REPORT OF INDEPENDENT AUDITORS ON SPECIAL REVIEW

To the Board of Directors and Shareholders

Vivo Participações S.A.

São Paulo - SP

1. We reviewed the accounting information contained in the Quarterly Information (ITR) (individual and consolidated) of Vivo Participações S.A. ("Company") for the quarter ended September 30, 2009, comprising the balance sheet and the statements of income, of changes in shareholders' equity and of cash flows, the performance report and related notes. This quarterly information is the responsibility of the Company's management.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), in conjunction with the National Association of State Boards of Accountancy (CFC), comprising mainly: (a) inquiries of and discussions with the officials responsible for the accounting, financial and operational areas of the Company and its subsidiaries relating to the main criteria adopted in the preparation of the Quarterly Information; and (b) review of information and subsequent events that have or may have significant effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our review, we are not aware of any significant changes that should be made to the Quarterly Information referred to in paragraph 1 for it to be in accordance with the accounting practices adopted in Brazil and rules set forth by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Quarterly Information.
4. As mentioned in Note 2, as a result of the changes in accounting practices adopted in Brazil during 2008, the statements of income for the quarter and nine-month period ended September 30, 2008, presented for comparison purposes, were adjusted and are being restated in line with Accounting Standards and Procedures (NPC) 12 – Accounting Practices, Changes in Accounting Estimates and Correction of Errors, approved by CVM Resolution No. 506. The cash flows for the quarter and nine-month period ended September 30, 2008 are being presented by the Company for the first time for Quarterly Information purposes, including the effects of changes in the accounting practices adopted in Brazil during 2008 and therefore are also comparable between the quarters presented.

Explanatory Notes to the Quarterly Financial Statements For the nine-month period ended on September 30, 2009 (amounts in thousands of Reais, or as otherwise mentioned)

1. OPERATIONS

a. Equity Control

Vivo Participações S.A. (“Company”) is a publicly-held company that, at September 30, 2009, has as controlling shareholders Brasilcel N.V. and its subsidiaries Portelcom Participações S/A, Sudestecel Participações Ltda., Avista Participações Ltda., TBS Celular Participações Ltda. and Tagilo Participações Ltda., which jointly hold, treasury shares excluded, 59.4% of the Company’s total capital stock.

Brasilcel N.V. is jointly controlled by Telefónica S/A (50% of the total capital stock), PT Móveis, Serviços de Telecomunicações, SGPS, S/A (49.999% of the total capital stock) and Portugal Telecom, SGPS, S/A (0.001% of the total capital).

b. Subsidiaries

The Company is the 100% controlling shareholder of Vivo S.A. (“Vivo” or “subsidiary”), a provider of mobile telephone services, including activities necessary or useful for the performance of such services, in accordance with authorizations granted thereto.

The Company is also the 100% controlling shareholder of Telemig Celular Participações S.A. (“Telemig Participações” or “subsidiary”), note 1d.

Telemig Participações is the 100% controlling shareholder of Telemig Celular (note 1d), which is a company that provides personal mobile service, including activities necessary or useful for the performance of these services, in accordance with the authorizations granted thereto.

c. Authorization and Frequencies

The subsidiaries' business and the services they may provide are regulated by the National Telecommunications Agency ("ANATEL"), the regulatory authority for telecommunication services in Brazil, in accordance with Law No. 9472, dated July 16, 1997, and respective regulations, decrees, decisions and supplementary plans.

The authorizations granted by ANATEL may be renewed just once, for a 15-year period, against payment every two years, after the first renewal, of rates equivalent to 2% (two percent) of the company's revenue for the year prior to that of the payment, net of taxes and mandatory social contributions related to the application of the Basic and Alternative Plans of Service.

d. Corporate Reorganization

At a Special Shareholders' Meeting held on July 27, 2009, the Management of Telemig Participações and of Telemig Celular approved the Protocol of Merger of Shares and Instrument of Justification, executed on May 29, 2009, which provided for the merger, into Telemig Participações, of all the shares of Telemig Celular, with the holders of the merged shares of Telemig Celular directly receiving the new shares to which they are entitled in the merger company, Telemig Participações (the shareholders will receive 17.4 new shares of Telemig Participações for each share of Telemig Celular).

At the same date, at a Special Shareholders' Meeting, the Management of the Company approved the Protocol of Merger of Shares and Instrument of Justification, executed on May 29, 2009, which provided for the merger, into Vivo Participações, of the shares of Telemig Participações, with the holders of the merged shares of Telemig Participações directly receiving the new shares (for each share of Telemig Participações, its shareholders received 1.37 new shares of Vivo Participações), in conformity with the exchange ratio agreed to at the Meetings of the Board of Directors of the companies, held on May 29, 2009.

The merger of the shares of Telemig Celular and of Telemig Participações did not entail any change in the number and composition by type of their shares, which finally became owned, all of them, by Vivo Participações. The holders of common and preferred shares of Telemig Celular that were merged into Telemig Participações' equity received new shares of Telemig Participações of the same type, that is, the merged preferred shares were replaced by new preferred shares of Telemig Participações, issued on behalf of their respective holders, and merged common shares were replaced by new common shares of Telemig Participações, issued on behalf of their respective holders. Following, and in the same manner, the holders of common and preferred shares of Telemig Participações merged into Vivo Participações' equity received new shares of Vivo Participações of the same type. Accordingly, at the end of the transaction, the non-controlling shareholders of Telemig Celular and of Telemig Participações became shareholders of Vivo Participações.

In conformity with the provisions in Law 6404/76, article 252, paragraph 1, combined to article 8, the Appraisal Report, prepared by an independent company, based on the economic value of the shares of Telemig Participações merged into the Company for purposes of determination of the capital stock of the Company, was approved at that same date.

As a result of the above described approvals, the subscribed and fully paid-up capital stock of the Company increased from R\$6,900,422 to R\$8,780,150, represented by 400,713,827 book-entry shares, of which 137,269,188 are common shares and 263,444,639 are preferred shares, all of them registered and with no face value.

