(1) As of 1Q18, we considered the margin of the financial assets of fixed income, with characteristics of credit (mortgages and debentures) in the margin of credit intermediation, formerly classified as ALM/others. For the purposes of comparability

the previous periods have been reclassified; and

(2) It reflects, mainly, the operations of the treasury in asset and liability management (ALM).

**Interest Earning Portion – Volume Variation vs. Spread**

- Credit Intermediation – the evolution in the quarter is linked, mainly, to the largest average volume of business, highlighting the origination of credit, whose daily average grew by 15% compared to the 1Q18 and by 31% in relation to the 2Q17. The reduction of the average spreads in other periods reflects the lower interest rate and the change of the mix of loan portfolios, which is directed to products with a lower rate and risk, such as, for example, credit for real estate financing, payroll-deductible loans and CDC vehicles.
- Insurance - the performance of the periods was impacted by volatility in the stock market and a lower interest rate in relation to the 2Q17, as well as the behavior of the market indices, mainly the IGP-M, which has grown both in comparison with the previous quarter as compared to the 2Q17.
- ALM / Other – reflect, in their majority, the operations of the treasury in managing assets/liabilities (ALM), mainly impacted by the behavior of the pre-fixed rate.

**Earning Portion of Credit Intermediation vs. ALL (Expanded)**

The increase in the average volume of business in this quarter, contributed to the growth of the credit intermediation margin, in addition, the improvement of the quality of the portfolio that has reduced the cost of delinquency (Expanded ALL) boosted the growth of the net margin in the periods.

The charts below refer to the Loan Portfolio, as defined by Bacen:

### **Flow of Maturities <sup>(1)</sup>**

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the presence of real estate financing and payroll-deductible loans. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk but also provide favorable conditions to gain customer loyalty.

(1) Only normal course operations.

### **Delinquency Ratio**

#### **Over 90 days**

The delinquency ratio showed improvement for the fifth consecutive quarter, reflecting the better quality of the new captures and adjustments in the credit granting and credit recovery processes. Special highlight to the strong improvement in the segments of micro, small and medium-sized enterprises and individuals, that were benefitted also by the change of mix in the portfolio, which occurred during the periods. It is emphasized that the overdue balance of individuals and micro, small and medium-sized enterprises, in 12 months, have reduced 26% and 18%, respectively. In this quarter, we had a reduction of delinquency in large corporates, after three quarters of highs. Since the peak of total delinquency in March 2017, our index reduced by 1.7 p.p..

#### **15-90 days**

In the quarter and in the last 12 months, short-term delinquency presented improvement following the trend of reduction observed in the series. It is highlighted the improvement showed for micro, small and medium-sized enterprises. The increase in the segment of large corporates relates to specific cases.

In the 2Q18, loans were granted (without retention of risks and benefits, already written off as loss, in the amount of R\$3.5 billion), which does not alter the delinquency ratios in the period. The value of the sale of these portfolios did not significantly impact the result.

---

---

**Effective Coverage Ratio**

Accompanying the constant improvement of the delinquency ratio and the sequential reduction in the origination of credits in arrears (NPL Creation), the net losses of recoveries estimated for June 2018 point to 3.1%, resulting in a effective coverage ratio of 300%.

**NPL Creation – 90 days vs. Write-offs**

As a reflection of the strengthening of the policy and of the processes of granting credit and credit recovery, the NPL Creation also follows the downward trend, reaching the lowest level of the last eleven quarters, underlining that in comparison with the previous quarter and with the 2Q17, the reduction occurred in all the segments.

We have demonstrated below the opening of the NPL Creation per business segment.

---

---

## Coverage Ratio

The adjacent graph presents the behavior of the ratios covering the allowance for loan losses in relation to default credits exceeding 60 and 90 days. In June 2018, ratios showed very comfortable levels, reaching the highest historical level. Along with the allowance for loan losses required by Bacen, we have an excess provision of R\$6.9 billion to cover possible adverse scenarios, as well as other operations/commitments with credit risk.

## Bacen Portfolio vs. Expanded Portfolio

The loan portfolio (Bacen), which registers a positive increase in the quarter and in the last 12 months, was driven in this quarter, mainly, by the operations with companies. The operations with individuals, in the periods, showed a positive evolution in most of the products.

We emphasize that the average daily origination remains in progress, 15% higher compared to the previous quarter (Individuals +2% and Companies +24%) and 31% higher than the daily average of the 2Q17 (Individuals +24% and Companies +36%).

In the expanded portfolio, we highlight the growth of operations with debentures and promissory notes, which in large part are designed for large corporates.

	June18	Mar18	June17	Variation %	
				Quarter	12 months
Individuals	181,751	176,879	170,876	2.8	6.4

(1) Does not consider debentures.

**Loans vs. Funding**

In order to analyze Loan Operations in relation to Funding, the following should be deducted from the total client funding the amount committed to reserve requirements at Bacen, the amount of available funds within the customer service network, along with the addition of funds from domestic and foreign lines of credit that finance the demand for loans. We show low dependency on interbank deposits and foreign lines of credit, given its capacity to obtain funding from clients effectively.

This is a result of significant capillarity, the broad diversity of products offered, and the market's confidence in the Bradesco brand and the important presence in the client's sector.

Note that the use of funds provides a comfortable margin. It proves that we are capable of meeting demands for loaning funds through its own funding.

## Income Distribution of Grupo

### Bradesco Seguros and Pension Plan

#### Written Premiums, Pension Plan Contributions and Capitalization Bond Income

As compared with the previous quarter, the 2Q18 revenue showed an increase of 3.7%, driven by the “Capitalization”, “Auto/P&C” and “Health” products, which presented an increase of 17.1%, 16.9% and 2.8%, respectively.

In comparison to the 2Q17, the turnover was impacted by the lower performance of “Auto/P&C” and “Life and Pension” segments, which decreased by 7.9%, and 6.8%, being partially offset by the growth of “Capitalization” segments, with a growth of 6.8% and “Health”, which grew 6.4%.

### Life and pension plans

The net income for the 2Q18 was 12.3% higher than the results for the previous quarter, due to lower claims and commercialization ratios, maintenance of the administrative efficiency ratio and improvement in the billing, offset by the financial results decrease which was impacted by the behavior of the economic-financial indexes in the period.

In relation to the 2Q17, the net income increased by 12.5%, due to the increase of 18.1% in operating income, maintenance of the administrative efficiency ratio and improvement in the financial results.

(1) Life/VGBL/PGBL/Traditional

### Evaluation of Participants and Life and Personal Accident Policyholders

### Health

The net income increase of the 2Q18 compared to the previous quarter and to the 2Q17, mainly reflects the higher billing, the improvement of claims, commercialization and administrative efficiency ratios, as well as the increase in the financial and equity results.

### Number of Bradesco Saúde and Mediservice Policyholders

**Capitalization Bonds**

Net income increase in the quarterly and last 12 months comparison, is due to the improvement of the operating incomes and the maintenance administrative efficiency ratio.

**Auto and Property & Casualty**

The growth of income reflects the improvement of the claims, efficiency and commercialization ratios, mainly in Auto.

Below is the composition of fee and commission income in the respective periods:

R\$ million	2Q18	1Q18	2Q17	1H18	1H17	Variation %			As

## Highlights

The above table shows the good performance of our fee and commission income, which showed a positive performance in practically all the lines. Analyzing the current quarter compared to the 1Q18 and the 2Q17, we emphasize that the revenue growth derives from the largest volume of operations, driven by a greater supply of products and services, widely available in digital and traditional channels and the higher number of business days. The results also show signs of constant improvements in the management of the products and services portfolio, as well as with benefits of the process of segmentation of clients and the gains of synergies obtained with the acquisition of HSBC Brasil.

Below are some highlights that influence the results from of fee and commission income in the periods:

- **Cards** – reflection of the increase in the number of transactions and the larger volume transacted.
- **Checking Account** – it reflects the improvement in the management of the portfolio of services provided, highlighting the continuous improvement process, which aims to improve and expand the variety of products offered to clients according to their segmentation.
- **Asset Management** – good performance resulting from the increase in the volume of the funds and portfolios managed, highlighting the fixed income and multimarket funds.
- **Loan Operations** – higher commission income over guarantees provided (guarantees and sureties) and increased credit origination.
- **Cash Management** – a reflection of the greater volume of processed documents.
- **Consortium Management** – good performance due to the increase in the sales made, receipt from bids and average price, ensuring the leadership of Bradesco Consórcios in the segments in which it operates (real estate, auto and trucks/machinery and equipment).
- **Custody and Brokerage Services** – resulting from the higher volumes of securities traded at B3.
- **Underwriting / Financial Advisory Services** – good performance in the quarter and in 12 months as a result of the increased activity of the capital market, mainly in structured operations and of variable/fixed income.

<b>Total Operating Expenses</b>	<b>9,920</b>	<b>9,639</b>	<b>9,865</b>	<b>19,559</b>	<b>19,541</b>	<b>2.9</b>	<b>0.6</b>	<b>0.1</b>	<b>100.0</b>
<b>Customer Service Points</b>	<b>74,814</b>	<b>74,126</b>	<b>72,750</b>	<b>74,814</b>	<b>72,750</b>	<b>0.9</b>	<b>2.8</b>	<b>2.8</b>	<b>-</b>

**Personnel expenses** – The increase in the quarter is related to the growth of the "non-structural" part, due to the higher costs with profit sharing of the employees (PLR) and training. In relation to the "structural" part, the increase in the quarter is due to a lower concentration of holidays in the 2Q18. When compared with the 2Q17, the reduction observed in the "structural" part is related, largely, to the effects of the Special Voluntary Severance Program Scheme - PDVE, which started in August 2017, and to the gains of synergies obtained with the acquisition of HSBC Brasil. In the "non-structural" part, the variation of expenses with the provision for labor claims is mainly related to the higher volume of lawsuits.

**Administrative Expenses** – the increase of administrative expenses in the quarter and in the last 12 months reflects the higher volume of business and services in the periods and higher expenses with advertising and marketing. In relation to the 2Q17, it is possible to observe the adjustments made in several lines, such as financial system services, transportation, security and surveillance, communication, rent and materials, showing the gains in synergy resulting from the acquisition of HSBC Brasil and the strategy of optimization of the points of service.

