion of the independent auditors (Ernst & Young) on internal control over financial reporting.

Management Organization and Human Resources

Executive Compensation and Incentive

Executive Compensation

Gross compensations and bonuses paid in 2008 to the executives of the Company and its subsidiaries, including the Chief Executive Officer and senior management, totaled Ch\$ 8.043 billion (salary plus bonuses). In addition, overall benefits paid to these Company and subsidiary executives in fiscal-year 2008 totaled Ch\$ 563 million.

Incentive Plan

The executive compensation plan of Telefónica Chile and its subsidiaries includes an annual incentive plan based on achievement of objectives, individual performance, and contribution to Company results, with a view to linking and directing individual and group efforts to the corporate business strategy.

Human Resources

At December 31, 2008, Telefónica Chile's personnel included 3,892 permanent employees at the parent company and 672 at subsidiaries, for a consolidated total staff of 4,513, broken down as follows:

	Parent Co.	Subsidiaries	Total 2008	Total 2007	08/07 Change
Management and highly specialized staff	151	40	191	194	-3
Direct supervisors and specialized staff	390	71	461	408	53
Professionals	1,426	324	1,750	1,869	-119
Technicians and operators	1,925	186	2,111	1,820	291
Total	3,892	621	4,513	4,291	222

Staff increased by 5.2% (from 4,291 to 4,513) in 2008 compared to the previous year, mainly due to the opening of zone branch offices under a new customer service model. In addition, the Company completed an insourcing process in which individuals contracted as direct labor were hired as permanent Company employees. It should be noted that the Company decided in 2008 to end the business associated with subsidiary Teleemergencia.

Labor Relations

In 2008, the collective labor agreement with the Chilean Telecom Union SINTELF (which has the highest membership in the Company, representing 1,605 employees or 35.6% of the staff) was negotiated in advance of its expiration, achieving a model that modified the parameters for annual compensation and incentive adjustments, basing them on performance, productivity and alignment with business objectives.

Work on the Labor Agenda continued with each of the unions, covering subjects of mutual interest and providing reports on the Company's action in furtherance of the four strategic pillars (Shareholders, Customers, Employees and

Society) and its quarterly financial results. Achievements under the Agenda include the deployment of a nationwide biometric attendance record and the progress made by an internal bipartisan committee dealing with more complex labor issues.

Training and Development

As part of the Company's strategic AHORA plan, a new training model was launched in 2008 to align and maximize individual and collective contributions to Company results by molding individual skills to fit the requirements of the various positions, processes, duties, and business demands. This training model was three-pronged, as follows:

Corporate Training: Corporate and transversal action designed to tackle the Company's strategic needs and/or business requirements, involving the entire organization.

Area transversal training: Action required as the result of projects or business needs affecting a given area or unit.

Job-specific training: Specific action designed to improve individual employee's skill, knowledge, attitudes and performance in view of the duties inherent to their job position.

In 2008, use of this new model brought about a 20% increase in the number of participants and a 120% increase in training hours inside the Company. This was reflected as a positive trend in organizational climate surveys.

Organizational Climate

The 2008 objective was to work on consolidating an organizational climate model that promotes climate management through systematic improvements in employee satisfaction and organizational results.

During the year, the Human Resources area promoted transversal action designed to improve the workers' quality of life. Efforts included the launching of an individual and team recognition program and leadership agendas aimed at fostering direct communication and closer leadership.

In the 2008 *Great Place to Work* survey, Telefónica Chile advanced 30 places and is now ranked 36th in the country. Employee satisfaction rose from 64% in 2006 to 79% in 2008, which for the Company meant climbing from 123rd to 36th place, a leap of 87 places among the more than 200 companies that participate in this survey.

Quality of Life

To foster a distinctive culture, new programs promoting quality of life inside the organization were launched in 2008 as part of the Employee Promise contained in the Company's Strategic Plan.

Among the most relevant is the Club Telefónica, a nonprofit association created for Company employees and offering sports, cultural and social pursuits that encourage participation and collaboration and promote integrated work, personal and family development.

A number of cultural, sports and social activities were held during the year to improve employee satisfaction by creating a good workplace climate that helps achieve Company results.

In addition, employees participated in project contests to obtain funds and financing for sports, recreational and cultural activities designed to suit their individual and team interests, tastes and motivations. As a result of this initiative, in which approximately 3,000 people participated, 87 projects were selected at the national level.

**Additional
Information**

Teleemergencia, a subsidiary that provided home alarm monitoring and security services, was dissolved as of 12.31.08.

General information

Agreements and Contracts: At December 21, 2008, there are no agreements or contracts with subsidiaries or affiliates that materially affect the operations or financial results of the parent company.

Business Relations with Subsidiaries: The business relationships of the Company's subsidiaries and affiliates, with the exception of t-gestiona, are essentially with third parties other than Telefónica Chile or its subsidiaries and affiliates.

Subsidiaries:

Telefónica Larga Distancia S.A.
Publicly traded corporation, registered with and regulated by the Superintendencia de Valores y Seguros (Chilean Securities and Exchange Commission)

Corporate Purpose:

Setting up, installing, managing, marketing, and developing telecommunications facilities, equipment, systems, and terminals for the provision and operation of telecommunications services. The Company will preferentially focus on meeting the telecommunications needs of financial and social centers of development, rural and remote townships and, in general, all the telecommunications needs of the community. The Company may also provide management and/or management consulting services on telecommunications, information, and communications networks, systems and services, and, in general, fulfill any other purpose that its license allows. The Company may also be a member of organizations, institutions, associations, and study groups of an academic, professional or corporate nature as well as any type of entity directly or indirectly related to the Company's activities. The Company may carry out the activities that comprise its corporate purpose either domestically, at the local or nationwide level, or abroad, whether directly or indirectly and on its own behalf or for third parties, through a minority or majority interest in third parties, regardless whether such corporations or other legal entities have an identical or similar purpose or otherwise.

56 **Telefónica Chile S.A.** | Annual Report 2008

Material Events

Reporting Requirements

In accordance with the provisions of Article 9 and Article 10, subparagraph two, of Law 18,045, the Securities Exchange Act, and of Section II, item B, of General Regulation No. 30 and Circulars Nos. 660, 687 and 1,737 issued by the Chilean Securities and Exchange Commission (SVS), the following are the Material Events reported to the SVS in 2008.

MATERIAL EVENTS OF THE COMPAÑÍA DE TELECOMUNICACIONES DE CHILE S.A.

On January 30, 2008, The Company Board of Directors agreed as follows:

- a) To cancel the appointment of Raúl Morodo Leoncio as Alternate Director, reported as a Material Event on December 20, 2007,
- b) To call a General Shareholders Meeting on April 14, 2008, and
- c) Pursuant to the General Dividend Distribution Policy, to submit at the General Shareholders Meeting a proposal to distribute a final dividend against fiscal-year 2007 earnings for a total of Ch\$ 5,050,016,393, equivalent to Ch\$ 5.27606 per share, which, when added to the provisional dividend paid in November 2007 in the amount of Ch\$ 5,806,114,878, complies with the dividend policy provision calling for 100% distribution of net fiscal year earnings.

Reported to the Chilean Securities and Exchange Commission on January 31, 2008.

At a meeting held on March 5, 2008, the Board of Directors of Compañía de Telecomunicaciones de Chile S.A. agreed to call a Special Shareholders Meeting, as provided in Articles 10, 57 and 67 of the Corporations Act and Articles 33 and 44 of the corporate Bylaws, on Friday, April 14, 2008, following the General Shareholders Meeting, at the Claudio García Swears Auditorium of the Company building located at No. 111 Avda. Providencia, Santiago, in order to present the following matters for the shareholders consideration and determination:

- a) Carrying out a capital reduction of Ch\$ 39,243,440,485 (equivalent to Ch\$ 41 per share);
- b) Amending Article Five of the Bylaws insofar as the capital reduction is concerned; and
- c) Adopting the resolutions needed to implement the above changes.

Reported to the Chilean Securities and Exchange Commission on March 5, 2008.

At a meeting held on April 23, 2008, the Company Board of Directors agreed to designate Andrés Concha Rodríguez as Director and Raúl Morodo Leoncio as Alternate Director.

Reported to the Chilean Securities and Exchange Commission on April 24, 2008.

At a meeting held on September 15, 2008, in response to a request by Telefónica Internacional Chile S.A., which holds more than 10% of the Company's voting shares, and pursuant to Article No. 3 of Law 18,048, the Board of Directors of Compañía de Telecomunicaciones de Chile S.A. agreed to call a Special Shareholders Meeting on October 7, 2008 at the Claudio García Swears Auditorium in the Company building located at No. 111 Avda. Providencia, Santiago, to approve an amendment of the corporate Bylaws eliminating the restrictions and references contained therein pursuant to Title XII of Decree Law No. 3,500. Transactions under Articles 44 and 89 of Law 18,046 will also be reported at the same meeting.

Reported to the Chilean Securities and Exchange Commission on September 16, 2008.

The Company Board of Directors agreed to accept the binding offer submitted by an international alarm monitoring company to purchase the customer portfolio and assets of subsidiary Telefónica Asistencia y Seguridad S.A. for Ch\$ 16,356,000,000. The offered price is subject to a due diligence process and the contract will be signed within 30 days as of this date. It should be noted that the subsidiary's assets are not essential assets and account for 0.52% of the total value of the parent company's assets.

Reported to the Chilean Securities and Exchange Commission on September 22, 2008.

In connection with the Material Event reported to the Chilean Securities and Exchange Commission on September 22, 2008, the estimated net effect of the sale in question on Company earnings would be between Ch\$ 11 and Ch\$ 9.5 billion, subject to the completion of a due diligence process included in the Binding Offer document. This effect will be recorded in the fourth quarter of this year in compliance with Generally Accepted Accounting Principles in Chile, provided the transaction is formally closed within the agreed time periods. Moreover, it should be noted that this effect will have a one-time impact on fiscal year earnings and is not recurrent. It is likewise reported that the international company which made the accepted offer is not related to the Company.

Reported to the Chilean Securities and Exchange Commission on September 25, 2008.

Shareholders acting at a Special Shareholders Meeting held today at the request of Telefónica Internacional Chile S.A. in connection with the Telecomunicaciones de Chile S.A. Tender Offer, rejected the amendment to the Bylaws.

Reported to the Chilean Securities and Exchange Commission on October 7, 2008.

At a meeting held on October 11, 2008, the Board of Directors of Compañía de Telecomunicaciones de Chile S.A. agreed to call a Special Shareholders Meeting at 9:30 a.m. on October 28, 2008 in the Claudio García S. Auditorium, located in the corporate building at Avda. Providencia 111. This action was taken at the request of AFP Capital S.A., AFP Cuprum S.A. and AFP Provida (which together hold more than 10% of the Company's voting shares), pursuant to Article 58 No. 3 of Law 18,046 and in connection with the Tender Offer launched by Inversiones Telefónica Internacional Holding Limitada (the Offeror), a subsidiary of Telefónica S.A. (Spain), as set forth in the notice of commencement published in the newspapers El Mercurio of Santiago and La Tercera on September 16, 2008 and supplementary notices (the Tender Offer). The purpose of the Special Shareholders Meeting is to discuss and decide on the following matters:

- 1) Amending the Bylaws by eliminating Articles One bis (submission to Executive Decree 3,500); Five bis (maximum permitted concentration, minimum percentage held by minority shareholders, minimum number of unrelated shareholders and their minimum stake, restrictions on registration in stock ledger); Seventeen bis (qualified Board of Director quorum for certain transactions); Twenty Four bis (limits on Board of Directors powers); Twenty Eight (designation of account auditors); Thirty Two bis (approval of investment and finance policy at General Shareholders Meeting); Thirty Three bis (approval at Special Shareholders Meetings to sell essential assets or rights, create liens on

such assets, and undertake advance modification of investment and financing policy); Forty bis (restriction on exercise of voting rights); Forty Five bis (qualified quorum for amending certain articles of the Bylaws); Forty Seven bis (right to remove Pension Management Funds); and Fifty One bis (sending certain information to shareholders), all of which relate to the provisions of Title XII of Executive Decree 3,500. Amendment of the Bylaws will be contingent on the Tender Offer being deemed successful on the terms of the notice of commencement and within the time period provided by law for these purposes. Amendment of the Bylaws will likewise be contingent on the Offeror modifying the terms of the Tender Offer by extending the period thereof for an additional 14 days and increasing the offered price to Ch\$ 1,000 for each Telefónica Chile Series A share and Ch\$ 990 for each Telefónica Chile Series B share. Finally, amendment of the Bylaws will be contingent on the Offeror stating that withdrawal of the Tender Offer under item 10 d) (2) of the Prospectus, i.e., in the event of a drop in the IPSA, will only apply if the IPSA falls more than 37.5%, as measured during the entire period of the Tender Offer or the United States Offer; 2) Reviewing transactions entered into pursuant to Articles No. 44 and 89 of the Corporations Act; 3) Adopting any decisions required to implement the aforementioned amendments, and granting the Board of Directors the broadest power and authority to carry out the proposed reforms.