The above mentioned capital increase, of R\$1,879,728 (note 18), was generated from the economic value of the shares held by the minority shareholders of Telemig Participações, the equity value thereof totaling an amount of R\$894,296. The difference between the economic value and the equity value of the acquired shares was recorded as a premium in the amount of R\$985,431. Additionally, an amount of R\$269,804 was recorded by Telemig Participações as a premium in the merger of the shares held by the minority shareholders of its subsidiary company, Telemig Celular. A capital increase of R\$460,372 was recorded in such transaction, generated from the economic value of acquired

shares, the equity value thereof totaled R\$190,567. The premium amounts were posted to the intangible assets (note 11).

The holders of common and preferred shares of Telemig Celular and of Telemig Participações and of common shares of Vivo Participações who dissented from the merger of shares of Telemig Celular and of Telemig Participações, were entitled, as from the date of the special shareholders' meetings of the company which resolved on the Corporate Reorganization, to withdraw themselves to the respective companies, upon reimbursement of the shares they are the proven owners of at the date of communication of the Relevant Facts.

The calculations prepared for the exchange ratios of shares of Telemig Celular for shares of Telemig Participações and of shares of Telemig Participações for shares of Vivo Participações, pursuant to the previously described processes, resulted in share fractions which were re-allotted on the market at auctions held on September 24 and 29, 2009 in BOVESPA. These over-allotment shares represent 54,169 common shares and 42,595 preferred shares, representing a net value of R\$40.95218 per common share, and R\$43.19525 per preferred share, to be paid pro-rata to the fractions held by the shareholders and investors prior to the auctions.

Having in consideration that Telemig Celular became a wholly-owned subsidiary of Telemig Participações, and that Telemig Participações became a wholly-owned subsidiary of Vivo Participações, the registrations of Telemig Celular and of Telemig Participações in the CVM and in BOVESPA were requested to be cancelled. The cancellation of the registration of Telemig Celular was granted on September 16, 2009. At October 30, 2009, the registration of Telemig Participações was not yet cancelled in the CVM and in BOVESPA.

e. Agreement between Telefónica S.A. and Telecom Italy

In October 2007, TELCO S.p.A. (in which Telefónica S.A holds an interest of 42.3%), completed the acquisition of 23.6% of Telecom Italia. Telefónica S.A. has the shared control of Vivo Participações S.A., through its joint venture with Portugal Telecom. Telecom Italia holds an interest in TIM Participações S.A (TIM), which is a mobile telephone operator in Brazil. As a result of the acquisition of its interest in Telecom Italia, Telefónica S.A. does not have any direct involvement in the operations of TIM. Additionally, any transactions between the Company and TIM are transactions in the regular course of business, which are regulated by the ANATEL.

2. BASIS OF PREPARATION AND PRESENTATION OF THE FINANCIAL STATEMENTS

a) Quarterly financial statements

The quarterly financial statements were authorized for being issued on October 30, 2009.

The quarterly financial statements ("ITR's") are presented in thousands of Brazilian reais (except as otherwise mentioned) and have been prepared based on the accounting practices adopted in Brazil, as well as on the rules issued by the Brazilian Securities and Exchange Commission (CVM), with due regard to the accounting standards set forth in the corporation law (Law no. 6404/76), which include the new provisions introduced, amended and revoked by Laws no. 11.638, dated December 28, 2007 and no. 11.941, dated May 27, 2009 (former Provisional Measure no. 449, dated December 03, 2008), with further regard, also, to the rules applicable to telecommunication service concessionaires.

The requirements of the mentioned Laws apply to fiscal years started as from January 01, 2008. These requirements are not to be considered as changes of circumstances or of estimates and, therefore, the adoption of new practices introduced by Law no. 11.638/07, as a general rule, must be shown retrospectively, that is, by application of these new accounting practices as if they had been in use during all the periods presented, with due regard to the rule governing "Accounting Practices, Changes to Accounting Estimates and Correction of Mistakes", as approved by the CVM, by Resolution no. 506 (said CVM resolution will be replaced by the CPC 23, which will become effect as from January 01, 2010). Accordingly, the Quarterly Information for the nine-month period ended September 30, 2008 is presented

again with the purpose of making them comparable with the Quarterly Information related to the nine-month period ended September 30, 2009 (note 2b).

The consolidated income statement of the Company for the nine-month period ended September 30, 2008 contemplates the consolidated income of Telemig Participações for the period from April to September 2008.

All balances of assets and liabilities, revenues and expenses arising out of transactions between the consolidated companies have been eliminated in the consolidated statements.

The conciliation between the controlling company's net income and the consolidated income for the nine-month period ended September 30, 2008 is as follows:

Net income of Controlling Company	170,273
Forfeited interest on shareholders' equity and dividends of the subsidiaries	(2,487)
Net income consolidated	167,786

Except for the accounting practice of goodwill amortization, which has not been adopted any longer since January 01, 2009, as provided for in CPC 04 – Intangible Assets, these ITRs were prepared in conformity with principles, practices and criteria which are consistent with those adopted for preparing the financial statements of the last fiscal year and must be analyzed together with the referred statements.

b) Effect of the adjustments of Laws nº 11.638/07 and nº 11.941/09

The table below shows the effects of the application of Laws no. 11.636/07 and no. 11.941/09 in the consolidated income statement for the nine-month period ended September 30, 2008.

1. Depreciation of information technology equipment mercantile-financial lease, pursuant to the provisions in CPC 06;
2. Financial income (expenses) resulting from the adjustments to fair value of transactions with derivatives and loans, as applicable, pursuant to the provisions in CPC 14;
3. Financial expenses resulting from the adjustment to present value of the ICMS (CIAP) on acquisitions of fixed assets, using the Long Term Interest Rate ("TJLP");

4. Income tax (25%) and social contribution (9%), applied to all the above described adjustments;

5. Equity accounting resulting from the above described adjustments.

Additionally, on account of the elimination of the “Non-operating income”, in conformity with Law no. 11.941/09, the Company has reclassified consolidated net expenses in the amount of R\$29,542 in the income statement for the nine-month period ended September 30, 2008 in “Other operating revenue (expenses), net”.