---

---

### **Operating Coverage Ratio <sup>(1)</sup>**

The coverage ratio presented an improvement for the fourth consecutive quarter, capturing the PDVE benefits, the revenue gained from the synergy of the acquisition of HSBC Brasil and the strategy of optimization of the points of service. We also highlight the higher revenue from fee and commission income, which have been capturing the positive results of the process of segmentation of clients and the efficiency obtained in the management and offer of products and services.

### **Other Operating Expenses, Net of Income**

Other operating expenses, net income presented a growth of 4.3% in the quarter and 18.5% when compared to 2Q17, due to higher expenses in the segment of credit cards and constitution of operating provisions.

### **Basel Ratio**

The reduction of capital tier I index is related to the mark-to-market of the securities available for sale, increase of prudential adjustments, mainly, from the tax credits originating from tax losses, and increase of the assets weighted by risk. The good internal generation capital (net income), continues with high contribution to the indicator.

(1) In July 2018, there was an implementation in the ratings on a national scale, resulting in a rating upgrade on a national long-term scale from "brAA-" to "brAAA".

We control corporate risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models and measurement and control tools. We also provide training to employees at every level of the organization, from business areas to the Board of Directors.

Our risk management structure has policies, standards and procedures, ensuring that our Organization maintains control compatible with the nature of its operations and the complexity of its products, services,

It also comprises committees, commissions and departments that support the Board of Executive Officers and the Board of Directors in decision making. The most notable amongst these are the Integrated Risk Management and Capital Allocation Committee and the Risk Committee, whose purpose is to advise the Board of Directors on the performance of its duties in management and the control of risks and capital.

Detailed information regarding risk management process, regulatory capital as well as our risk exposures, can be found in

activities, processes and systems, as well as the extent of its exposure to risk.

the Risk Management Report – Pillar 3, available on the Investor Relations website at [bradesco.com.br](http://bradesco.com.br).

---

We have a department responsible for capital management centralization, named Capital Management, subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and supporting areas.

Additionally, this Governance comprises Executive Committees and Non-Statutory Committees who assist the Board of Directors and Board of Executive Officers in the decision-making process.

The Capital Management structure, through adequate capital sufficiency planning, aims to provide conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives that we have defined.

With the implementation of the Capital Management structure, an internal assessment system was established for capital adequacy (ICAAP), containing the capital plan, which is used to assess capital sufficiency, considering the base and stress scenarios in a prospective vision to identify actions of capital and liquidity to be adopted for the respective scenarios.

The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by our Organization. These projections are established for a minimal period of three years and are constantly monitored and controlled by the Capital Management area.

For more severe situations of stress that can impact the financial system or the feasibility of the institution, a recovery plan was developed in compliance with Resolution No. 4,502/16 containing actions of capital and liquidity.

Information on capital adequacy and sufficiency and the instruments mentioned represent fundamental tools in the management and support of the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the Integrated Report and Recovery Plan (4,502/16), available on the Investor Relations website at [bradescori.com.br](http://bradescori.com.br).

According to CNSP Resolution No. 321/15, amended by Resolution No. 360/17, corporations should have an adjusted

The capital adjustment and management process is continuously monitored and aims to ensure that Grupo Bradesco Seguros

shareholders' equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the base capital or the risk capital, whichever is higher. According to CNSP Resolution No. 343/16, the ASE is valued economically, and should be calculated based on shareholders' equity or net assets, considering the accounting adjustments and adjustments associated with changes in economic values. For companies regulated by the ANS, Normative Resolution No. 373/15 establishes that corporations should have adjusted shareholders' equity (ASE) equal to or higher than the Solvency Margin.

keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles.

Companies must permanently maintain capital compatible with the risks for their activities and operations, according to the characteristics of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in May 2018 was R\$11.0 billion.

The table below shows the historical composition of the Reference Equity, of the Risk Weighted Assets and of the Basel Ratio.

---

Our Management comprises the Board of Directors, which is composed of eight directors and its Board of Executive Officers, both with their own set of bylaws, with no fulfillment of the posts of Chairman of the Board of Directors and Chief Executive Officer, according to statutory provision.

Eight committees advise the Board of Directors: a) statutory: (i) Audit; and (ii) Remuneration; and b) non-statutory: (iii) Ethical Conduct; (iv) Risks; (v) Internal Controls and Compliance; (vi) Integrated Risk Management and Capital Allocation – COGIRAC; (vii) Sustainability and Diversity; and (viii) Succession and Nomination. Various executive committees assist the activities of the Board of Executive Officers, all regulated by their own set of bylaws.

Senior Management and all employees are committed to compliance with the laws and regulations applicable to their activities, as well as business conduct by observing high standards of conduct and ethics. To ensure these commitments there are policies, standards, processes and systems for the monitoring of conduct, channels and mechanisms for handling complaints, in addition to a specific area for responses throughout the program. These components are supported by Committees linked to the Board of Directors, such as Ethical Conduct, Integrated Risk Management and Capital Allocation, Internal Controls and Compliance and supported by training and capacity building actions developed by Unibrad – Bradesco University for all its professionals, focused on the themes of Conduct, Controls and Compliance.

The Fiscal Council, a permanent supervisory body, comprises five effective members and an equal number of alternate members. The preferred shareholders and non-controlling shareholders, holders of common shares are responsible for choosing two effective members and their respective alternates. Besides the Fiscal Council and the Audit Committee, Bradesco is submitted to Internal Audit which reports to the Board of Directors.

In 2001, we adhered voluntarily to Tier 1 of Corporate Governance of B3 and, in 2011, to the Self-Regulation Code and Best Practices for Publicly-Held Companies – ABRASCA. Further information is available on Bradesco's Investor Relations website ([bradescori.com.br](http://bradescori.com.br) – Corporate Governance Section).

In meeting the best practices of corporate governance, we adopt our own program of integrity which is composed of a set of policies, standards and procedures aimed at the prevention, monitoring, detection and response in relation to harmful acts foreseen in Law No. 12,846/13 and the main international laws, especially in countries where we have units or operations and/or business.

Our commitment to transparency, democratization of information, punctuality and the pursuit of the best practices are essential factors and are constantly reinforced by Bradesco's Investor Relations area.

In the second quarter of 2018 we promoted 58 events with national and international investors, through conferences, meetings, conference calls and institutional presentations, assisting 354 investors. We also held two teleconferences of results to institutional investors.

Another highlight of the quarter was the seventh Bradesco Open Day held in Cidade de Deus – Osasco, counting on the participation of our CEO Mr. Octavio de Lazari Junior and other Executives. The event involved the participation of more than 600 domestic and foreign investors, who attended the meeting in person and over the internet. During this event the strategic themes of the main business areas of our Organization were discussed and the participants had the opportunity to ask questions to the Executives.

We seek to include sustainability in our business with the aim of increasing our capacity to thrive in the long term in a competitive and dynamic business environment. The perception that we are moving towards a transition to a new economy, more aligned with the developmental challenges that we face, leads us to incorporate social and environmental aspects in the management of risks and opportunities, in order to ensure positive results and the generation of shared value.

Our commitment to sustainability is also reinforced in the establishment of dialogs with various stakeholders, through adherence to corporate initiatives and voluntary commitments, such as: Global Compact Initiatives, Goals of Sustainable Development, Equator Principles, Carbon Disclosure Project – CDP (Climate Initiative), Principles for Responsible Investment (PRI), Businesses for the Climate (EPC), CEBDS (Brazilian Business Center for Sustainable Development), among others.

The main decisions and monitoring of the strategy of sustainability are conducted by the Sustainability Committee, coordinated by the Chairman of the Board of Directors and with the participation of the Chief Executive Officer, as well as members of the Board of Directors and of the Board of Executive Officers

The performance of the Organization's sustainability activities is reflected in the external assessments of the main indexes and ratings of Sustainability, such as the Dow Jones Sustainability Index (DJSI) – “World and Emerging Markets”, of the New York Stock Exchange, the Corporate Sustainability Index (ISE), and the Carbon Efficient Index (ICO2), both of B3.

### **Bradesco Integrates the Vigeo Eires Sustainability Index**

For the second time, we were selected to compose the portfolio of the Vigeo Eires Sustainability Index – Emerging Market Performers Ranking. Vigeo is the leading agency in Europe in the ASG analysis and the index is composed of 100 companies, selected among 813 listed in developing countries, which offer the best performances in social, environmental and governance criteria.

Our participation in the index emphasizes the performance of the sustainability practices of our Organization.

### **Fundação Bradesco**

With a broad social and educational program in place for 61 years, Fundação Bradesco operates 40 schools across Brazil. In 2018, an estimated budget of R\$664.717 million benefits approximately 97,385 students in their Schools, in Basic Education (from Kindergarten to Secondary Education and Vocational and Technical Education at Secondary Level), Education for Young People and Adults and in the Initial and Continuing Training focused on employment and income generation. In addition to being guaranteed to be free, quality education, the students enrolled in the Basic Education system, numbering over 42 thousand, also receive uniforms, school supplies, meals, medical and dental assistance. With regard to the distance learning system (EaD), it is estimated that more than 630 thousand students will benefit through the e-learning portal "Escola Virtual" (Virtual School). These students will conclude at least one of the various courses offered in the program and another 11,987 students will

benefit from projects and initiatives carried out in partnership with the *Educa+Ação* Program, and from Technology courses.

**To**

**Board of Directors and Shareholders of Banco Bradesco S.A.**

**Osasco – SP**

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. for the semester ended as at June 30, 2018 in the form of reasonable assurance conclusion that based on our work, described within this report, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, based on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

### **Responsibilities of the Management of Bradesco**

Management of Bradesco is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determines are necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

### **Independent Auditor's Responsibility**

Our responsibility is to examine the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a reasonable assurance about whether the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, to the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

The procedures selected were based on our judgment, including the assessment of risks of material misstatement in the supplementary accounting information of Banco Bradesco S.A. whether due to fraud or error, however, this does not include the search and identification of fraud or error.