Reported to the Chilean Securities and Exchange Commission on October 12, 2008.

On October 14, 2008, contracts were entered into for the sale of the assets and customer portfolio of Telefónica Asistencia y Seguridad S.A. to Prosegur for a total of Ch\$ 15,562,789,930. The net effect of the aforementioned sale on the Company's earnings will be Ch\$ 11,300,113,680, which will be recorded in the fourth quarter of this year in compliance with Generally Accepted Accounting Principles in Chile. We reiterate that this effect will have a one-time impact on fiscal year earnings and is not recurrent.

Reported to the Chilean Securities and Exchange Commission on October 15, 2008.

In various notices published on November 2, 2008 in the dailies *El Mercurio* of Santiago and *La Tercera*, Inversiones Telefónica Internacional Holding Limitada, the Offeror, proceeded to announce the success of the Tender Offer on the terms of the notice of commencement published on September 16, 2008 and supplementary notices, all of which appeared in *El Mercurio* of Santiago and *La Tercera*, and on the terms of the relevant Prospectus and its supplements. The aforementioned notices of November 2, 2008 also state that the Offeror is now the direct owner of approximately 51.86% of the shares issued by Compañía de Telecomunicaciones de Chile S.A., and has caused its controlling company, Telefónica Internacional Chile S.A., to indirectly attain an equity interest of approximately 96.75%.

Reported to the Chilean Securities and Exchange Commission on November 3, 2008.

On this date, the Board of Directors of the Company agreed to pay provisional dividend No. 176 in the amount of Ch\$ 5,742,942,510, equivalent to Ch\$ 6.00 per share, against the earnings of the fiscal year ended December 31, 2008. This dividend will be paid as of December 10, 2008.

Reported to the Chilean Securities and Exchange Commission on November 19, 2008.

On this date, José Molés Valenzuela has submitted his resignation as Chief Executive Officer of Sociedad Compañía de Telecomunicaciones de Chile S.A., effective January 2, 2009. The majority shareholder has announced its intent to designate Oliver Flögel to replace him as Chief Executive Officer effective the same date. This appointment will be submitted to the Board of Directors for approval at its December meeting.

Reported to the Chilean Securities and Exchange Commission on December 4, 2008.

MATERIAL EVENTS OF TELEFÓNICA LARGA DISTANCIA S.A.

The Board of Directors, meeting on March 3, 2008, agreed to the following:

- a) To call a General Shareholders Meeting for April 11, 2008;
- b) To submit at the Shareholders Meeting a proposal to distribute a dividend of Ch\$ 105.10171 per share against fiscal year 2007 earnings, for a total of Ch\$ 6,106,929,689 representing 30% of such earnings.

Reported to the Chilean Securities and Exchange Commission on March 5, 2008.

a) At the General Shareholders Meeting held on April 11, 2007, shareholders designated the following individuals as Directors of the company:

Emilio Gilolmo López
José Molés Valenzuela
Fernando García Muñoz
Manuel Plaza Martín
Humberto Soto Velasco
Cristián Aninat Salas
Juan Antonio Etcheverry Duhalde

b) At a meeting held on April 22, 2008, the Board of Directors agreed to elect Emilio Gilolmo López and José Molés Valenzuela as Chairman and Vice Chairman of the company, respectively.

Reported to the Chilean Securities and Exchange Commission on April 23, 2008.

At a meeting held on August 26, 2008, the Board of Directors agreed to the following:

- a) To accept the resignations of Manuel Plaza Martin and Cristián Aninat Salas and appoint Rafael Zamora Sanhueza and Mauricio Monteiro de Azevedo as new Directors of the company.
- b) To accept the resignation of José González Castillo from the position of Chief Executive Officer of the company and appoint María Carolina Reyes Mercandino as his replacement, effective as of today.
- c) To modify the future dividend distribution policy, replacing the current text which reads: The general dividend distribution policy shall be framed within the objectives of the company's financial plan, which calls for reducing liabilities, with the following: The general dividend distribution policy shall be framed within the objectives of the company's long-term business plan.

Reported to the Chilean Securities and Exchange Commission on August 27, 2008.

MATERIAL EVENTS OF TELEFÓNICA ASISTENCIA Y SEGURIDAD S.A.

The company's Board of Directors accepted the resignation submitted by Chief Executive Officer Daniel Domínguez and appointed Eduardo Vera Canuto as his replacement effective June 16, 2008.

Reported to the Chilean Securities and Exchange Commission on June 17, 2008.

On October 13, 2008, shareholders acting at a General Shareholders Meeting agreed to accept the binding offer submitted by Grupo Prosegur --through Prosegur Activa Chile Servicios Limitada-- to purchase the company's assets and entire customer portfolio for Ch\$ 15,562,789,930. The agreement for the assignment of rights and sale of assets was executed on October 14, 2008.

Reported to the Chilean Securities and Exchange Commission on October 16, 2008.

On this date, the Board of Directors of the company agreed to pay a provisional dividend of Ch\$ 7,390,000,000 against fiscal year 2008 earnings, pursuant to the dividend policy approved at the April 2008 General Shareholders Meeting, which means paying a dividend of Ch\$ 75,554.6467641 per share as of December 30, 2008. Shareholders of record as of the fifth business day prior to the payment date will be entitled to this dividend.

Reported to the Chilean Securities and Exchange Commission on December 10, 2008.

REPORT OF INDEPENDENT AUDITORS

(Translation of a report originally issued in Spanish - See note 2b)

To the President of the Board, Shareholders and Directors of
Compañía de Telecomunicaciones de Chile S.A.:

We have audited the accompanying consolidated balance sheets of Compañía de Telecomunicaciones de Chile S.A. and subsidiarias (the Company) as of December 31, 2008 and 2007, and the related consolidated statements of income and of cash flows for the years then ended. These financial statements (and corresponding notes) are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. The attached Management Analysis is not an integral part of these financial statements; therefore this report does not include it.

We conducted our audits in accordance with generally accepted auditing standards in Chile. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Compañía de Telecomunicaciones de Chile S.A. and subsidiaries as of December 31, 2008 and 2007, and the results of their operations and their cash flows for the years the ended, in conformity with generally accepted accounting principles in Chile.

ERNEST & YOUNG LTDA.

COMPAÑIA DE TELECOMUNICACIONES DE CHILE S.A. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

1. Composition of Consolidated Group and Registration in the Securities Registry:

a) Compañía de Telecomunicaciones de Chile (Telefónica Chile, the Parent Company when referred to on an individual basis or the Company when referred in conjunction with its subsidiaries) is a publicly-held corporation that is registered in the Securities Registry under No. 009 and is therefore subject to supervision by the Chilean Superintendency of Securities and Insurance (SVS).

b) Subsidiary companies registered with the Securities Registry:

SUBSIDIARIES	TAXPAYER No.	Registration Number	Participation (direct & indirect)	
			2008 %	2007 %
Telefónica Larga Distancia S.A.	96,551,670-0	456	99.89	99.87

2. Summary of Significant Accounting Policies:

(a) **Periods covered:**

The financial statements correspond to the years ended December 31, 2008 and 2007.

(b) **Basis of preparation:**

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Chile (Chilean GAAP) and standards set forth by the SVS.

In the event of any discrepancies in these regulations, SVS regulations supersede Chilean GAAP. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States (US GAAP) or International Financial Reporting Standards (IFRS). For the convenience of the reader, these financial statements have been translated from Spanish to English.

The Company s consolidated financial statements as of June 30 and December 31 of each year are prepared in order to be reviewed and audited, respectively, in accordance with current legal regulations. The Company voluntarily submits the quarterly financial statements as of March 31 and September 30 to an interim financial information review performed in accordance with regulations established for this type of review, described in Generally Accepted Auditing Standard (GAAS) No.45 Section No.722, issued by the Chilean Association of Accountants.

(c) **Basis of presentation:**

The consolidated financial statements for 2007 and their notes have been adjusted by 8.9% in order to allow for comparison with the 2008 consolidated financial statements. For comparison purposes, certain reclassifications have been made to the 2007 consolidated financial statements.

(d) Basis of consolidation:

These consolidated financial statements include the assets, liabilities, income and cash flows of the Company. Significant intercompany transactions have been eliminated, and the participation of minority investors has been recorded under Minority Interest (Note 20).

2. Summary of Significant Accounting Policies, continued

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(d) Basis of consolidation, continued:**Companies included in consolidation:**

As of December 31, 2008 and 2007, the consolidated group (The Company) is composed of Compañía de Telecomunicaciones de Chile S.A. and subsidiaries, as follows:

TAXPAYER No.	Company Name	Ownership Percentage 2008			2007
		Direct	Indirect	Total	Total
96.551.670-0	Telefónica Larga Distancia S.A. Telefónica Gestión de Servicios Compartidos	99.89	-	99.89	99.87
96.961.230-5	Chile S.A.	99.99	-	99.99	99.99
74.944.200-k	Fundación Telefónica Chile	50.00	-	50.00	50.00
96.971.150-8	Telefónica Asistencia y Seguridad S.A. (1)	-	-	-	99.99
90.430.000-4	Telefónica Empresas Chile S.A.	99.99	-	99.99	99.99
78.703.410-1	Telefónica Multimedia Chile S.A.	99.99	-	99.99	99.99
96.811.570-7	Instituto Telefónica Chile S.A.	-	99.99	99.99	99.99

(1) On December 31, 2008 Telefónica Chile S.A. absorbed subsidiary Telefónica Asistencia y Seguridad S.A. through the acquisition of the participation of Telefónica Gestión de Servicios Compartidos Chile S.A. equivalent to 0.001%, thus gathering all the shares of that company in Telefónica Chile S.A.

2. Summary of Significant Accounting Policies, continued:**(e) Price-level restatement:**

The consolidated financial statements have been adjusted by applying price-level restatement standards, in accordance with Chilean GAAP in order to reflect the changes in the purchasing power of the currency during both years. The accumulated variation in the Chilean Customer Price Index (CPI) as of December 31, 2008 and 2007, for initial balances, is 8.9% and 7.4%, respectively.

(f) Basis of conversion:

Assets and liabilities in US\$ (United States dollars), euros, Brazilian reals, yen (JPY), UF (Unidad de Fomento) have been converted to pesos at the exchange rates as of each year-end, as follows:

YEAR	US\$	EURO	BRAZILIAN REAL	JPY	UF
2008	636.45	898.81	271.70	7.05	21,452.57
2007	496.89	730.94	280.32	4.41	19,622.66

Foreign currency translation differences resulting from the application of this standard are credited or debited to income for the year.

(g) Time deposits:

Time deposits are presented in accordance with the value of invested capital plus readjustments, if applicable, and accrued interest as of year-end.

(h) Marketable securities:

Fixed income securities and shares are recorded at their price- level restated cost plus interest accrued as of each year-end using either the actual interest yield determined at the purchase date or market value, whichever is less.

(i) Inventory:

Depending on the nature of respective items, equipment held for sale is carried at the lesser of either its price-level restated acquisition or development cost or at its market value.

Inventory that is expected to be used within twelve months of their acquisition are classified as current assets. Their cost is price- level restated. The obsolescence provision has been determined on the basis of an analysis of materials with slow turnover.

(j) Allowance for doubtful accounts:

The allowance for doubtful accounts is estimated on the basis of the aging of such accounts, up to 100% of accounts outstanding for more than 120 days.

(k) Property, plant and equipment:

Property, plant and equipment are carried at their price-level restated acquisition or construction cost.

Property, plant and equipment acquired up through December 31, 1979, are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No.4. Some assets subsequently acquired were subject to a technical revaluation of their appraisal value recorded as of September 30, 1986, as authorized in SVS Circular No.550. All these values have been price-level restated.