The amount recorded in the current assets refers to reversal of temporary differences, use of tax losses and tax amortization of the goodwill expected for the next twelve months.

The deferred taxes were recorded assuming their future realization, as follows:

Tax loss and negative tax base: represents the amount recorded by the controlled companies, which will be offset up to the limit of 30% of the tax base computed in the coming fiscal years and subject to no statute of limitations. The Company did not record the potential deferred income and social contribution tax credit that would arise from the use of the tax bases in the amount of R\$688,297 (R\$700,447 at June 30, 2009), given the uncertainty, at this time, as to the Company's ability to generate future taxable results to ensure realization of these deferred taxes.

Tax credit incorporated: represented by the net balance of goodwill and provision for maintenance of the shareholders' equity integrity (note 6.2). Realization occurs in a period from 5 to 10 years. Studies performed by independent consultants hired during the corporate reorganization process support the recovery of such amounts within the above referred time.

Temporary differences: represents the amount recorded by the controlled companies and their realization will occur upon payment of the provisions, effective loss on bad debts or realization of inventories, as well as reversal of other provisions. The Company did not record the potential deferred income and social contribution tax credit that would arise from the use of the provisions in the amount of R\$157,058 (R\$156,232 at June 30, 2009), given the uncertainty, at this time, as to the Company's ability to generate future taxable results to ensure realization of these deferred taxes.

The Company prepared technical feasibility studies, approved by its Board of Directors, which indicated the full recovery of deferred tax amounts recognized at December 31, 2008, as defined in CVM Instruction No. 371. During the nine-month period ended September 30, 2009, no relevant fact occurred that indicated limitations to full recovery of the deferred tax amounts recognized by the controlled companies.

6.2 Tax credit incorporated – Corporate Restructuring

As a result of the corporate reorganization process, the Company incorporated the premium paid on the privatization and acquisition of subsidiaries.

Prior to the mergers, provisions were booked for maintenance of the stockholders' equity of the merged companies and, consequently, the net assets that were merged represent, essentially, the tax benefit arising out of the possibility of deduction of the incorporated premium.

Included in the accounting records held for corporate and tax purposes by the Company and its controlled companies are specific accounts related to incorporated goodwill and provision and corresponding amortization, reversal and tax credit, the balances of which are as follows:

		Consolidated		
		09.30.09		06.30.09

Provision reversal	509,837	439,924
Tax credit	262,644	226,628

Effect on income - -

To the extent the tax benefits are actually realized, the amount shall be incorporated into the capital stock to the benefit of the controlling shareholders, without an issue of new shares.

At a meeting of the Board of Directors held on February 12, 2009, the capitalization of a portion of the special goodwill reserve to the benefit of the controlling shareholders was approved, in the amount of R\$ 189,896, corresponding to the tax benefits generated in 2008 (note 18). Upon the capitalization effected in the first quarter of 2009, all the amount of tax benefit was capitalized to the benefit of the controlling shareholders; consequently, there will be no further capitalizations relating to such specific tax benefits in the future.

<u>Current Taxes:</u>		

At September 30, 2009, the amount of R\$255,982 (R\$246,409 at June 30, 2009) out of the non-current liability, refers to ICMS - More Jobs for Paraná Program, resulting from an agreement with the Paraná State Government involving

the deferral of ICMS tax payment. This amount is adjusted to the variation of the Annual Indexation Factor (FCA).

Legal liabilities - CVM Resolution 489/05

This includes the taxes that fall within the scope of CVM Resolution No. 489/05, dated October 3, 2005, which approved IBRACON NPC No 22 standard.

For purposes of the financial statements, the amounts of judicial deposits for said taxes are offset against taxes, fees and mandatory contributions payable, as applicable.

a) PIS and COFINS

A delinquency notice was issued by the tax authority against Vivo (proceedings no. 19515.000.700/2003-97) for having offset the COFINS, in January and February 2000, against credits arising out of the 1/3 surplus of the COFINS itself paid in 1999, after deduction of the amount from the CSLL. The case is awaiting decision of the Special Appeal filed within the administrative sphere. On a conservative conduct, the Management recorded the amount of R\$24,671, at September 30 and at June 30, 2009, having deposited the same amount in court.

Law n° 9.718/98

At November 27, 1998, the calculation of PIS and COFINS was changed by Law no. 9718, which: i) increased the COFINS rate from 2% to 3%; ii) authorized the deduction of up to 1/3 of the COFINS from the amount of the Social Contribution on Net Income – CSLL; and also iii) indirectly increased the COFINS and PIS owed by Vivo, determining the inclusion of revenues in excess of the total sales in their tax calculation basis.

By reason of the changes introduced by laws no. 10.637/02 and 10.833/03, Vivo started including the revenues in excess of the total sales in the tax calculation basis of PIS and COFINS.

At September 30, 2009, Vivo has provisions booked for the amounts of the revenues in excess of the total sales, under discussion in court, in the amount of R\$2,822 (R\$10,303 June 30, 2009). Based on IBRACON's Technical Communication no. 05/2009, at July 31, 2009, after a judicious evaluation supported by Vivo's legal advisors, the amount of R\$7,529 was reversed. The remaining court deposit is of R\$2,496, at September 30 and at June 30, 2009.

Other

Additionally, the subsidiaries booked amounts of R\$13,745 at September 30, 2009 (R\$13,605 at June 30, 2009) with respect to other discussions of PIS and COFINS.

b) CIDE

This refers to an administrative and judicial matter, aiming at discharging the assessment of the CIDE on remittances of funds abroad, in connection with agreements for transfer of technology, license of trademarks and software, etc. Based on the opinion of its legal advisors, at September 30, 2009, Vivo recorded the amount of R\$80,670 (R\$80,558 at June 30, 2009), having deposited in court the amount of R\$59,371 (R\$58,612 at June 30, 2009).

Telecommunications Inspection Fee - FISTEL

Telemig Celular filed a Writ of Mandamus challenging its liability for the payment of the inspection fees on mobile stations not owned by it, and started booking a provision and effecting a deposit in court for the amounts referring to the TFF – Operation Inspection Fee and to the TFI – Installation Inspection Fee. The case is awaiting decision by the TRF Court of the 1st Region.