---

In making those risk assessments, we have considered internal controls relevant to the preparation and presentation of supplementary accounting information in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of Bradesco's internal control over the preparation and presentation of the supplementary accounting information. Our engagement also includes the assessment of the appropriateness of the reasonableness of the supplementary accounting information within the Economic and Financial Analysis Report in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of the supplementary accounting information and the reasonableness of estimates made by Bradesco and evaluating the overall presentation of the supplementary accounting information. The reasonable assurance level is less than an audit.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

### **Criteria for Preparing the Supplementary Accounting Information**

The supplementary accounting information disclosed within the Economic and Financial Analysis Report, for the semester ended June 30, 2018 has been prepared by the Management of Bradesco, based on the information contained in the consolidated financial statements on June 30, 2018 and the accounting information adjusted to the criteria described in Note 4 of such financial statements, in order to facilitate additional analysis, without, however, being part of the consolidated financial statements disclosed on that date.

### **Conclusion**

Our conclusion has been formed on the basis of, and is limited to the matters outlined in this report.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion. In our opinion, the supplementary accounting information included within the Economic and Financial Analysis Information Report is presented, in all material respects, in accordance with the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

## **Management Report**

Dear Shareholders,

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A. related to the first half of 2018, prepared in accordance with the accounting practices used in Brazil and applicable to institutions authorized to operate by the Central Bank of Brazil.

Throughout our history, we have combined tradition and innovation, building an institution that promotes banking inclusion and that is present in all regions of Brazil, with a portfolio of diversified products and services, aimed at all bands of the public. The Bank's performance strategy is based on:

- **Scale and diversification:** broad and diversified customer base with appropriate offers, maximizing the satisfaction of clients and indicators of efficiency;
- **Service Channels:** one of the largest and most complete customer service networks in the market, offering high quality products and services to all audiences, i.e. to individuals and legal entities;
- **People:** as an essential point of our culture and development of the internal career, continuous investments are made in the training and improvement of our employees;
- **Entrepreneurial culture:** sustained by organic growth, strict controls, conducting business

## **2. Income for the Period**

In the first half, Bradesco's Net Income reached R\$8.995 billion, equivalent to R\$1.34 per share and profitability of 16.2% over the average Shareholders' Equity. The annualized return on Average Total Assets was 1.5%.

In terms of Interest on Own Capital, in gross values, we destined R\$1.9 billion to the shareholders, paid on a monthly basis and intermediaries, and R\$1.7 billion provisioned, totalling R\$3.6 billion in the period. The intermediate Interest on Shareholders' Equity paid on July 16, 2018, represents approximately 10 times the value of monthly Interest paid.

The taxes and contributions including pensions, paid or provisioned, reached R\$14.041 billion, of which R\$6.707 billion is related to taxes withheld and collected from third parties and R\$7.334 billion calculated based on the activities developed by the Bradesco Organization, corresponding to 81.5% of the Net Income.

## **3. Capital and Reserves**

On June 30, 2018, the paid-up Share Capital totalled R\$67.100 billion. Added to the Equity Reserves of R\$45.939 billion, it resulted in a Shareholders' Equity of R\$113.039 billion, presenting a growth of 5.8% on the same period of the previous year, corresponding to the equity value of R\$16.89 per share. Calculated on the basis of its shares listing, the Market Value of Bradesco reached R\$171.604 billion, equivalent to 1.5 times the Accounting Shareholders' Equity.

with transparency, ethics and adequate remuneration to our shareholders;

- **Digital:** investments in technology and innovation to meet and exceed the expectations of clients and other target audiences we serve;
- **Risk Management:** a robust process of governance and control of risks; and
- **Sustainability of business:** generation of value to society with appropriate practices in conducting business.

## 1. Economic Commentary

The global economic scenario proved more challenging throughout the first half of the year for emerging countries. The prospect of raising interest rates in the central economies has been exacerbated by actions of trade and geopolitical protectionism, making the global environment more volatile and with less appetite for risk. In this context, the challenges of the Brazilian economy, notably the public accounts and modest growth, transmit this external environment to the prices of domestic assets, affecting the currency and impacting the country risk. Prospectively, the continuity of the fiscal agendas and gains in productivity is fundamental and, once implemented, will contribute to boost the confidence of agents, with positive impacts on consumption, investments and credit.

The Managed Shareholders' Equity is equivalent to 9.2% of the Consolidated Assets, totaling R\$1.239 trillion, an increase of 4.2% compared to the same period in 2017. Therefore, the Basel ratio reached 14.9%, higher than the minimum of 11.0% regulated by Resolution No. 4,193/13 of the National Monetary Council, according to the Basel Committee. At the end of the half, the immobilization index, compared to the Reference Equity, reached 44.9% in the Prudential Consolidation, within the maximum limit of 50.0%, established by the Central Bank of Brazil.

### Securities classified under "Held to Maturity Securities"

Bradesco, as provided for by Article 8 of the Circular Letter No. 3,068/01 of the Central Bank of Brazil, declares that it has the financial capacity and the intention of holding to maturity the securities classified under "held to maturity securities".

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

## **Management Report**

### **4. Funding and Management of Resources**

At the end of the period, the resources funded and managed by the Bradesco Organization amounted to R\$1.949 trillion, 6.3% higher than the previous year, distributed as:

R\$501.806 billion in Demand Deposits, Time Deposits, Interbank Deposits, Savings Accounts and Securities Sold under Agreements for Repurchase;

R\$843.865 billion in assets under management, comprising Investment Funds, Managed Portfolios and Third-Party Fund Quotas, a 8.7% increase;

R\$309.248 billion in the Exchange Portfolio, Borrowings and Onlendings in Brazil, Working Capital, Tax Payments and Collection and Related Charges, Funds From Issuance of Securities in Brazil, and Subordinated Debt in Brazil, a 6.8% increase.

R\$252.071 billion in Technical Provisions for Insurance, Pension Plans and Capitalization Bonds, up by 7.9%; and

R\$42.308 billion in Foreign Funding, through public and private issues, Subordinated Debt Overseas, Securitization of Future Financial Flows and Borrowings and On-lendings Overseas, equivalent to US\$10.973 billion.

R\$22.414 billion in business in the Rural Area;

R\$13.127 billion in Advance Payments on Exchange Contracts, for a Portfolio in the amount of US\$10.203 billion of Financing for Export; and

US\$1.901 billion of operations in Import Finance in Foreign Currencies.

For the activities of Real Estate Credit, the balance of the Portfolio was R\$61.043 billion, whereby R\$35.618 billion was intended for Individuals and R\$25.425 billion for Legal Entities, and a total of 179,930 units financed.

The consolidated balance of provision for credit losses amounted to R\$35.153 billion, equivalent to 9.0% of the total volume of credit operations, with R\$6.887 billion of surplus provision in relation to the minimum required by the Central Bank of Brazil.

### **6. Bradesco Service Network**

The modern structure of the Service Network of the Bradesco Organization, present in all regions of Brazil and in some strategic locations abroad, at the end of the half, there were 74,814 points of service, distributed as follows:

8,603 Branches and PAs (Service Branches) in Brazil (Branches: Bradesco – 4,694, Banco Bradesco Cartões – 1, Banco Bradesco Financiamentos – 2, Banco Bradesco BBI - 1, Banco Bradesco BERJ –1 and Banco Alvorada – 1; and PAs: 3,903);

## 5. Loan Operations

Considering the expanded concept, the balance of consolidated credit operations totaled R\$515.635 billion in the end of the period, an increase of 4.5% as compared to June 2017, included in this amount:

R\$120.856 billion in Consumption Finance, which includes R\$33.606 billion of credit receivables from Credit Cards, R\$46.593 billion in Consigned Loans, R\$22.167 billion of vehicle CDC/ Leasing and R\$18.490 billion of Personal Loans;

R\$71.765 billion of Sureties and Guarantees;

R\$19.277 billion regarding operations of transfer of internal and external resources, originating mainly from the BNDES - Banco Nacional de Desenvolvimento Econômico e Social (National Bank for Social and Economic Development), standing out as one of the main distributing agents of loans;

3 Branches abroad, one Bradesco branch in New York, one Bradesco branch in Grand Cayman and one subsidiary Banco Bradesco Europa in London;

10 Overseas Subsidiaries and Representation Office (Banco Bradesco Argentina S.A., in Buenos Aires; Banco Bradesco Europa S.A., in Luxembourg; Bradesco North America LLC and Bradesco Securities, Inc., in New York; Bradesco Securities UK Limited, in London; Bradesco Securities Hong Kong Limited and Bradesco Trade Services Limited in Hong Kong; Cidade Capital Markets Ltd. in Grand Cayman, and Bradescard Mexico, Sociedad de Responsabilidad Limitada in Jalisco; and Representative Office, in Miami);

14,741 Service branches of Bradesco Financiamentos, with 929 posts for payroll loans and 13,812 dealer/reseller posts for Vehicle Financing;

38,717 Bradesco Expresso service branches;

Bradesco \_

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

## **Management Report**

929 In-company electronic service branches;

63 Losango service branches;

54 External Terminals in the Bradesco Network; and

11,694 ATMs in the Banco24Horas Network, with 27 terminals shared by the Networks.

We had simultaneously 35,531 ATMs, strategically distributed nationwide, of which 2 thousand are recycling machines of banknotes, which guarantee immediate deposit in the account, including on weekends, aside from the 22,166 ATMs of the Banco24Horas Network.

We are present in the Digital Channels, such as Internet Banking, Bradesco Celular, *Fone Fácil* (Easy Phone) and Social Networks, seeking convenience, practicality and security for clients and users, which offer various products and services, at any place and time.

Always aware of the needs of the different audiences, we currently have four major Digital Platforms, which serve clients from the “Exclusive” and “Prime” segments invited by the Bank or those who have requested migration to the units because their relationship profiles are primarily digital. We also have the Bradesco Private Bank Digital Branch.

### **Next**

Thinking of the hyperconnected public, we launched in 2017, the Next, 100% stand-alone digital platform.

## **8. Grupo Bradesco Seguros (Insurance Group)**

The Grupo Bradesco Seguros, which presents relevant participation in the results of the Organization, reiterates its prominent position in the market in the areas of Insurance, Capitalization and Open Supplementary Pension Plans, Grupo Bradesco Seguros by recording, on June 30, 2018, Net Income of R\$3.145 billion and Shareholders' Equity of R\$33.249 billion. The net insurance premiums issued, pension contributions and income from capitalization reached a total of R\$35.793 billion, in the first half of 2018.