(l) Depreciation of property, plant and equipment:

Depreciation has been calculated and accounted for on the basis of the previously indicated values, through the application of fixed factors determined in accordance with the estimated useful lives of the assets. The Company's average annual financial depreciation rate is approximately 7.76% for 2008 and 8.09% for 2007.

Estimated useful lives are summarized as follows:

Assets	Range of years
Building	40
Switchboard telephone equip	7 to 12
Subscriber equipment	2 to 4
External plant	20 to 40
Office furniture and equip	4 to 10
Software	3
Other	4 to 10

(m) Leased assets:

Leased assets with a purchase option, where the contracts satisfy the characteristics of a financial lease, are recorded in a manner similar to the acquisition of property, plant and equipment, recognizing the full obligation and interest on an accrual basis. These assets are not legally owned by the Company; therefore, until the Company exercises the purchase option, such assets cannot be freely disposed of.

2. Summary of Significant Accounting Policies, continued:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(n) Intangibles:

i) Rights to underwater cable:

Rights to underwater cable correspond to the rights acquired by the Company for the use of an underwater cable to transmit voice and data. These rights are amortized over the term of the respective contracts, with a maximum of 25 years (Note 13).

ii) Software licenses:

Software licenses are valued at their price-level restated acquisition cost. Amortization is calculated using the straight-line method over their estimated useful life, which does not exceed 3 years (Note 13).

(o) Investments in related companies:

These investments are accounted for under the equity method, which recognizes the investor's share of income on an accrual basis. For investments abroad, the valuation methodology as defined in Technical Bulletin No.64 is applied. Investments in countries deemed to be unstable and whose activities are not an extension of the operations of the Parent Company are controlled in US dollars.

(p) Goodwill:

This account corresponds to the differences originating from adopting the equity method and adjusting the cost of investments, or from the realization of new acquisitions. Goodwill and negative goodwill amortization years have been determined taking into consideration aspects such as the nature and characteristics of the business and the estimated year of return on the investment (Note 12).

(q) Transactions with repurchase agreements:

Purchases of financial instruments that include repurchase agreements are recorded as fixed rate instruments and are classified as Other Current Assets (Note 8).

(r) Bonds:

Bonds payable are recorded under liabilities at the par value of the issued bonds (Note 17). The difference between par and placement value, determined on the basis of the actual interest rate for the transaction, is deferred and amortized over the term of the respective bond (Notes 8 and 14).

Costs directly related to the placement of these obligations are deferred and amortized over the term of the respective liability (Notes 8 and 14).

(s) Current and deferred income taxes:

Income tax is recorded on the basis of taxable net income. Deferred taxes on all temporary differences, tax loss carry forwards that can be realized as future tax benefits, and other events that create differences between the tax and

accounting values are recognized in accordance with Technical Bulletin No.60 and complementary technical bulletins subsequently issued by the Chilean Association of Accountants, and with SVS Circular No. 1,466 dated January 27, 2000.

(t) Staff severance indemnities:

For employees who qualify for this benefit, the Company's staff severance indemnities obligation is provided for by applying the present value method to the projected benefit obligation using an annual discount rate of 6%, taking into consideration assumptions concerning the future service year of the employees, mortality rate of employees and salary increases used as the basis of actuarial calculations.

Costs for past services of employees resulting from changes in assumptions used as the actuarial bases, are deferred and amortized over average of the employees' future service years (Notes 8 and 14).

(u) Revenue recognition:

The Company's revenues are recognized on an accrual basis in accordance with Chilean GAAP. Since billing dates are different from the accounting close date, as of the date of preparation of these consolidated financial statements, provisions have been established for services provided and not billed, which are determined on the basis of contracts, traffic, prices and current conditions for the year. These amounts are recorded under Trade Accounts Receivable.

(v) Foreign currency forwards:

The Company has signed foreign currency hedge future contracts which have been entered into to hedge against changes in the exchange rate of its current obligations in foreign currency.

These instruments are valued in accordance with Technical Bulletin No.57 of the Chilean Association of Accountants.

The rights and obligations acquired are detailed in Note 27, being reflected in the balance sheet as only the net right or obligation at period end and classified according to the maturity of each contract under Other Current Assets or Other Payables, as applicable.

2. Summary of Significant Accounting Policies, continued:

(w) Interest rate coverage:

Interest on loans for which associated interest rate swaps have been entered into is recorded recognizing the effect of those contracts on the interest rate established in such loans. The rights and obligations acquired therein are shown under Other Payables or under Other Current Assets, as applicable.

(x) Computer software:

The cost of software purchased is deferred and amortized using the straight-line method over a maximum period of three years and classified as other property, plant and equipment.

(y) Cumulative translation adjustment:

In this shareholders' equity reserve account, the Company recognizes the difference between the variation in the exchange rate and the consumer price index (C.P.I.) originated in the restatement of its investment abroad and its goodwill, which are controlled in United States dollars. The balance of this account is recognized as income in the same year in which the net income or loss is recognized on the total or partial disposal of these investments.

(z) Correspondents:

The Company has agreements with foreign counterparties to set the conditions that regulate international traffic, determining the payments for each counterparty based on fixed rates for the net exchange of traffic.

The receivables/payables related to these agreements are recorded on an accrual basis, recognizing the costs and income for the year in which these are incurred, recording the net receivable and payable for each counterparty where the legal right to offset exists under Accounts Receivable or Accounts Payable, as applicable.

3. Accounting Changes:

a) Accounting Changes:

During the years covered in these interim consolidated financial statements, the accounting principles have been consistently applied.

b) Change in estimations:

i) The rotation rate

During the first half of 2008, the Company evaluated the rotation rate used to calculate the staff severance indemnities provision. After concluding the evaluation the Company decided to increase the rotation rate from 2.3% to 5.5%. As a result of this modification in 2008, the Company recorded a deferred tax asset of ThCh\$5,356,385 (historical) which will be amortized over the period of future permanence of employees entitled to this benefit.

ii) Discount rate

In December 2008, after completing an evaluation of the interest rate used to calculate the current value of staff severance indemnities, the Company decided to reduce the discount rate from 6% to 4.8%. As a result of this

modification, the company recorded deferred tax assets of ThCh\$4,004,377 which will be amortized during the future permanence of employees entitled to this benefit.

4. Marketable Securities:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

The balance of marketable securities is as follows:

Description	2008 ThCh\$	2007 ThCh\$

(1) Includes all transactions performed with related companies.

The conditions of the Mandate and Mercantile Current Account are short and long-term respectively, accruing interest at a variable rate based on market conditions.

Items recorded under Sales and Services Rendered have a short-term character (maturity of less than a year); individual terms for each transaction vary based on related transactions.

7. Current and deferred income taxes:**a) General information:**

As of December 31, 2008 and 2007, the Parent Company recorded a first category income tax provision based on taxable income of ThCh\$118,074,188 and ThCh\$139,296,346 respectively.

In addition, as of December 31, 2008 and 2007, a provision for first category income tax in subsidiaries was recorded based on the subsidiaries' respective taxable income of ThCh\$50,643,247 and ThCh\$56,149,404, respectively.

As of December 31, 2008 and 2007, accumulated tax losses of subsidiaries amount to ThCh\$24,534,879 and ThCh\$12,268,988, respectively.

According to current legislation, tax years eventually subject to review by the fiscal authority, contemplate most of the taxes that affect the Company's operations and transactions generated from 2004 to date.

In the normal development of its operations, the company is subject to the regulation and oversight of the Chilean Internal Revenue Service; therefore differences could arise in the application of criteria used to determine taxes. Management believes, based on the information available to date, that there are no significant additional liabilities to those already recorded for that concept in the financial statements.

The companies in the group with positive Retained Taxable Earnings and their associated credits are as follows:

Subsidiaries	Retained Taxable Earnings w/15% credit ThCh\$	Retained Taxable Earnings w/16% credit ThCh\$	Retained Taxable Earnings w/16.5% credit ThCh\$	Retained Taxable Earnings w/17% credit ThCh\$	Retained Taxable Earnings w/o credit ThCh\$	Amount of credit ThCh\$

Description	2008	2007
	ThCh\$	ThCh\$
Fixed income securities purchased with resale agreement (Note 9)	6,862,388	-
Goods available for sale (4)	2,345,781	141,457
Deferred union contract bonus (1)	802,535	1,460,384
Deferred higher bond discount rate (Note 25)	260,540	263,856
Deferred disbursements for placement of bonds (Note 25)	147,364	147,849
Deferred disbursements for foreign financing proceeds (2)	364,771	404,005
Exchange insurance receivable (net of partial settlements)	3,365,982	142,973
Market value exchange insurance deferred charges	-	484,174
Unearned income on cash flows coverage	3,283,094	-
Deferred staff severance indemnities charges (3)	2,022,348	1,318,052
Others	348,373	184,328
Total	19,803,176	4,547,078

(1) Between May and September 2006, the Company negotiated a 38-month and 48-month union contract with a number of its employees, granting them, among other benefits, a signing bonus. That bonus was paid between July and December 2006. The total benefit of ThCh\$4,918,946 (historical), is amortized using the straight-line method over the term of the union agreement. The long-term portion is recorded under Others (in Other non-current assets) (Note 14).

During July and November 2007, subsidiary Telefónica Larga Distancia S.A. negotiated collective agreements with its employees for 26 and 48 months, respectively, granting them, among other benefits, a special negotiation bonus. Those bonuses were paid in one installment in the previously indicated months and are deferred using the straight-line method over the term of the collective agreements. The long-term portion is recorded under Others (of Other Assets) (Note 14).

(2) This amount corresponds to the cost (net of amortization) of the mandatory reserve paid to the Central Bank of Chile and disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The long-term portion is recorded under Others (in Other Assets) (Note 14).

(3) Corresponds to the short-term portion to be amortized due to changes in the actuarial hypothesis and to the concept of loans to employees. The long-term portion is recorded under Others (in Other Assets) (Note 14).

(4) Corresponds to land and real estate destined for sale in accordance with the Company's rationalization program for 2009. These assets have been recorded at net book value or estimated realization value, whichever is lower.

9. Information regarding sales commitment transactions (agreements):

Dates

Code	Inception	End	Counterparty	Original currency	Subscription value ThCh\$	Rate	Final Value ThCh\$	Instrument Identification	Book Value ThCh\$
CRV	Decem. 22, 2008	Jan. 5, 2009	HSBC	CLP	3,400,000	7.56%	3,406,426	BCU0300510	3,406,426

Total	3,463,997,801	4,760,415,627	3,316,135,920	4,685,347,893

(1) Corresponds to buildings.

Operating costs include a depreciation charge for the years ended December 31, 2008 and 2007 amounting to ThCh\$204,797,870 and ThCh\$222,063,858, respectively, and administrative and selling expenses with a depreciation charge of ThCh\$5,158,485 and ThCh\$7,011,229 for 2008 and 2007, respectively.

During the normal course of its operations, the Company monitors new and existing assets, and their depreciation rates, and homologues them to the technological evolution and the development of the markets in which it competes.

Details of the item after the technical revaluation are as follows:

Description	Net Balance ThCh\$	Accumulated Depreciation ThCh\$	Gross property, plant and equipment 2008 ThCh\$	Gross property, plant and equipment 2007 ThCh\$
Land	(364,475)	-	(364,475)	(555,569)
Building and improvements	(713,813)	(4,769,563)	(5,483,376)	(5,683,525)
Machinery and equipment	(17,761)	17,264,442	17,246,681	17,258,249
Total	(1,096,049)	12,494,879	11,398,830	11,019,155

Depreciation of the technical reappraisal surplus amounted to ThCh\$(119,064) and ThCh\$(82,546) for 2008 and 2007, respectively. Gross property, plant and equipment includes assets that have been fully depreciated in the amount of ThCh\$1,990,235,492 in 2008 and ThCh\$1,787,845,119 in 2007, which include ThCh\$15,474,885 and ThCh\$15,360,183, respectively, from the reappraisals mentioned in Circular No.550.