Its legal counsels consider the chances of losses in these lawsuits to be possible. However, because this is a legal obligation under the terms of CVM Resolution No. 489/2005, the controlled company has booked a provision for this contingency. The provision recorded at September 30, 2009 was in the amount of R\$407,955 (R\$395,932 at June 30, 2009), with corresponding deposits in court in the same amount.

IRRF on payments of Interest on Own Capital – Telemig Celular Participações

Telemig Participações filed Writs of Mandamus requesting the court to declare its right not to be assessed IRRF (Withholding Income Tax) at source on its receipts of interest on own capital of its subsidiary. Based on the opinion of its legal counsels, the referred lawsuits are classified as possible loss; however, once this refers to a legal obligation under the terms of CVM Resolution no. 489/2005, at September 30, 2009 a provision was booked and deposits were made in court, totaling R\$21,112 (R\$20,745 at June 30, 2009).

e) Other taxes, fees and contributions

At September 30, 2009, the subsidiaries recorded the amount of R\$10,284 (R\$9,583 at June 30, 2009), referring to values related to the discussions of: (i) ISS tax on personal property lease services, ancillary activities and supplementary services (R\$5,877); (ii) IRPJ (Corporate Income Tax) on derivative transactions (R\$2,146); (iii) INSS (Social Security) (R\$834), and (iv) ICMS tax (R\$1,427).

c) Loan covenants

Vivo has loans and financing borrowed from Banco Nacional de Desenvolvimento Econômico e Social (BNDES), the balance of which at September 30, 2009 was R\$1,556,813 (R\$1,421,566 at June 30, 2009). In accordance with the contracts, there are several economic and financial indexes that must be calculated on a six-month period and yearly basis. At the same date, all economic and financial indexes established in the two contracts with the BNDES, regarding the Company's and Vivo's instruments, were met.

The agreement entered into by Telemig Celular with the State Department of Economic Development regarding debentures sets forth covenants on petitions for judicial and extrajudicial recovery, liquidation, dissolution, insolvency, voluntary bankruptcy or decree of bankruptcy, payment default, non-compliance with non-fiduciary obligations and compliance with a certain limit substantially based on balance sheet financial indexes and EBITDA (Earnings before interest, taxes, depreciation and amortization), among others. At September 30, 2009, all covenants were fulfilled by Telemig Celular.

d) Guarantees

At September 30, 2009, guarantees were granted for part of Vivo's loans and financing, according to the table below:

e) Promissory Notes

4th Issue

On July 24, 2009, 50 unsecured promissory notes in the value of R\$10 million each, totaling R\$500 million, bearing interests of 106.5% of the DI (Interfinancial Deposit) rate, were settled on their maturity date.

6th Issue

At July 24, 2009, 20 promissory notes were issued, in the value of R\$25 million each, totaling R\$500 million, pursuant to the approval of the Board of Directors at July 10, 2009.

The promissory notes are issued for a tenor of 90 days, counted from the issuance date, with possibility of redemption as from the 60th day and bearing interests of 115.00% of the DI (Interfinancial Deposit) rate.

The proceeds from such transaction were used in the full repayment of the principal amount of the debt represented by the 4th issue of promissory notes, in the face value of R\$500 million.

f) Debentures

f.1) Fund raising by the company

Second Issue

Within the scope of the First Securities Distribution Program in the amount of R\$2 billion, announced on August 20, 2004, the Company issued debentures related to the 2nd Issue of the Company, in the amount of R\$1 billion, on May 01, 2005, with a term of ten years, counted as from the issue date, that is, May 01, 2005.

Such offering consisted of the issue in two series, being R\$ 200 million in the first series, and R\$800 million in the second series, with final maturity on May 1, 2015. The debentures accrue interest, payable on a semiannual basis, corresponding to 120.0% (first series) and 104.2% (second series) of the accumulated daily average rates for the DI

(one-day Interbank, extra group deposits) (DI rates), as calculated and published by the CETIP.

In May 2009, the debentures of the 1st Series of the 2nd Issue of the Company, as approved by the Board of Directors of the Company on March 30, 2009, were rescheduled. The new effective term of remuneration is 24 months, counted from May 01, 2009 until May 01, 2011, during which time the remuneration conditions defined herein shall remain unchanged. During this second term of remuneration, the debentures of the 1st Series of the 2nd Issue of the Company shall be entitled to a remuneration of 120.0% of the average rate of the one-day Interfinancial Deposits – the DI over extra-group rate, calculated in accordance with the formula contained in clause 4.9 of the “2nd issue Indenture”. The payments of remuneration of the debentures shall be made on November 01, 2009, May 01, 2010, November 01, 2010 and May 01, 2011.

Rescheduling of the debentures remuneration is expected to occur on May 01, 2011 (first series) and May 01, 2010 (second series).

Third Issue

At December 2008, the Board of Directors approved the 3rd public issue, by the Company, of simple, unsecured debentures not convertible into stock, of one sole series, not required to be registered with the CVM in conformity with the terms of art. 5, item II, of CVM Instruction no. 400, since said debentures referred to one sole and indivisible lot of securities. The unit face value of the debenture was R\$210 million at the issue date (“Unit Face Value”), with maturity date on January 11, 2010.

Fourth Issue

On September 04, 2009, the Board of Directors approved the 4th public issue, by the Company, of simple, unsecured debentures not convertible into stock, all of them registered and of book-entry type, issued in up to three series, with tenor of 10 years.

The total amount of the issue shall be R\$810 million, of which the basic offering corresponds to R\$600 million, added by R\$210 million due to the full exercise of the additional debentures option and the lot option. A total of eight hundred and ten thousand (810,000) debentures will be issued, in the face value of R\$1 thousand each, in three (3) series.

Banco Itaú BBA S.A., in its capacity as lead arranger of the Offering, carried out a *bookbuilding* procedure in order to determine, with interested investors, the demand for the Debentures at different remuneration rates (“*Bookbuilding*”).