## **9. Corporate Governance**

Corporate governance practices have been present in the management of Banco Bradesco S.A. since 1943, the year of its establishment. From 1946, its shares have been traded on the Brazilian Stock Exchange, having started its operations in the US capital market in 1997, negotiating initially Tier I ADRs backed by preferred shares and, in 2001 and 2012, Tier II ADRs backed, respectively, by preferred and common shares. Since 2001, it also negotiates DRs (Depositary Receipts) on the European market.

We highlight, among the practices adopted, the listing of the Bank at Tier I of Corporate Governance of the B3 – Brasil, Bolsa, Balcão, since 2001, and from 2011, adhering to the Code of Self-regulation and Best Practices of Open Capital Companies of Abrasca. In 1944, the Bank's Rules of Procedure were established, from which the Bradesco Organization Code of Conduct originated in 2003.

The Management of the Bank is formed by the Board of Directors and by the Statutory Board of Executive Officers, whereby the Board of Directors

With the Next, aiming at the best experience of use, the relationship with the client is made based on their behavior, interactively, and transforms money management into smart pathways toward one's goals, ensuring users the freedom to carry out account transactions spontaneously and integrated to their purposes.

## 7. **Banco Bradesco BBI**

BBI, an Investment Bank of the Organization, advises clients in primary and secondary issuing of shares, merger transactions, purchase and sale of assets, structuring and distributing debt instruments, such as debentures, promissory notes, CRIs, CRAs, real estate funds, FIDCs and bonds, among others, besides structured corporate finance operations and the financing of projects under the modality of Project Finance. In the half, Bradesco BBI conducted transactions with a volume of more than R\$110.820 billion.

is composed of eight members, of which six are external and two are internal, elected by the Annual Shareholders' Meeting, with re-election allowed. The Board of Directors is advised by eight committees: a) statutory: (i) Audit; and (ii) Remuneration; and (b) non-statutory: (iii) Ethical Conduct; (iv) Risks; (v) Internal Controls and Compliance; (vi) Integrated Risk Management and Capital Allocation – COGIRAC; (vii) Sustainability and Diversity; and (viii) Succession and Nomination. Several executive committees assist the activities of the Board of Executive Officers, all being normatized by their own regulations. In the role of Supervisory Body, we have the Fiscal Council, which has been operating continuously since 2015 and is currently composed of five effective members and their respective alternates.

In accordance with Instruction No. 381/03, of the Brazilian Securities and Exchange Commission, the Bradesco Organization did not contract nor have services provided by KPMG Auditores Independentes in the half that were not related to the external audit at a level greater than 5% of the total fees related to external audit services. Other services provided by the external auditors were pre-agreed procedures or assurance for review of financial information, of draws and system revision and diagnosis. The Bank's policy is in line with the principles of preserving the auditors' independence, which is based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal

## **Management Report**

### **9.1 Policies of Transparency and Disclosure of Information**

For Bradesco, transparency, timeliness, democratization of information and the search for best practices are essential factors for conducting business.

We held, in the first half, 92 events with national and international investors, through conferences, meetings, conference calls and institutional presentations, advising 714 investors. We also held four teleconferences about the results with institutional investors.

On the site [banco.bradesco/ri](http://banco.bradesco/ri) we provide information related to the Organization, such as the profile, history, shareholding structure, Reports on Economic and Financial Analysis, Integrated Report, acquisitions, APIMEC meetings, in addition to other information on the financial market.

## **10. Integrated Risk Control**

### **10.1 Risk Management**

We consider risk management a strategic activity mainly due to the complexity and variety of banking products and services in all segments of the market, and also by the globalization of the business of the Organization.

Given its wide operation, the Organization is exposed to various types of risks inherent to the financial activity. Among the main ones are the following: Credit, Counterparty Credit, Market, Operational, Subscription, Liquidity, Concentration, Socio-environmental, Strategy, Legal or of Compliance, Reputation, Model and Contagion.

We have a specific structure for evaluation, measurement, control and monitoring of relevant risks and emerging risks, making it possible to anticipate the development and implementation of actions to minimize any adverse impacts to their

### **10.2 Internal Controls**

The effectiveness of the Internal Controls of the Organization is sustained by qualified professionals, well-defined and implemented processes, and technology compatible with the business needs.

The Methodology of Internal Controls is aligned with the document issued by the Committee of Sponsoring Organizations of the Treadway Commission – COSO, 2013 version, called Internal Control – Integrated Framework, with the guidelines established by the Information Systems Audit and Control Association (ISACA) through the Control Objectives for Information and Related Technology (COBIT 5), and with the procedures described by the Public Company Accounting Oversight Board (PCAOB) for the analysis of the Entity Level Controls (ELC).

The existence, implementation and effectiveness of the controls that ensure acceptable levels of risk in the processes of the Organization are certified by the area of Internal Controls, and the results are reported to the Audit, Internal Controls and Compliance Committees, as well as to the Board of Directors, with the purpose of providing security for the proper running of the business and to reach the objectives established in accordance with the external laws and regulations, policies, internal standards and procedures, in addition to codes of conduct and of self-regulation applicable.

### **10.3 Compliance and Integrity Program**

The Senior Management and all the employees are committed to compliance with the laws and regulations applicable to activities, as well as the conduct of business by observing high standards of conduct and ethics. To ensure these commitments there are policies, standards, processes and systems for the monitoring of conduct, channels and mechanisms for handling complaints, in addition to a specific area for responses throughout the program. These components are supported by Committees

positions.

The corporate control of risks is performed by means of consistent processes, in an integrated manner and independently by a solid governance structure reporting to the Risk Committee, Integrated Risk Management and Capital Allocation Committee and to the Board of Directors, preserving and valuing the environment of collegiate decisions, seeking to proactively identify the risks to be mitigated or avoided.

linked to the Board of Directors, such as, Ethical Conduct, for example, and supported by training and capacity building actions developed by Unibrad – Bradesco University for all the professionals.

In meeting the best practices of corporate governance, the Bradesco Organization adopts its own program of integrity, which is composed by a set of policies, standards and procedures aimed at for the prevention, monitoring, detection and response in relation to harmful acts foreseen in Law No. 12,846/13 and in the main international laws, especially where we have units or operations and/or business.

## **Management Report**

### **Prevention against Illicit Acts**

Business and relationships are conducted with ethics, integrity and transparency, concepts that permeate the organizational culture, whose values and principles are ratified in the Codes of Conduct and supported by the Senior Management.

Prevention and combat against illicit acts are exercised continuously. These risks are mitigated through policies, standards, procedures, training programs for professionals and controls that seek to promptly detect any operations and situations with indications of links to illegal activities, aimed at the adoption of appropriate measures and actions. This system of mechanisms is subject to constant evaluation and improvement in accordance with current and applicable laws and regulations, as well as with the best market practices, in Brazil and in countries where the Organization has business units.

In this regard, we emphasize training activities on ethical conduct and money laundering prevention, financing of terrorism, corruption and bribery, in addition to the development and review of procedures and strengthening of controls related to public agents and politically exposed persons.

### **Independent Validation of Models of Management and Measurement of Risks and Capital**

We use internal models, developed from statistical, economic, financial, and mathematical theories, and the knowledge of experts, whose purpose is to support and facilitate the structuring of subjects, to standardize and speed up decisions, and to manage risks and capital.

### **11. Innovation and Technology**

We have a history of pioneering technology and innovation in the financial universe and, as the focus is on the users' experience, we seek to accelerate our resources already consolidated, aware of the changes in the market, conducting research and tests with the most advanced technologies to deliver an increasingly practical, efficient and secure Bank. Some examples of actions that we highlight are:

- **inovaBra:** innovation platform formed by eight complementary programs which foster internal and external entrepreneurship, through connections and partnerships in the Organization with the innovation ecosystem based on collaboration between banks and businesses, startups, investors and mentors, in Brazil and in the world, to address the challenges and sustainability of business;
- **habitat:** a prominent arm of inovaBra, habitat is a Brazilian center of innovation that contributes to the facilitation and acceleration of the process of innovation in the Bank, as well as the strengthening of partnerships with large corporate clients, through a structured work of collaboration for innovation in business with the application of frontier technologies from startups. In only five months of operation, we achieved an occupancy of 90%, i.e., almost 1,400 active job positions, 160 startups and 50 companies. In this period, more than 25,000 people visited the space and more than 360 events were held;
- **Voice Biometrics:** at Bradesco, your voice is your password, which gives even more convenience and usability to access the account through *Fone Fácil* (Easy Phone); and
- **BIA – Bradesco Inteligência Artificial (Artificial Intelligence):** using IBM's cognitive computing platform, Watson, as a basis, we were pioneers in developing the BIA, which relates to the user in natural language, answering questions about

In order to detect, mitigate and control risks inherent in our internal models, which are associated with potential adverse consequences arising from decisions based on incorrect or obsolete parameters, inadequate calibration of models, failures in the development stage, or inappropriate use, there is the process of independent validation that stringently evaluates these aspects, challenging the methodology, the assumptions adopted, the data used, the use of the models, as well as the robustness of the environment in which they are implemented, reporting their results to managers, internal audit, and Integrated Risk Management and Capital Allocation Committee – COGIRAC.

### **Information Security**

The security of information and cybernetics are treated at the highest strategic level by the Management Bodies and other hierarchical levels. We have a set of controls that include procedures, processes and organizational structures, as well as rules and IT solutions aimed to protect the confidentiality, availability and integrity of information.

products and services. Available for employees and clients, it makes the customer service more agile, practical and autonomous. In this half, we have had more than 33 million recorded interactions through BIA.

### **12. Human Capital**

The model of Human Capital Management of the Organization is invariably guided by the egalitarian appreciation of people, without any kind of discrimination. We adopted a strategy directed at the development of programs and solutions for the technical and behavioral training and development of our employees, through UniBrad – Universidade Corporativa Bradesco (Bradesco Corporate University), in order to keep them in constant harmony with the market, increasingly more competitive and demanding.

In the half, 1,445 courses were given, with 375,940 participations. The welfare benefits reached 235,628 people, ensuring good wellbeing, the improvement of the quality of life and the safety of employees and their dependents.