11. Investments in related companies:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

Details of investments in related companies are as follows:

Taxpayer No.	Company	Country of origin	Currency controlling the investment	Number of shares	Percentage participation		Equity of the companies	
					2008	2007	2008	2007
					%	%	ThCh\$	ThCh\$
Foreign	TBS Celular Participación S.A. (1) (2)	Brazil	Dollar	48,950,000	2.61	2.61	177,930,584	154,294,579
96,895,220-k	Atento Chile S.A. (2)	Chile	Pesos	3,209,204	28.84	28.84	20,763,880	16,963,075

Taxpayer No.	Company	Net income of the companies		Equity in income of the investment		Investment value		Investment book value	
		2008	2007	2008	2007	2008	2007	2008	2007
		ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$	ThCh\$
Foreign	TBS Celular Participación S.A. (1) (2)	2,098,205	602,638	54,763	15,729	4,643,988	4,027,088	4,643,988	4,027,088
96,895,220-k	Atento Chile S.A. (2)	5,382,089	7,072,999	1,552,194	2,039,853	5,988,302	4,892,152	5,988,302	4,892,152
Total				1,606,957	2,055,582	10,632,290	8,919,240	10,632,290	8,919,240

(1) The company records its investment in TBS Celular Participación S.A. using the equity method since it exercises significant influence through the Telefónica group to which it belongs, as established in paragraph No. 4 of Circular No. 1,179 issued by the SVS and ratified in Title II of Circular No. 1,697. Although Telefónica Chile only has a 2.61% direct participation in TBS Celular Participación S.A., its Parent Company, Telefónica S.A., Spain, directly and indirectly has a percentage exceeding 20% ownership of the capital stock of that Company.

(2) As of December 31, 2008, the value of the investment was calculated on the basis of unaudited financial statements.

As of the date of these financial statements, there are no liabilities for hedge instruments assigned to foreign investments.

12. Goodwill:

Details of goodwill are as follows:

Taxpayer No.	Company	Year of origin	2008		2007	
			Amount amortized in the year ThCh\$	Balance of Goodwill ThCh\$	Amount amortized in the year ThCh\$	Balance of Goodwill ThCh\$
Foreign	TBS Celular Participación S.A.	2001	222,728	1,729,560	222,728	1,595,189
96,551,670-0	Telefónica Larga Distancia S.A.	1998	1,374,142	13,471,813	1,374,142	14,845,955
96,834,320-3	Telefónica Internet Empresas S.A.	1999	112,305	224,610	112,305	336,915
Total			1,709,175	15,425,983	1,709,175	16,778,059

Goodwill amortization years have been determined taking into account aspects such as the nature and characteristics of the business and estimated year of return on investment.

13. Intangibles:

Details of intangibles are as follows:

Description	2008 ThCh\$	2007 ThCh\$
Underwater cable rights (gross)	27,685,030	27,685,030
Accumulated amortization, previous years	(6,466,621)	(5,056,095)
Amortization for the year	(1,410,526)	(1,410,526)
Licenses (Software) (gross)	20,777,708	18,788,107
Accumulated amortization, previous years	(15,098,738)	(10,129,747)
Amortization for the year	(3,408,596)	(4,968,833)
Total Net Intangibles	22,078,257	24,907,936

14. Other non-current assets:

Details of other non-current assets are as follows:

Description	2008 ThCh\$	2007 ThCh\$
Deferred issuance cost for obtaining external financing (Note 8(2)) (1)	574,498	472,949
Deferred union contract bonus (Note 8(1))	501,000	1,851,785
Bond issue expenses (Note 25)	479,099	636,902
Bond discount (Note 25)	785,162	1,041,631
Securities deposits	137,760	150,681
Deferred charge due to change in actuarial estimations (Note 8(3)) (2)	14,504,464	7,835,621
Deferred staff severance indemnities (3)	3,433,325	4,161,129
Total	20,415,308	16,150,698

(1) This amount corresponds to the cost (net of amortizations) of the disbursements incurred for foreign loans obtained by the Company to finance its investment plan. The short-term portion is presented under Other Current Assets (Note 8).

(2) With the implementation of new contractual conditions derived from the organizational changes in the Company there have been a series of studies that allowed, with primary effect in 2004, the modification in the calculation basis for staff severance indemnities of the variable for future service life of employees. After concluding these studies, in 2005 other estimates were incorporated such as the personnel fluctuation rate, employee mortality and future salary increases. During the first half of 2008 there was an evaluation of the turnover rate used to calculate staff severance indemnities. After completing this evaluation it was determined that the rotation rate be increased from 2.3% to 5.5%.

As a result of this modification, in 2008 the Company recorded deferred assets of ThCh\$5,356,385 (historical), which will be amortized over the period of future permanence of employees entitled to this benefit. All these estimations were determined on the basis of actuarial calculations, as established in Technical Bulletin No. 8 issued by the Chilean Association of Accountants. The short-term portion is presented under Other Current Assets (Note 8).

In December 2008 there was an evaluation of the interest rate used to calculate the current value of staff severance indemnities, after completing this analysis the Company decided to reduce the discount rate from 6% to 4.8%. As a result of this modification, the Company recorded deferred assets of ThCh\$4,004,377 which will be amortized over the period of future permanence of employees entitled to this benefit.

The difference generated as a result of changes in the actuarial estimates constitutes actuarial gains or losses, which are deferred and amortized over the estimated average remaining future service life of the employees that will receive the benefit (see Note 2s).

(3) In conformity with the union agreements between the Company and its employees, loans were granted to employees, the amounts and conditions of which were based on, among other considerations, the accrued balances of staff severance indemnities at the date of the grant. The short-term portion is recorded under Other Current Assets (Note 8).

The staff severance indemnities provision has been recorded in part at its current value, deferring and amortizing this effect over the years of average remaining future service life of employees that subscribe to the benefit. The loan is recorded under Other Long-term Receivables.

15. Short-term obligations with banks and financial institutions:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

Details of short-term obligations with banks and financial institutions are as follows:

Taxp.No.	Bank or financial institution	US\$		U.F.		TOTAL

Total								74,317,830	75,554,944		

(1) On March 29, 2006, the Company placed bonds in the local market for a nominal amount of UF3,000,000 equivalent to US\$102.1 million (historical) of a series denominated L, which is composed of 6,000 bonds with a value of UF 500 each. These bonds mature in one installment on October 25, 2012. The annual interest rate amounts to UF + 3.75% and interest is paid semi-annually.

18. Accruals and Write-offs:

Detail of accruals shown in liabilities are as follows:

	2008 ThCh\$	2007 ThCh\$
Current Staff severance indemnities	3,059,179	2,349,923

Edgar Filing: TELECOMMUNICATIONS CO OF CHILE - Form 6-K

Vacation	5,065,840	4,780,707
Incentive provision	11,121,827	6,356,859
Other employee benefits (1)	2,259,265	1,304,517
Employee benefit advances	(3,841,777)	(3,214,057)
Sub-Total	17,664,334	11,577,949
Long-term		
Staff severance indemnities	46,586,943	38,494,650
Total	64,251,277	50,072,599

(1)Includes provisions as per current union agreement.

During the years ended as of December 31, 2008 and 2007 write-offs were recorded for the amount of ThCh\$12,186,885 and ThCh\$7,464,903, respectively, which were charged against the corresponding provision.

19. Staff severance indemnities:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

Details of the charge to income for staff severance indemnities are as follows:

	2008	2007
	ThCh\$	ThCh\$
Beginning balance (1)	37,506,495	39,191,229
Payments for the year	(3,403,860)	(3,062,357)
Changes in actuarial hypothesis	9,360,762	-
Provision increase	6,182,725	4,715,701
Ending Balance	49,646,122	40,844,573

(1) The previous year is shown restated for comparative purposes.

20. Minority interest:

Minority interest recognizes the portion of equity and net income of subsidiaries owned by third parties. Details for 2008 and 2007 are as follows:

	Percentage		Participation		Participation	
	Minority Interest		in equity		in net income (loss)	
	2008	2007	2008	2007	2008	2007
Subsidiaries	%	%	ThCh\$	ThCh\$	ThCh\$	ThCh\$

21. Shareholders Equity, continued:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(a) Paid-in capital:

As of December 31, 2008 the Company's paid-in capital is as follows:

Number of shares:

Serie	No. of subscribed shares	No. of paid shares	No. of shares with voting rights
A	873,995,447	873,995,447	873,995,447
B	83,161,638	83,161,638	83,161,638

Paid-in capital:

Serie	Subscribed Capital ThCh\$	Paid-in Capital ThCh\$
A	861,275,940	861,275,940
B	81,951,362	81,951,362

(b) Shareholder distribution:

As indicated in SVS Circular No.792, the stratification of shareholders by percentage of ownership in the Company as of December 31, 2008 is as follows:

Type of shareholder	Percentage of Total holdings %	Number of shareholders
10% holding or more	97.685097	3
Less than 10% holding:		
Investment equal to or exceeding UF 200	1.723737	558
Investment under UF 200	0.591166	9,455
Total	100.00	10,016
Controlling company	96.75	2

In relation to the Takeover Bid of Compañía de Telecomunicaciones de Chile S.A. the Extraordinary Shareholders meeting held on October 7, 2008 rejected modification of the Company bylaws, and requested to eliminate restrictions

and references in conformity with Title XII of Decree Law No.3,500, referring among other things, to the 45% maximum concentration allowed.

On October 11, 2008, the Company's Board agreed to call an Extraordinary Shareholders Meeting as requested by shareholders AFP Capital S.A., AFP Cuprum S.A. and AFP Provida, holders of more than 10% of shares and within the Takeover Bid (OPA) process carried out by Inversiones Telefónica Internacional Holding Ltda., subsidiary of Telefónica S.A. (Spain).

On October 28, the Extraordinary Shareholders Meeting approved modification of the Company's bylaws related to the restrictions and references mentioned in the first paragraph, thus allowing Inversiones Telefónica Internacional Holding Ltda. to acquire 51.85% of the shares of Telefónica Chile S.A.

As of December 31, 2008, Telefónica S.A (Spain), through its subsidiaries Inversiones Telefónica Internacional Holding Ltda. and Telefónica Internacional Chile S.A. owners of 51.85% and 44.9%, respectively, now indirectly own 96.75% of the Company's equity.

21. Shareholders Equity, continued:**(c) Dividends:****i) Dividend policy:**

In accordance with Law No.18,046, unless otherwise decided at the Shareholders Meeting by unanimous vote of the outstanding shares, when there is net income, at least 30% must be allocated in dividend payments.

At the Ordinary Shareholders Meeting held on April 14, 2005, in consideration of the cash situation, the levels of projected investment and the solid financial indicators, the dividend distribution policy was modified, which was reported at the Ordinary Shareholders Meeting of April 2004, and it was agreed upon to distribute 100% of the net income generate during the respective year, by means of a interim dividend in November of each year and a final dividend in may of the following year.

ii) Dividend distributed:

On April 13, 2007, the Ordinary Shareholders Meeting approved payment of final dividend No.173, for the amount of ThCh\$12,866,433 (historical), equivalent to Ch\$13.44234 per share, with a charge to 2006 net income. The dividend was paid on May 15, 2007.

Additionally, the Extraordinary Shareholders Meeting held on April 13, 2007, approved modification of the company bylaws in order to decrease capital by ThCh\$48,815,012 (historical), in order to distribute additional cash to the shareholders in 2007. The capital distribution was equivalent to Ch\$51 per share.

On October 24, 2007, the Board of Directors agreed to pay interim dividend No.174 of Ch\$6 per share, equivalent to ThCh\$5,742,943 (historical), with a charge to net income generated by the Company as of September 30, 2007.

On April 14, 2008 the Ordinary Shareholders Meeting approved payment of final dividend No.175 in the amount of ThCh\$ 5,050,016 (historical), equivalent to Ch\$5.276058 per share with a charge to 2007 net income. The dividend was paid in May 2008.

Additionally, the Extraordinary Shareholders Meeting held on April 14, 2008 approved modification of the Company s bylaws in order to decrease capital by ThCh\$39,243,441 (historical), for the purpose of distributing additional cash to the shareholders in 2008. That capital distribution was equivalent to Ch\$41 per share. The dividend was paid in June 2008.

On November 19, 2008, the Board of Directors agreed to pay interim dividend No.176 in the amount of Ch\$6 per share, equivalent to ThCh\$5,742,943 (historical), with a charge to 2008 net income. The dividend was paid in December 2008.

(d) Other reserves:

Other reserves correspond to the net effect of the accumulated adjustment for conversion differences in accordance with Technical Bulletin No.64 issued by the Chilean Association of Accountants, and the details are as follows:

Amount	Balance as of
---------------	--------------------------

Taxp.No.	Company	December		Net Movement ThCh\$	December
		31, 2007 ThCh\$	Price-level restatement. ThCh\$		31, 2008 ThCh\$

28. Contingencies and restrictions:

a) Lawsuits against the State of Chile:

(i) Having exhausted all administrative remedies aimed at correcting the errors and illegal actions taken in the tariff-setting process of 1999, in March 2002, the Company filed a lawsuit for damages against the Government of Chile for the amount of ThCh\$181,038,411, including readjustments and interest, covering past and future damages incurred up to May 2004.