The remuneration for the 1st series will be 110.00% of CDI for the 2nd series will be 115.00% of CDI and to the 3rd series, the remuneration will correspond to the percentage of the Copom of National Treasury Notes - series B maturing in 2015, plus 1.30% per annum (on face value updated annually by the IPCA variation).

The remuneration terms of the debentures for each series shall be rescheduled in accordance with the following schedule: 1st series on October 15, 2012, 2nd series on October 15, 2013, and 3rd series on October 15, 2014.

The proceeds raised as from the offering shall be used for full payment of the debt relating to the 6th issue of commercial promissory notes of the Company, in the principal amount of R\$500 million, added by interests estimated at approximately R\$15 million, as well as for increase in the working capital.

The transaction costs in connection with this issue in the amount of R\$662, while the proceeds had not yet been raised, were allocated to a specific assets account, as prepaid expenses.

f.2) Fund raising by Telemig Celular

First Issue

In compliance with the Contract for Provision of SMP Services, in conformity with the Public Selection No 001/07, the State of Minas Gerais, acting through the State Department for Economic Development, has undertaken to subscribe debentures issued by Telemig Celular, within the scope of the “Minas Comunica” Program, using proceeds from the Fund for Universalization of Access to Telecommunications Services (*Fundo de Universalização do Acesso a Serviços de Telecomunicações*) - FUNDOMIC. Under the terms of this Program, Telemig Celular would make the SMP service available to 134 locations in the areas recorded as 34, 35 and 38.

Also according to the program, 5,550 simple, unsecured, nonconvertible, registered, book-entry type debentures would be issued, without stock certificates being issued, in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st Series of the 1st issue, amounting to R\$ 6,210 in December 2007. In March 2008, for the service at 42 locations, 1,739 debentures were issued in the 2nd Series of the 1st issue, valued at R\$ 17,390. (b) This refers to the costs to be incurred in connection with the eventual need of giving back to their owners the “sites” (locations for installation of Radio Base Stations – RBS of the controlled companies) in the same conditions as they were found at the time of the execution of the initial lease contracts thereof.

18. SHAREHOLDERS’ EQUITY

a) Capital Stock

Pursuant to the Articles of Incorporation, the Company may increase its capital stock up to the limit of seven hundred and fifty (750,000,000) shares, either common or preferred, regardless of the amendment to the articles of incorporation, with the Board of Directors being the competent body to resolve on the increase and the consequent issue of new shares up to the referred limit.

At a Meeting of the Board of Directors held on February 12, 2009, an increase of the capital stock in the amount of R\$189,896 was approved, which corresponds to the tax benefit of the incorporated goodwill for fiscal year 2008 (note 6.2).

At a Special Shareholders’ Meeting held on July 27, 2009, a capital increase was approved in the amount of R\$1,879,728, upon issue of 26,374,793 book-entry shares, of which 993,854 are common shares and 25,380,793 are preferred shares, all of them registered and with no face value. Thus, the subscribed and fully paid-up capital of the Company increased from R\$6,900,422 to R\$8,870,150, being represented by 400,713,827 book-entry shares, of which 137,269,188 are common shares and 263,444,639 are preferred shares, all of them registered and with no face value.

At September 30, 2009, the subscribed and paid-up capital stock of the Company was R\$8,780,150 (R\$6,900,422 at June 30, 2009), represented by shares with no face value, distributed among the shareholders as follows:

Total	399,590,102	373,215,309

b) Dividends and Interest on Own Capital

The preferred shares do not have voting rights, except in the cases stipulated in articles 9 and 10 of the Bylaws, but are ensured priority in the reimbursement of the capital stock, without premium, the right to participate in the dividend to be distributed, corresponding to a minimum of 25% of net income for the fiscal year, calculated in accordance with article 202 of Brazilian Corporation law, and priority in receiving minimum non-cumulative dividends equivalent to the higher of the following amounts:

- b.1) 6% (six per cent) per year on the amount resulting from the division of the subscribed capital by the total number of Company's shares; or
- b.2) 3% (three per cent) per year on the amount resulting from the division of the shareholders' equity by the total number of Company's shares, and also the right to participate in distributed profit under the same conditions applicable to common shares, after the common shares have been ensured of a dividend equal to the minimum priority dividend established for the preferred shares.

As from the General Shareholders' Meeting held on March 27, 2004, the preferred shares are entitled to full voting rights, in accordance with article 111, paragraph 1, of Law No. 6404/76, since minimum dividends were not paid on preferred shares for three consecutive years.

At the General Shareholders' Meeting held on March 15, 2007, the payment of dividends on the income for year 2006 to the holders of preferred shares was approved. However, the approved amount was lower than the minimum statutory value required for removing the right to vote of the preferred shares.

- b.3) Dividends and interest on own capital not claimed by shareholders are forfeited in 3 (three) years, as from the date of the beginning of payment, as set forth in article 287, subparagraph II, item a), of Law No. 6404/76.

At a General and Special Shareholders' Meeting held on March 19, 2009, the payment of dividends and interest on the own capital in the amount of R\$ 426,798 was decided, being as follows: interest on own capital in the amount of R\$161,113 (R\$136,946 net of the withholding income tax) and dividends in the amount of R\$265,685, to be paid until December 30, 2009.

After the actual payment of the dividends and interest on the own capital, the holders of preferred shares shall not be entitled any more to full vote.

c) Capital Reserves

c.1) Premium reserve

This reserve represents the excess of value at the time of the issuance or capitalization in relation to the basic value of the share at the issuance date.

c.2) Special Premium Reserve

This reserve was booked as a result of the Corporate Reorganization processes described in note 6.2, as a counter-entry to the net assets transferred, and represents the future tax benefit to be earned by amortization of the premium transferred. The portion of special premium reserve corresponding to the benefit may be, at the end of each fiscal year, capitalized to the benefit of the controlling shareholder, as the case may be, without issue of new shares.