## **Management Report**

### **13. Sustainability in the Bradesco Organization**

For the Bradesco Organization thinking of sustainability has always been natural, present in the form of doing business, and also in the commitment that we have with the development of Brazil. We seek continuous and sustainable growth, respecting the audiences, the communities and the environment with which we interact.

Our Business guidelines and strategies are oriented in such a way as to promote the incorporation of the best practices of corporate sustainability, taking into account each region's characteristics and potential, contributing to the concept of shared value. We highlight the participation and commitment we assumed voluntarily, with initiatives such as Global Compact, Equator Principles, CDP, Principles for Responsible Investment (PRI), GHG Protocol Program and *Empresas pelo Clima* (EPC - Business for the Climate Platform) and, more recently, the Goals of Sustainable Development (ODS).

Reaffirming the commitment with the theme, we integrated a group of 27 banks, from 5 continents, into a UN initiative to develop principles of responsibility in global banking activities, strengthening the role of the sector to finance a more sustainable future and support the society to achieve the ODS, which we have already joined, and the Paris Climate Agreement of the United Nations (UN). Coordinated by the Financial Initiative of the United Nations Environment Programme, it aims to establish a set of principles for the banking environment with similar function to the PRI, for asset managers, and the Principles for Sustainability in Insurance (PSI), of which we are already signatories, for insurers.

The extensive work in business management is recognized and, once more, we are present in the DJSI (Dow Jones Sustainability Indices) of New York Stock Exchange and in other important Sustainability indices such as the ISE (Corporate

### **Fundação Bradesco**

The Fundação Bradesco, the main social action of the Organization, has invested for more than six decades in education and health care, with a positive influence on improving the quality of life of the communities in which it operates, through quality education for children, young people and adults. Its activities are based on the principle that education is part of the source of equal opportunities, personal and collective achievement, as well as contributing to the construction of a transformative, productive, and dignified society.

With 40 own schools installed mainly in regions of high socio-economic deprivation, it is present in all the Brazilian states and Federal District. To maintain the extensive structure, its budget for the year is predicted to be R\$664.717 million, whereby R\$575.071 million is destined to cover Expenses of the Activities and R\$89.646 million investments in Infrastructure and Educational Technology, which allows the institution to offer free education to:

- a) 97,385 students enrolled in its schools at the following levels: Basic Education (Kindergarten to High School) and Vocational Training (High School level); Youth and Adult Education; and Preliminary and Continuing Vocational Training, focused on creating jobs and income;
- b) 630 thousand students who will complete at least one of the distance-learning courses on offer (EaD), through its e-learning portal "Escola Virtu@l";
- c) 11,987 people who will benefit through partnership projects, such as *Programa Educa+Ação*, and Technology courses; and
- d) Food, medical-dental assistance, school materials and uniform are provided free-of-charge to the more than 42,000 students in Basic Education.

Sustainability Index) and the ICO2 (Carbon Efficient Index), both part of B3 – Brasil, Bolsa, Balcão.

## Management Report

### Bradesco Sports and Education Program (Programa Bradesco Esportes e Educação)

Bradesco Sports and Education Program supports the development of children and teenagers through the teaching of women's volleyball and basketball. It has, in the Municipality of Osasco, SP, Training and Specialist Centers, and its activities are held in their own Sports Development Center, in all Fundação Bradesco's schools, in Municipal Sports Centers, in state and private schools and in a leisure club. Annually, two thousand girls take part, from eight years old, reaffirming the Organization's social commitment and displaying how it values talent, citizenship, as well as education, sport and health.

## 14. Recognitions

**Rankings** – in the period, we highlight the following recognitions regarding the Bradesco Organization:

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

***Notes to the Consolidated Financial Statements***

**1) OPERATIONS**

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that, through its commercial, foreign exchange, consumer financing and housing loan portfolios, carries out all the types of banking activities for which it has authorization. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leases, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Bradesco Organization (Organization), working together in an integrated manner in the market.

**2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Bradesco's consolidated financial statements include the financial statements for Bradesco, its foreign branches and subsidiaries, in Brazil and overseas and SPEs (Special Purpose Entities) and investment funds of which the Organization's companies are the main beneficiaries or holders of the principal obligations, as established by Technical Pronouncement CPC 36 (R3), "Consolidation". These statements were prepared in conformity with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen), and are in conformity with accounting guidelines included in Laws No. 4,595/64 (Brazilian Financial System Law) and No. 6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No. 11,638/07 and No. 11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN), Bacen, Brazilian Securities and Exchange Commission (CVM), and where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the lease companies included in the consolidated financial statements were prepared using the finance lease method, under which the carrying amount of leased premises and equipment less the residual value paid in advance are reclassified.

Management states that it has disclosed all relevant information in the consolidated financial statements of Bradesco and that the accounting practices have been applied in a consistent manner in all years presented.

For the preparation of these consolidated financial statements, the intercompany transactions, balances of equity accounts, revenue, expenses and unrealized profits were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line.

Goodwill on the acquisition of investments in associates, subsidiaries or jointly controlled companies is presented in the investments and intangible assets lines (Note 14a). The foreign exchange variation from foreign branches and investments is presented in the statement of income accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on July 25, 2018.

(1) In November, 2017, Banco Boavista Interatlântico S.A. was merged into Banco Bradesco BBI S.A. increasing the interest by means of subscription of shares and in May, 2018, there were acquisition of shares held by minority shareholders by Banco Bradesco S.A;

(2) Change in the percentage of participation, by assignment of quotas and change of corporate name to unilateral company;

(3) The special purpose entity International Diversified Payment Rights Company is being consolidated. The company is part of a structure set up for the securitization of the future flow of payment orders received overseas;

(4) Based on financial information from the previous month;

(5) Reduction in participation due to the merger of Kirton Seguros S.A through the exchange of minority shares;

(6) Companies incorporated in June, 2018, by their respective counterparts (Bradesco Seguros S.A., Bradesco Capitalização S.A. and Bradesco Vida e Previdência S.A.);

(7) Company merged into Kirton Seguros S.A., in July 2017; and

(8) The investment funds in which Bradesco assumes or substantially retains the risks and benefits were consolidated.

**3) SIGNIFICANT ACCOUNTING PRACTICES****a) Functional and presentation currencies**

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate, to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's statement of income in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

## **b) Income and expense recognition**

Income and expenses are recognized on an accrual basis in order to determine the net income for the period to which they relate, regardless of when the funds are received or paid.

Fixed rate contracts are recognized at their redemption value with the income or expense relating to future periods being recognized as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the reporting date.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recognized upon the issue of the related policies/certificates/endorsements and invoices, or upon the beginning of the exposure to risk in cases in which the risk begins before the policy issuance, and is recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the statement of income of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recognized in the statement of income at the beginning of the risk exposure, based on estimated figures.

The health insurance premiums are recognized in the premiums (results) account or provision for unearned premiums/considerations (PPCNG), according to the period of coverage of contracts in force on the reporting date.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

***Notes to the Consolidated Financial Statements***

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recognized based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recognized based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recognized based on the premium and claims information provided, which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

The acquisition costs related to the insurance commission are deferred and appropriated to the income in proportion to the recognition of the premium earned.

Contributions and agency fees are deferred and recognized in the statement of income on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the statement of income as they are received.

The management fee income is appropriated to the income on an accrual basis, according to contractually established rates.

Revenue from capitalization bonds is recognized in the month in which they are issued, according to the types of collection, which may be in monthly payments or in a single payment. Each security has a nominal value, which is indexed to the Reference Rate (TR) and interest rates defined in the plan. Technical provisions are recognized when the respective revenues are recognized.

The revenues arising from unclaimed and expired capitalization bonds (securities and non-redeemed draws) are recognized after the prescription period, that is, until November 2003, up to 20 years and five years after this date as established by law. The expenses related to commercialization of capitalization bonds are classified as "Acquisition Costs" and are recognized in the statement of income as incurred.

**c) Cash and cash equivalents**

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, from the time of the acquisition, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

**d) Interbank investments**

Securities purchased under agreements to resell are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

**e) Securities – Classification**

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recognized at cost, plus income earned and adjusted to fair value with changes recognized in the Statement of Income for the period;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

**Notes to the Consolidated Financial Statements**

- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recognized at cost, plus income earned, which is recognized in profit or loss in the period and adjusted to fair value with changes recognized in shareholders' equity, net of tax, which will be transferred to the Statement of Income only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recognized at cost, plus income earned recognized in the Statement of Income for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7.

**f) Derivative financial instruments (assets and liabilities)**

Derivative financial instruments are designed to meet the Company's own needs to manage Bradesco's global exposure, as well to meet customer requests, in order to manage its positions.

The transactions are recorded at their fair value considering the mark-to-market methodologies adopted by Bradesco, and their adjustment can be recorded in the statement of income or equity, depending on the classification as accounting hedge (and the category of accounting hedge) or as an economic hedge.

Derivative financial instruments used to mitigate the risks of exposures in currencies, indexes, prices, rates or indexes are considered as hedge instruments, whose objectives are: (i) to ensure exposures remain with risk limits; (ii) change, modify or reverse positions due to market changes and operational strategies; and

(iii) reduce or mitigate exposures of transactions in inactive markets, under stress or low liquidity conditions.

Instruments designated for hedge accounting purposes are classified according to their nature in:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recognized in the Statement of Income; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recognized, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Statement of Income; and
- Hedge of net investment in foreign operations - the financial instruments classified in this category are intended to hedge the exchange variation of investments abroad, whose functional currency is different from the national currency, and are accounted for in accordance with the accounting procedures applicable to the hedge category of cash flow, that is, with the effective portion recognized in shareholders' equity, net of tax effects, and the non-effective portion recognized in income for the period.

For derivatives classified in the hedge accounting category, there is a follow-up of: (i) strategy effectiveness, through prospective and retrospective effectiveness tests, and (ii) mark-to-market of hedge instruments.

A breakdown of amounts included as derivative financial instruments, in the statement of financial position and off-balance-sheet accounts, is disclosed in Note 7.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

**Notes to the Consolidated Financial Statements**

**g) Loans and leases, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses**

Loans and leases, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk) considering, among other things, the delay levels (as described in table below); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to contract, debtors and guarantors.