The judicial process is currently at the sentencing stage.

(ii) Telefónica Chile and Telefónica Larga Distancia filed an indemnity suit against the State of Chile, claiming damages caused were due to modification of the telecommunications cable network as a result of works carried out by highway concessionaries from 1996 to 2000.

The amount of the claimed damages consists of both companies having to pay to transfer their telecommunications networks due to the construction of public works concessioned under the Concessions Law for the amount of:

a.- Compañía de Telecomunicaciones de Chile S.A.: ThCh\$1,929,207 (historical)

b.- Telefónica Larga Distancia S.A.: ThCh\$2,865,209 (historical)

On March 24, 2008, final first instance sentence was notified, rejecting the complaint, without costs.

This sentence is being appealed.

b) Lawsuits:

(i) Voissnet S.A.:

On July 12, 2007, Voissnet filed a complaint before the Antitrust Commission (TDLC) against Telefónica Chile for alleged crossed subsidy in the joint commercialization of its broadband and fixed telephony services, taking advantage of its dominant position in those markets.

When answering the complaint, Telefónica Chile requested it be rejected, mainly taking into consideration that voice and broadband package offers are in response to competitive dynamics, and that the Company has not incurred in practices that attempt against free competition. The evidence stage has ended.

On August 29, 2008, Voissnet presented a second complaint to the Antitrust Commission against Telefónica Chile, this time for alleged tied sale in the commercialization of broadband with telephone services.

Telefónica Chile answered the complaint and requested that it be fully rejected, costs included. The Antitrust Commission decided on the accumulation of both processes.

(ii) Complaint filed by VTR Telefónica S.A.:

On May 8, 2008, Telefónica Chile and VTR signed a transaction by means of which they ended all judicial and administrative conflicts related to reciprocal access charges to be paid between the companies and 800-type services. Both parties will make reciprocal discounts and there is legal compensation for the amounts owed, which resulted in Telefónica Chile paying VTR the sum of Ch\$12,036,787,478. Likewise, on the basis that the transaction produces the

indefectible termination of the judicial proceeding in which the proceeding filed before the Ministry of Transportation and Telecommunications is involved, the parties filed a writ requesting the filing and termination of the proceeding without sanction.

(iii) Manquehue Net:

On June 24, 2003, Telefónica Chile filed a forced contract compliance with damage indemnity complaint against Manquehue Net for the amount of ThCh\$3,647,689 in addition to sums accrued during the substantiation of the proceeding. On the same date Manquehue Net filed a complaint regarding compliance with discounts (for the amount of UF 107,000), in addition to a complaint regarding the obligation to perform (signing of 700 number service contract).

On April 11, 2005 the Arbitrator notified first instance sentence accepting the complaint filed by Telefónica Chile condemning Manquehue Net to pay approximately Ch\$452 million, and at the same time accepted the complaint filed by Manquehue Net condemning Telefónica Chile to pay UF47,600.

Telefónica Chile filed ordinary public law motions appealing both sentences, which are currently pending before the Santiago Court of Appeals.

(iv) Chilectra y CGE:

In June 2006, Telefónica Chile filed complaints against Chilectra S.A. and Río Maipo (today CGE Distribución), requesting an adjusted refund of the Reimbursable Financial Contributions (AFR) (Aportes Financieros Reembolsables) that the company paid between 1992 and 1998, in virtue of the Electric Law. The amounts to be restored amount to ThCh\$899,658 and ThCh\$117,350, respectively.

28. Contingencies and restrictions, continued:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(v) Labor lawsuits:

During the normal course of operations, labor lawsuits have been filed against the Company, which to date do not represent significant contingencies.

(vi) Complaint filed by Telmex Servicios Empresariales S.A.:

During the first quarter of 2008, Telmex Servicios Empresariales S.A. filed a complaint before the Antitrust Commission against Telefónica Chile, for alleged affectation of free competition, related to the process of being awarded the concession for local wireless public service of the 3,400 - 3,600 MHz band, requesting a sentence to pay a fine to the Government in the amount of 18,000 UTA.

The Company answered the complaint within the deadline, requesting rejection of all its parts. The proceeding is in the hearing stage.

Telefónica Chile and TLD were sued by Telmex Servicios Empresariales S.A., before the Antitrust Commission (Case No.C181-2008), for the execution of acts contrary to free competition in providing long distance services through Telefónica Chile's prepay card denominated Tarjeta Línea Propia (TLP), requesting a fine of UTA 20,000 for each of the companies.

The complaint was answered requesting full rejection with costs.

(vii) Empresa Ferrocarriles del Estado de Chile:

Ordinary lawsuit for forced compliance of obligations agreed upon or consented, derived from the Regulation on Railway Crossing, Parallelism and Support, which in addition demanded payment of a sum of no less than UTM 48,298.44, whether for construction or annual passage relating to crossings located on the railway, plus indemnity for material damages and pain and suffering alleged to have been experienced, with adjustments, interest and costs, and notwithstanding the sums accrued during the proceeding.

On March 25, 2008, the final first instance sentencing was passed, fully rejecting the complaint, which is being appealed by EFE.

(viii) Theoduloz Slier and Ochoa Soriano versus Zalaquett Zalaquett and Telefónica Chile:

Executive lawsuit of commitment to file complaint by Ms. Rodemilia Theoduloz Slier and Matilde Ochoa Soriano against Armando Zalaquett Zalaquett and Telefónica Chile. The commitment to perform the lawsuit will consist of the delivery of 14,468,895 Series A shares of Telefónica Chile whose titleholder is the defendant, Armando Zalaquett Zalaquett.

Telefónica Chile opposed the execution, since Mr. Zalaquett is not a shareholder of the Company. This is currently in process.

(ix) Other lawsuits:

During the last quarter of 2007, resolutions passed by the Ministry of Transport and Telecommunications were notified, in which fines were applied due to non-compliance with the previous resolutions, which altogether amount to UTM 33,700. Telefónica Chile has filed appeals against those resolutions, which are currently in process and pending sentence. It should be noted that the resolutions consider daily fines, which as of December 31, 2007 are estimated to amount to close to UTM 1,200.

Management and its internal and external legal counsel periodically monitor the evolution of the lawsuits and contingencies affecting the Company during the normal course of its operations, analyzing in each case the possible effects on the financial statements. Based on this analysis and the information available to date, management and its legal counsel believe that it is unlikely that the Company's income and equity will be significantly affected by loss contingencies that could eventually represent significant liabilities in addition to those already recorded in the financial statements.

(c) Financial restrictions:

In order to develop its investment plans, the Company has obtained financing both in the domestic market and abroad (Notes 15, 16 and 17) which establish, among other things: clauses on the maximum debt the Company may maintain.

The maximum debt ratio is 1.60.

Non-compliance with these clauses implies that all the obligations assumed in these financing contracts would be considered due and payable.

As of December 31, 2008, the Company complies with all financial restrictions.

(5) Includes the following balance sheet accounts: Accounts payable to related companies, Miscellaneous accounts payable, Accruals, Deferred long-term taxes, Other long-term liabilities.

31. Sanctions:

Neither the Company nor its Directors and Managers have been sanctioned by the SVS or any other administrative authority during 2008 or 2007.

32. Subsequent events

Result of second Takeover Bid (OPA)

On January 9, 2009, Inversiones Telefónica Internacional Holding Limitada, informed the result of the Takeover Bid carried out on December 1, 2008 and complemented on December 16 of the same year, which has obtained direct and indirect ownership of approximately 97.86% of the shares issued by Telefónica Chile through its controller Telefónica Internacional Chile S.A.

Closing of the ADR Program

On January 29, 2009, the Company's Board agreed to begin the closing process of the ADRs in the market of the United States of America (CTC Code), delisting CTC from the New York Stock Exchange (NYSE), and from the Securities and Exchange Commission (SEC) and terminating the convention signed between Telefónica Chile, Banco Central de Chile and Depository Bank, under Chapter XXVI of the Compendium of International Exchange Standards.

The described process contemplates a 4-month period to obtain the corresponding authorizations.

Registration of lines of Local Bonds

On January 29, 2009, the Board agreed to the following:

- Issue two lines of bonds: one with a 10-year term and another with a 30-year term. Each line will be for 8 million unidades de fomento.
- Limit the amount of the first placement with a charge to each line of bonds to a maximum of 8 million unidades de fomento, altogether.

The Board also empowered the General Manager, Mr. Oliver Flogel and the Finance Manager, Ms. Isabel Margarita Bravo Collao, so that either of them, indistinctly can establish the conditions, terms and timeliness of the issuance and sign the contracts and undertake all processes and acts necessary for the issuance and sale of the bonds.

In the period from January 1 to 29, 2009, there have been no other significant subsequent events that affect the financial statements.

33. Environment:

In the opinion of Management and the Company's in-house legal counsel, because the nature of the Company's operations do not directly or indirectly affect the environment, as of the closing date of these consolidated financial statements, no resources have been set aside nor have any payments been made for non-compliance with municipal ordinances or to other supervising organizations.

34. Time deposits:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2008 and 2007

1. HIGHLIGHTS

Capital Decrease

Telefónica Chile

The ordinary Shareholders Meeting held on April 14, 2008 agreed to the following:

- a) Distribute 46.52% of net income for the year, through payment of a final dividend of Ch\$5.276058 per share, to be paid on May 14, 2008.
- b) Decrease share capital by ThCh\$39,243,441 maintaining the same amount of shares issued by the Company, which means paying Ch\$41 per share, empowering the Board of Directors to set the payment date for the shareholders.
- c) Modify Bylaws, in reference to the previously mentioned agreements.

Modification of bylaws (Takeover Bid)

On September 16, 2008 the Board of Directors of Compañía de Telecomunicaciones de Chile S.A. called an Extraordinary Shareholders Meeting to be held on October 7, 2008, in order to approve modification of the Company's bylaws, eliminating the restrictions and references contained in the bylaws in conformity with Title XII of Decree Law No.3,500, pertaining among other things, to the maximum allowed concentration of 45%.

The Extraordinary Shareholders Meeting held on that date in relation to the Takeover Bid (OPA) (Oferta Pública de Adquisición de Acciones) of Compañía de Telecomunicaciones de Chile S.A. rejected modification of the bylaws.

On October 11, 2008 the Board of Directors of the Company, accepting the petition of shareholders AFP Capital S.A., AFP Cuprum S.A. and AFP Provida, holders of more than 10% of shares, and within the Takeover Bid (OPA) process of Inversiones Telefónica Internacional Holding Limitada, subsidiary of Telefónica S.A. (Spain), agreed to call an Extraordinary Shareholders Meeting on October 28, 2008, in order to approve modification of the Company's bylaws relating to the restrictions and references mentioned in the first paragraph.

Appointment of General Manager

On December 18 the Board of Directors accepted the resignation of Mr. José Molés Valenzuela from the position of General Manager of the company, effective as of January 1, 2009. To replace him, the Board has appointed Mr. Oliver Alexander Flögel to be the Company's General Manager effective January 1, 2009.

Sale of assets and assignment of customers of Telefonica Asistencia y Seguridad S.A. to Prosegur.

On October 14 an essential event was published informing the official sale of the realizable and fixed assets and assignment of customers of subsidiary Telefónica Asistencia y Seguridad S.A. to the Prosegur Group, through its company Prosegur Activa Chile Servicios Limitada.

On December 31, 2008 Telefónica Chile absorbed subsidiary Telefónica Asistencia y Seguridad S.A. by acquiring the participation of Telefónica Gestión Servicios Compartidos Chile S.A. equivalent to 0.001%, thus gathering all the shares of that company in Telefónica.

Appointment of Directors

Telefónica Larga Distancia

The Ordinary Shareholders Meeting held on April 11, 2008, agreed to appoint the following company directors:

- Emilio Gilolmo López
- José Molés Valenzuela
- Manuel Plaza Martin
- Juan Antonio Etcheverry Duhalde
- Humberto Soto Velasco
- Fernando García Muñoz
- Cristián Aninat Salas

Telefónica Chile

On April 23, 2008 the board of directors agreed to appoint Mr. Andrés Concha Rodríguez as regular director and Mr. Raúl Morodo Leoncio as deputy director.