The Meeting of the Board of Directors held on February 12, 2009 approved a capital increase of R\$189,896, representing the tax benefit of the incorporated premium for fiscal year 2008, with the issue of 5,819,678 new shares, being 2,124,989 common shares and 3,694,689 preferred shares, ensuring the preemptive right provided for in Article 171 of Law No. 6404/76, and the proceeds arising from the exercise of the preemptive right were credited to Portelcom Participações S.A.. With the capitalization effected in the first quarter of 2009, all the amount of tax benefit was capitalized to the benefit of the controlling shareholders; consequently, there will be no new capitalizations relating to these specific tax benefits in the future.

c.3) Tax Incentives

These represent the amounts invested in tax incentives in previous fiscal years.

d) Profit Reserves

d.1) Legal Reserve

The legal reserve is booked by allocation of 5% of the net profit for the year, up to the limit of 20% of the paid-up capital stock or 30% of the capital stock added by the capital reserves. As from such limit, allocations to this reserve are no longer mandatory, as set forth in Art. 193 of Law no. 6404/76.

d.2) Reserve for Expansion

The reserve for expansion was booked with the purpose of holding funds for financing additional investments of fixed and current capital by allocation of up to 100% of the remaining net profit, after the legal determinations and the balance of the retained profits account for the fiscal year ended on December 31, 2008. This reserve is supported by a capital budget approved at the shareholders' meetings.

d.3) Reserve for Contingencies and Treasury Shares

The amounts recorded result from the spin-off of Companhia Riograndense de Telecomunicações – CRT and are designed to guarantee an eventual court decision rendered with respect to judicial actions concerning capitalizations for fiscal years 1996 and 1997 occurred in that company.

e) Retained Earnings

Pursuant to a change introduced by Law no. 11.638/07, the net profit for the year shall be fully allocated in conformity with the provisions set forth in articles 193 to 197 of Law no. 6.404/76.

At a General and Special Shareholders' Meeting, held on March 19, 2009, the allocation of the net profit for fiscal year 2008 was approved, in the amount of R\$399,901, of which R\$19,995 were applied to the Legal Reserve and R\$379,906 as dividends and interest on the capital, being: R\$161,113 as interest on the own capital, gross (R\$136,946, net of withholding income tax) and R\$218,793 as dividends. Additionally, R\$46,892 were allocated as supplementary dividends. The balance of retained earnings at December 31, 2009 shall be also fully allocated.

26. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company and its subsidiaries are engaged in transactions involving financial instruments, the risks of which are actively managed by means of a set of initiatives, procedures and comprehensive operating policies.

The consolidated and holding company's financial instruments are presented in compliance with CVM Resolution no. 566, dated December 17, 2008, which approved Technical Statement CPC 14, and with CVM Instruction 475, dated December 17, 2008.

The Company and its subsidiaries have proceeded to the evaluation of their financial assets and liabilities against market values, using the available information and proper evaluation methodologies. However, the interpretation of market data and the selection of evaluation methods require considerable discretion and estimates in order to calculate the most adequate realization value. In consequence, the estimates presented do not necessarily indicate the amounts realizable in the current market. The use of different market hypothesis and/or methodologies may have a material effect on the estimated realization values.

b) Considerations on risk factors which may affect the Company's and its subsidiaries' business

The main market risks to which the Company and its subsidiaries are exposed in the conduct of their activities are:

b.1) Credit Risk

The credit risk arises out of the eventual difficulty to collect the amounts payable for telecommunication services rendered to its customers and for sales of handsets to the distributors' network.

The Company and its subsidiaries are also subject to the credit risk related to their financial investments and accounts receivable for swap transactions.

The credit risk involved in the rendering of telecommunications services is minimized by a strict control of the customer base and active management of customers' default, by means of clear policies regarding the sale of post-paid handsets. The customer base of the subsidiary companies has, predominantly, a prepaid system, which requires the prior charging and consequently entails no credit risk.

The credit risk in the sale of handsets and "pre-activated" prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of "credit scoring" techniques, analysis of financial statements and information, and consultation to commercial data bases.

In relation to the credit risk in connection with the financial institutions, the Company and its subsidiaries act in such a manner as to diversify this exposure among various world-class financial institutions.

b.2) Interest Rate and Inflation Risk

The interest rate risk arises out of the portion of the debt referenced to the CDI rate and of the liability positions in derivatives (exchange hedge and IGPM) contracted at floating rates, which may have a negative effect on the financial expenses in case of an unfavorable change in the interest rates. The balance of financial investments, indexed at the CDI rate, partially offsets such effect.

The debt to the BNDES is indexed to the TJLP rate, which remained at 6.25% per year from July 2007 until the end of June 2009. In July 2009, a reduction in the rate to 6% per year was announced, with a positive impact on such portion of the debt. Until the closing of this quarter the rate remained at 6% per year.

The inflation rate risk arises out of the portion of the debt indexed to the IPCA and to the IST and involves the risk of the financial expenses being negatively affected by an unfavorable change of these indexes.

In order to reduce the exposure to the local variable interest rate (CDI), the Company and its subsidiaries invest the cash surplus of R\$925,026, mainly, in short term financial investments (Bank Deposit Certificates) indexed to the CDI rate.

In order to partially cover the fluctuations in the domestic interest rates in relation to debts exposed to the CDI rate, the Company and Vivo have entered into short-term derivative contracts ("swap" CDI x pre) which convert part of the debt referenced to the variable interest rate (CDI) into a pre-fixed debt.

b.3) Exchange Rate Risk

This risk arises out of the possibility of losses on account of exchange rate fluctuations, which may increase the liabilities and expenses arising out of foreign currency loans and purchase commitments.

The Company and its subsidiaries have contracted financial derivative transactions (exchange hedge) so as to protect themselves against exchange rate fluctuations arising out of foreign currency loans. The instruments used were swap contracts.

The table below summarizes the net exposure of financial liabilities of the Company and its subsidiaries to the exchange rate factor at September 30, 2009 and at June 30, 2009:

	September 30, 2009	
	US\$	¥
Loans and financing	(425,129)	(11,255,881)
Loans and financing—UMBNDDES (a)	(2,902)	-
Derivative instruments	426,999	11,255,881

	June 30, 2009	
	US\$	¥
Loans and financing	(419,177)	(24,967,453)
Loans and financing—UMBNDDES (a)	(3,255)	-
Derivative instruments	421,526	24,967,453
Total (insufficient coverage)	(906)	-

(a) UMBNDDES is a monetary unit prepared by the BNDES, made-up by a foreign currencies basket, the main currency being the North-American Dollar, for which reason the Company and its subsidiaries consider it upon reviewing the risk coverage related to exchange rate fluctuations.