<b>Past-due period (1)</b>	<b>Customer rating</b>
from 15 to 30 days	B
from 31 to 60 days	C
from 61 to 90 days	D
from 91 to 120 days	E
from 121 to 150 days	F
from 151 to 180 days	G
more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Statement of Income up to the 60<sup>th</sup> day that they are past due.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated loans are maintained at least at the same rating in which they were classified.

Renegotiations of loans that had already been written-off against the allowance and that were recognized in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the loan or when new material facts justify a change in the level of risk, the loan may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, according to CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

The classification of the generally loans to the same economic client or group is defined as the one that presents the highest risk. In exceptional cases, different ratings for a particular loan are accepted according to the nature, value, purpose of the loan and characteristics of the guarantees.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

#### **h) Income tax and social contribution (assets and liabilities)**

Deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recognized in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in lease asset depreciation (applicable only for income tax), fair value adjustments on securities, inflation adjustment of judicial deposits, among others, are recognized in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit

Bradesco

---

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

***Notes to the Consolidated Financial Statements***

of the taxable profit for the period. Deferred tax assets are recognized based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. For financial companies, for companies considered as such and for the insurance industry, the social contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15 and the rate will be 15% again as from January 2019. For the other companies, the social contribution is calculated considering the rate of 9%.

Due to the amendment of the rate, the Organization recognized, in September 2015, an incremental amount to the deferred tax of social contribution, considering the annual expectations of realization and their respective rates in force in each period, according to the technical study produced.

Provisions were recognized for other income tax and social contribution in accordance with specific applicable legislation.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecognized deferred tax assets, is presented in Note 33.

**i) Prepaid expenses**

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recognized in the Statement of Income according to the terms and the amount of expected benefits and directly recognized in the Statement of Income when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid for the origination of credit operations or leases to the banking correspondents related to credit operations originated during 2015 and 2016, Bradesco opted to recognize part of the total value of compensation, pursuant to the provisions of Bacen Circular Letter No. 3,738/14. As of 2017, the remuneration mentioned is fully recognized as an expense.

Prepaid expenses are shown in detail in Note 11b.

#### **j) Investments**

Investments in unconsolidated companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, and jointly controlled companies, are accounted for using the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries are consolidated – the composition of the main companies are disclosed in Note 2. The composition of unconsolidated and jointly controlled companies, as well as other investments, are disclosed in Note 12.

#### **k) Premises and equipment**

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate – 4% per annum; installations, furniture, equipment for use, security systems and

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

### ***Notes to the Consolidated Financial Statements***

communications – 10% per annum; transport systems – 10% to 20% per annum; and data processing systems – 20% to 40% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecognized surplus value for real estate and the fixed asset ratios, is disclosed in Note 13.

#### **l) Intangible assets**

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recognized and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Intangible assets and the movement in these balances by class are presented in Note 14.

#### **m) Impairment**

Financial and non-financial assets are tested for impairment.

Objective evidence of impairment may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the carrying amount of an asset or cash-generating unit exceeds its recoverable value. Impairment losses are presented in Note 7.

**n) Deposits and funds obtained in the open market**

These are recognized at the value of the liabilities and include, when applicable, related interest accrued at the end of the reporting period, calculated on a daily pro-rata basis.

The composition of the securities recorded in deposits and funds obtained in the open market, as well as their maturities and amounts recorded in equity and income accounts, are presented in Note 15.

**o) Technical provisions relating to insurance, pension plans and capitalization bonds**

- Damage, health and group insurance lines, except life insurance with survival coverage (VGBL):
  - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs (for contracts written prior to 2017), except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
  - The unearned premium/payments reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

**Notes to the Consolidated Financial Statements**

- The mathematical reserve for unvested benefits (PMBaC) whose calculation methodology considers, the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;
  
- For health insurance, the mathematical reserve of benefits granted (PMBC-GBS) is constituted by the obligations arising from the contractual clauses of remittance of installments, regarding the coverage of health assistance and by the premiums paid by insured participating in the Bradesco Saúde Insurance Plan - "GBS Plan" considering a discount rate of 4% (4.5% in 2017) per annum;
  
- The reserve for events incurred but not reported (PEONA) is calculated from the final estimate of claims already incurred and still not reported, based on the run-off triangles, monthly that consider the historical development of claims advised in the last 12 months for health insurance and last 18 months for dental care to establish a future projection per period of occurrence;
  
- For Car insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. For the other Damage insurance, the IBNR estimate is based on the run off triangles. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 10 semesters and in last 11 quarters to extended warranty segments to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;
  
- For life insurance, the provision of 'incurred but not reported claims (IBNR) is calculated based on semi-annual run-off triangles, which consider the historical development of claims paid and outstanding in the prior 10 semesters, to establish a future projection per period of occurrence; A residual cause study is performed to forecast the claims reported after 10 semesters that the event occurred;
  
- The reserve for unsettled claims (PSL), for health insurance, considers all claim notifications received up to the end of the reporting period, and includes all claims in litigation and related costs, updated monetarily;

- The provision for outstanding claims (PSL) for personal insurance considers the expected amounts to be settled from all claims notices received up to the reporting date. The provision covers administrative and judicial claims and monetary restatement;
  
- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, restated monetarily and with interest in case of judicial claims, net of the expected payments to be received;
  
- The technical surplus reserve (PET) corresponds to the difference between the expected value and the observed value for events occurred in the period for insurance of policyholders with a clause of participation in the technical surplus;
  
- The reserve for related expenses (PDR) for insurance of persons is recognized to cover expenses related to estimated claims and benefits for products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
  
- For damage insurance, the reserve for related expenses is (PDR) calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

**Notes to the Consolidated Financial Statements**

- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
  
  - The complementary reserve for coverage (PCC) for damage insurance shall be recorded when there is an insufficiency in the technical provisions, as calculated in the Liability Adequacy Test (LAT), pursuant to the determinations specified in the regulations in force. As of the base date, there is no need to record complementary reserve for coverage;
  
  - The complementary reserve for coverage (PCC) for life insurance, refers to the amount necessary to complement technical provisions, as calculated in the LAT. The LAT, which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, adjusted as per longevity development criteria in compliance with the last versions disclosed (improvement), and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;
  
  - The other technical provisions for damage insurance correspond to the provision for administrative expenses (PDA) arising from Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations; and
  
  - Other technical provisions are recognized for the individual health portfolio to address the differences between the expected present value of future premiums and the expected present value of indemnities and related expenses, using an annual discount rate of 4% (4.5% in 2017) per annum.
- Pension plans and life insurance with survival coverage (VGBL):
- The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net contributions, and is comprised of the portion corresponding to the remaining period of coverage and includes an estimate for risks covered but not yet issued (RVNE);

- The mathematical reserve for unvested benefits (PMBaC) is recognized for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;
  
- The mathematical reserve for unvested benefits (PMBaC) related to pension plans and life insurance with survival coverage, as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIEs);
  
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
  
- The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;
  
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the LAT. The LAT, which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

**Notes to the Consolidated Financial Statements**

- The reserve for related expenses (PDR) is recognized to cover expenses related to estimated claims and benefits, for products structured in self-funding and partially regimes. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future. The projections are performed through the liability adequacy test (TAP);
  
  - The reserve for financial surplus (PEF) corresponds to the financial income exceeding the minimum assured profitability, transferred to contracts with a financial surplus participation clause;
  
  - The provision for claims incurred but not reported (IBNR) is calculated based on semi-annual run-off triangles, which consider the historical development of claims paid and outstanding in the last 16 semesters for the creation of a new future projection by period of occurrence. As to acquired portfolios, a history of 10 semesters is used;
  
  - The reserve for unsettled claims (PSL) considers the expected values to be settled from all loss notices received up to the end of the reporting period. The provision covers administrative and judicial claims and is adjusted for inflation; and
  
  - The financial charges credited to technical provisions, and the recording and/or reversal of the financial surplus, are classified as financial expenses, and are presented under "Financial income from insurance, pension plans and capitalization bonds".
- Capitalization bonds:
    - The mathematical reserve for capitalization bond (PMC) is recognized for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each of the payments made, plus the monthly accrual calculated using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;

- The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;
  
- Reserve for 'draws to be held' (PSR) is recognized to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;
  
- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and
  
- Reserve for administrative expense (PDA) is recognized to cover the cost for maintaining capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 20.

**p) Provisions, contingent assets and liabilities and legal obligations – tax and social security**

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved

Economic and Financial Analysis Report – June 2018

---

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

**Notes to the Consolidated Financial Statements**

by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09 and according to Circular Letter No. 3,429/10, which are:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and it is considered virtually certain that cash inflows will flow to Bradesco. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- **Provisions:** these are recognized taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever an the Organization has a present obligation (legal or constructive) as a result of a past even, it is probable that an outflow of resources will be required to settle the obligation and when the amount can be reliably measured;
- **Contingent Liabilities:** according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recognized as a provision nor disclosed; and
- **Legal Obligations: Provision for Tax Risks:** results from judicial proceedings in which Bradesco is contesting the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recognized, by type, are presented in Note 17.

**q) Funding expenses**

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction, according to Notes 15c and 18.

**r) Other assets and liabilities**

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities are stated at known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

**s) Subsequent events**

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 34.

(1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the instruments, we are classifying the derivative financial instruments, except those considered as accounting hedges in the category Trading Securities;

(2) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. At the time of preparation of the consolidated financial statements as of June 30, 2018, Management decided to reclassify Securities available for Sale to Held to Maturity, in the amount of R\$17,022,922 thousand, without any result, as the result (loss) in the gross amount of R\$(297,343) thousand, was retained in shareholders' equity and will be recognized in income over the remaining period of the securities, according to article 5 of said Circular. This reclassification was based on the alignment of the risk management strategy;

(3) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;

(4) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair value of the respective quotas;

(5) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II); and

(6) In the first semester of 2018, there were impairment losses on financial assets (mostly debentures), net of reversals, related to securities classified as "Available-for-Sale" and "Held-to-Maturity" in the amount of R\$407,060 thousand (R\$833,283 thousand in 2017).