Dividends Policy

Telefónica Chile

The ordinary Shareholders Meeting held on April 14, 2008, agreed to distribute 2007 net income, through payment of a final dividend of Ch\$5.276058 per share. In accordance with the current dividend policy, this dividend, added to interim dividend No. 174 in the amount of Ch\$5,742,942,510 (historical), equivalent to Ch\$6 per share, paid on November 21, 2007, total 100% of net income generated during 2007.

On May 22 the board of directors agreed to pay a capital distribution as of June 13, 2008 in the amount of Ch\$41 per share.

On November 19 it agreed to pay an interim dividend with a charge to net income for the year ended December 31, 2008 in the amount of Ch\$5,742,942,510 (historical), equivalent to Ch\$6 per share, which will be paid as of December 10.

Telefónica Larga Distancia

The ordinary Shareholders Meeting held on April 11, 2008, agreed to distribute 30% of net income for 2007 through payment of a dividend in the amount of Ch\$105.10171 per share, which will be paid on May 15, 2008.

Relevant Industry Aspects

The most relevant event in the first half of the year was the strong development of a new Internet connection service, Mobile Broadband, a product offered using 3G technology by the three current mobile operators: Movistar, Entel and Claro. The launching of this service has had an impact on customers that value connectivity in movement and has also reached customer segments that were not serviced by fixed broadband.

The integrated service offer is growingly intense, generating a new focus of competition among the different operators in the sector involving their own services or alliances with third parties. In this manner, in the residential area almost all fixed operators already have package service offers (voice, broadband and TV). A similar situation can be observed in small and medium companies with offers of voice and broadband plans, while in the corporate area operators offer integrated solutions that allow companies to consolidate their IP networks to transmit voice and data and facilitate integration toward business processes based on information technology. Transversally, mobile communications have become massive in the social and corporate areas of the country.

A competition model based on network infrastructure which mainly uses ADSL, coaxial, fiber optics and wireless (3G, WiMax, PHS) technologies was maintained at a domestic level.

2. VOLUME STATISTICS, STATEMENTS OF INCOME AND INCOME BY BUSINESS AREA

(1) Accounting consolidation does not include Telefónica Larga Distancia access charges.

(2) Includes the revenues of T-gestiona, Instituto Telefónica and Fundación.

(3) Underwater cable amortization is presented under other operating costs.

(4) For comparative analysis purposes, participation in the income of investments in related companies is presented net (net income/losses).

(5) For comparison purposes certain reclassifications of 2007 income have been performed.

3. ANALYSIS OF INCOME FOR THE YEAR

EVOLUTION OF THE STRUCTURE OF OPERATING REVENUE AND COSTS

Operating revenue

The new revenue structure has been evolving coherently with the voice, broadband and television package services strategy, through a flexible offer where customers create the combination of services that best accommodates their needs. In this manner, the Company has managed to go from a single-service line of business to a multiservice line of business.

This is evidenced when we analyze the evolution of revenues in the period from January to December 2008 in relation to January to December 2007, where it is clearly seen that the flexibility and packaging of multiple services offered by the Company has partially offset the drop in revenues from traditional telephone services and achieved a decrease of only 0.2% in comparison to 2007.

In accordance with the comment on Operating Revenues, the increased revenues from flexible plans, broadband and television have partly reverted the downward tendency of previous years; and offset the drop in revenues from traditional telephone services (fixed and variable charge) and long distance within an adverse economic environment.

The above is reflected in the following graph, where we can appreciate the growth in the contribution of product packages, which is highly coincident with the Company's new business strategy.

Operating Costs

The new service structure has had a direct effect on the cost structure. The services that form the multiservice offer have two fundamental characteristics: on the one hand they have associated variable costs and commercialization expenses, which are added to the Company's fixed costs and, on the other hand, they are services, which due to their nature in general generate a lower margin. Although this has caused an increase in the Company's operating costs, it is expected that they should stabilize in time.

3.1 OPERATING INCOME

As of December 31, 2008, operating income amounted to Ch\$57,099 million, representing a decrease of 25.7% in relation to the income obtained in 2007.

A. Operating Revenues

Operating revenues in 2008 reached Ch\$685,268 million, presenting a decrease of 0.9% in relation to 2007, where they reached Ch\$691,257 million.

The Company's strategy, focused on the change in business structure, has allowed it to strengthen its growth in Broadband and Television, which together with Flexible Plans have partly neutralized the drop in income from the traditional business of Fixed Telephony, Complementary Services and Long Distance.

i. Revenues from Voice and Complementary Services: These revenues have decreased by 3% in comparison to 2007, mainly because:

Telephone Services (Voice), represents 34.4% of consolidated revenues and shows a 5.5% drop in comparison to the previous year, originated by:

Fixed income, corresponding to the fixed monthly charge for connection to the network, shows a 26.7% drop which is mainly explained by migration of customers to flexible plans.

Variable income decreased by 9.5%, which shows the effect of lower income derived from a decrease in traffic per line and migration of customers to flexible plans.

Flexible plans- the growth in customers with flexible plans, leveraged by migrations from traditional telephone services and new customers obtained increased by 2.4% in comparison to the previous year.

Access charges and interconnections, represent 8.6% of consolidated revenues and show a 2.7% increase, mainly due to the 7.2% increase, equivalent to Ch\$3,414 million in other interconnection services highlighted by the increase in media rental services, information services, unbundling services and fixed-fixed access charges, effect that is partially offset by lower revenues from domestic and international long distance equivalent to 20.2% and 11.4%, respectively.

Other Fixed Telephony Businesses, represent 6.86% of consolidated revenues and have decreased by 21.2%, equivalent to Ch\$12,655 million explained mainly by the net effect of:

The decrease in income from interior rental, which is mainly due to the drop in average lines in service, lower income from security services, public telephones, advertising in telephone books and switchboard and dedicated ISP.

The increase in income from commercialization of equipment.

ii. Broadband: Has showed sustained growth in the last years reaching Ch\$122,057 million in 2008, a 10.3% increase in comparison to 2007 mainly due to the 10.28% increase in customers.

iii. Television: Two years after the launching of TV services, income represents 6% of operating income and amounts to Ch\$41,472 million. In 2007, income from these services amounted to Ch\$28,919 million. Lines in service grew 19.57% in comparison to the previous year.

iv. Long Distance: Revenues from this service decreased by 8.8% in comparison to 2007, due fundamentally to the decrease in revenues from international long distance and international which decreased by 14.5% and 5.0% respectively.

It should be noted that although revenues from long distance services have decreased, there has been an increase in the amount of minutes appraised, which is mainly due to the increase in Multicarrier Hired income which does not necessarily imply a direct correlation between revenues and the minutes appraised.

v. Corporate Communications: This business revenue increased by 2.3% in comparison to 2007, mainly due to an increase of 9.5% in data services and 5.7% in revenue from circuits.

vi. Other Businesses: These businesses mainly include the services of Instituto Telefónica, T-Gestiona and Fundación. Together these businesses generated income of Ch\$2,594 million, which is lower than the Ch\$2,623 million in revenue obtained in 2007 mainly due to the 14.3% decrease in income from T-Gestiona, which was partially offset by the Ch\$311 million increase in income from Instituto Telefónica in comparison to the previous year.

B. Operating Costs

Operating costs for the year reached Ch\$628,170 million, increasing by 2.2% in relation to 2007. This is explained mainly by: i) costs generated for the concept of programmers related to the increase in lines in service, as well as costs due to an increase in rental of IP capacity; ii) plant maintenance costs due to greater production related to STB, ADSL and DTH repairs; and iii) a 10.5% increase in other operating costs, explained by the increase in bad debts due to an increase in the number of customers overdue in excess of 120 days and the increased media rental costs.

3.2 NON-OPERATING INCOME

Non-operating income obtained in the year ended December 31, 2008 shows a deficit of Ch\$8,106 million, which implied a 72.0% decrease in comparison to the previous year. The most significant effects are generated by:

- a) **Other non-operating** revenues reached Ch\$22,108 million, figure that is higher than the Ch\$ 5,432 million reached in 2007, influenced mainly by income from the sale of Teleemergencia which amounted to Ch\$16,288 million.
- b) **Financial expenses** increased by 59.9% in 2008, mainly associated to the nominalization of the Company debt, which changed from dollar/UF to dollar/peso, which implies a higher interest rate assumed by the respective insurance contracts at a nominal rate in Chilean pesos. This is framed within the hedge policy that allows the company to mitigate the exposure of the debt to the high volatility of the UF and inflation.
- c) **Other non-operating income** reached Ch\$31,896 million, higher than the Ch\$21,058 million obtained in 2007. This is derived mainly from higher provisions for expired assets restructuring expenses and withdrawal of out of service property, plant and equipment, effect that is partially compensated by lower expenses related to lawsuits and others.
- d) **Price-level restatement** in 2008 shows net income of Ch\$29,142 million, mainly due to variances experienced in the CPI, Unidad de Fomento and exchange rate.

3.3 NET RESULT OF THE YEAR

As of December 31, 2008, net result reached net income of Ch\$17,612 million, whereas in 2007 net income reached Ch\$11,822 million. The higher result obtained in 2008 is derived from lower non-operating deficit, which decreased by 72.0% in relation to the previous year and lower income tax which decreased by 13.0%, effect that was partially compensated by the 0.9% decrease in operating revenues and the 2.2% increase in operating costs.

3.4 ADOPTION OF IFRS (Evolution of equity-net income)

In compliance with the standards of the Superintendence of Securities and Insurance (OFC 457) on September 30, 2008, the Company informed its decision to adopt IFRS as of January 1, 2009, as well as the adjustments resulting from that adoption.

As additional information and complementing this analysis, a summary table is included corresponding to the years ended as of December 31, 2008 and 2007 which shows the impact related to adjustments resulting from the adoption of IFRS.

The information contained in this summary is of a pro forma nature and has not been audited.

	Dec - 07	Dec - 08
Chile GAAP Shareholders Equity	906,534	952,551
IFRS adjustments	(284,439)	(341,651)
IFRS Shareholders Equity	622,095	610,890
Chile GAAP Net Income	10,856	17,612
IFRS adjustments	20,791	30,364
IFRS Net Income	31,647	47,976

3.5 RESULTS BY BUSINESS AREA

1. Local Telephone Business: Recorded a net deficit of Ch\$12,968 million as of December 31, 2008, in comparison to net income of Ch\$10,478 million in 2007. The lower income obtained in 2008 was generated by higher circuit rental capacity costs, added to higher estimation of allowance for doubtful accounts. Administration and selling expenses decreased by 1.96% mainly generated by the 32.75% decrease in depreciation for the year, effect that is partially compensated by the 15.79% increase in payroll expenses.

2. Corporate Communications Business: This business contributed net income of Ch\$4,063 million, a 6.13% decrease in relation to 2007 which presents net income of Ch\$4,329 million, mainly due to increased operating costs which are related to video conference equipment, routers associated to the elections project, added to lower non-operating income due to higher financial expenses associated to the mercantile mandate.

3. Long Distance Business: As of December 31, 2008 presented net income of Ch\$23,076 million, exceeding net income reached in 2007 in the amount of Ch\$22,168 million. This variation is mainly produced by higher operating income, which was influenced by operating revenues which increased by 2.49% in comparison to 2007, effect partially compensated by the 1.73% increase in operating costs, respectively. On the other hand, non-operating deficit increased by 29.76%, due mainly to 59.35% higher price- level restatement losses, effect that is partially compensated by the 58.89% increase in financial income.

4. Other Businesses: The businesses mainly include the services of Instituto Telefónica and T-gestiona. These businesses as a whole generated net income of Ch\$36 million, lower than net income obtained in 2007 of Ch\$110 million.

4. STATEMENTS OF CASH FLOWS

TABLE No. 3: CONSOLIDATED CASH FLOWS

(Figures in millions of Chilean pesos as of 12.31.2008)

DESCRIPTION	JAN-DEC	JAN-DEC	VARIANCE	
	2007	2008	ThCh\$	%
Cash and cash equivalents at beginning of year	48,359	85,539	37,180	76.9%
Cash flows from operating activities	266,026	183,803	(82,223)	-30.9%
Cash flows from financing activities	(78,673)	(54,051)	24,622	-31.3%
Cash flows from investing activities	(145,707)	(140,089)	5,618	-3.9%
Effect of inflation on cash and cash equivalents	(4,466)	(6,777)	(2,311)	51.7%
Cash and cash equivalents at end of year	85,539	68,425	(17,114)	-20.0%
Net change in cash and cash equivalents during the year	37,180	(17,114)	(54,294)	N.A.