In addition to the amounts informed above, Vivo records non-financial liabilities in foreign currency referring to other obligations. At September 30, 2009 the balance of other liabilities in foreign currency was US\$32,926 and €11,961.

c) Transactions with Derivatives

The Company and Vivo entered into swap contracts in foreign currency at several exchange rates, in notional amounts at September 30, 2009 of US\$415,944, and JPY11,250,308, at September 30, 2009 (US\$ 434,816, and JPY24,462,870 at June 30, 2009). At September 30, 2009, the Company and Vivo had interest rate swap contracts in local currency (CDI) in the notional amount of R\$397,000 (R\$397,000 at June 30, 2009) for interest rates in local currency (CDI) and in the notional amount of R\$110,000 of swaps indexed to the IGPM (R\$110,000, at June 30, 2009).

As required by Law no. 11,638/07, the Company and Vivo started applying CPC 14 since the transition date on December 31, 2006. CPC 14 must be applied to all derivative instruments, and requires that such instruments are stated in the balance sheet at their fair value. Changes to the fair value of the derivatives are recognized in the income statement, save in case of compliance with specific criteria such as hedge accounting.

The derivative financial instruments intended for hedge and the respective items subject matter of hedge are monthly adjusted to the fair value, with due regard to the following: for those financial instruments classified as fair value hedge and evaluated as effective, the valuation or devaluation of the fair value of the item which is the hedge instrument and of the item subject matter of hedge must be recorded as a counter-entry to a proper revenue or expense account, in the income of the year.

The Company and Vivo calculate the effectiveness of these hedges at the beginning and continuously (quarterly) and the hedges contracted on September 30, 2009 showed to be effective in relation to the debts subject matter of such coverage. As long as these derivative contracts are identified as hedge accounting according to CPC 14, the covered debt is also adjusted to the fair value in conformity with the fair value hedge rules.

The CVM, by Resolution no. 550, issued on October 17, 2008, and by Instruction no. 475, issued on December 17, 2008, provided for that publicly-held companies are required to disclose, in a specific explanatory note, qualitative and quantitative information about all their derivative financial instruments, either recognized or not as assets or liabilities in their balance sheet.

d) Risk Management Policy

All contracting of derivative financial instruments for the Company and of Vivo is intended for protection against foreign exchange risk and variations in foreign and local interest rates arisen out of financial debts, pursuant to a corporate policy of risk management. Accordingly, eventual variations in the risk factors generate an inverse effect on the subject matter they are intended to protect. Therefore, there are no derivative financial instruments for speculation purposes and 100.0% of the financial exchange liabilities are hedged.

The Company and Vivo keep internal controls in relation to their derivative instruments which, in the opinion of the Management are adequate for controlling risks associated to each strategy of market action. The results obtained by the Company and by Vivo in relation to their derivative financial instruments show that the Management has properly managed risks.

Fair values of the derivative financial instruments

The valuation method used for calculating the market value of the loans, financing, debentures and derivatives was the discounted cash flow, considering expectancy of settlement or receipt of liabilities and assets at the market rates as of September 30, 2009.

The fair values are calculated by projecting the future flows of the transactions, using the BOVESPA curves and bringing them to present value using market DI rates for swaps disclosed by the BOVESPA.

The market values of the exchange coupon swaps x CDI were obtained using the market exchange rates in effect at September 30, 2009 and the rates projected by the market which were obtained from the currency coupon curves. For calculating the coupon of the positions indexed in foreign currency the linear convention of 360 calendar days was adopted and for calculating the coupon of the positions indexed to the CDI the exponential convention of 252 business days was adopted.

The financial instruments disclosed below are recorded with the CETIP, all of them being classified as swaps, not requiring a margin deposit.

(1) Foreign currency swaps x CDI (R\$982,237) – swap transactions contracted with maturity date until 2015, for protection against exchange variation risk in financing transactions of this kind (book value of R\$984,071).

(2) Swap CDI X Pre (R\$421,673) – swap transactions contracted with maturity date in January 2010, for partially protecting against local interest rate fluctuations in relation to debts and derivatives exposed in CDI (book value of R\$1,775,676). For the other exposures to CDI (swap liabilities), the Company and Vivo have short term financial investments based on the variation of the CDI (R\$925,026 at September 30, 2009) as “natural hedge”. The book values of these financial investments are close to market values, because they are redeemed at short term.

(3) Swap IGPM x CDI percentage (R\$173,621) – swap transactions contracted with maturity date until 2010 with the purpose of protecting the flow identical to the debts at IGPM (R\$173,621).

At September 30, 2009, assets in the amount of R\$167,563 (R\$210,922 at June 30, 2009) and liabilities in the amount of R\$153,232 (R\$188,534 at June 30, 2009) were recorded by the Company and by Vivo for recognition of the net derivatives positions as of that date.

Gains and losses in the nine-month period ended on September 30, 2009, grouped by contracts executed, were recorded in the income accounts (note 24), as required in CVM Resolution 550/08.

Analysis of sensibility to the risk variables of the Company and of Vivo

The CVM Instruction provides for that publicly-held companies, in addition to the provisions in item 59 of CPC 14 – Financial Instruments: Recognition, Measurement and Evidencing, are required to disclose a statement of sensibility analysis, for each type of market risk deemed by the management to be material, originated by financial instruments, to which the entity is exposed at the closing date of each period, including all the transactions with derivative financial instruments.

In compliance with the provisions above, each of the transactions with derivatives was evaluated considering a probable realization scenario and two scenarios which may generate adverse results to the Company and to Vivo.

In the probable scenario, the premise of realizing, on the maturity dates of each of the transactions, what the market has been signaling in the future market curves (currency and interest) of the BOVESPA, was considered. Thus, in the probable scenario, there is no impact on the fair value of the financial instruments already presented above. For the adverse scenarios, deterioration of 25% and 50%, respectively, was considered in the risk variables until the maturity date of the financial instruments.