Economic and Financial Analysis Report – June 2018

---

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

***Notes to the Consolidated Financial Statements***

**d) Derivative financial instruments**

Bradesco carries out transactions involving derivative financial instruments, which are recognized in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from Securities, Commodities and Futures Exchange (B3), and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded on an exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or prices received from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil primarily consist of swaps and futures and are registered at B3.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and primarily out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

Bradesco

#### e) Credit Default Swaps (CDS)

On June 30, 2018, Bradesco had credit default swaps (CDS) with the following characteristics: the risk received in credit swaps whose underlying assets are “debt securities issued by companies” in the amount of R\$768,422 thousand (2017 - R\$220,210 thousand) and “bonds of the Brazilian public debt” in the amount of R\$1,318,275 thousand (2017 - R\$363,902 thousand); and the risk transferred in credit swaps whose underlying assets are Brazilian public debt”, was R\$(886,834) thousand (R\$(16,541) thousand in 2017), and “foreign public debt derivatives” was R\$(231,348) thousand, amounting to a total net credit risk value of R\$968,515 thousand (2017 - R\$567,571 thousand), with an effect on the calculation of required shareholders’ equity of R\$68,538 thousand (2017 - R\$23,122 thousand). The contracts related to credit derivatives transactions described above are due in 2025. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled R\$304 thousand (2017 - R\$(616) thousand). There were no credit events, as defined in the agreements, during the period.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

### **Notes to the Consolidated Financial Statements**

#### **f) Hedge Accounting**

On June 30, 2018, Bradesco maintained hedge, in accordance with Bacen's Circular No. 3,082 / 02, composed by:

**I) Cash Flow Hedge** - the financial instruments classified in this category, aims to reduce exposure to future changes in interest rates, which impact the outcome of the organization. The effective portion of the valuations or devaluations of these instruments is recognized in a separate account of shareholders' equity, net of tax effects and is only transferred to income in two situations: (i) in case of ineffectiveness of the hedge; or (ii) the realization of the hedge object. The ineffective portion of the respective hedge is recognized directly in the income statement.

Strategy	Hedge instrument nominal value	Hedge object accounting value	On June 30 - R\$ thousand	
			Fair Value Accumulated Adjustments in shareholders' equity (gross of tax effects)	Fair Value Accumulated Adjustments in shareholders' equity (net of tax effects)
Hedge of interest receipts from investments in securities (1)	10,485,976	9,484,831	19,579	11,747
Hedge of interest payments on funding (2)	4,728,847	4,637,720	(44,727)	(26,836)
<b>Total in 2018</b>	<b>15,214,823</b>	<b>14,122,551</b>	<b>(25,148)</b>	<b>(15,089)</b>
*				
Hedge of interest receipts from investments in securities (1)	16,383,339	18,046,986	204,456	122,674
Hedge of interest payments on funding (2)	4,603,132	4,594,907	(28,839)	(17,303)
<b>Total in 2017</b>	<b>20,986,471</b>	<b>22,641,893</b>	<b>175,617</b>	<b>105,371</b>

(1) Referring to the DI interest rate risk, using DI Futures contracts in B3, with the maturity in 2019, making the cash flow prefixed; and

(2) Referring to the DI interest rate risk, using DI Futures contracts in B3, with maturity dates in 2020, making the cash flow prefixed.

The effectiveness of the hedge portfolio is in accordance with Bacen's Circular No. 3,082 / 02.

For the next 12 months, the gains related to the cash flow hedge, which we expect to recognize in the income statement, amount to R\$5,074 thousand.

The gains/(losses) related to the cash flow hedge recorded in the income statements in during the first semester of 2018 were R\$14,464 thousand.

**II) Hedge of investments abroad** - the financial instruments classified in this category, have the objective of reducing the exposure to foreign exchange variation of investments abroad, whose functional currency is different from the national currency, which impacts the result of the organization. The effective portion of the valuations or devaluations of these instruments is recognized in a separate account of shareholders' equity, net of tax effects and is only transferred to income in two situations: (i) hedge ineffectiveness; or (ii) in the disposal or partial sale of the foreign operation. The ineffective portion of the respective hedge is recognized directly in the income statement.

Strategy	Hedge instrument nominal value	Hedge object accounting value	On June 30 - R\$ thousand	
			Fair Value Accumulated Adjustments in shareholders' equity (gross of tax effects)	Fair Value Accumulated Adjustments in shareholders' equity (net of tax effects)
Hedge of exchange variation on future cash flows (1)	1,382,494	752,159	(260,638)	(156,383)
<b>Total in 2018</b>	<b>1,382,494</b>	<b>752,159</b>	<b>(260,638)</b>	<b>(156,383)</b>
Hedge of exchange variation on future cash flows (1)	1,172,402	661,360	(154,335)	(92,601)
<b>Total in 2017</b>	<b>1,172,402</b>	<b>661,360</b>	<b>(154,335)</b>	<b>(92,601)</b>

(1) Whose functional currency is different from the real, using Forward contracts, with the object of hedging the foreign investment referenced to MXN (Mexican Peso).

The effectiveness of the hedge portfolio is in accordance with Bacen's Circular No. 3,082 / 02.

Bradesco

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

**Notes to the Consolidated Financial Statements****g) Changes in allowance for loan losses**

	R\$ thousand	
	2018	2017
- Specific provision (1)	16,828,454	22,386,423
- Generic provision (2)	12,699,936	10,737,580
- Excess provision (3) (4)	6,895,477	7,490,351
- Loans	6,895,477	4,429,361
- Guarantees provided (4)	-	3,060,990
<b>Opening balance on December 31</b>	<b>36,423,867</b>	<b>40,614,354</b>
Accounting for allowance for loan losses (Note 9h-1) (5)	8,928,778	14,790,527
Accounting for/reversal of provisions for guarantees provided (4)	-	(3,060,990)
Net write-offs/other	(10,200,000)	(14,891,394)
<b>Closing balance on June 30</b>	<b>35,152,645</b>	<b>37,452,497</b>
- Specific provision (1)	15,378,448	18,701,475
- Generic provision (2)	12,887,226	11,837,048
- Excess provision (3)	6,886,971	6,913,974

(1) For contracts with installments past due for more than 14 days;

(2) Recognized based on the customer/transaction classification and therefore not included in the preceding item;

(3) The excess provision is recognized based on Management's experience and the expectation in relation to the loan portfolio, to determine the total provision deemed sufficient to cover specific and general credit risk, when considered together with the provision calculated based on levels of risk and the corresponding minimum percentage in the provision established by Resolution No. 2,682/99. The excess provision per customer was classified according to the level of risk (Note 9f);

(4) Up to December 31, 2016, included the constitution of provision for guarantees provided, encompassing sureties, guarantees, credit letters, and standby letter of credit, which comprises the concept of "excess" provision that totaled R\$3,060,990 thousand. In accordance with Resolution No. 4,512/16, in the first quarter of 2017, part of this balance (R\$604,623 thousand) was allocated to a specific account under "Other Liabilities - Sundry" (Note 20b), and the remaining balance (R\$2,456,367 thousand) was allocated to "Excess Provision - Loans"; and

(5) Includes, in the first semester of 2017, the formation of allowance for loan losses, in the amount of R\$2,456,367 thousand, as a result of the adequacy of the provision for guarantees provided, already mentioned in the previous item.

**h) Allowance for Loan Losses expense net of amounts recovered**

Expenses with the allowance for loan losses, net of credit write-offs recovered, are as follows.

	In the six month period ended June 30 - R\$ thousand	
	<b>2018</b>	<b>2017</b>
Amount recognized (1)	8,928,778	12,334,160
Amount recovered (2) (3)	(3,081,988)	(3,613,145)
<b>Allowance for Loan Losses expense net of amounts recovered</b>	<b>5,846,790</b>	<b>8,721,015</b>

(1) In the first semester of 2017, it refers to the formation of allowance for loan losses, in the amount of R\$14,790,527 thousand, excluding the portion related to the adequacy of the provision for guarantees provided, in the amount of R\$2,456,367 thousand (Note 9g);

(2) Classified in income from loans (Note 9j); and

(3) In the first semester of 2018, credit was granted for operations already written-off for losses, without the retention of risks and benefits, in the amount of R\$8,849,035 thousand (2017 – R\$3,324,546 thousand), whose sale value was R\$155,490 thousand (2017 – R\$35,393 thousand).

Fixed Assets in course	-	53,835	-	53,835	181,598
<b>Total in 2018</b>		<b>16,399,946</b>	<b>(8,807,378)</b>	<b>7,592,568</b>	
<b>Total in 2017</b>		<b>15,009,233</b>	<b>(7,650,364)</b>		<b>7,358,869</b>

The fixed assets to shareholders' equity ratio is 44.9% when considering only the companies and payment institutions within the economic group (the "Prudential Conglomerate"), where the maximum limit is 50.0%.

**14) INTANGIBLE ASSETS****a) Goodwill**

The goodwill recognized from investment acquisitions totaled R\$7,926,986 thousand, net of accumulated amortization, as applicable, of which: (i) R\$1,830,861 thousand recognized in 'Permanent Assets – Investments' arose from the acquisition of shares of associates and jointly controlled companies (Cielo/Fleury/Swiss Re); and (ii) R\$6,096,125 thousand arose from the acquisition of shares of subsidiaries/shared control, relating to the future profitability/client portfolio/fair value, which is amortized in up to twenty years, net of accrued amortizations, if applicable, recognized in Fixed Assets – Intangible Assets.

During the first semester of 2018, goodwill was amortized totaling R\$1,255,491 thousand (R\$1,184,031 thousand in 2017) (Note 28).

## b) Intangible assets

Acquired intangible assets consist of:

	Rate of Amortization (1)	Cost	Amortization	On June 30 - R\$ thousand	
				Cost net of amortization 2018	2017
Acquisition of financial services rights	Contract	5,847,062	(2,083,588)	3,763,474	2,109,323
Software (2)	20%	11,861,330	(8,348,403)	3,512,927	3,827,855
Goodwill (3)	Up to 20%	11,496,767	(5,400,642)	6,096,125	8,660,768
Other	Contract	65,600	(31,648)	33,952	51,530
<b>Total in 2018</b>		<b>29,270,759</b>	<b>(15,864,281)</b>	<b>13,406,478</b>	
<b>Total in 2017</b>		<b>27,008,380</b>	<b>(12,358,904)</b>		<b>14,649,476</b>

(1) Intangible assets are amortized over an estimated period of economic benefit and recognized in "other administrative expenses" and "other operating expenses", where applicable;

(2) Software acquired and/or developed by specialized companies; and

(3) On June 30, 2018, primarily composed of goodwill on the acquisition of equity interest in Bradescard - R\$574,764 thousand, Odontoprev - R\$64,304 thousand, Bradescard Mexico - R\$16,163 thousand, Europ Assistance - R\$1,849 thousand, Bradesco BBI S.A. - R\$108,789 thousand and Kirton Bank - R\$5,321,860 thousand.

**17) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL OBLIGATIONS – TAX AND SOCIAL SECURITY**

**a) Contingent assets**

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, but the amounts are not material, such as: a) Social Integration Program (PIS), Bradesco has made a claim to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2,445/88 and No. 2,449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

**b) Provisions classified as probable losses and legal obligations – tax and social security**

The Organization is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recognized provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

#### **I - Labor claims**

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and for which there has been no official court decision, the provision is recognized based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Bradesco

---

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

***Notes to the Consolidated Financial Statements***

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

**II - Civil claims**

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on the Organization's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recognized in provisions, taking into consideration the claims where Bradesco is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

In December 2017, with the mediation of the Attorney's General Office (AGU), the entities representing the bank and the savings accounts, entered into an agreement related to litigation of economic plans, with the purpose of closing these claims, in which conditions and schedule were established for savings accounts holders to accede to the agreement. This agreement was approved by the Federal Supreme Court (STF) on March 1, 2018. The period of adherence for interested parties is for 02 (two) years from this date. As this is a voluntary agreement, Bradesco is unable to predict how many savings account holders will choose to accept the settlement offer. It is important to note that Bradesco understands that the provisioning was made to cover the eligible proceedings to the related agreement. The proceedings that are not in the

context of the agreement are evaluated individually based on the procedural stage they are in.

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

### **III - Legal obligations – provision for tax risks**

The Organization is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recognized in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these provisions for cases for which the risk of loss is deemed as probable and legal obligations is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$2,539,566 thousand (R\$2,417,306 thousand in 2017): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law No. 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal O

**Notes to the Consolidated Financial Statements**

- IRPJ/CSLL on losses of credits – R\$1,642,162 thousand (R\$1,818,351 thousand in 2017): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9,430/96 that only apply to temporary losses;
  
- Pension Contributions – R\$1,524,434 thousand (R\$1,432,305 thousand in 2017): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the authorities to be compensatory sums subject to the incidence of pension contributions and to an isolated fine for not withholding IRRF on the financial contributions;
  
- INSS Autonomous Brokers – R\$665,685 thousand (R\$967,829 thousand in 2017): The Bradesco Organization is questioning the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law No. 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law No. 8,212/91, as new wording in Law No. 9,876/99; and
  
- INSS – Contribution to SAT – R\$409,269 thousand (R\$389,895 thousand in 2017): in an ordinary lawsuit filed by the Brazilian Federation of Banks – Febraban, since April 2007, on behalf of its members, is questioned the classification of banks at the highest level of risk, with respect to Work Accident Risk – RAT, which eventually raised the rate of the respective contribution from 1% to 3%, in accordance with Decree No. 6,042/07.

In general, the provisions relating to lawsuits are classified as non-current, due to the unpredictability of the duration of the proceedings in the Brazilian justice system. For this reason, the estimate has not been disclosed with relation to the specific year in which these lawsuits will be finalized.

**IV - Provisions by nature**

	On June 30 - R\$ thousand

(1) Mainly include legal obligations.

#### c) Contingent liabilities classified as possible losses

The Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if

Bradesco

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

### ***Notes to the Consolidated Financial Statements***

necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recognized as a liability in the financial statements. The main proceedings in this category are the following: a) 2006 to 2013 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$6,425,178 thousand (R\$6,039,972 thousand in 2017); b) Fines and disallowances of Cofins loan compensations, released after a favorable decision in a judicial proceeding, where the unconstitutionality of the expansion of the intended calculation base was discussed for revenues other than those from billing (Law No. 9,718/98), in the amount of R\$4,986,645 thousand (R\$4,788,245 thousand in 2017); c) Leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$2,441,982 thousand (R\$2,495,215 thousand in 2017) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2013, differences in depreciation expenses, insufficient depreciation expenses, expenses with depreciation of leased assets, operating expenses and income and disallowance of tax loss compensation, in the amount of R\$1,963,924 thousand (R\$1,650,518 thousand in 2017); e) IRPJ and CSLL tax assessments for the years 2012 and 2013, due to the acquisition of operating expenses (CDI), related to funds that were capitalized among the companies of the Organization, whose assessed amount is R\$ 1,649,533 thousand; f) Notifications and disallowances of compensations of PIS and Cofins related to the unconstitutional extension of the basis of calculation intended for other income other than the billing (Law No 9,718/98), from acquired companies, amounting to R\$1,416,045 thousand (R\$1,358,577 thousand in 2017); g) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$575,842 thousand (R\$711,345 thousand in 2017); and h) IRPJ and CSLL deficiency note, amounting to R\$498,977 thousand (R\$477,162 thousand in 2017) relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

#### **d) Other matters**

On May 31, 2016, criminal proceedings were opened against three members of Bradesco's Board of Executive Officers was carried out by the Brazilian Federal Police under the so-called "Operation Zelotes.", which investigates the alleged improper performance of members of CARF - Administrative Council of Tax Appeals. On July 28, 2016, the Public Prosecutor's Office filed charges against three members of the Board of Executive Officers, at that time, and a former member of its Board of Directors that was received by the Judge of the 10th Federal Court of the Federal District Judiciary Section. Currently, only two of the members of Bradesco's Board of Directors remain in the process. They presented their responses in the criminal case, pointing out the facts and evidence demonstrating their innocence. The investigation phase of the process was already completed, and is currently waiting for final allegations and the decision of the first degree court.

The Company's management conducted a careful internal evaluation of records and documents related to the matter and found no evidence of any illegal conduct practiced by its representatives. Bradesco provided all the information to the competent regulatory bodies, in Brazil and abroad.

On account of the news of Operation Zealots, a class action was filed in the District Court of New York, on June 3, 2016, based on Section 10 (b) and 20 (a) of the Securities Exchange Act of 1934. On October 21, 2016, the plaintiff leader appointed by the court presented the addendum of the (Action Complaint) pointing us as defendants, Bradesco and three members of its Board of Executive Officers, at that time. The demand is based on the allegation that investors who purchased preferred American Depositary Shares ("ADS") of Bradesco between April 30, 2012 and July 27, 2016 suffered losses caused by alleged violation regarding the American laws of capital markets. On September 29, 2017, the Court limited the proposed class to investors who purchased ADS Bradesco between August 8, 2014 and July 27, 2016. Demand has passed to the discovery phase, so the limitation of the aforementioned class would be maintained. Considering the stage that the demand is, it is not possible, to gauge the exposure and there are insufficient elements to carry out a risk assessment.

Bradesco was also summoned by the *Corregedoria Geral do Ministério da Fazenda* on the opening of an Administrative Accountability Process ("PAR"). This process may imply the application of a fine and / or mention in public lists that may eventually bring restrictions on business with public entities.

For comparison purposes, the balances of prior periods were also reclassified in the amount of R\$16,188,307 thousand; and

(2) On June 30, 2018, it includes a specific provision for financial guarantees provided, pursuant to Resolution No. 4,512/16 (Note 9g).

### c) Financial guarantees

Financial guarantees provided are contracts requiring the Organization to make specific payments to the holder of the financial guarantee for a loss it will incur when a specific debtor fails to make the payment under the terms of the debt instrument. The provision for financial guarantees provided is formed based on the best estimate of the non-recoverable amount of the guarantee, if such disbursement is likely. The provisioning parameters are established based on the internal credit risk management models. In case of retail operations, these models use historical information, while in wholesale operations, in addition to historical information, we adopted simulation processes to capture unobserved events. Any increase in liabilities related to financial guarantees is recognized in the statement of income under "Other operating income/expenses".

(1) It benefited the shareholders registered in the records of Bradesco on March 29, 2018.

In the Extraordinary General Meeting of March 12, 2018, the approval was proposed by the Board of Directors to increase the capital stock by R\$8,000,000 thousand, increasing it from R\$59,100,000 thousand to R\$67,100,000 thousand, with a bonus in shares, through the capitalization of part of the balance of the account "Profit Reserves - Statutory Reserve", in compliance with the provisions in Article 169 of Law No. 6,404/76, by issuing 610,896,190 new nominative-book entry shares, with no nominal value, whereby 305,448,111 are common and 305,448,079 are preferred shares, attributed free-of-charge to the shareholders as bonus, to the ratio of 1 new share for every 10 shares of the same type that they own on the base date, and was approved by the Bacen on March 16, 2018.

Bradesco

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal C

**Notes to the Consolidated Financial Statements**

**c) Interest on Shareholders' Equity**

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax (IRRF), in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on June 29, 2018, approved the Board of Executive Officers' proposal to pay to the shareholders interim interest on shareholder's equity for the first semester of 2018, of R\$1,212,000 thousand, of which R\$0.172465322 are per common share and R\$0.189711854 per preferred share, whose payment was made on July 16, 2018.

Interest on shareholders' equity for the year ended June 30, 2018 is calculated as follows:

	<b>R\$ thousand</b>	<b>% (1)</b>
Net income for the period	8,994,508	
(-) Legal reserve	449,725	
<b>Adjusted calculation basis</b>	<b>8,544,783</b>	
Monthly, intermediaries and supplementary interest on shareholders' equity (gross), paid and/or provisioned	3,565,076	
Withholding income tax on interest on shareholders' equity	(534,761)	
<b>Interest on shareholders' equity (net) accumulated on June 30, 2018</b>	<b>3,030,315</b>	<b>35.46</b>
<b>Interest on shareholders' equity (net) accumulated on June 30, 2017</b>	<b>2,388,635</b>	<b>31.50</b>

(1) Percentage of interest on shareholders' equity after adjustments.

Interest on shareholders' equity were paid or recognized in provisions, as follows:

<b>Description</b>	<b>Per share (gross)</b>	<b>R\$ thousand</b>