The net negative variation in cash and cash equivalents of Ch\$17,114 million in cash flows for 2008, compared to the positive variation of Ch\$37,180 million in 2007, presented a decrease related mainly to a deficit in cash flows from operating activities this year, which presented a 40.0% deficit in relation to 2007 mainly product of the lower charge to income for depreciation, greater charge due to the effects of price-level restatement and higher payments made to suppliers.

5. FINANCIAL INDICATORS

TABLE No.4: CONSOLIDATED FINANCIAL INDICATORS

DESCRIPTION	JAN-DEC 2007	JAN-DEC 2008
LIQUIDITY RATIO		
Current Ratio (Current Assets/current Liabilities)	1.06	0.94

(1) Figures at the beginning of the year, restated

(2) Property, plant and equipment are considered operating expenses

5. FINANCIAL INDICATORS, continued:

From the previous table we emphasize the following:

The common liquidity ratio shows a decrease due to the 7.0% increase in current liabilities, related to the short-term portion of long-term obligations with banks and financial institutions, variation explained by the effects of reclassifying the short-term debt to long-term, whereas current assets only decreased by 5.2%, corresponding mainly to decrease in time deposits due to this year's redemptions.

The debt ratio remains at approximately 0.87 and is explained by the correlation between a 2.23% and 3.51% decrease in demand liabilities and shareholders' equity, mainly due to expired insurance payments and a decrease in stock capital and distribution of dividends carried out in 2007 and 2008, in order to distribute cash surpluses to the shareholders.

6. EXPLANATION OF THE MAIN DIFFERENCES BETWEEN THE MARKET OR ECONOMIC VALUE AND THE BOOK VALUE OF THE COMPANY'S ASSETS

Due to market inaccuracies regarding the capital assets of the sector, there is no economic or market value that can be compared to the respective accounting values. However, there are certain buildings with a book value equal or close to zero, which have a market value, which compared to the book value is not significant in respect to the Company's assets in the aggregate.

In relation to other assets, such as marketable securities (shares and promissory notes) which a referential market value, the corresponding provisions have been set up, when the market value is less than the book value.

7. ANALYSIS OF MARKETS, COMPETITION AND RELATIVE PARTICIPATION**Synthesis of Market Evolution**

It is estimated that the fixed lines in service reached approximately 3,385 thousand lines in December 2008, reflecting a 1% increase in respect to December 2007. Long distance traffic dropped 11% in DLD and 4% in ILD accumulated in relation to the previous year.

The broadband market recorded a 13% increase in respect to the same period in 2007, reaching 1,452 thousand accesses.

Telefónica Chile offers DTH (direct to home) satellite television services which during December 2008 grew by 17% compared to December 2007 with a total of 1,506 thousand Pay TV accesses.

Relative Participation

The following table shows the relative participation of Telefónica Chile in the markets where it participates as of December 31, 2008.

Business	Market Share	Market Penetration	Position of Telefónica Chile in the Market
Basic Telephone Service	63%		1

		20.2 lines / 100 inhabitants	
		73 minutes / inhabitants	
Domestic Long Distance	47%	per year	1
		10 minutes / inhabitants	
International Long Distance	43%	per year	1
Corporate Communications	44%	Ch\$110,892 million	1
		1,452 thousand	
Broadband	49%	connections	1
Pay TV	18%	1,506 thousand accesses	2

8. ANALYSIS OF MARKET RISK

Financial Risk Coverage

With the attractive foreign interest rates in certain periods, the Company has obtained financing abroad, denominated mainly in dollars and in certain cases at floating interest rates. For this reason the Company faces two types of financial risks, the risk of exchange rate fluctuations and the risk of interest rate fluctuations.

Financial risk due to foreign currency fluctuations

The Company has exchange rate coverage instruments, the purpose of which is to reduce the negative impact of the dollar fluctuations on its results. The percentage of interest bearing exposure is defined and continuously reviewed, basically considering the volatility of the exchange rate, its trend, and the cost and availability of hedging instruments for different terms.

The main hedging instruments used are Cross Currency Swaps, and dollar/UF and dollar/peso exchange insurance.

As of December 31, 2008, the interest bearing debt in original currency expressed in dollars was US\$622 million, including US\$501.5 million in financial liabilities in dollars and US\$120.5 million in debt in unidades de fomento . In this manner US\$501.5 million correspond to debt directly exposed to the variations of the dollar.

Simultaneously, the Company has Cross Currency Swaps, dollar/peso exchange insurance and assets in dollars that resulted, as of the closing of the fourth quarter of 2008, in close to 0% average exposure of the foreign currency financial debt.

Financial risk due to floating interest rate fluctuations

The policy for hedging interest rates seeks long-term efficiency in financial expenses. This considers fixing interest rates to the extent that these are low and allowing floating rates when the levels are high.

As of December 31, 2008 the Company ended with an exposure of 86% local floating interest rate exposure.

Regulatory Framework

1. Tariff System

According to Law No.18,168 (General Telecommunications Law), the prices of public telecommunications services and of intermediate telecommunications services are freely established by operators, unless there is an express qualification from the Antitrust Commission (formerly the Antitrust Resolutive Commission), stating that the conditions existing in the market are not adequate to guarantee a freedom of prices regime. In this case, the maximum tariffs for certain telecommunications services must be subject to tariff regulation.

The maximum rates for the basic telephone services provided by Telefónica Chile S.A. are set every five years, period that ends on May 6, 2009. For the 2009-2014 period, the Antitrust Commission can define the fixed telephone services that will be subject to tariff regulation or decree their price freedom. Mobile telephone, data and pay television services are expressly exempt, according to the General Telecommunications Law. In addition, the maximum prices for interconnection services (mainly access charges for network use), are by law subject to tariff regulation for all industry operators, and these are set in accordance with the procedures stipulated by that legal provision.

According to the General Telecommunications Law, the structure, level and indexation of maximum tariffs that can be charged for regulated tariff services, are set through a Supreme Decree jointly issued by the Ministries of Transportation and Telecommunications and of Economy, Development and Reconstruction (hereinafter, the Ministries).

The Ministries set the maximum tariffs on the basis of a theoretically efficient company model.

1.1. Regulated tariffs for local telephone services

The Ministry of Transportation and Telecommunications requested that the Antitrust Commission review the current qualification of telephone services subject to tariff setting, regarding those where it is considered that market conditions are not sufficient to guarantee a regime of tariff freedom.

The Antitrust Commission held a public hearing on September 11, 2008, in order for the requester - Subtel and the companies that contributed information to manifest their opinion regarding the request for qualification of services subject to tariff setting.

The pronouncement of the Antitrust Commission is still pending to date.

8. ANALYSIS OF MARKET RISK, continued:

In consideration of the above, Resolution No.686 dated May 20, 2003 issued by the Antitrust Commission is in force. This Resolution establishes that local telephone services, public telephones, land-line connections and other services associated to the local telephone service should be subject to tariff regulation. In accordance with this, it was determined that Telefónica Chile would have regulated tariff levels and structures, in its role of dominant operator throughout the national territory, except in the X and XI Regions and in Easter Island, where the dominant operators are other companies.

Tariff Decree No.169, for the 2004-2009 five-year period, applicable to Telefónica Chile, was approved and published in the Official Gazette on February 11, 2005, retroactive since May 6, 2004.

For the 2009-2014 five-year period in conformity with the procedure regulated in the law to set tariffs, Subtel set the Final Technical Economic Bases through Exempt Resolution No.562, of 2008, keeping in mind the proposal of Telefónica Chile, without requiring the formation of a Commission of Experts. The mentioned Bases define the conditions which Telefónica Chile must adhere to present its Tariff Study.

On November 7, 2008, Telefónica Chile S.A. presented the Tariff Study for the 2009 – 2014 period to Subtel.

The Ministries have up to March 7, 2009 to issue their Observations and Contrapositions Report.

1.2. Tariff Flexibility

By means of Resolution No.709 of October 13, 2003, the then Resolutive Antitrust Commission decided to: Accept the request of Compañía de Telecomunicaciones de Chile S.A. only in respect to it being necessary to clarify Resolution No.686, of May 20, 2003, in the sense that lower tariffs or different plans may be offered, but the conditions of these that protect and provide due guarantees to the user from those in dominant market positions, must be regulated by the respective authority .

The Official Gazette of February 26, 2004, published Decree No.742, which establishes the regulation regulating the conditions under which various plans and joint offers can be offered by the dominant operators of the local public telephone service. Subsequently, through Decree No.160, of February 26, 2007, published in the Official Gazette of May 8, 2007, the mentioned regulation was modified to eliminate certain previously required obligations. Among these is the obligation that existed as a prior condition to launch joint offers with other telecommunications services in the market, of inviting third parties as well as certain specific obligations to provide information to customers.

The tariff flexibility allows Telefónica Chile to offer its customers diverse commercial plans, other than the regulated plan. In 2007, income from services subject to tariff setting correspond to approximately 38.44% of total consolidated income.

Exempt Resolution No.1,418, of November 25, 2008, issued by the Undersecretary of Telecommunications establishes the average monthly level of consumption for High Consumption Plans for 2009, leaving it without modification at the previously set level of 5,000 monthly minutes.

2. Modifications of the Regulatory Framework

2.1. Bill creating the Panel of Experts

The purpose of the project is to create a panel of experts, of a technical nature, composed of seven professionals appointed by the Antitrust Commission which will be in charge of resolving litigations and disagreements between a Company and the regulator, in order to reduce the judicialization of various regulatory processes in the telecommunications sector.

The project is in the Senate's first constitutional stage.

2.2. Bill: Network Neutrality.

The Bill on Network Neutrality establishes, among other matters, that it will govern the telecommunications public service concessionaries and suppliers of Internet access, which supply access to the network. That bill prohibits arbitrary blockage, interference, discrimination, obstruction or restriction of the right of any Internet user to use, send, receive or offer any content, application or legal service through the Internet; the faculty of suppliers to take measures or actions to manage network traffic and management, as long as its purpose is not to perform actions that affect or can affect free competition; the faculty of suppliers to preserve the privacy of users, antivirus protection and network security; setting a deadline of 90 days for the Undersecretary of Telecommunications to dictate a Regulation that establishes the minimum conditions for providing Internet access services, as well as the actions that will be considered practices restricting the liberty of use of contents, applications or services provided through the Internet.

This bill is at the second constitutional stage, to be seen jointly by the Transportation and Telecommunications and Senate Economy Commissions.

3. Public Tender to Assign the Digital Infrastructure Project for Competitiveness and Innovation and its respective Subsidy, corresponding to the Annual Program for Subsidizable Projects for 2008 of the Telecommunications Development Fund

On October 1, 2008 Subtel called a public tender to assign the Digital Infrastructure Project for Competitiveness and Innovation and its respective subsidy corresponding to the annual program for subsidizable projects for 2008 of the Telecommunications Development Fund, in conformity with the Digital Connectivity Agreement, signed in 2007 jointly with the Undersecretary of Telecommunications, the Digital Country Foundation, the concessionaries for fixed telephony services, mobile telephony, long distance carriers, the Mobile Telephony Association and the Internet Suppliers Association, which seeks to strengthen the joint work to significantly reduce the digital breach and facilitate the communications of the public in general, achieve two million broadband accesses, connect 100% of rural schools, provide access to telecommunications services to 95% of the country's rural population and propitiate the productive development of Chile, through Information and Communication Technologies.

On October 30, 2008, Subtel published the Specific Modified Bases that define the conditions which must be adhered to by the parties interested in participating in the public tender whose primordial objective is to build and operate telecommunications networks to provide the service of Internet access to 1470 rural locations. In addition it establishes the frequency bands that can be assigned, according to availability, for WiMax service by destining 42 MHz in the band of 2.5 GHz frequencies; 30MHz in the 2.3 – 2.4 GHz band; 50 MHz in the 3.6 GHz band, 5 MHz in the 1.8 GHz band or in the 450 MHz and 900 MHz bands. The amount of the subsidy is Ch\$35,000 million.

Through publication in the Official Gazette of January 14, 2009, Subtel extended the deadline for presenting offers until February 27, 2009.

REPORT OF INDEPENDENT AUDITORS

(Translation of a report originally issued in Spanish - See note 2b.)

To the President of the Board, Shareholders and Directors of
Compañía de Telecomunicaciones de Chile S.A.:

1. We have audited the accompanying balance sheets of Compañía de Telecomunicaciones de Chile S.A. (the "Company") as of December 31, 2008 and 2007, and the related statements of income and of cash flows for the years then ended. These financial statements (and the corresponding notes) are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The attached Management Analysis is not an integral part of these financial statements, therefore this report does not include it.

2. We conducted our audits in accordance with generally accepted auditing standards in Chile. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

3. These financial statements have been prepared to reflect the individual financial position of Compañía de Telecomunicaciones de Chile S.A., based on the accounting principles described in Note 2 b), before the line by line consolidation of the financial statements of the subsidiaries detailed in Note 11. Consequently, for adequate interpretation, the individual financial statements should be read and analyzed in conjunction with the consolidated financial statements of Compañía de Telecomunicaciones de Chile S.A. and subsidiaries, which are required by generally accepted accounting principles in Chile. This report is presented solely for the information and use of the Board of Directors and Management of Compañía de Telecomunicaciones de Chile S.A. and the Superintendency of Securities and Insurance.

4. In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Compañía de Telecomunicaciones de Chile S.A. as of December 31, 2008 and 2007, and the results of its operations and its cash flows for the years then ended, in conformity with the principles described in Note 2 b).

5. As described in Note 3 b) "Change in the reporting Entity" dated December 31, 2008 Compañía de Telecomunicaciones de Chile S.A. absorbed its subsidiary Telefónica Asistencia y Seguridad S.A.. For comparison purposes, the financial Statements for the previous year have been presented as consolidated.

/s/ Andrés Marchant V.

126 **Telefónica Chile S.A.** | Annual Report 2008

COMPAÑIA DE TELECOMUNICACIONES DE CHILE S.A.
NOTES TO THE FINANCIAL STATEMENTS

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

1. Registration in the Securities Registry:

Compañía de Telecomunicaciones de Chile (Telefónica Chile, or the Company) is a publicly-held corporation that is registered in the Securities Registry under No. 009 and is therefore subject to supervision by the Chilean Superintendency of Securities and Insurance (SVS).

2. Summary of Significant Accounting Policies:

(a) Accounting year:

The financial statements correspond to the years ended December 31, 2008 and 2007.

(b) Basis of preparation:

These individual financial statements (hereinafter the financial statements) have been prepared in accordance with generally accepted accounting principles in Chile (Chilean GAAP) and standards set forth by the Chilean Superintendency of Securities and Insurance (SVS), except for investments in subsidiaries, which are recorded on a single line of the balance sheet at their equity value, and therefore, have not been consolidated line by line. This treatment does not modify net income for the year or equity.

In the event of any discrepancies in these regulations, SVS regulations supersede Chilean GAAP. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States (US GAAP) or International Financial Reporting Standards (IFRS). For the convenience of the reader, these financial statements have been translated from Spanish to English.

These financial statements have been issued only in order to make an individual analysis of the Company, and consequently should be read in conjunction with the consolidated financial statements, which are required by Chilean GAAP.

The Company s financial statements as of June 30 and December 31 of each year are prepared in order to be a reviewed and audit, respectively, in accordance with current legal regulations. The Company voluntarily submits the quarterly financial statements as of March 31 and September 30 to an interim financial information review performed in accordance with regulations established for this type of review, described in Generally Accepted Auditing Standard ("GAAS") No. 45 Section No. 722, issued by the Chilean Association of Accountants.

These financial statements have been issued for individual analysis of the Company, and consequently should be read in conjunction with the consolidated financial statements, which are required by Chilean GAAP.

(c) Basis of presentation:

The consolidated financial statements for 2007 and their notes have been adjusted by 8.9% in order to allow for comparison with the 2008 consolidated financial statements. For comparison purposes, certain reclassifications have been made to the 2007 consolidated financial statements.

(d) Price-level restatement

The consolidated financial statements have been adjusted by applying price-level restatement standards, in accordance with Chilean GAAP in order to reflect the changes in the purchasing power of the currency during both years. The accumulated variation in the Chilean Customer Price Index (CPI) as of December 31, 2008 and 2007, for initial balances, is 8.9% and 7.4%, respectively.

(e) Basis of conversion:

Assets and liabilities in US\$ (United States dollars), Euros, Brazilian Reales, UF (Unidad de Fomento) have been converted to pesos at the exchange rates as of each year end, as follows:

YEAR	US\$	EURO	REALES	UF
2008	636.45	898.81	271.70	21,452.57
2007	496.89	730.94	280.32	19,622.66

Foreign currency translation differences resulting from the application of this standard are credited or debited to income for the year.

2 Summary of Significant Accounting Policies, continued:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(f) Time deposits:

Time deposits are presented in accordance with the value of invested capital plus readjustments, if applicable, and accrued interest as of year end.

(g) Marketable securities:

Fixed income securities and shares are recorded at their price-level restated cost plus interest accrued as of each year end using either the actual interest yield determined at the purchase date or market value, whichever is less.

(h) Inventory:

Depending on the nature of respective items, equipment held for sale is carried at the lesser of either its price-level restated acquisition or development cost or at its market value.

Inventory that is expected to be used within twelve months of their acquisition are classified as current assets. Their cost is price-level restated. The obsolescence provision has been determined on the basis of an analysis of materials with slow turnover.

(i) Allowance for doubtful accounts:

The allowance for doubtful accounts is estimated on the basis of the aging of such accounts, up to 100% of accounts outstanding for more than 120 days.

(j) Property, plant and equipment:

Property, plant and equipment are carried at their price-level restated acquisition or construction cost.

Property, plant and equipment acquired up through December 31, 1979, are carried at their appraisal value, as stipulated in Article 140 of D.F.L. No.4. Some assets subsequently acquired were subject to a technical revaluation of their appraisal value recorded as of September 30, 1986, as authorized in SVS Circular No.550. All these values have been price-level restated.

(k) Depreciation of property, plant and equipment

Depreciation has been calculated and accounted for on the basis of the previously indicated values, through the application of fixed factors determined in accordance with the estimated useful lives of the assets. The Company's average annual financial depreciation rate is approximately 7.06% for 2008 and 7.42% for 2007.

Estimated useful lives are summarized as follows:

Assets	Range of years
--------	-------------------

Building	40
Switchboard telephone equip.	7 to 12
Subscriber equipment	2 to 4
External plant	20 to 40
Office furniture and equip	4 to 10
Software	3
Others	4 to 10

(l) Leased assets

Leased assets with a purchase option, where the contracts satisfy the characteristics of a financial lease, are recorded in a manner similar to the acquisition of property, plant and equipment, recognizing the full obligation and interest on an accrual basis. These assets are not legally owned by the Company; therefore, until the Company exercises the purchase option, such assets cannot be freely disposed of.

(m) Intangibles:

Software licenses are valued at their price-level restated acquisition cost. Amortization is calculated using the straight-line method over their estimated useful life, which does not exceed 3 years.

(n) Investments in related companies:

These investments are accounted for under the equity method, which recognizes the investor's share of income on an accrual basis. For investments abroad, the valuation methodology as defined in Technical Bulletin No.64 is applied. Investments in countries deemed to be unstable and whose activities are not an extension of the operations of the Parent Company are controlled in US dollars.

2. Summary of Significant Accounting Policies, continued:

(ñ) Goodwill:

This account corresponds to the differences originating from adopting the equity method and adjusting the cost of investments, or from the realization of new acquisitions. Goodwill and negative goodwill amortization years have been determined taking into consideration aspects such as the nature and characteristics of the business and the estimated year of return on the investment (Note 12).

(o) Transactions with repurchase agreements:

Purchases of financial instruments that include repurchase agreements are recorded as fixed rate instruments and are classified as Other Current Assets (Note 8).

(p) Bonds:

Bonds payable are recorded under liabilities at the par value of the issued bonds (Note 16). The difference between par and placement value, determined on the basis of the actual interest rate for the transaction, is deferred and amortized over the term of the respective bond (Notes 8 and 13).

Costs directly related to the placement of these obligations are deferred and amortized over the term of the respective liability (Notes 8 and 13).

(q) Current and deferred income taxes:

Income tax is recorded on the basis of taxable net income. Deferred taxes on all temporary differences, tax loss carry forwards that can be realized as future tax benefits, and other events that create differences between the tax and accounting values are recognized in accordance with Technical Bulletin No.60 and complementary technical bulletins subsequently issued by the Chilean Association of Accountants, and with SVS Circular No. 1,466 dated January 27, 2000.

(r) Staff severance indemnities:

For employees who qualify for this benefit, the Company's staff severance indemnities obligation is provided for by applying the present value method to the projected benefit obligation using an annual discount rate of 4.8%, taking into consideration assumptions concerning the future service year of the employees, mortality rate of employees and salary increases used as the basis of actuarial calculations (Notes 3 cii and 18).

Costs for past services of employees resulting from changes in assumptions used as the actuarial bases, are deferred and amortized over average of the employees' future service years (Notes 8 and 13).

(s) Revenue recognition:

The Company's revenues are recognized on an accrual basis in accordance with Chilean GAAP. Since billing dates are different from the accounting close date, as of the date of preparation of these financial statements, provisions have been established for services provided and not billed, which are determined on the basis of contracts, traffic, prices and current conditions for the year. These amounts are recorded under Trade Accounts Receivable.

(t) Foreign currency forwards:

The Company has signed foreign currency hedge future contracts which have been entered into to hedge against changes in the exchange rate of its current obligations in foreign currency.

These instruments are valued in accordance with Technical Bulletin No. 57 of the Chilean Association of Accountants.

The rights and obligations acquired are detailed in Note 25, being reflected in the balance sheet as only the net right or obligation at period end and classified according to the maturity of each contract under Other Current Assets or Other Payables, as applicable.

(u) Interest rate coverage:

Interest on loans for which associated interest rate swaps have been entered into is recorded recognizing the effect of those contracts on the interest rate established in such loans. The rights and obligations acquired therein are shown under Other Payables or under Other Current Assets, as applicable.

(v) Computer software:

The cost of software purchased is deferred and amortized using the straight-line method over a maximum period of three years and classified as other property, plant and equipment.

2. Summary of Significant Accounting Policies, continued:

(Translation of a Financial Statements originally issued in spanish - See Note 2b)

(w) Cumulative translation adjustment:

In this shareholders' equity reserve account, the Company recognizes the difference between the variation in the exchange rate and the consumer price index (C.P.I.) originated in the restatement of its investment abroad and its goodwill, which are controlled in United States dollars. The balance of this account is recognized as income in the same year in which the net income or loss is recognized on the total or partial disposal of these investments.

(x) Statement of cash flows:

For the purposes of preparing the Statement of Cash Flows in accordance with Technical Bulletin No.50 of the Chilean Association of Accountants and SVS Circular No.1,312, the Company defines securities under agreements to resell and time deposits with a remaining maturity of less than 90 days as cash equivalents.

Cash flows related to the Company's operations and all those not defined as resulting from investing or financing activities are included under Cash Flows from Operating Activities.

3. Accounting Changes:

a) Accounting Changes:

During the years covered in these interim consolidated financial statements, the accounting principles have been consistently applied.

b) Change in the reporting entity:

On December 31,2008 subsidiary Telefónica Asistencia y Seguridad S.A. was absorbed through the acquisition of the participation of Telefónica Gestión de Servicios Compartidos Chile S.A. equivalent to 0.001%, taking on all the shares of that company in Telefónica Chile.

c) Change in estimations:

i) The rotation rate

During the first half of 2008 the Company evaluated the rotation rate used to calculate the staff severance indemnities provision. After concluding the evaluation the Company decided to increase the rotation rate from 2.3% to 5.5%. As a result of this modification in 2008 the Company recorded a deferred tax asset of ThCh\$4,583,284 (historical) which will be amortized over the period of future permanence of employees entitled to this benefit.

ii) Discount rate

In December 2008 after completing an evaluation of the interest rate used to calculate the current value of staff severance indemnities, the Company decided to reduce the discount rate from 6% to 4.8%. As a result of this modification, the company recorded deferred tax assets of ThCh\$3,467,173 which will be amortized during the future permanence of employees entitled to this benefit.

4. Marketable Securities:

The balance of marketable securities is as follows:

Description	2008 ThCh\$	2007 ThCh\$