As the Company Vivo only have derivative instruments for hedging of their financial debt, changes in the scenarios are accompanied by the respective hedge objects, thus showing that the effects thereof are almost null. For these transactions, the Company has stated the balance of the subject matter (debt) and of the derivative financial instrument (hedge) in separate lines of the sensibility analysis table, in order to inform on the net exposure of the Company, in each of the three mentioned scenarios, as shown below:

Net Exposure

Operation	Risk	Provable	Deterioration 25%	Deterioration 50%
Hedge (Asset position)	Derivatives (Risk reduction USD)	759,247	989,206	1,238,284

	Net exposure	(1,099,676)	(1,171,218)	(1,241,812)
	Net exposure to each scenario	(1,101,798)	(1,173,838)	(1,244,940)
	Net effect to the variation of fair value current		(72,040)	(143,142)

Premises for the Sensibility Analysis

<u>Risk variable</u>	Provable	Deterioration 25%	Deterioration 50%
USD	1,778	2,223	2,667
JPY	0,020	0,025	0.030
IGP-M	-0.40%	-0.30%	-0.15%

CDI	8.59%	10.74%	12.89%
-----	-------	--------	--------

The net exposure in CDI shown in the sensibility analysis does not reflect all the exposure of the Company and of Vivo to the local interest rate, once the Company has debts indexed to the CDI, and has short term financial investments based on the variation of the CDI (R\$925,026 at September 30, 2009) as “natural hedge”.

For calculation of the net exposure, all the derivatives were considered at their fair value, as well as the associated debts (hedged elements).

The fair values, shown in the table above, depart from a portfolio position at September 30, 2009, however they do not reflect an estimate of realization due to the market dynamism, constantly monitored by the Company and by Vivo. The use of different premises may significantly affect the estimates.

27. POST-EMPLOYMENT BENEFIT PLANS

Vivo, together with other companies belonging to the former Telebrás System, sponsor private pension plans and medical assistance plans for retired employees under the same conditions of the publication for the last fiscal year, as follows: i) PBS-A; ii) PAMA; iii) PBS- Telesp Celular, PBS-TCO, PBS Tele Sudeste Celular and PBS Tele Leste Celular; iv) TCP Prev and TCO Prev Plans; v) Visão Celular Benefit Plans - Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular.

As disclosed in the publication for the last fiscal year, the management and equity of the above referred plans (except for the PBS-A and PAMA, which are still managed by Fundação Sistel de Seguridade Social – SISTEL) was transferred to Visão Prev Sociedade de Previdência Complementar (“Visão Prev”).

On August 21, 2007, the regulation of Vivo-Prev plan was approved, an individual plan of defined contribution, which has already been managed by Visão Prev. The contributions of Vivo to this plan are equal to the ones from the participants, varying from 0% to 8% of the participation wage, as a function of the percentage chosen by the participant, with migration of the former plans to Vivo Prev, at free option of the participants. The adhesion to the new plan has been massive.

Vivo, through its actuarial consultants, has prepared studies considering the impact of ordinary action no. 04/081.668-0, brought by ASTEL against Fundação Sistel de Seguridade Social, in which Telefonica and Telesp Celular (company that was merged into Vivo) are mentioned, in addition to SISTEL, which action is related to the change in the costing system and review of other PAMA benefits. Based on the opinion of its tax consultants, the Management believes that at this time there is no payment risk, and at September 30, 2009 the chance of loss was classified as possible. At September 30, 2009 the amount in question was R\$1,775 (R\$1,675 at June 30, 2009).

Telemig Celular individually sponsors a defined retirement benefits plan - Plano PBS Telemig Celular. Besides the benefit of supplementation, medical assistance (PAMA) is provided to retired employees and to their dependents, at shared cost.

Telemig Celular also sponsors the CelPrev, a defined contribution plan, under the same conditions as published in the last fiscal year.

Actuarial provisions relating to the plans mentioned above are recorded in "Other liabilities" (Note 17).

28. TRANSACTIONS WITH RELATED PARTIES

The main transactions with unconsolidated related parties are:

a) Communication via local cellular phone and long distance and use of network: these transactions are carried out with companies of the same controlling group: Telecomunicações de São Paulo S.A. - TELESP and subsidiaries. Part of these transactions was carried out in conformity with agreements entered into between TELEBRAS and the concessionaires prior to the privatization, under conditions regulated by ANATEL. It includes roaming services to customers of Telecomunicações Móveis Nacionais – TMN and several companies related to the Telefónica Group in the Company's network.

b) Technical Assistance: this refers to business consultant services provided by PT SGPS and technical assistance by Telefonica S.A., Telefonica International S.A., calculated on the basis of a formula provided for in the contracts that includes the variation in LAIR (Profit Before the Income Tax) and the variation in PN and ON shares which determine a coefficient that is applied to the service revenues. In the case of the operation of the branch office in Rio Grande do Sul, its contract provides for only a fixed percentage on the service revenue. The above referred contracts were terminated on August 04, 2008.

c) Rendering of corporate services: these were transferred to the subsidiaries at the cost actually incurred in these services.

Telephone assistance services: services provided by Atento Brasil S.A. and Mobitel S.A. – Dedic to users of telecommunication services. The service was contracted for 12 months, renewable for an equal period.

e) System development and maintenance services: rendered by Portugal Telecom Inovação Brasil S.A. and Telefonica Pesquisa e Desenvolvimento do Brasil Ltda.

f) Logistics operator and financial and accounting consultancy services: rendered by Telefonica Serviços Empresariais do Brasil Ltda.

g) Voice portal content provider services: rendered by Terra Networks Brasil S/A.

h) International roaming services: provided by Telefonica Móviles España S.A and Telecomunicações Móveis Nacionais – TMN.

For the transactions above, the prices charged and other commercial conditions are agreed to in contracts and do not materially differ from the prices charges and commercial conditions applied to third parties.

We summarize below balances and transactions with non-consolidated related parties:
