Construction work for Premium | Refinery in Maranhão kicked-off

Rio de Janeiro, January 15, 2010 Petróleo Brasileiro S.A. - Petrobras announces it kicked-off construction work for the Premium I Refinery today.

The Premium I Refinery, to be deployed in the Municipality of Bacabeira (state of Maranhão), 60 kilometers away from the future São Luís Terminal, will be one of Petrobras' four new refining units in Northeastern Brazil. The project is aimed to increase domestic production and to facilitate the regional distribution of high-quality fuel derivatives, such as diesel fuel, aviation kerosene (QAV), petrochemical naphtha, liquefied petroleum gas (LPG), bunker (fuel for vessels), and coke.

Capable of processing 600,000 barrels per day, Premium I will refine the equivalent of one third of all domestic oil currently produced by Petrobras. The Refinery will go on stream in two phases - the first, with a capacity to process 300,000 barrels per day, is foreseen for September 2013, while the second for September 2015. It will have a pipeline range and a port terminal to receive oil and offload oil products.
